

THE FLAG—Governor Snowball's flag was hoisted over his Christian residence when he is in town.

THEY DON'T KEEP COMPANY—Pain passes by the other side.

ST. JOHN'S CHURCH WILLING WORKERS—The meeting at Mrs. Wm. Watt's, Rock Head, this Thursday evening.

SUFFERING WOMEN—Taking home a basket of Knickerbocker's Luscious. Like the pills in time, it may be many troubles. It costs but a quarter.

AT FREDERICTON—Fishery Commissioner Smith went to Fredericton yesterday, Wednesday, to attend the sale of sealing leases on the principal rivers of the Province, which takes place there today.

HERN WILD COULDS—Jake O'Donoghue, a boatman at Red Fortage last Saturday night and in falling broke a horse in his right shoulder and cut his face badly. His doctor says he will never run again and will be laid for weeks.

A SOCIAL EVENING AT St. John's Church C. E. Society and St. John's Church Epworth League, was held in the Sunday School room of St. John's Church on Monday evening. A union service of prayer, praise, address, etc., was held, after which refreshments and social intercourse made the evening pass very pleasantly.

NO AMOUNT OF brilliant advertising will make a read finally successful. Men are fools to try it. As for us merely let a true name and say Adams' Brand Balm is splendid for coughs, 25c. all druggists.

TWO KEYS COUNTY MEN—A Richibucto Department says says—The sick with enteric fever, it is that he is also suffering from spinal meningitis.

Martin A. Conway, another Ke-County man of the S. C. is reported to be sick with enteric fever. He is a son of Jas. Conway, of Exeter.

MR. FERRY—The Montreal Transcript says: "Mr. Jas. E. Ferry, the well-known well-better, exposed to get through with his duties with the Oil Wells in a few days and will subsequently leave for Texas where he has extensive oil interests. Mr. Ferry at present has several men prospecting in that state and his many friends will wish him every success. Prior to going to Texas he will visit his home at Melrose, Mass."

MIRAMICHI MARBLE WORKS—Now is the time to place your orders for country work and avoid the spring rush. We have on hand and coming out of the largest stocks of marble and granite monuments, headstones and tablets ever shown on the north shore, all from the latest designs and worked from the best material in the world. Call and get our prices. They are right.

JOHN H. LAWSON & Co., A LATTERS OF SOUTH AFRICA, embracing a sketch of conditions and events which led to the war, and giving explanations and incidents of the war, as delivered by Capt. R. T. Carey, being an long time of the Imperial Light Horse, a participant in the battles of Magersfontein and the battle of Paardeburg, and a member of the personal staff of General Buller, his text, his own and others organized and gave chase to capture it. This was most exciting over the morning, as the bay is more or less open.

IN CASE YOU'RE YOUR THROAT, you will find instant relief and absolute cure in Catarrh, which kills the germ that causes the disease, cures the cough, prevents drooping of the throat, restores congestion and quickly kills the inflamed membrane. Catarrh cures perfectly the chronic cases of Croup, Hoarseness and throat troubles, and is delightful, simple and safe to use. Catarrh is a scientific treatment highly endorsed by doctors and druggists, and will cure you in 24 hours. Write to Geo. A. Day, C. E., Kingston, Ont. Sold by C. P. Co., Kingston, Ont.

PERSONAL MEDICATION—Mr. Geo. A. Day, C. E., who has charge of the Dominion Public Works of the North Shore counties of New Brunswick, was in town yesterday. He will probably take up his residence in Chatham.

Miss Laura Snowball is to leave for England, Scotland and the continent next week. The drowning in the Chatham—met in her person—the dear friend of her father in the early winter, lead her to prefer the semi-retirement of travel to a closer acquaintance of social life in the home circle. She will be followed by the best wishes of all for as speedy a return as possible to the friends who know her best and, therefore, esteem her the most highly. Mayor Snowball is expected to leave Liverpool for home on Thursday next.

Mr. G. S. Moore, the new manager of the Bank of Nova Scotia in Newcastle, who succeeds Mr. P. C. Robinson, was in town Tuesday afternoon.

W. A. Park, Esq., of Newcastle, was in town on Tuesday.

MR. ALPH. STEWART met with a severe accident last night last week. He was descending the stairs with a lamp and in some way stumbled and fell to the bottom. His collar bone was broken, a severe gash cut in his head and otherwise shaken up. Mr. Stewart was all alone that night and had no one to call for help when he was discovered and a doctor summoned. He is recovering—Advocate.

BYRON MOORE who does not already know, should know the value of this safe, pleasant and efficient remedy, McLean's Vegetable Worm Syrup. Any child will take McLean's Vegetable Worm Syrup. All dealers keep it.

Gloosetown County and the Smallpox—Hon. Premier Tweed went to Bathurst on Monday, accompanied by the Governor to bear evidence in the matter of Gloosetown County's repudiation of its liability for bills incurred by its Board of Health in connection with the smallpox outbreak there last year. The amount involved is \$2,134.

R. A. Lawlor, Esq., K. C., also went as counsel for some of the parties in the matter.

A Coal Special Leaves the Track—There was a serious smashup on the Intercolonial Railway at about half-past seven on Saturday morning, caused by a special coal train in charge of conductor McLaughlin leaving the rails. The track was torn up for several hundred feet and the Maritime Express from Montreal delayed five or six hours. A wrecking train from Moncton arrived about noon and facilitated the work of restoring the rails so as to admit of trains getting along. A broken wheel is said to have caused the mishap. Section foreman Bourdreaux and two of his men, named Brown and Macdonald, had just removed their hands from the rails and were waiting for the train to pass when a portion of it fell the track about opposite to where they stood. Some of the flying coal struck Bourdreaux and the head-car was broken up.

The Sportsman's Show at Boston is, apparently, a successful one. The New Brunswick Exhibition, which was held in charge of Chief Game Commissioner Knight, assisted by Messrs. Walter Carnell, Harry Allan and Geo. R. Armstrong, is in its place in the Mechanics' Fair building—the same in which the former very successful New Brunswick exhibition was displayed. The exhibits and other articles which went forward from Fredericton were as follows:—

One moose, 12 horse heads (advertising material), 2 horse heads—1, C. B. 1 lb. 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100.

Amongst those who will probably go to the Miramichi to the show are Game Warden Robinson and Mr. R. Armstrong.

Rheumatic Pains Cured by Kerville's—This is the testimony of Mr. Benjamin Dillon, of Leeds, Ont., who says: "I feel my duty to proclaim the marvelous value of Kerville's Rheumatic Cure for an inflexible cure for rheumatic pains; it cures them every time. Nothing I know of equals it as a household liniment, and mothers should feel it as necessary as bread itself. Neurile has cured rheumatism of 20 years standing and cured my cure. Instant relief, absolute cure large bottle 25c. S. I. by C. P. Hickey."

Emperor William's Brother in New York—New York, Feb. 23.—Prince Henry of Prussia, representing his brother, the Emperor of Germany, at the launching of the latter's American built yacht, reached New York today and was cordially welcomed as a guest of the nation. The land batteries that guard the outer harbor, sounded the first greeting in a ponderous salute of 21 guns and the rife of a special naval squadron assembled in his honor, repeated the sentiment. There were verbal greetings from representatives of President Roosevelt, the army, navy and city of New York, and a great crowd lined the way into the city to see and cheer the prince. Prince Henry gave a dinner tonight on board the imperial yacht Hohenzollern. The guests included Rear Admiral Van Tripp, Gen. Von Finckel, Ambassador E. de Selves, Admiral Von Skenckdoerff, Admiral Von Baudissin, David J. Hill, Assistant Secretary of State, Rear Admiral Robey D. Evans, Major-General Corbin and others.

A Moose on the Rampage—The following moose story may be all right, but moose with large antlers on 19th February are not to be found in profusion. On some of the Gloucester county respondents enable us to verify the story? It is in the St. John Globe as follows:—

Bathurst, Feb. 20.—Wednesday, the 19th inst., a large bull moose three or four years old, was seen in the Miramichi, about a mile from Bathurst, into a state of excitement. About noon the animal crossed through the village and on to the ice on the Baie des Chasseurs. Mr. Warden Miller, his son, Taylor, and others organized and gave chase to capture it. This was most exciting over the morning, as the bay is more or less open.

The moose, falling into the water, was covered by the large antlers. On being pulled out of the water, it maddly rushed at Mr. Ellis, throwing him into the bay and jumping in after him. Wm. O'Brien, whose mill is nearby, seeing the danger, rushed to the rescue and with hands and ropes, plunged into the water, saving Mr. Ellis from drowning and leaving the moose. The animal is now in charge of the game warden. It being the close season, and the game law so strict, the officer has asked instructions from the authorities as to its disposal.

The Wins of T. H. Honey and Wild Cherry made by The Bird Company, Limited, is free from all ingredients that cause unpleasant effects, common to many Cough Remedies, and is a perfectly safe preparation for children and adults, for all Coughs, Irritated Condition of the Throat, Asthmatic and Bronchial Coughs, Throat and Lung Trouble, Loss of Voice. For Family Spasms and Sings, this preparation is especially valuable. At all dealers. Price, 35c. for a bottle containing six doses.

Miss Missionary Stone Released—Constatinople, Feb. 23.—Miss Stone, the American missionary, who with Mrs. Talika, was captured by brigades, September 24, has been released and arrived at Strumitsa, Macedonia, this morning. No body was at Strumitsa to meet Miss Stone. The brigades had given no indication where they proposed to release the prisoner. Mrs. Talika and her baby were also released at the same time. All are well. Miss Stone immediately made herself known to the authorities at Strumitsa. The first news of Miss Stone's release was contained in a telegram received by the American Consul General at Constantinople from the Vice-consul at Salonika. The telegram gave no details of the release.

Boston, Feb. 23.—Secretary Barton of the American Red Cross, has telegraphed announcing the release of Miss Stone. He was dated Salonika, and is unsigned: "Both Miss Stone and Madame Talika and child were released from confinement in Macedonia on the 22nd inst. The American Red Cross regards the news as absolutely authentic as the missionaries of the board have been instructed to send no telegrams based on mere reports, but to send for positive information. \$20,000 was allotted on deposit to the credit of the brigades. It is said that the money was wanted to help the Macedonians to obtain their freedom from Turkey. Turkey will not attempt to punish the ringleaders, for the Macedonians have risen up as one man in their demand for freedom from Turkey, and the kidnapping of two missionaries must be called the first chapter in their plan for liberty."

A Banquet of Memories—A Philadelphia, despatch of 16th inst. gives the following account of a singular episode. There are few, if any, like it on record:—

Standing alone at the table in the dining room of his home, South Thirteenth street, as the bill in Independence Hall struck twelve last night, Walter W. Bell drank the memory of thirty-two comrades of the Last Man's Boathook, of which Mr. Bell is the lone survivor.

The association was formed by thirty-three men connected with moving newspapers at a dinner on February 16, 1866, to Harvey Field's old restaurant. It was then agreed that there should be a yearly banquet. All the members were men who delighted in good fellowship, who could talk and drink and sing and sing and sing effectively at the festive board. More than two words in a minute did not compare badly with the work of the cabins. The banquet with reference to secrecy have been removed. After perfecting arrangements in Canada he would challenge Sir William Prescott and Prof. Lodge to introduce upon the subject of the establishment of a wireless service in England and Ireland.

Marconi will for Canada Feb. 23. London, Feb. 20.—At a general meeting of the Marconi Wireless Telegraph Company, Marconi, who was present, referring to the transatlantic experiments, announced that the next series of tests would include the transmission of words and messages. He added that there was nothing to prevent the company from undertaking commercial communication with ships at sea. The system of wireless telegraphy was now being tested on twenty ships, and there were twenty-five land stations. His transmission of twenty-two words in a minute did not compare badly with the work of the cabins. The banquet with reference to secrecy have been removed. After perfecting arrangements in Canada he would challenge Sir William Prescott and Prof. Lodge to introduce upon the subject of the establishment of a wireless service in England and Ireland.

should be more extensively gone into, especially when the land is dry and rolling. Dairying is carried on somewhat extensively and with fair success, but in some localities the isolated condition of the station is found to be a great drawback to the industry. From my observations, thousands of acres of land are only yielding small returns for want of understanding, but when these things are better understood, considering the intelligence of the people, we may look for greater things in the near future.

F. W. HONOR, Live Stock Commissioner.

After perfecting arrangements in Canada he would challenge Sir William Prescott and Prof. Lodge to introduce upon the subject of the establishment of a wireless service in England and Ireland.

London, Feb. 20.—At a general meeting of the Marconi Wireless Telegraph Company, Marconi, who was present, referring to the transatlantic experiments, announced that the next series of tests would include the transmission of words and messages. He added that there was nothing to prevent the company from undertaking commercial communication with ships at sea. The system of wireless telegraphy was now being tested on twenty ships, and there were twenty-five land stations. His transmission of twenty-two words in a minute did not compare badly with the work of the cabins. The banquet with reference to secrecy have been removed. A MOTHER'S WARNING.

SPEAKS OF A TROUBLE THAT AFFLICTS MANY YOUNG GIRLS.

Headaches, Dizziness, Heart Palpitation, Flurry, Appetite and Pallor the Early Symptoms of Deacy.

From the Sun, Orangeville, Ont. Hard study at school coupled with the lack of attention which every young girl merging into womanhood should have, is responsible not only for the many pale faces and unattractive forms met with such lamentable frequency, but is responsible also for the loss of many valuable young lives.

First there is an occasional headache, and a salivaceous complexion, from which stages, if these early symptoms are neglected, the condition gradually grows worse and worse until decline or consumption sets in and death claims another victim of parental neglect. Upon mothers especially devolves a great responsibility as their daughters approach womanhood. Upon mothers especially devolves a great responsibility as their daughters approach womanhood.

CHAPTER XIII. Mapeu, king of Tyre, was in a dark, gloomy mood. The very gods seemed to have conspired against him in quest of the soldiers, and he had returned, bringing intelligence of the strange opening of the subterranean labyrinth, and the disappearance of the party who had been sent in quest of the girls. The barge had been picked up a little to the north of the city by some fishermen, and carried to the harbor. It had reached the monarch's ears. He stood leaning against one of the pillars in quest of the soldiers, and the visitors were shut out. He was not in the mood to render judgment, for the morning after the battle, the night might, her limbs all a quiver and her head reeling. She would be attacked with spells of dizziness, and she would be unable to stand. At this stage my husband suggested that we should try Dr. Williams' Pink Pills, and he brought upon several boxes. Kate had only taken the pills a few weeks when there was a great change for the better. She was stronger, began to eat better and to have better color, and from this stage it was not long before she was again enjoying the best of health and able to resume her studies at school.

Dr. Williams' Pink Pills cure all diseases that have their origin either in a poor or watery condition of the blood or shattered nerves. It is because they make rich red blood and strengthen the nerves with every dose that they cure such troubles as anemia, consumption in its early stages, nervous headache, St. Vitus' dance, rheumatism, partial paralysis, kidney trouble, indigestion, etc. Ordinary medicine merely acts upon the symptoms of the trouble, and when such medicines are discontinued the trouble returns often in an aggravated form. Dr. Williams' Pink Pills for Pale People, is a powerful medicine that acts upon the cause of the trouble and cures it. See that the full name, "Dr. Williams' Pink Pills for Pale People," is on the wrapper of every box. If your dealer does not have them, send direct and they will be mailed, post paid, at 50 cents a box or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ontario, Canada.

WAR NOW IN FASHION. End of Luxuries in the Field in South Africa.

At last we are going to war, in our fashion, writes Bennett Burleigh in the London Telegraph. A headquarters order is coming out, it is said, for the peremptory cutting down of all transport and baggage. Buck wagons, that were bedrooms and saloons combined, upon which, wherein certain column leaders luxuriated and luxuriously campaigned, are to become things of the past upon trek. The chef will probably go or stay behind with the cooking stove, which has also to be discarded. So, in the army, the camp that carried the officers' excellent midday lunches, with the napery, crystalware, wines, tabac, and chairs. Yes, even the extras of comfort, the changes of rainment, the cushions, the pillows, the bed, the blankets, and what not; besides musical instruments, light literature, sporting guns and gear—all all must be left behind, for each officer shall only carry 80 pounds of baggage, and no more. It will be hard, bitterly hard, to have to do real soldier fashion—no tents, no countless changes of boots and clothes, reduced to, at most, a waterproof, and two blankets, and "dossing" upon the exposed veldt just as Tommy Atkins has done so often and long, with his great waste, and has not been over-successful in producing good results—the suppression of the comforts. The districting of the country, and operating from centres, and thirty-five to forty miles, would not only enable mobile columns to disperse with other pack-trains, but would lessen by frequently relieving in the turns to depot, the hardships of trekking with naught but what one stands up in. It is but taking another leaf out of the romances of the Boer, for the commandoes camp, except upon very special occasions, hang about chosen districts. Here they build, construct rude shelters, conceal their surplus provisions and ammunition in caches. Where the troops don't come too often they raise forage and mules.

AMBIGUOUS. A speaker at a large public meeting recently held in a London suburb had occasion to refer to the good public work performed by the popular magnum who was upon the platform.

After stating the many and excellent results of the worthy gentleman's energy and perseverance, he remarked:

"It is a great pity that every other idle and inert man does not follow his example."

Then the speaker wondered why it was that the audience smiled audibly.

"The peace footing of the armies of the civilized world is in all 4,000,000 men."

Marina: Daughter of Kison Ludim.

Where have you placed the fair Marina? "Nowhere. She is not in my power."

"You not send soldiers last night to hang upon my tracks?" "I sent soldiers to watch the course of young Strato, and he dragged her forth from her resting place. Now, King, tell me where she is."

"I know not." "Beware! pronounced Gio, while a spark from his burning eye seemed to penetrate the very soul of the monarch. "I have not seen her," persisted the king, who was now surprised in turn. "This morning some fishermen picked up my barge at sea, but no soul was in it. I had been sure 'twas your work."

"Then they may have all been drowned," muttered Gio to himself, for there was something in the manner of the king that gave assurance that he spoke the truth.

"No, that cannot be said, Mapeu, for the fishermen assured me that the barge had not been overturned, nor was there any derangement of its furniture."

"Then I fear fate is sealed," uttered Gio in a half-desperate tone. "Some corse has picked them up."

"Then I'll make the earth till I find the bones of my wife, or at least, till I find the daughter of Kison Ludim."

"I do not find her," returned Gio, with a spite of irony in his tone. "I wish you had brought this man here, and you had not better let the matter drop."

"But I will find her, even though every vessel in my navy be called in to requisition."

"Then you may make the trial," uttered the monarch, while a peculiar light broke upon his countenance. "And," he added, seeming to have checked his ardor, "I will have you to my lips, I hope you will succeed."

Mapeu started at these words, for he thought he detected some meaning and once more the king arose above the rest of the monarchs.

"I will find her, and I'll keep her," he exclaimed, "and as for you, your head is not worth the weight of a day. You shall learn what it is to be a king!"

Gio smiled at the monarch thus spoke, and a ray of something very much like pity shone from his eyes. "Mapeu says that look and he could not wonder at its strangeness."

"I pray the gods that you may find her, and as for me, I am satisfied with the king with you for the present I will leave you to prosecute your search. Farewell."

"Farewell," returned Gio, "I will find her, and I'll keep her," he exclaimed, "and as for you, your head is not worth the weight of a day. You shall learn what it is to be a king!"

THE CARE OF LITTLE ONES.

Some Sound Advice as to the Best Method of Treating Infant Indigestion.

Nothing is more common to childhood than indigestion. Nothing is more weakening to the constitution, or more likely to pave the way to indigestion in infancy and childhood, than the use of purgatives, or the use of any medicine, except such as those of A. B. D. 1000, which are of a purely natural character, and which are perfectly safe and sound in their action.

As a rule, the child who is suffering from indigestion, is also suffering from colic, and the mother is often at a loss to know what to do. The child is restless, and the mother is often at a loss to know what to do. The child is restless, and the mother is often at a loss to know what to do.

It is a common mistake to suppose that the child who is suffering from indigestion, is also suffering from colic, and the mother is often at a loss to know what to do. The child is restless, and the mother is often at a loss to know what to do.

It is a common mistake to suppose that the child who is suffering from indigestion, is also suffering from colic, and the mother is often at a loss to know what to do. The child is restless, and the mother is often at a loss to know what to do.

It is a common mistake to suppose that the child who is suffering from indigestion, is also suffering from colic, and the mother is often at a loss to know what to do. The child is restless, and the mother is often at a loss to know what to do.

THE TURBENTINE WOULDN'T WORK.

THE PITIFUL EXPERIMENTS OF A MAN WHO TRIED TO CURE HIMSELF OF RHEUMATISM.

Limington, Ohio, and Everything Else that Belongs to the World. He Used Dodd's Kidney Pills, and They Cured Him.

Boiseville, Man., Jan. 27.—(Special to the Bulletin.)—I was so bad that I could scarcely use my arms at all. I was in bed for a week, and my right shoulder to turn over. The pain was nearly unbearable. Words cannot express what I felt. I had to endure such pain all my life. I would rather have no arms.

Everybody had something to tell me to do. One said, "Rub on Spirits of Turpentine." I did so, but only grew worse. Besides this, I tried to cure myself with turpentine. I was growing very downhearted as it looked as if I was never going to find anything to cure my ailment.

"Now it happened that we had some of Dodd's Kidney Pills in the house. I had always kept them, having tried everything else, my father suggested that I take some. I commenced, and in a few days I felt some better, and I kept on till in a few days the pain was all gone. I was cured."

"This is five years ago, and I have not had the slightest pain or ache since."

THE SIMPLE BOER. How He is Imposed Upon By Unscrupulous Middlemen.

The London correspondent of the Manchester Guardian tells the following story to illustrate the simple Boer. The simple Boer is all in favor of buying the best ingredients for his simple Boer. He is a simple Boer, and he is a simple Boer. He is a simple Boer, and he is a simple Boer. He is a simple Boer, and he is a simple Boer.

He
