I.P.R. PROPOSALS

Negotiations Are Laid Before the House-Terms on Which Stock Increase is Granted Are Also Submitted.

OTTAWA, Feb. 8.—(Special.)—In compliance with a motion of W. F. Maclean (South York), Hon. G. P. Graham to-day laid on the table the order in council approving of the increase in the capital stock of the C. P. R. from \$150,000,000 to \$200,000,000.

The order is dated Aug. 17, 1908. It sets out that the C. P. R., on Aug. 10, applied for approval of a proposed increase in its capital stock under the act (55-56 Victoria, chapter 35), and submitted a copy of a resolution of ND RAILWAY SUBSIDES submitted a copy of a resolution of

the directors that such increase is in the interests of the company. "The company represent," says the memorandum, "that looking to the business activities and interests." business activities and general develop-ments that are likely to follow a boun-tiful harvest, it is of the utmost importance that they should be in a position to secure from time to time the funds necessary for continuing the works of improvement, and for pro-viding the additional equipment facilities that are sure to be required in or-der to keep pace with the progress of the country and the consequent ex-pansion of traffic, and they ask for ap-proval of an increase of \$50,000,000 in he authorized capital, making the au-

thorized issue \$200,000,000. "The minister recommends that the application of the company be granted, provided that none of such new stock be issued at less than par, and that the issue be authorized by resolu-tion of the shareholders of the company, as provided by section 3 of the said act (55-56 Victoria, chapter 35). and further, that no part of the capital so to be raised shall be applied to the construction of any works outside

The minister further recomme that the said \$50,000,000 of stock shall not, nor shall any part thereof, nor matter how disposed of be deemed capital expended in the construction of the railway within the meaning of section 20 of the company's act of corporation (44 Victoria, chapter 1), and ada or the governor-general in council the rebel government that held possesto reduce the tolls upon the railway sion of Fort Garry during the winter of the company shall in no wise be affected by such increase of capital stock, in whole or in part, nor by the he will point out the spot where the expenditure of any such moneys in the body of Thomas Scott, the murdered construction of the railways or otherfrom consideration in determining the been under way for several weeks. amount of capital actually expended in the construction of the railway."

C.P.R. Declares a Dividend

MONTREAL, Que., Feb. 8.-At a meeting of the board of the Canadian Pacific Railway Company to-day a dividend of two per cent. on preference stock and three per cent. on common stock was declared for the half year ended December last, payable April 1 next.

It was also decided that at the same time a further sum equal to one-half of one per cent. be paid on the common stock out of interest on the proceeds of land sales. After payment of working expenses, fixed charges and the dividends now declared there is a surplus for the half year of \$4,818,232.

No army of French veterans ever loved its "little corporal" as the Mendelssohn Choir loves the musical Napoleon of Toronto, and last night he drew his baton and led them to an other victory.

Massey Hall had one of the immense and musicianly audiences which resort to the great events of the choral season, an audience, too, whose taste was manifested in the chastened splendor of its raiment, unflecked with gaudy color, but delicate in pastel tints of rare harmony. Suggestions by Coroner's Jury' -Stewart's Weird Antics After Arrest-Tragic Story as Told at the Inquest.

SHELBURNE, Ont., Feb. 8 .- (Special.)-George Ernest Stewart, the crazed perpetrator of yesterday morning's atrocities in the northern part of Melancthon Township, to-day was committed to the county jail at Orangeville by Magistrate Rutherford, and will appear for further hearing at 1 p.m. Thursday. Chief Constable Jos. Thompson and Special Constable Jeremiah Brundige escorted him to Orangeville. They drove instead of going by train as at first intended, and wisely had him heavily manacled. In spite of this he made a break for liberty on the street, knocking the constable aside, but was tripped by a spectator. In the cells last night Stewart gave very decided signs of luracy in most of his actions. Manacled as he was, he made a desperate attempt to assault Chief Thompson and attempted to lay out Reeve Thomas Babe by kicking at him. His chief amusement during the night was in dancing his handcuffed hands up and down between the light and the wall and watching the shadows made thereby. His constant plaint was "Let me out. How would you like to be in here? Let me out."
Waving his hands up and down to make shadows, as of the beating of drums, he would say, "Oh, the Orangemen are coming. They'll get you, Thompson, they'll get you."

When interrogated as to whether he had committed the crimes or not, he would answer in the affirmative, althowhen asked why he did it, he would become as dumb as an oyster. Imme-

diately after his arrest yesterday his simple answer was, "I had to do it." Had Startled His Own Folks. Endeaver is Also to Be Made to Hopeful That Meeting With the A. B. This accounts for the close watch his brother William was keeping on him the night before the tragedy. The coroner's jury this afternoon re-

turned the following verdict: and James Spanhouse came to their deaths on Sunday, Feb. 7, 1909, at their own house, in the Township of Melancthon, from the effects of wounds inflicted by a heavy club or weapon, at the hands of George Ernest Stewart, who appeared at the time he killed the said John

Spanhouse and James Spanhouse, to be of unsound mind. We strongly and unanimously re-commend that a closer scrutiny be kept upon all feeble-minded peo-ple in the Province of Ontario and that proper refuges be established, where they will be as far as possible self-supporting, which, we believe, can be accomplished by a careful consideration of the questions involved.

Word from Maple Valley late tonight indicates that William Wilson and Mrs. Gowan, two of the people who were attacked, are getting along all right and in no danger of serious results. Mrs. Stanhouse is alive and conscious, but very weak. Geo. Beau-mont, the hired man of E. J. Pound, who was very badly used up, has been in somewhat better condition to-day,

COUNCIL BY 12 TO 10 TURN DOWN CONTRAC

Ald. Farmer Proves a Surprise by Supporting the Cataract Co. Tp. Treasurer Disappears.

HAMILTON, Feb. 8 .- (Special.) - By t vote of 12 to 10, the city council this vening decided to turn down the contract for power entered into by last year's council. Ald. John G. Farmer, solicitor for the railway committee of the Ontario Legislature, was the only hydro-electric alderman who dopped to the Cataract. He opposed the Cataract last year and supported the hydro-electric, but to the general sruprise of his colleagues went over to the Cataract to-day. The question came up in the form of a recommendation presented by the special power committee as follows: "Your committee, to which was referred the power question, begs to report that we deem it in the best interests of this city to carry out the contract with the Cataract Power Company." The adoption was moved by Ald. Peregrine and Allan, and the divi-Sion was: Yeas—Ald. Crerar, Clark, Gardner, Lee, Milne, Sweeney, Farmer, Guy and Peregrine—10. Nays—Ald. Peregrine-10. Bob Fitzsimmons possesses more than an average share or confidence, judging by his breezy remarks on opening in London, England, when he was introduced at Wonderland. On taking the ring the Cornishman met with a very flattering reception, and Announcer George Harris commenced to introduce him in his usual capable manner. But he was quickly pulled up by Fitz, who refused to be termed the ex-middleweight champion, and after the M.C. had gone on another pulled up by Fitz, who refused to be termed the ex-middleweight champion, and after the M.C. had gone on another tack, and styled him the retired champion Fitz shouted. "No. sir! Now just let me explain myseif." Bob, in a loud voice, proceeded: "I am the ex-heavy-weight champion, and light-heavy-weight and middleweight champion of the world, and I do not feel a stranger. I have had 369 battles in the ring, and I am now prepared to defend the middle and light-heavy-weight titles, and also to meet anyone for the heavy-weight championship, Jack Johnson preferred. I am going to make a tour thru England, and I want to meet any of your middleweights; in fact, I would not be adverse to meeting two or three a night." Perhaps Fitzsimmons is right in his contentions, says Sporting Life, but I doubt if he will get any first-class men to face him, for obvious reaches. No man with a fair record would Life, but I doubt if he will get any first-class men to face him, for obvious rea-sons. No man with a fair record would add much to his reputation should he happen to beat Fitz (which, I think is extremely unlikely), while his stock would fall considerably if he were beaten by the "old man."

The National Sporting Club of Loudon which has just installed a new system of weights in the different classes, has abolished ringside weighing. In future conjectants will make the required weight at 3 o'clock in the afternoon, about six hours before entering the ring. This rule, says The New York-Sun, will prevail all over Great Britain, and is an excellent one, which, in the opinion of fair-minded sporting, men, should be adopted in this country without delay. Making ringside weight has been the means of beating many shoted fighters in America, including Joe Gans. The practice has enabled unserlapulous managers of fighters to take undue advantage of opponents for the parpose of weakening the latter until there is now a growing protest against it. the purpose of weakening the latter until there is now a growing protest against it. ATHLETIC FANS BACK FROM THE NEW YORK RACE

Tom Flanagan is Hero of Popular Demonstration on Street and in Theatre.

Tom Flanagan and several Toronto fans who saw Longboat beat Snrubb on Friday, returned from New York yesterday. The Indian was anxious to come, too, but was dissuaded and he will remain under Pat Powers' wing in New York for the present. It is expected that a race at present. It is expected that a race at fifteen miles will be arranged between the same pair, to take place in Bullaloas soon as the men can prepare for it.

Mr. Flanagan was the hero of a popular demonstration on landing at the Omion Station. He was carried houder high to his notel, the Grand Cenual, and lastinght at one of the theatres his presence stopped the show for a period, the crowd caling on him from the body of the house for a speech, and the comedians requesting him to step upon the stage, and in vain. He was also modest in reterring to Longboot's victory, and, while terring to Longboat's victory, and, wh general credit is given to the astute adviser for the deteat of Shrupb, Flanagan only points to Longboat as the greatest long-aistance runner of the world, he

NEW YORK, Feb. 8.—In the amarteur champlonship and novice skating races held at the St. Nicholas Rink to-night, Phil Kearney, the local expert, won the half mile and one mile scratch events, while Edmund Lamy has won skating honors in the highest classes, but the non-arrival of his racing skates seemed a big handicap for him to-night. In order to avoid trouble with the amateur skating association, however, he borrowed spare skates from other contestants, but failed to qualify in alther of the two events in which he started. Instead of issuing national bonds, Mr. Dunn would have congress authorize an appropriation for the purchase and operation of gold mines. By reason of its unlimited means, the government mining bureau could install the most complete system of perative machinery, which, with the ervices of the best mineral experts of he country, would insure results which operative machinery, which, with Mr. Dunn believes would be marvelous to contemplate.

Another revolutionary measure advocated by Mr. Dunn in the course his address, was the issuance of state bonds in denominations of \$5, \$10, \$20, \$50 and \$100. These bonds, bearing three per cent, interest, the speaker believed, would be eagerly sought by people of moderate means who ar imid about intrusting their savings the banks and who, he estimates, are now hoarding upwards of \$200,000,000 in their homes.

Gossip of the Turf.

Joe Notter and Plunger Charley Ellison have parted company. Notter went to California in December to ride for Ellison at a fancy salary, but as he found that he could not make 110 pounds he recently cancelled the contract. Notter will remain in California for the rest of this month and will then come east to sall for Eurôpe, where he will ride this year.

Lucien Lyne, the American jockey, has made a contract to ride again the coming season for Lord Ribancourt in Belgium, and will leave Lexington this week, and will sail from New York on Feb. 15 for Brussels. Lyne has been at the home of his father turfman Sanford Lyne, Larchmont Stud, for several weeks.

According to a New York paper, there will be a race meeting at the Bennings course this spring. The stewards of the Washington Jockey Club have decided to throw open the gates at their track and hold a meeting, if only to make a test of the anti-betting laws that were enacted at the close of the last spring meeting. According to the information the officials of the Washington Jockey Club have been informed by their lawyers that the bill passed by the senate was anything but flawless, and that individual betting is not a violation of the law. They contend that the decisions of the courts in this state on the subject of betting between individuals will likely be followed in the District of Columbia, if the matter is put to a legal test.

In case the track is not ready the races will take place Feb. 17.

pect of the proposed baseball league which is to take in Chatham and Windsor in Canada and four towns on this side going thru.

Some good news for the promoters of the Border League was given out by President Navin during a talk with the temporary chairman of the new organization yesterday. Earlier in the week he was asked if the Detroit Club would waive its rights on the Canadian town, that it might enter a club in a league in organized ball. He was then doubtful about the proposition naturally being anxious to avoid anything that would militate against the interests of his own club.

Yesterday he stated that the Detroit Club would be willing to allow Windsor to enter such a league in the event that written guaranty was given that a nonconflicting schedule of Windsor dates should be arranged, and that a contract should be arranged as given assurance that the organization will stand for Windsor's enganization will stand for

The contest really ended in the thirteenth round. Johnson opened by scoring with solid face and body blows, followed by half a dozen of his favorite slaps over the lower part of the back. Then Burns clinched for safety, and as they broke he swing a strong left on Burns' ear which sent him staggering, and, seeing his advantage, Johnson dashed in and, before Burns could shape again, delivered the left on the abdomen, and one of his clever right crosses on the jaw. BURNS-JOHNSON BATTLE

The first Australian papers are to hand with accounts of the Johnson-Burns fight in Sydney, Dec. 26, and all agree with the cabled stories that the Canadian was outclassed. From The West Australian

One of the Fourteen

Rounds.

In fourteen one-sided rounds, in all of which he had prevailed, Jack Johnson the colored champion, defeated Tommy Burns, the holder of the world's box.ng championship, in the presence of 16,0.0 championship, in the presence of 16,0.0 persons, the house running into £25,000 at the Stadium, Rushcutter Bay, Sydney. Except to those who had sen the remarkable capacity of Burns for taking punishment in his fight with Squires, the issue was not in doubt from the first clash of blows. Within five seconds of the commencement, Johnson slipped Burns a nasty right uppercut on the cnin, knocking him down and keeping him on the floor for six seconds. A few moments later he sent the champion to the boards again, and from this out Burns was hopelessly outclassed.

Every round terminated in favor of the negro, and long before the police entered the ring in the fourteenth round and

negro, and long before the police entered the ring in the fourteenth round and compelled a cessation of hostilities, Burns was plainly a beaten man. Thruout, however, he displayed the courage and capacity for taking punishment which did much to soften the blows which Johnson delivered not only to his adversary, but to spectators, nearly every one-of whom was obviously in sympathy with the white man. Johnson thruout fought a fair and manly battle, albeit it was contested by both men in accordance with tested by both men in accordance with the American practice of hitting freely in clinches.

The White Man's Burden.

Johnson was greatly the superior of Burns; in fact, it seemed possible that he could have beaten him in half the time Burns; in fact, it seemed possible that he could have beaten him in half the time had he so chosen. Thruout the contest it was manifest that Johnson was fighting something besides the short game French-Canadian, who took the blows showered on him, and came for more. It was an ethnological study as well as a boxing contest, and the white man's burden was too great for Burns to carry. From the beginning to the end Burns did not get what is known as a look-in. As he prevailed over Squires by a system of infighting new to Australia, so did Johnson beat him by the same tactics, and, as far as outfighting was concerned. Burns could not reach the negro. The hits he almed fell short, and the only effect was to cause a broad grin from a mouthful of gold teeth, and either an invitation to show what he could do or a nod to an imaginary acquaintance in the crowd.

"Come on Tommy," smiled Johnson
"thought you were a great infignter."
"Tommy, let's see what you can do."
"Huh! who's going to get off the side

"Huh! who's going to get off the side walk of Broadway, now, eh, Tommy?"
"Ain't I clever eh?" The last to the crowd.

For twelve rounds the contest continued, with Johnson in the ascendant, and still ascending. His immense reach enabled him to reach Burns' vulnerable points, where a smaller man would have been powerless. For instance, when in holds he was able to deal severe blows on Burns' head with his right hand shot from beneath Burns' left elbow, or he from beneath Burns' left elbow, or he would swing a heavy slap with his right hand over Burns' back.

Burns Hopelessly Outclassed.

The next argument of The Standard Club that ever asse is that bonds have to get their interest: local man greeted Sir James P. Whitif earnings are poor no dividends can be paid; therefore high-dividend-carry-ing stock, being uncertain, is better ing a tooth out at the dentist's, he did for the public than bonds. This is not speak at any length on "Canadian pure rot. The Canadian Pacific has Clubs and Their Influence on the Fureserves of millions and millions, out of which it can and will pay big dividends for years to come. Freights are dian Clubs of Ontario were obvious fixed so as to secure net surplus earnings equal to 10 per cent. on the stock; bonds carry only four per cent. THE SHAREHOLDERS HAVE SANCTION-ED A STOCK ISSUE BECAUSE IT IS BEST FOR THEMSELVES. They know what they are about-they are not out to do any service to the public or to save the public any money.

that Roosevelt, by his rate-regulating policy, caused the American panic instead of the stock inflationists. 'This is not the truth, but the reverse; the Harrimans and the Ryans brought on the panic. Read the opinion of an American judge quoted in our columns yesterday of the sale to the public of six hundred millions of watered stock in the New York street railways, which concerns into the hands of receivers. Under the law of the State of New York, passed in 1907, the public service commission has full oversight of the issue of all securities by public service corporations and it is no longer possible to perpetrate these frauds on investors br on the public who use these services. All Mr. Maclean has suggested is that we should have a similar law here. European investors will hardly touch American railways these days because of the revelations of dishonest "high finance."

As to the commission regulating rates as claimed by The Standard, we have to remember that the keynote of the commission is that they ought not to cut railway tariffs lower than what will give a reasonable return on the securities issued by the roads. Well, if there is overcapitalization, or improvident capitalization (stock instead of bonds, for instance), there must be high freights to pay all these returns or dividend charges, and the commission would be bound not to, cut control and oversight of the issue of securities they would see that the full amount realizable on all securities went issued take the form that would be least onerous on the public who support the railways. Therefore, no commission can properly regulate rates that has not control also of capitalize-

LINCOLN AND VESTED RIGHTS. Popular opinion, usually based or Yankee tradition, will have it that

Lincoln belonged to the class known as Abolitionists. The truth is that the martyred president's so-called Emancipation Proclamation was issued solely and definitively as a war measure. It was, indeed, what is known in logic as a hypothetical proposition. The procla- Judges' cham mation said virtually: "Liberty and the Union are fundamental social and political necessities for the preservation of the American nation. Slaves have rights and slave-holders have rights. Personally, and as chief magistrate, I must respect the rights of all, whether slaves or masters under state law. But the danger to human liberty and to the American Union lies in the south. Slave-labor is the chief source of the revenue of the south, and as the people of the south are the chief opponents of the union, I, as chief executive of the American people, now proclaim that unless the south lays down its arms I shall confiscate their greatest source of wealth, simply as a measure of war-

amount claimed is not ascertained or liquidated, but contested by the defendant. It looks very much as if the last amendment has confined the jurisdiction of the county court to cases where the claim has been admitted by the signature of the defendant or where something has been done between the parties which amounts to an account stated. In this case I canto an account stated. In this case I cannot accept the registrar's conclusion and think the record must go back to have costs taxed as usual on the high court scale. No costs of appeal. It would be well, I think, in cases of small recovery well, I think, in cases of small recovery where the question of jurisliction may be mooted that the judge who tries the case should also express his views as to the scale of taxation. He can better judge than any other what is the proper way to dispose of the costs, and in this way appeals from the ruling of the taxing officers are avoided.

NO PRESENT PRESSURE TO SELL.

World Office, Monday Evening, Feb. 8. Individual stocks were firm at the Toronto Stock Exchange toay, but the market as a whole was not sufficiently active to be classed buoyant. Nothing in the market surroundings had any special Juence on the trading and speculators endeavored to gauge their rations by the temper of the quotations. Profit-taking occurred to some extent from the in and out traders, but the support was sufficiently good to absorb these sales without any special influence on prices. The market is anxiously awaiting the Coal-Steel decision and this is acting as a deterrent to business. Irregularities marked the day's dealings, but the pressure to sell was not sufficient to cause distrust HERBERT H. BALL. for the immediate future.

UNABATED DEMAND Continues in Evidence for the Har-grave Shares.

Many applications have been made t have the Hargrave stock listed on the exchanges, but the large holders say that the demand for the shares is all that they require, and is in fact in advance of the sales they are anxious to make at the present low levels.
There was an unabated demand for Hargrave yesterday, transactions going over 20,000 shares. It is predicted that a broad advancing market will be seen in the advancing market will be seen in the Hargrave, and that it will lead the whole market on the upward trend. Kerr Lake registered a gain of 12 1-2 points from Saturday's closing on the Standard Exchange, and a sale was unade on the curb market as high as \$8.25.

The market in the Cobalt issues seems to have shaken off the depressing and adverse influences felt during last week, and the only stock to show any appreciable weakness was Silver Queen, this issue being still under somewhat of a cloud owing to the rumors afloat last week having brought out no official denial.

The shipments from the camp for last week were not available to-day and this was therefore not an influence on prices.

THE GOW GANDA RUSH OLD PROSPECTOR SAYS

He Never Saw Anything to Equal It-All Eyes Centered on Northern Ontario.

An old and grizzled veteran of many campaign waged in the endeavor to wrest wealth from the hidden mineral hoards of mother earth sat in the rotunda of the King Edward, reflectively chewing the butt of a half-smoked cigar. "No, sir," he said to The World man, "I never saw the likes of this Gow Ganda rush, and I've been in many a mining stampede in many parts of the world. The Yukon gold fever was something like it, but not much—not much." and the old prospector lapsed into a preoccupied silence.

It is now being worked from No. 1 shaft, but when the cross-cut is completed it will be worked from No. 3 shaft, which is so much nearer. Shaft No. 1 is 250 feet away.

The vein at the 100 foot level is very promising being a strong pink calcite. Wide portion is known Elk Lake. The The Imperial Bank of Canada has

level there is every reason to look for surprising values.

Shafts Nos. 2 and 3 have been connected at the 100-foot level.

The Imperial Bank management made a good move when they placed A. H. Seguin in charge, and gave him as assistant K. F. DeLong. Mr. Seguin will be largely increased, and the additions will be got in while there is good sleighing.

of the household year! New clothing for everybody-music lessons for the children-taxes, insurance and the bills of ordinary butchers, grocers and coal dealers-one never ceasing drain upon one's resources!

Is it any wonder that a housekeeper finds it difficult to "get ahead"? But, nevertheless, it is a wise thing to buy Furniture now. Waiting, seldom if ever, makes it any easier to spare the money from other things, whereas in this case it will surely make furniture more expensive. Some of the February prices to-morrow will save you nearly 50 per cent. in dining room furniture to-morrow.

BISLEY DATES

July 12-24 British Team May Compete in America This Year. LONDON, Feb. 8.—The National Rifle Association meeting at Bisley will be held July 12 to 24. A special prize in connection with the jubilee of the asso-ciation will be added for colonial teams, for an aggregate score in the Kolapore and Mackinnon competitions.

At a meeting of the association to-day, Lord Cheylesmore intimated that there was still a possibility of Great Britain being represented in the compe-tition to be held in America in September. The council, he said, had originally decided that, as this was the jubilee

t had been decided to reconsider the matter, and, if possible, arrange for the representation of Great Britain.

NEW YORK, Feb. 8.-His appearince as a witness here in the extradi-tion case of Oscar Slater, recently ortion case of Oscar Slater, recently ordered deported in connection with the murder of Miss Marion Gilchrist in Owing to high seas, no stop was made, Glasgow, Scotland, led to the arrest to- and all passengers were carried on to day of David Jacobs, a dealer in jew-elry, on the charge of having in 1904 robbed the Earl of Chesterfield in London of a pearl scarfpin valued at \$3000.

Jacobs had been sought ever since by the British authorities.

This being the first event of the kind held in our new department (of which we are justly proud), we are anxious to make it an auspi-

cious initiation and have gone to unprecedented lengths in preparation.

Here then is what we have arranged for Wednesday, the opening day of the sale:
