British Smash Germans; HAIG MAKING Fight To Avenge Fryatt; PROGRESS ON Struggle in Awful Heat

Indescribable Ferocity Marks Hand-to-Hand Fighting Between British and Germans along the Somme Front-Haig's Men Spurred on by Desire to Avenge Murder of Capt. Fryatt, and Slowly Driving Enemy from Ruined Villages-Carnage by the British Artillery Said To Be Great.

(Canadian Press.)

With the British Army in the Field, July 30, via London, July 31 .- French and British soldiers made today's attack in sweltering midsummer heat. The first real hot wave of the season struck Northern France last night, and this morning British and French infantry co-operated in an action north of the Somme, in front of Guillemont and Maurepas. IN TROPIC HEAT.

For the last few days the one word on everybody's tongue has been visibility, which has come into universal use since Admiral Jellicoe's first fleet dispatch. Formerly artillery men spoke of good and bad light. Persistent bad light or low visibility, which did not permit the gunners to register their targets, had delayed any important infantry action. Yesterday the light became better as the heat grew tropic, and offensive operations were renewed.

GERMANS STRENGTHENED. Every day the Germans have been increasing the number of guns and men in the Guillemont sector, which is among the last portions of high ground they hold. By prisoners taken, ten German battallons, or ten thousand men, have been identified on a front of 2,000 yards, where the Germans are still in their old second line fortifications, with "maze" renches and deep dugouts built long ago and strengthened since the offensive began. The Germans appear to regard this sector of critical importance since the British broke the second line on the adjoining front

for a length of two miles on July 14 Part of the British attack strucks from the bloody Trones wood, and the other part on the flank, while the Germans tried to "man" machine guns as Francis Joseph usual after a British bombardment. Th Germans resisted the British bitterly fighting under the broiling sun as if every inch of ground was precious.

Got Rallroad Station. The British got possession of the railroad station, which they had reached in a previous attack, and this time, ac cording to last reports, were still hold-ing it. Some of the attackers got into Guillemont and reached the church, where the Germans, swarming in dugout outnumbered the advance party which fought against their foe on all sides. Soldiers who reached Guillemon speak of the fearful carnage among the Germans from the British gunfire, owing to the masses of Germans concentrated the infantry attacks. On All Furniture Furniture of Character and Quality---Prices Below Your Expectation

The buying of the right sort of furniture is just as much of a problem to this store as it is to you. But there is one great difference—we have studied your wants and then have gone to the makers of furniture, as good as it was in grandmother's day, and had our experts select the best to be had. In other words, we have centralized our efforts in securing the good, practical styles of furniture that you demand rather than just "buying" furniture to sell.

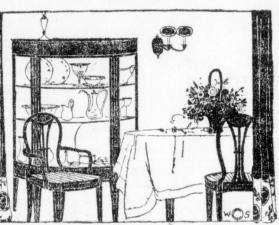

This sale is planned to give you a furniture service that will allow you to select designs that will be good for centuries and furniture that will become a cherished possession of your children's children. You will also find many pieces that are distinctly of the styles of the present moment—the latest creations in fine furniture faithfully carried out to the last detail.

In a word, this sale has been planned for you, every minute consideration has been thought out for the benefit of our customers, and every piece of furniture on the floor will be marked at August sale prices, from 10 to 50 per cent off regular sale prices. Sale begins tomorrow. Furniture may be inspected today.

Many car owners seem to get the idea that they have purchased a controlling interest in the roadways when they take out an automobile license. As a matter of fact they have no more rights than the pedestrian and are obliged to respect the rights of those who use the public streets. As it is now the traffic regulations are disregarded by hundreds. Cars scorch along crowded streets at 30 and 40 miles an hour. Drivers who have no qualifications for being intrusted with the publie safety are permitted to burn up the pavements. Horns that screech a positive command are in the ears of all those on shoeleather, and at various crowded crossings such as the corner of King and Richmond streets, the traffic bylaws in regard to corner cutting, etc., are not observed. Regarding "Bluebird's" floral work, it is interesting if you have bulbs to spare. I have found there is no economy in allowing gladiolus to seed.

They always multiply about one-

They always multiply about one-third to one-half if flower stalks are kept off and if you are careful to save pips which grow under the corm one can increase the stock much faster. Seed can be purchased in Canada at 15 cents a packet. Dahlias are interesting plants grown from seed also. Have read that gardners use a camel's hair brush to place the pollen on the stigma and use gauze caps to keep the honey bee from re-pollenizing. Bulb merchants handle bulbs so

COCHRANE AND MATHESON WIPED OUT BY THE FLAMES; HUNDREDS HAVE PERISHED

At Tawosha and Kowesch Prospectors Are Likely To Have Been Trapped by the Blaze-Hundreds of Miles of Bush Gone-Settlers With Families Have Fled or Been Lost With All Their Belongings.

[Canadian Press.]

ENGLEHART, Ont., July 30.—Forest fires, which for several days have been threatening the northernmost towns and the outlying settlements of Northern Ontario, today and yesterday culminated in a holocaust which wiped out entire communities, licked the fringe of larger towns and levied a death toll which cannot at present be accurately computed, but which will range from 140 to 200, with scores of persons suffering from injuries, many of whom are likely to succumb. The loss of life so far reported is as follows: At Nushka, a French-Canadian settlement, 57; at Cochrane, 18 dead, 34 injured; at Matheson, 34 dead; Iroquois Falls, 15 dead and many injured; Porcupine Junction, number unknown, but the town wiped out with the exception of the station; Ramore. 15 dead. In addition to the known dead there are many outlying places which will materially swell the list of victims when the rescue parties return.

It is feared that at Tawosha and Kowesch many prospectors have been trapped.

WORST AT NUSHKA.

Nushka suffered worst. It consisted of a score of frame dwellings and stores, and has been threatened for some days. It was practically surrounded, walls of fire cutting off all escape to the north and south, and with no river or lake at hand the inhabitants were doomed.

Cochrane is entirely burned with the exception of Second and Third avenues, 18 being reported dead and 34 injured. The proximity of the Temiskaming and Northern Ontario tracks and the lake saved most of the residents.

Ramore, a small settlement, was completely wiped out. Matheson is totally destroyed with the exception of two houses, and 34 bodies are laid out on the station platform.

South Porcupine suffered only the loss of the sawmill at the station, and at Timmins the flames were checked on the outskirts of the town, after licking up 17 houses. At the great paper mill at Iroquois Falls, nothing remains but part of the mills and one store. Fifteen dead and scores of injured are the toll of the

ELEVEN OF ONE FAMILY DEAD.

The list of dead is likely to be largely increased from among the outlying settlers. One settler with ten children, perished while his wife was absent to seek aid.

Refugees, destitute of food and clothing are pouring into the more organized towns to the south of the burned district. A large number have arrived here and are being distributed to New Liskeard, Cobalt and Haileybury. Citizens of the town worked all last night to feed and clothe the victims, prior to distribution.

As a result the relief train was fully equipped at various stations with all things needful and a refrigerator car with ice and perishables.

TORONTO, July 30.—Hon. G. Howard Ferguson, minister of mines, lands and forests, said tonight:

"My information is that the fire area reaches from Matheson to Cochrane, and as far west as Hearst. Matheson town, Nuskla village, Homer, Kelso and Cochrane are pretty well destroyed. We have not been able to get any word from there since early this morning, beyond Matheson. About 60 bodies were taken out of Matheson, 27 at Nushka, and about a dozen at Cochrane. No doubt there is a very considerable loss of life yet to be accounted for. The bridge at Watabeg is burned, that is just about Matheson, so that we were unable to get beyond the size of the Temiskaming and Northern and Northern assistance. We have carried a lot of people from the fire zone down to Englehart and we are provisioning and taking care of them there.

"We expect to get a train through to morrow from North Bay. We sent three relief trains from North Bay. We sent three relief trains from North Bay to points in the Stokhod sector, and on the front to the north-west of Sokul. SYRUP OF FIGS FOR CROSS, SICK FEVERISH CHILD

Look, Mother! Is Tongue Coated, Breath Hot and Stomach Sour?

Harmless "Fruit Laxative" Is Best to Clean Tender Liver and Bowels.

Mothers can rest easy after giving week-end. "California Syrup of Figs," because i a few hours all the clogged-up waste, sour bile and fermenting food gently moves out of the bowels, and you have a well, playful child again. Children simply will not take the time from play to empty their bowels, and they tightly packed, liver gets sluggish and stomach disordered.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love and it cannot cause injury. difference what ails your little one-if stomach-ache, bad breath, remember "inside cleansing" should always be the first treatment given. Full directions for babies, children of all aged and grownups are printed on

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look and see that it is made by "California Fig Syrup Company. We make no smaller size. Hand back with contempt any other fig syrup.

A Story From Life

About thirty years ago a man of our acquaintance bought a farm. He paid for it with the savings he had on hand, and to put up buildings borrowed \$2,000.00 on a mortgage. Shortly afterwards he died leaving his wife with five sons, the eldest of whom was only ten years of

It was found that he had wisely taken out a life insurance policy equal to the mortgage he had put on his farm. With the money thus secured, his widow paid off the mortgage and had a free farm with good buildings, on which to support her family. By employing men to work the farm and paying them from the stock and crops raised, she was able to support her family and educate them. At present her five sons are playing an important part in the life of Canada. One is a banker, one a doctor, one a college professor and two are successful business men. Everyone familiar with the case knows that she could not have supported her children and educated them had it not been for the life insurance policy that left her free from debt with a good farm.

If you have a mortgage on your property you will have no trouble in working out the moral of this little story. We have policies to suit your needs whatever they may be. Send us your name and address and we will tell you about them.
