

# CROWDS FLOCK TO BEULAH CAMP

Attendance is Increasing With the Arrival of Every Boat

## THE FINANCES

Important Statements Submitted Yesterday—Large Number Standing Committees Appointed Camp Grounds to Be Kept Open Until September—The Official Paper.

Thursday, July 10. The meetings of Beulah Camp were closed yesterday. The corresponding report containing statements from the various churches, the value of the membership in all the churches of an increase over the previous year of \$1,200.00, the value of the church property shown to be \$262,000 and the value of the Beulah camp and the Riverside camp ground together was estimated at \$200,000. The following amounts were raised during the year for the different purposes: Evangelical work, \$1,029.18; current expenses, \$1,200.00; for Sunday school, \$984.87; for extra buildings, \$2,460.74; missions, \$1,163.45; for other purposes, \$482.44, making the total of amounts raised \$15,811.19.

Rev. H. C. Archer brought in the report of the King's Highway, a denominational paper, which is printed at Westport. The statement showed a cash income on hand on July 1, 1910, of \$100. He received from subscriptions during the year \$101.05, making a total of \$201.05 paid for printing and postage, leaving a cash balance on hand of \$100.00, an increase on the previous year of \$108.00.

The following standing committees were appointed: Large executive—Revs. S. A. Baker, B. Trafton, H. C. Archer, W. B. Wiggin, E. M. Smith. Hotel committee—Revs. H. C. Archer, P. J. Trafton and H. F. Dow. Grounds and tabernacle committee—Revs. G. B. Trafton, J. H. Coor, H. H. Cooman. Rooms committee—Revs. M. E. Trafton, H. Smith, E. W. Lester.

King's Highway committee—Rev. H. C. Archer, editor and business manager; associate editors, Revs. S. A. Baker, H. C. Archer, W. B. Wiggin, M. E. Trafton, H. H. Cooman.

Temperance committee—Revs. F. H. Clark, F. Wright, L. Sabine. Bible committee—Revs. S. A. Baker, T. W. Moses, H. W. McCutcheon.

Committee on Sabbath—Revs. A. H. Trafton, H. Mullin, H. H. Cooman. Committee on quarterly meetings—Revs. S. A. Baker, J. H. Coor, W. B. Wiggin, S. S. Tanner.

Sunday school agent—Miss Alma Slipp. Committee on camp meeting workers—Revs. G. B. Trafton, H. C. Archer, A. Smith.

Advertising agent—Rev. H. C. Archer. Committee on Riverside camp hotel—Revs. P. J. Trafton, H. S. Dow, Mr. Blair Charlton.

Riverside tabernacle and grounds committee—J. W. Seeley, Wm. Andrews, Frank Kimball, Joseph Smith, Jas. Carr, Revs. C. E. Hayward and M. E. Trafton.

It was decided to keep the camp grounds open until September 1, and the executive was instructed to arrange for a preacher to remain on the grounds. The alliance decided to keep the dormitories open until that time. The camp meetings began yesterday with preaching by Rev. W. Y. Whitman, of Providence (R. I.). Rev. E. F. Walker, the evangelist who is to have charge of the services, arrived at the camp grounds last evening and will preach twice each day. The attendance is increasing with the arrival of every boat.

## SEVERAL MILK DEALERS HAVEN'T COMPLIED WITH LAW

Board of Health Will Get the Names of Men Who Have Neglected to Take Out Proper Licenses.

Thursday, July 8. The local board of health has always had difficulty in enforcing the law in the city to take out the necessary license. This year has not witnessed any startling improvement in that regard. All licenses are supposed to be renewed by May 1, but up to date only fifty of the documents have been issued. This leaves about thirty dealers who have not complied with the regulations and the names of these will be handed to the board at their next meeting.

In conversation with a Telegraph reporter yesterday afternoon, E. M. Burns, the secretary of the board, said that the trouble seemed to be with the biggest dealers this year. He recalled that the board had altered the by-laws because the dealers had represented that doing so would make it easier for them. They had also obtained from the government free inspection of dairy herds. As the cost of the license is only \$1 it would seem, he said that there is willful neglect in many cases.

The Aberdeen school playgrounds are kept open for the children until early dark each evening. The teachers are not present, but members of the Every Day Club are there to take care of the swings, slide and other features. The club's flag flies from the flagpole every day.

Mr. Justice Scrutton, to a stylish lady giving evidence at the law courts ("Spoken by madam, members with your veil, and that with your hat, I can neither hear you nor see you.") "Did your operation cost you much pain?" "Yes, but I didn't mind that so much as the dollars it cost."—Baltimore American.

VOL. L ST. JOHN, N. B. WEDNESDAY, JULY 12, 1911 NO. 81

## STAND FIRM ON RECIPROCIITY BILL

### U. S. Senators Vote Down Amendments

### Final Passage of Agreement as Drafted is Now Assured

### Defeat of Sections Proposing Freer Trade Explodes Conservative Argument That Canada Would Have Gained All by Waiting—Senator Bailey Proposes Duty on Wool.

Washington, July 10.—The Canadian reciprocity bill emerged unscathed tonight from the most serious ordeal it has yet experienced in the senate. The series of amendments offered by Senator Cummins, of Iowa, and the two offered by Senator Simmons, of North Carolina, all seeking to increase the number of Canadian manufactured articles that shall be admitted free of duty to the United States, were voted down by large majorities. The vote in favor of the amendments was so small that Senator Cummins had previously announced his intention of asking for at least ten. The maximum vote for his tariff amendments was 14, compared to a maximum vote of 83 against. The defeat of the Cummins amendments cleared the situation in the senate and leaves the reciprocity bill much nearer final passage than it has been for some time.

Senator Bailey today offered an amendment to the house-wool tariff bill imposing a duty of 25 per cent on raw wool.

He will ask for consideration of this amendment and of his farmers' free list amendment in the near future. Senator C. E. Hayward and M. E. Trafton, his amendments, of which there probably are a considerable number, but these are expected within a short time.

On the proposal to put flour and cereal products on the list of articles which the United States will admit free from Canada, Senator Cummins was defeated 23 to 14; on the proposal to put agricultural implements on this list, he was defeated 23 to 12; on the proposal to put lumber, other agricultural implements, and wool on the list, he was defeated 23 to 14; on the proposal to put agricultural implements on this list, he was defeated 23 to 12; on the proposal to put lumber, other agricultural implements, and wool on the list, he was defeated 23 to 14.

The amendment that secured the heaviest vote was one separate from the tariff features of the agreement. It gave the president power to terminate this country's part of the pact if Canada arrogated her part. Senator Cummins, Senator Heyburn and others said as the bill came before congress Canada could terminate her part of the agreement while this country would be compelled to continue the reciprocity rates on Canada's goods until congress could repeal the law. Senator Lodge and Senator Bacon insisted that Canada's regard for the "good faith" of the agreement would prevent any such contingency. Senators Clapp and Dixon (Rep.), and Senator Simmons (Dem.), opposed the general reciprocity measure in speeches during the afternoon. Senator Dixon said the agreement was due to the pressure of the newspaper interests, and Senator Clapp declared the president had yielded to the demands of the cities for lower living and the needs of the press for free paper.

## EGANVILLE LOSS FULLY \$300,000

### Prosperous Ontario Town Nearly Wiped Out by Disastrous Fire Started by Cigarettes.

Ottawa, July 10.—Fuller particulars from Eganville, where yesterday's disastrous fire occurred, place the damage at fully \$300,000, less than half covered by insurance. Two-thirds of the business section is gone.

Eganville is a place of 1,800 people in the centre of a wealthy district, and containing as it did many large manufacturing establishments, they lose is a disaster one, though officials stated today that practically everything would be rebuilt with all possible speed.

The fire originated from cigarettes, which a party of four boys were smoking. Had it not been for the assistance sent by the Renfrew and Pembroke brigades the entire town would have burned. No lives were lost.

## KITCHENER BEGINS FIGHT WITH KING OF VICTORY

### Ex-Sheriff Legere is Nominated for Commons

### Clifford Atkinson, English Candidate for Local House

### Strong Resolution of Confidence in Sir Wilfrid Laurier, Hon. Wm. Pugsley and Hon. C. W. Robinson Passed—Reciprocity Endorsed—Mr. LeBlanc's Long Service.

Dublin, July 10.—The king gave a state-banquet at Dublin Castle tonight, the royal plate being specially brought from London for the occasion. The distinguished guests included the lord mayor of Dublin. Afterwards the king held a change of the Order of the Bath, a "Lionel" of the Order.

Lord Kitchener, England's leading general, who was recently created a viscount and later offered the succession of Sir E. Grey, was seen tonight with the "Duchess" of Devonshire.

Great enthusiasm was shown in the reception of the Liberal leader, Hon. Wm. Pugsley and Hon. C. W. Robinson, with resolutions of confidence in them, including the Liberal party, and particularly the reciprocity proposals. There was much regret because the minister of public works could not attend owing to his call on Ottawa, and also because Hon. Mr. Robinson was suddenly summoned to Nova Scotia.

Hon. C. H. LaBrosse, the popular representative of the Acadian people for so long in provincial politics, was however, present, and gave a splendid address at the close of the convention.

The early departure of W. D. Carter, who was chairman of the convention, for Vancouver, and his staff, including the late Sir Wilfrid Laurier, was a disappointment, which was expressed by resolution and otherwise. He was regarded as the strongest English candidate possible had he remained in the country, but for the loss of his early removal he said he would have been glad to meet the convention's wishes in this respect.

## WHOLE HAITIAN NAVY HARD AND FAST ASHORE

### And the Whole Haitian Army Rescued in Nick of Time by Good Ship Allemania—Admiral, Tugboat Captain and Chief Engineer a Bar-tender.

New York, July 10.—The whole Haitian navy lies aground off Gonaves about 30 miles from Port Au Prince, and had not been long ago the good ship Allemania, of the Hamburg American line, which came into New York today, the whole Haitian army would be languishing on board the navy. President Antoine Simon, of the republic, decided he ought to have a navy, so he bought, not long ago, the Italian cruiser Umbria. She was fixed up and named Antoine Simon. On June 29 President Simon decided to take his army out for a spin in the navy. There were no big guns with which to salute the chief executive, but a soldier was detailed to fire twenty-one rifle shots and the embarkation was made with proper dignity.

Perhaps the president had a premonition of trouble, for he ordered his yacht to follow the navy. The admiral had been a big boat captain, and the chief engineer was a bar-tender, so they could not be expected to know all the fine points of being a navy.

A leak was reported, and though the pumps were put to work, it was not long before the engine room was flooded. The yacht came up and with difficulty rescued President Simon and his staff, including the admiral. The army stood on the sinking deck and cried loudly for help. The yacht was too small to take the army off. The president and his staff landed on the Allemania, and made their way with much haste as possible back to port Au Prince.

## IMPORTANT POST FOR SIR FREDERICK BORDEN

### Minister of Militia Returns to Ottawa in Best of Health, and it is Believed Will Leave Soon to Succeed Lord Strathcona—E. M. MacDonald, M. P. Slated for the Cabinet.

Ottawa, July 10.—Sir Frederick Borden returned to Ottawa this afternoon after two months' absence at the coronation. The minister of militia is completely recovered from his indisposition in London, which was only of a temporary nature, and not at all serious, as press reports seemed to indicate.

While of course no authoritative announcement can be made pending the consideration of the question by the cabinet council, it is practically certain that Sir Frederick Borden will return to London soon as Canadian high commissioner, in succession to Lord Strathcona.

Sir Frederick's long experience as a cabinet minister, his business knowledge of domestic and imperial affairs, and his administrative ability and tact, eminently fit him for the position of high commissioner. He is possessed of a moderate fortune and with Lady Borden can fittingly fulfill the social duties of the office.

It is understood that the position has been offered to him by Sir Wilfrid Laurier and that Sir Frederick will accept. His successor in the cabinet will in all probability be E. M. MacDonald, M. P. for Frieson, who has long been slated for cabinet preferment.

reception and after some happy remarks upon the success of the convention, he talked of the wonderful leadership and statesmanship of Sir Wilfrid, of the untiring energy of the minister of public works and of the promising work of Hon. C. W. Robinson. His references to the local situation was brief but forcible and his prediction of an early victory for Mr. Robinson and his party was greeted with much applause.

Provincial Organizer E. S. Carter spoke briefly and Chairman Carter received a vote of thanks and replied, thanking the convention and regretting his departure from the county.

## THOUSANDS CHEER SIR WILFRID LAURIER

### Violence and Death in Wake of Heat Wave

### More Than 300 Infants Have Died in Montreal-New York Many Driven Insane, Committed Murder

### Official Welcome at Quebec

Montreal, July 10.—The heat wave continues to linger over Montreal with unabated energy. Today the thermometer reached a maximum of 93 degrees at the McGill observatory, making the fifth day in little more than a week that a maximum of over ninety degrees has been recorded. This is the more remarkable as the McGill records show that not once before in the past years had a maximum of ninety degrees been registered. At 11 o'clock the mercury still remained over eighty degrees and no relief is promised.

The long continued heat is beginning to have its effect and very many prostrations are being reported. The toll among the children is especially heavy. Figures compiled for last week show that over seventy per cent of the deaths were among children under five years of age, no less than 304 little ones perishing.

Insane from Heat. New York, July 10.—Frederick Salsbacher, a cigar salesman of Brooklyn, sought relief from the heat this afternoon at the home of Mrs. Bertha Freisenbrenner, a woman of 70 years of age. Mrs. Freisenbrenner answered his summons at the door. Salsbacher suddenly became insane and, whipping a revolver from his pocket, poured four bullets into her head. He then fired a shot into his own brain, killing himself. Mrs. Freisenbrenner probably will die.

### Star Trip Interrupted.

North Bay, Ont., July 10.—A young lady named Wedell, traveling from Providence (R. I.) to Quebec (Que.), was accompanied by the boat yesterday while the train was approaching North Bay and was in a nervous condition for some time at the hotel. The address of the lady was given up by her proposition at the conference to institute a thorough investigation into economic conditions throughout the empire had been heartily applauded.

After the reading of the civic address Mr. Lachance, M. P. for Quebec West, read an address from the Liberal clubs of the city. The bands that played O Canada, and Sir Wilfrid rose to reply. He was greeted with tremendous applause and cheers.

## BIG SYNDICATE GETTING FOOT IN MONTREAL

### Has Financial Backing to Ex-tent Three Millions—Closely Allied With the Canadian Northern

Montreal, July 10.—It is announced that the Deaton-Shaw syndicate, which recently swooped down on Montreal and which has been buying hundreds of acres of land and expending hundreds of thousands of dollars to the north of Mount Royal along the line generally supposed to be that of the Canadian Northern railway will follow in making its entrance to this city, will shortly apply to the dominion government for articles of incorporation.

Each occasion he was pleased to see that the policy had been approved by the great majority of his fellow citizens. On the last occasion he had met with a double laurel. He had fought for the autonomy of the British Empire and he was pleased to see that the success which had attended his efforts.

Mr. Brodeur Talks. Quebec, July 10.—The importance of the imperial conference for its bearing on problems involving Canada's interests was brought strongly home today by the Hon. L. P. Brodeur, who returned on the Empress with Sir Wilfrid Laurier. The minister of marine and fisheries shared the enthusiasm of his fellow passengers concerning the coronation. He outlined the principal resolutions adopted by the conference of Colonial premiers, and laid special stress on the value of this conference, meeting every four years to discuss questions of great imperial moment.

"We adopted a resolution for the shipping laws," said Hon. Mr. Brodeur, "giving wider legislative powers to the overseas dominions to deal with their own merchant shipping. Our present legislation is based on the old law of 1854, and from time to time amendments have been added by the imperial parliament. Lately the imperial government varied certain provisions, and declared that some parts should apply to the overseas dominions, which was overriding our legal rights. The conference has brought about uniformity in the shipping laws."

"The favored nation treaty question was most important. We passed a resolution asking the government to open negotiations with foreign nations having treaties with overseas dominions, so that they can withdraw from the conference without damaging the treaties for the other parts of the empire. His majesty's answer guaranteed to open negotiations so that they can withdraw from the conference without damaging the treaties for the other parts of the empire. His majesty's answer guaranteed to open negotiations so that they can withdraw from the conference without damaging the treaties for the other parts of the empire."

## THIS AIR RACE LASTED A MONTH

Berlin, July 10.—The national aviation circuit race, which started from the aerodrome at Johannistal on June 11, ended at the same place today. Buchner was the first of the aviators to arrive, but Koenig, who reached the aerodrome at 1:28 o'clock tonight, proved the winner of the contest on account of the greater total mileage completed.

Semi-Weekly Telegraph and The News

ST. JOHN, N. B., JULY 12, 1911.

CIVIC PROGRESS

It is now reported that the existing Common Council will, in the near future, make a serious attempt to find methods of amending and improving St. John's system of taxation and assessment.

It is not to be supposed that the aldermen, however earnest they may be in their desire to better taxation conditions, can make any real change suddenly or without reasonable consideration.

Another matter is the new charter under commission. A charter committee is at work preparing for a sort of new constitution under which our more compact form of government will get to work.

Rumors have it that when civic election day comes again all sorts and conditions of men are going to become candidates. There can be no objection to that in the premises.

The London Spectator, a Nonconformist journal, and one whose opinion carries considerable weight, says: "In our opinion the Imperial Conference has been a very great success, and has proved how unwise as well as mistaken is the policy of those fussy and pessimistic persons who in effect declare that unless something strong and violent is done for the Empire, and done at once, it will crumble to pieces."

THE CONFERENCE The London Spectator, a Nonconformist journal, and one whose opinion carries considerable weight, says: "In our opinion the Imperial Conference has been a very great success, and has proved how unwise as well as mistaken is the policy of those fussy and pessimistic persons who in effect declare that unless something strong and violent is done for the Empire, and done at once, it will crumble to pieces."

This will be read with astonishment by many Conservatives in this country—if they have regarded it as seriously—as probably they have not—recent utterances of certain Conservative journals to the effect that Sir Wilfrid Laurier ruined the Imperial Conference.

The Spectator's reference to fussy and pessimistic persons who insist upon something strong and violent being done at once, is a particularly happy one. There is nothing about the British Empire today

which demands any violent or unusual measures, and those unhappy and restless Imperialists who are forever suspecting their opponents of unworthy motives are rapidly finding themselves in the position of the unfortunate juror who complained of the insensate obstinacy of the eleven other men in the box.

The Spectator's comment on the Conference elicits the following from the Toronto Globe:

The Conference has also cleared the air in regard to questions on which a good deal of controversy has arisen in this country. The Defence Committee of the Empire, which is guided in its deliberations by expert naval and military advice, has expressed its unqualified approval of the Canadian scheme of defence.

The Conference has also cleared the air in regard to questions on which a good deal of controversy has arisen in this country. The Defence Committee of the Empire, which is guided in its deliberations by expert naval and military advice, has expressed its unqualified approval of the Canadian scheme of defence.

Viewed as a whole, the Conference justifies the wisdom of the British statesmen who in days gone by laid the foundations of the self-governing dominions beyond the seas. The keynote of their policy was freedom.

CHRISTIAN TREATMENT OF IMMIGRANTS

A recent report of the American Bureau of Labor gives some examples of how the immigrant is exploited in certain occupations. In some of the most dangerous occupations, such as for instance, as the work in smelters and white lead factories, intelligent workers are aware of the danger and only the most ignorant, unskilled and helplessly class will enter them.

They give an example of a young Bulgarian who went to work in a white-lead factory. The first week he arrived in Chicago, and was put to emptying pans of dry white lead. He was given no respirator, and had no idea that he had a right to ask for one.

Another matter is the new charter under commission. A charter committee is at work preparing for a sort of new constitution under which our more compact form of government will get to work.

Rumors have it that when civic election day comes again all sorts and conditions of men are going to become candidates. There can be no objection to that in the premises.

wheat and pulling the Canadian wheat traffic in their direction. But it is not true that our transportation companies are at the mercy of foreign tariff makers, and it is a distinctly patriotic and anti-imperialistic business to attempt to reason thus when the facts do not justify it.

The Minister of Public Works, in discussing improved trade relations with the United States the other day, pointed out that while Canada as a result of the proposed trade agreement will lower the duties on many articles, the concessions by the United States are twice as great.

The Montreal Witness has some figures bearing on this matter, and it points out that the proposed trade agreement will touch less than twenty-nine per cent. of the total trade between Canada and the United States. The witness says:

The United States last year with her ninety-two million people, sold to the seven million people of Canada goods to the value of \$225,000,000. Of this, reciprocity would have affected \$47,227,486 worth, or about a fifth, and Canada, would have collected about \$2,660,579 less duty.

Viewed as a whole, the Conference justifies the wisdom of the British statesmen who in days gone by laid the foundations of the self-governing dominions beyond the seas. The keynote of their policy was freedom.

THE BIRD MAN AND THE CUSTOMS

The possibilities of the aeroplane are not confined to war, sport or dramatic and spectacular flights. It will find very definite uses in avoiding international boundaries, and the men who there sit at the receipt of customs.

They give an example of a young Bulgarian who went to work in a white-lead factory. The first week he arrived in Chicago, and was put to emptying pans of dry white lead. He was given no respirator, and had no idea that he had a right to ask for one.

Another matter is the new charter under commission. A charter committee is at work preparing for a sort of new constitution under which our more compact form of government will get to work.

which demands any violent or unusual measures, and those unhappy and restless Imperialists who are forever suspecting their opponents of unworthy motives are rapidly finding themselves in the position of the unfortunate juror who complained of the insensate obstinacy of the eleven other men in the box.

conditions. Many of the people who live there are from outside towns, cities, and farms; people of all ages and of all races. They all have one thing in common—an apparent contentment with their fate, helplessness and lack of aspiration. The lay, the shiftless, the immoral and the incompetent contribute their quota to the population of those sections. Many are compelled to stay through sickness or unemployment and would gladly leave if they had a chance. But the chance seldom comes. As a rule death is the only escape.

The Minister of Public Works, in discussing improved trade relations with the United States the other day, pointed out that while Canada as a result of the proposed trade agreement will lower the duties on many articles, the concessions by the United States are twice as great.

This will be read with astonishment by many Conservatives in this country—if they have regarded it as seriously—as probably they have not—recent utterances of certain Conservative journals to the effect that Sir Wilfrid Laurier ruined the Imperial Conference.

The Spectator's reference to fussy and pessimistic persons who insist upon something strong and violent being done at once, is a particularly happy one. There is nothing about the British Empire today

which demands any violent or unusual measures, and those unhappy and restless Imperialists who are forever suspecting their opponents of unworthy motives are rapidly finding themselves in the position of the unfortunate juror who complained of the insensate obstinacy of the eleven other men in the box.

conditions. Many of the people who live there are from outside towns, cities, and farms; people of all ages and of all races. They all have one thing in common—an apparent contentment with their fate, helplessness and lack of aspiration. The lay, the shiftless, the immoral and the incompetent contribute their quota to the population of those sections. Many are compelled to stay through sickness or unemployment and would gladly leave if they had a chance. But the chance seldom comes. As a rule death is the only escape.

spent on the purchase of automobiles in the United States; another quarter of a billion is probably spent on their care, maintenance and repair. This is the nation's investment in one form of luxury, and the amount is deducted from what would otherwise be put into the form of permanent productive investment. It will be said that the money spent in this way gives employment to workmen. That is true; but the money invested in this way is not a form of capital that reproduces itself as it is used. It is to produce a commodity that is used up in a few years.

The Minister of Public Works, in discussing improved trade relations with the United States the other day, pointed out that while Canada as a result of the proposed trade agreement will lower the duties on many articles, the concessions by the United States are twice as great.

The Montreal Witness has some figures bearing on this matter, and it points out that the proposed trade agreement will touch less than twenty-nine per cent. of the total trade between Canada and the United States. The witness says:

Viewed as a whole, the Conference justifies the wisdom of the British statesmen who in days gone by laid the foundations of the self-governing dominions beyond the seas. The keynote of their policy was freedom.

THE FARMER'S SHARE

The question was raised in Quebec on Dominion Day as to whether the farmers are getting a fair share of the earnings of the country. No political light was thrown on the subject if we are to judge by the press reports of the meeting but the question itself is suggestive and may be profitably considered.

They give an example of a young Bulgarian who went to work in a white-lead factory. The first week he arrived in Chicago, and was put to emptying pans of dry white lead. He was given no respirator, and had no idea that he had a right to ask for one.

Another matter is the new charter under commission. A charter committee is at work preparing for a sort of new constitution under which our more compact form of government will get to work.

Rumors have it that when civic election day comes again all sorts and conditions of men are going to become candidates. There can be no objection to that in the premises.

The London Spectator, a Nonconformist journal, and one whose opinion carries considerable weight, says: "In our opinion the Imperial Conference has been a very great success, and has proved how unwise as well as mistaken is the policy of those fussy and pessimistic persons who in effect declare that unless something strong and violent is done for the Empire, and done at once, it will crumble to pieces."

THE CONFERENCE The London Spectator, a Nonconformist journal, and one whose opinion carries considerable weight, says: "In our opinion the Imperial Conference has been a very great success, and has proved how unwise as well as mistaken is the policy of those fussy and pessimistic persons who in effect declare that unless something strong and violent is done for the Empire, and done at once, it will crumble to pieces."

This will be read with astonishment by many Conservatives in this country—if they have regarded it as seriously—as probably they have not—recent utterances of certain Conservative journals to the effect that Sir Wilfrid Laurier ruined the Imperial Conference.

The Spectator's reference to fussy and pessimistic persons who insist upon something strong and violent being done at once, is a particularly happy one. There is nothing about the British Empire today

conditions. Many of the people who live there are from outside towns, cities, and farms; people of all ages and of all races. They all have one thing in common—an apparent contentment with their fate, helplessness and lack of aspiration. The lay, the shiftless, the immoral and the incompetent contribute their quota to the population of those sections. Many are compelled to stay through sickness or unemployment and would gladly leave if they had a chance. But the chance seldom comes. As a rule death is the only escape.

about an increase in the foreign trade of Canada from \$300,000,000 in that year to almost \$800,000,000 today."

The Minister of Public Works, in discussing improved trade relations with the United States the other day, pointed out that while Canada as a result of the proposed trade agreement will lower the duties on many articles, the concessions by the United States are twice as great.

The Montreal Witness has some figures bearing on this matter, and it points out that the proposed trade agreement will touch less than twenty-nine per cent. of the total trade between Canada and the United States. The witness says:

The United States last year with her ninety-two million people, sold to the seven million people of Canada goods to the value of \$225,000,000. Of this, reciprocity would have affected \$47,227,486 worth, or about a fifth, and Canada, would have collected about \$2,660,579 less duty.

Viewed as a whole, the Conference justifies the wisdom of the British statesmen who in days gone by laid the foundations of the self-governing dominions beyond the seas. The keynote of their policy was freedom.

SOME TARIFF FACTS

From figures furnished by the census of 1900 able statisticians like John Graham Brooks and Charles B. Spahr were able to show that by far the greater part of all property in the United States had passed into the possession of about nine per cent. of the population.

Summary of Inves Experimental

Although the potato is the product of the culture can be much more every where than for the tubers the tops are killed. There is no farm or can be increased so work as the potato. Potatoes have been over 700 bushels per acre at the Central Experiment Station. The average Canada was about last census was taken in 1885 or 1886. The potato is a native of Mexico and was introduced into Canada in 1855 or 1856.

Uncle Walt The Poet Philosopher

The grocer said: "I have some good and satisfying breakfast food." I viewed with scorn and said: "Tut, tut! Your breakfast food is nothing but excelsior! Men had oiled their tongues; they lived on bread and wholesome meat, and never asked themselves to eat excelsior. Their grists they carried to the mill and had them ground and paid the bill; and they were men of brawn and pith; they never filled their stomachs with excelsior. Then men got value for their seeds; they reared up healthy girls and lads; but now we feed them, day by day, on shredded thistles, fodder hay, excelsior. We toddle to the mill no more; we buy kids toasted at the store—the stuff put up by health food cranks; they carry in their little tanks excelsior. We're guilty of these measly crimes, and then we talk of stringent times, and at the county farm we die because, like crumps, we always buy excelsior. For good old meal I'll pay my rucks; I want no sawdust in a box; to old time ways I stick like glue, and you won't see your uncle chew excelsior."

# RECIPROCAL OPEN FINE MARKET

## Of Great Benefit to Canada

## Former Trade Commissioner Tells of Porto Rico

## Dr. Kirkpatrick Strongly Advocates Direct Steamship Service to West Indies—Sees Great Expansion for St. John, But Says Merchants Are Missing Opportunities for Increased Trade.

Halifax, July 9.—The question of better trade relations between Canada and the West Indies and other countries to the south of the United States was enthusiastically discussed at a meeting which took place in the board of trade rooms yesterday afternoon. T. H. Estabrook, president of the board, acted as chairman and among those in attendance were Hon. J. C. Fleming, Dr. E. S. Kirkpatrick, former Canadian trade commissioner to the West Indies; C. H. Peters, H. B. Schofield, G. S. Mayes and F. P. Clements.

Dr. Kirkpatrick, who is at present interested in the formation of a Canadian West India company, and who for the past year has been making a close study of trade conditions in the West Indies, submitted a lengthy report dealing with the question in which he pointed out the course of this report he made very interesting statement that the adoption of the proposed reciprocity agreement between Canada and the United States would result in opening for us a great market in Porto Rico. Referring to this, Dr. Kirkpatrick said: "Whatever may be said for or against reciprocity, the same, if it becomes effective, will open up to us one great market, that we do not now have to any extent, viz., Porto Rico. This island lies comparatively near Cuba and, next to Cuba, is the richest island in the West Indies, having an annual trade of \$8,000,000. Our exports to Porto Rico amount to something more than half a million dollars and under reciprocity this amount would be multiplied many fold."

## WHOLE VILLAGE WAS THREATENED

### Fire Which Destroyed Shaffer's Store at Elmsdale, N. S. Spread to Dwelling House Across the Road.

Halifax, July 9.—Fire late Saturday afternoon destroyed the general store of I. B. Shaffer & Co., at Elmsdale, on the I. C. R., forty miles from Halifax, wiped out the barn and a carriage house, burned the house on the opposite side of the road, owned and occupied by George Ross, and seriously threatened the whole village of fifty houses.

The Shaffer building is a large four story wooden building with a floor space of 40,000 superficial feet, and a large stock of goods was distributed from top to bottom. This building and the five others constitute a total loss, only a part of I. B. Shaffer & Co.'s stock on the first floor, chiefly dry goods and boots and shoes, being saved. The building and stock were insured and the loss falling on the companies will be heavy.

## MANY EXPECTED AT THE SUMMER SCHOOL OF SCIENCE

From present indications it appears that the 1911 session of this school, which will open in Fredericton on Wednesday, July 12, will have a record attendance. One feature which has doubtless attracted a large number of teachers is the offer of money scholarships which have been donated by friends of the school and others interested in education.

## EXILED EMPEROR SUES FOR \$212,500

Prince Yi Avers Proceeds of Sale of Corean Property Were Withheld—Received Only \$35,000.

Tokyo, July 9.—Prince Yi, the deposed Emperor of Corea, has brought suit against Mr. Colbran for the recovery of \$212,500, alleged to be his share of the capital invested in the Seoul Electric Company, which was sold after the war to the Japanese Gas Company for \$2,000,000.

## TWO ARE SPARED

### Young Scotcher and Sault Ste Marie Murderer Will Have Sentences Commuted—No Action Taken About Woman Under Death Sentence at the "Soo"—Canada's Revenue Still Booming.

Ottawa, July 7.—Sir Richard Cartwright, acting premier, came from Kingston today and Hon. W. L. Mackenzie King from Berlin, to make a quorum for a cabinet meeting called to deal with some accumulated routine business and to consider capital cases in which the convicted men were under sentence to be hanged this month.

## WANT 40,000 TO HELP WITH WHEAT CROP

Winnipeg, July 9.—The Tribune states that it gathers from a number of official and semi-official sources that the situation in regard to the harvesters is even worse than was reported a few days ago.

## EDWARD DICEY, LONG NOTED WRITER, DIES

London, July 9.—Edward Dickey, the author and journalist, is dead at the age of seventy-nine.

## NEW COMPANIES

Jacob Mayer, Rudolph W. Mayer, Walter H. Millican and E. P. Raymond, of St. John, and Louis B. Mayer of Haverhill, Mass., are seeking incorporation as R. W. Mayer Company Ltd., capital \$40,000.

## MOOSE WAS KILLED

Board of health records show that a barrel of lime was recently sent to Chalice Harbor for use in covering the body of a dead moose and inquiry as to how the need for the board's action arose reveals a tragic story of the woodland worthy of the pen of a Roberts.

## Under Free Trade

Wages and the standard of living are higher in Britain without protection than in any similarly situated country with protection, and similarity of situation is necessary to an intelligent comparison.

## What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and cures Diarrhoea and Wind Colic. It relieves Teething Troubles, Croup, Constipation and Flatulency. It stimulates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS Bears the Signature of *Chas. H. Fletcher* The Kind You Have Always Bought In Use For Over 30 Years.

## THE DREADED CARPET BEETLE NOW IN PROVINCE

### Full Grown Specimens of This Dreaded House Pest Sent to Mr. McIntosh—A Simple Remedy Suggested.

Housewives, beware! The dreaded buffalo bug or carpet beetle has at last arrived in New Brunswick. Wm. McIntosh, curator of the Natural History Society, has now in his possession four full grown specimens of this household pest which were sent him by a lady in Fredericton and which are believed to have been discovered in this province. Some two or three years ago it was reported that the beetle was creating havoc at Woodstock, but a specimen submitted to Mr. McIntosh at that time was not of the right species.

## FAMILY SPARED BY PRANKS OF LIGHTNING

### Bolt Ransacked Kent County House But No Person Was Injured—Several Buildings Struck at Oak Bay.

News is still filtering in from country districts of the great ravages by the electric storm of last Thursday which was very general throughout the province. One of the most serious incidents is reported from Main River, Kent county, where lightning, entered the home of Thomas McDermott while the family were at supper, killed the dog lying at the hearth, tore off one-half of the roof, broke all the dishes on the table and played havoc in various rooms in the house, and yet not one person in the house was injured.

CROWDS PACK TO BEULAH CAMP

Attendance is Increasing With the Arrival of Every Boat

THE FINANCES

Important Statements Submitted Yesterday - Large Number of Standing Committees Appointed - Camp Grounds to Be Kept Open Until September - The Official Paper.

Thursday, July 6. The meetings of Beulah Camp were continued yesterday. The corresponding secretary, Rev. M. S. Blaisdell, brought in his report containing a statement from forty different churches. They show a total membership in all the churches of 1,222, an increase over the previous year of 514. The value of the real estate owned by the Alliance property, the Beulah camp ground, was estimated at \$20,000. The following amounts were raised during the week: For the different purposes: Evangelical purpose, \$1,029.18; current expenses of churches, \$1,200.75; for Sunday school work, \$684.87; for extra building school work, \$1,168.45; for other purposes, \$462.44, making the total of amounts raised, \$4,485.69.

Rev. H. C. Archer brought in the final report of the King's Highway, the denominational paper, which is printed at Woodstock. The statement shows a cash balance on hand on July 1, 1910, of \$192.10. He received from subscriptions during the year \$611.05, making a total of \$803.15; paid for printing and postage \$368.57, leaving a cash balance of \$434.58. On June 30, 1911, of \$108.61, an increase on the previous year of \$108.60.

The following standing committees were appointed: Large executive - Revs. S. A. Baker, G. B. Traflet, H. C. Archer, W. B. Wiggins, E. M. Smith, and H. C. Archer. Hotel committee - Revs. H. C. Archer, J. T. Traflet and H. E. Dow. Grounds and tabernacle committee - Revs. G. B. Traflet, J. H. Carr, H. H. Cornish, and H. C. Archer. Rooms committee - Revs. M. S. Traflet, H. Smith, E. W. Lester. King's Highway committee - Rev. H. C. Archer, editor and business manager. Bible committee - Revs. S. A. Baker, T. W. Moses, H. W. McCulloch. Committee on Sabbath Schools - Revs. A. H. Traflet, H. Mollin, H. H. Cornish. Committee on quarterly meetings - Revs. S. A. Baker, J. H. Carr, W. B. Wiggins, and H. C. Archer. Sunday school agent - Miss Alma Ship. Committee on camp meeting workers - Revs. G. B. Traflet, H. C. Archer, A. Smith, and H. C. Archer. Advertising agent - Rev. H. C. Archer. Committee on Riverside camp hotel - Revs. J. T. Traflet, H. S. Dow, Mr. Blaisdell, and H. C. Archer.

Riverside tabernacle and grounds committee - J. W. Seesley, Wm. Andrews, Frank Kimbrough, J. George Smith, Jas. Carr, Revs. C. S. Hillard and S. B. Lewis. A. H. Traflet, H. Mollin, H. H. Cornish. Committee on quarterly meetings - Revs. S. A. Baker, J. H. Carr, W. B. Wiggins, and H. C. Archer. Sunday school agent - Miss Alma Ship. Committee on camp meeting workers - Revs. G. B. Traflet, H. C. Board of Health Will Get the Names of Men Who Have Neglected to Take Out Proper Licenses.

The local board of health has always had difficulty in tabulating the names of the city to take out the necessary licenses. This year has witnessed any startling improvement in that regard. All licenses are supposed to be renewed by May 1, but up to date only fifty of the documents have been issued. This leaves about thirty dealers who have not complied with the regulations and the names of their next meeting. In conversation with a Telegraph reporter yesterday afternoon, T. M. Burnt, the secretary of the board, said that the trouble seemed to be with the biggest dealers this year. He recalled that the board had altered the by-laws recently and the dealers had represented that doing so would make it easier for them. They had also obtained from the government inspection of their by-laws. All licenses are supposed to be renewed by May 1, but up to date only fifty of the documents have been issued. This leaves about thirty dealers who have not complied with the regulations and the names of their next meeting.

WANTED

WANTED - A second class female teacher for school district No. 5, parish of Gagetown, for coming term; school opens on August 1st. Apply to Geo. W. Coy, Secretary, Upper Gagetown, N. B. 5732-15-159

WANTED - A male teacher, Grammar school license, as principal of the Andover Grammar School. Apply, stating salary, to E. H. Hoyt, Secretary, W. Trustee, District No. 3, Andover, N. B. 5713-12-12. S. W. 1418-15-159

TEACHER WANTED - One holding first class superior license, for the Harcourt School. Apply with testimonials to James N. Wathen, secretary, Harcourt, Kent Co. 5611-7-14-15 only

WANTED - A second class female teacher for school district No. 13, Gardners Creek, St. John County. Apply, stating salary, to W. L. Polley, secretary, Clones, Queens county, N. B. 5331-7-13-14 only

WANTED - A second or third class female teacher to commence school March 1. District rated poor. Apply, stating salary, to N. H. Johnston, secretary, Clarendon Settlement, N. B. 5145-15-159

WARM PRAISE FROM CANADIAN TROOPS FOR COLONEL McLEAN

Member of Coronation Contingent Writes to The Telegraph About Their Great Time in England—The Visit to the Battleships—A Grand Illumination.

Two Canadian soldiers at the coronation—Sergt. James Corey (on the left) and Sergt. Clarence B. Smith (taller man on the right), representatives of the newest corps in Canada, the 28th New Brunswick Dragoons, a cavalry regiment organized and commanded by Lieut-Col. Hugh H. McLean, M. P., commander of the coronation contingent, and drawn principally from the colonel's constituency of Queens-Bury—Photo by Gale & Foiden, Aldershot, Eng.

Sergt. C. B. Smith, of the 28th N. B. Dragoons, a member of the Canadian contingent to the coronation, who is now on the ocean on his return home, has sent ahead some jottings made during his stay in London, which may be of interest to Telegraph readers. He says: June 9—Landed safely after a voyage that was fairly smooth. Some of the troops were seasick, but not enough to prevent physical drill on the decks. When we arrived at Liverpool we were received by immense crowds with several bands, and were later inspected by Lord Methuen, one of the doubtful heroes of the South African wars. We marched through the principal streets of the city and then entered the London Palace to Westminster Abbey. June 23—On this grand day, the Canadian troops fittingly were the personal escort of Sir Wilfrid Laurier, who rode in front of the procession. The streets were lined for the eleven miles with troops formed up four and five deep, and the sidewalks and stands were as crowded as they could be. There seemed to be millions and millions of troops alone to say nothing of the people. The applause was continuous throughout, and we were near the vanguard we got the full benefit of it. My ears are ringing yet. The South Africans wore khaki uniforms and helmets, with the New Zealanders looked tanned in slouch hats and white riding breeches, and the Hindus appeared in their picturesque native costumes with turbans and flowing robes. June 24—All the colonial troops were given a free trip to Portsmouth to see the naval review. A steamer was chartered for the day and she had on board a very jolly crowd who shouted and sang as they steamed up and down between the huge battleships. Six tiers of men-of-war were anchored in a line six miles long. At 9 o'clock in the evening the battleships were illuminated with electric bulbs and helms, with the New Zealanders, the United States, in the parade. When the signal was given at 11 p.m. the lights disappeared almost instantly. Our boat started on the return trip and at 4 o'clock the next morning a tired bunch of soldiers straggled into the barracks at Chelsea.

KILLED IN ACCIDENT IN BANGOR STREET

Body of Samuel T. Myles Brought to This City and Buried Sunday—Details of Accident Lacking.

A St. John man came to an untimely end Friday evening at Bangor when Samuel Myles was instantly killed in an accident in Front street. No particulars of the accident have been received by relatives in this city and news of his death was transmitted through the coroner in Bangor and police headquarters here. Deputy Chief Jenkins received a message Friday stating that Samuel T. Myles had been killed in an accident and asking the official to notify relatives of the dead man. The police located William H. Myles, grocer of Simons street, as a brother and a message was sent in reply to have the body sent here. The wife and surviving child of the dead man have been living with Mr. Myles for the last year. The body arrived Saturday night on the Boston train and the funeral was held yesterday afternoon at the brother's residence, 16 High street. Rev. H. D. Marr conducted the service with burial in Cedar Hill. Samuel T. Myles was 47 years of age. He had returned to this city last fall after an absence of some years and resided here for the winter, leaving again in April. The news of his death came as a great shock to his family and they are still in the accident is anxiously awaited. It is believed that the fatal injuries were sustained in a railroad accident. The following paragraph is from Saturday's Bangor Daily Commercial: "It was later learned regarding Samuel T. Myles, who was killed Friday morning on Front street, that he was formerly of St. John (N. B.). Friends informed Coroner Finigan that Myles was once a grocer in that city."

JUROR'S CHILD DIES; CASE ADJOURNED

Hearing in Trial of George Jones in Kings County Court Off Until Tuesday—Evidence Taken in Grand Case—Boy Burned.

Hampton, Kings Co., July 7—At the re-assembling of the county court this morning it was found that an infant child of Eliza Fowler, one of the jurors empanelled to try the case against George Jones, had died during the adjournment. His honor, Judge Wedderburn, with consent of counsel, adjourned the further hearing of this case until Tuesday next, July 11, and proceeded to deal with the rest of the docket. In the case of Arthur E. Crandall, charged with breaking and entering and stealing certain mill machinery, the following jury was sworn: John T. McVey, Alfred Whelpley, Thomas Bell, John E. Richardson, Allan McCarty, George Cogson, C. Walter Alexander, W. H. March, Thomas Morton, Howard Clarke, James W. Coates, Jeremiah Desmond, W. D. Turner, clerk of the court, is prosecuting and Geo. W. Fowler appears for the prisoner. The case seems to be one arising out of a lumber and milling misunderstanding and the hearing was continued up to the hour of adjournment. It will be resumed tomorrow morning at 10 o'clock. John Humphrey, youngest son of the late Frank M. and Mrs. Humphrey, was badly burned on the arm and body this afternoon about 5 o'clock when playing with other youngsters on the back street. He ran up the yard of a house screaming and was quickly seized and wrapped in a piece of carpet, putting out the blaze. Drs. Smith and Wetmore and two nurses dressed the burns. Registrar J. B. Jones for the last week reports the births of four girls, also six marriages.

OBITUARY

T. Fred Powers.

The death occurred at his home, 70 Princess street, Thursday of T. Fred Powers, a widely known citizen of St. John. He had been ill for about six weeks with heart trouble but was improving and early yesterday was much better that it was expected he would be able to get up in a few days. With the coming of the storm last evening he took a turn for the worse, the thunder it is thought affecting his heart. Convulsions set in and Doctors Addy and White were summoned but their efforts proved fruitless and he soon passed away. Mr. Powers was a prominent Free Mason, was a member of the Canadian Order of Elks and a Forester. He leaves a wife one son, Mr. E. Powers of this city, and two daughters, Mrs. E. C. Thompson of Moncton, and Miss Frederica, at present at home. He is also survived by five sisters, Miss Nellie Powers, Mrs. E. K. McArthur of this city, Mrs. George Sving of Orange (N. J.), Mrs. William Snyder of Boston (Mass.), and Mrs. John Robertson of Cambridge (Mass.).

Mrs. Jane Branscombe.

Mrs. T. F. Granville, of Victoria street, has received a telegram telling of the death of her sister-in-law, Mrs. Jane Branscombe, at Cumberland Bay. She is survived by her husband, Henry Branscombe, three daughters and one son. The daughters are, Misses Elsie, Sybil and Flora, at home, and the son is Walter Branscombe of Balmurst. Mrs. Branscombe was well known here.

Robert Sproul.

News of the death of Robert (Mass.) Thurlow of Robert Sproul, a brother of ex-Ald. Sproul, conveyed in the form of two telegrams to relatives in the city, came as a great shock to many friends who have kindly remembrances of the deceased and his wife, before they left St. John sixteen years ago. Mr. Sproul married Miss Annie London, daughter of the late Chas. London, and Mrs. Sproul's sister, Miss Gertrude London, left last evening for Everett in response to the telegram which she received with the sad news. No previous word of illness had been sent and it is supposed that it was of short duration. Like his brother, the late Mr. Sproul was a mason and builder, and prospered well after removing to Massachusetts. He was about fifty-three years of age. He is survived by his wife and five children, three brothers and three sisters. The brothers are James H. of the city, Frank of Lakeview, St. John county, and William P. of Winnipeg; Mrs. Isaac Dobbin of Rothesay, Mrs. Edward Arthur of Silver Falls, and Mrs. Williams Evans of Ball's Lake, are the sisters.

Miss Viola Parent.

Woodstock, N. B., July 7—The death of Miss Viola Parent yesterday was a great shock to her friends. A sudden attack of peritonitis necessitated her removal to the hospital on the afternoon of the 5th. The body was taken from the Victoria Hotel this morning to her former home at Granite Hill, Bear Island, where her father, mother and one brother reside. Mrs. John Brownley, of Pembroke, and Mrs. Woodrow Belyea, of the city, were present. Miss Parent was in her twenty-first year and was an efficient employee of the Victoria Hotel for two years.

Mrs. Joseph Crandall.

Moncton, N. B., July 8—Mrs. Joseph Crandall died about 1:30 o'clock this morning at the home of her daughter, Mrs. J. H. Rogers, Pleasant street. She suffered a stroke of paralysis about two months ago. She was in her 84th year, and had resided in Moncton, probably longer than any other citizen. Her maiden name was Frances Steadman, a sister of Judge Steadman of Fredericton, who is now the only surviving member of the family. Her short time ago her sister, Mrs. David Crandall, passed away at Hatfield's Point, Kings county. Her husband died about nine years ago. Sons and daughter surviving are Stephen Crandall, post-master of Moncton, W. H. Crandall, manager of the local Western Union office; Frank Crandall, with the N. B. Coal & Railway Company in Chipman; and Mrs. J. H. Rogers. Mrs. Crandall was held in esteem by all, and was greatly beloved. The funeral will be on Sunday afternoon from the residence of Mrs. Rogers.

RECEIVED A SHOCK.

W. H. Dunham, grocer, of Indiantown, suffered painful injuries Thursday evening while endeavoring to use his telephone when the storm was at its height. Although aware of the danger, in trying to make telephone connection during a thunder and lightning storm, it appeared a case of necessity, for a neighbor had run into the store crying out that her child had taken suddenly ill, and she wanted a doctor. Mr. Dunham took the receiver from the hook, and received a shock in his left arm and side. His clerk did what was possible to relieve his pain, and in a short time, he was better.

THOUSANDS CHEER SIR WILFRID LAURIER

(Continued from page 1.) being forthcoming soon, to undertake the laying of a state-owned cable between England and Canada. "The Declaration of London has been a step in the right direction. I cannot understand the resolution of the Montreal Board of Trade condemning it. It laid down principles of international law to be followed by the courts and by the league in war time, it practically constituted an independent court which will decide in case of war as to seizure of vessels and goods. Until today if a seizure is made, the only redress was in the court of the seizing vessel. Now an appeal to independent judges at the Hague is possible. Nine countries signed it, Germany, France, Austria, Italy, Spain, England, Japan, Russia and United States. It is most important for England in its bearing on neutral ships and goods, for England has 75 per cent of the world's shipping. Thus in the Russo-Japanese war there were British vessels seized and the war was rendered more bitter. "The naturalization question is also very important. Now a resident in Canada becomes a citizen of England or of the empire after five years. It had been expressly decided to make the king's birthday an empire holiday. This may result in the abolition of Empire Day. "It was likely," he considered, "that legislation would be made in Canada to have Empire Day coincide with the king's birthday."

MRS. BELLE DROPS DEAD IN THIS CITY

Was Walking Up King Street Friday Afternoon When She Fell in Faint and Soon Passed Away.

Death came with tragic suddenness to Mrs. W. L. Delyea, of Brown's Flats, in King street about 2 o'clock yesterday afternoon. Heart failure, to which she was subject, was the cause, the heat of the day probably contributing to the fatality. Mrs. Delyea, arriving in the city yesterday afternoon, accompanied by her two nieces, Miss Belyea and Mrs. Belyea. They were going up King street to do some shopping when Mrs. Delyea complained that she felt faint and was assisted into the men's furnishings department of M. R. A.'s store to rest. It was seen that her condition was serious and Dr. Emery and Dr. Skinner were sent for and death came before the doctors arrived.

DIED AFTER DRINKING ACID

Mrs. William Gallan Passed Away Without Regaining Consciousness

Monday, July 10. The death of Mrs. William Gallan, of 45 Rock street, on Saturday as a result of drinking carbonic acid, came as a great shock to her family and friends. Mrs. Gallan at times had been affected with mental illness but a tragic outcome was never suspected. Saturday morning she appeared as usual and when her husband left home to go to his work in the I. C. R. roundhouse he had little thought of the sad news which would reach him before his return. Charles H., the eldest son, was at home during the day and was lying down in another room when Mrs. Gallan poured tea in a cup containing the deadly acid and drank the mixture. It is thought she lost consciousness almost immediately and when the son found her lying down he was unable to rouse her. He gave the alarm hurriedly and Dr. James Christie and Dr. Dunlop, of the hospital staff, were called. They worked over the unfortunate woman for some time and succeeded in taking out most of the acid by means of a stomach pump but she never regained consciousness and passed away about 3 o'clock in the afternoon. Dr. D. E. Berryman, the coroner, was summoned and viewed the body but had not decided last night whether he would hold an inquest or not. He will make some inquiries this morning as to when and where the acid was purchased. The name of the store where the bottle was blown into the bottle but this does not signify that the acid was purchased at this man's store. In fact his clerk stated last evening that as far as he knew the woman had purchased the acid at the store.

WEDDINGS

Andover, July 6—An event of much interest took place at "Bedell" at 4 o'clock on Wednesday afternoon, July 5, when Corndon P. Bull was united in marriage with Annie Bedell, daughter of Mr. and Mrs. John Bull.

UNION OF TWO BODIES SOON

Baptists and Reformed Baptists Likely to Unite in Near Future

Tuesday, July 11. The convening of the United Baptist Association of New Brunswick at Hartland today was the signal for the departure of the delegates from this city last evening. Among those who arrived from I. C. R. points were Rev. G. H. Lawson and Rev. Barry Smith, of Moncton, and Rev. A. Perry, of Berry's Mills, who will deliver the association sermon this morning at 7:30.

CASTORIA

For Infants and Children. The Kind You Have Always Bought Bears the Signature of Dr. J. C. Watson.

BODY OF MAN NOT IDENTIFIED

Tuesday, July 11. No attempt has yet been made to identify the remains of the man found floating yesterday morning in the Bay of Fundy, a short distance below Partridge Island by some fishermen from Lorneville. The body which is in a badly decomposed state showing the effects of having been in the water for some time, was conveyed yesterday afternoon to Pisarino. Speaking to The Telegraph last evening, Coroner Macfarland, of Fairville, said that from the remains themselves recognition would be impossible. Some clue might be obtained, however, from the clothing found on the man. He wore a black shirt, black trousers and coarse boots tied with twine.

LOCAL NEWS

Correspondents who send letters to The Semi-Weekly Telegraph and who wish to have them returned if they are not printed, must send stamps for return postage.

Jarvis S. Law, of Canterbury, York county, has been appointed a notary public. Rev. J. Wilder Williams, of the Tabernacle Baptist church, has been registered to solemnize marriages.

Miss Frances O'Keefe has won the handsome doll awarded at the Knights of Columbus fair to the one guessing the name given the doll. The name is Edith.

It was announced some days ago that a post office had been established at Riverside. It is found, however, that some confusion follows on their being a Riverside in Albert county, so the St. John suburb will be known as East Riverside.

On Tuesday, July 11, the town council of Shediac, are to give a banquet in honor of Hon. H. R. Emmerson, M. P., at the Eldon House in Shediac, at 9 o'clock in the evening. The committee in charge is composed of Mayor Patreuil, chairman, E. R. McDonald, E. A. Smith, D. J. Dorion and James McQueen, secretary.

The sugar market is very firm. Refined has gone up ten cents per 100 pounds in New York, and raws are higher than at any time this year. The Canadian market is being held up by the fact that the annual convention of the Life Underwriters' Association in Winnipeg, E. R. Machum, of the Manufacturers' Life Company, was president of the association last year and is honorary president for the present year. Mr. Machum's trip is the reward for splendid work.

The St. John River Steamship Company, Ltd., is bringing two suits against E. R. Machum, of the Manufacturers' Life Company, as to the annual convention of the Life Underwriters' Association in Winnipeg, E. R. Machum, of the Manufacturers' Life Company, was president of the association last year and is honorary president for the present year. Mr. Machum's trip is the reward for splendid work.

Rev. J. B. Champion, who was pastor of the Silver Falls Methodist church, has gone to Andover, where he has entered upon his duties as pastor. Rev. J. J. Pinkerton, recent pastor of the Wesley Memorial church of Moncton, arrived here on Wednesday night and will assume the duties of the parsonage of Silver Falls as a successor to Rev. Mr. Champion. He will preach his introductory sermon tomorrow.

The body of one of the victims of the boat wreck was brought in on the Boston train Friday night, when Frank Mero, of Plymouth Station (N. S.), arrived in charge of the body of his brother, Jessie Mero, who was drowned on Thursday afternoon while bathing as a refuge from the heat near Bancroft. He was seized with cramps some distance from shore and lost his life after a desperate struggle. He was but twenty-seven years of age. The body was taken over on the Prince Rupert Saturday morning and from Digby to Plymouth Station for burial.

Mrs. Jennie Barclay Smith of Toronto, who has been visiting her cousin, Wm. C. Cross, of German street, left Friday by the steamer Calvin Austin for Boston and New York en route to England. Mrs. Smith will arrive in the Lusitania from New York in the 19th inst., with her brother, Edwin E. Thompson, of Mossom (Sask.), and together they will spend several months in their native land before returning to Canada in the fall. Miss Lois Cross is accompanying Mrs. Smith on her trip to New York and will spend the summer at Red Bank (N. J.), with her aunt, Mrs. Herbert E. Williams, and her grandparents, Rev. and Mrs. Henry Cross, formerly of St. John.

NEW BRUNSWICK CROPS

Apples Threatened by Tent Caterpillars?—More Oats Sown Than Ordinarily.

The Dominion Government Census and Statistics Monthly for June has the following about the condition of crops in the maritime provinces: PRINCE EDWARD ISLAND. April frosts did considerable damage to hay and clover crops, and these have still further suffered from the extraordinary drought which has continued throughout April and May. Nearly all the correspondents report an almost entire absence of rain or snow during these two months. Where actual figures of rainfall are mentioned they are given as less than a quarter of an inch at North Lakeville and as 0.98 in April and 0.32 inch in May at Charlottetown. Seeding is backward and growth owing to the drought especially so. Orchard and garden fruits are reported as showing excellent promise by luxuriance of growth and abundance of blossoms. Cherries owing to damage sustained last year are not quite so favorably spoken of as are other fruit trees.

NOVA SCOTIA. Correspondents state that the month of May has been extraordinarily dry, and that the end of the month was very much needed. In the more northerly districts heavy frosts occurred during the month, but vegetation was hardly advanced sufficiently to suffer much damage. The prospect for a good fruit year seem everywhere excellent, provided of course that June frosts do not cause injury. Fruit trees have made so much progress that though the spring is generally regarded as a late one the blossoms in many cases have appeared about ten days earlier than usual.

NEW BRUNSWICK. As in the other maritime provinces the month of May has been almost entirely free from rain. Seeding has progressed therefore under favorable conditions, and owing to this a larger area has been sown to oats than is usual. The outlook for fruit is fairly good on the whole, but many correspondents report that great damage was being done by the tent caterpillar and other insect pests. Welcome rains were falling at the beginning of June, and the bulletin also contains the following in regard to the tent caterpillars which are said to be doing great damage to fruit in New Brunswick: TENT CATERPILLARS. In eastern Canada, and also in British Columbia, tent caterpillars have been extremely abundant. Last year their depredations were very great in New Brunswick.

WHEAT IN PROVINCES

Report Show Grain in Healthy Condition—Better Crops Indicated Than Last Year.

Canada. July 13—Wheat and live stock are in good condition today. The crops of Canada for the year 1911, as compiled from the reports of the correspondents, is satisfactory, although an unusual rainfall, it is no province, as in Ontario, is a fair one. Even in that province, the crop is a fair one. In the west, there are reports of a fair crop. For the whole of Canada, the crop is a fair one. The average for the year 1910 was 100 per cent, compared with 100 per cent in 1909, and 100 per cent in 1908. The number of bushels of wheat in 1910 was 12,650,000, compared with 12,650,000 in 1909, and 12,650,000 in 1908. The number of bushels of wheat in 1910 was 12,650,000, compared with 12,650,000 in 1909, and 12,650,000 in 1908. The number of bushels of wheat in 1910 was 12,650,000, compared with 12,650,000 in 1909, and 12,650,000 in 1908.
