Indians Bat Carl Mays for 20 Hits—Luque Does Iron Man Stunt for Cincinnati—Homers Win for Giants.

(Canadian Press)

Cleveland, July 18.—Babe Ruth is using a new bat, which he has named "Old Sam." It is the gift of Sam Crawford, former star outfielder of the Detroit Tigers, himself a home run hitter before the days of the lively ball.

"Old Sam" came to Ruth on July 1, since when he has made 27 hits, including six homers, in 59 times at bat yesterday's games.

New York, July 18.—Carl Mays, clever underhand pitcher for the New York Yankees, stood upon the mound in Cleveland yesterday and tossed the ball to the Indians in a way that surprised the crowd.

The Browns, playing on the home grounds, made a fitting finish to their series of five straight wins over the Red Sox by winning 10 to 1. Danforth struck out ten of the Bostonians and allowed only seven hits.

In Chicago the Philadelphia Americans were unable to find the hall and the series 8 to 1, a homer by Hauser saved the visitors from a shutout.

The Robins, working on their home grounds, won the deciding game of the series with the Pirates in one inning rally, taking all their six runs in the fourth. Pittsburgh failed to score in the fourth. Philadelphia in the latter's home, when Tony outpitched King for a final score of 2 to 1.

House Demolition in Group in Prince Edward Street Begun.

The powers that be have dealt another blow to Harrigan's Alley, that famous group of tenements which once flourished in Brussels—now Prince Edward street—between York and Richmond. This morning workmen started to demolish one of the old buildings that formed the group.

There is another old building on the estate which has started to come to earth on its own initiative. It is located in the rear of the property, near St. Patrick street. A building located near it was removed recently and apparently its chief means of support were thereby taken away, with the result that it is now inclined at a very sharp angle.

Belyea At Quebec; "Great Race But The Better Man Won"

HILTON SPEAKS OF GRUELLING CONTEST WITH GOLLEN FOR DIAMOND SCULLS

Not in Top of Form Because of Drop in Temperature, But Does Not Make This Excuse for Defeat—In Good Trim for St. Catherines Contest.

Quebec, July 18.—"It was a great race," said Hilton Belyea, of St. John, speaking of the recent Diamond Sculls championship contests at Henley, Eng. The veteran sculler returned on the C. P. O. S. liner Empress of France last night, and soon afterwards proceeded to his train. He is going direct to St. Catherines, Ont., to defend his Canadian title at the regatta which takes place in about a week.

The St. John oarsman said that he rowed the race of his life against Golten, who defeated him in his second heat. He said that the course was very good, although a trifle narrower than on Canadian courses. Asked as to what he attributed his defeat, Belyea modestly said that the better man won.

"I went out there to win if I could," he remarked, "and I was fairly beaten but only by a length," he added with a rueful smile.

Both exhausted at the finish, he said that he and the victor were completely exhausted at the end of the gruelling contest. He added, however, that his condition on the day of the final, was not quite so good as on previous days. He attributed this change to the sudden drop in temperature, saying that it grew quite cold on the "big day" and, as he was not accustomed in the same degree to the conditions there, this might have had something to do with his defeat.

"However," he concluded, "I am not saying this to excuse for my defeat. I am simply stating the facts, and I repeat that Golten is a wonderful oarsman."

Belyea said that he is feeling in fine condition to defend his title at St. Catherines, but expects strong opposition. There were two shells belonging to the oarsman and they were given special handling and forwarded to St. Catherines.

At St. Catherines, Ont., July 18.—Hilton Belyea is to defend his title of Canadian single sculling champion which he has held since 1921. He will go after the Canadian title this year. Golten, of Philadelphia will go after the Canadian title this year. Golten, of Philadelphia will go after the Canadian title this year.

How to Make Delicious Cherry Jam

Sour cherries give finest flavor. Pit and crush well about 2 1/2 lbs. Cherries. Measure 4 level cups (2 lbs.) crushed cherries into large kettle and add 3/4 cup water. Tie three tablespoons pits in cloth and crush with hammer. Place with cherries to increase flavor, stir until boiling, 5 minutes only, by the clock, skim, then cover kettle, simmer 10 minutes, then remove pits. Add 7 1/2 level cups (3 3/4 lbs.) sugar and mix well. Use hottest fire, and stir constantly before and while boiling. Boil hard for one minute, remove from fire and stir in 1 bottle (scant cup) Certo. From time jam is taken off fire allow to stand, with occasional stirring, 5 minutes only, by the clock, skim, then cover kettle, simmer 10 minutes, then pour into glasses.

Principals In Case of Boston Clergyman, Who Kissed Bride

ABOVE, LIEUT. AND MRS. HAGUE; BELOW, REV. GEORGE L. PAINE.

Boston, Mass., July 18.—The Greater Boston Federation of Churches is without a secretary in the person of the Rev. George Lyman Paine.

The Rev. Mr. Paine, father of two Harvard sons and himself a highly respected clergyman, tendered his resignation after the federation's board of directors had "greatly deplored" his action in kissing Mrs. Wesley Hague.

Loss of his position is not the only matter troubling Rev. Mr. Paine, however, nor the least-painful, for he is only just now recovering from a severe thrashing administered by the young woman's husband, Lieut. W. M. Hague, U. S. N.

Mrs. Hague's story relates that the pastor came to her door, on the night of June 25, and asked her if she would like to go for an automobile ride.

"I wondered if he had not meant to ask mother, too," says Mrs. Hague, "but when he did not, I supposed his car was a good one. I was much surprised when he drove up in a big seven-passenger car.

"We rode awhile, then Mr. Paine

Rev. Colin MacNevin and Miss Alice Alden Married in Halifax This Week.

(Halifax Chronicle.)

No one was more interested in the arrival of the steamer Pittsburg yesterday than Rev. Colin MacNevin, who graduated from Pine Hill College a few months ago, and who is now pastor of the Presbyterian congregation at West and Clyde River, P. E. I. When the Great War broke out in 1914, Mr. MacNevin was a student in Arts at Dalhousie University and he enlisted forthwith. He went overseas with the 40th Battalion and served in France as a member of the celebrated lighting 25th.

During his sojourn in England he was a successful suitor for the heart and hand of Miss Alice K. Alden, a charming young English lady who practiced as a nurse for some years in Grimsby, England. When the usual landing formalities had been executed, Miss Alden and Mr. MacNevin were united in marriage. Rev. S. S. Thompson, Presbyterian Port Chaplain, performed the ceremony at Mr. Thompson's home, 24 Church street.

Mr. MacNevin is a native of De Sable, Queens Co., P. E. I., and is well

JAY BOMB THROWN FROM STREET CAR

French Give Germans Few Days to Produce Perpetrator

(Canadian Press)
Duesseldorf, July 17.—The bomb which exploded Sunday in the huge automobile parking station at Weimar, a suburb of Bochum, which resulted in the French authorities ordering punitive measures imposed upon Bochum, was thrown from a passing street car, according to the French authorities here. Several citizens, including the head burgomaster, were arrested, but all were released shortly afterwards.
Bochum today is almost completely isolated from the rest of the Ruhr. Street car traffic in the town has been suspended and all the restaurants, picture shows and other places of public assembly have been closed. The French have allowed the German city authorities until July 20 to produce the alleged bomb thrower. Should they fail to do so, more serious measures will be taken, it is declared.
The Belgian authorities at Gladbeck, near Oberhausen, have arrested forty-eight citizens as hostages to ride in military trains as a preventive against sabotage on the railways.

J. W. O'Bannon Dies, Once Millionaire

Former Head of Several Big Corporations Expires in Sanitarium—Estate in Confusion

John W. O'Bannon, who rose from office boy to the presidency of several large corporations and three years ago was reputed to be worth \$15,000,000, died on last Friday morning practically penniless in West Hill, Dr. Flavius Packer's private sanitarium near Riverdale-on-Hudson, N. Y. On May 25, 1920, when he was 51 years old, he was declared incompetent by a Sheriff's jury two months after he had been committed to the sanitarium from his apartment at 12 West Forty-fourth street.
Former Assistant District Attorney John T. Dooning and the late Henry E. Rosen, insurance men, were appointed a committee to look after his affairs. Mr. Dooning said yesterday that the estate had sunk to almost nothing and is in a chaotic condition.
Mr. O'Bannon before his illness testified to his possession of a remarkable personality. In his own words "I ran away from home as a boy of 14 because I couldn't get along with my stepfather. I started on a shoestring, saved \$80,000 out of salaries and commissions, invented a substitute for leather and marketed it through the O'Bannon Corporation, which I organized." For several years this company made the upholstery for all the Ford cars.

TO PROBE USE OF CHEMICALS IN WAR

New York, July 17.—Appointment by the League of Nations of Professor J. K. Zanetti, of Columbia University, to a committee that will investigate chemical warfare, was announced yesterday.
Professor Zanetti, who is now in England, will be associated with Sir William Jackson Pope, of Cambridge University and Professor Charles Munro, of the University of Paris. The investigation will cover the whole scope of the use of chemicals in warfare both from a humane and a military point of view.

QUILTING PARTY

Mrs. R. A. Corbett, regent of the Alexandria chapter of the I. O. O. E. entertained the sewing committee of the chapter, several other chapter members and her own visitors at her summer home at Epworth Park on Saturday when the hostess and her guests accomplished much work in making quilts. Mrs. William M. Irons is the convener of the sewing committee which has charge of the quilting. Supper was served on the spacious veranda. The tables were daintily arranged and decorated with wild flowers. A pleasing part of the entertainment was the presence at the tea table of Miss Dora Corbett, who has been an invalid for some time and previously unable to join in social gatherings. Those present were, besides Mrs. Corbett, Mrs. G. B. Taylor, Mrs. Walter Gregg, Mrs. George Higgins, Mrs. Leonard Spence, Mrs. William M. Irons, Mrs. Holly Lingley, Mrs. Rawlings, Mrs. Charles Cowan, Mrs. Charles Handline, Mrs. Leonard Lingley, Mrs. Herbert Ring, Mrs. Leslie Seelye, Mrs. Bell, Miss Etta Bell, Miss Mae Corbett, Miss Vera Corbett, Miss Doris Irons and Miss Vern Ring.

Chief Inspector J. B. Hawthorne, of Fredericton, was in town yesterday and left by the Montreal train in the afternoon for Fredericton. He reported everything quiet in prohibition enforcement circles.

Every spoonful of Kellogg's Bran helps free you from toxic poisons!

Constipation is largely responsible for auto-intoxication that leads to dangerous diseases unless it is not only checked but permanently relieved. Constipation, in fact, is the basis of a majority of human ailments which could be headed off if people would only help rid themselves of this serious, health-undermining condition, which can be easily done.
Constipation must be fought to a finish—not with pills and cathartics, which are dangerous to the delicate membranes of the intestines and temporary at best—but with nature's greatest cereal health food—Bran—Kellogg's Bran, which is as delicious as it is beneficial.
Kellogg's Bran is wonderful in its work because it is ALL BRAN. And, to get permanent relief, ALL BRAN is a necessity, for it is the "bulk" of Kellogg's Bran that sweeps and purifies, ridding the system of poisons and bringing conditions to normal. Eat Kellogg's Bran regularly—at least two tablespoonfuls daily; as much with each meal in chronic cases—and we guarantee that you will get relief permanently and naturally.
Kellogg's Bran is delicious. You do not have to learn to like it. Eat it as a cereal or sprinkle on or mix with hot or cold cereals. Or, cook it with hot cereals, allowing two tablespoonfuls for each person. Kellogg's makes wonderful muffins, griddle cakes, raisin bread, macarons, etc. Recipes on packages.
Leading hotels, clubs and restaurants serve Kellogg's Bran in individual packages. All grocers.

INSURANCE CASE IN COURT IN MONCTON

(Canadian Press)
Moncton, July 17.—In the Supreme Court here today, before Mr. Justice William B. Chandler, of St. John, rebuttal testimony was heard in the case of the Royal Bank of Canada and the D. J. Buckley estate, of Newcastle, vs. an insurance firm with respect to insurance carried by the Buckley estate, the company having refused to pay an insurance policy. Initial hearing of the case was held at Newcastle then at St. John and further adjourned to Moncton. E. A. Reilly, K. C. of Moncton; M. G. Teed, K. C. of St. John, and H. A. Powell, K. C. of St. John, are appearing for the plaintiffs, and Dr. F. Taylor, K. C. of St. John, and J. H. A. L. Fairweather, of St. John, for the defendants.

HAS PLAN TO STOP USELESS JOURNIES

(Canadian Press)
New York, July 17.—A proposal that United States immigration allotments be made at foreign rather than United States ports to prevent arrival in this country of immigrants in excess of the various quotas will be submitted by Immigration Commissioner Curran to Walter Hubbard, Commissioner-General, it was announced yesterday. The plan is that steamship companies will, by cable, submit to Washington the number and nationality of the immigrants they are bringing before their vessels depart.
Announcement of the plan followed arrival yesterday on the Baltic of nearly 800 immigrants from Great Britain, whose July quota already has been exhausted. When she sailed from Liverpool on July 7, the British quota had not been exhausted. It had been announced that all the immigrants, with the exception of those who could obtain classification as tourists, have to be deported.

What Will You Put in the Pot?

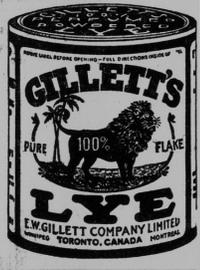

When you drink tea every cup should be a delicious refreshment—a distinct pleasure. But this demands good tea in the pot. You cannot possibly get satisfactory results from inferior tea.
Now consider the small cost of a cup of King Cole Tea—a mere fraction of a cent. Surprising isn't it? But its secret is in the rich liquoring King Cole blend which yields so generously in the number of cups to the pound.
It makes King Cole the truly cheap tea. From whichever point you view it—economy—quality—or the wise combination of both, King Cole Tea claims your preference.

Ousted From Army For Bad Heart, He Climbs Mt. Everest

Brig.-Gen. Bruce, Head of Expedition, Believed to Be Man who Proved 3 Medical Boards Wrong

London, June 8.—(By mail)—A striking instance of mistaken diagnosis on the part of three different R. A. M. C. medical boards is revealed by Dr. Claude Wilson in a recent issue of "The British Medical Journal."
In a paper on the limitation of effort in heart disease he gives particulars of a case when an officer, after three different R. A. M. C. boards, each confirming the previous decision, was discharged from the army in 1919 on account of "cardiac debility, with great enlargement," and told that "he must lead a very quiet life for the rest of his days."
Dr. Wilson goes on to describe how the officer in question had been used to climbing mountains, and came to him for advice.
Dr. Wilson examined him and found a systolic murmur, but no evidence of cardiac enlargement, and the skiagraph showed a heart of normal size.
"I allowed him to do some mild climbing and it improved his condition wonderfully, while in 1921 I let him climb as much as he liked, when he made some fine ascents and came back very fit indeed."
"In 1922 he was a distinguished member of the Everest Expedition, was never sick or sorry for a day and now looks ten years younger than he did in 1920."
Dr. H. Somerville, of University College Hospital, who also was a member of the Everest Expedition, said that the only member who had been discharged from the army was the chief, Brigadier General C. Granville Bruce.
"Whatever he was then, he is extraordinarily fit now," Dr. Somerville said to "The Daily News."
"He can outwalk me, though he's much older than I am. I think his discharge was largely due to his wounds."
"The enlarged heart in itself would not be enough to incapacitate him. The condition of the muscle is so much more important than the fact of enlargement."
In 1921 approximately 150,000 annual passes were issued by the Pennsylvania Railroad.

Louis Morris, the Indian who was arrested near Crystal Beach last week on a warrant charging him with the theft of a boat and supplies from Dr. W. B. McVey, near Kothessay, appeared before Magistrate Parlee in Hampton yesterday afternoon and was sent up for trial.

Canoeists Ignored Drowning Children

Shillwater, Minn., July 18.—Within a short distance of a passing canoe, Emil Bretzel and his eight-year-old sister, of St. Paul, were drowned in the St. Croix River last week. The boy made frantic appeals to the canoeists, which were ignored, and the paddlers kept on their course, exclaiming they were afraid of overturning their boat.

PLAN WHEAT POOL TO SAVE FARMERS

Saskatoon, July 17.—Aron Sapiro, Californian co-operative marketing organizer, is coming to western Canada to organize a voluntary wheat pool and will hold his first meeting in Saskatoon on July 27, according to a statement handed out by the executive of the Farmers' Union of Canada, which was in session here yesterday. The statement says the Farmers' Union executive realizes that western Canada agriculture "is in the most critical condition in its history and if something drastic is not done quickly it will mean ruin to thousands of the best producers in the country and, therefore, to the business of the country as well."
A great fire has broken out on the upper reaches of the Loure River, while fires are reported at Lakes Gauthier, Flammant, Soucy, Doore, Manonau, Gatico and Mauster along the Pierreche River.

MUTT AND JEFF—HERE'S ONE WARDROBE THAT NEEDS REPLENISHING

**PALATIAL HOME
NOW AMERICAN
WOMEN'S CLUB**

Organization in London has One of Most Decorative and Luxurious Establishments of Kind in World.

London, July 18.—American women coming to London should not miss visiting the new home of the American Women's Club, at 46 Grosvenor street, which was opened the first of the month, for it is one of the most decorative and luxurious women's clubs in the world.

The house formerly belonged to the naturalized German, Edgar Speyer (he was once Sir Edgar), who was deprived of his British citizenship nearly two years ago, and it is like a miniature palace. The Anglo-German spent tens of thousands of pounds on making his town house beautiful, so that when the American Women's Club bought it for £25,000 they obtained a real bargain. Only last year the house was put up at auction, but though £84,000 was then offered for it Mr. Speyer did not sell. The lounge hall is oak paneled and exquisitely carved. Indeed, this hall contains some of the most wonderful carving in London, where beautiful old houses are numerous. The staircases, which also are carved, are Gothic and Renaissance in style and were brought from old Venetian palaces. The carvings and panelings in most of the rooms are in the Italian Renaissance style. The room to be used for dancing has a minstrel's gallery and an organ. This is the room in which Lady Speyer used to play her violin. The dining room is paneled with chestnut and there is a delightful Italian court garden set with lavender-colored flowers.

In every bedroom there is valuable old furniture in keeping with the period decorations. Unlike the majority of London's big houses, this one has numerous bathrooms, the walls in each case being covered with old tiles collected by the previous owner.

Incidentally, the suite of rooms occupied by Lady Speyer is now in possession of Peggy O'Neill, who has taken them for a year. They include an altogether wonderful bathroom, tiled in exquisite blue marble, in which is sunk a deep oval Roman bath of silver. This room also has silver fittings. What has delighted the new owners of 46 Grosvenor street almost as much as the beauty of it is that the white tiled kitchen is really modern and fixed with labor-saving appliances.

The membership of the club now is between 4,000 and 6,000, full members, while associate members are English wives of American citizens.

**CHINESE OPIUM TRAFFIC
ACTIVE, DECLARE BRITISH**

London, June 26.—(A. P. By mail)—China is producing hundreds of tons of opium says Sir John Jordan, British Minister in Peking, and it looks as though she were going back to the old state of affairs before the suppression of opium by agreement with India was brought about. India, the British Minister adds, used to export 100,000 chests of opium a year, mostly to China, now her exports are only 2,000 chests, almost exclusively to the East Indies. She is prepared to reduce this if there is a reduced consumption.

He says India is loyally and scrupulously observing every provision of the Hague Convention. Turkey and Persia, he adds, must be brought within the Hague Convention, or the attempt to control the supply of raw opium must inevitably fail. Similarly it is essential that Switzerland join the convention, since that country is one of the most important centres in the world of the drug traffic. "If," Sir John declared, "the Hague convention is honestly and efficiently enforced today, the opium problem will be solved tomorrow."

**JOE LYNCH IS
SUSPENDED**

(Canadian Press.)
New York, July 7.—The New York State Athletic Commission today indefinitely suspended Joe Lynch, who held the bantamweight championship, for failing to comply with the commission's rule that champions must fight every so often in order to retain their laurels.

Joe Burman, of Chicago, automatically became champion so far as this state is concerned.

Johnny Wilson, of Boston, middleweight champion, formally notified the commission that he had accepted the challenge of Harry Greb, of Pittsburgh, for a title match. The commission thereupon approved August 31 as the date on which the bout might be held at the Polo Grounds.

CANADIAN WINS

Winnipeg, July 18.—Jack Taylor, heavyweight wrestling champion of Canada, last night took two falls out of three from Wladek Zbysko of Boston in the most gruelling match ever seen here. Taylor will be matched with Strangler Lewis for the world title.

**MAIL TO BE SORTED ON FLY
BY CLERKS IN AEROPLANES**

London, June 29.—(A. P. by mail).—A "flying mail train" is the latest type of airplane to be developed in England.

In the plane's mail chamber, says 'The Daily Chronicle's' aeronautical expert, sorters will be able to carry on their work just as they might in a railway mail train. It will have a radius of 2,000 miles and will be able to stay in the air twenty-four hours without alighting. The crew in charge will be provided with regular sleeping quarters on board. They will, in fact, work in shifts while in the air, some of them sleeping while others are on duty in the control chamber.

If necessary, when flying at night or immersed in fog or cloud, the crew will be able to bring into play mechanisms which will endow the craft with the power of automatic self-balance. The machine will virtually fly itself, and all the helmsman will have to do will be to keep it on a compass course by means of the rudder.

INDIANAPOLIS WANTS BOUT.

May Bid for Dempsey-Wills Ten-Round, No-Decision Match.

Indianapolis, Ind., July 18.—A group of Indianapolis business men are considering making an offer to stage a ten-round no-decision bout between Jack Dempsey, heavy weight champion, and Harry Wills, negro challenger, in this city, according to J. L. Baugh, a representative of Jack Kearns, Dempsey's manager, is here for a conference concerning the bout, Baugh said.

In sporting circles the possibilities of holding such a bout here are said to be phenomenal, it being recalled that Governor McCray has expressed his opposition to prizefights, and on Labor Day last year he refused to permit the bout between Dempsey and Bill Brennan at Michigan City, Ind.

INDIANAPOLIS WANTS BOUT.

May Bid for Dempsey-Wills Ten-Round, No-Decision Match.

Indianapolis, Ind., July 18.—A group of Indianapolis business men are considering making an offer to stage a ten-round no-decision bout between Jack Dempsey, heavy weight champion, and Harry Wills, negro challenger, in this city, according to J. L. Baugh, a representative of Jack Kearns, Dempsey's manager, is here for a conference concerning the bout, Baugh said.

In sporting circles the possibilities of holding such a bout here are said to be phenomenal, it being recalled that Governor McCray has expressed his opposition to prizefights, and on Labor Day last year he refused to permit the bout between Dempsey and Bill Brennan at Michigan City, Ind.

BOARD OF TRADE BIDS FAREWELL TO A. C. SKELTON

The Council of the St. John Board of Trade tendered one of its most valued members, A. C. Skelton, manager of the Bank of Montreal, a farewell luncheon in the Union Club yesterday. The chair was occupied by G. E. Barbour, president of the board. The other members of the council present were: W. S. Allison, M. E. Agar, W. P. Burditt, J. G. Harrison, D. W. Ledingham, R. A. Macaulay, H. A. Porter, H. W. Rising, E. A. Schofield, H. C. Schofield, G. L. Warwick and A. H. Wetmore.

Commons Committee To Defend Free Trade

Asquith Says Electors Would Return Same Verdict as in 1906.

London, July 18.—(Canadian Press)—At a meeting of well-known Liberal and Labor members of the House of Commons and several peers, held in the House of Commons yesterday, a decision was reached to form a parliamentary committee in defence of free trade.

Sir Alfred Mond said it was obvious that the position of free trade was likely to be challenged in the near future more seriously than in many years.

Former Premier Asquith contended that genuine Imperial preference would still involve the taxation of food and if the fiscal issue was again put fairly and squarely before the electors they would return the same verdict as in 1906.

Wm. R. Pringle, M. P., Liberal, said there was a tendency at work again to gain further protectionist ends under the guise of Imperial preference.

UPWARD MOVE IS CONTINUED

Overnight Buying Orders in Wall Street a Stimulus —Moderately Active in Montreal.

New York, July 18.—Overnight buying orders in fair volume continued the upward turn begun yesterday at the opening of today's stock market, oils and motors displaying the greatest activity. International Harvester dropped 1 1/4 to within a fraction of the low of the year on publication of the Government's suit to dissolve the corporation into three separate units.

Noon Report.

New York, July 18.—Activities of speculative pools were responsible for the early impetus to prices, with the demand spreading to a wide assortment of industrials and specialties before noon. Rail shares were quiet, yesterday's late uptrend apparently having exhausted possibilities in that quarter. The substantial character of the upward movement in popular industrials reflected the large short interest outstanding and pointed to a scarcity of stocks at current prices. Kresge jumped 1 1/8 points, and Maxwell Motors A, Montana Power, Matheson, Davidson Chemical, Utah Copper, Postum and Consolidated Graph extended their gains to 2 to 2 1/2 points each. Call money opened at five per cent.

PIRE BOARD MEETING.

Sincere regret at the passing of Dr. F. G. J. Knowlton, K. C., one of the members of the board, was expressed at 47, Illinois made an overnight resolution passed at the monthly meeting of the New Brunswick Fire Prevention board on last Thursday. The chairman, Col. M. B. Edwards, presided and others present included W. B. Snowball, of Chatham, and J. D. McKenna, M. P., of Sussex, members of the board; H. H. McLellan, fire marshal, and Charles Robinson, secretary. The fire marshal reported on the state of fires and losses in the province during the month previous and other routine matters were disposed of.

Our Sugar Export

Ottawa, July 18.—(Canadian Press) Figures compiled by the Dominion bureau of statistics show an increase in the amount of Canadian refined sugar exported during June as compared with the preceding month but a decrease of almost 100 per cent. when compared with the record set in June, of 1922.

An analysis of the bureau's report shows that 4,146,773 pounds more sugar was exported in the twelve months ending with June than in the corresponding period of 1921 and 1922. Newfoundland was the next heaviest purchaser, taking 407,864 pounds.

OPINIONS ON THE STOCK MARKET

(McDougall & Cowans.)

New York, July 18.—J. A. Payne—"Important liquidation is missing and the power of the market to resist a sharp advance on the whole which would manifest itself in sharp rallies should any good news appear." Newfoundland was the next heaviest purchaser, taking 407,864 pounds.

Josephine—"Be market demonstrates the fact that it would be susceptible to a sharp advance on any constructive developments from abroad."

Block Maloney—"The recent dullness signifies little, except public apathy, and not necessarily a sold-out market."

Houseman & Co.—"The most encouraging feature of the market from a day to day speculative viewpoint is the apparent indifference to unfavorable news and it is this feature upon which hopes of a rally are based."

Clark Childs—"American dividend is expected to be raised to 6 per cent this year and 7 per cent next year, for earnings in 1923 are somewhat higher of the results for the same months of 1922."

THE LUMBER MARKET.

Farmwork and Jardine's wood cutter dated July 1 says:

Imports with few exceptions were moderate. Softwoods were in steady request with firm prices. Stocks are not heavy. Hardwoods generally rather quiet without any material change in the market.

New Brunswick and Nova Scotia (including the Manchester Canal) received an import of 2,150 Standards, mostly arriving towards the end of the month, and still on the quay. The 300,000 tons of stock, amounting to 3,000 Standards, resulting in stocks being reduced to 6,800 Standards, compared with 7,600 Standards at the end of June 1922. The stock in Manchester is extremely low, but arrivals are shortly expected. The present situation is relieved by substantial stocks of Baltic and Central European Whitewoods. Values are without change. Ocean tonnage was to be had at reduced rates, compared with the previous month. Pine Deals—Quiet market with stocks very low.

A sudden turn in the market puts some store in a position to offer you goods of the highest grade and quality at a bargain price. Read the advertisements and save money.

BAD BUSH FIRES WORRY ONTARIO

Small Fires are Assuming Greater Proportions—C. P. R. Lines in Danger.

Ont., July 18.—Both the Canadian and American Soo have on their outskirts brush fires that occasion some uneasiness. A small fire that has been burning four miles east of the Canadian Soo for several days, last night prevailed in Florence and Portland where twenty-four hours ago good waters from nearby streams had swept through the streets, several feet deep in places. Other sections of the state which Monday and last night experienced flood conditions also reported that the high waters had cleared. Cloudbursts under the unexpected rise.

MORNING STOCK LETTER

(McDougall & Cowans.)

New York, July 18.—The market acted true to form yesterday and when the selling brought out little stock and did not take stocks through points of resistance, the shorts covered in some volume. In our opinion it is now fairly clearly demonstrated that the market is over-sold and that the price tendency for the present will be upward.

We believe that the rally will go somewhat further in rather dull trading but that the market is in such a position, that any favorable development would cause a very sharp rally. Therefore we believe that stocks yielding a high dividend return and with good earnings, are a purchase at present prices.

R. & O. was the feature yesterday on its excellent earnings and the fact that directors at the December meeting will put the stock on a 45 basis with the possibilities good for 85 being declared for the present year. We be-

Six Scale Prison Wall
And Escape In Autos

Autoist Tells of
Wild Ride With
Escaped Felons

Man, Kidnapped When Six
Fleeing Philadelphia Prisoners
Take Car, Escapes after
They Abandon Machine.

Philadelphia, July 18.—While the police continued their search through the city and surrounding states for the six convicts who made a daring escape from the Eastern State Penitentiary, Thomas J. McAllister, Jr., a letter for a local automobile sales concern, returned to this city and told a thrilling story of his kidnapping by the convicts, who stole his big maroon-colored sedan, and of the wild ride with the desperadoes to Elkton, Md.

About a mile from Elkton the convicts left him trussed and gagged in a wood and disappeared. He was rescued today by McAllister managed to free himself, drove into Elkton, reported his experiences to the police, then telephoned his wife, who had been on the verge of collapse. He was unable to furnish any clue to the present whereabouts of the convicts.

Virtually every detective in the local bureau is searching for the escaped prisoners. Late today they were summoned to Pennsylvania, Pa., in the Pottsville Valley, where they are expected by the Pennsylvania authorities to be James Williams, one of the sextet, who was serving from nine to ten years for robbery. It proved, however, not to be Williams.

With his wife's arms about his shoulders and almost exhausted from twenty-eight hours of nervous tension without sleep, McAllister related his story in the Central police station. One of the most interesting features of the story was his description of a farmer at Ogden, Md., with sawed-off shotguns and pistols, and, after binding and gagging his wife and two children, had ransacked the house.

They robbed the farmer of \$200 and a quantity of clothing and then stocked the motor car with food from his pantry.

"As I drove out Poplar street Saturday morning," said McAllister, "a truck going very fast whizzed alongside and came to a sudden stop directly in front of my car. I was forced to throw on the brakes to prevent crashing into the rear of the truck. Before I had taken my hand off the emergency brake one of the six men in the truck jumped out and ran back to my car. All the men wore blue pants and jumpers, like railroad engineers.

"The fellow who came running back to my car was Thomas J. Gillian, sentenced to from ten to fifteen years for complicity in the holdup of a mail train. He said: 'Throw up your hands, boy! He was pointing a nicked revolver at me by the side of the road. I saw it was a Sunday school picnic and the others came running from the truck that all pulled over. So I got out, and pretty lively. All the men, other than the man, James L. Malone, serving eighteen years for highway robbery, grabbed me by the collar and threw me back into the lower part of the car. In a few seconds I felt myself being picked up and saw that all the convicts were in the car, the motor of which was still going.

"Louis A. Edwards, who was brought to the penitentiary from Reading, took the wheel. Gillian, who at first seemed to be the driver, had taken the entire affair, sat beside Edwards, who was the most notorious automobile thief in the country.

"I was forced into the back seat with Malone and 'Goofy' Williams. James Brown sat on Malone's lap and George Brown, who constructed the ladder which made the escape possible, sat on Williams' lap.

"Edwards was the best automobile driver I have ever come in contact with. He drove like fury. No car in the world would have caught us. Malone had a revolver which he insisted on showing into my ribs. He said to me: 'Now, come along and be a good sport. Don't holler, because it won't do you any good. One crack out of you and it's your last.'

"After the fight through the city, during which they had many narrow escapes from collisions with other automobiles, Edwards sped south over Cobb's Creek Boulevard into the open country, where he opened the throttle wide, McAllister related.

Convicts Beg of Escape.
All the time, he said, the convicts kept up a running conversation of their escape and declared that they would never be captured alive. Brown, he asserted, told the others it had taken him thirty-six hours to make the haul, while Edwards boasted of how he had "used his head" and disconnected the telephone from the switch box in the prison yard.

"We detoured around Chester," continued McAllister, "and a little later Edwards said to the others, 'Boys, we've got to get some clothes. The wires will be hot now.' We were passing a farmhouse and Edwards drove the car right up to the door. It was Anthony Smith's place, about five miles from Wilmington.

"Malone went to Smith, who was working in a field, and told him he was wanted at the house. George Brown and Williams, with revolvers in their hands, took me by the sleeves and we walked into the kitchen. When Malone came in with Smith the convicts all stuck the farmer up. Then Edwards and one of the others went up stairs and started to ransack the place.

"When we got back into the car two of the convicts were dressed in civilian clothes. They had left their prison uniforms at the farm. The others changed their uniforms in the car. Before they left they had a collection among them and raised about \$200 which one of them ran back and left with Smith.

Drives Car Into Woods.
From the farmhouse, McAllister said, the convict car took a back road to Wilmington. Driving at terrific speed through the centre of the city, they narrowly missed hitting a policeman in Market Square. This, however, did not slow them up. They did not slacken speed, he said, until after passing Newark, Del. About a mile below that city Edwards drove the car into a woods to await darkness.

"Then," said McAllister, "we drove

Philadelphia, July 18.—Six prisoners climbed the wall of the Eastern Penitentiary at 9:20 o'clock Saturday morning after subduing two guards, slid down a rope into Conantian Street and escaped in an automobile truck, whose driver quickly dismounted and fled when he found himself starting into the muzzle of a pistol.

The convicts in their flight changed from the truck to a touring car six blocks away, and later into another automobile, and shook off pursuers after speeding through the city and crossing the Schuylkill River. They eluded the vigilance of the police all along their route through the city and escaped through the city and were not seen again in Philadelphia, save for a brief moment when they appeared in Germantown.

Their trail was picked up in the afternoon, when a report came from Ogden, Del., just across the State line from Pennsylvania. They found a man working in the fields and summoned him to his house. There they bound and gagged the man, and also found \$200 and three suits of clothes in the house. They put on the clothes and sped off in their automobile.

The convicts who escaped are: Thomas J. (Eggie) Gillen, Philadelphia, serving fifteen years for his share in the holdup of a messenger of the Corn Exchange National Bank in December, 1920.

Louis A. Edwards, 25, Reading, who was lodged in the Eastern Penitentiary for highway robbery.

James Brown, 28, serving twenty years for burglary.

James L. Malone, serving eighteen years for highway robbery.

George Brown, serving a term for robbery committed in Luzerne County.

James Williams, Susquehanna County criminal.

Ladder, Hook and Rope Provided.
The escape was witnessed by persons living opposite the eastern wall of the penitentiary.

The manner in which the six men escaped was evidence in itself that the flight had been carefully planned. They had provided themselves with a ladder made of a number of small pieces which could be concealed easily and quickly assembled; a hook to fasten on the top of the wall and a rope, which had been wound about the body under the coat of one of the men.

The break for freedom was made at a time when the inmates of the prison were at various tasks in the yard, the centre of which was fitted together and placed against the wall inside the yard.

At the same time, one of the convicts unbound from about his body a length of rope. A hook was also provided. The ladder was placed on top of the wall and was about ten feet high. Quickly the men scrambled up the ladder.

Charles P. Toomey, a prisoner, rushed toward the foot of the ladder. The man who was ascending turned and threw a revolver at Toomey.

"Get back, you dirty dog, or I'll knock you off," he shouted.

Toomey leaped back and Gillen, the fugitive, continued his ascent of the wall.

Meanwhile the others had adjusted the hook to the top of the wall and had thrown the rope over the outside.

One by one the men slid to the bottom of the rope and dropped to the grass below.

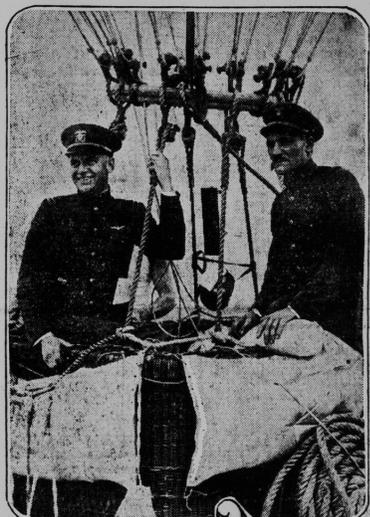

A moment after the convicts reached the ground a truck turned the corner. One of the convicts stepped in front of the truck and leveled his revolver. Two of the convicts stepped on the running board with weapons aimed and commanded William House, 10 years old, the driver to abandon the wheel. House did so.

One of the convicts took the wheel while the others clambered aboard. The two armed with revolvers remained on the running board, ready to

onto the road again. Pretty soon we passed a store. They went in and bought crackers, soda water and hum, but I didn't get any of it. At Newark they had purchased two pairs of trousers and two straw hats. Then we drove through Elkton and they stopped to buy more food. After we passed Elkton they gave me something to eat.

"Then Edwards drove off the main road again and went into the woods. Pretty soon Gillen and Malone tied my hands and feet with part of the coat they had taken from Smith's house. One man tore of the bottom of his shirt and made a gag, which they put in my mouth. They had me in the car and told me not to move until daylight.

Null Jumped Overboard
As Human Ballast, But
Failed To Save Comrade

LEFT TO RIGHT, LIEUT. ROTH AND LIEUT. NULL IN THE BASKET OF THE BALLOON JUST BEFORE STARTING

Port Stanley, Ont., July 18.—A heroic but vain effort to save the life of Lieut. J. Roth, of Cedar Rapids, Iowa, was made by his friend and comrade, Lieut. J. B. Null, according to authorities here. Both men, entrants in the national elimination balloon race, which started from Indianapolis recently, lost their lives.

Lieut. Roth, who is the son of a U. S. navy aviator and was attached to the ill-fated U. S. navy balloon A-6698, had given up hope of coming out of the venture.

Though the search for the body of Lieut. Null continues, it is now the theory of authorities that he jumped overboard, stripped of his clothes, in a vain effort to save his comrade by reducing the balloon's cargo.

Lieut. Roth, who is the son of a U. S. navy aviator and was attached to the ill-fated U. S. navy balloon A-6698, had given up hope of coming out of the venture.

Smith's clothes. One or more of them may be masquerading as women now.

The car in which the convicts appeared at the farmhouse was a red sedan, almost every line of business and almost every line of industry.

The woman power of America is well illustrated by the thousands of women who are entering every profession, almost every line of business and politics as well. They are bound to make good, and there is no question about it.

SAFE ROBBERS FRIGHTENED OFF WHEN TELEPHONE RECEIVER FALLS

Portsmouth, N. H., July 18.—Burglars who were preparing to blow open the door of the safe of the Telephone Exchange, containing \$2,000, fled after they had jarred the telephone receiver from its hook, attracting the attention of the central exchange.

BOSTON VISITOR IS GIVEN TREAT

Is in H. A. Mallory's Auto on St. John County Road When Speed of Moose is Tested.

H. A. Mallory, who stays for the summer at his camp in the Black River road and who drives to the city every morning, while between Garnett Settlement and Loch Lomond, this morning about 6.30 came on a large bull moose standing in the road. He speeded up the car to see how close he could get and was pleased to see the moose start off up the road ahead of him. The animal seemed quite willing to test his speed with that of the machine. Mr. Mallory said he had been under the impression that a moose always trotted and never changed his gait but he found that, when the car got so close that the gravel from the hoofs of the moose struck the windshield, the moose had another gait to which it changed. Mr. Mallory factually remarked that he supposed this was high gear. Even this speed however, was not sufficient to keep the moose away from the machine and the speed of the latter had to be slackened. When the moose had kept the middle of the road for upwards of a mile he suddenly changed his direction and took to his native haunts. The sight of so fine a specimen, Mr. Mallory said, made one think of the possibilities of St. John county for those who love the rifle and the hunt. Mr. Mallory had with him in his car his son Harold, Mrs. Matthew McCraw of Black River, and James McNeil of Boston. Mr. McNeil, a wide traveler, said it was a rare sight and that, when he told his friends in Boston, no doubt it would be the wish of many of them to take a trip to a country such as we have.

NEW MANAGER OF MONTREAL BANK

A. M. Peters, Who Succeeded A. C. Skelton, 30 Years in Same Firm's Employ—Is Native of Newfoundland.

A. M. Peters, recently manager of the Calgary branch of the Bank of Montreal, has arrived in the city and has taken over the management of the local branch of the bank, succeeding A. C. Skelton, who has been transferred to Hamilton, Ont. The transfer is now being made and Mr. Skelton expects to leave for Hamilton on Tuesday of next week. Mr. Peters is a native of Newfoundland and started his banking career there on the staff of the Union Bank of Newfoundland. When that institution went out of business in 1894, Mr. Peters joined the Bank of Montreal and has seen nearly thirty years of service in its employ. For thirteen years he remained in St. John's. He was transferred to Charlottetown for two years, going thence to Sault Ste. Marie and four years later took over the management of the Calgary branch. He was ten years in Calgary before receiving his transfer to St. John's. Mrs. Peters, and their son, Edgar, a youth of eighteen, accompanied Mr. Peters to St. John and will take up their residence here.

Trumbell's Throw Was A Poor One

"Lefty" Stecker's Friend Minus Hat in Boston Boat Incident—Baseball Players Away.

Catcher Ward, who came here with Quincy and who was later traded to the Vets for Buchanan; and Trumbell, who played shortstop for Quincy, were passengers on the S. S. Governor Dingley this morning, returning to Boston. Earl Lowmyer of Philadelphia, who was in the city spending a vacation and who is now going to Calais via via Eastport, also sailed. He was formerly a member of the Erie Ridge League of Pennsylvania and played with Peterburg as a pitcher and first baseman. Another ball player on board was Brennan, who came here in the spring as a member of Casey's Boston team who later went to the Cape Breton League as a member of Dominion No. 1. As a result of the big strike in Cape Breton the league is not operating and Mr. Brennan decided to return to his home in Boston. Ray Travis, one of the youngest policemen of the Boston force, who was in the city spending a vacation with "Lefty" Stecker of St. Peter's Baseball Club, also left on the Dingley. A large number of relatives and friends of the passengers were on the wharf to wish for a pleasant trip. Before the steamer sailed some amusing repartee passed between the baseball players on board and those who had assembled to see them off. As a parting gift to Trumbell, "Lefty" Stecker took a friend's straw hat and tossed it to him. Trumbell evidently had good intentions of returning the headgear. The hat found a resting place in the harbor and was carried by the current towards Partridge Island. Those on the wharf as well as those on board showed marked interest in the fate of the hat and many recommended means of rescuing it, but to no avail.

AFFECT 'PHONE SERVICE IN BURPEE AVENUE DISTRICT

F. J. Nisbet, exchange manager of the New Brunswick Telephone Company, said this morning that some repairs to a cable would be made tonight in the vicinity of Burpee avenue and that as a result about fifty-seven telephones in Burpee avenue, Mount Pleasant avenue and Wall street would be affected. The repairs will be started about 6.30 o'clock, and it was expected, would be completed tonight.

THE MIGHTY FALLEN

About one o'clock this morning persons in the vicinity of King square heard a crash and upon investigating found that a motorist had committed the unforgivable offense of knocking a policeman down and breaking his head. It was the silent policeman at the easterly end of the south side of King square. He lay hunched in the dust and the red light which proudly illuminated his head will shine no more through the same globe.

SEEKING IMPROVEMENT

The supply of smoke and coal dust from the loading and discharging plant of the Dominion Coal Co., Ltd., near Sodney wharf, West St. John, has been brought to the attention of the City Council on many occasions and Commissioner Bullock announced today that he was taking the matter up again with the company to determine whether or not it was possible to do something to alleviate the trouble. It is understood that the possibility of locating in another site will be suggested.

Many beautiful useful gifts were received, including cut glass, silver and linen. The evening was spent in music and games. Mrs. Fowle received first prize and Miss E. Bartlett consolation prize in one of the games. Refreshments were served by the hostess. The company dispersed about midnight all wishing Miss Slauwhite a very happy and prosperous married life.

BELIEVED THIEVES TRAVEL BY AUTO

Succession of Robberies in Places Along C. N. R. Near Here.

According to further information received about recent robberies at Uplam, Elgin, Petticoat and Sussex, it is now believed that a gang of men are using an automobile as a means of travel while perpetrating their crimes. Within a short space of time a number of places along the C. N. R. were broken into and the methods used were so similar that those investigating the breaks feel confident that it is the work of an organized gang. At Elgin they broke into the Post Office and in addition to taking a small amount of change and some stamps, they also stole a twenty-two calibre revolver. They also made a break into a store owned by Bovard & Company and stole a supply of cigarettes, safety razors, coats and moccasins. In the N. N. station at Elgin they obtained a small amount of money. At Petticoat they entered the Luskoff Patern store, where they took a considerable amount of goods in addition to about 600 cigars.

DR. BANTING TELLS USES FOR INSULIN

Surgery Congress in London Hears Uses for New Treatment for Diabetes—Ductless Glands.

London, July 18.—(Canadian Press)—Discussions at yesterday's meeting of the congress of surgery centered around the marvel of surgery in connection with ductless glands. Drs. Voronoff and F. G. Banting were the heroes of the occasion. Dr. Voronoff again contended that by utilizing the glands of apes it is possible to effect rejuvenation. Dr. Ivor Black supported Dr. Voronoff's view from personal investigation and argued that it was absurd to consider the results were due to auto-suggestion. Dr. Banting, of Toronto, showed how insulin could be utilized for purposes of surgery, it being possible to practice major operations on diabetes successfully after insulin treatment. With this treatment it was possible to remove gall bladder and limbs with little intervention of surgical shock.

ST. JOHN DENTISTS ADDRESS FELLOWS

Some 50 at Moncton Convention—Proposed Maritime Association—Health Board Question.

Moncton, July 18.—About fifty members of the New Brunswick Dental Association from various parts of the province are in attendance at the twenty-first annual convention of the association which began its two-day session in the city hall here yesterday. Considerable time was taken up in the discussion of a proposed Maritime Dental Association and a decision was made to continue with the efforts already made towards the formation. Discussion took place regarding irregularities in the province with regard to the laws pertaining to dental practice, and a committee was appointed to look into the advisability of the provincial health department employing persons other than registered dentists. The general consensus of opinion seemed to be that no one should be employed in the public health clinics by the Provincial Government who has not had at least three years standing at a dental college, and then only to be employed under the supervision of a dental surgeon. Dr. Irvin H. Ante, of Toronto, gave a practical demonstration on "Full Denture." Last evening the members of the association motored to Point du Chene where a lecture on "Dentistry and Health" was delivered by Dr. Harry S. Thompson of Toronto. Today there were lectures and practical demonstration and the conclusion of the general meeting of the association. The lecturers today were Doctors W. P. Bonnell and P. L. Bonnell, St. John; Dr. Irvin H. Ante, Toronto and Dr. Fred Burden, Moncton.

WILL MEET HERE

Invitation to Committee of Association of American Port Authorities Has Been Accepted.

At the invitation of Commissioner Bullock, one of the members of a sub-committee of the Association of American Port Authorities, which was appointed to look into proposed legislation regarding the pollution of navigable waters by fuel oil, will meet in St. John, so the commissioner announced today. The other members of the committee are Bancroft Hill, president of the harbor board of Baltimore, and Robert T. Eagle, of Philadelphia. The subject to be discussed has to do with Washington legislation entirely. It is understood that an effort will be made to have Mr. Hill address a meeting of the Canadian Club or some other body while in this city. He is reputed to be an authority on port matters. The virtue of reading the advertisements every day is that you get into the habit of trading with men whose word must be equal to their bond. Advertising lowers the cost of selling.
