

CLONDBURST VISITS THE CITY OF ERIE, PENNSYLVANIA, AND MANY PEOPLE ARE KILLED

Death Roll Will in All Probability Reach Twenty-Five--Dozens of Factories Swept Away and Big Money Loss.

Erie, Pa., Aug. 4.—Twenty-five lives lost, as estimated by the police, millions of dollars in property damage, and the city in total darkness last night, is the result of a cloudburst shortly after six o'clock at night that culminated in a flood that inundated a large section of the city.

Water is running from three to five feet deep in the streets. Many houses have been washed from their foundations. Water has reached the second story of others, and rescuers are working to the limit of their ability conveying persons in perilous positions to places of safety.

The city is in darkness, and all lines of communication are down with the exception of one telegraph wire at the edge of the town.

LIGHT CUT OFF. Among the first plants to go out of commission was the Erie County Electric Company, which supplied the city with light.

At 8:45 the Glenwood dam three miles above the city burst, and a huge wall of water swept down thru the city, carrying with it the homes of those who had waited until last minute to leave.

Four blocks on either side of the stream, including State street, the main business artery of the city were covered with a depth of from six inches to five feet.

NEW CREDITS FOR THE WAR

Reichstag Will Reassemble for This Purpose--Banks Have Plenty of Money.

Berlin, via London, Aug. 4.—The chief business of the Reichstag, which assembles, August 19, will be to vote new credits for war purposes.

The great German banks say they have completely sold out their bonds of the two previous war loans and now have unusually heavy deposits.

These recently were swollen so abnormally that the Berlin banks reduced the rate on current deposits to the normal level.

Berlin, via London, Aug. 4.—The emperor, it is officially announced, has received a despatch from Dr. Seitz, governor-general of German Southwest Africa, explaining his surrender to General Louis Botha early in July.

These recently were swollen so abnormally that the Berlin banks reduced the rate on current deposits to the normal level.

London, Eng., Aug. 4.—Miss Katherine Alice Page, daughter of the United States Ambassador to Great Britain, and Mrs. Walter Hines Page was married at 2:30 o'clock this afternoon at the chapel royal, St James Palace.

The ceremony was performed by Bishop Boyd-Carpenter, sub-dean of Westminster, assisted by the Rev. Edgar D. Sheppard, sub-dean of the Chapel Royal.

The bride's gown was of white tulle edged with pearls and she carried a small wreath of orange blossoms.

Among the gifts received by the bride was a fan made of amber and old lace from King George and Queen Mary.

GERMAN EFFORTS TO SECURE A CRUSHING VICTORY NEAR WARSAW COMPLETELY FAILED

OFF TO A GREAT START

Brantford Effort to Raise \$20,000 or More for War Purposes is Well Supported.

Brantford's campaign for \$20,000 or more, for the purchase of machine guns, ambulances and other war supplies, has started off in first class style.

Seven thousand dollars was the record this morning as follows: H. Cockshutt \$2,500, \$1000 for 25th Dragoon's \$1000 for one gun, \$500 for kitchen; Out Sales organization of Cockshutt Plow Co., \$1000; Factory Organization of Cockshutt Plow Co., \$1000; Lloyd Harris, \$500 (kitchen); Verity Plow Company's employees, \$1000; Barber Ellis Co. and employees, \$1000.

The following firms have been interviewed: Waterloo Engine Works, Gould, Shapley and Muir; Adams Wagon Works, Bucks Store Co., Hans and Notts, P. H. Secord and Sons, Steel Co. of Canada; Brantford Cordage Co., Wm. Paterson and Co., Ltd., Brantford Starch Co.

As a result of the preliminary meeting held on Monday by employees of the Verity Plow Co., another enthusiastic and largely attended meeting was held at noon yesterday to make up the matter of purchasing a machine gun for Canadian troops.

The chairman, in a short, rousing speech outlined the needs of our Empire and urged upon the men the necessity of doing their bit at home in this practical manner.

The committee which looks after subscriptions from the general list reported that \$1125 had been collected by 2 o'clock to-day.

Russian Defensive Has Proved More Effective Than Was Expected--Business as Usual in Polish Capital.

London, Aug. 4.—A despatch to the Daily Mail from Petrograd says: "The local rear guard actions which the Russians have been fighting to cover the retreat from the Vistula line have almost achieved their purpose. The German efforts to secure a crushing victory have failed. The enemy has not managed even to crush any of the rear guard. Indeed, several of these are more than holding their own and causing the Germans the heaviest of losses."

Field Marshal Von Mackensen's army for the moment appears to be incapable of any vigorous offensive, and all the German armies seem to be in need of reinforcements. Heavy fighting is expected between the Viadrz and Bug Rivers, where the Germans are likely to make another effort to draw the Russians into a general engagement.

It is learned that the stream of troops from the western front to the eastern zone, which began more than three weeks ago, continues undiminished and with greater speed. The places of these troops are being taken by men of five weeks training. These consist of landsturm between the ages of 35 and 45 and recruits of 18 and 19 years of age, all of whom the authorities intended not to send to the front before September, as heretofore no troops have been sent of less than nine weeks training.

Refugees arriving here from the provinces declare that order everywhere is being maintained, that there has been no pillaging, robbery or violence. Advice from Lodz to the effect that all grain and garden produce in the Polish provinces now in German hands have been confiscated, Lodz and certain industrial areas excepted, leaving barely enough to sustain the life of the population. In addition a tax has been levied equaling the existing land tax.

RUSSIAN OFFICIAL REPORT OF THE FIERCE FIGHTING

Tells the Story of Heroic Resistance and Great Slaughter of Enemy.

Petrograd, Aug. 4.—An official statement given out to-day by the Russian general staff says: "During the last three days the enemy has made enormous efforts to dislodge us from the sector of the Narew River from Ostrolenka to Lomza."

"In the district of Jedwabno the enemy is conducting trench warfare, but by the exploding of mines we have continually held the upper hand."

"Near the mouth of the Skwa, the enemy, thanks to the forests, succeeded in passing to our side of the river, but we successfully prevented him from bringing his artillery across the Narew and at the point of the bayonet we annihilated some forces which were deprived the protection of their artillery."

France and send them to reinforce the Roazan army which was moving more rapidly.

"This army was considerably strengthened by other reinforcements which came to it from the left bank of the Vistula. Nevertheless, all the efforts of the enemy to make progress to the east and west were broken by the River Oje."

"The enemy then changed the direction of his attack, and now on the front between the Narew and the Oje is making great efforts to advance in a northeasterly direction behind Ostrolenka."

"In the southern sector of the battle the enemy repeatedly hurled large masses of infantry against our trenches, but while suffering severe losses he advanced only two or three versts (1.8 miles)."

Preparing of Answers at Washington of the Notes of Great Britain

New York Herald Condemns British Tone With the German.

Washington, Aug. 4.—Officials to-day are preparing the answer which the United States will make to Great Britain's replies to the latest American representations against interference with neutral commerce.

Great Britain in her papers published to-day refuses to accept the American contention that the orders in council are illegal and justifies the British course as being wholly within international law.

Great Britain, it is declared, will continue to apply the orders-in-council, but with every effort to avoid embarrassment to neutrals.

man controlled territory on the ground that Germany has violated international law in her war on British and neutral commerce.

An answer to the British notes shortly will be forthcoming, data of which has been in course of preparation for some time.

The German note regarding the sinking of the American ship William P. Frye, probably will give out late to-day for publication to-morrow morning.

EMPIRE UNITES IN PRAYER ON WAR ANNIVERSARY

King and Queen Attend a Very Impressive London Service.

London, Aug. 4.—The British Empire united to-day in prayerful observance of the anniversary of the declaration of war against Germany.

In virtually every city and town in the British Isles, as well as in all parts of the Dominion and colonies overseas, the day was one of intercession and prayer with meetings of common aim and purpose to ask the aid of the Almighty for ultimate victory in a cause which the British people consider just and righteous.

The chief ceremony was held in London with services attended by King George and Queen Mary at noon in St. Pauls Cathedral.

NEW YORK ALSO VISITED

Very Heavy Rain Floods Streets and Suburbs.

New York, Aug. 4.—Streets in New York City and its suburbs were turned into yellow rivers, surface and elevated traffic was badly crippled, wires were blown into a tangled network, trees uprooted and hundreds of cars flooded in a torrential downpour that broke over the Metropolitan section this morning to the accompaniment of a sixty mile gale.

In a dozen parts of New York City and Brooklyn the streets lay under water from two to three feet deep. Fifteen trolley lines in Brooklyn and as many more in Manhattan, it was estimated were stalled by the flood.

marked difference in the tone and spirit of the British and German notes, particularly the German replies since the blowing up of the Lusitania. It points out that Great Britain declares its intention to enforce the blockade as a war measure, with the fullest consideration for the interests of neutrals "and there are no attempts to dictate impossible or unacceptable methods for avoiding present inconveniences."

"Our differences with Great Britain are of a justifiable nature." The Times continues. "Failure to adjust them by diplomatic correspondence would involve no serious consequences than those arising from any disagreement which might be found necessary to refer to an arbitral tribunal. The Washington Government will be alert to safeguard our interests whether interfered with by Britain or Germany, but neither the American Government or people will ignore the fundamental differences of the two countries which are right to trade under established principles of law; the other, the right of our citizens to travel on the high seas without exposing themselves to murderous practices which can have no defence in law."

FIFTY DEAD

Erie, Pa., Aug. 4.—Coroner Hanley shortly before noon to-day estimated that fifty persons perished in last night's flood. THE SITUATION.

The Russians are giving another marvellous and inspiring illustration of sticking it out against great odds.

It is now conceded that Germany has eight million men at the front and is holding another three million in reserve.

John Bull in his notes to the States firmly, yet courteously, justifies his

course with reference to neutral commerce and states that same will be continued, but with every effort to "avoid embarrassment."

BRANTFORD'S CAMPAIGN. Brantfordites have met many calls in connection with the war in splendid fashion, and they are rising to the latest one with equal alacrity.

The boys at the front are doing their part, even to the extent of life itself and the very least that those of us can do, who remain behind, is to back them up with machine guns, ambulances or anything else which will help them in the offensive and aid them when hurt or in the trenches.

No better thing to do than to cut off some personal indulgence and donate the money thus saved, to the good cause.

Altogether now for home, and country and Empire and self-respect.

SOME RECRUITING FIGURES. It has been generally known that the Canadian West has responded much more freely and spontaneously with regard to the recruiting than the East, and now the figures are given which prove this fact with great emphasis.

Table with columns: Prov., Pop., Vol'ts., P.C. Rows for Ontario, Quebec, Maritime Provinces, Manitoba and Saskatchewan, British Columbia.

Alberta ... 374,663 14,200 3.73 7,089,650 105,700 It will be seen that Alberta, Manitoba, and Saskatchewan have all done well, the last named especially so, while Ontario is not nearly up to the mark, and the Maritime Provinces and Quebec have good reason to feel ashamed of themselves.

Had each province done as well as Alberta, the results would have been: N. should have enrolled 10,000,000.

Table with columns: Province, Population, Teered, listed on Alberta basis. Rows for Alberta, British Columbia, Man. and Saskat'wn, Maritime Provinces, Quebec, Ontario.

The case of Quebec cannot be regarded as otherwise than extraordinary. Here are a people who have enjoyed unexampled liberty under British rule, and whose Motherland is now fighting so brilliantly alongside of John Bull, yet they remain disgracefully passive.

As far as Brantford and Paris are concerned, if the rest of Ontario had done as well, even the Alberta record would have been beaten. More than one thousand men have gone from this city, a very large per cent. of the population, and over three hundred from Paris, whose main manufacturing establishment to a very large extent employs nothing but female help.

Children Cry FOR FLETCHER'S CASTORIA

NOTES AND COMMENT Twenty thousand or more—make it the more. Noah could not have had much more incentive to build an ark than this July has presented.

Those Russians are stayers, from Stayerville, Stayer County.

The Kaiserites are still striving to get the Bug. What do they want it for when they have the Emperor.

John Bull stands by his blockade methods, which he rightly claims are strictly legal.

LANGORD

Rev. Mr Bowers had charge of the quarterly service here on Sunday morning. There was not as many out as there ought to have been.

Mr and Mrs David Stuart returned home after spending several weeks in the States.

Mrs A. Cornell entertained her children and grandchildren on her birthday one day last week.

Miss Daisy Westbrook spent Sunday out of town.

Mr and Mrs F. L. Laings, Master John and Clarence were guests on Sunday of Mrs Laings' parents in the city.

Mr and Mrs Southern, Toronto, are guests of Mr and Mrs. U. Kendrick for a few days.

The Cornell family attended the Haviland picnic on Saturday.

Mr and Mrs W. Kent, Mr. Kents' mother and Mr. and Mrs. Howell, Paris, were calling on friends on Sunday afternoon.

REAL DANGERS ARE FACED

By Men Who Help to Produce the Movies.

That motion pictures in the making often require the players to face real and serious danger, and even the possibility of sudden death, is a feature of the movies that few persons realize.

DUMA ANANIMOUS FOR WAR

Resolution to This Effect Was Passed Unanimously.

Petrograd, Aug. 4.—Michael V. Rodzianko, of Ekaterinoslav, to-day was re-elected President of the Russian Duma by a vote of 296 to 24.

BRITISH RACE IS ALL RIGHT.

Westminster Gazette.—If any one among us has despaired of the British race, or let his mind be affected by the constant assertions of German writers, echoed by pessimists in this country, that our young men have grown soft and feeble, let him take and read the wonderful despatch which that gallant commander, Sir Ian Hamilton has sent from the Gallipoli, and then read it again.

ALLEGED REVOLUTIONS

Lisbon, Aug. 4.—Sensational and alarming reports are current in the capital of no less than three separate revolutions in Portugal.

Loss of Appetite is commonly gradual; one day after another is set aside. It is one of the first indications that the system is running down, and there is nothing else so good for it as Hood's Sarsaparilla—the best of all tonics.

Time and Trial Prove

the unequalled value of Beecham's Pills as the best corrective of ailments of the digestive organs so common—and the best preventive of lasting and serious sickness so often resulting from defective or irregular action of the stomach, liver or bowels.

Beecham's Pills

have a great record. For over half a century they have been used with entire satisfaction in thousands of homes. A few doses will prove to you that you can find prompt relief from the headaches, depression of spirits and general no-good feelings caused by indigestion or biliousness.

An Invaluable Aid to Health

Prepared only by Thomas Beecham, St. Helena, Lancashire, England. Sold everywhere in Canada and U.S. America. 14 boxes, 25 cents.

THE LESSON OF WAR Sydney Bulletin—Though the news comes to them in a furtive, disjointed fashion, the Australian people are learning for the first time what war really is, and bitter as the lesson may be, they are realizing how needful it is to make that preparation for defence which is the best guarantee against attack. The letters now coming from Gallipoli afford dramatic illustration of war's monstrous horrors and the supreme test of endurance the enemy imposed. Our men have fought bravely. They have also suffered cruelly. And their deaths and wounds emphasize with tragic force how fundamental is the duty of Australians to so order their national life as to keep the grim monster of battle away.

Austrians Preparing to Evacuate the First Lines, Isonzo Region

Germans Lose Twenty Thousand in Some Heavy Fighting.

By Special Wire to the Courier.
Geneva, Switzerland, via Paris, Aug. 4.—A despatch to The Tribune from Laibach says:
"The Austrians are preparing to evacuate their first lines of defence in the Isonzo region from Travignolo to Avisia. In Tyrol the Italians are forcing the enemy across the railway. In a strong Italian advance in the Gail River Valley, the best Tyrolean troops were overcome and several points on the Gail were occupied. In the Fela River region (Carinthia) the Italians took possession of several miles of the railway."
A despatch to the Tribune from Innsbruck, dealing with the fighting in Poland says:

HEAVY RAIN Worked Much Damaged to Crops.

Toronto, Aug. 4.—According to the "weatherman" the district from Kingston to Lake Michigan was included in the violent storm yesterday. Few reports have come in, but if the remainder of Ontario is hit as badly as Toronto and York, Halton and Wentworth counties the loss in crop alone can hardly be estimated. There could have been no worse time for a storm of the kind to have occurred. The heaviest grain crops in Ontario were standing up full grown, ripening ready for the reaper. Togoland and rain would flatten the heavy crops, but a storm of yesterday's kind would ruin them. The Ontario crop was grand. It was the best in years. Nothing short of some calamity could keep Ontario from a bumper year. In the Toronto district, at any rate, there was a calamity yesterday, with good, hot weather the crop may rise a little, but in its present state much of it may not ripen.
Fortunately some wheat in the southern districts had been cut. It will be badly damaged in the shocks by the rain, but dry weather will bring it around. The uncut wheat will suffer more.

THE PROBS

Toronto, Aug. 4.—The disturbance which was centered in the Ohio valley yesterday morning, now covers the country from Wisconsin to the Middle Atlantic States and has caused a gale over the lower lake region attended by excessive rainfalls. In the West, with the exception of a light thunderstorm near Battleford, the weather has been fine and warm.

FORECASTS:

Fresh to strong winds, shifting to west and north, showery to-day, Thursday fairer.

A QUERY

Editor of Courier: Why all this fuss about getting pure water in Mohawk Park? There is not a place in Brant County, that has any better, or as good, pure water than in Echo Place. All the city has to do is to sink a few drive wells in Mohawk Park at a small cost and they will get better and purer water than the city can supply. A Resident.

PORT DOVER

A very large family picnic party will be held here on August 19th. This gathering is an annual event and very largely attended, between 2,000 and 3,000 generally being present. Children Cry FOR FLETCHER'S CASTORIA

RECRUITS

25TH DRAGOONS Yesterday afternoon the 25th Dragoons journeyed to Paris, going by radial instead of marching, on account of the heavy rain. Upon their arrival the men paraded to the Presbyterian church, and in the church parlors toured a delightful supper supplied by the ladies of Paris. The men did ample justice to the meal, and then listened to several interesting and entertaining speeches by Mayor Patterson, Col. Fisher, M.P., and several of the Paris clergy.

After this the men adjourned to the armories where Col. Fisher supplied them generously with cigars. The evening was put in by songs and speeches, the detachment returning on the last car from Paris.

This morning the men were put through some smart physical exercises on the market square. Quite a crowd gathered as this kind of drill is quite different from the ordinary gun manual.

DUFFERIN RIFLES This morning the Dufferin Rifles went through physical exercises and rifle drill in the armories, resting up between times by playing softball and football. The men who have enlisted are a good class, alert and intelligent and the officers are highly pleased with their excellent showing to date. Route marching will be tried out in a day or two of uniforms or parts of uniforms, which have not been returned by former owners, are lying about in their homes or boarding houses in the city. Any person who knows where any of these are, is requested to inform the authorities at the armories.

Two more men joined yesterday, the wet weather keeping down the number of applicants. The names: P. Alcock—English, 29 years old, married, 11 Able Avenue.

T. F. Wilson—Canadian, 44 years old, married, 75 Victoria street.

REVIEW OF THE WAR SITUATION

German Press Explaining Delay in Eastern Theatre.

By Special Wire to the Courier.

London, Aug. 4.—Rear-guard fighting of the Russians to the northwest of Warsaw has proved so effective that the German tide seems to have been held up while to the south Field Marshal von Mackensen's forces, pushing north from Lublin, are being badly battered.

About the only Austro-German progress chronicled on the vast semi-circular front in the east is toward Riga, in the extreme north, and before Ivangorod, Warsaw holds out, and that the Polish capital may yet be saved dis becoming strongly felt throughout Russia, France, and Great Britain.

The German press notes the pause in the Teutonic offensive and explains that with the daily lengthening of communications, the problem of transport and reinforcements becomes more complicated, which accounts for the delay. At the same time the efficiency of the Russian rear guard blows is not ignored by the newspaper. The German emperor and his consort heretofore reported on their way to Warsaw for a triumphant entry, have had perforce, to postpone the completion of their trip. From Warsaw itself comes the optimistic prediction that if the city is able to endure a week longer—and the despatch was written four days ago—the evacuation may be avoided.

Though thousands of civilians have fled the life of the beleaguered capital is pictured as fairly normal.

The British Empire observed with prayer to-day the anniversary of the declaration of war. Services are being held in London and in the provinces and throughout the dominions and colonies.

ENGLISH FOOTBALL TO SUSPEND BUSINESS

London, Aug. 4.—The council of the football association, who met recently, have authorized new regulations, as follows:
 No international matches or the Challenge Cup or Amateur Cup matches to be played next season.
 Associations, leagues and clubs to be allowed to arrange matches without cup, medal or other awards, to suit local conditions, provided that they do not interfere with the work of those engaged in war work.
 Clubs may join any combination of clubs which may be convenient to them.
 Matches to be played only on Saturday afternoons and on early closing and other recognized holidays.
 No remuneration shall be paid to players, nor shall there be any registration of players, but clubs and players shall be subject to the rules and conditions applicable to them on April 30, 1915.
 Agreements with payers for service after that date shall be suspended until further order.
 Consequently on these regulations the football league met, when the following was carried:
 "This annual meeting having decided to suspend the usual league competitions for the seasons 1915-16, the management committee proposes that:

"All players on the retain and transfer lists of any club shall be entitled, without transfer, to play for any recognized club except in a league competition outside England, but no player can change his old club except as a matter of convenience of work or residence.
 Clubs having extended agreements with players can make no further payments to such players until the F. A. again arrange the registration of professionals."

It was pointed out that if a group of clubs in London—arranged a competition among themselves they would all be under the control for the time being of the football league.

TWO GROUPS ARRANGED
 Two groups of clubs have already been formed for playing competition matches among themselves. Group one comprises Sheffield Wednesday, Sheffield United, Bradford, Bradford City, Notts County, Notts Forest, Derby County, Leeds City, Huddersfield Town, Barnsley City, Grimsby Town, Lincoln City, and Leicester North End.

Group two will include Manchester City, Manchester United, Liverpool, Everton, Bolton Wanderers, Bury, Burnley, Stockport County, Oldham Athletic, Blackpool, and Preston North End.

STOKE IN SECOND LEAGUE
 It was reported at the annual meeting of the league that the total receipts in connection with the league relief fund were £9,568 4s 4d, and that grants had been made amounting to £9,340 14s 11d.
 There were six applications for the two vacant places in Division II, including Leicester Fosse and Glossop who occupied the last two places in last season's competition. The voting was announced as follows: Leicester Fosse 23, Stoke 21, South Shields 11, Chesterfield 8, Darlington 4, Glossop 1. Leicester Fosse and Stoke were accordingly declared elected.

GUELPH KNOCKED SCHOEDEN OUT OF THE BOX

Ottawa, Aug. 4.—Guelph broke Ottawa's winning streak after the champion Senators had taken seven in a row. The Leafs knocked Schoeder out of the box in the fourth and also hit Shocker hard, winning by 8 to 7. Carney relieved Auld in

CRYSTALL HAS NOW RELEASED LINNEBORN

(Hamilton Spectator)
 Eddie Linneborn was released yesterday afternoon by the Hamilton club and was immediately signed by St. Thomas. Linneborn has not been giving the desired satisfaction here, although he is recognized all over the circuit as one of the brainiest players in the league. Before coming to Hamilton Linneborn had been playing second base and the change to the third corner was made in order to fill a vacancy. Linneborn was batting .275 and was one of the few players who got a hit in the recent Ottawa series.
 Another infielder is expected to report to-day, and with Woods back in the game, there will not be room for four outfielders, which means that Hank Perty will be released. Hank has become quite popular here and the fans will regret to see him go.

for poor showing of club. Take the afternoon game on Monday as an example. Four Brantford base runners advanced to third base on singles hit into Reidy's territory, and all of the bingles were short, and clean fielding would have held the runners at second base. It has also been hinted that Reidy would make a good successor to Manager Reising as leader of the club, but how would he lead a lot of players who cannot pull with him as a player. It is true Reidy has had a lot of experience and his hitting and fielding has won and saved games for London, but has he done any more than earn his salary. Schaeffer openly admitted that he was not giving London his best, merely playing according to the salary he was getting. Schaeffer was let go.

WANTED CHEAP TEAM
 The poor showing of the club can be traced to the fact that the London directors wanted to have a cheap team in the first place. It took some time to rebuild the team, especially with accidents and sickness visiting the club more than any other in the league as well. The London directors labored in good faith, but the five other clubs in the circuit overstepped the bounds, which were to be upheld solemnly during this year of retrenchment.
 The league at the present time is playing better baseball than last year, when no salary limit existed, and now the clubs would intimate that they are under a \$1,400 limit.

Sporting Comment

Rain yesterday spoiled everything in the Canadian League circuit except the Guelph-Ottawa fixture and the Senators lost after winning seven straight. It was another of those mysterious games in which Ottawa was just tossed out although they were out-hit almost 2 to 1 and made five errors. It is simply wonderful how the Champions accumulate runs on very few hits, and how few runs their opponents make no matter how they hit. There is some luck about it and also good playing. It will be worth while to study their tactics while here next week.

Merlin Kopp started off in Washington by dropping an easy fly ball, making a hit and scoring a run. Kopp rarely drops fly balls so evidently must have been nervous as yesterday he accepted two chances and made a three-bagger. It is some jump into this league to the American League and if Kopp makes good it will take him a couple of weeks to get upon his

feet. Then the patrons of that league will see a very fair imitation of Ty Cobb going around the bases.

empty, would advise a thorough cleaning, the walls to have a coat of white wash, the torn shades to be replaced, beds, mattresses, and pillows to be replaced with new ones. The latter we know could be, as the old pillows have been renovated and new covers put on, with the addition of our hair pillows, have given us a good supply.

Many and varied are the inquiries as to what use the old public wards on the round floor are going to be put. Everything possible has been suggested, even to utilizing them for wards for our foreign population. We sincerely hope they will never be used for wards again. Wards opening from the main entrance are most undesirable. The taking of patients on stretchers to and from the ward is not a pleasant spectacle for arriving visitors. The bathroom and lavatory accommodation is almost worse than none, and from the limited space allotted them makes them almost hopeless of being improved. The wards are large we know, to be utilized either for a board room, or the doctors' waiting room, that would be in the right direction. It would be preferable to have them too large than too small as the present board room is.

In the near future, the Secretary will need to be provided with an office for her own use. Under present conditions, the Superintendent and Secretary have almost as much privacy as though their offices were located in the centre of Colborne St. Necessary special work the Secretary accomplishes in the Board Room.

The Superintendent retires to the Nurses' Home.

With the operating room moved to the third floor, another semi-private ward for women, as well as a small private room can be made, leaving the first floor entirely for men, which would cover the need for the present.

THE NURSES' HOME. One very important feature must not be lost sight of, we cannot go on multiplying beds until provision is made for a larger number of nurses brought into the training school than the public wards furnished to their full capacity a night nurse will be needed for each ward (six in all) by the middle of September the Nurses' Home will be taxed to its full capacity. Already I have had to

turn down desirable applicants, who were anxious to enter this autumn, and felt they could not afford to wait. Three of the wheel chairs provided by the Women's Hospital Aid, have arrived, the other three to follow shortly. They are exceptionally well made, and have heavy one-inch rubber tires, making them almost noiseless. We also have to thank the W. H. A. for a handsome mahogany desk for personal use in the nurses' home. It has filled a long felt want. Mrs. Tisdale, Mrs. Colquhoun, Mrs. Mitchell Sr., and Mrs. Mitchell, Jr., represented the Women's Hospital Aid, and brought fruit, flowers, magazines, etc., for the public ward patients. Dr. Phillips was Visiting Physician and Mayor Spence and Mr. C. H. Waterous were Visiting Governors.

DONATION OF \$500. A letter was received from the Trusts and Guaranty Company, amounting \$500 for the hospital from the estate of the late Mrs. Clarke. A resolution of suitable thanks was passed.

IMPROVEMENTS. It was decided to fix the isolation hospital as suggested by Miss Ford. The old annex building, which has long been an eyesore, was ordered to be torn down.

The present board room will be turned into a Secretary's office and a doorway be cut into one of the old wards adjoining, the latter to be fixed up as a board room and room for the doctors.

SEMI-PRIVATE WARD. There was a good deal of discussion regarding the case of patients who did not like a general ward, but could not afford private ditto. It was finally decided to fix up one of the old wards as a semi-private ward, the rate charged to be \$1 a day.

The building committee was authorized to make necessary expenditures in connection with all the proposed changes.

After the passing of accounts the board adjourned.

KINGSTON BARS CLOSE AT SEVEN

This is Compliance With Order of License Board.

Toronto, Aug. 4.—As a result of the enquiry conducted into the selling of liquor to soldiers at Kingston the Ontario License Commission, with the approval of the Government, has it is understood, decided to close all bars in Kingston and vicinity at seven o'clock in the evening. While the order has not come formally before the Cabinet for approval, there is, it is said, no question of it going into effect. Hon. T. W. McGarry intimated last night that the matter would come up within a day or two, but would not discuss it further.

The stand taken by the commissioners followed a visit to the Kingston district made recently by Vice-Chairman Dingman, a visit that convinced him that there was room for improvement. The board some time ago refused to extend several licenses in the suburbs of the Limestone City, but the soldiers at the Barrieffield camp, just across the bay, were able to get into Kingston at night and secure liquor. RUSHED RIDGE WITH BAYONET

Details of the Capture of an Important Position.

London, Aug. 4.—The crest of a ridge in the Gallipoli Peninsula has been gained by British troops, and the position of the British in the Dardanelles has been improved, according to a statement given out by the official press bureau.

Gen. Sir Ian Hamilton reports on August 2 that on the right position held by the Australian and New Zealand corps a successful attack was carried out against a network of Turkish trenches, which was beginning to threaten the safety of an advanced post called 'Tasmania Post.'

The attack consisted of a bombardment of neighboring works and the explosion of three mines under sections of a trench. These sections were occupied at once. Another section was rushed with the bayonet. The Turks did not counter attack. At least 70 Turks were killed in and around the works.

The result has been to gain the crest of the ridge, and it has materially improved our position in that section of the line.

WORLD PRESS ON THE WAR

What Went Ye Out for to See Philadelphia Ledger.—The great man returned to his native city after an absence of nine years. Ten thousand people turned out to greet him, crying, "Welcome home." Most of them were women and young girls. No President ever received such a reception. A hundred automobiles filled with crazed enthusiasts, raced after him and when his home was reached the cheering mob surged over the lawn. His picture was taken hundreds of times. Who was he? A great artist? A great poet? A great scientist? A great inventor? A great general? No; he was Pittsburg's favorite murderer.

Plain, Talk to Germans London Times.—A people accustomed to mental and military servitude, taught from the cradle to think and feel according to system, cannot grasp the impulses of a race bred in freedom and never more determined to defend that freedom than when it is menaced by the organized brutality of an unscrupulous foe. We need no German to tell us that the military task of the Allies is harder than we once hoped it might be at this hour; but when the Germans imagine that, on this account, we and our allies shall presently perceive the prosecution of the war to be futile, their misreading of our character is as gross as the criminality of their onslaught upon the liberties of Europe.

Loyalty the Cradle of Freedom. London Daily Chronicle.—General Botha has placed the British Empire under heavy obligation to himself by his conduct as a statesman and his talent as a soldier ever since the outbreak of the war. He has killed racialism in South Africa, and has established the new Union on firm and enduring foundations. Fifteen years ago General Botha was fighting valiantly against the British Empire. In the present year of grace he has fought valiantly for it. This miraculous transformation of a great foe into a greater friend is the blessed fruit of a noble act of reconciling statesmanship. Once more it is proved that loyalty is the child of freedom, that freedom is the antiseptic of Empire. We trusted the Boers. Nobly have they repaid our trust.

THE NEW TRUTH. London Daily News and Ledger.—Beyond all else the South African

victories have revealed in language that even Germany can hardly misread the spiritual bonds by which the Empire is knit together. To us, indeed, it is no revelation. The power of a free spirit has proved itself too often in our midst for us to fear for its resistance to a far heavier strain than this. But our enemies are as yet incapable of comprehending that union and loyalty can rest on more enduring bases than the domination of material force or community of commercial interest. It is the supreme tragedy that the essential lesson must be written for Germany in letters of blood, and at bitter cost. South Africa and Canada and India and Australia are bringing the new truth above her horizon. Not till the lesson is learned will the world have peace.

ECONOMY ALL ROUND. London Daily Telegraph.—no sane being can pretend now to misunderstand the importance of economy in the case of every individual who has command of money. For the plain citizen does firmly grasp one great truth about finance; that while he has always a direct personal interest in saving out of his own income—an interest which was never so strong or obvious as it is now—the same cannot be said of those who direct the laying out of money drawn from the pockets of the people. Those were years of huge and mounting prosperity, and the increase of wasteful spending was a general social fact, not merely an administrative one. Now things are changed with a vengeance. The lean years are upon us; duty and interest alike counsel a strict economy; and the plain citizen demands to see it also in the public services, where he has so long seen its opposite.

Mayor Curley of Boston was surprised at the size and opportunities in coast towns of the Pacific in Canada, he said.

For buying second-hand goods valued at 80 cents, W. Turner, of Vancouver, was fined \$5; he did not have a license.

Pope Benedict XV, has several relatives fighting in the Italian Army against the Germans and Austrians. Two nephews, the Counts Pustio of Venice, one a captain and the other a lieutenant, are in the Italian cavalry, a brother is an Admiral on the reserve list of the Italian Navy, while the latter's son has also just joined the country's fighting forces.

Rev. Arthur F. W. Ingram, Bishop of London, since 1901, has been taking a very active part in the campaign for recruits. He was born in Worcestershire in 1858 and educated at Oxford. He held a number of important pastorates in various parts of the country and was appointed to his present position in 1901. Bishop Ingram is a well-known writer and takes a keen interest in the social, political and industrial conditions of the great city in which he is located.

Mr. A. D. W. Pollock, City Chamberlain and Treasurer of the City of London, who conferred the freedom of the city upon Sir Robert Borden, has held the position for the past three years. He was born in England in 1867, the son of the late Major-General Sir R. Pollock, and was educated for the Bar. He commenced to practise in 1890 and became Remembrancer of the City of London in 1903, holding that position until 1912, when he was appointed City Chamberlain and Treasurer.

Mr. J. A. D. McCurdy, head of the Aviation School of Toronto, has already turned out twenty-seven graduates, nearly all of whom are leaving shortly for the front. Mr. McCurdy has been "flying" for several years, being associated with Professor Graham Bell and "Casey" Baldwin in his experiments with flying machines at Baddeck, N. S. He was born at Baddeck in 1886 and graduated from the School of Science in the University of Toronto several years ago. He first came into prominence as an aviator of note when he made a successful flight from Key West to

Cuba a few years ago. Lieut.-Colonel W. T. Stewart of Toronto, who has been offered the command of the 109th Regiment now being raised in that city, is an experienced military man. Altogether he has had twenty-four years military experience, commencing with the 1st Leinsters, then with the 6th Prince of Wales Fusiliers of Halifax and the 1st Prince of Wales Regiment of Montreal. When the latter was turned into the 1st Grenadier Guards, Colonel Stewart joined the reserve of officers and shortly afterwards moved to Toronto. He is instrumental in forming the Home Guards in Toronto, securing some three thousand five hundred members. He is regarded as a most efficient officer.

Ex-Grand Vizier Hakkı Pasha, the newly appointed Turkish Ambassador at Berlin, is known as the ablest lawyer in the Ottoman Empire. He spent some time in England in a consular capacity, but was known as a pro-German and consequently was not very popular. He also spent some time in the United States, being his country's representative at the World's Fair at Chicago, and lived for some years in the neighboring Republic. He has been legal adviser of the Department of Foreign Affairs of Stamboul, and is probably one of the parties responsible for Turkey's entry into the war on the side of the Teutons.

Rudyard Kipling, England's most famous poet, has been adding to his reputation during the present war as a writer of stirring patriotic poems. Kipling was born in Bombay in 1865, educated in England, but returned to India at the age of seventeen and engaged in journalism. His contact with the British Tommies and his journalistic experience brought him into close touch with the life in India. When twenty-one years of age he published his first book "Departmental Ditties." Since that time he has written many novels, poems and magazine articles, until to-day he is perhaps the best-known and most

Prince Sergius Galitzine, who has just died in Switzerland, at the age of seventy-five, was head of one of the best known of the aristocratic families of Russia. The dead Prince was intimately connected with the diplomatic affairs of his country, and owing to his great wealth and family traditions was a man of great influence in Russian affairs. The Galitzines trace their family history back to the fourteenth century, the family claiming priority to the Romanoffs, the family to which the Czar belongs. Away back in 1670 there were four claimants for the Russian throne, but the Galitzine of that day voluntarily gave way for a Romanoff, from whom the present Czar is descended.

BELGIAN ARMY

As Strong Now as When the War Started.

London, Aug. 4.—The Daily News has the following from Milan, through the medium of The Secolo, which has, above all the cause of Belgium, King Albert expresses his thanks for the sympathy which has been shown to the Belgians by the Italians. After having spoken of the events of the first year of war, and the present position on the Belgian-German front, the King remarks that the prolongation of the war has allowed them to reform their cadres and complete their equipment by means of an appeal which the Government has made to the young Belgians dispersed throughout Britain, Holland and France. The result was that after a year of war the Belgian army has now found itself again as strong as it was at the moment of the German invasion last August. This position was proof of the brilliant virtues of endurance and patriotism of the Belgian people.

CANADA AT WAR

HON. MR. WHITE
IN NEW YORK

Preparing in Advance
For Requirements of
the Future.

CANADA'S largest loan and the first ever floated in New York was successfully negotiated by Hon. W. T. White last week. The new loan has been placed by the Bank of Montreal, acting as fiscal agents for the Dominion of Canada, with J. P. Morgan & Co., Brown Bros. & Co., the First National Bank of New York and the National City Bank of New York, while the Bank of Montreal has also associated itself with them in the purchase.

Great Financial Coup.
From every quarter Hon. W. T. White is being congratulated on the success of this great financial operation. It is claimed, and is justly so, that it is the cleverest financial coup ever sponsored by a Canadian finance minister. Canada has entered new financial markets, secured ample funds for all domestic purposes, relieved the London market from any additional burden and made certain the successful financing of the marketing of our great crop. So well kept was the secret that Canada was invading the Wall Street market that the negotiations were completed and the loan placed before even a rumour reached the public.

Form of Flotation.
Of the Canadian flotation in New York \$25,000,000 was of one-year 5 per cent. notes at par and \$15,000,000 of two-year 5 per cent. notes at 93 1/2 with option to holders of each to convert into 5 per cent. twenty-year debentures. The proceeds of

HON. W. T. WHITE.

these securities, approximately \$40,000,000 after the expenses of the issue are deducted, will provide for the capital expenditures of the Dominion during the current year upon undertakings now under construction in Canada.

Why Placed in New York.
The considerations which influenced the making of the new short date issues in New York were as follows: (1) Relief to the amount of the loan will be given to the London market which is the source of the Imperial borrowings from which the war expenditure of the Empire (including Canada) is financed. (2) By borrowing in New York rather than in London the exchange situation, now so greatly against the latter, will be benefited. (3) A loan of such a large amount effected in New York should tend to improve exchange conditions between Canada and the United States, exchange at present being strongly in favor of the latter. (4) Having regard to the loss in exchange (amounting to one and one-half per cent.) in transferring funds from London to New York, which is the Canadian exchange centre, the rate of interest paid on the New York loan is as advantageous as the rate at which a similar loan could be placed in London. Payment for the securities being in New York funds, the Dominion gets the benefit of the existing premium on New York exchange in transferring the proceeds of the loan to Canada.

Necessity of Loan.
At the outbreak of the war Hon. W. T. White arranged with the British authorities to market Canadian securities in London to finance our war expenditure. This arrangement still holds good, and the present loan is not for war purposes. Great Britain has had to husband her financial resources to meet the terrific burden not only of her own war expenditures, but also of her allies, and for this reason flotations on the London market for other purposes were discouraged. Canada is carrying on a great programme of public improvements which entails a very heavy capital expenditure.

Greatly Commended.
"On this account," says Mr. Meredith, President of the Bank of Montreal, "the Minister of Finance, Hon. Mr. White, is to be congratulated on the discretion and sound judgment he has shown in effecting this sale and obtaining the money on such highly satisfactory terms. In addition, the Imperial Treasury and London market is freed from the necessity of financing the Dominion, and this should

Greenwood will not sell the property of active soldiers for overdue taxes.

prove very acceptable at a time when the Mother Country has so much to look after in other directions. The uncertainty that prevails, and the difficulty of forecasting the conditions which will obtain in London from now on makes in action of the Dominion Government one which entitles it to the special commendation of the country."

Effects of Loan.
It is believed that the success of this financial operation will restore complete confidence in Canadian commercial, financial, and industrial circles. Canada's expenditure both for war and domestic purposes is now assured for a year. While the Government is financing the existing measures taken in August last by the Finance Minister the banks were never in a stronger position, yet the influx of this great amount of money will give an absolute guarantee of the funds to finance the crops. It will also enable the Government to continue its great programme of public works under construction and guarantee continuous work to thousands.

No New Undertakings.
Speaking of the New York loan of forty millions, the Minister of Finance emphasized the point that its proceeds were to be used for the capital expenditures of the Dominion works and undertakings actually under construction. It was not intended to vary the policy of the Government enunciated in the two budget speeches since the outbreak of war, and by this means his long critical financial conditions no new public works would be undertaken.

Successful and Prudent.
In placing this loan at the present time Hon. Mr. White has taken advantage of the premium on New York exchange, and by this means has saved the entire cost of placing the issue. Since he became head of the treasury his great object has always been to keep the Dominion financially strong, and he has been successful through the trying period of trade disruption. At the outbreak of the war his wise precautions prevented panic or even fear in financial circles.

The Critics Answered.
A small section of the public press has offered some criticisms claiming the interest rate is too high. To such it might be pointed out that Imperial Government securities which formerly sold on a two and a half per cent. basis are now on a four and a half. Fresh Government notes issued on a five per cent. basis in New York are at a substantial discount. The old favorite Dominion Government three and a half per cent. standard security (1930-50) is quoted in the London market at the nominal figure of eighty-two, the 1940-60 fours at ninety-two, and the last four and a half per cent. issue at ninety-six. This issue was oversubscribed by ten million dollars in March last.

Decline in Standards.
The causes for these great declines in the price of the standard securities of Great Britain, France, and Canada are all the same, viz., the war which has caused the outpouring of the international markets of the world of tens of billions of dollars of the national securities of belligerent Governments. The quotations of these securities reflect the view of the investment public and of the international banking community as to the vast amount of securities of this class which will have been issued before the end of the war. After the conclusion of peace international markets will be for many years engaged with the financial task of financing short-date maturities and temporary borrowings of Governments. It is the object of Governments at present to make permanent issues when possible so that after the war is over they may not be confronted with heavy liabilities maturing within a short space of time which would embarrass their financing during the period of reconstruction following the war.

No Immediate Domestic Loan.
It has also been suggested that a domestic flotation was possible and this would have avoided the necessity of going to Wall Street. It has been pointed out that Canada could not afford to withdraw from the business community at the present time such a large sum. Our great crop must be financed—a domestic loan would have decreased our resources for this work, while a foreign loan assists. Again, the opportunity to secure money in New York might not be open in a few months. If that country should become embroiled in the conflict the United States Government would require and secure all the available capital in that country for its investments. Having provided for our domestic requirements by the New York loan, he has the Canadian money market to turn to if the war expenditure requires a Canadian flotation. Mr. White by his New York flotation has provided for our capital expenditure on public works, increased our financial resources to market the crop, relieved the British money market from an additional burden, and preserved our own financial resources to meet any emergency which may arise.

CANADA CALLS

The Empire Needs YOU!

"If we do not do more in the future than we have in the past, we are going to be beaten." These are the words of Sir John Simon, British Home Secretary. We are going to do more and WE WILL NOT BE BEATEN, but Canada must send more men and Brantford and Brant County will continue to do their share. What would happen to the women of Brantford if Britain were beaten? Ask the women of Belgium! They know!

MEN OF BRANTFORD

Will you let the Hun trample British liberty in the dirt, or will you do your bit? Never mind the shirkers and the won't-works. The women of Canada want you to protect them and fight for them. WILL YOU DO IT?

ENLIST NOW!

Here are the questions you would ask and their answers

- Q. I am a married man. Must I have the consent of my wife to enlist?
- A. Yes, the following must get proper consent in order to be able to enlist for active service: (a) Husbands, (b) men over 18 and under 21 years of age must get the consent of both parents, (c) sons who are the only support of a widowed mother or whose parents are dependent upon them for their support.
- Q. What are the rates of pay?
- A. The rate of pay is One Dollar per day before moving to camp, meals and lodging, making \$1.75 per day while in Brantford. When in camp and on active service a field allowance of 10c is made, making the total pay \$1.10 per day.
- Q. What examinations must a man pass in order to be accepted?
- A. The recruit must be over 18 and under 45 years of age. The minimum height is 5 ft. 3 in. and the minimum chest measurement 33 1/2 inches, with the chest normally expanded. The eyesight must be good, teeth in good condition. He must have free use of his limbs and not be flat footed. It is also necessary for the heart to be strong.
- Q. What is the reason in making a man assign at least one-half his pay?
- A. The Government believes that if they are willing to allow a separation the soldier should be equally willing to assign at least one-half the pay received. It is hoped the families of soldiers will have the foresight and common-sense to put in the bank all the assigned pay received, so that when the soldier returns there may be a nest egg to help the family along until he receives employment.
- Q. I am a married man. What provision will be made for my wife and family?
- A. It has been found that a woman requires an income of \$30.00 per month on her own account, \$7.50 for a child between the ages of 10 and 15, \$4.50 for a child between the ages of 5 and 10, and \$3.00 for a child under 5 years.
- Q. When does the separation allowance start?
- A. Immediately upon being sworn in and enlisted in Brantford, but the first installment will not be paid until after the final acceptance for overseas service.
- Q. To whom are Government Separation Allowances granted?
- A. Separation allowances are granted (a) wives, (b) children of a widower if they are in the care of a guardian. Girls over 16 and boys over 14 years of age are not eligible. (c) Widowed mothers, if the son is unmarried and her sole support.
- Q. What pensions are paid in case of the death of a soldier?
- A. The widow receives \$22.00 a month and \$5.00 a month for each child. In the case of a soldier leaving a wife and three children the pension would be \$37.00 a month or \$884 a year. It would require \$10,800 worth of Government Bonds, paying 4 1/2 per cent. interest, to give a pension of \$484 a year.

"Whatever has been dealt out to Belgium, France and Poland will be our fate tenfold if we fail to subdue the Germans."

—Rudyard Kipling

ENLIST NOW!

Here are the questions you would ask and their answers

- Q. How much pay must a soldier assign to his wife?
- A. Every man who receives a separation allowance for his wife must assign one-half his pay (\$16.50 per month) and may assign as much as \$25.00 per month, but not more.
- Q. Is the assigned pay figured as part of the income necessary to support a family?
- A. No. The assigned pay of the soldier is not taken into account by the Patriotic Fund in determining the amount to be paid to a depending family for support. In the case of the family described above, if the soldier assigned \$20.00 per month, the total income of the family would be \$69.50 per month.
- Q. Are the requirements with regard to teeth as strict as before?
- A. No. Arrangements have now been made at Niagara Camp to do the necessary work on teeth that are not in quite good enough state of preservation. Men are now being accepted with partial sets of false teeth, this being left to the discretion of the examining doctor. A great many men who were turned down for the first and second contingents may now join under the present regulations.
- Q. How is Government allowance paid?
- A. It is paid by check on the Bank of Montreal forwarded from Ottawa.
- Q. How is the assigned pay of a soldier forwarded?
- A. It is also paid by check from Ottawa.
- Q. How is the Patriotic Fund allowance paid?
- A. It is paid by the local branch of the Patriotic Fund.
- Q. My wife is in England. Will she receive a Government separation allowance?
- A. Yes, this will be forwarded from Ottawa regularly just as if the wife were living in Canada.
- Q. Will the Patriotic Fund help dependents of soldiers living in England or out of Canada?
- A. No. The separation will be forwarded, but any other assistance needed would be of a local nature. All children under group ages 10 to 15 are carried at minimum of \$3 per month, one child alone in each family between these ages being carried at \$7.50; ditto between the ages of 5-10, \$4.50 per month being paid one child and the minimum of \$3 being allowed the others.
- Q. Thus, if a man leaves a wife and four children, aged 13, 11 and 7 and 3, the income would be \$30 for the wife, \$7.50 for one child between 10 and 15, \$4.50 for one between 5 and 10, and \$3 for each of the other children, being a total of \$48 per month.
- Q. How much of the family income does the Patriotic Fund pay?
- A. The Government allowance is \$20.00 per month to the wife of a soldier, the balance is made up by the Patriotic Fund. Thus in the above case \$20.00 would be paid as a Government separation allowance and \$28.00 per month would be paid by the Patriotic Fund. In no case, however, will the Patriotic Fund pay more than \$40.00 per month, and in the case of large families a certain amount of discretion is allowed to the officers of the fund.
