A. C. PATTERSON TELLS OF THE WORK OF AMERICAN GOVERNMENT AT PANAMA

Canal Being Rapidly Completed—Ready in 1915—Death Rate Was Almost Five Out of Every Eight When He Went There—Back Again Next Month

A. C. Patterson, who is north on a furlough, talked in a very interesting manner with the Star yesterday about the work of the Panama Canal with which he has been connected for the five years. Mr. Patterson has been on a visit to his parents, Mr. and Mrs. Henry Patterson, formerly of Fredericton, who are now residing at Milltown. He spoke very highly of the way in which those engaged on the work of the canal were treated by the government. He has had a six weeks furlough each year which he has occupied in a trip to the north to visit his relatives.

Mr. Patterson was engaged in construction work at San Francisco before going to Panama five years ago. Since then he has worked steadily in the tropics except for his furloughs and has found the climate agreeing with him very well. When he first went down to Panama the death rate stood at about five out of every eight. Since then the government has cleaned up the whole canal zone and by the use of the most precautions has succeeded in making it so healthy a place to live in that the death rate is now only about one in four thousand. Although the temperature usually stands at about 85 in the shade in the day and 65 at night the climate is an even one and most of the men have little difficulty in working the year round for their full stretch of nine hours a day. When the work was first commenced white men of almost every nationality were to be found there. Now, however, ever most of them have gone away except the Americans. This, Mr. Patterson said, should not be surprising as he did not think there was any satisfaction in the world whose citizens could accommodate themselves to different climates. The latter are mostly from the British West Indies.

BIG BUSINESS BLOCK IN GRAND RAPIDS BURNED

Falling Walls Crushed Two Dwellings—Property Loss is \$400,000.

GRAND RAPIDS, Mich., May 22.—The Gilbert Block, seven stories high, containing the Hiram Smith department stores and scores of offices suites, was practically destroyed by fire today with a loss estimated at \$400,000. The south wall of the structure fell to the ground crushing beneath it two frame residences whose occupants, awakened just in time, were rescued by the police and firemen.

ONLY SIX DEATHS IN THE CITY LAST WEEK

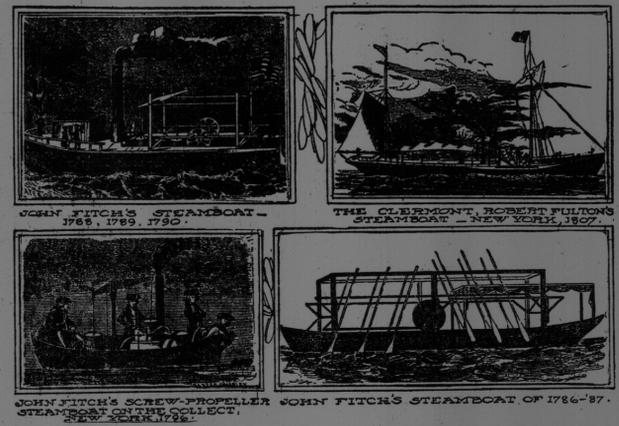

There were only six deaths in the city during the past week. The causes were as follows: Cystitis, uremia, tuberculosis, myocarditis, epithelioma of jaw, post diphtheritic paralysis. Burial permits were issued for the following persons:—

- Elizabeth McBeath, Repton, N. B., aged 59 years. John J. McAnulty, 140 Durham St., aged 38 years. Leon D. Branscombe, Range, Queens Co., 24 years. Charles A. Everett, 11 Orange St., 81 years. James E. Linkletter, 1 Lombard St., 65 years. Florence L. Hazelwood, 208 King St., W. E., 7 years.

Miss Sarah Harrison has returned to her home in Hartford, Conn., accompanied by her sister, Mrs. Alex. Watson.

The freshest is still falling off at Indiantown, the water is receding rapidly and no further rise of any size is expected.

SOME TYPES OF THE EARLIEST STEAMBOATS USED IN AMERICA

JOHN FITCH'S STEAMBOAT—1785, 1789, 1790. THE CLEMMONT, ROBERT FULTON'S STEAMBOAT—NEW YORK, 1807. JOHN FITCH'S SCREW-PROPELLER STEAMBOAT OF 1786-87.

JAPANESE STUDENTS' AMBITIONS DEFEATED

Pupils of Commercial High School Went on Strike Because They Were Not Given the Rank of a University.

TOKIO, May 22.—The students of the Commercial High School, who walked out in a body and adopted resolutions last week declaring their intention not to return because the Government had refused their petition to give the school the rank of a university, have been persuaded by their guardians and friends to withdraw their resolutions. It is expected that the school will re-open Monday morning and the 1600 students probably will resume their studies. The authorities were firm in the matter and determined to make an example of some of the leaders to discourage insubordination in schools, but gave them time to think it over with the result that the students have decided it wisest not to persist in their attitude.

SUGAR SCANDAL SHAKES JAPANESE EMPIRE

Member After Member of Parliament Con- vided of Disgracing Their Office by Accepting Bribes.

(Correspondence of the Associated Press.)

TOKIO, May 21.—Day by day the scope of what is known as the sugar scandal increases and the arm of the law is being stretched into places high and low to arrest and expose those responsible for the most gigantic series of irregularities ever brought to light in Japan. The constitutional party which has been the chief sufferer will find difficulty in rallying under the blow. There has been arrested so far twenty members of parliament and six directors of the company. The charges against members of parliament is accepting bribes. It appears from alleged confessions that in an endeavor to bring about nationalization of the sugar company about \$60,000 was spent in bribery. The names of some fifty members of parliament it is understood have been mentioned in this connection. Even the upper house suffers a certain loss of prestige. The charges against the directors are three, namely, fraud, falsification of private documents, and disgracing their office.

WILL ERECT MORMON TEMPLE IN CHICAGO

The Re-organized Church, Which Claims to be the Only Orthodox One, Has Many Followers.

CHICAGO, May 22.—The Mormons are going to build a temple in Chicago. "The re-organized Church of Jesus Christ of latter day saints," as the church is officially named, has been active in the city for some time and the leaders of the sect have gathered quite a body of believers about them. The president of the church has taken title to a plot of ground and it is their intention to erect the temple this summer. This particular branch of the Mormon church has its headquarters in Leamont, Iowa, and claims to be the only true and orthodox Mormon church in the world.

CROWDS ALREADY LEAVE CITY FOR THE HOLIDAY

Big crowds are leaving the city today to spend Sunday and the holiday in the country. A large number of passengers went up the river on the various river boats this morning and afternoon.

POLICE COURT.

Six common drunks were on the bench the police court this morning. Fines of \$4 or 10 days in jail were imposed by the magistrates on five of the number. James Harrington, an old offender, went into jail in default of paying an \$8 fine. Judge Ritchie took the judicial chair earlier than usual this morning. In inaugurating the Saturday morning proceedings for the summer months, The sheet had not been prepared and there was some delay occasioned before the administration of justice took place. The steamer Caledonia, from Glasgow for New York, was 283 miles east of Sandy Hook at 5 a. m. dock about 7.30 a. m. Sunday.

ODDFELLOWS' GRAND LODGE TO MEET HERE IN AUGUST

Local Lodges Have Chosen Their Committee to Make All Preparations—An Excursion on the River to Form Part of Programme—Other Arrangements.

On invitation of the four St. John lodges, the Grand Lodge of Oddfellows of the Maritime Provinces will meet here during the second week in August. This will mean an attendance here of probably upwards of four hundred delegates from every part of the province.

On Tuesday, August 10th, the Grand Encampment and the Rebekah Assembly will hold their annual sessions, and the usual committee work of Grand Lodge will be completed.

On Wednesday forenoon the Grand Lodge will open, and will continue its session until Thursday night.

The city lodges have begun preparations for this big and important gathering; the different lodges have appointed representatives to the Grand Lodge committee, and this body last evening held its first organized business meeting. H. E. Codner was chosen chairman and Chas. Ledford secretary.

In view of the fact that a very considerable amount of business must be handled by Grand Lodge this year, there will not be opportunity for much entertainment, but it has been arranged that the visitors and friends as well as local members of the order will enjoy an excursion up river. The steamer Victoria will be engaged to leave North End at 2 p. m. on August 11th, returning between six and seven o'clock. There will be a band on board and refreshments will be served.

The meeting last evening appointed sub-committees to deal with the different lines of preparation, and these will all report at a meeting to be held on Tuesday evening June 8th in Peoples Lodge rooms, Simonds St. Definite arrangements about the meetings of the Grand Lodge will be made in a day or two, but it is probable that the sessions will take place in the Keith assembly rooms.

which made no report. After other efforts to obtain aid James Madison presented a petition in his behalf to the legislature of Virginia. "Patrick Henry, then governor of Virginia, expressed deep interest in the plan, and when the legislature failed to give assistance took Kitch's bond for \$1,000, stipulating that within nine months thereafter Fitch should operate a steamboat. The plan fell through. Fitch had hoped Benjamin Franklin would give his patronage and went to Philadelphia to ask him for a certificate of the merits of his invention. Franklin evaded this request and offered Fitch \$6 as alms, saying he would not give it to aid his invention. This Fitch indignantly refused. Franklin was trying to invent a steamboat at the time.

EXPERIMENTS BEGAN IN 1785. "It was not until 1785 that Fitch began to experiment with steam," said Captain Brown. "His first idea was to apply the power to 'land carriages,' but gave a prize plan in favor of the steamboat idea. In that year he made a trial of a model with paddle wheels. Being without means he sent a letter to congress, asking assistance. The letter was referred to a committee,

which made no report. After other efforts to obtain aid James Madison presented a petition in his behalf to the legislature of Virginia. "Patrick Henry, then governor of Virginia, expressed deep interest in the plan, and when the legislature failed to give assistance took Kitch's bond for \$1,000, stipulating that within nine months thereafter Fitch should operate a steamboat. The plan fell through. Fitch had hoped Benjamin Franklin would give his patronage and went to Philadelphia to ask him for a certificate of the merits of his invention. Franklin evaded this request and offered Fitch \$6 as alms, saying he would not give it to aid his invention. This Fitch indignantly refused. Franklin was trying to invent a steamboat at the time.

JURGE WILLRICH TALKS IN WASHINGTON

Tells of Favorable Progress of Canada-Germany Treaty.

WASHINGTON, May 22.—Negotiations for a commercial treaty between Canada and Germany have advanced to a favorable stage according to U. S. Consul Willrich in New Brunswick. Under the proposed treaty Canada will grant reductions from imports from Germany of high class textile products, trunks, books, seals, artificial flowers, feathers, wines, spirits, ready made clothing, and porcelain. Germany will grant Canada reduced rates on agricultural implements, sprowlers, cattle and agricultural products. Consul Willrich points out that Great Britain has always enjoyed the advantage of bringing her goods to Canada under the preferential tariff, while Germany was compelled to pay a surtax over and above the duties under the general tariff schedule. The treaty will promote more friendly commercial intercourse between the two countries.

JURGE RITCHIE WARNS THE DOG OWNERS

Over 1300 Dogs Reported This Year by the Police—The Law Will be Enforced.

In the city and North End 1339 unlicensed dogs have been reported. The owners or canines had better take care for the police authorities will take immediate action. In the city the number of animals reported is 760, while in the North End there are 579 dogs, many of which are wandering about the streets without licenses. In the police court this morning Magistrate Ritchie drew attention to the fact of the large number of unlicensed dogs. He declared that the owners would be allowed the remaining days of the month to comply with the law. After that reports will be entered and the offenders will be liable to a fine of \$4 for not having the license and collar for their dogs. They may also be charged a double amount for the license.

STILL PLANNING FOR PROVINCIAL LEAGUE

New Moncton Team May Be Formed—If Not Marysville Will Be Admitted.

The Marathons and Clippers are by no means disheartened over the word that the railway town boys may not enter a team in the provincial baseball league. They have yet hopes that another nine will be formed in Moncton. In the event of this latter idea also falling through, Marysville will be admitted into the union.

FIREMEN'S STRIKE A SERIOUS AFFAIR

ATLANTA, Ga., May 22.—The strike of white firemen on the Georgia Railroad entering upon its fifth day today with its already accompanying acts of violence and intimidation, gives promise of more serious consequences. State and Federal authorities are taking extraordinary precautions, the latter on the ground of protecting the mails. At small towns along Georgia Railroad between Atlanta and Augusta much feeling has been manifested by strike sympathizers it having been publicly proclaimed by the officials of the Order of Locomotive Firemen and Enginemen that the strikers based upon a question of white supremacy.

The licensed saloons in the city upon closing their doors at 5 o'clock this afternoon cannot re-open until Tuesday morning next. The law distinctly states that there can be no selling of liquor on holidays and the shops must remain closed. It would seem as if the holiday would be a "dry one."

The local police may land the express robbers in the recent Truro case. Three men were noticed at Coldbrook today answering the descriptions of the men wanted. Chief Clark was communicated with and immediately dispatched officers on the case. Detective Kilton, Deputy Jenkins and Officer Gosline left the station about ten o'clock, and expected to round up the party.

The Star will not be issued on Monday.

AMUSEMENTS

GREAT HOLIDAY BILL
Four big vaudeville acts are on the bill at the Princess Theatre next week beginning Monday matinee. First on the programme is Mr. and Miss Rodreau, grand opera stars who have appeared before His Majesty King Edward; Queen Dora, sensational fire dancer; Jack English, the marvellous hoop roller; Doro Williams and Bell Laurance, who present a high class comedy sketch. The usual programme of pictures will also be shown. A glance at its programme will convince every one that it is the greatest ever given anywhere for the price. It is needless to advise all to be early Monday.
NICKEL TODAY AND MONDAY.
The children will have another of their Saturday afternoon features of good pure amusement at the Nickel today. The bill has been selected with care and no sensational or suggestive feature will be found in the hour-long programme. Parents have learned that it is absolutely safe to send their little ones to this house, the pictures are so carefully censored. Tonight the week will be terminated with a special long programme.
On Monday, Victoria Day, the Nickel will be open at 10 o'clock in the forenoon, and before dinner time a programme of Talking Pictures, Songs, Pianologues by Lucia Kenney and plain pictures will be tendered early evening. In the afternoon the same big holiday bill will rule; also in the evening. Of Mr. Kenney it can be said he is a highly refined pianologist, one who sits at the piano and makes his hearers laugh and cry almost at will. He is a most amusing trick pianist as well. The Talking Picture Co. will play "His Wife's Mother", a howling comedy. Miss Evans has a new song and the orchestra will have national airs and merry hits from New York. Owing to the usual crowds on holidays intending patrons are urged to be early. Children can be best entertained at the matinees.

FIRST CRUISE OF SEASON MONDAY

Yachts All Spick and Span for Annual Holiday Trip
Following out the custom for some years past, the members of the Royal Newfoundland Yacht Club will on Monday next start the yachting season. The boys will enjoy a one-day cruise on the river and may possibly visit the tributaries.
During the past few days there has been much activity at Millidgeville in anticipation of the season's opening. The painting is being completed and sails are being erected. General improvements are also made and many of the fleet will present a fine appearance for the opening day.
However, the Victoria Day cruise will only be a small one. There are a number of members who cannot get away for the day and it is an uncertainty as to the number of boats which will compete.
Commodore Thomson, speaking with The Sun last evening, stated that a number of the boys would congregated at Millidgeville and hold the first sail on the stream. The cruise would be an informal one.
It is learned that the Bejale will be visited by the yachts. The yachts going include the Louvina, Vagabond, Canada and the motor boat Amico. Stops will also be made along the river and the boys will visit their friends. There is talk also of some of the boats making the trip on to the capital.
The latest addition to the club is a power canoe, the owner of which is T. E. Ryder. The craft is of cedar and was built by the Chestnuts of Fredericton. It is Mr. Ryder's intention to build a power boat of large dimensions this fall, for speed purposes, the special purpose being to have the fastest in this part of the country. The plans and specifications are ready and the boat will be built in the early fall.

Classy Kid from Bean Town

Two of the fastest youngsters in the American league are Hooper and Wolters of the Boston club. Although they broke into fast company this year, they have created a sensation wherever they perform. Hooper is an outfielder and Wolters a pitcher. The latter is picked as one of the classiest youths the majors have attracted in many a day. "And he's a better outfielder than pitcher," says Manager Fred Lake.
follow immediately at the conclusion of the sports. The Greeks have also secured Sealy and Triles, two fast men, for the team. Two all-star pitchers will be announced later.

DOG HAS APPENDICITIS

BONHAM, Texas, May 21—The proud dog in this town is a half-grown bull pup owned by Rev. G. P. Ball. It has been operated on for appendicitis.
The dog is a blue ribbon winner in the Cavalcade of Animals.
and all that, but those things are common.
He was taken sick a week ago, and the physician who was hastily called diagnosed the disease as appendicitis. The dog was taken to a hospital, operated on and will recover.

MARATHON SEASON OPENS ON MONDAY

Will Play Two Games With Marysville on Every Day Club Grounds
The Marathon Baseball Club will open the season on Monday morning next, Victoria Day. The Marysville Crescents and the Greeks will be the attractions both morning and afternoon. The boys have of late been getting in some hot practice and intend to put up a lively fight with the Crescents. The old players on the team will be again found on hand, while new blood will also be introduced.
The Crescents are a strong combination and are sure to give the Marathons a stiff run. The morning game will start at 10 o'clock sharp and the afternoon at 3:30 o'clock. The teams will line up as follows:
Marathon.
Catcher.....Rootes
Pitcher.....Pitches
Brown.....Trecant
First base.....Near
Titus.....Suipys
Second base.....Ramsay (Capt.)
Cain.....Ramsay (Capt.)
Third base.....Bradbury
Short stop.....Copeland
McConnell.....Copeland
Daley.....D. Malcolm
Centre field.....J. Malcolm
Boone.....Right field
Downie.....Clawson
Doubtless a large number will attend the games. The diamond is in excellent shape and a fine exhibition should take place.
Prior to the afternoon match the Every Day Club will hold a banner series of field sports. The entry list is already large and will close with A. W. Covey this afternoon. There will be 100 and 225 yards, as well as the half and one mile events for the seniors. There will be 100 yards, quarter mile and one mile for the intermediates. The high jump will also be on the programme.
The Marathon-Marysville game will be put into effect.

VICTORIA DAY EXCURSION

The steamer Sincennes leaves Indian-town at 2 p. m. for Glenwood, calling at Public Landing, Bedford and Brown's wharf, returning to Indian-town at about nine o'clock. D. H. Ness, Agent.

HAPPY HALF HOUR OPENS MAY 24TH

After considerable bustling Manager Munde announces that the Happy Half Hour will be opened Monday, May 24th. The hours will be from 2 to 5:30, and 7 to 10:30. The programme consists of all that is latest and best in moving pictures and illustrated songs. The titles of the pictures will be announced in Monday morning's Sun, and one thing the public can depend on and that is that they will be brand new and never before shown in this city. This policy was carried out last year and will be again this year. Regarding the singers, two operatic singers have been engaged and will be in time to open Monday. Their names and selections will be announced in Monday's paper. They are highly recommended. Here are two extracts in letters from two different people who have heard them, and are authorities: "They are the best singing team ever heard in St. John I promise you that." Here's the other: "They make the others look like wooden money." One thing patrons can depend on and that is a good show will be given at the Happy Half Hour.

THE NEW UNIQUE OPENS AT SEVEN O'CLOCK TONIGHT

The opening of the New Unique this evening is one of the most talked-of events in local history. Well might this be so, as within a very few weeks a furniture store has been remodelled into one of the most up-to-date motion picture houses in all Canada.
Of course, curiosity to see the new building will have the effect of bringing patrons by the thousands this evening, but the entertainment provided will more than repay them. The return of Joseph Klotz, the most popular basso ever heard in this city, is hailed with delight by his hundreds of admirers, and the picture programme will be found one that is sure to please.
With the underpinning gone and its supports all but tottering a section of the provincial government, but has been falling since January, but as yet nothing has been done towards repairing it. The danger to passenger traffic is daily becoming more great and time only is required to complete its demolition.

THE STEAMER GENIC WILL GO NORTH TO

to inaugurate the service on the Caspe-Campbellton line. The steamer has been fitted up splendidly. There will be about fifteen calling points between ports on the Bay Chaleur.

A Full Explanation of the Old Method and the New.

We are prepared to serve a 21 meal ticket for \$2.50. We are prepared to please all classes. We are prepared to serve in the latest style and will give on Sundays Soda Water Free with every meal. We have a full line of tobacco, cigars and cigarettes. We have and always will have a clean, tidy place open on Sundays from 8 a.m. to 12:30 p.m.; evenings until 10 o'clock. Other days from 7 a.m. to 11 at night.

THE MARITIME RESTAURANT,
181 Prince William St., Cor. Dalis, B. McCormack, Prop.

The racing committee of the Carleton Cornet Band are making arrangements for the erection of scoring indicators such as are used in all large cities for six-day racing where they have a large entry. Seven entries have been received for the fifteen-mile event and ten for the three-mile event for boys under eighteen years of age. The one-mile has four entries up to the present. A great many take advantage of the indoor track every afternoon and evening. This is the first indoor track that has been laid in the city since professional racing. The rink is open to spectators every afternoon and evening.

Oh, Piffe

The much-loved-dovey business is hindering athletes at Indian University, according to Com's Skel Beach. The veteran looks with disgust upon the "mud lussies" when they try to be athletes at the same time.—News Item.

2 IN 1

SHOE POLISH

Stays Shined. Dust won't dull it. Rain won't spot it. Dampproof and waterproof. Keeps out moisture. Softens and preserves the leather. Just put it on, rub two or three times with a brush or cloth and a brilliant and lasting shine results. No substitutes even half as good.

SELECT JUNE 22ND AS CHILDREN'S DAY

The annual meeting of the committee of management of the Carleton Methodist Church Sunday School was held at the church last evening. Officers were elected for the ensuing year as follows: Alfred Barley, superintendent; W. D. Baskin, assistant superintendent; D. W. Myers, secretary; B. C. Holder, treasurer; Mrs. W. G. Haslem, superintendent of Home Department; Miss Grace Cheyne, pianist; Miss Vere Brown, assistant pianist.

Arrangements were perfected to hold children's day at the church on June 22nd. A committee was also appointed by the meeting to arrange the details for the annual picnic.

The reports presented showed that the school had completed a most prosperous year.

Synopsis of Canadian North-West Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

Duties—Six months' residence upon cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may present a quarter-section alongside his homestead. Price \$500 per acre. Duties—Must reside six months in each of six years from date of homestead entry (including the time required to earn homestead patent) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$200 per acre. Duties—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$500.00.

TO LET—Large front room, with board. 18 Orange street. 28-1-tf.

CAUSE AND EFFECT

A certain lady never doubted Her husband. (Do you doubt it?) She wasn't dumb, nor was she sagging. (You seem surprised about it.)

Her voice was shrill, ill-informed her face!

And frowning helped to age her. (It surely was unique, this case, You're thinking now, I wager.)

Her mien was shrewish, I allow. Her temper prone to break out. My statement's true enough, though (How?) You can't exactly make out!

h'e explanation's simple, when Your queries are not parried. . . . The lady I have mentioned (men Are coward!) never married.

THE UNPAYING GUEST

By Morris Francis Egan, Author of "The Soul of Sexton Maginnis," etc.

To have achieved success and yet to know that one has a daughter who will not believe that she is better than her husband is one of the saddest things that can occur to an ambitious mother-in-law, especially if, like Mrs. Magee—known in her family circle as "Herself"—she is a widow. The Olympia Laundry prospered in Bracton, The Yellow Peril, which in the eyes of Herself, had threatened her adopted daughter, had been given up by washing and taken to vegetable gardening. In her lonely condition Mrs. Magee had turned to things of the mind. In the intervals of controlling her business, she purchased from book-agents. It is true that she had availed some of the longings in the heart of her daughter, Mary Ann, who was still the slave of Maginnis, and took in summer boarders at the Currier Place. In her lonely condition there was nothing left for her but to change her "state of life," as she expressed it, and she fixed her eyes on Mr. Michael Carmody, who for some months had been an unpaying guest in the house of Maginnis. He had come with the foray in February and remained with the asters in October. This intention was, however, abandoned on a certain possibility, she was about to confess her changed view of life to Mary Ann when the daughter of her efforts for the improvement of her daughter blazed upon her and stunned her into silence.

Mrs. Magee was then induced to "take" two quarters' instructions in painting at the convent, where the pious teacher marveled at the facility and bold prayers that the loss of time against holy poverty—might be forgiven.

On a mellow morning late in October, Mary Ann suddenly appeared with the completed fruits of her labors. It was a high polished and ornate oil on which a large crimson rose, surrounded by buds of various sizes, seemed to glow. Maginnis, when he saw it, had honestly understood the master-piece to represent the Holy Trinity, and four smaller lobsters "boiled alive."

"The Lord be good to us!" said Mrs. Magee, as she held the work of art at arm's length. "It is beautiful entirely!"

"It is beautiful entirely," said Mary Ann, in the old days, when I was bent over the wash-tub, with these hands that I wear like a pair of gloves above in the suds, and you only a girl, did I think of a time when you would be so good as to think of me, and art; but you spoiled it all by my 'beneath you.' That's done; what's done, can't be undone."

Herself sighed herself into silence, and fixed a happy stare on the magnificent picture of the Holy Trinity. Mrs. Magee ruled the half-dozen young persons who worked in the Olympia Laundry. It paled before the rich splash of the crimson, which she had framed in the middle of a large gilt-edged volume entitled "The Sorrows of the Empress Josephine," which lay near by.

"The picture has a meaning, whether you intended it or not," continued Herself thoughtfully. "The rose, Mary Ann, is you, and the buds is the children, and the hard little girl, she has—out early and late trying to sell people looks that don't want to buy. That's your own thinking, Mary Ann, and it'll take him—if his figure, she'd make a great success on the stage."

"Mrs. Towner!" said Herself, "you're a woman, you'll give up Maginnis, or make that young man with her dyed pompadour and her painted cheeks, leave the house."

Mary Ann's face expressed a certain triumph.

"You've always said that no other woman would look at Maginnis but me," she began.

"At a certain age," said Herself, cuttingly, "our sex isn't particular, and a woman brought up with the natives, an Irishman has his attractions,—and she with her smooth tongue and her pompadour!"

"Oh, Mother, I'm surprised at you!" cried Mary Ann, really hurt and shocked. "I do believe it; but I'll see Father Blodgett."

"Don't be running to priests with questions your own conscience can settle," said Herself. "Maginnis is making love to another woman, you'll say, but I believe it, his zeevreness will answer, 'tis true, you'll say, not we'll bring my name into it!"

"The work of art was rudely pushed aside, and Herself, by a quick movement, saved it from destruction.

"If you cultivate your mind more, Mary Ann, you'll know the ways of men better. Time after time have I asked you to read history, read the history of the Empress Josephine, which a certain woman sold to me at one dollar a month, and its even child or child, and a hard little work its worth in gold—"

"and you'll see that if Josephine had left Napoleon first, he couldn't have left her, and the map of Europe might have been different. Oh, Mrs. Magee, continued bitterly, "it's not my daughter you are, but the very twin of your deceased father. He liked to be trampled on—and me with the flower of my youth withered on a wash-tub. Ah, well," she sighed, "if circumstances were what they might be, maybe I'd find a man wanting of me yet; but I'll not speak of that now. When I compare Maginnis with your guest, Mr. Michael Carmody, I feel the iron in my soul; and the Lord keep Carmody from them that has the gulls of the birds of the air and the cunning of the beasts of the earth—"

"Ode Carmody!" exclaimed Mrs. Ann, her face flaming under her blue hat. "He hasn't paid us a cent for months, though he boasts of his grand relations in Ireland and his theatrical triumphs, all the time borrowing money from Maginnis for even his shaves and his tobacco. It's hard on us, with Mary and the twins to take care of, to be feeding an idle man like him. And Maginnis was that mad the other night he set the rusty windmill behind the house going. It

LITTLE DANGER FROM ALOFT.
Hudson Maxim, the noted American inventor, has recently assured an anxious public that the dangers of aerial bombardments in future wars is not as great as the fancy of some writers has pictured it.

With regard to aerial attacks directed against a battleship, the inventor claims that they would be even less effective. During experiments made at Sandy Hook in 1911 large aerial bombs containing five hundred pounds of gun cotton were thrown at high velocity against twelve inch Krupp armor plate. The result was only a smudge on its surface. On the other hand a twelve inch shell containing twenty-three pounds of maxinite penetrated the same kind of plate and broke it in all directions. It will be readily seen, however, that the guns to throw such projectiles could hardly be mounted on an aircraft and they would be ineffective if simply dropped overboard. Aircraft will undoubtedly have a place in the wars of the future for scouting operations, but Mr. Maxim is not at all convinced that they will ever be a serious menace to their enemies beneath.

BOOMING BOSTON.
A hundred business men of Boston are at the present time touring the New England States in an effort to boom their city. They are members of what is known as the Boston Business Men's Association and part of the campaign which has been planned by them is to induce manufacturers and shippers in the New England States to use Boston rather than New York as their shipping port. This campaign also includes the promotion of industrial activity. Manufacturers everywhere are being urged to seek new markets, to increase their output, to employ larger staffs, and generally to adopt a more progressive policy than has been noticeable in the past. This is being done in the hope that such expansion may ultimately benefit Boston in increasing the traffic through that port, and not because of a desire for greater activity in outside places. When New England has received its share of attention, Canada is to be visited by these promoters. Already the newspapers, and the literature printed by this organization, tend to convince Canadian shippers that Canadian ports are not the most satisfactory. Great stress has been laid on the fact that a number of steamers have recently encountered ice off the Newfoundland coast, and from this it is argued that unnecessarily exposed channels which might be avoided if all Canadian traffic were diverted to United States ports.

TO CANADIANS, the weakness of these statements will be apparent, yet it is to be feared that such an aggressive campaign as is now being conducted will have at least some effect. Canadian shippers as a rule are sufficiently patriotic to give the preference to ports of their own country, but frequently conditions arise in business which render success possible only when full use is made of every advantage offering, and it may be that the Boston promoters will be able by their campaign of publicity to influence some who now naturally favor Canadian ports. The principal and perhaps the only really important reason for unsuccess is that such energy is apparent on the part of the Boston merchants, while the Canadian cities which are more in need of whatever additional traffic they can secure, are doing nothing for themselves. Montreal and St. John are content to let things drift and this being the case we will have no one but ourselves to blame, if other and more energetic cities step in and capture a share of the business.

A FLIGHTY POEM.

How oft we've seen that bird so sweet,
Sitting upon a seaside seat,
The fairest creature one could meet—
A duck.
With saucy looks, without a word,
That duck has nuzzled another bird,
Of which I'm sure you must have heard—
A jay!
He talks of wealth he hasn't got,
Of fairy tales she tells her lot,
Both swallow all these lies, Oh what
A swallow!

BESIDE THE OLD ROAD.

There were two voices in the listening air,
Beside the old, old road:
But of no touch, no motion, was I aware,
And no form showed.
The first voice said: "O bleeding,
bruised one,
Beside the old, old road!
O unspurred love, by British hands undone,
That heaped thy load!
"O royal slave, O scourged and dying love,
Beside the old, old road!
Beneath this straw, a rifled tatch above—
Such thine abode!
"I, in a yearning palace, splendid,
Beside the old, old road,
On these all rare delights thou hast not known,
Would have bestowed!"

THE WAY OF THE AUTOMOBILE.

It's up in the hills, then down with a swoosh,
And over the plain like a bird's foot,
It's scorching and skidding around,
Till instincts most reckless are striven!
It's a race with the wind, to challenge its speed,
A rush through vast spaces of air,
Long draughts of rare ozone, a lifting of hearts,
A flutter of wayward loose hair!
It's skimming of thank-yous quick as a saab,
Going higher and higher and higher,
Till just as we're reaching the top of the world,
It's a buzz-it—and a punctured tire!

A HEAD-ON COLLISION.

If a bonnet meet a bonnet
Coming through the door,
Each with fowls and forest on it,
Three yards round and more—
If each hat, not measured double,
Grazes either side,
What mere man can gauge the trouble
When these two collide?

SATURDAY SERMONETTE

"GIVE US THIS DAY OUR DAILY BREAD."
There is not a church in the city that does not pray that prayer. There is not a home that does not pray it, in it in one form or another.
They pray it out on the wide wheat fields of the Northwest. The seed sowers chant it, the steam threshers sing it, the wheat mills of the prairie join in the prayer. So do the granaries of the world.
The elevators on our sea boards and in the great railway centres lift their hands heavenward and cry out, "Give us our daily bread."
They shout it, those hatless, coatless, frenzied men in the stock exchanges of Wall Street and London. The poor man prays it with spade and pick and shovel as he goes to his work in the dawn of the morning.
White faced hungry looking women pray it in the poisoned air of the sweat shop.
The great army of shop girls pray it with their paid-to-keep virtue wages. Tired music teachers pray it until they grow whiter and thinner through the hard winter months.
And so every one of us with spade and pen or needle and thread, "Give us this day our daily bread."
And the clouds say I will answer that prayer and they and down they showers. And the sunshine says I will answer that prayer, and the dew says, "although I cannot send down such showers as the clouds say, I will send down what moisture I can on the thirsty wheat fields that the hungry may have bread."
The great army of shop girls pray it with their paid-to-keep virtue wages. Tired music teachers pray it until they grow whiter and thinner through the hard winter months.
And so every one of us with spade and pen or needle and thread, "Give us this day our daily bread."

THE HANSOME CAB

ALL BUT EXTINCT
All Conquering Taxicab Supplants It in London—Many Cabbies Destitute
LONDON, May 21.—The rapidly approaching extinction of the hansom cab before the all-conquering taxicab was generally recognized some time ago. Little thought was given to the cabby himself. People were heard now and then to remark that the competition of the taxi had improved his lot, and that he was more grateful for a 50 per cent. over fare than he used to be, and on occasions would even acknowledge a small increase on his legal fare.
Then Lord Rosebery wrote a short letter to the Daily Mail drawing attention to the fact that the hansom cabby was practically starving, calling him a good fellow and asking the public to come to his rescue. In four days the increasing hourly rate of the public subscribed £2,000, yesterday the fund amounted to £4,398, and it is increasing every hour.
Every day scores of cases of extreme destitution are reported. Men who have owned their own stables are now making sometimes as little as 4 or 5 shillings a week.
Wherever it is possible the broken cabby is being supported while he learns to drive a motor. Hundreds are doing this, but the age limit is 44, and the medical test is severe. Something, however, is being done to help every broken cabby, but he is a hard man to find work for.

CURTAIN IS RUNG DOWN; THE FRENCH STRIKE HAS FIZZLED OUT

Leaders are Angry --- Try to Throw Responsibility for Failure Upon Each Other.

PARIS, May 21.—The curtain was rung down today upon the general strike amid recriminations by the strikers who tried to throw the responsibility for the failure upon each other and the defeated postal employees. The end came when a few hundred laborers went to resume work. The General Federation of Labor then threw up the sponge and issued a manifesto last night, in which they seek to cover up their retreat, explaining that the postal classes were over-confident of the success of their second strike. "Which everything shows was prepared and instigated by the government, which was desirous of an opportunity for avenging itself against the leaders of the first strike."
The statement adds that the strike of the excavators and other workmen having sufficiently demonstrated the solidarity of the proletariat and the postmen, there was no reason to call out other unions, notably the electricians, who had expressed their readiness to give quick relief. "Give it to them," said the manifesto, "which will summon the police, who will be summoned to the streets, where he occupied his last days in minor experiments. His last labor was to construct a model boat three feet in length, its machinery was constructed of brass, and it was fitted with side wheels. It is believed to still be in existence."
"Fitch committed suicide in July, 1908, when he was fifty-six years of age, after a long illness. He was buried in Bradstreet, Ky."

Philadelphia Shoeks Boardwalk Promoters at Atlantic City
ATLANTIC CITY, N. J., May 21.—Women screamed and men rushed wildly to summon the police when Peter Condeals, a Philadelphia, disrobed on the beach and indulged his fancy for an ocean bath without erasing the customary costume, while thousands were parading the boardwalk under the electric lights last night. A squad of reserves rushed the Philadelphia to jail without giving him an opportunity to put on his street attire. Judge Kaffer gave the prisoner the alternative of paying a fine of \$200 or serving ninety days in the county prison. He went to jail.
MONMOUTH, May 21.—The annual meeting of the Y. M. C. A. was held tonight and the old board of directors elected. Deficit on year's work was \$120, compared with \$200 last year. The symposium was discussed but action was deferred.

SCHOOL MARCHES REFUSE TO PARADE, SO THERE
Danville Teachers Say Patriotism is Not Measured by Footwork
DANVILLE, Pa., May 21.—While Danville patriots loudly lament the "shameful indifference" that has caused the schoolmarmas of their town to refuse to march to the parade of the forthcoming Memorial Day parade, the teachers remain steadfast in their determination not to march. The young men insist that they are not patriots, and say they refuse to take part in the demonstration because last year they felt "foolish and out of place" as they tramped along the sidewalks. They also insist that patriotism should not be judged simply by footwork.
The teachers announced their stand following a request made by the school board at a previous meeting that they with their pupils, participate in the parade and ceremonies incident to the unveiling of the recently erected monument to the soldiers and sailors of Montour county, which will occur here on Memorial Day. The members of the school board are highly indignant at what they style a "lamentable lack of patriotism."

BRAKEMAN FALLS FROM EXPRESS TO HIS DEATH

Hartley Crawford, a brakeman on the Shore Line Railway, was instantly killed yesterday at Cassels, seventeen miles east of St. Stephen.

Crawford was attached to the regular express which left the West side at seven forty-five yesterday morning. When the train reached Oak Bay at twelve-thirty he was missed, but little importance was attached to the fact, his fellow trainmen thinking that he might have been left behind at one of the stations passed.

Upon receiving no word at St. Stephen, however, the worst was feared, and a sharp outlook was kept during the return trip. Upon nearing the water tank at Cassels Engineer Lynch spotted a body lying beside the track, and the investigation that followed resulted in the identification of the

corpse as being that of the missing brakeman. The body was placed aboard the train and conveyed to St. George, where an examination was held by Coroner Taylor. An inquest will be commenced this morning.

The body was little mutilated when found, and the supposition is that the unfortunate trainman fell from the train while in motion, meeting with instant death. The deceased had been a sufferer from heart failure for some years, and this affliction is held accountable for the accident by his relatives.

Crawford was thirty-three years of age and single. He lived with his mother and two sisters at 22 Main street, Fairville. He had been in the employ of the railway for seven years and had always been regarded as a sober and industrious employe.

MAN DRIVEN CRAZY

BY BILLIKEN'S SMILE

Employe of Optimist Club Goes Mad Because of Squally Thing

NEW YORK, May 21.—Because the little squally god Billiken smiled at him day and night from the rooms of the Optimist Club, David McKee, a young Irishman, who has been an em-

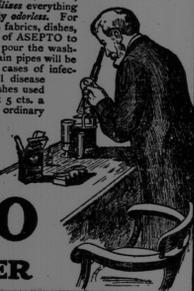

ploye of the club, has gone mad. He was taken to Ward's island and, though his case may be merely temporary, his friends fear that an effort will be made to deport him to his home in Ireland.

McKee came to the United States two years ago at the instance of William J. Robinson, who had met his family at home. Later Mr. Robinson, who then lived in Salt Lake City, started the Optimist Club. The young Irishman was a hard worker, but the constant smile of Billiken, the club emblem worn on him, and he said some time ago that if he didn't have some form of exercise to take his mind off the god and the club he would go crazy.

ASEPTO makes clothes whiter, fresher, cleaner, than any soap can make them. Sterilizes everything it comes in contact with—is perfectly odorless. For washing clothes, bedding and various fabrics, dishes, pots and pans, use one tablespoonful of ASEPTO to a bucket of water. After the wash, pour the wash-water into the sink—and sink and drain pipes will be completely disinfected. Invaluable in cases of infectious diseases, as ASEPTO kills all disease germs present in the bedding and dishes used in the sick-room. ASEPTO costs but 5 cts. a package—but when compared with ordinary washing compounds ASEPTO would be dirt cheap at double the price. ASEPTO has been analyzed by eminent physicians and found to be all we claim for it.

FRAUD ALLEGED IN THIS CASE

Equity Case of Unusual Interest HEARD YESTERDAY

Plaintiff Seeks to Set Aside Conveyance—Woman in the Case

A Charlotte county case of considerable interest occupied the attention of the May sitting of the Equity Court yesterday before His Honor Justice Barker. The case was that of Dyer v. McGuire et al.

The plaintiff in this suit is J. Henry Dyer, while Robert McGuire, Archibald E. McGuire, Gertrude S. McGuire, his wife, and Nellie I. Hunt, Dr. L. A. Currey, K.C., and M. N. Coochorn, K.C., appeared for the plaintiff, and Dr. Allan O. Earle, K.C., for the defendant Nellie I. Hunt and Melbourne Mac-Monagle, K.C., for the other named defendants.

Although the court began its session shortly after two o'clock, it was nearly four when the bill and answers had been read.

This suit is brought by the plaintiff to set aside a conveyance given by the defendant, Robert McGuire, to his son Archibald, on the 26th of May, a year ago. The property in question lies in the parish of St. Patrick. On the same date the son Archibald mortgaged the place back to the father for \$500, later the mortgage was assigned to Mr. Mac-Monagle, who then assigned it to the defendant, Nellie I. Hunt, his daughter.

The facts of the suit briefly are as follows: On May 14th of last year, the plaintiff recovered in the Circuit Court of the county a verdict for \$6000 for goods sold and delivered, against the defendant, Robert McGuire. His counsel obtained a stay of process until the first day of June. Meanwhile these transfers were made. Although the defendant had a stay of process until the first of June, he did not move for a new trial and on the 8th of June, judgment for the amount recovered and costs was signed against him. An execution having been returned nulla bona, and the plaintiff now asks to have the different conveyances set aside, claiming that they are fraudulent and without consideration.

Further, the defendants allege that the several considerations mentioned in the bill were real and actual. N. Marks Mills, barrister-at-law of St. Stephen, was the first witness on the stand. Examined by Mr. Coochorn, witness denied that he was ever the solicitor of the defendants. He drew up the deed and mortgage, and that was the extent of his relation with the defendants in this suit.

Dr. Earle objected, on the ground that an attorney is not permitted to declare as his communications between attorney and client. His honor allowed the question subject to the objection.

Witness said that during the conversation the defendant, Robert McGuire, stated that the plaintiff, Dyer, would never get his property. Witness said that defendant, Robert McGuire, intimated that he was having the idea of defeating Dyer.

When cross-examined by Dr. Earle, witness said that he had volunteered this information to Mr. Coochorn. Witness did not consider that by preparing deeds a fraud was being perpetrated. Witness only thought that it was a mistake.

S. Edward Mills, a provincial constable of St. Stephen, was the next witness. Witness told of a conversation that he had with the defendant, Robert McGuire, on the 25th of January last at Woodland, Me. McGuire

told witness that the conveyance to Archibald McGuire was a sham. Witness continuing said that McGuire told him that Mr. MacMonagle, his attorney, advised him to make the conveyance.

Cross-examined by Mr. MacMonagle, witness admitted that he had carried liquor into Maine, a prohibition state, and gave a flask to Robert McGuire. Witness was very sure that he was not under the weather himself at the time.

4,000 LAMPS ARE LIGHTED BY WIRELESS

OMAHA, May 22.—The Omaha Electrical Show was tonight lighted by wireless current, this being the first time that a lighting current has been sent without wires.

The current came from the government wireless station at Fort Omaha, five miles from the auditorium where the show is being held. There were 4,000 incandescent lamps and for four hours those lamps were lighted by the wireless current.

The system by which the experiment was made was a discovery of Dr. Frederick Millener, wireless expert of the Union Pacific Railroad.

SAYS BLACK HAND KILLED HER SON

Mother of Cincinnati Student Received Letter Saying He Tipped Off Police to Organization

HAMILTON, Ohio, May 21.—At the corner's inquest today into the death of Arthur Ketterling, the Cincinnati student at Miami University Normal School, in Oxford, Ohio, whose mutilated body was found along the Cincinnati, Hamilton and Dayton Railroad tracks last Wednesday morning, the boy's mother testified that last Friday morning she received in Cincinnati the following letter:

"This is to let you know that your son tipped the Black Hand off to the police, and he was a member. For that he lost his life. Close your mouth."

"BLACK HAND."

Mrs. Ketterling says her son had no cause to commit suicide. She believes he was murdered.

FOR SALE—Six Laying Hens. 20 Brasels street. 22-5-4f.

I'll Explain Why I Always Drive a GENDRON

"You see the breaking of the springs causes us baby drivers more trouble than any other weakness in carriage cars. But there is no spring weakness in the GENDRON car. Note that double curve. It is exclusive with the GENDRON. It so distributes the strain that the spring never breaks. And then the wheels,—you see they are specially welded, and cannot warp or break. Note also that little rubber cap over the nut of the axle. Sometimes when I have a restless passenger, I want to drive the car around the house without scratching the furniture—it is a little point, but a good one. The materials for all the GENDRON cars are the very best in the bodies, tops and every other part. There is style and service in every GENDRON model—Canadian made, so that any unexpected accident can be easily remedied."

LOCAL NEWS

The Fairville Drug Co.'s new soda fountain, one of the newest in town, will open on Monday.

"Pigeon's Special" shoes. This line has attained the highest standard of shoe excellence. C. B. Pigeon.

The French strikers have lost. Lots of people lose. The real winners are those who buy their jewelry from Walter H. Irving, 55 King street. No chance to waste money there. Best goods at lowest prices.

Miss Irene Dunlop, of 216 King St. East, was surprised last evening by a visit from the members of a snow-shoe club of which she is a popular member. The occasion was her sixteenth birthday and in honor of the event Miss Dunlop was presented with a congratulatory address in rhyme and a handsome camera.

J. Hunter Parsons, secretary of the Provincial Young People's League, addressed a meeting of the Y. P. S. of the Watkinson Church last evening. The address was most interesting and inspiring. A sacred concert is planned for the church to be held on June 1st.

FATHER GAYNOR'S LOSS IS \$4,000

Valuable Library and Considerable Manuscript Burned — Other Cottages Escaped.

Father Gaynor's loss on the fire which destroyed his summer cottage at Spruce Lake yesterday afternoon is figured at between three and four thousand dollars. He was especially unfortunate in losing a valuable library and much manuscript, which cannot be replaced. The loss was partly covered by insurance.

The fire, which at one time threatened to burn the whole summer colony at Spruce Lake, was driven by the residents and owners from the city and did little other damage. The strong breeze carried sparks from the fire across the lake and started a blaze there, but as this region was all burned out long ago, not much danger is feared for it.

Reports from the district this morning were to the effect that the fire was practically extinguished.

SOME DIRECTORS WANT NEW SITE FOR BIG FAIR

Almost Certain That \$50,000 Grant Will Come to St. John and Plans Are Already Being Discussed

The possibility of an official decision regarding the city regarding the disposition of the Dominion Exhibition grant for 1910 is bringing forth much controversy among several of the directors, as well as a number of St. John's leading merchants. It is practically certain that the \$50,000 grant will be the situation of the exhibition. While there are some who favor holding the big fair on the present grounds, others declare they are inadequate for the volume of traffic which would come here with a Dominion Exhibition. There has been talk of improving the grounds and even enlarging the site somewhere near the city should be secured. There have been many places mentioned, but so far the scheme has not materialized.

As soon as any definite information from Ottawa is received the directors will assemble and begin preliminary arrangements. There will be a large amount of work and an early start will be made.

EXPECT GOOD SEASON FOR GOLF AND TENNIS

Play Started on Monday at Tennis Courts

Will Have the Provincial Tournament Here in August — Golf Club Will Not Employ Professional

That tennis and golf will boom in St. John during the present season is an assured fact. Both the Tennis Association and the St. John Golf Club are in a flourishing condition and preparing for a busy season.

The actual start in both of these games will be made on Monday, although the regular outside matches have not as yet been arranged.

The tennis courts at Gilbert's Lane have been put in excellent shape. The courts will be used on Monday by a number of ladies and gentlemen. Probable an outside match will be played with Fredericton on Dominion Day, July 1st.

At the tennis courts there will be conducted in August the sixth annual provincial tournament. Players from Fredericton, Chatham, Epsom, Moncton and other points will participate and play will continue for several days. Strong teams will be entered by the local association in the ladies and gentlemen's singles and doubles, as well as the mixed doubles. When the success of the annual tournament in 1908 at Rothesay is taken into consideration, St. John may be expected to have a business meet.

At Halifax the leading clubs in Nova Scotia will assemble for the tournament of that province. The winners of St. John's meet will leave for Halifax and clash with the victorious winners at that place for the Maritime championship.

The golf links present a picturesque appearance. The grass has grown evenly and the links are in first class condition. It is improbable that the golf members will employ the services of a professional during the coming season.

CANADIAN INSPECTOR AT WORK ON THE BORDER

Many Immigrants Refused at Vancobero Because of Certain Deficiencies

(Special Commercial)

R. O'Shaughnessy, of St. John, N. B., an immigration inspector of the Canadian Government, has been detailed to inspect immigrants passing from the United States into Canada, and has already commenced his new duties. Inspector O'Shaughnessy arrived in this city Thursday afternoon on his first trip.

Inspector O'Shaughnessy has been assigned the territory between this city and McAdam. He will have no special headquarters but will travel back and forth between Bangor and McAdam as he thinks best. At present he is looking over the ground to see how it can best be covered and later will probably speak of a more settled routine of work.

Speaking of the large number of Italian immigrants turned back at Vancobero within the past few weeks by the Canadian officials and brought to this city, Inspector O'Shaughnessy told an Italian reporter Thursday afternoon that this action was taken largely because the immigrants did not have the necessary health certificates from the Canadian health officer, Dr. Elliot, stationed in New York city.

"We are nearly as strict in admitting immigrants as your country's inspectors are," stated Inspector O'Shaughnessy in the course of conversation. "However, during the past month we have turned back over 60 undesirable foreigners at Vancobero and there were 125 Italians Thursday whom we had to return.

"Most of the foreigners who have been turned back at Vancobero recently have been those who did not have the necessary health certificate from Dr. Elliot in New York city. Practically all of these men have been provided with a passport into the United States, but many a paper of that kind for Canada.

"Besides those who do not have the health certificates, there are others who didn't have the necessary amount of money the Canadian Government specifies for carrying dangerous weapons on their persons. The Canadian immigration law states that an immigrant shall have \$5 with him in summer and \$20 in winter.

"Many of the immigrants sometimes have the necessary papers to get into Canada," stated Inspector O'Shaughnessy, "but they have been coached in Italy to beware of people over on this side and so when one of us approaches one of them and asks for his health certificate he says he has not got any such paper. It is not until you have taken the man off the train and are about to start him back into the country that he suddenly remembers he has the papers and produces them. Many of the immigrants refused admittance at Vancobero recently have been men who have been picked up in the cities of the States by contractors and employment agents, who do not care whether the man has the necessary qualifications to enter Canada, but give him a ticket and send him on. The employment agents get big money just the same and that's all he cares about. The immigrant usually gets stuck."

MIKE SULLIVAN WANTS A FIGHT WITH MANTELL

Frank Owen, of the Chicago, Has Been Sold to the Toledo Club.

SACRAMENTO, Cal., May 22.—Frank Mantell, of Rhode Island, defeated Frank Mayfield last night in the 13th round of a 20 round bout. Mayfield's second threw up the sponge. A telegram from Mike (Twin) Sullivan challenged the winner.

CHICAGO, May 22.—Pitcher Frank Owen was yesterday sold by President Comiskey of the Chicago American League Club, to the Toledo Club in the American Association. The consideration for the deal was not announced other than that it was an out and out sale.

The sale of Owen removes another of the old time players from the South Side Club. Last year he did not show much and this year was displaced when Comiskey secured Burns from Washington. The owners of the Toledo Club wired Owen to report to Toledo at once.

THE TARIFF DEBATE

WASHINGTON, May 22.—The wood schedule will be before the Senate today and several addresses will be made relating especially to the duty on lumber. According to general understanding no vote will be taken on any schedule. Several senators to be followed from constant attendance on the sessions of the Senate in order to attend to their correspondence.

All-though Senator Aldrich gave notice that he probably would ask the Senate today to fix a day for voting on the tariff bill and all announcements, it is believed that he will not make that request until Monday.
