MANHOOD & WOMANHOOD

— AND —

**Their Mutual Relations, Considered from the Stand-
points of Physiology, Psychology, and Com-
mon Sense Philosophy.**

By Prof. O. S. Fowler,

The name of the author is a sufficient recommendation. There is scarcely a question concerning the most serious duties of life which is not fully and satisfactorily answered in this book. Such a work has long been needed and will be found invaluable to every man and woman who has arrived at the years of discretion.

The volume contains 1065 pages, in royal octavo, is embellished with numerous engravings, printed on fine paper and substantially bound. Price \$5.00 and \$6.00, according to binding.

PREFACE.

The publishers, in presenting this their first edition of the City of Kingston and County of Frontenac directory, desire to state that the object, which they trust has been attained, is to provide a work as complete and accurate as compilations of this kind can be. The postal addresses of the farmers and the residents of the county, now for the first time published in this form, will, we are certain, prove especially useful. We beg to return our thanks to the Clerks of the several Municipalities and Postmasters for their kindness in providing us with valuable information.

THE CITY OF KINGSTON.

The fifth City in Ontario in population, is situated at the head of the St. Lawrence River and the end of Lake Ontario. It is the principal port for lake navigation in Ontario possessing the largest and finest harbour in the country. It is a station of the Grand Trunk Railway, and the head quarters of the Kingston and Pembroke Railway. The Public Buildings are very beautiful, the City Hall (the finest one in the Province) the Court House, Post Office, Custom House, Queen's University and College, the Churches and a number of business blocks and private residences. At the Western boundary is located the Kingston Penitentiary and about a mile west of it the Kingston Asylum for the Insane; opposite the city is the Royal Canadian Military College, and Garden and Wolfe Islands. Kingston is a military as well as naval city. Here is stationed 'B' Battery and a troop of cavalry, besides a local troop, a battery, and the 14th Prince of Wales' Own Rifles. The principal business streets are Princess, and parts of Wellington, Bagot, Clarence, Ontario, Brock, Market Square, Montreal, Queen etc., all connected by the Kingston Street Railway. There are two Daily Papers published, *The British Whig*, and the *Daily News*, both papers having weekly editions also. The city returns one member for the Dominion Parliament, Mr. Alex. Gunn, and one for the Local House, Mr. James H. Metcalfe. Kingston enjoys the proud position of being the soundest city financially, its merchants being considered the most prudent and safest men to deal with. The Limestone City, as it is sometimes called, is also the cleanest and healthiest city in Ontario, being built on the solid rock. A new Union Station is about to be built which will greatly add to the city's prosperity, and Kingston bids at no distant date to be one of the foremost cities of the Province. Kingston is distant from Toronto 161 miles, Montreal 172, Quebec 844, Ottawa 95, Hamilton 200, London (Ont.) 276, Detroit 386, St. John, N. B., 752, Halifax 828, and Liverpool 2414 miles. Population 15,000; with suburbs of Portsmouth, Barriefield and Garden Island, 17,500.

THE DENTAPHONE.

A recent Scientific Invention, by means of which the deaf hear from the teeth. The sound vibrations are conveyed through the bones of the face and head by new channels to the nerves of hearing.

It consists of a thin flexible diaphragm, and weighs but a few ounces, can be folded and carried like a fan; which it resembles.

EXTRACTS FROM THE PRESS.

FROM THE REV. ISAAC ERRETT,

Editor of *Christian Standard*.

The Dentaphone is all that it claims to be.

February 20th, 1883.

It was found that the deaf, and partially deaf, could readily hear anything spoken in the room in an ordinary tone of voice.

Pittsburg Presbyterian Banner, Pa.

So carefully has the instrument been tested and so reliable is it in its effects that a man totally deaf for 40 years, was enabled by its aid to hear distinctly.

New York Christian Observer.

The efficacy of the Dentaphone is beyond all question, and it has the unqualified endorsement of leading journals in whose offices experiments and tests were conducted.

FRANK LESLIE'S,

Illustrated Weekly Journal,

The folding fan Dentaphone, is without doubt the best known form of apparatus for conveying sound to the auditory nerve.

The Medical and Surgical Reporter, Philadelphia, Pa.

I have no doubt that the Dentaphone will in time supersede every form of that very inconvenient instrument, the ear trumpet, and I believe aurists can make use of it in diagnosis of disease of the ear.

W. A. RATTACK, M.D.,

Prof. Pathology and Surgery, Cincinnati Medical College.

I have been partially deaf for six years. I find the Dentaphone of great value. I unhesitatingly recommend it to those similarly effected.

REV. FATHER J. H. BURWINKEL, Cincinnati, O.

My Daughter has been 22 years deaf. She finds it of great service in church, and values it very highly and hardly knows how she would get along without.

JAMES E. HUTT, Fenwick, Ont.

There are two sizes of this instrument. The ordinary conversational, \$12.00. The Concert and Lecture, extra power, \$18.00.

EDUCATIONAL.

QUEEN'S UNIVERSITY AND COLLEGE.

This institution, one of the oldest and most celebrated in Canada, is situated in the west end of the city, the grounds being bounded by Union, Arch, Stuart and Gordon streets. The houses of the Principal and Professors command a fine view of Lake Ontario and the surrounding country. The college buildings are new, handsome and substantial. The Astronomical Observatory of the institution was founded in 1855, and was deeded to the University in 1861. It contains an equatorial by Mr. Alvan Clarke, with an object glass 6½ inches aperture, a small transit by Troughton & Simms, and an astronomical clock constructed by the assistant observer; also the Beaufoy transit, lent by the Royal Astronomical Society, England, a reflecting telescope by Mr. Short, with a speculum of 7½ inches in diameter, and a reflecting telescope. It is in charge of the veteran Professor Williamson, who is as enthusiastic as ever in the pursuit of knowledge in this line of investigation, and practical astronomy will now be taught to those students who may so desire.

The library contains over 17,000 volumes, and receives considerable additions annually. Donations are sent to it from all quarters. The museum is varied and extensive. Its mineralogical and palæontological collections are particularly valuable.

Queen's College was incorporated with the style and privileges of a University by a Royal Charter, dated October 16th, 1841. A complete curriculum of study leads to the degrees in Arts of B.A., B.Sc., D.Sc., and M.A.; in Theology, of B.D.; and in Medicine, of M.D. These degrees are conferred on those who have gone through the required curriculum and passed the prescribed examinations. The Senate, however, is empowered to confer, besides these, the Honorary Degrees of D.D. and LL.D., for literary, scientific or professional distinction.

It is the desire of the Trustees to attain the highest efficiency in all departments of a University course. Large additions are being made to the equipment of the teaching department in the scientific branches. The Physical and Chemical Laboratories will be better furnished, and especial attention will hereafter be given to practical training in these matters so important to the growth and development of our young country. The addition of a new Professor in Theology will make that department more complete than heretofore.

The Session in Arts begins on the first Wednesday of October, and closes on the last Thursday of April; the session in Theology begins on the first Monday of November, and closes at the same time as the Arts session. There are twenty-three scholarships in Arts and seventeen in Theology, ranging in value from \$32 to \$100, only three of which are below \$50. There are nine University prizes, none of which is under \$25, and four gold medals.

Chancellor, Sandford Fleming, C.E., C.M.G.; Principal and Vice-Chancellor, Very Rev. George Monro Grant, M.A., D.D.; Vice Principal, Rev. James Williamson, M.A., LL.D.; Registrar, Rev. George Bell, LL.D.

COUNTY

—OF—

FRONTENAC.

This County is bounded on the north by Renfrew, on the south by the River St. Lawrence, on the east by Lanark and Leeds, on the west by Hastings, and on the south-west by Lennox. It consists of the Townships of Barrie, Bedford, Clarendon & Miller, Hinchinbrooke, Howe Island, Kennebec, Kingston, Loughboro, Olden, Oso, Palmerton and North and South Canoto, Pittsburg, Portland, Storrington, Wolfe Island, and the incorporated Villages of Portsmouth and Garden Island.

The County of Frontenac was named after the founder of the first settlement in Upper Canada, Count de Frontenac, who built a fort on the banks of the Cataraqui in July, 1678.

In 1674 De la Salle obtained from Louis XIV., King of France, the fort and four leagues of land along the border of Lake Frontenac (Ontario), the two islands in front, and the interjacent islands. On the 27th of August, 1768, Colonel Bradstreet took possession, and from that date commenced the British rule. In 1784 the U. E. Loyalists commenced to settle in this County. The first settler was Captain Grass, who took up land in Kingston Township. After the war of 1812 Sir John Johnson selected the shores of the Bay of Quinte and vicinity for discharged soldiers and others, who settled here in large numbers. The County includes every variety of land, and is rich in minerals. The back townships are now open for settlement, and, with the extension of the Kingston and Pembroke Railway, the County will in the course of a few years have a much larger population than at present. Number of acres about 600,000; population about 16,000.
