Until He Took "Fruit-a-tives"  
The Fruit Medicine

R. R. No. 1, Lonsdale, Ont.  
"For over three years, I was confined to bed with Rheumatism. I treated with doctors, and tried nearly everything without benefit. Finally, I tried 'Fruit-a-tives'. Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down. I continued taking this fruit medicine, improving all the time, and now I can walk about two miles and do light chores about the place".

To Electors of the County of Carleton;

Ladies, Gentlemen and Comrades:  
Having been chosen by the Returned Men of this county as their candidate for the House of Assembly, and having accepted, I appeal to you for your support.

I will be strictly independent, and will give an independent support to any and all legislation that will benefit my country and its people. I will be always ready to help remedy any wrong that can be made right by legislation for any man, woman or child who come to me.

I stand for no Party, Creed or Class, and, friends and comrades, we need straight, strong men who are not bound by party, but who stand for the people and keep independent. Comrades, I will endeavor to represent you and be a sentinel and an advocate for you as long as I am in a position to do so in the House. I am not running against any party, but I will run with the others who are nominated for this election. I am coming to you confidently looking for my Comrades and my friends for support.

There is legislation of importance that was expected by Returned Men, but as the House was dissolved before it was complete we naturally feel we should have a Returned Man elected to look after our interests. Will it not appeal to the "fair play" spirit of our people to see one of our Returned Men standing alone, independent and showing faith in the people of his County?

I have had the honor of serving my Country overseas as a member of the 26th Battalion, and since I came back to N. B. I have done all I could to help the Widows and Orphans of our dead Comrades, and I ask your support so I may be able to help more fully. It is not vain ambition that has influenced me to accept the duty now offered me, but a deep feeling that we should be represented in the next House of Assembly, and to be able to be of more aid to my Country.

Comrades, rally to my help. Friends of the returned men, come forward and help! If you ladies feel that we deserve a representative in the House, we have faith that your votes will make victory sure. Remember, I am not seeking personal honor, but I stand on principle and I am representing the boys who were permitted to come home; also the boys who gave their lives for us. If I win I thank you in advance; if I do not get sufficient votes to elect me, I will be proud to know I did my duty and gave my Comrades and our Friends an opportunity to express their approval. I leave the matter with you, the Electors of Carleton.

Remember the dark days of the war! Remember your boys! We won. How will you respond?  
You have three men you may vote for; will the Soldier candidate get one of your votes on Election Day? I am not against you; I am for you and my country. Give me your vote and the people of the Province will applaud you.

I will not be able to see you all before Election Day, but many of you know me already and a vote for me will be a vote showing appreciation of what the Boys did for us Overseas.

Yours faithfully,

## THIS WOMAN'S RECOVERY

Shows Remarkable Curative Power of Lydia E. Pinkham's Vegetable Compound.

Chesley, Ont.—"Before using Lydia E. Pinkham's Vegetable Compound I was a total wreck. I had terrible pains in my sides and was not regular. Finally I got so weak I could not go up stairs without stopping to rest half way up the steps. I tried two doctors but they did me no good. I saw your medicine advertised in the newspapers and thought I would give it a trial. I took four bottles of the Vegetable Compound and was restored to health. I am married, am the mother of two children, and do all my household work, milk eight cows, and do a hired man's work and enjoy the best of health. I also found Vegetable Compound a great help for my weak back before my babies were born. I recommend it to all my friends who are in need of medicine, and you may print this letter if you wish."  
—Mrs. HENRY JANKE, R. R. No. 4, Chesley, Ontario.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

## PRICE vs. VALUE IN SHOES

In buying shoes (and everything else as well), it's value you want. Imported shoes cost more because of the freight, duty and exchange. These things don't add to the value of a shoe. They only increase its cost.

This store has one mission in life. That is to give you the best value. Made-in-Canada Shoes are today better value, grade for grade, than shoes imported from any country. They reflect the very latest and best styles and shapes. The material is honest. Workmanship is high grade. And so, because the prosperity of this store depends upon service to our customers, we sell and recommend Made-in-Canada Footwear, knowing that we can thereby give you the best value and satisfaction.

## Lantic Sugar

### Last call for fall fruits

Do not miss your chance to preserve these last sun-ripened gifts of summertime. How your folks will enjoy them, and how pleased you will be to serve them when canned goods made with top-priced sugar are out of reach. The time for preserving foresight is when the fruit is still in season.

Lantic is your best friend in retaining the rare bouquet of luscious plums and peaches, of delicately-flavoured pears. Its tiny, snow-white crystals of purest cane dissolve so quickly into syrup of concentrated sweetness, that you can smile at the old-time caution "Let it simmer until the sugar is all dissolved"—because it's FINE.

Fruit will retain its natural form and colour because overcooking is unnecessary. Lantic WILL go further, and so costs less.

## POTATO OUTLOOK IN MAINE AND CANADA

W. H. Ames of Boston Says He Looks for a Bumper Crop in Those Three Districts This Year—Has Visited Potato Sections

Boston, Sept. 17.—W. H. Ames of John Groves Company, Inc., who sells more potatoes to institutions, colleges and private schools than any one else in New England, has returned from his annual trip to Maine, New Brunswick, Prince Edward Island and all parts of Canada where potatoes grow. At the outset Mr. Ames scouts any idea of general blight or rust in Maine and throughout Canadian provinces. Mr. Ames says:

"In all my travels I saw little rot in the field. It is true there is some blight in the early potatoes but this has not developed to any great extent. I dug into nearly 2,000 fields while away and saw very little evidence of disease. Maine will have perhaps 25 per cent of last year as far as acreage goes, but increased yield, I believe, will more than offset decreased acreage. In some sections I expect more than 400 bushels to the acre and I saw no blight in the Ashland to Carleton territory and round about Squa Pan. Unquestionably the best crop that ever came out of Prince Edward Island and New Brunswick will be marketed from those sections this year unless something unforeseen develops. New Brunswick will have fully as many potatoes as last year and the stock will be larger and heavier. In some sections I saw bare spots but when I saw yields and talked with growers I became convinced that increased production will take care of decreased acreage. As far as Prince Edward Island is concerned, some sections will have small potatoes, too small for commercial purposes, but from Woodstock up to Perth the quality here and size was never better. From Fredericton up to Woodstock the fields are only half grown. On the whole, taking in Maine and the provinces, crops this season will be bumper and the blight will not be as heavy as some persons think."—N. Y. Packer.

### THE RECORD

The Foster Government is appealing to the country on its administrative record and it is certainly a record to be proud of. Not within the memory of living man, not at least since Confederation has New Brunswick possessed a government which has enacted so much useful and constructive legislation as stands to the credit of the administration which is now appealing for a renewal of public confidence. Here is a list of the more important achievements of the past three and one half years since April 4th, 1917, when Premier Foster and his ministers took the oath of office:

The extension of the Franchise to women.

The establishment of a modern Workmen's Compensation Act.

The reorganization of the Health Laws of the Province and the establishment of a Department of Public Health.

The inauguration of a policy of Water Power Development.

The adoption of a system of Vocational Education.

A substantial increase in the salaries of school teachers.

The establishment of an Independent audit of Provincial Accounts.

The funding of automobile fees to provide interest and sinking funds for permanent roads and the carrying out of a scheme for highway improvement.

Increased grants to Agricultural Societies, Establishment of Cooperative Creameries, Purchase of Suitable Seed, Supplying Cheap Fertilizers and Encouragement of Sheep and Poultry Raising.

Better Management of Crown Lands the inauguration of Stumpage from \$1.50 to \$5, Improved Fire Protection for Forest Lands and the general carrying out of a policy of Conservation for the Natural Resources of the Province.

The Adoption of the Cash System in the Sale of School Books.

The Redemption of Provincial Bonds whereby over half a million dollars was saved.

In addition to its huge program of constructive legislation the Foster government has conducted the public business in a sound and thoroughly competent manner. It has restored the good name of the province which had been dragged into the mud by the government which preceded it, and that alone, if it had done nothing else would entitle it to a renewed expression of public confidence. Premier Foster and his colleagues have rendered a notable service to New Brunswick and there is not the shadow of a doubt but that the electorate of this province on October 9th will return them to power by a decisive majority.

Mrs. Charles Jones of Gloucester announces the engagement of her daughter Mary Jane to Fred B. Wallace of Woodstock. The wedding will take place at an early date.

## WALKED THE FLOOR FIGHTING FOR AIR

Roy Steeves Suffered After Every Meal—Like Old Self Since Taking Tanlac

"I can swing a hammer as good as ever, for I feel like I have been made over into a new man since I commenced taking Tanlac," was the statement made the other day by Roy Steeves, a well-known blacksmith living at Dover, West County, New Brunswick.

"For four years I suffered from stomach trouble," he explained, "and during the past year I was so bad off I could hardly hold up under the strain. I could not eat a meal without feeling nauseated afterwards, and I bloated up with gas and felt so stuffy and tight across my chest I thought I would suffocate. Often I had to get up in the middle of the night and walk the floor fighting for air. My sleep was restless, and as my work required a lot of stooping I got so weak and run-down I could hardly get about the shop. I spent lots of money on many different medicines, but none of them did me any good."

"One day I went to the drug store at Hillsborough and asked the druggist if he could recommend anything for stomach trouble, and he said try Tanlac. So I took his advice, got a bottle and commenced to feel better in just a day or so after starting on it, and now all signs of indigestion have left me and I am in better health than I have been in years. My appetite is fine and everything I eat agrees with me without a bit of trouble. I sleep sound at night, am feeling like my old self again and can recommend Tanlac in the very highest terms."

Tanlac is sold in Hartland by Estey & Curtis Company, and E. L. Field, Bloomfield, and by the leading druggists in every town.

## ONE WOMAN'S EXPERIENCE

Of Interest to Childless Women.

Toronto, Ontario.—"I suffered for a long time from a female weakness, inflammation, and a terrible backache caused by that condition. One day one of your booklets was left at my door, and I read how other women with troubles like mine had been made well, so I got a bottle of Lydia E. Pinkham's Vegetable Compound and a package of Sanative Wash, and it helped me wonderfully, and I now have the finest little baby boy that any mother could want. I want to recommend Lydia E. Pinkham's Vegetable Compound to any woman who has female troubles."—Mrs. JOSEPH L. BULL, 778 Shaw Street, Toronto, Ontario, Canada.

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong, and this good old fashioned root and herb remedy contains no narcotics or harmful drugs.

### In Case of Colic

Give your horse Dr. J. Woodbury's Horse Liniment internally—and at the same time, build up the general health and digestion of the horse, with Dr. J. Woodbury's Condition Powders.

Colic in a horse comes from the same cause as colic in a baby—acute indigestion.

These remedies tone up the stomach, regulate the bowels and kidneys, help the digestion and soon put the animal in the best possible condition.

DR. J. WOODBURY'S Horse Liniment and Condition Powders

used whenever an animal is troubled with Cough, Cold, Distemper, Croup, Sore, Croup, Stomach, Cracked Hoof, Enlargement, Cut Sore, Bunch, Fever, these two reliable remedies will give prompt relief and change the sick, lame animal into a vigorous, healthy one. Keep these standard preparations always on hand in case of sickness or accident.

## MANY CRIMINAL CASES DEALT WITH AT CARLETON CO. COURT

The September term of the County Court finished its business last week. Kenneth McLean, who appropriated a horse and rig and afterwards returned the outfit, was given a suspended sentence. Frank Smith, convicted of stealing a sum of money, was also released.

The case of John Cassidy, charged with burning a barn occupied the attention of the court until late in the evening. The jury was taken to the scene of the fire in North Richmond and went carefully over the ground. Cassidy was found guilty and given ten years in the penitentiary.

In the case of Daniel Stevenson, convicted upon a serious charge, in which a young girl aged eight was concerned, the judge imposed a sentence of two years with a whipping.

When the Smith boy, convicted of stealing, was brought up for sentence, Sheriff A. R. Foster asked Judge Carleton if Ziba Grey, a jurymen on the Cassidy case, could be heard on behalf of the boy. The judge consented and Mr. Grey said he knew the lad and felt he had very limited chances and in his opinion was not a bad boy. The judge asked the boy where his father and mother were and he said he did not know. The judge then asked who would take the boy and Mr. Grey promptly responded "I will." There was a touch of pathos in the proceedings and the spectators broke into applause when the judge allowed the young chap to go in Mr. Grey's charge.

Sheriff A. R. Foster and Deputy Sheriff H. V. Moores took Cassidy and Stephenson to Dorchester on Friday.

### It's Better to PAINT than REPAIR

THE purpose of paint is twofold—it should beautify of course; but, also, it must fully protect the surface to which it is applied. The high cost of repair-work has made us all fully realize the extravagance of letting a building "run down" for lack of a coat of paint.

It is equally important to understand the extravagance involved in the use of poor paint, and to know that there's one paint which leads all others in the matter of economy:

### B-H PAINT

No other paint can match it in covering capacity—no other brand can equal its record of permanence. Affording real protection over a long period, it has removed the false notion that a house must be repainted every year. If you use this paint of extreme durability your house is protected for years.

## THE ONLY WAY

If you toot your little tooter  
And then lay away your horn,  
Within a week there's not a soul  
Will know that you were born.  
The man who tries to advertise  
By short and sudden jerks,

## THE FOSTER GOVERNMENT

The following editorial from the St. John Globe is significant in that the Globe was one of the strongest supporters of the Fleming administration and of the succeeding governments until forced by the findings of the Commission to condemn them:

"Called to office following the general election of February 24, 1917, the Foster government has been in control of provincial affairs a little more than three years. In that brief time a good deal of history has been written. Official disclosures before legislative committees, Royal commissions and courts of law revealed a condition of political rottenness under the old administration which every right-thinking New Brunswick man and woman must forever remember with regret. The chapters of graft, fraud and mismanagement in connection with the administration of the crown lands, the construction of the Valley Railway and the despatch of a gift of potatoes to the starving people of Belgium showed ministers of the government, private members of the legislature and departmental officials all identified with proceedings which every effort was made to cover up, conceal and prevent becoming public property. The facts are fresh in the public memory, and if there is a public conscience they must exercise a tremendous influence in deciding men and women how to vote and how not to vote in the coming contest. There are other pages of the three years and a half of history written since the present government took office which are not so depressing and which must also have their influence in determining the result of the elections. The administration of the crown lands, the extension of good roads, the interest in health matters and a few of the larger events of the three years rule of the Foster government which command commendation and merit endorsement. Then there is the new policy now taking shape for hydro development on a broad scale to give every section of the province the benefit of that cheaper power which is the essential of industrial success. The government has not contented itself with uncovering the record of its predecessors. It has put into the balance against those misdeeds of a past administration achieve-

ments which command the attention of all Canada. The three years have given New Brunswick themselves cause again to raise their heads with a substantial and justifiable degree of pride and to feel that legislative affairs in this province, instead of being a cause for national finger-pointing, have become a cause of national interest. For that the Foster administration must have all credit."

power is the biggest and most important public work any government of New Brunswick has ever undertaken. Plans are completed, tenders are opened and the scheme is well advanced. It is expected the government will be supplying electric current to all points between Bath and Fredericton before another year so cheap that all may afford electric light and power.

A change of government would practically kill the hydro-electric scheme, as the Opposition are already quoted as saying they would embark on a different plan, thus throwing away a year of development work.

St. John Globe: The provincial opposition party advertises that "it stands for the same principles for which it has always stood." The de-

claration cannot fail to recall the outstanding features of opposition rule in New Brunswick—a hold-up of the lumberman for a party campaign fund; an exploitation of the Valley Railway construction for the benefit of party friends; a fraud and graft in connection with the gift of potatoes to the starving people of Belgium. These are the incidents of opposition rule in New Brunswick which challenge the conscientious voter.

## OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.

The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for headache, neuralgia, colds, rheumatism, lumbago, neuritis, and for pain generally. Made in Canada.

Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monacochheim at Salzkitten.

While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."
