LIBERALS NOW ONE SEAT AHEAD

Only One Unionist Gain in Tuesday's Polling, Against Three Liberal and Two Labor—Rt. Hon. John Burns More Than Doubles His Majority.

LONDON, Dec. 6.—A situation has been developed almost phenomenal in the closeness of the race between the government coalition parties and the Unionists. The pendulum swung slightly toward the government today, and the result of three days' voting, in which 299 seats have been gained, gives the coalition one more member than they had in the last Parliament from the same constituencies. Up to last night the Unionists had a clear gain of five.

The returns to-night showed that the Unionists had regained St. Helens from the Laborites. This borough, which the exception of last election, had been Unionist since 1906. The Liberals gained Southwark (West), Burnley and Coventry, and the Laborites gained Woolwich and Whitehaven, all from the Unionists, while this morning's returns from Sunderland showed that the Liberal candidate, Greenwood, and the Laborite, Goldstone, had replaced the two Unionists there.

The election of Hamar Greenwood is especially popular. This Canadian's defeat in York last January was regarded as a severe loss to the party. Now he upsets a Unionist majority in Sunderland of 41 and romps in 1909.

Burns Increases His Majority. The Liberalism announced their heavy loss on Battersea, but John Burns, president of the local government, was none the less elected, bringing up his majority from 355 in the last election, to 1222. The Socialists, Shaw, whom Mr. Burns' enemies among the workmen put up, in the election that he would divide the votes, polled a mere handful. John Burns dashed around the constituency all day in an automobile. Sir John Harrison, the Liberal candidate, and his wife, followed suit in another. Mr. Burns appealed to his friends: "Don't be taken in by the blandishments of fine ladies, who visit the mean streets only when they are something."

Wedded to Their Parties. An impressive lesson of the campaign is how strongly British voters are wedded to the parties, how slow they are to break away, the parties change their platforms radically. The newspapers appear exercised over their surprisingly small influence. Almost all the most important among them, and those with the largest circulation, championed the Unionists' cause, yet they were unable to make material inroads in the Liberal and Labor lines.

The betting on the stock exchange before election was that the coalition majority would drop to 65. As the elections progressed the betting favored 90, then 95. It now concedes that the government will have 100 majority.

TO CELEBRATE POWER GLORY

Aldermen Decide That Ceremonies Will Not Be Complete Without a Banquet.

It is practically certain that the celebration of the coming of hydro-electric power to Toronto will be held on the night of Dec. 23, the members of the civic legislation and reception committee unanimously agreeing yesterday to the date. The committee decided in favor of a banquet to precede the public ceremonies.

ARCHBISHOP LANGEVIN. Prominent R. C. churchman, at present seriously ill in Montreal.

HE SAYS CONSERVATIVES ARE WITH NATIONALISTS

H. M. Mowat Gets After the Local Members of Parliament—Ald. Phelan for South Toronto.

A sharp attack on the alleged alliance between Toronto Conservative leaders and the Nationalists was made by H. M. Mowat, K.C., president of the Ontario Reform Association, in addressing the annual meeting of the East Toronto Liberal Association last night. The gathering was large and prophetic of a victory in the riding at the next election were received with enthusiasm.

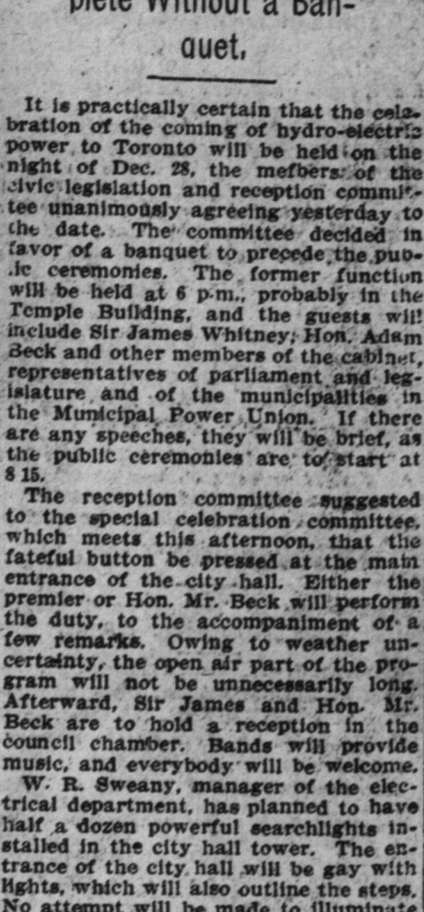

Mr. Mowat advocated a policy of actively encouraging young men recently arrived in Canada to join the Liberal party, to offset the "blandishments and over-supper" of the other party. Conservatives were always imagining other countries were trying to bully them and wanted to be armed to the teeth, while Liberals took things much more quietly.

The Conservative party in Canada was essentially the same as that in Britain, standing for private interest, while the Liberals fought against the improper acquisition of wealth. There was to-day being fabricated in Toronto a most disgraceful intrigue by self-styled Conservative leaders, being an attempt to weaken Sir Wilfrid Laurier, by joining with men of another province while pretending to denounce their tactics. It was an open secret that some Conservatives had repudiated such an attempt. Mayor Geary, who knew how to size up a political situation, said that he would have none of it, and Editor J. S. Wilson might make his little kick in his new paper, but they, and the president of the Borden Club, would respond to the party last of Messrs. Bristol, Foster and Macdonell. Mr. Bristol had been so incensed by the mayor's attitude that he had said, "What's Geary got to do with it? Who's member for Centre Toronto anyway?"

"Sir Wilfrid Laurier may bend for a time to the breeze, but he will not break, because his Liberal principles are too deeply rooted to be affected by any spasmodic, temporary burst of political hatred," said Mr. Mowat, who charged that on his recent visit to Toronto, Armand Lavigne had been privately made an associate of Conservative leaders, so that he would be made to feel that it was to the Conservatives the Nationalists were to look.

W. J. O'Reilly, secretary of the Toronto Reform Association, blamed the organization for the Liberal defeats in Centre and North Toronto, the project to take advantage of the registration for the provincial lists having been fatal. He thought that either by President Allan or Ald. Phelan would be a suitable candidate in East Toronto, but the suggestion had been made to him the Ald. Phelan should put great stress on their idea that tariff reform would prevent the growing competition from American machines.

LANGEVIN DID NOT BAN ANY OF FRENCH PAPERS

He Did, However, Recommend Le Devoir and L'Action Sociale—For Spread of Catholicism.

OTTAWA, Dec. 6.—(Special.)—The World has been favored to-night by a French-Canadian member of parliament with what purports to be translation of the episcopal letter of Archbishop Langevin, which has recently been interpreted to place four leading French daily newspapers under the ban, and create sympathy for them on that account.

Strange as it may seem, the original letter was dated at St. Boniface on Jan. 23 last. It commends to the faithful Father Meier Blas as a missionary of the Catholic press, who is "instructed by his superiors and by us very especially" to place "Les Cloches" and "Central Catholic" in Catholic homes. It continues: "It would be desirable that one of the two large daily papers of Quebec and Montreal, 'L'Action Sociale' and 'Le Devoir' should be introduced into our truly Catholic families."

We bless all of those who are willing to make a small sacrifice for the spreading of Catholic ideas in our homes. We insure ourselves against fire; we must also insure ourselves against falsehood, and the disastrous consequences thereof. The epistle makes no reference whatever to other papers which the faithful are forbidden to read.

GOVERNMENT HOPES FOR TO-DAY'S POLLINGS

Looks To Win Bow, Bromley, Mile End, and Probably Radnorshire.

LONDON, Dec. 6.—(C.A.P.C.)—Tomorrow there will be less and interesting fights. The Liberals hope to win Bow and Bromley, where L. S. Amery is reputed to have been talking "above people's heads" this week, and probably Radnorshire, while the Conservatives are making strenuous efforts to capture home county divisions held by small majorities.

The Liberal press, commencing on the "wonderful staunchness" of the electorate, voting so steadily the third time for the government, declares that it is evidently the fixed intention of the majority of the nation to have nothing to do with tariff reform and not to submit to the Tories.

There are rumors of much heart-burning among tariff reformers at Balfour's sidestepping the great plank of the Conservative platform. They are reported to be wondering how they will stand after the election, pledged as they are to the referendum. Certainly Joseph Chamberlain has been very silent. He has sent no telegrams to Conservative candidates.

The victories in Sunderland and Woolwich are special causes for Liberal and Labor congratulation, while Balfour's retention of Deptford is also regarded as a triumph in view of the efforts of Coats to win the seat.

Balfour, writing to William Ascroft, candidate at Plymouth, regarding the vote, says each voter will have the right to give one vote, no more. There will be no plural voting, and the gross inequalities due to the unequal number of the constituencies will be avoided.

There is a rumor that Hall, the recently elected member for Dulwich, is in favor of the defeated tariff reformer.

The Telegraph says home rule is now bound to become the dominant issue. On home rule the Liberal party would not be able to force a referendum. In the face of that certainty the members of the coalition may still affect to believe that their haris are unshakably in their boots. The political result from the coalition viewpoint is bound to be nil.

The Standard declares that if the Unionists return to Westminster no stronger than when they went into the general election, they would be minded to submit to ministerial dictation.

Admitting disappointment at the results, The Times says: "The case would be different if the government had not so carefully suppressed all reference to their after-program, to which the parliament bill is an introduction."

PUBLIC SCHOOL TEACHER TAUGHT THE CATECHISM

In Important Religious Instruction Case.

OTTAWA, Dec. 6.—Judge Teetzel rendered judgment in case to-day in a dispute over religious instruction in the public school of south Leppin. It was Morris Shaver who, with witness, gave evidence that, previous to April 21 last, the public school was closed and closed with Roman Catholic prayers. On Friday afternoon from 3.30 to 5, the Roman Catholic pupils were taught catechism, and the Protestant children were given secular studies.

On April 21, a resolution was passed by the school board preventing religious instruction. On July 3, a resolution was passed allowing the teaching of the catechism one-half hour each day. This was not acted upon, for on Aug. 2, a resolution was passed that the school should be closed every afternoon at 3.30 o'clock, and the Protestant children were allowed to go home. The teacher then taught the Roman Catholic children religious instruction from 3.30 to 4 o'clock.

Senator Beaudin, for the defendants, argued that the board was acting entirely within its rights. It was giving the required five hours a day secular instruction, and the teacher, if he chose, could teach religious instruction in the school after school was dismissed on any day, so long as no other religious instruction was given during the day, to teach the children of his faith.

F. P. Proctor argued that the teacher could not come under the category of religious instruction. He could not teach a secular teacher and religious instructor under the act. If it were otherwise, then any denomination, in any school in the country, could, if it were able to secure two of the three positions on the trustee board, instruct the teacher to give religious teaching in that denomination's faith from 3.30 to 4 o'clock. Any religious instruction to children of his faith once a week, but if one religious instructor could be allowed, as well be extended to all lengths.

MAY CHOOSE MAYOR HAHN

Said to be Favored for Labor Bureau Secretaryship.

I. Moor circles last night, the name of Mayor Charles Hahn of Berlin was mentioned as the probable government of the vacant secretaryship of the Ontario Bureau of Labor. Mr. Hahn is one of the most prominent labor men in Canada to-day, having been strongly urged on two occasions to allow his name to stand for the presidency of the Dominion Trades Congress, with no doubtful chances for success. He is a staunch and active Conservative and was a hard fighter for the Whitney-Beck power policy from the first. He is one of the most vigorous advocates of public ownership in Canada to-day, and Berlin has advanced far in the direction in the matter of a municipally-owned street railway, successfully operated, and city-owned light and power facilities.

John Maclean of London is also mentioned as a favored candidate. He is an ex-member of the London School Board and well known in Labor circles, and it is said would make a splendid official.

ASKED MORE TIME FOR PROBING ACCOUNTS

Lennox Motion Was Rejected by Small Majority of 25—Dr. Reid Links Laurier With Rascality—New International Commission on the Waterways.

OTTAWA, Dec. 6.—(Special.)—The first straight party division of the season took place to-day, on the acceptance of Sir Wilfrid Laurier's recommendation that to be moved by Haughton Lennox, respecting the submission of two years' accounts to the public accounts committee. The division was Liberals 58, Conservatives 72, giving the government a majority of 25, which is the smallest on record. A. Verville (Maisonville), and F. D. Mays (Jacques Cartier) were absent from the chamber, and Arthur Gilbert (Drummond and Arthabaska) voted with the opposition.

The evening sitting was occupied with a discussion in committee on the resolution appropriating money for the expenses of the new international joint high commission, and a lengthy discussion took place on the question of the rights of the commission over those held by parliament in respect of works on navigable boundary waters. Hon. William Pugsley tried to explain that the treaty was a further safeguard of the terms involved in the Ashburton treaty.

The opposition wanted more tangible evidence of that, and the whole discussion became involved in St. Lawrence River geography. The resolution finally passed, and the bill was introduced.

Take Two Years at Once. Haughton Lennox (South) since precipitated a long discussion by moving in amendment to Sir Wilfrid Laurier's formal motion to submit the public accounts and auditor-general's report to the public accounts committee for the past fiscal year, that, instead, these documents for two years past should go before the committee. Mr. Lennox explained that the public works are undertaken, which do not progress sufficiently the first year to warrant investigation, and these accounts are closed to the committee, "then reported to the public accounts committee for the past fiscal year, that, instead, these documents for two years past should go before the committee. ARLSCOURT HOMES BURNED

Man, House Building at Night, Fell With Lamp.

Building his house by lamplight last night at 55 Innes avenue, Earlscourt, Tnos. Ford, 15 Gilbert avenue, succeeded in destroying his fire. The furniture which he had stored in it, and also in destroying the house of his neighbor-to-be, William Sheppard, 57 Innes avenue. The total damage was \$700, and insurance \$700.

Ford has been working at night to run the complete new house, a two-story frame structure. He was nailing laths to the roof last night at 7:30 standing on an improved scaffold, upon which he had a lamp. A board gave way and he and the lamp fell. He got up, but the lamp exploded and set fire to the house.

The place is above the area served by hydrants, and before the firemen could arrive from Kensington street and Dundas street stations, Ford's house was in ruins and the fire had spread to the two-story frame structure occupied by William Sheppard, his wife and five children. This, too, was totally destroyed, together with nearly all the furniture. When the firemen arrived they devoted their energies to preventing the neighborhood houses from taking fire, and were kept busy for several hours. The fire was caused by the fact that the well-taps were frozen solid, and no water could be reached for the engine.

Ford's loss is \$300 on the house and \$400 upon furniture, which was stored in it. Against the house he carried \$500, with insurance of \$200, and the loss on the furniture \$200, fully insured. Sheppard and his family were sheltered by their neighbors over night.

Sheppard had engine in Earlscourt, but owing to the well-taps being frozen over it could not be used.

NORTH TORONTO.

Council Sends All the Bylaws on to the People.

NORTH TORONTO, Dec. 6.—(Special.)—The time of council was largely taken up to-night with the consideration of the sewerage bylaw, the submission of which to the people was definitely decided upon. Councillor Howe took the ground in committee that it would be impossible to pass the measure in council, as they could not get the necessary two-thirds vote for a local frontage tax, but they did not want to block the project, and were willing to let it go to the people in the way proposed. Councillor Reed said the people would kill it and he would help them. The sewerage bylaw is for \$100,000 on general and \$104,000 on local improvement rating. The bylaw has received its third reading and a referendum will be taken as to whether the people will or will not authorize the council to get special legislation to put it in force.

Council received the annexation petition and a vote will be taken. The petition recommended that the Tupper award be not taken up.

In the application of the Inter-Union Light and Power Co. to the Corporation to light the street by electric light, the council decided on the mayor's suggestion to allow only of a demonstration to be held, and not with respect to house lighting.

A referendum will be submitted to the hydro-electric for the extension of the street lighting and house lighting at an estimated cost of \$20,000. There deputy returning officers were appointed: Wm. Pollock, W. C. Letcher, H. Robinson, J. Hicks, R. Boulden and J. M. Letcher.

Masonic Temple Is Dedicated and Brethren Have Fine Time.

WEST TORONTO, Dec. 6.—(Special.)—Dedication services were held in the West Toronto Masonic Temple, Annattestreet, last night, under the auspices of Stanley Lodge, Richard Grunley, secretary, presiding. The temple was built a year ago for Stanley, Victoria Lodge, A.E. & A.M., and Shekinah Chapter, R.A.M. The dedication was conducted by Grand Master Judge McWatt of Barria, assisted by the following: Aubrey Smith, deputy grandmaster; W. D. McPherson, M.L. James Haywood, James A. White, A. B. Rice, E. M. Carlson, E. J. Duncan, H. T. Smith, T. McQuillen, E. J. Walker, A. McComb, Dr. Glendennan, R. E. Potts. One of the features of the evening was the paying over by Stanley Lodge of the balance of quota of semi-centennial fund for the Grand Lodge of Canada, amounting to \$270. The meeting wound up with a concert and banquet.

Remember Thursday, Dec. 8. D. Currier's unreserved farm stock sale southeast of Newmarket. Several good horses including a splendid young hearse horse, 50 head of cattle, including 15 good cows; also 50 and 60 ewe sheep, grain, alfalfa clover, etc. Conveyance will meet intending purchasers from West Richmond Hill on 1 o'clock Metropolitan car.

The Land of Living Men. The author of this work, Ralph Waldo Trine, widely known thru his famous "Life Books" as a progressive thinker, here deals with certain problems of common human life that are of interest to practically every man. These problems are related principally to the great individual loss which the people sustain by allowing others to do the work for them—the loss of untold wealth that now goes annually into the possession of the few who make matters of government their business, and the resulting corruption, mismanagement, waste, and steady undermining of the very foundations of the state. The causes of present conditions are considered, as well as the remedy to be applied. The remedy is completely set forth in a series of practical suggestions, and is aimed to perpetuate these conditions.

While the author does not attempt an exhaustive treatment of the matters discussed, he indicates clearly the methods whereby it will be possible to end this state of things. The remedy is completely set forth in the hands of the people, and it is time that every one became conversant with and took an active interest and part in public affairs, in order to make one's country a real land of living men. CRIPPLED BY RHEUMATISM

Gentleman in Vancouver Owes His Recovery TO "FRUIT-A-TIVES."

Vancouver, B. C., Feb. 1, 1910.

I am well acquainted with a man known to thousands in Vancouver, Victoria and New Westminster, who for nearly a year was practically a cripple from rheumatism. He was so troubled with the disease that he found it difficult to even turn over in bed. His heart appeared so weak that he could hardly get up stairs. Last June he received a sample of "Fruit-a-tives." He used them and dates his recovery from that time. To-day there is no other man in Vancouver enjoying better health. He was building a house this fall and shingled a good part of the roof in a driving rain storm without suffering any bad effects.

John B. Lacy. "Fruit-a-tives" is a positive cure for Rheumatism, Sciatica, Lumbago, Pain in the Back and all Kidney Troubles, because it is the greatest blood-purifying medicine ever discovered.

EVIDENCE DIDN'T AGREE

Eye-Witness of Tragedy and Motorist Differ as to Events.

Coroner J. M. Cotton opened an inquest at the morgue last night into the death of Philip Copeland, the seven-year-old boy killed by a car on the Gerrard street bridge Monday evening.

According to Melvin Wilson, 45 First avenue, you g. Copeland ran out from Blackburn avenue and was endeavoring to cross Gerrard street. He ran behind an eastbound car and immediately fell in front of a westbound car. The boy was caught by the fender and carried a short distance. The car stopped quickly, but not before the boy had rolled under.

The evidence of Motorist Wm. Joseph was almost a direct contradiction. He was just entering on the bridge when he heard a scream. Fearing he had struck some one, he at once reversed and stopped the car within three feet, also he held the hand of the car while traveling at 3 miles an hour. He found the boy crushed under the fore truck of the car that fender, which would have dropped had the boy fallen directly upon it, was not tripped. In his opinion the boy had hit on the fender from the side and fallen thru the six inches space between the upright and horizontal sections of the fender.

The inquest was adjourned until Thursday at 8:30 o'clock.

MRS. GLOVER WORE COMB

Found in Laundry After the Murder of Her Husband.

EAST CAMBRIDGE, Mass., Dec. 6.—One of the biggest surprises of the trial of Hattie Lebiac on the charge of having murdered Clarence F. Glover, came to-day, when Wm. H. McCall, superintendent of the Glover Laundry, testified that the lady's comb found in the laundry the next day after the tragedy was that of Mrs. Lillian M. Glover.

The comb was introduced into the case by the state, and Mrs. Glover testified that it belonged to Hattie Lebiac. McCall swore that he often visited the Glover home, and that he saw the comb in question, or one just like it. He said that it was being worn by a woman when he saw it.

AT WORK IN 3 WEEKS

\$4 Worth of Father Morrissey's "No. 7" Cured Her Inflammatory Rheumatism.

Mrs. Agnes Edgar, of Grand Falls, N.B., had a terrible time with Inflammatory Rheumatism. Anyone who has had this most painful disease will understand her suffering—and her joy when she found Father Morrissey's "No. 7" had cured her. She says: "I took Father Morrissey's Prescription for Inflammatory Rheumatism. I had suffered everything with it, but in three weeks after starting Father Morrissey's Prescription I was able to do my work, and after taking four dollars worth of medicine I was well. I highly recommend it to any sufferer with Rheumatism."

Rheumatism comes from bad kidneys. The poisonous Uric Acid which they should remove stays in the blood, accumulates in joints and muscles and causes agony. Father Morrissey's "No. 7" puts the kidney's right, removes the Uric Acid from the blood and the whole system, and cures the Rheumatism. 50c a box, at your dealers, or from Father Morrissey Medicine Co., Limited, Chatham, N.B.

HAMILTON HAPPENINGS

ORDERED NOT TO JAR THE NEIGHBORHOOD

Nail Factory Kept People Awake at Nights—Says She Was Shocked on Street Car.

HAMILTON, Dec. 6.—(Special.)—The non-jury assizes were wound up this evening by Justice Middleton. In the action of Rymal v. Laidlaw Bale Tire Co., judgment was given for the plaintiff. The action was for an injunction restraining the defendant company from operating its factory in such a manner as to damage the adjoining property, and for damages. The plaintiff, Rymal, along with the residents of several streets, complained that they could not sleep at nights, and that his property was much depreciated in value as the result of the noise and vibration caused by a nail factory, operated by the defendants. The latter also had a large number of witnesses who testified to the contrary. His lordship, in giving judgment, ruled that the company would have to immediately cease operating the plant at night, and gave it a year in which to abolish the nuisance altogether. The company's representatives said that this might mean that they would have to move away from the city, but he said that that made no difference.

The alimony action of Powell v. Powell, was further enlarged for three months. George Lynch-Staunton, K.C., acting for John Powell, the defendant, in the suit, moved to have the case dismissed, as Mrs. Powell had not been on hand for some time, for the purpose of going ahead with her suit for permanent alimony. His lordship, however, gave her three months in which to appear for the trial, and if at the expiration of that time she did not appear, he would dismiss it.

A Case of Shock?

Judge Snyder opened the general sessions of the peace this afternoon. There was a long list of jury and non-jury cases and five criminal cases. After the grand jury retired the action brought by Miss Lillian Vetch against the Hamilton Street Railway Company for \$500 damages for injuries received was gone on with. The plaintiff claimed that she received a shock while riding in a street car on Herkimer-st. on Aug. 7 last, and as a result was laid up for some time. She said she received the shock simultaneously with a flash of flame and the going out of the lights in the car. Dr. Lammie, for the plaintiff, testified that she was burned about the shoulders, and Drs. Ronnie, Edgar and James White swore that she was not burned, but that she had suffered from a case of shingles, which produced symptoms somewhat similar. Walter McCrae of the Toronto Railway Company and J. A. Wenger of the Canadian Westinghouse Company testified that it was utterly impossible for the plaintiff to have received a shock under the circumstances related. The evidence was all in at 6 o'clock, but the case was adjourned until the morning.

The action of Mrs. E. A. Adams of Windsor against J. P. Steedman, executor of the estate of the late J. C. White, for the specific performance of an agreement, was laid over till another court, at the request of the defendants. The plaintiff sues for the return of \$100, according to an agreement entered into when she purchased that amount of mining stock from the deceased.

Shortage of Natural Gas. The works committee to-night discussed the shortage of natural gas and appointed a committee to go into the matter with the company. Ald. Ellis thought the water mains in the centre of the city were not large enough, but City Engineer McCullum said they were large enough for some time, and that, in order to increase the supply of water in that section, it would be necessary to lay new mains from the beach. The application of the young men of Ryerson Church for permission to use a hydrant for the purpose of erecting a rink was refused, as the committee decided that hydrants in future should be used only for fire purposes.

An organization meeting of the women temperance workers of the city for the purpose of working for a reduction in licenses was held in Central Methodist Church this afternoon. George H. Lees, Controller Cooper and Ald. Morris spoke.

Malcolm Murray of Ottawa presided at the opening section to-day of the annual conference of the Masons, Bricklayers and Plasterers of Ontario in the Trades and Labor Hall. This

manent alimony. His lordship, however, gave her three months in which to appear for the trial, and if at the expiration of that time she did not appear, he would dismiss it.

A Case of Shock?

Judge Snyder opened the general sessions of the peace this afternoon. There was a long list of jury and non-jury cases and five criminal cases. After the grand jury retired the action brought by Miss Lillian Vetch against the Hamilton Street Railway Company for \$500 damages for injuries received was gone on with. The plaintiff claimed that she received a shock while riding in a street car on Herkimer-st. on Aug. 7 last, and as a result was laid up for some time. She said she received the shock simultaneously with a flash of flame and the going out of the lights in the car. Dr. Lammie, for the plaintiff, testified that she was burned about the shoulders, and Drs. Ronnie, Edgar and James White swore that she was not burned, but that she had suffered from a case of shingles, which produced symptoms somewhat similar. Walter McCrae of the Toronto Railway Company and J. A. Wenger of the Canadian Westinghouse Company testified that it was utterly impossible for the plaintiff to have received a shock under the circumstances related. The evidence was all in at 6 o'clock, but the case was adjourned until the morning.

The action of Mrs. E. A. Adams of Windsor against J. P. Steedman, executor of the estate of the late J. C. White, for the specific performance of an agreement, was laid over till another court, at the request of the defendants. The plaintiff sues for the return of \$100, according to an agreement entered into when she purchased that amount of mining stock from the deceased.

Shortage of Natural Gas.

The works committee to-night discussed the shortage of natural gas and appointed a committee to go into the matter with the company. Ald. Ellis thought the water mains in the centre of the city were not large enough, but City Engineer McCullum said they were large enough for some time, and that, in order to increase the supply of water in that section, it would be necessary to lay new mains from the beach. The application of the young men of Ryerson Church for permission to use a hydrant for the purpose of erecting a rink was refused, as the committee decided that hydrants in future should be used only for fire purposes.

An organization meeting of the women temperance workers of the city for the purpose of working for a reduction in licenses was held in Central Methodist Church this afternoon. George H. Lees, Controller Cooper and Ald. Morris spoke.

Malcolm Murray of Ottawa presided at the opening section to-day of the annual conference of the Masons, Bricklayers and Plasterers of Ontario in the Trades and Labor Hall. This

afternoon a reception was tendered the delegates by the mayor.

Travelers' Certificates. Commercial travelers' certificates for 1911 can now be had from Free John's room 5, Federal Life Building, of a Loyal Sister.

When Wm. Hussey, a youth, was arraigned in court this morning on a charge of theft, his sister, who had just arrived from Toronto, pleaded for him and Magistrate Jelfe suspended sentence. When the girl reached the city she found the power off and her service paralyzed, and she started on the dock was abandoned every grasped and his sister in his arms and hugged and kissed her, while the tears trickled down his cheeks.

WEDNESDAY MORNING, DEC. 7, 1910.

THE STREET RAILWAY ISSUE.

The World believes that a situation has been reached in connection with the street railway service that can only be cured by the purchase back of the franchise. The citizens complain that the P.-A.-T.-E. system recently put into use is a nuisance and menace when applied to a lot of cars and trailers not adapted to it; they certainly are not getting anything like a service adequate to their needs in the older portions of the city; and little or no service in the newer parts. Nor is there any way by which the cars or the outside radiata can get in or out of the city. The system has fallen down all along the line and this condition of affairs is emboldened in a franchise that has nearly twelve years yet to run.

One prime mistake was made when the franchise was lengthened from 21 to 30 years. Another prime mistake was made when a provision for re-purchase was not put into the contract.

The sufferers are the people—men, women and children. They are suffering an untold amount of misery and inconvenience daily. It is downright physical suffering.

The shareholders are not suffering in any way. They are getting good dividends. But they say they do not wish to spend much money on a franchise that has only twelve years more to run. Or, to put it in another way, they wish to get an extension. This they will never get. The people, now that they have the say, will never vote a public franchise to a private company; they have had their belly full.

It is up to the legislature to give the city power to buy the stock of the company. It is an investment only. If money, which is a thing, is restored, say \$1,500,000 for it, it suffers nothing, nor is the investor pained in any way. But men and women suffer daily, suffer severely, these cold days, whether by delay, by the crowding, by the lack of any service whatever. Some, too, have to pay two fares.

Reasonable legislation permitting the people to recover public service franchises without incurring investments is much needed at this moment. Such legislation is the only way to protect the people of to-day from the improvident acts of a municipal council of more than twenty years ago.

To come back to the prime issue, are the rights of capital to be more account than the rights of living men and women, engaged in the pursuit of livelihood in more than strenuous times?

TONIGHT'S MEETING. If the meeting in Massey Hall to-night is of sufficient weight to inspire confidence in its opinion, a resolution urging the city council to a policy of enforcement of the street railway agreement, or of purchase as soon as practicable, would be much more effectively beneficial than any mere denunciation of the recently adopted regulations.

That is a village attitude which clamors for a return to the methods now being abandoned in all cities of the class Toronto aspires to be classed with. Street car smokers get short shifts in metropolitan cities. The habits of our politicians is evinced by their deference to such elements of social opinion in Toronto. Similarly with respect to the collection of fares. One of the greatest grievances some of the complainants have is that all fares are now collected.

Stupid conductors and stupid passengers have caused friction since street cars were invented, and will continue to do so until the advent of a winged and angelic humanity. Even under the wretched conditions which the street railway company maintains, reasonable conductors and reasonable passengers find the new regulations a source of convenience and accelerated speed.

Belated Repentance. The Globe is very anxious about the shareholders of the London Electric Light Co. The city has offered them a sum which would only net them 22 cents on the dollar, it seems, and the Globe thinks Sir James Whitney ought to interfere on behalf of the oppressed and down-trodden shareholder. Two years ago the oppressed and down-trodden shareholder wanted \$400,000 for his plant and business, and refused to take a penny less. The city had no option but to proceed with the construction of its own system; The London shareholders, encouraged by Toronto Electric Light Co. directors, and certainly not discouraged by the Globe had the idea that hydro-electric power

would never become a market factor, and they were prepared to pinch the ratepayers on that assumption. Hon. Adam Beck and hydro-electric power having made good, the shareholders have climbed down from their \$400,000 elevation and offered to turn over all they have for \$175,000. They could have had a good deal more two years ago, which makes the present appeal for "a reasonable settlement" at this stage rather weak.

The situation should be studied by local holders of electric light stock, for a climb down is due in Toronto quite as much as in London, and the result may be similar.

MUSKOKA HOSPITAL CHRISTMAS STAMPS.

Year by year the attention of the public is directed to the splendid work done by the National Sanitarium Association thru the annual issue of the Muskoka Free Hospital Christmas stamps. It is hoped to sell 2,000,000 of the "Merry Christmas" labels this year, and the public should secure a supply as soon as possible. They are intended to be attached to letters or newspaper packages, not instead of postage stamps, but at the other end of the envelope, for the conveyance of seasonable greetings. They are very neat and pretty, and so may be had in packages of ten for ten cents.

Mr. L. S. Levee still holds his dreadful threat over the shuddering city.

The amiable Dr. Cook has set a fine precedent by casting doubts upon his own discovery of the north pole. Surely the accomplished Commander Peary will not be outdone in magnanimity?

Curious thing the antipathy aroused by successful young men like Winston Churchill, John R. Robinson and Mackenzie King in certain antiquated circles.

If Mr. Fleming succeeds in having Mayor Geary and the city council repeal his regulations, he will be able to rest in statu quo for the remainder of his franchise term, and no one will be able to question his right.

The Telegram is terribly worried over names, forgetful of the Shakespearean line that "a rose by any other name would smell as sweet." Its permanent expert heads of city departments is just one form of government by commission. The question is, who is to appoint them.

We are glad to see The Telegram converted to The World's view of civic government by commission. The Telegram calls it "Government by permanent heads of departments," but we will not quarrel over the name. The principle is in placing the best men to be had in charge of the city's affairs at salaries that lift them above corruption competition, and with sufficient authority to assure their independence of meddling and muddling aldermen. The question is how best to secure the appointment of such men.

The Xmas Stamp.

The boys of St. Andrew's College were among the foremost in the sale of Christmas stamps last year. They intend to be in the lead this year. Stamps are now in their hands. On invitation of Principal Dr. Bruce MacDonald, the Venerable Archdeacon Cody, chairman, and Mr. W. P. Gundy, vice-chairman of the citizens' committee, were given an opportunity a few days since, to address the boys. The keener interest was shown in the "call for help," as presented by these gentlemen. The work has been handed over to the athletic association of the college, and the supply of stamps divided up among the different branches of this association.

Don't forget mass meeting to-night, at 8 o'clock, in Massey Hall, to protest against the pay-as-you-enter plan now in force on the street cars.

TO TELL AMERICA'S WOMEN ABOUT THEIR LAUNDRIES.

Laundrymen's National Association Decides to Conduct Unique Educational Campaign.

CHICAGO, Dec. 6.—(Special.)—The Laundrymen's National Association has concluded to enter upon a decided unique campaign of education. The executive committee, headed by L. H. Fisher of Kansas City, Mo., was authorized to present to the women of America the claims of the modern steam laundry upon their greater patronage, and for the purpose of securing the desired publicity the sum of \$75,000 will be expended.

The Laundrymen's National Association will tell its story to the people of the country thru the leading newspapers.

The preparation of the appeal to the women of the country was placed in the hands of The McManus Company of Detroit, Pittsburgh and Toledo.

Master's Chambers.

Behore Cartwright, K.C., Master. Bowie v. Mazeau—J. A. Macintosh, for defendant. F. Aylesworth, for plaintiff. Motion by defendant to transfer action from the county court of Leeds and Grenville to the district court of Nipissing. Judgment: There does not seem to be any such preponderance of expense on the material to justify a transfer of the action. The cause was at issue on Sept. 29, and notice of trial was given on Nov. 22. This motion should have been made earlier if expected to succeed. As it is must be dismissed. Costs in the cause.

Mansel v. Robertson—J. T. White, for defendant. C. H. Porter, for plaintiff. Motion by defendant for an order for security for costs in a libel action, for defendant. On the evidence it does not seem that the plaintiff has assets readily exible to the amount of \$200, or even \$400. The defendant is entitled to claim the benefit of the statute in this behalf. Motion by plaintiff for judgment in favor of the defendant. Judgment: Security within a month either by bond for \$400, or paying \$200 into court, and in default the action will be dismissed. Proceedings will, of course, be stayed meantime. Costs of motion in cause to defendant.

Belshaw v. Allan Line S. S. Co.—Finlayson (Smith & G.), for defendants. Motion by defendants, on consent, for an order dismissing action without costs. Order made.

Rimouski Fire Insurance Co. v. McLean—R. S. Denison, K.C., for plaintiffs. R. L. Johnston, for defendant. Motion by plaintiffs for judgment under C.R. 603. Motion enlarged to allow of cross-examination on affidavit filed in the cause.

Caldwell v. McGaffin—Langs (W. D. McPherson, K.C.), for plaintiff. Hefner (W. R. Smyth, K.C.), for defendant. Motion by plaintiff for an order allowing him to file report and produce. Order made, without costs. Plaintiff also asked and obtained a final order of foreclosure against a subsequent encumbrancer.

Sterling Bank v. Clark—H. R. Frow.

"SLEEPLESSNESS."

Thousands of people all over this land toss night after night on a sleepless pillow. The eyes do not close in the refreshing slumber that comes to those whose heart and nerves are right.

Some are troubled with weak and smothering spells; others palpitation of the heart; others have their nerves unbridled; but whatever the cause—it comes entirely from a perangement of either the heart or nerves, or both. Milburn's Heart and Nerve Pills offer the blessing of sound, refreshing slumber. They do this by their invigorating effect on the heart and nerves and will tone up the whole system to perfect condition.

Mr. H. Jewel, Kerwick, Ont., writes: "I am glad to have the pleasure of telling you what Milburn's Heart and Nerve Pills did for me. I would have weak spells, seemed to lose my breath, and would have to get up in the night as I could not sleep. I tried many medicines but found nothing good until I used Milburn's Heart and Nerve Pills. I took three boxes and in three days ago since I did so, and I haven't been troubled since."

Milburn's Heart and Nerve Pills are 50c. per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Our Motto: "Every needy consumptive must be cared for."

YOUR THOUGHTS ARE OF CHRISTMAS

Think of the hundred and fifty needy patients in the

Muskoka Free Hospital for Consumptives

who call for your help at this time. Has the Christmas spirit come to you in its true light? If so you will help. The joy of the Christmas season is in giving.

The Big Fire at Weston

has not only placed added and heavy burdens on the trustees at the Toronto Free Hospital for Consumptives. It has added to those at Muskoka. Thirty patients of those who were rendered homeless by this fire were at once sent to Muskoka and in this way the burdens of maintenance are further increased.

Muskoka's Great Needs Should Surely be Remembered in the Christmas Givings of Everyone

Contributions may be sent to W. J. GAGE, Esq., 84 Spadina Ave., or Sec.-Treas., 347 King St. W., Toronto.

Not a single patient has ever been refused admission because unable to pay.

E. S. CLOUSTON, General Manager.

The President's Address.

The President, Mr. R. B. Angus, then moved the adoption of the report, seconded by the Vice-President, Sir Edward Clouston.

In moving the adoption of the report the President said:

"With your permission, Gentlemen, I move the adoption of the report just read."

"On this occasion we recall the fact that at last annual meeting of the Shareholders the President was unable to attend because of illness, which, unfortunately, resulted in his demise on the 2nd of February last. Sir George Drummond occupied a most distinguished position in the business community, and the Shareholders of this Bank may well entertain a grateful appreciation of his services as President and of his work in the Senate, where his intelligence and his efforts were largely devoted to the protection and development of the banking interests of the Dominion.

"To fill the vacancy created by the death of Sir George it was deemed advisable that I should, for a time, occupy the chair; and consequently I was elected to the presidency on the 2nd of July, while the directors were at the same time strengthened by calling the Assistant General Manager, Mr. H. V. Meredith, to a seat at the Board. The expansion of business of this latter arrangement.

"The period under review has been marked by almost unbroken prosperity. The numerous crops harvested during the preceding years had raised the expectations of our farmers and excited the attention of intending immigrants, and although the bright prospects of the present season were somewhat dimmed by the excessive drought of June and July, causing partial failure of the wheat crop in some districts of the West, the actual results were then anticipated. The latest estimate of the harvest from the Western grain fields, by parties well qualified to judge, gives a yield of 85 million bushels of wheat, 125 " " " oats, 25 " " " barley and flax which, under the conditions existing, which would be regarded as fairly satisfactory.

"We are naturally most interested in the outcome of the young and rapidly growing country, for to it belongs the future. Still it may be long before it overtakes the productivity and wealth of the older provinces, which in their undeveloped resources, and the abundant opportunities for expansion and settlement.

"On the first intimation of injury to the growing crops the great host of eastern merchants and manufacturers was somewhat shaken, but the curtailment of business activity which followed was only temporary, and the character of the year gave before more hopeful indications. Business quickly revived and has continued good throughout the year.

"The notable feature may be remarked, that the Western people, farmers and settlers and tradesmen, showed little sign of depression under the circumstances. The turning to more careful tillage of the soil, but could not disturb the prevailing hopefulness and contentment. The agricultural results of the Eastern Provinces of the Do-

while the known expenditures under that head have of late years been unusually large; the fact is as stated, the explanation being that the Directors have been indisposed to burden their Assets with any large item that could not be repaid by the cash on hand; and they have consequently charged directly against revenue the entire expenditure connected with the Building extension, and the purchase of the Bank's premises; these amounts have been considerable, owing to the necessity of opening branch offices in new settlements and enlarging facilities at important centres where business has outgrown the existing accommodation.

"The Directors are, however, of opinion that the call for extraordinary outlays of this nature has almost passed and that such charges will hereafter cease or greatly diminish.

"It is unnecessary that I should attempt to give a specific account of the various industries of the country, but in reference to the more important natural products it may be noted that the mining business has been very good in the east, and unusually active on the Pacific Coast. Exports to the United Kingdom have not been as large as in former years, but have been offset by the greater home demand.

"The wood pulp mills have found a good market for their product, notwithstanding adverse duties in the United States.

"There has been a wholesale falling off in the exports of produce from this port during the past season of the year, owing to the depression of production, and also largely to increased home consumption.

"A marked decline in the exports of live stock, which has been continuing during the last few years, and was probably to be accounted for by the requirements of new and expanding settlements and the increasing population, seems now to be checked. It was natural to suppose that in view of our unequalled facilities for cattle raising the same condition would only be temporary, and it is gratifying to find a change for the better has set in—the shipments, especially from the west, having largely increased.

"A true index to the rapidly increasing trade of the country may be found in the combined imports and exports of the past fiscal year, which amount to the big figure of \$83,211,521, as compared with \$77,283,767, showing an increase of \$12,945,454 over the previous year.

"It is to be noted, however, that the excess of imports over exports is increasing; the Government revenues are Europe are very large, and will doubtless continue so, while expenditures for railway building, the improvement of navigation and for the legitimate needs of growing municipalities are maintained on the present scale, the whole is a stimulating and healthy one, and the dry goods houses report that business during the past year has been exceedingly good, and payments have shown a fair average while failures have been rare. The same remark applies to groceries, iron and hardware trade, leather, boots and shoes, and other branches.

"I am aware these are but running comments, and to give any adequate description of the season's results would call for a review from the Atlantic to the Pacific, and in view of the shortage of crop in the Western Provinces, we have one reassuring view explained this season, namely, that with the newly developed territories, the field is wide open for the future, and it is unlikely to induce similar conditions elsewhere. Even the visitation of the influenza epidemic means uniformity. The weather was so capricious that the injury from that source occurred in widely separated spots, and the result of the harvest, although less than in former years, is immense, considering the small population which has to share its benefits.

"We are, therefore, safe in saying that the country has a whole and undoubtedly experienced a fair degree of prosperity throughout the year, and no doubt need be entertained as to its continued and rapid growth in wealth and population; and it is our duty to realize our best expectations, we must carefully avoid undue inflation. In some districts there has been excessive speculation in town and village properties, but the movement along the lines of languishing, while farm and fruit lands maintain their value or steadily appreciate.

"Money has been very abundant throughout the year, and from a lender's point of view the rates of interest, except for a brief period, have been abnormally low, thus rendering it difficult to employ our surplus funds to advantage in London or New York, where short or call loans are readily available. But this department of the subject will be left to the Assistant Manager, Sir Edward Clouston, who seconds the adoption of the report."

The conclusion of the President's address was greeted with applause by the meeting.

Seconding the Adoption of the Report.

Sir Edward Clouston said:

In my address last year I made the remark that I should be very much disappointed if we did not make a better showing of profits during the year we have just passed through, and though I did not say it, I had in my mind that I might be able to suggest something for our Shareholders in the way of a bonus. Unfortunately, my anticipations were not realized. Our profits show \$28,000,000 less than last year.

The general statement, as you see by the copies you hold in your hands, is a strong one, and exhibits the steady progress the Bank is making. For the first time in our history our circulation exceeds our capital, and we were obliged to make use of the emergency provision authorized by the Government.

Our Deposits have increased \$18,000,000, but this does not fairly show the actual increase in our regular deposits, as last year we had some large special deposits which were withdrawn during the year. Our readily realizable assets, that is our Reserves, are about the same, though they show a slight decrease in percentage to our liabilities. The amount of money employed outside of Canada has been reduced \$4,000,000. Funds have been found—some of which have not given sufficient consideration to the subject for keeping such large balances in other countries, but experience has taught us that it is not only safer for the Bank, but for Canada, that we should hold large reserves which we can draw on in case of necessity without disturbing financial conditions in our own country. The important position of the Bank of Montreal in the financial fabric involves the keeping of large positions of our assets in a form immediately available for conversion into cash. Our

responsibilities in this respect force us to be content with a very low return on the money we lend on Call in London and New York, a return which for long periods during the past year was little better than 2 per cent. at either centre and taxes to come out of that. It is not to be supposed that we would ignore the superior advantages of a 5 per cent. call rate in London, but the money market for \$20,000,000 here, with the certainty that we could get it back on three hours' notice any day, we wanted it.

Of the increase in our Investments \$5,000,000 is accounted for by the purchase of a Municipal issue which has been largely disposed of since the close of the Statement.

Our four and advances have increased \$21,000,000, and call for no special comment, except that they evidence that we are doing our share in assisting the development of our own country.

The present Session of Parliament will see introduced legislation of importance to Bankers, as our Charter is being amended, and the Bankers' Association has not been taken into the confidence of the Government about any proposed alterations of our Charter. I think it hardly likely that there will be any great change. The Act is a very good one as it stands, is thought well of by our fellow-citizens in other countries, and answers admirably the requirements of our own. When trouble arises it is found to be a very good one as it stands, is thought well of by our fellow-citizens in other countries, and answers admirably the requirements of our own. The Toronto Presbytery yesterday continued discussion on the question of church union. At a special meeting recently a committee was appointed to look into the basis of church union as presented to the presbytery by the General Assembly, and to report yesterday. The committee, however, took no action, and the question was referred back to the presbytery for open discussion.

Rev. A. L. Gergie, while not stating his decision on the question of church union, expressed strong opposition to the present basis, chiefly in matters of polity and the settlement of ministers. He felt it was the "basis" of union itself that was in the scales.

Rev. Dr. Duncan, who spoke in favor of the offered basis, declared that while he did not approve all its parts, there was not enough objection to it to warrant a vote against it. He contended that the presbytery was considering church union and not merely a basis.

Rev. D. G. Cameron, while in favor of the movement, declined to vote until it had been considered by the people. He submitted an amendment to the effect that this presbytery respectfully declines to pass upon the said remit of barter act. The motion was seconded briefly by Rev. Dr. T. R. Robinson, lecturer of metaphysics in Toronto University, who spoke as a layman.

Rev. Dr. Kilpatrick thought a vote of disapproval would seriously retard the movement, while Rev. T. Crawford Brodie said he could not vote in favor, as there were many parts of which he did not approve. Rev. D. G. McLeod, Deer Park, made the closing speech, taking practically the same ground as all those against the present basis.

After some discussion it was decided to leave the vexed question over again until the next regular meeting of the presbytery on Jan. 2, at 11 o'clock.

Rev. P. F. Sinclair of Chester gave notice that at the next meeting he would apply on behalf of his congregation for leave to resign the name to another and more fitting name, to be decided later by his congregation.

Central Church secured the appointment of a committee to co-operate in considering the question of removal to a new site.

A special meeting will be held in the Church to designate Miss Adam and Miss Robertson, who have been appointed to the foreign field. Rev. Dr. Kilpatrick will address the missionaries, while Dr. R. P. Mackay will speak to the people. The date will be given out later.

Another special meeting will be held on Dec. 13 in the Temple Building at 10 o'clock to consider the financial condition of the Presbytery. This church started building operations some time ago, but was unable to continue on account of lack of funds.

Rev. Fran Zilke, a representative of the Bohemian branch of the church, who comes here under the recommendation of the Pan-Presbyterian Alliance and the churches in the United States, gave an address. It is probable that he will address some other church meetings during his week's stay.

PRESBYTERY CAN'T AGREE ON CHURCH UNION BASIS

Further Discussion at January Session—Special Committee Failed to Make Report.

and that whoever has the honor of occupying that chair during the coming twelve months will have a more satisfactory and prosperous year. (Applause.)

Moved by Mr. C. R. Hosmer, seconded by Mr. E. B. Greenhalgh, that the thanks of the meeting be given to the General Manager, the Assistant General Manager, the Inspectors, the Managers and other officers of the Bank, for their services during the past year.

This was unanimously adopted.

The General Manager (Sir Edward Clouston): On behalf of myself, the Assistant General Manager, and the other officers I wish to thank you for this kind motion. I also have to thank the staff of the Bank for their great loyalty to the Bank and myself under very trying circumstances. (Applause.)

Moved by Mr. H. Dobell, seconded by Mr. James Kirby, K.C., that the ballot now open for the election of Directors, be kept open until 3 o'clock, the meeting being closed without a vote being cast, when it shall be closed, and until that time, and for that purpose only, this meeting be continued.

The ballot for the election of Directors was then proceeded with, and without much delay the Scrutineers appointed for that purpose reported the following gentlemen duly elected, the names being re-elected:

Messrs. R. B. Angus, A. Baumgarten, Sir Edward Clouston, Bart., E. B. Greenhalgh, C. R. Hosmer, Sir William C. Macdonald, Hon. Robert Mackay, H. V. Meredith, D. Morrice, James Ross, Sir Thomas Shaughnessy, K.C.V.O., Rt. Hon. Lord Strathcona and Mount Royal, G.C.M.G., G.C.V.O.

Bohemia and the Czechs.

Bohemia and the Czechs, by Will S. Monroe (L. C. Page & Co., Boston), is an account of the history, people, institutions, and geography of the kingdom, together with accounts of Moravia and Silesia. It is the first general work of travel and description on Bohemia published in England. The geography and physical features of the country are described. The beginnings of the Bohemian nation and its struggles with hostile tribes, the transition from paganism to Christianity, the foundation of its language, literature, and art, are taken up.

The story of John Hus, the great reformer, the Thirty Years' War, the end of Bohemian independence, complete the purely historical treatment.

Several chapters deal with Bohemian religion, education, language, literature, painting, music, sculpture, etc. The book is profusely illustrated from photographs. It presents to the reader a very complete picture of Bohemia's past and present conditions.

Free Fares, Little Salary.

In some foreign countries a liberal allowance in the way of traveling expenses makes a man's salary a respectable one. In Italy, for instance, the journalist, with barely one or two exceptions, works for a salary which is palmed off as a grandly paid laugh at. But he has his compensation. He and not only himself but his wife and family, too—travel free on all the railways, whether the journey is on business or not. If he wishes to go to the theatre, and to take his friends, he has only to ask, and the requisite box or stall is at his disposal—and that, however humble his professional rank may be. On the whole, the English journalist prefers not to be paid in kind.—London Chronicle.

Car Shops for Port Arthur. PORT ARTHUR, Dec. 6.—(Special.)—L. Jones of Winnipeg, who has associated with him J. L. Nelson, has been connected with the city for the establishment of a car construction and repair industry, to be capitalized at \$250,000.

For seventeen years "warm words" have been the extent of the disagreement between Frederick Spain and his wife, until a week ago, when he struck her. He admitted this in police court yesterday morning, but promised to better, and was given a few weeks to behave.

Editor World: Bishop Du Moulin's speech the other evening before the Empire Club is not only a warning to the woman's cause, but a warning to the man's cause. The bishop is supposed to be a servant of the meek and lowly One spreading the gospel of love. No wonder the church is losing its hold upon the thinking people, when a minister of that gospel forgets himself so far as to make such statements, seeking to stir up the passions of the people when he refers to "paganism" in the home. In this enlightened age, the husband and wife are good comrades, governing the home together. The day of looking up to a lord and master has passed with the days of superstition. Can one imagine our loving Savior referring to women (who only differ in seeking liberty) as "vixens"? It is against the tyranny of such narrow mindedness that women seek redress by equal suffrage. Bishop Du Moulin should have lived in the days of the burning of witches.

PUBLIC MEETING TO-NIGHT

ON STREET BY QUESTION

Citizens Invited to Show The Attitude to Impress the Powers - City Hall Notes.

TO-DAY AT THE CITY HALL.

11 a.m.—Board of control, 2.30 p.m.—Special committee on hydro-electric celebration.

With the object of affording an impression of the hostility of many citizens towards the pay-as-you-enter system on the street cars, the board of control yesterday afternoon held a public meeting in Massey Hall to-night.

To Boost By-laws. The board has under consideration the launching of a campaign in support of some of the by-laws.

Purifying the Water. Analysis of city water shows that the power of typhoid or cholera is reduced to a striking degree.

Shore Pumping. The city's percentage of street railway receipts for November is \$28,045.40.

At the reception and legislation committee meeting, representatives of the board of trade, hoteliers, steamboats and transportation interests.

Has anybody seen Yossif Rosser? If so, the city treasurer would like to see him.

Indian Hunter Heavily Fined. Frank Commando, a member of the Ojibwa band on the Nipissing Indian Reserve.

Y. M. C. A. in Britain. LONDON, Dec. 6.—(C. A. P. Cable.)—The Y. M. C. A. is considering a comprehensive scheme for expansion.

WATCH

"WATCH WELLAND GROW."—These three words are the watchword and slogan of the Board of Trade and Town of Welland, and there are many and various reasons for their confidence in issuing the proud challenge.

- 1 There are no Coal troubles in this highly favored town, because Natural Gas at 25c per thousand does the trick in cooking, heating, etc. Do you appreciate this, Mr. Householder?
2 Electric Light and Power cheapest in Ontario, as low as Twelve Dollars per horsepower.
3 Seven lines of Railway and forty-six trains daily serve the people in this highly favored town, and as railways are not supposed to be charitable institutions, there must be real substantial reasons, viz., the business is there.
4 Welland Canal, connecting the Great Lakes, the link between the great manufacturing east and the great grain-producing and goods-consuming west—do you appreciate all these, Mr. Manufacturer and Mr. Shipper?
5 Situation unexcelled, just to the south of the south side of Lake Ontario, almost opposite Toronto, 38 miles to Hamilton, 24 miles to Buffalo, and in the midst of the finest fruit lands of sunny southern Ontario. The record of the growth of the town of Welland is shown by the fact that some twenty-five manufacturing plants, running into millions of dollars in value, mainly in iron and steel, which, as Carnegie is credited with saying, is the basis of solid progress, have appreciated these and other advantages by locating there, and as a consequence the population has doubled and trebled within the past few years, so rapidly that many of the older residents are dazed and hardly realize it yet.

NARROW

Planting of this kind has made fortunes for the lucky in Toronto, Montreal, Hamilton, London, etc. Welland's turn is now. Any man mecca for builders, loan companies, workmen, heads of families, has a little money desirous of making big profits. In order to interest the right class, and introduce the merits and possibilities of profits in Welland Real Property to the greatest number in the shortest space of time, the officers of the undersigned company have decided to offer a limited number of lots at Welland

Cobalt—Buffalo Directors Decline 13 Per Cent. Dividends—Wetlauffer Up to Par

Another Jump in Wetlauffer But General List is Easier Mining Market Continues Under Pressure of Realizing, and Small Concessions Occur in Most of Cheaper Issues.

World Office, Tuesday Evening, Dec. 6. The mining exchanges continued more or less of a puzzle to market followers to-day, the undertone being again depressed, and the general trend of prices downward.

Trading was active in certain instances, but taken as a whole the transactions were more representative of selling than of purchases, and this idea was borne out by the lower values, which ruled in various of the cheaper issues.

The market was not lacking in strong positions. Wetlauffer demonstrated its strong position, recording a net advance of ten points, and closing at the top figure. The stock was in free demand, but the supply was somewhat limited even on the advance.

Little Nipissing was under pressure in yesterday's market, professional traders hammering the stock in an endeavor to bring about further liquidation, and thereby depress prices further.
