

SUMMARY OF NEWS

Arrival of Lord John Russell in Scotland.—We are happy to announce, that this noble scion of the Bedford family, who has been recently visiting the Earl of Carlisle at Naworth Castle, and other families of distinction in Cumberland, passed through Dumfries this day (Monday), at three o'clock, on his way to Edinburgh, where we understand, he will remain a few days on a visit to the noble and hospitable possessor of that princely castle.—We believe that there has been long an intimacy between the Bedford and Bath families, of which the Duchess of Buccleuch forms a distinguished connection. We are sure Lord John will be delighted with Drumlaurig Castle—its commanding site, the extended fields and hills of thriving wood, and the many splendid improvements around his Grace's seat.—Dumfries Courier.

His Excellency Baron Bulow left London this morning, on his return to Prussia. It is generally supposed that His Excellency will find, in the councils of his Sovereign, a post which will enable him, whilst accomplishing the duties of his brilliant career, to enjoy the society of his numerous family and friends from which he has been long severed. The Baron Bulow has been in the service of the Russian Legation in London during the reign of three Sovereigns, and has, in that space of time, represented his King at this Court for no less than thirteen years. The duties of Charge d'Affaires at the Prussian Legation devolve on the Baron von Kottwitz, who recently succeeded the Baron von Schlegel as First Secretary.—Post.

There is no idea whatever of landing any British regiments upon the coast of Syria, as reported in Dublin; but the troops now ordered from Ireland will not only constitute the usual relief, but also augment our military strength in the Ionian Islands, which is an object of moment.—London Chronicle.

Final Effects of Intoxication.—On the 21st current, a young man, a native of Edinburgh, employed in the neighbourhood of the Junction Canal, after dining with a friend, who left him in an intoxicated state to seek his way home, stumbled into the canal and was drowned. We are informed that this solemn warning so affected his fellow-workmen, that they have voluntarily come under an engagement to abstain for the future from all intoxicating liquors.—Scott's Guardian.

A distressing accident, which has created a great sensation throughout England, occurred on the Eastern Counties Railway, on Wednesday, the 19th ult. The engine driver having started the train at the rate of 60 miles an hour, the engine, with the carriages, in proceeding down an inclined plane, was forced off the rails, and precipitated over the embankment, causing the immediate death of one person, and that of three others subsequently, including the engine driver, from the injuries received. Six other persons were more or less severely injured by the crash. The engine before reaching the bottom of the declivity turned right over, and the first class carriages, 4 in number, were smashed to pieces. On the following night, a boy employed on the railway near the same spot, having it is supposed, fallen asleep, the rails, were run over in the dark, by a train of mud-waggons, by which his legs were severed from his body, and he died while being conveyed to the London hospital. The driver of the engine also was killed by this second accident.

Green, the mountaineer, was in a rather a perilous situation, in descending from a late journey to the clouds, and reported to have been severely injured. A London paper makes the following statement in reference to this report: "Mr. Green, we are glad to hear is not so severely injured as was at first feared.—The whole amount of the injury is a dislocation of the first and second bones of the sternum, with a simple fracture of two ribs on the right side."

No less than four fires broke out in London, between the hours of two and four o'clock on the morning of Thursday, the 27th ult. all of which were of a serious nature, but two of them particularly so. By that at Horse's wharf, near the London docks, that wharf and the adjoining belonging to a Mr. Reynolds, were destroyed, attended with a loss of property estimated at from £20,000 to £100,000. The other was in Bowditch, where the extensive saw-mills of Mr. Pears, and the adjoining premises of Mr. Hubbard, carrier, were destroyed. Damage estimated at £8000.

A marriage between the Archduchess Maria, daughter of the Archduke Regnier of Austria, and the Prince Royal of Sardinia, is considered at Vienna to be decided upon.

A great revolution has been effected in London, Bartholomew fair—time honored old Bartlemay—has been abolished as a place of amusement. All booths, plays, shows, &c., are henceforth excluded, and the fair is only to be held as a gathering for the sale of oxen, sheep, horses, &c.

The cumbersome bear-skin cap, ordered by Geo. IV. for the use of the Fusiliers and Grenadier companies of the line, is to be discontinued, and replaced by a smart chapeau.

Death has departed the army list of two more veteran officers of high standing, Major General Sir Jas. Linnell, K. C. B. died at Boulogne, and Lieut. Gen. McNair, C. B. at Southampton last month.

Soldiers and the Penny Postage.—The introduction of the penny postage was considered by many as constituting a great boon on the public; but it placed soldiers in a position, that they had to pay 50 per cent. more on the receipt of their letters than civilians, owing to the charge of one halfpenny being made by the file major, or person who delivered them, according to their respective addresses. This charge has now been abolished.

The elevation of the Right Hon. Charles Poulett Thomson, Governor of Canada, to the peerage, (says the Globe) is at once a recognition by the highest authority of his great services in Canada, and will give to the House

of Lords a member of equal practical knowledge and of liberal opinions, both of which are much needed in that assembly.

There were two fires in London on the 27th August, which together destroyed property to the amount of £70,000. One destroyed the warehouses on Horse's wharf, the other, the steam saw-mills of Mr. Pears. On the 25th, Mr. Thorne's mill, at Dundee, with the machinery, which cost £20,000, was destroyed by fire.

Sealing Letters.—It is recommended by the post office authorities, not to seal letters going to distant hot climates, as the wax, when it melts, causes the different letters to adhere, and renders damage to them unavoidable.

The "Condition of Ireland" Question.—The condition of Ireland, at the present moment, is one of unbroken serenity. Prudential agitation there is none; the political agitation that exists seems to be the mere recoil of Tory violence—the extravagance that echoes extravagance; nothing to stir the depths of society, or alarm a government, secure in the soundness of its principles and the affections of the people.

The results of the Assizes have shewn a decrease of crime the most astonishing, affording the judges upon all the circuits themes of warm congratulation, in their addresses to the grand juries. In some cases, the jails were found empty; in others, a quarter of an hour sufficed for the entire process of trial delivery. Where the hangman is solitary, he is as much a sinecrist as the parson; where he is paid by the neck, he is reduced to beggary.—London Examiner.

From the United Service Gazette.—The appointment of Lord Falkland to the government of Nova Scotia has been confirmed; thus creating a necessity for two appointments where one would have answered every purpose: unless, indeed, Ministers should adopt the more simple and obvious course of uniting the command of the troops in Nova Scotia and New Brunswick, and placing them under the orders of Major General Sir John Harvey, with the local rank of Lieut. General in succession to Lieut. Gen. Sir Colin Campbell. If this course be not adopted, a Lieut. General must be sent from this country in the place of Sir Colin Campbell, Lord Falkland holding, of course, the same rank.

And on the 23rd, the same writer adds:—Major General Sir Robert Arbuthnot goes Simla, it being the intention of the Government to confer the command of the forces, as well as the governorship, on Sir Colin Campbell. The emoluments of Sir C. Campbell in his new situation, will not fall short of one of Lord Melbourne's creatures.

Her Majesty is to stand sponsor to the infant daughter of Lord and Lady Fitzalan, great-grandchild of the Duke of Norfolk, and who will be baptized by a Roman Catholic Prelate in the Church of Rome.

Lieutenant-General Lord Keane, who has just abandoned the field of Mars for the altar of Hygeia, is in the 68th year of his age.

The sittings of the Wesleyan Methodist Conference at Newcastle, closed on Friday. A long discussion took place relative to the Wesleyan Methodists in Canada, which terminated in the Conference deciding that their brethren in Canada shall exist as a distinct body, independent of the British conference.

A national monument is talked of for the honest patriot Lord Durham.

The exports of tea from China to Great Britain during the year have been estimated at from 25 to 30 millions of pounds.—Standard.

The Government magazines are ready to receive 185,000 lbs. gunpowder from the stone ship Swallow, which when in, will make the contents of the magazines to be greater than they have been for the last 27 years.—Halifax Morning Herald.

A slave vessel under Arab colors was captured by H. B. M. ship Cutlew on the South African coast 21st May. She had 19 slaves on board. About the same time a slave brigantine was captured by H. B. M. ship Wizard, near Cape Fria.—The crew escaped.

Boston, Sept. 19.—All the accounts from this State seem to confirm the news of a Whig triumph at the election on Monday last. There is no longer any doubt that Edward Kent has been chosen Governor by a majority of 6 or 700 over Governor Fairfield. In the Senate 17 or 18 Whigs (of the 24) are elected.—There is also a Whig majority in the House of Representatives.

The Great Western Rail Road from Boston to Albany is progressing rapidly. Not less than 2,000 men are employed upon it, some sections both day and night. When that is completed, the struggle for the business will produce a competition between the cities of Boston and New York.

Another Private.—The ship, Windermere, Capt. Brown, from Calcutta for Liverpool, was spoken in lat. 5 N., long. 33 W., by a Spanish brig, Baltimore built, with her head and stern covered with cloth, and armed with six 18 pounders, and one long 32 on a swivel before the mast, and manned by about 100 men, 39 of whom boarded the Windermere in a large launch, who were covered with tanned frocks, which at a sign from their officer they all took off, and underneath which, each man had four pistols and a sword. The officer told Capt. Brown that he had lost his bow-sprit, and he must have his (Captain Es.), and with this drove every one below, and cut away every thing came in their way. At 8 P. M. they left the ship, taking with them the bowsprit, jib-boom, a quantity of rope and canvas, the watch, shirts, and sundry other things of Capt. Brown's, as also the steamer's clothing, and told Captain Brown not to proceed if they had hoisted a light, which they

did shortly after getting on board, and then steered to the westward, and were out of sight next morning.—N. Y. Spectator.

CANADA

Quebec, Sep. 16.—The port of Quebec.—Presented an appearance yesterday, which we wished had been seen by all those who live on the waters of the Great River, of which Quebec is the natural outlet to the sea. There were about two hundred square-rigged vessels, chiefly arrived, anchored in the stream between Cape Diamond and Point Levy; and still they were nothing compared to those which might find a safe harbor in the port. We can assure all our distant friends, whether they live on the waters of the great Lakes or of the British seas, that we can accommodate them all in effecting the exchange of commodities, and "the more the merrier."—Gazette.

At the General Wesleyan conference recently held in England it was agreed after much discussion, that the Canadian conference shall in future become a distinct and independent body.

Agricultural.—We have seen a sample of red and white spring wheat, from Frampton, a new settlement, consisting chiefly of people from Ireland, about thirty miles south-east of Quebec. The ears are between five and six inches in length, well filled, and the grain plump and transparent, equal to any heretofore produced in this colony, and probably in any other. Generally speaking, the culture of wheat, which has been the chief crop in Lower Canada since its first settlement, has been abandoned in this neighborhood, on account of the injury done by the fly or worm in the grain. The little sown in the old settlements, this year, has been little injured; in the new settlements, hardly at all. All our country friends agree, but the crops of every description, are uncommonly abundant, hay, only excepted.—Quebec Gazette.

There is a maniac on board the Cleopatra, who is to be tried for murder by the Naval Court Martial now investigating the charges against Capt. Drew, R.N. We are glad to learn that the latter gentleman will be acquitted most honorably, and if report speaks truth, which is any thing but creditable to Captain Sandon.—Montreal Herald.

Information has been received in town that the Governor General has been in Toronto at the place where the United Legislature will hold its meetings during its session of four years.

We learn that the Government is in treaty with the Hon. Sir A. N. M. for a lease of Dundas Castle, near Halifax, as a residence for His Excellency the Governor General.—Ibid.

NOVA SCOTIA

Kingston, Sept. 11.—His Excellency the Governor General will return to Kingston on or about the 15th inst.—next Tuesday, and proceed to Montreal, via the Rideau Canal and Ottawa River.

From the Toronto Christian Guardian, Sept. 26th.

Decision of the Judges on the Wesleyan Chapel Case.—We are highly gratified to be able to state for the satisfaction of our Ministers, and Members, and the friends of Methodism in the province, that the long pending chapel case has been decided by the Judges in favour of the Wesleyan Methodist Church. This, while we consider in itself a matter of justice, in another light we receive as a token for good.

Race Cup.—We are informed that the Queen has been pleased to order that the sum of Fifty guineas shall be appropriated, from the Casual and Territorial Revenue, to the purchase of a Cup, to be ran for at the Halifax Races.—Morning Herald.

We mentioned in our last number that Head Quarters were ordered to be removed to Fredericton, N. B., over which statement shade of doubt has been attempted to be thrown. In reply, we now beg leave to state that a letter from the Horse Guards, direct that, General Sir John Harvey shall take command of the Military forces in New Brunswick, Nova Scotia, and their dependencies and that Head Quarters shall be removed to Fredericton. We may further add, Col. Snodgrass went on to New Brunswick, to make such arrangements on this subject as Sir J. Harvey might be inclined to agree to.—Ibid.

A Review of the Troops took place on the Exercising Ground on Saturday last, attended by their Excellencies Sir Colin Campbell, Lord Falkland, and Sir James McDonald. The troops performed their usual evolutions in admirable style, and afforded much gratification to all those who were present to witness them.

More Steam.—We have just received observing that a Joint Stock Company has been formed by the enterprising merchants and people of St. John's, for the establishment of Steam communication between that Island and Halifax, and Annapolis. The very great advantages this undertaking must be considered, and in consequence of the trade of St. John's, and no doubt those allotted to Great Britain will be speedily taken by persons interested in the trade of Newfoundland.—Hal Journal.

Fredericton Sep. 16.

In consequence of the removal of Mr. Liston, from St. John to Canada; Mr. Southers who has been Cashier of the Branch of the Bank of North America in this place, will succeed him. Mr. S. will carry with him the best wishes of all classes here; who we are satisfied properly appreciate his urban and gentlemanly deportment, in the discharge of duties which brought him much in contact with the

mercantile and business portion of the community. Mr. Southers will be understood to be succeeded by Mr. Taylor, from the St. John branch; a young gentleman, who during residence in that city, has rendered him much respected.—Standard.

Some persons employed in excavating well at Mr. McLennan's Mangrove, during present week, at the depth of nineteen feet found a red pine log in a perfect state of preservation. Much of the bank of the R. St. John is formed of alluvial deposits, and place at which this log was discovered it has been at one time the bed of a river or of a lake that formerly existed, with probability, occupied that portion of the country.—Ibid.

We are happy to understand that the Commissioners appointed by the Lieutenant Governor to take into consideration and report upon the subject of a Daily Mail communication between this City and Halifax, have received answers to letters addressed by them several persons experienced in the Bay of Fundy Steam Navigation, by which it is held to a certainty that a Daily Mail Steamer can be run from Saint John to Annapolis, and back again, during nine months in the year, and to and from Indian Point, opposite Digby, for the remaining months, and for an amount not exceeding £1500, in addition what she may earn by freight and passage in view.

We also understand that circulars have been addressed by the Commissioners to various persons in Nova-Scotia, enquiring for what yearly sum the Mails would be carried to and from Halifax, to the points of landing on the Annapolis River, at the rate of ten miles per hour.

The removal of Military Head Quarters from Halifax to Fredericton, must add to the before existing necessity of such an arrangement, which, we doubt not, will soon be carried into effect.—Courier.

New Church in this City.—On the 27th inst. the long building, now fitted up as a place of worship, in Duke-street, known as the property of Mr. Jacobs, but now to be called the "Tabernacle," will be opened for public worship. Sermons on the occasion will be preached by the Rev. Mr. Anblin, D. M. In the morning, at 11 o'clock—[The blessings of the gospel, Isa. 25, 6-8. In the afternoon, at 3 o'clock—The gospel salvation, Acts 13, 26. In the evening, at 6 o'clock—Paul justified, Rom. 1, 18.] As this church will be opened as an Independent Church, connection with that highly respectable body of the same name in England, embracing and teaching the great leading doctrines of the formation, the public, generally, are invited to attend. The building is newly fitted, with free seats, calculated to accommodate about six hundred persons. The entrance from Sydney-street is across the lot; entrance also from Duke-street, for the benefit of the infant church.—Morning News.

British North American Wesleyan Magazine.—We were politely favored with the first number of the above work last week, edited by Messrs. Temple and Wood, printed by W. L. Avery. This work is certainly not table to all parties concerned; and must become a great auxiliary to the respectable nomination to whom it belongs.—Herald.

From the Royal Gazette.

With a view to afford advice and assistance to such emigrants arriving in this Province, may be desirous of obtaining employment in the Rural Districts, the Lieutenant Governor has been pleased to approve of Mr. Edmund Ward acting as assistant Agent in that Department at Fredericton.

Presbytery of Miramichi.—A Free meeting of the Presbytery of Miramichi will be held in the Scotch Church at Bathurst, Wednesday the 30th inst., for the purpose of inducing the Rev. George McDonald as minister of that Church. The Rev. Mr. Aybald, of Chatham, is appointed to preach and preside on the occasion.

The same being seized under a Writ of Extent.

DOCTOR SPHON'S SICK HEADACHE REMEDY.

FOR the permanent cure of this distressing complaint, never fails. When persevered in, it effectually restores the system, and does away the cause of the SICK & NERVOUS HEADACHE. Thousands have tried it, and found precisely the relief which the article promises to bestow. Certificates of the strongest kind, and from the most respectable persons, are to be seen in the prospectus, some of which have been published, treating to the permanent cure, and to the immediate relief given by this remedy. It affords relief to the afflicted in 15 or 20 minutes from the first dose. It is taken with the symptoms of an attack are first felt, it prevents the further progress of the complaint, and can produce no danger at any time by an excessive dose; as in such a case it would only throw off the contents of the stomach, leaving it free to act with an excellent appetite. An afflicted with headache should not fail to procure the article, and relieve themselves from a distressing complaint.

ASK, INQUIRE—ASK THOSE WHO KNOW. THOSE ONLY WHO KNOW BY TRIAL or immediate observation, can form any idea of the effects of the perfect relief of the almost charm like cures effected in cases of the PILES, RHEUMATISM, ALL SWELLINGS, and ALL EXTERNAL PAINS, no matter how severe, by the use of the genuine HAYS' LINIMENT.

It is but a day you owe to your suffering fellow beings to let this great remedy be known. Speak of it then to all your friends. It will save much pain where the newspapers are not read, or where readers are incredulous, because so many worthless articles are advertised for the same purpose.

LOOK OUT! "CAUTION" is the Parent of Safety. A LACK of the "PILES" may be positively prevented by using (when the premonitory symptoms are felt) the celebrated HAYS' LINIMENT. There are more than one hundred people in this city, and in the United States an immense number, who have suffered beyond endurance by this dreadful complaint, who keep themselves wholly free from attacks by applying this Liniment when they feel any symptoms of its approach.

LOOK OUT! Some swindlers have counterfeited this article, and put it up with various devices. Do not be imposed upon. The thing only will protect you if it is the name of COMSTOCK & CO.; that name must be always on the wrapper, or you are deceived. Do not forget it. Take this direction with you, and test by that, or never buy; for it is impossible for any other to be true or genuine.
