CARRY THE POWER BYLAW THAT IS THE DUTY WHICH RESTS WITH TORONTO NOW

Why You Should Vote for the Bylaw... A Point for Toronto Electric Light Co. Shareholders to Ponder Over.

Preparations are being made by the engineers working for the city to present a \$2,000,000 estimate for power distribution on Tuesday next.

The bare contemplation of such an event excites the imagination of the Electric Light Company.

The Toronto Electric Light Company is capitalized for \$5,000,000, of which the public are charitably expected to believe is invested in plant.

When order had been restored, Justice Magge said to the prisoners: "I am glad for your sake that this verdict has been reached. I trust it will be a warning to both of you that your whole lives, if not your souls, are at stake."

Mr. Robbette, in his address to the jury, held that the train had been deliberately run at excessive speed.

Mr. Jackson said to-day "I would continue to co-operate in all efforts to rehabilitate the banks now in the hands of temporary receivers."

After Two Hours Jury Declare For Acquittal --Had Been Eight to Four Other Way.

BRAMPTON, Nov. 16.—(Special).—After being out two hours, the jury in the criminal assizes, which closed here to-night, brought in a verdict of not guilty in the case of Engineer George Hodge and Conductor Matthew Grimes, charged with criminal negligence, which caused the wreck on the C.P.R. at Caledon horsehoe curve on Sept. 3, when seven lives were lost.

There was great applause, despite the protestations of the court officials. Should Be a Warning.

PIANO A MUTE WITNESS IN HUSBAND'S DEFENCE. Alfred Breakstone Files Unique Plea in Resisting His Wife's Claim For Alimony—Deliberately Denies Ever Assaulting Her.

The Dove of Peace has been a non-resident at the home of Hannah Theakstone and her husband, Alfred R. 42 Wood-street. For the second time since their marriage eight years ago the lady is seeking \$12 per week alimony, alleging cruel and inhuman treatment of herself and the family piano as her ground of complaint.

Justice Magge reviewed the evidence, which he found to be in an unfair and untrue manner, and in a way which indicates that she alone is the sufferer and meekly passive, while he is the cruel and daring aggressor.

With All Her Faults. The defendant has a feeling of affection for his wife, notwithstanding her conduct. And the her faults be not few he has offered and now offers her and their child a comfortable home.

His defence was as follows: "The defendant feels it to be most unpleasant and embarrassing for him to be required to speak ill of his wife. But, after a judge has read the plaintiff's statement of claim from beginning to conclusion, he cannot but form an impression decidedly against the defendant, which a mere denial of negligence, unqualified and all embracing, he cannot in any way serve to overcome."

JAPAN MAY STOP EMIGRATION TO CANADA. Lemieux Has Opened His Office in British Embassy—Opportunity Now to End the Trouble.

TOKIO, Japan, Nov. 17.—Rodolphe Lemieux, Canadian postmaster-general and minister of labor, who is here to consult with the Japanese authorities regarding emigration from this country, has established an office at the British Embassy and is in frequent conference with officials of the foreign office. He expects a favorable outcome of his mission.

"I am not proposing any change in the existing treaty, but desire to reach an agreement with a friendly nation looking to the adoption of a program for the future which will be beneficial to both countries."

The foreign office has notified the emigration companies that 400 Japanese will be allowed to enter Hawaii during this month and December. It is understood that the government tends to exercise a close supervision over those going as students to San Francisco.

Further Restrictions Ordained. American Ambassador O'Brien has had a conference on this subject with the Minister of Foreign Affairs, Hayashi, who has issued most stringent instructions to the inspectors, and it is understood that further restrictions are under advisement.

Paper Condemns Government. An instance of the methods employed to force the issue in behalf of the opposition, The Hochi, organ of that party and supposed to represent the opinion of the Chamber of Commerce, has published an editorial entitled "The Deception Practised by Diplomats," which gives an excellent account of discrimination against Japan, which is affording ammunition for the opposition, which is highly active, in view of the general election in 1908.

NOTE AND COMMENT

As was anticipated, the season for senior Rugby ended Saturday with the completion of the schedule, Ottawa College winning the game necessary to annex them the intercollegiate championship for the first time.

Varsity has certainly been well to the front in intercollegiate sports this year, winning five championships out of the possible six.

No one is sorry to see Ottawa College win the senior intercollegiate Rugby championship. It is in the interest of sport that the end should be passed around.

Argos lost to Tigers, but spectators at the game will henceforth say that touch line officials are the "main squeeze."

Saturday will go down in the annals of United States Rugby as a memorable one. Michigan suffered their first defeat on their own grounds, while Yale had their line crossed by Princeton for the first time in seven years.

Walter Miller, the most successful jockey in America this year, as yet, received on Friday a check for \$1,000, James R. Keene for \$1,000.33, this being 5 per cent. of the money the jockey won for Mr. Keene this year.

Patsy Donovan has signed to manage Brooklyn again next season. If Patsy could now secure "Wild Bill," he might have one winning pitcher.

Clubs will not be able to cover up their players so well now, owing to the ruling of the national commission Saturday. No player can be sold within ten days of the first drafting day of each year.

Michael J. Kelly, for several years a successful manager in the American Association and a former first baseman of Worcester of the Eastern League, is after the management of the Toronto Baseball Club.

Argonauts Lose to Tigers

Ottawa College Beat McGill--Parkdale Walloped Brockville--Tiger Cubs Defeat Dundas--Results.

Argonauts went down to defeat before the Hamilton Tigers on Saturday at Varsity Field by a score of 15 to 7. Apart from the second quarter, in which the scullers gave an exceedingly poor exhibition of Rugby, the contest was a stubborn one.

Referee Lash blew his whistle for the start at 3 p.m. Tigers having the kick-off and resuming down field, a slight breeze blew across the field, and was of no advantage to either team.

Argos lost to Tigers, but spectators at the game will henceforth say that touch line officials are the "main squeeze."

It was all Tigers for the next few minutes, the Argosmen being played off their feet. Moore started the ball rolling by getting around mid-field for several minutes, and ending with a long punt.

Argos were hurt, and the game was delayed a few minutes. Argos appeared demoralized, showing poor tackling and inability to hold their checks.

also the Toronto Electric Light Company and the Toronto Street Railway Company. It has controlled the two latter so completely that contracts for the supply of power have been entered into, not for the purpose of supplying power at the lowest prices possible, but in order that the bond issue of the developing company might be made sufficiently attractive to the English investor.

The citizens of Toronto have already been assured that with the inauguration of Niagara power would come material reductions in the cost of electricity. When the ring was in process of securing the Niagara franchises its members posed as public benefactors whose sole object it was to ensure that the people would have the full benefit of Niagara energy.

But what were the people quite recently told? That they need not look for any material reduction in price consequent on the arrival of Niagara power. To-day when the provincial government offers power at prices based on strictly legitimate expenditure and charges, the people are being told that a municipal plant would be subjected to ruinous competition and cut rates. In the same breath the people are assured that the cost price of Niagara power to the city will be more than the highest retail rate charged by the light companies. These extraordinary inconsistencies answer themselves. But the facts remain undisturbed that the light company's scale of prices stand at from \$32 to \$180 per horse-power per annum, and that the hydro-electric commission maintains its first declaration that power can be sold at much lower prices and yield a profit.

The more the situation is studied the more certain it becomes that the first and imperative duty of the electorate of Toronto is to pass the bylaw authorizing the construction of a city distributing plant. Only then will the city be in a position to meet the electric ring on equal terms. During all this prolonged agitation for cheap power, the ring and its mouthpieces have dealt largely in assertions, but they have not told the public the material things the people want to know. Nor will they disclose the true nature of the relationship among the electric companies, the character of the contracts that have been made, and the basis of the rates that are charged consumers unless and until the electors declare in unmistakable terms their determination to support the government's policy of cheap power.

The issue that will be raised by the submission of the power bylaw is very clear. Is Niagara power to be controlled by a get-rich-quick syndicate of high financiers, or is it to be controlled by the government and the city in the interests of the people? Reject the bylaw and private control is assured—pass the bylaw and the key of the situation remains with the citizens.

Political Intelligence

BRANTFORD, Nov. 17.—(Special.)—The Conservatives of Brantford assembled in large and enthusiastic numbers in this city on Saturday and again tendered the nomination to W. F. Cockshutt, M.P. who accepted and will contest the riding against Lloyd Harris, who is in the field in the Liberal interests. Among the outsiders delivering addresses in the convention were J. P. Downey, M.L.A., and Richard Blain, M.P. The party is thoroughly organized and is determined to increase Mr. Cockshutt's majority. The usual resolutions of confidence were passed.

Lincoln Liberals on Saturday nominated William Mitchell, an express agent of Grimsby, for the legislature. They decided not to put a candidate in the field for the house of commons, as the federal election may be two years off yet. Mr. Mitchell is considered the Conservative candidate. He has not previously been before the public as a candidate for office. The situation is rather complex from a Conservative standpoint at the present time, inasmuch as the St. Catharines Standard, the Conservative organ, is hostile to Jessop. It cannot forgive his open criticism of the government in the House of Commons, and declares he has no influence with the premier and his colleagues. Dr. Jessop, however, is able to boast of the unanimous support of the convention which nominated him.

Hon. A. G. MacKay left on Saturday night for his campaign in the Rainy River and Lake of the Woods district. His first meeting will be at Port Arthur to-night.

The Mount Forest Confederate (Lib.) in an analysis of the returns of the by-election in North Wellington, says the majority for the Liberal candidate was not as large as the first estimate, but "in view of the apathy that prevailed, we are very well pleased that it was no less. Throughout the contest we always conceded the possibility of defeat from this cause."

The Confederates says the element of sympathy did not count for much outside of Minto and Mount Forest, but in these two places the combined increase, 148, elected Mr. Martin.

The Oshawa Vindicator (Con.) observes: Hon. A. E. Aylesworth, minister, is in a position to pretend to be a politician and general party buffoon, but he is a flat failure. In these modern days a minister who can manage his department counts for nothing if he is not an adept at fooling the people, so Mr. Aylesworth has to pretend to be in order to give up a department in which he really should have no superior in Canada, and the Liberals are already booming from William Pugsley, the New Brunswick man who recently entered the Dominion cabinet in Edmonton's place, for the position. That Mr. Pugsley is half as well qualified to be minister of justice, no person in Canada will believe.

Commenting on the London by-election, The Godefrich Signal (Lib.) thinks "The World drew an entirely wrong inference in commenting on the Labor man as a factor in politics. The Signal says the weakness of the Labor man's position is that he represents a class interest instead of the public interest, and adds: Every man in a public position should feel that he represents the public, not simply one section of it. A member of parliament should seek to influence legislation for the public benefit, not for the benefit of any particular class. It may be true, and it is true, that many of the reforms advocated in the name of Labor are calculated to advance the well-being of the whole country. It is probably true also that the representatives of the Labor party are quite as sincerely anxious for the public welfare—for the weal of the country as a whole—as are the representatives of the Liberal or the Conservative party. But these things do not alter the fact that the formation of a Labor party in politics is a class movement, and however strongly a man may sympathize with the demands of labor he may refuse to give his aid to a movement that tends to conduct sectionalism into our politics and to set class against class in our parliaments. There is room—plenty of it—for independence on the floor of parliament, but what is wanted is independence of any party, any class or any interest except the interest of the whole people."

STAFF-SERG. SIMPSON DEAD

Well-Known Rifleman Succumbs From Acute Indigestion. The death occurred yesterday of Staff Sergeant James H. Simpson of the Grenadiers, one of Canada's most expert rifle shots. Mr. Simpson was taken ill about two weeks ago and died at the General Hospital yesterday afternoon of acute indigestion. He had held the rank of staff sergeant in the Royal Grenadiers for some few years, and was on the Canadian Rifle team and went to the old country five times. He visited Bielefeld previously as a sergeant of the York Rifle team and won the honor of winning the silver tea service given as a prize for the best aggregate score made by a member of the Canadian team.

He won the governor-general's prize on several occasions at Ottawa, and in 1906 he made the highest score in the Canadian Rifle League matches, making 104 out of a possible 108. He had in his home a cabinet filled with trophies. He is survived by a widow and three children.

FURRIERS

H. M. and H. R. H. QUEEN ALEXANDRA and PRINCE OF WALES

Cleverly Designed Stoles of Russian Ermine. A superb display of original designs in this royal fur that has received a favorable verdict from a most critical clientele. Values will be better appreciated by personal inspection rather than by the descriptions given here.

At \$45—A very pretty tie of Russian Ermine, 52 inches long, satin-lined, with divided fronts.

At \$65—A novel Stole of Ermine shows a narrow edging of Persian trimming around the neck; the shoulders are in scallop effect, beneath which extends a square shoulder cape. The whole is satin lined.

At \$110—A beautiful Victorine of Russian Ermine, with long stole fronts, broadened at ends. The cape, which is over 10 inches wide, has a narrow Stuart collar, and both cape and fronts are tastefully trimmed with insertions of lace on royal purple satin. The lining is of shirred satin.

"I AM FREE, OH THANK GOD I AM FREE," SHE SHOUTED

Mrs. Mary Sladek, Accused of Wholesale Poisoning, Acquitted by Jury.

CHICAGO, Ill., Nov. 18.—Mrs. Mary Sladek, who was tried on a charge of murdering her mother by poison, has been acquitted. The verdict was read in a courtroom last night, presided over by a judge other than the one who instructed the jurors.

Mrs. Sladek was almost in a state of collapse when she heard the verdict. She had maintained an almost stoical demeanor during the closing address of the prosecuting attorney, who pictured her as a cunning and remorseless poisoner, but grew almost hysterical when the verdict of "Not guilty" was read. Springing to her feet, she gripped the shoulder of her lawyer.

"Oh, thank you, Mr. Burres! Thank you, Mr. Jurymen!" she shrieked. "I am free, Oh, thank God, I am free!" Mrs. Sladek then turned to the charge of poisoning her mother, Mrs. Mary Mette, at her home, No. 2849 North Harding-avenue, Irving Park, last spring. The indictment charges her with poisoning her father, Frank Mette. This probably will be dropped. The state declared that Mrs. Sladek had planned to exterminate the whole family. A brief chronology of the tragedy follows:

March 22.—First attempt at poisoning; phosphorus placed in coffee. March 30.—Rat poison containing arsenic placed in family flour barrel and in other articles of food. All the family taken ill. April 5.—Mrs. Mette died.

April 7.—Third attempt at poisoning after return of family from Dunning Infirmary. Poison alleged to have been placed in father's soup. April 11.—Frank Mette died on day of wife's funeral.

April 17.—Fourth attempt at poisoning. Rudolph, Charles and Joseph Mette taken ill from arsenic found in oatmeal. Material assistance was given to the police by Joseph, Rudolph and Charles Mette, brothers of the defendant. A child was born to Mrs. Sladek after she had been incarcerated.

Her husband of the defendant, who sat silently thru all the proceedings, said: "I intend now to try to make some arrangement with Mary, so that we may live together again for the baby's sake."

PIANO A MUTE WITNESS

Continued From Page 1.

The plaintiff's story of repeated assaults upon her by the defendant. In fact, often when she was angry and had lost her temper, she said she would force the defendant by her tantalizing conduct to strike her so that she might have him for her mercy for purposes of litigation. He deliberately denies ever having assaulted her. When she loses her temper, his wife frequently becomes hysterical, and she goes into convulsions, and on one occasion, about six months ago, she fell in a convulsion on the floor and the defendant summoned medical aid for her, sending her to a doctor, as the plaintiff, while in anger, had broken the piano just previously, and should not be used.

"Two years ago the plaintiff sued her husband for alimony, and that action was voluntarily stopped, because she could not by means of it secure the sole control of the defendant's property."

The parties hereto then moved into one house, where the defendant continued his business. A telephone was installed in the house and, after it was in, the plaintiff refused to answer it or else snapped off the speaker, saying to call when the defendant was himself at home, which was often when he called would have been inconvenient.

Queered His Business. "The defendant's business receded as a result of the defendant's conduct solely on that account, gave up the business and secured employment in a non-union shop, and was requested by his union to leave, which he did. Since then the defendant drew five dollars a week from the union and has done a few odd jobs, which have not yielded him much profit."

Canned Meat For His. "The plaintiff, all along, has refused to perform her household duties, and the defendant mentions as an instance that the plaintiff for a long time has absolutely refused to cook any food for him and they have had to use food purchased in a cooked condition all the time. For years the plaintiff has insisted on working for a living as a dressmaker for the public, and will not quit it, but has been earning \$5 or thereabouts per week."

"She has covered all household expenses and rendered unnecessary her contribution thereto. Further, the plaintiff tried to induce the defendant to let her rent all the rents of the houses and control all the moneys coming into the house. This the defendant refused to accede to and a display of temper was the result."

"If the plaintiff be impaired in health it has been occasioned by her temper, which she has failed to restrain and subject to proper control, and also by the mad activity with which she engages in working at her trade, much to the inconvenience of the defendant."

The plaintiff has frequently threatened on slight pretexts to leave the defendant, and has taught their child to be disrespectful and unkind to him, as well as to regard him with aversion. Piano Will Speak. "On the night which she complains in paragraph 10, she was not at church, as she says, but at her brother's house. And nothing like what she says occurred did, in fact, occur on her return. The tearing off the wall paper occurred not then and not because of the defendant's badness, but it occurred the next week, and she afterwards had the place repapered, which it badly needed. The piano stands still as a mute, but efficacious witness, unmarked and unimpaired, to testify that it was not abused in any manner such as the plaintiff alleges."

SOME SPECIAL ACME FEATURES

Although many of the latest American styles are found in Acme Corsets, we have realized that fads and exaggerations are quickly giving way to nature's purer lines and curves. The feminine form is not intended to be crushed and manipulated into ridiculous shapes. It can be trained and developed into lines of symmetry and fashion. Hence, expert corsetiers, in the designing, cutting and fitting, see to it that the Acme follows nature's original and most beautiful lines, yet leaves the wearer her own personality. Furthermore, no matter what the figure, there is an Acme corset to fit it, and fit it perfectly and comfortably. Self-reducing, or figure-building corsets, for stout or slender forms; corsets with short or long, graceful hips, high or low busts, or increased lengths below the waist—all of these, in every size, are found in the celebrated Acme makes.

Acme Corsets, when finished, retain permanently their original shape and graceful curves, since none but high-class imported jeans, coutils, sateens, and batistes, that have been thoroughly tested for their strength and durability, are used in the making, and the fillings are of the best tempered corset steel procurable.

Skilled operators have attended to the finish. From the original design to the finishing stitches, everything has been carefully examined, and has measured up to the Eaton standard. By buying raw materials and selling the finished corset in such large quantities, and by avoiding all middleman's profits, Acme Corsets save you 50 per cent. of what you were previously paying, and they are guaranteed in every particular.

Complete Revision of Naval and Military Signs Necessary—Proven a Spy. PARIS, Nov. 18.—The treason of Ensign Ulmo, of the French navy, who was arrested at Toulon, Oct. 28, on the charge of being a spy and who, it was announced, subsequently had confessed, is now considered to be firmly established.

There is no longer much doubt that he made several trips to Germany and delivered documents to the chief of the German spy service at Brussels, which will necessitate a complete revision of the French naval and military signal codes and plans for mobilization. Nevertheless the incident is not likely to lead to diplomatic complications with Germany, as spying is a recognized institution in Europe.

The French government officially announced to-day that it did not demand the recall of Rear-Admiral Siegel, the German naval attaché at Paris, who is suspected of having participated in Ulmo's espionage.

THE EIGHTH ON STAGE

OF LONDON ON THEATRE

Singer Pummelled by Burly Stage

Manager Who Was in Love

With a Blonde Actress.

LONDON, Nov. 17.—As the result of a row which took place on the Grand Opera House stage at the conclusion of the "The Married Now" production on Thursday night, J. A. Shadrick, one of the principal singing comedians of the company, is now confined to his room at the London House with a badly aggravated face and other injuries, the result of connection with a pair of brass knuckles.

The singer's misfortune was that he was pummelled by a burly stage manager, who was, it is said, in love with the blonde actress who was to play the part of the heroine in the production.

After the show Shadrick went to Frank Nason, the manager of the production, and informed him that either he or his wife or Loring must go, as Loring's manner had become unbearable. Nason tried to smooth matters over, but the singer would not be dissuaded from his intention.

NORTH TORONTO. Wm. Parke and James O'Brien made short after-noon, and D. D. Reid and H. H. Bell moved the vote of thanks to Mr. Curry, which was heartily given.

NORTH TORONTO, Nov. 17.—The Respected Association of the Town of North Toronto certainly provide the public with good speakers every Saturday evening.

Waterworks systems should be publicly owned, and the public should be kept in mind of the necessity of maintaining them.

Both the waterworks system, sewage disposal and the public utility systems are being handled well in Toronto, without private corporations handling them.

Should a municipality be granted a franchise to a private corporation for such installation, such municipality should be the controlling interest.

Acquire Telegraph Service. By the people, it is a public utility, and as it is a success, why should not the public own it?

Own Railways, Too. The great railway trunk lines were built by private corporations.

Better Electric Service. The electric service should be for the benefit of the people, by the people.

Lineman Falls to Death. OTTAWA, Nov. 17.—While stringing wires for the Bell Telephone Company on Sparks street on Saturday afternoon, Nedeeau, 25 years old, an employe of the company, fell 25 feet and was killed instantly. He was unmarried.
