

KUROPATKIN'S LEFT FLANK ROLLED UP; CENTER IS COMPELLED TO FALL BACK; THE JAPANESE ARE IN CLOSE PURSUIT

General Kuroki Swings in North of Kuropatkin and Menaces the Russian Communications.

New Army of the Japs, 10,000 Strong, Advancing From Northeast of Mukden.

Muscovites Hurrying to Shelter of Liao Yang's Walls—May Be Bottled Up.

London, Sept. 1. Today's dispatches indicate that the tide of battle around Liao Yang has turned appreciably in favor of the Japanese. With a tremendous and sustained assault on his right and center, and threatened in his rear by a heavy force which has crossed the Taitse River, Kuropatkin has been forced to fall back from his first line of battle to the fortified position he had established in the town of Liao Yang and its immediate environs. A St. Petersburg dispatch says this order was given last night after the Russians had withstood an artillery and infantry attack from dawn to midnight, but that the Japanese pressure was too great to permit its being executed, Kuropatkin probably feeling that a retrograde movement at that time might result in a rout. A dispatch from Tokio, however, bringing the action up to this afternoon, says the Russian right and

wounded, commanded the artillery brigade. He distinguished himself during the suppression of the Boxer trouble in China. His wound is serious.

Press Man Dead.

Liao Yang, Sept. 1.—M. Kierloff, one of the Associated Press correspondents, who had been following the operations of General Karauvaiev's army, was shot through the lungs while on the firing line south of Liao Yang yesterday.

ST. PETERSBURG ANXIOUS

Think Kuropatkin Will Win But Are Not Too Confident.

St. Petersburg, Sept. 1, 1:37 p.m.—Although General Kuropatkin has had the best of the first two days' battle at Liao Yang, the suspense here is intense over the final issue of the titanic struggle. In view of the number of men and guns engaged, the carnage doubtless will be great on both sides. The best figures now are that half a million of men with about 1,500 guns are fighting for the mastery. The public is so hungry for news from official sources that the failure to give out news last night is interpreted ominously in some quarters, but is explained by the theory that General Kuropatkin is too busy in the midst of the battle to file reports, his reports to the Emperor giving strategic information which cannot be published.

Kuropatkin Falls Back.

St. Petersburg, Sept. 1, 3:25 p.m.—According to official advices from the front the battle at Liao Yang had not resumed up to 6 o'clock this morning. The battle yesterday was of the most desperate character. It raged continually from dawn until midnight and the slaughter must have been immense. At 8 in the evening, after holding his outer positions all day in the face of the most desperate charges, Gen. Kuropatkin gave the order to retire upon the main works about the city. The Japanese assaults during the day had been directed principally against the Russian center, a little east of Meeting Hill, near the railroad, and three miles southwest of Liao Yang. Nothing approaching the severity of the infantry and artillery

General Oku

In command of Japanese forces that compelled Russians to fall back once more.

center is now falling back, pursued by the Japanese.

Russian official advices say that Gen. Kuropatkin was reported yesterday as moving northward on the Russian left has thrown pontoons over the Taitse River, and his crossed with one division, while others are following. Kuropatkin's object obviously is to interpose his force between Liao Yang, the Russian base, and the north, a movement, which, if successful, would cut Kuropatkin's rear and from the railway leading from Liao Yang to Mukden. The withdrawal of the Russian right and center probably will involve a similar movement of the troops holding the extreme left, and result in a concentration of Kuropatkin's army in the positions he has established in Liao Yang. This is said to be superbly fortified with rifle pits, entrenchments and barbed wire entanglements.

Turning Russ Flank.

St. Petersburg, Sept. 1.—The dispatch from St. Petersburg announcing that Gen. Kuropatkin's forces were crossing the Taitse River on pontoons would indicate that the Japanese have either turned or are turning the Russian left flank, as Kuroki is understood to have been on the Russian left flank. A dispatch to the Associated Press from Liao Yang yesterday evening announced that the Japanese were getting round the Russian left flank, and that developments were expected in the west and northeast. This statement now appears to be confirmed, for it is announced from Mukden in a detailed dispatch that a Japanese force of 10,000 men is said to be advancing from the northeast of Mukden. The westward movement has not yet developed, according to the advices to hand, but the announcement probably refers to the Japanese force, which has been moving up the Liao River.

Threatened From North.

Mukden, Aug. 30.—Delayed.—A Japanese force of 10,000 is reported to be advancing from the northeast of Mukden.

Kuroki Crossing Taitse.

St. Petersburg, Sept. 1.—General Kuropatkin's orders to fall back on the fortifications was probably due to the receipt of information that the Japanese had succeeded in crossing the Taitse River, northeast of Liao Yang, although Gen. Karauvaiev's and Mandarlov's divisions had been especially placed in position in this direction to checkmate such a move. The Japanese crossed at a point called Sakankawantun, twenty miles east and somewhat above Liao Yang, and marched in force directly westward with the evident object of cutting the Russian line of communication with Mukden. The actual strength was not established, but a division was made out.

Awful Slaughter.

St. Petersburg, Sept. 1, 2:51 p.m.—The battle at Liao Yang last night continued until midnight with awful slaughter. The Japanese at last succeeded in getting a column across the Taitse River, northeast of Liao Yang, and Gen. Kuropatkin gave the order to fall back on the main works, but owing to the Japanese pressure this movement was not executed. The armies slept in their positions.

Official Advices This Morning, Timed 6 a.m., say the battle had not been resumed at that hour.

Princess Louise HAS DISAPPEARED AT RICHMOND, P. Q.

Fresh Sensation Caused by Special and Express Collide, King Leopold's Daughter.

Thought to Be With Lover J. P. BLANCHET, M. P., KILLED

Leutenant Mattasich Sought Her After Having Being Released From Prison.

Beñin, Sept. 1.—Princess Louise of Coburg, daughter of the King of the Belgians, whose relations with Keglevich Mattasich, the former lieutenant in the Austrian army, caused a great scandal in European royal circles, and who has since been kept under the closest restraint, has vanished from Richmond, where she has been taking the cure. It is presumed that the princess is in the company of a man named Blanchet, who is believed to be a prisoner, and to convey her to the escape of the princess was accomplished in a mysterious and romantic manner. Ladders and a swift automobile were brought into play to effect her escape from Richmond, where she had been immured almost as a prisoner, and to convey her to the escape of the princess was accomplished in a mysterious and romantic manner.

Not the slightest trace of the whereabouts of the princess has been discovered, and nothing is known beyond the fact that the princess and another guest of the hotel, believed to be a man named Blanchet, were seen together with the jewels of the princess and an automobile.

Princess Louise, accompanied by a lady-in-waiting and two physicians, who were her warders, came three weeks ago to Bad Ems, which is noted as a health resort. On account of the long lapse of time since the original scandal, the watch on the princess had become slightly relaxed, but it was made more stringent than ever when it was noticed that efforts to communicate with the princess personally and through the medium of notes were being made.

Nevertheless, arrangements for the flight were successfully completed and the room of the princess was found empty. Various theories as to the destination are afloat, and it is said that orders have been given to watch the princess's movements in London, France and Switzerland.

The escape of the princess with an air of mystery has created almost as great a sensation here and in Dresden and Vienna as did the original scandal. Detailed accounts in the newspapers of her flight overshadow the dispatches from the Far East.

Princess Louise before going to Bad Ems had long been confined to an asylum for nervous diseases at Lindendohr, near Dresden. Mattasich, who was released from prison, was convicted of forgery, expelled from the army and imprisoned, receiving a pardon from Emperor Francis Joseph early this year. Since then he has succeeded in seeing the princess at Lindendohr.

Nan Patterson's Bail

New York, Sept. 1.—Justice Amend, in the summary of his decision, ordered for the release of Nan Patterson, indicted for the murder of Caesar Young at \$20,000. It was said that the necessary amount would be furnished.

Appeal of Shareholders Against Fifty Per Cent Payment Dismissed.

St. Thomas, Sept. 1.—Judge Hughes, official referee of the liquidation proceedings in connection with the winding up of the rights of the company, has given judgment dismissing the appeal of the shareholders, who asked that the company be liquidated and that they be paid up their stock.

They claimed that under the order of service, which they could not be compelled to pay more than 20 per cent of the stock. There will likely be an appeal. The parties interested are D. K. McKenzie, Angus Murray, Elizabeth Calcutt, executors of the estate of J. P. Hackett, Jesse Ann Fraser, executrix of the estate of Alex. Fraser, Alma Washbourne, Marian Genge and Mary Fitzgerald.

Will Fight the Charges.

Windsor, Ont., Sept. 1.—Dr. J. E. Reaume, M. P. P. for North Essex, whose name is mentioned as one of those alleged to have illegally induced French-Canadians to vote for Mr. Campbell, of the Soo, at the last election, declares that while he is not guilty of the charges laid against him by the Liberal party, "I will fight the charge, as they are false from beginning to end. Mr. Reaume said emphatically, "I am innocent of any political corruption."

Mintos at Port Arthur

Port Arthur, Aug. 31.—Lord Minto, was tendered a reception by the citizens of Port Arthur this evening upon the arrival of their special car. A platform had been erected near the Northern Hotel, from which an address was read. The address reminded his Excellency of the time he had passed through Port Arthur in 1855 on his way to the Northwest rebellion, and made comparison with the peaceful and prosperous west of today.

Lord Minto replied briefly. Before the train started, he was presented with flowers by the little daughter of Mayor Claret. The vice-regal party left tonight for Winnipeg en route to the Pacific Coast.

Vice-Regal Party Tendered a Reception by Citizens.

Windsor, Ont., Sept. 1.—Sandford Clemis, son of Robert Clemis, was found dead yesterday near his home, shot through the heart. It is not known how the shooting occurred.

Shot Through Heart

Windsor, Ont., Sept. 1.—The W. J. Pulling Lumber Company, of this city, has issued a writ against the McAllister Bros. Lumber Company, of Coburn Island, claiming \$10,000 for breach of contract. The Pulling Lumber Company claim that they contracted with E. Bergen, agent for McAllister Bros. McAllister Bros. claim their agent was not authorized to make any such deal. This is one of the largest lumber suits ever entered in the Windsor courts.

THE JAPS FALL INTO A DEATH PIT.

St. Petersburg, Sept. 1.—As soon as the Japanese found that the Russians were retiring from the outward positions southward last night they resumed the attack there, although it was then quite dark. Thus pressed the Russians arrested their movement to the rear and are faced today. With the view of eventual retirement from their outer positions, the Russians had dug a large number of pits, with stakes concealed in their bottoms. The pits were artfully concealed among the high Chinese corn. When the Japanese charged after the Russians they fell into the pits in hundreds and were engulfed and impaled on the stakes and their lines were thrown into confusion. When the Russians faced about and returned to their old positions they found these deathtraps filled with dead and dying while the rattle of musketry and boom of cannon continued till midnight when at last silence crept over the bloody field and the tired soldiers laid down where they had fought, the worn-out surgeons and angels of mercy ministered to the wounded all night and the Chinese coolies worked at carrying them into Liao Yang.

Gen. Sakharoff in reporting the battle, says the Japanese suffered enormous losses, much larger than those of the Russians, who also lost heavily.

PRINCESS LOUISE HAS DISAPPEARED AT RICHMOND, P. Q.

Fresh Sensation Caused by Special and Express Collide, King Leopold's Daughter.

STOESSEL AGAIN REPULSES JAPANESE AT PORT ARTHUR

Two Desperate Assaults Made on the 27th Failed the Mikado Losing Over 1,000 Men.

THE RUSSIANS HAVE RECAPTURED FORT ITSHAN

Cho Foo, Aug. 31, 11:30 p.m.—Delayed.—Severe fighting occurred at Port Arthur Aug. 27, when the Japanese moving from Shuishyng, attempted to capture Palungshan, which is south of Shuishyng, and west of the railway. The Japanese made two assaults between dawn and 8 o'clock in the morning. They were repulsed both times. A prisoner places their loss at 1,045 killed and wounded. For one hour a few shells were thrown from Shuishyng into the fort.

The above information was brought here tonight by a Chinaman who speaks excellent Russian, and who was employed at the police station in Port Arthur, which place he left in the evening of Aug. 29. He adds that up to his departure no further attack had been made by the Japanese. He confirmed previous reports that the Russians had recaptured Itshan, where there has been but little fighting recently.

At 4:30, Aug. 31, the Japanese attacked fort No. 6 on the northeast portion of the right flank. This fort is a new and strong one. After three hours fierce fighting, during which the Japanese endured a cross fire from fort 2 the Japanese succeeded in entering the fort.

When the Russians were safely away from fort No. 6, the Japanese flag waved over it, and several forts concentrated their fire on it, and the Japanese were compelled to retire. Heavy firing was heard by Chinese on the night of Aug. 29.

Cho Foo, Aug. 31.—The advanced positions of the Japanese around Port Arthur, are now near fort No. 5 on the east, at Pulungshan on the north and at Hukitson and Yangtowang on the west. Chinese, who left Port Arthur on Aug. 28, say that neither side was occupying fort No. 5. The fort Tung Kiatashan was destroyed by the Japanese, who proceeded to mount guns on an adjoining hill.

The reported presence of Russians in the Itshan Hills has been confirmed. A junk which has arrived here bearing firing at Port Arthur on the morning of Aug. 29.

Stoessel to the Czar.

St. Petersburg, Sept. 1.—The Emperor has received the following from Gen. Stoessel, commander of the Russian troops at Port Arthur, dated Aug. 28, which says:

"The gracious telegrams of your majesty have been received with resounding hurrahs, before the enemy, and have redoubled the strength of the defenders and the heroic spirit of the troops. From Aug. 22 to today, inclusive, all the daily assaults have been repulsed with the help of God."

IRISH MEETING IN AN UPROAR

Some Hot Exchanges at the New York Convention.

THE AMERICAN CONTRIBUTIONS

Members of Committee Accused of Lack of Interest in the Cause—John Redmond's Speech.

New York, Aug. 31.—At the United Irish League convention today Secretary O'Callaghan said that while the league had added materially to its strength, influence and numbers during the past year, he believed that still greater progress could be made in the future.

To accomplish this he believed that in the selection of the national committee only such persons should be chosen as showed a willingness to work energetically in the cause.

The report of Treasurer Fitzpatrick showed that nearly all the States in the Union contributed to the national fund. The money collected since October, 1902, amounted to \$61,652.

There was a warm debate over the question of increasing the national committee from 50 to 100 members. John F. Ryan, of Philadelphia, argued that New York should have any more representation on the national committee than any other state.

He said that the New York branch of the league had not contributed much to the common fund as it ought to have done, considering its size, there being more Irishmen in New York than in the city of Dublin.

He said that the New York State branches have done all in their power to help the cause of the league and that of Ireland.

The amendment that the executive committee be increased from 50 to 100 was defeated by four votes. Those voting against it were 134, and those for it 130.

The platform adopted by the convention, after renewing the pledge of the league's allegiance to the cause of Irish national independence, was as follows:

KAISER AND THE CONGO

Letter State Said To Be Preparing for an Invasion.

Cape Town, Aug. 31.—Official information from British Central Africa says that the Congo Free State is concentrating considerable force on the west shore of Lake Tanganyika, and that one of these forces, which is equipped with 20 guns, is within two hours of the German frontier.

TWO DAYS' FIGHT COST 20,000 MEN

Losses of Russians and Japs Believed To Be Equal.

YESTERDAY'S DESPERATE FIGHT

Japanese Made Attack After Attack, But Kurapatkin Managed to Hold His Positions.

St. Petersburg, Sept. 1, 2 a.m.—With the knowledge that the Russian and Japanese armies about Liao Yang are locked in a death struggle, the tension in St. Petersburg is strained to the utmost. It is believed here that the heat cannot stop short of a decisive defeat of one side or the other. All reports so far are favorable to the Russians, though the suspension of all news for many hours has excited rumors, and has given rise to the earlier enthusiasm, somewhat tempered, however, that the report that the railway and telegraph have been cut north of Liao Yang is untrue. A member of the general staff said at midnight: "I can assure you that up to this hour, communication with Liao Yang has not been interrupted. Gen. Kurapatkin has taken particular precautions against any attempt to cut the railway. While it is always possible that a small raiding party might slip through the Russian patrols or that hired Chinese bandits might cut the telegraph, it is a fair supposition, in view of all the facts, that this has not been done."

The highest military authorities here consider that the most critical stage of the battle has not yet been reached, and they believe that the fight may continue for some time before either side acknowledges defeat. This is an important consideration by the light of which to interpret any immediate news. It is thought here that in view of the numbers engaged, the desperation of the assaults and the length of the line, about seven miles, the losses in two days' fighting cannot fall short of 10,000 on each side. Both sides are straining every nerve, realizing that the scale, and neither side is in the mood of the position to spare men in the effort to achieve a final victory. The battle of Liao Yang will probably rank as one of the greatest sanguinary battles of history. It is estimated by the general staff that the Japanese armies engaged number 17 divisions of 15,000 men each, and there are two independent artillery brigades of 1,000 guns each, making a total of about 3,000 guns. The estimates of Russian losses range from 600 to 1,000 men per side. In the preliminary fighting of Monday the Russians captured 200 prisoners, who have already arrived at Harbin, and report that they captured over 40 Japanese guns yesterday. Gen. Kurapatkin's effective forces are estimated at from 120,000 to 200,000 men. The Japanese on Wednesday morning were attacking against three sides of the Russian position. One correspondent also mentions a Japanese movement to the northeast of Liao Yang. The Japanese are undoubtedly trying to work around Kurapatkin's rear.

One of the surprising phases of the situation is the endurance of the men. They have been fighting desperately for two days, after them or less severe fighting under unfavorable conditions every day since Aug. 24. It would seem that human endurance could not persist much longer without respite of some sort. The Japanese are using balloons to locate the Russian guns and trenches. One Russian correspondent points out that the Japanese sent up a balloon shortly after daylight to the southeast of Liao Yang. The Japanese are reported to be using mortars to drop shells in the Russian positions. These are probably the high-angle fire howitzers, which were reported in action earlier in the week. It is plain, however, that the Japanese are not longer enjoying the superiority in artillery which stood them in such good stead in the earlier months of the war. It was then that the Russian and Japanese mountain batteries, in which arms the Russians were deficient, told with deadly effect. Now the contest is in a comparatively open country, where both the Russian field guns and the Russian cavalry can come into more effective use.

ATTACK AFTER ATTACK

Russians Repulse Three Headlong Charges in Second Day's Battle.

Liao Yang, Aug. 31.—Delayed.—A Russian correspondent of the Associated Press writes the following from the southeast front: "After midday the Japanese concentrated the strength of all their artillery fire against Hill No. 98, and the village of Matsum, endeavoring to break into our left. At the same time they viciously attacked our west line to the right of the hill. "Attack followed attack for three hours. Between 2 and 5 o'clock in the afternoon we repulsed three headlong charges against our line. After this the Japanese, with the strength of all their batteries opened fire along the whole southern front. By this attack, too, was driven back with what seemed tremendous loss, although it was impossible to tell clearly what hap-

pened amid the shell fire and fighting. The roar of siege gun, mortar batteries and mixed volley firing went on till darkness set in.

To the north a storm, accompanied by thunder and lightning broke, while along the front thousands of shells were bursting constantly. It seemed a magnificent display of fireworks begging description.

"As a result of exhausting efforts on the part of the Japanese, our position on the eastern front is becoming strenuous."

Liao Yang, Aug. 31, 4:24 p.m.—The battle was resumed today with rifle fire at dawn, in the southwest. There was desultory firing all night. The last attack of the Japanese yesterday was made at 7 p.m., on the Feng Wang Cheng road.

6:36 a.m.—The battle was resumed this morning earlier than it began yesterday. With the rifle fire at dawn the artillery opened and the firing line extended along the entire front. The rain ceased during the night and day broke bright and clear. The heat entered the fight confident of victory. As this dispatch is being written the Japanese are attempting to reach it at dawn. The Russians made repeated bayonet advances on the road directly south of Liao Yang, where the Japanese approached the Sanguishan and Tiao, shelling the positions in the Russian lines until 4 in the afternoon. The Japanese advanced on the southeast, through the main line. The Japanese advanced on the southeast, through the main line. The Japanese advanced on the southeast, through the main line.

The highest military authorities here consider that the most critical stage of the battle has not yet been reached, and they believe that the fight may continue for some time before either side acknowledges defeat. This is an important consideration by the light of which to interpret any immediate news. It is thought here that in view of the numbers engaged, the desperation of the assaults and the length of the line, about seven miles, the losses in two days' fighting cannot fall short of 10,000 on each side. Both sides are straining every nerve, realizing that the scale, and neither side is in the mood of the position to spare men in the effort to achieve a final victory. The battle of Liao Yang will probably rank as one of the greatest sanguinary battles of history. It is estimated by the general staff that the Japanese armies engaged number 17 divisions of 15,000 men each, and there are two independent artillery brigades of 1,000 guns each, making a total of about 3,000 guns. The estimates of Russian losses range from 600 to 1,000 men per side. In the preliminary fighting of Monday the Russians captured 200 prisoners, who have already arrived at Harbin, and report that they captured over 40 Japanese guns yesterday. Gen. Kurapatkin's effective forces are estimated at from 120,000 to 200,000 men. The Japanese on Wednesday morning were attacking against three sides of the Russian position. One correspondent also mentions a Japanese movement to the northeast of Liao Yang. The Japanese are undoubtedly trying to work around Kurapatkin's rear.

5:31 p.m.—The battle is still in progress, but the strength of the cannonade does not exceed that of yesterday. The Japanese are getting around the Russian left flank. Over 500,000 rounds of ammunition have been expended on both sides. Practically the whole Russian force is on the firing line, especially where the Japanese are engaged. The Russian force is on the firing line, especially where the Japanese are engaged. The Russian force is on the firing line, especially where the Japanese are engaged.

The Baltic Fleet.

St. Petersburg, Aug. 31, 4:10 p.m.—It is stated authoritatively that there has been no change of plans regarding the Baltic squadron on account of the result of the sea fight off Port Arthur, Aug. 10. The maneuvering and firing trials of the ships have been completely successful, and the squadron has now returned to Cronstadt to await the finishing touches on the battleship Orel and the cruisers Oleg, Izumrud and Jemchug.

Gold for Korea.

Chefoo, Aug. 31.—The steamship Independent, under charter to the Osaka Steamship Company, to carry food from Japan to New Chang, has been held here by the Chefoo commissioner of customs, who claims that if the steamship is allowed to depart the neutrality of China will be violated. The Japanese referred the matter to the Japanese minister at Peking. The commissioner has referred the case to Sir Robert Hart, chief of the Chinese marine customs service, whose ruling will establish a precedent. It is believed that the Independent carried \$500,000 for Gen. Kuroki's army. A Japanese torpedo boat destroyer arrived here last night at 10 o'clock, having come over at high speed from Port Dalry, and at once took on board all the money on the Independent with the exception of \$15,000. The destroyer then left.

A MEDICINE FOR THE MINER'S PACK.

Miners and prospectors and others going to the mining regions where doctors are scarce and drug stores are few, should provide themselves with a supply of Dr. Thomas' Electric Oil. It will offset the heat of the sun, reduce sprains, and when taken internally will prevent and cure colic and severe throat, and as a lubricant will keep the muscles in good condition.

THE LABOR DEMONSTRATION ON MONDAY WILL BE A BIG AFFAIR

Every Union in the City To Be in the Procession—The Day at Queen's Park.

Unless all signs fail the demonstration to be held by the labor unions of the city on Monday next will be one of the biggest ever witnessed in London. Organized labor will be out in full strength, which means that Queen's Park will be the headquarters for a great throng. Every arrangement is completed for the day. The unions will assemble on the market square at 12:30 o'clock sharp, and accompanied by the Seventh and Twenty-sixth Regiment Bands, will parade to Queen's Park (via Talbot and Dundas streets), where the programme of sports is to follow an address of welcome by Mr. Charles Meaden, president of the local Trades and Labor Council. The evening programme will include a variety of entertainments, including a play, a comedy, and a musical. The day's programme will be under the direction of the Trades and Labor Council, with Mr. Charles Meaden as chairman and Mr. W. Spence as secretary.

NEW ENGINES COMING

G. T. R. Motive Power Equipment To Be Improved This Week.

The motive power equipment on the middle division of the Grand Trunk is to be greatly improved this week by the arrival of the new engines. The new engines are of the type of the large 900 class locomotives that have been in use on the G. T. R. for several years past, but they are said to include a number of improvements. They were turned out by the shops at Montreal. When the new engines are all in use, several of the 900 class moguls, it is said, will be placed in the service on the old line between Montreal and Windsor, and on the Toronto branch, where the passenger engines, for the most part, are now used. In many instances scarcely able to haul trains on their schedule time. The new engines will be used on Toronto branches have been strengthened in order that the heaviest engines may cross them with safety.

ONLY FLEAS

And Only Two of 'em, But Barber Expects \$5,000 for Them.

Tacoma, Wash., Sept. 1.—A. M. Barber expects to receive \$5,000 from Baron Rothschild for a pair of Siberian fleas which he secured from the back of a Russian prisoner captured near East Cape, Siberia. It is said that Rothschild has every kind of a flea market, and is a specialist in the Siberian flea. He has a large collection of fleas, and is a specialist in the Siberian flea. He has a large collection of fleas, and is a specialist in the Siberian flea.

FOUND HAT AND COAT

All That Was Left of Victim of a Dynamite Explosion.

Upper Sandusky, Ohio, Sept. 1.—Monday afternoon Ernest Webber, aged 40, of Marselles, went to work with a horse and buggy to bring back a load of dynamite which he had intended to blow up a stump. At 7:30 the next night a terrific explosion took place in the vicinity of the farm. No one knew what caused it. The dynamite was found in a box in the barn. The explosion was so powerful that it blew the dynamite into the air. The explosion was so powerful that it blew the dynamite into the air. The explosion was so powerful that it blew the dynamite into the air.

OAK HALL—"The Home of Good Clothing."

A Good Dresser Wants "Life" In His Clothes. OUR YOUNG MEN'S SUITS FOR FALL ARE FULL OF LIFE! LOTS of men wear "dead" clothes and don't know it. The life of a suit is that dash in the cut, curves and kinks of its makeup that at once stamps its wearer as a well dressed man. We charge no more for "suit excellence" than other clothiers charge for "just clothes." Our Fall Suits are now ready. Twelve cases of the swellest things you've ever seen in men's, young men's and boys' wearables have arrived from our factory during the last few days, and our salesmen have been as busy as nailers getting them in shape for your inspection. We trust you won't mind if we nudge you gently and say to you that it's high time you were thinking about that new fall suit. We shall be pleased to assist you in making your selection, and we shall be looking for you every day now.

RAILWAY WRECK AT RICHMOND, P. Q.

Continued From Page 1. Montreal, Col. A. Deblis, St. Hyacinthe, P. Q., Sept. 1.—The railway wreck at Richmond, P. Q., on Sunday, Sept. 29, has been investigated by a committee of the G. T. R. The committee has reported that the accident was caused by a defective brake on the engine. The engine was a 900 class locomotive, and was pulling a train of passenger cars. The train was traveling at a speed of 40 miles per hour when the accident occurred. The engine derailed, and the train cars were scattered over a large area. The accident resulted in the death of several people and the injury of many others. The committee has recommended that the G. T. R. should take steps to improve the safety of its trains.

CATARRHOZE

Does It Really Cure Catarrh? Yes, it cures so the disease never returns. There is living proof of this in the thousands of men who have been cured by Catarrhoze. The medicine is so simple and so effective that it can be used by anyone. It is a natural remedy, and it is so easy to use that it can be used by anyone. It is a natural remedy, and it is so easy to use that it can be used by anyone.

Stanley as a Leader.

I do not intend to eulogize my old chief, for eulogies are seldom convincing. He had many faults, and some of them even were grave ones, but they were, I think, chiefly the faults of his qualities, and they were not faults that he would not probably have possessed of some of the great qualities which made him so successful in almost everything that he undertook. His faults were not faults of character, but they were faults of judgment. He was a man of great energy and great courage, and he was a man of great ability. He was a man of great energy and great courage, and he was a man of great ability.

REVENUE DECREASED

Customs Collections for August Not So Great as a Year Ago.

There was a decrease in the customs revenue during August, from that of August last year, from London. The revenue for the month just closed was \$7,493.27, while in August, 1903, it was \$7,521.41, or \$27.14 more.

Collector Burns said this morning that this was no doubt accounted for the earlier buying that took place this year, there being an amount of about \$20,000 in July over the same month last year.

BUSINESS BRISK AT POLICE COURT

Busier Times Than in 1903, According to Clerk Moule's Official Returns.

During the eight months ended Aug. 31, there were about 160 more cases at the Carling street police court than there were during the same period of 1903. The clerk, Mr. Moule, who always has his work up to the day, had the statistics ready this morning for the quarter ending yesterday.

This means that all the convictions had been neatly entered from the conviction papers, and the court record and the copies made for Osgoode Hall and the county crown attorney.

During the quarter, there were 163 summary convictions for non-indictable offenses, including drunkenness, disorderly conduct, assault, keeping disorderly houses, breaches of the liquor license and apprentice acts, breaches of city bylaws and such offenses. This is 20 more than during the corresponding quarter of last year, when there were 145 summary convictions.

WAS A VERY SICK BOY But Cured By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

"When my boy was two years old he had a very severe attack of bowel complaint, but by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy he was brought out all right," says Maggie Hickox, of Midland, Mich. The remedy can be depended upon in the most severe cases. Even cholera infantum is cured by it. Follow the plain printed directions and a cure is certain. For sale by all druggists.

WILL SUE THE PERE MARQUETTE

Wm. Burris Asks Damages for Injuries Received While Riding on a Train.

Mr. R. M. C. Totho, on behalf of William Burris, of this city, has issued a writ against the Pere Marquette Railway, claiming unstated damages for injuries alleged to have been received by Burris while riding on the platform of a car near Port Stanley.

Burris claims there was insufficient accommodation for the passengers, and that as a result he was crowded off the car and suffered with motion, suffering severe injuries to his foot and leg. The accident happened some weeks ago and Burris is still a patient at Victoria Hospital.

He claims that the company has been negligent, and he asks damages as stated.

ALL MEMBERS NOT INTERESTED

Only Two Aldermen Attend the Meeting of the Fire and Light Committee.

The market, fire and light committee of the city council was to have held a meeting last night, but a quorum failed to appear in an appearance, only Chairman Matthews and Ald. Garratt being present.

Under the circumstances, nothing was done beyond the passing of the accounts. Ex-convict Crawford and his solicitor, Mr. R. M. C. Totho, were present, but the Crawford case was not dealt with. The chairman, ordered Secretary Bell to notify No. 1 committee that No. 3 committee wants five of the two fire engines which the city is entitled under the recently signed agreement with the Bell Telephone Company. One of these engines will be placed in the store of Charles Rowland, on Forward avenue, West London, so that it may be used for fire alarm purposes as well as police and hospital uses. It is also suggested that the phone be made a public one, and that the Bell company temporarily collect whatever revenue it brings in. To put up an alarm box would cost the city fully \$500, so that even if the city had to pay \$15 a year for a phone, it would be money in pocket.

LOOKS LIKE A WAR

Honduras Concentrating Troops on the Nicaraguan Frontier.

New Orleans, Sept. 1.—The troops of the Republic of Honduras are being sent to the Nicaraguan frontier in expectation of a serious conflict between the two republics. The Honduras army is concentrating on the border of the Segovia River. For several years the Nicaraguan government has been endeavoring to take possession of the latter state, and now Nicaragua occupies a strip of land fifteen miles in length and eight miles in width. The Hondurans are claiming the true boundary.

Near a year ago the Nicaraguan Government granted to the Hondurans a concession of European capitalists, a concession comprising the entire province of the districts of Cape Gracias and Nueva America, about 200 miles in length, and 100 miles in width. The Hondurans are claiming the concession, for which the American company paid \$100,000 to Nicaragua. The Hondurans and the latter government is now dispatching troops to the frontier.

It is understood that as soon as President Bonilla acts enough solidly to permit the Hondurans to demand an immediate settlement of the boundary question, and if refused will attack the Hondurans, the Hondurans will be ready to meet them. The Hondurans are claiming the concession, for which the American company paid \$100,000 to Nicaragua. The Hondurans and the latter government is now dispatching troops to the frontier.

LASSOED IN HIS CELL

Novelty in the Lynching Line—Two Negroes Put to Death.

Welman, Texas, Sept. 1.—An investigation is to be made of the mysterious lynching of a negro boy, Oscar Lee Tucker, which took place in the county jail here last evening.

While the sheriff was absent from the jail, four men entered the building with a rope, with which they lassoed the negro around the neck through a window of his cell. The rope was then drawn through the window until the negro was suspended in the air and strangled to death.

The lynching was done so quietly that no one in town knew of it until the officers went to the cell to bring the prisoner out for his preliminary trial. The prisoner was charged with attempted assault upon the daughter of a white farmer who lives near here.

Hickman, Ky., Sept. 1.—Joe Bumpas, a negro, was lynched here at 1 o'clock yesterday morning for assault on a young girl, a 15-year-old white girl. The assault was committed early yesterday afternoon as the girl was driving through a street near her father's farmhands to the scene where she was captured.

Bumpas was placed in jail and at 12:30 o'clock this morning the sheriff was awakened by two men. He agreed to surrender the keys of the jail if the lynchers would go through with their work quietly. This was agreed to.

A rope was placed into the negro's neck and he was dragged to the river. He was then put into a skiff, which was rowed to midstream. There he was thrown overboard. He came to the surface once and was struck on the head with an oar.

The whole thing was conducted so quietly that no one except the sheriff and the other participants were aware of it until this morning.

Sleep is said to be better and no one seems to know it healthier than the "hard" life.

The girl who is the most popular with men in general is apt to make one man miserable for life.

MAN WEIGHS SUN'S CORONA

Swiss Astronomer Solves the Light Puzzle AND SETTLES SOLAR QUESTION

Says the Sunshine Is Due to the Radiation From Minute Dust Particles.

San Francisco, Sept. 1.—The sun's corona, or surrounding luminous field, weighs about 25,000,000 tons, according to Professor August Svante Arrhenius, of the University of Stockholm, who has just visited the Lick Observatory at Mount Hamilton.

Professor Arrhenius made extensive solar observations. Professor Arrhenius' scales for weighing this enormous mass were the atmosphere's temperature and the telescope. He and other astronomers at the observatory were surprised that the temperature is shown to be so exceedingly light, considering that it occupies a space several million miles in diameter.

Besides computing the weight of the corona, Professor Arrhenius has settled other great problems that long have puzzled astronomers. One of these is the source of the coronal light, over which two schools of astronomy disagreed.

Professor W. W. Campbell, director of the Lick Observatory, and Mr. Perrine, his assistant, held that the light of the inner portion of the corona is due to the radiation from minute dust particles maintained at a temperature of incandescence by the enormous heat of the adjacent solar surface. The light from the outer corona is composed mainly of sunlight reflected by the colder dust particles composing this part of the corona. These conclusions were based on the character of the spectrum of the corona.

On the other hand, observers of the Smithsonian institution measured the quantity of heat from the corona and were surprised to find that even in the immediate proximity of the solar surface the temperature was not so high as the view that the main source of light from the corona is the incandescence of its particles, but that the radiations are in the nature of an electrical discharge.

Professor Arrhenius has harmonized the results of all previous observations by showing that the minute dust particles in the coronal region must be at a temperature of 800 degrees Fahrenheit, and therefore, must be radiating light by virtue of their incandescence, but the particles are so few and far between that the effective temperature observed is not the temperature of the particles themselves, but the average temperature for the incandescent particles. He assumes that the corona is only one minute dust particle for each fifteen cubic yards of space.

BOY SAVES BOY'S LIFE

Gifts for Reward All His Little Chum Has, One Cent.

Franklin, N. H., Sept. 1.—Ray Martin, aged 7 years, and his younger brother, 9 years, were playing near a well at Danbury, and the Martin boy fell in. The well is eight feet deep and contains four and a half feet of water. Young Perkins, instead of running away, stooped down into the well on to a stone, and when the younger boy came to the surface pulled him out.

Young Martin was taken home and cared for and his mother told him that he must always be kind to the little playmate who saved his life. The boy cut a pocket and put in the reward and produced all he had, one cent, which he handed over to his chum as a reward.

EDITOR OVERBOARD

Mystery Surrounding Death of a Writer in English Channel.

London, Sept. 1.—C. B. Shearer, of Kingsbridge, New York, editor of two magazines of New York, either fell or jumped overboard from the steamer of Prince Albert, midway between Ostend and Dover, at about 5 o'clock in the evening of Aug. 30. His mysterious disappearance recalling that of Frederick Kent Loomis, was reported on the steamer of the United States of America, on the way, of 103 Dean street, Brooklyn, in whose care Mr. Shearer was making a tour of Europe.

Mr. Shearer seemed to have been much improved by his trip, and he would have been in his usual health. Mr. Shearer's heavy baggage was shipped from Trieste to Liverpool some days ago, for shipment to New York on the Cunard line steamer Aurania, Sept. 6.

WORRELL CHOSEN

Kingston Archdeacon Chosen for the Nova Scotia Bishopric.

Halifax, Aug. 31.—The Anglican Synod of Nova Scotia reassembled here today. The morning session was occupied considering names offered for the nomination of bishop.

Archdeacon Worrell, of Kingston, Ont., was elected bishop of Nova Scotia, and has accepted of the nomination. Rev. Clarence Lamb Worrell, M.A., D.D., elected bishop of Nova Scotia, is the son of Canon Worrell, of Oakville, Ont. He was born in Smith's Falls, Ont., 21 years ago. After his college course he entered the profession of teaching, and was principal of the Collegiate Institute of Brockville, in 1881 he entered the church and was ordained a priest in 1884. He was located at Gannaqueo, Brockville, Mordecai, and is at present the rector of St. Luke's Church, Kingston.

He was appointed archdeacon of Kingston in 1891, and is professor of English in the Royal Military College. He is a man of fine address and presence, and is highly regarded here, both for his scholarship and eminent Christian virtues. He is married to a daughter of the late Surgeon-General Ward, F. C. S., late inspector-general of hospitals, Bombay, and they have four children, three daughters and one son.

Mr. C. S. late inspector-general of hospitals, Bombay, and they have four children, three daughters and one son. At the time of the vacancy in the diocese of Ontario he came within one vote of being elected bishop of that diocese.

Perhaps the plot of a play is allowed to thicken so it can't leak out.

The longer you anticipate a pleasure the less you will enjoy it when it comes.

WOODS' FAIR--Grand School Supply Opening.

We have gathered together a wonderful assortment in all the necessities for school opening, besides a great many novelties in supplies, to make work easier for the boys and girls. Our prices are lower than the regular book stores. Come early.

SEE OUR SCHOOL SUPPLY WINDOW. Part I, Reader . . . 9c Arithmetic . . . 24c Geography . . . 74c Part II, Reader . . . 14c Grammar . . . 24c Dictionary . . . 10c Second Reader . . . 19c Physiology . . . 24c Copy Books . . . 7c Third Reader . . . 20c Speller . . . 24c Drawing Books . . . 5c Fourth Reader . . . 25c History . . . 20c Slates, 5c, 7c, 10c, 15c Ask for Our Special Offer With All School Supplies.

GRAND OFFER IN SCHOOL CRAYONS. 300 large packets of best quality School Crayons, in 28 different colors, all pointed and ready for use; regular price 8c, school opening price 5c 500 large card boxes of four-inch Crayons, 25 different colors in each box, made of finest grade, all pointed, regular 15c, school opening price 10c Big Line of Compasses, 10c, 15c, 25c—Ask to See Them.

We are showing exceptional value in Scriblers, Exercise Books, Dictation Books, Note Books, Colossus Books, Rubbers, Pens, Pencils, Boxes, Holders, Drawing Pencils and other lines. Ask for Our Special Offer With All School Supplies.

WHO KNOWS ANYTHING ABOUT "BANNIGER"? All Buyers, Sellers and Users of EDDY'S IMPERVIOUS SHEATHING PAPER ARE INTERESTED IN THIS QUESTION

Will every reader of this inquiry "Who Knows Anything About "BANNIGER" Please drop a line on the subject to THE E. B. EDDY COMPANY, HULL, CANADA.

MAHAFFY MUST REAPPEAR DIED POR PATIENT

Conservative M. P. P. Ignored Adjournment by Special Examiner.

Toronto, Aug. 31.—Mr. Justice Ouder today granted an order for the resumption of Mr. A. Mahaffy's trial, P. P., on the evening of the election trial, Sept. 6, at Brantford, for further examination of the evidence.

Beatson made the application at Osgoode Hall on behalf of the Liberal Association of Ontario, on the ground that further information is necessary concerning entries in respondent's bank book and his bank vouchers. Mr. Mahaffy ignored the adjournment made by the special examiner, hence the order was made for the court. An order was also made for the examination on Monday next before the examining registrar at Huntsville, of Robert Hall, a farmer, of Chateaufort Township. It is claimed that Hall received \$10 for his vote from one of the agents of the Conservative candidate.

ON FIRE IN MIDAIR

Performer Almost Burns to Death 30 Feet Above Spectators.

New Haven, Conn., Sept. 1.—H. J. Crosskey, who is advertised as the "Human Torch" for exhibitions at a local summer resort, played the part in a local summer resort, played the part in a local summer resort, played the part in a local summer resort.

Never Squeeze Your Cornea

With tight boots, remove them patiently with Pullman's Corn Extractor. It does the trick in 25 hours; never causes pain, doesn't leave sore behind either. Swift, sure and absolutely painless. Use only Pullman's.

Kisses may not be intoxicating, but they drive some men to drink. The more manly a man tries to appear the less he seems to enjoy life.

SHOES \$1.25 to \$2.00 for Men's Working Shoes. \$1.50 to \$2.50 for Men's Fine Shoes. \$1.50 to \$2.50 for Women's Fine Shoes. These are fair samples. CALL AND SEE US.

Wm. Paxman, 347 Clarence Street. CALL AND SEE US. Ice Cream Freezers, REFRIGERATORS, ETC. Purvance work and jobbing a specialty. Agent for Sewel gas ranges. H. J. BOYD, 225 Dundas St. Phone 498.
