© 1998

Technical and Bibliographic Notes / Notes techniques et bibliographiques

The institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming are checked below.

- Coloured covers / Couverture de couleur
- Covers damaged / Couverture endommagée
- Covers restored and/or laminated / Couverture restaurée et/ou pelliculée
- Cover title missing / Le titre de couverture manque
- Coloured maps / Cartes géographiques en couleur
- Coloured ink (i.e. other than blue or black) / Encre de couleur (i.e. autre que bleue ou noire)
- Coloured plates and/or illustrations / Planches et/ou illustrations en couleur
- Bound with other material / Relié avec d'autres documents
- Only edition available / Seule édition disponible
- Tight binding may cause shadows or distortion along interior margin / La reliure serrée peut causer de l'ombre ou de la distorsion le long de la marge intérieure.
- Blank leaves added during restorations may appear within the text. Whenever possible, these have been omitted from filming / Il se peut que certaines pages blanches ajoutées lors d'une restauration apparaissent dans le texte, mais, lorsque cela était possible, ces pages n'ont pas été filmées.
- Additional comments / Commentaires supplémentaires:

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

- Coloured pages / Pages de couleur
- Pages damaged / Pages endommagées
- Pages restored and/or laminated / Pages restaurées et/ou pelliculées
- Pages discoloured, stained or foxed / Pages décolorées, tachetées ou piquées
- Pages detached / Pages détachées
- Showthrough / Transparence
- Quality of print varies / Qualité inégale de l'impression
- Includes supplementary material / Comprend du matériel supplémentaire
- Pages wholly or partially obscured by errata slips, tissues, etc., have been refilmed to ensure the best possible image / Les pages totalement ou partiellement obscurcies par un feuillet d'errata, une pelure, etc., ont été filmées à nouveau de façon à obtenir la meilleure image possible.
- Opposing pages with varying colouration or discolourations are filmed twice to ensure the best possible image / Les pages s'opposant ayant des colorations variables ou des décolorations sont filmées deux fois afin d'obtenir la meilleure image possible.

This item is filmed at the reduction ratio checked below /
Ce document est filmé au taux de réduction indiqué ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

University of Alberta
Edmonton

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol \rightarrow (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

University of Alberta
Edmonton

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole \rightarrow signifie "A SUIVRE", le symbole ∇ signifie "FIN".

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

PREFACE

The importance of accuracy in calculating Tax Rates, Debenture Payments, and Sinking Fund Investments always appeals to the public officer.

The Author's long experience has suggested the compilation of the tables herein, with the hope that they may be of assistance to such officers and others having occasion to use them, in arriving at accurate results in the shortest possible time.

Compound Interest Table.—\$1.00 per annum, deposited at end of year. This table gives the sum to which One Dollar per annum, paid at the end of each year, will increase at compound interest, in any number of years up to forty, at 3, 3½, 4, 4½, and 5 per cent per annum.

To ascertain the amount which should be in a sinking fund at any given time multiply the annual deposit, as shown by the Sinking Fund Table, by the amount which \$1.00 earns in the time required, at the rate per cent. as found in the Sinking Fund Investment Table.

TABLE OF DAYS

To find the number of
Days from any date in one month to corresponding
date in another month

FROM TO	JAN.	FEB.	MAR.	APR.	MAY	JUNE	JULY	AUG.	SEPT.	OCT.	NOV.	DEC.
January ...	365	334	306	275	245	214	184	153	122	92	61	31

November	304	273	245	214	184	153	123	92	61	31	365	335
December	334	303	275	244	214	183	153	122	91	61	30	365

If a leap year and the 29th of February is between the dates for which the number of days are required, add 1 day to the days found by above.

RULE—Find where both months, reading down and across, meet; these figures will be the days from first date given to corresponding date in the month required, then add or subtract as shown in illustrations.

Illustration—How many days between January 15th and July 4th?

From January 15th to July 15th	-	-	181 days
“ July 4th to 15th, deduct	-	-	11

170 days

Or from January 4th to July 4th	-	-	181 days
“ “ 4th to 15th, deduct	-	-	11 days

170 days

If leap year, add	-	-	-	-	-	-	1 day
-------------------	---	---	---	---	---	---	-------

171 days

How many days from July 4th, in one year, to October 7th in next year?

From July 4th to July 4th	-	-	-	365 days
“ “ 4th to October 4th	-	-	-	92
“ October 4th to October 11th	-	-	-	7

464 days

Tenders for Debentures are generally for the amount of the issue and the interest that accrues between the date of issue and the date of delivery to the purchaser.

The above table is useful to ascertain the interest that has accrued during any period from one day to one year. (For example, an offer for a \$10,000 four per cent. debenture issue is par and accrued interest, and twenty-nine days intervene between the date of issue and delivery, the accrued interest would amount to \$32.22.)

(These tables are figured on the basis of 30 days per month, or 360 days per annum.)

COMPOUND INTEREST TABLE

Compound Interest Table, One Dollar Principal.—The sum to which One Dollar principal will increase, at compound interest in any number of years, not exceeding 40, at 3, 3½, 4, 4½, and 5 per cent. per annum.

To find the sum to which a given amount will increase at compound interest, multiply the rates per cent. and any number of years expressed in the above.

Multiply the given amount by the sum to which One dollar will increase at the rate and for the number of years required, marking off as many decimals from the product as there are decimals in the multiplier and multiplicand.

For ascertaining the value of One Dollar due at the end of any period of years from one to forty.
Useful for valuing debentures issued without interest coupons.

INSTALMENT BOND VALUES

The following tables are for the purpose of valuing debentures (bearing yearly interest), the principal of which is repayable in annual instalments. (For example, the value of a four per cent. instalment bond, principal and interest payable in ten equal annual instalments, to return three per cent., is \$105.17.)

These tables are also useful to ascertain amount offered for debentures, when tenders are at a rate that is either above or below par. (For example, an offer for a \$10,000 issue of four per cent. instalment debentures, due in ten years, at a rate to yield the purchaser four and one-eighth per cent., would be 99.38, or \$9938.)
