THE TRUSTS AND GUARANTEE CO., LIMITED, OF TORONTO, is acting as
Trustee, Treasurer and Registrar for the Mining Stock Investors Co.
Offices--Sun Life Building, Ilamilton, Ont.
Official Brokers:
WILSON BARR \& SONS, Hamitoo and Torome.
Q The Mining Stock Investors Co. has been incorporated with, the following re-
cited objects, viz: To purchase, own and sell mining stocks, bonds and options and to conduct a general brokerage business.
The central idea of the company is the banding together for their mutual advantage of individual investors and speculators in The Insurance Agency Corporation
of Ontario, limited, As is well known the individual speculator has, single-handed, to contend with many disadvantages, not the least of which is his in-
ability unaided to adequately inform himself concerning the real merits and possibilities of the propositions into which he buys. An-
other disadvantage under which he labors is the fact that he is at the mercy of the ruling factors which control the market. The reader will readily"recognize that a strong organization of this kind with considerable capital at its disposal will possess advan-
tages which the single operator upon the market does not enjoy. It will have special facilities for investigating the merits of mines and the standing of mining companies, and wile the
to intelligently discriminate in its investments.

The company's operations will bé directed by a board of managem ent which will have in its employ one or more mining engineers and several examination of particular mines as the board may see fit to order from
time to time, and the financial experts will advise the Directors of the time to time, and the financial experts will advise the ments at which to buy and sell.
It will be generally admitted that a company thus equipped will be in a position to minimize the risks of investment and speculation, and that the individual who could not alone empioy experts to advise Besides, instead of investing his funds in one or more issues, he will enjoy the advantage of having his money spread over a wide field of
well-investigated stocks, and thus escape the danger of risking all his eggs in one basket.

Moreover, 'a corporation formed on the basis of this company will have some weight on the market, and in cases where it may be deemed advisabinate the market price for particular stocks.

Further, being strong, the Mining Stock Investors Co. will have the expert advice and the confidence necessary to take advantage of such opportunities as the present, when, owing to the South African
war and the labor troubles in British Columbia, the bottom is out of the?market. The time to buy is when everybody else is afraid to, and that is just what the individual seldom has the courage to do.

The Mining Stock Investors Co. will devote its attention chiefly
ividend-paying mines and to properties approaching that status.
An important feature of the company's programme is its intention to extend its operations to the United States, Great Britain and France. Many investors in these countries look with interest upon
Canadian mines, and the market for Canadian mining stocks can be Canadian broadened by operating aniongst them.

By way of recapitulation it may be pointed out that by taking fully investigated stocks instéead of risking it in propositions concerning which he is in a position to know nothing. Two hundred ander co are now offered the public at par, and subscriptions varying in amount from $\$ 10$ upwards will be received. Ten dollars buys ten shares. As indicated an arrangement has been made whereby the Trusts and Guarantee Company, Limited, 14 King Street West, Toronto, undertake to act as treasurers, trustees and registrars
the Investors Company, Subscribers will, therefore, send applications for stock, together Toronto. The subscription books will open this morning and remain open for a limited period.

In view of the possibility of the whole block of stock being oversubscribed, the company reserves the right to allot the shares pro
rata according to size of the applications recelved.
