FAMOUS WHITBY CASE—GAMBLE IS ON STAND

Labor Man is Charged With Putting Sulphuric Acid on Bridge Ropes—Prisoner Says He Never Heard of it—Details of the Case.

[Canadian Press Despatch]

WHITBY, Ont., Nov. 7.—In the trial of Stead Gamble, Gamble this morning took the stand. He told of having visited the Dixie camp at the stated time on union business with a view to securing a conference between the men and the company for the adjustment of wages.

"I went down from Toronto to Agincourt that day and had no intention at first of going to the Dixie bridge, but got a chance on a work train and went down in company with Riley, a bridge company foreman.

Mr. Dewart—"Did you see a coil of rope there or sit down on one?" "I did not see a coil of rope, I think I sat on the ground, but am not sure enough to take my oath that I did not sit on a parcel of rope or something else."

"Did you pour sulphuric acid on any rope or have a bottle in your possession?" "I did not. I never saw sulphuric acid in my life to my knowledge. I never bought any or had any in my possession."

Gamble absolutely denied the statement of crown witnesses that he threw a back over his shoulder after rising up from a sitting position.

Cross-examined by Mr. Cresswicke

Gamble still maintained, although he has lived for 38 years, and has a fair education, he has never heard of sulphuric acid.

Questioned as to his business out at Dixie camp he said as a result of the information he carried out there the men quit work. He was at Dixie camp once in May and twice in June. He drew the attention of the men to the union wages and asked them if it was fair to remain on the job. His business was completed on June 10th.

Mr. Cresswicke—"Then why did you go down to Dixie on the 16th?" "I had no intention of going down on the 16th, but at Agincourt I got a cheap ride."

"Did you go down to look over at work at Dixie?" "I went down with the object of seeing who was there, but had no reason to think any of our men were at work at Dixie."

"When did you go down?" demanded the crown counsel with a note of triumph in his voice.

"I can't say whether I sat on a coil of rope or not, but I certainly was not peering away at something even if McCuaig said so. I threw stones in the direction of a fence at Agincourt three or four times."

Questioned again by Mr. Dewart Gamble, what he had denied to Mr. Cresswicke that he went down to Dixie on train No. 78 with others to persuade the men to quit work.

PUBLIC IMMORALITY A REAL PROBLEM

Speaker in Parity Congress Asks for Appointment of Commission.

[Canadian Press Despatch]

MINNEAPOLIS, Nov. 7.—"Public immorality is a problem with which the states must deal," said Herbert S. Gernert of New York in the principal address at the opening session of the International Purity Congress here to-day. "The federal government is doing a great work in this field, but it is seriously handicapped by the limitations of the constitution and the large territory to be covered and he extend to which the evil has grown," he continued. "The state police powers are unlimited while the outlay by each to control the evil would be comparatively small."

"Public morality is not unlike public health, public business, or public safety in the instruction which must control it. In our plan of government, this duty devolves upon the various states and to-day we have our departments of health, our state commissioners of railroads and of insurance and our boards of public utility. We have left this field practically untouched; and yet it is by far the most important."

"A commission of morals should be established in each state, whose duty it would be to take cognizance of the morals of the people and aid in the enforcement of all laws directed against vice and to work for the best moral conditions in factories, schools, and other places."

Mrs. Alice Stebbins Wells, of the Los Angeles police department said: "The policeman has come in answer to modern needs and she has come to stay, not to displace men, but to supplement their work. For countless ages the business world was a man's world with women and children secluded in the home. When cities realize the value of women in private detective there will be such women in every city." Besides an address of welcome to the delegates by Douglas Fish, president of the Minneapolis civic and commerce association, addresses were made by W. L. Clark, of Leamington, Ontario, and Rev. Charles W. Gordon of Winnipeg, Manitoba.

FOUR WERE KILLED.

LOS ANGELES, Cal., Nov. 7.—Four persons were killed and seven injured early this morning when two automobiles collided. A seven passenger automobile packed with men and women ran into a smaller machine and overturned, crushing four of its occupants to death. The dead are: Ervin Chapman, owner and driver of the larger car; Miss Vride Elmore; W. R. Sanderson and Harry B. Curtis. The occupants of the smaller car escaped serious injury.

Elected Mayor By Big Majority

Mr. G. W. Lorimer of the Lorimer Automatic Telephone Plant, Ohio has been elected mayor of that city by a very large majority on the Republican ticket. He is an old St. George boy and lived in Brantford for some years. His many friends here will extend hearty congratulations to "His Worship."

SOLDIERS NOT ON STREET YET

They Are Being Held in Readiness in City of Indianapolis.

[Courier Special]

INDIANAPOLIS, Ind., Nov. 7.—Indianapolis will not be placed under militia, and the entire state militia which was brought here yesterday for strike duty will remain in its present quarters as long as there is a possibility of settling the street car strike. This announcement was made by Governor Ralston after he had conferred with both sides to the controversy early to-day.

"I am very hopeful of having this trouble settled by arbitration," said the governor, "and as long as there is a possibility of bringing this about I shall not place the troops in the control of the city."

The governor yesterday and last night was trying to bring about a settlement of the strike through the public utilities commission, which is acting as intermediary. The recognition of the union seemed to be the bone of contention between the strikers and street car company.

Robert I. Todd, president of the traction company, said no effort would be made to start the cars until the governor gave the word.

EDMONTON'S FINANCES.

EDMONTON, Nov. 7.—Mayor Short has submitted a recommendation to the City Council that City Auditor Mowat be made Comptroller of Finance, that E. W. Bonness, engineer, be engaged to install cost systems in all departments, each fiscal to have a salary of \$5,000 per year, and that McIntosh and Hyde, a Montreal firm now making a city audit be engaged as auditors for 1914 at \$7,500. The recommendations were left over until next year. E. L. Richardson, director of technical schools was appointed temporary school superintendent. Richardson came recently from Toronto, where he was a technical school instructor.

WANT GOVERNMENT TO MAKE PEACE WITH BRITISH MILITANTS

[Canadian Press Despatch]

LONDON Nov. 7.—Decided efforts are being made to induce the British Government to come to an agreement with the suffragists, whereby a measure for the enfranchisement of women can be made a section of the official program of the Liberal party now in power.

Some of the suffragist leaders admit that this movement has obtained considerable headway, and a significant feature of the conferences which have been held is the presence at them of Mr. and Mrs. Frederick William Pethick-Lawrence, who left the fold of the Women's Social and Political Union, the militant organization at the request of Mrs. Emmeline Pankhurst and who took with them their paper "Votes for Women." It is known that the government will consider only a compromise based on an unqualified repudiation of the women's social and political union and all of its militant methods.

Heretofore the constitutional suffragists have refused to criticize formally the actions of their militant sisters, declaring that it was bad tactics in the face of the common enemy to question the actions of the militant organization; but several of the prominent constitutional suffragist leaders express themselves as willing to abandon their former attitude in regard to the fighting action. They have, they declare, become convinced that suppression of the militants is the only hope of securing the parliamentary suffrage for women, which is the only constitutional method denied to them in the British Isles, where they possess the municipal suffrage and may hold every civic office outside of parliament.

HEBERT CASE AGAIN UP IN COURT OF MONTREAL

Judgment Reserved—It is Not Known Yet Whether a Protestant and a Catholic Can Marry in Province of Quebec.

[Canadian Press Despatch]

MONTREAL, Nov. 7.—Judgment was reserved by the Court of Review in the appeal of Eugene Herber against the right of Judge Charbonneau to hear an appeal from and to annul the decision of Judge Charbonneau, who annulled his (Herber's) marriage to Miss Emma Cloutier, because the ceremony was performed by a Protestant minister, the contracting parties being Roman Catholics.

The lawyers for Mrs. Herber in opposition to the appellant's claim that she had withdrawn from the case, Judge Charbonneau had nothing to adjudicate upon, holding:

1.—At the time of said desistment there was an outstanding judgment declaring respondent's marriage null and void as to civil effects. Respondent asked not only for the dismissal of plaintiff's action, but for the setting aside of this judgment and declaration of the validity of her marriage.

2.—A judgment such as to that in question affects not only the parties to it, but the whole of society. It affects the legal position of any person dealing with either of the former consorts. Such a judgment binds not only the parties to it, but all other persons. Any person dealing with respondent could have invoked Judge Laurendeau's judgment as establishing that she was not the wife of the plaintiff and has not, therefore, the legal status of a married woman.

3.—Moreover, the issue in the present case involve not only the opposition to judgment of the wife, but the tierce opposition made by her asatrix to her minor child. The plaintiff's desistment could not in any event effect her right to proceed with this tierce opposition to set aside the judgment. From the standpoint of public interest, it is of importance that there should be a final adjudication as the public is highly interested in knowing the exact status of the individuals composing it.

M'MANIGAL WILL BE FORMALLY FREED

Man Who Confessed to Dynamite Plot in America Has Served Two Years.

[Canadian Press Despatch]

LOS ANGELES, Cal., Nov. 7.—Ortie E. McManigal, the confessed dynamiter, will be formally freed soon, according to a statement made to-day by John D. Fredericks, district attorney, who Monday last ordered the informer's release from the county jail, because of the prisoner's "poor health."

Fredericks said the reports that McManigal were fleeing secretly from the country to avoid old associates, was unfair to the state and to the informer's old associates as well.

"By his confession," said Fredericks, "McManigal placed himself outside the protecting arm of the Government. Let no one imagine it is not a strong arm."

The two and a half years McManigal has been imprisoned have impaired his health. He was permitted to leave the jail in order that he might regain his health. When the time comes for him to be formally liberated, I shall advise him to live in Los Angeles."

As county jail officials received instructions to ship McManigal's belongings to Tampa, Fla., the belief became strong that McManigal was on the way to South America.

MANY PLAGUE CASES

WASHINGTON, Nov. 7.—Presence of bubonic plague and yellow fever on the great trade routes from the south converging upon the Panama canal is giving grave concern to American health officials. Consul Baker reported to the state department to-day that during the month of October there were 112 cases of plague in Guayaquil, and that yellow fever was on the increase there.

WORK ELEVEN HOURS.

NEW YORK, Nov. 7.—Nearly a thousand taxicab chauffeurs decided at a mass meeting early to-day to accept an eleven hour work day as offered by employers, thus receding from their demand for a ten hour day to enforce which they threatened strike. The eleven hours schedule is a compromise in that the men formerly worked an even twelve hours.

Found Skeleton On High Street

Recently what was believed to be an Indian skeleton was found on the grounds of Mr. J. L. Sutherland, Duke Street, Brantford. This week Harold English, while ruminating throughout the property situated on the east side of High street, ran across the skeleton of an Indian, which was in an excellent state of preservation. Mr. Alex. McAdams received the skull, while other parts of the skeleton are being distributed to various museums on Terrace Hill.

A Tong War

Japanese Supposed to Have Been Shot by Chinamen.

[Canadian Press Despatch] FRESNO, Cal., Nov. 7.—Y. Yenamona, a Japanese, was shot and killed last night, presumably by Chinese tong men.

Yenamona and other Japanese were arrested in Kings county last month charged with having killed and robbed a Chinese merchant. They were released Tuesday for lack of evidence. When the trio came to Fresno yesterday, two of them appealed to the police to be lodged in jail until they could arrange to leave the country. Yenamona, who preferred to remain at liberty, was slain within an hour. It is feared the killing will lead to retaliatory measures and a prolonged feud between the races.

"NOT GUILTY," IS VERDICT GIVEN IN BEEMER CASE THIS AFTERNOON

His Lordship, Justice Kelly, Made a Non-Committal Address to the Jury—Counsel Meredith Said Mrs. Beemer Had 32 Law Suits Herself and Was Really a Smart Woman—Details of the Case.

[Canadian Press Despatch]

WOODSTOCK, Ont., Nov. 7.—At 1.25 o'clock the jury returned with a verdict of not guilty. The foreman handed the document containing the decision of the jury to the clerk, who read it to a crowded court-room.

Mrs. Beemer, seated in the prisoner's dock, her head bowed and tears in her eyes, did not change her attitude in the least. A few in the audience clapped their hands and attempted to start a demonstration, but officers put down the attempt with a firm hand.

Judge Kelly, in discharging the prisoner, said that in view of all the circumstances there was no fault to be found with the verdict. On the evidence it might have been possible to bring in another verdict, but, in his opinion, the jury had exercised their right satisfactorily to all parties. Mrs. Beemer was let out of the dock by the deputy sheriff, and she walked alone to the sheriff's office, where she immediately picked up her few weeks' old baby. A large crowd of women, some friends and some total strangers, gathered around her, and in the corridor there

had been carefully planned and well thought out.

Mr. Meredith contended that it was not necessary to show any motive in the case. It was impossible to look into the hearts of men and women and see what motive was behind their acts. In the Beemer case, he said it was hard to find a motive. Perhaps Mrs. Beemer had thought there was more money in the estate than was. Perhaps, she being a young woman, was tired of the man who was many years her senior. Perhaps she thought she thought she could do better without him.

Mr. Meredith concluded with an effective appeal to the jury to do their duty.

Justice Kelly's Address. His Lordship, Justice Kelly, said the whole case had been conducted fairly and thoroughly. Regarding a motive his Lordship stated that it was not necessary to find any motive in order to prove the offense, although it is a

[Canadian Press Despatch]

WOODSTOCK, Nov. 7.—The Beemer case went to the jury at 12:30 p.m.

There was another very large crowd on hand this morning to hear addresses of the counsel and Judge Kelly's charge to the jury in the Beemer murder trial.

Mr. W. T. McMullen, for the defense, in addressing the jury, pointed out that the close of the 5th inquiry into the death of the late Frederick Beemer was now in sight.

These inquiries he touched upon briefly, calling the attention of the jury to the fact that at each Mrs. Beemer was constantly in attendance, apparently without any fear whatever.

McMullen pointed out that no arrest was made at the close of the first, although John Mason had been a witness. He did not tell his sensational story about seeing the prisoner with a poison bottle at that enquiry. He did not tell the police. He did not tell the Crown Attorney. He did not tell any person until some weeks later, when he told the story to Dr. Woodcock in his office.

McMullen's opinion was remarkable. Counsel for the defense went to point out Beemer's financial condition, and drew attention to statements made shortly before his death by the deceased to friends, leaving the jury to decide as to the theory of suicide.

Mr. McMullen dealt severely with John Mason, the chief Crown witness stating that he was a man who should have been barred from Canada, had the authorities had his record, and a man who would be deported only for the fact that he has been in Canada too long. In his opinion, Mason is a moral degenerate. His evidence was a mass of contradictions, and counsel urged the jury to get his story straight. The evidence of those who said they would not believe Mason on oath

was touched upon in the appeal not to believe Mason.

Mr. McMullen pointed out that there was absolutely no evidence regarding any motive for murder on the part of Mrs. Beemer. Neither was there any evidence showing that Mrs. Beemer had purchased any strychnine since 1911, which strychnine was purchased to kill crows which were destroying the corn.

In closing Mr. McMullen made an impassioned appeal to the jury to restore the mother to those children who were outside the court room waiting for their mother to come back.

Mr. Meredith, in summing up for the Crown, pointed to the fact that all the medicine given to Beemer was given by his wife, and that it was following these doses of medicine that the severe pains which finally resulted in Beemer's death were experienced. Mr. Meredith attempted to discredit the plea of the defense that Beemer's death was due to suicide, by pointing to the fact that Beemer at all times expressed a desire to get better. He was most desirous of living, and urged that a doctor be called for and that his stomach be pumped out because of the fact that he felt as if he had been poisoned.

Regarding the evidence of Mason Mr. Meredith admitted that there was quite a bit of force in what counsel for the defense had to say. The jury, he said, could believe Mason's story if they liked or leave it alone.

He contended, however, apart from Mason's story, there was enough evidence to lay the crime of murder at the door of the prisoner at the bar.

Mr. Meredith, regarding the suicide plea, stated there was no evidence that Beemer was able to get out of his bed to get any poison.

Mr. Meredith, in speaking of the prisoner, said she was no ordinary woman, and was as cunning as a fox. Her 32 law suits, he declared, made her probably as much acquainted with law proceedings as counsel in the present case themselves. Her evidence

When seen this morning Mr. Eddy was greatly worried over the statement of the assessors that "sympathy got some figure" as reported in The Courier in making a reduction in one of the appeals. "It is false," said Mr. Eddy, whereupon, The Courier reporter proceeded to the assessors who were not in the least inclined to take anything back.

Whether the Court of Revision will have to do its work all over again remains to be seen.

Board of Works.

At the Board of Works meeting last night it was decided to take a lot of gravel out of the river bed north of Oxford street, so as to deepen the channel and reduce the flood danger. There are a number of obstructions around the piers at Lorne Bridge and these will also be removed.

Kerby Island.

Ald. Suddaby proposed to-day to get right after the Lake Erie and Northern Railway in regard to the deepening of the excavations through Kerby Island. This work has been ordered by the Dominion Railway Board and it is essential that it be completed before spring. The civic authorities propose to take immediate action in the matter.

Civic Finances.

There is a balance to the credit of the City Treasurer of \$63,571.62 following October operations. The receipts were \$137,988.33, and the expenditures \$74,416.61.

Sanitary Sewers.

Notices have been issued to all the plumbers of the city that house con-

nections will be made up to Nov. 30, but after that date extra cost will be charged against the owners.

Walks All Finished.

Walks throughout the city have all been finished for this year. According to an announcement made this morning. During the year 53.4 miles of new sidewalks were laid.

Extending Sewers.

Sewers on both Emily and Edward streets will be extended the full length of the street about 1,200 feet in all. The work will be rushed this month. A new sewer will also be laid on St. Paul's avenue from West Mill to Burwell street.

Wants an Auto.

City Engineer Jones with transit on shoulder jumped out of the city hall this morning, remarking, "If I had an auto as I should have, it would save a lot of time, which the city pays for in getting away down to Gordon street and back." With the rush of work for the City Engineer, it is the wonder of other civic officials how he covers all the ground.

In the Hospital.

There were 17 patients paid for by the city in the hospital during October.

Taking Out Licenses.

Two milk and two cigarette licenses were taken out this morning, the city getting \$32 revenue therefrom.

Finance Committee.

The finance committee meets tonight.

Fine Recital

Hambourg Brothers at Victoria Hall Last Night.

A good sized and representative musical audience greeted the Hambourg Concert Company in Victoria Hall last evening.

The two, Jan, and Boris, are brothers of Mark Hambourg, the leading pianist and the whole family is certainly one of exceptional musical genius.

Jan, the violinist, possesses very great technical ability, although somewhat reserved in style. Boris, who is one of the greatest living cellists, combines much feeling with splendid technique.

The opening number was the Haydn duet, unaccompanied and it proved a regular triumph.

In the single renditions, Mr. Jan Hambourg scored his best work in the Corelli variations.

Mr. Boris Hambourg was equally good in all his numbers, but shone especially in the Spinning Song. His work on the 'Cello in this piece was a positive revelation. He was deservedly accorded a triple encore.

Mr. Thomas Darwin gave a very fine piano solo, a Scherzo by Liszt, and was recalled. He also played the accompaniment in a very dignified way, and received high compliments from the two visiting artists.

Altogether, the event was most delightful.

A Great Success

Concert Held in St. Jude's Church on Wednesday Evening Last.

A great success in every way was the unanimous opinion of those present at the concert held in St. Jude's schoolroom on Wednesday, under the auspices of the Girls' Friendly Society.

Rev. H. A. Wright acted as chairman. In his helpful opening remarks he made kindly mention of the G.F.S., teaching and work. The program proved very pleasing and interesting throughout.

Chorus, G.F.S.: reading, Miss O. Smith; solo, Miss E. Burge; recitation, Miss E. Rowe; instrumental solo, Miss Miskelly; solo, Miss E. Senn; play, "Dr. Divine"; instrumental duet, Misses Cooper and Turnbull; play, "When Women Vote"; solo, Miss F. Loney.

Those taking part in the plays: Misses I. Pelling, E. Senn, E. Waddell, E. M. Senn, H. Gaffney, M. Cooper, H. Simpson, J. MacGregor, M. Hall, T. Dawson, N. Cooper, J. Crozier, D. Cooper, C. Peddie.

Thank Offering At Zion Church

The annual thank offering meeting of Zion Church W. H. M. S. was held on Wednesday evening and was addressed by Mrs. Cochrane of Toronto. The chair was occupied by Dr. Nichol, who in most felicitous terms introduced the speaker. Mrs. Cochrane, who for so many years was closely identified with the congregation, was greeted by a large audience filling the basement. The occasion was unique inasmuch as it was the last annual meeting to be held by the society prior to its amalgamation with the W. F. M. S., and was organized by Rev. Dr. Cochrane. It seemed fitting that the last message should be given by the speaker of the evening. Mrs. Cochrane traced the society from its very first beginning through years of struggle, to its splendid and most efficient character to-day. Short addresses were also delivered by Mr. Woodside, the minister, Messrs Geo. Watt, J. Sanderson and T. J. Wood. Special praise was furnished by the male quartette, after which refreshments were served and all were afforded opportunity to meet Mrs. Cochrane.

Women's Musical Club November 14

The following is the program of the Women's Musical Club, Nov. 14. Piano "Prelude in C minor", Rachmaninof, Miss Edna Miller (Toronto). Vocal, (a) "Curly Headed Babby", Clatsam; (b) "The Rose", Johnson, Miss Violet Miller (Toronto). Piano "Valse in C minor Op. 64, No. 2" Chopin, Mr. Darwin. Vocal selection, Miss Violet Miller. Male Quartet, (a) "Forsaken", Thomas Roschar; (b) "My Lady Chloë", H. Clough-Leighner, Mr. Eacrett, Mr. Arthur Harp, Mr. William Collier and Mr. George Sweet. "God Save the King."

Laid at Rest

The Late Mrs. Parkinson.

The funeral of the late Mrs. Parkinson took place yesterday afternoon from her residence 38 Ontario St. to Mt. Hope cemetery. The Rev. J. J. Liddy conducted the services at the house and at the grave. The pallbearers were: Mr. Fry, Mr. Passmore, Mr. Eddy, Mr. A. Lamb, Mr. W. H. Turnbull and Mr. F. Charlton. The floral tributes were a wreath by the daughters; sprays from Mr. and Mrs. Cooper, the Colborne Street Brotherhood and from a number of old friends.

Obituary

The Late Mrs. H. Clark.

Many Brantford friends will learn with sincere regret of the death of Lida Evelyn, wife of Harry Clark. The late Mrs. Clark was formerly Miss Lida Andrews, a nurse at the John H. Stratford Hospital, where she was held in popular esteem by all.

THE COST OF FOOD

Several Grit papers are making the clamor that the Borden Government "must lessen" the price of foodstuffs.

Economics rank as one of the most abstruse of all subjects, and many recognized authorities differ vastly with reference to the deductions reached.

The method of making living more cheap, which certain Grit editors so lightly advise is the taking off of duties between the States and Canada.

Would they?

Is it any cheaper? Not a bit, and in addition every Canadian factory save one has been wiped out of existence.

Take the case of cattle. With the duty taken off by Uncle Sam, many Canadian farmers have been disposing of their herds at good prices.

The consequence is that beef to the Canadian consumer is in the near future going to cost very much more because of the stock depletion, and the sellers, although getting a good price for the moment, have depleted their future assets to just that extent.

As before pointed out, in Free Trade England, food prices have advanced to the same proportionate extent as in other lands, and the average working wage is far less. Too many people seem to forget the essential fact that a dollar or a shilling, are only worth what either can buy, and that monetary value only exists as such to the extent of what it can purchase.

The basic truth with regard to high prices in Canada would seem to largely consist of the fact in the matter of foodstuffs, that there has been a widespread trend towards centres of population, and that our rich agricultural heritage is as yet only barely touched.

A boy has been discovered who is getting along quite well with an inverted brain. That's better anyway than a perverted conscience.

The Galt Reporter devotes an editorial to the desirability of "keeping old landmarks." Well, there is one in Brantford, the city hall, which the Galtonians can have for the carting.

A local nimrod, who was attempting to shoot partridges near Brantford, is reported to have secured the magnificent bag of one bird. It was sick and he accidentally stepped on it.

NEW YORK PAPER AND MEXICAN SITUATION

Of the New York papers, Life sizes up the situation in connection with the cause of President Wilson in the most clear-headed way. It says in part—

"Elections in Mexico come on Sundays, when people can be sure to have leisure to vote. They held one on October 26th. Candidates for President were voted for, but there is no news at this writing that anyone was elected. Reports say that voters were apathetic, and that in Mexico City they went to the Sunday bull fight in much larger numbers than to the polls.

"This is embarrassing, but not at all unexpected. The opinion prevalent considerably that President Wilson's policy toward Mexico has been wrong, and that he should have recognized

Huerta, thereby strengthening the credit of Huerta's government, and enabling him to borrow money enough to put down the other revolutionists and pacify the country. Pretty much everybody of diplomatic experience considers that that was the only practical thing to do, and that President Wilson should have done it. Certainly it was the easiest thing to do.

"The reason why President Wilson did not do it is perfectly well understood. He has wanted to do better for Mexico than seemed possible by the recognition of Huerta. He wants obviously to help the Mexicans to infuse vitality into their forms of constitutional government. Their political machinery calls for election of Presidents by voters. Dr. Wilson insists on expecting them to use their machinery and choose a President. He wants to recognize a man of their choice, not a man who has seized office and holds it by force of arms.

"That is why, though President Wilson seems so far to have accomplished so little for Mexico by his hesitations, there is great popular sympathy and patience with him in his aspirations and endeavors. We all know, and he knows, what the Mexicans are; that a very large proportion of the thirteen millions of them are of Indian descent, without the disposition toward representative government that we have derived from Europe; that to expect them to choose and elect a President is a good deal like expecting the infant class to elect a teacher; that they have never so far had a permanent government that did not rest on the will of a strong man.

"Good luck to his efforts! Nobody can guess the issue of them, but there is no doubt of the strength and integrity of purpose that is behind them. And Mr. Wilson, in this matter has a great power in his hands. His own character is a great force; the obstinacy of his expectation that the Mexicans shall elect a President is a great force, and behind them both is the fact that a government in Mexico must have the countenance of our government at Washington before it can borrow money. Possibly Dr. Wilson will be able to schoolmaster Mexico up to a point where it will produce a government that is worthy of recognition from civilized countries. It is worth doing, and worth taking some time."

NOTES AND COMMENTS

The Borden Club, 'tis of thee we sing. You'll get there with a biff, bang, bing.

Borden club campaigns are catching. The Conservatives of Berlin have now decided upon such a contest.

There's a milk strike on the part of Hamilton consumers of the lactical fluid, and the Mayor was the butter in to bring the same about.

A boy has been discovered who is getting along quite well with an inverted brain. That's better anyway than a perverted conscience.

The Galt Reporter devotes an editorial to the desirability of "keeping old landmarks." Well, there is one in Brantford, the city hall, which the Galtonians can have for the carting.

A local nimrod, who was attempting to shoot partridges near Brantford, is reported to have secured the magnificent bag of one bird. It was sick and he accidentally stepped on it.

A real estate case in Quebec, which has been dragging along for twenty-seven years, was yesterday again adjourned at Ottawa. The litigants by this time must realize to the full the truth of Lord Broughams words, "He found law dear, and left it cheap."

The head of the Provincial Police Department reports that up to date this year over one thousand tramps have been sent back across the border. Good work that Johnny Canuck most decidedly does not want Uncle Sam's Wearie 'Willies, Meandering Mikes, Tired Thomases, Ambling Alees and Jaundiced Johns.

Prof. Maensterberg says that after frequent tests, he finds that women stick to one opinion despite all argument. Le Briyere, the noted French writer and moralist, who flourished in the sixteenth century, penned a far greater truth when he wrote, "A man can keep the secret of another better than his own; a woman, on the contrary, keeps her own better than that of another."

At the annual meeting of the Galt Hospital, the financial statement showed that owing to the high cost

of living, the cost of patients per day had grown from \$1.33 to \$1.50. In connection with Brantford per diem, during the same period, cost has been reduced to \$1.30, and that without any stint, in fact the institution was never before in such good all round shape. Citizens will glean from this the excellence of the local management.

SECOND ANNUAL BANQUET HELD

Alexandra Athletic Club Hold a Very Pleasant Evening in Club Rooms.

The Second Annual Banquet of the Alexandra Athletic Club and Young Men's Bible Class of Alexandra Presbyterian Church, was held in the club rooms last evening.

The banquet was in charge of the following committee. Albert Brown, convener; N. MacDonald, George Ion John Sloan, Albert McGregor and Alfred Jex, to whom much of the success of the evening was due. The rooms were splendidly decorated with the Club's colors, green and white.

After those present, numbering about seventy-five had enjoyed the good things served by the ladies of the church, the chairman, the President of the club, gave the opening address, mentioning the success the club has had in the past and how still greater things could be accomplished in the future. The club has a membership of 136 but this could be greatly increased and if all the members helped, new club rooms could be secured and filled up and the work gone on with and still greater success could be attained.

Mr. G. L. Goodwin, Secretary of the Y. M. C. A. was the next speaker, choosing for his subject Friendship, discussing the different qualities required for true friendship, and its need in a club of this kind.

Mr. T. Cullen then rendered a solo in his usual able manner and was required to respond to an encore, which was much enjoyed by those present.

Mr. T. L. Moffat, of Weston, Ont., spoke about the club in Weston, which is somewhat of the same nature as the Alexandra Athletic Club. The club in Weston has enjoyed great prosperity having a club house of its own, a gymnasium, a swimming tank, etc. and employs a physical director and is doing a great deal of good.

Mr. Fred Moffat, a brother of Mr. T. L. Moffat, also of Weston, delivered a fine address on the mission-ary side of Sunday School work, showing where it had greatly helped the Presbyterian Sunday School in Weston, and giving a few ideas which would be taken up here and which would prove a great help.

The banqueters were then addressed by the pastor, Rev. D. T. McClin-tock, on personal work, what it means and the good it accomplishes. Mrs. A. McFarland the teacher of the Bible Class made a few appropriate remarks.

THE HALF-SPEED MAN AND WOMAN

What it Means When You Feel "All Out of Sorts."

You know what it means to feel "all out of sorts." Most people have felt this way at some time. Nerves out of order, irritable, languid, depressed. An aching head, a fagged brain, appetite bad, and digestion weak. With some people this condition comes and goes; with others it is chronic; they can't shake it off. It interferes with business, spoils recreation and robs life of all its joys. These men and women are all alike. They live and work at "half speed."

Half speed people have lost that abundant natural vitality which enables others to go "full-speed-ahead" through life. Their energy and nerve power have evaporated—they cannot work long without "breaking down." The trouble is nerve weakness and is caused by poor, watery blood. You can begin to improve your condition to-day by taking Dr. Williams' Pink Pills. They make rich, red blood once more pulsate through your veins and your nerves thrill with fresh vigor. Here, is convincing evidence that new strength and health can be had through the use of Dr. Williams' Pink Pills. Mr. Newton Mayhew, North Tryon, P. E. I., says: "I am a farmer and naturally have to work very hard. The result was that I found myself very much run down. My blood became thin and watery, and my muscles flabby. I took doctors treatment but it did not help me and I grew so weak that I could scarcely work at all. As I found the medical treatment was not helping me I decided to try Dr. Williams' Pink Pills, and in these I found the medicine I needed, as in a short time I was restored to my old health and vigor. I shall always recommend these pills to all sufferers."

Dr. Williams' Pink Pills are sold by all medicine dealers, or will be mailed, post paid, at 50 cents a box of six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

The Income Tax

I am always coughing up, it seems to me; there's the tax upon my bow-wow, two or three; and I have to ship a crate of my money to the state, and the poll tax makes me hotter than a bee. And the city needs my money for its game; and the county comes along and climbs my frame, crying, as it wields its axe, "You must pony up your tax," and the whole doctored business is a shame. For it's money that I work so hard to get! Every nickel means a bucketful of sweat; and my quillders and my marks go to fatten up the sharks who are holding down the offices, you bet! And the final blow is coming down oftsoons; it will make our boasted freedom look like prunes, when our nery Uncle Sam, the original I Am, puts his hand into the voter's pantaloons. And he'll take your little wad and count your seals, and he'll confiscate the dollars of your darts, saying "I require the same, to conduct my little game"—and then you'll be a mighty mournful bunch of lads. And his motive—if you do not see its drift—is to penalize all energy and thrift; to the prudent man he cries, as he robs him, "You'd be wise if you didn't earn this cash for me to lift."

To The Editor

NEW BRIDGE NEEDED
To the Editor of the Courier:
Sir,—With reference to Lorne bridge, don't you think that now should have been the time for a new structure?
It was all right and up-to-date when constructed over thirty years ago and our population was ten thousand, but it does not begin to be adequate for present needs. I am not an engineer, and cannot speak with any authority in that regard, but it does seem as if the existing bridge is perhaps not unsafe, but not any too safe, especially with regard to street cars or any large procession of people to Agricultural Park.
The Grand Trunk people do not spend money unless they deem the outlay to be necessary, and they have practically rebuilt and greatly strengthened their bridge a little lower down across the Grand.

W. B. TORRENCE WAS INJURED

He Figured in a Bad Auto Accident at Montreal.

Mr. W. B. Torrence, the superintendent of branches of the Royal Bank of Canada, and for many years a resident and well known gentleman of this city, was in a bad automobile accident in Montreal. He accompanied by Mr. Pees, the general manager of the bank, were returning home during the evening, and at a level crossing the automobile was struck by an express train. Mr. Pees escaped without injury, but is suffering from shock. Mr. Torrence was not so fortunate, he having received a broken collar bone, and it is feared some internal injuries.

Mr. J. W. Mallon, of Toronto, inspector of legal officers for the province, who is in the city to-day making an inspection, reports the office in satisfactory shape.

Fingers Crushed.

Henry Rastall, employed in construction work at Jubilee Terrace, while unloading timbers, had the ends of two fingers badly crushed by being squeezed.

No Police Court.

Brantford city must surely have taken a turn for the better. To-day there was no court, not a single person having to account for a misdeed. Things are improving.

All in One Day.

Licenses, Inspector Eacrett in one day this week placed nine locals on the Indian list. Some of the men were just off the list and were promptly put back again. The measure is found to be very effective, owing to the fact that the law is being strictly enforced.

Tramp on Road.

A tramp has been causing a reign of terror on the Paris road. Recently an 11 year old girl was set upon but evaded the man's clutches. Moyle's school house was broken into, and made an over-night camping place. Constable Kerr has been at work on the case but no clue can be obtained of the man's whereabouts now.

Died in Toronto.

Brantford friends will learn with regret of the death in Toronto of Elizabeth Pickering, widow of the late Rev. John Pickering, who was a former pastor of Wellington Street Methodist Church in this city. Both pastor and wife were greatly beloved during their residence in Brantford. The funeral takes place to-morrow in Toronto from 657 Dovercourt road.

Outfit Stolen?

Harrison and Osborne, livermen, Dalhousie street, are out a black horse, new Simpson buggy and harness. As a result a warrant has been sworn out for the arrest of H. Eynon, charging him with theft. Eynon is alleged to have secured the outfit yesterday at 1 o'clock stating that he was going to Paris and would return at 4 o'clock. He has not been seen since. Chief Ecker of Paris has been communicated with.

Fratrick's Orchestra of Toronto will provide music and the arrangements for the refreshments and printing were also concluded.

Are Appointed Agents.

The International Mausoleum Company has just issued a booklet containing a picture of the mausoleum to be erected in Mr. Hope cemetery in this city. Before work on the construction is commenced a certain number of crypts must be sold. The prospects are said to be exceedingly bright for the building, which is a most expensive and beautiful one, to go up. Messrs. S. M. Burnley, A. B. Burnley and F. S. Blain have been appointed representatives of the company in Brantford.

Were Entertained.

The Grace Church troop of Scouts were entertained last night at the headquarters club rooms. The evening was spent in music and readings. Percy Tipper, of the headquarters staff gave a fine piano selection, and Scout Hutton of the Grace Church troop was also heard from. Scout Wilson also gave a solo. The troop then adjourned to the Tea Pot Inn, where a splendid little supper was partaken of.

Looking at Fire Escapes.

Chief Lewis with Mr. Goodwin, went over the Y. M. C. A. building this morning in order that the fire escape sections might be looked into. The Chief is recommending the erection of a few escapes to meet possible panic needs, but otherwise he finds the building satisfactory. The Y. M. C. A. board will meet to-night to consider his recommendations and if these are passed, the building will be approved.

BIGGEST WILL CASE ON RECORD

An Estate of Over Half a Million is Subject of Fight at Toronto.

[Canadian Press Dispatch] TORONTO, Nov. 7.—The biggest will case that has projected itself into the Ontario courts for many a decade is the battle royal that has commenced around the \$558,989.25 estate of the late George Alexander McVicar, of Port Arthur, who died at Naples, Italy, on March 2nd, 1913.

The importance of the issues so appealed to Chief Justice Falconbridge at Osprey Hall to-day that he made an order transferring the action from the Surrogate Court to the Supreme Court.

Under the will made by McVicar on October 18, 1912, he left one-third of his estate to his wife, Helen McVicar, and two thirds to be held in trust for his children. If he died without children it was provided that three quarters of the estate should pass to his wife and one quarter to his niece, Christina Kains.

Application for probate was made by F. W. Langworthy, one of the executors of caveats were filed against it by a number of claimants, who disputed the will.

Two claimants represented by F. Aylesworth, one of whom is R. L. F. Strathy, allege that the will was secured by undue influence at a time when the testator was mentally incapable, and they further declare that Helen Elma McVicar was not at any time his wife. They ask that the will be set aside.

DIAZ ARRESTED.

HAVANA, Nov. 7.—General Felix Diaz, was arrested here to-day and accused of shooting Pedro Guerrero, the young Mexican wounded by a bullet from a revolver during last night's shooting in the course of which General Diaz was wounded slightly. General Diaz is said to have handed the revolver to one of his companions after he had shot Guerrero, and seriously wounded him. Guerrero was the man who had stabbed Diaz with a knife. In spite of the gravity of his injury, he passed a good night in the hospital.

TWENTY SEATS.

ST. JOHNS, N.L., Nov. 7.—By the small majority of 42 the candidate of the Conservative "people's party" government of Premier Morris has been elected to the colonial house of assembly from the burgeo district, according to returns received to-day. This gives the government 30 seats in the house. The opposition party, under the leadership of the former premier, Sir Robert Bond, has captured 14 seats and returns from two districts are yet to be reported.

"NOT GUILTY" IS VERDICT

(Continued from Page 1)

ative were proved it would assist in solving the case. There might have been a motive, he said, without it being divulged.

Regarding the evidence of John Mason his lordship said it would be serious, if correct. He noticed that it was peculiar because of the fact that he did not say anything about the poison bottle until many weeks after the inquest. His lordship also pointed out that according to Mason's story the poison bottle had been emptied and destroyed on the Saturday while Beemer, following the dose of medicine given on Saturday got well on Sunday night and did not get ill again until Tuesday.

Judge Kelly said it was natural to ask did the poison which was administered on Tuesday come from the bottle which he, Mason, said contained the poison having been destroyed on Saturday. His Lordship pointed out that on Monday night and Tuesday Beemer was up and around the house and could have secured poison if it had been in the house and had he desired to do so.

It was also pointed out that on Saturday and Sunday Beemer lay with his pants and shirt on, showing he might have hidden the poison there had he so desired.

His Lordship also called attention to the fact that about a week before his death Beemer was in Toronto where strychnine might have been secured.

Regarding the statement of Mrs. Beemer, "I have had no poison in the house for years," his Lordship pointed out that previous to making the statement the accused had had no knowledge that there was a suspicion regarding Beemer's death, the statement being less remarkable under these circumstances than it otherwise would have been.

The same thing was true regarding the statement alleged to have been made by the prisoner: "Why would I harm Fred with all this family around me."

In conclusion Judge Kelly expressed the hope that the jury would consider all the evidence fairly and honestly. "If there is any honest doubt that this murder was committed by this woman then you must give the prisoner the benefit of that doubt," concluded his Lordship. The case went to the jury at 12.10.

WAS THRILLING THIS DEER FIGHT

Passengers Witnessed Fight Which Made Sportsman's Blood Run

[Canadian Press Dispatch] TORONTO, Nov. 7.—Passengers on the Cobalt special yesterday saw one of the finest sights seen in many a day. Just after the train had left Cobalt and when near Nepe Lake, two miles north of Temagami, the engineer saw two buck-deer and a bull moose in deadly combat. The deer were fighting like furies while the moose was wacking both contestants with his feet.

The engineer blew his whistle, but the contestants did not get off the track. The train was stopped and the passengers threw stones at the animals, but they did not move.

The deers horns were locked and just as a passenger was getting his rifle to shoot, the moose charged the contestants and knocked them off the track into the ditch. Just then he saw he trainmen and bounded into the bush. The deer were left where they fell.

The story is told by a passenger on the express who arrived here this morning.

TAFT'S HOLDINGS.

NEW HAVEN, Conn., Nov. 7.—Former President William H. Taft holds securities valued at \$150,000, according to lists filed with the state treasurer in response to the demand that government, state, municipal and miscellaneous bonds subject to a state tax, ad, therefore, exempt from local taxation, be registered. This list is wholly outside the federal income tax registration. The state receives a 2 per cent. tax on this list of securities.

Echo Place People Hold Social Evening Prizes Put Up For Competition In Echo Place Schools by Messrs Fisher and Westbrook—A Fine Time Spent.

A fine time was spent last evening under the auspices of the Echo Place Improvement Association when prominent speakers were present and an exceedingly fine array of talent presented numbers which were received enthusiastically by the large gathering.

Master of Ceremonies A. L. Baird, K.C., stated that he was pleased to act in the honor of acting as chairman for the evening and congratulated the Echo Place people on their progressiveness and their social features.

Mr. J. W. Westbrook, M.P., presided at the evening and stated that he was delighted to be there, and it would not be his fault if at any time he got an invitation and was not present at the series of entertainments to be given by the association.

Three minute speeches were given by the Township Councillors who were present and Deputy Reeve A. McCan, R. Greenwood, A. J. Jennings, James A. Seace, which were very much appreciated by the audience.

Mr. Tom Raines, the well-known poultry expert, had a friend up north recently ship him eight partridge. At Toronto, however, where they have game dogs to detect such shipments, the birds were seized, and Mr. Raines is mourning the loss of a very choice supper.

The Y. M. C. A. authorities met last night to complete arrangements for the Boys' Annual Conference. Officers were elected to fill vacancies in the committees which were not complete and general business was regarded to the conference discussed.

Diaz Shot He Soon Recovered Composure When Taken to Hospital.

[Canadian Press Dispatch] HAVANA, Nov. 7.—General Felix Diaz soon recovered his composure at the hospital to which he was taken for surgical treatment after he had been wounded in the neck in an attack on him by Mexicans last night.

When asked how the incident came about, the fugitive candidate for the Mexican presidency declared that while he and his companions were listening to the music played by a band on the Malecon promenade, the electric lights were suddenly extinguished and he was attacked.

The general was cast into a state of deep depression by the occurrence which came about, as he declares, so unexpectedly.

MAY PULL TEAM OUT FROM CITY

President Nelson Goes to Toronto To-day Re Sale of Club.

Important Developments Expected in Course of Few Days.

Fans Here May Form Company to Retain Club in City.

President T. J. Nelson of the Brantford Baseball Club is in Toronto today, in connection with negotiations, as reported exclusively in the Courier last night, which may mean the removal of the Canadian League franchise from this city. Either one of two things may happen, and Mr. Nelson does not himself know which will eventuate. Either the franchise will be sold to Toronto parties, who will keep it in Brantford, or it will be removed from this city as a result of the projected sale to the same parties.

There are wheels within wheels just now in Canadian League developments. President Mahoney of Guelph says if he keeps the franchise his club will go to Erie, Pa. At the last Canadian League meeting Mr. Mahoney was offered \$3200 for his club, but refused. The Berlin owners refused \$3000 for the franchise. Youngstown, Ohio, wants to get in the new circuit, while there is a strong possibility of teams being placed in Buffalo, Rochester and Toronto, a move which was unheard of until the new Federal League precipitated its invasion of organized baseball in this territory.

President Nelson is strongly of the opinion that the Canadian League finally will be composed of London, Ottawa, Hamilton, Toronto, Buffalo, Rochester, and one other big city, possibly Erie. This may not eventuate this year, but it leaves Brantford out of it. Of course, a new league could be formed on a smaller scale with the nucleus of Canadian cities.

Whatever happens, President Nelson has the goodwill of every present Canadian League owner. He will sell voluntarily if the deal goes through. No pressure has been brought to bear on Brantford to get out of the league. In fact, it is figured that this is a good town, and it was never more fully exemplified than last year. Brantford drew fourth in attendance last year, beating out Hamilton, Guelph, St. Thomas and Berlin by a big margin. Ottawa, London and Peterboro got the money in the order named. The showing made by Brantford, a tail-end proposition, has undoubtedly proved impressive to other magnates, who consider the Brantford franchise a good investment, whether it remains here or is transferred to a bigger town.

There is scarcely a fan in town who wants to see Brantford lose Canadian League ball, and undoubtedly an effort will be made to have Mr. Nelson dispose of his holdings locally rather than to an outside party. It is figured that a joint stock company would make a big success of the club. President Nelson is not disposed to take hasty action in the matter. In fact, last night he announced that it would not be definitely known until Monday what action would be taken.

One thing is sure, the league will be on a bigger scale next year than ever, and it will require some hustling to get out in front. It would be a great boost for Brantford to win a pennant and a great advertisement. For this reason many business men are loath to see the game leave Brantford.

British Firm Gets Canadian Contract
More Than a Million for Extensive Canal Work in Canada.

According to a respatch from Ottawa the contract for the second section of the new Welland Canal has been awarded to an English firm, Messrs. Baldry, Yerburgh and Hutchinson. The contract is for £1,000,000.

The firm which has secured the contract are well known as railway and general contractors. Their London offices are at 21 Queen Ann's Gate, S. W., and their works are at Arlington House, Quarry-lane, Mansfield, Nottinghamshire.

Buffalo Athletes Threaten Boycott
Toronto Contingent Receive Letter Asking Them to Hold Off.

TORONTO, Nov. 7.—Owing to the fact that the 65th Regiment have announced only two foot races for their indoor meet to be held on the 14th, the Buffalo athletes are up in arms, and threaten to give the meet the go-by unless a regular program is issued. With this end in view they have written the Toronto men to hold off until such time as a settlement is arrived at. Jack Tait and Mel Brock are entered to run in the half mile event, and owing to the fair treatment the Toronto boys have always received from the officials of the 65th Regiment, they are loath to default on account of the local trouble.

The All-Toronto relay team is booked to meet the All-New York team in Buffalo on New Year's night, and as the Toronto boys have just started training for this event, it is to be hoped that the Buffalo trouble may be settled at an early date.

WILL PRESENT FINE APPEARANCE.
The appearance presented this winter by the Junior O.H.A. team will be very pleasing. Manager Slattery reported at the executive meeting held last night in the Y.M.C.A. that the sweaters, trousers and stockings had been purchased. The arrangement of the colors, red and black, is very attractive. Secretary Weir to-day entered the team with Secretary Hewitt at Toronto.

WHITE SOX LOST TO THE GIANTS

New York Garnered Seven-teen Hits Off Pitcher Leverenz.

DOUGLAS, Ariz., Nov. 7.—The Giants yesterday nipped Walter Leverenz for a barrel of hits and enough runs to make the score against the White Sox 14 to 5. Wiltse was fairly good, but any hit missed by an outfielder usually went for a home run, and thus five were accumulated during the matinee. As the rarified atmosphere prevented curves, Leverenz was helpless, as that was all he had and his batters were straightened out every inning. The score—White Sox 5, Giants 14.

THE GAME WILL BE PLAYED IN TORONTO

Argonauts and Ottawa Will Meet at Rosedale on November 15th.

TORONTO, Nov. 7.—The Argonaut Club have decided to play off its tie game with Ottawa at Rosedale on Saturday, Nov. 15. The suggestion to stage the match in Hamilton so as

to avoid a clash with the McGill-Varsity game on that date, met with scant consideration, the general feeling being that it was only fair to the supporters of the team and to the Interprovincial Union that they should have the opportunity of seeing a game that is bound to be a factor in determining this year's championship. The Interprovincial Union will, at its meeting here to-morrow night, decide what sum the Ottawa Club is to be allowed for expenses, or what share of the gate. It is understood the Combines will ask for an equal division of the gate. There is no precedent to guide the Union in handling this difficult matter, and it may prove a vexatious matter before a solution is reached.

The greatest game in the inter-scholastic rugby league this season will be played to-morrow afternoon at Agricultural Park, when the local team will line up against Guelph for the final struggle for the honors of the league. At the present time the standing is: Brantford, 5; Guelph, 4. Therefore the situation is an extremely critical one for the teams. The biggest crowd of the season ter back, Wood.

TOMORROW'S FIXTURES IN BRITISH SOCCER

Some interesting football games were scheduled in the four big leagues in England and Scotland on Saturday. The following are the games:

First Division. Aston Villa v. Manchester United. Blackburn R. v. Everton. Bradford C. v. West Brom. A. Derby County v. Bolton Wanderers.

Liverpool v. Burnley. Manchester City v. Sheffield Wed. Middlesboro v. Oldham A. Newcastle U. v. Preston N. E. Sheffield U. v. Chelsea. Tottenham H. v. Sunderland.

Second Division. Barnsley v. Glossop. Blackpool v. Birmingham. Bury v. Clapton O. Fulham v. Woolwich A. Huddersfield T. v. Leeds C. Hull C. v. Stockport C. Leicester Fosse v. Notts C. Lincoln C. v. Bristol C.

Lincoln C. v. Bristol C. Notts Forest v. Grimsby T. Wolverhampton W. v. Bradford.

Southern League. Bristol R. v. Gillingham. Merthyr T. v. Norwich C. West Ham U. v. Watford. Plymouth A. v. Coventry C. Southampton v. Crystal P. Queen's P. R. v. Reading. Swindon T. v. Northampton. Cardiff C. v. Southend U. Exeter C. v. Brighton and Hove. Millwall v. Portsmouth.

Scottish League. Morton v. Aberdeen. Airdrieonians v. Hamilton A. Ayr U. v. Patrick Thistle. Queen's Park v. Celtic. Clyde v. Third Lanark. Rangers v. Dumbarton. Falkirk v. Dundee. Hibernians v. Hearts. Motherwell v. Kilmarnock. St. Mirren v. Raith Rovers.

No fewer than three of the scheduled games in the Scottish league are down for decision in Glasgow, and five of the six clubs are local at that. Then there is another Lanarkshire Derby, as the Hibs look up with their fellow citizens the Hearts, Celtic should beat Queen's, even at Hampden. Clyde will go under to Thirds, at Shawfield, and Dumbarton have a poor chance of getting even a single at Ibrox. A huge crowd will surely be on hand to see the two Edinburgh club divide the points. Motherwell look like getting the verdict over Killie at Fir park, and the Saints ought to win from the Rovers at Love street. Morton can win at Greenock from the Black and Gold. Falkirk have a hard nut to crack at Broxville, and Dundee may take a point back home. Patrick can only hope to draw with the United at Somerset park.

In the English league three games stand out in bold relief, the Villa-United game, Spurs v. Sunderland, and Rovers v. Everton. Notwithstanding the lowly position of Aston they are capable of playing their Manchester opponents to a draw at least. Sunderland can win from the Spurs. Everton has a poor chance at Ewood, and Rovers ought to be able to retain both points. Bradford will defeat West Bromwick, and Bolton will do likewise with Derby. Burnley will go under at Anfield, and Oldham will triumph over Middlesbrough. Newcastle will beat Preston. Manchester City will share the spoils with Sheffield Wednesday, as will Sheffield United with Chelsea. Swindon, who have created such a sensation in Southern football circles with their long succession of wins, look like losing their first point to Northampton on Saturday, in fact, one will not be surprised if they taste their first defeat.

WILL NOT ABANDON THE WORLD'S SERIES

American League is Opposed to Substitution of an Inter-League Series.

CHICAGO, Nov. 7.—The American League, in its brief annual meeting yesterday, voted unanimously against the proposal to substitute a general inter-league series for the world's series as now played; discussed informally the demands of the Players' Federation, and pronounced

several of them acceptable; appointed a committee to represent it in a small convention to consider a revision of the rules. The meeting disposed of a number of routine matters, including the reelection of Charles W. Somers, president of the Cleveland Club, as vice-president. A new board of directors, consisting of the presidents of the clubs of St. Louis, Detroit, Washington and Philadelphia, was elected, these four succeeding the other four presidents. No trades were announced and most of the men present said they had not talked trade during the season, or after it. Manager Birmingham declared his team would remain intact, thus disposing of a reported attempt by the Chicago club to get one of the Cleveland outfielders, Robert McRoy said Cady would prob-

ably remain with Boston, though the club has one superfluous catcher. The league will suggest the shortening of the playing season by starting it on April 14th, and ending it on October 7. The dates, however, depend on the National League agreeing to them. The date for the schedule meeting was not announced. Not a dissenting voice was heard when President Johnson proposed that the league go on record as favoring the world's series between the two big league pennant winners. The plan to have a general campaign was brought up recently by August Herrmann, chairman of the National Commission, and would have provided that every team in one circuit play every team in the other. It was specified that the talk on the players demands was "strictly informal." The league received no of-

ficial list of demands from President Fultz, of the Federation, but a series of reforms the players had drawn up had been sent to every club owner by the National Commission, and these were gone over in an open discussion. The proposed abandonment of the "reserve rule," which defenders of organized ball say is vital to its existence, naturally found no champions at the meeting, but indications were that the players will be granted some of their demands. President Johnson, Vice-President Somers and Manager Mack of the Philadelphia Club were appointed to meet with three National League representatives and managers and umpires of both leagues to go over the rules. Few of the rules are likely to change, but some minor alterations may be made. The meeting probably will be held in December.

The crowd of strikers round Liberty hall present a very dejected and woebegone appearance as they stand hour after hour watching the windows of the labor headquarters.

They know quite well that their leaders are away in England, but they hang about all day, rain or shine, as if merely being in the vicinity gave them a feeling of hope and encouragement.

Miserable Forms

Through the swing doors there is a constant procession of miserable forms, mostly half-clad women and children, each clutching the ticket entitling the bearer to a plateful of Irish stew and a hunk of bread in the grimy kitchen at the back of Liberty hall. Here, from nine in the morning until seven in the evening, the big cauldrons steam, and a group of willing assistants under the direction of Countess of Marcovitch, an Irish lady married to a Polish nobleman, serve out food to the starving people. Nearly a thousand persons are supplied with one hot meal every day at Liberty hall. The lady mayoress' fund and other agencies supply food to be cooked at home, and the nuns in the numerous schools feed the children who attend the classes.

To-day I met people who declared that in many cases the women and children are really being better fed at present than they are at ordinary times when their bread winners are at work. Perhaps that is true, but if it is, one shudders to think what the daily lives of the families of the poorer sort of laborers in Dublin must be.

I have visited some of the tenement buildings in the poorer quarters of the city, and the conditions in which their occupants live are appalling.

Family in Room.

In one tenement ten persons—father and mother and eight children, whose ages varied from 11 years to

a few months—were living in a single room. In one corner was a filthy bed with a few rags on it for bedding, and here and on the floor the entire family slept. Other furniture there was none, save a couple of empty orange boxes, which served both for chairs and tables, and the entire cooking outfit was an old tin tea kettle, an iron pot and a teapot. The place literally swarmed with flies, and the sanitary conditions were dreadful. The house in which the room was situated consisted of twelve rooms, and in more prosperous days had been the home of well-to-do people. Now each room is the dwelling of a family, and the building shelters seventy people. Why such a condition of things is allowed by the sanitary authorities is incomprehensible. It explains in a large measure the prevalence of disease in Dublin.

Cannot Pay Rent

When one asks the people why they live in such places the answer always is: "Sure and what can we do? We cannot pay the rent for a better place." In none of the rooms was there any cupboard or place for keeping food. Indeed there was little food to keep. The only thing I saw was a few scraps of dry bread, on which the flies, fresh from the filthy receptacles on the landings, swarmed in hundreds. It is impossible for either health or self-respect, or even common decency, to be maintained under such conditions.

One can understand how men whose existence is passed in such tenements cling to the leadership of any man who promises them any amelioration.

Britain To Be Used For The People

Land No More for Deer, Sheep or Pheasants.

Addressing another great meeting in the evening, Mr. Lloyd George said the programme of land reform which he pronounced that afternoon was not an unauthorized programme. Directly after his Bedford speech their opponents foamed and fumed. What would they be like in a few weeks' time? Why, there would not be enough straight waistcoats in England to hold them.

He had spoken about the country that afternoon. Later he would have something to say about the towns. Low wages in the country, where wages down in the towns. The first step in the solution of the social problem affecting labor in the towns must be taken in the laws of the country. They proposed looking ahead and were preparing a great scheme of colonizing Britain.

He noticed that Captain Pretzman said that if the land was not allowed to make deer forests, they would not allow him to play golf. To make deer forests means hundreds of the land cottages destroyed, and less labor employed, than formerly. What was the history of a golf course like Walton Heath, and how many people did it give employment to? He had made investigation and had found that if a deer forest was made into a golf course, there would be found work for 16,000 people, and occasional employment for 22,000; while 600,000 people would use it.

He asked them to read the report of the Land Committee, and the remedies which the Government proposed to put through. The first thing they had to do was this—they must see that the land of England was not to be used for deer, sheep or pheasants, but for the people of the country.

A WONDERFUL COLD CURE.

Just think of it, a cold cured in ten minutes—that's what happens when you use "Catarhoxone." You inhale its soothing balms, and out goes the cold—sniffles are cured—headache is cured—symptoms of catarrh and gripe disappear at once. It's the healing pine essences and powerful antiseptics in Catarhoxone that enable it to act so quickly. In disease of the nose, for irritable throat, bronchitis, coughs and catarrh it's a marvel. LADIE! LOOK YOUNG, DARKEN GRAY HAIR

Use the Old-time Sage Tea and Sulphur and Nobody Will Know.

Gray hair, however handsome, denotes advancing age. We all know the advantages of a youthful appearance. Your hair is your charm. It makes or mars the face. When it fades, turns gray and looks dry, wispy and scraggly, just a few applications of Sage Tea and Sulphur enhances its appearance a hundred-fold.

Don't stay gray! Look young! Either prepare the tonic at home or get from any drug store a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy." Thousands of folks recommend this ready-to-use preparation, because it darkens the hair beautifully and removes dandruff, stops scalp itching and falling hair, besides, no one can possibly tell, as it darkens so naturally and evenly. You moisten a sponge or soft brush with it, drawing this through the hair, taking one small strand at a time. By morning the gray has disappeared; after another application or two, the natural color is restored and it becomes thick, glossy and lustrous, and you appear years younger. Agent T. Geo. Bowles.

VISCOUNT INGESTRE'S CLAIM SUCCEEDS

Lord Shrewsbury's Thirty-Year-Old Romance Recalled.

Viscount Ingestre was formally pronounced by Sir S. Evans, President of the Probate and Divorce, to be the legitimate son of the Earl and Countess of Shrewsbury.

The Hon Charles John Alton Chetwynd Talbot, who is now thirty-one, was born less than three months after the marriage of his parents, and this declaration of legitimacy was sought with the object of setting aside one and for all any doubts as to the future earl's birth.

Mr. Priestley, K.C., opening the petition on behalf of Viscount Ingestre, said that the present Earl of Shrewsbury, being then a bachelor, was married to Ellen Mary, formerly the wife of Alfred Edward Miller Mundy, at the Registry Office, St. St. George's, Hanover Square, on June 21, 1882. On Sept. 8 of the same year, emphasized counsel the petitioner was born at Alton Towers, Lord Shrewsbury's seat in Staffordshire, and, having been born after their marriage, counsel submitted, he was lawful and legitimate son. Having been born after a wedlock that was conclusive, unless proof to the contrary were given, that he was the son of Lord and Lady Shrewsbury.

He had always been recognized, said counsel, as their son by the father and mother, and by their relations and friends. He held a commission in the Horse Guards as Lord Ingestre; he was decorated by King Edward as Lord Ingestre, but being the courtesy title of the Shrewsbury family.

There had never been any question about it, or his position, but lately someone in a business transaction put the question about his mother's former marriage, and, as there were considerable interests involved, Lord Ingestre, while all the evidence was available, that a declaration should be pronounced in court.

Story of An Elopement.

Those who had knowledge of the subject—Lord and Lady Shrewsbury, Mr. Miller Mundy, himself, and other members of the family of Lord Shrewsbury—were in court, counsel said, and were prepared to give such evidence as was by law admissible in support of Lord Ingestre's petition.

"On April 21, or 22, 1881," continued Mr. Priestley, "Mrs. Miller Mundy left her husband and went away with Lord Shrewsbury, and she never lived with Mr. Mundy after that date. Lord Ingestre having been born on Sept. 8, 1882, Mr. Mundy could not be the father of the child."

"On April 26, 1881, Mr. Miller Mundy and his brother-in-law, Mr. Morewood, saw Mrs. Mundy with Lord Shrewsbury, at Strasburg, and Mr. Mundy had never seen her or spoken to her since. The next day she returned to England, via Paris. From May 1, 1881, she was constantly in Lord Shrewsbury's society, and on May 16, 1881, Mr. Mundy filed his petition for divorce, alleging his wife's misconduct with Lord Shrewsbury. The case was not defended."

"On July 5, 1881, Mrs. Miller Mundy joined Lord Shrewsbury in his yacht Castalia, at Eastbourne, and went away with him on a cruise, till October, when they reached Funching. They lived together continuously from July 5, 1881, until their marriage in the following year."

On Nov. 24, 1881, said Mr. Priestley, they went to the Hotel Windsor, Paris, and stayed there until the end of the year. Then they joined the yacht at Toulon, and were cruising about together until 1882.

The decree nisi was pronounced in December, 1881, and on June 20, 1882 it was made absolute. On the next day Lord Shrewsbury married Mrs. Mundy, and from there they went to Alton Towers, and as far as counsel knew, they remained there until the birth of Lord Ingestre, who was the only son, although there had been a daughter, who was now married.

On April 23, 1904, Lord Ingestre married Lord Alexander Page's daughter, as Lord Ingestre, in the presence of many of their relations, and Lord Shrewsbury signed the register.

Sir Rufus Isaacs Intervenes

Mr. C. W. Turner said that on behalf of the first three cited—Major-General Sir Reginald Talbot, Mr. Humphreys John Talbot, and Mr. Geoffrey Richard Talbot (who are next in succession)—he had instructions not to oppose the petition.

Mr. C. E. Johnson, registrar of marriages of St. George's Hanover-square, produced the certificate of marriage on June 21, 1882, between the Earl of Shrewsbury and Ellen Mary Mundy, formerly Palmer Morewood, and another certificate of marriage of the same parties dated July 26, 1882.

Mr. Priestley explained that the second wedding ceremony was "advised because there was a little doubt among legal practitioners in that court whether there was a right of appeal in an undefended case during the space of one month pending the decree absolute."

Mr. F. S. Cox, superintendent registrar for the town of Cheddar, in Staffordshire, produced the certificate of the birth of Lord Ingestre. Mr. James Hammond, of North End, Portsmouth, a retired master mariner, formerly master of the earl's yacht, Castalia gave evidence as to

crises which the earl and the present countess took together in 1881 and 1882, and Mr. M. Payne, who was carriage groom in Lord Shrewsbury's service, corroborated counsel's statement with regard to their subsequent association.

The President, giving judgment, said that there were relations between Lord Shrewsbury and Mrs. Mundy which resulted in the birth of the petitioner, and also he came irresistibly to the conclusion that there had been no access between Mr. and Mrs. Mundy from some time in April, 1881, until after the birth of the child.

The subsequent marriage, and the birth some time after the marriage in wedlock of the petitioner, made him not only the son according to the law of the country, but the legitimate son of Lord and Lady Shrewsbury. He therefore pronounced a decree, involving the declaration asked for.

MOTOR CAR BREAKS DOWN

Mr. Lloyd George met with a mishap while motoring from London to Swindon. He was accompanied by Mrs. Lloyd George and near Newbury the steering gear of his car went wrong, and the car became unmanageable. A telephone message brought mechanics and a fresh car, in which the Chancellor was able to resume his journey after a wait of about twenty minutes.

LORD CHAMBERLAIN AND Mlle. DESLYS

Protest Against Her Scene at Palace Theatre; No Change in the Act.

Following on representations by the local clergy as to the scene, "A la Carte," now being performed by Mlle. Gaby Deslys at the Palace Theatre, correspondence has passed between the Lord Chamberlain and Mr. Alfred Butt, the manager at the Palace.

The protest is against the alleged suggestiveness and indecency in the play, but Mr. Butt stated on Wednesday that the price would continue without any alteration being made.

The clergy of the parish of St. Mary's, in which the Palace Theatre is situated, wrote on Oct. 16 to the Lord Chamberlain complaining against the performance.

We have made careful, independent inquiries, the result of which reveals the fact that the play as a whole is deemed "suggestive," while individual actions taking place during its performance are characterized as grossly indecent.

Our appeal to you is made on moral grounds, and is made in the hope that you will take early steps to prevent the management of this theatre from continuing to present this play.

In conclusion, we desire to express our opinion that alterations in or additions to the dialogue must have been made since you gave your sanction for the performance of this play.

Sir Douglas Dawson replied on Oct. 20 on behalf of the Lord Chamberlain, stating that representatives of his department had paid several surprise visits to the Palace, and adding, "I tell you this in order that you may understand that this department is not unmindful of its responsibilities."

He promised that if public morality were outraged any further in the Palace Theatre the license for the piece would be immediately withdrawn. In the meantime, he mentioned that certain items in the clerical memorandum were eliminated from the performance.

Mr. Butt Indignant.

Mr. Alfred Butt made a spirited defence to Sir Douglas Dawson on Monday, placing the facts before his clerical critics and pointing out that there must be an error somewhere, since no addition has been made to the performance. He felt most strongly that the suggestions made were not in any way justified by the nature of the performance, and that the National Vigilance Association and the clergy complained not of the performance qua performance, but because it was given by Mlle. Gaby Deslys, and that had the same per-

formance been given elsewhere by an unknown artist no criticism whatsoever would have been made thereon. He continued:

In view of the fact that the Lord Chamberlain did receive certain complaints last year (he wrote), I was particularly careful this year that there should be nothing to which anyone could possibly take exception and I am quite satisfied that the performance as given here is far more decent and more free from suggestion than many performances given elsewhere in London.

The vision of Mlle. Gaby Deslys in her dressing room was originally in the third scene, but as this was not visible from parts of the gallery, it was removed to the second scene.

The dancing during the descent of the stairs is a dance that being done at a very large number of places of amusement in London, and whilst I admit that I do not think it at all graceful, I am quite emphatic in saying that it is equally incorrect to describe it as being indecent.

With the exception that the venue of the dressing-room vision has been changed, the piece is identical with that you saw during the first week of its production, and again witnessed by your representative less than three weeks ago.

In view of these circumstances, I do not think it is quite fair for me, merely upon representations made by people undoubtedly biased, after the sketch has been playing seven weeks, to notify me at 6.30 p.m., that unless drastic changes were made in the performance at a moment's notice the Lord Chamberlain would take steps to withdraw the license immediately.

The Rev. Dr. W. S. McGowan, of St. Anne's, Soho, who was the leader of the protest, said on Thursday that the matter so far as he was concerned, was closed. "I hear that last night's performance was of a decidedly reduced character, although Mlle. Deslys sang the 'Don't Care' song with more than usual gusto. For the present the matter is closed. We have gained our object, as the performance is reputed to be decent, and we have no more to say."

Mr. Alfred Butt stated that there was no change whatsoever in Mlle. Deslys's performance.

Sir Douglas Dawson has intimated that as long as "A la Carte" is produced at the theatre a representative of the Lord Chamberlain will be present.

A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poisoning! Not one species of microbe has been found that Zam-Buk does not kill!

Then again, As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. March, of 101 Delorimier Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. Today, three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema.

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

CAINSVILLE

(From our own correspondent) The Sunday morning service was in charge of Rev. Mr. Morrow. After the opening exercises Miss Feleod gave a very interesting report of the Sabbath School convention held in Owen Sound last week. Sunday evening Rev. Mr. Cook preached an excellent sermon on the reasonableness of serving God, at the conclusion of which Mr. Lew Smith sang "Will You Not Try to Win Some One" in a very effective manner.

Mr. R. Drake of Hamilton, was a guest at the home of Mr. Lew Smith on Wednesday.

An epidemic of whooping cough has broken out in Brant school section. As a result the school attendance is very low.

Mr. Frank Roy accompanied by his son, Mr. Howell Roy, spent Sunday in Hamilton at the home of Mrs. E. Solomon.

Mr. and Mrs. J. D. Norrie were the guests of his father at Beaton on Sunday.

Miss M. Baldwin of Scotland, was the guests of his father at Beaton on week.

Mr. and Mrs. Howell of Brantford were the guests of Mr. Howell Roy on Monday.

Mr. and Mrs. Ford Papple returned from their honeymoon trip on Thursday evening. We extend hearty congratulations. We extend hearty congratulations.

On Wednesday afternoon Mrs. Raphael received for the first time since her marriage. The rooms were prettily decorated, yellow and white being the color scheme. The hostess was very becomingly gowned in pink silk with corsage bouquet of roses.

She was assisted by Mrs. Cameron and Miss Minerva Westbrook, of Brantford, and the Misses Learmonth of Quebec City.

Miss Grace Woltz is spending a couple of weeks at Hartford, the guest of her sister, Mrs. Burke.

Mr. and Mrs. Herbert File and family of Brantford, were the guests of Mr. and Mrs. John Devereux on Saturday evening.

Miss McLeod and Rev. Mr. Morrow returned from Owen Sound on Friday evening, having spent the week attending the S. S. convention there.

Many friends extend their sympathy to the family of Mrs. D. Vansickle of Toronto, who was buried at Jerseyville on Tuesday afternoon from the 4 p.m. train.

CATHCART

(From our own correspondent) It is with sadness that we chronicle the sad death at Barba, Alberta, of Mrs. C. Costin, formerly a Miss Read of Cathcart. It is hard to believe that she is dead, she, that so short a time ago, was the very embodiment of youth and loveliness, and happiness. Her flower-like beauty and the brightness and goodness that shone from her, made all love her who came within the charm of her

young life, for only a year and a half since she left her home, a bride. Little did we think that she would never return, but such is life. What words could fittingly express the desolation and grief of the young husband, and the family, whose flower has been cut down so suddenly, while we may not intrude on their great grief, we may at least assure them that the heartfelt sympathy of all the community is with them in their sad bereavement.

BURFORD

(From our own correspondent) Mrs. Wiggins of Brantford, is visiting Mrs. Carter.

Mr. and Mrs. Mudge left on Saturday to spend two weeks with their daughters at Chicago and Elgin, Ill.

Right Hon. James Bryce was the guest of honor at the Pilgrims' luncheon in London.

The Cash Intrigue

By George Randolph Chester (Copyright, 1909, by the Bobbs-Merrill Co.)

"I am sorry to hear that, Rollins," said Kelvin. "I have been going over the situation pretty thoroughly and am willing to admit that if you fight us it will annoy us somewhat, but it will be a losing venture for you."

"Then I will take control," returned Kelvin.

"I want and mean to have control of the railroads," he said. "You want the same. I consider you both control the railroads in the United States today, and I want you to manage the consolidated lines. Pool your stock with mine, giving me control and your management. Do you accept that?"

"Then I will take control," returned Kelvin. "If I do and offer you the general management will you accept it then?"

"If you gain absolute control," said Kelvin, with a short laugh, "and if after you have done so, you offer me absolute management, with a free hand, then I shall believe you."

As Rollins rose Bred rang a bell, and it was Elsie White who answered it.

"This is Mr. Rollins, Elsie," said Bred. "Show him the suit next to Kelvin's. You can't get back tonight with any comfort except by auto, Rollins, but we shall be very glad to have you as our guest."

Rollins had intended to refuse this offer, but he looked at Elsie White and accepted.

After Rollins had gone Bred looked at Kelvin quizzically. "I suppose you have a solution for our problem?" he suggested.

"I am waiting to hear yours," returned Kelvin.

"There is only one feasible way," declared Bred promptly. "We must subsidize the press."

CHAPTER X. KELVIN DID not laugh outright, but he came near it. "You have tried that, haven't you?" he ventured.

"Only in a minor degree," declared Bred, "but found no trouble about it."

"No," admitted Phillip, "you had no trouble about it. When your agents found they could not influence certain papers they took others, and they took the easiest ones and the ones least worth while. Remember that the majority stockholders of practically every one of these roads are the public. In order to reach them you must completely control almost every paper in the land, and even you have not enough money. You cannot subsidize the press of the United States. Count that as dead."

Bred nodded. He remembered one or two disastrous experiments during his early operations. "What, then, do you propose?" he asked. "From your own agents you evidently have in mind a plan of action."

"I am not quite ready to lay it before you," replied Phillip. "It still requires some figuring."

Bred frowned. "Don't get too high handed, young man," he warned. "Remember that, after all, I am providing the weight which gives our plans momentum."

"Mr. Bred," said Phillip, rising, "any time you object to my methods tell me to go, and it won't require your private militia to put me out of the grounds. I was worth two and a half million dollars when I came to you, and this you cannot take from me. I am here with you, however, because I want to use the enormous power of your money for purposes of my own. Aside from these purposes, which are not a matter of life and death to me, I assure you, I don't need you or your money."

Bred looked at him a moment, then he took in his chair and rubbed his hands together and chuckled until it threw him into a fit of coughing. "Go ahead, my boy, and see who gets the most out of it. I wouldn't part with you for anything. This two million and a half of yours, by the way, is it in cash?"

"No," replied Phillip. "It is in highly profitable oil, coal and iron lands. In the extension of which my profits are going as fast as I am making them. I hypothesized them in order to get in on our Stock Exchange deal, but immediately removed that incumbrance as soon as the deal was concluded. So far as the cash is concerned, I would rather you should have it than I; it

has so much more weight when thrown into one pile."

Again Henry Bred lay back and chuckled, and he followed Phillip out of the room with extremely friendly eyes.

Mrs. Rensselaer, always drowsy after a meal and always fighting off that droopiness for reasons not entirely unconnected with embonpoint, sat upon the balcony outside her own apartments after the early dinner customary at Forest Lakes. Young Rensselaer and Elsie White came strolling from toward the back of the house, talking quite earnestly, and struck out into the southwest roadway. Mrs. Rensselaer stiffened. It was perfectly disgraceful of Herbert so far to forget his sin in life.

From the porch Phillip and Lillian stepped down and strode up the northwest path, Lillian clinging to Phillip's arm and chattering volubly, even excitedly. Mrs. Rensselaer, estimable lady, arose at once.

"How indiscreet!" she murmured. "I must see that the dear child is instantly chaperoned."

She went quickly down the stairs, and at a turn in the road she saw them under the dim avenue of trees just ahead of her.

Even as she looked she saw Lillian suddenly turn and throw her arms about Phillip. For a moment she stopped to gasp and then hurried on with an intention born of anger. What had really happened was that Lillian had stepped upon a loose, round stone and had slightly turned her foot. Instantly she had wobbled and clutched at Phillip for support.

"I beg your pardon," said Mrs. Rensselaer coldly. "I seem to be interrupting something of an entirely personal nature."

"Appearances are deceitful," replied Phillip, laughing and concealing the tremulousness of his voice as best he could. "I fancy that Miss Lillian has sprained her ankle, and I think that she is faint."

"If Miss Lillian were to choose less dim paths for her strolls she would not be in such danger," quoth Mrs. Rensselaer dryly. "As her chaperon I must ask both of you to be a little more circumspect in the future. Come with me, Lillian."

She led the girl away unresisting. Her limp was slight, but she tottered as she walked. Her hand as Mrs. Rensselaer took it and put it in her arm was flaccid and cold with moisture.

Mrs. Rensselaer looked back, expecting Phillip to come with them and offer to assist Lillian home, but he stood in the same spot, numb, not even thinking.

Mrs. Rensselaer and Lillian had no sooner turned the bend in the road than a tall, gaunt form sprang from among the shrubbery at the roadside. Strong, hawk hands clutched Phillip by the shoulders, and a pair of eyes, phosphorescent in the dimness, like a cat's, blazed into his.

"Let her alone!" hissed the voice of Blagg. "You don't care for her. Let her alone!"

"Take your hands from my shoulders!" commanded Phillip firmly.

"Let her alone, I say!" repeated Blagg fiercely.

"I'll give you just one more second of warning," cautioned Phillip, drawing up his arms and clenching his fists. "Nerve one had time for parley, however, for a huge black shape hurried itself upon Blagg like a whirlwind, huge black fingers seized him by the throat, and a huge black body bore him to the ground."

ARE WORTH THEIR WEIGHT IN GOLD

What Jas. Ferguson Says of Dodd's Kidney Pills.

Quebec Man Cured of Backache, Rheumatism and Headache Voices General Sentiment in Regard to Greatest of Canadian Remedies.

SELLARVILLE, Bonaventure Co., Quebec, Nov. 3.—(Special)—"I can say Dodd's Kidney Pills are worth their weight in gold." In these enthusiastic words, Mr. James Ferguson a well-known resident of this place voices the almost universal sentiment in regard to the greatest of Canadian remedies.

"I have taken Dodd's Kidney Pills," Mr. Ferguson continues, "for backache, stiffness of the joints, rheumatism and headache, and found them as represented."

"I cannot say too much in praise of Dodd's Kidney Pills, and give my full permission to have my name published in regard to them."

People who have been sick and are cured, want to tell of it. They are grateful to the remedy that gave them back their health. They want their friends to know just how their ailments can be cured.

That is why from one end of Canada to the other, people are talking of Dodd's Kidney Pills. They cure kidney disease, and kidney disease is the root of the great majority of diseases to which the Canadian people are heir to.

Dodd's Kidney Pills cure backache, lumbago, rheumatism, gravel, diabetes, heart disease and Bright's disease, because any and all of these spring from diseased kidneys.

**WIFE DENIES UNDER OATH
POISONING OF HER HUSBAND**

Mrs. Frederick Beemer Tells Straight Story of Events Connected With Drumbo Man's Death—Young Farm Hand Had Sworn Woman Poured Contents of Bottle Into an Egg Cup.

WOODSTOCK, Nov. 7.—Mrs. Grace Beemer, who is on trial before Mr. Justice Kelly on a charge of poisoning her husband, told her story in the witness-box yesterday. While she frankly admitted several contents advanced by the Crown, yet a vigorous cross-examination by Assistant Crown Attorney Ball, in the effort to show a motive for the crime, failed to shatter her evidence with any degree of success.

Mrs. Beemer was placed throughout the entire cross-examination. She stood with one hand resting on the rail for almost two hours, her position never varying except when she frequently applied a handkerchief to her face with the other hand. Occasionally her eyes would fill with tears when the name of her husband was mentioned.

All the witnesses for both sides have been examined, and it is expected that the case will be given to the jury this afternoon.

Crown Fails to Discredit Defence
Yesterday the Crown was unsuccessful in its efforts to overthrow the testimony of any one of the defence witnesses, while Mrs. Beemer flatly contradicted some of the important details alleged by John Mason, the farmhand who declared

that she had poisoned her husband. In giving her evidence Mrs. Beemer remarked that she had summed up the facts succinctly and well, and while there might be facts that were still obscure she was satisfied that her recollections of the main facts were not clouded with a mist.

Mason's Testimony Contradicted
To Mr. W. T. McMullen, K. C., her counsel, she declared that she had never kept eggcups in the house and that Mason was untruthful when he asserted that he had watched her empty poison into an eggcup, which she subsequently dumped into a dose of salts for her husband. She said she had no poison in the house and had not purchased strychnine for over two years. It was a mystery to her why Mason should make such assertions, because she had positively dispensed no other form of medicine, salts or tablets, except that prescribed by Dr. Woolner.

Says Husband Declined Attendance.
Mrs. Beemer briefly referred to the occasion when her husband returned from Galt and complained of suffering from stomach trouble, which was followed four days afterwards in a more serious form. She had repeatedly wanted to send for a physician,

but her husband had declined medical assistance at the time, thinking he would soon recover. She said that she had administered only three doses of salts, and that she entertained no fear of serious results until her husband had remarked, "Would you look after the children if anything happened to me."

Thought He Was Only Joking.
She had pondered over the remark and concluded that he was only joking, because he was desirous of living. She explained that she had not mentioned the incident at the previous investigations because she had attached no importance to it.

Sylvester and Cassidy Contradicted
Mrs. Beemer in a most pronounced manner contradicted the statements of Sylvester Beemer and Chas Cassidy to the effect that her mother had demanded the identity of the "fool at the bottom of this trouble," when she learned of the death of her husband. The remainder of her evidence was a corroboration of that given at the coroner's inquest.

Could Not Explain Mystery.
Cross-examined by Mr. Ball, Mrs. Beemer denied having heard her husband say in the presence of two of the Crown witnesses that he felt like a man who had been poisoned.

"Do you suspect he took it himself?" queried the Crown Prosecutor. "It is hard to believe it; I certainly did not do it," she retorted sharply.

"Did you make inquiries of the doctor regarding the nature of your husband's illness?"

"I did but he seemed unwilling to tell me what he seemed unwilling to tell me," she replied.

Mrs. Beemer told the crown prosecutor that she had never known her husband to be despondent and that she could not explain the mystery surrounding his death.

Medical Testimony Says Strychnine.
The medical experts and the doctors called by the crown were united in declaring that Beemer had died from strychnine poisoning.

Chief Coroner Arthur Jukes Johnson of Toronto stated that he had formed his conclusion upon the results of the post mortem report, and the statements of several witnesses, whose descriptions of the sufferings of the many wholly denoted that the symptoms clearly pointed to death by strychnine.

Prof. Rogers of the Provincial Analyst's Department said he found one grain of strychnine in the stomach and traces of it in the liver. He had administered it to a frog in a test to determine that it was poison, with the result that it produced the characteristics of strychnine convulsions.

Doctors, Sutherland and Woolner, who made the post mortem examination, agreed that the marked rigidity of the body eighty-six hours after death indicated that death had been caused by poisoning. Dr. John Mearns and Dr. A. B. Welford of Woodstock gave evidence on behalf of the defence.

Mason Repeats His Evidence.
John Mason, the star Crown witness, repeated the evidence given by the defence counsel he should attempt to divert the inquiry into a wrong channel. He had omitted to say at the Police Court investigation that he had noticed Mrs. Beemer drop strychnine or a white substance into an egg cup, because he was not sure at the time whether Beemer had been poisoned.

Other Witnesses for Crown.
Teresa Beemer, the sixteen-year-old daughter of the accused woman; High Constable Hobson and Dr. John Mitchell of Drumbo, who sold strychnine to Frederick Beemer two years ago, were called by the crown. Chas. Miller, who was formerly employed on the Beemer Farm, was called in rebuttal evidence, to contradict the contention of the defence that corn had been grown on one part of the farm two years ago, and that strychnine had been obtained to spread over the ground to keep the crows from injuring the crops.

Defence Witnesses Called.
Mrs. Maria Beemer and George Beemer, parents of the accused woman; Charles Cohan, of Bridgewood; John Milton, Paris; Mr. and Mrs. George Buchanan, Galt; Mrs. Minnie Troup, Drumbo; George Law, Drumbo; John Bright, Drumbo; and Wm. H. Parker, Chief of Police of Great Yarmouth, England, were called by the defence.

English Officer's Evidence.
Chief Parker declared that John Mason bore the reputation in England before being sent to Canada of being untruthful. All the rest of the witnesses stated that Beemer had mentioned to them that the heavy mortgage on his farm had been worrying him, and he feared he would lose everything. They had also declared they had never seen eggcups in the Beemer home.

Right Hon. James Bryce's Comment on Anglo-American Relations at Pilgrims' Dinner in London.

LONDON, Nov. 7.—United States Ambassador Page gave a luncheon yesterday in honor of Hon. James Bryce, formerly British Ambassador at Washington.

The staff of the American Embassy and a number of distinguished British and foreign diplomats were among the guests.

Introducing Mr. Bryce to the Pilgrims, the American Ambassador Mr. Page, who presided, paid a high tribute to the ex-Ambassador at Washington, as the Ambassador-in-Interpreter of the nation and its institutions, and as the man.

"Blushing Honors Nobly Won."
"I welcome him home," Mr. Page said, "as the Ambassador-emeritus to the American people. All his blushing honors have been nobly won."

The American Ambassador then spoke of Mr. Bryce's great popularity in every state, all of which the ex-Ambassador had visited. The only honors America could confer, he said, were academic, and Mr. Bryce had more of these from American colleges than even "that least quiet academician who now is harvesting a crop of such honors in South America."

After thanking the Pilgrims for their welcome back to England, Mr. Bryce said that when he resigned his place in the Cabinet more than six years ago and went to the United States in order to try to settle a number of long outstanding questions he foresaw a laborious and difficult task.

Tribute to Senator Root
"When Mr. Root and I," Mr. Bryce continued, "began to make treaties, the first thing we did was to make friends with one another and friendship is a great aid to business. I found in Mr. Root, the then United States Secretary of State, not only a brilliant intellect, but what is even better, and perhaps more rare, an eminently fair mind, capable of seeing both sides to every question, and a sincere lover of peace. Mr. Root exemplified in practice the dictum he had once delivered, that there is no international controversy that cannot be honorably settled, if both the parties wish to settle it, and it was our good fortune to settle all the questions that had been outstanding between us, and among these that old and thorny controversy over the North Atlantic fisheries, which had more than once threatened our good relations."

Mostly Canadian Questions
"Most of these questions related to Canada. I have always felt that it is the duty of an Ambassador to regard and maintain the interests of Canada and the other Dominions no less than that of Great Britain. Most of my work was concerned with Canada, and I should be ungrateful were I not to tell you of the unceasing and invaluable co-operation of Lord Grey who was Governor-General; his highness the Duke of Connaught, kindly extended to me, during the last year of my stay, a like counsel and aid; while from the two successive Prime Ministers, Sir Wilfrid Laurier and Mr. Borden, a constant confidence which is a pleasure to acknowledge."

Returning hither from America, I have two things to say to the British Pilgrims, gathered here as friends of the American people. One is that you must not take too seriously the lurid pictures of American life drawn in some organs of the European press.

"In Washington I used to be struck by the dark view which the press news from Britain conveyed of British events and conditions, a view which I knew to be misleading. Here the same thing happens. Cable messages and the vivid pens of correspondents inevitably heighten the color. Unlike stocks, news would be the better of being watered when they cross the sea."

The Friendship of Nations.
"My other message is to assure you that the friendship you entertain for the people of the United States is reciprocated by them far more universally and far more heartily than ever before. There is a friendship of Governments and a friendship of nations. The former may shift with the shifting of material interests, or be affected by the relations of each power with other powers. But the latter rests on solid and permanent foundations. With two peoples it is based on a community of speech, literature, of institutions, of beliefs, of traditions from the past, of ideals for the future. In all these things the British and American peoples are closer than any two other peoples can be. Nature and history have meant them to be friends."

"Next year we are planning to celebrate the completion of a century of unbroken peace between Britain and the United States. For our two peoples the celebration has a special significance. But it is much to be desired that other peoples also should be associated with it, and that both by our example and by our world-wide influence we may together try to reduce the apprehensions that trouble the rest of other nations, and endeavor to draw more and more of them

MANY MATTERS DISCUSSED BY THE PUBLIC SCHOOL TRUSTEES

Nurses' Report on Health of Children is Not Encouraging—Cases of Defective Vision and Teeth—Big Grist of Business Taken Up.

The regular meeting of the Public School board last evening was of more than ordinary interest. The report of Nurse Macpherson giving the result of her inspection of pupils for the month came in for considerable consideration and discussion. It was shown that she had discovered 33 pupils with defective vision; 75 with teeth that needed immediate attention, and 21 suffering from nose and throat troubles to say nothing of a number of lesser troubles. Dr. Ashton reported on the matter of the Cadet movement among the boys of the schools. It was shown that there were several qualified male instructors on the staff. There are six companies either organized or in course of organization and it was decided to appoint Mr. Thomas Bingle as quartermaster of the corps. Mr. Cutcliffe reported that the plans for the new school would be ready for the board's approval early next week and tenders called for.

These present were: Dr. Ballachee, chairman pro tem.; Trustees David Lyle, I. D. Scruton, J. H. Clement, M. E. B. Cutcliffe, Arthur Coulbeck and Dr. Ashton.

The minutes of the last meeting were approved and a number of communications referred to their respective committees.

Teachers Ask Increase.

The request of the Teachers' Association for an increase of the maximum salary and a rearrangement of the salary schedule was referred to the School Management committee.

It was decided to transfer the entrance class from Ryerson school to the Central school so as to relieve the overcrowded condition of the West Brantford school.

Nurse's Report.

Nurse Macpherson submitted her monthly report of inspection of pupils, which showed 53 with defective vision, 75 with faulty teeth and 21 with nose and throat afflictions together.

with numerous other physical troubles which the nurse considered of sufficient importance to call attention to. She had personally visited 56 homes of children in connection therewith.

Dr. Balachee in speaking on the report said it should not be passed over without some action being taken. He presumed that the cases mentioned were all new ones. It was his opinion that numerous cases mentioned should be looked after, and if the parents were not interested enough or unable to pay for the medical attention needed some way should be devised for having it done.

It transpired that some little time ago, a philanthropic citizen had donated \$100 for just such purposes as this, but it had been used up long ago. It also transpired that Dr. Bell had been quite liberal with his services in this connection as had also been inspector Kilmer.

The system in vogue is for the nurse to send a notification through the child to the parents, calling attention to the defects. Trustee Coulbeck suggested that the Nurse also give the teacher a list of the pupils who needed attention and that it be their duty to see that the card reached the parents and an answer received. This suggestion was thought to be a good one and was adopted.

Dr. Ballachee and Mr. Bunnell will go to Toronto in a few days to get ideas as to how the teeth of the children there are looked after, before a room is fitted up in the Central school for that purpose.

To this total must be added 154 city pupils who are being sent to Grandview school, making a total enrollment for the city of 3360 pupils. It was shown that the school population was increasing by three rooms each year.

WILL PRINCE OF WALES WED PRINCESS TATIANA OF RUSSIA?

The Prince of Wales in Coronation Robes.

PRINCESS OLGA AND TATIANA ELDEST DAUGHTERS OF THE CZAR.

The Prince of Wales, heir to the throne of Great Britain, has fallen in love with the Princess Tatiana, according to reports in court circles.

Gossip has it that the young son of King George has been captivated by the beauty of the Princess, the second daughter of the Tsar, and regarded as one of the most beautiful girls in Europe.

It is known that King George and Queen Mary will visit St. Petersburg next Easter, and that the Prince will accompany them. The engagement, according to the reports, will be announced at that time.

Diplomats are certain that such an alliance would vastly strengthen the Anglo-Russian entente, none too popular in either country at the present time.

Manual Training Report.

Inspector League submitted his report of conditions at the Manual Training School. To say the least it was decidedly flattering. The work of Instructor Styles was mentioned as "of a very high order." He suggested the purchasing of certain equipment.

At this stage a representative of the West Disinfecting Company was allowed to address the board with reference to the wares of his firm. He exhibited samples of paper towels, disinfectant cleaning liquid, etc., and answered many questions. He is to give a demonstration to-day of the value of his goods.

A "Roast" for Brantford.

Mr. Mackenzie of Toronto who addressed the board of the Penny Bank a few months ago, and who together with Mr. Hughes of Toronto addressed the Teachers' Association recently, sent a communication to the board re the establishment of Penny Banks. He said the board were away behind the times in not having a Penny Bank system and in collecting school fees from the pupils. Called the system antiquated and alluded to the board living in mediaeval times. It was a pretty good "roast," or as one of the members called it "an insolent letter."

The secretary has sent a reply "in kind" to the gentleman in question, and said that the board would be pleased to hear Mr. Hughes, as requested.

In response to a question from Trustee Scruton it was stated that the fees collected from pupils amounted to about \$2500 a year. Inspector Kilmer said the collecting of fees was optional. The board were compelled to supply a certain kind of books to the pupils on certain subjects, fees of no fees. The fees collected did not quite pay for the paper, scribbles, pencils, pen, ink etc. used. He said that were a change to be made at all he would favor fees being collected from the lower grades.

Cadet Movement.

Dr. Ashton gave a history of the Cadet movement in Brantford Public Schools. Cadets were supposed to be fifteen years and over and a company to be composed of at least 30 boys. The Militia Department gave a grant of \$1 per boy up to fifty, over that amount a graduated scale. This grant went to the instructors as pay for their services. At the present time there were seven duly qualified instructors in the city, Messrs. Joyce, Bingle, Rowe, White, Dixon, Gamble and Foster, on the staff. As

there were only six companies under organization, he suggested that Mr. Thomas Bingle, who had been exceptionally enthusiastic from the first in the movement, be made quartermaster of the corps, with a grant of \$50 from the board for his services, to begin Jan. 1, 1914.

During the discussion it transpired that Mr. Bingle had gone to considerable personal expense in the interests of the boys and was enthusiastic in the work. He had taken 35 boys to camp as requested by Captain Marshall of this district, and had made a good showing. The board heartily endorsed the recommendation and made the grant in appreciation of the good work done by Mr. Bingle.

Dr. Ashton also made a recommendation that one half hour be given each week to the cadets for drill, to be in addition to the time they always spent after hours. He suggested that those who did not belong to the cadets and the girls being given physical exercise during the space the cadets were drilling. After some discussion it was decided to leave the matter in the hands of the school management committee to report upon.

Finance Committee.

Chairman Scruton of the Finance committee submitted a long list of accounts which were passed.

New School.

Chairman Cutcliffe of the Buildings and Grounds committee, stated that plans for the new school would be ready for the board's approval early next week. Tenders would then be called for.

Will Hold Entertainments.

Requests were received from Principals Parke and Rowe for permission to hold entertainments in their schools to secure funds for the Art League of their schools. The requests were granted subject to certain conditions being complied with.

Mr. Jordan Makes Request.

Mr. H. K. Jordan, who will arrive home from Europe shortly, made a request that he be allowed to train a chorus composed of pupils from Dufferin and Victoria pupils with a view to putting on a big concert in the future. The board would be under no financial obligation whatever. Half the proceeds of the concert would go to the Art League of the two schools mentioned and the other half to Mr. Jordan.

The trustees while they favored the idea thought it unwise to grant the request for various reasons.

RATEPAYERS ARE UNANIMOUS.

WOODSTOCK, Nov. 6.—The ratepayers yesterday voted on the industrial by-law to loan \$12,000 to the Fort Wayne Oil Tank and Pump Company, and the result was the carrying of the by-law by a large majority. The total vote cast was 925. Of this total 862 votes were polled in favor of the by-law and only 63 against it. It required two thirds of the total vote polled, or 617, to carry the by-law. There was therefore a majority of 182 over the two-thirds required by law.

Fifty thousand dollars' profit for the city was realized at an auction sale of land expropriated by Montreal for a street extension and not required.

THE OWLS HAD A JOLLY TIME

The Nest in Brantford is Growing—An Evening's Entertainment.

Hoot! hoot! hoot! It was a real jolly and merry lot of wise old owls that gathered in their nest up in the top of the building on the corner of Dalhousie and George streets last night and hooted away to their heart's content. It was the occasion of a social evening and oyster supper given by the officers and members of Brantford Nest, Order of Owls No. 1758.

The nest was called to order by President Joe Johnson, and the wise old owl mapped out the programme for the coming winter months. After he had outlined the season's work he sat at ease for the rest of the night, and that a social evening was in store for the boys, invited them to an adjoining room to partake of an oyster supper, and the "feathered bunch" winked their eye and proceeded there at once.

How do you like your oysters, said Joe.

Raw, raw, raw, yelled the Owls. It was a case of "birds of a feather flock together" when they swooped down on the "raws and stews." After all the "never sleeps" had their fill of the contents of the shells from the bottom of the restless ocean, "Auld Joe" gave a "hoot" and the birds came to order, and after the cigars had been passed around a programme of music and song was in order.

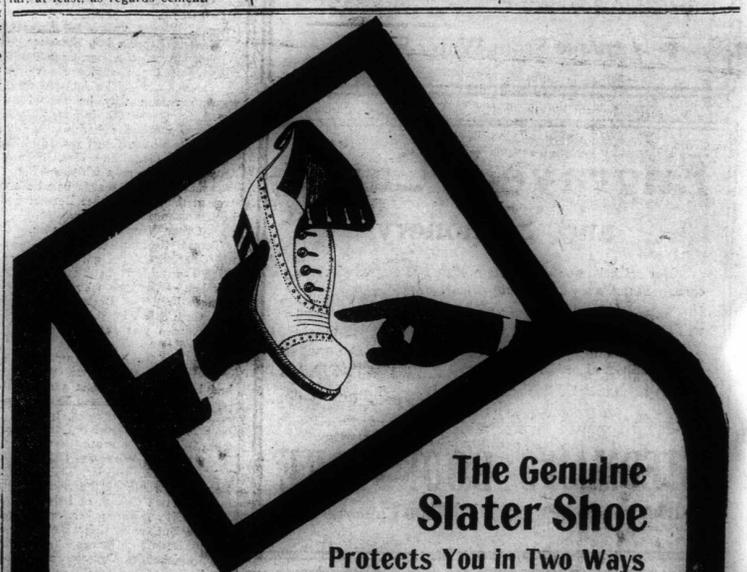

Chairman's address, President Joseph Johnson; cornet solo, Mr. Noakes; solo, Bro. Hodson; address, George Page; piano solo, Mr. Porter. Three songs by C. B. Todd enlivened the proceedings greatly.

The Brantford Nest of Order of Owls have been organized for a year and during that time have made good progress and now have a good healthy lodge in the city.

SCOTT ACT VOTING LIKELY ON THE 24TH.

OTTAWA, Nov. 7.—The date of voting on the Canada Temperance Act (commonly known as the Scott Act) in Huron, Peel and Welland, will probably be fixed by the Secretary of State for November 24. Jas. P. Haverston, K.C., of Toronto, counsel for the Licensed Victuallers' Association, was here yesterday in connection with the matter. The opposing sides could not agree on a date for the voting, and the Secretary of State has been asked to make the decision. In the case of the five or six other municipalities, from which applications have been received for a vote on the Scott Act, the date will not be fixed until the voters' lists have been revised.

Builders' exchanges in the west will co-operate with the farmers' associations in urging removal of duties, so far, at least, as regards cement.

Should any one be laboring the decision that the session of the Commission in any way be a pink tea, it is here stated that sessions do not, that is the glory of them. The session yesterday afternoon at which the quota of members—Judge Mayor Hartman, Magistrate L. ston and Chief Slemin were did not in the least resemble of those pink affairs. Mayor man was a central figure, Mag Livingstone was second for the ors. Judge Hardy enlivened prings by denouncing one of things and dispensing wit and Chief Slemin—well, he when it was necessary.

The Dale Case.

Mr. Dale's Letter.

Mr. Dale is a farmer residing Alford Junction, who on Oct. 10, 1913, received very treatment at the hands of the ford police. Mr. Dale was on Market street, when he was ressed for driving a horse w sore shoulder. He set out the property taken off his person, told the officer he was never ar or summoned before and asked given bail until he had a trial. He states that he was informed officer that he could not do so. Dale further set out that he well acquainted and he could bail for any amount, but he

UNIONISTS LOST BYE-ELECT

But the Majority for Lib Was Greatly Reduced.

[Canadian Press Despatch] LINLITHGOW, Scotland, N.—Mr. Pratt, the Liberal candidate Linlithgowshire, was successful his Unionist opponent, James by a greatly reduced majority a bye-election held here yesterday figures: Mr. Pratt, (Liberal) James Kidd (Unionist) 5,149, M ty 521.

At the last election, Alexander the Liberal candidate, polled votes against the 3,765 received James Kidd, Unionist.

Mr. Ure vacated the seat weeks ago on his appointment lord president of the Scottish of sessions, and it was difficult the Liberals to find a candidate replace him, but Mr. Pratt, who a former ballie of Glasgow and tically unknown in the constituency was selected to meet the Un James Kidd, who had been before voters for years. The contest vigorously fought, no fewer than 709 out of the 11,866 registered ers casting their ballots.

The result makes no difference the strength of parties in the of Commons.
