Notable Ceremony in Cathedral in Athens—Allied Warships Said to Have Left Piraeus to Avoid Paying Honors.

Athens, Dec. 20.—Amid the thunder of cannon, the hum of circling airplanes and the roaring cheers of a great throng, Constantine of Greece entered Athens yesterday.

Immediately after alighting from the railway train, Constantine drove to the cathedral, where a magnificent service was held, all the bishops in Athens participating.

The approach of the royal train was signalled by the arrival at the cathedral of the railway near Place de la Concorde of three royal carriages which stopped in front of the station at eleven o'clock.

Constantine read his address in the presence of 50,000 persons. He was dressed in a marshal's uniform. Premier Rallis and Queen Victoria also were present.

U.S. AND OUR WHEAT

Report of Federal Trade Commission to President—Mr. Wilson's Powers.

Washington, Dec. 20.—The president of the United States is without power under existing law, "to shut out wheat imports," but he apparently has certain powers under the Lever Act to stop future trading in wheat says the federal trade commission in a special report to President Wilson.

The commission says that "while evidence is not available that future trading is responsible for the decline in wheat prices, it does not appear that future trading in wheat as at present operating, is of indispensable service to the grain trade."

Among several causes which the commission assigns for the decline of wheat prices in the United States is included "unprecedented" importations from Canada, following an unprecedented yield and a discount in rate of exchange.

DAMAGE BY HAIL THIS YEAR WAS SLIGHT
Saskatchewan's losses from hail in 1920 was very much lower than in the previous year, according to a special re-

port by A. E. Fisher, Superintendent of Insurance for Saskatchewan, with a statement of the premium income received and the claims paid by the various companies underwriting hail insurance in Saskatchewan during 1920. The figures are not complete, as there are several companies which have not yet filed their returns, but they show a loss of 75.02, while the loss ratio for 1920 is estimated at approximately 41 per cent. The statement does not deal with the operations of the Saskatchewan Municipal Hall Insurance Association, which also had a favorable year.

AGAINST FREE TRADE
Ottawa, Dec. 20.—Speaking at a luncheon tendered on Saturday by the Canadian Club at the Chateau Laurier, Hon. J. E. Corbin, minister of agriculture for Quebec, said he was most emphatically opposed to free trade. "Free trade would not be a good prospect," he said, "and I am in favor of a moderate measure of protection. Free trade would kill many young farmers just making a start."

THE LUXURY TAX

The abolition of the luxury tax on all but a few articles follows a general and persistent protest from business men all over Canada. It is explained that the government was influenced by the growing seriousness of the unemployment situation, but it is also true that the receipts from this tax have been decreasing of late.

in the impunity with which ill-balanced or vicious elements in a country are permitted to poison the minds of any who may come under their sinister influence.

A STANDING DISGRACE

At this Christmas season, when the thoughts of all are turned toward the children, and toward Him who declared that of such is the Kingdom of Heaven, the Times desires to direct the attention of its readers to a letter received last week by Rev. George Scott, the agent of the Children's Aid Society in this city.

A DANGEROUS ELEMENT

So sane and moderate a journal as the Saturday Evening Post has a very strong article on the question of how far it is wise to permit propagandists to go, who seek to stir up trouble if not to subvert the government.

What would you do if now upon your feet should stand a little boy, gaunt but precocious form, with blood of yours?

AUSTRIA'S NEW PRESIDENT IN TORONTO IN 1909

Prof. Keys, Who is Personally Acquainted, Says Austria Needs Not Fear Bolshevism Under His Presidency.

"I think there need be no fear of Bolshevism in Austria under the Presidency of Dr. Michael Hainisch, who was recently elected in that country," said Dr. David H. Keys, Professor of Anglo-Saxon at the University of Toronto, to the Toronto Globe.

The Toronto professor is personally acquainted with the new President and conducted him on a tour of this city at the time of the Women's World Congress which was held here in June, 1910.

"The doctor came to America with his mother, Frau Hainisch, who made a forceful address at that time, and whose intellectual attainments, as well as those of her son, were highly spoken of. A press despatch carried the news on December 9 that Dr. Michael Hainisch had been elected President. After his return from Canada he was elected member of parliament in 1909.

"When in Toronto Professor Keys took his visitor to the late Dr. Goldwin Smith, who thanked him for the fact that Austria had stopped the Turk at the gates of Vienna. Dr. Hainisch was greatly interested in the Toronto dairies and visited several of them. He has a large estate just outside the city of Vienna, where he breeds dairy cattle. His dairies are so extensive that he supplies the Austrian Capital, a city of two million people, with milk.

"Dr. Hainisch discussed some historical facts with University of Toronto professors, and he gave the impression to be a keen student of economics and history," said Professor Keys. Professor Keys expressed surprise at the Press despatch which stated that Dr. Hainisch was a Socialist. "If he is a Socialist, he is one of the better type," said the professor. "He certainly is not a reactionary. He certainly is not a reactioner. He is a man with a real tact for business. Dr. Hainisch is a man of high education and of a fair and just character. I think he will make a sensible President," concluded the Professor.

Dr. Hainisch was born in Gloggnitz, Lower Austria, in 1858, and was educated at the Universities of Berlin, Leipzig and Vienna.

SONS OFFER REFUSED. MOTHER TO SERVE TERM

St. Catharines, Dec. 18.—Mrs. Mike Wilson, a Polish woman, on Wednesday began to serve a sentence of six months in jail in default of paying a thousand-dollar fine. She sold wine to government detectives. Her husband declined to serve the sentence in her stead, though he was offered the chance. The woman's son, a youth of about 18, offered to serve the six months for his mother, but this could not be allowed, as only the parents could be responsible for the woman who sold or the husband as head of the house.

RHEUMATISM—RELIEF

From Its Dreadful Pains and Aches, Stiffness, Soreness—

Is properly to be sought in a good blood medicine, because authorities say rheumatism is a blood disease; acid has entered the blood, settling in the muscles and joints. That's what makes the sharp, sudden, shot-like pains, causing you to jump and cringe in agony.

It does give positive relief. Thousands say so. So will you. For a fine laxative take Hood's Pills.

MRS. MACSWINEY IS WELCOMED IN BOSTON BY 40,000

Boston, Dec. 20.—Thousands of Sinn Fein sympathizers paid tribute here yesterday to Mrs. Muriel MacSwiney, widow of Terence MacSwiney, lord mayor of Cork, and to Miss Mary MacSwiney, his sister, now visiting Boston. Forty thousand people, it is estimated, escorted the MacSwiney party from the South Station to an uptown hotel and 10,000 more gathered last night in Mechanics' Hotel to hear Miss MacSwiney. Mrs. MacSwiney, who had been announced as a speaker, did not appear, remaining at her hotel. An engrossed parchment welcoming her to Boston was presented to Mrs. MacSwiney by the Irish County Association.

LOT OF FUN IN THIS WILL

Makes Merry at Expense of Husband, Son and Executor.

"I leave my money the way I do," wrote Mrs. Hattie N. Van Tyn Jasoby, in her will offered in New York last week for probate, "because, although I feel my husband has a deep affection for me, still I believe he has figured on my money in the marriage game, and I feel what I have worked so hard for, I will give to those who were so good to me when I needed them—and I do not believe he would ever deprive himself of any pleasure which would please me. If it cost him any money out of his own pocket."

To the husband she left a bank book good for \$170, and a son, \$100; she awarded \$250 in "the hope that he will buy some book relating to how to cure selfishness and how to do unto others as you would have them do unto you." The will directs that her diamonds be

In August, 1914, about 8,500 Frenchmen joined the French colors from Canada. So far 1,450 have been demobilized through the Consulate; adding over 800 killed and the discharged sick and wounded, leaving some 1,600 men who remained in France after their demobilization.

Approximately one million francs of demobilization bonuses were paid through the Consulate; to this sum are to be added the provisional allowances

**AERIAL ACTIVITY
IN NOVA SCOTIA**

Dartmouth, N. S., Dec. 20.—Unusually mild winter weather is making it possible for the birdmen at Eastern Passage Air Station here to carry out flights throughout the little province by the sea in the interests of town planning people and the federal hydrostatic survey. Before the colder days of January and February set in and freeze the lakes and rivers—Major A. B. Shearer says it is exceedingly unpleasant to land in a seaplane on ice and he is in command here—the "sooner" of eastern passage propellers will be heard in various parts of Nova Scotia.

A few days ago the camera at the air station took a flight with Major Shearer and gave Halifax and Dartmouth districts the aerial "up and down." A film of one hundred pictures was taken and the result should be of great value to the Halifax Town Planning Commission.

Orders from Ottawa will take the birdmen over Yarmouth harbor, over the sand dunes at Joggins, the mud flats on the Avon River near Windsor, the sand dunes at Port Mouton and possibly Cape Sable within the next few weeks. With any luck pictures will be taken of these sections before the snow "really" flies.

WILSON'S VINDICATION.
(Brooklyn Eagle, Dem.)
President Wilson has only to read the daily papers to find his vindication. There is hardly a phase of the European turmoil that does not show that in rejecting his view of the kind of peace that should follow the war the nations, including our own, have brought their

present woes upon themselves. When he leaves office he will not have to wait long before he finds himself vindicated at home. President-elect Harding's popularity has yet to meet the test of action.

The moment he begins to make decisions and to act he must inevitably lose some of his support. The president henceforth has everything to gain and nothing to lose in the way of popularity and fame.

SAY SOUL WOULD SUFFER AT THE EXPENSE OF BODY

Controversy Over Suggestion That Ministers Also Practice Medicine.

London, Dec. 2.—(A. P., by mail.)—A controversy is on among the poorly paid section of clergymen who find themselves hard hit by the high cost of living over a novel suggestion put forward by Dr. Robert Rentoul, a prominent Liverpool practitioner, that the clergymen could augment their incomes by acting as doctors as well as parsons.

Dr. Rentoul advises young clergymen to study medicine, take their degree and combine body-curing with soul-saving work.

Many clergy do not look with favor on the idea. They argue that they have plenty to do already and that local practitioners would bitterly resent competition from them. One wants to know where a poor curate is to raise the \$250 necessary to qualify for a medical degree, and others hold that within a month the clerico-medico's sermons would be thin, and that the "soul would suffer at the expense of the body."

MILLERAND PLANS TRIPS BY THE AIR

French President Said to Have Ordered Airplane Limousine.

Paris, Dec. 2.—(A. P., by mail.)—President Millerand, despite the earnest contrary advice of Madame Millerand, is reported to have ordered an airplane limousine for the purpose of making official visits to foreign capitals and cities in the provinces.

Should the report prove to be founded it will mean a departure in the mode of travelling of presidents in France and the permanent sidetracking of the presidential train. A regular squadron will have to be provided for the presidential suits and the fifty or so journalists who accompany the president on all his trips from Paris.

Some newspapers call the president's attention to the fact that a fall from the window of his aerial limousine would have more terrible results than leaping too far out of the train window, referring to the accident to the former president Paul Deschamps.

IN MEMORY OF GRANDFATHER

Candelabrum Presented to Commodore Perry in 1854, is Given to Annapolis Academy.

New York, Dec. 19.—(A. P., by mail.)—A silver candelabrum, a gift to Commodore Perry from the business men of Shanghai and Hong Kong, China, after his famous voyage to the Orient in 1833 and 1834, has just been presented to the United States naval academy at Annapolis by Perry Tiffany, of New York, grandson of the commodore. The candelabrum, which has been in the family's possession since Commodore Perry's death in 1858, was given by Mr. Tiffany in memory of his grandfather and his long naval career.

The gift was made by the merchants of the Chinese cities in appreciation of the American naval officer's visit to their country and his efforts to promote friendship between the United States and the Far East. The candelabrum is an elaborate affair, consisting of seven branches with a spread of thirty-eight inches.

KIDNAPPING RICH HEBREWS IN BUCHAREST

Budapest, Nov. 29.—(A. P., by mail.)—Mysterious kidnaping of rich Jews continues here, and the police seem unable to end it or to detect the criminals. Recently three wine merchants who had gone to the country disappeared. The police followed their tracks to the lake Balaton, where the water was washed ashore a boat in which the hats of the merchants were found. All further trace was lost and their fate still is unknown, although there is every indication of murder.

The case of Jacob Reisman, a rich piano manufacturer, belongs to the same category. Reisman was carried away from his home in Budapest by three men who pretended to be detectives of the military police. Reisman vanished and with him the contents of his safe. It is considered certain that the unfortunate manufacturer was robbed and killed, although neither the perpetrators nor the body of the victim were found.

**BLIND BOYS HAVE
SCOUT TROOP IN
HALIFAX CITY**

Only Troop of Its Kind in
Canada—Boys Expert in
Scout Qualifications.

Halifax, N. S., Dec. 20.—(By Canadian Press)—Scouts of the Fifth Halifax Boy Scout Troop are all students at the School for the Blind here. The troop is unique in Canada and there is only one similar group in the North American continent. Halifax boys often see the "Fifth" swinging along the road in the woods with their kit bags full of grub and their mouths full of song, and feel happier.

Of all the innovations in the work of the blind of the Maritime Provinces and Newfoundland introduced at Sir Frederick Fraser's famous School at Halifax, none has proved more immediately and satisfactorily successful than the formation of the Fifth Halifax Troop. It was discovered on its establishment in October of last year that there would not be the slightest difficulty in following out the scout programme practically in its entirety, and the boys took to scout craft like ducks to water. Some of the work such as basket-making, leather working, the study of music and so on corresponded to subjects listed on the school curriculum, and simultaneously with the passage of second class tests badges for proficiency in work along these lines appeared on the arms of members of the troop.

The Scout drill was "pie" for the "Fifth" in spare hours the "clackety-clack" of saws sending "Morse" is heard in the school halls. On their hikes to the open the scouts even learned how to light fires with safety and cook dinners to satisfy their husky appetites. Scout Master Cheney Allen is sure that the boys are making and before the winter is over, he says, there will be some First Class Scouts in the troop.

CARRIED TO BUSH AGAINST HIS WILL

Missing for Month, Henry Kinsman Tells a Strange Story to Police—Prisoner in Cabin.

(Toronto Mail and Empire.)
Reported missing from 2158 Gerrard street east on Nov. 16, Henry Kinsman, aged 19, returned to his aunt's home at the above address on Tuesday night, and told his startled relative, Miss Nettie Delyea, a vivid and sensational story of how he had been kidnapped by foreigners, taken in an auto to a log hut somewhere in the country, and there robbed of his clothes and money, and compelled to work in the bush cutting wood, brought back to Toronto by his captors, and left at the Union Station to fend

for himself and explain his absence during the past month.
Kinsman told his aunt that he was picked up at the corner of Gerrard street and Greenwood avenue on the night of the 16th while waiting for a civic car by two men, who alighted from a motor car. A third man occupied the driver's seat. Threatened by guns in the hands of the two men, he climbed into the car at their command, and was speedily bound, gagged and blind-folded. After a long ride, the car stopped, he was lifted out, and imprisoned in a cellar, still blind-folded, until the morning. At day-break his captors again placed him in the car and resumed their journey. Their trip occupied the entire day, and Kinsman estimates that the car covered at least a hundred miles. They reached their destination, a log cabin in a wood, after dark, and Kinsman was taken from the car into the cabin, stripped of his clothes, \$125 in money, and a check book and bank book. The cabin was equipped with two bunks. He was given overalls in exchange for his own clothes, and the next day taken into the bush under the armed guidance of an elderly foreigner, who from his speech was a Russian. The man wore revolver and knife. At night the same man guarded him.
During Kinsman's stay in the bush the other men visited the cabin often. They conversed many times with his guard,

and always in a foreign tongue. They never addressed him (Kinsman). He had been well fed, and had been threatened only once when he attempted to escape while his guard was asleep on a log.
Kinsman said they had commenced their return trip to the city Tuesday morning shortly before daybreak. He was bound and gagged and blind-folded as before. The journey lasted the whole day, and the car did not stop until it arrived in the city. He was told to alight, stand still and count twenty, and then open his eyes. This performance completed he discovered himself in the vicinity of the Union Station. He immediately called up Arthur Cars, of 2168 Gerrard street east, and Cars informed Miss Delyea of her nephew's whereabouts.
Kinsman, Miss Delyea said, was wearing a pair of blue overalls, heavy rubber boots, mackinaw socks and his own hat when she met him.
Kinsman was examined by Inspector of Detectives Guthrie at detective headquarters yesterday afternoon, and he told exactly the same story as to his aunt. He described two of his captors as middle-aged, the other as elderly and grey. Inspector Guthrie is at a loss to know whether to believe Kinsman's story, since there is no motive evident for the alleged kidnapping.
Kinsman's parents live at Woodstock.

There is a story going the rounds to the effect that on the day following Kinsman's disappearance some person signed Kinsman's name to a savings check, and withdrew \$40 from the young man's saving account at the Bank of Hamilton, Yonge and Gould streets.
In respect to this Inspector of Detectives Guthrie said last night that he had heard a similar story, but it was to the effect that Kinsman himself, or someone having a great resemblance to him, withdrew the money. The inspector added that he had not yet had a chance to investigate this story, as the bank in question was closed before he was in receipt of Kinsman's story and the subsequent information regarding the tendering of the check and the withdrawal of the money from the young man's account.

REVOLUTION KILLED IN CZECHO-SLOVAKIA

Normal Conditions Now Prevail, According to Authorities at Prague.

(Canadian Press Despatch.)
Prague, Czecho-Slovakia, Dec. 19.—Normal conditions now prevail here, following the recent revolutionary movement and it was expected work would be resumed throughout Czecho-Slovakia.
The attempt to set up a revolutionary government was met by resolute measures on the part of the authorities, including the declaration of martial law in all localities where public order was threatened. Consequently the attempt to inaugurate a general strike was frustrated.

Vancouver, Dec. 19.—John Stanley Bancroft, formerly assistant manager of the Granville street branch of the Merchants Bank of Canada, has been committed for trial by Magistrate Shaw on charges of theft of \$45,000 in Victoria bonds, from the bank, making false entries and conspiracy. At the same time Phil Gerwitz, president of the Gerwitz Lumber Company, was also committed for trial on charges of conspiracy and making a false statement with the purpose of securing credit from the bank.

BOYS' CLUB MEMBERS HAD GLORIOUS TIME

They surely had a good time, the eighty-five members of the Boys' Club that spent Saturday evening at the Y. M. C. A. First they saw three reels of grand moving pictures and then they had games with Nelson McEwen, the physical director, to show them how, and went in swimming, with A. J. Morton to see that everything went finely. Miss Heffer, superintendent of the club, and Mr. Scott went with the boys and know just how well they enjoyed the evening. They have been monthly guests of the Y. M. C. A. since the club opened this winter and January the association is planning to give them their annual treat. The boys are not likely to forget the date.

Give Furniture for Permanance

Less Substantial Things are for the Passing Fancy

Furniture at one fell swoop immediately constructs a permanent monument of your affection for the person to whom it is presented, because furniture not only will last as long as the lifetime of the receiver but is in every day use as well as contributing to beauty of the home.

No other proposition can quite take the place of furniture in this connection, and as a purely economic gift there is nothing that can equal furniture.

Figured on the years of service the price originally paid almost disappears; while things of less utility which last but a few months or years prove highly expensive.

Speaking of utility, let us suggest among other things a Tea Wagon. Hardly a home but will find this a daily help and it should grace all social functions in accordance with the dictates of Fashion.

The whole store is full of the practical in gift things and you will find here a wide and varied assortment and a wide assortment of prices.

IN WALL STREET. New York, Dec. 20.—(10:30)—Traders evidently found little cause for encouragement in news advices over the weekend and continued to sell stocks at an active opening of today's session.

LUXURY TAX OFF—A SUGGESTION

The abolition of the Luxury Tax will mean many thousands of dollars to the people of New Brunswick this week. Merchants will feel the impetus in trade, buyers will save actual cash. Why not spare a little of this money for the 105 kiddies in the Protestant Orphan's Home, Britain St. and West St. John? Two thousand dollars is needed Christmas to pay immediate bills. Eight thousand is needed before next spring. Make this a REAL Christmas. C. G. M. Germain, 212 Germain, is the sending address.

He is a son of Edward J. Walsh of the Imperial Oil Co. staff, this city.

Much interest centred in the wedding held at the Church of English Martyrs on Wednesday, Nov. 24, 1920. The church was crowded. The interest shown in the event indicated the esteem in which the family of the bride is held in the district, and on this bright November day the happy occasion passed off with eclat. The contracting parties were Edward J. Walsh, second son of Edward J. Walsh of St. John, New Brunswick, and Miss Lillian Fisher, eldest daughter of Mr. and Mrs. Horace Fisher of Holmewood Gardens, S. W. L. Long before the service the organist played the following music: "Inquietude," "Humoresque," and "Postlude," and the bride entered the church with her father the hymn "The Voice that Breathed O'er Eden," was sung.

The bride was charmingly attired in a pretty gown of biscuit colored gaberina with shoes and stockings, and hat and veil to match. She was attended by two bridesmaids, Miss Dorothy Fisher and Miss Morescroft, sister and cousin of the bride.

The ceremony was performed by Father Mason, who gave a most appropriate and practical address. At the close of which the hymn "O Perfect Love" was sung, and on leaving the church the happy couple walked under a triumphant arch of flags.

J. D. PALMER, SHOE MAN, SPEAKS OF ABOLITION OF THE LUXURY TAX

Fredericton, N. B., Dec. 20.—John D. Palmer, president of the Hart Boot & Shoe Company, expressed the opinion this morning that the abolition of the luxury tax was a step in the right direction and marked the beginning of a genuine work of art. It is a reproduction of Roulet's painting, Where Past and Present Meet, showing a harbor scene in Venice. With the calendar goes a very interesting article on Venice and on the work of Gaston Roulet. Both the calendar and the article will be highly prized by its recipients.

A HANDSOME CALENDAR.

The 1921 calendar of the Canada Permanent Mortgage Corporation, of which R. F. Wright is St. John manager, is a genuine work of art. It is a reproduction of Roulet's painting, Where Past and Present Meet, showing a harbor scene in Venice. With the calendar goes a very interesting article on Venice and on the work of Gaston Roulet. CANADIANS CAN BE RICHEST WORLD PEOPLE

Developing Our Natural Resources is Entire Secret, Says Price-Green.

(Montreal Herald.) Reviewing the natural resources of the Dominion, C. Price-Green, commissioner of the Industrial and Resources Department of the Canadian National Railways in an address before the Montreal Publicity Association today, spoke in the most optimistic language of the future which he conceived as lying before the Canadian people.

Outstanding in our mineral development is the asbestos of this province which is supplying 80 per cent of the world's demands, the nickel of Sudbury which supplies 80 per cent of the world's requirements. On the basis of one developed, Miller Lake O'Brien, in the Gowganda district, is the world's greatest silver mine and Hallinger in Porcupine, the greatest gold mine.

The important coal areas of the Province of Alberta contain 85 per cent of the coal of Canada and some forty mines are now in active operation. The output this year promises to equal, if not exceed, the output of the Nova Scotia mines. Saskatchewan has great deposits of natural gas, one of them is the most remarkable of its kind in the world, a gas containing millions of tons of magnesium and sodium salts. This deposit is now at the producing stage and will in a few years be able to supply the demand of this continent for salt cake.

Much has been heard recently of the oil fields of northern Alberta as a result of a strike at Fort Norman. Prof. Bosworth stated that the country contained sufficient oil to supply the needs of Canada for the next hundred years. In addition to the oil bearing strata, water of the recent discoveries have been made there is another large area which gives equal promise near Great Slave Lake. The enormous body of tar sands on the Athabasca and the world's greatest natural gas well at Pelican Portage are other phenomena which point to a great development in the near future.

Today the United States is mainly dependent upon Canada for its supply of paper making material, resources particularly in the east, being practically exhausted, illustrated by the fact that last year some of its mills were using two and three inch wood. The demand of the United States is heavy, as they consume one half of the world's annual production of white paper. Canada is supplying at least 65 per cent of this demand.

It may interest you to know how Canada's pulp and paper industry has grown to a point where it can meet this demand. In 1850 it only exported to the extent of \$200,000, today there are \$200,000,000 invested in pulp and paper and the

production this year will exceed \$100,000,000 in value, or exports will be in the vicinity of \$150,000,000, of which the U. S. will receive 80 per cent in addition to this over a million cords of wood to supply their mills. It is interesting to note that the exports for the six months ending Sept. 30, 1920, are double that of Sweden, Norway and Finland combined.

SAYS IRISH BILL IS NOT SATISFACTORY

Sir Horace Plunkett Declares it Satisfies Only About One-Fifth of People of Ireland.

New York, Dec. 19.—The British government's Irish bill may go through at Westminster, but it will never be acceptable to Ireland, Sir Horace Plunkett, Irish statesman, and father of the "Dominion solution bill," said here today on his arrival from Liverpool on the steamer Baltic. The trouble with the bill, Sir Horace declared, is that it represents the interests of only about one-fifth of the people of Ireland, and is repugnant to the remaining four-fifths.

"It is not the way to Irish peace," he added. "I was badly contipated, had headaches constantly, and often got so dizzy I could hardly stand up. I was so weak I could scarcely keep going, and my nerves were so shattered that just any little thing would upset me."

"My stomach was sour all the time, and no matter what I ate, I am always glad to say a good word for the medicine."

"In fact, Tanlac has made me feel just like I had wanted to feel, got me in top condition, and I am always glad to say a good word for the medicine."

"I have a fine appetite now, everything agrees with me perfectly, and I have gained all my strength and energy back."

"I had had contipated, had headaches constantly, and often got so dizzy I could hardly stand up. I was so weak I could scarcely keep going, and my nerves were so shattered that just any little thing would upset me."

YOUNG REGAINS WHAT HE LOST

Moncton Man Says Tanlac Gave Him an "All Round Building Up."

"What I needed was just an all-round building up, and Tanlac has done that very thing," said Daniel Young, Moncton, N. B., an employe of the Dominion Construction Co. at present building a roundhouse for the Canadian National Railway.

"Last summer I began to feel run down, was miserable all the time, didn't have any appetite at all, never ate any thing, but one day I saw a very little advertisement, and I bought a box of Tanlac."

"My stomach was sour all the time, and no matter what I ate, I am always glad to say a good word for the medicine."

U. S. ENVOY DECLINES TO MEET GERMANY'S

Ambassador Wallace Refuses to Be Presented to Mayer Von Kaufbeuren in Paris.

Paris, Dec. 20.—Hugh C. Wallace, American Ambassador, last week refused to meet Wilhelm Mayer von Kaufbeuren, the German Ambassador, because the United States was still technically in a state of war with Germany.

The incident occurred at an official dinner to the diplomatic corps given by Rouff Peret, President of the Chamber of Deputies, and his wife. Ambassador Wallace, dean of the diplomatic corps in the absence of the Italian Ambassador, and Mrs. Wallace were the guests of honor.

Pierre de Fouquieres of the Foreign Office, known as the introducer of Ambassadors, approached Ambassador Wallace in the reception room before the dinner and said:

"The German Ambassador desires to be presented to you."

"Can't you forget?" inquired Mr. Wallace, who knows M. Fouquieres very well.

"He is standing just behind me," replied M. Fouquieres. "He was very persistent. I did not wish to embarrass you."

"Tell him," said Mr. Wallace, "that I refuse to meet him."

The German Ambassador was standing so near that he heard Mr. Wallace's reply, and M. Fouquieres repeated the response to him.

News of the incident spread rapidly among the 115 guests, who included many of the most notable men in the public life in France. Ambassador Wallace was surrounded by persons congratulating him, among whom were Philippe Berthelot, Political Director of the French Foreign Office, and Baron Hardinge, the new British Ambassador to France.

The episode was much talked of in political circles in Paris, where it was admitted that the American Ambassador could not yet meet socially the Ambassador of a country with which the United States was at war.

"Guess I'd better reduce on rope," said the storekeeper at Pizen Guld.

"Well, the boys are talking of hanging a few profiteers. I don't want 'em to start on me."—Louisville Courier Journal

Montreal, Dec. 19.—Half buried in the snow and hanging from the limb of a tree, the body of Herbert Walker, 16, who disappeared from his home last Wednesday night, was found this afternoon on the top of Mount Royal, the mountain park to the north of this city. The discovery was made by boys who immediately summoned the police. When it was discovered it was beneath a heap of snow and on being extricated, was found to be secured by a clothes line to a limb of a tree which had evidently bent beneath the weight. A piece of paper bearing the boy's name was found in the clothes.

REV. MR. JENNER IS RECOVERING

Most encouraging reports of the condition of Rev. J. H. Jenner have been received. At the evening service in the church, yesterday Deacon D. C. Clark read the first letter which had been received from Mr. Jenner since his illness. Mr. Jenner wrote that he expected to be able to sit up in a few days and that he was progressing as well as could be hoped for. He thanked those who had sent telegrams of sympathy and he sent greetings in reply. Rev. W. D. Wilson, secretary of the New Brunswick Temperance Alliance, conducted the services in the church yesterday. The members of Mr. Jenner's Sunday school class read a very thoughtful presentation yesterday when they took to his home a luxurious house coat as their Christmas gift to Mr. Jenner, to await his arrival home.

A. C. CURRY ILL

A. C. Currie, local agent for the Eastern Steamship Lines Inc., returned home from Boston on Saturday. Upon his arrival here it was discovered that he was suffering acutely from appendicitis so Dr. Nove and Dr. Curran rushed him to the General Public Hospital where they operated on him late Saturday afternoon. It was reported last night that although Mr. Currie was still in a serious condition, the doctors were very hopeful of his recovery.

THE FIRE DEPARTMENT WAS CALLED OUT BY A STILL ALARM ON SATURDAY MORNING FOR A SMALL FIRE IN THE BASEMENT OF THE PROVINCIAL MEMORIAL HOME FOR CHILDREN IN WRIGHT STREET.

It was reported last night that although the fire did not amount to much, it entailed a lot of chopping to reach the seat of the trouble.

In Saskatchewan Alone 226 Tons Were Set Out to Kill Locusts. In fighting the locust plague in Saskatchewan last summer a total of 226 tons of poison bait were spread at a cost of \$51,950 and 175 hopperdozers were operated at a cost of \$24,250. The salaries and travelling expenses of ten assistants for directing operation work amounted to \$2,550, making the total cost of the campaign \$83,950. The government gave material assistance by furnishing the Paris green and white arsenic free to the municipalities on condition that the other ingredients for the poison bait should be supplied free by the municipalities to their ratepayers.

While the outbreak in 1919 was quite serious, it was recognized early in the fall of that year that there was danger of a much more serious outbreak in 1920. In August, 1919, representatives of the department of agriculture and municipal officials reported that grasshoppers in large numbers were depositing eggs in an area about twice as large as where the fight had been carried on. Parsites were not helping much, although the flesh fly had been found working in one or two localities, but not to any considerable extent.

MRS. BRADLEY MARTIN WILL ESTATE LEFT TO HER SON AND DAUGHTER, THE COUNTESS OF CRAVEN.

New York, Dec. 20.—The will of Mrs. Cornelia Sherman Martin, widow of Bradley Martin, was filed here for probate last week. Mrs. Martin died on Oct. 24 last at Newbery, England. She leaves the estate to her son, Bradley, of Westbury, L. I., and her daughter, the Countess of Craven, who lives at 4 Chertleford Gardens, London. The value of the estate is not disclosed. It is understood that she disposed of her property in Great Britain in an English will. The will refers to stocks and bonds in safe deposit vaults here which go to the son and daughter. The Countess of Craven gets all the mother's jewelry except the Sèvres brooch from the collection of French crown jewels, which is left to her son. Mrs. Martin canceled an indebtedness of \$10,000 owned by the Earl of Craven, her son-in-law, and gives to her daughter the mortgages she took on property owned by the Earl of Craven. The Countess inherits her mother's residence in London and her son inherits the contents of her country place in Scotland.

the rest of the country because of storms which would put the telegraph lines out of commission. The arrangement for the service was made hastily with the Intercity Radio Communication Service, which will operate wireless between New York, Cleveland, Detroit and Chicago. This service has not been formally opened, in fact, it was an invitation to the opening of the service tomorrow which gave Mr. Wollman the idea of trying the service at once.

High Quality Clothes Come Down

EVERYTHING GOES To the Price of 1913 EVERYTHING GOES

The public must have lower prices in their clothes. They have signified that fact in no uncertain way. Clever writers have practically caused a strike of buyers of clothing which has closed up half the clothing factories in America. Reports that were canards caused a panic in the clothing trade in New York and Philadelphia—and the big department stores were forced to unload huge stocks at very low prices.

We are prepared to take our medicine—to pocket a loss of thousands—and offer the public the highest quality of tailored clothes—genuine Semi-ready garments—at minus-profit prices, and will fit and finish every garment with our own tailors and in our own workshop.

HYDRO WOULD CUT COST ONE-HALF

F. W. Coen of Cleveland Cross-examined Before the Ontario Commission on Radios.

(Toronto Evening Telegram.) F. W. Coen, vice-president and general manager of the Cleveland and Lake Shore Railway, when cross-examined today by Robert McKay, pro-radial counsel, before the commission investigating the Hydro radicals, admitted that if he secured his power elsewhere at \$32 per kilowatt, he would reduce his power cost per year by half, namely \$175,000. The figure submitted by Mr. McKay was the Ontario Hydro power cost as delivered. The Cleveland company pays now 181 per kilowatt per annum, the power being developed by steam. This cost \$350.00 per annum. R. S. Robertson, counsel for the anti, objected, saying it was only a nine per cent. reduction on the rate, and not 12 1/2 per cent.

Mr. Coen said there was "some demand for radial service." In answer to Mr. McKay's question that there were requests made for improvements and to meet the public needs. He said the Cleveland radial was a necessary thing in the life of the community.

Below Steam Rates.

If the company were free to charge as they saw fit, there was a limit to what the public would pay. Competition also existed with regular railway rates. "The railways are now 43 per cent. above us in rates," Mr. Coen said. "The opportunity is there today to raise the rate if we like." He acknowledged that a raise of 15 per cent. would augment the income considerably, providing expenses and service remained the same.

haps to the movies, but he sought his pleasure where he lived.

In answer to Brig-Gen. Mitchell's question regarding plants outside the city, Mr. Coen said that in Lorraine, 20 miles from Cleveland, practically all the employees lived near the plant. It was only one hour from Cleveland.

"Cleveland has a 30-minute limited rapid service from the centre of the city and slow inside. However, it was equal to a motor car," he said.

"We have a large terminal scheme, and it will be alongside a steam terminal," said Mr. Coen. "We are not worrying. The people don't give us any preference. It is the service given."

Speed and Time.

Mr. Coen agreed that time-saving and speed were important if the conditions were the same. He didn't think a rapid transit service necessary for 20 miles out, for a city of 300,000 people. "Not necessary to the growth of the city" he added.

Regarding radial express and package freight, including fruit, Mr. Coen said his company had refused to go into that business. Another company is handling it, however.

At Hydro Rates.

Mr. Coen said that if they were able to secure power at \$25 per h.p. it would decrease the expenses considerably.

Mr. McKay said that for 1919 the power cost for the Cleveland Co. was \$330,000. Mr. Coen agreed that by getting power "at will" the cost would be cut in half for future.

Earnings per car mile were 68 cents; 97,400 rides were taken in the year.

Mr. Coen thought the motor car and motor truck competition was considerable and was here to stay. Ohio holds the record for motor cars.

Mr. Coen said motor cars were real competitors in moving goods. He cited one man who moved 300 miles by motor truck. "It is an item in the whole proposition," was his opinion. Regular auto truck services existed in Ohio.

Mr. Justice Sutherland asked if Mr. Coen thought the motor truck people would in time have to help keep up road repairs. He thought so, but agreed with Mr. McKay that if the radials were cheaper that it would be the system to stay, but motor trucks would still run.

Some are Profitable.

"I don't call our profitable, just fairly successful," said Mr. Coen when asked regarding profitable radial companies. He named five or six as such, including the Detroit lines. Regarding certain southern lines, Mr. Coen couldn't express an opinion, but Mr. Justice Sutherland had no objection to witnesses being called from there if necessary.

R. S. Robertson, counsel for the anti, thought Mr. McKay was wrong in his mathematics. If the power was secured elsewhere the operating expenses would not be reduced by 12 1/2 per cent. The power was 25 per cent. of operating expenses.

RAISED MORE THAN TWELVE THOUSAND

At the annual meeting of the Commercial Travellers' Patriotic Association it was decided to give the unexpended balance on hand, nearly \$1,000, to the mayor to be used for the establishment of the memorial workshop which is proposed to provide assistance for returned men out of work and to disband. Organized soon after the outbreak of the war, with W. A. Stewart as president, the Commercial Travellers' Patriotic Association proved a splendid assistance to many of the war and welfare efforts of the last five years. The total amount raised was in excess of \$12,000. Upwards of \$2,000 was distributed to returned soldiers and their dependents; \$1,200 was expended in sundry parcels to travelers in the fighting forces. Other welfare efforts which shared in the generosity of the travelers were: G. W. V. A. \$225; Red Cross, \$300; Red Triangle, \$210; K. of C. Unit, \$100; Returned Soldiers' reception committee, \$200; Salvation Army, \$100; Victorian Order of Nurses, \$100; and Major Hooper's war fund, \$100.

UNEMPLOYMENT IN PACIFIC PROVINCE

Lumbering is Hard Hit, and Problem Develops Rather Serious Dimensions.

That Lloyd George, in dealing with

the unemployment problem does not

adopt the method of sliding the res-

ponsibility gracefully on to the

shoulders of a municipality is shown

by the following from The London

Times of November 23rd:

Government Programme.

The Prime Minister, replying to a

deputation from the London County

Council yesterday, surveyed the whole

programme of the Government for un-

employment. The deputation

pressed for powers which could en-

able them to act promptly in beginning

relief work specifically the acquisition

of land for arterial roads, and the

Prime Minister promised to do what is

possible to secure for the Council im-

mediate possession.

Practical Aid.

The points of Mr. Lloyd George's

exposition of the Government schemes

are embodied in the following statement

issued by the Cabinet Committee on un-

employment yesterday:

Out of Work Donation—£38,000,000

already spent; to be increased to £40,

000,000 by March 31 next.

spent.

Quarter Million Idle.

Altogether 5,225,000 men have been de-

mobilized, of whom 250,000 are still out

of work. These are mostly young men

from 25 to 30 years of age, the majority

unskilled and many married with fam-

ilies. They receive the out-of-work do-

nation at £1 or £1 5s. per week.
