Ottawa, Nov. 1. No bodies are to be buried in the Catholic Cemetery after the 1st Nov., so Culbert's funeral will have to be postponed till next season unless special arrangements are made.

A memorial window has been placed in St. Albans Church, to the memory of the late C. H. Bliss.

Toronto, Nov. 1. A despatch to the Globe from London, Eng., says the report of the Great Western Railway of Canada for the half year announces that there will be no dividend; the deficiency is £141,000.

The boiler of the locomotive of a gravel train exploded this morning near Bound Brook, N. Y., instantly killing Thomas Capen, engineer, two brakemen, and injuring twenty others.

London, Nov. 1. One thousand eight hundred Turks were defeated recently while attacking a strong Insurgent position near Zudei. The Turks had 130, while the loss of the Insurgents in killed and wounded was only 20.

The steamship Scarpia, with the Prince of Wales on board, arrived at Aden to-day en route for India.

The Times estimates that 205 mariners and others were drowned in the north sea during the gales of the past three weeks.

The entire British squadron on the west coast of Africa, sent boats up Congo River, destroying many villages and killing large numbers of the natives. One Englishman was killed and six wounded. This punishment was for murdering English sailors.

New York, Nov. 1. The gale on Saturday night was very severe in all parts of New England, and particularly along the coast, and in the interior there was a snow fall of from one to three inches.

A steamship is leaving New York loaded with provisions for Spanish troops in Cuba. Probably several sailing and extra steamers will be required.

New Life-Preserving Mattress.

Interesting trials of the Gay safety mattress were lately made at the Maritime Exhibition, Paris. This mattress folds in two, longitudinally, forming a double belt, with attachments to fasten it to the person in such a way that it cannot possibly be displaced. It is formed of a double row of boudins, or "sausages," made of cork cuttings tightly compressed by machinery within a waterproof impermeable case, and the whole covered and incased in No. 7 canvas. The cork ribs are about 8 or 9 inches wide, and half that in thickness. The whole forms a mattress, one like which is intended to be placed in each sailor's hammock, cot, or berth, it makes a bed which, contrary to what might be expected, is elastic and easy to lie on. Its weight is about 6 1/2 lbs., and it suffices to sustain in water the weight of four men, so as to save their lives, as was conclusively shown by the experiments on this occasion.

The celerity with which this valuable can be rendered available was shown by the fact that a man lying thereon in the hammock, on a given signal, drew out the safety mattress, arranged and put it on, fastening it perfectly, and jumped into the water, all within the space of three quarters of a minute. Thus every one on board a ship may have at immediate command, in case of accident, the means of enabling him or her to float without other aid in the water, even assisting others, and so to await the arrival of further aid, by snips or boats; thus materially multiplying the chances of safety, which, after all, is the utmost that can certainly be attained, by the life-saving apparatus what it will.

Another important point in this appliance is that, as was also shown, the motion of the limbs, as in swimming, are entirely free and unfettered by the mattress, when thus used as a cincture; moreover, in case of wreck and being cast ashore, this appliance is calculated to afford great protection to the body, and mitigate the shock if the wearer be thrown by the waves against a rock or beach, or should any one or more of the separate cork ribs be cut or damaged in any way by such collision, being independent, the cincture as a whole retains its buoyancy and life saving power unimpaired.

Just in Time.

A young surgeon, after having tried in vain to get into practice, at last fell upon the following expedient to set the ball rolling:—He sprang upon his horse once a day, and rode at full speed through the town. After an absence of half an hour he would return, and carry with him some of his instruments—thinking if he could impress his neighbors that he had practice, they would begin to place confidence in his ability.

A wag, who more than suspected the deceit which he was practising, determined to know the truth. He accordingly kept his horse in readiness, and the next time the doctor galloped past his door, sprang on his steed and placed himself on the young gentleman's trail.

The doctor saw the man following at his heels, but did not at first evince any uneasiness. At length, however, he thought it advisable to turn down a narrow lane. The pursuer followed like an evil genius; but the doctor was not discouraged, as another road lay a short distance ahead of him, down which he turned. The other kept close at his heels, and the doctor grew impatient to return home. There

was no house by the way at which he could afford any pretext for stopping.

In the meanwhile his saddle-bags were with him, and he was otherwise equipped for business, so that he could not return, in the face of his neighbor, without exposing the secrets of the trade in the most palpable manner. Every bound of his steed carried him farther from his home, and the shades of night began to fall on hill and dale. Still the sound of horse's hoofs were thundering in his ears, and he was driven to his wits' end, but just as he turned the angle of a wood he heard a low moan. A man lay prostrate near the fence of a meadow, blood gushed from a fearful wound in his arm. He had cut an artery with his sythe, and was in danger of immediate dissolution. The young doctor sprang from his horse and staunch the wound. Bandages were applied, and his life was saved. The pursuer had also thrown himself from his horse, and as the surgeon tied up the last bandage he looked up in his face and said, "How lucky, neighbour, that I was able to get here in time?"

The wondering spectator was silent with awe; and after assisting the wounded man home, he told such a marvellous tale to the wondering town folk as secured the young surgeon a reputation not for skill, but also for supernatural prescience. Thus did the interest contribute more to his advancement than years of studious toil could have done; and the impudent curiosity of a waggish neighbor depend for him a path to business which the most influential patronage might never have been able to provide for him.

THE TRAINING SCHOOL at Fredericton, opens this Winter Term with a larger number of pupils than heretofore. The new School speaks for itself. Better buildings, better teachers, and better instruction, from better scholars, respectively (a borrowed word) best in every true sense.

The sketch of Deer Island, kindly furnished by our correspondent, is worthy a perusal and gives a fair idea as well as a faithful picture of the Island, its great natural resources and industries.

"The beautiful snow" so pathetically described by the poet, made its appearance in true November fashion, at Fredericton, on Tuesday morning reminding us that "the last rose of summer left blooming alone," has also been wrapped in its beautiful snow-white winding sheet. Thus summer has departed.

Visit of the Premier.

The Hon. Mr. Mackenzie, arrived at St. John on Friday afternoon, and was received by a committee of citizens. In the evening he was honored by a complimentary dinner, given by the citizens, at the Victoria Hotel; and although the notice was short, the welcome was most spontaneous, a large number of the leading citizens of all shades of politics having met to do him honor, not simply as Mr. Mackenzie, but as the First Minister of the Dominion. Everything passed off harmoniously, and was, no doubt, agreeable to the Premier. Indeed his speech, an extract from which we give below, expresses his satisfaction. We have only space for the following:—

Hon. Mr. Mackenzie said:—Mr. Mayor and gentlemen, I am sorry that the eagerness of the company to drink my health has been the means of depriving us of the pleasure of hearing the remainder of the Mayor's speech, but I trust that some time during the evening we will have an opportunity of listening to what he intended to say just now. For my own part I can only say that I am extremely obliged and gratified at the great kindness shown to me by the people of St. John in treating me to so handsome an entertainment on so sudden a visit, and on such short notice. I am sure I have a right to feel pleased and flattered at such a gathering as I see before me to-night, on such notice as was given of my coming. But I am not vain enough to recognize this as a mere personal honor, or to regard it as a tribute to anything I have done, or may do as a Canadian public man, but I regard it rather as a tribute of respect to the office which I hold, and to the Government of the country of which I have the honor at this moment to be the head (cheers).

I am glad to see around me to-night many who, although not my political supporters, I am pleased to regard as personal friends (cheers). I am rejoiced that this demonstration can in no sense be regarded as a political one, but that men of all parties have combined in it, and I hope to see the day when mere political differences shall have no weight to prevent any of us from entertaining the highest feelings of respect and esteem for those whose political views may not be precisely the same as our own (cheers). I accept this as a tribute paid to the Government of the country. Patriotism sometimes requires us in cases of emergency, to support the Government of the country for

the time being, and although I am happy to say there is no present emergency to demand such a course, I am not the less glad that the present Government has been able to command your respect, if not your confidence. I have not the honor of being a native of New Brunswick, but perhaps I might say of that, as was said by a celebrated politician in the United States, in stumping the State of Ohio, that although nature had not so far favored him as to let him be born in Ohio, if he had to be born again he would not fail to select the state of Ohio as the place of his birth (Cheers and laughter). The United States Consul just now—I call him the United States Consul because, claiming to be an American myself, I do not care to see one nation of this continent monopolize that name—of the friendly feeling the people of Canada and the United States should entertain towards each other. I was an early friend to the union of these Provinces, because I regarded their union as necessary to their proper growth and development; and I believe that here we have the germ of a great and powerful nation, and that we can best serve the cause of liberty and of human progress by being faithful to our own union, which I trust will last as long as freedom and progress live on earth. (Great cheer.) I am also and always have been a friend of the United States.

On some great occasions it may perhaps be necessary in the future for America and Britain to send more than a mere word to aid the efforts of an oppressed people; and should such a necessity occur, it would surely be a glorious sight to see these English speaking nations banded together to aid less fortunate people to obtain that measure of human liberty which they have had the happiness to enjoy for so long a period. As a Canadian, if I have ever had an ambition, it has been to have my country play a part in the liberation of nations from the fetters which ignorance and bad governments have imposed upon them; and while desirous always to see peace on earth and good will towards men prevail, I know that these blessings can sometimes only be obtained at the cannon's mouth. I hope that the people of the United States and of Great Britain will always remain true to those great principles on which their institutions are founded, and that their flags may wave together in beauty and harmony in many a distant land, the one bearing on it that emblem of the might of the Creator, the starry heavens which express His infinite power, and the other emblazoned with the emblem of God's greatest work, the Redemption of man. (Great enthusiasm.)

I come among you here a comparatively stranger in the Maritime Provinces. When I was here before I had very little to say, and perhaps it was just as well, for not being in power, anything I might have said would probably not have had any great effect on the actions of those who then held the reins of Government. But I have now come amongst you as a member of the Government because, as such, I felt bound to make myself conversant with the wants of the Provinces lying at a distance from the seat of Government. I regret that I had not an opportunity of visiting these fine Provinces sooner, but I found it impossible to do so. But although I have not been much in these Provinces myself, I hope that I know something of them, and I hope also to show that I am actuated by no selfish or sectional principle in administering the affairs of Canada. Ontario, being large and populous, is very well able to take care of itself, and I do not know but, for this reason, some of the other Provinces occasionally come off best, because Ontario, being great, must be generous also, and show no grasping spirit. And there is much in these Provinces to commend the attention and the admiration of the people of Ontario. Our boast is that Canada now occupies the fourth place among the maritime countries of the world; and I give my friend Mr. Blaine, notice that unless his countrymen are very active, in ten years time Canada will occupy the third, or perhaps the second place as a maritime country.

It would not be proper for me on an occasion such as this, and in such a company as the present, composed of men differing in political views to introduce party politics into my speech. Still, however, it is scarcely possible to avoid saying something as to the current events of the day. Since the Government of which I am a member came into power, we have had many perplexing questions before us some of which belong to the peculiar domain of no party; but which must be regarded rather as general questions affecting equally the interests of all. I have always felt since I was a boy, the greatest interest in two or three things connected with politics. One has been to get the electoral machinery of the country so adjusted that every man shall be at liberty to vote for whom he pleases, without the possibility of his being coerced, or intimidated, or bribed by any one else. To affect this was, I felt, the only way to set down every species of class legislation, and to that end I have endeavored to secure to the voter that no undue pressure can be brought to bear upon him at elections. That end, I think, has been fairly well accomplished by recent legislation. All the churches in this land stand upon an equal footing, all the men in this country have equal rights—these are things that have been long secured to us—but until lately there was no election law which made it impossible for a corrupt man to secure a seat in parliament and to take a share in the government of the country. My Government has fortunately

been able to secure a law which gives protection to the voter and takes power out of the hands of those who would bribe the constituents and purchase their way into parliament. Another part of the platform which the present Government has selected, and which is of equal interest to all parties, is to fill up that vast, unknown, fertile land—our domain of the North West. A land of boundless resources, where great prairies stretch toward the setting sun, the home of nations yet to be. (Cheers.) To this great land we welcome the men of all nations, and have an especial welcome for those from the United States. (Laughter.) The land is rich, and its wealth is abundant, and there is room enough there for the millions which we hope soon to see tilling its fertile plains; and the tide of emigration flows towards it steadily.

On Sunday one of the heaviest gales of the season accompanied with torrents of rain occurred; and only ceased to abate evening. On Monday the wind hauled round to the north, when a slight fall of snow fell.

The Rev. Lewis Jack will preach in the Presbyterian Church on next Sabbath morning and evening. A preparatory service will be held on Friday evening previous to the Communion on Sabbath next.

DR. CAMERON'S card appears in another column. The Doctor will be in St. Andrews on Saturday next, where he intends reading and practising his profession. Until further notice he may be found at Kennedy's Hotel.

HARMON AGAIN VICTORIOUS.—On Saturday afternoon the race between Wells, of Pittsburg, and Harmon, took place at the Valley Park, and as was anticipated, resulted in a victory for Harmon. The men were sent off from a pistol shot, Harmon leading all the way over the course, 125 yards, winning easily by twelve feet, in thirteen seconds. St. Stephen may justly feel proud of its athlete.

POST OFFICES.—The following Way Offices in the County of Charlotte have been made regular Post Offices:—Beaver Harbor, Indian Island, Little Lepreaux, Oak Hill, Scotch Ridge. The office at Grand Harbor has been closed.

SENTENCED.—Before the County Court closed, Stephen Jones, convicted of larceny of a horse, carriage, &c., owned by his employer, Mr. Gilman, was sentenced to two years in the Penitentiary.

Charles P. Thurbur, larceny of a watch, clothes, &c., was found guilty and sentenced to one year in the Penitentiary.

The Ottawa Times, of the 22nd ult., contains the following matrimonial item, which will be read with interest in this community, where Mr. Taylor has many friends:—

To-day the first public wedding in the oldest of the city churches, St. Andrews, took place. Mr. Taylor, of the Bank of British North America, being united to Miss Lillian Fraser, daughter of the late Hugh Fraser. A large number of ladies were present.

A Transatlantic Pigeon Post.

Experiments are now in progress, in England, in training a variety of carrier pigeon indigenous to Iceland, the object being to establish, if possible, a pigeon transatlantic mail between the United States and England. The bird is of great docility, intelligence, and spirit, and is naturally ocean-homing. Its speed is over 150 miles per hour, and it is said to be able to return to its habitation from any part of the world. A pair of these pigeons recently carried dispatches from Paris to a lonely spot in a wild and rocky part of Kent, within ten miles of London, in one and a half hours. Should the present efforts to educate the birds prove successful, next summer will find an almost daily ocean mail in practical operation, as it is believed that the flight from continent to continent can easily be accomplished between sunrise in one hemisphere and sunset in the other.

Recent Arctic Explorations.

The Pandora, a small screw steamer which left England for the arctic regions in search of relics of the ill-fated Franklin expedition, recently returned to Portsmouth after but eventful voyage of three months duration. Following Sir John Franklin's track, the vessel, after leaving Upernivik, steamed to the westward and penetrated further in that direction than any other ship has yet succeeded in doing. A yacht, abandoned by Sir James Ross, was found beached and in fair condition; and the storehouse built by the same explorer, together with the graves of some of Franklin's men, were visited. The Pandora brings back the news that the Alert and Discovery, of the British expedition, are now in Smith's Sound and that there are indications that the body of water is comparatively free from ice.

The case with which the Pandora, small as she is, accomplished so long a journey—one which Franklin, with his sailing ships, occupied two years in performing—in the brief period above mentioned, augurs well for the success of Captain Nares. The efficiency of steam is fully shown; and as the Polar is hardly merited the designation of a steamer, the Pandora is really the first to prove what even moderately powerful engines will do toward breaking through

the ice floes. With the channel as open as is reported, and driven on by their strong machinery, it is not impossible to believe that the Alert and Discovery have already attained the borders of the open polar sea.

There is a probability that Mr. George Buchanan, of the Bank of B. N. A., who was recently summoned to New York in connection with Bank matters, will not return to his position at the St. Stephen Branch.

The District Attorney has wisely quashed all further proceedings in the case of Messrs. Beecher, Tilton, and Moulton. In the interests of morality, it is high time the wrangle closed. No new facts have to be developed, and on either side he will be an unwise man who should counsel the reopening of the case.

Senator Morton asks: "What is the greenback?" The Boston News answers: "It is the substance of things hoped for, the evidence of things not seen. It is a passport to favor and flattery, a whitener of character. It is an imitation of a dollar."

DROWNED.—Mr. Henry Porter, of St. Stephen, was knocked off the deck of the Schar. Ethel by the boom on Friday last, near Welch Pool, and was drowned.

VERY SAD BEHAVEMENT.—A few weeks ago we referred briefly to the bereavements made in families in New Glasgow and elsewhere by Scarlet Fever and other diseases to which children are frequently subject. To-day our Obituary list proclaims how the ranks of the children are being decimated by the "Reaper whose name is Death. Two likely young boys are within eight days of each other called away from the family of Garmichael McGregor. But the saddest bereavement we have to record to-day is the death of the only remaining child of J. R. P. and Annie Fraser. Four little household flowers, a few weeks before, had been transplanted by the grim Reaper to "bloom in fields above." The eldest alone remained to be a comfort and joy to the sorrowing parents. How their hearts' affections must have centered around the lone flower. The danger appeared to have passed and the parents fondly hoped their darling would be spared to them. On Thursday last the complaint of being unwell; on Friday she was ill of Scarlet Fever, and on Saturday morning the stricken flower faded away. In the Riverside Cemetery five little mounds, side by side, tell of an utterly desolate home, and speak of a bereavement which is the lot of few parents to suffer, and which can only be realized by those who have been similarly affected.—New Glasgow Herald.

PROBATE COURT, COUNTY OF CHARLOTTE.

To the Sheriff of the County of Charlotte, or any
Constable within the said County, Greeting:
WHEREAS application by Petition has been
made to me by Lorenz E. Ames, one of the heirs
of Hannah Ames, late of the Parish of Saint An-
drews, in the County of Charlotte, deceased, ad-
vancing that the said Hannah Ames departed this
life on the Eleventh day of November, in the year
of our Lord one thousand eight hundred and
seventy-three, without having to the best of the
knowledge and belief of the said Petitioner, made
any Will, and praying that Administration of the
said estate and effects of the said Hannah Ames
may be granted to him: You are therefore re-
quired to cite the heirs, next of kin, creditors,
and all others interested in the said Estate, to
appear before me at a Court of Probate to be
held at my office in Saint Andrews, in the said
County of Charlotte, on Friday, the Twentieth day
of November next, at eleven o'clock in the forenoon,
to show cause if any they have why Letters of
Administration of the Estate and effects of the
said Hannah Ames deceased, should not be grant-
ed to the said Lorenz E. Ames as prayed for.
Given under my hand and the Seal of the
said Court, this Eighteenth day of October, in
a year of our Lord one thousand eight hun-
dred and seventy-five.

To the Sheriff of the County of Charlotte, or any
Constable within the said County, greeting:

WHEREAS Walter B. McLaughlin, Adminis-
trator of the Estate and Effects of John A.
Benson, late of Grand Manan, in the County of
Charlotte, mariner, deceased, hath by his Petition
bearing date the Twenty-seventh day of Septem-
ber last, past, represented that no personal Estate
of the deceased has come to his hands, and that
there is not to his knowledge any debts due to the
said Estate, from which he could pay the debts or
any part thereof due and owing by the said Es-

Representative and Champion of American
Prospectus for 1874—EIGHTH YEAR.

THE ALDINE,

THE ART JOURNAL OF AMERICA,
ISSUED MONTHLY.

A MAGNIFICENT CONCEPTION, WONDER-
FULLY CARRIED OUT.

The necessity of a popular medium for the
reproduction of the productions of our great
artists, has always been recognized, and many
attempts have been made to meet the want.
The successive failures which so invariably
followed each attempt in this country to estab-
lish an art journal did not prove the indiffer-
ence of the people of America to the claims of
high art. So soon as a proper appreciation
of the want and an ability to meet it were
shown, the public at once rallied with enthu-
siasm to its support, and the result was a great
artistic and commercial triumph—THE ALDINE.
THE ALDINE, while issued with all the regu-
larity, has none of the temporary or timely
interest characteristic of ordinary periodicals.
It is an elegant miscellany of pure, light, and
graceful literature; and a collection of pictures,
the greatest specimens of artistic skill, in black
and white. Although each succeeding num-
ber affords a fresh pleasure to its friends, the
real value and beauty of THE ALDINE will be
most appreciated after it is bound up at the
end of the year. While other publications
may claim superior cheapness, as compared
with rivals of a similar class, THE ALDINE is a
unique and original conception—alone and un-
approached—absolute without competition in
price or character. The possessor of a com-
plete volume can not dispute the quantity of
fine paper and engravings in any other shape
or number of volumes for the same cost,
and then, there is the chromo, besides!

The national feature of THE ALDINE must
be taken in no narrow sense. The art is con-
temporaneous. While THE ALDINE is a strictly
American institution, it does not confine itself
entirely to the reproduction of native art. Its
mission is to cultivate a broad and apprecia-
tive taste, one that will discriminate only or
greatly of intrinsic merit. Thus, while plac-
ing before the patrons of THE ALDINE, the
leading characteristic, the productions of the
most noted American artists, attention will
always be given to specimens from foreign
artists.

The artistic illustration of American scene-
ry, original with THE ALDINE, is an import-
ant feature, and its magnificent plates are of a
size more appropriate to the satisfactory
reproduction of details than can be afforded by
any other page. The judicious interpreta-
tion of landscape, marine, figure, and animal
subjects, sustain an unbounded interest, impos-
sible where the scope of the work confines the
artist too closely to a single style of subject.
The literature of THE ALDINE is a light and
graceful accompaniment, worthy of the artistic
features, with only such technical discussions
as do not interfere with the popular interest of
the work.

PREMIUM FOR 1875.
Every subscriber for 1875 will receive a
beautiful portrait, in all colors, of the same
size as those which were in former issues, and
of much attention.

"MAN'S UNSELFISH FRIEND"
will be unveiled in every home. Everybody
loves such a dog, and the portrait is executed
so true to life, that it seems the veritable
presence of the animal itself.

Besides the chromo, every advance subscri-
ber to THE ALDINE for 1875 is constituted a
member, and entitled to all the privileges of
THE ALDINE ART UNION.
The Union owns the originals of all THE
ALDINE pictures, which, with other particu-
lars and engravings, are to be distributed
among the members. To every series of 5,000
subscribers, 100 different pictures, valued at over
\$2,500 are distributed as soon as the series
is full, and the awards of each series are made
to be published in the next succeeding issue
of THE ALDINE. This feature only applies
to subscribers who pay for one year in ad-
vance. Full particulars in circular sent on
application enclosing a stamp.

TERMS.
ONE SUBSCRIPTION ENTITLED TO THE
ALDINE ONE YEAR, THE CHROMO
AND THE ART UNION.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom, without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of Walker's Bitters?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of Walker's Bitters in healing the sick of every disease man or woman is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases.

If men will enjoy good health, let them use WALKER'S BITTERS as a medicine, and avoid the use of alcoholic stimulants in every form.

W. H. McDONALD & Co.,
Druggists and General Agents, San Francisco, California, and
cor. Washington and Chestnut Sts., New York.
Sold by all Druggists and Dealers.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Grateful Thousands proclaim Walker's Bitters the most wonderful Invigorant that ever sustained the sinking system.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exuding a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Dyspepsia or Indigestion, Headache, Pain in the Shoulder, Congestive Rigidity of the Chest, Shortness of Breath, Inflammation of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Indigestion of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offspring of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Gout, Sore Throat, Inflammation, Eczema, Inflammation, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers—the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Kidneys, and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood, and Walker's Vinegar Bitters occasionally.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Itch, Scabies, Ringworms, Pustules, Boils, Carbuncles, Ringworms, Head, Sore Eyes, Erysipelas, Itch, Scabies, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally tinged up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, burrowing in the system of so many children, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood or the term of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Jaundice.—In all cases of jaundice, rest assured that your liver is not doing its work. The only sensible treatment is to promote the secretion of the bile, and favor its removal. For this purpose use WALKER'S BITTERS.

Cleanse the Vitiated Blood through the skin in Eruptions, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.
