AN OLD MAN'S STORY.

His Friends Had Given up Hope of his Recovery.

Mr. George Rose of Redversville Relates the Story of his Suffering and Release—Perils as Well as his Recovery.

From the Daily Ontario, Belleville.

Four miles west of Belleville, in the county of Prince Edward, on the southern shore of the beautiful and picturesque Bay of Quinte, is situated the village of Redversville, a charming place of about four hundred population, composed quite largely of retired farmers. Of late years the picturesque location of the village has given it some prominence as a summer resort, where may be enjoyed the cool health-giving breezes of the bay. But even in this charming locality disease finds its way, and when the epidemic of la grippe swept over Canada, Redversville was not spared a visitation. Among those attacked was Mr. George Rose, a life-long resident of the village who had already reached the allotted span of life. Mr. Rose had enjoyed remarkable health until he was taken down with an attack of la grippe, when grave fears were entertained for his recovery. In a few months he recovered sufficiently to again move about, but not with his accustomed vigor. Mr. Rose had scarcely regained his health when he was seized with another attack of this dread disease, worse than the first. This had a telling effect upon him and his family feared consumption had claimed him for a victim. A physician attended him regularly but seemed unable to give him any relief. However, all that medical skill could do for him was done, but daily Mr. Rose's condition grew worse, and in March of this year his condition was so low that his family, like himself, had given up hope of his recovery. During the last month the general talk about the village and the surrounding country has been the remarkable cure of Mr. Rose by the use of Dr. Williams' Pink Pills. The case created such a sensation that a reporter of the Ontario personally acquainted with Mr. Rose, determined to call on him, and learn the facts of the case from his own lips. Mr. Rose was found a picture of health and activity for one of his years, and expressed his entire willingness to tell his story for the benefit of others. "I am," he said, "a well man, and do not hesitate to give the credit to Dr. Williams' Pink Pills for saving my life. I had three attacks of la grippe and continued to grow worse up to March of this year. At that time I was so reduced in flesh and strength I could hardly stand alone. In fact I was a mere skeleton. I could not eat because I had no appetite. I could not sleep because my legs and feet became so badly swollen and cramped that my wife would have to rub them before I could get rest. The pain was at times so violent that I could not refrain from screaming, and I would tumble about in bed and long for day to come. If I attempted to get up and walk I was apt to fall from all dizziness. I took medicine from the doctor, but it did not help me and I was so discouraged that I felt death would be preferable to my misery. I did not think I could live more than a few months when one day I read in the paper of the cure of a man whose symptoms were like mine. I must say I did not have much faith in the remedy, but felt as though it were a last chance. I sent first for a box and by the time it was half gone I found that my appetite was getting better, and in other respects I could notice an improvement in my condition. By the time the box was gone there was a still further improvement. I continued the use of the pills, found that I could now get a good night's sleep and that the cramps and pains which had formerly made my life miserable had disappeared. The swelling left my limbs, the dizziness disappeared and I felt better than I had in four years. I know that it was Pink Pills and them only that brought about the change because I was taking nothing else. I have taken in all seven boxes and I feel as good now as I did at forty years of age. Last winter I was so bad that I could not do my own chores, and now I can do good days work. My friends congratulate me on my regained health and I don't hesitate to tell them that I owe my life to Dr. Williams' Pink Pills. Many others hereabouts have found similar benefit. Last spring my niece was looking pale and feeling weak, and I advised her parents who were very uneasy about her to try Dr. Williams' Pink Pills. The result is that she has the picture of health. You may say that I would not be without Pink Pills in the house, for I firmly believe they will do all that is claimed for them if they are given a fair trial. In fact it appeared that Mr. Rose could not say too much for Pink Pills and as the reporter drove away he again remarked, do not forget to say that I owe my life to Dr. Williams' Pink Pills. In conversation with several residents of the village the statements made by Mr. Rose were fully corroborated. Druggists say that Dr. Williams' Pink Pills have an enormous sale, and from all quarters come glowing reports of results following their use. In very many cases the good work has been accomplished after eminent physicians had failed, and pronounced the patient beyond the hope of human aid. An anal-

ysis show that Dr. Williams' Pink Pills contain in a condensed form all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after effects of la grippe, palpitation of the heart, pale and sallow complexion, nervous prostration, all diseases depending upon vitiated humors in the blood, etc. They are also a specific for troubles peculiar to females, such as suppressions, irregularities, and all forms of weakness. They build up the blood and restore the glow of health to cheeks. In men they effect a radical cure in all cases arising from mental worry, overwork, or excesses of whatever nature. Dr. Williams' Pink Pills are manufactured by the Dr. Williams' Medicine Company, Brockville, Ont., and Schenectady, N. Y., and are sold in boxes (never in loose form by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape) at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company from either address.

SINGLES OF HONOR.

A Little Nonsense Gathered for Leisure Reading.

The average farmer's boy leaves no stone unturned except the grindstone. "Does Mr. Lynch suffer from chronic thirst?" "O, dear, no. He doesn't wait long enough."

Wife—"Dear, there is a burglar down stairs."

Husband—"Are you sure he is in the house?"

Wife—"Yes; I can see his lantern."

Husband (rushing to the window)—"Maria, this fire-escape will not hold two."

Proud Father—"Welcome back to the old farm, my boy. So you got through college all right?"

Farmer's Son—"Yes, father."

Proud Father—"Ye know I told ye to study up on chemistry and things so you'd know best what to do with different kinds of land. What do you think of that flat medder there, for instance?"

Farmer's Son (joyfully)—"Cracky, what a place for a ball game!"

The author of "A Man of Letters Under the Empire and the Restoration" tells a story which is an example of delicate but cutting French satire.

A glutton who was conspicuously over-eat at a dinner exceeded himself from time to time by quoting the poet Boileau's well known line, "In eating will I praise the food."

At, sir, said one of the guests, significantly, you carry praise to the point of flattery.

The tramp sat on the kitchen doorstep gnawing a bone, and evidently enjoying himself. The lady of the house was watching him carefully.

You are well and strong, aren't you? she asked!

Quite so, lady, thanks to a beneficent Providence, he said reverently.

Why then don't you work for a living instead of begging for it?

He finished the last sliver of meat on the bone, wiped his mouth on his sleeve and looked into her face frankly.

Well, Madam, he said with precision, I've tried working, and I've tried begging, and I discover that people find more fault with the work I do than with the begging I do, so I have concluded to choose the lesser evil, and stick to it. After all, in this world, you can't please everybody. Thanks for the lunch. Good-by, and he went away.

After Breakfast

To purify, vitalize and enrich the blood, and give nerve, bodily and digestive strength, take Hood's Sarsaparilla. Continue the medicine after every meal for a month or two and you will feel "like a new man." The merit of Hood's Sarsaparilla is proven by its thousands of wonderful cures. Why don't you try it.

True Philanthropy.

TO THE EDITOR OF THE GLOBE:

Please inform your readers that I will mail free to all sufferers the means by which I was restored to health and manly vigor after years of suffering from Nervous Weakness. I was robbed and swindled by quacks until I nearly lost faith in mankind, but thanks to heaven, I am now well, vigorous and strong. I have nothing to sell and no scheme to extort money from anyone whomsoever, but being desirous to make this certain cure known to all, I will send free and confidential to anyone full particulars of just how I was cured. Address with stamps:

Mr. EDWARD MARTIN (Teacher), P. O. Box 148, Detroit Mich May 20-4m.

Are You Deaf.

Or do you suffer from noises in the head. When send your address and I will send a valuable treatise containing full particulars for home cure which cost comparatively nothing. A splendid work on deafness and the ear. Address: PROF. G. CHASE, Orilla, Ont.—13t.

HENRY B. CUNNINGHAM, Boston, Mass.

THE CHILDREN'S FRIEND.

Skoda's German Soap and Skoda's Ointment.

Should Always Find a Place in the Nursery!

SKODA DISCOVERY CO.

GENTS—We cannot be too grateful for the benefit our little babe derived from the use of SKODA'S REMEDIES. When less than 9 months old, his face broke out with a Terrible Eczema. The itching and burning caused him to scratch so much that his cheeks became raw, and bled considerably. He suffered extremely. We gave him 3 drop doses of the DISCOVERY internally, used the SOAP and OINTMENT externally, and in a few weeks he was perfectly cured, and is to-day a rugged, healthy boy.

Respectfully,

MRS. & MISS H. B. CUNNINGHAM, Belfast, Me.

No REMEDIES in the world equal SKODA'S, for Blood and Skin Diseases. Endorsed and used by Physicians, are they not worthy your trial? SKODA DISCOVERY CO., WOLFFVILLE, N. S.

At the Ball.

A COMPLETE STORY

I don't know; but to look at her, I should as soon suspect one of those long, pale saints of the early masters, of flirting. That light gold hair of her's is a regular saint's aureole; and she is tall, so light, so fair, so pale-rose pink, you don't think of her in connection with the world, the flesh and the devil.

And Jack Murray?

That murmured a male voice on the other side of the swinging curtain of woven roses.

But the tall, slight shape beside the murmurer made an imperious motion, as if she would have laid the tip of her fan on his lips, for, owing to the figure of the place just then.

Oh, it isn't merely Jack Murray, continued the first speaker, in the candid tone of the chaperon, between her lips. Jack himself is safe enough. You never knew a Murray of that branch condescend to a messalliance.

The old lady murmured the male voice again. Can't we get away from here?

You see whether we can or not, replied his companion, coolly.

But, do you know, the placid tones purred on, I fancy that Jack is in earnest here.

Impossible. He assured me himself, a year ago or more, that he passed away the time only. Jack has seen the world, you know.

Beautifully music this, is said the very discomfited listener. I should think they were all asleep and playing in a dream. Again the motion with the fan.

The others may be in earnest or not, rippled on the gossip dame. At any rate, they're in earnest about her money. If you don't fall in love with a woman herself, you can with her stocks and bonds. She's not bad herself.

But! Felicia Dann? She's a beauty. Thanks, awfully, whispered the two red lips on the other side of the fragrant screen. What a pity I didn't know I was the theme, so that I could have been more attentive. Ah!

But she's a nobody, you know, the unconscious speaker went on. Fortune made out of mineral oil, or natural gas, or petroleum paint, or something.

But the money is clean. How is she? Any breeding, any schooling?

All there is. Trained to the turn of an eyelash. You would never imagine, to see her, that she was only one of the groundlings; a princess hasn't a better carriage.

Perhaps Prince Hegeralya takes that into account?

Prince Hegeralya? Do you think one of those foreign people takes anything into account in relation to a girl but her dowry?

Well, what does Van Bynt think of, and Deshon, and young Exminister, and the other men dancing round her? They're not men to be attracted by saints and aureoles. But Jack Murray by the way, says that this foreign person is a prince among men as well as among nobles.

Oh, very like, but I doubt if he would look twice at this Felicia Dann, if she were a penniless girl.

POOR DOCUMENT

HORSE NOTES.

Billy Wilton (2.20).
Nancy Hanks (2.04) is improving.
Lots of matter crowded out this week for lack of room.
This appears to be an off year for Belle Hamlin, 21.23.
C. T. L. will now be campaigned by trainer John Riley.
Tennessee beats the world for turning out fast game pacers.
Director (2.17) has another fast pacer in Direction (2.14).
The Interstate Fair at Elmira, N. Y. opened on the 5th inst.
It was a good day for the Directors at Fleetwood on the 30th.
Philadelphia is to have a great trotting meeting, beginning Sept. 24th.
Ledy Thompson, by Simmons (2.28), has been added to Henry Titer's string.
There will be a four days meeting at Homewood Park, Pittsburg, Pa., beginning Sept. 19th.

The noted pacer colt Victor Mazzone has been very sick from lung troubles, but is recovering.

Administrator Wilkes, by Alcantara, reduced his record to 2.25 1/4 at Binghamton, N. Y., on the 28th ult.

The third annual meeting of the Greenville (Pa.) Agricultural Society will be held at Greenville, Sept. 19-22.

Don't forget that the New Hampshire Breeders' meeting opens at Concord, N. H., next Tuesday the 5th inst.

Ed Geers evidently has three of a kind in Hal Pointer (2.04), Hal Dillard (2.09) and Hal Braden (2.11).

The Bowdoin Stables is the name of the syndicate which lately bought the Habinger Bros.' stable of campaigners.

The price paid for the stallion Dark Night was \$8000 instead of \$24,000 as first sent out by some enterprising reporter.

Hickock says he would not advise Mr. Sprickles to match his wonderful mare Hulda (2.08) against Nancy Hanks.

Brown Hal has had an ailing leg. If he can handle it as well as Hal Pointer manages his he will do for the races with.

Independence (2.21 1/4), by Gen. Knox (2.31 1/4) dam, Skip, the dam of Clemons (2.29 1/4), is now owned by William Riley, Stamford, Ct.

The managers of the Philadelphia Driving Park claim dates Oct. 10, 11, 12 and 23 for their fall meeting.

The bay mare May Wilkes by Guy Wilkes (2.12) took a record of 2.24 at Binghamton, N. Y., Aug. 16.

The expert judge of trotting and road stock Mr. R. W. Goodrich of Poutney, Vt., is now in Chicago and will award the prizes to Morgan at the World's Fair exhibit.

About 850 trotters and pacers have already entered the 2.30 list this season, an increase of more than 40 per cent above the number of new additions at this time last season.

Secretary J. H. Steiner of the American Trotting Association is after the ringers, and he's catching them too. The trotter Maj. Eddy proves to be Stanton Chief (2.27).

Danourt by Ambassador (2.21) showed himself to be a good three year old at Independence, Ia., on the 29th inst., where he won a three year-old trotting race in 2.21, 2.21 1/4.

Pelrine by Madrid, won the 2.25 trot at Lexington, Ky., on the 29th, getting a record of 2.19, but Glass, by Onward (2.25) won the two-year-old trot on the same day. Best time 2.26 1/4.

The three-year-old filly Rose Leaf (2.27) has not so fast a record as some of the three year olds out this year, but has won all her races, we believe and most of them have been on half-mile tracks.

Red Pointer, a two-year-old son of Red Wilkes, dam Minnie Paeben lately trotted a half in 1.08 1/4. He is owned by W. C. France & Son, Lexington, Ky., and is rated capable of a mile in 2.15 this season.

Walter E. seems to be doing pretty well for a trotter brim full of running blood, several straws of which came from Old Diomed, through his best representatives like the great four-mile winners, American Eclipse and Wagner.

If report is correct some miserable wretch poisoned the trotting mare Bessie Benton 2.20 1/4, at the fair grounds Worcester, on the night of the 23rd instant. No punishment is too severe for a misdeed of that sort.

Tennessee is a great country for pacers. They have just unearthed a green one there that was recently jugged a half mile in 1.01, and Brown Hal is his sire. When Hal Pointer's leg gives out again the old hero can get a substitute in this chap.

The two-minute trotter is in sight. C. W. Williams says that Elmore by Axtell (2.12), dam by Allerton (2.09 1/4), trotted an eighth of a mile at a two-minute gait in her race at Independence, and only two weeks after she won a foal at that.

Quartermaster (2.21) has a new performer in Woodwin, which took a record of 2.29 1/4 at Poughkeepsie, N. Y., recently, and will soon have another in the three-year-old Lady June, which won a race at the above place, getting a record of 2.31 1/4.

Russella, full sister to Mand S. (2.08 1/4), will be bred to Lancelot (2.23) this season. She is owned by Robert Bonner and lately dropped a foal by Starkire, brother to Major (2.15) After she raises a foal by Lancelot we would like to see one from her by Ansel (2.20).

Caraloid, by Simmons (2.28), trotted a mile in 2.10 1/4 at Grand Rapids, Mich., on the 21st. This horse is to be sold by auction at Tattersalls of Chicago next month, together with a

number of other fast ones, including Vassar, which lately reduced his record to 2.14 1/4.

Hon. Warren F. Daniell of Franklin, N. H., struck a good-sized bonanza when he bought the fast mare 23th H. (2.22 1/4), by Decalton (2.22), and also got a prize when he bought Much Ado (2.29 1/4), by Judge Salisbury. The latter is by Nutwood (2.18 1/4); dam by Voltmeter.

Felix Conlan, Eq., of Cambridge has a brood mare that has broken the period of gestation record for this season so far as heard from. At the end of 12 months and 10 days from the time of mating she produced a filly. It was formerly thought that long periods of gestation always resulted in male foals.

Keller by King Rene, dam, Ada Wilkes, by George Wilkes, got a record of 2.13 at Independence, Ia., last week, yet he was from a mare not standard by breeding. The same is true of the dam of Delmarch (2.14), and yet these two non-standard mares have produced faster trotters than any other two daughters of George Wilkes.

Orrin Hickock who gave Hulda her race record of 2.08 1/4, says that Silverone (2.19 1/4), by Alyone (2.27), could speed faster than any other trotter he ever sat behind. This confirms Percy Talbot's statement to the writer a few years since. Mr. Talbot thought her capable of taking a record of 2.10 before the bike was invented.

A gentleman's driving club was recently organized at Claremont Junction, N. H., with G. W. Race president, and a meeting will be given under its management Sept. 29 and 30. The purses are \$50 for local trot and pace, \$200 for 2.45 trot and pace, \$250 for a three-minute trot and pace, \$200 for 2.37 trot and pace and \$300 for 2.21 trot. Entries close Sept. 18, with S. G. Whitmore secretary.

The opening of the Ware Driving Park a few weeks since was a pronounced success. Over 1600 people were present. The horse men all spoke well of the new track. The celebrated stallion Autograph (2.17), by Alcantara, owned by the Muter Hill Farm, New Braintree gave an exhibition between the heats.

Mr. W. J. Howes lately had the misfortune to lose his noted brood mare Nellie by Daniel Lambert; dam by Woodburn Pilot, son of Pilot Jr. Nellie Lambert's foals were all fast trotters. She was the dam of Ruth Wilkes 2.20 1/4, Madge Wilkes (3) 2.23 1/4, Juno Wilkes 2.29 and Joe Alyone, which has trotted low down in the 20s in races, and will be the list this year without doubt. Mr. E. D. Kimball of Mt. Auburn probably owns a good filly by Victor Wilkes 2.29 1/4 as Nellie Lambert ever produced.

Elmore by Axtell (2.12), dam by Robert McGregor (2.17 1/4) grandam Belle, by George Wilkes, is a wonderful young mare. Last season she was mated with Allerton (2.08 1/4), and was trained and given a trotting record of 2.26 1/4. This year she produced a foal which was weaned about three weeks. She was then put in training and started in a race at Independence, Ia., on the 25th inst., where she drove the winner out in 2.21 in the first heat and got second money. The name of George Wilkes appears four times in the pedigree of the foal which she produced this season.

Trainer Frank Meehan, who has been handling Hon. Frank Jones's trotters, is now at B. D. Whitcomb's Stock Farm in New Hampshire educating the young Woodbrink. Meehan says that the two year colt which George W. Lewis bought for Mr. Jones in Kentucky last year as a yearling, has speed enough to beat the best two-year-old out this year. After Mr. Jones bought him the colt had distemper, and it settled in one hind ankle, which may prevent his being started this season. He could show halves as a yearling in 1.13.

The question is sometimes asked whether the trotters which are going so fast to bicycle sulkies may not prove disappointments as roadsters when started up in a brush pulling a road wagon. The veteran breeder, B. D. Whitcomb, lately expressed his belief that many of them will, and others have that opinion.

Some think that a horse in order to be a good weight puller must be above the average size. This is a mistake. Hopeful, which held the wagon record, 2.16 1/4, for years, was only 15 hands high, yet Mr. Whitcomb, who bred him and drove him on the road before his speed was developed says that Hopeful was one of the best weight pullers that he ever saw, and so was his dam. Mr. Whitcomb, by the way, has a two-year-old, full brother to Vega that promises to be faster than Hopeful was when at his best. He is a gelding and a full brother to Vega (2.23 1/4). He is as handsome and racy looking as Nancy Hanks and resembles her considerably in conformation. He is a toney chap and it may take some time to make a steady-going, reliable trotter out of him, yet he don't get any near excesses of running foolishness through his dam, as does Dr. Ham's Lordbrink, which got a three-year-old record of 2.26 1/4 last year and is as level headed as the best of them. Mr. Whitcomb says that this brother to Vega (2.23 1/4) is the fastest trotter of his age and handling that he ever bred or ever saw. His dam is a low-set, blocky animal, about 14.3 hands, high, but full of snap and vim.

The superior quality of the Forbes Farm trotters was clearly shown at Hampden Park, Springfield, on the 25th ult., when Nellie McGregor, by Robert McGregor, won the 2.19 race in 2.14, 2.16, 2.17, and Nancy Hanks trotted a mile in 2.08. Mr. J. Malcolm Forbes was there and saw his wonderful mare trot for the first time. He was absent from Boston when she trotted at Mystic Park in 2.08 1/4. Doble rated her very differently at Hampden Park than he did at Mystic.

At the latter place he was at the three-quarter pole in 1.35 and came the last quarter in 33 1/2 seconds. At Hampden Park the time of the three quarters was 1.36 1/4 or 1/4 seconds slower than at Mystic. She evidently trotted the last quarter at Springfield in 31 1/2 seconds or 2 1/2 seconds faster than the last quarter at Medford.

After the three-year-old class had been called at Fleetwood on Tuesday, and while they were going up to score, Budd Doble drove Nancy Hanks down the stretch past the judges, and grand stand. He pulled the noted mare up, turned her, and was jogging slowly up the track by the grand stand as the colts came down. Applause from the grand stand caused him to bow acknowledgments, and resulted in a collision, which hurled the driver of one of the colts to the ground. The colt was quickly caught however, and but little damage resulted. It was a close call for the trotting queen and her driver. Had it been some driver who is but little known, like Bard Halmer, for instance, instead of the veteran Doble, how some of the turf papers would have scored him. There ought to be a rule forbidding the exhibition of any horse upon the track while a race is in progress.—An Horse Breeder.

SPORTING NEWS.

The History of the American Cup and its Committees.—The Coming Races.

In connection with the coming races for the American cup it may be well to correct a very erroneous idea about the manner in which the cup was originally given and the honors it was supposed to bring to its possessor. It was not by any means intended as a trophy of the supremacy of the sea, but was given as a mark of courtesy to the owner of the "American" in recognition of the long distance he had, and because he claims that the conditions of the open races in which he had intended to enter, were unfair. The English boats which at the time competed could hardly be considered representative English flyers.

The race, which was held on the 28th inst., and will be the greatest international yacht race that has ever taken place, and there certainly was never more interest taken on both sides of the water in any previous competition of the same kind.

The Cup's History

in brief is as follows:
On August 22, 1851, the American yacht America won the prize known as the American cup in a race round the Isle of Wight, England, starting from Cowes without time allowance. The cutter Aurora, 47 tons finished second. None of the other starters finished, viz, Schooners: Beatrice, 151 tons; Wyvern, 205 tons; Ione, 75; Constance, 218 tons; Gypsy Queen, 160 tons, and Brilliant (3 masts), 392 tons. Cutters: Volante, 48 tons; Arrow, 84 tons; Alarm, 198 tons; Mona, 82 tons; Bacchante, 80 tons; Frank, 60 tons, and Edipse, 50 tons. The America was rated at 170 tons.

1857.—The America's cup was presented to the New York Yacht Club by its owners, Messrs. J. C. Stevens, Hamilton Wilkes, J. Beckman Finley, and George L. Schuyler, as a perpetual challenge cup.

1870.—August 8. Mr. Ashbury's schooner Cambria, representing several English yacht clubs, started against a fleet of schooners representing the New York Yacht club over a course from off Stapleton, Staten Island, to and round the New York Lightship, a distance of about 40 miles. The Magic won sailing the course in 3 hours 58 minutes and 26 seconds. The original America was fourth in 4 hours, 23 minutes and 51 seconds and the Cambria tenth in 4 hours 37 minutes and 28 seconds.

1871.—The conditions have been changed so that the New York Yacht club should name a competitor to sail against the challenging yacht, best of seven races, Mr. Ashbury having challenged for the cup with his schooner Livonia, the results were as follows:

October 16. New York Yacht Club course, schooner Columbia beat Livonia by 57 minutes and 4 seconds.

October 18. Outside course, 20 miles from Lightship and return, dead to windward, Columbia won by 10 minutes and 28 seconds.

October 19. New York Yacht Club course, Livonia beat Columbia (disabled) by 15 minutes and 10 seconds.

October 21. Outside course, schooner Sappho beat Livonia by 31 minutes and 21 seconds.

October 23. New York Yacht Club course Sappho beat Livonia by 25 minutes and 27 seconds.

1876.—August 11. New York Yacht Club course schooner Madeline representing the New York Yacht club, beat the Canadian schooner Countess of Dufferin by 10 minutes and 59 seconds.

August 13. Outside course, 20 miles to windward from Sandy Hook and return. Madeline beat Countess of Dufferin by 27 minutes and 14 seconds. The America sailed over the course on this race, and finished 19 minutes and 9 seconds in front of the Countess of Dufferin.

1881.—November 8. New York Yacht Club course, sloop Mischief representing New York Club, beat the Canadian sloop Atlanta by 28 minutes and 30 seconds.

November 10. Outside course, 16 miles to leeward from buoy No. 5 and return to windward.

"Mischief" beat the "Atlanta" by 38 minutes and 54 seconds.

1882.—In the winter of 1881-82 the "America's" cup was returned by the New York Yacht Club to the only surviving original owner, Mr. George L. Schuyler, who again presented the Cup to the Club with amended conditions that required the challenging yachts to represent an organized yacht club having its annual regatta over an ocean course, the yacht to be not less than 30 tons and not more than 50 tons. Continued on Page Three.

NEW UNDERTAKING ESTABLISHMENT.

TO the Citizens of Fredericton and Surrounding Country:

The Undersigned wishes to inform the Citizens of Fredericton and Surrounding Country that, having secured the services of A FIRST-CLASS MAN AS UNDERTAKER, he is now in a position to fill all orders with which he may be favored.

I HAVE NOW ON HAND A LARGE ASSORTMENT OF

COFFINS AND CASKETS IN OAK, WALNUT, FRENCH BURL AND CLOTH COVERED.

As I Manufacture Caskets and Coffins on the premises, I claim to be in a position to sell the same quality of goods cheaper than can be purchased elsewhere in the city.

A Full Stock of Shrouds, Gloves, etc always on hand.

A First-Class Hearse in Connection with the Establishment

ALL ORDERS BY MAIL, WIRE, OR TELEPHONE WILL RECEIVE PROMPT ATTENTION. Special Rates for Country Trade

W. J. SCARR, Funeral Director and Undertaker.

No 14 YORK STREET. TELEPHONE 53.

I would call your attention to the fact that I am prepared to attend to all orders for Cabinet work and the Repairing of Furniture. All such work called for and delivered any where in the City free of Charge. W.J.S.

Watches and Jewelry

WANTED--A WIFE
Beautiful and with a Clear, Healthy Complexion

Of course every man wants his wife to be beautiful; but how can she be beautiful if her face and hands are disfigured by pimples, freckles, tan or eruptions? Nothing will throw such a damper on love as a blemished face.
By the use of "GEM CURATIVE SOAP," an article which combines the best known remedies for the cure of all cutaneous diseases, a refined healthy complexion is assured.
When O.E.M. CURATIVE SOAP is used according to directions the effects are marvellous and gratifying. Time has proven this to be true, as thousands of the most flattering testimonials are on file from customers in England, Scotland, France and Germany, in which countries the Soap is a staple toilet article.
For Thirty Days Only

Write this sentence on a piece of paper
I give twenty cents for a sample cake of Gem Curative Soap.
To the first lady from whom a slip is received will be given a handsome Seal Skin Mantle, valued at \$300.00, or its equivalent in cash, less 20 per cent. To the first Gentleman from whom is received a similar slip will be given an 18-karat Gold Watch set with one karat diamonds. Appleton & Tracy's movement, valued at \$250.00.
In addition to these, we have prepared five thousand sample cakes numbered 1 to 5000. Every number ending with nought (0) will receive a prize valued at not less than \$10.00. Sample cakes postpaid. All goods for the United States free of duty.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE
ARE NOT a Pur-
sive Medi-
cine. They are a
Blood Purifier,
Tonic and Expectorant.
They are
as strong as they
supply in a condensed
form the substance
usually needed to en-
rich the Blood, coming
from Poon and War-
rent Blood, or from
Purified Huxams in
the Blood, and also
the Blood and
System when broken
down by overwork,
mental worry, disease,
excesses and indiscre-
tions. They have a
SPECIAL ACTION on
the SEXUAL SYSTEMS of
both men and women,
restoring LOW VIGOR
and correcting all
IMPERFECTIONS and
DISORDERS.

EVERY MAN who finds his mental fac-
ulties dull or failing, or
his physical powers flagging, should take these
Pills. They will restore his lost energies, both
physical and mental.

EVERY WOMAN who finds her
system unregular, or who
suffers from nervousness,
irregularities, or other
ailments, should take these
Pills. They will cure the
system, and strengthen the
body.

YOUNG MEN who find their
system unregular, or who
suffer from nervousness,
irregularities, or other
ailments, should take these
Pills. They will cure the
system, and strengthen the
body.

The Cup's History
The History of the America's Cup and its
Competition—The Coming Race.
Continued from page 2.
than 300 tons, measured by the Custom
House rule of the country of the chal-
lenging party, which must proceed under
sail on their own bottoms to the part
where the contest is to take place.

1885.—September 14. New York
Yacht Club course, sloop "Puritan" re-
presenting the Eastern Yacht Club
beat cutter Genesta representing the
Royal Yacht Squadron, 16 minutes and
19 seconds.
September 16. Outside course, 20
miles to leeward and return. The return
was not strictly to leeward, owing to the
wind shifting. Puritan beat Genesta 1
minute and 38 seconds.
Note.—Four other attempts were made
to sail these races, all of which were
failures.

1886.—September 7. New York Yacht
Club course, sloop Mayflower, represent-
ing the Eastern Yacht Club, beat cutter
Galatea, representing the Royal North-
ern Yacht Club, 12 minutes and 2
seconds.
September 11. Outside course, 20 miles
to leeward and return; Mayflower beat
Galatea, 29 minutes and 9 seconds.
Note.—Two other attempts were made
to sail these races—both were failures—
in one of which the course was sailed,
the Mayflower winning, but not within the
fixed time of 7 hours.

1887.—September 27. New York Yacht
Club course, sloop Volunteer, represent-
ing Royal Clyde Yacht Club, 19 minutes,
22 seconds.
September 29. Outside course, 20 miles
to leeward and return, Volunteer beat
Thistle, 11 minutes, 47 seconds.
After the races the deed of gift was
again amended—the

More Important Changes Being:
to limit the challengers to sloop or cutters
of not less than 65 nor more than 90 feet,
and schooners of not less than 80 nor
more than 115 feet on load water-line;
that the races shall be sailed without
time allowance; that the challenging club
shall give ten months' notice; and that
all races shall be on ocean courses, free
from headlands, as follows: first race, 20
nautical miles to windward and return;
the second race an equilateral triangular
race of 30 nautical miles, the first side
of which shall be a beat to windward; the
third race, if necessary, 20 nautical miles
to windward and return.

1888.—The changes in the deed of gift
as above described were deemed so un-
satisfactory both at home and abroad
that the following resolution was adopted
at a general meeting of the New York
Yacht Club, held May 27—
Resolved, That the terms under which
the races between the Genesta and Pur-
itan Galatea and Mayflower, and Thistle
and Volunteer were sailed are considered
satisfactory to this club, and a challenge
under these terms would be accepted, but
with the positive understanding that if the
cup is won by the club challenging it
shall be held under and subject to the
full terms of the new deed, dated Octo-
ber, 28, 1887, inasmuch as this club
believes it to be in the interest of all
parties, and the terms of which are dis-
tinct, fair and sportmanlike.

The Secretary was directed to forward copies
of the resolution to British yacht clubs.
1889.—In May the Royal Yacht Squadron
of England, on behalf of Lord Dunraven,
challenged the New York Yacht Club for
the America's Cup, naming the cutter Valkyrie.
There was considerable correspondence, but,
owing to some misunderstanding as to the
terms of the deed of gift by the challengers,
the whole matter went over, Lord Dunraven
writing to the New York Yacht Club under
date of August 16, I regret the postponement
but trust the matter may yet come off.

1890.—The season opened with a renewal
of hostilities between Lord Dunraven and
the New York Yacht Club. The former wrote
to ask if his challenge of the previous season
had not been considered as merely postponed,
and wanted to know if he were still regarded
as a challenger. The Club took a dignified
stand, and replied that it would be pleased
to waive the ten months' limit again, but that
he must issue a Challenge.

In the name of a recognized yacht club, with
a supplemental statement to the effect that
the Club neither could or would depart from
the position taken by it last year. Lord Dun-
raven's reply was that the Royal Yacht
Squadron in the event of becoming a winner,
could not pledge itself to sail all future con-
tests under the terms of the objectionable deed
of gift. This ended the negotiation. The
death of Mr. George L. Schuyler, the last
donor of the cup, makes the new deed of gift
irrevocable, though Mr. James Ashbury has
written the World that he intends to carry
the matter before the United States courts
and contest the legality of a change made in
the original instrument by which the Cup
was given into the custody of the New York
Yacht Club. There were rumors in the
autumn of a boat being built by Colonel
North in England, one by a syndicate of
yachtmen in France and another in Australia,
to challenge for the Cup, but none had ma-
terialized when the year closed.

In October, 1892, Lord Dunraven wrote the
American Yacht Club respecting the deed of
gift and the terms upon which he would sail
for the Cup.
The terms under which Lord Dunraven de-
sires to sail for the cup are exceedingly sim-
ple, and, if they are agreed to, there can be no
misunderstanding, as was the case when he
sent his last challenge. He asks that he be
allowed to challenge, only giving the water-
line length of his boat, the Custom-house re-
gister to follow as soon as practicable. He
also asks that the following conditions be
made in addition to those in the deed of gift:

TEACHER'S COLUMN.

Devoted to the interests of the
Provincial Teachers.

In Which We Publish the En-
trance, Monthly and Final Ex-
amination Papers Used in
the Normal School.

This Column is Open For Communications,

terest to Every Teacher—Teachers Wish-
ing for Information. Any School Ques-
tion Can Obtain the Same by Enquiring
Through This Column.

NORMAL SCHOOL.
The Supplementary Entrance Examination
Papers.

The supplementary entrance examina-
tion held in the Normal School on Friday
of last week proved a little too much for
most of the applicants for admission,
the majority of them being placed.
The following papers were given—

CLASS I. Time, 1 hr. 30 min.
1. What is the usually accepted theory
of ocean tides? Account for the differ-
ence in height of the tides on opposite
sides of the Isthmus of Chignecto.
2. Define a river basin; A river sys-
tem; A river valley.
3. Fredericton is, approximately, in N.
Lat. 45, 55', W. Long. 66, 37'. What is the
latitude and longitude of its antipodes?
Give the position of the latter on the sur-
face of the globe as nearly as possible.
What would be the difference in seasons,
climate and time of the two places?
4. What natural and artificial advan-
tages enable Canada to do the carrying
trade of its own North West, and to com-
pete successfully for that of the Western
States?
5. Describe as fully as you can any one
of the following rivers, viz: Congo, Dan-
ube, Euphrates, La Plata, Hudson, and
any one of the following cities viz: Alex-
andria, Bombay, Buenos Ayres, Boston,
Edinburgh.

General and British History.
CLASS I. Time, 1 hr. 30 min.
NOTE.—Answer only four of the first
seven questions, together with the last
three.

1. (a) Distinguish between anthropol-
ogy, archaeology, ethnology and
philology, and explain each of these
terms.
(b) Name eight nations whose history
belongs to the ages before the Christian
era.

2. Assign the following persons and
places to their proper localities and pe-
riods, and connect with each some notable
fact (this may be done in tabular form):
Herodotus, Nineweh, Astyages, Croesus,
Menes, Sion, Darius I, Delpi, Leonidas,
Karnak, Tiglath Pileser II, Pyrrhus,
Sargon, Clisthenes.
3. Outline the history of the Hebrews
from the exodus to return from captivity.
4. Give the names and dates of the
periods and epochs of Roman history,
from Tarquin to Theodosius; and write a
paragraph on any one epoch.
5. Write notes on the following: Sparta
and Athens—their people contrasted—
their government, and political changes—
Greco-Roman literature and art—names and
works of five great writers at Athens.
6. Give a short account of the causes,
conduct and consequences of (a) the
Crusades, or (b) the French Revolution,
with mention of important dates and
names in connection with the same.
7. Write biographical notes on two of
the following personages: Julius Caesar,
Charlemagne, Richelieu, Napoleon III.

8. (a) What do you know of the time
and manner of the bringing of Scotland,
Ireland and Wales respectively under the
crown and parliament of England? (b)
What attempts have been made to undo
this union?
9. Select two of the following topics and
write a paragraph about each: The Roman
occupation of Britain. The acquisition
and maintenance of British rule in India.
The Revolution of 1688-9. The Ameri-
can war of independence.

10. From the history of the British
Empire during the reign of Victoria,
select and name three great wars, three
great political events, three great dis-
coveries or inventions, three great gen-
erals, three great statesmen, three distin-
guished poets, three other eminent
authors.
Natural History.
CLASS I. Time, 1 hr. 30 min.
NOTE.—Six questions make a full paper.
1. Name the three principal kinds of
bedded or stratified rocks. Compare
them as to origin and composition, and
tell how they may be distinguished.
2. Name four of the chief ores of iron.
What does each of them contain besides
iron? Tell how they may be distinguish-
ed from each other.
3. What is the principal use of man-
ganese ore? What renders it useful for
the purpose mentioned? Give two locali-
ties in New Brunswick where the ore is
found.
4. Mention a plant which displays two
leaves when it first comes up, and another
in which a single leaf first appears. Ac-
count for this difference. Contrast the
leaves and stems of the two plants as to
form and structure. Refer each plant to
its proper series and class, giving rea-
sons.
5. Write a full description, including
the root, stem, leaves, flower fruit, and
embryo of a native plant belonging to the
Maple Family or the Pine Family: Des-
Continued on page 7.

RIPANS TABLETS.
RIPANS TABLETS are com-
pounded from a prescription
used for years by well-known
physicians and endorsed by
leading medical authorities
everywhere. In the Tablets
the standard ingredients are
presented in a form that is
becoming the fashion with
modern physicians and modern
patients everywhere.

RIPANS TABLETS act gently but
promptly upon the liver, stomach and
intestines; cure habitual constipation,
dispel colds, headaches and fevers.
One Tablet taken at the first symp-
tom of a return of indigestion, or
depression of spirits, will remove the
whole difficulty within an hour.
Persons in need of the Ripans Table-
ts will find the gross package most
economical to buy. It is also
in convenient form to divide up
among friends. The above picture
represents a quarter gross box, sold
for 75 cents. A single bottle can be
had for 15 cents.

**RIPANS CHEMICAL CO.,
20 SPRUCE ST., NEW YORK.**

POOR DOCUMENT

ORANGEMEN AT GAGETOWN.

A Large and Enthusiastic Gathering and an Enjoyable Day.

Speeches by Grand Master Wallace, Sam Hughes, M. P. and Others.

The Visitors Welcomed to Queens by County Master J. de Veber Neales.

The L. O. A. picnic at Gagetown Thursday was a grand success, although the Fredericton contingent was not nearly so large as was expected, the steamer Florenceville leaving here with less than one hundred excursionists including the Orangemen and the 71st band which accompanied them. The David Weston, however, arrived at Gagetown about noon, loaded to her utmost capacity, and having on board the 62nd battalion band. After dinner had been partaken on board the Weston by the distinguished visitors the grand officers went ashore, the lodges forming in the following order and marching to the grounds of J. de Veber Neales, where a platform had been erected for the accommodation of the speakers:

62nd Battalion Band.
Trinity Precatory of St. John, Wm Rogers in charge.
Baronche containing Most Worshipful Master, N. Clarke Wallace; Grand Lodge Officer of Grand Lodge of B. A., James Kelly; Past Grand Master Major A. J. Armstrong, and Grand Lodge Officer Chas N Skinner.
Sunbury County Lodge, Mr. Wilmot M. P., in charge, 71st Battalion Band,
Mr. H. H. Pitts M. P., in charge,
Mr. J. de Veber Neales, County Master of P. P., in charge, M. Chappell of York county.

The counties of York, Sunbury, Kings and St. John were well represented in the procession, while there were many from other places. On arriving at the grounds the platform was at once taken possession of by the head men of the order. P. G. M. Armstrong occupied the chair. Alongside of him sat Hon. Clarke Wallace the grand master and Sovereign of British America. Major Sam Hughes, M. P. of Lindsay the grand auditor of British America, James Kelly, the grand lecturer, H. H. Pitts, M. P., county master of York, J. de Veber Neales, county master of Queens, R. D. Wilmot, M. P. of Sunbury, Hon. C. N. Skinner, another of the grand lodge officers, John Corbett, P. G. M. of Queens, Robert Wille, P. G. T., A. Id. Geo. R. Vincent, P. G. S., A. C. Smith, M. P. P., and several others.

Major Armstrong opened the ball. He said it was a great compliment to be called upon to preside at such a gathering, where the speakers included so many distinguished members of the order. He regretted that several of the gentlemen who had been expected to be present had been prevented from attending. A letter had been received from Hon. Mackenzie Bowell, P. G. M. of British America. That gentleman was now on his way to Australia on important government business. E. F. Clark, M. P., the deputy grand master, was kept at home by pressure of business. Col. Tyrwhitt, M. P. and the grand master of Nova Scotia had also been expected. Letters received from them showed that it was impossible for them to take part in this demonstration. It was to be regretted that Grand Master Fowler of this province was detained in Kings county by legal business. The major extended to Messrs Wallace and Hughes a hearty welcome. The chairman, after some further remarks, called upon

Hon. Judge Skinner.
Mr. Skinner began with a reference to the beauties of the place in which they were assembled. The valley of the St. John was as fine a piece of country as could be found in Canada or in any part of the world. It was said by some that Canada could not become a great country because it was alongside of United States. Others said Canada would never amount to anything because it was only a colony of Great Britain. There was nothing in these statements. Canada could go ahead as it had in the past. He said our farmers were ahead of the city people. They could eat all they could not sell. People did not have to go abroad in order to be happy. They could find as much pleasure and happiness here as anywhere else. He urged them to stay at home where they will become an integral part of a great country.

He was followed by Major Sam Hughes M. P., who expressed great pleasure at regaling so many New Brunswick orangemen. He said he could not help admiring the fine stalwart men and the handsome maidens he saw before him. He thought Gagetown was a very pretty as well as being a historic spot. He dwelt at some length on the use of the Orange order, showing the principles of the institution if carried out, to be a benefit to the country and the people, civil and religious liberty going hand in hand with the advance of orangemen. He referred to Mr. N. Clarke Wallace's speech at Kingston at the close of his address.

Mr. de Veber Neales then read the following address:

To the Honorable N. Clarke Wallace, Most Worshipful Grand Master of the Grand Lodge of British America.—

In the name and on the behalf of the County Lodge of Queens county, west, I

extend to you and to the distinguished brothers who are with you a warm and hearty welcome to Queens county.

We recognize the honor you confer on us by coming amongst us on this occasion and feel confident that your visit will be productive of much good, as well as being the source of the greatest satisfaction and pleasure to your brother Orangemen of this county.

We have experienced honest pride in your noble conduct and fearless and manly attitude in regard to the home rule bill and the efforts of our brothers in Ireland to preserve unshaken their privileges and connexion with the motherland as established by our illustrious patron William Prince of Orange. And the sentiments expressed by your speech at Kingston and reiterated on the floors of the house of commons of Canada are in touch and sympathy with the feeling of every true Orangeman in this county.

We trust that you have enjoyed your year sail up the noble river St. John and that your short stay with us may be pleasant and enjoyable and that you will carry away with you happy reminiscences of this occasion.

J. DEVEBER NEALES,
County Master Queens, West.

Mr. N. Clarke Wallace then stepped forward and was greeted with great applause. After referring to the beauties of the St. John river and the recognized ability of New Brunswick gentlemen, he paid a tribute to the honesty and integrity of all true orangemen. He said the history of the orange order is that of the progress of civil and religious liberty. The Lord has always been on the side of his own peculiar people and has cared for them. In this connection he instanced the Anasada, the Gunpowder plot and the time of James II, when the Prince of Orange was raised up to save the country from an apostate king. The liberties then acquired have been given to the world, and those liberties Orange men sought to hand down unimpaired to their children. The order is to-day one of great influence and power and one which shall sway the destinies of the empire in the near future. Mr. Wilmot then made a few remarks and was followed by Mr. H. H. Pitts, who stated he had been orangeman before he was a conservative—he evidently forgot how short the time it since he joined the orangemen and his opinion of them when he was requested to publish Rev. Mr. Mowatt's sermon—and should a Catholic governor be placed over this province he threatened to leave the conservative ranks. He concluded his remarks by moving a vote of thanks to Messrs Wallace and Hughes, which was unanimously given and heartily responded to by both gentlemen.

The meeting closed with cheers for the Queen, Clarke Wallace and Major Hughes.

EVENTS AROUND US.

happenings of the Week Throughout the Province.

The water in the river still remains low. A. O. H. excursion to Calais on Monday. Boots, shoes and slippers at the Stone Boat. The Algonquin hotel at St. Andrews will close to-day.

Crews are already getting ready for the lumber camp.

The St. Croix cotton mill has been shut down this week.

The Sardinia factories at Eastport are now running full blast.

The Slipp equity case has still been going on at Hampton this week.

Nearly three hundred students have been enrolled at the Normal School.

Mr. S. K. Nason, of New Maryland, dropped dead Monday morning of heart failure.

Rev. Mr. Sykes, of Kawick Ridge, occupied the pulpit in St. Paul's church last Sunday.

Regular meeting of the K of P next Tuesday. We were a little previous in our last issue.

The Women's Aid Association held their quarterly meeting in the Church Hall, Thursday afternoon.

About four hundred excursionists came over here from Chatham on Thursday. They returned the same day.

Dr. Paton, formerly missionary in the New Hebrides, addressed a meeting in St. Paul's church Thursday evening.

The Florenceville took about sixty excursionists to Gagetown, including the Orangemen and band, on Thursday.

William E. Seery wants two coat makers at once to help make some of the new goods he has just received. He will pay the highest wages to good hands.—Adv.

The Harvest Festival meetings will commence in the Salvation Army barracks this evening. The building has been tastefully decorated for the occasion.

Only thirty-two out of the seventy-five students who underwent the supplementary examination for admission to the Normal School succeeded in passing.

The rain Thursday evening prevented a great many persons attending the social in the Free Baptist church vestry. It was repeated again last night.

Mrs. Geo. W. Hoegg entertained a number of friends at her residence Monday evening. The party was given in honor of her brother, "Fleet" Atherton, who was here on a visit.

Mr. Lewis Perley, while hurrying down Charlotte street Tuesday afternoon to catch the train for Montreal, dropped unconscious upon the sidewalk. He is now able to move around again.

A number of young ladies and gentlemen drove to Spring Hill Wednesday afternoon where they spent a most enjoyable evening. The F. O. M. W. club orchestra furnished music for dancing. The party returned to the city about midnight.

The Cathedral organ is receiving a thorough overhauling. The work is being done by Mr. Peters of St. John. The interior of the Cathedral has been repainted and now presents a very pretty and tasty appearance. The work was done under the supervision of Mr. John Payne.

The chairman of the fire committee has been authorized to sell the old "Slaby" fire engine for \$1,000, and is negotiating with Mr. W. T. Whitehead, who intends buying the engine as a speculation. The first cost of the machine was between four and five thousand dollars.

The steam pipe of the steamer Rustler burst on Tuesday, while returning from Bartibogue to Chatham with the Catholic picnic. Misses Morrison and Landry lost their lives and a number of others were fatally injured. An action has been brought against the captain of the boat.

At St. Ann's church Wednesday morning at six o'clock, Thomas E. Dyer, of St. John, and Miss Frances K. Maxwell, daughter of John Maxwell, of this city, were the principals in a very pretty and interesting event. Miss Maxwell was attended by a younger sister, while the groom was ably supported by Mr. R. H. Buchanan. Rev. Canon Roberts officiated. The happy couple left by boat for St. John followed by the best wishes of their many friends.

RACES AT SAINT STEPHEN.

Two Days of Good Trotting at the St. Stephen Driving Park. A Good Field for Calais Track.

The opening races at the St. Stephen Driving Park on Tuesday were characterized by surprises and fast time. While the day was pleasant, there was a stiff breeze blowing across the track.

The attendance was not over large. In the judges' stand were Jas Osborne, starter, assisted by Al Smith, Houlton, Me, and W. F. Todd as judges; and D. W. McCormick, proprietor of the Victoria hotel, St. John, and Geo. A. Murchie, Mayor of Calais.

At 1.30 p. m. the horses were called for the three minute class, purse \$150.00.

After a few times scoring they went away with a very even start. Mand M. led for nearly three-quarters of a mile, when Lady Jane C. held an argument with her, drawing away on the stretch and getting the heat in 2.34 1-5. E. LeRoy Willis had no trouble in winning the next three heats and the race.

SUMMARY.

3 Minute Class—\$150.00.

Rollie by Roland, Willis 3 1 1

Lady Jane C. by Edgardo, Cleland 1 4 4 dis

Mand M. by Allright, Slipp 2 2 2

Pembroke by Jay Bird, Hill 4 3 3

Time, 2.34 1-5, 2.35, 2.33, 2.36.

The special for 2 32 trotters had four starters, with Rose L. (Johnson) at the pole, Harold M. (Carroll) 2nd, Lycurgus (Hill) 3rd and Heck (Slipp) 4th. While Heck, the handsome half brother of little Sea King, was the ladies' choice, the talent would have nothing but Harold M.; but Seward Hill with Lycurgus by Lumps, that nobody would bet book-on, went out and not only won in straight heats but beat the track record of 2.34 1-5 and the race record of New Brunswick; and, to the disgust of Harold M.'s backers, Rose L. beat him out of second money.

SUMMARY.

Special Race—2.32—\$200.

Lycurgus by Lumps, Johnson 1 1 1

Rose L. by Olympus, Johnson 4 2 2

Harold M. by Dr. Franklin, Carroll 2 3 3

Heck by Melbourne King, Slipp 3 dis.

Time—2.29, 2.25, 2.30.

The second day of the trotting, while warmer, brought a stronger wind to contend against and a dusty track. After a vigorous protest from the drivers the track was sprinkled, making it more pleasant for the spectators. The attendance was considerably larger than on the previous day.

The judges were Geo. A. Murchie, of Calais, and Al Slipp, of Houlton; timers, Fred Waterston, of St. Stephen, and D. W. McCormick, of St. John; James E. Osborne, starter.

In the 2.40 class, the horses took position as follows:—Rose L. (Johnson) pole, Kittie D. (Doyle) 2nd, Nettie (Slipp) 3rd, Jack (Murchie) 4th, Nonpariel (Gautreau) 5th, Helena B. (Stockford) 6th, Lady Jane C. (Cleland) 7th, Thorndale Echo (Watson) 8th. Lady Jane C. being lame, was withdrawn with the consent of the judges.

SUMMARY.

2.40 Class—\$200

Rose L. by Olympus, Johnson 1 1 2 1

Jack, Murchie 2 3 3 3

Nonpariel, Gautreau 4 2 6 5

Thorndale Echo, Watson 3 4 1 6

Nettie B., Slipp 5 5 4 2

Helena B., Stockford 6 5 4 2

Kittie D., Doyle dis.

Time 2.35, 2.35 4-5, 2.34 5-5, 2.37.

"Days" evidently struck faster company than he expected.

The horses for the free-for-all were given the following positions:—Speculation (Carroll) pole, Brazilian (Slipp) 2nd, Minnie Gray (Willis) 3rd, Helena (Bowen) 4th.

SUMMARY.

Free-for-all—\$300.

Brazilian, Slipp 1 1 2

Speculation, Carroll 2 2 1

Helena, Bowen 3 3 4

Minnie Gray, Willis 4 4 3

Time 2.34 4-5, 2.25 2 5, 2.27.

This race was the fastest race ever trotted on the St. Stephen track and the fastest race for the province of New Brunswick.

At the conclusion of the third heat of the free-for-all, it was found that the tire of Brazilian's bike was burst; and Slipp anxious for a postponement, played for time. After a delay of an hour, Peter Carroll came to the rescue and loaned Al his bike; but it was then so dark that the race was postponed until Thursday morning at 10 o'clock.

The Calais association give a day's trotting over their track next Monday Sept 11, and the races should be hot and exciting. The entries to the 2.33 class, purse \$150 are, Pembroke, Kittie D. Vichmont, Lady Jane C., Rose L., Helen B. and Thorndale Echo; while the entries to the 2.32 class, purse \$200 are Harold M., Lycurgus, Rattler, Heck, Nonpariel and Deceiver.

William A. Lehr
of Kendallville, Ind., says Hood's
Hood's Sarsaparilla

King of Medicines
And His Cure Was
Almost a Miracle

"C. I. Hood & Co., Lowell, Mass.
"Gentlemen: When I was 14 years of age I was confined to my bed for several months by an attack of rheumatism, and when I had partially recovered I did not have the use of my legs, so that I had to go on crutches. About a year later, Sarsaparilla, in the form of

White Swellings,
appeared on various parts of my body, and for eleven years I was an invalid, being confined to my bed six years. In that time ten or eleven of these sores appeared and broke, causing me great pain and suffering. Several times pieces of bone worked out of the sores. Physicians did not help me and

I Became Discouraged
"I went to Chicago to visit a sister, as it was thought a change of air and scene might do me good. But I was confined to my bed most of the time. I was so impressed with the success of Hood's Sarsaparilla in cases similar to mine that I decided to try it. So a bottle was bought, and to my great gratification the sores soon decreased, and I began to feel better. This strengthened my faith in the medicine, and in a short time I was

Up and Out of Doors
To make a long story short, I continued to take Hood's Sarsaparilla for a year, when I had become so fully released from the chains of disease that I took a position with the "Fint & Walling" Mfg. Co. and since that time have not lost a single day on account of sickness. I always feel well, and in good spirits, and have a good appetite. I endorse

for it has been a great blessing to me, and to my friends my recovery seems almost miraculous. I think Hood's Sarsaparilla is the King of all medicines." WILLIAM A. LEHR,
No. 9 North Railroad St., Kendallville, Ind.

POOR DOCUMENT

Continued from page 8.

cribe a particular species and give its name.

6. Describe several methods employed in the multiplication of plants. Which is more generally employed. Mention several plants which may be propagated by each of the methods respectively.

7. Contrast a fish with a bird, or a beetle with a star-fish, as to structure and habits.

Arithmetic.

CLASS I. Time, 1 hr. 45 min.

NOTE.—The first four questions and two of the other make a full paper. The explanation when asked for, will be considered to be of as much or greater value than the operation. The unitary method will be held to include both explanation and operation. Exhibit the work in every case.

1. The bank discount on a note for \$99, drawn on July 5th at 3 months, and discounted immediately, is \$2.09. Find the rate of discount. Explain the operation.

2. On April 28, 1891, John Brown gave Robert White his note for \$64.50, payable in 6 months, with interest from date at 5 per cent. When the note became due, Brown paid one half of the principal. On March 3, 1892, he paid the balance due including interest. How much did he pay?

3. Write in proper form the note referred to in the preceding question. Exhibit the entry which should have been made in Brown's day book when the note was given, and in White's ledger when the balance remaining due was paid?

4. Subtract from twenty-five thousandths its fifth part; divide the remainder by 200; divide one ten-thousandth by the resulting decimal; and multiply the result by the hundredth part of itself.

5. What will it cost to carpet a room 10 metres long and 6.5 metres wide, with carpet 30 inches wide at \$2.50 per yard?

6. Find the difference between the square root of 4 and the cube root of 2899584, true to 3 decimal places.

7. Bought a horse for \$160. What shall I ask for it so that, should I be compelled to sell 20 per cent. in my price, I shall still gain 5 per cent. on the cost? Explain the operation.

Geometry, Book I.

CLASSES I AND II. Time, 1 hr. 30 min.

NOTE.—Customary abbreviations may be used. Give references and authorities wherever you can—credit will be given. Candidates for Class II will answer the first five questions only. Those working for Class I will take the sixth instead of the third or fourth.

1. Demonstrate Prop II—(Problem: From a given point to draw a straight line equal to a given straight line) using the following construction: Let the given line be drawn upright and about an inch long; and let the given point be about an inch and a half to the right of the upper extremity.

2. Demonstrate Prop XIII—If one straight line meet another so as to form two adjacent angles, these must be either each of them a right angle or together equal to two right angles.

3. Prove that equal triangles upon the same base, and upon the same side of it are between the same parallels.

4. State or enunciate all the propositions (seven in number) in which the equality of two triangles is proved.

5. Define clearly the following terms: The diameter of a circle. The vertex of a triangle. The supplement of an angle. The converse of a proposition. The magnitude of an angle.

6. Demonstrate Prop XLIV—Problem: To a given straight line to apply a parallelogram, which shall be equal to a given triangle, and shall have one of its angles equal to a given angle—including in your construction the process of making a parallelogram equal to the given triangle, but proving only what belongs properly to the proposition assigned.

Arithmetic.

CLASS II. Time, 1 hr. 45 min.

NOTE.—The first four questions and two of the others make a full paper. The explanation when asked for, will be considered to be of as much or greater value than the operation. The unitary method will be held to include both explanation and operation. Exhibit the work in every case.

1. On April 28, 1891, John Brown gave Robert White his note for \$64.50, payable in 6 months, with interest from date at 5 per cent. When the note became due, Brown paid one half of the principal only. On March 3, 1892, he paid the balance due including interest. How much did he pay?

2. Write in proper form the note referred to in the preceding question. Show the entry which should have been made in Brown's day book when the note was given, and in White's ledger when the balance remaining due was paid?

3. Subtract from twenty-five thousandths its fifth part; divide the remainder by 200; divide one ten-thousandth by the resulting quotient; and multiply the result by the hundredth part of itself.

4. Divide 5 per cent. of 37 lbs. 8 oz. avoird. by 225 per cent. of 2. Explain the quotient to 4 decimal places and explain clearly how you determined place of the point (in the quotient).

5. How many yards of paper, 30 inches wide, will it take to cover the walls of a room 18 ft. long, 12 ft. 6 in. wide and 12 ft. high, making allowance for 2 doors, each 7 ft. by 3 ft. 6 in., and 3 windows, each 6 ft. by 3 ft.?

6. Find the length, in feet and inches, of one side of a square field containing one acre.

7. Borrow \$50 for 9 months, and at the end of that time paid as principal and interest \$63.75. Find the rate per cent. of interest. Explain the operation.

Interest \$63.75. Find the rate per cent. of interest. Explain the operation.

Geography.

CLASS II. Time, 1 hr. 30 min.

I. Draw from memory an outline map of Ontario, marking lakes and rivers, eight important towns, with notes on each at the foot of the map.

II. Explain the following terms, viz.: First Meridian, Equinox, Zone, Axis of the Earth, Eclipse of the Moon, Pole Star.

III. Give a general description of the physical geography of Europe.

IV. With what foreign countries does Canada chiefly trade, and what are the staple articles of exchange between them.

V. Where and for what noted are the following, viz.: Havana, Minneapolis, Coruna, Natal, Auckland, Benares, Amsterdam, Moscow, Nanking, Naples, Cambridge, Albany, Damascus, Richmond and Port Said.

Natural History.

CLASSES II AND III. Time, 1 hr. 30 min.

NOTE.—Candidates for Class II will answer six questions; those for Class III will answer five.

1. Describe three minerals which occur in the neighborhood of your home, and enumerate the properties by which you distinguish each from the others.

2. What does the formation of colored films on the surface of a spring usually indicate? Tell what you know of the nature and origin of the reddish sediment deposited by the water which flows from such springs.

3. Account for the formation of sandstones. Of what mineral does it, in general, mainly consist? Give the principal properties of that mineral.

4. What features of stem, leaf, flower and embryo distinguish endogens from exogens? Mention two cultivated plants of each class which illustrate these differences.

5. Write a full description, including root, stem, leaf, flower, fruit and embryo, of a native plant belonging to the maple family or the pine family. Describe a particular species and give its name.

6. Account for the sweetish taste of a potato when sprouting. Give other examples of similar changes.

7. Enumerate several of the means provided by nature for the dispersion of seeds, and give one or more illustrations of each furnished by native plants.

Arithmetic.

CLASS III. Time, 1 hr. 45 min.

1. Multiply 124 per cent. of twenty-four tenths of thousands by 5000, divide the result by five-tenths, and subtract one and six thousandths and twenty-five tenths of thousands from the quotient.

2. William Johnson buys, to-day, from Thomas Jenkins, 12 lb. of sugar at 83 cents, 11 lbs. of rice at 47 cents, 2 gals of syrup at 75 cents, 2 bushels and one 1 peck of potatoes at 50 cents per bushel. Make out a bill for the above goods, and receipt it.

3. An imperial bushel contains 2218.192 cubic inches. How many bushels will a bin hold which is 16 ft. long 5 ft. wide, and 4 ft. deep.

4. Add together five decimals, each containing from three to five significant figures, whose sum shall be exactly one.

5. Find a decimal whose value is 1-5 of that of the fraction 3-16, and divide that decimal by the twenty-fifth part of five thousandths. Work by decimals, and explain the method by which you determined the place of the point in the quotient.

6. The divisor is 3, the quotient is 8, and the remainder 11.12. Find the dividend.

7. What will 12 5-16 bushels of wheat cost at 96 cents per peck? Explain the operation.

THE CITY COUNCIL.

The Acceptance of Mr. Calkin's Electric Light Tender Cancelled.

At the regular meeting of the city council Tuesday evening the absentees were Mayor Beckwith and Ald. Block. In the absence of the Mayor, Ald. Vandine occupied the chair. After the reading of the minutes of last meeting by city clerk Beckwith, and the passing of several bills, Ald. Duffie moved that cheques for a quarterly salary issue in favor of the police.—Carried.

Ald. Moore moved that cheques for a quarter's salary issue in favor of Superintendent Burchill and the engineers of the water works.—Carried.

Ald. Everett submitted the following report of the assessment and appeals committee

Your committee have had under consideration the following appeals and petitions, viz: The Frederick Park Association, the New Brunswick Telephone Co., Robt. Moorecraft, Wm. Rowe, Mary McCaffrey, The Scottish Union and National Fire Ins. Co. Jas. Driscoll and F. Marvin Hart, and beg to make the following recommendations.

1.—In the matter of the petition of the Scottish Union etc. Fire Ins. company they recommend that the prayer of the petition be complied with so far as to reduce the income to be assessed to the sum of \$300, and the assessment amended accordingly.

2.—That the petition of James Driscoll, butcher of this city, asking to be relieved of taxes in this city on the ground that he pays taxes in the parish of Kingsclear, be not complied with.

3.—That the prayer of the petition of F. Marvin Hart be complied with and he be relieved from payment of taxes on the \$400 personal property assessed against him and his assessment amended accordingly.

4.—That the prayer of the petition of Miss Mary McCaffrey be not complied with.

5.—That the prayer of the several petitions of Wm. Rowe and Robt. Moorecraft be complied with, and they be severally relieved from payment of their respective poll taxes on paying their property assessment promptly.

6.—That the prayer of the petition of the Frederick Park Association be complied with and their real estate be reduced to the value of \$400, and their assessment amended accordingly.

7.—Your committee ask farther time to obtain more information before reporting on the petition of the New Brunswick Telephone company.—Adopted.

On motion of Ald. Macpherson the report of the fire committee recommending that they be authorized to purchase four hundred feet of best canvas hose at the same terms as the last, and that the city clerk be directed to collect the amounts due for hose sold to the late firm of Brown & Palmer and to the Frederick Curling Club, was adopted.

Ald. Farrell moved that the petition of Mrs. Stevens asking to be relieved from taxation be referred to the assessment and appeals committee.—Carried.

Ald. Macnutt moved that the council provide free water to the exhibition committee during exhibition week.—Carried.

Ald. Macpherson chairman of the road committee submitted a report, which was adopted, recommending the laying of about 10,000 square yards of asphalt sidewalks, to be laid upon the following streets.

KING'S WARD.

From the corner near the Canada Eastern Railway around Cathedral up to the corner of St. John and Queen streets and the residence occupied by Mr. Wetmore, and also following the Cathedral fence up King street to the corner of St. John street, opposite the residence of E. B. Winslow.

QUEEN'S WARD.

On Church street from King street to Brunswick on upper side. On St. John street, west, from George to Charlotte street. On Brunswick street from St. John down to Church street, north side. On Regent street from George to Charlotte street, on lower side. On Regent street, from George to Charlotte street, on lower side. The south side of George street from Church to St. John is to be prepared for asphalt.

CARLETON WARD.

On York street from King to George on lower side. On York from Charlotte to Needham on lower side. On Brunswick from York to Regent east side. King street from Carleton to Regent to prepare for asphalt.

ST. ANN'S WARD.

On York street from Brunswick to George, upper side. On Westmorland street from Brunswick to Charlotte, upper side. On King street from Westmorland to Northumberland, if possible. On Queen street from Westmorland to Northumberland; where feasible.

WELLINGTON WARD.

On Northumberland street from Queen to Charlotte on upper side. On King street from Northumberland to Smythe; north side. On Brunswick street from Northumberland to Smythe, north side. On Charlotte street from Northumberland to Smythe, north side.

Ald. Gilman moved that the asphalt to be laid from Northumberland to Westmorland on King street, be put down between the same streets in Brunswick instead.—Carried.

Ald. Duffie thought King's ward was

McMURRAY & Co.,

receiving a very small portion, and moved that the road committee be instructed to lay an asphalt walk across the green on Sundry street from the railway crossing to Charlotte.—Carried.

Ald. Moore moved seconded by Ald. Macnutt, that in addition to that to be laid in Queens, the committee be directed to finish the sidewalk on the west side of Church between Brunswick and George, and also the sidewalk on George from St. John to Church.—Carried.

These additional walks will amount to about 3,000 yards making a total of 13,000 and as we have been informed there is only enough material to do 9,000 yards, there will probably be a warm discussion at the next meeting as to which ward will suffer.

Ald. Gilman presented a petition signed by a number of ratepayers, praying the council to pay John Palmer, tanner, damages to the amount of \$1,100 to remove his tannery from Westmorland street or buy the whole lot out at \$1,600, and moved that the petition be complied with.

Ald. Moore moved as an amendment that as the matter would come before the Board of Health for consideration on Thursday evening, the question be laid over until after the meeting of the board.—Amendment carried.

Ald. Gilman asked for information concerning the lighting of the streets.

Ald. Farrell, as chairman of the light committee, replied that he had nothing definite to report. The committee could obtain no information from Mr. Calkin as to what he intended to do. He proposed the council dispose of Mr. Calkin.

Ald. Macpherson handed the chairman a telegram received that morning from Mr. Calkin, stating the Col. Rodgers, of the Brush Swan Co. would be in St. John sometime this week and would probably visit Fredericton and settle the matter. He (Macpherson) felt disposed to wait until they saw Col. Rodgers before disposing of Mr. Calkin.

Ald. Duffie said the proper thing to do would be to "pitch the unsigned contract in the fire." Mr. Calkin was only making a fool of the council and never intended carrying out his contract.

Ald. Gilman moved a resolution, seconded by Ald. Duffie, rescinding the council's resolution accepting Mr. Calkin's tender, and ordering a discontinuance of further negotiations with him.

Ald. Farrell expressed himself in favor of the resolution. He said Mr. Calkin had treated both him and every member of the board as if they were "asses with ears as long as your arm."

Ald. Walker, evidently thinking he was particularly referred to, wished Ald. Farrell to distinctly understand that he was not any more of an ass than that gentleman, and his ears were not any longer.

Ald. Farrell—I did not insinuate that any alderman at the board was an ass.

Ald. Walker.—I know you meant me, and I take no such insinuations from you or any man. The map of Ireland is stamped just as distinctly upon your face and ears as it is upon mine, and if the alderman had followed me.

Ald. Farrell—I think too much of my time.

Ald. Walker.—You can't follow me. You can't stick your nose in where I travel.

At this point Ald. Macpherson and Farrell got into a warm discussion over personal matters, which although not just parliamentary afforded considerable amusement for the spectators.

Ald. Everett felt sorry the discussion had taken such a turn. He himself was in favor of the resolution.

The vote being taken the names were called as follows:

For the resolution—Ald. Gilman, Duffie, Farrell, Macnutt, Moore and Everett. Against the resolution—Ald. Macpherson and Walker.

Ald. Farrell moved that the light committee be authorized to negotiate with the Fredericton Electric Light and Gas Co., with regard to lighting the streets either with electric light or gas, the contract for lighting the city with gas having expired on July 30th. The Gas Co., he said were not bound to furnish light at the old rate, and the way the matter stood at present, their being no written contract, the company can light half the lights and let the balance remain until if they so wish it. The motion carried. The council adjourned.

POOR DOCUMENT

1893. Exhibition of Stoves. 1893.

THE EAGLE FURNACE.

FOR WOOD.

The Most Powerful Heater ever Invented.

EASY TO MANAGE AND DURABLE.

Warranted to give double the amount of Heat of any other Furnace from the same quantity of fuel.

For Quickness of operation it is unsurpassed, there being no escape of heat into the cellar or chimney; neither gas nor smoke into the rooms above.

SATISFACTION IN EVERY RESPECT GUARANTEED TO ALL MAKING A TRIAL OF THE FURNACE.

FAVORITE DIAMOND.

FOR WOOD OR COAL.

The fire box for Coal is oval, and is the heaviest and most durable made. The stove is supplied with either the Duplex Grate or the new patent Flat haking and Dumping Grate. When the fire box for coal is removed and the Fire Back and False Fire Bottom and front fender put in, they surpass all other cooking stoves for burning wood, as they have a large fire box, with the advantage of a central delivery of draft to the wood, making a quick, hot fire with a small amount of fuel. The reservoir is large and made of copper, and water can be boiled in it. The ornamentation is very beautiful, and the castings fittings, etc., are guaranteed to be of the best workmanship.

ROYAL DIAMOND, Reservoir and Heating Shelf. FOR WOOD.

This Handsomely Finished Stove has a large and well ventilated oven, with an unusually large feed door and Fire Box, admitting very coarse wood. It is entirely new and First Class in finish, while every point of excellence is embraced in its Construction.

REASONS WHY

The STEEL CLAD is the Best.

It is open and accessible. No place for accumulation of impurities. Dampness cannot affect it. Nothing about it to shrink or decay. It cannot leak. It is light, but strong and durable. It is handsome in appearance.

It is THE CHEAPEST BATH IN THE MARKET.

Hilborn's Hot Air Furnace

MADE IN 2 STYLES, 8 SIZES. BRICK SET OR PORTABLE.

The body is corrugated and made very heavy. The Furnace is arranged so that it can be operated from the rooms above, obviating the necessity of going to the furnaces for regulating drafts.

The drums are of heavy sheet steel, well riveted together.

It is the only wood burning furnace that can be easily cleaned out at all times. This very necessary arrangement is too often overlooked by parties buying furnaces, and as a result, they are forced to take them apart in order to clean them.

KITCHEN & SHEA, QUEEN STREET, FREDERICTON N. B.

SENSIBLE MODERN SILOS.

A Familiar Talk on a Popular Subject by a New England Farmer.

The silo has ceased to be a craze. Its cost has also been cut down to the finest point possible. The use of mason work wells and expensive excavations has been tabooed by many experienced and economical builders. A strong frame is put up—preferably in a side hill, where the green crops can be hauled by the teams nearly or quite to the top of the pit, or the same sized structure can be partitioned off in one end or corner of the barn. This structure should be sheathed or clap-boarded on the outside and roughly boarded horizontally within. It should then be lined with thick tar paper of two or three ply, which in turn is covered in with matched planks or spruce lumber placed on one side and put on vertically. The planked side should be exposed to the contents of the pit after it has been thoroughly coated with the hard, brittle compound of coal tar. This makes a perfect surface and prevents the moisture from soaking the lumber. According to the assertion of a New England correspondent of the Farm Journal, who writes that for all sections nothing exceeds in usefulness the common corn crop of which to make ensilage, and [after innumerable trials, experience has taught American farmers that for the best ensilage the method of culture should not differ from that bestowed upon the crop raised for grain.

The time of harvest should also be the same or when the crop has reached maturity, in which the ears are glazed. For the sake of having the corn in the best condition to make the most nutritious ensilage that variety native to the locality where the ensilage is to be made is widely preferred, because it is sure to mature.

The more grain this crop can be made to produce the better. The ears may be picked and thrown in heaps as the ensilage is cut, or the crop entire may be run through the cutter and put in the pit. Perfect ensilage can be made without cutting it into the silo, and the course is adapted to small farms, obviating the purchase of expensive machinery, which would be required otherwise. But where 10 or 50 cows of their equivalent in other stock are kept, experience teaches the profitable employment of machinery to cut the green fodder from a half inch to 1 1/2 in. long.

The old method of putting unripe corn fodder into the silo in midsummer, of rustling it in so rapidly as to prevent all possibility of heating and covering it with layers of earth, stones and other weights resulted in most of the feed souring so as to be truthfully compared only to pickles. This has been abandoned. To-day the crop is cut when ripe, put in the pit leisurely at the convenience of the farmer and encouraged to heat to 120 or 130 degrees with little treading, often only two or three feet being but in at one time and several days elapsed between outtings. Not only is the corn matured but it is frequently cut and left on the ground in heaps to partly cure be-

fore being hauled to the silo. In this way the labor of lifting and carting is decreased and the value of the silage is in no way lessened. By inducing high temperature through giving the oxygen of the air free access to the ensilage extreme souring of the ensilage is prevented. Thus we have sweet feed instead of that which is sour and so objectionable, and feed containing a greater per cent of nutrients because it is more perfectly preserved.

Sideboards are sometimes placed on the top of the pit and filled to help the settling, which amounts usually to nearly one-third the height of feed stored. After the settling the sideboards will be entirely clear. The only covering weight recommended to-day by most successful siloists is a feet of finely cut hay or straw, of uncut marsh hay, or of sawdust. The last is cheap, easily handled and excludes air the best of anything. Nobody understands to-day that we are to feed ensilage alone, nor that we can safely change stock from dry fodder onto a full feed of the succulent product of the preserving pit. It is as foolish as to turn cows accustomed to drouth burned pastures into deep rank clover for a full meal. Disaster follows both errors. Use with sense, which means a little dry ground feed, a fair proportion of dry provender, and in small rations increased gradually at first, as is most economical and satisfactory.
