

New Ring Champion

Fitzsimmons Knocked Out by Jeffries in Eleventh Round of Great Fight.

Floored in the Tenth He Struck Heavily on Back of Head.

But Made It Hot for Huge Antagonist Until Very End.

By Associated Press. New York, June 9.—Bob Fitzsimmons to-night lost the heavyweight championship of the world, going down before Jim Jeffries in the eleventh round of a contest which proved an expected one of the greatest exhibitions of fistie science ever witnessed here.

The Story as Bulletin.

Coney Island, June 9.—The doors of the sporting club were thrown open shortly after 6 o'clock. At that time there were about 3,000 people waiting admission. A dazzling rain fell, but the excitement was not damped. At 8:20—Kid McCoy, who has just arrived, says he will challenge the winner of to-night's fight. Nate Penton, of Buffalo, has just bet \$10,000 to \$5,000 on Fitz.

8:45.—The crowd clamoring for admission is enormous. Betting is quiet. Fitz's friends want 2 to 1 on all bets, and Fitzsimmons' backers are kicking on the odds.

8:45.—At this hour the crowd is surging around the doors, and admission tickets which before 6 o'clock were being sold for \$5 are now bringing twice that price. Reserved seats which are in the hands of speculators are now being eagerly bought up for twice the original cost. Fitzsimmons' stock still remains firm at 2 to 1.

9:10.—The picture machine is in position in the south end of the hall. Kid McCoy has placed \$1,000 in the referee's hands to back his challenge to the winner.

9:15.—Tommy Wynn, representing a syndicate of Fitzsimmons enthusiasts, has just made a bet of \$5,000 to \$2,000 on the champion's chances. The short end was taken up by a number of New York produce men.

9:16.—Joe Vendid is now at the ring-side offering 2 to 1 to any syndicate to \$10,000 on Fitzsimmons. He has placed \$8,000 at this price.

9:20.—Bob Fitzsimmons and Jeffries have arrived at the club house. Chief of Police Deyer has also arrived. Jeffries was given a great reception.

9:25.—Tests of the referee lights show that the men will fight in a fierce white light, so bright as to be almost blinding.

9:45.—Fitzsimmons and Jeffries are now in the latter dressing room with Referee Siler discussing the rules governing clean breaks. At the last minute the official time-keeper refused to act, and Alex. Brown was chosen.

9:50.—The crowd is growing restless and calling loudly for the fighters. A bet of \$2,000 to \$1,200 on Fitz has now been made. The ring is said to be only 20 feet square. This should be an advantage to Jeffries.

9:57.—At the conference both principals agreed that in case one man was holding with both hands and the other had two hands free the latter could hit at will. If either or both held with one hand free no hitting would be permitted, and the referee would step between them and break them.

10:00.—Mrs. Fitzsimmons is sitting on the outside of Bob's dressing room. She will not witness the fight.

10:00.—Fitz enters the ring. He was preceded by Julien.

George Siler took his place at 10:10. Fitz was pale and cool when compared to his antagonist, who was brown and robust. Neither betrayed any nervousness. Fitz was dressed in a blue and white bath robe. Under his bath robe he had a pair of blue trunks, with a belt of miniature American flags. Jim wore black trousers and red and white checkered top, and was constantly yelling while announcer was telling the story of the rules.

10:10.—Jeffries is now in the ring.

10:12.—Fitzsimmons was accompanied by Yank Kenney and Jack Evershard. Fitz began forcing matters. He clinched three times, and Martin's face could not stand it around the ring. On it was the inscription, "Good luck to the Champion."

The champion swung wildly, and stood up and bowed frequently in response to the greeting.

At 10:20 the seconds of the men tied the gloves on the favorites' hands.

At 10:21 they advanced to the centre and shook hands.

THE FIGHT COMMENCES. The men are now being introduced by Master of Ceremonies Fred Burns. Referee Siler is in the ring.

THE FIGHT COMMENCES. Fitz sprouted, trying to draw a lead. They snarled all over the ring. Fitz led left, but Jim ducked. Jim led left, but too short. They were both cautious. Jeffries touched Fitz' chin with left swing. Fitz swung without effect. Twice Jeffries led to forehead. Gong ends first round.

FITZ FLOORED. Round 2. Jeffries led left, and then Fitz began forcing matters. They clinched. Fitz jabbed left on face, and put one more to Fitz' body. Jeffries landed Fitz tried left swing in quick succession. Jeffries tried left swing was blocked. Jeffries tried left swing was blocked. Jeffries tried left swing was blocked. Jeffries tried left swing was blocked.

FITZ LANDS HIS LEFT. Round 3. They clinched. Jeffries drew blood from Fitz' nose with left. Fitz led head and right to stomach. Fitz put right left hook squarely to the jaw. Fitz put left hand to forehead. Both ducked cleverly. Fitz put his left into Jim's neck. Gong.

FEELS JEFFRIES' JAW. Round 4. Jeffries got the right into Fitz' breast strongly. The Californian

Warning To Kruger

Transvaal Independence Contingent on Justice to All White Inhabitants.

Country Will Support British Government in Demand for Equal Rights.

Plain Hint of What Will Happen Unless Transvaal Backs Down.

By Associated Press. London, June 8.—The Daily Mail says it learns that it was President Kruger himself who suggested the recent conference, and it claims to have reliable authority for declaring that Sir Alfred Milner, the British high commissioner, has his back to the wall, and is supported to the utmost by the cabinet. Commenting editorially on the situation, the Daily Mail says:

"If we know our Kruger aright, he will back down, and if not— The Daily Chronicle deprecates Mr. Chamberlain's warlike attitude, but does not deny the gravity of the situation, and seriously counsels the Boers to grant reasonable reforms as the only means of preserving their independence against the plots of the stock exchange and the violence of Downing Street.

The Standard, which reminds the Transvaal that its independence is not absolute, but is contingent on a faithful execution of the agreement stipulating equal rights for all white inhabitants, says: "We now demand that the Englishmen resident in the Transvaal should stand with justice; and President Kruger may rest assured that the whole country will support the government in any measures required to make this demand effective. Let Mr. Kruger grant the Uitlanders full citizenship, and the whole question is settled. At present his only offer is a note of hand for a ridiculous sum, payable many years hence, in return for our immediate abandonment of all the legal rights we now possess for enforcing the payment of debts long overdue."

JEFFRIES WINS. Round 11. Bob came back strong. He rushed and landed right to body. Jeffries ducked a left hook. Jim put two lefts to mouth and stomach. The referee-maker put the left to Bob's face with pleasure, and hooked to the neck with left. And a right swing to the jaw finished the business. Time, 1:32.25.

BLACK MEN'S APPEAL

Authorities of the South Asked to Protect Their Race from White Men's Violence.

Washington, June 10.—The Afro-American council of the United States has issued an appeal to the governors, legislators and officers of the Southern States, "to prevent lawlessness and to do justice to all citizens in the protection of which they are entitled under the law."

After reference to the burning of Sam Hoce, the lynching of B. H. Strickland, and the political riots in the South Carolina and North Carolina, the appeal says:

"The first day of January there have been 28 cases of lynching in the South and every one of them colored. This is not only an unwarranted and unjust, but it is a disgrace to the white race. It is tantamount to an endorsement of the lawless and brutal conduct of the lynchers, and it is a warning to the colored people of the South to beware of the violence of the white race."

In addition, Canada will probably send a number of regiments."

TWO FIRES AT ROSHLAND

Masonic Hall Destroyed and Chemical Engine Upset—Lost Shipments of Ore Week.

Rossland, June 10.—(Special)—The following are the shipments in detail for the week ending June 10: Le Roi, 2,240 tons; War Eagle, 1,165; Iron Mask, 55; Evening Star, 30; Deer Park, 18; Centre Star, 22; total, 3,683. For this year to date the total shipments have been 55,390 tons.

E. L. Stewart, of Toronto, has concluded arrangements for the resumption of work on the St. Elmo, on the south slope of Red Mountain. The company owning the property will at once install a 10-drill compressor plant, and development will be pushed as rapidly as possible.

The Masonic hall was destroyed by fire last night. Electric wires are said to have been the cause of the blaze. Most of the contents were saved. The insurance was \$12,000 in the Phoenix of England.

Going to a fire at the War Eagle ore bins, caused by burning brush this afternoon, the chemical fire engine upset, trying to turn the corner of Columbia avenue, and the driver narrowly escaped being killed. The crowd promptly righted the machine, and it went on to the fire.

CUP DEFENDER LAUNCHED

Boy Killed and Several Persons Injured by Explosion of Photographers' Staff.

Bristol, R. I., June 10.—America's new cup defender was carelessly lowered into the water at the Hershforth works at 8:19 o'clock to-night, and as she started down the ways Mrs. C. Oliver Iselin christened her "Columbia." This christening was probably one of the most spectacular that has ever occurred, for the light of day had almost faded when she started down the ways, and three powerful calcium lights played upon her stern and shining glass underbody with the most dramatic effect.

Ranged on both sides of the dock were 5,000 spectators, while off the end were clustered 50 or more yachts of all kinds, so that there was plenty of noise, cheers, whistles and guns to help out the brilliant effect of the lights. The launching was a great success from the beginning to the end, except for one unfortunate accident among the spectators, when the apparatus of a photographer who was preparing to take a flash-light picture exploded, killing a boy and injuring several others.

FREE HAND IN WARFARE

British Armies Must Not Be Restricted by the Peace Conference.

General Ardagh Firmly Declares Against Adopting Brussels Convention.

Smaller Powers Fear Mediation Scheme Would Affect Their Independence.

By Associated Press. The Hague, June 10.—The Brussels conference met to-day, Prof. De Martens of the Russian delegation presiding. M. Bihoud, one of the French delegates, submitted article No. 2 of the conference re-draft, which was unanimously adopted. Article 3 was adopted after discussion, but article 4 was rejected.

Major-General Sir John Ardagh, of the British delegates, declared that Great Britain could not bind herself to sign a convention drawn from the Brussels conference of 1874, but must reserve the right of judging of the necessity or expediency of abiding by the stipulations of that conference or this conference in general orders to her armies in the event of war or of opening a campaign.

Prof. Martens declared that Russia did not ask the powers to sign a convention on the Brussels conference, but desired the powers to undertake to embody the stipulations now agreed upon in the instructions given troops at the opening of a campaign.

Major-General Ardagh said his declaration was only of a personal character, and he would consult his government on so important a matter.

The principal delegates met to-day to discuss the question of communication with the press, but owing to the failure of the delegates to agree, the meeting was adjourned till Monday.

A feeling of disquietude is observable among the delegates, and it is generally supposed that the smaller powers are not in agreement on the question of the restriction of the powers of mediation, feeling that this may be imposed on the lesser powers, and a way to restrict their independence, and several amendments to this effect will be proposed when the scheme is finally discussed.

Minister Unseated for Wholesale Corruption Makes a Play to Honest Electors.

Toronto, June 8.—(Special)—At a meeting of the executive committee of the Liberals of South Ontario, Hon. John Dryden was warmly endorsed and invited to again become a candidate for the constituency. A letter was read from Mr. Dryden stating he could not accept the nomination unless the leaders of the party in South Ontario would set their faces against the tide of corruption which seems to be settling in the community. Resolutions were passed approving the line of Mr. Dryden's letter.

Mr. Calder, the late Conservative candidate, will be re-nominated.

COL. WORSNOP'S SON. Bright Lad's Promising Career Terminated After Very Brief Illness.

No Rails To Yukon

Ottawa Will Refuse Charters Pending Adjustment of Boundary Dispute.

Protest on Behalf of Projectors Who Have Incurred Heavy Expense.

Cadet Battalions for the Militia—Mr. Sorby Interviews Marine Minister.

From Our Own Correspondent. Ottawa, June 9.—Sir Charles Tupper in the house to-day referred to a report that the government had determined to oppose all Yukon railway charters, and he asked an explanation as to why commitments should not be allowed to build roads into Yukon.

Sir Wilfrid Laurier stated that all the proposed roads reaching the Pacific Coast on Lynn Canal, passing through the disputed territory, and the government thought it not prudent to complicate the boundary dispute by permitting the construction of these roads. The result of such enterprises would be the building up of towns on the coast now held by the United States. The White Pass railway, constructed under a Canadian charter, had assisted in building up the American town of Skagway.

Sir Charles could not see the necessity of a line through the disputed territory for this purpose. He reminded the Premier that the government bill of last year provided that Mackenzie & Mann might build a line through the disputed territory in addition to the subsidized line. This bill was introduced when the boundary dispute was in the same position as it is in this matter.

Mr. Blair said that this would have been a subsidiary line, and was subject to the approval of the government.

Mr. Foster observed that the announcement of the government showed want of confidence in their position with regard to the boundary, but he could not think that the boundary arbitrators would be influenced by the railway situation.

The White Pass Railway Co. got its charter in 1879, while the dispute was in progress, and the moment to-day which it is announced that no other railway should be built, the stock of the White Pass railway would double in value.

He had heard that members of the house held stock in the company.

Mr. Foster, Guayano, said he had introduced the White Pass bill, but he never had a dollar of interest in it. He introduced the measure on the request of Sir Charles Tupper.

Sir Louis Davies accused Mr. Foster of having suggested that the government had been influenced by members interested in this matter.

Mr. Foster said he had made no such suggestion.

Mr. Gilles, who last year was in charge of a bill for the incorporation of one of the proposed Yukon companies, charged that the policy of the government was to give great inducements to companies who in good faith had surveyed lines, made financial arrangements and incurred heavy expenses.

Mr. D'Amville hoped the government would reconsider the determination at least to the extent of allowing the construction of lines from Lake Bennett to Iliamna and other points where the whole route is in Canadian territory.

The discussion was continued by Messrs. McNeill, Sifton and others. Mr. McNeill wanted to know whether no charters would be allowed until the boundary was established.

Sir Wilfrid Laurier was not sure about that. Who the boundary arbitrators were appointed and instructed, the difficulties would be largely removed.

Mr. Clark Wallace thought the government were late in reaching this determination. If reached at all it should have been before the White Pass road was built.

B. C. Legislation. In the Senate to-day Mr. Miller presented the report of the railway committee on the bill respecting the Bedlington & Nelson railway. The bill seeks to make a Dominion enactment out of the charter granted by the legislature of British Columbia by adding the provincial act to the bill as a schedule.

Mr. Scott, secretary of state, objected to incorporating the provincial act, as mentioned British Columbia legislation contained very objectionable clauses, such as provisions stating that Japanese should not be employed on many works in the province.

Senator Fowler said that the bill did not conform with the provincial enactment, but simply added it as a schedule to the bill.

Senator Longhead said he protested against placing a provincial enactment upon the federal statute book in this way. It seemed to him entirely unnecessary, as the provincial act was in the libraries, and it was misleading, as the public might believe on seeing the schedule that it was legislation on the subject. The debate was then adjourned.

An important change implying quite an extension of the militia system is embodied in to-day's militia orders. It provides for the creation of cadet battalions or cadet companies to be attached to existing military battalions of infantry rifles. The age of boys to be enrolled is from 14 to 18. The government will supply arms and accoutrements free, but the battalions must purchase uniforms at cost from the government.

Miscellaneous. Col. Prior asked to-day if it was true that Mr. Ludgate had abandoned his lease of Deadman's island. Mr. Sifton replied that the government had no such information.

Mr. Sifton presented the evidence of the Yukon investigation. Sir Hibbert

Ravages of Cancer. Promises Soon to Cause More Deaths Than Consumption, Smallpox and Fever Combined.

London, June 10.—The alarming increase in mortality in Great Britain from cancer has led to the formation of a society to combat the disease. Its inaugural meeting was held on Wednesday, when Sir Charles Cameron spoke on the need of the society. He pointed out that the number of deaths from cancer in New York has doubled during the past ten years, and that it is calculated that if the increase is maintained there will be more deaths from cancer in 1899 than from consumption, smallpox and typhoid fever combined. In Great Britain during the same period the ratio per million has raised from 385 to 757.

U. S. Consul Reports Rich Strikes on Crevasse Supposed to Be Bona.

By Associated Press. Washington, June 10.—Consul McCook writes from Dawson City that the gold fields of Forty-Mile and Seventy-Mile districts are becoming more promising, and bid fair to rival any territory yet discovered for placer mining.

The outlook of the placer goldfields of the Klondike, he says, has not been better since gold was discovered in the Yukon territory. Already this winter several new strikes had been made on creeks that were supposed to be barren. A conservative estimate of the gold output this year is \$20,000,000. Next year it would not be surprising to find the output double that amount.

Toronto, June 10.—(Special)—Minister Tarte spent an hour in the city on Thursday, coming on the government tug, which is making one of its regular trips of inspection. Mr. Tarte is still in very poor health, and was unable to receive any deputations.

Discussing the charges made against him at the various Methodist conferences in connection with his alleged remarks on the subject of the settlers at Fox Bay, Anticosti, Mr. Fox said in the course of an interview:

"I am not going to be coerced or bullied by any threats of the kind that have been used against me. If I thought it would do any good, I would apologize to them, but not to the Methodist church, because the Fox Bay settlers are one thing and the Methodist church is another."

New York, June 10.—The sixty-second series of athletic games on track and field of the New York Athletic Club were held this afternoon at Traverse Island. Over 5,000 persons witnessed the events, which made up a very interesting programme. The one-mile run handicap was won by Alex. Grant, a scratchman, who defeated a good field of runners. The 100 yds. race was won by Smith, of Yale. Coming into the home stretch Grant cut in on Smith, and were it not for this the Yale man would probably have finished second. Smith entered a protest against the winner, but before the referee could pass upon it the Yale man withdrew his complaint. Time, 4:28.15.

The Vancouver World regards the retaining of Mr. Duff as counsel in the Deadman's Island case as indicating that a crisis is approaching in provincial politics. It says: "The crisis in provincial affairs has nearly been reached. It is a well-understood fact that the influence of the Attorney-General has been dissipated, and that the Minister of Finance has come out on top."

JAPANESE IMMIGRATION.

An editorial in the News-Advertiser suggests the thought that the provincial government proposes to lock horns with the Imperial government in regard to Japanese immigration. Before this is done, it is to be hoped that the subject will be much more freely discussed than it has yet been, and that there will be no attempt to mislead the people by presenting the issue in a false light.

Tourist travel is a source of large profit to the city which secures it to a great extent. Only those who have taken the trouble to look into the matter know just how much it means. PASSING COMMENT.

The Cascade Record thinks there are too many townships platted in this province. This is one of the evils of the West, but the rule of the survival of the fittest prevails, and it is better to trust to that than to interfere with private enterprise legitimately exercised.

The Silvertonian says that the new law relating to miners' certificates, like all the acts of the present legislature, is tangled and misleading. The open question agitating our contemporary is whether certificates taken out before May 31 are of any value. No one knows.

The Times claims credit for having forestalled the Colonist in agitating that the most be made of the attractions of Victoria as a pleasure resort. The Colonist did not suppose it was doing anything more than directing attention to a matter that has been discussed off and on in Victoria for the last twenty years.

Even the Westminster Columbian finds itself forced to enter a protest against the action of the government in educational matters. The ground of objection is the new regulation for the distribution of the per capita grant, which it says, "will prove a vexatious, cheese-paring regulation for the schools, and is hardly conceived in the proper spirit."

A GOOD TEST.

If you have a backache and there are brick dust deposits found in the urine after it stands for 24 hours you can be sure the kidneys are deranged. To effect a prompt and positive cure and prevent Bright's disease, suffering and death, use Dr. A. W. Chase's Kidney Liver Pills, the world's greatest kidney cure.

THE BUBONIC PLAGUE.

Without desiring to create any needless alarm, the Colonist thinks it well to direct attention to the presence of the bubonic plague in Hongkong and other Oriental cities having more or less intimate connection with Victoria. This disease is a terrible scourge, and very little is known about it. When once it gets a foothold there seems to be almost no possibility of eradicating it.

RAILWAYS TO THE YUKON.

We think that in British Columbia there will only be one opinion in regard to the decision of the government to grant no charters to railways from points on Lynn Canal to the Yukon, pending the settlement of the boundary question. It is of the greatest importance that here should be an all-Canadian line from the coast to the Yukon waters. If when the boundary is settled it is found that Lynn Canal is Canadian, the necessary all-Canadian line will already be established.
