Magnate Admits Railroads Have Made a Mistake and is Ready to Help the Government Remedy Existing Evils.

New York, March 7.- I am ready to make the announcement of a scheme of co-operation between the govern-ment and the railways, my chief in-terest," said E. H. Harriman, presi-dent of the Union Pacific Railroad, on returning to-day from Washington. "We men at the head of the great

realize the mistake. Henceforth, I beceive more even-handed justice.
"I'm more than willing to give my support to such a process of enlighten-ment. I'm ready to make the ad-

support to such a process of enlightenment. I'm ready to make the advancement of such a scheme of coperation my chief interest.

"Railroad managers. I am willing to admit, have neglected to build up a strong harmonious relationship between themselves and the government and the public. This matter has been left to subordinate officers, and the result has been that such relations have been completely neglected.

"Combination really benefits the public. The public may think otherwise, but it will learn the real truth soon, if combinations are legalized. I believe in control and regulation, as I declared before the interstate commerce commission, but I think within the limit of such control, corporations ought to be allowed to combine as they find it necessary or beneficial."

As to the money outlook, Mr. Harriman said the present tension is bound to react on industrial corporations.

"I know in a general way of an all-round movement to reduce supplies. That's common sense," he said.

Crowd Changes Attitude. they find it necessary or beneficial."
As to the money outlook, Mr. Harriman said the present tension is bound to react on industrial corporations.
"I know in a general way of an all-round movement to reduce supplies. That's common sense," he said. "As for our own roads, we are making our business more compact and trying to conduct traific at less cost. We may have to come to higher

freight rates.' FIGHT IN WALL STREET

SUBSIDES FOR A TIME New York, March 7.—(Special.)—As suddenly as it broke upon a dull market, the heavy trading that checked the steady decline of the last few days a sweeping majority the Conservative Wall-street, died between the closing government of R. P. Roblin has again vesterday and opening this morning.

Traders were nervous at first, no having received actual information Late returns show that the Conserconcerning the significance of the senvatives have been elected in 27 seats sational movement in Reading, and and Liberals in 10. Delayed elections are to be held in Gimli and Gilbert Plains, and it is likely that these seats will go with the second of the control o will go with the government by ac-clamation. Constituencies to be heard into the afternoon, rallies being the signal for slumps of about equal value that left the general tone of the

There were some surprises in the result. Brown, leader of the Liberals, was defeated in Portage la Prairie by Dr. McFadden, provincial secretary control of Reading; that Frick merely In the last Roblin administration, was buying back stock which he defeated in Emerson. had disposed at 150 and that interests Hon, Colin H. Campbell put up a which were keeping well under cover hard fight in Morris, and is elected were manipulating the stock for pur-

that seven of the seats carried by the Liberals are gains, while the Conservatives captured five seats which were held by Liberals in the last house.

But the fact that there was a remained by newal of the attack on what are known as Morgan shares and the surprisingly strong tone of the Harriman properties confirmed the bigger outside interests in their belief that a fight that will be R. L. Richardson, well known in a real fight is just beginning to loom

Magistrates Decide to Send Cayuga Woman to the Assizes on April 16 on the Charge of Poisoning Her Husband.

Cayuga, March 7 .- (Staff Special.) "That closes the case. I request the the Perkins poisoning case.

"We men at the head of the great corporations are coming to a better understanding of what the government expects of us. We are getting the point of view of the administration.

"I am of the opinion that the administration is beginning to realize that it has been a little too radical in its attitude toward the railroads, and I look to see its opposition take on more of the spirit of co-operation."

"They—we—all of us," he said, "ought to have considered the possible effects of this agitation before it was begun, or before conditions that made its growth possible had been allowed to continue. We should all meet on common ground and co-operate for our mutual benefit. Then nobody would be worrying over the situation as it is to-day.

"We all made a mistake in this. I realize the mistake. Henceforth, I believe the railways can expect to re-live men at the great Margistrate Climax on, without looking at Magistrate Harrison, without looking at Magistrate Cline, his colleague, "and will send her for trial."

"There is not a tittle of evidence to connect this woman with any poison at all," protested E. F. B. Johnston, K.C., counsel for Mrs, Mattie Perkins.

"Granted that strychnine was tound in Perkins' stomach; granted that he died from poison, there is nothing whatever—absolutely nothing—to connect the prisoner with it.

"I am surprised that such a thing would take place in this county. I mean what I say and I generally say what I mean."

In the midst of a storm of applause from the spectators, Mr. Johnston caught up his hat and coat and abruptly left the court-room.

Mrs. Perkins was then held for trial at the assizes on April 16.

No Siur on Murphy.

This dramatic climax of the hearing the first of the matter." "We have considered the matter,"

This dramatic climax of the hearing that has stirred up all Haldimand County followed a statement from Mr. Johnston, in which he disclaimed any intention of implicating Crown Attorney Murphy of Cayuga in the alleged attempt to prime witnesses to which

Crowd Changes Attitude. It was an intensely interesting crowd.
The general sentiment was all against

Serious Charge Made in N.Y. Senate - Found Its Way Into Possession of Corporation Interests.

A!bany, N.Y., March 6 .- An extraordin. ary sensation was caused when Senator Page charged in open senate that a copy of the governor's public utility bill, just introduced, had some time ago been stolen and carried to New York and placed in the Serator Page explained that the first intination which he had had of the theft was when the attorney of the Ryan-Belmon interests came to him and protested agains: copy which had been stolen, because the copy which had been stolen, because the section which Morgan protested against was not contained in the until draft.

The bill creates a state and a New York City utilities commission to take the prace of the present state railroad and lighting commission and the New York City until transit commission. Each commission is to be composed of five members at a salary of \$10,000, the governor appointing over the New York City commission. Before the schate cities committee nowever, there was some significance aftached to the question asked by Senator Wante. "Why should

tion asked by Senator White. "Why sloud the governor appoint the members of rat-commission and not the local authorities?" The answer was tast the local authorities had proven themselves incompetent to deal with the transit situation.

The bill abolishes the existing railroad commission, gas and electricity commission, inspector of gas meters, and rapid transit commissioners, and confers all their powers upon two public service commissions. It creates two public service districts, with a commission cannot of the members.

creates two public service districts, with a commission composed of five members for each district appointed by the governor. The first district comprises the Counties of New York, Kings, Queens, Richmond and the second district includes all other counties of the state.

The jurisdiction of the commission in the first district extends to all railroads and street railroads, and common carriers operating exclusively within that district, to street railroads, any portion of which is within the district, except as to construction and local facilities and transportation and local facilities and transportation and tion and local facilities and transportation outside the district; to the construction and local facilities and transportation of rail-reads within the district; to the manufacture, sale for distribution of gas and electricity within the district, and, in additionation the commission is vested with all powers heretofore conferred upon the board of

heretofore conferred upon the board of rapid transit.

The commission is given power to set poena witnesses and administer oaths. No person is excused from testifying performance commission, but having testified is immune from prosecution for any penalty or forfeiture concerning any act as to which he testifies, but this immunity does not estend to any corporation.

The bill prescribes the outles of transfortation companies, including railroads, street railroads, express companies, car companies, sleeping car companies and of gas and electric companies, and gives to the commissions power to regulate the oneraand electric companies, and gives to the commissions power to regulate the operations of such companies. Free passes are prohibited save in certain accepted cases. The bill also contains a prohibition against a greater charge for a short haul than for a long hand, but negurits the proper seems. a greater charge for a snort haul than for a long haul, but permits the proper commis-sion for good caus, shown, to authorize such a charge in special cases and to a specified extent.

The bill further provides that the fran-

chise of a public service corporation shall not be assigned, transferred or leased without the approval of the commission having jurisdiction. It forbids a railroad or street jurisdiction. It forming a railroad or street railroad corporation, demostic or foreign, to purchase or acquire, take or hold, any of the capital stock of any other similar ecoporation, unless authorized by the conmission and a similar provision is made as to gas and electric corporation. mission and a similar provision is made as to gas and electric corporations.

The set is to take effect 30 days after it becomes a lew. The articles dealing with railroads, street railroads and common carriers are new, and, to secure informity, have been made to conform to the interstate commerce act, where there would be state commerce act. state commerce act, where there wo

The W. F. Matthews Co Undertains

Hance Logan's Resolution for Encouragement of Canadian Ports Favored by Government, But Styled Premature.

ON LINE OF NATIONAL POLICY

Would Build Up I.C.R. and Canadian Trade-U.S. Bonding Privileges Brought Forward as Obstacle.

Ottawa, March 7 .- (Special.) - The house upon assembling this afternoon went nto committee upon the tariff, and Hance Logan (Liberal, Nova Scotia) asked that the British preference be confined to goods imported thru Canbe confined to goods imported thru Canadian ports. He offered a resolution
so limiting the preference after May 1,
1908. At present, of the \$69,000,000 of
imported goods entitled to the preference, \$13,000,000 came thru United
States ports. He pleaded for a fast
Atlantic service, which, incidentally,
would contribute to the prosperity of
the I. C. R. Respecting the Canadian
railway service from the maritime
ports, the all-round freight schedule
was the best in the world.
Hon. John Haggart: "Then why
does the thru freight of the I. C. H.
grow less?"

grow less?"
Mr. Logan: "It is because our citi-Mr. Logan: "It is because our citizens knock instead of boosting their own road." The resolution, he said, voiced for Canada a policy modeled upon that of the United States. The bonding privilege was more beneficial to the United States than it was to Canada. There was no danger of the United States abrogating that arrangement.

Mr. Kemp (East Toronto) said al for Last Demonstration, Plan
Another for To-Day.

Delmas Amazes the District Attorney Jerome by Announcing Case

fragists, by insisting upon martyrdom are placing the authorities in an embarrassing position.

Mrs. Despard, sister of General
French, and several of her fellow agitators, were released from prison yesterday after a term of confinement for participation in the recent agitation at the house of commons.

James Keir Hardie, M.P., who has a reputation for eccentricity, presided at a public breakfast given in honor of these women. **

Delmas Amazes the District Attorney Jerome by Announcing Case

Will Be Closed at Opening
of Court To-Day.

Delmas Amazes the District Attorney Jerome by Announcing Case

Will Be Closed at Opening
of Court To-Day.

The decision of He paid scant respect, however, to his freight schedules. As a matter of fact, in some cases, it required a fortnight to move a carioad of freight from Toronto to Montreal.

The great bulk of imports, under the preference, came by the St. Lawrence route, he said. There was a strong feeling among the people to exploit Canada for the Canadians, and in time this problem would adjust itself, Meanwhile it must be remembered that many steamship lines charged, for the same freight, twice as much from Liverpool to New York. The railway companies charged a rate that equalized these differences. He was satisfied that all the Canadian railways would oppose Mr. Logan's contention.

Afraid of Trouble.

"Why pick a quarrel with the United"

at the house of commons.

James Keir Hardie, M.P., who has a reputation for eccentricity, presided at a public breakfast given in honor of these women.

Several of the suffragists delivered specifies in which they announced their purpose of forcing the authorities to keep them in prison by committing breaches of the peace until suffrage breaches of the peace until suffrage in open court the words which assure of persons, the women of refinement have shared the prison life of the common criminals of their sex, and the regime of English prisons is remarkably severe. The question of woman suffrage comes up before the house of commons to-morrow, and preparations are being made for another demoinstration.

The district attorney, expecting that the session to-morrow would be devoted to the examination of more experts, devoted a good part of the day to preparing for them. When late in the afternoon he received word that the defence had decided to rest their case, he was more or less puzzled.

"I will not be able to tell what action I will take," he said, "until I hear in open court the words which assure me that the case of the defence has been finished. I am told now that their plans have been changed so many times since the trial began that I will not be sure of any thing until I hear the statement in open court."

The district attorney, expecting that the session to-morrow would be devoted to the examination of more experts, devoted a good part of the day to preparl the United States, but would it not tennow the trail the bonding privilege might hurt the United States, but would it not tennow the fence had decided to rest their case, he was more or less puzzled.

"I will not be able to tell what action I will take," he said, "until I hear the regime of English prisons is remarkably severe. The question of woll and the prison is remarkably severe. The question of woll and the prison is remarkably severe. The question of the propagation is a content of the case of the defence has in the case of the defence has in the

open court."

"In case the defence does rest tomorrow, how long will the case last?"

he was asked.

"In case the defence does rest tomorrow, how long will the case last?"

Kanada and Mr. Logan's proposition, if
adopted by parliament, would revive
it to some extent.

Mr. Turriff (Liberal, East Assint-

GETS ROUTE FOR ELECTRIC

Finance Committee Approves City Engineer's Plans and Sends His Report to Council.

Hamilton, March 7 .- (Special.)-City En gineer parrow submitted a report to the nnance committee on a trunk the thru the city for an electric railway to night. The route he suggested was as follows:
Garda-street, as far north as King-street, and thence by private right-of-way between Dundarn and Breadainane-streets to York-street, for the line running from the south to the north of the city.

Main-street, for the line running from east to west, with king and York-streets as alternative routes.

as alternative routes.

The aldermen expressed their approval of this route, and sent his report on to the committee decided not to vote \$500 toward the cost of procuring a competent engineer to select a route for the Hamilton, Waterloo & Gueiph Railway until Mr. Bar-row's route was submitted to the promo-

Tuere was a lively discussion over the question of whether the city should oppose the Radial Rahway application for a Dominion charter. City solicitor Waddell, city Clerk Kent and Mayor Steward. thought the application should be oppos

vigorously. Not a Serious Matter. Aid. Dickson and Feeders thought the only dinerence between a Dominion and a provincial charter was that the railway would be transferred from the jurisdiction of the provincial to the Dominion railway commission, and they did not think that was a serious matter. It was agreed to allow the city solicitor to engage a lawyer to help nght the company's application. The following grants were made: Hamilton Art School, \$500; 1101y Sepulcare Cemetery, \$400; Veteran Firemen, \$50, Children's Aid Society, \$500; Poultry Association, \$50.

sociation, \$50.

Ine committee will seek to have legislation preventing Hamilton from having a board of control amended, the the control ler scheme will not be adopted until the ratepayers have a chance to vote on the proposition.

proposition.

The bill of T. H. Preston, M.L.A., to give municipalities the option of northing their election son the first Monday in December will be opposed, as the aldermen think New Years Day is the best time.

The street italiway has thrown up its hands in the percentage cases, and has asked for a statement of the amount it owes the city. It will be cheerfully furnished.

On a plea of fli-health, Wyatt Malcolmson, a teacher at the collegate institute, sent in his resignation to the internal management committee of the board of education this evening. It was accepted, and J. A. McKenzle was appointed as his suc-

The applications of the caretakers for more pay were laid over until next June, but the salaries of Misses Burns, Coleman and Disher were boosted from \$875 to \$400 taker of the Wentworth-street School. Dr. Roberts, the medical health officer, was ap-

pointed medical inspector of schools at a salary of \$250 a year. The Trades and Labor Council asked to have school fees abolished, but no action will be taken until next September. Inspector Ballard was instructed to see that the fire drill was practised faithfully

AFRAID TO BE AFRAID.

Liberal Members Don't Want to Go on Record as Opposing. Ottawa, March 7.—(Special.).—The public accounts committee was in session this afternoon investigating the cost of the Col-

accounts committee was in session this afternoon investigating the cost of the Collingwood dry-dock.

W. H. Bennett moved to have the secretary of the company, Sanford Lindsay, give evidence concerning the payment of \$50,000 to the company on account of the \$300,000 subsidy; also that Mr. Lindsay should bring with him all books relating to the stock dealings of the concern.

Mr. Osler, representing the company, objected to calling Mr. Lindsay, stating that he had been in the employ of the company but about three months; and as to the original stock dealings, the only record of them had been burned.

Mr. Lennox pointed out that if there were no books to produce no harm could be done in examining the witness. This view eventually prevailed, and the chairman, Mr. Geoffrion, was averse. Nearly all the Liberal members voted for it, asserting that they did not wish to go on record as burking enquiry. It was decided to also all Cuider Wood, a former manager of the company. The committee advoursed that March 20.

OPPOSED BY MERCHANTS.

o-Operative Societies, They Say, Would Destroy Trade.

Ottawa, March 7 .- (Special.) -- Secretary Prowern of the Dominion Retail Merchants' Association appeared to-day before the special committee of the house of commons in opposition to the industrial and co-operative societies' bill.

Mr. Trowern held that to give to the farmers and laboring people the opportunity to combine with the assistance of capital from the municipalities or corporations would seriously affect regular trade. The scheme was intended to get people together for the purpose of forming associations with the view of giving dividends as a tran for uneducated people who knew a trap for uneducated people who knew nothing about commerce. He pointed to the results of co-operation in Scotland, as showing that the wholesale and retail merchants' trade had been practically destroy-

ed.

J. A. Beaudry, treasurer of the Dominion Association of Retailers, opposed the bill, because societies such as were proposed would not be financially sound and their failure would have the effect of injurior. their failure would have the effect of injuring the general credit of Canada.

W. L. Mackenzie King, deputy minister
of labor, called as a witness, said that the
best known economists of the world,
among them John Stuart Mill, Ruskin
and Carlyle, were in favor of the co-operative system. It was only natural that there
should be opposition from the middleman.

He related that at Harvard University
the students combined in co-operative societies which enable them to carry out
their studies to an extent which, if their cieries which enable them to carry out their studies to an extent which, if thei finances were drained by the calls of mid dlemen they would not be able to do. co-operative society in Ottawa would be godsend to the civil servants, he said.

WOMAN'S WORLD.

IN ENGLAND.

March 8, 1907, promises to be a redieter day in the annals of the woman movement. This day Mr. Dickinson's women's suffrage bill comes up before the British perliament. Perhaps never has there been such a furore over any extension of the franchise as there is at present over this.

Claxton Hall, in London, has been the scene of many recent gatherings in behalf of the suffrage. The agitators promise unceasing opposition to each and every member who dares to oppose the bill. That this is no idle threat any observer must admit, who understands the great influence that women have attained in British politics.

THE WOMAN'S SUFFFAGE BILL body of electors, has been the rule

extension of the franchise as there is at present over this.

Some of the rarest and most consertive British women seem roused to an enthusiasm that will brook no defeat. If only a division can be brought about the British women seem roused to an enthusiasm that will brook no defeat. If the cause must suffer temporary defeat, as some prophesy, it seems probable that the suffragettes and their supporters will continue their efforts and that success is at least in a hearer future than ever before. Women whose social and intellectual position can be brought about the bill's passing. The opponents will probably ward off a division, by the speaker's not granting a closure. Discussion in the house of this bill has been sparse. There is no John Stuart Mill, as there was in the early seventies, to electrify with speeches on "the admission of women to the electoral franchises."

Of course, the anti-suffrage party are ballasted with innumerable amend-

women, are espect of both men and of course, the anti-suffrage party are women, are espousing the cause, with ballasted with innumerable amenda whemence for which there is scarce ments, and with eight motions to throw the bill out alteration. The leaders claim that they have a an attempt will be made to simply talk large majority of the house pledged it out of the way.

To support this bill. It is interesting | There is a strong Liberal hostility.

to note what would be the immediate and since the municipal elections of a result of this success. Should the bill week ago, the enemies have raised a also be carried thru the house of lords new cry. They claim that the defeat it would necessitate a dissolution of the Progressives in London was parliament. Such procedure, after the largely due to the women ratepayers, enfranchisement of any considerable. This accusation has brought down up-

2448-A SUGGESTION FOR THE HOME DRESSMAKER. The shirt waist suit is a boon to the home dressmaker in that it is made without difficulty by the least experienced and proves itself invaluable for general wear. The dress shown is built on these lines and offers a practical suggestion for home sewers. The waist is quite simple, having deep Gibson tucks over the shoulders to assure the broad shoulderline so necessary in the latest waists, and closes in front with a smart little tucker at the throat. The skirt is a 7-gored one laid in side plaits and stitched flat over the hips. Thus the gown has the requirements of the latest fashions and is practical and becoming. Mohair would develop it pleasingly and for service, while taffetas or linen would also prove it a success. For the medium size the dress requires 11 3-4 yards of 32-inch ma-

2448-Five sizes, 32 to 40 inches bust measure. The prices of the patterns for this gown are special at 10c.

Measurement—Waist	Bust
Age (if child's or miss' pattern)	

NOTE-Please enclose above illustration and mention size of pat tern wanted. If the pattern is bust measure only mark 32, 34, or whatever it may be. When in waist measure, 22, 24, 26, etc. If a skirt, give waist and length measure. When miss' or child's pattern write only the figure representing the age. It is not necessary to write "inches or "years." The price of each pattern is 10 cents. Do not send

ADDRESS THE WORLD PATTERN DEPT., 83 YONGE ST., TORONTO.

on the heads of the Liberals infurlated denunciations from many of the wo-MEDICAL SUPERVISION NEEDED

men leaders.

It is interesting to note just here that the Progressives, representing the English public ownership movement, have been aupported by the feminine vote — so the suffragettes claim. At least, they scorn the idea that the remarkable overturn of municipal affairs was due to women.

This point, be it as it may, is of very present moment to Canadian women. What is our attitude towards public ownership? Within the last few weeks it has received an impetus that promises to send it forward to the future of Canada as perhaps the most vital public question. In Canada, women have some control of municipal affairs thru a limited franchise, and even at the present they owe it as their duty to their community and to their country to know something of the possibilities of public ownership.

But public ownership in Canada deserves many and many a chapter of

serves many and many a chapter of women's reading, and it is wide of the mark, in connection with the present situation of the woman movement in England. At least the suffragettes claim so—and we take them at their

word. What is remarkable about this cris's body of electors, has been the rule since 1832.

Claxton Hall, in London, has been the scene of many recent gatherings in he scene of many recent gatherings in he seems to rest with the great average bulk of intelligent women. It may be affirmed that the masses of women are untouched and disinterested, but the huge and enthusiastic meetings and demonstrations of

disinterested, but the huge and enthusiastic meetings and demonstrations of the past few months rather weaken this supposition. The masses may be inarticulate, as usual, but the fact stands that the general following is stronger than ever before in the history of England.

With all due praise to the distinguished women leaders of the day, we may yet point out that the characteristic of the present is the lack of a remarkable champion. This, perhaps, argues well for the cause. Here and there, thru English history, we find a giant intellect espousing the cause of woman. It seems that these men and women were too far in advance of their time, and they entirely lacked that time, and they entirely lacked that general public support that marks this modern age. Hope lies in the fact that fervent feeling has been aroused in a great mass of the people—in a whole

In the world of social economics there is no Mary Wollstonecraft to-day, as there was in the 18th century, to maintain the rights of women. There is no Herbert Spencer to lucidly state the fact that woman must ne-cessarily share an equal franchise with man. There is no promise that there is in parliament to-day a man who can stand up and as ably defend the rights of women as did John Stuart Mill a few decades ago.

Yet great and lasting as was the

February, and the expenditure was \$299. The extra cent a day fund yielded \$217, which will be apportioned as follows: \$75 to Bishop Stringer of the Selkirk Diocese for the purchase a boat: \$80 for a boat: \$60 for a cow for the rector of Laclarong, Diocese of Saskatchewan, and \$75 to the Rupert's House School. Miss Clara Smith has been made a life niember of the auxiliary by the St. James' Cathedral branch. The Dorcas committee have sent a fur coat and a sewing machine to Hay River, and furnishings to the Columbia Coast Mission.

IN SOCIETY.

Mrs. VanderSmissen is spending a week in St. Catharines. Mrs. and Miss Barber are returning

TO PREVENT THE SPREAD OF

CONSUMPTION IN SCHOOLS

Medical supervision of the schools is badly needed, and steps should be taken to provide such, according to Dr. W. E. Fairfield, House Surgeon at St. Mary's Hospital, Green Bay, Wis. Tuberculosis, the disease which takes the lives of hundreds where others claim one, Dr. Fairfield believes should be grappled with and overcome in its very earliest stages when manifested among school children. Other contagious diseases, such as diphtheria and small-new are placeded and guarded against but there is practically no pox, are placarded and guarded against, but there is practically no attempt made to prevent tubercular infection. Children afflicted with this dread disease are allowed to mingle with healthy children as though there was not the slightest danger

Teachers could do much to aid in eliminating consumptive

children from the ranks of the healthy. The first manifestation of tuberculosis is an afternoon rise of temperature. Teachers could be taught to take the temperature of the children and report suspicious cases. These could be sent to the health officer and reported to the parents. Children shown to be infected could then be kept apart. Fresh air with proper treatment would result in restoring health, while confinement in the school room would only give the disease an opportunity to build and grow. It is among the apparently superficial coughs and colds that the disease is most often found in its incipiency.

Coughs and colds should not be neglected. A simple formula prescribed by a noted authority will break up a cold in twenty-four

prescribed by a noted authority will break up a cold in twenty-four hours. It is said to be so effective that it will cure any cough of a curable nature. The ingredients are inexpensive, and can be purchased at any well stocked drug store. Mix a half ounce Virgin

purchased at any well stocked drug store. Mix a half ounce Virgin Oil of Pine (Pure) with two ounces of Glycerine and a half pint of good Whiskey. Take a teaspoonful every four hours:

Virgin Oil of Pine (Pure) is put up for dispensing only, in half-ounce vials. Each vial is securely sealed in a round wooden case with engraved wrapper, showing the name—Virgin Oil of Pine (Pure), prepared only by Leach Chemical Co., Windsor, Ont,—plainly printed thereon. The oils sold in bulk and the many limitations of Virgin Oil of Pine (Pure) put out under similar names and style of package are not only ineffective for the purpose, but are often dangerous. It is always well to remember that the sole are often dangerous. It is always well to remember that the sole object of an imitator is to deceive. There is no known substitute for Virgin Oll of Pine (Pure).

Miss Homer Dixon is staying with Mrs. Goldwin Smith at "The Grange." Miss Grace Dunnett is spending a few weeks with friends in New York.

The fifth lecture on Famous French-women at Trinity College will be given Saturday afternoon at 3,30 by Rev. H. F. F. Duckworth, M.. (Oxfon.) Subject. "Madame de Stael-Holstein."

Madame Le Grand Reed has been engaged as the soprano soloist with the People's Choral Union, and also as the soloist again with the Men-delsrohn Glee Club of New York, F. Damrosch, conductor, for their concert in New York City on April 16. She will also appear again in Toronto with J. D. A. Tripp, solo pianist, as the assisting artist, at Miss Birdle Luttrell's recital at Association Hall

on Arril 20. What to Do With Our Girls. Give them a course of six lessons in dress cutting and fitting. It will enable them to make their own dresses equal to any first-class dressmaker. The Canadian School of Pattern and Dress Cutting, 443 Bathurst-street, Toronto. Phone Main 6790.

up at the Toronto Teachers' Associa-ton on March 23."

The World acknowledges receipt of 50 cents to the fund from M ss Louise Mason.

The Protestant school commissioners of Montreal, at a meeting yesterday, decided to erect another school on the site of that in the destruction of which 16 children and Miss Maxwe'l lost their lives, and to call the new edifice the Sarah Maxell (M) mor'al Scrool, This will be in addition to any other testimonial the board may decide to

Fire drills will be held in the school once a week in the future. Fire escapes will also be installed. The location of the classes will be re-arranged so that the younger children will be on the ground floor.

OPIUM AND CIGARETS

Editor World: Would you kindiy in form whether any cigaret contains opium, and if not what produces the stain upon a smoker's fingers?
H. G. K.

It is said some brands of cigarets contain a slight admixture of opium. The stain is caused by the tobacco itself.

CONTEST IN CARLETON

Ottawa, March 7 .- William H. Harten, independent Conservative of Twin Elm, announced himself in the field to contest against R. H. McElroy, the seat in Ontario legislature, vacated by the death of G. N. Kidd.

ALBERTA SURPLUS 1412,398. Edmonton, Alta., March 7.-Premier Rutherford laid the public accounts on the table to-night. They show a total of \$1,893,311.65, of which \$412,398.06 is supplus. The surplus last year was \$473,252.64.

FUGITIVE BANKER FOUND

San Francisco, March 7.-Pinkerton detectives have located W. F. Walk-er of Connecticut in this city. He is wanted on the charge of embezzling \$565,000 from the savings bank of New Britain.

FRANCE NOT FIGHTING VATICAN.

Paris, March 7—The foreign office has authorized a denial of the reports from Rome that France is trying to prevent the Vatican from being represented at the Hague conference.

Teachers' Examinations. the symptoms are tightness across the chest, sharp pains and difficulty in breathing, and a secretion of thick phlegm, at first white, but later of a greenish or yellowish

The time-tables for the midsummer examinations are now in course of preparation and will soon be in the hands paration and will soon be in the hands of the teachers. Those who hold either a part 1 or part 2 certificate of the senior teachers course taken in 1906 or previously, under the new regulations, must write on all the subjects, which are not covered by the part 1 or part 2 certificate already held; but to make up for the extra version of to make up for the extra number of subjects, they will be allowed the 24

and 50 per cent, standard of the for-mer regulations, Special regulations have elso been tasued, by which second class teachers who are actually engaged in teaching may have the opportunity of obtaining their senior teachers' standing by home

Mrs. S. Fidder, Linton's, N.B., writes:
"I feel it my duty to let you know of my experience with Dr. Wood's Norway Pine Syrup. My little girl was very low with Bronchibis and our doctor did all in his power for her, but could only give her relief for a short time. My husband saw your medicine advertised, and immediatly procured three bottles. I never saw anything give so much relief in so short a time. It stopped the annoying cough at night and she is now perfectly cured. I am so glad I can hardly express my gratitude for what Dr. Wood's Norway Pine Syrup has done for us." study. Candidates for scho'arships, who desire also senior teachers' standing must write on all the san or teachers' subjects not covered by their scholarship examination, and provision will be made to enable them to do this.

SCHOOL FOR COURTSHIP

Institution Needed to Reform the For Weak People Having Heart or Nerve Troubles. Present Methods in America, He Says.

Chicago, March 7.—Colleges of courtship for the reform of American lovemaking are needed to fit the lovelorn population of the nation for matrimony, according to Professor Charles R. Henderson, the University of Chi-

cago, sociologist.

In an article on "Courtship in the Current Biblical World," issued from the university press, the professor urges expert instructions for those who are smitten with the "illusions" of love. Hasty marriages, divorce and man riages of convenience are classed as re sults of the "barbarism" into which

courtship and marriage have fallen. He gives as examples of the decline in true love "where the wife is bought from the parent like a cow. or where she is compelled to marry to secure a fortune from a rich fool."

Fashionable society exhibits depraved standards and alimony is accepted as a substitute for rational marriages, he declares. Professor Hendelman derson points out as particular evils of modern lovemaking such perils as farting, boasting of conquests, extra-vagance, accepting costly presents, ig-rerance of the training of children, and courtship without intent to marry.

WOMEN DESIRE TO JOIN

Their Attendance Requested at Saturday Night's Meeting in South Toronto.

The Public Ownership League hope St. George's Hall to-morrow night, when a league for South Toronto will

Miss A. N. Gray, president of the Toronto Teachers' Association, writes:

PUBLIC OWAERSHIP LEAGUE Police Take Elaborate Precautions That No Harm May Befall Her.

London, March 7 .- The Downger Empress of Russia, arrived here this morning and was greeted at the rail-road station by her sister. Queen for a large crowd at their meeting in Alexandra, the Prince and Princess of Wales, and the staff of the Russian embassy.

when a league for South Toronto will be organized. The women are invited. They have an interest in the success of this movement, and they are asked to join. Catharine MacVicar Duncan, the well-known literary woman of Thames ville, writes the secretary as tollows:

"May I ask if women are eligible for membership in the league. Since we have a partial municipal franchise, I take it to be so. It is a movement that is bound to closely touch the lives of women and it has had for some time my humble support."

Miss Duncan is welcome to come into the state of some time my humble support."

Sian embassy.

The empress reached London half an hour earlier than the time publicly announced, and the foreign ministers, who had not been apprised of the change, arrived at the station after the departure of the royal party.

The empress reached London half an hour earlier than the time publicly announced, and the foreign ministers, who had not been apprised of the change, arrived at the station after the departure of the royal party.

The empress reached London half an hour earlier than the time publicly announced, and the foreign ministers, who had not been apprised of the change, arrived at the station after the departure of the royal party.

The empress reached London half an hour earlier than the time publicly announced, and the foreign ministers, who had not been apprised of the change, arrived at the station after the departure of the royal party.

The expediting of the empress' arrival was, it is understood, planned by the public, who have taken stringent precautions for her protection.

While the officials of Scotland Yard have little fear that the anarchists in London will jeopardize their chances of obtaining an asylum in England by

of obtaining an asylum in England by any attempt on the life of the empress, they are taking no chances, and every possible avenue of attack will be guarded.

From the railroad station the Dowager Empress and the Queen drove to Buckingham Palace:

STUDHOLME LOST HIS TEMPER

And Told Mr. Dunlop to Shut Up-Scene in Committee.

The Third Party got itself in hot water during the session of the private bills committee of the legislature yesterday when the application of Miss Sadie Holmes of Tillsonburg for permission to practice dentistry was

being heard.

Allan Studholme said he had letters from all the dentists in Hamilton opposing the bill, and Mr. Dunlop wanted to know if they weren't interested. "Are you a dentist?" asked the labor

"Oh, no," said Dunlop. "Well, then, shut your mouth," was Mr. Studholme's ruling.
Amid loud cries of "Order, order" and "Shame," Mr. Mackay rose and pointed out that Mr. Studholme was not a member of the committee. He called upon the chairman to prevent him proceeding with such a remark.

him proceeding with such a remarkable utterance.
Col. Matheson said that Mr. Studholme had used such outrageous lan-guage that the least he could do was to withdraw it. This, however, Mr. Studholme re-

fused to do.
'If he quits interrupting me I won't tell him to shut his mouth. If he continues I'll repeat it. I am a working man with sons, and I speak on principle," he said. Miss Holmes had a petition from Tilisonburg people supporting her ap-plication, but the Dental Society objected. She herself made a strong appeal, and was at last accorded the privilege of practicing for two years, during or at the end of which time

COLONIAL RECIPROCITY DESIRE OF BRITISHERS

Associated Chambers of Commerce Pass Resolution Asking Favorable Negotiations.

London, March 7 .- At to-day's session of the Associated Chambers of Commerce of the United Kingdom, which are holding their annual meeting here, a resolution was adopted, asking the government to conduct negotiations at the forthcoming colonial conference with the object of promoting reciprocal trading within the British empire.

Robert H. Roade of Belfast, president of the Chamber of Com-merce of that city, who moved the resolution, contended that the colonies were denied preferential treatment and that if this was further refused they would look elsewhere for better treatment, and Canada, in particular, would seek for reciprocity with the United States, thus leading to the dis-

TAXATION ON NATURAL GAS

Intended Only to Apply Against Companies - Mines Tax Approved

A brisk debate yesterday on the second reading of the bill imposing the made the strongest speech from the government benches, and among the opposition A. G. MacKay talked good sense, and was followed by Messrs. Harcourt and Hislop in distinct approval. C. N. Smith was the chief speaker for the down-trodden mine owner, and a few others objected to the tax on oil or gas. It was made clear that the tax would be adjusted as equitably as could be arranged.

A bill amending the Succession Duties Act, introduced by the provincial treasurer, consolidates the previous acts. The only new clause ancreases the sum exempted from lexitin in small legacies from \$210 to \$330. Concealment of assets is visited by a penalty of 25 per cent of the duty.

An act to amend the University Act, introduced by the prime minister, enables the governors to borrow money up to \$2,000,000. Such loans and all the etails must receive the approval of the lieutenant-governor in council.

Two other bills introduced were Mr. McColg's, respecting the sale of lands by the Canada Co., and Mr. Pattin-son's to amend the Public Farks Act. The bill creating the judicial district of Sudbury was given a second read-ing, the leader of the opposition say-

ng they were all agreed upon the ne-essity of the measure.

Gas and Oil Taxation. Hon. Frank Cochrane, in moving the second reading of the mining tax bill, said that to tax oil was to tax a necessity of the people in many parts of the province. Natural gas was a luxury over and above what others enjoyed outside the gas districts. He joyed outside the gas districts. He was unable to extend the bounties for the refining and sme ting of cres to iron, but would assist the iron industry by remitting the tax on iron ore refined or smelted in the province. He cited Australia, France and other countries as precedents for the imposition

of a mining tax.

Col. Atkinson spoke up for the natural gas interests.
Mr. Clchrane observed that details had not been worked out, but were left to the committee of the whole. It was not the intention to tax farmers who have sunk their own wells, but only hose who are engaged in the business

T. H. Preston (Brant) was glad to have the minister's explanation. In Brantford they had formerly paid \$...20 to \$1.50 per thousand for gas, but now had natural gas at from 20 to 60 cents. To tax it would be as bad as to tax Premier Whitney twitted Mr Pres-

ton with the "natural bald fact" that gas had been taxed for three years and vet he had never seen any evil in before. The government could not put an export tax on, and the Domin-ion government had already been on point of disallowing the existing The only thing they could do was to put the tax on all and grant a rebate to the local consumer. Nova Scotia, he observed, derived a revenue of \$500,000 from a tax on her coal. Mr. Preston pointed out that the natural gas tax last year amounted to \$3800. If this were all it was not so

Premier Whitney remarked it was Booth, head of the Volunteers of such a bugbear after all. Dr. Jessop suggested that if the re-

In response to Mr. McColg, Mr. Cochnot heard of the arrival of General rane said meters would not be adopted. Booth, his father in this country un-

Allan Studholme commended Mr. "I have received no message from Cochrane's declaration to the mining my father since last fall," he said. delegation that the day was past when a minister considered whether he was gaining or losing votes. On the stand municated his desire to see me for that he was acting because ne was any purpose whatever. I am waiting right, Mr. Studholme was willing to that amount should be returned to him fight for the minister of mines. Richard Harcourt thought it was the without tax and perhaps twenty per cent. more. The bill should not start with annual profits, but with capital actually expended. Let him get that

be glad to meet him on the basis of poor man who benefited from natural gas in the Niagara peninsula. In It had been reported that General last five years the exports of gas had William Booth, as head of the Sal- gradually lessened, and the home convation Army, would try to bring about sumption proportionately increased. a urion between the older organiza- There was no wish on the company's tion and the volunteers thru his son, part to evade fair taxation, and home but the latter declared the principles needs should first be met. While apupon which the two organizations proving of the principle of the bill, he were founded are so different that a begged that legislation be moderate, union is impossible.

Le said the heads of the Salvation liminary or introductory. Afterwards from are autocrats, and the leaders if successful, it could be increased.

Fears Universal Suffering. C. N. Smith fought the bill tooth and nail. It would put control of the mines into the hands of wealthy men and ruin weaker ones. Nipissing stock, he declared, was held in every town and village in the province, and a tax would cause universal suffering. He drew a mournful picture of the poor prospector, who had to spend \$1000 to \$1200 before he could register a claim, and who would now be taxed out of existence. Why not tax the Canada Co., he suggested, or the Anglo-American Iron Co.?

Mr. Cochrane replied that the pros-pectors were not taxed in any sense. The government gave them equal value for the license fee charged them. Under the old government they had to waste a week coming to Torento to register their claims. No mine had more than \$10,000 working capital, and many had none at ali.
C. N. Smith: They have not start-

ed to mine vet. Hon. F. Cochrane: No, but they have taken out \$6,000,000 worth of ore already. Mr. Smith interrupted later on to say that the Nickel Trust had fixed prices.
"The nickel trust supported you.

You shouldn't kick now," was Mr. Cochrane's retort. I. I Labrosse declared that a large part of his little fortune was invested in mines. He did not agree with all that had been said by the miners of the north, but he wanted the bill postnoned, and warned the government not

substantial percentage should be ex

R. R. Gamey insisted that the

question was whether a reasonable tax should be levied. The mining men had assented to this, and so had the

opposition. The principle was that when there was a substantial profit

the government should have a portion. Suppose the tax were 3 per cent. and

\$100,000. The amount of taxation

would be \$2700. Did anyone suppose

this would cause any injury in such

that any mining company's business would be interfered with. Mr. Gamey

believed the overcapitalization in Co-

balt was enormous, and must come to

an end sooner or later. The tax might be blamed for this when the inevit-

able collapse occurred. Liberals who had advocated and imposed a royalty

on the ore at the mine-mouth, irre-spective of whether the mine was

Speaking recently, Mr. Choate, formerly American ambassador to Engliand, declared that there is no danger to American institutions in the continued flood of immigration from all Caucasian races, but that on the control them find it canada. Third States or Great Britain.

They also include postage all over canada Third States or Great Britain.
They also include free delivery in any part of Toronto or suburbs Lacal agents in the stock of American blood. This is a thought of great interest to Canadians. What we are in the habit of stood how arguments continuet to be put forward to the effect that a rail-

HAMILTON OFFICE_

DETROIT, MICH-Wolverine News Co., tions to which our statesmanship can

state is divided into two districts, one make certain the after reaping of a comprising Greater New York and the like evil harvest? other the portion from Westchester County north. It is said by those who have seen the proposed act that it is one of the most sweeping ever proposed in the interests of the people and is in effect a new declaration of which he is prepared to stand or fall, and he looks to the people to com-

tion from the surplus products of the pel its entrance on the statute book. To the commission for Greater New soil. The effect of these rules would York and the general public service undoubtedly have been to throw the commission for the state generally are given the powers of a supreme court and the bill is a straight endeavor to compel public service corporations to fulfil their obligations to the people. Its chief points as summarized by the New York press are these:

The books of all companies having a franchise from the state or cities must be on record for the commission. No franchise of any corporation shall be assigned, transferred or leased without the approval of the commission.

No steam or other railroads shall purchase or acquire the stock similar corporation, nor shall any gas or electric light company consolidate with or acquire the stock of a similar corporation lidate with or acquire unless with the consent of the

There shall be no transfer of any stock to any other corporation, except as collateral security, than ten per cent, of the capital stock. The commission may approve or

disapprove the issuance of stocks of any public service corporation, but is forbidden authorize the capitalization of franchises except to the extent that the corporation has actually paid off such franchises to the state or to the municipality. No two corporations shall merge their franchise for the purposes of capitalization, and the commission is expressly forbidden to authorize the capitalization of any contracts for consolidation or lease.

commission may fix just and reasonable rates in any city, town or village, or in the state as a whole, either as to railroads, gas or electricity; shall order adequate service as to cars, motor power, time schedule, safety devices and hours of employes.

The commission may obtain writs of injunction or mandamus. or enforce its orders otherwise in a court of competent jurisdiction; and penalties are provided against corporations as to fines and against individuals as to imprison-

Complete control of franchises in railways, gas and electricity is provided. The exact money cost of all improvements must be made a matter of detail. Not an ounce water can get into any stock. When more than a fair return on the money invested is earned the commission can cut rates. It will have complete control in saying whether there is adequate service a surface or other railway, lines, and this concerns not only pas-

sengers, but freight rates. The proposed measure shows in a remarkable manner the new appreciation which is everywhere making itself visible, regarding the duties to the people incurred and claimable from public service corporations. Their claim has hitherto been that such matters as rates and service only concerned themselves and that they were entitled to extract all they could out of the pockets of the people who had given them their franchises to operate and whose necessities gave these their value. What is now being demanded is proper recognition by the franchise-holding corporations of their duty as public trustees to give an efficient service at the cheapest rate compatible with a fair return on the legitimate expenditure required to establish and conduct the enterprise. On no other basis can the public demand be satisfied, and it will be

by the straight ownership and oper-tilled spirits. It does not seem howation of public services by the people ever, that there are any risks of this

be as successful in Canadianizing the the fair value of the property being This is one of the most important ques public. tions to which our statesmanship can

Senator Decides to Stav Until All Difficulties Are Surmounted: Meeting Harmonious.

difficulties.

Frederic Nicholls of Toronto, who stated that he represented over 50,000 shares, said these interests wanted harmony. The directors of the Coal Company had shown a disposition to meet him in a business-like

Money cannot buy better Coffee than Michie's finest blend Java and Mecha, 450 lb.

Michie & Co., Limited

and fair-minded way, and it was a result of this that he had decided to make the vote for the adoption of the report and election of directors unanimous.

The election of the board of directors resulted in two changes—James Crathern of Montreal and J. Kerr Osborne of Toronto taking the places of G. Herrick Duggan and C. Fergie.

J. H. Plummer, the president of the Deminion Iron & Steel Co., dropped in just as the meeting was being called to order, and sat beside Hector McInnes of Heilfar, one of the solicitors of the Steel Company. Among the other Steel Company directors present were: William McMaster David MacKeen, Frederic Nicholis and Senstor Georgea. Cox.

Sir William Van Horne, whose name was on the proxy representing the warring faction, was not present.

TO CONTROL TELEGRAPHS

Senator Davis Brings Up Important

Question Affecting Railway

Commission's Power.

Ottawa, March 7 .- (Special.)-In the

stinte to-day, Senator Davis moved for the

at tell timent of an expert to control tele-

git obs and telephones under the railway

He s.id that the telegraph systems in

Conada were inefficient, particularly in the west. It was no ancommon thing for a man there to send a message to inform a triend in a neighboring town that he was coming, and ma when he had completed his jointly, that the message had not been adverted and would not be until several twars afterwards.

Sometor Davis thought the time was coming want the legislation and foliations are

ing when the telegraphs and felerhone sys-tems vould be taken over by the govern-areas, there were many reasons why this

was uc. l. able. One was that the te egraph

companies were in the hands of the great railway companies and it was not desirable that all the news furnished to the press

should have to niter then their hands. It was not descrable that business transactions should be exposed to them in the some way. A good de I had been heard

latery about the telephone "astening limits," senator Davis said he had as

twin the fullway companies had a similar "listening" system in connection with the

Senator Davis said telegraph rates un-arry discriminated against the west. It has no more trouble to send a message thousand miles than to send it a hun-

fred miles, if there were no repeating, firewever, the telegraph companies charged according to distance and charged the west more than the east. He wanted a uniform the without regard to distance. The charge for smalling a measure from Ottawa

the without regard to distance. The charge for sending a message from Ottawa to Halinx, 949 miles, was 30 cents, while the charge for sending a mess ge from Ottawa to Fort William, 660 miles, was 75 cents. Senator Davis gave a number of statements of charges and distances, showing rates were much higher in the west. Another trouble was with the press rates. In the east despatches could be sent anywhere for 25 cents a hundred words, while to send a message from the east to Winnipeg cost 50 cents a hundred words and to

McCUAIG—BROWN — Ou Wednesday,
March 6, 1907, at Holy Trinity Church, Reatrice Maud Brown.

DEATHS. BRAKE On March 7, 1907, at Toronto, William C. Brake, beloved husband of if it is to the advantage of Canada to Dolly Van Allen, in his 3fth year.

O'Connell, aged 71 years. Funeral will leave her late residence

noon, at 2.30 o'clock, to Prospect Cemetery.

SINCLAIR—At his residence, 215 Sherbourne-street, Toronto, on Thursday, the 7th March, 1907, James Sinclair, aged 87 years.
Funeral on Monday, the 11th, at 2.30 o'clock, Interment in the Necropolis.

FIRE AMONG CHEMICALS.

\$5000 Damage Done to McLaughlin

Co.'s Storehouse Last Night. where for 25 cents a hundred words, while to send a message from the east to Winnipez cost 50 cents a hundred words and to wire a press message beyond Winnipez cost a dollar a hundred. The result was the press was deprived of news because the papers could not afford to p y for it. Senator Davis chaimed the people in the west were charged twice as much for long distance telephone service as in the east. How, R. W. Scott said the value of a service depended on conditions. The line to Hallfax lay thru a populous district, while to Fort William the line had to be maintained thru a wilderness. He had an idea what this meant, because Canada paid about \$50,000 a year to maintain a telegraph line to Dawson.

Commission Hay Power. The fire department battled with difficult and dangerous blaze for 3 hours last night. It broke out in the storehouse in rear of the J. J. Mc-Laughlin chemical and mineral water works on Sherbourne-street, opposite Moss Park-place, and the a couple of times the flames just got into the main building, yet the firemen were so in earnest that the damage was practically confined to a portion of the storehouse. The damage is estimated The smoke was terrific, and the firemen had to work for all they were worth. Chief Thompson, who was one a year hence. It would be all right,

of the first to arrive, gave the men great praise for their performance. He had received a memorandum from the railway commission stating they had all flames were first noticed about railway commission stating they had all the controlling power over telegraph and telephone companies Senator Davis proposed to give them. The commission employed the sort of an expert asked for. Hon Mr. Stot: could not :ccept the motion, but would be glad to call the attention of his colleagues to what Senator Davis had stated. 9 p.m. and 2 alarms were sent in, one from Sydenham and Ontario-streets, and one from Queen and Sherbourne. Secator Davis said he would, not only on

Setator Davis said he would, not only on the Hallfax and Fort William comparison, object to the rates, but he would call attention to the effects of 75 cents for a message from Winnipeg to Edmonton, or Winnipeg to Calgary between which points there was more local business than over any lines in the east. He would withdraw the motion, but knew that time and public opinion would carry litto effect what he advocated. He did not think the railway commissioners had control of the telegraph of the storehouse, on the cond floor, is a lot of heavy machinfierly. The floor sagged a foot, and the ery. The

dustry was to make St. John, Halitan, Sydney and possibly a port in Newfoundland, nationality and confidence in our own country. Let us weld all these things together so that they will go to make what we desire to O'CONNELL—At her late residence, 730 will go to make what we desire to have. Let us have the courage of our convictions—not only a belief in the national policy, but a determination

to realize it.
Build Up Canada, at 8.30 Saturday morning, to St. Mary's Church, thence to St. Michael's Cemetery.

PARKIN—At 871 West Kingstreet on PARKIN—At 871 West King-street, on ed, more confident to work out our thursday, March 7, 1907, Ruth Adeline, own destiny," was the conclusion, "and most of all, to build up our own country, even if for the time being it may entail some apparent injury to our the strength of the strengt Interment at Lindsay.

SCOTT—On Thursday, March 7, 1907, at 48 in the direction of nationality, is ob-West Lodge-avenue, Mrs. Elizabeth Scott, mother of J. J., George F. and Jabez but any sacrifice we make in this direction must be of a temporary nature, and the ultimate result will be to upbuild and strengthen our nationality Mr. Roche (Halifax) said that had looked upon the resolution as harmless, but Mr. Kemp apparently regarded it as a bombshell and liable to disturb relations with the United States. Mr. Roche thought this unimportant. The British preference had been designed as a material gift to the motherland, prompted by senti-ment, yet one from which we hoped

for great financial benefit.

Premier Says Wait. Sir Wilfrid Laurier sad that the principle involved in the resolution had been approved by every speake except the member for East Toronto (Mr. Kemp). A more difficult ques-tion was this: Is the time now opportune for its application? Since confederation, our national policy had been to build up Canadian ports and harbors. That policy would not be abandoned. That ultimately the policy embodied in Mr. Logan's resolution would be adopted every one would admit. It was not, however

say, in 1911, when the G.T.P. completed. He could not agree with Mr. Kemp in fearing the ill-feeling of the United States. We should make ourselves independent so as not to be depen-

idea that we ought to get rid of it. It benefited Canada to have United States good carried thru Canadian territory on Canadian radiroads. He opposed the Logan resolution, and deprecated any action that might be construed as an unfriendly act by the United States. It would invite reprisals that might be far-reaching, and inflict incalculable injury upon Canada. He favored an investigation of the whole subject:

Mr. Foster stirred up the minister of customs, and a brisk debate ensued. In which R. Le Borden participated respecting the attitude of the government in 1994, and the inaction of the tariff commission in not investigating this question.

Dr. Sproule pointed out the inconsistency of the premier and the government upon this question, and Dr. Deniel Comservative, New Brunswick) urged the minister of finance to define his position.

Mr. Fielding said that a resolution corresponding to the Logan resolution had passed the house in 1994 without gloves. He asked him if the was an advocate for the crown and not an unbiased expert. The intrees without gloves. He asked him if the was an advocate for the crown and not an unbiased expert. The intrees without gloves. He asked him if the was an advocate for the crown and not an unbiased expert. The intrees without gloves he asked him giving that death certificate, eliminating the strychnine.

Would Dr. Kerr have been justified in giving that death certificate, eliminating the strychnine it dependent. He was satisfied however, that the facilities were sufficient even now to carry out Mr. Logan's resolution to

now to carry out Mr. Logan's resolution. However, he declared his ad-"I would say so."
Dr. Edgar admitted there were not lution. However, he declared his adhesion to the substitute suggested by the first minister.

Mr. Barker (West Hamilton) opnosed the resolution. Many imports from British possessions in the orient tame to Canada exclusively thru New York. That was a trade fact that no resolution passed by this house could possibly affect.

Mr. Bristol agreed with Mr. Barker and quoted Hugh Blain of Toronto as expressing similar views.

The Laurier substitute was carmany symptoms similar to those usually present in strychnine cases.

Dr. Kerr of Dunnville stated that he visited the Perkins home on the Monday before Christmas, in response to a message from Mrs. Perkins. He saw Henry Perkins and talked with him about his illness of Sunday. Perkins spoke cheerfully and thought that his wife was unnecessarily alarmed.
"What do you think was the cause

of death?"
"I could not tell. I questioned those "I could not tell. I questioned those at the death-bed for symptoms. I told them I was not sure what the cause of death was; it would be impossible to tell unless there was a post-mortem. This, Mrs. Perkins did not want."

"What did you conclude then?"

"Perforation of the stomach was the only thing I could suggest. Mrs. Perkins said, 'We will let it go at that,' and when she said this I gave the certificate, which I now regard as a mistake."

W. Perkins, former first vice-president of the New York Life insurance Co., and now a member of the firm of J. P. Morgan & Co., has sent to the New York Life his personal cheque for \$54,019.19 to reimburse the company New York, N.Y., March 7. George take."

\$54,019.19 to reimburse the company for the Republican campaign distri-bution made from its funds in 1904, in connection with which Mr. Perkins was recently made defendant on a ney. "Perkins must have got more strych-"Did you prescribe strychnine medi-

"Did you ever tell anyone you did?"

charge of larceny.

Announcement of the restitution of the principal of \$48,500 and interest to date was made to-day by President Alexander E. Orr of the New York Life, to whom Mr. Perkins, before leaving on a trip to the south vector. Couldn't See Tablets. 'Yes; I told Mrs. Perkins, because I thought strychnine was a constituent of the tablets I gave him. I was mistaken, I left 20 or 25 tablets on Monday morning. One tablet was to be taken every three or four hours, On Tuesday, when I called, I could not see the tablets."

"Who will be a constituent of the tablet of tablet was to be taken every three or four hours, On Tuesday, when I called, I could not see the tablets."

"That will do." leaving on a trip to the south yester-day, addressed a letter inclosing the

Mr. Perkins mentions that in dismissing the criminal proceedings against him the court held the campaign contribution was not for proper corporate purposes.

He repeats that he was acting upon a request of the then president of the New York Life when he advanced to the terms of the New York Life when he advanced to the terms of the New York Life when he advanced to the terms of the New York Life when he advanced to the terms of the New York Life when he advanced to the terms of the New York Life when he advanced to the terms of the the New York Life when he advanc-

ed the money for the campaign con-tribution in 1904, and that, when the then president reimbursed him, there was no thought on the part of either "Who else was there?" "No one." The regular question put by the crown to the medical expert was answered by Dr. Kerr that, in his opinion, death was due to strychnine polof any personal advantage, but a be-lief that they were "acting for the best and broadest interests of the policyholders, both at home and soning.
The conversation that the witness

had wit hthe prisoner in reference to a proposed inquest, gave him the idea that Mrs. Perkins was opposed to the To Mr. Johnston, witness said Perkins had been complaining of stomach trouble for many years. The symptoms were the same on Monday as he had seen them lots of times before, ex-

cept that he had a low pulse
"You gave two lots of tablets?"
"Yes. Calomel tablets."
"Would you be surprised to learn
that these tablets contain strychnine?" ask the board of control to adopt the recommendation of the assessment commissioner as it is before the board of control at the present time, and that the board of control make due provision for buildings and otherwise "Y would."
"Will you swear the tablets you left
do not contain strychnike?" protect the interests of the citizens."
The foreging resolution was the outcome of a three hours heated discussion among the members of the Busi-

Not Sure About Strychnine "They may have contained strych-

majority. In the early stages the sentiment of the meeting was ofposed to the acquisitio nof the strip of land by the C. N. R. A. R. Clarke presided, Ald, Chisholm was distinctly opposed to the company securing the land without some concession in the way of permission to construct the Bloor street viaduct, and the insertich of a clause forbidding the railway to use "Mrs. Perkins did nothing to hinder you holding an inquest?"

"No."
"What was done with the medicine?" Did you tell them to throw it out?"
"Yes, Mrs. MacDonald wanted some medicine, and I told Mrs. Perkins to. throw out the contents of the bottle, which contained a prescription I had made up myself. I know nothing about the tablets."

Witness went on to say that, in his

opinion, the external symptoms came nearer to perforation of the stomach than to any other diagnosis.

Miss May Moody of Canfield was the first witness after lunch. Miss Moody keeps a store at Canfield and was well acquainted with the misser. acquainted with the prisoner. She had talked with Mrs. Perkins about the state of her husband's health. She had stated that her husband was very

WA Iturray & Colonia. Toronto.

"That will do."
"Who waited on Henry Perkins?"
"Mrs. Perkins told me she gave him his medicine."
"Did she say who gave him his perkins throw his hand up against his ald and the prisoner walking on the chest. He asked him what was wrong track with locked arms on the way and Perkins replied. "My stomach Canfield.

and Perkins replied. "My stomach hurts me."

Mrs. Viola Spencer, wife of William Spencer of Welland, who boarded Henry Perkins for a couple of months before he died, stated that Perkins was not sick a day during that time. Mrs. Perkins had visited her husband in Welland a couple of days.

Nothing Out of the Way.

"Did anything out of the way oc

cur?"

"No."

"Did you hear them talk about Perkins returning to Canfield?"

"Yes; she said that she did not want him laying around home."

Arthur Headley, a farmer near Canfield, was at Port Robinson Dec. 21.

He met Henry Perkins at Port Colborne and came to Canfield with him.

At Port Colborne Perkins told Head At Port Colborne Perkins told Head-

ey that he was feeling fine.
On Monday night witness went to see Perkins, who was sick and had sent for him. Perkins told witness that he would not go back to Welland on Wednesday if he felt as poorly as he did at that time. Witness further said that for years

Perkins had complained of his stomach, and four years ago said that he was suffering from rheumatism.

John Perkins of Winnipeg caused quite a stir when he was called to the witness stand. A man of 35 years of age, he was a younger brother of the late Henry Perkins.

County Crown Attorney Murphy read the letter written by the prison-

er to the witness.

He returned to Cayuga on Feb. 3, 1906, and saw the prisoner on Feb. 6.

There was something about the will

"She said," continued the witness
Opposed Will Contest. that as Henry left no will she hoped there would be an amicable settle-ment. I said I did not come here for of her husband's health. She
ed that her husband was very
ind it was only a matter of a
this.

Driven Away by Dr. Chase's

that, I came here to see who poisoned
my brother and I hoped she would
help me. I asked her if she thought
Henry committed suicide, and she said.
Henry would not go such a thing.
If he got strychnine, she said, it was Dr. Kerr that give it to him."

Mr. Johnston took the witness, who admitted that he had not been on pretty food terms with his brother at altho he had written four or five times to Henry at the time of his father's death.

"Yes. There was hard feeling between the family and Mrs. Perkins after the death."

"Didn't your sisters write to you that, I came here to see who poisone my brother and I hoped she would

"Didn't your sisters write against Mrs. Perkins?" "I won't swear that."
"Will you deny it?"

"No!"
"Did you ask her what she knew" "Yes. I said she ought to help find out who killed him, and she said that she was accused, but that they would have to prove it, and she would spend every dollar in defending herself," That is just what you would say if anyone accused you?"

"Yes."
Fred Dilts, a railway section man of Canfield, boarded some weeks with Mrs. John MacDonald. He knew the prisoner well and had seen her with Thomas MacDonald, standing beside the store with their arms around each other. (Hisses.)

Walked Up Hall Together.

walked Up Hall Together.

"Did you ever see them walking up the hall together?"

"Yes. I thought it was funny for a married woman to act that way with a young man."

"Did you ever see anything else?"

"Yes. They were together at picnics."

"If somebody had not been talking to you, you never would have thought anything?"

"No."

"You swore it was wrong. Who first talked to you?".

"John Perkins."
"Oho! The man who had his eye

To Mr. Johnston he thought nothing of it, but had been brought here to tell

of it, but had been brought here to tell this.

Homer Ashburne of Canfield runs the electric block signal. He had seen the prisoner and Tom MacDonald once together.

Thomas MacDonald stated that he was a hardware merchant.

"Do you know prisoner?"
'Yes." "Since when?"
"Since they came to Canfield."
"Was there any change in relations
in June, 1906?"

in June, 1906?"
"Became more neighborly."
"Did she tell you what property her husband owned?"
"She did not."
"Did you know from her what money she had earned herself?"
"She asked me to guess; then she told me \$500."

told me \$500."

'Did she ever speak to you or your mother about Henry's making a will?"

Never Mentioned the Will, "She never spoke to me." Witness had often been to the pris-

oner's house.
"What were her feelings towards Mr. Johnston objected and the witness said "I don't know."
"Did she ever compare you to her late husband?"
'Not as far as I can remember."
"What did she say about her hus-

"Nothing." "Have you ever been alone with

"Yes."
"How late did you stay?"
"After 12 o'clock, maybe."
"Ever with your arm around her?" "Yes." -"Ever been driving together?"

"Yes, once."
"Ever walk from Junction to Canfield with her?"
"Yes, once." "Two weeks prior to the death, when she returned from Welland, what report did she give of Henry's health?"
"She never told me."

"Have you been asked and pressed to tell a different story than you are

"Have you been pressed to say that you had improper relations with this woman? "Yes."

"That will do." County Crown Attorney Murphy wanted to clear the skirts of the prown. Mr. MacDonald's statements were read to him by Mr. Murphy. No Priming by the Crown

"Was any advantage taken of you by the crown at all?" "The statement was not my words."
"Was the substance?"

"Did you not say that she said she would like to have a man like me and then revise it?"
"I told you she never said that."

"Mr. Murphy is not reflected upon for a minute," said Mr. Johnston; "he was not the man that made the threats against MacDonald?"

"That is the case," said Mr. Murphy, "That closed the case," said Mr. Murphy: "I shall request the court upon the evidence to send the prison-

er to trial.".
"We have considered the matter," said Magistrate Cline Harrison, with-out looking at Magistrate Cline, his colleague, "and we will send her for

Mr. Johnston jumped up. "There is not a tittle of evidence to connect this woman with any poison at all and, granted that he died of poison and strychnine, there is nothing to connect the prisoner with it. I am surprised that such a thing would take place in this county, and I mean what I say."

CASTORIA Bears the Bignature Charff Flutchers

SPECIAL FARMING & LIVE STOCK EDITION

LET THE LEGISLATURE ACT. It stands to the credit of the oppo sition and to several members of the government in the local house this week that the agricultural industry was upheld in a vigorous debate over paltry \$4000 in the estimates for the assistance of fruit growers in the province. When one considers the great importance that the various branches of agriculture bear to the industrial life of our people, and then sees how little attention is really paid by our legislative bodies to the encouragement of these branches, he is bound to ejaculate some very anarchistic remarks about the rights of al; things mundane. Often the least deserving of enterprises, by a specious argument and a dogged persistence, obtain concessions and an importance lows, as president of the Shorthorn out of all proportion to their place in the business and economic world. As is ever the case the unorganized, Guelph Fat Stock Show. So that quiet and long-suffering, are allowed when such a man announces a sale of to go unnoticed by the public and the governments who are elected for just the purpose of obtaining justice and wise direction for all the varied branches of the body politic. Agriculture has ever come under the latter category. Agriculture suffers from lack of organized effort and efficient governmental direction. It has been the buffer for all kinds of wars between labor and capital. It has borne the brunt of seathing denunciation for mactivity and wastefulness. The farmers have been on the spit long erough and apparently many are waking up to the fact that politics is to Peter White, Pembroke. \$330 a very poor business for a farmer. Lady Anne 8th (imp.), 4 years, to John E. Disney & Son, Consequently when a move is made to increase the utility of farm labor and produce by any man of either party, that man is backed by their support. Well might Sam Clarke, M.L.A., say that the amount of money devoted to

Now in the great question of apple marketing and production in Ontario there lies a mine guite as rich as, and far more beneficent than, the oreluden rocks of Northern Ontario. Ontario has good big orchards that can produce the best apples in the world, for we are in the garden of Canada. The fruit has the color, the Fame 7th (twin, 8 mos.), to W. it the standard of excellence for apples of all climes. But here are our vaiuable millions of bushels wasted or sent to canning factories, the farmers living on pottage as it were, with the birthright before them.

agriculture in the province, when compared with the bounteous distributions

to other places, seemed paltry in-

And it has been demonstrated time and again that spraying has saved. many orchards and made many others valuable bayond expectation. The majerity of our orchards send out fruit that is full of codling moth, fungus; and of poor size and color. All this can be remedied by proper attention by the owners. The cheese industry Lady Fine, 1 year. to Charles in Ontario has been built up by a wise governmental assistance to the efforts of the dairymen. Just so can Mina Princess, 3 years, to G. M. the fruitmen of Ontario become prosperous and the returns from our orchards to bear a handsome profit. Moreover the increased quality the fruit would create a healthier demand from abroad and thus the fear of everproduction be hanished. The adment, and it is to be hoped that some scheme will be evolved by the local house whereby the fruitmen will get that attention that is due them. This is an age of progress. It has this is an age of progress. It has been said that standing still is stagpotton, and unless the department of agriculture has its weather ear always dences for action, and unless they have setive minds at work thinking out ways and means to aid the farmers in their own efforts at progress and in suggesting steps for improvement, they will find their work unappreciated and the people sick at
the art. There is no standing still in

Gloster, 10 mos., to W. J. Shean. agriculture. Especially is inactivity in the fruit question now a crime upon our prople. Let the young members Average for bulls sold\$147.50 from Essex, Kent, Euron, West Nor- Average for all animals\$197.25 thumberland and others who have spoken stand to their guns and fight for the agricultural interests—the greatest by far in this province to-

The construction of the Peerless Woven Wire Fence is based on lasting principles. It is a practical fence—a durable fence—a common-sense fence. Simple in construction, needs no repairing because it's made right. Look at the lock above—it's the vital part of any fence. It cannot slip, but does not injure the wire. Stock cannot injure the wire. Stock cannot injure the peerless. Weather cannot harm it; that is why it lasts. If you will send us your name, we will send you our printed matter giving reasons why the Peerless is the Fence for you to buy. No trouble to answer questions, or quote prices. stocks were in thruout the entire day, and many orders remained unfilled at the close of the market. Orders for Peterson Lake were in many instances from outside points, mostly from the States. The buying of Peterson Lake by Americans is traced to the fact that the stock will shortly be traded in on the New York and Boston curbs. The new interests in this valuable property are understood to be desirous of acquiring much of the present outstanding stock, if this can be done without advancing the price, and are making overtures for purchases. So that transactions will not go thru the markets and thereby be quoted. It is believed that the control of the Peterson Lake was bought at a much higher BOUGHT AND SOLD. Name..... Address..... Address.....

Cut this Coupon out and address it to THE NORTH COBALT HOTEL CO.,

Latchford, Ont., Feb. 26th, 1907.

Messrs. Cobalt Development Company, Limited, 20 King-street East, Toronto, Ont.

The result of the work on your property is proving very, very satisfactory, as at the 4 ft. level in claim No. 1404 1-2, we have discovered a vein of mineral consisting of Smaltite, Galena, Calcite and Silver. The vein is a very well developed one, being 7 ft. from foot wall to hang wall, with pay streaks from one to five inches wide, and before much more development work is carried on, I feel quite sure that we will have a vein of Native Silver. It has been looked over by some of the best experts of the Cobalt Camp and they agreed with me that it was as good a discovery as they had seen in the Camp. I am sending you about one hundred pounds of ore from this claim. This is a fair average.

I am starting the men to work on Property No. 1, as there are some rich finds close to ours and so I think this property should be at once developed.

Sasaginaga Lake, which I esteem one of our best properties, is lying in the heart of the richest district, so you may expect handsome results. PROPERTY NO. 4

We have shafts down now, in one place 30 feet. The veins are getting stronger and becoming heavily mineralized. PROPERTIES NOS. 3 and 5.

We are now working on this property, shafts down twelve feet and six feet, vein matter seven feet wide from hang wall to foot wall. I also ran over the Townsite and find in several places that the men have got Native Silver.

The settlement is now being made to have the minerals worked, giving our Corporation ten per cent (10 p.c.) on the capital of companies to be formed on the Townsite necessary for the carrying on of their operation. This is an immense thing for our Company.

I expect within the next thirty lays, we will be bagging ore and getting ready for shipment.

(Signed) J. E. CLARK, Mine Superintendent. Toronto, February 20th, 1907.

To Cobalt Development Company, Limited, National Trust Building, Toronto, Ont.

I surveyed the townsite of North Cobalt, and consider it a perfect situation for a business centre, as well as a most healthy location for permanent homes.

The ground is dry and unfulating, entirely free of swamp, every lot can be built upon, and there is ample soil for the sinking of cellars and drain pipes on almost the whole area. Good water is plentiful, and I consider your water power well worth developing Yours truly,

G. S. ABREY. O. L. Surveyor, Portland, Maine, Feb. 20, '07.

Cobalt Development Company, Limited.

In answer to your enquiry, I beg to say that I very closely inspected the townsite of your company, mentioned in your prospectus, and I consider that it is an ideal spot, and the whole of it can be

You are no doubt aware that a number of wealthy American and Canadian capitalists have a charter now before your parliament, which, as soon as it is granted, will enable them to at once commence to build an electric railroad from the Montreal River through your townsite, along the shores of Lake Temiskamingue, and, judging from the rush to that neighborhood, I confidently predict that there will be a city of 20,000 or 25,000 in that section within the next two years.

I have much pleasure in congratulating you upon floating a substantial and genuine concern and I am sure that my friends have only to know about it to show their appreciation of its value. I am, dear sir,

Yours very truly, W. J. QUINLAN.

Wall-St. Still Highly Irregular and Weak-Less Liquidation in Canadians.

stightly better. The interence to traders was that margined calls had been met and that margined can's had been met and that these here are comments occurred to further forced selling would ensue from spraiders. Notwithstanding this, however, there was an abundance of speciarities offering at small advances and every buying order in the market was filled without distributions. firting values. The orly points of moment in the days' news were the annual meeting of the Dominion Coal Company and the annuancement of a 1 per cent, an artery divigend on this stock. News from the meeting also favored an amicable to the list of directors of the Coil Company. Each of these tended to restore conditions in these properties and the price of the shares of both the coal and seel had a firmer undertone. The other feets of the shares of both the ccal and seel had a firmer undertone. The other factor was the weekly Bank of England statement, which showed a sharp decline in reserves and a continuance of the 5 per cent, discount rate. The foreign traction and pover containes shares made poor display in the trading, altho better supported was forther was nothing to indict that this was nuch better supported than expected but there was nothing to indict the that this was nuch thing more than a temporary arrangement. Co stdering the small amount of offerings pifces on the whole must be classed as weak and the outlook at the close gave no indication that any volume of liquidation would not be met by a sharp further decline in prices. The best bid for General Electric and the contained not be met by a sharp further decline in prices. The best bid tog General Electric during the afternoon was 125 and for several issues there was practically no offering. The bank shores were stonly and there appears to be a growing investment denand for these issues at around current levels.

ments to the Bank of England. Discounts were firm. Trading on the stock exchange continued to be depressed, the pending loans and Wall-street liquidation being the dominating factors towards, decreased activity and easier quotations. Consols eased in the afternoon on the poor bank statement and home rails dropped. Foreigners declined in sympathy with the Paris advices. Rio Tinto went down to 10314. Americans, after reaching parity, owing to the absence of support in the afternoon, and New York advices, steadled the market temporarily, but prices fluctuated erratically later, and the market closed weak. Japanese imperial fours of 1904 closed at 10336.

New York Cotton.

Marshall, Spader & Co., King Edward Hotel, report the following closing prices:

One day last week the superintendent of one of the best known mines at Cobalt, the shares of which are traded in largely every day on the New York and Toronto Exchanges, came into our office and purchased a large block of Silver Bird at 15c. per share. He said he believed it the best investment offered in Cobalt shares. He backed his opinion with his money. A Mining Engineer and Mineralogist came to our office some days ago and purchased a large block of

SILVER BIRD

visit to and examined Silver Bird Mine, and had made his own assays. He said the property was even better than we represented, and that in his opinion Silver Bird would be one of the greatest and most profitable mines in the Camp. He having backed his opinion with his money needs no argument and The miners employed upon the near-by mines surrounding Silver Bird are placing their faith and

their money in these shares. These men are miners and are on the ground where they can see Silver Bird every day. They know a good thing when they see it, and are backing it up with what money Bankers, brokers and conservative business men throughout the whole country are now buying Silver Bird for investment. We strongly advise the investing public to place their money in Silver Bird at the prevailing

COBALT

dence that the dividends alone on each share of Silver Bird within this year will equal the amount for which you can now purchase it. We advise that you buy Silver Bird, and that you hold it tight, and do not be induced to part with it at less than par. Within the year 1907 everybody will be trying to buy Silver Bird at from \$1.00 to \$1.50 per share. Silver Bird will make a jump one of these days, and then it will be too late to buy it at its first

Chicago Gessip.

Ennis & Stoppani wired to J. L. Mitchell:
The wheat market has been very vacillating to-day, with prices averaging a shade higher. General trade appeared to be very nuch puzzled and held aloof, in consequence of which a fair-sized order had more than ordinary influence on prices The news consisted chiefly of reports to the effect that the Texas green bugs were moving northward, which attracted more than usual attention, and experts in various markets claimed a fair enquiry for red winter wheat. No definite announcement of

British Cattle Markets. Liverpool, March 7.—Liverpool and London cables are steady at 11c to 12½c per lb., dressed weight; refrigerator beef is quoted at 9½c to 9%c per lb.

markets claimed a fair enquiry for red winter wheat. No definite announcement of sales was made. The legitimate situation is very bullish, but the technical position is such that important developments may occur at any time, and it appears to us it is the part of wisdom to advise operating in the more distant futures. Powerful interests are opposing each other so far as the May option is concerned, and interesting times may be witnessed before constitutions.

as the May option is concerned, and interesting times may be witnessed before contracts are evened. The market closed fairly steady, with a slight advance recorded. Corn and oats—Coarse grains were rather firm early, but later on yielded to pressure of sales by a prominent cash house. There was, however, a steady undertone, and prices for the actual property were ½c higher. Oats were in good demand, and scored a further advance, cash prices keeping pace with the futures. We continue to look for higher prices.

Melady & Co. received the following at the close of the market:

Wheat—Liverpool cables were ¼d to ¾d higher, and together with numerous reports of damage to the plant in Texas and Oklahoma by green bugs resulted in more or

higher and together with numerous reports of damage to the plant in Texas and Oklahoma by green bugs resulted in more or less covering by shorts and a little buying for long account. Cash markets were also higher. The selling on the advance here was by the same parties as yesterday, and its significance is variously interpreted. The public are generally afraid that it is the beginning of the annual spring bulge, during which the wheat is unloaded on outsiders at high prices. Export sales of twenty-five boat loads were reported at New York, but clearances were only 242,000 bushels of wheat and flour. From the standpoint of supply and demand, there appears no sufficient reason for higher prices under present conditions, but as the market is oversold speculatively we look to see some further moderate advance during the near future, where sales can be made to advantage.

Corn—Liverpool closed %d higher, and local receipts were only 306 cars, but on the early advance which followed these influences the offerings of May corn were quite large, and the impression became general that a packing interest was selling out; this could not be confirmed, and is open to doubt, but it took the edge of the market. Receipts will be small until country roads improve. In the meantime corn looks like a purchase on the soft spots for a turn.

Outs—The market was ½c to %c up "(5) The immunity of private property at sea in time of war:
"(6) The limitation, and, if possible,

"(6) The limitation, and, if possible, reduction of armaments by international agreement as proposed by the British government, and house of commons, and supported by the governments of France and Italy.

"As the first Hague conference was notably influenced by and responsive to public opinion, we ask that Canadian public opinion be freely expressfor a turn.

Oats—The market was ½c to ¾c up and receipts small. There is a strong cash demand, and supplies are very small. The market is very tight and the controlling factors were good buyers to-day. We look to see oats sell higher. dian public opinion be freely express ed thru our parliament, our legisla-tures, our boards of trade, our edu-cational bodies and our churches.

rade Steady at Tuesday's Quotations-Sheep, Lambs, Calves and Hogs Steady.

cattle, 1683 hogs, 263 sheep and lambs, will 125 calves.

The quality of fat cattle was about the same as has been coming for many weeks, too many being undinished.

There was a fair trade at steady prices, upon the basis of Tuesday's quotations.

Exporters.

There were no straight loads of shipping cattle on sale. There may have been a few lots selected from loads of butchers' cattle. A few export bulls were reported at \$3.75 to \$4.50 per cwt.

Butchers.

Butchers.

Prime picked lots of butchers' cattle sold at \$4.75 to \$5 per cwt., and in one or two instances a picked helfer, 1050 to 1150 lbs, sold as high as \$5.25; loads of good, \$4.35 to \$4.65; medium and good cows, \$8.35 to \$4.25; fair cows, \$3.40 to \$3.70; medium cows, \$3 to \$3.30; canners, \$1.50 to \$2.75.

Feeders and Stockers.

A few light stockers, 700 lbs, each, sold from \$3.25 to \$3.50 per cwt.

Milch Cows.

About sixty cows were on sale, many of which were of common to medium quality, Prices ranged from \$35 to \$55 each for the bulk.

Venl Calves.

About 120 calves sold at unchanged prices, \$3.40 to \$7 per cwt.

Sheep and Lambs.

Receipts light. Trade firm for all of good quality. There are too many lambs that are a disgrace to Ontario farmers, being little more than skeletons if the wool was off. Lambs sold at \$6.50 to \$7.25 per cwt. for good quality; common lambs, \$5 to \$6 per cwt.; export ewes, \$4.50 to \$5.25; culls and rams, \$3.50 to \$4.

Housing Problem Discussed by Special Committee-Board of Control Doings.

> CITY HALL TO-DAY. 11 a.m. Board of control.

At an organization meeting yesterday afternoon of the special committee to deal with the housing problem, it was decided to ask the Manufacturers' Association, board of trade, district trades and labor council, Federation of Building Trades, board of education, Architects' Association Builders' Exchange, Associated Chari-ties, Salvation Army and City Mis-sion to send delegates to a meeting in the city hall on Thursday evening, March 28.

March 28.

Ald. Vaughan was against the plan of allowing a company to build work-ingmen's houses, the city guaranteeing the bonds. The city should do its own building. Dr. Sheard said he had at present only power to really inspect conditions in lodging houses, as the annual inspection of houses in general only took account of defective plumb-

ing and dirty unsanitary conditions in yards and lanes.

Ald James Hales thought conditions hould be personally investigated. "There is no question that the worst slums are in the lower part of Ward 2." said Ald Keeler, who with Ald Vaughan opposed apartment houses as being destructive of home life and morality, the others of the committee

thought otherwise.
It was decided to ask the police to investigate conditions of overcrowding The property committee agreed to

CEMENT CITY is positively the future Industrial Centre of Western Canada, situated half a mile north of Pilot Butte, 350 miles west of Winnipeg and eight miles east of Regina on the main line of the C. P. R., where sand and gravel far exceeds in quantity and quality that found in any other part of the Infant Province of Saskatchewan, where crystal water flows from springs giving forth the best water found on the extensive prairie.

most optimistic westerner does not claim that the West will ever be generally injustrial, but freely admits that most industrial wares which require power for their manufacturing will be manufactured chiefly in Ontario, where the raw material and power are elements side by side. The Westerner does claim, however, that the West will manufacture its own building material and that the building material of the future will be cement, sand and gravel in their various forms.

Frame buildings are too expensive, temporary and dangerous for the modern Westerner to consider as he contemplates replacing his shacks with substantial improvements, stone and brick are too expensive and must manent improvements until now and with this wide area to have constructed the required buildings. Is there anyone who can comprehend the magnitude to which the cement block business will attain? Cement blocks will be manufactured on a very large scale at one great centre and in this way they can be manufactured at a minimum of expense. CEMENT CITY WILL BE THIS CENTRE.

Simply Swallow

Many Eat as Though They Were Blind and Their Tongues Cut Out.

Dyspepsia is built on confidence-too ich confidence in the ability of your stomach to digest anything and everything you put into it. In this age we have developed speed in every line of action, and we have lso developed speed in mastication. We don't take time to eat right, and sometimes we do not eat the right kind of food. Sometimes we carry our usiness to our meals and as a result eat mechanically. We eat as though we were blind and our tongues cut ut. We simply swallow. The result is that the food we eat is

half chewed, and lies like a lump of lead on the stomach. You may deny to yourself that you abuse your stomach, but when you get a bloaty feeling, you can't deny you've

When you get brash, eructations, burning sensation's, bloating, aversion to food, loss of appetite, belching and other kindred ailments, there is not much use asking yourself, for the time being, why you suffer. The fact is you've got these ailments and the of the hour is how to get rid of them at once, so that at your next meal you may be able to sit down and look at your meal straight in the face -with a keen appetite and a smile

Just one of Stuart's Dyspepsia Tab lets will digest an ordinary meal, without the help of the stomach. One gredient of Stuart's Dyspepsia Tablets will digest 3000 grains of food. The strongest stomach couldn't do the better than one of these wonderful little Tablets can do it. Each tablet contains the strongest

digestive agents it is possible to ob-Stuart's Dyspepsia Tablets are not patent medicine. We come out and say just what is in them-hydrastis, golden seal, lactose and asceptic pep-sin. They are recommended by 40,000 licensed physicians in the United States and Canada.

And they are recommended by everyone who uses them—they can't help it, for they immediately invigorate the stomach by letting it take a rest; they strengthen the gastric juice and cause the appetite to become keen and reg-

Stuart's Dyspepsia Tablets will surely destroy dyspepsia, brash, belching, that "lump of lead" feeling, burning sensations, indigestion, loss of appetite and aversion to food. Have Stuart's Dyspepsia Tablets handy where you can take one or two after each meal. Then you will know what a blessing it is to have a good appetite and get all the good possible

out of everything you eat. You'll feel rosy and sweet. Stuart's Dyspepsia Tablets at any drug store on earth. 50c. Send your name and address to-day and we will at once send you by mail a sample package, free. Address F. Stuart Co., 85 Stuart Building, Mar-168 Yonge St.

Bill, Which Has Received Its First Reading, Establishes Politic and Corporate Body

Regina, Sask., March 7 .-- The University act, introduced by the provincial government for the purpose of establishing and incorporating a university, which has received its first reading, establishes a body politic and corporate consisting of a chancellor, a convocation, senate, board of governors and council. Is to have equal power and author-

ity to give such instruction and teaching as may be determined by the senate and to examine candidate for degrees and for certificates of honor and to grant degrees after examination in the manner provided in the act.

No religious tests will be required of either professors or students, the the right is given to any affiliated college to make such provisions in re-gard to religious instructions and worship for its own students as it

may deem proper. The maintenance of the university is to be provided out of the general revenues of the province, and by a percentage of the net receipts of the province for the current year under the succession duties ordinance and out of the fund collected by the Supplementary Act. The real and personal property of the university is to be exempted from
