

LISTOWEL STANDARD.

FRIDAY, MARCH 15, 1878.

Last week we published a brief account of the high-handed proceeding which the partisan Lieutenant-Governor of Quebec, Letellier de St. Just, had taken upon himself, namely, the dismissal of his ministers, and nominating M. Joly, chief of the liberal party, to form a new administration. Such an action towards a Government who enjoyed the confidence of the people and who were largely in the majority in the House, very naturally caused great excitement and called for immediate and full explanation. St. Just has since promulgated his reasons, such as they are; but the Government's not choosing to accept his advice in regard to certain legislative measures does not justify a violation of the constitutional liberties of the people. In thus exercising the prerogative of the Crown, the Lieutenant-Governor of Quebec has assumed an autocratic power which savors much stronger of the dark ages than of the enlightened liberty of the present day. Even had the provocation been as great as the most virulent opponent of the DeBoucherville Government chooses to assert, the conduct of the representative of the Crown remains highly questionable; but with the facts of the case before us, Mr. St. Just's recent connection with the Mackenzie administration and his partisan bias, the real cause for this breach of constitutional rights can be traced to political intrigue. It has every semblance of being a plot instigated at Ottawa to oust the choice of the people and throw the reins of the government in the hands of the liberals during the exigency of a general election.

LEBANON. SUDDEN DEATH.—A very sudden death occurred here on Sunday night last. The wife of Mr. John Love died within two hours after giving birth to a child. Mr. Love has lost a good partner in life, and one who will be greatly missed in his family of six small children.

LOCAL PROPHECY.—This is the season of mid. All the weather prophets around here have been astray, with the exception of friend Marks, who last fall forecast a very mild winter. His reason therefor was that when the sun crossed the line the wind was in the south. He had been borne out in his prognostication, though for a time he had to stand the jeers of the incredulous.

ENTERTAINMENT.—Mr. Bopp gave his friends and acquaintances a grand ball and supper at the Commercial Hotel, on Friday last. Mr. J. Chirry had the management, and of course everything went off well. Fodder is plentiful, if times are hard and money scarce. Hay and grain are selling cheap.

CARTHAGE. For the traveller approaches this lively little village from a southern direction, the first building that comes to his view is the "Forest Home," a famous resort for good Templars. It is here where the youthful minds are trained to detect the intoxicating cup, and where they find a place of safety from the temptations and snares set out by the hotel-keepers, the moderate drinkers and the drunkard. Some of our citizens, who are foes to temperance, say that Forest Home is only a counting school; they not only say this, but hold it as one of their strongest arguments against the existence of such a society. Now without disputing them on this point (although I could conscientiously do so) I would say that it is not a wrong place for such a thing to be carried on. It is a thing that must be done, and will be done as long as young men and young women are in existence; and if conducted honorably, a temperance hall is as fit a place for it to be carried on in as any other place. But this is getting away from the subject. After passing Forest Home, to his left he will be held in the sawmill and gristmill owned by Mr. J. A. Moore. Continuing on, he comes to Mr. Detrich's tailor-shop; this is the place to go to if you want a neat fitting suit. Next he comes to the street from the Commercial Hotel; across the street from this shop is Mr. Robert Barker's general store, shoe shop, and hardware store. Mr. Barker is an extensive merchant our village supports. Next to Mr. Barker's he will find the blacksmith shop owned by Mr. Armstrong. Further on he will see the residence of Mr. Junker's wagon shop. Still pursuing his journey northward, he comes to the Commercial Hotel, conducted by Mr. T. C. Smith. This is the place where he will find his weary limbs, and a chance to dispose of his money. I might here remark that this, it is said, is one of the best places to stop in the country. Any traveller has been refreshed, he again continues his journey; across the street north from the Commercial he will find Mr. J. A. Moore's residence, the "Forest Home." As our traveller has got through the business part of the renowned city of Carthage, he now goes on his way rejoicing.

The new Quebec Cabinet is composed as follows: Hon. Mr. Joly, Premier, Commissioner of Agriculture and Public Works; Hon. D. A. Ross, Attorney-General; Hon. Pierre Bachand, Treasurer; Hon. G. F. Marchand, Provincial Secretary; Hon. Francois Langelier, Commissioner of Crown Lands; Hon. H. Starnes, President of the Council; Hon. Alex. Chabreau, Solicitor-General. The above named gentlemen were sworn in on Friday last. On the same day a motion embodying a want of confidence in the new Ministry was carried in the House by a majority of 32 to 12. The Assembly was prorogued on Saturday. We have been issued for the election of members of the new Cabinet, and it is probable that the general elections will take place in May.

MEETINGS OF CONSERVATIVE ASSOCIATIONS continue to be held in all parts of the country. At Brampton last week a large convention took place, and sterling addresses on the political aspect were made by Nicholas Flood Davin and other popular representatives of the party. William Elliott, Esq., of Toronto township, was unanimously chosen as the Conservative candidate for the Commons at next general election. The Conservatives of Peel have selected a good man, a strong man, and one who has long held an honorable place in that constituency. There should be no such thing as fail in the forthcoming contest, when thoroughly good men like the chosen of Peel elect to raise the standard.

MILVERTON. CUREE MEETING.—The patrons of the Milverton cheese factory held their annual meeting on the 28th ult., in Attridge's hall, where matters relating to cheese were freely discussed. Several there such a prosperous season predicted here as the present—more support promised than any of the preceding years. Some wished to sell milk this year, but it was unanimously agreed upon that Mr. Ketcher receive 2 cents per pound for manufacturing milk. The meeting was started again.—The flax and saw mills which were shut down for a number of weeks—the former owing to dull markets, the latter for want of logs—were up again. If snow falls to come not much new lumber will be turned out in this part.

ACCIDENT.—A son of Mr. Becht. Coulter met with an unfortunate accident last week while working in the flax mill. He got his left hand in contact with some of the machinery, and was badly mangled. The accident was a serious one, and the injured man was taken to hospital. It is believed that the accident was caused by the machinery being out of order.

WHEN Yankee ingenuity and Yankee rascality are not equal to the occasion, then Uncle Sam is prepared to step down and out, but there is not the shadow of anything portentous on that score over-taking him at present. As if it were not bad enough to be fifty cents for a dollar, we are told that counterfeiters of the new silver dollar are already being turned out lively. If this is not counter-punching in-nickety, it is at least paying the American Government back in its own coin.

According to the Provincial Secretary's report for 1877, there are 33,922 members of temperance organizations within the Province of Ontario, comprising the following orders: Sons of Temperance, 13,147; United Temperance Association, 5,880; Local I. O. G. T., 1,013; L.O.G.T., 2,862. In the County of Perth there are seven Divisions of the Sons, with a total membership of 470; also three Divisions of the U. T. A., numbering 72 members in all.

The value which pushing business men place upon advertising may be comprehended by a glance at the Toronto dailies during the past week or so. Notwithstanding the large outlay, single announcements are to be seen occupying several columns. These men have long since discovered that advertising pays.

MOOREFIELD MILLS DESTROYED.

A Great Fire—Loss over \$30,000. Moorefield, March 10.—The fine and extensive flouring mill, known as the Moorefield Mills, and having six run of stone, erected by John Brodie, and to which the municipality of Maryborough contributed a bonus of four thousand dollars, and costing over \$30,000, was burned to the ground this morning. The fire was discovered at 6 o'clock, at which time it had got under such headway that no hopes were entertained of saving it. The night watchman left the building at 4 a. m., when everything was supposed safe. It was presumed that the fire originated in the boiler room, there having been all ways fire enough to keep up a head of 20 pounds of steam in the boiler, the mill having been kept running day and night. The loss is a heavy blow to the surrounding country, Mr. Brodie having done an extensive business in flouring. It was insured for \$12,000. The mill had been running but four months.

THE LATEST WAR DESPACHES.

LONDON, March 11.—In the House of Lords, Lord Derby said he considered it foolish to go into Congress unless it had a real, not a merely nominal power of dealing with the matter before it. The Standard reports all honorable bodied men of war have been ordered to be detained at Malta to strengthen the fleet in Eastern waters. The Times continues Russia must submit to the conditions of the peace proposed by the Congress, not excepting the indemnity clause. "She has no right," says the article, to be deflator over Turkey. The Standard does not invite her to make war, or give her permission to replace the Government of the Porte in any way she might see fit. The Times says that the Government's action in bringing forward the Greek claims. "No decision," it says, "is possible and far-seeing has been taken by the Cabinet in many a day as the step proposing Greece should be represented at the Conference. It recognizes that the old Russian claims cannot be restored, and that the best materials for replacing it are to be found in the Hellenic race."

STAR HOUSE. The GREAT QUESTION now agitating the minds of the people of Canada is not

HOW WILL THE WAR END? BUT

WERE CAN WE GET THE CHEAPEST GOODS? It is evident to everybody that the man who BUYS and SELLS FOR CASH, has the advantage of, and can sell CHEAPER than the man who does business on the old fashioned credit system. This being the case,

S. McClung & Son. Invite the inhabitants of Listowel and surrounding Townships to INSPECT THEIR STOCK, and judge for themselves as to the QUALITY and CHEAPNESS of the GOODS.

We are now offering Very Cheap Lines in Dress Goods, IN ALL THE NEWEST SHADES: Seal Brown, Myrtle Green, Prune, Navy Blue, and French Gray.

TOWN AND COUNTRY.

FREEMAN & CARSON give the greatest inducements to cash buyers.

PRINTS! Prints!—Over 200 pieces to select from at Clinie, Hay & Co's.

If you want a good cup of tea by your tea from D. D. Campbell, Wallace street.

The Division Court office has been removed to its old quarters near the bridge on the south side of Main street.

MEAT BE SOLD.—Winecys, 14 yards for \$1.00, at the Golden Lion.

READ the advertisement of Messrs. Bean & Gee. They are new men in town and claim a measure of attention.

At Clinie, Hay & Co., you will find the best stock of general furnishings complete.

STEWART will be St. Patrick's day. The "Sweet Shamrock of Ireland" and the "wearing of the green" are apt to become the rage for the nonce.

For a fashionable hat go to D. D. Campbell's store on Wallace street, the leading business street.

A LABOR of Prentice Boys has been formed in Guelph. It is called the Walsh Pioneers in honor of S. S. Walsh, the oldest orangeman in that town.

SPRING is COMING.—Get a new outfit at the Golden Lion. A new and stylish stock to select from.

The Recorder says that Master C. Savin, of Listowel, carried off first prize for comic costume at the late masquerade carnival on the Mitchell skating rink.

DRESS GOODS! Dress Goods! In endless variety, and at the very lowest price, at Clinie, Hay & Co's.

The evidence in the Livingstone Arbitration case closed on Tuesday. Arguments of counsel remain to be heard. So says the Stratford Herald of Wednesday.

Remember that D. D. Campbell has moved from Main street to Wallace St., where he is selling goods cheaper than ever.

W. H. HAGON has returned to his old stand, having purchased the grocery business back again from Mr. W. G. Bayne. He has something to say in another column. Read it.

IMPORTANT AND NOTORIOUS.—That the Golden Lion Store is the place to get goods right in quality and very low in price.

WESTMINSTER, a London, Ont., suburb, had a phenomenon last week. During a heavy thunder storm the lightning ignited the top of a homelock tree, illuminating the surroundings for several hours.

GENTS' GENTS! If you want a perfect fitting suit of clothes leave your order at Clinie, Hay & Co's, a large stock of English, Scotch and Canadian wools to select from.

We direct attention to the stock sale of Mr. Jas. W. Magwood, advertised in another column. It will be seen that he intends to dispose of some first-class animals, besides other valuable farm property.

A CONSERVATIVE Banquet was announced to have come off at Brussels on Thursday night, 14th. Some of the leading members of the party were expected to be present and address the gathering. We shall be better able to make further notice of it next week.

LADIES wanting a new hat or bonnet can soon be supplied in A 1 style at the Golden Lion. Millinery stock soon to hand.

The Queen's Hotel, a very extensive edifice recently erected in Brussels by Mr. James Stretton, is to be opened with a grand ball and supper on the 19th inst. We notice the name of Mr. Jas. Henderson, of Listowel, as having been one of the contractors of the work.

CASH! CASH!—Every advantage given to cash buyers at FREEMAN & CARSON'S.

It would be a hard matter to decide which is the most popular man—Rine, the great temperance reformer, or Wild, the ex-Franciscan monk. Both of these men have been creating a perfect furor of excitement in the principal towns lying between here and Lake Erie.

CLAIMING SALE of carpets at Freeman & Carson's. A Tapestry for 75cts, worth \$1.00. A genuine sale.

A large gang of men are now at work laying rails on the new railway switch from Main street to the "rise" on the Livingstone premises. The object is to convey the earth from the cutting to fill up the depression at the crossing near the street.

DO YOU WANT A NEW STIRT? Buy it at the Golden Lion. Everything sold cheap there.

To those in the neighborhood of Listowel who are infected with Oregon fever, the following from a late Nevada paper may have a cooling effect: "It has rained continuously in Oregon for six weeks. The crops in the low lands are completely drowned out, and even the hill farms are seriously damaged."

Don't forget to call on D. D. Campbell in his new shop next door to Scott's bank, Wallace street.

D. I. K. Rive is in Mitchell this week, endeavoring to bring about a temperance reformation there. We wish him a large measure of success, and were his efforts to have any effect upon the intemperate tone of the rival newspapers published in that town, we fancy their readers would accord him lasting gratitude.

WONDER if there was a single individual in Listowel, possessed of an ordinary modicum of health and ability, who did not turn out for a sun bath last Sabbath afternoon. The crowds that were to be met with on all the available thoroughfares would lead one to suppose that everybody, with his wife and family included, had come outside. The genial rays of old Sol have a particular influence upon the roving propensities of mankind, during the early days of spring, and the invitation offered by a bright Sunday afternoon proves irresistible, especially to the multitude whose business occupations deprive them of leisure on the other six days of the week.

OUR CANADA.—That Dominion white cotton, 38 inches wide, at the Golden Lion is the best value we have seen.

Mr. J. H. Gould, Inspector of Weights and Measures for this Division, is at present in town in his official capacity. Interested parties will notice his card in another column.

For boots and shoes, ready-made clothing and suits and to order, go to D. D. Campbell, next door to Scott's bank, Wallace street.

ABOUT this time distracted mammae are cogitating whether it would be better to invoke some good St. Patrick to eternally banish marbles from off the face of the earth, or coak some genius to invent patent metallic breeches. Verily the sight of the small boy coming home with a pocketful of alloy laws and minus any covering where the knees of his pants used to be, is one of the most trying.

DRESS GOODS.—Those dress goods and lace trimmings at the Golden Lion embrace the newest things in the market. Inspection invited.

At a board meeting of the Port Dover & Lake Huron Railway Co., held at Woodstock, Mr. A. D. Wright was appointed General Manager; Mr. A. B. Atwater, Superintendent, and Mr. C. N. Scott, General Freight Agent. The extra mileage of the line since the completion of the Stratford & Lake Huron Railway necessitated additional staff, and it is expected that these changes the earnings of the road will materially increase.—Times.

FREEMAN & CARSON intend giving particular attention to millinery this spring. Don't buy until you see their stock.

MESSES. J. & A. CLINIE, being under the necessity of removing their coopers in order to give place to the new railway switch, and having purchased the lot on the east adjoining their mill, known as the "grave pit," are now about erecting thereon a building 60x30 feet, which when finished will be used for coopers purposes. The "lockery" is still on these premises; its removal to some other locality will be necessary.

The sale of farm stock which took place last Friday at Mr. Jas. Watson's, 10th column, Elma, was one of the most successful yet held this season. There was a large number present, and the prices obtained were very satisfactory. One of his cows sold as high as \$45, and the rest ranged from \$35 up. This may be accepted as an indication that good stock will command a respectable figure this spring.

A NEW High School is to be erected in Stratford during the coming summer. Between three and four acres of land have been purchased, at a cost of \$3,081.25, from Mrs. McCulloch, for a site. The new school is to be one of the finest in the country. We should take an infinite degree of pleasure in recording that the Listowel High School board had decided upon a similar step. It would be a hard matter to find a town more interested than our own in this respect.

MIRACLES is not particularly scientifically inclined. His propensity seems to have no desire for acquiring wondrous that other communities with lively interest. Prof. Alex. Bell, the originator of the telephone, has been there lecturing upon that marvelous instrument, but he did not obtain an audience worthy of the name. In future he had better confine himself to the more intellectual centres, and give minor places the go-by. Were he to visit Listowel, there would be reason to expect a very different result.

Odolious Entertainment.—The Listowel L. O. O. F. purpose giving a charity entertainment on Tuesday evening next. It is to consist of addresses, readings, recitations, vocal and instrumental music, and promises to be a very pleasant affair. Addresses are expected from Rev. R. W. Wallace of London, and W. Jaffray Esq., of Berlin. The entertainment is to take place in the M. E. Church, and as charity is the laudable object, it should meet with liberal encouragement.

Sugar Making.—The season for converting the juice of the Canada's emblematic tree into something toothsome has arrived. Speculation hints that on account of the very open spring, the amount made will be limited. We hear of one farmer up in Howick who has already made over a ton of maple sugar. This don't look much like a short crop. Sweet intentions such as the above are apt to cause civic readers to take a lively interest in their friends in the country, and visits to the neighborhood of sugar plantations will consequently be more or less indulged in for the time being.

Sale of Thoroughbreds.—About 2,000 people attended the Huron Live Stock Association's sale of thoroughbreds which took place at Clinton on the 6th inst. The number of animals offered was large, but the sales effected were very few. Out of some forty stallions put up, only about half a dozen changed hands. Arch. Boyce of Colborne, paid the highest figure obtained for any single animal, namely, \$1,400, for the draught stallion "Lord Dufferin." Cattle transactions were equally limited, most of the owners preferring to retain possession than accept the figures offered.

Cleaning Up.—Our town authorities have taken the initiative, and cart loads of muck and filth have consequently been taking exit from Main and Wallace streets. We hope that they will stay their hand until the public thoroughfares are cleared passable and healthy. Every family in town should follow this wise example without delay. Clean up and remove all stagnant and vegetable-decaying and disagreeable accumulations of rubbish from your premises. Make your collars and other apartments sweet with a pure atmosphere; so shall you ward off disease and dwell happily in the places the good Providence hath given you. Cleanliness is the sine qua non to health. It is an element of godliness. Clean up!

The Staff of Life.—That there is as much truth as poetry in the old proverb, "it's an ill wind that blows nobody good," has been patent to everyone who has been supplied with the staff of life by the town bakers. For several months past there has been a "war in the yeast" as it were, and the consequence was that bread has been delivered at 10 cents per loaf. Of course the public did not enter protest, seeing that they were reaping the benefit. But our belligerents have finally concluded that it was playing a losing game to be eating each other's heads off while their

patrons were quietly consuming the profits of their trade; so peace has been proclaimed, a treaty signed, and bread raised to 4 cents per loaf.

Patrol Accident.—Mrs. Little, relic of the late John Little, of Wallace, had the misfortune on Tuesday last to fall down stairs and break her arm above the wrist. Surgical aid was called in and the fractured limb attended to. As she is an elderly lady of fully seventy years, this painful accident elicits much sympathy.

New Railway Hotel.—Our enterprising citizen, Mr. John Osborne, is about to erect a large hotel on the west side of Mill street, contiguous to the Stratford and Huron Railway Station. The building is to be a scantling frame with brick walls. It will have a frontage of 46 feet. As it is to be built on a good lot, its shape will be partially triangular. It is likely to improve the appearance of that neighborhood materially when finished.

I. O. O. F.—At a preliminary meeting held in the old Congregational Church on the 11th inst., it was resolved to organize a Temple on Monday next, 18th inst. An application for a charter has been forwarded to the Secretary of the Grand Lodge. Forty-one signatures were attached. A cordial invitation is given to all who are interested in the temperance cause, and who wish to join the Temple, to be present on Monday evening, when the institution ceremonies will take place.

Reports from the surrounding townships all affirm that fall wheat never looked better in March than it does at the present time. There has been no snow winter killed, and the plant has a rugged appearance. Growth has already started, and should we escape severe frosts until warm weather sets in, there is good promise of the wheat harvest of 1878 being equal to that of the year that has just passed. We notice that the reports from other sections of the Province are also very encouraging.

Another Course of Lectures.—It affords us pleasure to announce that the Congregational body in town have decided upon having a course of lectures delivered in their Church during the next few weeks. The first lecture takes place on Wednesday evening, 20th inst. Rev. R. W. Wallace, of London, is to be lecturer; subject, "Latest Advertisements." On the following Wednesday (27th) Rev. Mr. Hughes, of Stratford, will deliver a lecture on "South Africa." Rev. T. H. Handford, of Toronto, is expected to deliver the last one of the series early in April. His subject has not yet been ascertained. These gentlemen are by no means strangers in the lecture field, and we trust that they will be accorded deservedly large audiences.

Removal of Christ Church.—A special Vestry meeting was held in Christ Church on Monday evening. The object of the meeting was to discuss the advisability of removing the Church building to a more central part of the town and making considerable additions thereto. The present site of the Church has of late been inadequate to the demand for seating room, and the congregation have become more and more impressed with the urgent need of greater accommodation until action in the matter has been determined upon. The position now occupied has also been considered too far west, and before an enlargement was made, it was thought prudent to ascertain whether a more advantageous site could be procured. After discussing the matter, the vestry resolved upon purchasing a lot on the corner of East Victoria and Elma streets, and remove the Church thence. The lot secured contains half an acre, and is in an eligible locality; it was purchased from Mr. John Livingstone for the sum of \$800. The removal is to be proceeded with immediately. It is intended to erect an extensive addition, or we might as correctly say, build a new church and add the present one to it, as the seating capacity will be more than doubled by the proposed alterations. The addition is to be at right angles, and extend some seventeen feet beyond, forming a transept on either side. A chancel will be carried back from the centre of the wing. When completed no doubt the structure will present a comely appearance, and answer all requirements until the congregation which is in a position to erect a church edifice which shall be one of the first ornaments of the town.

Missionary Anniversary.—On Sabbath last, Rev. J. Ferguson, of Brussels, conducted mission services in Knox Church, here. In the morning he preached an excellent and suitable sermon before a large congregation. The annual missionary meeting took place in the church on Monday evening. Rev. W. S. Ball of Guelph, and the worthy pastor of the congregation, Rev. Mr. Bell, were the speakers present. The attendance was not quite as large as might have been wished for. Mr. Jas. Crozier was called to the chair. Rev. Mr. Ball gave a very interesting address upon foreign missions. The Presbyterian Church of Canada, with its clergy now numbering six hundred, it afforded him great pleasure to state, was zealously applying itself to the extension of Christianity in various parts of the world, and with much success. The work that had been begun in the South Sea Islands, in the West and East Indies, and in China and Japan, was already assuming most encouraging proportions. In China the missionaries of to-day had great advantages over those who first went out. The first effort made to introduce the gospel into China had to be done under the assumed garb of a factory employee; now over 3,000,000 Christians could be reached. It was a danger of this vast empire again being closed to christian influences, it would be the result of the unrighteous persecution which Chiamen were subjected to upon coming to the United States. Several lady missionaries had gone out, and their labors among the Chinese women and children were being abundantly blessed. Mr. Ball has recently had an interview with Dr. Fraser, who has lately returned from the island of Formosa, where he and his co-laborer (Ray. A. S. Mackay, formerly of East Zorra) have planted the standard of the cross firm and sure; he was therefore enabled to produce much information about this interesting island. About one thousand natives, of whom one hundred and sixty are communicants, have embraced Christianity within the short period of four years. Mr. Ball also alluded to French Canadian evangelization which was being carried on by the

Presbyterian Church in Quebec. Under the instrumentality of Father Chiquiquy none less than fourteen hundred conversions had been made from Roman Catholicism. Nine priests had abjured their former faith, and mission work was making commendable progress. Rev. Mr. Bell gave a brief but pointed address, outlining his remarks to home missions. He supplied some interesting statistics in connection with the Church in Canada, explaining the desirability of having an adequate number of ministers, and invited his hearers to participate in the extension of the means of worship to their less favored brethren in remote districts of the Province. At intervals during the evening the church choir rendered selections of sacred music. A collection and vote of thanks to Rev. Mr. Ball brought the meeting to a close.

Spring Exhibition.—A meeting of the board of Directors of the Elma & Wallace Agricultural Society was held in town on Saturday last. The following gentlemen were present: W. G. Hay, President; Wm. Ferguson, Vice; John Allison, Geo. Jackson, Jno. Stevenson, E. G. Harris, Directors for Elma; Chas. Watson, Geo. Follis, Wm. Channery, Directors for Wallace; R. Ferguson, Secretary. The principal business brought before the meeting was the decision as to the time and manner of holding the Spring Exhibition. A resolution was passed to the effect that it be held on Monday next, 18th inst. A Seed Fair will be held in connection with the exhibition. Prizes are offered, subject to the rules of the society: Stallions—Best yearling, 4 yrs. and upwards, \$24. General purpose, \$5; 2nd, \$4; 3rd, \$3; 4th, \$2.
