ENHANCED EXCHANGE WIDE DIAL (EEWD)

Starting January 28, 1984 the Government of Canada telephone system in the National Capital Region will be systematically changed to a new computerized system - Enhanced Exchange Wide Dial (EEWD).

From that date on, it will be possible to dial most locations in Canada without operator assistance. Refer to the new intercity dialing instructions in the government telephone directory.

New features such as call transfer, consultation hold and three-way conferencing will be available as telephone lines are progressively switched over to EEWD. Additional features will be available with conversion to touchtone sets.

These instructions will apply on the following dates:

994 and 997 ... January 28, 1984
992 and 996 ... February 25, 1984

ENHANCED EXCHANGE WIDE DIAL (EEWD)

The Government of Canada telephone system in the National Capital Region is being systematically changed to a new computerized system - Enhanced Exchange Wide Dial (EEWD).

It has been possible to dial most locations in Canada without operator assistance since January 1984. Refer to the new intercity dialing instructions in the government telephone directory.

New features such as call transfer, consultation hold and three-way conferencing will be available as telephone lines are progressively switched over to EEWD. Additional features will be available with conversion to touchtone sets.

These instructions apply on the
dates indicated:

994 and 997 ... January 28, 1984

992 and 996 ... February 25, 1984

993 and 995 ... May 27, 1984

593 changes to 993 ... May 27, 1984
