MONCTON TO CHOOSE MAYOR ON JAN. 29. Moncton, N. B., Jan. 8.—The civic elections for mayor and aldermen will be held here on January 29. Many rumors respecting aspirants for mayoralty and aldermanship are rife, but nothing to date of a definite nature is announced.

Public Mockery of Religion Marks The Moscow Christmas

Young Communists Substitute Grotesque Carnival for Devotional Observance

Representations of Deities of the Christian, Mohammedan, Jewish and Buddhist Faiths Tossed Into Flames—Orphan Children Paraded to See This in Place of Their Santa Claus Vigil.

Moscow, Jan. 8.—The Young Communists observing the Christmas of the Julian calendar yesterday, launched their widely heralded "attack upon Heaven" in a grotesque carnival procession that was a mockery of the world's great religions.

Thousands of Russian students did a gigantic snake dance around a great fire of the principal railway stations brought the day of revelry to a close. The climax of the celebration came, however, when the young people gleefully tossed into the flames straw and paper figures representing the deities of the Christian, Mohammedan, Jewish and Buddhist religions.

The Russian Christmas had been especially chosen by the Young Communists as the occasion for shattering by mockery the ancient "fable story" and the traditions which their organization hails as "religious myths," hence the procession that threaded the streets of Moscow today held few reminders of the old time Christmas celebrations of the Russian church.

Flaring stars of red, burlesques of the Star of Bethlehem, were born aloft at the head of the parade, followed by posters and banners upon which were daubed cartoons of deities and saints. No icons, no reminders of the church processions that in the past have marked the advent of the Christmas festival, were in evidence.

There were no disorders, neither was there an attempt to prevent regular Christmas services. But here and there a street brawler, evidently oblivious of the travesty, wandered through the crowd whispering, "Alms in the name of Christ on Christmas Day."

Amherst, N. S., Jan. 8.—The Amherst hockey team left at noon for Stellarton and New Glasgow to play tonight and tomorrow night respectively. The team will include Chapman, goal; Brownell and J. Chisholm, forwards; Jackson, Dickerson and Stillier, defense; W. Chisholm and Amos White, subs. The Ramblers return on Wednesday and meet the Stellarton team here on Friday night.

Chicago, Jan. 8.—Jake Schaefer, former world's champion 18.2 bulk line billiardist, and Roger Court, champion of France, will meet here tonight in the first 500 point block of a three night match for the title of "City of Chicago" champion.

Government Not Likely to Comply With Request, Says the Matin. Paris, Jan. 8.—An invitation to send Marshal Joffre as the head of a French mission to reorganize the Soviet Red army and the Russian military services has been addressed to the French government by the Soviet government, according to an announcement made by the Matin.

ARRESTED ON CHARGE OF DRUNKENNESS; IS FOUND DEAD IN CELL. Toronto, Jan. 8.—Taken into custody on Sunday on a charge of being drunk, John McKay, single, aged thirty-five, of Toronto, was found dead in his cell yesterday afternoon, strangled by one of the bed chains, which had looped around his neck.

SATURDAY NIGHT COLDEST OF SEASON IN OTTAWA. Ottawa, Jan. 8.—The coldest weather of the winter was experienced in Ottawa last night when the thermometer fell to the lowest temperature on Friday night, went down steadily until by Saturday midnight it had dropped thirty-seven degrees, registering seven below, the lowest so far this season.

SOON HAVE NETWORK OF HYDRO LINES IN PROVINCE. Fredericton, N. B., Jan. 8.—"A rapidly growing demand for large blocks of power for use in connection with the pulp and paper industry," is given as the reason why the Grand Falls on the St. John river, "may be taken over by the government" and developed by the New Brunswick Electric Power Commission "in the near future" in a letter which C. O. Foss, chief engineer of the commission, has written to Alderman Joseph A. Cain, president of the Fredericton Board of Trade.

This statement, the Gleaner says, fully confirms the report to the effect that an important change in the policy for hydro electric development in this province is under consideration and that the early development of the Grand Falls power is embraced in the new plan. "Following the development of this power (Grand Falls), a network of transmission lines will undoubtedly be constructed covering the whole province," also wrote Mr. Foss.

WEATHER REPORT. Issued by authority of the Observatory of the Department of Marine and Fisheries, J. P. Stupart, Director of meteorological service.

PROMISES AN EXPOSURE RE LIQUOR

A Georgian Representative Says He Will Deal With Official "Winking" at Drinking.

Washington, Jan. 8.—Revelations which will "satisfy the most notorious and fastidious dry" are promised by Representatives Upshaw, Democrat of Georgia, who recently charged in the House that public officials generally wink at the Volstead Act.

"I am ready for any eventually growing out of Mr. Hill's resolution and the widespread demand of the press and people that this matter stop with my speech," said Mr. Upshaw.

"The people—the plain people—have cumulative evidence that some of these conferring governors and many other high officials do not practice the prohibition enforcement which they preach to others."

Let these governors, led by the President and Vice-President of the United States and all the members of the cabinet, walk out in the open and lift their hands before high heaven and take a new oath of allegiance to the whole constitution and the American flag.

Mr. Mitchell has been in Ottawa in connection with a meeting at which was considered matter pertaining to Federal grants to fall exhibitions.

Beautiful and Restful

The designer of the Chesterfield Suite shown in the central window had a subtle command of his craft. In the broad lines he sought an effect of repose as well as capaciousness.

The construction is as thorough as the plan, in both material and workmanship. A suite that produces studied effects of beauty and comfort without seeming to. No more need be said of it except the moderateness of the price for the three pieces \$239

MAINE'S GOVERNOR SPEAKS

All over Canada and the United States today, because of conditions that exist in relation to prohibition, the spot-light is being turned upon people in high places who do not observe the law, and whose example is made the excuse for violation by the less intelligent portion of the population. Congressman Uphaw of Georgia has challenged members of Congress, Governors of States and other high officials to say openly, as becomes good citizens that they personally observe the law. Governor Baxter of Maine, in his inaugural address last week, pilloried the people of good standing who violate the law. He said: "My two years' service as Governor has brought me in contact with law-breakers of high and low degree, and with both the direct and indirect results of their crimes. At present those law-breakers who outwardly occupy positions of good standing are my chief concern, for they are undermining the moral standards of our communities. Low criminals who resort to violence, the burglar, thief and murderer, are outlawed on every hand. When their deeds are done they hide from their pursuers, and the problem they raise is not serious, for every man's hand is against them. The otherwise reputable citizen who purchases liquor from bootleggers and regales his intimates with tales of his prowess, is mean and cowardly, and were it not for him, and others like him, men of wealth and social position, rum-runners would soon go out of business. This man violates the law but takes no chances. When his house is entered by night, or his family assaulted, he cries aloud to the authorities for protection, forgetting that the law he convives to break is just as sacred as the law of persons or property. Such a man should be classed with other criminals who are enemies of society. The problem he raises is vital."

This is very plain talk, but Governor Baxter is able to appeal to an authority revered by every American when he preaches the gospel of respect for law. He quotes the ringing words of Lincoln, which are as applicable today as when they were spoken sixty years ago. Lincoln said: "Let every American, every lover of liberty, every well-wisher to his posterity, swear by the blood of the Revolution never to violate in the least particular the laws of the country and never to tolerate their violation by others. Let every man remember that to violate the law is to trample upon the blood of his fathers and to tear the character of his own and his children's liberty. Let reverence for the laws be taught in schools, in seminaries and in colleges. Let it be written in primers, spelling books and almanacs. Let it be preached from the pulpits, proclaimed in legislative halls and enforced in courts of justice. In short, let it become the political religion of the nation."

Governor Baxter does not share the views of those who say prohibition cannot be enforced. He declares that Maine, the pioneer prohibition state, can and should handle the enforcement work without asking federal aid. Some defects in the enforcement laws need to be removed, but—

"Our sheriffs, county attorneys, local judges and municipal police, if their hearts are in their work, can drive out or imprison the whole brood of liquor offenders, and all State, county and municipal officials should work together with this end in view. We all should preach the gospel of respect for law, for those who disrespect it are setting an evil example to the rising generation and are undermining this country's noblest institutions. If during my term as Chief Executive it is given me to witness a marked improvement in law observance among the more intelligent of our population, I shall be satisfied with the results of my labors."

The Governor of Maine recognizes that one of the difficulties of the situation is the proximity of two counties to Canada. It is for the people of New Brunswick and Quebec to ask themselves whether they are acting the part of friendly neighbors when they make it more difficult for Maine to enforce its laws. Perhaps also the words of Governor Baxter and Abraham Lincoln are not without a local application on this side of the border.

A NOTABLE EXPERIMENT.

A very interesting experiment with under-nourished school children is being made in New York, under the direction of Health Commissioner Copeland, who hopes it will be an object lesson to the parents of some 200,000 under-nourished children in that great city. Note these figures. Two hundred thousand under-nourished children in one city. Of this number only thirty-six are selected, from the open air classes, and for three weeks from last Thursday they will be given simple food in sufficient quantity, with mild exercises daily and regular hours of

sleep at night. Each day the weight, blood pressure, lung expansion and physical measurements of each child will be charted. Dr. Copeland is confident of such results as will more than justify the expense. No doubt the parents of many mal-nourished children would not be prevented by poverty from doing for them what Dr. Copeland is doing, their condition being due chiefly to ignorance or indifference; but there must be a vast number in that 200,000 to whose parents the getting of even the simple food prescribed, in sufficient quantity and regularly, is an impossible condition. It is vital, however, that such food as is given be nourishing, and the publication of the results of the New York experiment, along with the daily bill of fare, will prove of great value.

CAN GERMANY PAY?

The New York Tribune does not take a gloomy view of the breakdown of the Paris conference on the question of reparations. Perhaps, it argues, Germany is not in as bad a way as the British representatives believe; and in that case a turn of the screw by France would not produce the ill results Mr. Bonar Law fears would follow. The Tribune quotes the remarks of Premier Theunis of Belgium—"Perhaps Germany might be asked to make some effort," and remarks that Germany's efforts thus far have been to evade payment. It goes on—

"Will an economic occupation of the Ruhr as well as the Rhineland produce reparations payments? Whether it does or it does not, it is better to let France try her hand. If she is mistaken it will be easier for her to come around hereafter to Great Britain's view. French rights are clear. German bad faith is equally clear. Poincaré is entitled to his experiment, which may help to bring the Germans to their senses. 'Until now they have banked on an Allied deadlock to frustrate the treaty. The Ruhr is their jugular vein, Bonar Law said in the conference. But will not Germany do at last her sullen resistance and capitulation of indignance when she feels French fingers near her throat?"

The British view of course, is that Germany is really unable to make the payments demanded by France, and that to force her to do so now will make conditions more worse hereafter for all the countries concerned; but since Belgium and Italy apparently share the French view that the Germans are not playing fair, there is nothing for it but to give France a free hand under the treaty and await the result.

In an American city last week a woman was caught operating a still, but as she had nine children she was not arrested. The father of the children is in jail for having robbed a freight car. A fine parental example those nine children have. What kind of citizens may they be expected to become when they grow up? It is among people of this sort the largest families are generally found, and the fact is very disturbing to those who are interested in the moral fibre of the next generation. There is much criticism by superior persons of the so-called "uplifters," but society must really do something more than put delinquent parents in jail. The children grow up to be better or worse according to the environment.

Not to be outdone by any Montreal newspaper in politeness, the Toronto Telegram mildly observes:—"The choice of Montreal as a meeting place for American and Canadian bankers, who are to gather there on February 5, is altogether appropriate. As the scene of the collapse of the Merchants Bank, Montreal needs all the financial advice she can gather from the ends of the earth."

On days like yesterday the citizens realize what it would mean to have a good street-car service, which would not deposit passengers at a transfer point to sliver for ten minutes waiting for the next car. Will they ever get it?

FREIGHT TRAFFIC IS HEAVIEST IN HISTORY

Washington, Jan. 8.—More freight is moving over railroads at the present time than ever has been encountered at this season, according to reports of the car service of the American Railway Association.

For the week ended December 23, railroads accepted 834,931 cars loaded with revenue freight, which was 167,586 cars more than ever handled in the same period of any previous year.

For Handling Coal Stock.

(Scientific American.)
The loading and unloading of heavy coils of wire or rod-stock, never a simple proposition, is expeditiously effected by means of a novel conveyor developed by a Wickliffe, Ohio, concern for use with its electric tramway system. The coil conveyor is in the form of a steel hook about eight feet long. It will carry a ton of rod-stock at a time. In conjunction with electric hoists it makes the loading and unloading of this sort of metal cheap and easy.

THE CHIVALRY OF THE SEA

(By Robert Bridges)
Over the wandering waters, beneath the heart of Brittain's roaneth, the Chivalry of the sea,
Where Spring never bringeth a flower, nor bird singeth in a tree;
Far, afar, O beloved, beyond the sight of most eyes,
Over the warring waters, beneath the stormy skies.

Staunch and valiant-hearted, to whom our toll were play,
Ye men with armor'd patience the bulwarks might and day,
Or on your iron courses plow shuddering through the Bay,
Or 'neath the deluge drive the skin-milking sharks of war,
Ye merry boys who leap on the pinnacles and rowed from shore
A mother's tear in the eye, a swift farewell to say,
And a great glory at heart that none can take away.

(Canadian Press Despatch.)
London, Jan. 7.—At a conference of university labor members of Parliament at Liverpool representing all British universities except Edinburgh and St. Andrews a resolution was carried unanimously welcoming Arthur Henderson's minority report on the conferring of honors and supporting his recommendation that political honors should be abolished.

Arthur Greenwood, M. P. (Nelson and Colne), who moved the resolution, said the whole philosophy of the Labor party was against political honors, indeed against all distinctions of any kind. There had been attempts to destroy the Labor party by means of university graduates.

Trade unions, he said, ought to be as free to dispose of their funds as were employers' associations or any other voluntary body. The Labor party raised its money openly but now it was clear that other political parties rolled almost every year on the resources of revenue from honors sold by them when they were in power.

The proposals of the Royal Commission, which investigated the honors question, were quite inadequate to deal with the evil. They only threw a little carbolic acid on the system so it might smelt, sweeten in the future.

LABOR M. P.'S OF UNIVERSITIES ARE AGAINST HONORS

Greenwood Says Royal Commission Proposals on System Merely Threw Little Carbolic Acid on It to Sweeten It.

(Canadian Press Despatch.)
London, Jan. 7.—At a conference of university labor members of Parliament at Liverpool representing all British universities except Edinburgh and St. Andrews a resolution was carried unanimously welcoming Arthur Henderson's minority report on the conferring of honors and supporting his recommendation that political honors should be abolished.

COUCES DEES HE CURES DISEASE

Frenchman Arrives on Majestic—Wants to Avoid Sensationalism—Hopes Prisons Will Adopt His Theory.

New York, Jan. 8.—Emile Coues, a smiling, active little man with white hair and beard and sparkling blue eyes once an obscure provincial pharmacist who toyed with the mysteries of hypnosis in his tiny shop in Nancy, France, arrived in America on the Majestic, an internationally famous figure, the apostle of the doctrine of self-mastery through conscious auto-suggestion.

The little pharmacist whose formula, "Day by day, in every way, I am getting better and better," has been repeated by disciples all over the world, did not want any sensationalism to attach to his methods, and that he did not believe that he claimed to be able to effect cures of diseases.

Never Cured an Ailment.
"I have never cured anybody of any ailment in my life," he said, "and I have never made such a claim. If I can succeed here, as I have many times in the past, in helping others so to understand themselves and exercise their minds that they can improve their physical condition and achieve better health and happiness, then I shall have succeeded."

"It is so very easy to pass over the invisible line into sensationalism and to bring discredit to an otherwise sound and unassuming theory, that I would like to make a special appeal at the very beginning that my aims may not be misunderstood."

He declared that the purpose of his visit was to spread the knowledge and use of his doctrine in the United States. He hoped, he added, soon to establish an authorized clinic in New York.

Successful combating of defects of character and of vicious habits such as drunkenness, he said, was one of the primary utilities of his method.

"My fondest desire," he asserted, "is to cause the introduction of my program of auto-suggestion into the medical schools of the United States. I want to see it introduced in all 'maisons de correction' and prisons where I believe it will help greatly to cure criminal tendencies."

"Addiction to drink," he vehemently stated, "can surely be cured by my method but the drunkard must want to be cured first."

M. Coues greeted questions launched at him in rapid succession by several journalists with an eagerness to state his case. At times his enthusiasm soared so quickly that his scanty knowledge of English was outdistanced and he spoke in his native tongue.

But he was always genial and eager to explain himself.

Standing bareheaded, clutching a little cane in his left hand, and gestulating with less than Latin ease, he looked more like the provincial pharmacist than the world-famous doctor. "No, no," he cried, "do not call me a miracle man. I bring a humble message to teach and help mankind in a practical way."

"I am not the bearer of a new message, because, for many years I have been known as the subconsciousist. My method is an adjunct to and not substitute for existing methods. I bring no challenge to medicine or surgery as made no claims in contrastation to the basic ideas of religion."

M. Coues said that he probably would hold several clinics in the United States, but would only confine most of his work to lectures and collective sittings.

He made it clear that he did not accept any money for his work, asserting that everything received would be used for the Paris clinic and the proposed New York clinic.

regulated households and during performing dates are under the direct chaperonage of Mrs. Rossley, her eldest and several of the interested mothers. Their programme appearances have always been scheduled to allow them early release for home.

For 40 years the same quality and flavour has been a delight to me

In Century church last night the special soloists were F. A. Bell and Mrs. A. P. Crockett, of Fredericton. It was with special pleasure that the members of the congregation welcomed Mrs. Crockett and listened to her beautiful solo, "A Little Bit of Heaven," which was sung after the sermon. Mrs. Crockett was formerly a member of the choir and, happening to be in the city, she consented to sing for the pleasure of the congregation last night. Mr. Bell has a melodious and sympathetic tenor voice and his solo, "The Publican," was greatly appreciated. The service was conducted by the pastor, Rev. R. G. Fenton, and there was a large congregation. In the morning the annual covenantal and sacramental service was held.

Montreal Drug Case.
Montreal, Jan. 7.—Juliana Desroches, aged twenty-three, was found dead in her room at a lodging house in St. Denis street on Saturday, and Rose Durocher was arrested. It is thought that the dead woman succumbed to heroin poisoning.

Ell Reid, a trucker in the same shed, had his arm broken when a box fell on it on Saturday afternoon. The fracture was set at the emergency hospital and he was taken to his home. The break will be X-rayed.

Polish Wife of Chicago Man First 1923 Immigrant; Twelve-Month Separation Planned.
New York, Jan. 6.—Nine years is a long time to be separated from a husband, and even the compliment of being the first immigrant to enter the United States for 1923 hardly makes up for the loss. Mrs. Katarzyna Rym-Jan, of Poland, thought, Ellis Island officials thought so, too, as they changed the gate shut after her and quieted the 1,800 other immigrants waiting to follow her footsteps.

Since December she had been waiting for the portals of America to open for her; she had hoped to spend Christmas and New Year's with her husband in Chicago, but red tape caused by the loss in the mail of her affidavit held her up until yesterday.

Jan. her husband—being American—has now new spells his last name Roman—left her and her baby in Cracow in 1913, intending to send for her within the year.

The war came and prevented the reunion. The baby died of starvation and the wife nearly died, too; but the flame of love burned brightly through the long years.

"So now," she said, brushing back her whitening hair, "I am coming home to Jan. Just as I went to him in Poland so long ago, when he was the best-looking man in Cracow, and I was—well better looking than I am today. We will start life all over again as we were before."

Lynn-Stairs. On Christmas morning in Toronto, Miss Elva L. Stairs, a graduate of the General Public Hospital of this city, was united in marriage with John D. Lynn of Toronto. Mr. and Mrs. Lynn will reside in Bridgewater, N. S.

RECENT DEATHS

Mrs. Caroline Pollock. The death of Mrs. Caroline Pollock occurred at the St. John County Hospital on Jan. 6 in her fifty-fourth year. She is survived by two sons; James, of West St. John, and Ralph, of Woodstock; also two daughters, Mrs. Clarence Carr and Mrs. George Reed, both of West St. John. Other relatives who survive are her father, John Williams, of Madison, Me.; two brothers, James and Eben, of Randolph, and four sisters, Mrs. LeRoy Gilbert and Mrs. Malcolm Golding, of Madison, Me.; Mrs. John Anderson, of West St. John, and Mrs. William Stout, of Milford.

Mrs. Ellen M. Whiting. The death of Mrs. Ellen M. Whiting in her seventy-seventh year occurred suddenly at her home on Darling's Island on Jan. 6. She is survived by two sons, Charles W., and George H., as well as two brothers and one sister. Funeral service will be held at her late residence on Tuesday morning at 11:30 o'clock. Interment will take place at Westfield.

Mrs. Rachel Banks. The death of Mrs. Banks, wife of Thomas Banks, of Rothesay avenue, occurred yesterday at the General Public Hospital, where she had been since Wednesday. She had been in poor health for the last month. She is survived by her husband and two sons, Henry, of Milltown, N. B., and Joseph at home.

Richard S. Dunphy. The death occurred at his home at Mouth of Keswick Saturday morning of Richard S. Dunphy, aged 69 years. He is survived by four sons, Alma of New-Cover, D. C., West of Buffalo, N. Y., Eldon of Chipman, and Lee, at home, and two daughters, Mrs. Harry Gilbert of Brewer, Me., and Mrs. Charles Burgess of Mouth of Keswick.

Maner Hagerman. Maner Hagerman, a well-known resident of Bear Island, died Friday

Manchester Robertson Allison Limited. KING STREET - GORHAM STREET - MARKET SQUARE.

night at St. John. The funeral took place at Bear Island on Sunday afternoon. He was aged about fifty-eight years. Surviving are one son, Ralph, in Boston, and five daughters, Mrs. York of Woodstock, Mrs. Norman Lawrence of Dumfries, Daisy of Prince William, May of New York, Mrs. Harry McLean of Bear Island, and Mrs. Wood of Boston.

John F. Whyte. At the Victoria Hospital, Fredericton, on Saturday, John F. Whyte of New-

castle, died, aged 87 years. He had been working in Fraser's mill at Plaster Rock and lifted a heavy plank, injuring himself internally. He was brought to the hospital and death occurred. He is survived by one brother, W. J. Whyte of Newcastle, and one sister, Miss Alice of Newcastle.

FUNERALS. The funeral of Mrs. J. Willard Smith took place yesterday afternoon from her late residence, 30 Orange St. The services at the house were conducted by Rev. Neil MacLauchlan, pastor of Queen Square Methodist Church, and Rev. Robert Smart, of Westfield. The choir of the church was in attendance and Mrs. J. C. Rayworth the church organist, played the dead march at the close of the service. Relatives acted as pall-bearers. Interment was in Fernhill.

The funeral of Henry Baker took place yesterday afternoon at 2:30 o'clock from his late residence, 245 Lancaster Avenue, West End. Rev. W. H. Sampson conducted the service. Interment was in Cedar Hill.

The funeral of Mrs. Annie Simpson was held yesterday afternoon from her residence, 20 Duck street. The body was taken to the Cathedral where services were conducted by Rev. William Duke. Interment was in the old Catholic cemetery.

FINDS INDIAN TRIBE RULED BY WOMEN

American Explorer Locates Colony on Upper Amazon—It May be Basis of Old Amazonian Legend.

Boston, Jan. 8.—An Indian tribe of South America ruled entirely by women was described by Dr. A. Hamilton Rice in a lecture before the Lowell Institute. The tribe lives on the Icana River, a branch of the Upper Amazon, where Dr. Rice went on a trip of exploration. The women of the tribe appeared to be permanent residents of the village, Dr. Rice said, while the men who were there came mostly from tribes along

the river Guiana. The ancient Amazonian legend of a tribe of self-supporting women, visited from time to time by men of other tribes, came to the explorer's mind with his discovery, he said, and indicated to him that he might have found the basis for the legend. During his lecture Dr. Rice was asked if he believed that former President Roosevelt's life had been shortened by the effects of his South African journey. He replied: "Yes, he died from the effects of his journey to South America. There was not a doctor in New York who knew what ailed him." The object of Dr. Rice's exploration was mainly to determine the character of the country surrounding the Tilla, Mesaya, and Inirida Rivers, and to identify these rivers. At San Martin he found 800 persons served by three priests who bemoaned their lack of knowledge of medicine. Many of their parishioners were suffering from disease, Dr. Rice's examinations developed that they carried the tertian form of malarial parasite, and the epidemic skin disease known as yaws, a particularly disfiguring form. Daily Dr. Rice was forced to practice law in the afternoon. The old La Sal-Calama Trail across the Yega in the rainy season caused Dr. Rice's party much difficulty. For nearly forty-five miles the trail crosses a chain of swamps and quagmires through which the natives of the party floundered naked, cursing, and whipping the pack animals before them. A still alarm was sent in to No. 6 fire station, about 4:40 o'clock yesterday afternoon, for a fire in the home of Charles Emery, King street. The fire looked so threatening that an alarm was sent in from Box 114. The apparatus, however, was not needed, as the fire was put out with the chemical without much damage.

ELEVEN WOMEN LAWYERS Lately Called to the English Bar—Even Dozen Now.

Eleven members of the fair sex were "called to the bar" in London, making a total of twelve English women now authorized to practice law on equal terms with men. The only woman heretofore privileged to practice law in England was Dr. Ivy Williams, who donned the legal robes and wig several months ago. All the women who were admitted to practice passed the legal examinations some time ago, but have been completing their preliminary work by studying in the law courts. One intends to practice in the divorce court. Lady Astor Ordered to Rest. Plymouth, Jan. 8.—Lady Astor has been ordered by her physicians to take a complete rest, with a change of scenery, and is planning to go abroad for a month to recuperate. She has cancelled all her engagements here.

CRASH PILES 60 IN HEAP IN CAR

Two May Die as Result of Collision of Electric Train and Motor Truck. Fremont, O., Jan. 8.—Two persons were injured when a Limited Lake Shore electric train bound from Cleveland to Toledo and Detroit, crashed into a stalled motor truck five miles west of here last night. The first car of the train after striking the trailer of the truck, turned over into a ditch, pitching sixty passengers into a scrambled heap in the car. They were released when farmers cut a hole in the roof of the car. The second car did not leave the rails. Two passengers on the first car may die. They are William Hein, 70 years

old, Fremont, and Matilde Cizaina, 25, being treated at a local hospital out of Detroit, Mich. Eight others were minor injuries.

Third Generation is Using Syrup Pepsin

No other Laxative can replace Dr. Caldwell's Laxative Syrup Pepsin in the confidence of those who use it. THERE are thousands of healthy, robust young men and women who have never in all their lives taken any other laxative for constipation than Dr. Caldwell's Laxative Syrup Pepsin. Their parents were given it by their parents; the grandparents are using it today. It is the one laxative ideally suited to all the family, safe for the little ones, effective in grownups, so compounded that elderly people, who are constantly forced to take a laxative because the intestinal muscles are weakening, find increased dosage unnecessary. This wonderful constipation remedy has been used continuously for 30 years, and over 10 million bottles are now sold annually, the largest selling family laxative in the world. The cost averages but a cent a dose. Every druggist sells it, and under a guarantee to do as claimed or your money will be refunded. Millions of carefully conducted homes are never without a bottle of

Dr. Caldwell's Laxative Syrup Pepsin. Mr. Henry Ricker, Chippewa, Ont., says it is the best medicine they have ever used, and Mrs. M. Martin of Massey, Ont., uses it herself and recommends it to her friends. There is scarcely a day that someone in a family does not need it for constipation, flatulency, auto-intoxication, biliousness, intestinal poisoning, headaches, colic and cramps, and to break up fevers and colds. Dr. Caldwell's Laxative Syrup Pepsin is a scientifically-balanced compound of Egyptian senna with pepsin and pleasant-tasting aromatics. The formula is on the package. As the popularity of this natural vegetable laxative increases, the public discards the harsher physics like calomel, coal-oil in candy form, salt water and powders. Dr. Caldwell's Laxative Syrup Pepsin empties the bowels more cleanly and without any danger.

TAKE DR. CALDWELL'S SYRUP PEPSIN LAXATIVE The family remedy

The wrong temperature will run candy. In the Moir factory expensive machinery keeps the air cool and dry every day in the year, no matter what it is like outside.

MOIRS LIMITED HALIFAX W. J. WETMORE, Agent, 91 Prince William street, St. John, N. B.

Moir's Chocolates PURITY AND QUALITY ASSURED

Good!—Always

It's the ingredients you cannot see—the patient care in making that are the secrets of Moir's goodness. Nothing is left to chance, all the materials used are either made in our own plant or imported direct.

Cocoa beans selected, graded, blended, roasted and ground with infinite care in our own factory. Pineapples, apricots, raspberries, strawberries and other fruits for Moir's centres—always the finest obtainable.

Brazil Nuts, Almonds, Walnuts, imported direct; Peanuts, the small delicately flavored kind; Cocoa-nuts shredded fresh for each day's needs.

Every operation superintended, every chocolate examined by a keen-eyed overseer.

All this care to assure you of the same high quality you have always found so delightful in Moir's Chocolates.

SEEK DRINKING WATER; MAKE A RICH GOLD FIND

Victoria, B. C., Jan. 8.—British Columbia's latest gold find was reported yesterday by L. C. Westwick of Springhouse, near the 150 mile house in the Cariboo.

Big nuggets and dust rich in gold were uncovered. The discovery was made by men looking for drinking water. They found they were throwing up aboveval after shovelful of fine large nuggets, and the whole sand seemed impregnated with gold.

IN HIS NEW PASTORATE Sydney, N. S., Jan. 8.—Large congregations yesterday heard Rev. L. E. Ackland deliver his inaugural sermons as pastor of the United Baptist Church here.

New York, Jan. 8.—The launching of a movement to establish Woodrow Wilson forums throughout the country, to perpetuate the ideals and aspirations of the former President, is announced by Harry H. Schlacht, president of the Down Town Chamber of Commerce.

The first step in the establishment of the national organization will be the opening of a forum in New York City on Saturday, Jan. 14, in public school 62, on the East Side.

Mr. Schlacht said today, that he anticipated the rapid expansion of the organization to national proportions. Twenty chambers of commerce in various parts of the country have endorsed the plan, he said.

Will Discuss Ideals "Members of all parties are joining in the movement," Mr. Schlacht said, "which has as its sole purpose the discussion of the ideals for which Mr. Wilson has practically given his life. Let me make it clear that party politics has no part in the scheme."

"In my communications with persons in various parts of the country, I have found that more and more persons are being won over to Mr. Wilson's views, particularly business men. As time goes on, the wisdom of his ideas is being recognized more and more by his fellow-countrymen. So the talks better, and now after having nine bottles the wound has quite healed, and I am pleased to say I have not seen any sign of it breaking out since."

Sufferers from Bad Legs, Abscesses, Ulcers, Glandular Swellings, Piles, Eczema, Boils, Pimples, Eruptions, Rheumatism, etc., should realize that relief and comfort can be given temporary relief—but to be sure of complete and lasting benefit, the blood must be thoroughly cleansed of the impure waste matter, the true cause of such troubles. Clarke's Blood Mixture quickly attacks, overcomes, and expels the impurities, that is why so many remarkable recoveries stand to its credit. Pleasant to take, and free from injurious ingredients.

Of all Dealers—see that you get Clarke's Blood Mixture "Everybody's Blood Purifier."

MURRAY & GREGORY, Ltd. Great bargains at private sale, in cereals, tweeds, melons, etc., and continuing until entire stock is sold.

DRRESS BUDGET PUT AT \$5,000 Mme. Paquin Thinks it Fair Amount for Woman to Spend Annually—Famous Modiste Employs Critics.

Paris, Jan. 8.—"Why do women's dresses cost so much?" This eternal question was put to Madame Jeanne Paquin, and her cryptic answer was "They don't."

For 33 years Mme. Paquin has been making dresses in Paris for the wealthy from all parts of the world. It may be here idea of what is expensive has been influenced by the class of trade which motors up to her doors, but nevertheless her answer was the sincere expression of a business woman. For in the next breath she said: "Oh, rather, dresses do not cost the buyer so much, when it is considered what they cost the producer."

4,000 Dresses a Year. Mme. Paquin employs about 900 persons, and turns out 4,000 dresses a year. About 25 out of every 1,000 of her gowns have to be discarded because they are not properly made.

"I employ people who do nothing but sit around and criticize our dresses," said Mme. Paquin, "and if a given dress doesn't satisfy them, a new one must be made for the client."

"How much does it cost to dress a woman well for a year?" Mme. Paquin was asked. "For the average woman who can afford to dress in such houses as mine, 50,000 francs a year, giving her about 10 dresses a year. This would give her in each season about ten dresses, one for the street, one for sport, one for evening, and one for afternoon receptions. Add what is necessary for cloaks, furs, shoes, umbrellas and underclothing and the total would come to about \$5,000 in American money."

The opening debate in the Inter-Society series was won yesterday afternoon by the Men's Society of the Church of the Assumption from a team representing the Y. M. C. I. The subject was "Resolved, that prohibition would be in the best interests of the nation, physically, mentally, morally and financially. The winners presented the affirmative side of the case. E. J. O'Connell and E. Fitzgerald were the speakers for this side and W. R. Walsh and F. X. Jennings representing the Y. M. C. I. argued against it. W. M. Ryan, J. B. Devereaux and J. L. Sugrue were the judges.

SHRINE IN NEW ENGLAND TO BE LIKE ST. ANNE'S Plans are being made for the erection in Fiskeade, Mass., of a shrine patterned after the famous St. Anne de Beupre in Canada to house a relic which healing powers are claimed. The relic, owned by St. Anne's parish, in the Bay State, has attracted several thousand persons from all parts of New England in Sunday pilgrimages in recent months. Some of them have asserted their visits resulted in cures of various ailments.

The project is to acquire land in the rear of St. Anne's church owned by a former pastor and to erect a large shrine with a statue of St. Anne, stations of the cross and holy stations.

SPORT NEWS OF A DAY; HOME AND ABROAD

ATHLETIC

Australian Records. Wellington, N. Z., Jan. 8.—G. K. Krogness, former Harvard University hurdler, was defeated here on Saturday in the 120 yard hurdle by H. E. Wilson, a New Zealander, who made a new Australian record of 15 seconds flat in the event. Wilson clipped 1-5 of a second from the old mark, which he also held.

AQUATIC

New Record. Los Angeles, Jan. 8.—Garfield A. Wood of Detroit established a new international salt water record for dual motor speed boats yesterday when he drove his Miss America I at the rate of 75.43 miles an hour in the channel of Long Beach, near here.

BOWLING

To Open Second Series. The second series in the Clerical Bowling League will open tonight on the Victoria alley, when the New Brunswick Telephone Company, last year's champions and winner of the first series this season, will clash with the Atlantic Sugar Refinery. The champions are out to make a clean-up of both series and will have their strongest line-up on hand for the opener while the sugar men on the other hand have strengthened their team this series and expect to make a strong bid for premier honors. A close game is expected.

Manufacturers' League.

The Imperial Oil Company team took all four points from the St. John Iron Works' team in the Manufacturers' League game on Black's alleys on Saturday night. The scores: Imperial Oil Co.—Total, Avg. Smith 98 95 81 274 91.3 Thompson 62 78 76 216 72 Carr 87 81 76 254 74.2 Dummy 62 75 76 213 71 McShane 87 85 90 261 87.

All Alley Record.

The record for the Imperial Bowling Alleys was broken on Saturday night when J. Frank Quinn chalked up the splendid score of 468. The score was made in competition and showed consistent bowling throughout. Quinn made seven spares and one strike and rolled two nines in the other two boys. In addition to making this record Quinn also established a three string record for the alley—389, by following 121, 168 and 100. The score of his record string by boxes was as follows: 18, 19, 17, 9, 9, 16, 19, 20, 19. Total 163.

BASKETBALL

Y. M. C. A. House League. Three games of basketball were played on Saturday night in the Y. M. C. A. In the first game the Chippewas defeated the Zouaves in a senior house league game by a score of 27 to 30. "Bud" McInerney refereed. The East St. John boys defeated the Y. M. C. A. juniors by a score of 16 to 12. In the third game the Junior School Boys defeated the Senior School Bantams by a score of 12 to 4. This game was played under the new rules calling for four periods of play. Murray Sargent refereed.

CURLING

Visitors Lose Five. The touring Scottish curlers, playing rinks from five Nova Scotia towns at New Glasgow on Saturday, were unable to wrest victory from any of their opponents. They were defeated in turn by Canso, Truro, Antigonish, Sydney and North Sydney.

Bonspied in St. Andrew's.

Twenty rinks competed in a bonspiel held by the St. Andrew's Curling Club on Saturday afternoon followed by a bounteous supper to the contestants at six o'clock. The rink skipped by C. H. Peters won and that headed by A. R. Melrose took second place. Royal Caledonia badges were presented to the winners by C. F. Sanford, president.

LIVEN UP THE LIVER REGULATE THE BOWELS TONE UP THE STOMACH WITH Milburn's Laxa-Liver Pills

They will regulate the flow of bile to act properly on the bowels, and will tone, renovate and purify the liver, removing every result of liver trouble from the temporary, but disagreeable bilious headache to the severest form of liver trouble. Mrs. J. Schilton, Bethany, Ont., writes: "I have used Milburn's Laxa-Liver Pills for some time. I was troubled with a bad liver and a bilious headache, but since taking your Pills I am perfectly well again." Price 25c a vial at all dealers or mailed direct on receipt of price to The T. Milburn Co., Limited, Toronto, Ont.

FIFTEEN MINUTES OF RADIO EACH DAY

By Edward N. Davis Formerly Technical Electrical Expert For U. S. Government

Lesson No. 200. POINTS TO REMEMBER.

Remember That: Vertical adjustments are very useful aids on regenerative receivers owing to the extreme sharpness of tuning. A slight movement of tuning knob may occasion the complete loss of a signal which previously had a high degree of audibility. This sharpness of tuning due to "balancing out" the resistance of the circuit of regeneration, the resistance being reducible to as small a value as a few hundredths of an ohm.

When signals from a distant transmitting station are too weak to operate the detector, these minute amounts of energy may be built up through the use of radio-frequency amplification, until they are strong enough to cause the detector to properly perform its function.

A tuning chart is a valuable means of tuning rapidly and easily to the signals from a desired transmitting station. For example, in a receiving circuit containing a variator-coupler and two variometers a chart containing eight critical columns will give the proper setting of the variometer and variator-coupler dials and the position of the switches controlling the primary taps. The columns should be headed as follows: (1) names of station, (2) call letters, (3) wave length, (4) grid variometer, (5) variator-coupler, (6) plate variometer, (7) taps right, (8) taps left. Settings for a particular station, previously determined and recorded on the chart provide a ready reference for tuning to a desired station.

The improvement in signal strength often noted when either the antenna or ground terminals are touched with the finger, is due to what is so commonly known as "body capacity." The body acts as a condenser of low capacity and touching the connections is equivalent to inserting a condenser in circuit.

When it is desired to amplify the incoming radio signals without producing a rectifying action, the voltage of the grid should be adjusted to a point on the straight line portion of the grid voltage-current curve. Under this condition, when a small change in either direction is made in the grid voltage, the increase in plate current corresponding to a change in grid voltage in one direction will be equal to the decrease in plate current resulting from an equal change in grid voltage in the opposite direction. The wave form of the plate current will therefore reproduce the wave-form of the grid voltage variation.

The electrolyte in storage batteries should not be allowed to fall below the level of the plates, distilled water being added at sufficient intervals to maintain a level at least one-half inch above the plates and not high enough to allow the solution to spill over and cause a short-circuit on the top of the battery. If the level of the electrolyte is allowed to remain below the top of the plates they will become sulfated which increases the internal resistance and lowers the capacity of the battery.

An one-tenth (0.1) Henry choke coil for use in the filtering system of the Armstrong Super-regenerative circuit may be constructed by winding approximately 680 turns of No. 26 magnet wire on one leg of a close laminated iron core. The dimensions of the closed core should be approximately one-half inch by one-half inch and two inches square. The loop antenna for use with this circuit may consist of twelve turns of the No. 18 bell wire spaced one and one-half inches apart on a frame four feet square. SKATING.

WARNING TO SKATERS. All registered skaters have been warned by the Maritime Amateur Skating Association not to compete in a race for boys of eighteen and under scheduled for the Victoria Rink this evening. The association decided to withhold their sanction for the race on account of the stand taken by Commissioner Thornton that the rink was not suitable for gatherings of this kind, according to F. J. Legge, the secretary, and there was no personal feeling involved. He explained that anyone taking part would be immediately suspended.

Urges Fund for Juniors.

Frank White, president of the M. A. S. A., last evening voiced a strong appeal for assistance for the junior and juvenile skaters of the city to secure them competition before the opening of the international championships here on February 14, 15 and 16. He referred to the fine showings made by Willie Logan, Roy Lawson and Irving Leonard last year, and suggested that a fund be immediately opened to be known as the St. John Representative Skating Fund with Walter C. Allison as treasurer. All citizens would be asked to contribute by sending their money to Mr. Allison.

Jewtown Makes Two Records.

Charles Jewtown, of Lake Placid, skating in the amateur races at Lake Placid on Saturday, broke the world's record for the 100 yards by skating the distance in 9.25 seconds and equalled the world's record for the 220 yards with a mark of 19 seconds. The former 100 yards record of 9.3-8 was made by Morris Wood at Verona Lake, N. J., in 1908.

Joe Moore Wins at Yonkers.

Joe Moore, of New York, Canadian Amateur Skating Champion, won the Metropolitan ice skating championship at Yonkers yesterday while the women's title was taken by Hattie Doze, also of New York. Moore had 100 points. Advances from New York indicate that Gorman did not compete.

The other leading point scores, all from New York, finished in this order: Men—Paul Forsman, 60 points, second; Leslie Boyd, Henry Nelbor, Wesley Becker and William Murphy, 20 points, each, tied for third. Women—Margaret Doze, 40 points, second; Peggy Conaty, 30 points, third. Men's 220 yard, and 440 yard races were won by Forsman, and Margaret Doze won the women's 440 yard race.

Gladys Robinson, of Toronto, won the three-quarter mile race for girls. Her time was 8:01-5. Elsie Muller, of New York, was second, and Hattie Doze, third. The 440 yard dash for girls found Miss Robinson in second place the event being won by Elsie Muller in 52.5 seconds. Peggy Farrington of the Tremont Skating Club, was third.

GOLF.

New Game for St. John. The first indoor golf match in St. John is slated for this week under the auspices of the Westport Outing and Country Club at the Lingard golf school, Charlotte street. The entries are being arranged by W. D. Foster and it is expected that there will be quite a list.

HOCKEY.

Thorburn Defeats Antigonish. New Glasgow, N. S., Jan. 7.—Playing ten minutes overtime Thorburn defeated Antigonish here Saturday night. The Antigonish-Pictou-Colchester League.

Glacé Bay Wins.

Sydney, Jan. 7.—By a score of 8 to 7 Glacé Bay won from Sydney in the Cape Breton County League at the Bay, Saturday night.

Tigers Trim Canadiens.

The Hamilton Tigers furnished quite a surprise to hockey fans in the Mount Royal, Montreal, on Saturday by winning their N. H. L. fixture with the Canadiens by a score of 3 to 2 after eight minutes overtime play.

Ottawa Senators Win.

In one of the hardest fought games seen in Ottawa for some time the local Senators on Friday night, defeated the world's champion Toronto St. Patricks by a score of 2 to 1. The Ottawa forward line is becoming one of the most dangerous in the game.

Boston Defeats Champlions.

At Boston on Saturday night, the Boston Hockey Club team defeated the Westminsters of New Haven, last year's United States champions, by a score of 6 to 4 after ten minutes overtime play. The score was 4 all at the end of the regular periods but the home team won easily in the extra time.

St. Stephen Case.

An announcement is expected soon in the case of the Loews, Anderson and Vanstone of St. Stephen, all of whom are alleged to have played professional baseball in the summer and then took the affidavit to enable them to play amateur hockey. A. W. Covey, president of the M. P. A. A. U. of C., returned from St. Stephen on Saturday following a hearing of the case there.

Mount Royal Wins.

Quebec, Jan. 8.—Playing in the province of Quebec Hockey League yesterday, Mount Royal defeated Quebec in an overtime game, 6 to 4. Sherbrooke Defeated. Three Rivers, Que., Jan. 8.—Lavolette easily defeated Sherbrooke in the Quebec Hockey League fixture here yesterday afternoon, 3 to 0.

LONDON COUPLE ARE DELIGHTED

His Wife's Two Years of Trouble is Now Ended, Says Frank Westlake.

"Tanlac has made all the difference in the world in my wife's health and we are both delighted," declared Frank Westlake, valued employee of the Public Works Department of London, Ont., residing at 40 Langart St. "About two years ago my wife underwent an operation that left her badly run-down and she simply couldn't get back her strength. Her appetite left her and she could hardly eat enough to keep going. The least exertion would tire her out completely, and her housework was a burden to her. She would lie awake hours at night, and morning found her just as tired as when she went to bed. She suffered terrible splitting headaches, her nerves were on edge and she got very little pleasure out of life. "Price 25c and 60c a bottle put up only by The T. Milburn Co., Limited, Toronto, Ont.

deceased Antigonish here Saturday night.

Spencey, Jan. 7.—By a score of 8 to 7 Glacé Bay won from Sydney in the Cape Breton County League at the Bay, Saturday night.

Tigers Trim Canadiens.

The Hamilton Tigers furnished quite a surprise to hockey fans in the Mount Royal, Montreal, on Saturday by winning their N. H. L. fixture with the Canadiens by a score of 3 to 2 after eight minutes overtime play.

Ottawa Senators Win.

In one of the hardest fought games seen in Ottawa for some time the local Senators on Friday night, defeated the world's champion Toronto St. Patricks by a score of 2 to 1. The Ottawa forward line is becoming one of the most dangerous in the game.

SIX-YEAR-OLD HAD BRONCHITIS EVERY WINTER

Bronchitis generally begins with chills, followed by fever and a harsh, dry, hacking cough. There is a raising of phlegm, which, until it has a light color, but, as the trouble progresses it becomes a yellowish or greenish color and is sometimes streaked with blood.

All those who are troubled with bronchitis will find in Dr. Wood's Pine Syrup a remedy that will stimulate the bronchial organs, subdue the inflammation, soothe the irritated parts, and loosen the phlegm. Mrs. Oliver C. LePage, South Rustico, P. E. I., writes:—"My little six-year-old girl had very bad attacks of bronchitis every winter. In the evening and during the night, she would cough and choke up, and had a wheezing in her chest. We tried several cough medicines, but they never seemed to do her any good. A neighbor advised us to try Dr. Wood's Norway Pine Syrup, which we did, and after she had taken two bottles she got perfectly well. Price 25c and 60c a bottle put up only by The T. CHURCH UNION ATTACKED AND DEFENDED

Toronto, Jan. 8.—"A mechanical merger, and a sand heap of compromise" is the term that Rev. R. G. McBeth of Vancouver, one of the Presbyterian anti-unionists, used to describe, in a letter to the Christian Guardian (Methodist), the proposed union of the Methodist, Presbyterian, and Congregational churches. He protests against the "coercion" of the Presbyterians in a free country.

GANGSTERS GET BILL LOVETT

Leader of White Hands is Found Dying of Bullet Wounds in New York Hut. (New York Tribune.) They got Bill Lovett yesterday. The leader of Brooklyn's White Hand gang was picked up in a shack behind 289 Front street early in the morning and is dying at Cumberland Street Hospital from three wounds made by steel-jacketed bullets from an automatic pistol.

Lovett is a gang-war casualty. His reluctance as to the identity of his assailants establishes that of his complete satisfaction of Detectives John Sullivan and William Brosnan who are combing the Brooklyn tenement districts to find just what particular group of Lovett's many deadly enemies united to put him away. The detectives admit the job is a tough one. When they asked Lovett to tell them about it he laughed.

"Try and get out of me," he whispered. "I wasn't shot where I was found. They got me at the corner of Gold and Front street around one o'clock. Never mind who got me. You'll never get that from me. My gang'll look out for that end of me."

Lovett, who is twenty-nine years old and lives at 233 Broome street, was found by John Carr of 116 Bridge street, a friend. The gang leader was lying on the floor, exhausted from wounds and loss of blood, and asked Carr to get him an ambulance. The room was full of home-brewed beer done up in pop bottles, and a still stood in a corner.

Bill Lovett succeeded to the leadership of the White Hand gang after Denny Mehan, who had "kinged" the outfit for years, had been shot in bed in March, 1921. A month ago Lovett walked into Brooklyn Police Headquarters and gave himself up, saying he had heard the police were looking for him in connection with Denny Mehan's death, and gave himself up to the feds against him, and he was released.

The same thing had happened once before in connection with another killing, and seven years ago he was acquitted by a jury after he had been tried for an Italian shooting. Two years ago Lovett was shot on the steps of the Brooklyn courthouse by gangsters who never were identified.

Cold weather was experienced over the week end. On Sunday morning between eight and nine o'clock the mercury was down to nine degrees below zero which was the coldest since December 14 when it went to fourteen below.

FRENCH SOON MAY SOLVE ALL OF COAL PROBLEMS

Harnessing of Water Power Promises to End Worry Over Fuel Supplies. Paris, Dec. 7.—(By mail).—The work of harnessing the water power of France is making progress so much faster than the work of settling reparations questions, including coal deliveries by Germany, that some optimists believe the country will be beyond all need of coal from outside before the statements finish their parleys.

France is supposed to have nine million natural water horsepower. The plans of the Public Works Department, as explained to the Associated Press, provide for the utilization of approximately four million horse power in the next five years. The realization of this project will not only make France independent of foreign markets for coal, but will go a long way toward making good the big deficits in the operation of French railroads, which will largely substitute electricity for coal when the current is available.

The French railroads paid 184,000,000 francs for coal in 1918, they paid 2,145,000,000 francs for about the same quantity of coal in 1920; the difference of approximately 2,000,000,000 francs was just about equal to the deficit for 1920.

The biggest individual job of this kind is the damming of the River Rhone at Genissiat, near the Swiss frontier, to furnish an average of 750,000 horse power at all times. The realization of this project will not only make good the deficit in the operation of French railroads, but will go a long way toward making good the big deficits in

THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, JANUARY 8, 1923

HAYS' OWN BOARD WOULD BAR ARBUCKLE

Film Committee on Public Relations Urges Motion Picture Arbiters Not to Permit "Fatty's" Return.

New York, Jan. 8.—Will H. Hays' self-created Committee on Public Relations of the Motion Picture Producers and Distributors of America, Inc., after a six-hour session last week, showed itself to be in sharp disagreement with him on the question of allowing Roscoe C. ("Fatty") Arbuckle to return to the screen.

When nearly fifty of its members present, the majority of whom were unalterably opposed to any leniency for the actor, the committee recommended to Mr. Hays that he advise the motion picture industry to refrain from exhibiting pictures in which Mr. Arbuckle appears, and that any consideration shown him, as an individual, should be along lines not involving his appearance before the public as a motion picture actor.

A reason given by the committee for opposing the reappearance of Arbuckle on the screen was that it would be "extremely detrimental to the youth of America."

The committee is composed of prominent men and women, representing civic, welfare, social and industrial organizations throughout the country.

A statement that was given out by the committee as covering its action on the Arbuckle case read:

"The committee on public relations, having received from Mr. Hays a report on the Arbuckle matter, is impressed with the sincerity and genuineness of his motives in showing a willingness to allow everyone a chance to go to work and make good if he can. The committee, however, does not believe that there should be any action taken which would result in bringing Roscoe Arbuckle again before the public as a motion picture actor. In the judgment of the committee, it would be extremely detrimental to the youth of America for Arbuckle's pictures to be released for circulation, since it is highly desirable that reminders which would naturally come with his reappearance on the screen should not be thus placed before the public.

"Such releases would also, in the opinion of the committee, tend to destroy public confidence in the purpose of the motion picture industry 'to establish and maintain the highest possible moral and artistic standards in motion picture production and development as well as the general usefulness of motion pictures.'

"The committee, therefore, recommends to Mr. Hays that he advise the motion picture industry to refrain from exhibiting pictures in which Arbuckle appears, and that any consideration shown him, as an individual, should be along the lines not involving his appearance before the public as a motion picture actor.

"The committee takes this occasion to reaffirm its desire to assist in every possible way in the improvement of motion pictures, and to express its confidence in the practicability of the program which is being developed under Mr. Hays' leadership for obtaining better pictures and for realizing the highest possible usefulness of motion pictures in the recreation and education of the American people."

TORONTO SMOKERS REAPING HARVEST
City's 3,000 Dealers Want to End Price War.

In reply to an enquiry from Halifax regarding the raising and distributing of a Community Fund in Toronto, the following letter was received—
Mr. F. H. Zwicker,
Halifax.

Dear Mr. Zwicker:
I am pleased in reply to your letter of Dec. 8, 1922, to give you the information you ask for.

First—With reference to over-subscribed burlesks and the disposition made of the surplus.—The understanding here is that surplus proceeds subscribed to any institution in the Federation more than its full budget requirements will revert to the general fund of the Federation, but this occurred only once, and in the first year of our history, one individual subscribed the full amount of the budget of one organization, and his contribution others also contributed, and their contribution for the use of the same unit. Our experience, however, is that the practice of designating subscriptions is disappearing.

In 1921, out of a total of nearly 500,000, \$83,000 was earmarked. In 1922 much less, and in our recent campaign we found that it was very rarely that a subscriber designated the contribution to the work of any institution. This is due to the growing confidence of the people in the impartiality of the Budget Committee, which endeavors to distribute the funds in hand to various institutions directly in proportion to their needs, and also to the fact that people have come to see that the organizations and institutions of the city should be adequately supported.

We still find it useful, however, to make it convenient for subscribers to allocate their subscriptions as it meets their own needs. Sometimes we urged that individuals do not care to subscribe to one or the other, but with their funds they also care to be accounted for, I believe, by the growing confidence of the people in the impartiality of the Budget Committee, which endeavors to distribute the funds in hand to various institutions directly in proportion to their needs, and also to the fact that people have come to see that the organizations and institutions of the city should be adequately supported.

A statement on the subscription card as to the effect that sums subscribed in excess of the budget requirements of any organization will revert to the general fund will meet the difficulty, I believe.

I have never heard of a campaign any centre where little was subscribed to the general fund and where most of the subscriptions were earmarked for the use of special organizations, and such a condition seems unlikely where organizations are giving vital service to the community. If there are unnecessary organizations, it will probably be good thing to have them removed from the field, or not to include them in any appeal made to the public for funds.

With reference to office staff.—The

EMPRESS THEATRE, West End
MONDAY and TUESDAY
We present to you a 10-reel production of our second great picture shown this year—
"MANSLAUGHTER"
With THOMAS MEIGHAN in the leading role.
Are the sons and daughters of the rich leading the kind of life that made Rome fall? The spectacular romance of a daring daughter of luxury and the man who, loving her, sent her to prison.
One show each night starting at 7.30 o'clock.
Admission 25c. Come early. Wednesday—"BURNING SANDS."

MARRIAGE OPPOSED, SLAYS SELF AND GIRL
Opposition of Sweetheart's Parents
Cause of Murder and Suicide,
Brother Witnesses Act.
Lansing, Mich., Jan. 8.—Opposition of the girl's parents to their marriage is given as the cause of a murder and suicide in which Habib F. Fawaz, aged 20, and his sweetheart, Marie Saub, aged 17, he dead with bullets through their hearts. The shooting occurred at the home of the girl's parents on 1,010 North Cedar street.
The young man is said to have been a suitor of the girl for some time. Before going to Detroit a short time ago, he occupied a room at the Saub home. New Year's Day he returned to the city to marry the girl, according to the story told the police, but her parents objected to the ceremony on account of the girl's age.
The only witness of the double tragedy was James Saub, a brother of the girl. According to Saub, Fawaz came to the house while the girl's parents were absent, and asked her to go to a show. She refused. He then threatened to kill her, but she made light of the threat.
Young Saub went to the kitchen, and before he returned to the room he heard a shot, and saw the girl fall to the floor, he says. Fawaz then turned the gun on himself and pulled the trigger. He died in the police ambulance on the way to St. Lawrence Hospital.
Harvey discovered that the heart pumps the blood through the body.
Petunias, cousin to the tobacco plant, are natives of South America.

IMPERIAL THEATRE TODAY
A Drunkard, a Fugitive From Justice But He Saved a Thousand Lives
"THE NINETY AND NINE"
A Modern Parable of the Lost Sheep
THIS IS A SWEETLY POWERFUL PICTURIZATION OF Ira D. Sankey's Universally known evangelistic song. It carries a tremendous appeal to every normal heart. It is spiritual, it is intensely human. It preaches a sermon of kindly tolerance, of loving kindness and faith. It also thunders a curse upon gossip and inhuman churchgoers whose religion is of the Sunday quality not to be used on weekdays. The whole Vitagraph production throws a bright light on the Christ-errand.
TOM SILVERTON—Sought for another's crime, hides in country village, habitual drunkard. Handsomely vindicated.
Warner Baxter
RUTH BLAKE—Deacon's daughter who seeks to reform silverton in spite of village gossip and father's threats.
Colleen Moore
MARK LEVERIDGE—Social hanger on and gambling shark. Puts New York police on Silverton's trail.
Lloyd Whitlock
KATE VAN DYKE—Sweetheart of Silverton until his escape, but still loves him. Now Leveridge's fiancée.
Gertrude Astor
ABNER BLAKE—Unbending and orthodox deacon who listens to the gossips and turns own daughter out.
Robert Dudley
HUD BRYSON—Village half-wit, innocently keeps the principals posted as to the other's doings.
Arthur Jasmine
REDDY—The bright boy of the place, lends a helping arm to Silverton on occasions—his real friend.
Ernest Butterworth, Jr.
MRS. ARAMANTHA MARKHAM—Vicious-tongued slanderer and gossip with a vivid imagination. Lots of them about nowadays.
Dorothy Wolbert

Pathe News
Salamanca in Spain, Canada's Sweetest Kiddies, Generosity in Washington, Big Fire in Fort William, Scenes in Constantinople, In the Canadian Rockies, A New Kind of Auto.
ORCHESTRA
I say unto you, that likewise joy shall be in heaven over one sinner that repenteth, more than over ninety and nine just persons, which need no repentance.
—LUKE Chap. 15—Verse 7.
COSY HOUSE

Free Movie Magazine
Imperial Theatre has acquired the St. John rights to the "MOVING PICTURE REVIEW" OF NEW YORK, and will mail it monthly gratis to appreciative St. John families if the following form is filled out and mailed back.

Well Kept Bread Tastes Better and Makes for Economy Special Values in Bread and Cake Boxes Many a housewife knows too well that bread often becomes hard and stale too quickly for want of a proper place to keep it, resulting, quite often, in waste which is needless when you can so easily keep your bread delightfully soft and moist by means of one of our Air-Tight Tin Bread and Cake Boxes are of excellent quality and thoroughly made, some with rounded corners, making them easy to keep clean. Attractiveness is also a feature, the finish being of high grade enamel paint in grey and in white with gilt trimmings. PRICES: WHITE, in large size, with tray, Regular \$2.55, Special \$2.15 Without tray, large, Regular \$2.30, Special \$1.90 Without tray, medium, Regular \$2.15, Special \$1.75 Without tray, small, Regular \$1.85, Special \$1.60 GREY, with tray, large, Regular \$3.35, Special \$3.10 Without tray, large, Regular \$2.30, Special \$1.90 Without tray, medium, Regular \$2.10, Special \$1.80 Without tray, small, Regular \$1.70, Special \$1.40 Without tray, small, Regular \$1.20, Special \$1.00 WHITE CAKE CLOSETS, large, with shelves, \$4.00 and \$4.75 WHITE CAKE CLOSETS, small, with shelves, \$2.50 and \$3.00 HOUSEHOLD DEPARTMENT, STREET FLOOR W. H. THORNE & CO., LTD. Store Hours: 8.30 to 6 daily. Close Saturdays at 1 p. m.

HEAR REQUESTS FOR CIVIC GRANTS

Appeals Presented by Representatives of Local Organizations to the Common Council—Retiring Allowance for Ferry Employee.

Civic grants for 1923 occupied the attention of the Mayor and city commissioners at a committee meeting of the Common Council this morning. Several delegations were present to plead for grants, many of which showed an increase over the amount given last year. All will be considered with the estimates.

Table with 2 columns: Society for the Prevention of Tuberculosis, Horticultural Association, Riverview Park, Associated Charities, Victorian Order of Nurses, Free Kindergarten Association, Natural History Society, Tourist Association, Exhibition Association. Includes amounts for 1922 and 1923.

*Including \$500 for North and South End Improvement League. Grants made last year which were not considered today were as follows: Arboreal Association, \$500.00; Swimming covers, \$1,000.00; Lancaster and Indiantown Ferry, 1,732.88; Bands, 300.00; Seaman's Mission, 250.00.

Commissioner Frink said that about \$1,000 had been spent last year for hand concerts; \$500 would not be sufficient. Natural History Society. W. F. Burditt and E. B. Ellis appealed for the Natural History Society, saying that it supplemented work being done by the schools. Mr. Burditt said the society had been able to finance only by means of a house which they had hoped to use to build a fire-proof building. That fund had been depleted and unless a city grant could be secured it would be necessary to close and St. John would lose the value of the present collection. The city grant last year was \$400. This was required to pay of a liability of \$400, salaries, \$1,000; repairs to building amounting to at least \$1,000.

The revenue he said, which included about \$300 from membership fees, \$100 or \$125 for rental of building and a grant from the Provincial Government. It was intended, he said, to ask the Provincial Government for an increased grant. The curator, Wm. McIntosh said that his salary was \$900 a year; recently he had been offered four times that salary to go elsewhere.

To Dr. Frink, Mr. Ellis said the building was the property of the people of the city. W. K. Haley, appeared for the Playgrounds Association. In addition to a grant of \$4,500 for playgrounds, the same as last year, Mr. Haley asked the city to provide a sum for the completion of the athletic field at Rockwood Park and \$500 each for the South and North End Improvement Leagues. He said that the East End League did not need a grant and the West End League had sent no representative to a meeting of the association to discuss the matter.

Commissioner Frink said the city had purchased a playground for West St. John, and his estimates he was providing for putting the land into shape. Dr. Frink said that nearly \$10,000 had been expended on the Rockwood Athletic field. He said there still much work to be done to make it perfect. A. W. Covey said St. John was without a track or athletic field. The Canadian Track and Field championships were slated to the Maritime Provinces and would have come to St. John had there been a track here. The Olympic trials in 1924 might also be held here.

C. F. Stevens spoke for the North End Improvement League. He said if the city desired to undertake the leveling of the grounds it would be suitable. Otherwise, he asked for a grant of \$500. James Hamilton spoke in support of the South End League. He said that they had a 12-lap rink there this winter. He said that 125 to 175 boys were included in the South End Boys' Club and two men were kept as instructors.

Associated Charities. Percy Steel spoke for the Associated Charities, asking that last year's grant of \$225 be increased to \$300, as formerly.

Free Kindergartens. The Free Kindergarten Association asked that the grant of last year, \$1,600, be increased to \$2,500. Tag days averaged \$2,000 a year. Teachers received \$60 a month and assistants \$50. Salaries for December were still due as well as those for January.

Anti-Tuberculosis Society. R. L. Rising, for the Society of the Prevention of Tuberculosis, asked for a grant. There had been no grant last year. He said the deaths from tuberculosis in the city totaled 100 in 1922; in 1921 there were 58 and last year only 39. He asked for a grant of \$300. Miss Sidney Smith also spoke.

Victorian Order. Rev. Canon Armstrong spoke for the Victorian Order. He said 20,310 visits were made for each of three clinics. The Provincial Government was paying \$900 a year and \$150 was expected from three societies for a meeting room, making a total of \$1,150. The balance of the expenses, he said, would come from public contributions. Commissioner Thornton thought that a plebiscite should be taken on the question of grants.

LOCAL NEWS

EARLY FIRE CALL. At 4.43 this morning an alarm was rung in from Box 12 for a slight fire in a house in Waterloo street occupied by Henry Dolan.

SIDE LIGHTS ON THE MEET. The committee handling the skating meet is negotiating with performers of vaudeville acts and fancy skating feats to put them on during carnival week, and something definite will be arrived at soon.

The New York Sun of Wednesday, January 3, shows Charles Gorman, along with other skaters who posed for the Sun man's camera. It is a good likeness. The Boston Evening Transcript of the same date, under the caption "Canada's Snowbirds' Programme," makes mention of the International Skating Championships here.

WAS AT SMYRNA. Mr. and Mrs. H. S. Gillespie of Woodstock, are expecting home, their son, H. Sande B. Gillespie, who had a distinguished record during the war. He was employed with the C. P. R. when the war broke out, enlisted in 1914 with the Miller's Engineers, and was wounded, but fought until the end, when he went with the Imperial Forces to Palestine. Leaving the active service, he took a clerical position, and had a narrow escape at the burning of Smyrna. He returned to England, was married to an English girl, and resides at Newcastle-on-Tyne. Upon his arrival home he will probably resume his former position on the C. P. R.

MET AFTER THIRTY YEARS. A meeting of first cousins and one-time school companions occurred a few hours before the S. S. Metagama sailed on Saturday night. After thirty years of separation, General H. C. Nanton of Winnipeg and W. B. Ord renewed old friendships. Both were born in Toronto, went to school together, served together in the Riel Rebellion, and General Nanton, who is a brother-in-law of the late Premier, joined the Royal Engineers, took long service in India, and went throughout the South Africa war and the great Boer war. For a time when the present Governor-General of Canada had command of the Canadian Army, General Nanton was chief engineer in the late great war.

BOYS AND GIRLS AT DESKS AGAIN

Some Staff Changes—Two New Buildings in Use, Third Soon. The schools of the city reopened this morning, and everything was reported progressing satisfactorily.

Gordon Leavitt, secretary of the School Board, and acting superintendent of schools, looked after the organization of St. John the Baptist school, newly opened, formerly the Wiggins Male Orphanage. Some changes in staff are announced. Dr. Mabel Hamilton, medical director of schools, said this morning that her department was about to begin the usual survey of the schools made at the beginning of every term for any species of communicable diseases, looking especially for cases of what is generally known as scarlet fever, and any possible cases of scarlet fever.

It is hoped soon to have the Holy Trinity school open, and some slight staff changes will be necessitated by this. These will be announced on opening. Between 8,000 and 9,000 children returned to the city this morning. The new St. Peter's boys' school was occupied for the first time, as was also the new school in St. John the Baptist parish. The latter building was formerly the Wiggins Male Orphanage. Miss Isabelle Reed is the principal and is assisted by Miss Gertrude McGuire, Miss Frances Traynor and Miss Margaret Hennessy. Miss Kelly moved from the St. James' street schoolroom to the new school, and Miss James' street schoolroom will be closed. The arrangement of the Catholic classes will not be completed until the new Holy Trinity school is opened.

At Victoria school Miss Jennie Kee returned to Grade 4 after leave of absence, and Miss Mavis Brown was transferred to Centennial. At the Aberdeen Miss Jean McAfee returned after leave of absence, and Miss Emma Billard was transferred to Lorne school as an assistant. At Lorne school Miss Florence Perry was granted leave of absence, and Miss Jennie Jardine took her place, going from Victoria.

For \$3,500; last year the grant was \$2,300. Hon. J. G. Forbes said this was the first time in twenty-three years the order of the grant was increased.

Mrs. G. F. Smith also appealed for the grant to the Victorian Order. Exhibition Association. Dr. Frink on behalf of the St. John Exhibition Association, asked for a grant of \$3,000 with a guarantee of \$2,000, in order to have in the bank \$1,000, as required by a Government act, before they held another fair. The Provincial Government would be asked for a grant and it was also hoped to obtain a Federal grant.

Last year the city guaranteed an amount not to exceed \$5,000. Last year's show returned a surplus of \$5,000, but after paying off standing deficit, there was an over-all of \$880.49. The secretary-manager received a salary of \$3,000 a year.

George Ellis said that, after three years Federal grants would be made only to Class A shows and it was necessary for St. John to have a fair next year in order to qualify. A grant would be made to New Brunswick, one to Nova Scotia, two to Quebec and two to Ontario. He said St. John was not in line for a provincial grant this year.

Health Centre. Regarding the health centre, Dr. W. Warwick said that no direct grant would be made this year. The Board of Health agreed to pay \$700 for offices and \$100 for each of three clinics. The Provincial Government was paying \$900 a year and \$150 was expected from three societies for a meeting room, making a total of \$1,150. The balance of the expenses, he said, would come from public contributions. Commissioner Thornton thought that a plebiscite should be taken on the question of grants.

METAGAMA IS IN WITH 689

Swiss Official on Immigration Business—Sid Marks, Boxer, Returns.

The S. S. Metagama of the Canadian Pacific Atlantic Service poked her nose through a misty haze in the local harbor this morning at six o'clock and docked at Nos. 2 and 3 berths. The steamer left Glasgow on December 28 and sailed from Liverpool for St. John on December 30. The trip was uneventful. No serious storms were encountered and there was nothing unusual, according to the ship's officers to mar the trip across. The steamer brought off a total of 689 passengers, 172 cabin passengers and the remainder third class. The total passenger list is considered large for this time of year. In addition there was a large general cargo.

New Year's Day was spent on the water and in a quiet way the day was fittingly observed aboard. Among the Maritime Province passengers were: J. I. Wilson, J. MacLachlan and Mrs. A. Eisenburg of St. John; Mr. and Mrs. G. H. Frowd, Halifax and Mrs. A. C. Zwickler of Malbone Bay, N. S.

A. C. P. R. Director. One of the notables aboard was F. E. Meredith, K. C., of Montreal, a director of the C. P. R. When seen by a Times' reporter Mr. Meredith said he had spent several days on the other side. He described his trip abroad as "unofficial" and said that he had no comment to make on conditions or the political situation in England. His stay had been a short one, he added, and he did not have much time to look into the economic situation in Europe. The fact that European governments are looking to Canada as an ideal country to place their people seeking other lands was borne out today by the arrival on the Metagama of Fred Beck. He comes to Canada as an official representative of the Swiss Government to study conditions in this country and particularly to see what Canada has to offer for Swiss settlers. Mr. Beck will first visit western Canada, more especially the prairie provinces. He will make a close study of matters pertaining to immigration and will report back to the Swiss Government as to just what Canada has to offer along this line. Sid Marks on Board.

Boxing fans all over Canada and the United States will be interested to know that the great St. John champion, arrived here this morning on the Metagama. Marks was over on the other side looking things over and at the same time preparing for his coming bout in Philadelphia with Charlie White. It will be remembered that Marks and White met in Madison Square Gardens in a bout arranged by Tex Rickard when Sid took the count. He is anxious to meet White again and feels that now being in better shape he stands a good chance to give a come-back bout. "I wanted to get away and forget that knock-out," he said today, "I am now in great condition and will justify the confidence of my friends." Marks is a well known boxer and has met many of the leaders in his class. While on the other side he met Mike McTigue. He said that Mike was going strong and was living up to his reputation, having put the K. O. on several top-notchers in Paris. Marks is a Canadian having been born in Winnipeg.

Marks met Sergeant Detective Fowler at the dock this morning and after a shake hands the two went into reminiscences of the boxing game. The passengers for the most part going west, were despatched to their destinations by two special trains. The first left at 12.30 taking the cabin passengers while the second train at 2.30 carried the third class passengers. Of the 517 third class passengers there were 378 persons who are coming to this country as settlers. They were mostly of Scotch and English birth. They are destined, for the most part, for the prairie provinces.

The Metagama will resume her old call at Belfast on her sailing of February 15 from Glasgow. Advice received from Belfast state that this direct service between Northern Ireland and Canada is expected to prove of great value and also in regard to the mail service between the two countries, as it has hitherto been the practice to send the Irish mails to Liverpool and other ports, whence they were forwarded to this country. Acting on instructions received from the secretary of the Post Office Department in London, the new system of dispatch direct from Belfast will now be introduced, and a service of at least twenty-four hours thereby effected. By the new route letters can be posted at the general post office, Belfast, until 8.45 on the morning of sailing day for the Canadian Pacific steamships.

Belfast becomes a port of call on both the eastbound and westbound trips of Canadian Pacific liners sailing between Montreal and Glasgow, instead of only the westbound as formerly. The calls at Belfast, which in the case of those eastbound mean the inauguration of a new passenger service from Canada to Ireland, will be made by the Metagama, Marburn and Marloch, and will be commenced with the sailing of the Metagama from Montreal, bound for Belfast and Glasgow, on May 3.

DIED IN BOSTON.

Mrs. Charles Odell of this city, has received news of the death of her sister Mrs. Stanley Lewis, which occurred on January 2 at her home in Boston. She leaves to mourn her husband and three small children, her mother, Mrs. Ruby Earle, of this city; three sisters, Mrs. Odell, Mrs. Percy Earle of St. John, and Mrs. John Shay of Maine and three brothers, George and James Earle of St. John, and William, of Nova Scotia. Burial took place in Boston.

CHARLES L. SMITH MARRIED.

At the home of the officiating clergyman, Rev. L. A. Fenwick, on Wednesday evening, Mrs. Susie Gilman, formerly of Pictou, but lately residing in Woodstock, was united in marriage to Charles L. Smith. Mr. Smith was a member of the Legislature at one time postmaster at Woodstock, father of the N. B. United Farmers' movement and first president of the same. He owns a ranch in Alberta and one of the best farms in Carleton county.

During the months of January, February and March our stores will close at one o'clock on Saturday.

\$14.95 Regular \$30, \$35, \$40

Table with 2 columns: CHESTERFIELDS, RAGLANS-BELTS. Lists prices for various coats and suits.

Sale of Boys' Overcoats, 4th Floor. Sale of Skating Boots, Street Floor.

OAK HALL - SCOVIL BROS., Ltd. King St. Germain St.

January Sale BARGAINS

Some of the most remarkable values among the mark-downs are in large easy chairs and rockers. Not the ones made to sell cheap, but the big, comfy, luxurious ones which always are the most popular in the home. Ones that seem to have the drawing power of a magnet, so surely are the tired ones who come in drawn to their welcoming depths. Sometimes we sell part of a Chesterfield suite, leaving one chair in a covering which cannot be matched and, as we cannot complete the suite we are compelled to reduce prices of the odd pieces, in many cases offering them below cost. If you are looking for supreme comfort, come and look over the red tags.

A. Ernest Everett THE HOUSE FURNISHER 91 CHARLOTTE STREET.

A Magee Discount

Means much more to shoppers of thrift and forethought than seemingly large discounts

FOR OVER HALF A CENTURY Without question thousands of seekers for Furs of the most desirable qualities have come here, inspected, purchased, and then and there fast friendships have begun.
