Cathedral Organist Resigns—Cures Among Indians Reported

Fredericton, N. B., Sept. 5.—(Special)—S. Farrar, for several years organist at Christ Church Cathedral, has resigned and will leave for New York to accept a position.

Prof. F. P. Day, who has resigned the chair of English at the U. N. B., will leave for Pittsburgh, Pa., to accept a professorship in an educational institution there.

The Fredericton baseball team, winners of the pennant, arrived from Houlton at noon. They were met at the depot by a brass band and the officers of the league and escorted to the hotel.

The final game with Houlton is to be played here this afternoon.

JOHN GOULD'S DEATH

Moncton Man Tells of His Trip Here With Him to See Exhibition

Moncton, N. B., Sept. 5.—Marshall Doucet, of Moncton, who accompanied John Gould to the St. John exhibition yesterday, is of opinion that Gould took the wrong train in starting from St. John for home, and discovering his mistake, jumped from the train as it was going through the L. C. R. yard.

"John Gould and I were here yesterday morning. We went to St. John and visited the exhibition and remained till 9:30, when we met some friends from Moncton, James Casey, George Casey and D. Leaman.

Gould was anxious to leave me and go with the others. These had evidently been drinking some. I tried to persuade Gould to stay with me. Neither Gould nor myself had been drinking any to speak of, perhaps a glass or two of beer, Gould boasted, but finally decided to go with them. This is the last I saw of him.

"I did not know he was killed till I heard of it in Moncton this morning. I left by the 12:10 train and came home."

Gould resided with the mother, Mrs. James Gould, of Moncton. He is survived by two sisters and four brothers.

Gould and some friends were seen in the depot about 10:15 last evening by officers there. He strayed away from his company, it is said, and at train time he could not be found, so they left for Moncton without him. Later he was found dead, having become unconscious at the depot area of the opinion that he never boarded a train at all, but strayed into the yard, not knowing the danger.

STEAL AS WOMAN LIES NEAR, DYING

Kingston, Ont., Sept. 5.—A case of sneaking while a woman lay dying is reported here. While Mrs. Mary Dillcock, a cripple, was passing away, attended by her sister, she was seen to get up, and strip the trees of all their plumage.

The other sister could not leave the bedside and saw the man in the yard who was carrying the fruit. It was reported that after getting all he could he fled. When the man is seen to be carrying today the neighbors were incensed over the affair and are hunting for the culprit.

ST. JOHN, N. B., SEPTEMBER 5, 1912. The St. John Evening Times is printed at 17 and 19 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co., Ltd., company incorporated in the Dominion of New Brunswick.

TO TEACH US HUMILITY Out of Persia has come a philosopher who dares to tell the Christian world that it has something yet to learn in common with that other world of the Orient. Abdul Baha, who has come to America as the leader of a peace movement, seeking "that peace and concord may be unveiled between the children of men," entertains very broad views of religion. He sees much that is good in all the great religions, and would have them working in harmony. He would wipe out race distinctions, declaring that "before God there is no German, or English, or French, or Turkish, or Persian," and he would establish a universal language.

and investigation in and by her schools; Kansas is not sending her sons to the city to add to the mouths to be fed there and to compete in the congested labor market. The experience of Kansas should encourage the advocates of agricultural education and domestic science in other places. In New Brunswick we are getting an experimental farm, a demonstration farm, illustration farms, and ready-made farms. But the public schools pay very little attention to agriculture and domestic economy. Is it not time for a forward movement in this direction also? Mr. Borden will not discuss the navy at the Ottawa banquet. Where is that German peril? It is believed the Canadian government will accept of the proposed C. F. R. stock issue, as a partial recognition of favor at election time. Sir George Askwith has come from England to study labor conditions and labor legislation in Canada. He comes at a time when this country is enjoying in very large measure industrial peace. Doubts are again expressed concerning the feasibility of the Hudson Bay route. The government will doubtless seek more information as a result of recent reports about the difficulties presented by ice in the bay. Mr. James Straton was one of the prophets of the new and greater St. John, who have proved their faith by their works. His death, while he was yet hardly beyond life's prime, is regretted by personal friends in many parts of Canada. If it be true that a portion of the city water supply was turned off without warning, and citizens "sassed" when they demanded an explanation, it may perhaps be observed in justification, that a dry spell is often accompanied by more or less heat.

SIR WILFRID'S POSITION Some recent remarks made by Sir Wilfrid Laurier are being distorted by the Conservatives for their own purposes. A recent luncheon given to a party of British visitors in Ottawa, he is represented to have made a statement which indicated that he was indifferent to matters affecting Imperial defence, with special reference to the navy. The Ottawa Free Press gave the following explanation: "He did not express any opinion except that the problems that the Dominions were trying to solve were different from the problems with which they were wrestling in the old country. He pointed out that for obvious reasons we in Canada thought less of war and armaments and more of railways and industrial development than was the case in the United States. He expressed his disagreement on these things." Incidentally, in alluding to a previous speaker's remarks about the German peril, he said that Canadians might always be depended upon to do their duty by the Empire. He began the reference this way: "If Britain should ever be in danger and then corrected himself: 'I should not use that word,' he said, 'because I do not believe Britain is in danger or ever can be in danger. I will say should Britain ever be in trial.' The remarks have been deliberately misinterpreted by the Canadian Conservative press, and some English newspapers, doubtless upon inadequate cable reports, have followed suit. The Free Press might have gone further and pointed out that it was Sir Wilfrid who declared that "when England is at war Canada is at war," and that if his government's policy had been carried out Canada would now be spending money on a substantial contribution to the naval defence of the Empire; but Mr. Borden, who in 1900 heartily endorsed Sir Wilfrid's views, has since abandoned Sir Wilfrid's policy. Of Sir Wilfrid's remarks at the luncheon the Free Press further says: "They say that Sir Wilfrid would not believe there is any German peril and that he is hostile to the British naval policy." Neither of these things could be fairly taken from his remarks by anybody who heard them. It was but a nice little touch of British pride that made him object to the word 'danger.' He believes that the British nation will always be too powerful to be in 'danger,' although it may have to defend its title of supremacy. And Sir Wilfrid, while depreciating the 'mad race of armaments,' would be one of the first to condemn any slackness on Britain's part that might result in her superiority passing away."

SCHOOLS AND FARMING Some interesting facts concerning the changed attitude toward agricultural teaching in the public schools are given in a recent statement from Hon. J. H. Miller, director of college extension of Kansas State Agricultural College. He says: "Six years ago not a rural school in Kansas was teaching agriculture, while now about seven thousand of its eight thousand rural schools are teaching its elements. At that time only one high school was teaching agriculture, while now at least four hundred of the five hundred village, town, county and city high schools are offering such instruction. Whereas then only two high schools were teaching home economics, now 200 of them are offering regular classes in cooking and sewing, and in nearly one hundred others there are home economic clubs using regular lessons sent out by the State College. In Kansas the dignity of life on the farm is being realized as the result of the study

Record Wednesday Crowd There and Total Figures Are Far Ahead of Dominion Fair

The fine weather of yesterday added to the general attractiveness of the Greater St. John Exhibition of 1912, and helped to swell the crowds of people attending the fair, so that a record number for a Wednesday's attendance was recorded, close to 18,000 people passing through the turnstiles. The total attendance to date shows a gain of 14,000 over the figures for the Dominion Exhibition. Yesterday there were 17,875 people present. The 62nd Fusiliers band will furnish music tonight.

There was a dull moment on the grounds yesterday. The programme was successfully carried out and greatly enjoyed. In addition to the daily features, there was an interesting series of athletic sports.

The flight of Cecil Peoli, in Captain Baldwin's biplane, starting at 1:25 o'clock, was one of the most successful made thus far. After a run of about 100 yards along the sands of Courtenay Bay the machine glided gracefully upwards and reached an altitude of about 2,000 feet.

The ascension of Professor Bonnette in his balloon yesterday afternoon was most sensational. There was a strong breeze and the ascent was deferred until nearly six o'clock. Bonnette was carried to a height of about 1,000 feet where, working his parachute perfectly, he dropped straight downward and plunged into the waters of Courtenay Bay, swimming about twenty-five feet, when he was taken aboard a motor-boat awaiting for him. In his flight tomorrow, Bonnette will be accompanied by his brother Louis, and they will make a double descent with two parachutes.

Large numbers of country people were in the dairy hall yesterday attending the demonstration and watching the various competitions. L. C. Digby, provincial commissioner, and W. W. Huggins, judge of the butter-making competition.

The dinner given by the exhibition management last evening in the hall was a stock and agricultural exhibition proved highly successful. W. F. Burditt presided and addressed the gathering. Mr. Burditt, E. A. Schofield and Manager Porter. Hon. D. V. Landry, commissioner of agriculture, and Hon. J. H. Huggins, commissioner, on behalf of their department, and by Messrs. Black, Corning, Lee and other exhibitors. The live stock and agricultural exhibition proved highly successful. W. F. Burditt presided and addressed the gathering. Mr. Burditt, E. A. **A SUCCESSFUL HORSE AND CATTLE FEED.**

To get an attraction away from the commonplace was the aim of the L. C. Prime Co., agents and distributors of Molassine Meal and their efforts resulted in securing an attention getter which has proved the most successful yet in operation. A large captive balloon floating high in the air is the method adopted by this progressive firm, and this huge air craft bearing in large letters the words Molassine Meal has brought more commendation than any one scheme at the big show. The Prime company have a tent on the grounds that is well supplied with the meal, and they have been kept busy meeting inquiries of the meal and explaining the merits of the feed to those who have not yet tried it for their horses or cattle. It is doubtful if any one product has ever met with as spontaneous success as has Molassine Meal. From the Atlantic to the Pacific the meal is now in use by hostlers, dairymen and farmers and the demand is getting to be far in advance of the supply. Molassine Meal is a feed for horses, cows, sheep, beef-cattle and milk cows; and although the meal may be safely used as a feed for poultry, yet a special line for poultry is now in process of manufacture and will be on the market very soon.

As an item of news of timely interest it may be stated that practically all the prize horses and cattle at the exhibition are fed on Molassine Meal. One man who owns winners of the grounds and exhibition is high in his praise of the feed, and is using the meal daily. Many sales have been made on the grounds to exhibitors who have run short of their supply of the meal.

Either Mr. Knight or Mr. Mercereau are on the grounds at the tent each day and those interested in anything that would have a tendency to promote the welfare of their animals should make it a point to call at the tent and make themselves known.

**KNOX AND WOODLEY'S FINE EXHIBIT.**

One of the most prominent booths in the exhibition building is that of Knox & Woodley, electricians of Dock street. This firm have bought out the Auer Light Company which has been associated with the lighting business in St. John for over twenty years. The business has for the last two years been under the management of Mr. Woodley, and during that time the firm have carried out many important lighting contracts both in the city and outside through the provinces. The entire lighting installation at the exhibition was carried out by this firm, and it is universally acknowledged that the new lighting scheme is a great improvement, as in addition to the increase in light and the better color and distribution, the decorative effect is most pleasing. The work has been carried out in a permanent manner and it is unlikely that the association will be put to any considerable expense in future exhibitions for lighting purposes.

The booth is tastefully decorated and shows some very fine examples of the new shower and chain fixtures designed by the firm.

Downstairs in the machinery hall is an exhibit of a residence lighting plant in full operation, consisting of a Stanley 10 h. p. heavy duty engine and generator, lighting a string of 100 watt tungsten lamps.

In addition they have a display of electric novelties, flashlight, medical coils, irons, toasters and other electric goods.

The new wire drawn tungsten lamp handled exclusively by this firm has a longer life and is far more durable than the average lamp. Over 3,000 were supplied to the exhibition, and in spite of the rough handling they received, the percentage of breakage was very small, being about 2 p.c. only. The cost too is a little less than other standard lamps.

**PUT A STOP TO IT.**

A good story is told of a certain gallant colonel. The inspection of a crack rifle corps which he commanded passed off satisfactorily; there were no complaints, and the regiment was evidently in good order. "But," said the inspecting general, "I am bound to tell you, Colonel B., that rumors have reached me of gambling being carried on extensively among your officers." "That may have been the case, sir," said the colonel, "some months ago, but I can assure you that nothing of the kind is in vogue now, because I've won all the ready money in the regiment, and I would not allow any gambling at credit."

**JOHN AND JEANNIE.**

John and Jeannie went for a walk one evening. After walking for some time in silence John ventured to remark: "Jeannie, your neck is like a swan's and my eyes are like diamonds." Jeannie, my eyes are like diamonds, but how do you like that so, John?" (Pause.) John: "Jeannie, your neck is like a swan's." Jeannie: "Is that so, John?" (Another pause.) John: "Jeannie, your teeth are like the stars." Jeannie, "How do you make that out, John? I can quite understand my neck being like a swan's and my eyes like diamonds, but how do you like that so, John?" (Pause.) John: "Jeannie, your neck is like a swan's." Jeannie: "Is that so, John?" (Another pause.) John: "Jeannie, your teeth are like the stars." Jeannie: "How do you make that out, John? JAMES STRATON IS DEAD

Business interests in St. John, sustained a severe loss yesterday, in the death of James Stratton. He was one of the first, looking upon St. John from the outside, to read the signs of the coming forward movement, and came back from the west about a year ago to make his home once more in this city. The western company of which he was president, has large interests in St. John. Mr. Stratton had wide circle of friends throughout Canada, and to all of them the news of his death will come as a great shock, for he was not an old man.

Returning about three weeks ago from a tour to Montreal, Mr. Stratton was in health, but had only been confined to his bed for some three days before his removal to the General Hospital, under an operation for peritonitis. The operation was performed last Friday, but he did not rally, and yesterday he died.

James Stratton was born in Edinburgh, Feb. 1, 1854, and was educated at the Royal High School and Edinburgh University. He studied law with the late James Finlay, W. S., Edinburgh, and came to St. John in 1882. Here he took up the study of law with the late S. R. Thomson, Q. C., and was admitted an attorney in 1885. He was in partnership for some years with the late Geo. G. Gilbert, C. and later with the Hon. J. P. Hazen, K. C.

Some fifteen years ago Mr. Stratton took up his residence in Ottawa, and was admitted to the Ontario bar. He lived there some seven years. He was a lawyer of much ability, and a clever pleader, appearing many times before the Supreme Court of Canada.

About eight years ago Mr. Stratton moved to Saskatoon, which was then in its infancy. He made the first map of that town, and during its period of rapid growth, until about a year ago, was one of the leading business men. Then he came back to St. John, having foreseen its era of growth which is now so much in evidence. He had returned to make his home before settling down. On one occasion, when he told some friends the city was the best of the west, and that he was disposed to leave it, a year later he came back and was more emphatic, but still saying he was still among the things of St. John. He had not long after his company was making investments here, and he was here to make his home.

He was the leading spirit in the organization of the John Real Estate Association, joined the board of trade, and interested himself actively in promoting the city to advance the city's business interests.

The funeral will take place from his late home, 22 Mecklenburg street, on Friday afternoon, with service in Trinity church at half past two o'clock.

A SURPRISING CHANGE IN THE SHOE INDUSTRY

Many Wonderful Machines Have Been Devised, Some of Them as Intricate as a Watch

An Intensely Interesting Description of What Has Been Accomplished by the Introduction of Improved Methods

Higher Quality of Shoes Turned Out from Well Organized Factories—Everything Done Quickly, Strongly and Neatly by Machines Almost Human.

The interest which has been shown in the shoe-making exhibit in the machinery section at the exhibition at St. John is so great that it is not surprising that the public regarding the methods used in making the various necessities and luxuries which are a part of our every day life.

In this connection, J. M. Humphrey & Co. are issuing a little booklet which not only outlines in an interesting way the development of the shoe industry but describes in a very comprehensive manner the methods employed in shoe making.

The "Mysterious" or "Gentle" art of making shoes, as the members of the Guild of Europe were pleased to allude to their vocation, has undergone a mighty revolution in the past few years.

With the great revolutions wrought by the introduction of improved machinery, the shoe industry has been changed.

It is through the co-operation of the United Shoe Machinery Company of Canada, that we have been enabled to produce not only a constantly increasing number of shoes but a higher quality in workmanship and material.

AMUSEMENTS IN ST. JOHN: WHAT THE PLAYHOUSES OFFER THE HOLY CITY.
Eclair Picture Company Produces American Passion Play of Great Pictorial Beauty at the Unique.

A rolling, tumbling, angry sea, blackness on water and sky, a raging storm that you can almost feel. Greatly, almost superlatively, just above the line where ocean and sky meet, a trace of cloud comes into view. Around about it the light is gaining. The beholder suddenly realizes that what he supposed were clouds are not. Instead there are the faint outlines of a great city on a hill. Then there bursts upon the vision the full splendor of the magically created city, "The Holy City."

THE PUBLIC is cordially invited to attend the display of Electrical Heating Devices and Gas Ranges at the St. John Street Railway Show Rooms at the Corner of Union and Dock Streets.

**DKEMAN'S About Ladies' Coats**

Well, they are going like hot cakes and the reason is plain to be seen. We believe we have the biggest and best stock in the city and at the most attractive prices. Our last shipment came in yesterday.

Many of the Coats are made from a material called Bourcotte. The word comes from pouter, to stuff. It is a material similar to the old fashioned Napp Cloth only it is made up from softer wools and lighter in weight. We have a large lot of these Coats at prices ranging from \$15.00 to \$24.00.

Sponge Cloth is another material that is very popular for coats. These are shown in a large variety at prices ranging from \$10.00 to \$25.00.

An immense lot of Children's Coats at prices from \$2.20 to \$12.50.

Ladies' Raincoats. A big lot of Black Paramatta Coats, rubber surface, which are so much in demand at the present time, are on sale at \$4.50 and \$4.75.

Cashmere finished rubberized Coats, at from \$6.75 to \$10.

**ANOTHER MAN**  
The Times is asked to state that Wm. Saunders, fined for drunkenness and profanity yesterday, was not Wm. Saunders, of Metcalf street.

**TODAY'S GAME**  
The Marathons and the Woodstock Colts will play another game on the Marathons grounds this afternoon, beginning at 3:15 o'clock. O'Connor will do the pitching for the locals. A good watered expected.

**CHIEF ORDERS THEM OUT**  
An alarm from box 48 was run in at one o'clock today for an overturned oil stove at the exhibition. The stove was being used by employees of R. A. Snowball, an exhibitor, in preparing their dinner. It was extinguished by W. T. Porter and others. Chief Kerr issued instructions to have all oil stoves removed from the cattle sheds.

**CASE UP TOMORROW**  
William Vaughan, proprietor of a boarding house in Charles street, tried at the police station this morning and laid information against George Blaney, one of the boarders. The case will come up for hearing in the police court tomorrow morning. According to reports in the morning paper, Vaughan was robbed of a considerable amount of money.

**PORK CHEAPER**  
The receipt of more plentiful supplies of pork from the upper river, and the fact that today forced the price downward. Pork has been bringing high prices for some months, and the scarcity has affected other pork products making higher prices for lard, sausage, etc., but with a drop of two cents today and the prospects for better supplies fairly bright, there should be a difference in price. Pork lowered from eleven to nine cents today.

**AWAY TOMORROW**  
The members of the 8th Field Ambulance Corps will leave tomorrow morning for Aldershot for their annual training. They are requested to meet at their armory at 6:45 tomorrow morning. The company will be in charge of Major Walker and will be about fifty or sixty strong. This is the first time that the company has had to go to the Nova Scotia camp for their training. In former years they have done their camping at Sussex.

**MAY BUILD BALCONIES**  
At a meeting of the commissioners of the General Public Hospital yesterday afternoon the matter of providing balconies outside the building was under discussion, but no definite action was taken. The idea would be to add a row or two of balconies for the benefit of convalescent patients, and while they would aid in this respect, it is felt that they would also be helpful in case of fire. The matter will probably be given further consideration at the next meeting.

**DEATH IN CARLETON**  
In the death of Joseph Oliver Craft, Carleton loses one of her oldest citizens. He had lived in Carleton all his life. Mr. Craft was well known and very much respected by the citizens of the West Side. He was prominent in Oddfellows circles, being a charter member of the Gold on Rate Lodge. His death will be regretted by a large number of friends. He is survived by his wife, formerly Miss Lyon, of Kingston, N. B., two daughters, Mrs. W. J. Smith, and Mrs. W. E. Brittain, both of St. John, and one son, Fenwick C., of White's Cove, Kings county.

**SPRAGUE AND WYLIE ARE IN THE FINALS**

There Should be Great Championship Match Tomorrow

In the semi-finals in the men's maritime championships, played on the local links today, C. M. Sprague, of St. John, defeated E. N. Stinson, of St. John, 3 up. H. M. Wylie, of Halifax, won from W. A. Henry, of Halifax, 5 up. Sprague and Wylie will appear in the final tomorrow, playing eighteen holes in the morning and eighteen in the afternoon. Wylie, this morning, made the first of some prominent two, which is but one poorer than the record for the links. Sprague, in the second round, made eight holes in twenty-eight. It will be seen that both are in great condition for the play off tomorrow.

**MATTER OF I. C. R. CROSSING TAKEN UP BY CITY BOARD**

At the meeting of the board of public works at noon today, the matter of enforcing the request of the city upon the I. C. R. for better protection at crossings was taken up. It was felt that the railway had been lax in this regard, and the crossing at Gilbert's Lane was a notable instance. The city had some time ago asked for more ample protection. There was need of a night watchman at this crossing or at least of some prominent sign of warning. The recent accident at this crossing had served to bring the matter more forcibly to the attention of those interested, and it was felt to be time that something further should be done.

Another matter was the question of sidewalks along the bridges at Stanley and Wall streets. Some time ago the I. C. R. had promised to go ahead with the laying of new sidewalks or at least renovating the old, but no move had been made in this direction.

**WATER PIPE BREAK REPAIRED TODAY**

The water supply in almost all parts of the city last evening for about two hours was greatly affected by a bad break in the pipe near the Boys' Industrial Home, in a 24-inch main. The break was difficult to remedy at short notice, but the water was troubleed into another piping and a crew of men put to work to repair the break. This morning the service about the city was pretty well restored, and about one o'clock the break was repaired completely. It had occurred in a place where it was hard to see that there was a possibility of its happening, and coming at short notice and late at night the officials say there was absolutely no opportunity to give warning that the water would be turned off.

**GEORGE POND HEARD FROM**

Man Supposed to Have Been Killed at Gilbert's Crossing

IS IN YORK COUNTY

Sends Telephone Message Home on Reading Papers — Body Here Now Identified as That of Elroi Larette

A Sackville special says:—"George Pond, supposed to have been killed by a train at St. John on Saturday night is alive and well. He telephoned here this morning to T. R. Ehrhart from Durham Bridge, York county. He had just seen newspaper containing the account of the St. John tragedy. He will be home in a few days and will have the unique experience of seeing the grave that was dug for reception of his body."

It is said that Mr. Pond also telephoned to the St. John police. In the Times a few days ago, it was said that strange features were developing in connection with the fatality of a few days ago at Gilbert's Lane crossing. The first strange news arrived two days after the accident, after the body was positively identified as that of George Pond, of Sackville. The feature was that two coats were seen, who were accompanying him, was also missing. The second development arose yesterday, when George Chamberlain received word that the body did not correspond with a description of George Pond, and there was a possibility that he was not the man killed at all. Both these features were noted in the Times, and further developments have been reported in the paper.

It is now thought that the man killed was Elroi Larette, of Middle Sackville. Larette came to St. John on Friday to attend the exhibition, and has not been heard from at home since. The clothing worn by the man who met death corresponds with that worn by Larette, and just before leaving home the latter purchased a pair of Hart's shoes and it is understood the man killed wore similar footwear.

Eye-glasses and a case were found on the body bearing the name Duchman, optician, of Sackville. The latter has a record of selling glasses to Larette but none to Pond. Larette was a harness maker. Friends are coming here to identify him.

LATER Blair Leger, at Times Corner today identified the body as that of Larette. They will take it home this evening.

**ENOUGH LAND NOW FOR EXPERIMENTAL FARM**

Federal Government Said to Have Secured the Adams Farm and Waterhouse Property Near Fredericton

It is stated on good authority that the federal government has secured enough property for the experimental farm near Fredericton. The Jewett property had been secured, at about the time that Bell Guntter, but there was a hitch regarding the Boyce property, on the Fredericton side. It is now stated that the Adams farm on the other side, farthest from the city has been secured, as well as the Waterhouse property, the water front of the Gunter place. This gives an ample area, having the C. P. R. in rear, the main highway through the property, and the Valley Railway in front, along the shore of the river. The location is about two miles from Fredericton. Much of the land must be cleared up before it can be utilized, but the location is described as excellent.

**MAXWELL PROPERTY HAS CHANGED HANDS**

W. B. Tennant Buys Parcel at Corner of Charlotte and Harding Streets

Another important real estate deal was put through today when W. B. Tennant, of this city, became the purchaser of the Maxwell property at the corner of Charlotte and Harding streets. The property is a valuable one, a freestone, on which are located several brick buildings. It is understood that the price paid for the property is a large one. Mr. Tennant said this morning that he made the purchase for himself and not for outsiders.

**THE POLICE COURT**

Five prisoners, four charged with drunkenness, were arraigned in the police court this morning. Two women, old offenders, were remanded to jail.

William Peley, charged with lifting the gates at the I. C. R. depot and passing under, pleaded guilty, and was remanded. Two colored seamen, charged with drunkenness, were fined \$4 each.

William Peter, a Syrian, charged Arthur Abbott, a tenant in his house in Erin street, with breaking in a door in the house and also breaking a window. Abbott pleaded not guilty and the matter was allowed to stand over until Monday morning at half-past nine o'clock. Peter said that the damage done to his door amounted to \$10, but the defendant said that he could have the repairs completed for fifty cents. His Honor told Abbott to have the repairs made at once and bring the bill to court on Monday.

**GREAT GAIN CONTINUES**

The St. John bank clearings for the week ending today were \$1,610,944; corresponding week last year \$1,377,050.

**PAY DAY TODAY**  
At the city chamberlain's office today the following amounts were distributed in the fortnightly pay roll:—Terry, \$239; sundries, \$701.25; official, \$1,339.33; police, \$1,681.08; fire, \$1,219.16; market, \$118.13; a total of \$6,029.28.
