- ☐ Blank leaves added during restoration may
appear within the text. Whenever possible, these
have been omitted from filming/
Il se peut que certaines pages blanches ajoutées
lors d'une restauration apparaissent dans le texte,
mais, lorsque cela était possible, ces pages n'ont
pas été filmées.
- ☐ Additional comments:/
Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

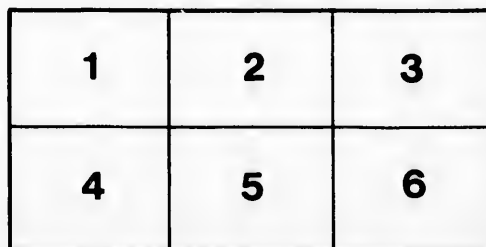

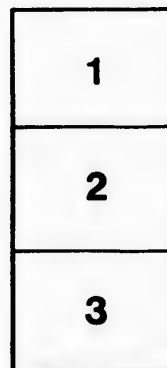

National Library of Canada

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol ➡ (meaning "CONTINUED"), or the symbol ▼ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Bibliothèque nationale du Canada

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole ➡ signifie "A SUIVRE", le symbole ▼ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

WEATHER GUIDE.

The following Table (the result of many years' actual observation) is ascribed to Dr. Herschel. It is constructed upon a due consideration of the attraction of the Sun and Moon in their several positions respecting the Earth, and serves to show what kind of weather will most probably follow the entrance of the Moon into any of her quarters :—

Moon.	Time of Change.	In Summer.	In Winter.
If New Moon, First Quarter, Full Moon, or Last Quarter, happens	Between midnight & 2 A. M. }	Fair.	Hard Frost unless wind be S. or W.
	" 2 and 4 A. M. }	Cold with showers.	Snow and stormy.
	" 4 " 6 " }	Rain.	Stormy and rainy.
	" 6 " 8 " }	Wind and rain.	Stormy.
	" 8 " 10 " }	Variable.	Rain if wind W. Snow if E.
	" 10 " 12 " }	Showery.	Cold and high wind.
	At 12 Noon, and to 2 P. M. }	Very rainy.	Snow or rain.
	Between 2 and 4 P. M. }	Variable.	Fair and mild.
	" 4 " 6 " }	Fair.	Fair.
	" 6 " 8 " }	Fair if wind be N. W. }	Frosty if wind N or N
	" 8 " 10 " }	Rainy if S. or S. W. }	E. Snow if S or S W
	" 10 " midnight.	Ditto. Ditto.	Ditto. Ditto.
		Fair.	Fair and frosty.

The nearer midnight any of the Moon's changes occur, the finer will be the weather during the succeeding week ; the nearer noon any of those changes happen, the more foul and wet will be the weather that will follow.

Begin this year by patronizing SMITH'S DRUG STORE.

JANUARY.—In preparing these Agricultural foot notes for the Almanack this year, we have endeavored, as on former occasions, to select for brief reference such subjects as appear to be most worthy of the attention of Agriculturists in Nova Scotia at the present time. Nova Scotian Agriculture has entered upon an entirely new phase. Our Agriculturists are, in many districts, zealously seeking after scientific methods of culture, introducing labour saving machinery, and improving their live stock. The advantages resulting from all this are such as to arrest the attention of cultivators even in the most backward districts, and we may soon hope to see our Province take a first rank among Agricultural Countries. An impetus has been given to cattle raising by the recently established system of

The Glycerine Rheum at SMITH'S DRUG STORE.

FEBRUARY is a trying month for cattle. We cannot too strongly impress the necessity of care in their feeding, watering, and general treatment, at this season of the year. When they once begin to fall off, it is up-hill work to attempt to stop it. Barns may be faulty, and the cold is severely felt, the root cellar may be troublesome to get at, and the animals miss an occasional meal, the wells may be frozen and the way to watering places may be so slippery that the cattle cannot reach them without discomfort or positive accident. In order to

Ladies and Gents wishing their Winter Cloaks, Sacques, and Overcoats renewed, will please leave them early at the SCOTCH DYE WORKS.

overcome these and many other difficulties that appear in February, it is a good rule to give extra time and attention to the stock. In feeding grain and meal always mix them into cut hay, moistened, otherwise they do not undergo the second mastication, but pass through the alimentary canal before a large portion of their nutritious material has been absorbed. Cattle should go out every day to water. If kept on the board floors all winter they are apt to become lame, partly from want of exercise, and partly from excessive growth of their hooves, which in spring-time will be found projecting forward like Chinese slippers.

There is no kind of Goods made that cannot be cleansed or Dyed to look equal to new, at the Scotch Dye Works, 285 Barrington Street.

MARCH.—This is hot-bed month, and how to make a hot-bed is a secret worth knowing. Select a sheltered spot, protected from animals, lying to the sun, and near a well or water-butt. Build on this space a neat pile of manure, of such a size that when the frame is put on top, there will be a clear foot of manure outside all round. Cow manure will not heat at this season. Horse manure will not heat at this season if the animal has not been fed upon oats or some kind of grain. Keeping these facts in view you can select your manure, or make such a mixture, as will give the degree of heat required. Spread over the manure just inside the frame, about four or five inches of very fine soil; this should have been prepared

SMITH'S DRUG STORE, 147 HOLLIS STREET.

In the Fall, and kept dry under cover all winter,—otherwise it is likely now to be in a hard frozen mass. The glass sashes are then to be put on and kept close till the hot-bed heats; the steam and heat will start the seeds of weeds, which may be allowed to grow. Air is then given, and, when the heat modifies, weed an' rake the surface and sow your spring seeds,—cauliflowers, cabbages, celery, tomatoes, &c., for the kitchen garden; and stocks, verbenas, petunias, asters, balsams, and such-like annuals for flower garden ornament. The seeds will bear a good deal of heat before they emerge from the soil, but as soon as the first leaves begin to appear the frame must be aired daily, taking care to avoid cold draughts.

SMITH'S Tooth Powder whitens the Teeth.

APRIL.—After our long winter, it is cheerful to watch the advent of the early spring flowers and other indications of coming summer. Last year, (1883), the Alder was in bloom on 18th April, frost then out of the ground, and the farmers were busy putting up their fences. Frogs were singing on the 19th and 20th, but there was slight snow on 21st, and frost at night, which quieted the frogs. The yellow crocus bloomed on 22nd, and the white german Heather was also in bloom. A few inches of snow again on 25th, with some drifting. Camberwell Beauty (butterflies) were abroad in Halifax City on 27th. At the end of the month the later crocuses came into bloom, but those with Scilla verna and Hepaticas, were not in full flower till 4th May. Some seasons a good deal of useful spring work can be done in April, but usually we have to wait till May for seed-time, still it is the duty of the farmer to have all his winter's work finished before first of

this month; to have his tools and horses and men all ready, and his seed and artificial manures (if to be used) at hand. Manure under cover may be carted out on the frozen soil to where it is to be used. In fields seeded down with timothy last fall, it will now be time to sow clover,—a mixture of red and alsaye is best for hay, as the white clover does not grow tall enough for cutting. Where early potatoes are required, the seed should be kept in a warm place so as to start the eyes, and, whenever the ground is dry enough, they may be planted. Peas and broadbeans may be sown at the very beginning of the month. Onions, parsnips and carrots also should be put in as soon as the ground is fit to give them the more delicate seed-bed they require. Beets and mangold wurzel are usually sown at the end of the month or early in May. All gooseberry and currant bushes should be dressed, dug around &c., apple and pear trees gone over, and generally

MAY.—We often hear complaints of our long and late spring season, and yet the variations are not so great as is generally supposed it is interesting to note the progress of vegetation as indicated by the flowering of plants in successive years; this gives us a true index to the progress of the season. The following plants were in bloom on 29th May, 1883: white and blue violets, gold thread, Rhodora, huckleberry, trinity flower, Indian pear, strawberry, dandelion, tulip, Alpine forget-me-not (*M. alpestris*), cherry, dielytra. depends so much upon the month of May, and the work that can be then accom-
plished, that every hour should be highly valued. If any ploughing has to be done,
let it be done at once; if manure has to be taken out for crops, don't wait for a
more convenient season; if the weather is not all that can be desired, proceed
nevertheless with your work, vary it to suit the state of the soil and the atmos-
phere. Men cannot fight against the operations of nature, but they can very often
turn them to advantage by consideration and forethought. What has to be sown
and planted this month? *Everything* except what has either been already com-
mitted to soil, or is too tender to withstand the coldness of the soil, or the probable
frosts of June. Such exceptional crops are bush beans, pole beans, corn, tomatoes,
encumbers, squashes; it is only in warm sandy soils that such things can be safely

put out before the end of the month. Turnips also should not be sown in May. Finish all top dressing of grass lands, keep down weeds in gardens, give more air to frames so that the plants may grow strong and hardy, see that all fences are secure before you let out any cattle into the pastures, clear out cellars and yards, white-wash buildings, and put the whole household into summer order.

JUNE.--One of the most important crops of Nova Scotia is the Potato, and its importance is yearly increasing in consequence of the difficulty of raising it profitably in the United States and Ontario. With us, Potatoes are usually planted early in June, say from 1st to 15th. Different methods are adopted in different localities; in light land the manure is ploughed in, on heavy land it is laid in the drills. Superphosphate and kainit greatly increase the yield, which varies with

different varieties. The following returns were obtained in a field where all were treated alike: Ash leaved Kidney 181 bushels per acre; Beauty of Hebron 204; Early Rose 258; Cattlefeeder 265; Early Ohio 263; Late Rose 308; Jenny Lind 318; White Elephant 422. These figures represent the yield of sound marketable potatoes; the Jenny Lind gave besides 191 bushels of pickings (mostly rotten) so that the total yield of that potato was 509 bushels per acre. It is a sort that should be planted only on dry land, and sparingly manured. Great vigilance is required wherever the Potato Beetle appears in the fields. Remedies: 1. Where the beetles are not numerous they may be picked off by hand and destroyed. 2. Where numerous, take a tin milkpail, and, walking along the drills, strike the potato vines with a shingle, holding the tin pail so that the beetles will fall into it. They may be killed with boiling water or kerosene. 3. Dust Paris Green while dew

is on the vines. 4. Put one or two teaspoonsfull of Paris Green into a pail of water, stir occasionally, and sprinkle the vines by means of a whisk or small broom. 5. London Purple may be used instead of Paris Green. These poisonous substances should be kept away from animals, children and careless servants. Flowers are now plentiful in the gardens and woods. Last year (1883) the Poets Narcissus (pheasants' eye) came into bloom on 1st, the Lady's Slipper (Cypripedium acaule) on the 4th, Azaleas and Apple trees were in blossom on the 9th, and the Double-flowered Cherry on the 11th.

sow their Swedes this month, and the soft Turnips for immediate feeding need not necessarily be sown till the end of July. The ground should have undergone a thorough pulverization. Light sandy soil is the best for Turnips. They start best after the ground is warm, but the bulbs swell most rapidly during the cool dewy nights of Autumn. The soil cannot be worked too deep, or made too fine for Turnips. Town manures are valuable for this crop; and crushed bones have been applied with the best effects, either when covered in the drills in the manner of ordinary dung, or when sown by machine along with the seeds, so as to be in immediate contact with the latter. Guano has been largely used of late years. Superphosphate is very efficacious. One point of Turnip culture that is often neglected in Nova Scotia, although well understood elsewhere, is that the seed

should be put in the moment the soil is prepared. If the earth of the prepared drills gets dried up in the sun before the seed is committed to it, how can the later be expected to germinate. Hoeing and weeding of all drill crops should be carried on actively this month and completed before haying time.

AUGUST—Our farmers, at least those in the best farmed districts of the Province are working into a mixed husbandry, so that cattle may not feed on hay all winter and pasture in the summer, but feed in winter on straw and roots and coarse grain and in summer partially or wholly on green fodder in-doors. This is the only way to enrich a farm, or to attain to anything like high farming. We therefore

recommend our readers to note at this season how convenient it is to have a field of tares or green oats or barley or Indian corn or rape, or any other green eatable thing for the cattle to grow or fatten upon when the pastures are all burnt up. After haying there will be work in the garden and especially in the orchard. Look after the ripening of fruit, destroy caterpillars, if any still remain; pick the early August apples, and send them into market. When the rains come, beds of strawberries may be made up. See that the ground is well drained and enriched with old manure. Mushrooms now appear in the horse pastures. The calving of cows for the season will now be over. All thorough-bred calves should be at once registered in the official Stock Register of the Board of Agriculture. For grade stock the farmer should keep a record for after reference.

SEPTEMBER.—Our new system of Agricultural Exhibitions in Nova Scotia provides that a provincial Exhibition shall be held once in two years, and that the District Exhibitions shall be held in the Several Districts into which the Province is divided for the purposes of the Agricultural Act. This (1884) is the year for District Exhibitions. Those enterprising farmers who are looking forward to taking prizes at the Fall Exhibition will now be busy with their live stock. Feed is the main thing to fit an animal for Exhibition, but there are other matters to be attended to as well, such as careful grooming and kindly treatment. It will be proper now

to estimate what stock should be kept during the ensuing winter so that any
surplus may be sold off, either in present condition or after being fattened off
with some extra feed, which is easily accomplished at this season on waste
material, when grain is being cleaned and roots taken up. Sheep should be
dipped or washed with some suitable sheep dip, if there is any appearance of ticks,
as the eggs hatch out in winter time and the young ticks are very troublesome to
the sheep, causing loss not only of wool, but of condition and health. It is a good
plan to wash or smear twice a year, in Spring when the wool is taken off, and in
Fall when the eggs are being laid in the wool. A good smear may be made with
butter and sulphur.

OCTOBER.—The harvesting of root crops is one that requires great attention, and, as the culture of them is extending throughout the Province, we would impress upon all who have not had long experience the necessity of attending to the points noted below:—To take up and store roots successfully is a simple art when properly understood, but the frequent destruction of roots in the cellar shows that it is not always understood or carried out. Potatoes should be dug in dry weather, and allowed to dry completely on the surface before being put together in heaps or in the cellar; the best way is to put them on a barn floor and

exclude the light, otherwise they will become green and acquire a bitter taste and poisonous qualities. Mangels, turnips and carrots should be topped and the fine root fibres cut off. Before storing they should, in like manner, be exposed to dry air that the wounds may heal over; if put at once into the cellar, the wounded tissues will begin to ferment, and a large portion of the roots will be rotted by contact. If facts such as these are kept clearly in view, no farmer need lose his roots. Of course the cellar must be kept well aired, cool and dry, and frost carefully excluded.

NOVEMBER.—The improvement of cattle has at length taken a secure hold of the people of Nova Scotia. This improvement is being carried out principally through the agency of Agricultural Societies. These Societies are apt to forget that their arrangements for the ensuing season, in regard to animals, are most profitably made at this time of year. Every Society keeps, or ought to keep, a sufficient number of male animals for the use of members. If the selection and purchase of these be deferred till Spring time, large prices have to be paid, and the demand is usually so great that suitable animals cannot be obtained. For beef cattle the Short Horn Durham breed is the best; their growth is more rapid than that of any other kind. For milk alone, Ayrshires are to be preferred, Devons make the best working oxen, are quick, active, and easily fed, and soon fatten in the wild pastures for beef. For domestic cows in the city the creamy Alderneys or Jerseys

are most suitable. As soon as the root crops are all cleared off the fields, and the
 weeds and potato vines are put in heaps to rot, the farmer should employ his
 whole strength of man and beast in fall ploughing. Whether on old or new land,
 all ploughing is a most important operation. Without it a farm cannot be worked
 to advantage. After ploughing, do not forget to go carefully over the water fur-
 rows to make way for the exit of the floods of rain and melting snows that are
 sure to soak your fields before seed time. A well ploughed, well drained field may
 be sown in Spring as soon as the frost is gone, whilst one that is irregularly
 ploughed, or has no water furrows, may long remain a puddle, defying every
 attempt to improve its condition. The best part of what is too often left to be
 "Spring work" can be done in the month of November. All land intended for
 oats, peas, and horse beans should be effectively worked this month.

XMAS CARDS AT SMITH'S DRUG STORE.

DECEMBER.—Under each month we have endeavored to indicate matters that most urgently require the notice of the farmer. Last, but not least, we call his attention to his position as the member of an Agricultural Society, in which, by example and precept, he may make his personal influence widely felt, and thereby conduce to the prosperity and advancement of by far the most important industrial interest of the Province. There are now about ninety Agricultural Societies in this Province, with a membership of more than five thousand farmers. These Societies are organized under the Central Board of Agriculture, and each Society is entitled to draw from the Provincial Treasury (through the Board), an annual grant in aid to promote its operations. The special purpose of a Society is

to improve the live stock of its district, which is accomplished by obtaining and keeping for the use of members, superior mule animals, such as bulls, rams and boars. Societies may also introduce seeds of new varieties of grain, roots, and also improved implements, and sell them to members at cost and charges. Exhibitions are held by the Societies of a District, embracing two or more Counties, combining. The whole of the Societies of the Province meet on the first Tuesday in December, each in its respective district, when the members receive the Directors' Report, and select officers for the ensuing year. Full information as to the method of organizing Societies may be obtained on application to the Member of the Board for the District (see Board of Agriculture in another part of the ALMANACK), or to the Secretary, Professor Lawson, Dalhousie College, Halifax.

*At Halifax there are three Sittings and one Term of the Court.—The Sittings being held for Trial of Causes, November, February and April; the February sitting is held for the purpose only of disposing of Causes not reached on the Docket for the November sitting; and the Term for Argument of Appeals, &c., begins on the second Tuesday of December, and extends until the first Tuesday of April. The Supreme Court is always open, and provision has been made to facilitate the disposal of arrears by empowering the Court in banc to sit in two divisions and to regulate the times and places at which the two divisions shall sit.

PICKFORD & BLACK—Bolt Rope, Manilla and Hemp.

In using a Dominion Measure of capacity the same shall not be heaped but either shall be stricken with a round stick or roller straight and of the same diameter from end to end, or if the articles sold cannot from its size or shape be conveniently stricken, shall be filled in all parts as nearly to the level of the brim as the size and shape of the article will admit.

Every contract, bargain, sale or dealing made or had in the Dominion of Canada for any work, goods, wares or merchandise, or other thing which has been or is to be done, sold, delivered, carried or agreed for by weight or measure, shall be deemed to be made and had according to one of the Dominion weights or measures ascertained by this Act, or to some Multiple or part thereof, and if not so made or had shall be void, except only when made according to the metric system; and all tolls and duties charged or collected according to weight and measure, shall be charged and collected according to one of the Dominion Weights or Measures ascertained by this Act, or to some multiple or part thereof.

No local or customary measures in the use of the heaped measure shall be lawful.

Any person who sells by any denomination of weight or measure other than one of the Dominion weights and measures or some multiple or part thereof, shall be liable to a fine, not exceeding twenty dollars for every such sale.

Every weight, except when the small size of the weight renders it impracticable, shall have the denomination of such weight stamped or engraved on the top or side thereof in legible figures and letters. Every measure of capacity shall have the denomination thereof stamped or engraved on the outside of such measure in legible figures and letters. Every beam, steel-yard or weighing machine shall have marked upon some essential part of it the maximum weight which it is constructed to weigh, and also on the weights or poises used with it their actual weight when truly adjusted, in parts or multiples of the avoirdupois pound. A weight or measure not in conformity with this section shall not be stamped with such stamp of verification under this Act, as is herein mentioned.

Every trader, manufacturer, carrier, public weigher, ganger, measurer, surveyor or other person, who uses, for any purpose of buying, selling or charging for the carriage of any goods, wares, merchandise or thing, or of measuring any land, goods, materials or other thing, for the purpose of charging for or ascertaining the price to be paid, or the charge to be made therefor, any weight or measure, or weighing-machine which has not been duly inspected and stamped according to this Act, shall be guilty of an offence against this Act; and shall, on conviction, incur a penalty of not more than fifty nor less than five dollars for each such offence; and every such unstamped weight, weighing-machine or measure so used, found in his possession, shall, on being discovered by the inspector, or his assistant, be forfeited and forthwith seized and broken by him, without suit or other authority than this Act:

Except that the manufacturer of or dealer in weights, measures or weighing machines who has in his possession for sale any weight, measure or weighing machine, shall not be bound to have the same inspected and stamped according to this Act, so long as the same remain in his manufactory or warehouse; but no such weight, measure or weighing machine shall be removed from his premises, sold or taken into use for trade without having been inspected and stamped:

Any trader not being a manufacturer of or dealer in weights, measures or weighing machines, having in his possession any unstamped weights, measures or weighing-machines, shall be liable to a penalty of twenty-five dollars for the first offence, and for each subsequent offence to a penalty of fifty dollars; and the inspector or his assistant shall forthwith seize such weights, measures or weighing-machines which shall be forfeited.

If any person forges or counterfeits any stamp used for the stamping, under this Act, of any measure, weight, balance or weighing-machine, or used before the commencement of this Act for the stamping of any measure, weight, balance or weighing-machine under any enactment repealed by this Act, or wilfully increases or diminishes any weight or measure so stamped, or in any way alters or tampers with any balance or weighing-machine which has been so stamped, so as to cause it to weigh unjustly, he shall be liable to a penalty of forty dollars for the first offence, and for each subsequent offence he shall incur a penalty of one hundred dollars and two months imprisonment:

Any person who knowingly uses, sells, utters, disposes of, or exposes for sale, any measure, weight, balance or weighing-machine, with such forged or counterfeit stamp thereon, or any weight, measure, balance or weighing-machine so increased, diminished, falsified or tampered with, shall be liable to a penalty for the first offence not exceeding fifty dollars, and for each subsequent offence one hundred dollars.

Any person, not being a manufacturer or dealer in weights, measures or weighing-machines, who refuses to produce for inspection, when required to do so by any inspector or inspector's assistant appointed under this Act, all weights, measures and weighing-machines in his possession, and used for any purpose of trade, or—

Any manufacturer or dealer in weights, measures or weighing-machines, who refuses to permit the inspection, when required in the manner herein provided, of any weights, measures or weighing-machines about to be removed from his premises to be used for purposes of trade, or who permits any such weights, measures or weighing-machines to be so removed without having been first inspected and stamped as herein required,—shall, on conviction, forfeit and pay a sum not exceeding twenty dollars for the first and forty dollars for the second or any subsequent offence.

All forfeitures and penalties imposed by this Act, or by any regulation made under its authority, shall be recoverable, with costs, before any civil court of competent jurisdiction, or before any Justice of the Peace for the district, county or place in which the offence was committed, if such forfeiture or penalty does not exceed fifty dollars, and before any two such justices, or any magistrate having, by law, the power of two such justices, if it exceeds fifty dollars, upon proof by confession, or by the oath of one credible witness,—and may, if not forthwith paid, be levied by execution of distress and sale of the goods and chattels of the offender, by warrant, under the hand and seal of such justice, justices or magistrate—by whom also any imprisonment to which the offender is liable may be awarded: and to all such cases the Act passed in the session held in the thirty-second and thirty-third years of her Majesty's reign, and entitled, "*An Act respecting the duties of Justices of the Peace out of Sessions in relation to summary convictions and orders*," shall apply, subject to the provisions of this Act:

One half of any penalty so recovered shall belong to the party suing for the same, not being an inspector, or an inspector's assistant, and the other half, or (if the party suing is an officer acting in pursuance of this Act) the whole penalty shall belong to Her Majesty for the uses of the Dominion:

Every such suit shall be instituted in the name of the inspector acting in pursuance of this Act, who shall account for the penalty to the Department of Inland Revenue.

Any person aggrieved by the use of any weight or measure, or weighing-machine, which has not been duly inspected and stamped according to this Act, or which may be found light, deficient or otherwise unjust, may recover treble damages and costs.

No action or prosecution shall be brought against any person for any forfeiture or penalty imposed by this Act, unless the same is commenced within three months after the offence is committed.

ment of 5c. will cover a weight of 10 oz., and 2c. for every additional 2 oz. or fraction thereof. On samples and patterns the postage is 2c. for the first 4 oz., and 1c. for every additional weight of 2oz. or fraction thereof.

List 2.

On Books and Printed Matter generally, the rate of postage is 2c. per 2 oz.; on Commercial Papers addressed to Postal Union Countries where the *double letter rate* is required, the minimum prepayment of 5c. upon a packet will cover a weight of 5 oz., 6c. for 6 oz.; and 2c. for every additional weight of 2 oz. or fraction thereof.

On Samples and Patterns the postage is 2c. for 2 oz. or fraction thereon.

List 3.

The limit of weight of Books, Printed Matter, Commercial Papers, Documents &c., AS WELL AS FOR NEWSPAPERS, is 4 lbs. 6 oz. avoirdupois, and the limit of size 24 inches in length by 12 inches in breadth or depth. The limit of weight for Samples and Patterns is 8½ oz., and the limit of size 8 inches in length, 4 inches in breadth, and 2 inches in depth. These apply to all Postal Union destinations. The limit of weight, however, for Book Packets, &c., to the United Kingdom is 5 lbs. Matter exceeding the limit of weight cannot be forwarded.

It will be observed that all classes of matter can be registered to the United States and all Countries named in Lists I. and II.

Letters containing gold or silver money, (excepting such addressed to the United States) jewels, or precious articles, or anything liable to Customs duties, will not be forwarded, *registered or unregistered*, to any place beyond the limits of the Dominion of Canada.

Newspapers and periodicals printed and published in Canada may be sent by post from the office of publication or news agency, at the rate of 1 cent per lb. to regular subscribers or news agents in Newfoundland, the United Kingdom, or the United States.

Further information in regard to the rates of postage to British Colonies and foreign countries, via England, or the United States, inland and foreign mail connections, the rules governing letters, newspapers, books, periodicals, samples and parcel post, and the transmission of post cards, ships letters, dead letters, franking and free matter, &c., may be obtained at any Post Office.

Rates of Postage within the Dominion.

LETTERS.

To places within the Dominion of Canada, 3 cents per half oz. each. Letters paid less than one rate will not be forwarded. Other short paid letters will be taxed with double the amount of the deficient postage.

On letters posted at an Office to be delivered from it, commonly known as Local or "drop letters," the rate will be 1 cent per ½ oz.; to be in all cases prepaid by Postage Stamps affixed to such letter when posted.

Re-directed Letters will be forwarded without any additional charge if not taken from the office or if handed back at the moment of their delivery, but if taken from the office and subsequently re-posted they become subject to a new rate of postage, in default of which they will be sent to the Dead Letter Office, Ottawa.

miles, and Bantam Rocks, bearing S. E. bearing S. E. by E. ½ E., distant 6½ miles. To guide vessels into Barrington East Bay, and through Barrington Passage.

In passing through Barrington Pass to the westward, the dangers to be left on starboard hand are marked by red buoys, those to be left on port hand by black buoys.

CAPE SABLE, on Cape, lat 43° 23' 19" N., lon. 65° 37' 11" W., white catoptric revolving light, bright 15 seconds, dark 25 seconds, visible 12 miles, 53 feet high, white octagonal building, 50 feet high. A steam fog whistle on Cape, elevated about 40 feet above high water, sounds in thick weather, fogs and snow storms, a blast of ten seconds' duration each minute, with an interval of 50 seconds between each blast.

BRAZIL ROCK.—A Bell Buoy has been placed here to mark this danger instead of the Can Buoy painted red and black horizontal stripes, moored in about 18 fathoms to southward of Rock.

STODDART ISLAND, on N. W. point of island, lat 43° 28' 30" N., lon 65° 43' 10" W., fixed red catoptric light, visible 9 miles, 22 feet high, white small square tower. To guide vessels into the anchorage of Stoddart Harbor and Shag Harbor Sound.

BON PORTAGE ISLAND, on south point, lat 43° 27' 16" N., lon 65° 44' 10" W., red catoptric light, revolving every minute, visible 12 miles, 46 feet high, white square wooden building, height 28 feet. For guiding vessels into Barrington West Bay and Shag Harbor.

PUBNICO HARBOR, Beach Point, east side of entrance, 120 yards from low water mark, lat 43° 35' 45" N., lon 65° 46' 54" W., fixed white catoptric light, visible 8 miles, 28 feet high, square white building, height 20 feet. Open westward of St. John's Island, bearing N. E. by N., clears the ledge; in making harbor from any other direction, the light must be brought to the northward of E. N. E. before it can be steered for to avoid shoal spot off St. Ann's Point. Spar buoys mark the channel. Black left on port hand, red on starboard in approaching the harbor. A bell buoy has been placed near John's Ledge.

PEASE'S ISLAND, on the south point of Pease's Island, one of the Tusket Islands, Yarmouth County, Nova Scotia, lat 43° 37' 35" N., lon 66° 1' 40" W. The main or sea light will be revolving catoptric, showing alternately red and white, each color visible for 15 seconds, with intervals of 45 seconds between the flashes. It is elevated 56 feet above high water mark, and in clear weather should be seen 12 miles from all points of approach from the southward, and also through the Schooner and Ellenwood Passages. A fixed red catoptric light will also be shown from a window in the tower, 16 feet below the main light. It is intended to mark the channel between the two dangers known as the Old Man and Old Woman Rocks, and is, therefore, visible between the bearings W. by N. ½ N., and N. W. by N., and in no other directions. It should be visible 4 miles. The tower is a wooden building, painted white, and consists of a square tower 42 feet high from base to vane on lantern, with a keeper's dwelling attached.

ARGYLE, on south point of Whitehead Island, Yarmouth County, lat 43° 39' 30" N., lon 65° 52' 4" W., fixed red catoptric light, visible 12 miles, 115 feet high, building white, square, wood, with dwelling attached, height 28 feet. For guiding vessels into Argyle Harbor.

TUSKET RIVER, Big Fish Island, south-west point, lat 43° 42' 10" N., lon 65° 57' 15" W., two fixed white catoptric lights, horizontal, 8 yards apart, visible 12 miles, 50 feet high, white square wooden building, height 23 feet. Visible seaward: in windows each end of a dwelling house.

SEAL ISLAND, south point, $\frac{1}{2}$ mile inland, lat $43^{\circ} 23' 34''$ N., lon $66^{\circ} 0' 52''$ W., fixed white light, dioptric, 2nd order, visible 18 miles, 98 feet high, white octagonal building, height 60 feet. The Blonde Rock lies S. by W. $\frac{3}{4}$ mile from light house. Between this Rock and the Island there are some dangers, the ground is rocky throughout, and large vessels ought not to attempt passing between them. A fog whistle near light house, during fogs and snow storms, sounds in each minute a blast of 5 seconds duration, and after an interval of 5 seconds gives another blast of 5 seconds, with an interval of 45 seconds.

BLONDE ROCK.—An Automatic Signal Buoy now marks this danger, painted black with letter B. in white, S. $\frac{1}{2}$ E., half mile from the Rock. The Rock lies $\frac{3}{4}$ miles S. by W. from the Seal Island lighthouse.

YARMOUTH OR CAPE FORCHU, east cape, south point, lat $43^{\circ} 47' 28''$ N., lon $66^{\circ} 9' 21''$ W., white catoptric light, revolving every minute and 45 seconds—light $1\frac{1}{2}$ minute, dark $\frac{1}{2}$ minute, visible 18 miles, 117 feet high, octagonal tower, vertical stripes, red and white, height 59 feet. Fog whistle on west side, sounds in fogs and snow storms, 10 seconds in every minute.

An Automatic Buoy, painted red with letter L, in 13 fathoms, east of the Lurcher Rock.

BUNKER'S ISLAND, on end of reef, off S. W. point of Island, east side of entrance to Yarmouth Harbor, lat $43^{\circ} 48' 30''$ N., lon $66^{\circ} 8' 45''$ W., fixed red catoptric light, visible 10 miles, 27 feet high, the lantern on a dwelling house, built on a wooden pier. A red beacon light for the purpose of guiding vessels into the harbor. Visible from the southward between the bearings of N. E. by N. $\frac{3}{4}$ E. It can also be seen on Standwood's Beech, when bearing from S. $\frac{1}{2}$ E. to S. E. $\frac{1}{2}$ E., but cannot be run for on these bearings, the only entrance to the harbor being through Yarmouth Sound and round East Cape.

TRINITY LEDGE, an Iron Bell Buoy, painted red, has been moored to the westward of Trinity Ledge, off Cape St. Mary.

CAPE ST. MARY, east side of Bay, lat $44^{\circ} 5' 20''$ N., lon $66^{\circ} 12' 40''$ W., red and white catoptric light, revolving alternately every 30 seconds, visible 17 miles, 103 feet high, octagonal white building, height 45 feet.

METEGHAN RIVER, at entrance end of Breakwater, lat $44^{\circ} 13' 43''$ N., lon $66^{\circ} 8' 12''$ W., fixed green catoptric light, visible 6 miles, 23 feet high, building vertical, red stripes on seaward side, 21 feet high, lantern painted black. Beacon for guiding vessels into river. Must be left on starboard hand and passed close aboard. Tide leaves breakwater one hour before low water.

CHURCH POINT, east side of St. Mary's Bay, Digby County, lat $44^{\circ} 19' 55''$ N., lon $66^{\circ} 7' 35''$ W., fixed red catoptric light, visible ten miles, 36 feet high, square white wooden building, height 20 feet. For guiding against dangers in vicinity of Church Point.

SISSIBOO, south side of entrance to river, lat $44^{\circ} 26' 30''$ N., lon $65^{\circ} 1' 15''$ W., fixed white dieptrie light, visible 8 miles, 36 feet high, white wooden building, pyramidal, height 33 feet.

WESTPORT, Peter's Island, entrance to Grand Passage, lat $44^{\circ} 15' 30''$ N., lon $66^{\circ} 20' 20''$ W., 2 fixed white catoptric lights, horizontal, 24 feet apart visible 10 miles, each 40 feet high, square white building, height 15 feet. Visible from the northward between the bearings of S. by W. and S. S. W., and from the southward between the bearings, of N. E., by E., and N. N. W. $\frac{1}{4}$ W.

PICKFORD & BLACK Importers of Wrought Spikes.

The following clauses of the Medical Act (Chap. 28, Revised Statutes, 4th Series,) are here published for the information of the profession and public:

8. Subject to the exceptions hereinafter made, no person shall practice physic, surgery or midwifery in Nova Scotia, unless his name shall be registered in the Book of Registry of the Provincial Medical Board, and unless he shall have received from such Board a license to practice.

16. Any person entitled to be registered under this chapter, but who shall neglect or omit to be so registered, shall not be entitled to any of the

Billheads, Receipts, Cards, Statements, &c.

rights or privileges conferred by the provisions of this chapter, so long as such neglect or omission shall continue.

17. No person, otherwise fully qualified under this chapter, shall be refused registration or a license to practise on account of his adopting or refusing to adopt the practice of any particular theory of medicine or surgery. In case of such refusal by the Board, the party aggrieved shall have the right to appeal to the Governor in Council, who, upon due cause shown, shall issue an order to the Board to register the name of such person and to grant him a license to practice.

21. Every person who shall be registered under the provisions of this chapter, shall be entitled according to his qualification or qualifications to practise Medicine, Surgery, and Midwifery, or either or any of them; as the case may be, in Nova Scotia, and to demand and recover in any court of law reasonable charges for professional aid, advice and visits, and the cost of any medicine or other medical or surgical appliances rendered or supplied by him to his patients.

22. No person shall be entitled to recover any charge in any court of law for any medical or surgical advice or for attendance, or for the performance of any operation, or for any medicine which he shall have both prescribed and supplied, unless he shall prove upon the trial that he is registered under this chapter.

24. No person shall be appointed as medical officer, physician or surgeon in any branch of the public service, or in any hospital or other charitable institution, unless he shall be registered under the provisions of this chapter.

25. No certificate required by any Act now in force, or that may hereafter be passed, from any physician or surgeon, or medical practitioner shall be valid, unless the person signing the same shall be registered under this chapter.

26. If any person not registered or licensed under the provisions of this chapter, or not being actually employed as a physician or surgeon in Her Majesty's naval or military service, practises Physic, Surgery or Midwifery for hire, gain, or hope of reward, he shall thereby forfeit a sum of twenty dollars for each day on which he so practises.

27. Any sum forfeited under the next preceding section shall be recoverable with costs, and may be sued for and recovered in the same manner as a private debt, by the Provincial Medical Board or any member thereof; and being recovered, shall belong to the Board for the use thereof under this chapter. Provided that, where the information leading to such recovery shall have been given by any person unconnected with the medical profession, such person shall be entitled to receive one-half of the sum so recovered.

28. Upon the trial of such cause, the burden of proof as to the license or right of the defendant to practise Physic, Surgery or Midwifery in Nova Scotia shall lie upon the defendant.

DIRECTIONS TO MARINERS WITH REFERENCE TO CANADIAN STORM WARNINGS, ISSUED FOR QUEBEC AND THE MARITIME PROVINCES.

Explanation of Signals made off on the Storm Signal Staff at the Citadel.

I.—Cone, hoisted with the apex downwards, indicates "moderate gale is expected," probably at first from an easterly direction.

II.—Cone, with apex pointing upwards, indicates "moderate gale is expected," probably at first from a westerly direction.

III.—Drum, with Cone underneath, the apex pointing downwards, indicates fresh to heavy gale is expected, probably at first from a easterly direction.

IV.—Drum, with Cone above, the apex pointing upwards, indicates fresh to heavy gale is expected, probably at first from a westerly direction.

The Cone, when hoisted by itself, indicates that it is expected that the wind will obtain a velocity of 30 miles an hour, but will not exceed 40 miles; and it is not intended that an ordinary well found vessel should stay in port, but simply as a warning to mariners that strong winds are expected from the quarter indicated.

The Drum will always be hoisted when the velocity of the wind is expected to exceed 40 miles an hour.

The night signal, corresponding to Nos. 1 and 3, is two white lanterns hanging perpendicular.

The night signal, corresponding to Nos. 2 and 4, is two white lanterns hanging horizontally.

NOTES.—Mariners will be able to obtain further information from Drum Agents, or by consulting the daily probabilities. Mariners must always bear in mind that the storm signals are merely cautionary, and do not necessarily mean that a storm will occur at the place where the signal is displayed, but that one is expected either there or within such a distance that vessels leaving port would be liable to be caught in it.

The storm warnings issued for Nova Scotia, are received from the Central Office, Toronto, Ont.

NOVA SCOTIA BIBLE SOCIETY.—*President*, Hon S. L. Shannon; *Vice-Presidents*, William Pryor, Hon Sir William Young. *Treasurer*, S. H. Black. *Secretary*, James Farquhar. *Agent*, John Toland. A large committee of gentlemen of various religious denominations is appointed annually. Its object is "to encourage a wider circulation of the Holy Scriptures without note or comment." It was instituted on the 24th November, 1813. Total issues of the Society, 96,917,000 copies of the Scriptures. Income of the Nova Scotia Society, last year, \$3,532.75.

HALIFAX LADIES' BIBLE ASSOCIATION.—*Prest.*, Mrs Liddell. *Vice Prest.* Miss Wells; *Sec'y*, Miss F. Pryor; *Treas.*, Miss G. Lawson. This Society collects funds for the purpose of circulating the Scriptures among the poor and destitute. When a balance remains in the Treasurer's hands at the close of the year, the amount is given to the Nova Scotia Society.

BRITISH AMERICAN BOOK AND TRACT SOCIETY.—*Prest.*, T. A. Brown. *Treas.*, R. T. Braine. *Secretary and Superintendent of Colportage*, A. N. Archibald. These office-bearers with a Board of Directors composed of clergymen and laymen of various denominations, are elected annually. The Society was incorporated in 1872. Its expenditures in fifteen years amounted to about \$380,000. It received in donations over \$55,000; and it circulated publications to the value of over \$330,000. About \$65,000 have been spent in Colportage,—and 150 years of labour were devoted to this object. Religious Books, Tracts, Magazines, Sabbath School Papers, Libraries at half price, &c., are specialties of the Society's Depository.

Rev. Robert Murray. The Evangelical Alliance is a Society intended to promote united action among christians of different denominations in so far as they are agreed.

YOUNG MEN'S CHRISTIAN ASSOCIATION.—*President*, J. S. Maclean. *Vice Presidents*, Edw Lloyd, Dr Woodbury, Dr Delaney, W. H. Wiswell, O. M. Hill, M. H. Richey, jr. *Treasurer*, S. H. Black. *Sec'y*, Henry Theakston. The Halifax Young Men's Christian Association was organized in December, 1853. Its object is the improvement of the "spiritual, moral, mental and social condition of the young men of the City of Halifax." It owns a handsome building which has cost over \$37,000. It has a large Library and a spacious and well supplied Reading Room: also Committee Rooms, Class Rooms, Parlor, Lecture Hall and Dining Room.—Any person of good moral character may become a member, but no one can serve on committee or be an officer of the Association without being a member in good standing of some Evangelical Church.

YOUNG WOMAN'S CHRISTIAN ASSOCIATION.—*President*, Mrs W. S. Sterling. *Treasurer*, Mrs E. G. Smith. *Secretaries*, Misses Sterling and Morrow. This Society aims at promoting the welfare of young women in the City, by means of a night school, libraries, &c., &c.

SABBATH SCHOOL ASSOCIATION.—This Society is intended to bring together once a year representatives of all the Sabbath Schools throughout the Maritime Provinces, in order to discuss the most approved methods of prosecuting their work. *Secretary*, S. Waddell, Halifax, N. S.

HALIFAX INFANTS' HOME.—The object of this Home is to receive and care for destitute infants. Its affairs are managed by a Committee of ladies. The annual expenditure amounts to about \$3000. The number of infants in the Home at any one time is about forty-two. When the children are about two years old they are given out to be adopted by families in the country. Over eighty have been thus provided for within the past six years. *Miss Nordbeck, Treas.*, Studley. *Mrs E. M. Saunders, Sec'y.*, Carlton Street.

ASYLUM FOR THE BLIND.—William Murdoch, Esq., who died in London in 1867, left by Will £5000 N. S. Currency towards endowing an Asylum for the Blind. This led to other gifts and the erection of a building at a cost of £3000,—capable of accommodating forty pupils. The Institution is really a school. *John S. Maclean, Prest.*; *E. D. Meynell, Secretary and Treasurer*; *M. H. Richey, Corresponding Secretary*; *M. Bowman, Recording Secretary*; *C. T. Fraser, Superintendent*; *Miss McKenzie, Teacher*; *T. Blair, Steward*; *Mrs. T. Blair, Matron*.

DEAF AND DUMB INSTITUTION.—(Gottingen Street.) This Institution has been in operation for twenty-one years. It is supported partly by grants from the Governments of the Maritime Provinces, and partly by voluntary contributions—most of the pupils being too poor to pay for their board and education. The pupils range in age from five years up to twenty-five. Those who have the full benefit of an education here are able to express themselves with fluency. *Patron*, His Honor the Lieut.-Governor of Nova Scotia. *Chairman*, Hon D. McN Parker, M.D. *Sec'y*, Rev Jao Forrest. *Principal*, J. Scott Hutton, M.A. *Matron*, Mrs Vinecove. *Physicians*, Hon D. McN. Parker, M.D., Dr. Campbell. *Dentist*, Dr Alfred Cogswell.

HOME FOR THE AGED—This place is intended to afford a comfortable retreat to respectable women of advanced years whose means of livelihood are very limited. Fifty dollars a year paid by the inmate or by a friend secures all the comforts of a home. The Institution owes its existence to the thoughtful liberality of the late William Murdock, Esq. *President*, Mrs W. S. Stirling. *Secretary*, Miss Forrest. *Treas.*, Miss A. Nordbeck.

PROTESTANT ORPHANS' HOME—Protestant orphans, two years old, and upwards, are admitted to this Institution. It enjoys considerable endowments. Comfortable homes in the country are sought out and secured for boys and girls as they grow up. *Secretary*, Mrs R. Pickford. *Treasurer*, Mrs J. H. Liddell. *Physician*, Dr ———.

PROTESTANT INDUSTRIAL SCHOOL.—Intended to teach and train for some useful occupation boys who might otherwise be left to grow up as "roughs" and criminals. It is under the management of a committee of gentlemen and ladies. *Secretary*, E. D. Meynell. *Surgeon*, Dr. Slayter. *Superintendent*, Mr Norman.

HALIFAX VISITING DISPENSARY.—Medical aid is afforded by this Institution to hundreds of poor patients. Those who need such attention are visited by Physicians at their homes. Those who can come to the Dispensary at the proper hour are duly attended to there. *Treas.*, J. F. Kenny. *Sec'y*, W. H. Wiswell.

HALIFAX ASSOCIATION FOR IMPROVING THE CONDITION OF THE POOR—The aim of the Association is to aid the poor by giving them employment whenever it is possible to do so, and securing that only the deserving poor shall be aided. Every case is investigated before aid is given. *Prest.*, Jno Doull. *Vice Prest.*, W. H. Neal. *Secy.*, D. Blackwood.

NOVA SCOTIA HEALTH SOCIETY.—*President*, Hon Adams G. Archibald. *Vice-Presidents*, Sir W. Young, Sir E. Kenny, Hon A. G. Jones. *General Sec'y*, J. W. Macdonald, M. D. *Treas.*, James Farquhar. This Society is formed to promote voluntary efforts for preventing the outbreak and spread of infectious diseases. It aims also at the diffusion of sanitary knowledge bearing on the physical and moral welfare of the people.

NOVA SCOTIA SOCIETY FOR THE PREVENTION OF CRUELTY TO ANIMALS.—*President*, M. H. Richey, M.P. *Chairman Executive Committee*, C. W. Anderson. *Secretary*, John Naylor, Brenton Street. Annual subscription \$1, life members \$20, children 25 cents. The object of the Society is to prevent cruelty to animals, to educate public opinion on the subject, to punish the perpetrators of wanton cruelty, and diffuse a knowledge of the best methods of treating animals. Conductors on the railways are authorized to act as agents of the Society.

ORDER OF PATRONS OF HUSBANDRY.

"Esto Perpetua."

The idea of The Order of the Patrons of Husbandry originated with O. H. Kelly, a clerk in the Department of Agriculture at Washington, D. C. The first Grange was organized at Washington, D. C., on Dec. 4th, 1867.

The Dominion Grange was organized June 2, 1874, with 24 Subordinate Granges. There are now 792 Sub. Granges in working order under its jurisdiction. Receipts for fiscal year ending Feb., 1883, \$1651.76; balance on hand \$1795.37. Disbursements \$1737.34.

Organization of the Order.

DOMINION GRANGE.—Seventh degree, Ceres (Faith). Composed of delegates from Provincial Granges.

PROVINCIAL GRANGES.—Sixth degree, Flora (Charity). Composed of delegates from Division Granges.

DIVISION GRANGES.—Jurisdiction over Counties. Fifth degree, Pomona (Hope). Composed of Masters of and delegates from Subordinate Granges.

SUBORDINATE GRANGES.—First degree, Laborer and Maid. Second degree, Cultivator and Shepherdess. Third degree, Harvester and Gleaner. Fourth degree, Husbandman and Matron.

The Order aims to advance the interests of Agriculture and Agriculturists, and improve and as far as possible perfect the social, moral and business condition and relations of its members.

Business Officers of Dominion Grange.

Jabel Robinson, Master, Middlemarch, Ont.; Luther Cheyene, Secretary, Brampton, Ont.; Executive Committee, Henry Glendenning, Manilla, Ont., Robert Currie, Wingham, Ont.

AWARDS—Dominion Exhibition, held at Halifax, 1881, (no prizes offered), SPECIAL DIPLOMA. Dominion Exhibition, held at St. John, N. B., 1883, SILVER MEDAL AND BRONZE MEDAL.

Our Fertilizers are now in use throughout Nova Scotia, New Brunswick, P. E. Island and Nfld., and have an established reputation.

They are prepared on well established principles of chemistry, subjected to a thorough test by Prof. Lawson, and are not to be confounded with the many cheap but worthless mixtures offered to the farmer.

Every pound of our goods added to the soil enriches it.

MASTERS AND MATES.

Regulations Respecting Coasters, Steamtugs, etc.—Qualifications Necessary for Licenses—Who are exempt.

At last session of the House of Commons an act was passed rendering it necessary that masters and mates of vessels employed in the navigation of inland waters and on coasting voyages should hold certificates of competency. For the benefit of those interested we give the following information as to the requirements of the law, who it effects and who are exempt from its operation.

Examinations shall be held for persons residing in Canada for at least three years, who intend to become masters or mates (meaning first or only mate) of ships trading on the inland waters of Canada or coasting voyages, (including a voyage between Canada and Newfoundland or the United States) or who wish to procure certificates of competency or certificates of service as masters or mates of such ships. Persons serving in ships registered in Canada and British subjects serving in foreign ships in like trade shall be deemed to be domiciled in Canada while so serving.

Applicants for examination shall pay, previous to such examination, a fee of eight dollars for a master's certificate of competency and four dollars for a mate's certificate. In the event of failure on the first examination the applicant shall be entitled to a second examination without additional fee; but, in the event of a second failure, he shall pay the same fee for the third and every subsequent examination as he paid for the first. Having passed the examination the applicant shall be entitled to a *certificate of competency*.

Certificates of service in vessels employed in coasting or inland waters navigation, differing in form from the above mentioned certificates of competency, may be granted as follows:—

1. Every person who, before the first of January 1883, served as master in a ship trading on the inland waters of Canada, or on coasting voyages, or being a British subject served in foreign vessels in like trade, and who has produced satisfactory evidence at such examination of his sobriety, experience, ability and general good conduct aboard ship shall be entitled to a certificate of service as master for ships trading on the inland waters of Canada, or on coasting voyages, on payment of a fee of four dollars.

2. Mates, (first or only mate) having giving evidence of service experience, &c., as aforesaid, shall be entitled to certificates of service on payment of a fee of two dollars.

After the first of January, 1884, no vessel over 100 tons registered tonnage, nor steam ship registered in Canada, shall go from any port or place in Canada, on a voyage to any other part of Canada, or Newfoundland or United States, or be licensed or allowed to ply on any Canadian water unless the master thereof has obtained and possesses a valid certificate of competency or service as above provided, or valid certificate of competency or service as master of sea going ships from the Minister of Marine and Fisheries of Canada, or from the Board of Trade in the United Kingdom, or a certificate granted in any British possession and declared by her Majesty's Council, published in the *London Gazette*, under the Merchants Shipping Act of 1869, or by any act of Parliament

of the United Kingdom, containing such provisions, to be of the same force as a certificate of competency.

Nor shall any ship registered in Canada and over 200 tons register, nor any steamship so registered and allowed by law to carry more than forty passengers, go from any port or place in Canada, to any other port or place as above mentioned, unless such ship carries also a mate who has obtained a valid certificate of competency or service, granted by some such authority as aforesaid.

The penalty for engaging to serve as master or mate of any ship, the master or mate whereof is by this act required to have certificate, or going on a voyage as above described, without being at the time entitled to and in possession of a certificate; or any person who employs any person as master or mate of any such ship on any such voyage, without first ascertaining that he is at the time entitled to and in possession of the required certificate, shall for each offence incur a penalty of \$100.

After January, 1st, 1884, the master of every ship required to have a license under this act, must produce the same to every officer of the Customs in Canada to whom he applies for a clearance, or for a *transire* coastwise, or for a license for the season in respect of such ship; and if such ship is also required to carry a mate with certificate, the master shall at the same time produce such mate's certificate.

No officer of the Customs shall clear any such ship, or grant a *transire* coastwise, or license, without the required certificate or certificates being produced; and if any master of any ship for which such clearance, *transire*, or license is required, attempts to sail after the date mentioned, without the requirements of this section (See 8) being complied with, he shall incur a penalty of \$100 for each offence.

The master of any *steam tug* or *other steamer*, required to have a certificated master, but so employed as not to require such clearance, as aforesaid, shall whenever required by any officer of the Customs, produce his certificate as master, and for any refusal or neglect to do so shall incur a penalty of \$100; and if any *steam tug* or *other steamer* required by this act to have a certificated master, plies on Canadian waters without having such certificated master on board and in charge, the owner thereof shall incur a penalty of \$100 for every day on which such offence is committed.

Provision is made for obtaining a copy or duplicate certificate, on proof being given to the satisfaction of the Minister of Marine and Fisheries that the original is lost. A fee amounting to one half the cost for the original shall be paid for such duplicate.

Certificates may be cancelled or suspended upon investigation in cases of incompetency, want of care, or other misconduct; or if it is shown that such certificate was granted on false or erroneous information.

Copies of this act have been lodged in all the principal custom houses in the Dominion, with the names of the various ports where Boards of Examiners have been appointed, together with a copy of the rules made by the Governor-in-Council for the guidance of such examiners.

The following are the qualifications necessary for certificates of competency for masters and mates employed in the coast-trade between Quebec and any of the lower ports; or in the coasting trade between Canada and Newfoundland, or between Canada and any port in the United States, or in the coasting trade of British Columbia:

1. All candidates must pass the examination in colours.

2. A *Mate* must be 19 years of age, and have served at least two years at sea.

3. *In Navigation*.—He must write legibly, and be able to work a day's work, find the latitude and longitude by inspection, find his latitude by a meridian altitude of the sun, must be able to work a case in parallel sailing, and find the course and distance from one position to another by Mercator's method. He must understand the use of the quadrant, be able to take a bearing by compass, and determine his position by cross-bearings on the chart. He must be able to shape a course, and determine the distance run from any given departure.

4. *In seamanship*—He must possess a thorough knowledge of the "Rule of the Road," as regards both steamers and sailing vessels, their regulation lights, fog and sound signals; he must know the signals to be made if in distress, he must understand both the lead and the log, knotting and splicing, rigging, and stowing a cargo. He will be examined in seamanship generally, either for "square rig," "fore and aft" or "steamer," as the case may be. If in the latter he must have a knowledge of the fittings for fire purposes, the bulk-head sluices, if any, and the "engine room telegraph," the securing and lowering of "life boats" and "life rafts." The examiner will ask any other questions he may think fit relating to the duties of a mate.

5. A *Master* must be 21 years of age, and have been at sea at least three years, one of which he must have been as mate.

6. *In navigation*.—In addition to the qualification for a mate, he will have to explain how he would shape a course to counteract the effect of a given current, and find the distance made good towards a given point in a certain time.

7. *In seamanship*.—In addition to the qualification for a mate, he must know the principal lights upon the coast; he will be required to explain how he would lay out an anchor in case of stranding, and be able to rig a temporary rudder should the steering apparatus become disabled. He will be questioned as to his knowledge of Protests, Invoices, Charter Party, Bottomry Bonds, and Bills of Lading. The examiner will ask him any further questions he may think fit relating to the duties of a master.

Then follow the special regulations for navigators of inland waters, and the following miscellaneous regulations applicable to coasters and inland navigators, alike:

23. Testimonials of character and of sobriety, experience, ability and good conduct on board ship, will be required of all applicants, and without producing them no person will be examined. As such testimonial will have to be closely examined by the examiners, for verification, before any certificates can be granted, candidates are to lodge them as early as possible. The testimonials of servitude of foreigners and British seamen serving in foreign vessels, must be confirmed either by the Consul of the country to which the ship in which the candidate served belonged, or by some other official authority of that country, or by the testimony of some credible person on the spot, having personal knowledge of the facts required to be established. Upon application to one of the examiners, candidates will be supplied with a form, which they will be required to fill up and lodge with their testimonials in the hand of the examiner.

24. Candidates are required to appear at the examination room punctually at the time appointed.

25. Candidates are prohibited from bringing into the examination

room books or paper of any kind whatever. The slightest infringement of this regulation will subject the offender to all the penalties of a failure.

26. In the event of any candidate being detected in defacing, blotting, writing in or otherwise injuring any book or books belonging to the Board, the papers of such candidates will be detained until the book or books so defaced be replaced by him. He will not, however, be at liberty to remove the damaged book, which will still remain the property of the Board.

27. In the event of any candidate being discovered copying from another, or affording any assistance or giving any information to another, or communicating in any way with another, during the time of examination, he will subject himself to a failure and its consequences.

28. No candidate will be allowed to work out his problems on a slate or on waste paper.

29. No candidate will be permitted to leave the room until he has given up the paper on which he is engaged.

30. Candidates will be allowed to work out the various problems by the method and tables they have been accustomed to use, and will be allowed six hours to perform the work. At the expiration of six hours they will, if they have not finished, be declared to have failed, unless the Board of Examiners see fit to lengthen the period in any special case. If, however, the period is lengthened in any case, the special circumstances of that case and the reasons for lengthening the period must be reported to the Minister of Marine and Fisheries by the Examiners at the time they send in the report.

31. The correction by inspection, from tables given in many works on navigation, will not be allowed.

32. Candidates are expected to bring their answers to all problems within, or not to exceed, a margin of one mile of position from a correct result.

33. In finding the longitude by chronometer, the logarithms used in finding the hour angle should be taken out for seconds of arc.

34. In all other problems the logarithms, to the nearest minute will be sufficiently correct for Mates. From Masters a degree of precision will be required, both in the work and in the results, beyond what is demanded from mates.

35. In every case where problems are required to be worked out, examination for master is to commence with the problems for mate.

36.—In all cases of failure the candidate must be re-examined *de novo*. If a candidate fails he will not be re-examined until after a lapse of six months' service afloat, on the inland waters or sea coast, as the case may be, to give him time to gain experience.

37. As the examinations of Masters and Mates are made compulsory, the qualifications have been kept as low as possible, but it is distinctly to be understood that the Minister of Marine and Fisheries may raise the standard from time to time if deemed advisable.

EXEMPTIONS, ETC.

It is especially provided that the foregoing regulations as to masters and mates shall not apply to *pleasure yachts* not carrying passengers or goods for hire, or ships *employed solely in fishing*, or barges, or other vessels having neither masts, sails nor rigging, and not being steamships.

The word "steamship" or "steamer" includes any ship impelled wholly or in part by steam or other motive power than sails or oars; the word "voyage" includes passage or trip.
