#### CAPTAIN GEO. H. PERRY FOUND BEATEN TO DEATH IN HIS OWN BACK YARD AT YARMOUTH, N.S.

Three Hundred Dollars That He is Thought to Have Been Carrying is Missing and Probably Supplies Motive for Appalling Crime—Entering His Own Home When Set Upon and Beaten With Iron Bar That Stood in the Yard—Police Without Clue to Perpetrator of the Murder.

Yarmouth, N. S., Feb. 27.—Today residents of Yarmouth are horrified over the brutal and mysterious murder of Captain George Henry Perry, farmer master mariner, who was clubbed to death upon his door step last on Saturday night. There is no clue as to the identity of the assailant, and the exact hour of the tragedy is unknown. Robbery is supposed to have been the motive since a black purse in which Captain Perry is supposed to have been carrying \$300 cannot be located.

Captain Perry was seen by a neighbor at about ten o'clock. One hour and twenty minutes later, Manfred Tom, a youth who had accompanied Miss Eleanor Perry to a motion picture show, discovered him lying in his backyard. His head was badly battered and he was unconscious. Medical aid was summoned, but with in half an hour the captain was dead.

Used Iron Bar.  
The weapon of the murderer was a bar of iron, found near the body. It measures fifteen inches in length with a diameter of an inch and a quarter. Two blows were apparently struck; the first crushing the forehead. Then as Captain Perry pitched forward, stunned by the first crash of the deadly iron implement, he was struck upon the back of the head, two very deep wounds were inflicted, and the skull was fractured. The body was found crumpled up in the backyard, but indications are that the murder was committed on the very threshold of the backyard, for on the porch floor, was found a large clot of blood.

Hit at His Door.  
A theory here is that Captain Perry was assaulted just as he was preparing to enter his house, and that the murderer, having stunned him with the two blows, threw the body into the backyard. All this time Mrs. Perry was sitting in the front of the house.

The case is in the hands of Chief of Police Babine. Immediately after Captain Perry's death, Coroner Fuller was summoned. He ordered an inquest, which was opened today and adjourned until tomorrow night, after hearing the testimony of Mrs. Perry, the widow.

Mrs. Perry stated that her husband had been about as usual all day Saturday, and that, in the evening after supper, she had asked if he were going out, to which he had replied that he was not sure. He had, however, gone out and done his usual chores about the barn. These finished he returned to the house, picked up his overcoat, laying it over his arm and went out. That was the last that she had seen of him alive.

Found by Daughter.  
Shortly afterwards, her daughter Eleanor and young Ross had gone to the moving picture show, leaving Mrs. Perry alone in the house. Being tired, she had retired to her room of the second floor, remaining there until the return of the young couple. The three of them then had started a light supper. Mrs. Perry said that she had expressed anxiety to Ross over the whereabouts of her husband, and had asked him to go to the barn. He had complied returning immediately to tell her he had found Captain Perry in the backyard, severely injured. She had wished to go out to him, but Ross would not allow her, saying that he would call help and a doctor.

Asked by the jury if the back door was locked or not, Mrs. Perry pleaded ignorance, saying that she had nothing to do with that part of the house and that Captain Perry had always fastened it himself. In response to enquiries as to her husband's nocturnal habits, she said that he had only been accustomed to going out for the purpose of attending church, Masonic lodge nights, and frequently going to the Yarmouth police office on Saturday evenings.

#### What Was the Motive?

With reference to the iron bar, Mrs. Perry stated that her husband had used it for shoe repairing, particularly for the fitting of heels; she said that he had generally left it lying where he had been using it.

Since her husband did not discuss his business affairs with her, she could not say definitely if he had recently received any cheques or money. She did know that he had cashed several cheques within the past fortnight. He had always carried his money in a black purse in his hip pocket, and whenever he changed his clothes, he had transferred the purse to the hip pocket of the trousers which he was wearing. She thought that at the time of the assault the purse might have contained about \$275. She said that Ross was only absent one minute when he went to look for Captain Perry.

Captain Perry was about sixty-six years of age. He was widely known among members of the maritime profession here. Besides his widow, four daughters survive him, Eleanor, at home; Clara E., in Manchester, N. H.; Florence E. in Toronto, and Carrie in Outlook, Sask.

#### Smelt Catch For 1920 Was Record

Prince Edward Island Fishermen Had An Exceptionally Prosperous Season.

Special to The Standard, Charlottetown, Feb. 27.—Although many were disappointed at not obtaining an extension of the smelt fishing season it may be all the better for the future of the industry, as there is no doubt there would have been a large catch during the full moon tides and over-fishing of any fisheries is not desirable. It is interesting to note that in the year 1919 the total catch in the province was valued at \$61,594, while the catch of 1920 was valued at \$87,343. These are the prices which were paid to fishermen at the boat-side. The price realized on the market was \$119,944.

#### ARRESTED AT FREDERICTON.

Fredricton, N. B., Feb. 27.—John A. Holwell of Devon and John Smith of Fredericton were arrested on the complaint of H. B. Colwell on charges of obtaining goods and money under false pretences. Howells is said to have written bogus checks, and Smith to have cashed them. Both are returned to the police house, Constable Limerick remanded them until Tuesday.

Fred Shafner Charged With Theft—Seven Men Sent to Hampton for Housebreaking

Fred Shafner, one of the seven men arrested for break-ins in summer cottages at Woodman's Point and Day's Landing, as well as a store at Westfield, was charged in the police court Saturday with stealing \$70 from Miss Myrtle Long, Millidge Avenue. He pleaded not guilty.

According to Miss Long's evidence, the accused went to her bedroom while she was in another part of the house. Later she found that the money which she kept under a mattress had disappeared. Sgt. McLeslie, one of the officers who arrested the accused, along with six companions at the institute, said one of them told of spending \$70. The case was allowed to stand until Monday week.

Dr. T. J. Dalton gave evidence of treating Francis A. Bab for a head wound, such as would be caused by being struck by a blunt instrument, in the case of James A. Bourne, charged with striking Bab over the head with a poker. Postponed for judgment.

Arthur Polky and wife, charged with stealing wearing apparel from Frank R. Adams were remanded till today. A juvenile charged with escaping from the Boys Industrial Home, was taken back by the officials.

Walter Warren, Fred Shafner and Frank Williams, all New Brunswickers; Percy Williams, Leonard and Theodore Saben, of Nova Scotia, and Arthur J. Davis, of England, who were arrested in the Seaman's Institute on the charge of breaking into the store of W. E. Corbett at Westfield and bringing a revolver to Mr. Corbett and breaking into summer cottages at Woodman's Point, were taken to Hampton for trial by Detective Donohoe, Constable McLean and Constable Crawford.

#### FUNERALS.

The funeral took place yesterday at 2:30 of Joseph Peters from his parents' residence, 5 George street to the Cathedral where the burial service was conducted by Father Duke. Interment took place in the New Catholic Cemetery. A number of floral and spiritual offerings were received.

The body of Mrs. Elmina Tucker will be sent to St. George this morning for interment from Chamberlain's Undertaking Rooms. Mrs. Tucker passed away in Lancaster on Saturday leaving her husband, Clarence Tucker, or to mourn.

The funeral took place on Saturday of Mrs. Adelaide M. Wilson from her residence of her daughter Mrs. Frederick Brookings, 79 Lansdowne Avenue. Rev. Dr. Daniel Hutchinson officiated. Services were held at 164 Duke street, the residence of the late Mrs. Draper, widow of Dr. J. A. Draper last evening at 8:30 by Rev. J. A. Mackenzie. The body will be taken to Yarmouth, N. S., for interment on Sunday, leaving on this morning's boat.

The funeral of Mrs. Mary Annie Assel was held Saturday afternoon from her late residence, 117 St. Patrick street, to Feghill. Services were conducted by Rev. E. T. McKinn.

#### Tetegouche Pioneer Dies Very Suddenly

Although 84 Years of Age He Never Had a Doctor Until Final Illness.

Bathurst, N. B., Feb. 27.—All old timers of Bathurst and the surrounding country were shocked to learn of the sudden death of Samuel C. Smythe of Tetegouche, one of the real pioneers of the country, in his eighty-fourth year. Death came very suddenly in the end. Mr. Smythe having been engaged in the woods at the time.

Born in the town of Ballinglass, County Carlo, Ireland, in the year 1837, he came to Canada when a mere child of five, accompanied by his parents. The family decided to settle in Tetegouche which, at that time, was accessible only by means of a narrow pathway; and it was there that he spent his whole life, growing up with the settlement, marrying and bringing up his family, finally passing hence. A staunch Episcopalian, Mr. Smythe interested himself deeply in church work. Living the outdoor life he preserved himself from sickness all his life, never receiving a visit from a doctor till the last.

Mr. Smythe was predeceased by his wife seventeen years ago, but he is survived by all his children six daughters and one son, as follows: Mrs. Arthur Kent of Moose Jaw; Mrs. John McDonald of Pawtucket, R. I.; Mrs. Charles Payne, of Nahma, Michigan; Mrs. John Macintosh, and Mrs. Robert Lindsay of Ross Hill; and Miss Bertha, and Sherman at home.

JUDGE QUITS BENCH.  
Fredericton, N. B., Feb. 27.—Belleville have received advice of the retirement of Judge Colter from the office of surrogate court judge of Elgin county, Ontario, after seventeen years. Recorder T. H. #### Purse For Pastor

Belleville Station, Feb. 27.—On Thursday evening last the Methodist parsonage was filled to its utmost capacity when the friends of Rev. and Mrs. Shanklin met and presented them with \$12.50. The gathering was not confined simply to Methodist friends but all denominations were present which goes to show the esteem in which the pastor is held.

Games and music were enjoyed. Rev. Mr. Couston gave a short address. Rev. Mr. Shanklin replied in his usual witty manner, thanking the givers. Lunch was served.

#### Seven Caught In Fredericton Raid

Although Some Had Plenty of Money Police Hold All for Trial This Morning.

Special to The Standard, Fredericton, Feb. 27.—Four women and three men were gathered in by the police in a raid made between two and three o'clock this morning at a house on King street. Some of the members of the party had considerable money, but the police have declined to accept deposits, and all are being held for trial tomorrow morning in the police court. Sub-inspector Fraser Sanderson was with the raiding party, but the only sign of liquor found was an almost empty bottle of gin which had a label showing it had been prescribed by a doctor for a man of the party.

Yarmouth, N. S., Feb. 27.—Five early this morning destroyed Providence Methodist church, Yarmouth, N. S. The loss is estimated at \$30,000, with \$12,000 insurance on the building and \$3,000 on the organ. The fire started about one o'clock in the furnace room and spread rapidly throughout the building. The church was built in 1859 and had a seating capacity of 600.

Carmania at Halifax.  
Halifax, Feb. 27.—The Cunard liner Carmania, from Liverpool via Queenstown, arrived here on Saturday afternoon, and after landing 253 passengers and 973 packages of mail, sailed on Saturday evening for New York. Captain Melson reported that Daniel Bragan, one of the crew, committed suicide by jumping into the sea on last Monday morning. Some of his shipmates saw him go over the rail and reported it to the captain. The steamer was immediately stopped and a boat lowered, but Bragan sank before he could be rescued. He leaves a widow and four children in Liverpool.

#### THAT SENATE APPOINTMENT

It may be accepted as correct, that the appointment of Mr. J. A. McDonald to the Senate was made either on the recommendation of the responsible minister from this Province, or by someone higher in authority, it would be very unfair indeed to condemn Hon. Mr. Wigmore for this iniquitous affair should the facts prove that the selection was not his and that the appointment passed despite his personal protest. Yet as the party is bigger than any one of its members, it would be equally regrettable should the Melgion administration lose its prestige through well-meaning compliance with the wishes of its representative from New Brunswick. Since, in the present inflamed state of public opinion, general condemnation of both Mr. Wigmore and the Government prevails, it might reasonably have been anticipated that something of the truth of the matter would be given the public so that a fairly intelligent judgment of the whole circumstances might be formed. Nothing, however, has been officially issued, and in the absence of definite knowledge the people of New Brunswick are forced to content themselves with such scraps of information as can be picked up. From Ottawa comes the report that certain members of the cabinet who realize fully the blow which has been struck the Government through its bungling, are desirous of having the whole circumstances made public. And the sooner this is done, the better for all concerned.

It is understood, however, that at the meeting of the cabinet at which this question was to come up for disposal, the name of Mr. McDonald of Amherst was put forward by Hon. Mr. Wigmore with his personal recommendation that the appointment should be made. The full name of the applicant was asked, but apparently none of the members of the present cabinet knew Mr. McDonald's full name and the appointment was put over until the following meeting. The desired information having been secured, the matter was put through in the ordinary course, members not personally acquainted with the circumstances accepting without question Hon. Mr. Wigmore's recommendation.

That this outline of the proceedings may be accepted as approximately correct is indicated by the fact that since indignation over the appointment became so outspoken, the Minister of Customs has personally expressed the opinion that the course adopted by the Government was a wise one and that the appointment has, in his mind, given very general satisfaction. Under these circumstances it seems futile to attempt further to convey any appreciation of the real state of affairs here. Amherst, however, is evidently proud of its new Nova Scotia Senator, and so long as Nova Scotia is pleased, possibly this is all that matters to Hon. Mr. Wigmore and his colleagues.

#### LAW PERHAPS, BUT CERTAINLY NOT JUSTICE

The decision of Mr. Justice Barry in the Restigouche election case, which declares the whole election void, must be assumed to be in accordance with the law, based upon the evidence produced. But just the same, it is particularly hard lines for the successful candidates, against whom nothing was alleged. As a rule petitions are aimed against the return of the successful candidate, on account of some malpractice on his part or that of his agents and workers. In the Restigouche case, not one word was said against anything done by Messrs. Stewart and Dietze, nobody has questioned any of their proceedings or suggested that they did not run a perfectly clean election. There is no allegation that they got votes that were intended for any of the other candidates, or that they received any other unfair advantage. Yet despite all these things, despite the fact that they received more votes than any other candidates, despite the fact that as regards the conduct of the election proceedings they are in every respect blameless, the election is declared void and they are unseated. That may be law, but it certainly is not justice.

That there was a considerable degree of irregularity in the conduct of the election consequent upon the ignorance and stupidity of the sheriff, and his carelessness in carrying out the duties, is beyond question, but that hardly appeals to a fair-minded man as a reason why two altogether blameless men should lose their seats. There was no evidence that any voters were misled in any way, or that they, by reason of misdirection, cast their ballots for candidates other than those for whom they wished to vote. No body seems to have suffered any wrong by reason of the irregularities; the only result that has been felt

covered so far arises from the fact that the Government candidates found that they were not so popular as they thought they ought to be with the voters. Hence their tears and lamentations. They therefore have had recourse to the meanest and most contemptible of all forms of procedure, that of falling back upon a technicality, and this, be it noted, based upon the default of one of their own friends. This, however, is entirely in keeping with what might be expected from the company to which they belong.

#### ENGLISH BY-ELECTIONS

It is just as well perhaps that by-elections do not come so often in this country as they do in England, or the Government would have little else to do than attend to them. In England, however, the Government has nothing to do with ordering elections; the matter is entirely in the hands of the Speaker, who issues his warrant forth with as soon as a vacancy is reported to him. There is no holding over of elections until conditions are favorable, as is done over here; constituencies are not disfranchised for months and years because the party in power fears the return of a political opponent, as is the case in Canada. There are at the present time five by-elections coming in in England within the next few weeks. The circumstances surrounding the conflicts and the personalities of the candidates give peculiar importance to these contests. In the constituency of Woolwich there is an interesting contest between Ramsay MacDonald perhaps the ablest of the Labor leaders, who was defeated in the last election owing to his pacifist views during the war, and Capt. Robt. Geo. V. C. representing the coalition. Geo. started life as a workhouse boy. He won promotion on the field and the highest award for valor by sheer ability and courage. The election is necessary owing to the retirement of that picturesque moderate Labor leader, Will Crooks.

The appointment of Sir Arthur Griffith Boscawen, as Minister of Agriculture has involved him in a doubtful light at Dudley. He must seek re-election, and in these rapidly changing days his 1918 majority of 3,800 over the Labor candidate is none too large to make him comfortable, although he may have cause to bless divisions in the ranks of the opposition.

At Penistone, in Yorkshire, W. A. R. Pringle, one of the notable radicals of the South Parliament, is seeking to return to the Commons, and there is also to be a contest in the Alcester division of Birmingham. From constituencies so widely divided in locality and temperament, yet all voting within a few days of one another, it is believed that a really significant view will be obtained of the present state of political feeling in Great Britain.

#### THE FOSTER-VENIOT RECORD DUPLICATED

One of the complaints of the politically organized farmers of Ontario against the last Government of the province was on the score of extravagance. Farmer politicians demanded economy in the administration of provincial affairs. They promised that the sending of a farmer group to Toronto would ensure economy. For the year 1920 the Drury Government had an ordinary revenue greater by \$2,000,000 than the revenue for 1919. It closed the year with a deficit of \$800,000 in current accounts. Thus the Drury Government is spending millions more than the last Government, which was so roundly accused of extravagance. And the Provincial Treasurer has sought new sources of revenue for this year. Experiments in Farmer rate are expensive. In the case of Ontario the economy plank in the Farmers' platform seems to have been merely "to get in on." By substituting "Foster-Veniot" for "Farmer" and "Drury" this is practically the record of the present New Brunswick Government.

The Hon. "Tiny" McDonald, New Brunswick's Nova Scotian Senator, got a warm welcome from the residents of his own home town, Amherst, N. S., when he arrived there on Saturday. He was met at the station by a large concourse, accompanied by a band; but whether the latter consisted of pianos or tin whistles, is not mentioned in the despatch.

There is more truth than poetry in the oft heard remark that His Satanic Majesty is good to his own. After the general election in 1917, the Foster party found itself with a majority of only one, when one of the Opposition

I got a bad report in school yesterday, being one of the worst bad reports I ever got, me thinking, Gosh, I better ask pop to sign this ween he's in a lousy hurry so he won't have time to look at it.

Which I didn't catch him in anything that looked much like a hurry till this morning when he was putting on his hat and coat to go down to the office, me saying, Are you going now, pop? Are you in a hurry, pop?

No, strange to relate, I've got plenty of time this morning, was can I do for you? sed pop. Me thinking, Holy cats, G and pop sed, Well, wats the difficulty, wats on your mind?

Sir! I sed.

You don't seem very wide awake this morning, you're acting rather incoherently, so to speak, sed pop.

Yes sir, I mean no air, never mind, pop, Ill ask you wen you come home, I thawt maybe you wassent in a hurry, I sed.

Well neither I am, sed pop.

I mean I thawt maybe you was in a hurry, I sed, and pop sed, You're getting worse insted of better, wats the dooce alle you?

Wen, me! I sed. Thinking, Heck, darn it, and pop sed, Come on, out with it, theres no time like the present, and I sed, Well I thawt maybe I thawt you would sine my report in case you had time.

Wats it? sed pop.

Wal, the report? I sed, and pop sed, No, the lesson of Panama. Meaning yes, the report, and I handed it to him slow and he looked at it and took back my recess money and sed, I couldnt have eny for 3 other days either.

Proving people are generally in a hurry at the rong time.

### AMBASSADORS FROM AMERICA ARE QUITTING

Wilson Appointees Not Waiting Until Harding Takes Up Reins of Office.

(Copyright, 1921, by Public Ledger.)  
 London, Feb. 26.—Without awaiting until after President-elect Harding's inauguration these American ambassadors have either formally and officially or personally and privately sent their resignations to the State Department. Ambassador-elect Hiram Bingham, ambassador Davis, following his announced intention, has called Washington that he expects to sail from Southampton, March 9, on the Aquatania for New York. Ambassador-elect Hiram Bingham, who Robert Underwood Johnson has signified his intention of following the official custom by resigning, but will await the appointment of the next ambassador before deciding upon his future plans.

The withdrawal of these men, as also of Brand Whitlock, Ambassador to Belgium, shortly after March 4 and the prospect that the American ministers at the Hague, Copenhagen, Warsaw, Bern and Bucharest, will not resign because they are ministers, appointed from the American diplomatic and consular service, has brought to a head the movement in Europe and America of taking diplomacy out of politics.

Almost immediately after his inauguration, President Harding's cabinet will have to decide whether trained diplomats and experienced consular representatives are to be turned out to make room for financial and political supporters of the next administration. While every capital in Europe is a centre of speculation regarding the intention of the new President, nothing would cause more dismay than the designation of future official representation solely on a basis of their wealth or party loyalty. With funds, financial and shipping questions forming already upon the horizon as the chief international problems facing the next administration, it is but natural that sentiment should be almost unanimous over here for the appointment of experienced men to foreign posts.

Sorry To Lose Davis.

The departure of Ambassador Davis will leave a big diplomatic gap in London. Few among even the many well known American representatives in London leave with as successful a record as Mr. Davis, although he, like many other American officials in Europe, leaves his post a poor man. While many men have been suggested to succeed him, London officials still have the impression that Myron T. Herrick can make the best of it. Herrick can make the best of it in London is not an ambassador, but a check absorber.

Children Cry for Fletcher's

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Jersey City Man Charged  
With Atrocious Assault—  
Claims He Was Drunk.

New York, Feb. 27.—A left ear, which it is said Antonio Romano, of 577 Grand avenue, Jersey City, cut from his wife's head with a razor early yesterday morning, was grafted on again later in the day at the Jersey City Hospital. Dr. A. W. Gallagher, who performed the operation, said it appeared to have been successful.

Romano was caught by the police after a search of five hours, at the Pennsylvania railroad ferry in Jersey City. He was arraigned in First Criminal Court, and told Police Judge Sullivan that he had been drunk and did not recall just what had happened. He was held for the Grand Jury on a charge of atrocious assault. Mrs. Romano's screams brought aid. She said her husband had pushed her about the house and when she fell, welded the razor. The ear was severed by the thrust.

IRISH LEADER  
HAS NEW SCHEME  
FOR GOVERNMENT

Confederation to Take in  
Every County is  
Proposed.

IS FAVORED BY  
THE SINN FEINERS

Would be Modeled on the  
Swiss Plan—Present Act  
Does Not Go Far Enough.

Cork, Feb. 27.—An original scheme of government for Ireland, proposed by Professor Alfred Washley, registrar of the University of Cork, is arousing great interest in Ireland. The correspondent has been informed that the plan has been endorsed by many men prominent in the Sinn Fein movement, in which Professor O'Rahilly is a recognized leader.

Briefly, the scheme calls for an Irish confederation and, according to Professor O'Rahilly who discussed it at length in an interview with the correspondent, it provides the only solution of the northeast Ulster question.

Professor O'Rahilly is not opposed to the idea of partition. "Our proper attitude," he said, "should be to insist on more partition. Ireland should be divided not into two but into 40 regions. By tradition, faith and circumstances we ought to aim at decentralization and regionalism and uphold the sovereignty of the people."

"What many fair-minded Ulster business men fear is the possibility of an all-powerful central parliament in Dublin. And to tell the truth, Cork men are not really enthusiastic about a Dublin Westminster, nor are Connemara peasants likely to favor a central sovereign assembly controlling all the minutiae of Irish life."

"It is a mistake to think there is merely an Ulster problem. There are about 40 problems. We are a heterogeneous people and to remain true to ourselves we must have far more local liberty and regional autonomy than is allowed in the ideal of a central parliament or two assemblies in Belfast and Dublin."

In Switzerland, he pointed out, there are 22 sovereign states differing in religion, language, size and economic position, although Switzerland is only half the size of Ireland.

"Every Irish county," he went on, "has as much right to partition as County Down or Belfast. The real objection to the Partition Act is that it doesn't give Belfast and Ulster enough local liberty and power. In an Irish confederation they ought to get more."

IN THE EDITOR'S MAIL

Campbellton, N. B.,  
Feb. 25th, 1922.  
Dear Sir:—I note that the press of the Province is very loud in its denunciation of the Sheriff of Restigouche, and while I am free to admit he has been a man of a great many irregularities, it must be remembered that this is the first Provincial Election in which he officiated, and naturally he was governed largely by the opinion and advice of A. T. LeBlanc, one of the members of the late House, on whose recommendation no doubt he received his appointment. It is shown by evidence taken recently before Judge Barry that A. T. LeBlanc, M. A. Kelly (Clerk of the Court), John Harquail (Deputy Returning Officer) and F. M. Anderson, Sheriff Craig in his office on nomination day and they intimidated him or persuaded him to make a second declaration after the close of his court. It is also shown by the evidence that John Harquail had something to say in the appointment of the Deputy Returning Officers in the Town of Campbellton.

Previous to the advent of Mr. LeBlanc in the political arena in Restigouche we were free of irregularities in election, but the gentleman seems to have a faculty of using appointees of the present Government to serve his own purpose if occasion demands it. In 1917 he suggested the creation of a wide branch between the Liberal party and Conservative party brought largely by his personal attacks on men who were above reproach, except the fact that they differed with him in politics.

He started in the campaign of October last by scandalizing and vilifying the Hon. C. H. LaBelle, who had been in public life for more than thirty years, simply because this gentleman took exception to the way in which their convention, called by Mr. LeBlanc, was conducted. Said convention was called and an invitation was extended to all those supporting the Foster Government to attend on a certain date in the Town of Campbellton. Mr. LeBlanc or some of his henchmen stationed a constable at the door of the building of which a convention was to take place and a written document, the substance of which was that any man entering had to sign that he would support and defend the Hon. C. H. LaBelle, and prominent Liberals refused to sign this, and I am of the opinion that any independent man could not sign such a document. The action of Mr. LeBlanc led up to another trick nominated by the supporters of LaBelle and W. D. Duncan.

Within the specified time after December Day a recount was asked for by S. S. Harrison, one of the defeated candidates. This request was granted, and Judge Macleary appointed a recount, and did a recount some eight or nine boxes and officially announced contents of these boxes for each candidate. The number of ballot papers in each box and compared them with the poll book, there was very little discrepancy between number of ballot papers in the books, not sufficient to have made any difference in the total result for each candidate. A petition was then filed by F. M. Anderson, protesting against the return of Messrs. Stewart and Diotte. The result of this protest proceedings were that the Judge ruled that Messrs. LaBelle and Duncan papers were properly filed. It was however determined beyond a doubt that the choice of the electors was Messrs. Stewart and Diotte. The opinion of the majority got all the votes that was intended for them and had Messrs. LaBelle and Duncan not been in the field their majority would be very much larger. A very large majority of the electors of this county hope to have this matter adjusted before courts of appeal.

MARITIME PROVINCE REPRESENTATION

To the Editor of The Standard,  
Sir:—In your issue of 23rd inst. is an Ottawa despatch on the above topic, which coolly forecasts that Nova Scotia and New Brunswick's representation will be cut by some five or six members after the Maritime Province members, whether Ont or Tory, can stand in line and fight to the death for Maritime Province rights.

Moncton, 25 Feb. W.

To the Editor of The Standard:  
Dear Mr. Editor, please give me space for this little bit of information to women for Monday. I am a woman and I think all women should vote against daylight saving. For instance, it is no saving. I have to get up at 4 o'clock every morning and burn light nearly two hours before daylight. Is that saving? And I work sixteen hours out of twenty-four, and no holidays the year around. It is only for men, they have all the holidays, all the Saturdays, all the day-light time, that is why they want it now. Why not give the women a little chance of their lives? They are nothing but slaves anyway.

Now all women vote against it, and don't let the men have all to say; don't let them talk it up by them. Hope they will win it by their votes.

Japanese Joker  
Fond of Suicide

Perched Under Wharf He  
Watched Men Searching  
for His Body.

Vancouver, Feb. 27.—It is quite evident that W. Tuzuki was not born to be drowned, otherwise he would certainly have succeeded a few days ago, when he made three attempts to commit suicide in the Inlet. His first plunge into the cold salt water was made after bidding a comrade a flowery adieu, which, however, did not deter the other Jap from effecting a rescue and hauling Tuzuki on to a boat, where he proceeded to give him a lecture. Tuzuki, not relishing this, dived in again and disappearing from view. Convinced that the man was drowned, his friend notified the police, and for several hours the police boat and 300 volunteer assistants dragged the Inlet for the body.

Finally, Tuzuki was discovered sitting on a pile of ice, shivering but not merrily. "What you doing—dabbling?" he inquired of the rescuing party. After getting him into a boat, with infinite labor, the Jap plunged into the water for the third time, but was roughly rescued with a boat hook. After being dried at the station, he was turned over to doctors, who will examine him to see whether he has any water on the brain.

Rev. J. C. Berrie  
Died Saturday

Passed Away After Short Ill-  
ness of Pneumonia—Had  
Reached 80 Years.

Hosts of friends throughout the province will learn with regret of the death of Rev. John Charlton Berrie, which took place at an early hour Saturday morning at his home, 59

REV. J. C. BERRIE.

Carmarthen street, after a few days illness of pneumonia, at the advanced age of 80 years.

Rev. Mr. Berrie was one of the best known and most beloved Methodist ministers in the provinces of New Brunswick and Prince Edward Island, where all his pastorates were located and the community has suffered a distinct loss in his demise.

He was born in Tamworth, Warwickshire, England, on December 25, 1840 and received his early education at Tamworth and Reading. Later he entered business life in London which he afterwards gave up to enter the ministry. In October 1871, he with eleven other ministers came to America and his first charge was at Souris, P. E. I. His other pastorates were, Little York, Murray Harbor, and Moncton, P. E. I., and Shediac, Jacksonville, Sarnia, St. Andrews, Hillsboro, Fairville, St. Matthews, Woodstock, Gibson and Marysville.

He is survived by one daughter, Mrs. W. C. Good, with whom he made his home, one son, J. Charlton Berrie, 102 Carmarthen street. His wife, who was Miss Hannah B. L. McIntyre, died on November 14, 1919.

Prohibition of Imports Result-  
ed in Work for All Her  
Citizens.

Copenhagen, Feb. 27.—There is no unemployment in Finland, says M. Villberg, chief of the Trade and Industry Department of the Finnish government who is visiting here. He attributed Finland's good fortune in this respect as compared to most other countries, to the prohibition of imports. This had the effect of making the country's industrial production greater than at the beginning of the war.

Finland is now considering the advisability of gradually discontinuing the embargo on imports, he said. This country has begun to transport goods for Russia and has established a free port at Hangö.

Protestants Should  
Not Turn Catholic

Twelve Reasons Given by  
Rev. Hudson in Sermon at  
Victoria Street Church.

At the Victoria Street Baptist Church last evening the Rev. W. G. Hudson, B. Th., preached on the subject: "Twelve Reasons Why Protestants Should Not Become Catholics." In his address Mr. Hudson gave a fair and unimpassioned review of the reasons why Protestants should not turn Catholic.

Tribute to Thinkers.  
In his opening remarks he said it was not his intention to take up cudgels against the Church of Rome. Christianity, he said, owed much to that institution. The lives and works of the great minds of the middle ages have been a source of inspiration and a blessing. No true Christian can read the lives of Thomas A. Aquinas, Brother Lawrence, Thomas of Aquis, Thomas of Aquinas, Savonarola, and not feel his heart quickened. These are all true children of the Church of Rome.

It does not matter that some of them were killed. They were brought up in her faith. The beautiful hymn "Jesus, The Very Thought of Thee" was written by a Catholic Monk, Bernard of Clairvaux. The speaker went so far as to say that he wished the Protestant Reformation had not been necessary. A very superficial reading of history, he said, clearly reveals it was inevitable.

Twelve Reasons.  
Mr. Hudson gave his twelve reasons as follows:  
First—Because it spoils a potentially good Protestant to make a very poor Roman Catholic.  
Second—It leaves a religion of principle for one of rules.  
Third—Because he leaves a religion of independent endeavor for one of dependence, reliance and sacramental and ceremonial props and intellectual submission.  
Fourth—Because by so doing he sacrifices the evolution of four centuries of great research to a mental attitude from which the whole advancing world is growing away.  
Fifth—Because it is a retrogression from a personal religion to an institutional religion. From an immediate relationship with God to a mediated relationship by Priesthood. "There is only one mediator between God and man—the Man CHRIST JESUS."  
Sixth—Because it is a craven retreat from a religion whose ideal is true to a religion whose ideal is safety, the ground of whose ultimate authority is not the Bible, but what their interpreters say of the Bible.  
Seventh—Because he commits himself to a depressive struggle between his reason, which has been freed and has the habit of freedom, to a Kalaendrum to which he has never been and cannot become accustomed.  
Eighth—Because it is more than probable it will spoil his marriage. The Catholic Church presumes to legislate for the whole marriage relations with a minuteness that cannot be discussed in public.  
Ninth—(Had to do with the confessions exacted by Priests.)  
Tenth—Because his children must obtain inferior training in separate schools or run counter to Catholic ideals for them. He must see his children trained to think in religious matters and some other, as were children of the middle ages.  
Eleventh—Because he surrenders his British citizenship. The Catholic Church is an alien institution on British soil. It was born and flourished through a period of human history where Kings ruled by Divine Right. It is fitted to absolute Monarchy and cannot adjust itself to Democracy except as a means of temporary expediency. It has no programme for the world in general. Protestantism is the mother of Democracy, champion of the oppressed, the discoverer of the social gospel, the very dynamic in western civilization.  
Twelfth—Catholic religion is unsympathetic, unreasonable, unliberal, retrogressive. Socially, intellectually, ethically, spiritually it is believed in things and thoughts the world has long outgrown.

KOREAN MERCHANTS  
SELL YARDS OF EGGS

Doctors Have Strange Device  
for Curing Pain—Graves  
Are Sacred.

Koreans, in general, are an interesting people. When meeting a stranger, the first thing they ask him, if they wish to be polite, is the stranger's age. The next question they put to him is whether he is married.

When a Korean has a pain, the doctor applies a hot iron to the place where it hurts most, unless he thinks the case calls for treatment with pulverized tiger's teeth. Some Koreans prefer the wild dance of the Mutangs, or sorcerers, who is considered the lowest of women.

The women of Seoul wear green silk coats with sleeves on them for hats. The reason given is that long ago an enemy attacked the city while the men were off hunting. The women in their bravery picked up the outer coats which the men had left behind, threw them over their heads and shoulders, and hurried to the top of the enclosing wall. When the foe saw the green-coated figures they sounded the signal for retreat. Ever since then the women have worn coats for hats and have been proud of their funny bonnets.

Koreans sell their eggs by the yard. When a yard of eggs is asked for, the Korean will hand out a matted rope with fragile ellipsoidal eggs packed inside.  
One of the great obstacles to Korea and railway development in Korea is anti-Japanese days was the fact that many graves blocked the way, it being the greatest taboo among the Koreans to disturb a grave of either a father or a remote ancestor. The general belief was that no matter how innocent the descendant might be of disturbing the graves, disasters and punishments were sure to come to them in consequence of such violation.  
The Japanese, however, built the roads quite regardless of graves, and in accordance only with principles of engineering. Moreover they robbed the graves of treasures buried with the dead, exhibiting their later with archaeological enthusiasm not understood by the Koreans.  
ENGLISH MOTHER'S PENSIONS.  
A scheme of endowment of motherhood among poor widowed mothers or women whose husbands were mentally or physically incapacitated was advocated by Dr. Amand Routh in lecturing to members of the Victoria Institute at Central Hall. The scheme would cost £4,000,000 yearly.  
The women undergraduates at Oxford will not wear the mortar-board but a cap of medieval design four cornered and of soft material capable of folds and rags to suit the individual who wears it.

## Work Accomplished By Soup Kitchens

Soups and Stews Furnish Nourishing Food to Many People in the City.

Today's soup and tomorrow's stew are preparations for the next day's supply—an endless chain of soup it may be called. These soups and stews, in every process of making were shown a Standard reporter who on Saturday morning made use of the opportunity afforded to visit the kitchen where soup is made and see how this work of furnishing nourishing food at a small price is being carried on in the city.

**Wonderful Work.**  
Few people in St. John realize the value of the work which has been done by Mrs. Kuhring and her helpers in this distribution of food to those who need it.

Under the direction of Mrs. Kuhring the St. John Ambulance Brigade did wonderful work in the time of the influenza epidemic, but it will never be known how many cases of sickness have been averted by this latter preventative means. Unfortunate children or those only given food at the sacrifice of their education, provide a class of persons who fall easy victims to disease of all kinds. In this period of unemployment and the present high cost of living, a meal sufficient for a family at twelve cents has proved a great boon to dwellers in the North and East End of the city.

Mrs. Kuhring, Mrs. E. A. Schofield and representatives of two city papers were invited into the kitchen where Mrs. McGilley makes the appetizing soups. Slammering on the stove were huge boilers of Irish stew in the pantry were other boilers jelling for the stew which would be sent out on Monday. The ladies were invited to sample the stew and found it excellent. Monday and Thursday vegetable stews is sent out. Wednesday and Fridays a rich pea soup is made, and Tuesdays and Saturdays, Irish stew with lots of meat in it.

The very best materials are used and the finished product is one which any person would be glad to have on their table. Mayor Schofield, who has shown himself so deeply interested in the welfare of persons who need help in St. John, has supported the project in every way, providing means whereby the boilers are carried to their destinations in Erin and Simonds streets. The idea first came to the Board of Health through Mrs. Kuhring as Lady Superintendent of the St. John Ambulance Brigade, and she has from the first done the buying and made the arrangements for the project.

At Erin Street.  
At 67 Erin street Miss Mary Armstrong has been in charge for the past month assisted by Miss Vera Thom of Quebec, Miss Pauline Powell, Miss Elizabeth MacLellan, Miss Katherine Skilton and others. Quarters were found in the shoemaker's shop of Hiram A. Kimball, where every assistance has been given by Mr. Kimball.

Men having arrived to take the second lot of stew—ten gallons—to the North End, the party proceeded to Simonds street where Mrs. F. H. McKeil, Miss Beattie Hunter, Mrs. E. N. Allen, Miss Beresie Harrison are in charge. Mrs. Allen has visited at most every family on the list and in cases of sickness she takes a can of soup to the home when there is no one to send.

Here the quarters are in another shoemaker's shop, workers being guests of W. F. Priddle, a returned soldier, who is opening his shop for business in May, but who was good enough to place it at the disposal of Mrs. Kuhring for this work. It is admirably adapted for this purpose.

**Children Callers.**  
Crowded about the counter came a lot of children, some hardly big enough to carry the can, but each got away with their portion of nice hot soup. Tickets are given out to individuals, organized societies, such as the Red Cross, Free Kindergarten Association, social workers. Teachers in some of the public schools have been considered as to cases of need.

On the back of the ticket is written the name of the person giving out the ticket, and the number of children in the family who are to receive soup or soup. This is in order that when ever possible, an extra portion shall be given a large family, while those with a smaller number of children would not require over a quart.

Twelve cents is asked for one quart and from six to seven dollars a week is taken in at both stations. There is some fifty families on the list and the cost per week is \$14.

Generous gifts have been made in money by Mrs. F. Stetson, Mrs. Vasie, James Manchester, A. Chizen and others. John Bond sends a most welcome gift of soup every day, and butchers in the city market have given their contributions in various ways.

## IS VERY PICTURE OF HEALTH NOW

St. John Man Says Wife is a Different Woman Since She Began Taking Tanlac.

"A little more than a month ago my wife didn't have the strength to stay on her feet an hour at a time, but today she can do her housework with ease and is the very picture of health," said Harold Moses, 73 Brin street, St. John, N. B.

"I guess my wife has gone through about as much suffering as any woman ever did," he said. "It just looked like she couldn't stay out of bed, she was so weak and run down. Lots of mornings she got up and I thought she was feeling better, but in a little while she would have to go back to bed again."

"She ate very little, all she usually took was a piece of bread and a glass of milk. She said she never felt hungry and that anything else made her sick. She suffered dreadfully from gas and pain in the stomach and side. Whenever she tried to do any of the housework it would exhaust her so that she would have to give up."

"That's exactly the way she suffered before she began taking Tanlac, but today she looks like a different person and says she is feeling better than she has in years. Her appetite is just fine and she can eat anything and it never gives her a sign of trouble. Gas has stopped tormenting and those pains have all gone and she sleeps as sound as any child I ever saw. She is never troubled in any way whatever and has gained so much in weight and strength that she is now doing her own housework."

Tanlac is sold in St. John by Ross Drug Co., E. W. Munro and T. H. Wilson, Fairville, N. B., and R. D. Weston, Perry's Point, N. B., under the personal direction of a special Tanlac representative.—Adv.

## REFLECTIONS OF A BACHELOR GIRL

By HELEN ROWLAND  
(Copyright, 1920, by The Wheeler Syndicate, Inc.)

"I love you," is still the sweetest sentence in the English language—but it has long since ceased to be a life-sentence.

The world is surely growing younger! No man under sixty ever speaks of his "courtship days" as though they were past and over with, nowadays; and no woman under sixty bases on her romance "yesterday's," so long as she has the strength to plan a sensuous "tomorrow."

Getting married is as simple and easy as ordering things over the telephone; getting a divorce, as complicated and awkward as taking them back to the shop and trying to exchange them.

When a man begins calling his wife new and pretty pet-names, it does not fill her with tenderness, but with suspicion, as to where he got the practice.

Solomon lived happily with seven hundred wives—but there were no "Blue Laws" in those days to keep him sticking around the house all day, Sunday, no law to make him grovel at dinner, and no "in laws" to drop in and spoil his week-ends.

After a love-epidemic, a woman can more easily forgive a man for outting her dead, than for treating her with perfectly cheerful amiability.

Every newly-married couple fancy they are going to write a brand new chapter in the Book of Love, until they discover that there is no phase of the subject, on which Adam and Eve did not hold the first copyright.

In a quarrel, it is an awful disappointment to a woman, if a man doesn't say something to make her cry.

Science has discovered that the brain of a new born infant can be grafted to that of a full-grown man, without making any perceptible difference in his mentality. But, dear me! Any married woman could have told them that!

## Be More Careful In References

Friend of Returned Men Speaks Good Horse Sense to Newspapers and Others.

A friend of the returned men, one who takes a strong personal interest in their welfare, thinks the Press is a little too free in designating as "ex-service men" or "returned men" burglars and other criminals without first making a proper and thorough investigation.

He declares that the expression is becoming altogether too common and that in many cases investigation would show that the criminal had never been connected with the country's armed forces.

**Great Injustice.**  
No greater injustice, he says, could be done to the soldiers of any country than to create the impression that any appreciable number of them have drifted to crime and violence. If some poor, luckless chap who gave his best for his country should happen to strike his toe and go wrong, why refer to him as a "returned man" and thereby bring a great company of brave and gallant fellows into a disagreeable view by such an unhappy reference.

**Seeking Dates.**  
Stewart Lithgow of New York, representing a European Concert Company is in St. John seeking dates in this territory. The company give a high class concert with instrumental and vocal numbers, then for a second part present Offenbach's comic opera "The Contented Husband." Mr. Lithgow was here with the "Grumpy" Company and made many friends.

**Women At Banking.**  
The business of banking, which, until a few years ago was almost exclusively masculine field, is opening its doors with astounding rapidity to women.

Accuracy and attention to detail are two of the most important factors in banking, and men bankers say women seem to be peculiarly efficient in these respects.

**Viscount Milner Married Quietly.**  
Bride is Lady Edward Cecil Whose Husband Died After Brilliant Career in 1918.

London, Feb. 27.—Viscount Milner, the recently retired Secretary of State for the Colonies, was married yesterday to Lady Edward Cecil, widow of Colonel Lord Edward Cecil. The marriage occurred at St. James' Church, Paddington.

The wedding came as a surprise to social circles, nothing having been given out in advance regarding it.

Lord Milner's bride is Viscountess Georgiana, daughter of the late Admiral Frederick Augustus Maxse. She married in 1894 Colonel Lord Edward Cecil, fourth son of the third Marquis of Salisbury and brother of Lord Robert and Lord Hugh Cecil and of the Bishop of Exeter. Lord Edward Cecil fought with distinction in numerous Egyptian and other African campaigns, and in 1912 was appointed financial adviser to the Egyptian Government. He died in 1918.

**Battle With Women Seeking Bargains.**  
Portland, Ore., Feb. 27.—Scores of women fainting, many were bruised and otherwise injured, an automobile was damaged by women climbing over it, and sixty policemen battled to control a crowd of eight thousand women seeking to gain admission yesterday at the opening of a five, ten and fifteen cent store, which had advertised aluminum tea kettles, cotton bed blankets, and ladies' silk hose at 15 cents each.

The strap sandal gump outnumbered all others at smart affairs at Nice. Droll favors taffeta as the medium for evening or dinner dresses following the 1810 line, off-the-shoulder dely, collages, tight bodies and full skirts, particularly in black.

**Better Give Child RAZOR THAN OULJA.**  
Hamilton, Ont., Feb. 27.—In the course of an address on psychological research before the Hamilton Scientific Association recently, Rev. P. W. Roberts stated he would rather give a child a razor to play with than an oulja. It might be harmless in many cases, but in some cases it is an exceedingly dangerous toy. He spoke of some of the "tricks" of the oulja board as exceptional but stated that in the majority of settings the board expressed the thoughts of the sitters, though unconscious muscular action.

**Death's Approach.**  
Also the dark shadows caused by Death's approach is cast by a great and mystic light. Here the message of the picture rises to a climax of Christian hope. For this light comes from a source that is not in the picture itself. This light comes from where Death comes. It shines in the path that Death has followed; it falls straight upon the stooping back and transforms the shroud into a very garment of glory.

**Christ Revealed Death's Secret.**  
An so Watts asks us to look on Death with the eyes of Christian Faith, for it is Christ alone who by His resurrection has revealed the blessed secret of Death. The light comes from the heart of our Heavenly Father who has been perfectly revealed to Him who died and rose again.

So Death, His messenger girl with His radiant smile, but instinct with His unbroken, unshakable promise. And now almighty Faith, Hope, Love, the picture reveals the Faith that sees the light, the Hope that waits for the light, the Love that waits for the light. These are the three that are the secret of the light, the vision would give and give place to the irrevocable promise.

The author closed his sermon by reading the large number present that this view of Death could only be spring from a Faith and hope bestowed by Christ Himself.

## PLEASING PIANO RECITAL SATURDAY

A very pleasing piano recital was given on Saturday evening by some of the pupils of Mrs. J. C. Bayworth, at her residence, Stoneleigh Terrace, Prince William street. Songs and duets were well rendered, and a social hour was enjoyed at the close, during which a musical puzzle was participated in by all present. Hassel Fisher winning first prize. The following members of the class took part in the programme:

Margorie Mylen, Evelyn Moore, Marion Parsons, Jean Reid, Eleanor Holder, Edith Brown, Eleanor McBeath, Hazel Fisher, Olive Kingston, Evelyn Hanson, Eileen Williams, Kathryn Paterson, Elizabeth Skinner, Myrtle Paterson, Dorothy Belyea, Kathleen Rowe, Helen McFarlane, Ronald Smith, Laurence Smith, Mary Rodrick, Vivian McLaughlin, Helen McKay, Josephine McQuade.

## Are You Weak, Worn or Worried? Is Your Blood Thin and Watery

so that it makes you nervous, sleepless or easily fatigued? Don't wait until you collapse but commence to fortify your starving blood with iron today. How to do it.

If you are undergoing STRAIN, STRESS OR TROUBLE, don't forget that it is probably sapping the iron from your blood and that your RED BLOOD CORPUSCLES are likely DYING BY THE MILLIONS.

WHEN YOU FEEL THE FIRST WARNING SYMPTOMS—when you commence to lose your strength or vitality, don't sleep well at night, are highly nervous or irritable; get the "blues" easily, when your eyes begin to lose their lustre or brilliancy and the lids are pale; when you feel a can of soup at the time you should act and not wait until you go down in a state of complete nervous prostration or physical collapse.

A New York physician says that MORE THAN ONE-HALF THE POPULATION OF AMERICA PERISHES BEFORE MIDDLE AGE and that one of the chief contributory causes of this terrible waste of human life is the devastating weakness brought on by lack of iron in the blood.

THERE ARE 30,000,000,000,000 RED BLOOD CORPUSCLES IN YOUR BLOOD AND EACH ONE MUST HAVE IRON.

When your blood is starving for iron no more tonic nor stimulant can put you right. You must have iron. To get iron you must eat the best of grains and the best of meats and skins of fruits and vegetables as our forefathers did or take a little organic iron from time to time and eat more each less-iron-containing foods as spinach and apples. But be sure the iron you take is organic iron and not metallic or mineral iron which people usually take. Metallic iron is iron just as it comes from the action of strong acids on small pieces of iron and is therefore an entirely different thing from organic iron. Organic iron is like the best in your blood and like the best in your stomach, health and appetite. It may be had from your druggist under the name of NUXATED IRON.

Nuxated Iron represents organic iron in such a highly assimilable form that one dose of it is estimated to be approximately equivalent (in organic iron content) to eating half a quart of spinach, one quart of green vegetables or half a dozen apples. It's like taking extract of beef instead of eating pounds of meat.

If you are not strong or well you owe it to yourself to make the following test: See how long you can walk or how far you can walk without becoming tired. Next take two iron-tablets of ordinary Nuxated Iron three times per day after meals for two weeks. Then test your strength again and see how much you have gained.

Over 4,000,000 people annually are using NUXATED IRON. It will not injure the teeth nor disturb the stomach. Your money will be refunded by the manufacturer if you do not obtain perfect satisfaction. Doses of substance. Always look for the word NUXATED on every package and the letters S. I. on every tablet. Beware of all cheap imitations.

## Thistles Lost To St. Andrew's Curlers

Third Match of 1921 Series Went to Charlotte St. Club—Score 223 to 215.

The St. Andrew's Curlers defeated the Thistles Club by 8 stones with a score of 223 to 215 in the third and final match of the inter-club series of the season. The match was a history-making one, although there has been many a close, hard fight. A number of years have elapsed since the St. Andrew's players have taken their share into camp. Saturday's game featured many unexpected vicissitudes and was a stirring match from start to finish.

The Thistles came out on a high note, but were defeated at home by the five rinks playing at St. Andrew's scored 71 stones to 45 scored by the home team. At home St. Andrew's led by 47 to the Thistles 37.

The Thistles led in the afternoon, playing both on St. Andrew's ice and at home. On the St. Andrew's ice they defeated five rinks of that club by a score of 71 to 63 in a very close match. On home ice they led by 10 stones, scoring 47 to the 37 scored by the visitors.

The scores were reversed in the evening play, while the Thistles managed to emerge victorious on their own ice with a score of 46 to 37, they went down in a series of defeats on the St. Andrew's. The total score for the evening was 118 to 97 in favor of the St. Andrew's club. The evening's lead was in favor of St. Andrew's which washed out the 12 point lead established by the Thistles in the afternoon and gave the match to the South End club by a margin of 8 stones. ## Carleton And St. Andrews Tonight

The Carleton Curlers and the St. Andrew's Club will play three rinks on the ice of each club, weather permitting this evening. The match will be one of the last of the inter-club games of the curling season, which the strong and soft weather is rapidly bringing to a close.

## Playing Racquets With Ancient Balls

Incredible though it may sound, some of the balls used in the national racquets championship recently held at the Racquet and Tennis Club are more than a century old.

The only new thing about the balls that have been preserved from decade to decade is the leather covering, which has to be changed constantly. Such is the destructive effect of the sharp rap of the ball against the steel walls that the leather casing is ripped open sometimes in a single rally.

Many of the balls have travelled back and forth across the Atlantic more often than the oldest ocean steamship in service.

Help German Trade

Investment of Holland money in Germany will throw their trade support to her, German has also been able to get her commercial agents directly to Holland with their message of cheapness. British exporters suffer as well as the Americans, but are less hampered in the matter of exchange. Before the war, an American business man pointed out, American machine tools cost twice as much as the German, but they sold in Holland because they were better made and tempered. Now, however, when German business men are able to sell their own or eight times as cheap the American finds competition almost hopeless...

No. 14 train leaving at 1.40 p.m. will run only as far as Moncton, where it will be merged with No. 2 Ocean Limited for Halifax. The Boston sleeper will be carried on No. 14, and the Cafe Parlor Car, but the parlor car hitherto running to Halifax will be discontinued. The Ocean Limited carries sleeping cars and standard diner. No. 15 train will leave Moncton at 2.30 p.m. after arrival of No. 1 Ocean Limited from Halifax, and arrive in St. John at 5.35 p.m., carrying the Boston sleeper. The Sunday trains between St. John and Moncton, Nos. 49 and 50, will be discontinued. Trains No. 31 and 32 between Moncton and Campbellton are to be discontinued. Therefore there will be no through sleeping car service between St. John and Campbellton on No. 9 and No. 10 trains. Service on the Valley Railway will be daily (except Sunday) between St. John and Fredericton, passenger trains No. 47 leaving as usual at 12.55 p.m. (Eastern time). Between Fredericton and Oromocto the service will be tri-weekly, the passenger train leaving Fredericton at 5.00 p.m. on Tuesdays, Thursdays and Saturdays. The through sleeping car for Quebec via Valley Railway and Trans-continental will be operated on train leaving St. John Tuesday, Thursday and Saturday. Sleeper for St. John will leave Quebec on Monday, Wednesday and Friday. The time of other trains is not affected and other services remain unchanged. For other information apply at City Ticket Office, 99 King Street.

Throughout the world there are 88 days, exclusive of Sunday, listed as holidays for the present year.

Canon Kuhring Resigns As Rector

With Much Regret His Resignation from Stone Church Accepted by Bishop. An announcement which caused very general regret was heard yesterday in St. John's Stone Church when the resignation of Canon Kuhring as rector of St. John's Church, Canon Kuhring, the Bishop said, had been most earnest in his work and his Lordship paid a high tribute to Canon Kuhring's labors in the parish. The letter was sent to the Church Warden and Vestry of St. John's. Canon Kuhring will remain in St. John until next September.

Faithful Services. Since coming to this city in 1906 Canon Kuhring has been prominent in all movements for the betterment of social conditions. He is an active member of the Bible Society, and a worker in the Evangelical Alliance. He will be long remembered for the splendid work he did as Chaplain of the 6th Mounted Rifles and other regiments overseas, serving in Gallipoli and making himself greatly beloved by the men with whom he came in contact. He is an active member of the G. W. V. A. and a firm friend of the returned men.

Mrs. Kuhring Active Worker. Mrs. Kuhring has been one of the most outstanding workers in all community effort. She took a foremost part in organizing war relief work and in the formation of the Y. A. D. of which she has been Lady Superintendent. While president of the Women's Canadian Club that organization was very successful and, under their auspices, a number of useful departments of war service were started. Mrs. Kuhring delivered an address of welcome to the Prince of Wales on the occasion of the unveiling of a memorial tablet in St. John. She was made a Lady of Grace of the Order of Saint John of Jerusalem in recognition of her war work. An active worker in the Women's Auxiliary of the Anglican Church she will be greatly missed from that society. The good wishes of a host of friends will follow Canon and Mrs. Kuhring on their departure from the city.

AROUND THE CITY

COL. MARKHAM HONORED. Among the vice-presidents chosen at the meeting of the Canadian Civic Association in Ottawa, is Col. A. J. Markham of this city, who represents New Brunswick. Col. T. L. Lydard represents Nova Scotia and Col. J. Cook Prince Edward Island.

WARMLY WELCOMED. The Rev. A. I. Tedford preached at both the morning and evening services in the Tabernacle Baptist church yesterday. Large congregations were in attendance and the pastor was warmly welcomed back by his flock after his year's absence spent in the West Indies.

WANTS INVESTIGATION. The following statement is made to The Standard by H. C. Green: "I wish to demand a public investigation in regard to the dances held in Tipperary Hall, as the statements in this morning's paper, seems to insinuate that I am paying the police not to report anything that goes on in the hall. I wish to have a public investigation by the North End police force, as I feel that the statements made in regard to the hall are an injury to my character as a taxpayer."

VITAL STATISTICS. Seventeen deaths were recorded in the city during the week ending Saturday from the following causes: Pneumonia, two; senility, apoplexy, diphtheria, bronchitis, influenza, myocarditis, cancer of neck, cancer of stomach, carcinoma of uterus, periculous anaemia, scrotic stenosis, cardiac decomposition, cerebral hemorrhage, cerebral meningitis, pneumococcal meningitis, one each. There were eight marriages in the city during the week. For the same period there were thirty-five births—eighteen girls and seventeen boys.

BONNIE DOON'S JOLLY TIME. Saturday afternoon the "Bonnie Doon" Club of Knox church enjoyed a toboggan slide at Rockwood Park, returning to the school-room for a bean supper. After all appetites had been satisfied, Miss Armstrong, the president of the club, called to the floor Miss Mary Murray, and on behalf of the girls, presented to her a handsome silver scallop dish, suitably engraved. Miss Murray, although taken completely by surprise, expressed her thanks in a few well chosen words. After singing "She's a Jolly Good Fellow," the party left to attend the second show at the Imperial. Miss Murray is to be a principal in an interesting event in the near future.

Knock Down And Carry Out Symphony

Two Young Men Break Into Fistic Performance in Chinese Restaurant. A knock down and carry out symphony was enacted at a Chinese restaurant on Charlotte street last night, with the police ringing down the curtain. Resort to Blows. Two well dressed and prosperous looking young men, who had been "hitting the can" a little too freely occupying one of the stalls got into an argument which could not be settled with words and fists were resorted to. In the mix-up which followed one of the party was badly damaged over one of his optics and the other received a few facial blemishes from long finger nails. Some dishes were broken and the stall took on an appearance not in keeping with a quiet Sunday evening.

Attracts Crowd. The noise of the music reached the outside and a crowd of several hundred gathered, mostly people homeward bound from church, likewise the police and Detective Power. The crowd was restless and the star performers marched off to the police station where they were booked for the night. LATE ARRESTS. Three juveniles were arrested by the police on Saturday for stealing coal from the C. N. R. One prosecution and one discharge. On Sunday Police, an Italian sailor was given nine charges by Lev Facinote of St. John street West, for willfully destroying property in his shop, a pair of scales to the value of two dollars. Joseph Heaton and Lorenzo Michaud were arrested for being under the influence of liquor and creating a disturbance in the United Cafe, on Charlotte Street.

Rotary Clubs Annual Gathering

March 16-17 Are Dates for Conference Here — Great Programme for Visitors. The Rotary Clubs of Sydney, Halifax, Charlottetown, St. Stephen and Milltown will assemble here for two big days' convention, March 16 and 17. The programme has been prepared and there will be something doing from start to finish. There is a ladies' committee appointed to look after the wives and sisters of the delegates who will be present and nothing will be left undone to make every visitor pleased with the trip to St. John.

Special Addresses. The visiting Rotarians will be welcomed to St. John by Governor Pughley, Premier Foster, and Mayor Schofield. Special addresses on questions of current throbbing interest by experts will be one feature of the meeting. These include the following: Bible of neglected children for Nova Scotia. Human Relations in Industry, by F. E. McMeekin, assistant superintendent, Imperial Oil Company. Urban and Suburban Co-operation by Mitchell, Deputy Minister of Agriculture for New Brunswick.

Other Features. The M. R. A. Ltd. stores are offering great bargains in odds and ends left over from the free cleaning sale—Monday and Tuesday only. Early shoppers may choose from great quantities of Sheetings, Flannels, Towels, Towelling, Danish cloths, Table Damask, Napkins, Tray Cloths, Remnants, Centres, etc. These are all wonderfully reduced for a quick clearance. Some pieces have become slightly mussed and sold during the busy sale days. These must be disposed of and are marked at such prices as will make sure of this. Sale commenced Saturday with a very hearty response—Monday too, will be crowded with bargain. It will be wise to make your selections as early as possible.

TRIBUTE PAID TO REV. J. C. BERRIE

Rev. F. H. Bone at Central Baptist Spoke Feeling of Deparated Minister. At the morning service in the Central Baptist church yesterday, the Rev. F. H. Bone paid a beautiful tribute to the worth and work of the late Rev. J. C. Berrie. Although a Methodist, Mr. Berrie frequently visited the Central church and took part in the services there. On many occasions he has occupied the pulpit with great acceptance and the congregation mourns his passing now.

SUNDAY SCHOOL GROWING. A record attendance was had at the Central Baptist Sunday School yesterday afternoon. With only the ordinary programme for the day, there were 215 present; for the same day a year ago the attendance was 225.

40th Anniversary Was Celebrated

Members of St. John Typographical Union and Friends Hold Banquet at Bond's. The fortieth anniversary of the St. John Typographical Union No. 85 was celebrated Saturday night in the form of a very successful banquet held at Bond's and proved about the most delightful function ever held by the union. There was not a dull moment from the time President E. H. Toole took his place at the head of the table until the finish, near midnight. There were about one hundred and fifty persons present and a delightful surprise met all, for at each place was a very unique menu taking the shape of a matrix, the covers of which being an exact reproduction of a "mat" in large form composed of gold cardboard. On the front cover were the figures 1881-1921, and in the center the union seal. On the first page were the words: "Fortieth Anniversary, No. 85" with the union label under it. Next came a page giving the union officers' names and roll of honor, following which came the list of toasts and musical programme, then the menu, and on the back cover a cut of the "Printer's Devil" carrying a "stick." The whole work, which was highly commended on by John H. Hopkins, printing establishment on Brussels street. After all had partaken of the repast, the toast of "The King" was proposed and responded to by the singing of the National Anthem, after which selections were well rendered by the McMeekin male quartette. The toast to "Our Union" brought an address from Geo. H. Maxwell, who traced the history of No. 85, showing the worth of a union and benefit obtained by printers belonging. After a pleasing solo rendered by Miss E. Campbell, the toast was drunk to "Sister Unions" and was responded to by William Howard, president of the Pressmen's Union. Frank I. McCarthy rendered a vocal solo in his usual pleasing manner, and this was followed by an excellent address from Augustus Peitch, who responded to the toast "The Art Preservative of Arts." Robert Carson was called on and delighted with some comic selections. The toast to "The International Union" brought a well prepared address from George L. F. Swedala. The speaker traced the history of the international from its origin. The adoption of the name National was at a convention held in New York in 1890, but really the foundation of this great organization was away back in 1776, also in the City of New York. At a convention held at Philadelphia in 1856 a resolution was passed extending the jurisdiction of the national, but it was not until the next convention held in Chicago when thirteen charters were issued, two of which were to unions in Canada, viz.: St. John, N. B. and Toronto, Ont. St. John Union charter was surrendered in a couple of years, but shortly after re-application took place and another charter received. At a convention held in Washington, D. C. the name national was changed to international. In 1878 it was decided to start a home for printers, and some years following this became a certainty, and now there is a wonderful home at Colorado Springs. The speaker also spoke of the benefits and other worthy matters which are obtained from the International Union. After a selection by F. Doig, the toast to the "Press" was proposed and responded to by A. M. Bolding of the Times. John Rosely and W. McMeekin rendered solos, and the toast to the "Ladies" was responded to by Fred Doig, and Miss H. Williams sang a solo. D. Arnold Fox was accompanist, and at the close of the programme the tables were cleared away and a short programme of dancing was enjoyed to music furnished by "The New Edition," supplied by W. H. Thorne & Co.

Wellsley Mader Died Suddenly

Rigger Employed on Schr. Peter McIntyre Dropped Dead in Boarding House. The sudden death of Wellsley Mader, a rigger by occupation, occurred Saturday night at the home of Norman McLeod, 159 St. John street, West St. John. The deceased is one of seven riggers belonging to Nova Scotia who are engaged on the new stern schooner Peter McIntyre, which is being fitted out at the McAvity wharf. Saturday morning the rigger complained of a pain to a companion, but went about and worked all day on a mast head. Saturday night about eleven o'clock in his boarding house at Norman McLeod's, 159 St. John street, West St. John, he was complaining and stated that he was going to his room. Shortly after occupants of the house heard the sound of a person falling and on investigation they found Mr. Mader lying on his back in the bathroom. It is stated that telephone messages were sent to no less than five doctors and as they could not be obtained the Military Hospital in Lancaster was called on the phone, and Dr. McCarthy responded only to find that the man was dead. The late Mr. Mader has a home at Mahons Bay, N. S., and leaves a wife and three children, named Pearl, Cecil and Violet, also one sister Mrs. Bonanson, residing at Kingsbury, N. S. The deceased was one of seven Nova Scotia riggers working on the schooner Peter McIntyre, and two of his companions leave with the body on the 1.20 train this afternoon for Halifax, and from there to the sorrowful home of the deceased. After Dr. McCarthy had pronounced the man dead, Coroner Kenny was summoned, and after viewing the remains gave permission for their removal and decided that no inquest was necessary.

National Council Of Education

Major F. J. Noy Arranging to Visit St. John in Connection With the Work. Major F. J. Noy, M. C., is arranging to visit St. John early in March in connection with the work of the National Council of Education, for which he is General Secretary. This Council, it will be remembered, was organized as a result of the great Conference on Education which was held at Winnipeg in October 1919. Major Noy is also Honorary Organizer of the Overseas Education League, hitherto known as the Hands Across the Seas' Movement. Under the auspices of this Organization, arrangements were made for a large number of Teachers from Canada and Newfoundland to visit the Old Country. He was also responsible for the initiation of the scheme for the interchange of Teachers between different parts of the Empire. The first exchanges took place in 1915, when thirteen Canadian teachers exchanged places with a similar number of London teachers, and three Canadian teachers with a like number of New Zealand teachers. These exchanges have been highly successful and it is hoped they will become much more general in the near future.
