THE BEST QUALITY AT Glasses

Strengthen Eyes

One of the many benefits of glasses is that they make the eyes stronger. The reason for this is easily understood. Exercise strengthens a muscle. Strain weakens it. In near-sighted, far-sighted, astigmatic and other defective eyes, the muscles are under constant strain. Properly fitted glasses end that strain, permitting the muscles to work normally and become strong instead of weak. We are experts in fitting glasses to correct eye-strain. Every facility of science is at your service here.

The heavy rain this morning caused much inconvenience about the cabment's stand at the Union Depot. The slope of the street causes the water to drain towards the sidewalk and it was not carried off, so shat passengers desiring a caoch had to wade through some inches of water. The regulations, so the police say, prohibit the coachmen from bringing their vehicles parallel to the sidewalk but in a case such as this morning this is regarded as unfair to the cabmen and the passengers as well. One of them stretched a plank across but to get to the others one would have to go through water over his boot-tops. Someone remarked today "It gives a visitor a find impression and this is not the only time it has happened."

AS TO PROHIBITION.

Hon. Dr. Roberts, in the interview published today, very properly welcomes constructive criticism by the medical so ciety in relation to prohibition, but quite as properly points out that "no better opportunity was ever offered airy body of men to show their sympathy with the object which prohibition represents, viz., to entirely abolish the indiscriminate use of alcohol as a beverage—a sentiment.

RECENT DEATHS

Mrs. Isaac Mutch.

The death of Mrs. Isaac Mutch occurred in her home in Littleton at the age of forty-four. She was a daughter of the late Alex. Hare of Wayerton. Besides her husband she leaves seven children and two brothers.

Mrs. Margaret Petrie.

Mrs. Margaret Petric.

The many friends of Mrs. Margaret Petrie will regret to hear of her death which occurred at her residence, 17 Hanover street, on Saturday, July 26. She was a widow of John Petric, a car inspector, and a daughter of the late James and Rose Paton. She has been ill for only a short time and her death will come as a great shock to her numerous friends. She is survived by three sons and three daughters, by one brother, James Paton, of Boston, and one sister, Mrs. John Cohen, of Philadelphia.

The funeral will be held on Tuesday morning at 7.45 o'clock, old time, from her late residence, 17 Hanover street, to the Cathedral for Requiem and High Mass.

Joanna Howser.

A large circle of friends will regret to learn of the death of Joanna Howser, which occurred on Friday at the resi-dence of her niece, Miss Katherine Sullidence of her niece, Miss Katherine Sullivan, Petersville. She was a resident of this city for more than twenty-five years, and during that time was in the employ of Mrs. James Dever. She has numerous friends in this city who will deeply regret to hear of her death. The funeral was held on Sunday from her niece's residence.

Halifax, N. S., July 27—W. H. Wetherby, broker, died here today. He was one of the older men in the banking and brokerage business in Halifax. Many years ago he was a member of the firm of J. C. MacKintosh & Company, subsequently establishing that of W. H. Wetherby & Company. Failing health caused his retirement from business two or three years ago.

London, July 26—The death is announced of Sir Edward John Poynter, president of the Royal Academy.

FAREWELL OF REV. H. C. FRASER TO THE PEOPLE OF KNOX CHURCH

In Knox church last evening, Rev. H. C. Fraser preached his farewell sermon, which was followed with closest interest by a large congregation. He reviewed his ministry of the last two years and spoke of his regret at having to leave. Mr. Fraser is going west soon, his wife's health compelling them to live there.

Reviewing the work of the last two years, Mr. Fraser said that on the whole it had been very pleasant for him. He said in part:—

This congregation extends from East St. John to West and from Sheffield street to Mount Pleasant. There are 324 places to visit. We have families on 92 streets. There is a communion roll of 364 mem-

There is a communion roll of 864 members.

In a year and ten months I have had 58 funerals, 27 marriages, and have baptised 47 children. Remembering that we have a graded S. S. of 216 members. We should easily see that we have a good deal of material to work with. Personally I feel just as if I had merely sorted out this material, and had scarcely got into the work of building. But it is sorted and the future is big with opportunity for the man who comes as your minister. Believe in yourselves and believe in God and you will accomplish great things. There have been 32 new members added to the roll but why quote statistics? This is not the right method of judging our work. We must go deeper and see other evidences of spiritual growth and improvement before we pass judgment. It is a matter in which we may greatly err either way. If we have done our best we can leave it to our Master's approval. If we have failed individually we have no right to judge one another. Never lose sight of the fact that a one-man church would be a trying situation for the best minister that was ever ordained in the Presbyterian church.

Chief Rabbi of France Dead. Paris, July 28—(Havas)—Alfred Levy, chief rabbi of France, is dead at Pau, where he had been under treatment for two years. His assistant, Israel Levy, will succeed him in office.

PROSTRATION

The bouses and ground with large poultry houses, etc. Can be seen Monday, Tuesday, Wednesday. Misses Tait, Brookwille Station, the line of copper. The metal market is called on to provide the best news for the week, but such is the case this time. The big dealers in roth omarked the whole list up this week, special attention being paid to anything in the line of copper. The metal market regards it as certain that there will be a big export demand for copper very soon, and as there is not a great quantity being produced owing to labor troubles, the prices are due to go higher. Not only that, there is a demand for scrap metal. The foundries and the steel mills are buying material now and there is a lot of business movents with the problem of getting the buying public away from the used machine tools that came on to the market when war work ceased. Many of the inquiries that come to the dealers contain the request that prices should be quoted on used as well as new machinery. There has been no concerted action on the part of the dealers in regard to the policy to be followed on the taking in of used machine to dealers and the request that prices should be quoted on taking away old equipment attractive is the price of the new mach

terial. Prices are not far from 100 per cent above pre-war days, and even now talk comes of increases. Some of the big shops have given a shorter work-day with the old wages, which amounts to an increase in costs, and the makers threaten to pass it on in the way of higher selling figures. with the possibilities for sheep protection and likewise with the progressive legislation that has been enacted for the protection and purchase of sheep by the department. While in Fredericton Mr. Stansfield visited the wool warehouse and expressed himself as being well pleased with the quantity and quality of the wool accumulated.

Some very important decisions affecting both the farmer and the breeder were arrived at. The federal department of agriculture is offering a bonus of \$5 a year for two years in succession to a farmer who will use a pure bred ram. This bonus applies to farmers who have never used one before. Mr. Tweeddale has given his assent to a provincial bonus of \$5 for the same purpose. It is anticipated that this bonus will be an incentive to the farmer for the purchase of more and better rams, as it will make up the difference between the purchase of more and better rams, as it will make up the difference between the purchase price of a pure-bred and a scrub. The motive is simply to demonstrate for two years the value of the pure bred sire versus the scrub, and if at the end of two years the farmer is convinced by concrete evidence—that is better lambs—then it is assumed that he will continue to use pure bred rams, but will receive no further bonus.

Another decision affecting the owners of grade flocks was arrived at, viz., that if a group of twenty-five farmers in any district or parish will get together and appoint a representative to purchase stock, the department of agriculture will pay his traveling expenses to any place east of Fort. William, Ontario, and will, if possible, have a representative go along and help make the selection. This idea should appeal to farmers' organizations throughout the country. The representative will have to purchase twenty-five rams in order to have his expenses paid by the government.

A scheme for the grading of pure bred rams bred by the breeders of New Brunswick is the first country in the world to adopt this method, which is probably the most advanced rams will finally be eliminated from the trade.

Long-Wearing Stockings for Active Boys

The rough and tumble games in the school-yard are mighty hard on stockings. Boys will play hard, so we make a stocking specially for them—the Buster Brown Stocking.

This stocking has a two-ply leg and three-ply heel and toe. It is knitted from extra-long yarn—spun by ourselves to make sure it is right.

Special training is necessary to knit Buster Brown quality into hosiery. We have spent years training our employees to knit Buster Brown Stockings.

Because we do all these things, you'll find them longer-wearing. You'll be pleased to see how seldom they appear in the mending basket. You'll find the cost of clothing your boy lower.
