DARROW DENIES ALL CHARGES OF JURY BRIBING

Contradicts Evidence of Previous Witnesses Regarding The Plot

THAT \$1,000 CHEQUE
Says He Paid Money to Franklin For "Office Expenses"—Gives History of His Life While on The Stand

(Canadian Press)
Los Angeles, Cal., July 29.—Clarence S. Darrow, on trial for alleged jury bribery, took the witness stand in his own behalf yesterday. In the brief time he was on the stand Darrow contradicted testimony by George Behm and Bert Franklin, which had been considered damaging to his case. Mr. Darrow gave his age as 56 next April, and said he had been practicing law for 36 years. He gave a brief history of his various important employments and a brief account of his record as representative of organized labor. Asked about his relations with Geo. Behm, uncle of Otto McManis, Darrow said that Behm and Mrs. McManis had visited his home in Chicago, where Mrs. McManis complained of the manner in which her husband had been treated by W. J. Burns, the detective. "I had no conversation at any time in reference to getting McManis to change his testimony," said Darrow emphatically, "and I never gave him any money for that purpose."

Judgment of British Board Of Trade Court of Inquiry

Ismay and Duff-Gordon Exonerated—Recommend More Water-Tight Compartments; Lifeboats for All; Boat Drill and Better Look-out

(Canadian Press)
London, July 29.—The judgment of the British Board of Trade court of inquiry into the disaster to the White Star liner Titanic, which sank in mid-ocean with 1,517 souls, after collision with an iceberg on April 14, was pronounced today, by Lord Mersey, the presiding judge, before a large audience. The court finds that the collision of the Titanic with the iceberg was due to the excessive speed at which the ship was navigated; that a proper watch was not kept; that the ship's boats were properly lowered, but that arrangements for manning them were inefficient; that the lifeboats, California, might have reached the Titanic if she had attempted to do so; that the proper follow-up was reasonably safe with proper vigilance, and that there was no discrimination against third-class passengers in the saving of life.

D'ARCY SCOTT

LA MARQUISE DE FONTENDY King Leopold's Socialistic Chaffeur Now a Senator—Darsham Hall Sold—Canadian and Imperial Citizenship—Oxford's History

That the calling of a chaffeur may sometimes lead to high legislative honors, is shown by the fact that the late King Leopold's favorite driver, Boulanger, has just taken his seat in the Belgian senate.

Leopold, however, turned a deaf ear—it was not difficult for him to do so—when he was hard of hearing—to all remonstrances, and indeed, used to take a cynical pleasure in discussing politics with his chaffeur during their long motor trips.

In fact the King once remarked to him, without even the flicker of a smile, "You know, I am very much of a Socialist too, only my business as King does not permit me to give open and practical expression to my convictions."

Leopold never had the slightest mishap when Boulanger was at the wheel, and at the King's death it was found that the latter had bequeathed to him a handsome legacy in recognition of his faithful services.

Lord Stradbroke, who is lying very seriously ill, and is not expected to recover, has caused the sale, by auction, of his Darsham Hall estate, in the fairest portion of Suffolk.

He is lying at Henham Hall, in Suffolk, which far more than Darsham, is his ancestral home, since his family have been established there for several centuries.

The first of the family to acquire a title was Sir John Rous, member of parliament for Dunwich, and upon whom Charles II. conferred a baronetcy, immediately after the Restoration.

"Good to eat" doesn't begin to describe Even As You and I By RUTH CAMERON

IN a letter which came to me the other day was the following sentence: "Sometimes you are not so good as usual, and then I say, 'Well, perhaps Ruth has a headache today.'"

If there were more people in the world like the writer of that letter, how much happier a place this world would be!

Because of the complexity of modern life we receive a great deal of service from men and women whom we never see. And just because we do not see these people we are apt to forget that they are men and women like ourselves.

Perhaps it is because so much work is done by machinery nowadays that we are inclined to act as if a machine cooked the food we eat at the hotel or restaurant; wrote and printed our newspapers; sorted our mail; tended the telephone switchboard, and performed all of the innumerable services whose agents we seldom or never see.

But these things are not done by machinery. Indeed—to contradict myself—nothing is really done by machinery. That is, without a human being to tend the machine, and consequently a human element in the product, all these services are performed by human beings, and human beings are liable to headache, heartache, sleeplessness, grief, anxiety and all the other ills and accidents which sometimes make it hard for you and me to do our work well.

You take up your newspaper some morning and find the type badly "piled" right in the middle of a story in which you are particularly interested.

STRAWBERRY SPONGE Soak a half package of granulated gelatin in a half cupful of cold water. Boil together for a moment one cupful of sugar and a scant cupful of boiling water, add the soaked gelatin and stir until dissolved; take from the fire, add the juice of a half lemon and strain. When this has cooled and is beginning to thicken whip the whites of three eggs to a stiff froth. Gradually mix with the thickening jelly and whip until very spongy and quite stiff. Rinse a mold with cold water and fill it with alternate layers of the sponge and berries cut fine. Serve cold with cream.

GRANDMOTHERS USE SAGE TEA To Darken the Hair and Restore Gray and Faded Hair to its Natural Color

It is easier to preserve the color of the hair than to restore it, although it is possible to do both. Our grandmothers understood the secret. They made a "sage tea," and their dark, glossy hair long after middle life was due to this fact.

SENATOR LODGE TO THE RESCUE

Introduces Bill in Senate to Prohibit Unauthorized "Fake" Photographs—Heavy Penalties Provided

Washington, July 30.—Senator Lodge introduced yesterday a bill prohibiting the making, showing or distribution of unauthorized photographs. The penalty provided is six months' imprisonment or a fine of \$1,000 or both.

Senator Lodge's bill is aimed at photographers in various sections of the country who make "fake" pictures of various persons in the act of shaking hands with the president. He drew the bill with the assistance of Attorney-General Wickham after learning that a famous "white slave" in Texas was using such a picture, which he obtained in Washington, to assist him in his traffic.

A man now being sought by the immigration authorities for "white-slave" trading has used a "fake" picture of himself shaking hands with President Taft to impress and terrify his victims, according to a statement made by the senate today by Senator Lodge.

A thriving business in such photographs had been done in Washington for several years until Attorney-General Wickham recently stopped it. For a small sum anyone could have in his city streets, combined with one of the president, shaking aim, appear to be shaking hands with the Chief Executive.

ANOTHER CASE OF SWALLOWING FALSE TEETH

Lynn Woman Suffers Similar Accident to That of Fredericton Maa Yesterday

Boston, July 30.—Mrs. Carrie Smith, a cook at the Bellocast Chambers in South Common street, Lynn, will probably starve to death unless her false teeth, which are lodged in the lower end of her oesophagus, can be removed.

Mrs. Smith is at the Lynn hospital where X-ray examinations have been made to determine just how to pull the teeth, and to find out if it will be possible for Mrs. Smith to take liquid food.

Mrs. Smith was obliged to leave work at the Bellocast Chambers, where she was preparing breakfast Wednesday morning on account of a sudden illness.

At her room at 8 Fowick court, she was seized with a fit of coughing. It is believed that the coughing cracked the plate in her upper set of false teeth. Any way, she swallowed the teeth.

The woman can breathe and she can, though with some difficulty, swallow liquids. X-ray photos have been made and operations will be postponed until after a study of the prints from those negatives.

THE EMPIRE SAVED

The people of the United Kingdom do not appear to be as grateful as they should be, for their salvation at a moment when the unhappy country was tottering to its fall.

Nor has the Canadian press done its full duty toward the noble band of rescuers who leaped into the breach and frightened the German navy out of a year's growth.

It is true that the British Empire has been worrying along in an uncertain way for a long time, and that the men at the head of its affairs in London, and scattered over the world, are specially trained for their task.

But, when all this has been admitted, it is obvious to the Canadian mind that, in a crisis such as that which lately threatened, these jaded old-world statesmen of a decadent period could not save the Empire.

But, when all this has been admitted, it is obvious to the Canadian mind that, in a crisis such as that which lately threatened, these jaded old-world statesmen of a decadent period could not save the Empire.

The Canadian ministers are now saving the empire at banquets in Paris.

One of the strongest temperance sermons ever preached was that order of the Delaware, Lackawanna & Western Railroad, forbidding the men in its transportation service to drink liquor either when on or off duty.

The ungrateful part of the business is that some of the "blasted Britabars" do not seem to realize what has been done for them. They are disposed to assert that Canadians have no cause to be proud about and call themselves the saviors of the Empire.

Since the militia department has provided the city of St. John with some old cannon, there is no good reason why they should not be mounted on the squares. In years to come, if not at present, they would be regarded as interesting curiosa.

The Privy Council has sustained the decision of the supreme court of Canada and leaves the marriage law question in the hands of the provinces. That is to say, each province has exclusive power to make laws relating to the solemnization of marriage.

Commodore Stewart proposes to make short work of the German war scare. He would have England declare war at once. He says: "War is a great evil, but wouldn't it be better to provoke war at once and smash the German navy into smithereens? And thus the danger of allowing Germany to get the biggest navy and the expense of outbuilding her would be avoided at one stroke. Let us have war. A short war would cost much less than a long peace with the present and prospective naval appropriations." Recruits should report at once at Chatham.

JAPAN'S RULERS

Japan's great Emperor, the man whose reign witnessed the awakening of his country and its rise to rank among the great powers of the earth, is dead, and his son has assumed the momentous responsibilities of the imperial office. There is a singular mixture of the old and the new in the account of the proceedings at the palace. The royal family has never embraced Christianity, and the rites of Shintoism were performed by its priests when the Emperor died. He will doubtless be buried in the sacred city where for so many centuries his royal forefathers lived and were worshipped as of divine origin.

Japan, during the lifetime of Meiji, has taken from the western world everything of value except the Christian religion, and it gives the same protection to a Christian missionary as is given to a Shinto or Buddhist priest. Religion is the settled policy of its government, and one Japanese philosopher has declared that the Japanese mind is especially qualified to take the three religions which now exist there and from the best of each formulate a religion better suited to human needs than either of the three.

The passing of the Emperor is an event of world-significance. He was one of the world's great rulers, and his death marks an epoch in the affairs of his country.

THE NEAL THREE-DAY DRINK HABIT CURE

The Neal Treatment consists of the administration of a perfectly harmless and purely vegetable medicine taken internally only and without any hypodermic injections. The Neal Treatment and the methods of its administration are pronounced and conceded by all who have investigated to be not only ethical and professional, but entirely satisfactory. The sureness and success of the treatment in all cases has been demonstrated and proved by Doctor Neal who, during the past ten years, has successfully cured upwards of five thousand bad cases of the drink habit without a single failure - each one in just three days' time.

The Neal Treatment is simple yet very effective. Doctor Neal, after many years of the most painstaking, professional and thorough study, experiment and investigation, has found and demonstrated that the drink habit instead of being a disease or an inherited affliction is due to the stored up poison in the system, coming from the continued and excessive use of alcohol.

Augustus - "I'm not fond of the stage, Violet, but I hear your father on the stage, and I think I had better go before stored up poison in the system, coming from the continued and excessive use of alcohol."

STEEL INDUSTRY FOR SAINT JOHN MUST SOON COME

Important Announcement by W. Burton Stewart - Mammoth Plant to Cost Millions and Employ Thousands - Courtenay Bay Work

"It must come, and if it must come, it must come soon," was the cheerful response of W. Burton Stewart, vice-president and general manager of the Norton Griffiths Co., Ltd., to a query of a Telegraph representative, who had an interesting talk with him last evening. He spoke on many topics very important to the people of St. John, but chiefly on a subject of far more than ordinary interest and importance - the establishing of a big iron and steel industry near Courtenay Bay, and concerning which the reply quoted was typical.

"Do you regard the project as more of a likelihood than a mere possibility?" asked the reporter.

"More than that," was his reply. "There is nothing in the way and nothing to stop such a plant being erected, and the expense is not too enormous."

"Are you interested in securing a site for location?" Mr. Stewart asked.

"Yes, I am very much interested in this matter. As you know there is very little level land suitable for an industrial site here. It will, therefore, be necessary to reclaim a part of the flats, and in that event the location will be as near as possible to the site of the dry dock. As the reclamation will have to be made before the location will be suitable for the shore - and the dredging will be commenced in two or three months - you will see that something will have to be done very soon."

"When the thing comes, I expect it will be something big. We will not have to go as far as the other side for capital, for there is a Canadian firm already in operation elsewhere, interested in the project. I am not in a position to state the name of this company."

Asked as to the extent of the plant that will likely be established here, Mr. Stewart said that a great many capitalists were coming to Canada this fall to look over the ground. A great many more than have already been here will come, but they will not make the trip in parties, but will go quietly about, and in that way they will possibly gather much more information.

"An iron and steel industry," he added, "is what I consider most important to, and most needed in St. John, and as dry dock owners, we are greatly interested in securing such an industry for this city, and we will give every assistance in our power so that St. John may have this business before very long."

Augustus - "I'm not fond of the stage, Violet, but I hear your father on the stage, and I think I had better go before stored up poison in the system, coming from the continued and excessive use of alcohol."

Mr. Stewart expects to be in the city about a week, and will then go to Montreal and from there to Vancouver.

Mr. Stewart said that the work at Courtenay Bay was proceeding satisfactorily, although the wet weather had retarded matters somewhat. The force of 100 men would be doubled soon, and before the end of the year there would be 1,000 men employed. The work, he said, would go on all winter unless the weather was too severe.

MAY ROBSON IN TWO FINE OFFERINGS

May Robson, now regarded as one of the finest women on the stage, has duplicated her success in The Rejuvenation of Aunt Mary in her laughable presentation of Gramma in A Night Out, which she will present at the Opera House on Monday, Aug. 5, for one week.

The comedy offers Miss Robson a distinctive character, unlike Aunt Mary in evening, when the moulding shop and many valuable patterns were destroyed. The loss is well covered by insurance.

Louis Lech, a Mormon, who fled with his family from the scene of trouble, said yesterday in El Paso, Texas, that information had been given out along the Mexican frontier that all Americans in the insurrection zone must be stripped of arms and that guarantee of protection were to be withdrawn. The rebels hope to bring about American intervention by barbarous acts, and even plan the massacre of Americans on the frontier unless the government intervenes.

St. John's, Nfld., July 29 - The British steamer Manchester, inventor put into port today badly damaged as a result of colliding during a dense fog July 24 with a submerged iceberg.

London, July 29 - A local tradesman the windows of whose store were smashed in one of the suffrage riots was awarded \$75 damages and costs by Judge Woodfall in the Westminster county court today.

Boston, July 29 - The strike of the conductors and motormen of the Boston Elevated Railway Company, which has lasted for fifty-three days and is estimated to have cost \$1,028,000, was ended tonight by the agreement of the company officials to the terms of settlement, the strikers winning every point sought. The strikers will begin to go back to work tomorrow.

A meeting to have been held yesterday afternoon by a committee appointed by the Exhibition Association regarding the "made in St. John" exhibit, did not materialize, only two members showing up.

A member of the committee said yesterday that it was likely that St. John would be in line with Moncton, Fredericton and other places in this regard, but it was a matter for the merchants themselves to decide.

NEWBRO'S HERPICIDE SAVES THE HAIR

And Keeps You Looking Young

Don't look older than you are. It is just as easy to look younger. While lack of hair or poor hair is not always an indication of age, it is frequently accepted as such.

A person well advanced in years possessing a good head of hair is always spoken of as "well preserved."

Everyone can retain beautiful, luxuriant hair if they make the effort. In all but every instance poor hair or the loss of hair may be traced to the activity of the dandruff germ. Newbro's Herpicide kills the germ and puts the scalp in a perfectly healthy condition. With the destruction of the dandruff germ the hair no longer drops out. The itching of the scalp stops almost at once.

Newbro's Herpicide is the original remedy for which there are many substitutes, preparations claimed to be "just as good." You don't have to accept a substitute. Insist upon having genuine Herpicide.

Send 10c. in postage to The Herpicide Co., Dept. R., Detroit, Mich., for sample and book.

Newbro's Herpicide in 50c. and \$1.00 sizes is sold by all dealers who guarantee it to do all that is claimed. If you are not satisfied your money will be refunded.

RIOT IN PORT ARTHUR

Fort William, Ont., July 29 - A riot which resulted in the serious wounding of six persons and minor injuries to many occurred in Port Arthur tonight. Chief of Police McLennan was laid out by a mob in the hands of an enraged foreigner.

P. C. Schiltker received a bullet wound in the back, P. C. Peterson was badly clubbed and three foreigners were wounded by bullets.

The trouble was caused by pickets of strikers among the Canadian Northern Railway employees interfering with some men of their way to work. The chief of police and two constables took a hand, but when they tried to make an arrest their prisoner was taken from them by an angry mob and they were beaten back.

Shots were exchanged and three foreigners were wounded. The fighting quieted after a time, but it is thought if any one attempted to go to work about the railway properties that it would break out afresh.

LIEUT. BECKER CHARGED WITH ROSENTHAL MURDER

New York, July 29--Sensational developments in the investigation of the murder of Herman Rosenthal, the gambler who was shot down in front of Hotel Metropole two weeks ago, came with a rush tonight when Police Lieutenant Chas. Becker, accused by Rosenthal as his partner in a gambling house, was arrested, accused of participating in the killing, and forced to plead at once to a charge of murder in the first degree.

Becker was arraigned before Judge Mulqueen, who had convened the court of general sessions at night for the purpose, and pleaded not guilty. He was remanded to the Tombs.

The arrest of Becker came as a sequel to the summoning together of the grand jury late today, a conference between District Attorney Whitman and Harry Valton (Perman Valinsky), "Bribe" Weber and Jack Rose (Jacob Rosenzweig), three of the men under arrest in connection with the case, and their attorneys, and the appearance of several other witnesses before the grand jury. Becker was arrested at the Bath Gate avenue police station in the Bronx, where he has been on duty, on a charge of extortion.

As the time not an inkling of the more serious charge to be placed against them was given. Meanwhile the grand jury, which was then in session, had voted the murder indictment. The police lieutenant, who had been suspended by Commissioner Waldo after his arrest, was hurried before Judge Mulqueen and through his attorney entered the plea of not guilty.

WORK OF PLAYGROUNDS SHOWN IN PICTURES

In the Natural Histories Society room last evening striking pictures explanatory of the work of the supervised playgrounds were shown to an interesting gathering. The pictures were thrown on the screen by Wm. McIntosh, curator of the society, by the use of the reflectoscope, and were explained by Mr. Bandelow, of the Y. M. C. A. The pictures were of a very interesting nature, showing the congested condition of cities, emphasizing the need of proper playgrounds, and then illustrating what has been done in various places to overcome the evils attendant upon these conditions. Mr. Bandelow gave a very interesting talk on the pictures as they were shown and called attention to the formation of the supervised playgrounds association in St. John and expressed the hope that all citizens would become members of the association.

WATCH YOUR CHILDREN'S HEALTH

If any of your children seem to be pale and anemic, growing too fast or too slowly, don't start doctoring them. Food is the keynote of a child's growth and health. Some children owing to constitutional weakness, or as a result of children's diseases, will not thrive on food from which stronger ones benefit. In such cases the addition of Boveril to the diet will produce marked results. Boveril is concentrated beef in its best and most palatable form. Stringent scientific tests have shown that it is a great body-builder. It is in itself a highly condensed food but it possesses the remarkable power of enabling the system to draw the full store of nutriment from ordinary food. Give your child between meals once a day a cup of warm milk, in which you have stirred a spoonful of Boveril, and try a dash of Boveril in your gravies, sauces and soups. It will be not only the delicate ones who will appreciate the added zest, all will benefit from the increased nutrition.

ROYAL PARTY ENTERTAINED IN P. E. ISLAND

Charlottetown, July 29--A royal vogue was given the Duke and Duchess of Cornwall and the Princess Patricia on their arrival in Summerside yesterday. They attended divine service and this morning visited several black fox ranches in the vicinity of Summerside, leaving by special train for Charlottetown at 11:30. The weather was perfect and the city presented an appearance surprisingly fine, being gay with bunting and flags. The loyalty of its people was amply attested in the warm welcome the party received as they entered the handsomely arranged railway station.

Mayor Lyons read the address of welcome from the city of Charlottetown. After the governor general had replied to the address and after other features of the provincial government by Premier Matheson, while his little daughter presented the duchess with a bouquet of orchids and roses. After this a large number of ladies and gentlemen were presented to the royal party and then they returned to the steamer 'Mary Grey,' which had arrived in port.

Tonight a huge torchlight procession will be held with fireworks at Victoria Park and motor boat parade on the river. Tomorrow the party will enjoy a drive around the suburbs, visit the golf links and dine at the government house. At the luncheon and dinner to be given at the government house no wines will be served. At the request of the governor general's secretary no wines will be served on the excursion trip by the steamer 'Harland' up West river tomorrow at which the visitors will be present.

Luncheon being over the royal party drove to Victoria Park and were there presented with an address on behalf of the provincial government by Premier Matheson, while his little daughter presented the duchess with a bouquet of orchids and roses. After this a large number of ladies and gentlemen were presented to the royal party and then they returned to the steamer 'Mary Grey,' which had arrived in port.

PANAMA CANAL DISCUSSION IN U. S. SENATE

Washington, July 29--The right of Great Britain to participate in an understanding for the control of the Panama canal was denied in the senate today by two advocates of the measure to give American coastwise shipping the preference in canal tolls. Senators Bradley, of Kentucky, and Mason, of Nevada, contended not only that the United States had the right under the treaty to regulate its own affairs, but that the purchase of the canal zone removed the entire subject from international control. Senator McCumber, of North Dakota, took an opposite view in his speech opening the canal debate. Senator Mason declared the Hay-Panama-tote treaty of 1901 could be entirely ignored by the United States, so far as the Panama canal was concerned. The operation of that waterway had become a domestic problem, he said, and one not properly reviewable by any international court. Senator Bradley had that view under-

THE TREATY THE UNITED STATES HAD SIMPLY MADE THE RULES OF EQUALITY WHICH WERE TO APPLY TO ALL OTHER NATIONS. AS THE MAKER OF THESE RULES AND THE NATION AT WHOSE EXPENSE THE CANAL HAD BEEN BUILT, HE DECLARED THE UNITED STATES WAS NOT BOUND BY THE REGULATION OF THE TREATY, SO FAR AS IT REQUIRED "EQUAL TREATMENT TO ALL SHIPS."

There was quite a lively scrap in Bristol street last night between several residents of Harrington's Alley. It is altogether likely that the affair will be aired in the police court in a few days.

GIVES NEW CHIMES FOR CATHEDRAL AT FREDERICTON

Through the munificence of a former New Brunswicker, James H. Dunn, now a leading banker in London, Eng., a new chime of bells for the Fredericton Cathedral is now assured. He has donated \$8,000 for the purpose, and Dean Schofield said last night that an order for the purchase of the new chimes would be given at once, so that if possible, they would be in place by Christmas. The donor is a former resident of Bathurst, but is now at the head of the Dunn, Fisher Co. bank, in London, where he has accumulated an enormous fortune. He visited his old home in this province last year to see his mother, Mrs. Robert Dunn. His cheque for \$8,000 has been forwarded by mail to His Lordship Bishop Richardson, who is deeply appreciative of the gift.

GERMAN LOVER STEALS BRIDE AT POINT OF GUN Berlin, July 29—An elopement under remarkable circumstances is reported from Innsbruck, in the Austrian Tyrol. A German family was making a carriage tour round Lake Toplitz, when a young man suddenly appeared on the highway, and, pointing a revolver at the father and mother, demanded that they should hand over to him their daughter, nineteen years of age, who was with them.

The terrified parents complied, whereupon the young man fled with the girl in a motorcar. The father immediately notified the police, who are of opinion that the kidnapping was prearranged between the girl and the "highwayman," who is described as a Charlottenberg merchant.

Cape Breton League.

The game at Dominion yesterday between Dominion and Waterford was up to the ninth inning, one of the best seen yet in the county league. There was no scoring in the first three innings. Waterford got one run in the fourth when Copeland hit a two-bagger, stole third, and came home on Nelson's wild throw. Two more were added in the sixth and one in the ninth. Barry held Dominion without a hit open for the first five innings when hit by Siney and Nelson brought in two runs. The score was tied in the eighth, Nelson doubling and scoring on Donnelly's hit. Waterford had a lead of one when Dominion came to bat in the ninth. Knight and Brady both hit Hines, a Dorchester pitcher, who worked for Dominion, came up. Brady put the third strike over on him, but Cannon dropped it. Hines started for first, stopped and started again. The umpire evidently did not notice him stopping, for he did not call him out and Hines dashed for the base. Cannon threw to first, Knight coming home. The batterman claimed that Hines should have been called out for interfering, as the baseman has the right of way when fielding a ball. Umpire McArthur could not see it in that way, however, and called Hines safe.

A vigorous protest was made but the umpire stood firm, and Manager Wilson pulled his men off the field. The umpire gave the game to Dominion. Without attempting to go into the rules governing plays of this kind, it may be said that the general opinion among disinterested outsiders seems to be that Hines should have been out. He might have been called out earlier, as he started to run to first after the catcher had dropped the ball, stopped and started again. With a man on third, the obviously correct thing to do was for Cannon to get the runner at first, the first baseman returning the ball to get the man from third. This play would have retired the side, as there was one man out. Cannon attempted it, but the collision between the runner and baseman spoiled the play, and the former was called safe on first. While the man on third came home. The Dominion players claim Hines was blocking the base line, and the runner could not have been called out for interfering.

Whichever side is right, the umpire, there can be no doubt, gave his decision on the play exactly as he saw it. The Dominion players naturally thought he was right, and the Waterford men just as naturally maintained he was wrong. The reporter does not intend to put forward his own opinion on the matter, but is simply giving that of the majority of those with whom he discussed it. Waterford protest will likely be before the League executive. The game was played under protest, Waterford objecting to Hines, the Dorchester pitcher.

The score up to the end of the eighth inning, was as follows: Waterford. AB. R. H. P.O. A. E. Malvey 1st. 3 0 0 8 0 0 Connor 1st. 4 1 0 0 0 Copeland 2d. 4 1 1 6 0 Ramsey 2d. 3 0 2 2 1 Connor 3d. 3 0 1 1 2 Johnson cf. 3 0 1 1 0 Cannon of. 3 0 11 0 0 Macleod cf. 4 1 0 0 0 Barry p. 4 0 1 0 2 31 3 6 24 11 4

30,000 ACRE DEAL IS HELD UP BY DEATH OF HAYES

Pittsburg, July 29—A syndicate of Pittsburg financiers, headed by J. R. Paul, former vice-president of the Bank of Pittsburg, and W. R. Woodford, former vice-president of the Pittsburg Coal Company, is wondering what is to be the end of a coal land deal, the syndicate has on with the Grand Trunk Railway. The arrangements for the purchase of 30,000 acres of coal in Belmont County, Ohio, lying along the Ohio River, were made by Paul and Charles Hayes, late president of the Grand Trunk, who paraded with the title.

Hayes had with him when he sank the syndicate contract for this property transfer at a price approximating \$10,000,000. He had gone to London to get the approval of the board of directors of the road. This he had obtained. As Hayes was the only one in the Grand Trunk who was familiar with the conditions of the deal, the Pittsburg syndicate has found the other officials apparently indifferent, and disposed to forget the whole transaction. Counsel for the company can learn nothing definite from the London office.

The Pittsburgers meanwhile are pat on the necessity of paying dearly for extensions of their options on the coal land, or of raising the whole purchase price to protect themselves.

DEMANDS \$1,000 FROM MAYOR OF WINNIPEG TO PURCHASE CLOTHES.

Winnipeg, July 30.—What looks like the work of a crazy person was the letter with the usual black hand signature received by Mayor Wason this morning.

"Send me a \$1,000 bill to buy clothes with," it says. "I was in the Regina cy clone and in getting ready to wash and chain. My home is gone also so I shall need another \$1,000. I will receive it tomorrow at 10 o'clock at 111 Alexander Ave."

MONTREAL YACHT MADE QUICK TRIP ACROSS ATLANTIC.

Halifax, N. S., July 30.—A cable from Barbados says that the W. Douglas of Montreal arrived there yesterday from Glasgow on his schooner yacht Laska. The Laska had made the voyage from Halifax to Glasgow in twelve days and fifteen hours. BRITISH SCHOONER DRIVEN ASHORE IN THE COURTS.

Boston, July 30.—Hit by a squall, which disabled her steering gear, the British schooner Jennie C., laden with a cargo of lumber and bound from Windsor, N. S., to Salem, Mass., was driven ashore at Hart's Bar near Pacy Cyle, Tuesday, July 23, and had it not been for the work of the revenue cutter Woodbury, would have been broken to pieces on the ledge. The Woodbury pulled the schooner from the rocks Friday and towed her into Port Clyde where the vessel will be hauled out on the Marine railway for repairs before resuming her trip to Salem. The vessel is valued at \$1,800 while her cargo of lumber is valued at \$2,000.

TODAY'S POLICE COURT.

Three prisoners charged with drunkenness were arraigned before Magistrate Ritchie in the police court this morning. Two were fined \$4 or ten days in jail, and the other \$8 or thirty days in jail. Roy Wilson, charged with using obscene language, forfeited a deposit of \$8.

Edward Quirk pleaded guilty to having his bar in Brunsell's street open after 5 o'clock on Saturday afternoon last and was fined \$50.

Daniel Monahan was fined \$20 for assaulting Stanley Sherwood in Sheriff street on Friday night last. The fine was allowed to stand. According to the evidence the row started over a year-and-a-half old baby. Sherwood took a stick from the baby, which belonged to Monahan, and received a slap in the face. He retaliated by striking Monahan on the head with a stick of wood. Monahan then struck him in the face. His Honor told Sherwood that he ought to be ashamed of himself for taking the wood from the little child, thereby starting all the trouble.

IMPROVEMENTS TO MASONIC TEMPLE

Top Floor to be Fitted up to Provide Spacious Quarters for Additional Lodge Rooms.

The top story of the Masonic Temple, Germain street, is receiving a thorough renovation at the hands of the painters and decorators. The rooms are being wired and remodelled, and when finished the Masons will have modern and well-equipped lodge rooms.

The top flat of the Masonic Temple has never been finished and affords an excellent opportunity for modern and spacious lodge rooms. The order here have now determined that this space, which has for some years been of little or no use, shall be made available for accommodation on account of the now cramped quarters, as the result of the growth of the order of recent years.

OFFERS TO ADOPT BLUE EYED BABY FOUND BY ROADSIDE.

The police are still working on the case arising from the finding of the little infant on the Loch Lomond Road near the Ben Lomond House on Sunday last, but have yet been unable to find out much about it. The little child has been removed to the Alms House and is getting along very nicely. Chief of Police Clark received a letter yesterday from a lady residing out of town stating that if the necessary arrangements could be made that she would adopt the infant. The chief handed the matter over to Secretary Wemyers of the S. P. C. and it is likely that some action will be taken in the matter this week.

BILL BOARD TAX WOULD PUT THEM OUT OF BUSINESS.

The increased tax on bill posting companies which was raised by the city commissioners from two cents a line to two cents a square foot is causing strenuous objections from the St. John Posting Companies, who are contending that the new rate is prohibitive. The concern state that they would be prevented not only from continuing to do business under the new rate, but would be forced out of business altogether under such conditions. It was stated at the office of the company yesterday that they are endeavoring to have the commissioners reconsider their action as they assert that the advance of just ten times the old rate is beyond all reason, and that there is no city in North America charging rates nearly as high; this they are willing to show by a comparison of rates.

They suggest a flat rate or in fact anything other than the present rates. They would, under a flat rate, be willing to be responsible for matter on all bill boards, to the end that nothing objectionable be displayed, and the distribution of all literature or for all paper losses about the streets, in the way of advertising matter.

PASSENGER BOAT IN COLLISION WITH COLLIER IN FOG.

IN THE COURTS.

On the application of J. King Kelley, K.C., for a summons for directions before Mr. Justice McKeown this morning, the matter of the disputed claims of Fred W. Bizard and Robert Reford Co. against the liquidators of the Francis Kerr Co. Limited, came up. The claim of Mr. Bizard is for coal supplied, but it is contended that the coal was supplied after the winding up order was given. The hearing was adjourned until Thursday, when evidence will be heard relative to these claims. J. King Kelley, K.C., appeared for the liquidators, J. J. Porter for Mr. Bizard, and F. R. Taylor for the Robert Reford Co. Probate Court.

Estate of Mary A. McBriarty, spinster. Last will proved whereby deceased gives all her estate to Herbert Carson Flood of St. John, broker, and nominates him as executor, who is accordingly sworn in as such. No real estate. Personal estate \$1,238. Mr. J. D. Pollard Lewin, proctor.

Mr. Flood, the executor, stated to the court that the deceased was at the time of her death an inmate of the Mater Misericordiae Home; that he is informed that the above bequest was made to him in trust for certain clergymen of the Roman Catholic church, the names of whom are given in a paper writing of deceased, which he has not been able to obtain possession of; that if he can obtain such paper he will, of course, carry out the instructions therein contained, and failing to obtain the same he will rely on the memory of the Sisters of Charity of the above Institution in whose presence the paper was written for the required information and will act thereon.

LOOKING FOR THEM HERE.
Several days ago Chief of Police Clark received a circular from the New York Police Department containing photographs of all those wanted by the police in connection with the Rosenthal murder which occurred in New York several weeks ago who had not been captured. The circular contained photos of "Dago Frank" Louis Rosenthal, Harry Harrow, Frank Muller and several others. Most of these men have been taken into custody since the circular was issued. Most of those implicated are American Jews, and according to their pictures some of them are only young men.
