ROYAL WEDDING MARKED BY STately CEREMONY

Marriage of Prince Ernest and Princess Victoria

A LOVE MATCH

Kaiser Confirms Rumor That Throne Will be Provided For Young Couple—Hunting Lodge for Honeymoon

(Canadian Press)
Berlin, May 26—Prince Ernest August of Cumberland and Princess Victoria Louise of Prussia, only daughter of the German Emperor, whose wedding occurred on Saturday, with all the pomp and brilliancy of the most ceremonial court of Europe, will ascend the throne of the Duchy of Brunswick at an early date. The direct line of rulers of the Duchy became extinct in 1866, was the will of the German Emperor that the dethroned house of Hanover and the House of Hohenzollern should be reconciled, and the Emperor made this announcement in a toast at the state banquet at the castle this evening. "In which he exhorted the Prince and Princess to devote their lives to the service of their future subjects and confirmed in pretty phrase the general belief that the marriage was a love match.

Emperor William spoke to an audience purely of royal blood, the diplomats, representatives, the ministers and other guests dining in other rooms. The stately touch-dance formed a fitting conclusion to a series of brilliant pictures. This followed the historic ceremonial except that the candles borne before the bride were carried by twelve pages instead of by the ministers, who were no longer willing to figure in such a roll.

Escorted by candle bearers and a guard with drawn swords, the bride was conducted by her father and father-in-law around the hall in court procession, the groom following with the Emperor and his mother. The bridegroom and bride were almost in tears, and the Emperor showed a father's deep emotion. The two elder sons of the Crown Prince, in sailor suits, proudly escorted Princess Victoria with the bride, which the chaplain, Dr. Dryander presented to the bride during the ceremony. The Emperor accompanied the Prince and Princess in an open car through cheering crowds to the station from which they were preceded by special trains. Emperor Nicholas left for St. Petersburg, King George and Queen Mary, it is said, will remain in Berlin for a few days.

FRENCH DANCES DENOUNCED BY FATHER VAUGHAN

London, May 26—Father Bernard Vaughan, addressing the Catholic women's league on the subject of the French dances, said: "There is not much need of my expressing any view about those dances which of recent date have been imported from the Zoological gardens into London drawing-rooms. Their very animal names imply their animal nature. Not even the negro and the negroes think of breaking into such performances except when they are drunk."

FIFTEEN WOMEN AMONG STRIKERS ARRESTED

Clash in Connection With Silk Workers' Strike in Paterson
Paterson, N. J., May 26—There was no break in the ranks of the striking silk mill workers today, as had been predicted. At some of the mills, hands slipped back in small groups, but the wholesale return that manufacturers had said would come early this week did not materialize.
At the Frank & Dugan mill there was a clash between pickets for the Industrial Workers of the World and a squad of employers who sought to get inside. Thirty-two arrests were made. Among the prisoners were fifteen women.

MILITANTS' ATTACK A FAILURE

Captured in Attempt to Ruin Greens on Eve of World's Championship—Vardons to Visit America

(Canadian Press)
St. Andrews, Scotland, May 26—Two militant suffragettes tried, during the night, to damage the golf links here, and so interfere with the opening of play today for the amateur golf championship of the world, the women who approached the seventeenth green where they were interrupted by the night guards, who have been on duty in considerable force for over a week owing to the threats uttered by some of the militant leaders. One of the women escaped, but the other was caught. She was liberated, however, after being searched and was not handed over to the police. The weather was perfect for the opening of today's matches. The sun shone brightly and a mild breeze was blowing in from the sea.
New York, May 26—Edward Ray and Harry Vardon, the present and former open golf champions of Great Britain, respectively, will be in this country as early as the middle of August, according to word received at the Shawnee country club. The famous Britons will make their first appearance in this country as competitors in the Shawnee tournament August 23 and 26.

ANOTHER CURE FOUND FOR TUBERCULOSIS

Paris, May 26—The eminent physiologist, Prof. Raphael Dubois, of the University of Lyons, has concluded a series of experiments, demonstrating that the micrococcus which causes the formation of spores in oysters is fatal to the tubercle bacillus. Twelve guinea pigs were infected with tuberculosis and then inoculated with a culture of the micrococcus. Ten months later all had recovered except one.

ANTI-MILITARY CAMPAIGN CAUSES WHOLESALE RAIDS

French Police Seize Offices of Labor Exchanges—Sedition Charged; Incriminating Material Found
Paris, May 26—Energetic action was taken by the French government against the anti-military campaign in France during the night and this morning, when more than eighty offices of the General Confederation of Labor and labor exchanges in Paris and all the provincial cities were occupied by police. All the documents found in the bureaux were seized by the order of the government which intends to prosecute on charges of sedition, the organizers of recent demonstrations among the soldiers against the newly introduced three years' term of service in the active army. The arrangements of the police were carefully made and the seizures were carried out simultaneously everywhere. It is asserted that much incriminating material was found.

\$50,000 NOT ENOUGH FOR ROOSEVELT

New York, May 26—Col. Theodore Roosevelt, who has been contributing editor of the "Outlook" since his retirement from the presidency in 1909, may retire from his post at a very early date. His reason, it is understood, will depend altogether as to what the board of directors does in the matter of the Colonel's salary. It is currently reported that the colonel's pay is somewhere in the neighborhood of \$80,000 a year.

JAPANESE ATTACHE ARRESTED AS SPY

St. Petersburg, May 26—The Japanese attaché at Sevastopol on Friday on a charge of espionage, has proved to be Major Homi, the military attaché of the Japanese embassy at Berlin. He was released when his credentials were verified, but ordered to leave Sevastopol immediately.
Another version of the affair is that the Russian officials apologized for his arrest.
Miss Higginson Safe
Boston, May 26—Francis L. Higginson, Jr., received a cable dispatch from his sister, Miss Juliet B. Higginson, today, stating that she was safe in Smyrna. Fear had been expressed by relatives in London that Miss Higginson was a passenger on the steamer Nevada, which was sunk by a mine in the Gulf of Smyrna last Saturday.

MRS. PANKHURST GIVES EVIDENCE IS RE-ARRESTED AGAINST GIBSON

Taken in Charge Again Under the Provisions of the Cat and Mouse Bill
London, May 26—Mrs. Emmeline Pankhurst, militant suffragette leader, who was released from Holloway jail on license on April 26, giving to the serious condition of her health arising from her "hunger strike," was arrested today when she was seen at the house where she has been residing.

CHINESE GENERAL KILLED BY BOMB SENT IN PACKAGE

"Tiger Hsu," a Noted Revolutionary Commander, the Victim—Was Cordially Hated by Southern Radicals
Shanghai, May 26—General Hsu Kao San, generally known throughout the south of China as "Tiger Hsu," who commanded the Yang Chou troops throughout the revolution, was killed yesterday by a bomb sent to him in a package yesterday morning. He supposed that it contained objects which he ordered recently. As he unfatigued the string around the package, there was a terrific explosion and the general and one of his servants were blown to pieces. General Hsu was a staunch friend of President Yuan Shi Kai, and was cordially hated by the Kuo Ming Tang, the southern radical party.

INDIAN PAVILION DESTROYED BY FIRE

Brussels, May 26—Fire at the Ghent exhibition destroyed the India pavilion and the manager's office and threatened the English section for a time Sunday, but the wide space left between the sections, the necessity for which was shown by the disastrous fire at the Brussels exposition, a few years ago, prevented the blaze from spreading. It was extinguished after two hours' work.

BRITISH COMMONS MEET TOMORROW

London, May 26—After having been on a holiday since May 8, the house of commons re-assembles tomorrow amid many signs of popular indifference to its proceedings. Next Monday is the date provisionally fixed for the second reading of the Home Rule bill, but the date may be changed to suit general convenience.
Husband's Blow Fatal
Winnipeg, Man., May 26—Suffering from a fractured skull, Mary O'Toole, now in the General Hospital at the point of death, the wound being caused, according to the woman's statement, by a blow from a stone in the hands of her husband.

THE SALMON POND

The work on the government salmon pond at Little River is now about completed and the first fish will likely be put into the pond about the last of the week.

ITALIANS LOST 1,000 DESPERATE BATTLE

The Worst of Whole Italo-Turkish War

DECOYED AND TRAPPED

A Modern Michiavelli, Not So Wise as His Predecessor—Arab's Wily Scheme Worked Perfectly

(Canadian Press)
Chiasso, Switzerland, May 26—The strict censorship which the Italian government has imposed on all news relating to the state of affairs in Tripoli and particularly with regard to the defeat of the Italian forces, at Sid Gaba on May 16, has made it difficult to obtain exact information on the recent reserves in that territory. It has been learned, however, that the disaster at Sid Gaba was due to a well-laid plan of the Arabs.

An Italian workman named Machiavelli, who had been taken prisoner by the Arabs, was allowed to escape after being carefully primed with false information, which he carried to General Garibaldi. Instead of waiting to carry out a scheme of co-operation with General Lasini, who was on his way from Benghazi with a strong force, General Garibaldi, on the strength of Machiavelli's report that the number of the enemy was small, decided to attack alone. Accordingly he divided his 8,000 men into three columns which were supported by four guns and a battery of howitzers. After the first flush of victory, the Italian soldiers were resting, when suddenly each column was set upon from front and rear and cut off from the others. At the same time they were subjected to a heavy shell fire.

The Italians showed admirable courage and endurance. Some of the companies lost all their officers. One advance detachment lost thirty-six out of forty men, and it was soon apparent that retreat alone would save them from annihilation. Col. Magalhães was shot and as he lay dying, wrote a report praising his men and recommending for promotion his major who, although grievously wounded, took command. General Garibaldi, on his return to Derna said: "It was the bloodiest day of the whole Italo-Turkish war."
The Italian losses are estimated at one thousand.

EMPEROR BETTER, EMPRESS IS ILL

Favorable Report on Condition of Mikado Followed by Announcement of Consort's Sickness
London, May 26—The condition of Emperor Yoshihito was so favorable Sunday that he received in audience of several state officials. The bulletin issued by the attending physicians will probably be suspended in view of the steady improvement. The bulletin issued this morning indicated normal conditions. The temperature was 98.75, pulse 72.
Emperor Yoshihito is better, but the Empress Sadako has fallen ill from a cold contracted during her long vigil at her husband's bedside. Her illness, however, is not very serious.

BURNS' ARENA BURNS

Big Building the Scene of Ring Champion's Death Destroyed by Fire
Calgary, Alb., May 26—Burns arena, the scene of Saturday's tragic event, when McCarty lost his life, was totally destroyed by fire at an early hour this morning. The origin of the fire is a mystery. Wesley Benson, his wife and two children were asleep in a corner of the building and escaped just as the flames commenced to lick up that portion of the building in which they were sleeping. The building is covered by insurance.

BOSTON'S MAYOR MAKES SUGGESTION TO AID FISHERMEN

Boston, May 26—In an attempt to reduce the high cost of living Mayor Fitzgerald has a plan to ask all coastwise steamers and U. S. naval vessels to report by wireless as soon as a school of mackerel is sighted. This may or believe that sending radio messages giving masters of fishing schooners the exact location of the schools, would greatly aid the fishermen and the public. He thinks the system should be adopted not only in New England waters, but along the Atlantic coast.
Roosevelt Sues For Libel
Marquette, Mich., May 26—Cyril Theodore Roosevelt arrived here this morning. His suit for \$10,000 damages, charging libel against Gen. A. Newell of the late "Iron Ore," is scheduled to begin this afternoon.

F. B. CARVELL DENIES REPORT THAT HE WILL MOVE TO MONTREAL

Ottawa, Ont., May 26—F. B. Carvell, M.P., when asked regarding the report that he had accepted a partnership to practice law in Montreal, Mr. Carvell said there is no foundation for the report. He states that he proposes to remain in Woodstock and to continue to represent Carleton county in parliament.
Drowned in Rapids
Ottawa, May 26—Two young Englishmen, Fred Bellingham, aged twenty-one, formerly of London, England, and William Tunstall, aged thirty-two, of Burton, Staffordshire, England, were drowned Saturday afternoon when the boat which they were rowing for pleasure on the Ottawa River was swept over the Deschenes Rapids.

NOT DICTATING TO THE SENATE

Sir Wilfrid Has Completed His Fight on Naval Bill
REPORT DENIED
No Threat to Resign—Tory Workers Get Orders to Prepare for Battle—Signs of General Election
Ottawa, Ont., May 26—There is no foundation for the report that Sir Wilfrid Laurier has threatened to resign if the senate does not throw out the naval bill. It is authoritatively stated that Sir Wilfrid is not really concerned with what the senate does regarding the bill. He has put up his fight in the commons and has made it clear to the country where he and the Liberals stand on this question. Whatever the senate does will be without request or suggestion from Sir Wilfrid or any of the leaders in the House of Commons.
The view which is taken by Liberals in the house is that the senate is quite capable of looking after itself and should there be any attempt to interfere, it is felt that the senate might show resentment which would run contrary to the wishes of those who sought to dictate.
The best thing we can do is to let the senate alone," said a prominent member of the commons this morning. "Sir George Ross and his associates in the upper house are as capable as any men in Canada of pronouncing soundly upon the naval issue."
The senate will begin the naval debate this afternoon. Mr. Loughheed will move the second reading of the bill and will put the government's reasons for its introduction. It is said that Sir George Lathbridge, who is named by Organizer Birmingham to get busy on the voters' lists, as indications all point to a contest before winter.
"Whether this notice has been sent out as a general order all over the dominion or whether it is due to the fact that the Liberals thus far have the only candidate is not known here, but it is being taken as an official order to get on the campaign armor."

Can tell you the difference between white bread and

Grape-Nuts

FOOD

You'll promptly discover the reason why tens of thousands now eat a regular morning dish of Grape-Nuts and cream as the cereal part of breakfast.

White bread and many of the prepared breakfast foods are made of grains from which three-fourths of the most valuable brain-building and health-sustaining elements has been removed.

Grape-Nuts food is made of whole wheat and malted barley, milled under scientific supervision and made into crisp, golden granules, rich in well-balanced nourishment.

At this time of year a dish of Grape-Nuts and cream, as the cereal part of a meal, is especially valuable in meeting the requirements of body and brain.

WIDESPREAD INTEREST IN AMHERST WELFARE WORK

A Valuable Contribution to Moral and Social Reform—Quoted and Copied All Over The Continent

(Amherst News Sentinel.)
 Community work as it has been carried on in Amherst in the last two years is something entirely new in Y. M. C. A. and social reform circles. It was a novel experiment and devised to meet a need felt everywhere, as it was here, but met nowhere in the Dominion. News of the attempt has travelled through Y. M. C. A. and church channels over the whole continent, and it has made Amherst more widely and favorably known than before, for the world outside has come to believe that Amherst is interested not only in the material, but in the moral, not only in the output of first class products, but also of first class people and after all it is more honorable for Amherst to be celebrated for its boys and girls than for its boots. The lead that Amherst has taken in this matter is altogether creditable.

The numbers of letters received at the Community Work office here asking for information about the Amherst plan suggests a continent wide feeling that the type of work which has been attempted here is universally needed, that the church and the Y. M. C. A. is not solving the problem of the youth of the land as one might hope and expect. The problem of education in an environment where the whole contentment, and of Christian teaching, are still pressing. It is felt that the fault does not lie with the principle of the Christian school, but that it is altogether a question of adaptation. Here in Amherst we have made an experiment in education so successful as to draw the attention of a whole continent interested in this work. The following are a few examples:

The Recreation Department of that institution, the University of Toronto, New York, is following the work here with warm interest.

The Y. M. C. A. authorities in Canada and the United States are watching us. Charles W. Bishop, general secretary of the Y. M. C. A. of Canada, who has himself visited Amherst to study the work at first hand says of Mr. Bradford: "He has been provisionally given to us to pioneer these new activities."

The Dominion Council of the Y. M. C. A. sent a representative to interview the workers here in order to get information.

In response to the cry for leadership in this new type of work the secretary here was requested last year to give a series of lectures on the community type of Boys work at the Canadian Summer Y. M. C. A. Training School—an important gathering of association secretaries and laymen and has this summer been asked to lecture there again and also at the Middle Western Training School at Lake Geneva, Wisconsin.

In response to urgent requests for light on the methods adopted in Amherst, he has been summoned to Halifax, St. John, Montreal, Toronto, Winnipeg, and many other centers to confer with leaders in Y. M. C. A. and Social Reform Work.

He has been invited over and over to write articles for magazines and college and church papers, explaining the work. Already Amherst methods have been duplicated in a number of places.

For example—in Claremont, New Hampshire, the method has been adopted entire and is already "proving most satisfactory."

The Calgary Y. M. C. A. is adopting the methods for smaller towns in Southern Alberta.

Montreal is developing this type of work and is the first large city to adopt the plan to the working out of its complex problems.

Three centres in Ontario have taken it up and the work is being carried on at present.

St. John is now seeking a man to adopt the plan to the needs of that city. Smaller towns in the east as Picton, Truro, Windsor, Kentville, have begun or are considering similar work.

The work would have been duplicated in many more places except for lack of properly trained men. Mr. Bishop to whom we have already referred writes: "It is going to be a very difficult problem for us to keep up with the demands that have been prompted by the demonstration made in Amherst. It is certainly true that the big problem is men. We have no lack of men who are talking about secretaryship, but men who are qualified for such work as has been done in Amherst are not to be found."

The director of the Division of Recreation of the Russell Sage Foundation says "we are constantly getting inquiries for men equipped to do work similar to the work being carried on at Amherst."

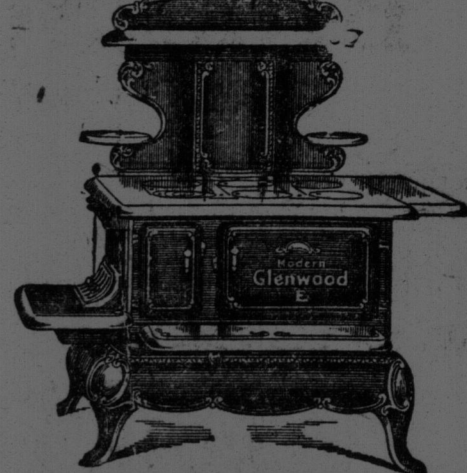

President Cutten of Acadia was told by a wealthy manufacturer in Corning, N. Y., last winter, "You find the man who can do such work (as that in Am-

Daily Hints For the Cook

BAKED ASPARAGUS OMELET
 Butter a baking dish and put in it a layer of cooked asparagus tips. Beat the yolk of four eggs until light, season with salt and pepper, and four tablespoons of hot water, fold in the stiffly beaten whites, pour the mixture over the asparagus, and bake in a quick oven until the eggs are set. Serve immediately from the dish in which it is cooked. Canned asparagus tips may be used.

CANADIAN GINGERBREAD
 One cup of butter, 2 of molasses, 5 of flour, 3 eggs, 1 nutmeg, 1 teaspoon of ginger, 1 of soda, 1 teaspoon of cream or very rich milk, 1 tablespoon of cinnamon, 1 pound of currants. Beat the butter to a cream, add the sugar, molasses and spice, next the eggs well beaten, then the cream or milk in which the soda has been dissolved, next the flour, and last the currants. Mix in order given, as much of the flour depends on how it is mixed. This will make three sheets. Bake in a moderately quick oven 25 minutes.

AMLAND BROS. LTD. 19 Waterloo Street. THIS WONDERFUL BLIND GIRL STENOGRAPHER ASKS NO ODDS, BECAUSE DAY IS NIGHT TO HER.

When a swindler is recognized either in the bar or in the lounge of a hotel, the manager is quickly informed of the type of man who is staying at his house, and that night the suspect is asked to move his belongings and clear out.

When inquiries were started a most amazing story was unfolded, showing that the victim had been tracked from his home around the world by the two swindlers. Only when they reached London did the opportunity they were waiting for appear, and it was a consolation to the victim that he had not been induced to give more money, as he expected a bigger haul after their escapades.

William Linton, a Philanthropist, was arrested by Policemen Ross and Addison on Friday night following an affray that took place in John Sivo's boarding house on South wharf, in which the proprietor was badly cut about the face. It is said that Sivostron endeavored to quell a disturbance which two men were causing in the house with the result that he received a nasty gash in the face. Dr. Skinner was called and found it necessary to put several stitches in the wound. The case will come up in the police court this afternoon.

AT OTTAWA Opinion appears to be much divided on the question whether Mr. Borden will appeal to the people or not in the event of the naval bill being thrown out by the senate. If the bill is thrown out and Mr. Borden does not go to the country, his action, or rather inaction, will be the strongest kind of evidence that there is no emergency.

GROW MORE ALFALFA Referring to an article in the Times last week, calling attention to the progress that is being made in the cultivation of alfalfa in Maine and in Manitoba, the Sussex Record tells of the effort that was made by Dairy Superintendent McDougall to encourage alfalfa production in this province a few years ago.

Perhaps in this matter we may learn a lesson from the farmers of the state of Michigan. In Kent county in that state recently an educational automobile train went out for a week's tour with a dozen or more field men experienced in the growing of alfalfa.

INVESTING IN CANADIAN LAND

Sale of Real Estate to Englishmen Still Increasing

FORTUNES MADE

Rich Profits From Some Doubtful Propositions - Others Want a Share - Why Some Projects Succeed

(Times' Special Correspondence.)
London, May 15 - The movement in Canadian real estate in London is more active than ever. The outcry of last autumn against unwise speculation for the time being frightened the English purchaser and there was a period of inactivity. That period has passed and as it usually the case the appetite has returned with increased force. It is only the barest truth to say today that the public of Great Britain or a great many of them have the Canadian fever worse than ever. The lessons of the last year are unheeded, ordinary precautions are abandoned and the people seem to have made up their minds that Canada cannot be measured by ordinary standards and to have taken as proof that if emigration continues their investments must produce good results.

That the conditions prevail, while members of the prudent financial world—who take their cue from Threadneedle street—are somewhat more cautious in Canadian investments, is an interesting topic. It seems a matter for surprise that while Edmonton and other Canadian cities cannot get their issues subscribed and the underwriters for the Grand Trunk Pacific and a score more of sound Canadian undertakings appeal in vain for funds, there are ample supplies of money to maintain the army of real estate speculators who are operating in London and the big cities throughout Great Britain. Yet that is the present condition. The reason is that this class of our investors or speculators has determined on its course after long consideration. He believes in the permanence of Canada's prosperity and is going to share it, leaving that long overdue day of reckoning to take care of itself.

Whatever else the real estate dealers of Canada have done, they have created an interest in Canada and its lands which has been established in a permanent and practical manner, and which is bringing in its train things more important than the mere purchase of land. There have been sales of Canadian real estate here which have made fortunes for the vendors, sales which have been in the highest degree hazardous to the fortunes of the purchasers, but which have turned into undertakings of success because the Canadian real estate man has stayed with the proposition, induced British clients to provide capital to exploit the natural resources of the district which established industries for the centre, and thereby he has made good his promises to the purchasers of his lots. One of the most soundly thought of Canadian real estate propositions last year is a success by the application of these methods, and lots which were foreclosed, would decrease in price, have changed hands at fair profits. Some real estate men have taken a long time to bring after selling their land, but others, seeing a chance to further the development of the section in which they are interested, are not content until they have induced British manufacturers to establish factories.

SIR CECIL SPRING-RICE AT OTTAWA

British Ambassador at Washington Pays First Visit to Canada's Capital

Ottawa, May 25 - Sir Cecil Spring-Rice, the new British ambassador at Washington, has taken early occasion to visit the capital of the Dominion. He arrived here on Monday morning, and was met by Sir Charles Fitzpatrick, chief justice of the supreme court and administrator of the government, in the absence of the Duke of Connaught, the new representative of Great Britain at Washington.

A WEAK, ACHING BACK Caused Her Much Misery.

Kept Her From Sleeping Nights.

Weak back is caused by weak kidneys, and on the first approach of evidence of kidney trouble Doan's Kidney Pills should be used, and serious trouble avoided.

Doan's Kidney Pills go right to the seat of the trouble, cure the weak aching back, and prevent any further complications arising.

Mrs. W. R. Hodge, Fielding, Sask., writes:—"A few lines highly recommending Doan's Kidney Pills. For this last year I have been troubled very much with a weak back which caused me much misery, for I could not work and had no ambition for anything. My kidneys were very badly out of order and kept me from sleeping at night. I tried many kinds of pills and medicines, but it seemed almost in vain. I began to give up in despair of ever being well and strong again, when a kind neighbor advised me to try Doan's Kidney Pills, which I did, and am thankful for the relief I obtained from them, for now I am never troubled with a sore back or sick headaches. I will always say Doan's Kidney Pills for mine and can highly recommend them to my sufferer."

Price, 50 cents per box, 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

BETTER BUILDING REGULATIONS FOR CANADIAN CITIES

(Conservation.)
Fresh air and sunlight are factors of prime importance in the solution of the city slum problem. Without these, disease and degeneracy are a death-blow around. Yet such is the premium placed on land values, that the civic authorities of even some of the newest Canadian cities fail to make adequate provision for the proper lighting and ventilation of buildings.

In a progressive city in Western Canada, under the building by-laws a building may occupy nine-tenths of the lot, or, if the ground-floor is used for business purposes, that portion of the structure may cover the whole lot. The upper portion of such buildings, consisting of two, three or four stories, may be partitioned into small rooms, to be rented to lodgers. The windows of these rooms open on a court or courts, which extend from the roof of the first floor to the roof of the building, and if the total ground area of the court or courts equal one-tenth of the lot required by law, it fulfills the requirements of the law respecting tenement and lodging houses.

These great "dumb-bell" barracks furnish poor enough housing accommodations when they stand alone, but when two are constructed on adjoining lots, a well formed by their courts and all

the windows opening on these courts are darkened and shut off from fresh air. If one of the buildings is a warehouse, it may occupy the entire lot and the width of the well is halved, making the rooms darker still.

In a lodging house of forty-eight rooms on the principal business street, thirty-six rooms have practically no light or ventilation. Nor is this all. The building has been so constructed that the lavatories ventilate into the court from which a score of bed-rooms derive their supply of air. Surely it is not surprising that one ward—the lodging-house district—should furnish a death-blow from tuberculosis, on the basis of reported deaths, at least twice that of any other ward in the city.

Nor is the "dumb-bell" type of construction confined to the down-town districts. West-end apartment houses are being built on the same plan. As the city grows, these will become the tenements of tomorrow. There can be nothing but uncompromising condemnation for the construction of such ill-ventilated, dark-roomed apartments and lodging houses, either in this or in any other Canadian city. They are anonymous with infant mortality, disease and insanity.

HON. WILLIAM PUGSLEY SAYS BORDEN CANNOT ESCAPE AN ELECTION

Ottawa, May 25 - Hon. William Pugsley, who has been confined to his apartment at the Chateau Laurier for the past ten days, by a severe attack of bronchitis, is considerably improved and expects to resume his duties at the house this week.

When asked today as to whether he thought there was likely to be an election soon, Dr. Pugsley said that all indications pointed to an early election. "If," he said, "as now seemed probable, according to current rumor, the senate should take the strong and unassailable position that the people should be consulted in a general election on the naval question, I do not see how Mr. Borden can escape going to the country with the least possible delay. Signs are not wanting, either, that the government realizes this, as the presence in Ottawa almost daily of prominent Conservative organizers from different sections of the country is evidence that the word has gone out from government circles to prepare for an election."

"What news have you from New Brunswick?" Dr. Pugsley was asked. He replied that it was most encouraging. The Liberals, he said, were never more eager for a fight. He had received numerous letters, not only from St. John but from all over the province, evincing enthusiastic support for the naval policy of the Liberal party, both from the Canadian and Imperial standpoint.

Dr. Pugsley also said that the great favor with which the appeal of the committee of Liberal members for a popular organization and distribution of literature had been received spoke volumes for the enthusiasm of the Liberal party in New Brunswick.

CO-OPERATION AND FRUIT GROWING

Those who are familiar with the history of apple-growing in Canada are aware that single handed it has been very difficult, almost impossible, to succeed in orcharding beyond a few trees and that only slow co-operation became a strong factor in the enterprise has the industry become established on a permanent and prosperous basis. During the last decade of the last century it was no uncommon thing in parts of Ontario to see splendid orchards chopped down for firewood. Growers could get little more for their fruit than the actual expense incurred in producing it and the industry had little to justify its continuance. It was under these circumstances that as a last resort the co-operative movement in the industry began. That it has succeeded and with it the commercializing of the apple industry on a large scale there can be no manner of doubt, as already there have been organized throughout Canada no fewer than 106 co-operative societies and the number is constantly increasing.

To outline in more or less detail the principles of co-operation, the more desirable methods to adopt in putting these principles into practice and the object to be gained in apple growing by their adoption, there has been issued from Ottawa a comprehensive bulletin entitled "Co-operation and Fruit Growing." It has been prepared by Alex. McNell, chief of the fruit division, who is recognized as one of the foremost authorities of the day on the subject of fruit culture, commerce and co-operation.

In this work of forty-six pages the subject is treated from practically every standpoint that interests the Canadian apple grower. Not only are the essentials and methods of co-operation clearly shown, but the advantages being derived through its agency are clearly applied to the fruit industry as enumerated as follows:

(a) To bring fruit products as directly as possible from the producer to the consumer.

(b) To encourage thrift in the fruit grower, and economy, intelligence, enterprise and honesty in the packing, grading and marketing of fruit.

(c) To make it possible for a number of small growers to establish a com-

Had Pimples on Face And Back Was Literally Covered With Them.

Bad blood is the direct cause of pimples breaking out on the face and body, and it is impossible to get rid of them unless you cleanse the blood of all its impurities.

Burdock Blood Bitters is without a doubt, the very best medicine for this purpose.

This old and reliable remedy has been used for over thirty-five years, and has a reputation unequalled by any other for purifying the blood.

Mr. Peter La Pierre, Assistant Postmaster, Touchwood Hills, Sask., writes: "The fall before last, I was very much troubled with pimples on my face and back. My back was literally covered with them, and I could not lie on it at night, they were so painful. One day my sister advised me to use Burdock Blood Bitters, so I got two bottles, and before I had taken all the first one, the pimples had nearly disappeared, and now I am completely cured."

SUMMER IS OFFICIALLY DUE IN FIVE DAYS

By J. R. HAMILTON. Former Advertising Manager, Wanamaker's, Philadelphia.

IF YOU question the calendar you will have to fight it out with the flies. Nature keeps hatching her insects and her flowers, whether we keep watching the procession of the days or not.

It has been a pleasant spring and it will be a pleasant summer if we are ready for it. We must have screens for our doors and our windows, and we must get them now.

We must have cool summer furniture for our porches and our lawns and we must get it now. We must have sporting goods for our recreation out of doors—clubs and rackets, baseballs and bats, rods and guns—and we must get them now.

We must have cool underwear for our bodies. We must have cool suits and dresses, light hats and easy shoes. And we must not delay; for summer and the call of summer is always on the dot.

So you will find a certain kind of news in this paper now that will be welcome to you—news that has no relation to scandal and crime, but that has rather an intimate relation to your happiness.

If a fly keeps buzzing around the baby's head, the most vital news to you is where to buy screens. If you see a troop of people making eagerly for the out-of-doors, the most vital news to you is where to buy your clothes like a mummy in its forty thousand yards of linen around the most intensely interesting news to you will be that news of cooler underwear, of lighter dresses, of pretty waists, and comfortable low shoes.

All this news is in this paper now. It is good news, because it is money saving, comfort giving, advertising news. So turn to your advertising. It is the most vitally interesting thing in this paper today.

Read it carefully. Respond to it quickly, and you will be officially ready for summer when summer is officially here.

The closing exercises of Mount Allison were held on Friday. Rain materially interfered with the programme and the field sports and the lawn drill of the ladies had to be called off.

When the public protectors come along they do not put me through a cross-examination for sure; but when I offered them a chance to show their sincerity for the public welfare by stating that if they would furnish me or the council with assurance that neither the federal or the provincial governments would permit the property to be expropriated without sufficient remuneration...

Regarding the newspaper statements, I believe I have a right to object to some of them stating that I had refused an offer of \$150,000 for the property, as they most certainly have known the meaning of the word "refuse" in this connection.

One thing I wish to impress on your minds, and that is that I do not propose to take any further into my confidence at present other than to say that the option has been voted on and it will be expected that it will be signed, but you need have no fear that anything will be done regarding the disposition of the property that will not meet with the approval of the majority of the taxpayers.

You will have every reason to believe that every councillor who may have displeased you for a few days is entitled to your respect, and of one thing you may rest assured, that he voted for what he believed to be in the very best interests of you all.

Finally, I would ask you to remember that there never was one dollar offered for the property and there is no person representing you at the council who could possibly be so foolish as to refuse an offer of \$150,000 a few weeks ago and now accept \$75,000.

LOOK OVER WORK OF EXTENDING STREET CAR LINES TO KANE'S CORNER

Commissioners to go This Afternoon—Take Over Chief Kerr's Interest in Wagon

At the meeting of the city commissioners at noon today a resolution was moved by Commissioner McElean that the city purchase the interest of the late Chief Kerr in the wagon which he had used for so many years, and which was his private property. It seems that the chief had owned the wagon and equipment, and the commissioner recommended that the city acquire it. The estimated value is about \$200. He also recommended that there be a gratuity of \$100 to the widow of Chief Kerr, in consideration of his thirty years of service to the city.

The commissioners decided to visit the scene of work on the extension of the street car rails to Kane's corner this afternoon after the weekly meeting, to consider grading work to be attended to.

A letter was received from Mr. Dykeman in reference to the property at Alexandra Heights, as regards the construction of a bridge which it was at first proposed to have eighteen feet wide, but now twenty feet. This being wide enough to be used for the purpose of the supervision of the road engineer.

MORE THAN 100 RURAL MAIL ROUTES NOW IN PROVINCE

Several important additions have been made to the number of rural mail routes established through the province, and the work of increasing those now in use is continually in progress, as applications for the opening of new routes are being received daily. Dr. Colter, post office inspector, said this morning that there were now 106 places where the rural mail routes had been established. Amongst the more recent connections were Lepreau, Stanley, Cole's Island, Springfield, St. Andrews, Wickham, Riceville, Pocologan, Benton and Bay-side.

Now Come Out in a Straw Hat

We do not have room in our stock for the inferior kinds—besides, it doesn't pay to sell any but the best and at consistent prices—too. We are satisfied with a small profit and we want you to be satisfied with the hat. It's along this line that we bid for your hat business. There are lots of straw hats sold that look well enough when you first put them on, but that's all you can say for them. The kinds we sell will stay with you and be a source of genuine satisfaction. The latest fads for young men as well as the correct, conservative shapes are here.

- CHRISTY'S STRAW HATS \$2.00 to \$4.00
- NEW YORK STRAW HATS \$1.00 to \$3.00
- MEN'S PANAMA HATS at \$5.00—the best we know of in town at the price.
- A large range of PANAMA HATS also at \$6.00, \$8.00, \$10.00, \$12.00
