THE STORY OF A SPOILED BEAUTY.

CHAPTER LIII.

An almost awful recognition of it came over her. Life could not last very long. It was almost the first time since she had reached womanhood that she had given a thought to life beyond the grave. Hitherto she had sailed down a pleasant stream of pleasure and gaiety; and now there came to her a certain strange sensation that everything earthly must sooner or later have an end. But what would follow? She tried to shake off dismal thoughts; but a seriousness had settled upon her for which she could not account.

"I think," she said to herself, "if I had my life to live over again, I should act differently in many ways; and I am not quite sure that I do not wish I had never seen Vance Wynyard. When a fact is placed before one in very plain words, it has a different aspect."

Then Gladys Rane rose, and, as she did so, her eyes fell upon the silver-gray wrapper, which the wind was blowing further and further away. Woman-like, she was attracted by the delicacy of the material, and she hastened to pick up the article.

"It is Miss Rooden's," she said to herself, "and how lovely it is!" She shook out the fine, glistening folds, with all a woman's admiration for what is most beautiful in dress. "I must send it to her," she thought. "What a pity that she left it here!"

Then it occurred to her that she did not know where Angela was staying, for she had not seen her, and Gladys could not guess, "it might be at Culdale, or in any of the neighboring villages. She had not even noticed in what direction she had gone; moreover, had she done so, she could not overtake her, for she had been sitting there thinking for more than half an hour. Gladys did not like to leave

YOUNG DAUGHTER MADE WELL

Mother Tells How Her Daughter Suffered and Was Made Well by Lydia E. Pinkham's Vegetable Compound

Vancouver, B.C.—"My daughter is a young girl who has been having severe pains and weak and dizzy feelings for some time and had lost her appetite. Through an older daughter who had heard of a woman who was taking it for the same trouble, we were told of Lydia E. Pinkham's Vegetable Compound. My daughter has been taking it for several months and is quite all right now. It has done all it was represented to do and we have told a number of friends about it. I am never without a bottle of it in the house, for I myself take it for that weak, tired, worn-out feeling which sometimes comes to us all. I find it is building me up and I strongly recommend it to women who are suffering as I and my daughter have."—Mrs. J. McDonald, 224 29th Ave., East, Vancouver, B.C.

From the age of twelve a girl needs all the care a thoughtful mother can give. Many a woman has suffered years of pain and misery—the victim of thoughtlessness or ignorance of the mother who should have guided her during this time. If she complains of headaches, pains in the back and lower limbs, or if you notice a nervousness of thought, nervousness or irritability on the part of your daughter, make life easier for her. Lydia E. Pinkham's Vegetable Compound is especially adapted for such conditions.

BEING GOOD TO A CHILD.

It isn't being good to him To let him have his way, To pamper every childish whim And send him out to play; It isn't being good to buy The candy which you should deny.

It isn't being kind to smile When he is in the wrong, To overlook his childish guile Will make the habit strong; It isn't kindness not to see His sometimes willful tendency.

It isn't love to let him grow Unstatured and untrained, To see his faults and let them go Unchecked and unexplained; For often, that a child may learn, Love must seem very harsh and stern.

'T were better now a few sad tears Than many later on, Better than sorrow through the years A frown that's quickly gone, And being good and being kind Is ever keeping this in mind.

4309. Nainsook, muslin, crepe, satin, crepe de chine or radium silk could be used for this. The closing is at the centre back. One can finish this in knicker or pantallette style.

Political Paragraphs.

Great news from Burin this week indicating a big victory for Harris and Chafe.

George Hampton took a bag of "iron men" out to Port de Grave Thursday to help stem the tide.

Porte de Grave voters, will no doubt, take all the money that is offering and will vote for the best man and the best party afterwards, that is W. A. Mackay and the Bennett party.

All the money in the Bank will not buy the consciences of intelligent electors such as are in Port de Grave District.

The victorious trio, Walsh, Sullivan and Sinnott came to town yesterday to take train for Placentia. They report that that District will roll up the biggest majority ever given those three successful candidates.

Carbonar is gone clean from the Government this week. It was one of the seats that they were confident of winning. They now give it up and concede that Moore will be elected since his big meeting at Victoria.

Stone, Bradley and Hodder are doing great work in Trinity District, and people who arrived in town on Thursday have no hesitation in saying that they will make a clean sweep.

Squires is denouncing that "fool Coaker" for letting out the plot about the sale of the Labrador. The northern fishermen are up in arms against the plot and see in it the first slice of Confederation and the giving away of their fishing rights to Canada.

Sir Richard Squires must now realize that it takes more than a gilt tongue and the gift of the gab to make a successful Premier. A man presuming to conduct the affairs of this country, if he has not brains and executive ability, will soon be found out.

He has been "weighed in the balance and found wanting," except in words. Talk, talk, flowing like lava over a volcano. All the people are sick of it and he only influences those who hear him for the first time. The ring of insincerity is quickly detected afterwards.

The people of Newfoundland whom he has not bought up are not interested in what it means in the way of advantage to Sir Richard to be Premier of this country four years more. They know he would make a lot of money live in luxury, feed his ambition and his vanity up to the chin and have some fine trips abroad posing amongst strangers as a great man—a Premier worth-while as he says himself. What the people want now is a leader who will put his vanity and his luxurious living aside and make this country so that men can get an honest living and support themselves and families in comfort.

A man who eats up what little ability and energy is in him to have himself styled "a Premier Worth While with his phiz in the papers every other day is no good to the country, especially while playing such vain antics. Half the people are starving. They ask for honest bread and he gives them his photograph. They ask to have the load of taxes taken off their shoulders, and he instructs his henchmen to tell them that he is a "Premier Worth While." Does he think that the country will stand for such tom-foolery

brained people invisibly breed a snug, self-satisfied insolence. They regard the common people as so many head of cattle as their material to serve their own ambition and lust for money and power, and an easy living at the taxpayers expense. Consider the leaders and lieutenants of the present Government and review their record the past three years and you will have a practical example of what we say. Will you let them fool you, and use you, men who laughed at you four years ago. No! No! It is against Nature and they must go.

They now are trying to fool you with a proposition known as the "Humber Deal," and they want to make you swallow this latest patent election bait without telling you what it is. What they do tell is like a story from the "Arabian Nights." You stand on a magic carpet, the genie appears and presto! You are relieved of all your ailments, your pains and aches, your debts and bad neighbours and are transported to the banks of the Humber to live happy afterwards. Now this is what the Americans call "Dope" and in this case the term is most suitable.

Every Squires-Coaker candidate on every platform in the country to-day is saying to his audience, "Vote for us and you will get plenty of labor on the Humber." The idea that they hope to convey is that every man who hears them can go the Humber. If they said "100 men from this District will get work on the Humber by drawing lots" there would be some sense in it. There are 18 districts and this would be 1800 men, which, in addition to those who are there already, would be a reasonable number.

But they are addressing probably 50,000 voters in the 18 districts, and taking them at their word there would be that number starting for the Humber after the Squires Government was returned. Logically they would say, "You promised all of us work on the Humber, now give it to us." This will show the insincerity of the whole thing and that the principal use of the Humber Deal as far as Squires and his associates are concerned is to get votes.

There are some unknown details about it's terms that Squires knows will not get votes. He knows that if the people knew it would drive away votes. So like a cute man he says to five other men of the Executive who know the mighty secret, "We'll keep this part of it from the people till we get back, for if they knew they would vote against us. I fooled them before with my 32 promises and I can fool them again. Don't trust him. Vote for BENNETT & BETTER TIMES.

THE GRUMBLER.

Said Thomas Timhorn, Tinner, when he sat down to eat, "This is a cheap job dinner—you've overdone the meat; the spuds are burned and smoking, and call for tears not joking; no wonder I'm invoking the sacred name of Pete." This delegate forever is saying caustic things; he seems to think it clever to hand out words with stings; no words of praise he'll utter, no compliments he'll mutter; he knocks the prunes and butter, with fierce and ugly flings. His wife, when she was younger, in cooking well took pride; and he'd assuage his hunger, and fill his works inside; he'd face a meal and grab it, but he'd acquired the habit of roaring like a rabbit, and scowling, sullen-eyed. If man is always chiding, his wife will lose her zeal; she tires of his deriding, she loathes his grumpy spiel; the anger in her quickens, she mutters, "Why the dickens should I vex with words and chickens, to give that grunch a meal?" I say to my Aunt Alice, who cooks my bone and tea, "No monarch in his palace has got the edge on me; my nerves with rapture quicken, new pleasure I discover, whenever you fry the liver, and bake the muffins three." My aunt is always trying to think up something new, a modern way of frying a codfish ball or two; she's happy, since I praise her; no scowl of mine disarms her, and with my safety razor she stirs a fragrant stew.

In Congoland the laws of hospitality are such that a stranger is at liberty to stop at any hut and spend the night. It is wished he may stay on indefinitely. Although he is at liberty to remain he is not at liberty to please himself in the matter of entertainment. He may be tired but he is not permitted to rest because Congo hospitality is not expressed in that fashion. To give their guest a real welcome the host and hostess gather all their friends and neighbors together to amuse him. They dance for him, and in their anxiety to give him a pleasant time they keep the dance up all night. His good breeding of course does not allow him to show any signs of fatigue. Despite the late hours his hostess does not neglect her daily duties. She is out bright and early next morning and at work in the fields with her clear in her mouth. In Congoland it is the women who smoke, the men preferring to take snuff. While the women do the field work and market all the produce the men take over the management of domestic affairs. HARBOR GRACE DECLARES FOR A CHANGE.

Harbor Grace, April 23.—All doubt as to the political sentiments of Harbor Grace was set at rest to-day at a meeting. A large gathering of citizens were outside the Hall when the candidates emerged. When the government candidates came out a cheer was called for and given by no more than ten per cent. of those present. Shortly after, when Mr. Bennett and his colleagues appeared, cheer after cheer rang out from the crowd with an enthusiasm seldom witnessed here. The few government supporters are very sick to-day and have given up all hope. As for John de Ledrew, the Government would put him quietly away until after the election if they knew what harm his recent activities are doing to their questionable cause. There's no doubt about it that BENNETT AND BETTER TIMES have come to stay.

PORT DE GRAVE WILL ELECT MACKAY.

Barened, via Bay Roberts, April 23.—Mackay reached Brigus from Placentia Bay on Friday's train. He was met at Brigus by members of his supporters who welcomed him with hearty cheers as he alighted from the train. After visiting his committee rooms at Cupids he left for St. John's Beach. He was met by friends from Otterbury, Dock and Barened. All the way along from North River to Dock bunting was displayed and he was greeted by a large crowd with cheers and guns. In the evening at Barened the Hall was packed, at least ninety per cent. being his strong supporters. He was introduced by Mr. W. H. Batten, and addressed the audience and received ringing cheers. Propaganda inspired by parties outside this District has failed miserably here and will not have the least effect on the District. We are convinced he has been grossly misrepresented and notwithstanding what the Advocate predicts will carry the District with a much larger majority than in the 1919 elections. There is sufficient contrast in the two men to warrant Mackay's election regardless of the fact that Port de Grave District is in line with the rest of the country for Bennett and Better Times.

NOMINATION DAY AT CARBONAR.

Carbonar, April 23.—At 11 o'clock this morning the nomination papers of James Moore were duly adjusted by John Rorke, John Mackey and M. J. Hawker, as candidate for the Liberal-Labor Progressive Party, led by John R. Bennett. After a delay of an hour the Government candidate was also nominated. Then followed the time-honoured custom of the candidates addressing the people from the Court House steps, where some 500 people had assembled. At the close of the meeting seven-eighths of the gathering cheered enthusiastically for Moore and Bennett and Better Times.

HARBOR BRETON SLOGAN BENNETT AND BETTER TIMES.

Harbor Breton, April 23.—Outer-bridge led Warren a merry chase over miles of ice from the Kyle and held a meeting in the Parish Hall here on Saturday night. The meeting was one of the largest ever known in the District. The people gave the Bennett candidate a most enthusiastic reception and were especially delighted when the fish bonus was announced. The cry here is no more Coaker and Regulations, and the slogan is Bennett and Better Times.

MOORE WILL WIN ST. BARBE DISTRICT.

Port Saunders, April 23.—Moore arrived here on Saturday, receiving a great reception of bunting and gun firing. At his meeting there was wonderful enthusiasm. It is a Moore victory sure on this coast.

CATALINA RESENTS COAKERITE TACTICS.

Catalina, April 23.—Following a Union meeting at Port Union on Saturday night about a dozen hirelings sneaked down here Sunday morning before daylight and tore down an arch over which the Union Jack was flying that was erected in honor of Stone, Bradley and Hodder. We resent these cowardly tactics of Coakerism and deplore such rowdyism on the Lord's Day. Their names, however, are known by the police and will be dealt with in due course. The people of Catalina are so indignant that they turned out en masse and with determination this morning erected a much larger arch, bearing the inscription of "Vote for Bennett and Better Times," "Welcome to Stone, Bradley and Hodder," which was completed by 9 a.m. We have made up our minds for a change and will vote for Bennett and Better Times.

GRIMES CHANGE GONE IN FOGO.

Fogo, April 23.—S.S. Clyde arrived here on Saturday last with a few barrels of flour for distribution to Coaker's heaters at special ports of call. Passengers consisted of Boone (no number of Coaker). He was told in a few plain words: Fogo had no use for a hypocrite of his stamp. Whether he intended getting off here is not known. It was the greatest treat of this campaign to see Boone's coat tails going over rail of steamer to seek shelter in the saloon. The pure drop of water bring close by the situation and advised Boone to save himself a cold bath and get back on board the Clyde. Voters of Fogo are indignant that this steamer should be sent by Government for political purpose not bring property to give the public a chance to replenish their stock after four months of severe winter. Fogo District is a sure win for Opposition. Grimes chance of election is going, going, gone. Long and clean Government is the watch word.—COR.

ADVOCATES LIES REFUTED.

Twilligate, April 23.—The Liberal-Labor Progressive Committee of Twilligate absolutely contradicts the lying statement in the Advocate of the 16th inst., wherein that paper states "that every man of Sir Robt. Bonds last committee with one exception is a supporter of and a worker for the Squires-Coaker standard bearers." The positive truth is that this statement is right the opposite of the truth as that only two persons of Sir Roberts Committee are now supporting Squires-Coaker candidates and both of these are Government officials. What an insult to fling at intelligence of this district for Advocate to state "that Dr. Barnes is a worthy and legitimate successor of Sir Robert." Ayre and colleagues were duly nominated to-day on behalf of committee.

S. LOVERIDGE, Chairman H. Baird, Secretary.

SCAMMEL ABUSIVE.

Rocky Harbor, April 23.—Scammel held a most abusive meeting at Rocky Harbor during which he called the merchants of Water Street blacklegs. He promised the children Santa Clause if he was elected through the Humber Deal. He also said that Bennett would cut our educational grant in half. Nobody believed him though.

EDWARD DYKE, JAMES WALTERS.

NOMINATION AT PLACENTIA.

Placentia, April 23.—Nomination of candidates here to-day with all Coaker candidates blowing as to their strength. Here they only could find three men to nominate them. This was quite a contrast to Bennett candidate who had nine men nominating and about 40 supporters present. Bennett can't lose in this district.

DELAYED and DECEPTIVE

An Undignified Manifesto!

It had been rumored that Sir R. A. Squires would not issue a Manifesto. Reading that which he published on Saturday last, it will be agreed that he would have shown wisdom by maintaining silence. A feeling of the Premier's utter lack of a becoming dignity is the first impression the Manifesto gives, and its insincerity is the last taste it leaves in the readers' mouth.

The personal references to his more prominent opponents, and their slighting and untruthful characters, are utterly out of place in a document intended to set forth a Government's policy. They serve to prove, however, that the inspiration of similar attacks in the Advocate and Mail has come directly from the Premier himself. The attempt, for instance, to create sectarian prejudice by representing Sir Michael Cashin as the actual leader of the Opposition, and Mr. Bennett as a "pawn," is made as openly in the Manifesto as it has been in the Government organs, and proves that the Premier is the chief "sectarian firebug" in the Colony.

The callous mendacity of Sir Richard Squires is also strikingly evinced by his Manifesto. It has been shown by the News, in a series of articles called the "Great Betrayal," that of all the numerous promises made by him in 1919, not one has been kept, that the majority, in fact, have been deliberately broken, yet in this latest appeal to the Colony, the Premier claims that his pledges have been kept in the main, though he wisely refrains from mentioning even one fulfilled.

An illustration of the deliberate deception he seeks to profit by is given in the only reference to the financial record of his government Sir Richard makes. He tells the public that the budget framed by Sir Michael Cashin produced a revenue equal to \$43.67 per head in 1919-20, while the budget he submitted for the year 1921-22 will not collect more than \$34.78 per head, and the false impression he thereby seeks to create is that the burden of taxation and the gross expenditure have been less under his administration than under his predecessor's.

The actual truth is, of course, that with a very much lower rate of Customs duties, a greater revenue was received under Sir Michael because the Colony was more prosperous, while with a constantly decreasing prosperity, Sir Richard Squires constantly increased the rate of Customs duties, so that the share of their earnings paid in taxation by the people was much greater under Squires than under Cashin.

It is also true, of course, that while Squires was taking a greater share of the earnings of a poorer people, he was borrowing money abroad, thereby adding to the Public Debt, and so to the everlasting load which the people will have to bear for all time. Cashin, on the other hand, out of his greater revenue, was building up a surplus for a wet day, but, alas and alack, when that day came, he was not there to use it prudently, but in the hands of Squires and Coaker it was wildly squandered.

It is a matter of fact that the expenditure has been greater under Sir Richard Squires than ever before. This has to be paid for by the people, either in the present, by taxes, or in the future, by taxes; the method is the same in both cases, though the times may be different. It is also equally true, that the share of people's earnings taken by the Government has been greater under Squires than ever before; that as the people have grown poorer and poorer, and less able to earn and pay, he has taken from them a constantly increasing share; and in addition to this, he has borrowed and added to their debts, a larger sum each year than any other Premier. It is sadly true, also, that for all the vast sums expended under Squires, not one enduring thing except the debt itself can be pointed to as the result of his conduct of our finances.

If Sir Richard had chosen to explain, to excuse, to justify, even, a degree of sympathy might have been possible, but he has chosen instead to sympathize, to deceive—in short, to lie most abominably about his record, and his reward should be that deserved by all liars, whether the pious ones who seek to deceive a few, or the monster who attempts to delude a whole people.

THE SURPRISE OF THE DAY!

Coaker's Colleague Nominated—A Vote for Dunfield is a Vote for Coaker.

The nomination of Brian Dunfield, for St. John's East, was the surprise of yesterday's proceedings. The secret had been well kept. Mr. Dunfield's card to the electors, bearing evidence of careful preparation, was circulated widely yesterday. He is what Premier Squires calls a "scion," being the son of a clergyman, the son-in-law of a Judge, and a Director of a fishery-supplying company.

It is a matter of regret that a candidate who claims to be of more than ordinary quality should be guilty of trickery at the very outset, for that is what the secrecy amounts to. Ordinarily, a candidate comes early into the field, addresses the people broadly and frequently, and if he stands for a cause, gives time for its adequate discussion. To do otherwise seems to aim at a snap judgment. Mr. Dunfield seeks to win by surprise.

It is a matter requiring explanation that Mr. Coaker did not find a seat for Mr. Dunfield in the supposedly safe North. It has long been understood that the notorious Fishery Regulations were framed by Mr. Dunfield. It is said that Messrs. Hawes and Brookes conceived the policy, that Mr. Dunfield put it into words, and that Coaker made those words law. Mr. R. B. Job was a member of the Fishery Board, and Job, Brookes and Dunfield were for a long period the chief defenders of the regulations when they came up for discussion in the Board of Trade. Mr. Dunfield was defeated in Trinity as a colleague with Mr. Squires, in 1913, supported the Squires-Coaker party in 1919, and believes, he says, that the same

The Tyrant of the North.

The days of tyranny are rapidly drawing to a close and a happier and more independent people will be thankful for release. Coaker, the Government head and self-styled autocrat of the North, is now shivering in abject fear, for help is at hand and the Bennett Candidates are being proclaimed from all districts.

The shackles of Coakerism have been thrown off, and a happier people are acclaiming BENNETT AND BETTER TIMES!

party will be elected to office. History, therefore, shows that Mr. Dunfield is a Squires-Coaker nominee.

The chief issue in this election is whether the Squires-Coaker gang shall continue in power. Anybody who diverts attention from that issue, or splits up the votes of electors, is playing the game of the gang. Every vote given to Dunfield, is an opponent of Squires or Coaker is a vote half given to them, for it's a vote lost to the cause of their defeat. Mr. Dunfield, then, has to be regarded by intelligent people as a helper of the unworthy twin leaders of the Government. Willingly or unwillingly, he will help them to the extent that he gets votes which they could not get for their own men. It is as though Squires and Coaker were to say, "if you won't vote for us, at least don't vote against us, but waste your vote by giving it to Dunfield."

Opponents of the Government in St. John's East should remember that the question they will have to settle on Election Day is not what man is best qualified to be a member, but "what Government do we want? If we vote for Dunfield, we really vote for Coaker. We shall, of course, not elect Dunfield, but votes which might, if marked for Higgins, Fox and Vincombe, have put Coaker out of power, may leave him there if given for Dunfield." Only those, therefore, who are ready to be made tools for the profit and advantage of Squires and Coaker will mark their votes for Dunfield.

Mr. Dunfield has circulated "Twelve Facts" about himself, as "a strong man", which shows that his vanity, at least, is great. For instance, he has "brains", has "honored the legal profession by his arguments in Court", is "a bit of a fishery expert as well as a lawyer", and has "made his own way and made good", all of which is measurably true, and yet might much better have been left for his supporters to say for him. "He's not the only pebble on the beach".

Mr. Dunfield speaks of himself in two places in his Manifesto as "a Church of England candidate". This is an impertinence. The Church of England, as such, is not in politics. It has not chosen or nominated any candidate. If he merely means to say that he is a member of the Church of England, he has been unfortunate in his choice of words, and even so should not have mooted the subject, for an intelligent man, especially one with his pretensions, should not mention sectarian matters in this connection, or seek to profit by any denominational appeal. That is putting one's faith to a poor use.

But it is in his statement of the political situation, and of his own position towards it, that Mr. Dunfield has made the worst blunder. "Both parties", he says, "are run by 'Old Gangs', and 'whichever gets power will practice graft, corruption and waste'. Then he says "Squires will win", but "Bartlett, Bulley and Burke will lose in St. John's East", and he, if elected, though "he has no policy", will "watch the Squires' Government to see they do no wrong", and at the same time "will get the electors of St. John's East what they want, and give both old parties what they deserve". He winds up with one grand burst, "Put St. John's East in power whichever way the election goes".

Now examine carefully into this turgid appeal, and perceive what it really means. This self-asserted "independent", this "bold critic", is going to be on the winning side whichever it is, for that's the only meaning of the call to put St. John's East in power whichever side wins; that is, he will be on that side. As he says that Squires will win, he means, clearly, that he, if elected, will be on the Squires side. How then can he be an independent critic, or anything else than one who "runs with the hare and hunts with the hounds"? How can he get "what the electors want", from an "old gang of grafters", except by stifling his criticism, or advocating their schemes, in return for a corrupt consideration. In other words, Mr. Dunfield says, "elect me and I shall be for sale, but I'll give the price to you". This is not clean politics, is it?

TORBAY AFIRE.

Victory-Straight-Ticket-Trio Score one Hundred per cent Vote—Unparalleled Reception Given Bennett Standard Bearers

Wonderful scenes of enthusiasm were witnessed at a meeting of the East End candidates, Messrs. Higgins, Fox and Vincombe held last night at Torbay Parish Hall. The building was filled to overflowing and as the candidates delivered their addresses they received tremendous ovations. Mr. William Gosse presided and on the platform were many veterans. It was a memorable scene and a memorable occasion, one that has probably never been paralleled, and certainly never exceeded in Torbay. The reception prepared for the candidates was complete in every detail and all the residents participated scarcely a residence but was illuminated or showed signs of welcome. Along the road leading to the city the houses were also illuminated with bonfires and volleys of musketry gave unmistakable signs of the popularity of the Bennett Trio. It is unanimously agreed that Torbay will vote the straight ticket and give 100 per cent vote for Higgins, Fox and Vincombe. The meeting opened at 8 o'clock closed at 11 p.m. At the conclusion Mr. Gould proposed a vote of thanks to the chairman, which was unanimously passed and cordially tendered. The candidates will hold a meeting to-night at Outer Cove where a big reception is assured.

Harbor Grace Solid for Opposition.

The largest and most enthusiastic political meeting ever held in Harbor Grace District was held in St. Paul's Hall, Harbor Grace, last night by the Leader of the Opposition Party, Mr. J. R. Bennett and his colleagues Messrs. A. E. Hickman and F. Archibald. Between seven and eight hundred were present and scores were unable to gain admittance. The meeting was presided over by Capt. Jas. Parmenter, and opened shortly after eight o'clock. The chairman gave a short but pointed address, and called on Mr. Bennett to address the gathering. Mr. Bennett in a masterly address, lasting nearly two hours, outlined the policy of his party and tore in shreds the recent manifesto of the leader of the Government. He reviewed the misdoings of the government for the past three years and showed up in unmistakable terms the certain disaster that will overtake the country if given another term of office. He pointed out there was nothing left but to return the party of which he was leader, and dealt, without gloves, with the proposals of the Government in the district, pointing out the underlying object of playing him with regard to the leadership and Sir Michael Cashin. He warned the people to beware between now and polling day against propaganda of the lowest and most contemptible description, tactics that will be used not alone in that district but throughout the entire country. All through his address, as he made point after point against the Government, there was the most enthusiastic applause and at the conclusion of his remarks the building fairly shook with cheers and hurrahs.

Mr. Hickman was the next speaker, and in a most practical speech dealt with the serious problems before us, and convinced the entire audience that the only hope for the country's future progress lay in the return of the party under Mr. Bennett's leadership. Mr. Hickman's address on this occasion exceeded even his former efforts, and after a speech of

nearly an hour during which he was continually applauded, he concluded by endorsing Mr. Bennett's remarks regarding the tactics resorted to by the Government in a strong and forcible manner.

Mr. Archibald followed Mr. Hickman, and stated as he was in his native town he naturally felt at home, and he handled in a splendid manner the matter of local interest and brought home to the people the absolute neglect of the district had been suffering during the past three and half years. He assured them that the candidates who were representing the party under the leadership of Mr. J. R. Bennett were the only ones that could and would do anything for the district, and pointed out the fact that the Government candidates had not yet held a public meeting but were going around telling the people they were waiting for Squires to hold one for them. Mr. Archibald's address, although the hour was getting late, was received with wonderful enthusiasm, and the people of his home town demonstrated in no uncertain manner the popular sentiment for their fellow townsmen.

It was nearly twelve o'clock when the meeting closed and the entire audience remained to the finish and the meeting closed by the singing of the National Anthem and thunderous applause for the Opposition Party.

Nomination Protested.

After the nomination of Mr. Ambrose Heers, the Government candidate for Ferryland district, a protest was entered, claiming that he was a naturalized American citizen, and as such had no right to stand for election. It is claimed that Mr. Heers took out naturalization papers some 15 years ago, and the fact was not disclosed until after nomination.

Coaker and Squires Combined Against St. George's Coal Fields Development.

Voted \$500,000 for Reids South Branch Coal Claims Which Turned out a Fizzle—Turned Down 2600 Local Shareholders and Tried to Block the Sale to an American Syndicate—Bennett will Encourage Local Enterprise and Development.

Newfoundlanders! The time is come when you must be awake to your interests. The scandals of the present Government are many and great, but perhaps one of the most glaring of them all is the manner in which both Mr. Coaker and his serf the Prime Minister dealt with the pleas and petitions of the local company known as The St. George's Coal Fields Company, Ltd., who by reason of the incompetence of Mr. Joseph Downey, now a Coaker-Squires candidate in the district of St. George's and the satellites of Messrs. Coaker and Squires were denied the most meagre consideration of encouragement, in fact they with Mr. Downey, contrived and connived to discourage the project which now, despite their efforts and double cross methods to knock the enterprise, turns out to be a most welcome and prosperous proposition. Our readers will remember the outrageous scandal in relation to Reid's South Branch coal claims when the Government voted five hundred thousand dollars to the company to develop same with the net result a colossal failure. At the same time the newspapers of the day were giving us the splendid prospects of the claims of the St. George's Coal Fields whose directors had asked for a very small sum to build a road of seven miles connecting the claims to the main road. During this time experts were pronouncing very favorably on the St. George's claims which from every indication would cost very little in comparison to the South Branch areas to develop. But the Fields were backed by W. F. Coaker, who is and was the controlling factor of the Government, had to be listened to, and they were so much so that half a million of dollars of the people's money were given them to boost their personal enterprises.

Mr. Coaker and his government were not satisfied with going thus far as will be admitted by the knowledge that they worked unceasingly to prevent the sale of the St. George's Coal Fields claims to outside capitalists which, despite the opposition of the Reids, Coaker, Downey, Squires and the government, appears to have been consummated with the result that within a reasonable period we will be in a position to enjoy the glow of Newfoundland coal at a much cheaper price than the imported commodity which should, according to all sense and reason have been ours to enjoy two or three years ago.

The conduct of Mr. Downey, Mr. Coaker and the present Government in connection with the St. George's Coal Fields enterprise, is of such a character that needs no apology for its vindictiveness and spleen which so manifests itself in all their dealings respecting same—so accordingly we avail of this opportunity to register our denunciation of the outstanding scandal which from every standpoint merits the severest condemnation of all concerned.

Correspondence re Ropewalk Incident.

MR. ALLERDICE REPLIES TO MAIL.

St. John's, April 23, 1923.
 Editor Evening Telegram—With reference to your article in Saturday's issue concerning the meeting held by the Government candidates at the Ropewalk Club, we, the undersigned members of the office staff and workmen at the Ropewalk, wish to state that on no occasion did the Managing Director, Mr. F. C. Alderdice, ask us or anybody to interrupt the speakers or in any way interfere with the holding of the meeting. On the contrary, Mr. Alderdice expressed the wish that the speakers would receive a perfectly good hearing. It is also incorrect that Mr. Alderdice has made any attempt whatsoever to coerce any of us to vote against the Government candidates.

The statements made in your issue concerning Mr. Alderdice are most unfair to him and to the Company of which he is Managing Director and we ask you, therefore, to publish the letter.

Yours very truly,

THE FIGHTING TRIO, HIGGINS, FOX, VINICOMBE, St. John's East Representatives.

They (SQUIB) who have been tested and found true.

There is no room in such a distinguished district for the willing tools of the destroyers of Responsible and Proper Government.

The whole District endorses the Fighting Trio, who stand for Government of the People, for the People and by the People.

The people's wishes must be considered. Never again in the history of Newfoundland shall despots ride rough-shod over the wishes of the people.

The resolve is being made in every section and settlement of the district to drive out of power the men who have insulted the people's privileges.

The cry has been taken up, and from every side the voice of the electors is heard in determined approval of HIGGINS, FOX and VINICOMBE.

Already St. John's, The Battery, Quid Vid, Newtown, Bell Island, Wabana (East and West), Freshwater, Lance Cove, Portugal Cove have unmistakably given their consent.

Not in majorities, but without exception these places have enthusiastically pledged every single vote to the fulfilment of the Cause represented by the Fighting Trio.

The Country must be saved from the precipice of Financial Ruin. Coaker must be overthrown. Public money must not be wasted. The people insist and unambiguously will vote the Straight Ticket.

HIGGINS-FOX-VINICOMBE!

St. George's Day Joint Parade.

REV. LIGHTBOURNE PREACHES PATRIOTIC SERMON.

St. George's Day was fittingly celebrated yesterday, when the Nidd, British Society, Loyal Orange Association, Society of United Fishermen, Independent Order of Oddfellows and the Sons of England Benefit Society, held a joint parade in honor of St. George's Day. The parade, numbering 500 strong, left Victoria Hall at 10.30. The Methodist-Guards and Salvation Army Bands took a very prominent part in the procession, and played stirring airs along the line of route. The service held at St. Thomas's Church was a bright and inspiring one, and will not be soon forgotten by the large congregation of people who were present. After the usual service was gone through, the Rev. G. O. Lightbourn, B.A., delivered an eloquent address on patriotism. He took his text from 20th Chapter of St. Matthew's Gospel, 25th and 26th verses, and forcibly pointed out the duties of man toward his fellowman: politically, socially and in a brotherly way. During the course of his sermon Mr. Lightbourn expressed his pleasure at having the Societies attend the old Garrison Church of St. Thomas's and extended to all a very hearty welcome. Rev. Lightbourn regretted the absence of the Rector, Rev. Mr. Earp, who was now recuperating from a serious illness. A telegram received by Mr. A. G. Williams from St. George's Society, Halifax, expressing its cordial good wishes on this St. George's Day was also announced

Rev. E. C. Earp Convalescent.

POPULAR RECTOR LEFT FOR BERMUDA.

The Rev. E. C. Earp, Rector of St. Thomas's, left by the Sable I on Sunday for Halifax, whence he takes steamer for Bermuda. The Rector was stricken with illness on Tuesday in Holy Week, shortly after preaching at the evening service at St. Thomas's. The illness developed with a very severe attack of influenza and at one time his condition was considered serious. The extra work in the parish this winter has no doubt had its effect. When the Rev. A. Clayton and C. A. Moulton resumed their cruades last year, the former to return to England and the latter to enter Toronto University, the Rector decided, in view of the fact that so many missions in the diocese are vacant to try and carry on with one man. He has been ably assisted by the present Curate, Rev. G. O. Lightbourn, but St. Thomas's is the largest parish in the diocese and includes both Quid Vid and Virginia, and judging by the views expressed at the Easter meeting last week, there are many who feel that the Rector's decision, laudable though it be, was nevertheless a mistake. The preparation for Bishop Mowll's mission alone entailed an enormous amount of work. An impression has got abroad that Mr. Earp has been given six months' leave of absence. This is incorrect. The fact is that the Rector, feeling his health improving during the past few days, resolved to take his annual holiday now, instead of later on in the summer, this meeting with the full approval of the Churchwardens and Vestry. He goes from Halifax to Bermuda, in the hope that a month's stay in that sunny island may fully restore his health. The Rector is accompanied by Mrs. Earp, and they expect to return to St. John's during the first week in June.

Nomination at Hr. Main.

DISTRICT WILL RETURN BENNETT CANDIDATES.

The result of the election in Harbor Main usually forecasted on Nomination Day, foretells a sweeping majority for Woodford and Kennedy, the Bennett Candidates for the district. At noon yesterday Mr. W. Woodford and his colleague, Mr. P. Kennedy, were nominated. For the Government Messrs. Hawco and J. J. St. John, Jr. were nominated shortly afterwards. These were followed by Dr. Jones, who is standing Independent. After nomination the Opposition candidates, escorted by their friends and supporters, assembled at the cross Roads, where, amidst the greatest enthusiasm, addresses were delivered by Messrs. Woodford and Kennedy, who were given an ovation. Addresses from Mr. J. Kennedy, of Hr. Main, Mr. Jesse Whiteway, Mr. W. H. Jackman, and Mr. R. J. Kennedy of Holyrood followed, all of whom were given splendid hearings. Mr. Samuel Clukey, of the South Shore, also made a fine address and the whole proceedings showed in no uncertain manner that Hr. Main will return Bennett

candidates. The Government candidates remained in the Court House after nomination and were unable to hold a meeting.

THE WHITE MAN'S BURDEN.

One of the hardest working men I ever knew died last week. He was one of those men who not only works at their business but put in their spare time at some other kind of work. In his case it was the painting and keeping in repair of three houses of which, by unceasing vigilance, and by eternal scrubbing, he had managed to possess himself in spite of having a very small income.

He was a man of about 60. He had five children. He had planned to retire and take it easy in a few years.

When we heard the news of his death, the first comment was the conventional one, "Too bad!" Then we drew a breath and said: "Well, I guess they will be able to get along all right now. Three of the children are old enough to help, and his wife has al-

She Found The way to prettier teeth

Millions of women, the world over, now brush teeth this new way. You see the results everywhere today—see them in prettier teeth.

If you still use old methods, won't you let us show you what this new way means to you?

Combats the film

Film is what makes teeth dingy—that viscous film you feel. It clings to teeth, enters crevices and stays. Food stains, etc., discolor it. Then it forms cloudy coats. Tartar is based on film.

Old-time tooth pastes could not effectively combat it. So beautiful teeth were seen less often than now. Tooth troubles, caused by film, came to nearly everybody.

A scientific tooth paste based on modern research, free from harmful grit. Now advised by leading dentists the world over.

Ways to fight it

Nearly everybody suffered from that film. So dental science sought ways to combat it. After long research, two ways were discovered. One acts to curdle film, one to remove it, and without any harmful scouring.

Able authorities proved those ways effective. Then a new-type tooth paste was created, based on modern research. Those two great film combatants were embodied in it.

Millions use it

Careful people of some 50 nations now use Pepsodent, largely by dental advice. It is bringing a new dental era.

Learn how much you need it. Ask for this ten-day test. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear.

Those are benefits you cannot afford to miss. Cut out the coupon, now.

behind his function of a provider and head of the family.

There is something pathetic about the man's position in all this.

Something pathetic and something noble and splendid.

We could not have such a point of view unless their patient, unselfish acceptance of their economic burden had made it possible.

Of course when a man brings children into the world he assumes responsibility for them. But the way is often hard and long, and well might a man's courage give out. For his family and children to take it all for granted, to forget that he is a human being, with a human being's longing for pleasure. True, he has got to rear his children and take care of his wife, but if he does it bravely, and as well as in him lies, he deserves praise and encouragement and appreciation, not merely the taking it for granted spirit.

Don't Forget!

Men are often selfish in little things, want their own way in all sorts of small matters, and fast if their boat isn't just as on their coffee to their liking. But don't forget, your wives and children, when they are showing these small selfishnesses, that they are often at the same time showing large unselfishness. Going without a car that son may go to college, wearing a shabby overcoat that daughter may have her music lessons, keeping quiet under slams from the boss that make their blood boil, because they don't dare answer back as they would if they were single.

And don't forget, you husbands, that too many of these small selfishnesses and irritabilities and disagreeablenesses can take out all the joy you are trying so hard, in the bigger ways, to put into life.

Newfoundlanders at Bermuda

WOULD LIKE TO GET A CHANCE TO DEFEAT SQUIRES AND COAKER.

Late letters from Bermuda from Newfoundlanders who, through no fault of their own, were forced to leave their homes and families to seek employment, give expressions of regret from almost-nine per cent. of the men who are very sorry indeed they will not have the opportunity to vote against the Coaker-Squires Government at the election on May 3rd. They are to a man very pronounced against Bonia, with whom many of them were personally acquainted. They, because of the rotten mismanagement of the Squires-Campbell-Coaker outfit, consider themselves as practically transported, and earnestly hope that the Bennett Party will be elected and a return to former conditions of prosperity made possible.

Avoid Harmful Grit
Pepsodent curdles the film and removes it without harmful scouring. Its polishing agent is far softer than sand. Never use a film combatant which contains harsh grit.

The name of that tooth paste is Pepsodent, and for seven years dentists everywhere have been urging its adoption.

Fights acid, too

Pepsodent also gives manifold power to Nature's acid-fighting agents. It multiplies the alkalinity of the saliva. That is there to neutralize mouth acids, the cause of tooth decay. It multiplies the starch digestant in the saliva. That is there to digest starch deposits which may otherwise ferment and form acids.

Old-time tooth pastes reduced these agents every time one used them.

WILL OPPOSE DRURY.
MILTON, April 19.
Conservatives here on Saturday not only put candidate George Hillmer of Oakville into the field against Premier E. C. Drury of Ontario, but they launched their campaign under a benediction of their leader, G. Howard Ferguson, whose speech to two hundred delegates was mainly condemnation of the United Farmers and Labor Administration.

ONE ANGLO-FRENCH LOAN ARRANGED.

PARIS, April 23.
A loan of sixty million dollars by the Bank of England to the Bank of France in 1918 which fell due this year will be paid in instalments covering a period of seven years from date, it is announced, after several weeks' conference, which was conducted along the most cordial and friendly lines, according to reports.

THE SHAKESPEARE ANNIVERSARY.

LONDON, April 23.
The entire country is now engaged in celebrating the anniversary of the birth of Shakespeare, with the festivities centred at London where his first plays were produced and at Stratford-on-Avon, where the Poet was born, on or about April 23rd. Banquets and memorial services are

being held in many places, but it is a matter for lament that no Shakespearean play is running at present in London.

A FEMALE JUDGE JEFFREY.

MOSCOW, April 23.
A hobbled-haired young woman in her early twenties, and as presiding Judge in the Moscow Court on Saturday and calmly sentenced seven men to death for robbery with violence, to which they admitted guilt. She was Anna Gluzman, who recently attracted much attention at Kharkov, where her decision in Ukrainian Courts, recommended her to the Judiciary of Moscow to which city she was invited to administer justice.

Another Bluff Called.

On Friday the Mail said "We may now expect the Tory papers to deny Premier Squires credit for having secured for the Bell Island Miners an increase of ten per cent. on their wages." Evidently the Mail is beginning to realize that the Premier is no longer being allowed to ride his hobby horse "Bluff" without being challenged. Had Premier Squires announced that an increase was to be given the miners before they had believed it there would be reason to believe he had secured the rise. But no! The Premier stalks in the day after the fair and claims the credit. It is common knowledge that recently a demand was made upon the British Empire Steel Corporation by its employees for a thirty-per cent increase in wages and an eight hour day. An increase in wages was granted and surely it was only natural that the Company's employees at Bell Island should participate. It happened before when Premier Squires was not around to take the credit. The U.S. Steel Corporation granted a wage increase of 11 per cent. to 150,000 of its employees a few days ago.

Squires Doomed in Harbor Grace.

Editor Evening Telegram,
Dear Sir,—In an item in the Daily Mail the writer is anxious to impress on the people of St. John's that the vote in Hr. Grace is going in favour of the Squires-Coaker team. The writer of that article evidently had to console himself with trying to make others believe that such was the case. Harbor Grace was never more determined to get rid of such a bunch of incapables and misfits as control the Government to-day. One only needs to visit the Committee rooms to see the number of intelligent voters who are upholding the Bennett standard for all time rid themselves of the gang which has beggared fishermen, labourers, tradesmen and merchants during the past three and a half years. There are people in this town who had a few dollars put away for a rainy day, but the high taxes of the Squires outfit has compelled them to use their savings to purchase the necessary food for existence and now all is gone. Visit the homes of the people, and ask the wives of the voters what their denials for their children and themselves have had to contend with during the Squires-Coaker control. All the blarf that Squires can preach from now until dooms day will not alter the minds of the people. The name of Squires is well known in this town, and we can all realize our mistake in placing him in power at the last general election. Voters of St. John's and elsewhere, you certainly can rely on the voters of the old town doing their duty to the country, their homes, their children, and themselves by electing the popular candidates, Bennett, Hickman and Archibald and BENNETT and BETTER TIMES, and there will be no more need for the whack. Yours truly,
HARBOR GRACIAN.

"Jane Eyre" is Worth While Photoplay.

LARGE HOUSES SEE GREAT STORY AT THE NICKEL.
"Jane Eyre," which opened last night at the Nickel Theatre, comes as a welcome addition to the list of "worth-while" pictures which have been seen in the Nickel this season. It reflects infinite credit upon the skill and artistry of Hugo Ballin, who produced it and credit must also be given the Hodgkinson Corporation, who are releasing it; for it is a loud and emphatic reply to all who are clamoring for better picture productions. The story, of course, is numbered among the literary classics—a book which has endured for many, many generations—and will endure for many generations still to come, for it is strong in heart appeal and human interest from start to finish. Very evidently Mr. Ballin realized and appreciated this fact for he has adhered rigidly to the original narrative and the result is a perfectly-balanced, smooth-running picture.

Buying a Battleship.

When the Admiralty gives orders for the sale of an obsolete battleship there is never any lack of intending buyers. Bidding is usually very spirited, and the sale is carried out by auction. The sale is not held on board the vessel, but at a dockyard, usually that nearest which the vessel is lying. Sometimes this is impracticable, and a vessel berthed up in Scotland may be sold at Portsmouth. Would-be purchasers are, of course, given every chance to inspect the vessel and her equipment prior to the sale. A battleship is sold "as she floats," that is, her equipment is not split up into lots. The auctioneer has, however, to prepare a complete inventory of her equipment, and this work will take weeks to finish. So much for the actual sale. The purchaser has to submit to quite a number of restrictions after he has made his purchase. He can't do just what he likes with the battleship. In some cases he can't remove the vessel out of the country, and no warship is sold except on the express condition that she shall be demolished within a certain time, which may be any period up to two years from the time of delivery. The Admiralty sees that the mechanism of the guns is removed, so as to render them useless, but the purchaser has to promise to break up all guns and mountings—the limit being the same as that fixed for the demolition of the vessel. Notice must be given as to where she is to be broken up and further notice as soon as she is berthed there. Even then the purchaser has further information to give. As soon as three-quarters of the vessel's total weight or iron or steel have been broken the authorities must be notified, and at the same time the purchaser must state where and when any of the guns are being demolished. After he has fulfilled all these obligations the purchaser has a free hand, and it is up to him to make

"When I first used Libby's Milk," writes Harriet Ellsworth Coates, practical cook and widely known authority on cooking, "I was delighted at the added richness, greater smoothness and finer flavour it gave."
The very reason they call it the milk that good cooks use! For Libby's Milk is so rich in butter fat; 7 1/2 teaspoons in every 16-oz. can! Instead of using expensive butter and cream in your cooking, try this richer milk. You, too, will find that added richness and fine flavour that make it the choice of so many splendid cooks. Can't Win a Government.

PEOPLE WANT HARD FACTS.
 The present campaign the Government are resorting to is a normal abuse of the Opposition and do not hesitate to appeal to passive and prejudiced minds. The same tactics were pursued in 1919 and no doubt from their viewpoint contributed largely to the success of the Squires-Coaker party in winning the people's minds in the general election. They forget that the Opposition to-day is entirely different from that of the last general election. Squires, Coaker and Campbell are on their trial to-day and answer for their conduct to the people who entrusted them with office. They must give an account of their stewardship; they must give a valid reason for their re-election and offer some justification for their conduct of affairs during the past years. Abuse of political opinion is no argument. What the people want to know is whether the Government has benefited by the Squires-Coaker rule. We are anxious to know whether Coaker and Squires

have made conditions to-day as prosperous as they were in 1919 when they took charge of the country. If not why not? If not what justification is there to re-elect the Government? It has been shown pretty clearly during the past few weeks that Squires and Coaker have made conditions much worse than they found them. When they took over the Government conditions in this country were flourishing, employment was plentiful, and the people were well-off and contented. After three and a half years of Squires-Coaker misrule, what do we find? The whole country to-day is impoverished. The laborers are unemployed, the fishermen's prospects ruined and the country is on the verge of bankruptcy. The Government organs will require to disprove these statements before they succeed in stampeding the people by appeals to passion. A dispassionate and honest statement from them refuting successfully these charges would be much more effective than their campaign of mud-slinging. They can't deny our statement. They have nothing to offer the people but "castle in the air talk" of a Humber Paradise. Turn them out. They're deceiving you again. They can't me trusted.

St. Phillip's Backs Bennett.

Editor Evening Telegram.
 Dear Sir—Please insert these few words in your valuable paper, with regard to a letter that appeared in an issue of the Daily Mail, of the 18th inst., from St. Phillip's. What gall this poor writer must have to give gentlemen like Sir Michael Cashin, Mr. Linegar and Mr. Hunt instructions as to what language they should use on a public platform against their opponents. I would like to tell this West End voter that Sir Michael and colleagues and their supporters in St. Phillip's (which mean 70 per cent. of the people) are not looking for trouble. But of course if this contemptible is trying to make trouble, he will be very likely to get what he is looking for. I would like the Opposition candidates to understand that the writer of that letter is only a bluffer. The people of St. Phillip's are tired of Squires and his Rock and Split Government. They want a change and a change they will have by marking their ballots for Cashin, Linegar and Hunt and Bennett and Better Times.
 Yours truly,
 ST. PHILIP'S VOTER.

It is Fishery Help AND NOT HUMBER TALK THE FISHERMEN WANT.

If the Government think they can stampede the fishermen on the Humber proposition, they will be sadly disappointed. The Humber industry at its best will not appeal strongly to those who have the salt of the sea in their blood. It is the fisheries that appeal to them, and it is by the fisheries that they intend to support themselves and their families. This is why Bennett's efforts to encourage the fisheries by a bounty will appeal to the fishermen throughout the country. Coaker having bungled the fisheries by his notorious Fish Regulations seems to be afraid or ashamed to refer to them. There is nothing being done by the Government to encourage the fishermen or promote the interest of our most important industry. All we are told is that if Squires and Coaker are re-elected they will give the fishermen employment on the Humber. If the fisheries be neglected and the fishermen discouraged at their work, a dozen Humber deals could not offset the damage done to the country. Attention to the fisheries is what the fishermen look for. Supplies for the fisheries are what they require. These things will be accomplished by Bennett, and the practical business men associated with him—men who know from experience what is best for the general welfare of the country. The merchants will help Bennett in his policy to bring about BETTER TIMES!

Rock Shed Workers Were Refused CONSIDERATION BY GOVERNMENT.

SQUIRES AND CAMPBELL IGNORE TELEGRAMS AND BENNETT'S PLEA ON THEIR BEHALF.
 A few days ago the Telegram through its columns asked the Government to make some provision for the hundreds of deserving men who are employed rock breaking and snow shovelling as many of them can ill afford to be idle during the next two weeks. We offered two suggestions which we thought would be feasible either one of them would greatly help these men to secure the common necessities of life for the period between nomination day and polling day but no attention was paid to same with the result the men were discharged on Saturday morning.

Three Live Ghosts.

A wave of excitement recently agitated the busiest thoroughfare of London when a burly policeman held up the traffic to allow the passage of an aristocratic-looking gentleman, immediately followed by the latest thing in expensive baby-carriages, to which was attached a sheep which showed an obvious disinclination to cross the road.
 Absorbed and quite unperturbed by the amazement caused by his unheralded arrival, the gentleman steered his charge to the opposite side walk, and by the time the crowd had recovered from its astonishment, had apparently vanished into thin air.
 At the same moment two cameras which had been taking a record of this unusual scene from the inside of a coveted motor lorry ceased to grind, and George Pittmaurice, famous Paramount producer congratulated himself on having successfully secured a particularly effective and difficult "shot."
 The episode showed Cyril Chadwick in his impersonation of "Stoody" in "Three Live Ghosts," a Paramount picture which will be shown at the Majestic theatre to-day. Anna Q. Nilsson and Norman Kerry are the featured players.

It is a noteworthy fact that Buick owners prize their cars so highly that they are reluctant to part with them even for new Buicks.
 They hold for their Buicks the same sincere attachment that they might for any personal belonging which has proven indispensable to their daily comfort or which has contributed vitally to many of their most happy experiences.
 Owners retain this life-long affection for Buick not only because Buick dependability and comfort more than satisfy every motoring desire, but because these same qualities find added expression in each succeeding Buick that they buy.

Nomination Day.

BENNETT CANDIDATES RECEIVE POPULAR DEMONSTRATION.

The enthusiasm displayed at nomination yesterday in the city gave unmistakable signs that Sir Bennett's Candidates would be returned for St. John's.

WEST END NOMINATION.

In the West End Sir M. P. Cashin was the first nominated and he received a big demonstration from his friends and supporters. The poorest spectacle was witnessed when the Prime Minister, Sir R. A. Squires, was nominated. Not a cheer was heard, not a word was spoken and the Premier passed from the nomination both without the least bit of enthusiasm. It was indeed a contrast to 1919 when Sir Richard was given an ovation. Mr. W. F. Linegar, the Labor Candidate on the Opposition ticket in St. John's West received a tremendous ovation. He was accompanied by several hundred committee men, and was cheered to the echo. He thanked the gathering for their reception which spoke the sentiments of St. John's West.

Mr. C. E. Hunt, like Sir Michael and Mr. Linegar, shared in the popular demonstration to the West End candidates, and it is seldom such a spontaneous outburst was seen.

ST. JOHN'S EAST NOMINATION.

At the East End the Opposition candidates were given a popular demonstration. Hundreds of supporters were present, and as the candidates appeared they were given a whole-hearted reception. After nomination Higgins, Fox and Vincombe addressed the voters, thanking them for their extraordinary attendance, which was in marked contrast to the lack of reception given Government nominees who left the scene without receiving a cheer. An independent candidate, Mr. Brian Dunfield, was also nominated.

Following are the candidates nominated yesterday with the proposers, seconders and witnesses:—

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes: "I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

THE FIGHTING TRIO

Receive Enthusiastic Welcome at Portugal Cove.

Another Stronghold Added to the Ranks of the Opposition.

Important settlement of Portugal Cove was a live scene of enthusiasm and joy as the victorious bearers of the Opposition flag arrived Friday evening for the purpose of putting before the voters the serious question on which the coming election will be based. The people in whole and in part turned out en masse and for many miles the road volleys of musketry cheering followed the candidates as the whole populace escorted them to the Church of England Parish Hall where the meeting was held. The voters of this district are very much interested in the duties that are upon their shoulders when they cast their ballots May 3rd. Last evening's session proved conclusively in the opinion of many that they are to fulfil the obligations they owe to themselves and to the community. It is well known, and the residents there admit that the whole of Portugal Cove favoured the Squires-Coaker Government would do great things for the people. Now, however, the residents, as a further proof of their sincerity make no secret of denouncing the scoundrelism of Coaker, and in declaring their firm intention of not only voting for the Candidates of the Opposition, but they are standing man to cast their ballots unhesitatingly in favor of HIGGINS, FOX and VINCOMBE. Before the meeting was called for the Parish Hall had been packed, and large numbers of men were satisfied with standing accommodation. Mr. Jacob Miller was chosen voted in as chairman, and the Newfoundland fashion of the gathering to every-thing was pointed out to his audience with a careful consideration of the important matters that would address them on, and preliminary vouches the fifth of Portugal Cove, just as the rest of the island, intelligently make use of their own, he reminded them of the circumstances under which they had been living for the past years. The cause of the hardship the people have suffered, could not be the wrong doing of Mr. Coaker, and he asked the audience against such abuse of the people. He then called upon the speakers to address the audience. Mr. Higgins received a rousing ovation and for several

and the wonderful cheers that marked the close of Mr. Higgins speech was sufficient evidence of the magnificent vote the fighting trio will get from the important fishing settlement of Portugal Cove. Amidst great cheering the popular Nix Vincombe was called upon, and in one of the most stirring speeches he ever gave for over half an hour Mr. Vincombe showed his audience the results this election would have upon the homes of the people of the country, and that result whether for the people's good in favour of a new Government or to the continuation of the strenuous existence they now have to put up with under Squires-Coaker despotism, by returning that combination to power again, would be of the people's doing. It would be their own choice one way or the other, and if it was their determination to seek prosperity and better times under another Government it was their very important business to accomplish the defeat of every Coaker candidate in the island. At this juncture of Mr. Vincombe's speech the whole audience gave unmistakable evidence of the wonderful way in which they would bring vengeance upon the heads of the ones who have wronged them so greatly in three and a half years. Prolonged cheering for the Opposition cause and their standard bearers made it impossible for "Nix" to continue for several minutes. On resuming his address he showed clearly the urgent necessity for protection of the fisheries, and how the ruination of this great industry would serve the people of Portugal Cove. He explained the advantage and the assistance a bounty, as is provided for in Mr. Bennett's Manifesto, would be to the fishermen in every section of the island. In this important fishing village it would also be the means of encouraging the people to greater efforts, and would be the means of bringing back to them again the prosperity which they so long ago enjoyed.

Mr. Fox was the final speaker to be called upon, and coming forward he received a tremendous reception, the like of which was never given a candidate in Portugal Cove before. The cheering lasted for several minutes, but as Mr. Fox began his speech he was given a most attentive hearing, and at intervals when he would drive home a point in favour of the Bennett policy, or against the wrong doings of the Government, his arguments were accorded long cheers of approval. Mr. Fox first gave the meeting a general outline of the benefits it was the intention of the Bennett party to confer on the people when elected. First of all he dealt with the urgent necessity for once again establishing in the country a responsible form of government that since the present clique of incapables have been in power, has been completely abolished. Minutes-of-Council Rule must never again be known in our history, and in all matters of importance the duly elected representatives must be given fair opportunity of approving or condemning legislation that seriously affects the country. Public economy must be preserved in all government transactions, and in the urgent interests of the people taxation must be lowered to a point at which the average working and labouring man in the country will be able to maintain himself and his family in comfort. The protection of the fisheries was another issue upon which his party was appealing to the country, and the people of Portugal Cove had long since realized the extent to which they themselves were dependent upon this important industry, and of the ruinous effect the ruination of it would have upon their fair settlement. Mr. Fox then gave stunning blows to the arguments of the Government about the advantages the Humber Proposition meant to the country, and by the reception of his remarks the people of Portugal Cove are decided that there can be no benefit for them in a deal that the promoters of which are afraid to produce for their information the inside facts. Mr. Fox also went on to show how this contract had already been finalised without the people's

authority, and that nothing they could do now would alter the effect, for good or bad, it would have upon the country. The Squires-Coaker outfit were now only using it as an election kite with which to bluff the electorate and once again host themselves back into power so that they could enjoy the soft jobs and the plums of their head endeavours that succeeded only in bringing ruin to the people and disaster to all the industries that our country in happy prosperity could once boast off. Mr. Fox received a wonderful ovation at the conclusion of his remarks. After a vote of thanks had been proposed to the chairman by Mr. James Gault and the singing of the National Anthem, the most successful meeting in the ancient history of Portugal Cove concluded with prolonged and enthusiastic cheers for HIGGINS, FOX and VINCOMBE and for BENNETT & BETTER TIMES.

Those who try to write a truthful description of "Smilin' Through" as "Smilin' Through" was played last night in the Casino, can appreciate the difficulty of this attempt. The description must be written in all fairness, and those of the audience who were present last night and who read the description must forgive the writer for the inadequacy of the terms of appreciation of this comedy full of pathos, with its beautiful scenes and the acting truly the climax of his tragic art, because he cannot find words and expressions appropriate. Last night the Casino Stock Company performed before the largest audience that has yet attended their productions. The story of "Smilin' Through" after a prologue that is far too unique to be spoiled by being told to those who have not seen and intend to see it, starts in the garden of a crusty old man who has as his ward a delightful wisp of an Irish girl with all the charm of the central figure in "Peg O' My Heart." For years he has bitterly remembered the fact that another man has robbed the woman whom he loved. When, then, he finds this girl has fallen in love with the son of that man, he is furious and swears that they shall never marry. Then comes the quaintness and pathos of the piece. Back through the hazy period of years that have passed comes memory visualized. He lives over again the years he cannot forget and from them learns the lessons that he had never learned before with the result that, when the young lover returns, he permits them to be happy, and in so doing finds happiness himself.

At the Casino.

"Smilin' Through" in addition to being a delightful, whimsical comedy distinctly out of the ordinary, carries with it a big significant lesson that is of interest to every man, woman and child in St. John's, and it teaches this lesson without losing its interest right up to the final curtain. The impersonation of the different characters was faultless, and the gowns of the style of fifty years ago which were worn by Miss Dennis and Miss Lee would charm the heart of any woman. These wonderful creations were designed by Mrs. E. J. Salt. The Casino Stock Company will be seen all this week in "Smilin' Through" and no doubt crowded houses will greet the performers.

Just read over the list of names right in the heart of Port Union and you can guess what is going to happen to Coaker. Halfyard & Co. on Thursday week.

A landslide is the verdict everywhere. Squires' defeat is the surest thing coming to him.

The Government will not secure ten seats.

Bennett and Better Times. Sure.

Harbor Grace went over the top.

Bennett, Hickman and Archibald will roll up record majorities in the second city.

Monroe's committee of over 400 at Bonavista is a heart breaker to Coaker.

Mackay's election is just as safe as Crobie's and Puddester's, and that's going some.

Brian Dunfield reminds me of Charlie Yang. He hates himself.

East is West and West is East. They will be the same on the 3rd of May when the six Bennett men will clean up the Coakerites.

Woodford and Kennedy's triumphant march through Harbor Main is too much for the two weaklings who are opposing them.

The West Coast districts are only waiting for the day.

Gibbs' plans failed miserably.

He tried to pull the same stunt in the West End as he did in 1919.

Dr. Jones is an "independent" He certainly is. He only wanted \$2000 cash and his expenses paid, an executive seat and a few other things thrown in.

He might just as well have asked for the moon when he was at it.

Ken Brown was "fired" at Botwood when he knew that he was better known than he thought.

Brown admits that he will not "score" any votes at Herring Neck.

Mr. Dunfield the Coaker-Squires Independent St. John's East is some boy.

Coaker only gave his firm \$108,000 of the people's money to buy fish.

It's easy to be independent now-days.

He wasn't very independent when he got Mr. Coaker to pay him for drawing up his famous Fish Regulations.

If Coaker and Squires had to put that half a million they squandered on Reids coal claims to better advantage we would not have had our finest citizens rock breaking.

Sir Richard's Manifesto is just about as interesting as Mr. Dunfield's as far as the Fishermen, Labourers and Mechanics are concerned.

Coaker's Bolshevick methods at Catalina and other places show how desperate he is.

Just read over the list of names right in the heart of Port Union and you can guess what is going to happen to Coaker. Halfyard & Co. on Thursday week.

Sealing News.

Messrs. Bowring Bros. received a message from Capt. Wm. Bartlett, of the S.S. Viking this morning, stating that the ship was then 50 miles S. E. by E. of Cape Ray, in heavy sheet ice, making fair progress in a N.E. direction but did not state whether he had added to his catch. It is presumed that he will be soon bearing up for home owing to shortage of coal. The S.S. Ranger did not discharge up to noon hour. The price of fat is \$4.50 quill, and is sold to Messrs. Bowring Bros. The Terra Nova discharged roughly 3,000 young and old seals up to 1 p.m. The young harps are averaging 52 lbs. and the bedlamers 74 lbs. It is expected that she will turn out over 300 tons of fat. The steamers Neptune and Thetis continued discharging their seals this morning, and 10,000 pairs were landed by each ship up to noon hour. The young harps are averaging between 51 and 52 lbs. Owing to yesterday being St. George's Day there was no work done, and the ships will not be cleaned out until late to-morrow.

Sale of Work at St. Michael's Parish.

The annual Sale of Work by the Women's Association and Girs' Guild of St. Michael's Parish, Casey Street, will be opened in the Lecture Hall this afternoon at 3.30 o'clock. The sale will be continued throughout the evening and again to-morrow afternoon and night. The various stalls will be well stocked, and a visit will be worth while. The ladies will also serve teas in that capable manner for which they are so well known. No doubt the affair will be largely patronized as the proceeds are to be devoted to the new Rectory Building Fund.

S. S. Ranger Arrives.

HAS HEAVY TRIP OF FAT. S.S. Ranger, Capt. Wes Keen, the last ship of the sealing fleet to arrive from the Northern Seal Fishery, steamed into port at 7.30 last evening, and hails for 12,000 seals; 6,000 of which are old. The Ranger reported the weather conditions similar to what have already been mentioned by the previous ships. The Ranger has a very heavy trip of fat, the weight of 20,000 young seals. All the crew are reported well. The home-coming of Capt. Keen is indeed a very sad one, as during his absence the death of his eldest and only daughter was recorded. The following is the catch to date:—

Sargona	11,882
Eagle	10,761
Seal	12,233
Neptune	15,500
Thetis	16,500
Terra Nova	15,500
Ranger	13,000

Last Night at St. Joseph's Hall.

ENJOYABLE CONCERT, PLAY AND DANCE. The concert and farce called "An Irish Story" started last night at St. Joseph's Hall by Mr. E. R. Peters, proved a tremendous success. The concert numbers were particularly pleasing. The farce was really a splendid show from start to finish. Mr. Ned Peters kept the audience in roars of laughter by his quips, whilst Miss Eileen Whelan, who played as his wife, won the hearts of everyone by her clever acting. Amongst others of whom special mention should be made are Mr. P. Smith, Miss Bessie Maher, Misses Annie Whelan and Nellie Byrne, Messrs. Jack Phelan, Fred Francis, Leo English and Alex Carter. The St. Joseph's songbook was heard in various numbers which were heartily enjoyed. The affair, which was one of the best ever held in the parish, terminated with a short dance.

Bennett Candidates

Proclaimed for West End District

POPULAR DEMONSTRATIONS LAST NIGHT.

All available space at the West End Headquarters of the Bennett Candidates was occupied by an enthusiastic gathering of voters last night. Fully one thousand people were present. Excellent addresses were given by Messrs. W. F. Linegar, C. E. Hunt, and Sir Michael Cashin. Each candidate thanked the people of St. John's West for the remarkable demonstration accorded them at Nominations. The meeting lasted until 11.30, and was punctuated with applause as point after point was scored against the Government. Those who witnessed last night's meeting are convinced that Coakerism is finished in St. John's West.
