LIBERAL CANDIDATE IS SUCCESSFUL IN NORTHUMBERLAND

W. B. Snowball the Liberal candidate, was elected over C. P. Hickey mayor of Chatham. Conservative, by a majority of 622 in the by-election held here Tuesday to fill the vacancy in the Dominion House of Commons caused by the death of the late Hon. John Morrissey. The election ended a strenuous campaign in which national and provincial leaders of both parties participated.

The Liberals were represented by the Premier, Rt. Hon. W. L. Mackenzie King, Hon. Ernest Lapointe, Hon. Chas. Murphy, Hon. A. B. Copp and Hon. P. J. Veniot, and the Conservatives by Right Hon. Arthur Meighen, Senator Gideon Robertson, Hon. Dr. J. B. M. Barter K. C. M. P. and A. J. Doucet, M. P.

Mr. Snowball's largest majorities were in Chatham, Rogersville, Doaktown and Black River Bridge. Mr. Hickey carried Newcastle; Nelson and Chatham Head by considerable majority and led in more than a dozen other polls.

Mr. Snowball's largest majorities from the balcony of the town hall in Chatham and got a splendid reception. He thanked the citizens for giving him so large a majority in his home town, and all workers throughout the county for their zeal in the contest. He especially thanked Premier Veniot and paid a tribute to the people of Rogersville. Referring to his opponent he said the defeat was no discredit to Mr. Hickey who was a fine young man with whom he had most friendly relations throughout the campaign. The result was not a victory for Snowball over Hickey, but of the Liberal over the Conservative policy. The member elect he said would feel his responsibility now more than ever to look after the Maritime rights, which he had strongly supported and also the interests of the county. At the conclusion of his address great numbers crowded forward to congratulate him.

The contest in Chatham was carried on with great good nature. Mr. Hickey spent most of the day in town, but Mr. Snowball visited many polling places up and down the river. Mr. Hickey made no public address but extended very warm thanks to his supporters throughout the county. He did not get some support he had expected to gain and he was sure that the presence of so many members of the government had an influence on the electors. So far as he and Mr. Snowball were concerned the fight had been clean and without personalities, and he accepted defeat without ill-feeling of any kind. It was his first experience and he had done his best and was very grateful for the generous measure of support he had received.

SEIZED SCHOONER HAD NICE LITTLE LIQUOR CARGO

The schooner recently seized at Chatham by the customs officials was unloaded yesterday morning at the government wharf in the rear of the post office and three truck loads of liquor were taken from it. There were 100 packages of liquor in the lot, put up in bags convenient for carrying. A quantity of cigarettes was also in the cargo which altogether was valued at \$2500. Inspector Stewart seized the schooner and turned it over to the Customs officials. The cargo is supposed to belong to a man named Brown. The schooner is owned in Newfoundland and the Captain is Dominique LeBlanc.

HARKINS ACADEMY SCHOOL STANDING

For the Month of September 1924

The following is the standing of the pupils of Harkins Academy for the month of September.

D. J. Gulliver's Dept.
Grade IX—Pupils making 80 per cent or over on tests for September

A BARBADOS BAZAAR

The season for them is over here, but not so in Barbados. A big one is planned for November in Bridgetown, Barbados. The Committee unanimously asked Messrs. Haskin, Prosser & Co. of this place to 'secure Motra' Chocolates for the bazaar. Holdings like these tempt

tastes great.

The new Bridge Box is coming into wide use. There are some very good things in it. Wonderful contents, a full pound of chocolates, a first class pack of cigarettes, and a supply of hearing cards. The happy choice for evenings of fun. And prices as well.

SCHOONER LOAD OF LIQUOR HELD AT CHATHAM

Chatham Oct. 8.—The two masted schooner "Annie B.M." with one hundred cases of liquor aboard is being held here by local customs officers. At the time the vessel was discovered by Excise Officer Stewart and Collector of Customs Watt, she was lying in a small cove some distance below Chatham and on the opposite side of the river. The schooner's captain, Dominique LeBlanc claimed that he had come in to report. He said that the vessel was in distress outside the bay after his compass had been broken. The customs officials are inclined to doubt the captain's story and both vessel and crew will be held until the matter is thoroughly investigated.

FULL OF ACHES AND PAINS

Toronto Mother Found Relief by Taking Lydia E. Pinkham's Vegetable Compound

Toronto, Ontario.—"I have found Lydia E. Pinkham's Vegetable Compound a splendid medicine to take before and after confinement. A small book was put in my door one day advertising Lydia E. Pinkham's medicine, and as I did not feel at all well at the time I went and got a bottle of Vegetable Compound right away. I soon began to notice a difference in my general health. I was full of aches and pains at the time and thought I had every complaint going, but I can truthfully say your medicine certainly did me good. I can and will speak highly of it, and I know it will do other women good who are sick and ailing if they will only give it a fair trial. Lydia E. Pinkham's Liver Pills are splendid for constipation. You are welcome to use my letter if you think it will help any one."—Mrs. HARRY WESTWOOD, 543 Quebec Street, Toronto, Ontario.

The expectant mother is wise if she considers carefully this statement of Mrs. Westwood. It is but one of a great many, all telling the same story—beneficial results.

Lydia E. Pinkham's Vegetable Compound is especially adapted for use during this period. The experience of other women who have found this medicine a blessing is proof of its great merit. Why not try it now yourself?

BY-ELECTION IN MONCTON BEFORE HOUSE MEETS

Fredericton Oct. 8.—The Gleaner says today in a news article "In political circles there have been reports for some time that in view of there being two vacancies in the provincial cabinet, two vacant seats in the legislature and another likely to be vacant within a short time the Liberal victory in Northumberland may be followed by an immediate appeal to the people by the provincial government.

The other hand Ivan C. Rand Barrister of Moncton will soon be sworn in as Attorney General, succeeding Hon J.P. Byrne who has been elevated to the Supreme Court bench and there will be a bye-election in the city of Moncton before the legislature meets.

Five Montreal Bandits To Hang October 24

Leo Davis, one of the condemned Hochelaga Bank bandits, was granted an official stay of execution until November 6th, by Mr Justice LeGoureau, on an application made by his counsel. The other five will however, hang on October 24.

Ontario Govt. Will Sell Liquor If People Say So

Premier Hon. G. H. Ferguson replying to queries from Rev Dr. T.A. Moore, Chairman of the Plebis cite Committee of the temperance forces has written a letter stating that, should the people vote for government control of liquor on October 23, the only liquor imported by the Ontario government and the only sale of liquor permitted, will be through government agencies

Publication Will List Industries

A publication that will be of great value to merchants, jobbers and manufacturers is being prepared by The Business Review and Maritime Retailer. It will be known as the Maritime Industrial Gazette, and is a classified directory of all manufactures and jobbers in the Maritime Provinces, and will include every industry no matter how small.

It is the aim of the publishers to place before the storekeepers of the Maritimes a complete list of local industries and wholesale houses, with the view of facilitating business connections and thus promoting Maritime enterprise. An interesting section will be the news paper and publication department in which every Maritime paper will be listed. This section will be exceptionally valuable to the smaller manufacturers desiring to market their products through the Maritimes, when looking for advertising mediums.

This will be the first time that a Maritime industrial directory has been available and the publishers will appreciate the co-operation of all jobbers and manufacturers.

The Advocate \$2.00 Yr.

TO APPLY TO THE WATER COMMISSION IN DECEMBER

Plans for the Hydro Electric Plant which it is proposed to construct at Grand Falls are now in the course of preparation and to gether with the plans from the surveys which have been made of storage and other facilities, will be completed in time for the application to be made to the International Waterways Commission for authority to proceed with the development, some time in December

The foregoing was the opinion expressed by Hon. Dr. E.A. Smith chairman of the New Brunswick Electrical Power Commission, who presented the Commissions' monthly report to the provincial government

Will Protest Rimouski Election

Conservatives of the county of Rimouski have decided to protest the election of Sir Eugene Fiset, Liberal candidate to the House of Commons and are preparing the necessary papers.

Investigation of circumstances surrounding the election of September 2nd has been in progress under Conservative auspices and local organizers believe they have grounds for successful protestation.

Constipated Children

Constipation is one of the most common ailments of childhood and the child suffering from it positively cannot thrive. To keep the little one well the bowels must be kept regular and the stomach sweet. To do this nothing can equal Baby's Own Tablets. They are a mild but thorough laxative; are pleasant to take and can be given to the new born babe with perfect safety. Thousands of mothers use no other medicine for their little ones but Baby's Own Tablets.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams' Medicine Co., Brockville, Ont.

NO ELECTION THIS YEAR, SAYS PREMIER

Saskatoon, Sask. Oct. 8.—Before an audience of over 2000 persons which crowded Third Avenue Methodist church here far beyond its normal capacity Premier MacKenzie King last night reviewed the accomplishments and the problems of his Government during its three years in office and made clear to his hearers that in the present temper of the Government's eastern supporters the Hudson's Bay Railway will not be completed for some time

There will be no general election this year Mr. King said but there will be next year or at least the year after, and in the interim he urged the people of Saskatchewan to think well of the situation before they went to the polls.

E. P. Ranch Improving Western Stock

(Top)—The Prince of Wales' best grass cutters are here seen at work on his ranch at High River, Alta. They are a famous herd and include many prize winners. (Left)—"Will Somers," a famous race-horse belonging to His Majesty the King, and loaned to the Prince of Wales, who is keeping him on his ranch at High River to improve the equine stock of Alberta. (Right)—"King of the Pacific"—a senior and grand champion Short Horn bull imported and owned by the Prince of Wales and one of the many fine animals on the Prince's Ranch at High River on the Calgary-Lethbridge branch of the Canadian Pacific.

The way to approach the E.P. ranch is from Calgary to High River, 40 miles south, on the Canadian Pacific Railway. From High River one has to drive southwest a distance of 35 miles through one of the richest grain-growing and stock-raising countries in North America. In the distance the jagged peaks of the Rockies dip the clouds and below, well-wooded, are the foothills. The road cuts through the centre of the "Bar-U" ranch and about one mile and a half from the limits of the "Bar-U" the low rambling bungalow where the Prince is now living is seen through a pretty glen. It is a homelike looking place typical of many a rancher's home in "Sunny Alberta." Here his Royal Highness goes "back to the land."

The Prince of Wales has never ceased to exhibit a keen interest in his ranch, and fresh indications are periodically given of the importance he attaches to it and the work it is doing. After purchasing the ranch, and before returning to England, the Prince made arrangements for the shipment of some of the best stock in the British Isles to the Canadian West. Thoroughbred horses came from the Royal stall, Shorthorns from the King's farm, Shropshire sheep from the Duke of West-

minster's estate, and hardy Dartmoor ponies from the Devon Moors, a type of animal previously unknown in Canada. From time to time since then fresh additions of the most excellent stock have been made. The work still continues.

In an area such as Western Canada, which has for years devoted itself to the elevation of the quality of livestock and has become internationally famous for the superior type of its horses and cattle, importations must be of an outstanding distinctiveness to be worthy of special note, but this the E.P. Ranch has effected. At Alberta provincial exhibitions the animals from High River are attractive features.

In its brief history, the E.P. Ranch has come to play an important part in the Western Canadian live-stock industry, and it has done not a little in the development of a more sympathetic understanding for Canadian agriculture in the British Isles. Its establishment was an indication of the importance attached to agriculture in the Dominions of the Empire its continuance and promotion an encouragement to the western live-stock industry, faith in the future, and a stimulus to the attainment of perfection in breeding.

Children Cry for Fletcher's CASTORIA

GAME FISH TAKEN FROM ATLANTIC TO THE PACIFIC

Two experiments of the greatest importance to the fishing industry in Canada have been brought to a stage where success can be claimed, it was announced by officials of the department today.

Atlantic salmon, famous the world over as a game fish although of no utility for canning purposes, have been transferred successfully to Cowichan River, on Vancouver Island. At the same time the Pacific salmon of the Sockeye family, so valuable to canners, has been brought to Lake Ontario and launched successfully into fresh water.

In both cases the subsequent years have shown that the new fish have grown and flourished in their new environments. Two year old Atlantic salmon have been caught in the Pacific coming down the Cowichan River and fully matured Sockeye have been caught in Lake Ontario.

The value of the innovations are obvious when the importance of a world famous game fish to the Vancouver tourist trade and the desirability of a salmon canning industry to Ontario are considered.

The work has been going on for six years and an average of 200,000 young Sockeye have been released each year in Lake Ontario and 500,000 young salmon in Cowichan River.

The Federal Department has also taken unusual precautions to keep the game fishing in the Banff district up to the market. This year 1,500,000 game fish were released in the Banff area. They included, Cutthroat Trout; Rainbow Trout; Loch Leven Trout and Salmon Trout.

Alcohol and Politics

(From the British Weekly)

Some useful information for temperance workers and social reformers has been given lately in the Observer on the subject of clubs and liquor. In this week's issue Mr Isaac Foot, M.P. calls attention to the political threat which emanates from the clubs. Their general political policy is a violent opposition to the Local Option. The clubs proclaim their belief in liberty. Mr. Foot's caustic comment is that "the liberty of the local community apparently ceases as soon as self-interest is touched."

Some recent utterances of Mr. E. Richardson, M.P. the President of the Club and Institute Union are quoted. After mourning the absence of a conservative majority and castigating the Liberals for threat

Remember the name

The name "Royal Yeast Cakes" is your guarantee of quality. They have been the recognized standard for over 50 years.

ROYAL YEAST CAKES

ening the clubs, Mr. Richardson, turned to the Labour party and congratulated them on cleaning their slate of all reference to the "drink" matter. The clubs had suggested through their secretary that Labour should hesitate to don the fatal shirt of the Liberal party.

"Who demands Local Veto" Not the great body of workmen, who have always been and will be opposed to it. No one but the chapels. It appears from these other observations that the Labour party is becoming the captive chained to the chariot of the chapels."

At a slightly earlier stage the Club and Institute Journal rejoiced in the emancipation of the Labour party from the "domination of the Little Bethel state of mind in to which one or two of its leaders endeavored to thrust it." In a recent address a Kuakin College Oxford, a Mr. Harris Claughton said he confessed unblushingly that the foundation of the success of the clubs was "beer, glorious beer." There are leaders of the Labour party who take seriously their responsibility for the welfare of the community that they refuse to be intimidated by this sort of thing. Mr. Snowdown was not afraid to state in the debate on the Welsh Bill that he had always written in his largest handwriting the word "No" against the questions which the clubs had submitted to him. It is evident that the drink evil has a double line of defence and that it may be even more strongly entrenched in the club than in the public house. The Christian sentiment of the community must show itself alert to watch the evil and to support those in any party from Lord and Lady Astor to Philip Snowdown who are really awake and alive in the battle.

Fine Results In Radio Obtained

Marvelous results achieved in the realm of radio are indicated in the report made to the Radio Branch of the Department of Marine and Fisheries by Operators Chout of Toronto and E. Finnie of Ottawa, who returned from the far north on the Canadian Government steamer "Arctic." The picture of officers of the Canadian vessel far away in the northern ocean listening to reports of the Wills-Birch broadcast from Pittsburgh is drawn in the report. Messages were received over a distance of 2,100 miles and could probably have been received over a further distance states the report today.

FARMERS HARD HIT BY LOW SPUD PRICES

Perth, Oct 8—The farmers of Victoria county are being hard hit by the present meagre price for potatoes. Although the crop is the best in years some farms averaging from 150 to 180 barrels to the acre, and of the finest quality the farmers contend that the prevailing price of 55 to 60 cents a barrel will ruin them.

In the spring the farmers were forced to borrow at high interest charges, sufficient money to pay for their fertilizer which was being sold only for cash. The yield at present prices it is said will hardly pay these bills let alone give the workers a fair day's wage for their summer's work.

Potato pickers are demanding eight cents a bag for their work and with teams, diggers and other expenses have run the cost at this end of the game into a very considerable figure.

The spirit of pessimism is noticeable in the stores of the county but still there are some optimists who are hoping for better prices.

They recall conditions a few years ago when in the fall potatoes sold for 40 cents a barrel and rose a few months later to from \$10 to \$15.

In spite of the small prices the farmers have no fight with the prominent buyers because they realize the dearth of available markets.

The cause of the present depression is assigned by some to the fact that the farmers planted very heavily in the hope that the returns would enable them to meet old bills contracted when companies carried them over a bad season.

Many companies are suing these accounts but are finding nothing to levy upon. The only thing that will save the situation is better prices for potatoes.

Governors-General Of Canada

Keep Your CHILD'S SCALP Healthy

Mothers! Save your children from painful, disfiguring scalp trouble by applying herbal Zam-Buk to the first itchy spot or soreness. Zam-Buk is a carefully soothing, it makes the head and hair healthy and sweet, prevents itching, soothes eczema, ringworm and other scalp diseases. Zam-Buk is most effective simply because it attacks the cause at the root, killing poisonous germs and purifying the scalp tissue.

Zam-Buk is compounded from certain rare extracts of essential oils and medicinal plants. It contains no poisonous drugs or animal fats like ordinary ointments, but is a form of the utmost purity with a far-reaching effect.

Zam-Buk is Mother's Best Friend. When the scalp is cut, burnt, sore, inflamed, or "broken-out" in any way, Zam-Buk is always the safest and most reliable healer to use. Keep a box always handy! 50c. at Druggists.

FAULTY NUTRITION

Many of the ailments of grown people may be traced to faulty nutrition. Well-fed children or adults withstand weakness better than those who are indifferently nourished.

Supplies the weakened child or adult with food-factors that other foods often fail to furnish in needful volume.

Not a great deal of Scott's Emulsion is needed—but a little regularly often means restored vigor and strength to those who are rundown in vitality or who are weak.

Here and There

Tourist business throughout Canada has been remarkably productive this year and it is estimated that its total value for the Dominion will exceed \$100,000,000. This places the tourist traffic high among Canada's industries.

The "Princess Kathleen", one of the two fine steamers under construction for the Canadian Pacific Railway's British Columbia coastal service, was launched at Glasgow, Scotland, on September 27th. Lady Mount Stephen, widow of Lord Mount Stephen, former president of the company, performed the launching ceremony.

As an indication of how plentiful wild game has become of recent years in the Province of Quebec comes a report from Montreal, which records the recent appearance of a full-grown bull moose in Rosemount, a suburb of the city. It is thought to have strayed into the neighborhood from the forest to the north. The animal was quite tame and was easily captured.

The Duke of Alba, who, with other Spanish grandees, recently completed an extensive tour of Canada, purchased a number of very valuable furs for gifts to be presented to his friends, including the King and Queen of Spain. The furs were acquired while the Duke was sojourning at Banff, the popular mountain resort on the Canadian Pacific main line.

So greatly has the turkey industry grown in Saskatchewan that marketing pools have now been arranged by the Saskatchewan Department of Agriculture and the Saskatchewan Grain Growers' Association for the marketing of both dressed and live turkeys this fall. Inspectors will be furnished for grading and giving killing and dressing demonstrations.

So heavy was the movement of grain from the lakes to the port of Montreal recently that serious congestion was feared. The storage capacity of the port is 10,000,000 bushels and the grain in sight was greatly in excess of this figure. But skillful handling quickly reduced the amount in hand to 7,500,000 bushels, relieving the situation completely. No further possibility of congestion is anticipated.

It is expected that before the season closes the work of reballasting the main lines of the Canadian Pacific Railway in the Quebec District between Montreal and Ottawa, Montreal and Toronto and Montreal and Quebec will be completed. The latter section requires only a few miles to be finished, while the other portions of line referred to have already been finished. As a result, the Canadian Pacific will have in these lines a road-bed which is not excelled by any other on this continent.

Editorial

NORTHUMBERLAND

The result of the by-election in Northumberland is disappointing to opponents of the Government and friends of Maritime Rights, but it is by no means disheartening. The Liberals had a majority of more than fourteen hundred in the general election of 1921. After the defeats in Halifax and Kent the Government could not afford to lose another seat in the Maritimes, if it could be avoided by any of the devices known to political organization. Northumberland has been Liberal for the last twenty years with the exception of the war-time election of 1917 in which Mr. Loggie, a Liberal, was returned as a supporter of the Union Government. And yet we had the spectacle, without parallel in the political history of Canada of the Premier and four of his Cabinet Ministers going into a single constituency, campaigning madly to save it for the Government. After all this effort the Liberal majority is reduced something like eight hundred.

Such a result means certain defeat for the Government in Northumberland when the general election is brought on. Northumberland is in line with the rest of the country. Every by-election in the last two years has gone against the Government. Halifax and Kent elected Conservatives in place of Liberal members. In Cape Breton North and Victoria the Liberal majority of over ten thousand was wiped out. In North Essex in Ontario a Liberal majority of over seven thousand was reduced to about one thousand. In the St. Antoine division of Montreal the Liberal majority of nearly four thousand was reduced to less than eight hundred, while in Kimouski County, Quebec, the Liberal majority was reduced by more than three thousand. In this situation any honorable government would resign and make a general appeal to the people. The Premier of South Africa only a few months ago gave up office because of one or two adverse by-election results. Though he had a clear majority in Parliament, Premier Smuts said the by-elections left doubt as to whether his government had the confidence of the electorate, and he took the only manly course open to him. Premier King has no Liberal majority at his back in Parliament, but having made a bargain with the Western Progressives for their support, he says he will not resign. He says that he will not resign because he has a majority in Parliament, but a fact of which there is no doubt is the resignation of his seat

in the Cabinet of Sir Lomer Gouin, the former minister of Justice, by the resignation of his seat in Parliament of Hon. Robert McChell, and by the declarations in Parliament of Mr. Marler, Mr. McRae and other prominent Liberal members.

Mr. Hickey made a good, clean fight in Northumberland under adverse circumstances that could scarcely prevail in a general election. The Conservatives here should now perfect their organization in anticipation of the greater contest to come.

THE BATTLE FOUGHT AND WON

The Northumberland County by-election to fill the vacancy in the Federal Parliament made vacant by the lamented death of Hon. John Morfey, is past and gone. The battle has been fought and won with Mr. Snowball of Chatham, the winner. To Mr. Snowball, the Advocate while politically opposed to him, offers its hearty congratulations, on his election. To Mr. Hickey, the Conservative candidate, the Advocate also extends its congratulations on his splendid showing. In this, his first political fight, the campaign was often throughout, utterly devoid of personalities and both candidates are deserving of much commendation for the spirited yet friendly manner in which they conducted the election.

The Liberals naturally are well pleased with themselves over the result, but at the same time the Conservative candidate and party workers have much reason to be proud of the magnificent vote, which their party received from the electorate of the county. It is a great victory for the Conservative party to reduce a former Liberal majority by some 800 votes particularly in a by-election, when usually all odds are against the opposition.

The Conservatives were confronted with the organization, prestige and "sinews of war" of both the Provincial and Federal Parliaments and the array of orators brought in to the county to save the Liberals from defeat was unprecedented. These forces were all actively set in motion throughout the county in behalf of Mr. Snowball, the Liberal candidate and the wonder is, that the majority was not twice the size that it was.

On the other hand, Mr. Hickey was practically dependent on his own resources and the assistance of his local party supporters, both on the platform and in his canvassing support. As is usually the case many of those who before the campaign opens, are the loudest, when the time for real work arrives are weighed in the balance and found wanting.

In Newcastle, Nelson and Chatham Head and several other polls, Mr. Hickey polled a magnificent vote while in Chatham, Doaktown and other polls he did not get the support he had been led to believe he would receive. In Rogersville a much better showing was made than in 1921; while Neguac, Tabusintac and Portage River fell far below the mark expected of these polls.

The result of the election should be by no means considered a defeat by the Conservatives of this county. The party should now get together and perfect their organization for the general election which will probably be held next year. One of the first things the Conservative Party of this county should make up its mind to is, that whatever success it is going to have will be achieved by the workers of the party who reside in the county and insofar as any assistance it might hope to get from those outside with the exception of possibly one or two gentlemen, who will probably be busy in their own constituencies.

tuencies when a general election is called, will practically amount to nothing. Some of these would-be big provincial political chieftains are always willing and ready to take the credit, when the issue is successful, but they do little or nothing in assisting the party when the fight is on. More workers and less shirkers are wanted. Arm chair critics and fireside heroes never yet won a battle.

To our Liberal friends, we hope they will look after Northumberland County, while they hold the reins of office, and we Conservatives will endeavor to do better next time.

Rheumatic People
Can Now Find Relief

By Driving the Poisonous Acid From the System.

Rheumatism attacks people when the blood is thin and watery or charged with impurities thus setting up inflammation of the muscles and joints. Cold, wet weather or sharp winds may start the pains but the cause is rooted in the blood and to get relief it must be treated through the blood. As a blood builder and nerve tonic, Dr. Williams' Pink Pills are unsurpassed and for that reason do not fail to give relief to rheumatic sufferers when given a trial. Among the rheumatic sufferers who have proved the great value of this medicine is Mrs. Simeon J. Tatton: Indian Head, Sask. who says:—"For over two years I was an intense sufferer from rheumatism and until I began the use of Dr. Williams' Pink Pills no treatment that I took helped me any. The trouble grew so bad that I could not move around the house without help, and finally I had to give up and go to bed. Words cannot tell how much I suffered and I could not bear to have anyone come near me. Finally one of my neighbors strongly urged me to try Dr. Williams' Pink Pills and I decided to do so. In the course of a few weeks I could feel an improvement and I was able to get up. I kept on taking the pills until all traces of the trouble were gone, and I could again do my household feeling like a new person. Three years have passed since that and there has never been the slightest return of the trouble, so that I feel safe in saying that the relief brought by this medicine is permanent."

If your dealer does not keep these pills you can get them by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

LABOR MAKING
BID FOR SUPPORT
OF THE LIBERALS

London, Oct. 13.—Labor has followed the example of the Conservatives in making a bid to the Liberals for a working agreement during the election and is trying to arrange with those Liberals who voted with Labor on the Campbell issue and generally supported Mac Donald throughout the last session to withdraw their candidates in those ridings where a three cornered fight is scheduled.

Labor continues to assert that Lord Beaverbrook is arranging for a meeting of Liberals and Conservatives at his home in Leatherhead familiar in the past for intrigues in coalition.

The object of such a meeting it is claimed, is to try and get Liberals and Conservatives together in order to make a bid for the support of the Conservatives. The Conservatives have insisted upon the withdrawal of their candidates in those ridings where a three cornered fight is scheduled.

CAMPBELLTON LINE
NEARLY COMPLETED

The work on the hydro transmission line is being hurried along as fast as it is possible for the men to work and we understand the line will be completed at an early date.

The town's portion of the work of placing the poles from Metapedia is now down well within the town limits and it is expected to have the poles all in readiness for wiring by the end of this week. We understand that work at the other end is now all completed to within 20 miles of Metapedia. It is estimated that this part of the work is coming along at the rate of about 2 miles a day and if this be correct, connection with the Metapedia end will be made in about 10 days.

The three transformers which we understand have cost in the vicinity of \$17,000—to be used here have arrived and are at the power house. These transformers we are told were freighted at 36,000 pounds or approximately six tons each with a 6,000 volt capacity and that each will hold eight barrels of oil.

The half inch aluminum wire with steel centre is now here and is placed at different points along the line in readiness to be strung as soon as the work of placing the poles is finished. There are also three steel towers to be erected at different points along the water front from the point where the line will cross the C.N.R. track which will be as near as can be learned, somewhere in the vicinity

BLANKETS!
We contracted for many hundred pairs when prices were lower than at present—this saving is passed along to you, and although all Blankets have increased in price from 10 p.c. to 15 p.c., you get the benefit of the low prices.
Scotch Imported Blankets
bought direct from Dunns, Scotland; 100 p. c. pure wool. Whipped singly about 60 x 80, bleached pure white **Special Price \$7.95**
Canadian pure wool Blankets
Canadian heavy pure wool Blankets, weight about 7 lbs., soft and fluffy **\$7.95 pair**
Grey Camp Blankets
in 6 lb. weight with striped borders
Special price \$3.75 pair
Colored Blanket Cloths **\$1.39 yard.**
Some mighty fine values in Puffs and Comfortables
J.D. Stronach & Co.

of Miller's mill. From there down in the work, and that the line will the pole line will run along the be complete and ready within three river front connecting with the or four weeks.
There is some little material yet which the town is waiting for, but the manager of the Electric Light ing System feels confident the hydro line can be turned on at later than the middle of November.

J. S. Martin M. L. A. Explains Position In By Election

The "World" asked J.S. Martin, Northumberland Labor representative in the provincial legislature, how Tuesday's election was likely to affect his own political future.

Mr. Martin smilingly replied "I am not losing any sleep over that question. I know that, because of my being a Liberal, some people thought that I should have been actively engaged in supporting the Liberal candidate. I know also others thought, if I were looking after my own political fortunes that I should have endeavored to swing the votes of the working classes to the Conservative standard. The latter people took that view because of Premier Veniot's declaration on the night when H. Hon. MacKenzie King appeared before a Chatham audience. You will remember that the Provincial Premier at that meeting expressed the hope that in future provincial elections would be run on Dominion party lines. Mr. Veniot later revised that statement by declaring that the Liberal party of Canada was big enough to include Labor, Agriculturists and Industrial representatives. Without any apology for my policy of masterly inactivity in the federal campaign just ended I may remind the "World" that I owed my election of some four years ago in a large measure to the splendid support I got from the working classes of this county. They included both Liberals and Conservatives so far

as Dominion politics were concerned. Why then should I have quarreled with either Liberals or Conservatives in the Dominion contest in which no great labor principle was involved? I see that the "Gleaners" news confirms the frequently expressed view of the "World" that there will be no provincial general election this year, and that there will be another sitting of the legislative assembly before they are called on. In the meantime I may frankly tell you that I hope to call a meeting of the working classes of the county and give them an account of my stewardship as their representative in the provincial legislative assembly. After I have done so I will be guided entirely by their wishes, as to whether Labor would be best served by my forming an Independent Labor ticket or pursuing a different course. It has been too often the way that those in authority seek to divide the working classes and in that way lessen their influence. That is what would have happened had I taken sides in the Federal contest just ended and then I would have divided to some degree at least the Labor Vote, as it is. I shall be able to meet a united Labor party made up of all sections of wage earners—and I have no doubt while I serve their interests faithfully, they will take care of my future politically when the time of battle comes."

PERSONALS

Mr. W.F. Smallwood was a visitor to Moncton on Saturday.

Mrs. Wm. McCoy of Moncton is visiting friends in town.

Mrs. Wm. Sheasgreen of Montreal is visiting relatives on the Miramichi.

Miss Geraldine MacMichael of Moncton is visiting her sister, Miss Helen MacMichael of this town.

Mrs. James Stout of Campbellton is the guest of her daughter, Mrs. Harold Kussell.

John Hierlihy has returned to Mount Allison University, Sackville to resume his studies.

Mr. Everett Black returned on Saturday from Bangor, Me. where he spent the past year.

Mrs. Myrtle Wilson and son of Quebec and Rev. Ray Ashford are visiting their parents, Mr. and Mrs. John Ashford.

Fire Marshall McLellan of St. John was in town last Friday in vestigating several fires which have occurred here recently.

Rev. L.H. MacLean was in New Glasgow last week, attending the Maritime Synod of the Presbyterian Church.

Friends of Michael Coughlan are pleased to see him at work again after being confined to his home for the past week, suffering from tonsillitis.

Mr. and Mrs. Graham Jardine and family who have been visiting Mr. and Mrs. R.W. Crocker left on Sunday for Toronto, where in future they will reside.

Police man Thomas Hill, who was operated on for appendicitis in the Miramichi Hospital last week is progressing satisfactorily. He is being relieved by Constable Daniel McDonald.

Mrs. Frank Hare left last week for Portsmouth, N.H. where she will spend the winter months with her daughter, Mrs. Frank Marshall. Mrs. Hare was accompanied by her brother, Mr. Charles Stockall, Halifax, N.S. who will spend a few weeks with Mr. and Mrs. Marshall.

OBITUARY

MRS. KATHEKNE MAHONEY
The death occurred at the Hotel Dieu Hospital on Tuesday morning of Mrs. Katherine Mahoney of Bartibogue. The deceased has been in poor health for some time and had only been admitted to the hospital a few days ago. She is survived by five daughters: Mrs. Alex Taylor, Newcastle; Mrs. James Savage Bartibogue Bridge; Mrs. James Reynolds, Newcastle; Mrs. George Burns, Bridgewater; N.S.; and Mrs. Wilfred MacDonald of Chatham and three sons—Michael of Bangor, Me and Lawrence and James at home.

JAMES IRVING
The death of James Irving a highly respected and life-long resident of Douglasfield occurred at his home Wednesday evening aged 81 years. Deceased suffered a stroke of paralysis about six weeks ago and never recovered from the effect. He is survived by one daughter, Miss Lena Irving of Douglasfield and one son Duncan in Searsport, Me. Three nephews also survive: John and Wm. Irving of Laggville; also two nieces Mrs. Wm. H. Baldwin of Douglasfield and Mrs. Robert Smith of Lakeville, Carleton Co. The funeral was held from his late residence Friday afternoon at 2:30. Services at 2. Interment in Riverside Cemetery.

WEDDINGS

VICKERS—POWER
St. Thomas church Redbank was the scene of a very pretty and interesting wedding at 8 o'clock on Wednesday morning when Miss Annie Katherine Power of Redbank was united in marriage to Charles Vickers, son of the late James and Mrs. Vickers of Newcastle. The marriage was performed by Rev. Fr. Crumbly of Blackville. The bride was attired in a navy suit with fawn velvet hat and grey squirrel choker and was attended by her sister, Miss Theresa Power who wore a fawn suit and hat to match and marmot choker, while the groom was supported by his cousin, Lawrence Murphy of Newcastle. After the marriage a wedding breakfast was served to the immediate relatives and friends after which they motored to Newcastle and left for a honeymoon trip to Charlottetown, P.E.I. Mr. and Mrs. Vickers will reside in Newcastle.

Twelve Places May Have Clinics

At a meeting of the executive of the newly formed New Brunswick Tuberculosis Association, held at Campbellton a few days ago, the following places were proposed as centres for clinics: Sussex, Moncton, Sackville, Richibucto; Chatham Bathurst; Campbellton, Edmundston; Woodstock; Fredericton; St. Stephen; and Newcastle. It was planned to hold limited clinics two or three times a year at Grand Manan, Shippeagan and Hillsboro. Hon. Dr. W.F. Roberts, Minister of Health suggested that lay organizations for the prevention of tuberculosis be formed in the various localities.

Prepare For Fall and Winter

PRESBYTERIANS FORM NEW SYNOD

A number of men and women opposed to union met following the closing session of the Maritime Synod of the Presbyterian Church of Canada when the present body enters the union. Rev. Robert Johnson of United Church, New Glasgow was elected provisional moderator and Rev. J. Stead Burns of Thornburn appointed secretary of the meeting. Another session will be held to elect further officers. The meeting was addressed by Dr. Ephraim Scott of Montreal.

The Maritime Presbyterian Synod closed its session Thursday night. The day's meetings were purely business and dealt particularly with finance. A resolution was adopted appointing a committee to devise some more efficient method of electing a moderator than that now in use. Rev. Principal MacKinnon was given a leave of absence from his duties as Principal of Pine Hill Presbyterian College, Halifax in order that he may spend this winter working in the interests of the General Assembly of which he is moderator.

TWENTY CARS OF FROZEN SALMON

The annual export value of the fisheries of the Miramichi is \$1,000,000. The Miramichi is the most important river in Eastern Canada; in the value of its fisheries. The industry is carried on in the Miramichi and its branches the year round. Practically all varieties of fish caught on the eastern coast are to be found in Miramichi waters. These include smelts, salmon; bass; mackerel; lobsters; eels; shad; alewives and oysters. In the outer bay cod and ling are taken.

The Miramichi river is the largest smelt producing district in the world. The fishing begins in Dec and ends the 15th of February. It has proved most remunerative to the settlers living along the lower part of the river. The fish are marketed chiefly in the United States; and to a lesser extent in Canada.

"In one train to Montreal this year were 20 cars of frozen salmon to be taken by one steamer to the British market, and the great bulk of them were from the Miramichi district.

"The oyster fisheries of northern New Brunswick are confined principally to the Miramichi River.

The lobster fishing grounds of Escuminac and Tabusintac, at the mouth of the Miramichi are recognized as among the best in the world. The Escuminac is perhaps the best lobster ground in America.

A WAR WITH TURKEY MAY SOON COME

London, Oct. 13—A war between Britain and Turkey looms up as a possibility today, as an aftermath of the hostilities that have been going on for some weeks past, along the Mosul frontier. The reply of the Turkish Government to the ultimatum forwarded by Great Britain in which Turkey denies any breaking of the status quo is regarded as unsatisfactory in official circles here, consisting merely of words and vague promises similar to those given by the Turks at Geneva. It is further claimed that the Turks are untruthful in their assertions that the British force guarding the frontier has dribbled in increasing numbers across the border and that today only a combined infantry and aeroplane force can drive them out.

The British Government is in an accommodating mood but they are determined to clear the Turkish out of Mosul. The British Government is in an accommodating mood but they are determined to clear the Turkish out of Mosul.

Five Montreal Bandits To Hang

Leo Davis, one of the condemned Hochelega Bank bandits, was granted an official stay of execution until November 24, by Mr Justice LeFoureau, on an application made by his counsel. The other five will however, hang on October 24.

PARTRIDGE SCARCE

The consensus of opinion among local sportsmen is that partridges are not nearly so plentiful as was the case last year. The dry season which has been favorable to the young birds, but unfavorable to the old birds, is the cause of the scarcity. The birds were out last week and were scarce on the woods and were scarce on the woods and were scarce on the woods.

THE PILEATED WOODPECKER

By J. A. MUNRO

The Pileated Woodpecker—the aristocrat of the Woodpecker family—would fittingly serve as an emblem for our Canadian heritage of timbered solitudes. A permit by instinct, shunning the company of his lesser relatives, he seeks in lonely and quiet enjoyment the fastness of the heavy timber. Avoiding the constricted woodlot and the forests of coniferous second growth, he makes no truce with civilization and retreats to greater seclusion as the logging gang and scolding crew encroach upon his natural territory. Through the silence of the ancient woods his mating call resounds—a reverberating tattoo—while his echoing blows as he chisels into a tree for some boring grub arrest attention and the flash of vivid scarlet as he flies through the trees, momentarily vitalizing the wilderness, gives a pleasurable thrill to the fortunate traveller.

He is the largest of our Canadian Woodpeckers; the scarlet crest and white wing patches displayed conspicuously against the predominating black of his plumage serve to distinguish him from all other members of the family. The woodsman and the pioneer identify him by a variety of names the most popular being Logcock, Woodcock, and Redheaded Woodpecker. Such a plenitude of vernacular indicates the interest he creates—an interest that is apparent even among those in whom bird-life arouses no special enthusiasm.

Like many other species of Woodpecker the Pileated may be seen at all seasons of the year, but it is most likely that wintering birds are not the individuals present during the summer for there is a migratory movement in spring and autumn. During the winter they have their regular beats or patrols through certain stands of timber—patrols in the sense that the birds are acting as guardians of our timber, for they spend their lives in hunting down and destroying the boring grubs that menace our forests. When their day's work is over and their hunger satisfied the Woodpeckers retire to certain old nesting holes, where, secure from predatory animals and Horned Owls, they pass the long winter nights in warmth and safety. They reach their roosts early in the evening by the same route through the forest and at about the same time each day. Their approach is usually heralded by a loud, harsh Kak, Kak, Kak; a spirited cry of great carrying power that is seldom used during the day.

In southern British Columbia nesting begins early in May. The nest is a chiselled hole in a tree fourteen to eighteen inches deep, cut occasionally in a green cotton wood or poplar, more often in a dead pine or fir, and rarely in any but the tallest trees and at a considerable distance above the ground. On a cushion of fine chips three or four rose white eggs are laid. The young Woodpeckers are able to fly about the time the dog berries and other wild fruits are ripe, these forming a part of their food supply. Like many other birds that feed almost exclusively on insects, a certain amount of acid vegetable food is essential to their well being but under no conditions have they been known to attack cultivated fruit.

number of years both for breeding and roosting. Sometimes, however, flying squirrels will preempt them for their winter quarters, lining them with shredded bark or moss to the discomfort of the Woodpeckers. Again if the nesting trees are close to a mountain lake the holes may be used by Buffleheads and other tree-nesting Ducks, when a few years of decay have enlarged the openings sufficiently to allow the entrance of these larger birds. By providing these safe nesting sites the Pileated Woodpecker plays an important part in the conservation of certain valuable species of migratory game birds.

This bird feeds largely on the larvae or grubs of various species of barkbeetles, which are responsible for an enormous destruction of timber in our coniferous forests. The sately yellow pine, considered by many the most beautiful of our conifers, is particularly subject to the attack of these insects and a badly infested tree may be killed in two seasons. An extensive outbreak of Dendroctonus beetles in British Columbia during recent years has been checked and many million feet of valuable timber saved

through the work of the Pileated Woodpeckers and their lesser relatives.

The larvae of wood borers, a group of beetles which attack felled timber, are also eagerly sought by this industrious forester. Wood-boring beetles of various genera lay their eggs in the bark of dead standing timber or in sawlogs that have been left in the woods and the sultan larvae bore into the sapwood where they make complicated gallery systems. The wood-dust manufactured during these excavations is ejected through various entrance tunnels in the bark and falls groundward to accumulate in little heaps. This is the outward evidence that grubs are at work and the log or tree in process of dissolution. But should there also be saucer or cone shaped cavities in the bark of the infested tree, such marks indicate that the Pileated Woodpecker has arrived to save the situation.

During the winter months, when such insects are at the lowest ebb of their life cycle, the woodpecker work is particularly effective, as then they destroy the potential parents of a host of these pests. As wood-boring larvae carry on their destructive work under the bark or in the sapwood of the tree they are safe from other bird enemies. But the Woodpecker is equipped with highly specialized tools for climbing trees and for cutting into the wood in quest of its natural prey. Its strong, sturdy feet are provided with four powerful toes, two placed in front and two behind, and these enable the bird to cling securely to the bark of the tree during drilling operations. Its balance and rigidity is further maintained by the stiff quills in the tail which act as a brace against the tree. The bill, suggests a chisel in shape, and is so used, as, clinging securely to the bark with widespread toes and supported by the unbending tail, the Woodpecker delivers vigorous blows with its bill, while chips fly out and litter the ground below. Soon the chamber of the larvae is exposed and the insect drawn out and swallowed whole. The Woodpecker's tongue is, perhaps, more highly specialized than any other of its organs. It is long slender and nearly cylindrical; the upper surface furnished with small spines pointing backward, while the tip is a spear-point, hard as bone. In its structure and use the tongue suggests an Indian fish spear, or the tiny instrument used by a dental surgeon to remove a dead nerve from a molar. A more ingenious treatment for transfixing larvae can not be imagined. The insect is literally speared; the sharp spear the tough integuments, while the old nests may be used for the bird's grip and hold until the impaled insect is extracted.

whole enjoys comparative immunity from the aggression of mankind. They exhibit none of the qualities that would make them objects of sport and they are too small to be used for food. But the handsome conspicuous Pileated, never particularly common, has been so often the victim of the hunter's desire for a trophy that it has disappeared from many districts where conditions are suitable for its increase. In other localities it is fast approaching extinction. Usually it shows little fear of man and when its resounding tapping has drawn an observer within close range, the chiselling and hammering is continued heedless of the intruder. To the stranger in the woods, perhaps a sportsman on his annual deer hunt, the sight of this powerful, flame-colored bird makes an irresistible appeal. Possibly it is the first large bird seen by the hunter in the lonely autumn woods. Perhaps he has heard it spoken of by its universal and incorrect name of Woodcock. In any case it has an attraction that few other birds offer and far too often the hunter has covered the handsome bird as a memento of his vacation. This desire, however, must be restrained, otherwise, the bird would be lost to the forest, but an illegal act would be committed. The killing or possession of this bird is prohibited at all times by the Migratory Birds Convention Act and by the provincial laws. If these splendid birds, so characteristic of our northern forests are to be preserved, sportsmen must not only refrain from killing them, but must cooperate in their protection.

Historic Site at Friendly Cove, B.C.

The historic past of the Nootka section of the West Coast was recalled recently when Lieutenant-Governor Walter C. Nichol, of British Columbia, unveiled and dedicated a monument commemorating the explorations of those great English navigators, Captain Cook and Captain Vancouver. The monument was built under the auspices of the Historic Sites and Monuments Board of Canada which is placing similar memorials across the Dominion on sites hallowed by interesting chapters of Canadian history. A large party travelled on the Canadian Pacific S.S. Princess Maquinna for the ceremony and left the steamer at the cannery wharf, boarding launches for the short run to Friendly Cove. The party included Lieutenant-Governor Nichol, H. J. S. Muskett, his secretary, Judge Howay and Mr. Forsyth, Dr. C. S. Newcombe, the well-known historical authority who wrote the "Circumnavigation of Vancouver Island." Prof. W. N. Sage of the University of British Columbia, Mrs. R. B. Meldick, representing the I.O.D.E., Mrs. and Miss Howay, Thomas Deacy, late Indian agent for the Queen Charlotte agency and a pioneer of 1859, Dr. David Donald, Mrs. Cave-Browne-Cave, and Professor Macmillan Brown, chancellor of the University of New Zealand. Dr. Macmillan Brown is one of the leading ethnologists of the Pacific, and has been spending the summer on the coast investigating the Indians and their customs. The new monument is seven feet broad by eleven feet high, with a standard size bronze tablet bearing the following inscription:
"Nootka Sound, discovered by Capt. Cook, in March, 1778. In June, 1789, Spain took possession and established and maintained a settlement until 1795. The capture of British vessels in 1799 almost led to war, which was avoided by the Nootka Convention, 1799. Vancouver and Quadra met here in August, 1782, to determine the land to be restored under the convention."
A feature of the entertainment provided those who took part in the unveiling ceremony was the Indian dancing, arranged by aborigines from Clayoquot Sound, the Wisconsin of the early navigators' journals. Tentative plans are afoot for an elaborate pageant to be held at Friendly Cove, Nootka Island, in four years time to celebrate the 150th anniversary of events commemorated by the unveiling of the cairn.

CORISTINE COATS Are Reliable

Plain, or trimmed with fashionable contrasting furs they are the mode! And they are made of skins selected for beauty and quality, lined with genuine silk, tailored by experts. They give years of wear; can be made over time after time yet always you will be proud to wear one. Our 65 years' experience behind every coat. Order from your local merchant or if he cannot supply you we will ship C. O. D. subject to your inspection before acceptance. Catalog on request.

LOVELY PERSIAN LAMB Persian Lamb, Natural Alaska Skunk Colarand Cuffs; long straight lines; large set in sleeves; fancy silk lined; two inside pockets; silk cuffs in sleeves.

"Worth \$100 to Me Relieved Eczema and Piles"

Mrs. Peter A. Palmer, Salthurn, Sask., writes:
"Dr. Chase's Ointment has completely relieved me of eczema and piles. I also used this Ointment for my baby, who broke out in eczema. A few applications were all that was necessary in her case. Dr. Chase's Ointment has been worth a hundred dollars to me before using it I had spent a great deal more than that in unsuccessful treatment from doctors. We have also used Dr. Chase's other medicines, the Nerve Food having restored my health after suffering from severe nerve trouble when a girl."

**MOTHERS LIKE TO TREAT
COLDS WITH VAPORS**

Direct Treatment with Vaporizing
Salve Immediately Reaches
Inflamed Air Passages.

It is no longer nec-
essary constantly to
dose the children in
treating croup, bron-
chitis, sore throat,
or deep chest colds.
Many Canadian
mothers now use the
"outside" remedy,
Vicks VapoRub, for
the cold troubles of all the family, because
it is just rubbed over throat and chest—
there is nothing to take. When so applied
Vicks gives off medicated vapors which
are inhaled directly into the inflamed air
passages, loosening the phlegm and mak-
ing the breathing easier.
At the same time Vicks is absorbed and
stimulates the skin like a liniment or
plaster and thus aids the vapors inhaled
to break up the congestion.
At all drug stores 50c a jar. For free
test size package, write Vicks Chemical
Co., 344 St. Paul St., W., Montreal, P. Q.

**Canadian Sheep
Produce Good Crop
Of Fine Wool**

Canada's wool clip will total 13,
000,000 pounds with a value to
sheepmen of \$4,000,000 according
to a bulletin issued by the Domini-
on Department of Agriculture. The
quality of the product is said to
be the highest in recent years.
Approximately half the wool clip
the bulletin estimates, will remain
in Canada for manufacture. Last
year the Dominion exported 6,000,
079 pounds of wool, of which the
United States purchased 5,261,899
pounds and Great Britain 706,028
pounds.

Government wool grading and
systematic marketing by the Co-
operative Wool Growers which
handles 90 per cent of the clip
have raised the quality of Cana-
dian wool, the department said.

FOR SALE.

The Property, including House
and Barn near C.N.R. depot, be-
longing to Mr Findlay Copp.
Taxes paid to date and property in
first class condition. Sale to be
made at once. For particulars

**NEW LAMP BURNS
94% AIR**

Beats Electric or Gas
A new oil lamp that gives an am-
azingly brilliant, soft, white light
even better than gas or electricity,
has been tested by the U.S. Govern-
ment and 35 leading universities
and found to be superior to 10 or-
dinary oil lamps. It burns without
odor, smoke or noise—no pumping
up, is simple, clean, safe. Burns
94% air and 6% common kerosene
(coal oil).
The inventor, J. M. Johnson, 246
Craig St. W., Montreal, is offering to
send a lamp on 10 days' FREE trial,
or even to give one FREE to the
first user in each locality who will
help him introduce it. Write him
to-day for full particulars. Also ask
him to explain how you can get the
agency, and without experience or
money make \$250 to \$500 per month.
36-12

the attention of advertisers,
that changes or copy MUST be
handed into this office on or
before noon on Mondays.
No copy will be received later.
THE ADVOCATE

**CANADA TO ENGLAND
ONLY 60 HRS. TRIP**

Canada to England in two, and a
half hours!

This was one of the possibilities
of the air which read like dreams
mentioned in a paper on Imperial
Communications delivered by Air
Vice-Marshal Sir Sefton Brancker
at a conference of the Institute of
Transport at Webbsley.

Sir Sefton declared that "the
rapidity and efficiency of our Im-
perial communications may well be
the measure of our success of
failure," and afterwards visualized
the future. Among other things he
predicted were:—

Air Services from Australia from
Singapore via Dutch East Indies;
British East Africa to the Mediter-
ranean; British West Indies to
Guiana; Calcutta to Rangoon;
British bi-weekly service to India
and Australia, the through journey
in 11 days (possible trip and back
in a month's holiday); British
weekly service to the Cape by way
of West Africa in five days; regu-
lar Atlantic airship lines; Canada
to England in two and a half days;
airplane and flying boats between
British East Africa and Egypt, sav-
ing 14 days in trip to London; fly-
ing boat services throughout the
West Indies and Guiana; consid-
erable development in cross-channel
air traffic.

Sir Sefton also spoke of aircraft
which could be operated cheaply by
perfecting a heavy oil engine suit-
able for aircraft. This is already on
the experimental bench. Referring
to the development of the air as a
commercial vehicle, the Air Vice-
Marshal said that two big ships had
been ordered, and while their con-
struction was in progress; the
Government would prepare air ports
in India and at some half-way sta-
tion; probably in the Canal Zone.
As soon as this half-way station
was completed; R-33, one of the old
ships; would fly out there and
operate from that base to collect
data.

Two and a half to three years
would pass before the first two
big British ships were flying and
after that it might be another
two years before the establishment
of a regular bi-weekly service to
India.

Australia was leading the world
to-day in the development of air
services for the use of the general
public, he said.

"You can cook on an airship
rather better than on a ship
at sea," Sir Sefton said in discus-
sion. "I have enjoyed an excellent
five-course dinner dished up on an
airship by a chef of the kit. That
was cooked on the exhaust pipe of
the engine."

Passengers now had not to climb
up a perpendicular ladder or the
mast to enter an airship. They
were shot up in a luxurious electric
lift. These would be available at
all commercial ports.

**NO BILL FOUND
IN SQUIRES CASE
IN NEW'LAND**

A grand jury investigating charges
against Sir Richard Squires, former
premier of Newfoundland in con-
nection with alleged irregularities
in the course of his administration
returned no indictment. The
grand jury held that evidence in
support of charges of larceny and
of receiving money in the testimony
of Mrs. Jean Marsant, formerly
secretary to Squires was insufficient
to warrant finding of a true bill.
Sir Richard has maintained an
absolute denial of the charges
against him or complicity in the
alleged irregularities.

**KINDLY REMIT YOUR SUBSCRIP-
TION TO THE ADVOCATE**

**R. B. HANSON, M. P.,
WINS LIBEL SUIT**

The libel action of R. B. Hanson,
M.P. for York-Sunbury against the
Gleaner Limited, in which he sued
for \$25,000 damages upon the
grounds that he had been charged
with "dishonorable conduct" result-
ed in award in the York circuit
court of \$100 damages for the plain-
tiff the jury standing 5 to 2 for
the plaintiff on four of the five
counts and 2 to 1 for the defendant
on a minor count.

The matter on which the verdict
was against the plaintiff was that
known as the Camp vs Merryfield
case in which the article published
in the Gleaner on February 14th
last charged that the plaintiff had
acted for both sides. On the other
four counts involved the verdict
was for the plaintiff.

The jury went out at 2:50 p.m.
and returned at 7:10 p.m. and
through their foreman Harry Slipp
announced their verdict as follows:

On No. 1—Alteration of the Nev-
ers decree against the defendant and
for the plaintiff.

On No. 2—The Camp-Merryfield
matter for the defendant and
against the plaintiff.

On No. 3—The Darris case against
the defendant and for the plaintiff.

On No. 5—General comment
against the defendant for the
plaintiff.

The plaintiff entered the action
as the result of the publication on
February 14th last, of an editorial
in the Gleaner in which it was
charged that:—

(1)—He had altered a decree of
the Chancery Division of the Su-
preme Court in the matter of
Nevers infants.

(2)—He had acted for both sides
in the case of Camp Bros. vs
Merryfield, went into court for
those who paid him best until he
was forced to withdraw.

(3)—He had reversed his advice
as city solicitor in a claim which
Mrs. Annie McL. Harris had
against the City of Fredericton and
recommended settlement of the case
to secure votes in her family in
an election.

(4)—That he accepted \$25 from
the accused in a case having to
do with the importation of race
horses in which he was acting for
the Federal government and that

THE BIGGEST LOCOMOTIVE IN THE BRITISH EMPIRE

Engine No. 4100, the new freight locomotive, with new type tender, just built for the Canadian National Railways by the Canadian Locomotive Works at Kingston. It is the last word in designer's skill for lines, weight and power. Ninety-two feet in over-all length, it weighs 325 tons, and has a tractive power of 14,500 tons, or the power to move 150 loaded freight cars on a level track. Its boiler has 3,200 horsepower, or more than what is used by the civic electrical plant at Kingston, with a population of 25,000, for lighting and industrial purposes. It is the largest locomotive in the British Empire, being more than three feet longer than the famous "6000" type passenger locomotives, and 35 tons greater in weight. The tender is also an innovation. It is of rounded type, known commonly as the Vanderbilt Tender, as it was designed by the famous railroader Cornelius Vanderbilt. It is of a more simplified construction than the usual rectangular tender and it carries 11,000 imperial gallons of water and 15 tons of coal. It also has the advantage of giving greater vision to the crew for yard work. Five of these locomotives have been built for the National System. The majority will be used in transfer work in terminals.

The remarkable progress made in the construction of motive power on Canadian railways is illustrated by comparing this giant new locomotive of the Canadian National Railways with the first railway engine used in Canada, a drawing of which is shown inset. This engine was used on the Champlain and St. Lawrence Railroad in 1837, and it was named the "Dorchester." The drawing is made from a print in the possession of the Chateau de Ramezay, Montreal.

ORANGE PEKOE QUALITY**

**Assuring Your
Business**

A policy of advertising is a policy of life
assurance, and the protection thus secured is
well worth its annual cost.

Old customers die or move away—they
must be replaced.

Old customers are subject to the influence
of temptation—they may be induced to divide
their custom—to do some of their shopping
at a competitor's.

New comers to this community will
shop with you—become regular customers—
if they are invited to do so.

Your competitor's advertising is an in-
fluence which must be offset if you are to
maintain your trade.

Not to advertise regularly to the read-
ers of the UNION ADVOCATE is to leave
your business unprotected.

A WORD TO THE PUBLIC

It is no sign of weakness to follow the lead of
advertising. You owe it to yourself to get the
most for your money, the best goods and the
best service. And if you find that your in-
clination is to shop where you are invited to
shop rather than to continue to be a customer
of the shop which never solicits your good-will
you need have no compunctions of conscience.

**Shop Where You are Invited
to Shop**

as a result the accused passed
the ordeal practically scot free.
(f)—Comment upon general con-
duct.

THOSE CONFOUNDED NICKELS
The Orillia, Ont. Packet has sev-
eral times expressed a wish that
the man who inflicted the new Cana-
dian five cent piece on the public
should be named, and the editor of
the Beaverton Express thus express-
ing his wrath: "For a real heart-
breaking nuisance there is nothing
to outdo the new nickel five cent
piece. Why this infernal horror has
been inflicted upon an innocent
public has not been revealed. As
a promoter of profanity and other
non-Christian virtues it has no
equal. You innocently pass it for
a quarter and the recipient brands
you for a "cheat." You receive it
as a quarter and you are filled with
disgust at the smallness of the
individual who palmed it on you.
The collection plates are filled with
the obnoxious coin which the faith-
ful pass to the Lord's treasury as
quarters. The thing has no virtues
and no friends

Local and General News.

CEASED OPERATIONS
The D. J. Ritchie Co. Ltd. will cease operations for the season on Saturday.

FANCY WORK LESSONS
I am prepared to instruct children in embroidery work, at my home.
MISS PEARL E. SIMMONDS
40-3-Pd.

TOOK IN WORLD'S SERIES
Hon. F. B. McCurdy, former Minister of Public Works was a passenger on the Ocean Limited Saturday en route home from New York and Washington, where he attended the World's Series games.

ON HUNTING TRIP
Mr. J. F. R. MacMichael, C.N.R. train dispatcher at Moncton, formerly of Newcastle, accompanied by his son Ralph arrived in town on Saturday, en route to Bathurst on a hunting trip.

INDUCTION SERVICES
The induction of Rev. Raymond Ashford, son of Mr. and Mrs. John H. Ashford will be held in St. James' Church, Wednesday evening 15th inst. Mr. Ashford leaves shortly for British Columbia where he will take up missionary work.

FOOTBALL MATCH
The Harkins Academy Football team motored to Bathurst on Saturday to play a football game with the Bathurst High School Team, the latter winning by a score of 10-0.

CHANGE OF TIME TABLE
Beginning next Monday, October 20th the Str. "Max Aitken" will leave Chatham at 2 o'clock p.m. and Newcastle at 3 o'clock p.m. for Redbank and intermediate points, instead of at 3 and 4 o'clock p.m. respectively.

NEWCASTLE STEAMBOAT CO.

ANOTHER FIRE
The Fire Department was called out yesterday afternoon for a fire in a building occupied by Mrs. Mary LeBreton and owned by Mr. Patrick Connors. A bed lounge in one of the halls became ignited and created a large amount of smoke, but the building was undamaged.

HARVEST FESTIVAL
A Harvest Festival will be held at St. Mary's Convent on Oct. 28-29 and 30th. Each evening from 5 to 7 o'clock a supper will be held and immediately following supper each evening an Auction Sale of farm products and household effects will take place. The public is cordially invited. See advt. elsewhere in this issue.

RUMMAGE SALE
The annual Church of England Rummage Sale will be held in St. Andrew's Sunday School Hall on Thursday, October 16th. Doors will open at 10 a.m. and everything will be clean, in good condition and of good value. The public is cordially invited to be present and secure many articles which are in everyday use. 41-2

COLLECT DECORATIONS
The season for the collecting of royan berries evergreen and maple leaves in preparation for the decorations of the Christmas season has evidently arrived to judge from the numerous persons seen bringing large bunches into town on Sunday. Several autos returned from a day in the country gayly decorated with the bright red berries while some of the less fortunate individuals who had to supply their own locomotion, and knew of places close to town where the rowns could be obtained were just carrying their supply.

THE PRINCE OF WALES
H.R.H. the Prince of Wales will arrive in Toronto tomorrow. His Hon. the Lieutenant Governor and Mrs. Cockshutt will entertain at night in honor of the Prince.

FIRE ALARM
The Fire Department was called out Thursday afternoon to a roof fire on the residence of Mr. James Bernard. It was quickly extinguished with little or no damage.

RED CROSS FOOD SALE
The Red Cross society will hold a Food Sale in St. Andrew's Sunday School on Saturday, October 18th at 3 o'clock. Positively no sales will be made before 3 o'clock. 42-0

I.O.D.E. RUMMAGE SALE
The I.O.D.E. will hold a Rummage Sale in the Town Hall on Saturday Oct 25th. Donations are requested by the chapter and anyone having articles to give will kindly communicate with the Regent, Mrs. David Ritchie.

PAINTING POST OFFICE
During the last ten days Mr. Wm. McCormack and son have been engaged painting the clock and wood work of the post office. The appearance of the building has been much improved by the recent coat of paint.

RUN OFF ON BRANCH LINE
The C.N.R. New Castle-Fredericton express which reaches Fredericton at 1:05 p.m. was delayed Saturday by the derailment of the baggage car at Durham Bridge. No one was injured in the run-off and an auxiliary was sent from South Devon to replace the derailed car.

CHANGE WITHDRAWN
The theft charge against Arthur Johnston and Allan Briggs was withdrawn when they appeared in the Chatham police court Wednesday morning. Clerk of the Peace Whalen found that there was no evidence to support the charge. Robert Murray, K.C. represented the accused.

A GOOD ROAD
The Miramichi road, the short road to Bathurst is now in excellent condition and the trip to the Gloucester county town can be made in two hours with complete comfort, though rushers have been doing it in an hour and a half. The only poor stretch of road occurs in the last nine miles near Bathurst where holes are common in spots.

RED CROSS SOCIETY DRIVE
A drive for Red Cross membership is being held throughout the province this week and in Newcastle it has been decided not to have a house to house canvass, because of the difficulty in securing canvassers but Red Cross members and others who wish to pay their fee of \$1.00 are kindly requested to send same to Mrs. W.A. Park, Mrs. K. W. Crocker, Miss Jean Robinson or Miss Louise Manny. A list of paid members will be published in the local press.

EXCAVATING FOR NEW SCHOOL
Mr. Charles Sargeant has a large number of men employed excavating for the basement of the new school which is to be built in connection with Harkins Academy. The contract for building the new school has been awarded to Somers and Ramsay, and will be built of brick interlocked with tile and will contain eight rooms, four of which will be completed now. The new building will be erected immediately behind Harkins Academy facing Campbell street, the foundation to be completed this fall and the building by August 1, 1925.

EXCHANGE PULPITS
Rev. J.H.A. Anderson of Chatham and Rev. L.H. MacLean of Newcastle, exchanged pulpits last Sabbath morning.

RED CROSS DRIVE FOR MEMBERSHIP

On Wednesday next the 15th inst. a province-wide drive for Membership and funds will be started by the various branches of the Red Cross Society. These splendid organizations are doing splendid work throughout New Brunswick and in order to meet the growing demands of their progressive programme, require more funds to carry on the work in an effective manner.

It is of course unnecessary to go into details regarding this work. Everyone knows what a worthy organization the Red Cross is and what an important part it now plays in the life of our country. The drive which begins this week should meet with very satisfactory results for any cause so worthy is sure to make a strong and consistent appeal to the generous spirit of our people.

NEW YORK HUNTERS SECURE BIG GAME

George A. Davis, taxidermist of Fredericton says that the number of moose heads which he had received so far this season are double the number for the corresponding date last year. The largest one received was that secured by A.C. Mower of New York, on the Charlo liver Restigouche county. The head had a spread of 56 inches. It was accompanied by another nice head secured by K.A. Fulton also of New York who hunted with Mr. Mower on the Charlo. The latter had a 50 inch spread.

Mr. Davis says that the usual shifting of the moose herd was noted in the reports received from hunting parties. Places which had been regarded as specially good hunting grounds two seasons ago are now almost barren of big game while the moose has made its appearance in other sections where formerly it was not known in large numbers. Sportsmen have been having unusual good luck during the first two weeks of the season. Bears are also plentiful and a number of bear skins have been shipped here.

New Rifle Club For Campbellton

Sometime ago a meeting was held in the town hall in Campbellton for the purpose of forming and organizing a rifle club and this new organization further advanced on Monday when Lt. Col. H. C. Anderson of St. John was there. After meeting with several members of the newly formed club it was pointed out by these officers that this club must be affiliated with the militia in order to get the benefit of the government grant.

It is felt that plans will be formed whereby this organization will be known as the Restigouche Military Rifle Association and that the officers in the club will be officers of the different militia detachments from here. In such an event the Government would supply guns, ammunition and targets. Grounds for the ranges have been chosen at Fishhead and it is expected work will be started on them this fall. During their stay in Campbellton Col. Sparring and Anderson made an inspection of the military store rooms.

LUMBER CUT IS SMALLER

The indications at present point to activity in the lumber woods of New Brunswick not approaching the extent of those of recent years, by a considerable margin. This condition is due to the disturbed state of the lumber market in the United States and to resulting low prices. Pacific Coast timber which ordinarily would seek the Japanese market has been boycotted there and has been shipped via the Panama Canal.

It is reported that operations which had been intended to be carried on extensively have been cancelled in some cases and in others, operations according to present indications are curtailed.
