City of Mexico, April 15.—According to a late dispatch received from Vera-luz, the coal mining camp in the state of Coahuila, the rioting that occurred there last Saturday was more serious than at first reported, thirty men being killed and many injured. In all fourteen of the rioters have been summarily executed by the government troops and many imprisoned.

Father Velenzuela, the priest who investigated the trouble, lies near death in a hospital.  
The fighting occurred when the mayor of the town attempted to stop a religious procession headed by the village priest, the Mexican laws forbidding such parades. The rioters stormed a Chinese hotel, looting it of all liquors and foods and terrorizing the neighborhood during the orgy. Troops soon arrived on a special train and a fierce fight with the rioters ensued.

NO. 30

## DOUBLE VOTE DEVICES AND BONUS SCHEMES

### Further Light on Circulation Contest Game With Luminous Explanations—Why Names of Contestants Are Withdrawn From Publication.

In the appended article, No. 3 of the series, the writer explains some of the devices employed by the professional promoters to get young women to work hard themselves, and use their friends and their money, in the hope of securing a prize. The real inwardness of the double vote device, the withdrawing of names from publication, and several other features are fully explained. Subsequent articles will throw even stronger light upon the devious and dark methods of the class, to whom the writer of the articles at one time belonged.

### HOW DARK HORSES ARE PAINTED, OR THE REAL WINNERS OF THE PRIZES. (Article No. 3.)

Even after cautiously "baiting" them—that is, getting the "contestants" interested in the alluring prizes—much work is necessary before they get into their own individual power. And it must be remembered that every move in a "contest" only leads up to the "clean up," or finish, when the young ladies are expected, if they have been properly handled, to surrender their heads completely and put in hundreds of dollars of their own money in a vain effort to win a coveted automobile or a piano. I have seen parents so thoroughly excited in the belief that their daughters would win a "first prize" that they would actually borrow money to buy "votes" for them at the close of a "contest." Of course, they stood no chance whatever to win anything; but this only goes to show how easy it is to separate people from their money if you can make them believe they are receiving something for nothing.

The "Bonus" Scheme.  
The first move after "baiting" was known among the contest fraternity as "kicking life into the girls," and this was done by different methods. Clubbing offers were the most in favor. These consisted in announcing, in our advertisements, that each young lady who would bring a certain number of subscriptions during a certain period would be given a bonus or extra vote

coupon for a large number of votes in addition to those to which she would, under the "rules" be entitled.  
"Special Vote" Offers.  
We always made the number of new subscribers necessary to form a club and secure a "special" prize very small in order that no "contestant" would have the slightest difficulty in securing them by paying out of the family purse for a subscription to the newspaper for her father, brother and one or two relatives. When she had actually done this much herself she began to get over her shyness when approaching the "contest" business and the other "special vote offers" which followed, from this time on, always increasing, until at the close of the "contest" we were sometimes giving seven times as many votes for a year's subscription as those who were foolish enough to work at the beginning had received.  
No Chance to Win.  
You may wonder why the thought never occurred to these innocent young women that the "contest" was the same as any other sure-thing game in which the operator took all the stakes. Or you may wonder why they did not become suspicious and run away like frightened lambs when the first "special vote offer" was made. Of course now that I am telling the inside of the contest game you can see very easily that if you paid in \$100 for subscriptions during the first few days of the "contest," when there were no "extra" votes that one who should get seven times as many votes for the same amount of money a day or two before the end of the "contest," would have a great advantage over you. But the fact is that they did not. Neither of you ever had a chance, and it did not matter to us whether you received a hundred votes or a million. You simply could not win, but the weight, increasing of the number of votes given with a subscription could be counted upon to keep the young women in action after they had once lost their shyness and acquired the habit of brazenly approaching friends or strangers and asking them for money to help them secure one of our prizes.  
(Continued on page 5.)

MR. JOS. MARTIN IN BRITISH POLITICS. (NO. 1.)  
The arrival—"What a quiet old town! Reminds me of Chilliwack."

## BRITISH WARSHIPS FOR TURKISH WATERS

### Two Vessels Ordered to Sail From Malta—Army Corps in Now Marching Toward Constantinople—Discontented With New Regime

### ORDERED TO TURKISH WATERS

(Special to the Times.)  
Malta, April 15.—Two British warships have been ordered to sail for Turkish waters.

### Troops on March.

Vienna, April 15.—The second army corps of Turkey is marching from Adrianople, where its headquarters are located, toward Constantinople to-day, according to dispatches received here.  
It is not known whether the corps intend to join the mutineers or oppose them. The second corps heretofore has been loyal to the young Turks but it is believed here now that it has joined the opposition.  
Sensations of the news coming out of Turkey makes accuracy impossible and it will probably be days before the

### JACK LONDON HAS ABANDONED CRUISE

Is Now at Sydney, N. S. W., and is Endeavoring to Sell the Snark.

### Honolulu, April 15.—According to a report which has reached here from Sydney, Jack London, the novelist, has given up his plan to encircle the globe in his yacht the Snark, and is endeavoring to sell the craft at a big sacrifice, preparatory to starting for San Francisco. His health is the cause assigned by London for the abandonment of his cruise. He will reach San Francisco some time in June and he will then place in the hands of publishers, manuscripts for five new books of short stories and one novel.

### END LIFE BY HANGING.

Montreal, April 15.—Mrs. (Dr.) D. J. Evans committed suicide here by hanging.

### INCREASED PAY FOR POSTOFFICE EMPLOYEES

Ottawa, April 15.—Hon. R. Lemieux has decided to increase the salaries of fifteen hundred messengers, porters, letter carriers, mail transfer agents, box collectors and fourth class workers in the postoffice service. The total increase amounts to \$250,000.

### actual result of the movement of troops will become known.

Ready to Suppress Disorder.  
Constantinople, April 14. (By mail to Philippopolis)—The new ministry under Tewfik Pasha is in complete control to-day and is ruling with an iron hand. Machine guns are being held in readiness to suppress the slightest outbreak.  
Discontent with the new regime is already apparent, however, and it is predicted that Tewfik's tenure of office will be short. He is generally regarded as not capable of coping with the situation.  
There are indications that the government is planning to re-establish the old system of espionage, with its accompanying murders in its efforts to ferret the enemies of the new regime. This spy system was abandoned when the constitution was granted to the people.  
Tuesday's casualties were heavier than at first reported. Scores were fatally wounded but were treated at private hospitals and thus were not officially recorded when they died.  
(Continued on page 5.)

### KING EDWARD IN EXCELLENT HEALTH

(Special to the Times.)  
Blarney, April 15.—King Edward departed to-day for Paris enroute to London. Walking, motoring and golf have worked wonders in his health, declares Sir James Reid, his physician.

### FOR INSPECTION BY COLONIAL JOURNALISTS

London, April 15.—The first, second and third divisions of the home and Atlantic fleets, comprising 88 battleships and cruisers, and 75 torpedo boats, will assemble at Spithead on June 10th for inspection by colonial journalists.

### GRAND TRUNK CHANGES.

Montreal, April 15.—The following changes among Grand Trunk officials are announced: G. T. Bell, general passenger agent to assistant passenger traffic manager of the two systems.  
H. P. Hinton, to be general passenger agent Grand Trunk Pacific at Winnipeg.  
G. W. Vaux, Chicago, to be general passenger agent at Montreal.  
H. M. Elliott, Montreal, to be general passenger agent at Chicago.

### TWO PIONEERS DEAD.

Winnipeg, April 15.—Two Manitoba pioneers died to-day, William Hay, postmaster at MacGregor, and James Moffatt, farmer, of Portage Plains.

### WILL ADVANCE PRICE OF BREAD

Winnipeg, April 15.—All bakers will advance bread prices this week owing to the advance in flour.

Vanilla grows on a sort of climbing orchid, which is very plentiful in the tropics.

## STRAIGHT TALK FROM MARTIN

### SAYS TARIFF REFORM WOULD BE CALAMITY

### Its Adoption Would Be Worse Than War, Pestilence or Famine.

London, April 15.—Joseph Martin in his election address says he considers the question of the House of Lords the most important which the Liberal party has to deal. The adoption of the tariff reform being advocated by the Tory party would, he says, be the greatest calamity that could happen to the country with the exception of war, pestilence or famine. The policy of protection would at once dethrone the United Kingdom from the proud position as commercial mistress of the seas, bringing a long list of evils including extreme electoral corruption such as now prevails in the United States and Canada.

## KING EDWARD IN EXCELLENT HEALTH

(Special to the Times.)  
Blarney, April 15.—King Edward departed to-day for Paris enroute to London. Walking, motoring and golf have worked wonders in his health, declares Sir James Reid, his physician.

## WATCH THE CLOCK

## BUILDING CAMPAIGN GOES WITH A SWING

### Y. M. C. A. Committee Inaugurates Fortnights Canvas for One Hundred Thousand Dollars With Banquet—Twenty Thousand Subscribed.

(From Thursday's Daily.)

To the Citizens of Victoria:—  
When the Pemberton block went up in smoke the other day every business man in the city who thought about it at all said to himself, "There's \$100,000 gone a glimmering." But unless Victoria is different from other cities of like size elsewhere in America that same week four or five of her young men "went so far wrong" as to eliminate themselves as economic factors in the life of the city. Did these self-same business men say to themselves, "There's more than \$100,000 of Victoria's assets gone by smash."  
It's a good thing, doubtless, that our business men ordinarily think of things in terms of money, and of men in terms of expressive moral values, but in these days, when there is a movement on to adequately house an institution like the Y. M. C. A., it is well to remind ourselves that our greatest asset, our most expensive machines, are represented in our young men.  
Mr. C. C. Michener's words at the business men's banquet at the Empress last night were very pertinent. Mr. Michener said, "Victoria has not less than 5,000 young men between the ages of 17 and 35 years. They earn, conservatively, an average of \$500 each per year. That's 5 per cent on \$500,000. Victoria's assessed property valuation totals \$24,000,000. In other words our assets in young men are double what our property assets are. For the protection of our property we maintain a fine police system, elaborate schemes of insurance, etc. What are we doing for the protection of the \$500,000 of assets represented in our young men? Surely no practical business man questions the wisdom of an investment of \$100,000 for a Y. M. C. A. building here for the conservation and protection of this, our greatest asset!"  
ARN. S. ALLEN,  
General Secretary Seattle Y. M. C. A.

### Twenty Thousand Subscribed.

night's gathering. Most of those present were hard headed business men who wanted to be "shown" and who took advantage of the offer of the chair to ask questions of a pointed character. One of these questions enabled Secretary Allen of the Seattle association to score an excellent point when he said that once an association is properly housed and provided with the proper  
(Continued on page 5.)

## FERRY BOATS IN COLLISION

### TWO VESSELS DAMAGED IN SAN FRANCISCO BAY

### Panic Spreads Among the Passengers and Women Faint.

San Francisco, Cal., April 15.—A repetition of the steamer San Rafael disaster, in which 24 lives were lost in the bay, was narrowly averted this morning when the Southern Pacific ferry boat Berkeley, soon after leaving her slip for Oakland, ran down the ferry steamer Encinal, side swiping the latter fairly amidships on the port side, tearing out the wheel house and cutting a great hole in the forward part of the after deck. The Berkeley lost her starboard rail and part of the side. The Encinal was proceeding on a slow bell, a slight fog having settled over the bay, when suddenly the Berkeley, the hoodoo ship of the ferry fleet, out of her course, loomed up ahead. The Encinal blew a warning blast, but the Berkeley continued straight on, apparently beyond control. Seeing that a collision was inevitable, the Encinal's pilot rang for full steam ahead and threw his wheel hard to starboard, thus preventing a bow-on crash.  
The collision was averted for a moment, but the Berkeley again became helpless, in the tide and sweeping up against the Encinal, struck the latter forward of the wheel house. Instantly there was panic throughout both ships. Women fainted and men rushed madly for the life-preservers. The Berkeley stood off to give aid, if necessary, but proceeded on her way to Oakland when it was ascertained that the Encinal had sustained no damage below the water line.  
The Berkeley has been in several accidents this year, once almost sinking herself by bumping into the Oakland pier head, and again running down the Oakland.

Both the Encinal and Berkeley will be out of commission for some time to undergo repairs.  
There was no kite flying at last

**BEGS FOR MONEY TO RETURN HOME**

**MISSING TACOMA MAN IS NOW IN SACRAMENTO**

Disappeared on Eve of the Day Set for His Marriage.

Seattle, Wash., April 12.—Alvin R. Lehmann, the Tacoma broker, whose sudden disappearance from that city a week ago on the eve of the day set for his marriage to Miss Martha Christian, of Seattle, suggested foul play, has been located in Sacramento, Cal., through the medium of a letter which the young man has sent to Dr. E. J. Moody, a manufacturer of medicated stock foods in Seattle, for whom Lehmann once worked.

Since Lehmann failed to keep his appointment to marry Miss Christian, the police of Tacoma and Seattle have been trying to gain some clue to his whereabouts. Miss Christian has been on the verge of collapse since the mysterious disappearance of her betrothed husband.

In the letter to Dr. Moody, Lehmann says in part:

"It may be that you will have heard of my sudden disappearance from Tacoma. I have just been able to write my friends there explaining, and if I ever get back to the northwest I'll call and see you. As it is, however, I'm here broke. I would give my life if I could be in Seattle for five minutes. I write now hoping you may be able to send me the money which you expected to have for me this week. Address me care general delivery."

The letter is written on the stationery of the Golden Eagle hotel, Sacramento.

Moody said to-day that he saw the man before he left and that the broker was then in straight circumstances and had pawned watch and ring.

**TOR PRESENTS BILL FOR \$100,000**

**Heiress of "Lucky" Baldwin Arranges Settlement With Physician.**

Los Angeles, Cal., April 13.—It is understood here to-day that the heiress of E. J. (Lucky) Baldwin and Dr. John W. Truesworthy has reached a settlement of the bill for \$100,000 which the physician presented for his services to the late millionaire turf king. It was announced yesterday that Dr. Truesworthy, who was a life-long friend of Baldwin, had doubled his original bill and demanded \$100,000 for his 23 days' vigil at Baldwin's bedside during his last illness, and for attendance on previous occasions. It is thought here that an amicable settlement has been effected, and there will be no litigation.

**BASEBALL SEASON.**

Philadelphia and Washington Win Opening Matches in American League.

Philadelphia, April 12.—The American League season was opened in this city to-day with the largest crowd that has ever gathered for a baseball game in this city. The game for admission, while the Philadelphia Athletics and the Washington Senators' pitchers were batted hard and nearly all the hits of them were bunched. Aeroplanes was taken out in the seventh inning, after eleven hits had been made of him.

The score: R. H. E. Philadelphia, . . . . . 8 12 2 Boston, . . . . . 1 8 3 Batteries—Powers; Ryan, Arelanes and Carrigan.

Washington, D. C., April 12.—The American league season opened here to-day, the home team beating the New York Highlanders by a score of 4 to 1.

The score: R. H. E. Washington, . . . . . 4 8 1 New York, . . . . . 1 4 3 Batteries—Newton and Brackett; Smith and Street.

**MURDERED OFFICER INTERRED.**

Large Crowds Pay Tribute to Memory of the Late Lieut. Petrosino.

New York, April 13.—Joseph Petrosino, lieutenant of the local police force, who was assassinated by the "Black Hand" at Palermo, Italy, was buried yesterday at Calvary cemetery.

Fathers Lavelle and Kearney conducted the funeral services. The highest tribute was paid to the memory of the great Italian-American detective. An enormous crowd gathered at the Old St. Patrick's church on Mott street where Petrosino was a parishoner. Flags were lowered to half-mast during the funeral. After the services at the church a funeral procession was formed and the remains taken to the cemetery for interment.

Two full regiments of police, a battalion of firemen under the personal command of Coker, and all of the officials of the fire and police departments were in the procession. Several Italian societies of which he was a member, also joined in the line.

Every precaution against a demonstration was taken by the police. Plain clothes men mingled with the immense crowds which lined the streets through which the funeral procession passed. As a further precaution against violence all Italians known to have police records were rounded up and placed in jail until the ceremonies were over.

**THIS LOOKS LIKE "FIGHTING JOE" MAY BE LIBERAL CANDIDATE IN ENGLAND**

Believed to Be Unknown Who Will Run for Stratford-on-Avon.

London, April 12.—The Chronicle declares the unknown Liberal candidate for the bye-election in Stratford-on-Avon is a brilliant orator, a well known K. C., and an ex-colonial premier, who has championed free trade in debates in the Canadian parliament. His identity will be revealed to-day.

The only man now in England who answers to the description with the exception of Hon. Edward Blake, who now sits in the imperial parliament for South Langford, is Hon. Joseph Martin, who has just arrived in England.

**TRAINS STALLED BY SNOW IN COLORADO**

Seventy-five Passengers Are Living on Short Rations.

Corona, Colo., April 13.—Seventy-five passengers who left Denver on Sunday are snow-bound to-day on the Moffatt railway. An special train was started to the rescue of the prisoners but is reported to be tied up within a few miles of the place the first train was stalled.

While there is no actual suffering among the snow-bound passengers they are greatly inconvenienced by the fact that they are compelled to sleep in day coaches and have no food other than a small quantity which was carried in an express car.

The train was blocked by the derailing of a snow plough, and it will be several days before it will be able to move.

**TWO MEN BURIED ALIVE IN SAND**

Wenatchee, Wash., April 12.—F. A. Spallinger and E. R. Nail, laborers of the new waterworks under construction in this city, lost their lives on Saturday as a result of a cave-in of a ditch which had been dug for one of the city mains.

The ditch was about thirteen feet deep and was braced on both sides so as to prevent the sandy soil from caving in. Twelve-inch pipe was being laid by a crew of men of which the dead men were members, and though no one was an eye-witness to the accident, it is thought the pipe fell into the ditch and the men were buried under the braces from the side, letting the earth fall in on the victims.

Their fellow-workmen hurriedly set to work and removed the tons of sand that had covered the men. They were found standing up with their arms encircling the pipe, and Nail still had his pipe in his mouth, so death probably came instantly.

Spallinger had planned to quit the work in the evening and remove to the Okananan, where he recently purchased a twenty-acre ranch.

**DIES SUDDENLY WHILE WAITING FOR TRAIN**

Official of Pacific Coast Steamship Company Expires at St. Paul.

Seattle, Wash., April 13.—Officials of the Pacific Coast Steamship Company in this city have been apprised of the sudden death at St. Paul, Minn., yesterday of Frank White, contract freight agent for the company at Seattle. White was on his way east with the ashes of his mother, who died a short time ago. He contracted pneumonia and died suddenly while waiting for his train at the Union station at St. Paul.

White was an old employee of the Pacific Coast Company and was one of the best known men in shipping circles on the Pacific coast.

**SHOT BY INSANE PASSENGER.**

Northern Pacific Railway Conductor Receives Two Bullet Wounds.

Ellensburg, Wash., April 12.—An Italian named George Andarou, conductor on the Northern Pacific railroad, lies in a Tacoma hospital severely wounded as the result of the foreigner running amuck on overland train No. 2 early yesterday morning. Andarou, who had been acting strangely ever since the train left Tacoma, suddenly sprang from his seat as the train approached Bristol, west of here, and drawing a revolver, commanded the other passengers to stand up. At this point Conductor Hilly appeared and ordered the man to desist. The insane Italian turned the revolver on the conductor and before he could be overcome, he had shot Hilly twice, one bullet passing through the railroad man's hand and the other entering the chest part of his thigh.

After a desperate struggle Andarou was overpowered and bound. When the train reached Ellensburg he was turned over to the sheriff and lodged in jail, where he is now a raving maniac. Hilly was taken to the company hospital at Tacoma.

**INCREASED AREA UNDER WHEAT**

(Special to the Times.)

Winnipeg, April 13.—The first Canadian wheat crop report issued yesterday shows 100 per cent increase in the seeded area in Southern Alberta. Little seedling has been done outside that district, it will not be general until the end of the month.

**TRIES TO KILL WIFE, THEN TAKES OWN LIFE**

Two Children Witnesses of Tragedy in Nevada Town.

Reno, Nev., April 13.—Because his wife started divorce proceedings alleging extreme cruelty, Louis McFadden, a teamster, attempted to kill her and thinking that he had succeeded, blew out his brains. The body lies in a local undertaking establishment here to-day, while the widow is suffering from a bullet wound in her neck.

"Here is where we both die," exclaimed McFadden yesterday, as he slammed the door of a room in their home and jerked a revolver from his pocket. He fired two shots and Mrs. McFadden fell.

McFadden walked over to where she was lying and gazed at her pale face for a moment, long enough, as he thought, to satisfy him that the wound in her neck would surely cause her death. Then he snuffed out his own life with the same revolver. Two children of the couple witnessed the tragedy.

Mrs. McFadden will recover.

**THINKING HUSBAND DEAD SHE WEDS AGAIN**

Later Finds First Spouse Ill and Nurses Him to Health.

San Francisco, Cal., April 13.—Through a suit for annulment of marriage filed in the superior court in this city by Mrs. Georgiana C. Powell, the story of a modern Enoch Arden has come to light. Mrs. Powell celebrated her marriage to Harry T. Powell, in November 1868. In 1881 her husband left her, and for 28 years she heard nothing of him further than the report that he was dead. In 1900 strong in the belief that Powell was dead, she married James Warden, and has lived with him happily since that time.

Some months ago a friend touring Southern California stumbled upon Powell, and upon her return acquainted Mrs. Warden that her first husband was living in San Diego, and that he was ill and without funds. The loyal wife journeyed to San Diego and brought her former husband to this city, where he was given a refuge at the home of relative friends. Under the care of his wife and a physician, Powell is much improved in health, and a place for him has been found in the soldiers home at Youtville. Since learning that her first husband was alive, Mrs. Powell has not lived with Warden. They have agreed that a separation is the only possible procedure in view of the existing conditions.

Mrs. Powell has brought suit in the superior court for annulment of her marriage with Warden, and will live on a ranch which she owns in Glenn county.

**BLAZE AT NANAIMO.**

House Destroyed by Fire—Origin a Mystery.

Nanaimo, April 13.—There was a blaze in the city last night, the origin of which is a mystery. The fire was in a house on Milton street owned by Mr. W. Ritchie. It has been unoccupied for some time, and Mr. Ritchie was just preparing to move in again. How it caught fire no one knows. A neighbor observed smoke issuing from the kitchen and at once went in to ring in an alarm from a telephone which he knew to be in the house. However, when he reached the door he was driven back by sulphur fumes and by the time the firemen arrived the house was a mass of flames. With two hose and a plentiful supply of water and no wind the fire was speedily under control, but the house is a wreck.

**WHITLA KIDNAPPING CASE.**

New Indictment Returned Against Boyle and His Wife.

Cleveland, O., April 13.—New indictments for kidnaping Billy Whitla were returned by the grand jury to-day against J. H. Boyle and his wife, now in jail at Sharon, Pa., awaiting trial on charges of blackmail.

It is understood that the new indictments were returned at the instance of the sheriff, who feared that the woman would be released at Mercer.

Mercer, Pa., April 13.—Armed guards were placed around the jail here to-day following the discovery of a plot to liberate the Boyles accused of kidnaping Billy Whitla. The sheriff learned of the plot of a discharged convict and the Boyles in making their escape and every precaution is being taken to keep them from carrying out their plans.

**COMING TO COAST.**

Chicago, April 13.—From June 2nd to June 19th the Puget Sound county is to be invaded by a large delegation of Chicago business men, if plans just announced by the Chicago association of commerce are carried out. A special train carrying the trade excursion will stop at other places on the way to Seattle. The exposition is the main point of interest, June 12th being set aside as Chicago day.

**GUGGENHEIM CUP CONTEST.**

President Taft Will Start Auto Race from New York to Seattle.

Washington, April 13.—President Taft has accepted an invitation to start the New York to Seattle automobile race for the Guggenheim cup by pressing a button at the White House at noon on June 1. When the signal is received at New York Mayor McClelland, of that city, will fire a pistol to send the racing machines away on their long journey. Holet Guggenheim, donor of the cup, called at the White House yesterday and made the necessary arrangements.

**ROMANCE OF MISSION WORK**

**NEW YORK WOMAN TO WED JAPANESE PREACHER**

Meets Minister While on Her Way to Japan as Missionary.

Los Angeles, Cal., April 13.—Discussion almost as great as that occasioned by the Gladys Emery-Gunjiro Aoki marriage is rife here to-day following the report that Miss Kate Goodman, a prominent mission worker of this city, is to marry the Rev. Joseph Kenichi Inazawa, minister of a Presbyterian Japanese mission.

Inazawa has announced his engagement and has stated that the marriage will occur in the near future. Miss Goodman is at present in San Francisco on business connected with her mission work. The Japanese student of the University of Chicago, and while attending classes at that institution determined to go to Japan as a missionary. Stopping in this city on her way to the Orient, she became interested in Japanese mission work here and has become a well known figure in local religious circles.

Resumes Work in Mission.

San Francisco, Cal., April 13.—E. A. Sturge, superintendent of the Japanese mission work in California, with whose family Miss Goodman stayed in this city, said to-day that he is at a loss to know how the information regarding the affair between Miss Goodman and the Japanese minister, Joseph Kenichi Inazawa, became public.

"I am surprised to learn that anything is known about it," said Sturge. "I was pledged to secrecy, and I am sorry that it has become public property. Miss Goodman left last night for Los Angeles. Of course I talked to her of the matter, but I must refuse to divulge what she said to me. I hope the marriage will be delayed as long as possible. In fact, I hope it will never take place."

Miss Goodman left this city last night for Los Angeles to resume her work in the mission, where she keeps a night school for boys and spends her days working among the Japanese women.

Remain in Washington.

Seattle, Wash., April 13.—Instead of living at Columbia City, as reported, Mr. and Mrs. Gunjiro Aoki, who were married in Seattle following a sensational flight from California several weeks ago, are now living at an existing home on the four-acre tract across Lake Washington, a short distance from Sunnydale.

Mrs. Emery, mother of the American girl who took the Japanese servant for her husband, is living with the couple on this little garden patch which they have leased.

**OLD TIMERS PREDICT GOOD HARVEST**

Cold Snap in West, With Snow in Parts of Alberta.

Winnipeg, April 13.—It was one of the coldest nights of the season last night. At Prince Albert it was 14 below zero; at Regina, 1 above zero; at Qu'Appelle, zero, and Battleford, 4 above. It snowed heavily last night at Edmonton, Calgary and Lethbridge. The lowest at Winnipeg was 12 above. "Old timers" state it foretells a good crop.

**WOUNDS WIFE AND COMMITS SUICIDE**

Reno, Nev., April 13.—After shooting and seriously wounding his wife, L. McFadden, a hotel proprietor here, committed suicide yesterday. McFadden fired upon his wife while they were in their apartments with their children. After wounding her he turned the gun upon himself and took his own life. Jealousy is supposed to have been the cause of the tragedy.

**SIDEWALK CAVES IN.**

Nanaimo, April 13.—A curious cave-in occurred on Bastion street yesterday afternoon, when the earth underneath the sidewalk which runs alongside Johnston's store on that street gave way, and there is now a gaping hole where the sidewalk used to be. This is not the first time a cave-in has occurred in this street, and it seems that in the early days of the town coal was worked pretty close to the surface all around here. The cave-in yesterday was caused by an old tunnel falling in.

**QUEEN WILHELMINA.**

The Hague, April 13.—In order to ally forces which have risen from unauthentic rumors, it was officially announced to-day that Queen Wilhelmina does not expect the arrival of her husband for several weeks. The Queen's health is now excellent.

**KITCHENER WILL VISIT VICTORIA**

(Special to the Times.)

London, April 13.—The war office announces that Lord Kitchener will return home from India this year via Australia and will cross Canada from Victoria to Montreal.

**HARRIMAN PREPARES TO EXTEND LINE**

Petitions for Lands for Railway from Seattle to Everett.

Seattle, Wash., April 13.—First steps have been taken towards the extension of the main line of the Oregon and Washington railway, the local line of the Harriman system, to Everett, as provided by its charter. The move consists in beginning 83 condemnation suits in the King county superior court under instructions wired from the east and is caused by fear on the part of Harriman officers that the Great Northern railway is seeking to bottle the Union Pacific within this city. The filing of the suits is the first indication that the railroad is to build north since work on the Union Pacific tunnel within the city ceased a year ago.

The Great Northern countered yesterday filing forty-nine suits for Salmon Bay lands. Many of the lots asked for are desired by the Union Pacific and are described in its suits which were filed Thursday. In the case of the Great Northern John Gatrin was left in the north shore of Salmon Bay to the south shore, and to cross the bay at a narrow point south of Metum. The Oregon and Washington petition asks for lands along practically the same route, for the Seattle- Everett extension.

**ENDORSES RESOLUTION OF FEDERAL HOUSE**

Nelson Board of Trade Discusses Imperial Defence.

Nelson, April 12.—The Nelson board of trade at a well attended meeting, declined to endorse the resolution of the Vancouver board of trade on the subject of contribution to Imperial naval defence, and instead endorsed the resolution of the Canadian House of Commons and urged early conferences with the Imperial authorities.

A letter was read from the Vancouver board of trade enclosing the resolution on Imperial naval defence and asked for endorsement. A later wire had asked if the board would favor action by British Columbia falling definite action by the Dominion. The president had replied saying the board would consider the matter at its regular meeting.

T. G. Procter strongly urged endorsement of the Vancouver resolution. He was prepared to advocate the gift of a Dreadnought by British Columbia rather than that nothing should be done.

W. W. Beer agreed with the sentiment, but thought such a gift or its offer less appropriate than co-operation with the Imperial authorities' plans.

Mr. Starkey suggested that the discussion need not be limited to the terms of the Vancouver resolution.

F. J. Deane thought the matter simplified by the unanimous resolution of the Dominion parliament. He offered the following resolution:

"The Nelson board of trade heartily endorses the resolution unanimously adopted by the House of Commons on the subject of Canada's contribution to the British navy and we desire to express our views that the Dominion government should take early occasion to confer with the naval authorities of the motherland with a view to the prompt inauguration of a plan of operations that will permit of Canada bearing her fair share of the cost of the defence of the Empire."

The resolution was seconded by W. W. Beer.

H. C. Hall seconded T. C. Procter's motion and urged that Canada should make a definite offer at once.

After further discussion Mr. Deane's resolution was adopted and a copy ordered to be sent to the Vancouver board.

**WOUNDS WIFE AND COMMITS SUICIDE**

Reno, Nev., April 13.—After shooting and seriously wounding his wife, L. McFadden, a hotel proprietor here, committed suicide yesterday. McFadden fired upon his wife while they were in their apartments with their children. After wounding her he turned the gun upon himself and took his own life. **MOUNTED POLICE QUELL DISORDER IN LILLE**

Called to Alberta Town When Strikers Attack Non-Union Serious Rioting in Fernie in Several Are Injured.

Fernie, April 13.—Great excitement was created in Lille, Alberta, yesterday afternoon when a large body of Royal Mounted Police arrived and patrolled the town.

It appears numbers of non-union men started to work in the idle coke ovens to the aggravation of the strikers. The latter are said to have worked to picket the town, fifty going on duty to prevent any non-union men from coming in. Attacks were made on the strangers and the company, becoming alarmed, sent for the police who arrived in quick order, heavily armed.

At Fernie two big fights broke out yesterday, clubs, stones, bottles and coke forks being weapons used. Several of the combatants were badly lacerated. Thirty arrests were made.

**MINERS ARE IN CONFERENCE**

PRESIDENT SHERMAN EXPLAINS ATTITUDE

Reads Telegrams from Head of the United Mine Workers.

Fernie, B. C., April 12.—The convention of district 18, U. M. W. of A., called for the purpose of considering the strike situation, commenced to-day here. It is expected to last for a few days. The outcome of the conference is great expectation. There are present: President Sherman; W. H. Fisher, Bankhead; C. S. Stubbs, Bellevue; H. Fox, Canmore; W. Graham, Coleman; T. Briggs, T. Addison, Fernie; W. Wrigley, Frank; J. O. Jones, Hildcrest; T. Chambers, Hosmer; J. Larson, Lethbridge; F. C. Geester, Lille; Charles Garner, F. Frances, A. J. Carter, Michel; J. Coghlin, Maple Leaf; W. Whyte, Lethbridge; Hopkins Evans, D. L. Miller, Taber; S. Dunn, Passburg; W. Ryan, Corbin.

The president presented his report, outlining the proceeding at McLeod. He stated that while he was sick Vice-President John Gatrin was left in charge of the proceedings, with instructions to report to him. On March 21st Galvin informed him at Taber that the Operators' Association had split the Crow's Nest Pass Companies, Taber, Maple Leaf and Bellevue withdrawing. He instructed Galvin to go to McLeod and break off negotiations with the association until he could negotiate with the independent companies employing the majority of the men. Galvin left, promising in the presence of witnesses that he would keep Mr. Sherman informed of further developments, and that no proposals should be voted upon by the men before his advice was sought.

Mr. Sherman continued: "This he did not do. I was left in the dark until the 27th. I saw by the press that an agreement had been arrived at and was being voted on by the men. I came to Fernie on the 28th, saw Galvin and asked him what it meant, Galvin has since resigned. We went into the case of the Crow's Nest Pass Companies' agreement. I told Galvin that I would not sign the same, as it was practically open shop, and unfair in some vital particulars. I immediately interviewed the management and got this fixed. In the meantime, Mr. Stockett, president of the association, came from Hosmer to Galvin to get the agreement signed. I took the same from Galvin and told Stockett I would not sign the agreement under any circumstances, as from the beginning to the ending it was no union document. I gave Stockett a copy of the agreement with the Crow's Nest Company, and told him I wanted the same for the men. I went to McLeod on the 21st. Stockett refused to discuss anything and said he had come to sign, and the majority of the men were in favor of the agreement. Other men broke off negotiations. I proceeded to Frank and signed a satisfactory agreement there.

"Hillcrest and Lille companies were disposed to sign up, but broke because of the telegram to Sherman. Stockett stating that the agreement would be signed. In the referendum vote which the operators made the fuss about, only a third of the members voted in favor of the agreement, and then because they were practically forced to."

Mr. Sherman strongly resented the national's action. Following is a copy of Lewis' telegram to Sherman: "Telegram received from Representative Western Coal Operators' Association that you refuse to sign up contract after ratification by referendum vote. Explain instantly (Signed) Lewis."

Mr. Sherman's reply: "Statement of operators incorrect. Agreements signed with companies employing 2,700 and 2,000 idle. Negotiations pending with other companies, full report by letter. (Signed) Sherman."

He sent another telegram to Lewis, which had caused considerable talk before it was sent, the men saying: "No more Tom Burke's telegram. Tom Burke came here previous to the strike and signed an agreement over the men's heads, who say they were sold."

"To Lewis.—Our local unions unanimously supporting action of district executive board in refusing to accept final proposition of Western Coal Operators' Association, who are in minority in this coal field. Your action in writing Stockett that agreement will be signed by your representatives strongly resented. Canadian miners will not tolerate another Tom Burke. Other members of operators' association now in negotiations with us. Nothing but action of international union can defeat us. (Signed) Sherman."

Reply.—"To Sherman: My information you failed to be present at confer-

**WILL CONTINUE HUNT FOR CRAZY SNAKE**

Story of Outlaw's Death Not Credited by Army Officer.

Henrietta, Okla., April 13.—Reports that Crazy Snake, the outlaw Indian chief, was killed and buried March 28th by a posse of citizens, are discredited. Col. Hoffman, commanding the troops who have taken the field against the aged Indian and his band of negro and redskin followers, is not willing to accept the story of Crazy Snake's death, and announced that he would continue the chase.

According to the reports received here the members of the posse, after killing Crazy Snake, pledged themselves to keep the matter secret. One of them violated his pledge, the story runs, and allowed the news to leak out.

Hoffman and others who do not place any faith in the story of the chief's death, declare they believe he is hiding in the mountains waiting until he recovers from his wounds before making an attack on the whites.

**BOOK MAY COST AUTHOR HIS LIFE**

Exposed Slavery on Plantations and is Threatened With Death.

San Francisco, Cal., April 13.—It has been learned that Herman Whittaker, author of "The Planter," has received a letter from Mexican planters warning him that his life will be forfeit if he again sets foot on Mexican soil.

"The Planter," published by Whittaker a short time ago, exposed a system of peonage which is alleged to exist on the great plantations of the northern part of Mexico, and tells graphically of the life of the so-called Yaqui slaves. The author visited this section while securing material for the book.

The letter which he has received purports to come from one of the men he branded as tyrants. He refuses to divulge the name of the sender. He is of the opinion that the threat would be carried out should he return to Mexico.

**MURDERER STILL AT LARGE**

Tacoma, Wash., April 12.—After poring out every tangible clue in their possession as to the identity and probable murderer of the contractor, Jas. Frace, whose body, riddled with bullets, was found Saturday beneath a tree about a mile from his home, police detectives have come to the conclusion that Frace was shot down during a distance from Frace's station just after he had alighted from a car. He was then carried to a carriage waiting at the edge of the forest, and hauled to the place where the body was found.

WILLIAM WHYTE IS VERY OPTIMISTIC

High Prices Offered for Next Season's Wheat—Unprecedented Rush of Settlers to Prairies—Steam Plows in Use.

(From Wednesday's Daily.) William Whyte, second vice-president of the C. P. R., who is at present in the city, looks forward to a very prosperous year in the prairie sections of the Dominion.

Mr. Whyte points with pride to the fact that Canada has recovered from the financial stringency much quicker than the United States has done.

Speaking of the settlers coming in, Mr. Whyte says that the United States is sending a very large number. These men make the best of immigrants.

A feature of their coming now is the fact that in many instances steam plows are brought in, so that the amount of land capable of being prepared for seeding is vastly increased.

Alberta and Saskatchewan will in view of these improved methods see a vast amount of land turned over this spring in time for seeding.

With respect to the A. B. C. route for grain by way of the Pacific coast, Mr. Whyte says he is giving attention on his present trip.

VICTORIA MUST NOT BE HAMPERED

ALD. TURNER TAKES A STRONG POSITION

Extension of Fire Limits Urged as Necessary to Give Business Room.

HALIFAX CLERGYMAN DEAD. Halifax, April 14.—Rev. Thomas Fowler is dead.

Winnipeg, April 14.—The Winnipeg Electric Street railway and 800 employees have asked for arbitration under the Lemieux act to settle a wage dispute with the company.

NEWSPAPER SUSTAINED. Sydney, N. S. W., April 14.—Judgment for defendant was the verdict brought by the jury in the Supreme court, Judge Longley presiding, yesterday, in the case of Dr. Kendall, M. P., against the Sydney Daily Post, for alleged criminal libel.

PRESS DELEGATES SAIL. Sydney, N. S. W., April 14.—The Australian imperial press delegates sailed to-day for Victoria on the Marama. They are en route to London.

At the present rate the excavations at Pampell will not be completed until the year 1970.

Published every Tuesday and Friday by THE TIMES PRINTING & PUBLISHING CO. LIMITED.

A WORTHY CAUSE.
The campaign for a greater Y. M. C. A. building in Victoria, quarters in keeping with the importance of the city and bearing some reasonable relationship to the character of the institution is doing for the benefit of the community, was begun last night. It started off well; and, judging by the vim, earnestness and determination of the men, young, vigorous, enthusiastic and optimistic, who are directing it, the movement will be crowned with success.

The Times is a poor hand at preaching. It abhors verbalism and cant phrases and empty commonplaces. But it sincerely believes that there is no modern institution doing nobler work in the cause of human progress than the Young Men's Christian Associations are doing in the cities of this continent or wherever they are established. We are told by an authority of established reputation upon modern social problems that a man's character is established for better or for worse within the first thirty years of his existence; that is to say, his surroundings or environment for the first fifteen years after leaving the home life behind determine with greater or less exactness his whole future career, whether it shall be an honor to himself and useful to the state or the reverse. Now the atmosphere of a Y. M. C. A. is of such a character as to develop and establish most, if not all, of the mental, moral and physical attributes which enter into the composition of the type of man still in demand in this imperfect world. As a rule it takes the youth in hand just at the time parental influence is beginning to wane, and it carries him beyond the period when he is most liable to be caught in the snares which are yet laid for his feet even in such model cities, in many respects, as Victoria.

FOOLISH TACTICS.
We are not at all surprised, nor are we displeased, to observe that the Conservative opposition in the House of Commons is showing signs of having recovered from the shock of defeat in the late federal elections. It is a mere commonplace to say, and yet it is true, that an aggressive opposition is a guarantee of efficiency and honesty in the administration of public affairs. Yet the idea occurs to us, and will arise in the minds of most observers of current political events, that the opposition might with advantage to itself discard the tactics which have been characteristic of its methods of attack for a good many years now and which have been severely rebuked on at least three successive occasions by signal defeats in general elections. No government is so strong that it cannot be assailed along legitimate lines. We believe Mr. R. L. Borden, the leader of the Conservative party of Canada, knows this, and also that he disapproves of such tricks as those lately practised by Mr. Taylor in deliberately reading into the Auditor-General's report words which are not to be found there, and aggravating his dishonesty by distributing the false matter, after getting it in Hansard, as campaign "literature." Mr. Borden, as an astute leader, knows that such dishonesty will do harm rather than good to the party, because the trick will be exposed long before another general election is due. Mr. Borden also knows that such dishonesty, after exposure, must have the effect of discounting every statement made and published in criticism of the government. But, unfortunately, he cannot control his followers. Mr. Foster's influence, although he is a discredited politician and deeply distrusted public man in the country, is stronger in the party than the amiable personality of Mr. Borden. Mr. Foster dominates the party to its hurt, as every observer of current political events knows. That is the reason why such unseemly stratagems are tolerated by Conservatives in the House of Commons. Mr. Taylor's latest device is receiving general condemnation in the press of Canada. The Ottawa Free Press says of it: "That was a pitiful spectacle which the Conservative party in the House of Commons presented yesterday, when their chief whip, having been convicted by the public records of having deliberately falsified a statement in the Auditor-General's report, they laughed at the whole matter as a joke. The fact that one of their best fighters had wantonly twisted the facts in an endeavor to cast a slur and add

another to the many insults they had cast upon the Minister of Marine, was to them a matter for mirth. To those who witnessed the incident, it was rather a matter for chagrin that any Canadian political party could sink so low as to treat so serious a matter in a spirit of levity. "Even after Mr. Taylor had admitted himself that he had misread the Auditor-General's report, the laughter continued, and Mr. Foster, who was leading the party in the absence of Mr. Borden, sneered at the incident as 'a grave and delicate subject.' It may not have been a grave subject to him or to his followers; but it was certainly grave enough to warrant the directing of public attention to it. "What reliance can be placed upon the assertions in debate of a party which has to resort to such tactics? "Is it not on a par with the policy which invented the forged telegram in Victoria in October last? "Surely the Conservative party is not yet reduced to such depths that it has to have recourse to misreading of public documents, to the creation of insinuations and allegations which have no foundation in fact. "The game of politics is a hard one at the best; but is there any reason why it should not be played by gentlemen?"

The Montreal Herald is equally outspoken in its condemnation. It says: "It appears that copies of the speech in which Mr. Taylor, the Conservative whip, misread a paragraph in the Auditor-General's report are being sent out wholesale from opposition headquarters at Ottawa, notwithstanding the exposure that followed. Mr. Taylor is in the House to believe that the Marine Department had bought women's wearing apparel and charged it against dredging. It was shown, when what he read came to be looked up, that the wearing apparel was for the men who formed the crew of the dredge, and that Mr. Taylor misread the report and misled the House when he used the word 'ladies.' If, despite the correction, copies of the speech are still being used as campaign literature, it would begin to appear that the spirit in which the altered telegram was foisted on the Victoria electors has a wider operation than was thought."

SOUNDING BRASS.
The Junior Matson mouthpiece announces with unctious that it has converted its venerable mother to its view on the question of naval defence. Of course that settles the whole matter. There is nothing more for the Parliament of Canada to do but hold its peace and carry out the programme prepared by these Victoria loyalist bonanzas. Neither will it be necessary for the Canadian government to consult with the authorities of Great Britain whose special business it is to design, construct and fund the money for Imperial defences. How can these ignorant, untrained fellows—lacking in loyalty also—know as much about the highly technical work of navy building and fortification construction as the extremely modest gentlemen who sit in offices and elaborate fantastic theories "out of their inner consciousness?" The statesmen, too, who have to consider that the money required for the construction, manning and maintenance of fleets and fortifications must come out of the pockets of taxpayers and that they will be held responsible for the funds collected being spent to the best advantage, what right have they to take counsel together when qualified experts have already told them what to do and to do it at once? In the face of the outburst of patriotic enthusiasm, may the Times be permitted to point out, with becoming modesty we hope, that before the question of naval defence was before the Parliament of Canada at all, before Mr. Foster moved his motion which was withdrawn in favor of the resolution of Sir Wilfrid Laurier which was adopted unanimously, we suggested that the only course Canada could adopt which would contain the necessary element of permanence would be to formulate a plan of home defence after consultation with Imperial experts, a policy of co-operation with the Imperial authorities in a plan of common Imperial defence? That is the course the Dominion government has decided to pursue. It is a course which has been approved unanimously by Parliament. It is a course which has been endorsed by all but a very few chameleon loyalists in Victoria who are more anxious to turn their personalities into the limelight than to suggest something of a practical character. It is a course which meets with the hearty commendation of the naval authorities, the statesmen and the press of Great Britain. It is the course which will be adhered to and will be bearing fruit in a solid, unassailable Imperial fabric long after the Matson junior organ and its would-be dictator-in-general have faded from memory.

AN AMERICAN OPINION.
The Chicago Inter-Ocean, one of the leading newspapers of the United States, is in a dreadful state of mind in regard to what might happen to Canada should we, by supporting Great Britain in her position of Imperial responsibility, be dragged into "the Maelstrom of European complications." Our contemporary asks a series of questions evidently intended to have an intimidating effect, but which, we can assure it, will not move us one jot from the path which will be hewn out as just as soon as our authorized representatives and the representatives of the Mother Country have had an opportunity of consulting together. Furthermore, it appears to us that every calamity the Inter-Ocean considers possible would be just as likely to befall us, in the unlikely event of a warlike outbreak, if we did not attempt previ-

ously to lift a hand in our own defence. Canada is a portion of the British Empire, and must stand or fall in the fortunes or the misfortunes of that great Imperial structure. We quote the article in question because it places the position of our country in an interesting light before the eyes of all Canadians: "Canada is discussing the proposal that she shall give battleships to the British navy. "What a hornet's nest of possibilities and perils is thus presented to view! How many the questions! And how vital! "If Canada contributes ships to the British navy, will she contribute them merely to the Channel fleet or to the Mediterranean fleet? Or will she contribute them in order that they, or other ships like them, may be ready to protect her in particular? "And if Canada thus become an aggressive party to England's warlike preparations, what is to save her from becoming a theatre of war the moment England shall be involved in international conflict? "What would prevent Germany, for instance, in case of war with England, from making Canada a theatre of war? Is it to be expected that, after Canada took a provocative part in preparing for war, she would be spared the extreme penalties of battling with and for the Mother Country? "As a theatre of international war, to which she proposes to make herself an aggressive party, would Canada have any chance of escaping the ordinary penalties of defeat? "If England should be beaten by Germany, for instance, would there be unusual provocation for Germany to indemnify herself with Newfoundland, or Nova Scotia, or British Columbia? "Or if Russia, or France, or any other power of continental Europe, or all of them together, were to overcome England, would there not be unusual provocation for any or all of them to indemnify themselves with territory from a colony which aggressively pushed to the front of the conflict on its own account? "Surely—surely. And, if so, what becomes of the Monroe Doctrine? What becomes of peace on the North American continent? What becomes of our policy of excluding troublesome neighbors, namely, the great powers of Europe, from these parts and these borders? "In a word, what danger was the Monroe Doctrine ever exposed to which would not be multiplied tenfold by Canada's entering upon this aggressive career of co-operative armament, and a thousandfold in case Canada should ever suffer the penalties of this extraordinary partnership in war? "If Canada, enter into the business of providing warships for the British navy, every one of these questions will be a vital one within twenty-five years. "They are to-day serious enough for Canada. They are not only serious, but ominous, for the United States."

ALGERNON CHARLES SWINBURNE.
Died 10th April, 1909.
Master of all the mystic moods of rhyme.
And clearest singer of the melodies
Of Love and Truth and Freedom,
Now the skies
That roof the lordliest dead with
light sublime
Shine more glorious, and the
silvery chime
Of long dead, deathless singers,
sweeter rise
To hail you, Brother, and immortalize
Your soul, whose words ring deathless
for all time.
Poet of Freedom, is this languid age
Last of the giants to whom
Apollo gave
His gifts of pain and beauty,
and the whole
Of life's glad glamor, now for
geardragonage
Of all your passionate longing, lo,
the grave
Crowd all your spirit with
Freedom's aureole.
G. C. L.

SUSPECTED MEMBER OF "BLACK HAND" KILLED.
Slain in Pistol Fight in the Streets of Brooklyn.
New York, April 15.—Andrew Gambino, a butcher, who three years ago killed a man with a shotgun, was himself killed last night in a running battle with three countrymen through Brooklyn streets, while several thousand persons looked on. Pietro Zarcone, a butcher, told the police that Gambino approached him and demanded \$50 under penalty of death. The Brooklyn branch of the Italian detective bureau credits Gambino with a conspicuous Black Hand record. Zarcone refused to pay blackmail, and instead drew a revolver. Gambino also drew a pistol and the battle began. Zarcone was joined by two friends, and all of them, fully armed, pursued Gambino, firing as they ran. As he dropped—dead with seven bullets in his body in front of his home, in Fifth avenue, his young wife and a crowd of young men, fully armed, overtook him and beat his head with the butts of their revolvers. As a policeman broke through the crowd, Zarcone and his two friends escaped. He was arrested, and the crowd, maddened by the assault on the dead body, tried to take him from the officer and for a moment it looked as if there would be a riot. Zarcone was taken to the station.

WARDEN MURDERED AT EDMONTON JAIL.
Edmonton, April 15.—Richard Stedman, deputy warden of the Alberta penitentiary here, was murdered this morning by a convict. The murderer was in the carpenter shop and struck him over the head with an axe. Stedman, who was alone with the convict, was taken to the hospital, where he died. The murderer was taken to the hospital, where he died. The murderer was taken to the hospital, where he died.

FATAL RESULT OF ROW.
Toronto, April 15.—As a result of a row on Jarvis street late last night, John Dillon, a well known character around the city, received injuries which resulted in his death in the hospital this morning, and Harry Snider, who is alleged to have struck the blow, was remanded for a week on the charge of murder. Snider says Dillon attempted to assault his wife.

Japan's coal output in 1908 was 13,716,483 tons, of which 11,126,138 tons, or nearly 81 per cent, were mined in Kushu.

CHURCHILL ON NAVY POLICY DEFENDED BY PRESIDENT OF BOARD OF TRADE

American Navy Not Taken Into Consideration When Framing Estimates.
London, April 14.—In a long letter to his admirals dealing with naval matters, Winston Spencer Churchill, president of the Board of Trade, declares that no more fatal omission could be made than to suppose the American navy into consideration in framing the British naval estimates. "Because," he added, "we do not believe that there is any reasonable probability that the American navy will combine against the peace and freedom of the British people which would include the American navy."

HAZERS AT OREGON UNIVERSITY SUSPENDED

Victim is Confined in an Asylum With His Mind Unbalanced.
Eugene, Ore., April 14.—That members of the faculty of the University of Oregon countenance the hazing of students who are late to their meals, was brought out in the evidence in the case of Ralph Bristol, who was plunged into a tub full of cold water last December and for which offence five students have been suspended for two weeks. The groom's gift to his bride was a handsome gold watch chain, to the bridesmaid a pretty wish bone brooch set with pearls; to the maid of honor, a brooch set with pearls, and the best man a pearl stick pin.

Mr. Theo. Elford, the hostess, was richly dressed in a blue liberty satin, made in princess design with white lace garnitures; Mrs. Percy Brown, sr., appeared to good advantage in a handsome grey voile; Mrs. Norris, sister of the bride, wore a very dainty pale blue dress; Mrs. Elford, jr., a pretty white; Miss Goodacre, a pink liberty satin empire; Mrs. Wolfenden, a very smart silk organdie. The honeymoon will be spent in the Sound cities, and on their return the young couple will take up their residence at "Idylwyde," 1564 Gladstone avenue.

PASTOR ADMITS HE SMOKES IN STUDY.
Asked to Resign Because He Uses Tobacco and is Interested in Socialism.
Bellinham, Wash., April 14.—Because he has become interested in the study of Socialism and because certain members of his flock accused him of smoking a foul-smelling pipe, Rev. Walter C. Jones, pastor of the Knox Presbyterian church in this city, has been forced to resign his pulpit and a new preacher will be named for the church. A short time ago Rev. Mr. Jones delivered an address before the Ministerial Association, telling of the "wonderful growth of Socialism in the country and of the more anxious to accomplish in the local papers and read by members of the pastor's flock. At the first opportunity the congregation asked the pastor to hand in his resignation, which was done to-day and accepted. The pastor defends his attitude on Socialism and in connection with the charge that he smokes a pipe he declares that he indulges in the habit only when he is in his study.

SEES NO REASON FOR TAKING ACTION.
So Says the Premier in Regard to Pugsley Matter.
Ottawa, Ont., April 15.—G. E. Foster again asked Sir Wilfrid Laurier if the latter contemplated any action as a result of statements in the report of the New Brunswick Royal Commission reflecting on the minister of public works. The premier replied that, after looking over the report and such of the evidence as he had time to read, he found nothing therein which warranted taking action by himself or the government. Mr. Foster said the opposition would, on Monday next, challenge the judgment of the House on this decision. The debate on the resolution proposed yesterday by Dr. Daniel, relative to the Mayes affidavit, was then resumed after Mr. Pugsley had stated that if Dr. Daniel would agree to lay on the table of the House the original affidavit, sworn to by Mayes, and read at St. John by Premier Hazen, the point of order raised yesterday would be waived. Dr. Daniel agreed to this and read the affidavit to the House.

MURDER SUSPECTED.
Montreal, April 14.—Dominic Pelletier was found dead on his own farm near St. Etienne de Beauharnois last night with a bullet hole behind the left ear. Murder is suspected.

PRETTY HOME WEDDING ON STADAONA AVENUE

Mr. Brown and Miss Elford United in Marriage Last Evening.
(From Thursday's Daily.)
A very pretty home wedding was solemnized at 8 o'clock last evening at the residence of Mr. and Mrs. Theo. Elford, Stadacona avenue, when their daughter, Miss Laura Mabel Elford, was united in marriage with Percy R. Brown, jr., Rev. T. E. Holling officiating.

The bride, who was beautifully gowned in white elienne, wore a bridal veil and orange blossoms, and carried a bouquet of bridal roses. She was given away by her father and attended by Miss Bertha Fraser, attired in a lovely cream bridesmaid's frock and carrying a bouquet of pink carnations. Miss Dorothy Norris, daughter of F. J. Norris, and niece of the bride, made a charming little flower girl, dressed in a dainty pink frock and carrying a bouquet of pink carnations. Mr. Harold H. Brown, brother of the groom, acted as best man. The drawing room was beautifully decorated for the occasion with quantities of Easter lilies, and the ceremony took place beneath a large floral bell, composed entirely of lilies.

ISTA GETS ONE YEAR AND NINE MONTHS.
Young Thief Sentenced on Three Charges by Magistrate.
(From Thursday's Daily.)
Victor Ista, appeared on remand in the police court this morning charged with stealing goods, the property of Pichon & Lenesty, of Johnston street, valued at \$109. The stolen goods, produced in court, included various kinds of fishing and hunting goods and a quantity of blankets. Accused elected to be tried by the magistrate and pleaded guilty. He had been employed by the firm from whom the goods were stolen. Evidence was given to the effect that accused had been suspected for some time and was finally caught with a portion of the booty in his possession. W. N. Lenesty, of the firm of Pichon & Lenesty, said accused had been in the firm's employ since 1907. He was suspicious that things were going but did not check them up until accused left our employ to obtain work in Vancouver at his own desire. Accused had marked off and taken away on September 19th, 1907 for the firm since then. The city prosecutor said accused had assisted the police in locating the goods and others that would be recovered later. There was nothing known against him. He was sentenced to twelve months imprisonment with hard labor.

WRECK BLOCKS RAILWAY.
Crews of Freight and Work Trains Save Themselves by Jumping.
Bellinham, Wash., April 14.—As a result of a bad smashup between a southbound freight train and a work train at Samish siding, traffic on the Great Northern railroad was tied up for three hours this morning at that point. Both crews got their equipment themselves by jumping. The engine on the freight was badly damaged and the tender of the work train locomotive was driven back upon the cab, splintering it to bits. Three freight cars were reduced to kindling wood.

POPULAR VICTORIANS WEDDED LAST NIGHT

Mr. Ritchie and Miss Gass Married at Dunfries College.
(From Thursday's Daily.)
Dunfries College, Port street, the home of Mr. and Mrs. C. A. Gass, was the scene of a pretty wedding last evening, when their second daughter, Miss Isabella, was united in marriage with Mr. Robert A. Ritchie, of the B. C. Electric Company, the Rev. Leslie Clay officiating. The bride was very handsomely gowned in white Swiss dotted muslin with Valenciennes insertions. She wore a bridal veil and orange blossoms, and carried a shower bouquet of lilies of the valley and bridal roses. She was given away by her father, and attended by her sister, Miss Edith Gass, attired in a dainty holotrope bridesmaid's frock, and carrying a bouquet of pink roses and ferns. Mr. C. Thornton supported the groom. In the parlor and dining room the decorative scheme was carried out with great quantities of ivory, pink carnations lending a touch of color, and above the dining table, where a dainty wedding supper was served, a large crimson bell, overhung with ivy and white roses, was suspended from the ceiling. The handsome cream corded silk, with bouquet of crimson roses, and Mrs. D. McTavish, in blue and white, presided at the table. The refreshments were of a semi-private nature, and took place at seven o'clock. Later a reception was held at which a number of the friends from the prairie provinces were present.

CHICAGO NOW FEELS EFFECTS OF ADVANCE IN WHEAT PRICES.
Chicago, April 15.—The most disastrous effect of the Patten wheat corner is apparent here to-day. The ghetto bakeries, where bread has heretofore sold at four cents a loaf, have increased the price 20 per cent, and the people of this section of the city are now compelled to pay five cents a loaf. It is expected that a corresponding increase will be made by the better bakeries of the city. Though the increased price of bread is generally attributed to wheat speculation, Patten denies that the board operations are to be held responsible. He has declared that his operations had for their main object the prevention of foreign accumulation and consequent exportation of American wheat.

RUN DOWN BY TRAIN.
Automobile Wrecked on Crossing—One of the Occupants Seriously Injured.
San Diego, Cal., April 14.—An automobile containing W. E. Worden, a contractor, and five persons, including his wife and children, was struck by a San Diego train south-bound to-day. Mrs. Worden was seriously injured, but the rest of the party escaped with slight bruises and cuts. This accident occurred in the open and there was no obstruction to either automobile or train. Boys who saw the accident say that the engineer would commit suicide by starting himself rather than go to the state prison. The machine was demolished. The lives of the occupants were saved because of the swampy nature of the ground where the accident happened.

DANGEROUS PURGATIVES.
Medicines of This Class Do Not Cure—Their Effect is Weakening.
Nothing could be more cruel than to induce a weak, anemic person to take a purgative medicine in the hope of finding relief. Ask any doctor and he will tell you that a purgative medicine merely rallops through the bowels, weakening the tender tissues. He will tell you also that a purgative cannot possibly cure disease, or build up blood. When the blood is weak and watery, when the system is run down a tonic is the one thing needed—is the only thing that will put you right. And in all this world there is no tonic so good as Dr. Williams' Pink Pills for Pale People. Every dose of these pills actually makes new, rich red blood which fills the veins, reaches every organ in the body and brings health and strength to weak, despondent people. Miss Annie Beaudreau, Amherst, Magdalen Islands, Que., says: "I was pale, my heart would palpitate violently at the least exertion, and I suffered greatly from severe headaches. I tried several medicines which seemed to do nothing, when the system was run down I was advised to try Dr. Williams' Pink Pills, and a half dozen boxes have made me as well as ever I was. They have done me so much good that I would like every weak girl in the land to try them." It was the new blood Dr. Williams' Pink Pills actually made that restored Miss Beaudreau to health and strength. And in the same way they will restore all sufferers from anemia, indigestion, heart palpitation, neuritis, rheumatism and the secret ailments that make the lives of so many women and growing girls a burden. Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

TO ESTABLISH CANADIAN NAVY

MINISTERS WILL GO TO LONDON SHORTLY.
Imperial Authorities to Be Consulted as to Necessary Steps.
Ottawa, April 15.—In the Commons, this afternoon Sir Wilfrid Laurier announced that as soon as possible after prorogation, Sir Frederick Borden and Hon. L. P. Brodeur, would go to London to consult with the Imperial authorities as to the best means to be adopted by Canada in co-operation with the Imperial government to give effect to the resolution passed by parliament respecting the establishment of a Canadian navy.

PATTEN'S MOVE RESULTS IN DEARER BREAD

Chicago Now Feels Effects of Advance in Wheat Prices.
Chicago, April 15.—The most disastrous effect of the Patten wheat corner is apparent here to-day. The ghetto bakeries, where bread has heretofore sold at four cents a loaf, have increased the price 20 per cent, and the people of this section of the city are now compelled to pay five cents a loaf. It is expected that a corresponding increase will be made by the better bakeries of the city. Though the increased price of bread is generally attributed to wheat speculation, Patten denies that the board operations are to be held responsible. He has declared that his operations had for their main object the prevention of foreign accumulation and consequent exportation of American wheat.

### FIRST DAY OF THE CANVASS

REPORTS OF LADIES  
OF Y. M. C. A. TEAM

Nearly \$3,000 Raised This  
Morning—William Whyte  
Shows Interest.

(From Thursday's Daily.)  
The Y. M. C. A. tent on Government  
street presented a busy scene to-day at  
noon when the citizens' committee re-  
ported through their team leaders the  
amounts secured by canvasses towards  
the new building fund. The Ladies'  
Auxiliary served lunch at 12.15, and as  
soon as lunch was over C. W. Wilcox  
called for the team reports. All the  
leaders were present except D. R. Ker,  
who was detained by business. The re-  
ports given showed that the sum of  
\$2,825 had been promised since last  
night's banquet. The reports of the re-  
cent teams by their respective lead-  
ers was as follows:

1. D. R. Ker.....	\$ 7,000
2. A. Lee.....	500
3. C. A. Fields.....	2,000
4. R. L. Drury.....	1,000
5. W. A. Gleason.....	300
6. E. W. Whittington.....	625
7. D. McIntosh, no report.....	
8. George Carter.....	100
9. R. B. McMicking.....	100
10. R. C. Horn.....	8,000
Ladies' Auxiliary donation.....	3,000
Total.....	\$22,525

Just as the party were sitting down  
to lunch Wm. Whyte, vice-president of  
the C. P. R., in company with Capt.  
Troup and D. R. Ker, came to the tent  
and spent a few moments in interest-  
ed conversation with Secretary Brace. Mr.  
Whyte expressed himself in entire sym-  
pathy with the movement and en-  
couraged the workers in their efforts to  
secure the \$100,000 needed for the  
building here.

### VICTORIA VIOLINIST WINS HIGH PRAISE

Miss Eleanor Kains Given Splen-  
did Reception in  
Toronto.

The following from the Toronto Globe  
refers to a native Victoria violinist.  
Miss Kains is the daughter of the late Thomas  
Kains, formerly surveyor-general for  
the province of British Columbia.  
"The recital given by Miss Kate  
Archer to introduce her pupil, Miss  
Eleanor Kains, on Saturday evening  
in St. George's hall was most suc-  
cessful. Miss Kains is a pupil any  
teacher might well be proud of. Her  
programme was excellently chosen; at  
no time did one have the feeling that  
she was attempting more than she  
could easily accomplish, and through-  
out she played with repose and au-  
thority. Her tone is particularly  
beautiful and her interpretations evi-  
dence good musicianly foundation.  
This was noticed in the Critic vi-  
olin and piano sonata, Op. 13, which  
she played with Miss Flora McDonald,  
a pupil of Mr. Weisman. It was de-  
lightful to hear two young players  
proceed so perfectly in an ensemble.  
Another very successful number was the  
Legende of Wieniawski. In this and  
her other numbers Miss Kains was  
accompanied by Miss Archer. Miss  
McDonald was not only musically in-  
teresting, but 'tres legere and fluide'  
in her solo number, 'Danse des  
Elles' by Sapellnikoff. Miss Char-  
lotte Harris, a pupil at Westminster  
College, won a hearty recall for her  
playing of 'The Sands of Dee,' which  
was a remarkable performance. Al-  
though struggling against a cold, she  
sang with purity of intonation and  
beautiful quality, but she is most to  
be praised for her interpretation of  
this difficult ballad. Her second  
number was Schubert's charming  
'Who is Sylvia?' which she gave with  
grace."

### UP-TO-DATE TOGGERY

### FINCH & FINCH Men's Clothing

Stands for the finest and best  
in both fabric and workman-  
ship. This year we have done  
even better than ever before.  
Every detail which can add to  
the beauty, finish or wearing  
qualities of the clothing has  
been applied. Our lines are  
better in every respect than  
you usually find.

### DOUBLE VOTE DEVICES AND BONUS SCHEMES

(Continued from page 1)

Doubling the "Extras."  
No matter what any one may tell you  
they have not and cannot work a "con-  
test" without the "special vote offers."  
Many of the contest grafters used to  
tell their "candidates" that they would  
give no special vote offers, but I found  
that it paid better to tell them that  
their MIGHT be a small special vote  
offer, but only to those who had merit-  
ed such a great favor by work early  
in the contest. This apparent frank-  
ness was but a cunningly devised effect,  
and after that you could double and  
double again and again, and they would  
work harder to get the extra "votes."  
But if two persons were to take pos-  
sion at opposite sides of a pool of  
fish, and both were to commence beat-  
ing the waters and shouting the super-  
ior merits of their several baits, prob-  
ably neither would go home with a  
full creel. This is, figuratively, what  
"Muley" Brighton and I did in our  
memorable "contest war" in Tankton.

Stopped Publishing Names.  
When we had made enough noise to  
frighten away all the live looking can-  
didates, from both our "contests," I  
determined to stop publishing the  
names of my contestants. The pub-  
lisher of the rival paper had taken to  
writing personal letters to each of my  
"contestants" daily, advising them not  
to do anything until the large "special  
vote" offer, which would come later,  
keeping them informed of the where-  
abouts of my contestants, and encourag-  
ing them to keep their names in the  
race, pointing out how no candidate  
could win in competition with a profes-  
sional and disclosing other valuable in-  
formation which "Muley," like a fool,  
had told him about the game in ad-  
vance. We would just get them talked  
back into a delicate state of confidence,  
when another letter would cause them  
to lie down.

Working in the Dark.  
I reasoned that by not publishing  
the names could keep them from my  
hated enemy and also from the letter-  
writing publisher, while on the other  
hand, our crew might continue their  
personal work among "Muley's" gra-  
fters, without my competitor's know-  
ing it. I considered this the better  
I thought of it, and it did not take my  
optimistic mind long to decide that we  
could break up "Muley's" contest and  
clean up a little real money ourselves  
in the process. I reserved the right to  
fuss the newspapers were making  
through their editorial columns.  
So I made the "stall" that the names  
of the "contestants" would not be pub-  
lished again until the close of the con-  
test, although "new" contesta-  
nts might enter at any time, right up  
to the last minute. I added that this  
course had been taken in response to  
repeated requests from modest con-  
sultants who did not like to see their names  
in print.

The Crew Are the Dark Horses.  
Then I put one of my crew, a light-  
hearted, guileless-appearing young  
gaffer, named "Flaxy" O'Neil, into a  
position as waiter in a restaurant.  
I gave him a closing of the "contest," when  
he should prove to be the "dark horse"  
winner of the capital prize, a big red  
Newton automobile. "Sloe Eye," Jen-  
nie Bristol, a harmless young woman  
who insisted upon staying with the  
party, because of a pronounced infatu-  
ation for Worthingly, one of our crew,  
we disposed in a hotel in a nearby town  
as chambermaid, and reserved the  
second "grand prize," a Crankenbow  
Grand Piano, for her.

Worthingly, without any effort on  
his part, had a faculty of literally  
charming women into doing his will,  
and he was the most valuable contest  
man I ever came across, for his part  
of the work. He could drive, abate or  
convince women as occasion seemed to  
require, and when it came to "kicking  
the dirt" he was the most graceful and  
effective athlete I ever saw.

We all looked to him for some neat  
work in comforting our panic-stricken  
"contestants" after we had disposed of  
the "Sloe Eye," whose non-resisting  
penetrative attitude seemed somehow to  
absorb Worthingly's interest to such  
an extent that he was indifferent to his  
professional work among other women.  
Something of an honest affection seem-  
ed to be springing up between the pair  
and it bothered me.  
The next story will tell how we got  
them to "working like trained pigs"  
before "Muley" Brighton's crowd burst-  
ed out a way to offset our scheme of  
not publishing the names of our "con-  
testants."

### ANGLIANS ELECT TWO NEW BISHOPS

Winnipeg, April 15.—The Anglican  
house of Bishops to-day selected two  
new bishops. Rev. J. G. Anderson, of  
St. Boniface, Man., was chosen for the  
diocese of Moose, and Bishop Holmes  
who resigned in Moose, was selected  
for Athabasca.

### INDIAN ENDS HIS LIFE.

New Westminster, April 14.—The cor-  
oners jury which inquired into the  
circumstances surrounding the death  
of Charlie Billie, an Indian, returned  
a verdict of suicide. The Indian, who  
was well known in the Harrison dis-  
trict, obtained a boat loaded with  
provisions, and rowed up the Harrison  
river. At 15-mile creek he went ashore  
settled himself comfortably behind a  
rock, and placing the muzzle of his  
shotgun against his chest, fired. The  
body was found by persons passing  
in a boat, who on returning saw Billie's  
boat in the same place as when they  
produced previously, and consequently  
made inquiries. He had been dead  
about two weeks, and so firm was the  
clasp on the rifle that it was  
difficulty separated from him.

### SUDDEN DEATH.

Vancouver, April 14.—Dan Hagarty,  
a logger, aged 50 years, dropped dead  
at the foot of Carrall and Cordova  
streets this afternoon. Heart disease  
was the cause of death.

### DESIRE TO HELP COMMERCE HERE

WM. WHYTE HAS TALK  
WITH BOARD OF TRADE

Line to North End of Island  
Likely—Steamer to Fraser  
River—Coal Bunkers.

(From Thursday's Daily.)  
What is regarded by the members of  
the council of the board of trade as  
a highly satisfactory interview took  
place this morning between that body  
and William Whyte, second vice-pres-  
ident of the C. P. R., at which several  
matters which have been in negotia-  
tion between the business interests of  
the city and the company were gone  
into.

Simon Lesler, president of the board,  
presided at the conference. With Mr.  
Whyte were Captain J. W. Troup, H. E.  
Beasley, superintendent of the I. E.  
& N. and W. A. Robertson, assistant  
general freight agent.  
The claims of Victoria for a better  
service by Fraser river points were  
urged upon Mr. Whyte. This matter  
has already been brought to the at-  
tention of the management by Captain  
Troup while he was east. It was point-  
ed out to Mr. Whyte that a large traf-  
fic was available from Mayne, Pender,  
Sidney, Saturna and Salt Spring Is-  
lands, and that the company would find  
the route a paying one.

Mr. Whyte said this was the first  
time the matter had been presented to  
him in that light, and in view of what  
had been pointed out to the traffic  
possibilities, he would endeavor to  
meet the wishes of the board and se-  
cure an appropriation for a new steam-  
er.  
The Comox service was discussed  
and the claims of Victoria for equality  
of service and rates with Vancouver  
strongly pressed. It is understood that  
arrangements will be made whereby  
Victoria shippers can ship goods and  
produce by way of the Esquimalt, Nan-  
aimo and the steamers from Van-  
couver upon equal terms with Nan-  
couver.

Mr. Whyte assured the board that  
the coal bunkers to be built by the I.  
& N. here will be available for use  
by any steamer.  
Railway extension was discussed,  
especially as to the northern end of the  
island. Mr. Whyte stated emphatically  
that if the company saw the traffic  
there, as the board assured him it  
was, the northern extension of the line  
would be proceeded with forthwith.  
While he was not in a position to say  
when the Alberni branch will be com-  
pleted he assured the board work was  
being gone on with quickly.

Mr. Whyte told the board that the  
company fully recognized the impor-  
tance of the port of Victoria, and the  
wealth of the resources of which  
there was no doubt, and would help  
it along in every way in the matter  
of transportation.

### DOCTOR SAID ONLY ZAM-BUK COULD CURE HER ECZEMA.

In view of the numerous cures which  
Zam-Buk has worked when all else has  
failed, there is little wonder that in  
the end the doctor attending Mrs. J.  
F. St. Denis, of 305 Thompson Street,  
Winnipeg, should tell her there was  
nothing but Zam-Buk could cure her.  
The result showed the far-seeing wis-  
dom of this practitioner, and having  
been completely cured by Zam-Buk,  
Mrs. St. Denis gives her experience for  
the benefit of other sufferers.

She says: "Eczema started on one  
side of my face. At first my nose  
felt sore, similar to what I feel when  
feeling when having a bad cold. I paid  
no attention to this, thinking it would  
pass away in a day or so, but to my  
surprise it continued, and having  
become swollen and hard, turned a  
purplish red, as well as part of the  
cheek on that side of my face. As  
the disease developed, pimples and ul-  
cers broke out, then the skin cracked  
in places and peeled off in flakes, leav-  
ing my face and nose raw and sore.  
This condition reacted on my general  
health, and I became very ill. I could  
get no sleep at night because of the  
irritation and the pain, and my face  
was in such a shocking condition,  
for two months I did not go out of the  
house. I applied remedies which were  
supposed to be good for skin diseases,  
but in vain. My doctor also treated  
me, but without effect, until one day  
he said that the only thing which  
would now be likely to cure me was  
Zam-Buk.

"Acting on his advice, I procured a  
supply and found that even the first  
few applications had a soothing effect  
on the sores. I left off everything else  
in favor of this balm, and applied it  
liberally every day to the affected  
parts. In a remarkably short time,  
considering the obstinate nature of my  
disease, we saw traces of improve-  
ment, which encouraged us to persevere  
with the Zam-Buk treatment. Zam-Buk  
reduced the discoloration. When the  
hard swelling began to show  
traces of leaving, the sores seemed to  
be less angry, and in about three  
weeks' time most of the sores were  
healing nicely. To cut a long story  
short I continued with the Zam-Buk  
treatment until my face was cleared  
completely of all traces of the trouble-  
some and painful eczema."

Zam-Buk is a sure cure for cuts, lac-  
erations, burns, eczema, ring-worm,  
poisoned wounds, festering sores, bad  
leg, and all skin injuries and dis-  
eases. It is also a cure for piles.  
Druggists and Stores everywhere sell  
at 50c a box, or post free from Zam-  
Buk Co., Montreal, receipt of price.  
You are warned against cheap and  
harmful imitations sometimes repre-  
sented as "Just as good."

### MAY BUY TELEPHONE SYSTEM.

Regina, April 14.—It is learned to-day  
that the negotiations for the purchase  
of the Bell Telephone Company's system  
by the province of Saskatchewan are at  
last taking definite shape, and that within  
a short time an announcement of the  
transfer may be made.

### ALLEGED COUNTERFEITERS TAKEN IN NELSON

Two Men Who Are Wanted in  
Spokane Are in  
Custody.

Nelson, April 14.—Chief of Police W.  
J. Devitt, together with Police Con-  
stable E. Jensen made a clever cap-  
ture of two men, named George Bar-  
ton and J. Alton, soon after the arrival  
of the Rossland train Monday night.  
The two men are alleged to be mem-  
bers of a gang of counterfeiters who  
have lately been conducting their ne-  
farious operations in Spokane. On Fri-  
day last a man named Loren Breeding  
was arrested in that city on a charge  
of having uttered spurious coin to the  
amount of \$500. Breeding handed over what  
he thought was five silver dollars. When  
Maupin returned home he and his  
wife examined the coin and found  
them to be counterfeit. He reported  
the matter to the police and the arrest  
followed but Barton escaped before he  
could be arrested.

In a confession made shortly after  
Breeding said that he had been paid  
the money by Barton, whom he  
met while they were in jail. Meeting  
each other in Spokane Barton told him  
of having a large number of counter-  
feit dollars and that he would divide  
with him.  
The spurious money was a crude im-  
itation of a dollar. Plaster paris casts  
were made from silver dollars and a  
rabbit metal, such as is used by ma-  
chinalists, was poured into the dies. In  
time the metal had a tendency to  
shrink, which showed plainly on the  
surface of the coin.

The Spokane police believe that it  
is likely that a plant is cached some-  
where in the city and that it may be  
found. Barton suspected that some-  
one had passed and made his escape  
before the officers took up the case.  
About \$12 in counterfeit money was  
found on Breeding.  
The United States district attorney  
will take the matter up with regard to  
extradition proceedings. Several more  
arrests in connection with the counter-  
feiting are expected shortly.

### BRITISH WARSHIPS FOR TURKISH WATERS

(Continued from page 1.)

Report of Messager.  
Constantinople, April 15.—Fear is felt  
for the safety of the inmates of two  
American missions at Mersina. Also  
Minor, a seaport on the Mediterranean,  
where the Moslem army reported to be  
preparing to massacre the Armenians. It  
is reported here that the trouble is the  
result of an Armenian killing two Mos-  
lems last night. The Moslems attacked  
and the Mohammed people attacked  
the Armenians, declaring they would  
exterminate the Christian people.  
The last report stated the massacre  
was in progress and the foreign legat-  
ions had received urgent calls for help.  
The Christian population of the city  
amounts to 35,000 persons.

### NURSES AT INSANE ASYLUM STRIKE

Ulrich, Cal., April 14.—Efforts to fill  
the vacancies created by the resigna-  
tion of 11 to 15 women attendants at  
the Mendocino state hospital for the  
insane have met with little success and  
the big institution is running to-day  
with less than half the necessary num-  
ber of nurses to care for several hun-  
dred patients. The nurses' strike  
which was announced last night, is the  
result of their striking without being  
paid for their services. The trouble be-  
tween the attendants and matron  
Jeanette Honn, who was supported in  
her attitude, say the malcontents, by  
Dr. E. W. King, superintendent of the  
hospital. Miss Honn is charged by the  
striking women with incompetency and  
unfairness, and the trouble reached a  
crisis upon the alleged refusal of the  
superintendent to properly investigate  
the charges preferred against her by  
the attendants in a petition to the  
board of managers.

All the young women who left the  
hospital have homes in this city, and  
many of them have been employed at  
the asylum for years. The sympathy  
of the people here appears to be unani-  
mously with the strikers and tales of  
abuse of patients confined in the hos-  
pital are being given wide circulation.  
Parishian cyclists are replacing bells by  
little drums or tambourines, on which,  
by pulling a string, they set drumsticks  
playing.

### Buttermilk Toilet Lotion

Prevents and heals chaps,  
roughness, sunburn, etc., coun-  
teracts the bad effects of dust-  
laden winds on the complexion.  
Keeps the skin soft and smooth;  
makes the hair pure, healthy and  
grows. Is neither greasy nor  
sticky. Excellent for gentle-  
man's use after shaving. Always  
fresh, always pure. Made from  
an especially fine formula, from  
the best and purest ingredients.

### CYRUS H. BOWES

CHEMIST  
Govt. St., Near Yates.

### BUILDING CAMPAIGN GOES WITH A SWING

(Continued from page 1.)

machinery and equipment it should be  
between eighty and ninety per cent  
self supporting. The Seattle association  
is about ninety five per cent self sup-  
porting. In fact Mr. Allen feels con-  
fident that when the local organization  
is in proper quarters that it will require  
less in actual gifts to keep it running  
than in the case with the present  
limited and unsatisfactory quarters.

In connection with the evenings pro-  
ceedings frequent reference was made  
to the permanent staff of the local body  
of the Y. M. C. A. and the Y. W. C. A.  
with the small plant and cramped  
quarters available. Secretary Brace  
came in for frequent laudatory refer-  
ence as did also Physical Instructor  
George Williams, Secretary Jones, and  
the hearty applause which greeted  
these references indicated how they  
reflected the sentiments of the gather-  
ing.

A gratifying feature of the proceed-  
ings was the presence of several officers  
of associations in nearby cities. Sec-  
retary Allen, the Inimitable permanent  
official of the Seattle body, gave one of  
his quaint talks which set the Y. M. C. A.  
in roars of laughter. State Secretary  
Wilcox, the antithesis of Mr. Allen—  
matter of fact, and check full of or-  
ganization—showed in a few neat sen-  
tences just how the work was to be  
conducted, and president of the  
Vancouver association brought  
greeting and well wishes from that  
flourishing body. Perhaps the most im-  
pressive talk of the evening was that  
of Mr. Mitchell, recently of New  
York, who has taken up his home in  
Victoria and who is an enthusiastic  
supporter of Y.M.C.A. work. His talk  
was most convincing.

The campaign proper begins at high  
noon to-day. The clock on the big tent  
on Government street and in this paper  
will tell the progress of the canvass.

R. B. McMicking, president of the  
Y. M. C. A., presided, and had on his  
right the chairman of the building  
committee, R. L. Drury, and on his  
left State Secretary E. Wilcox, of the  
state of Washington, who will be com-  
mander-in-chief of the local forces for  
the campaign.

In a brief address Mr. McMicking told  
of the history of the local organiza-  
tion, of the vicissitudes through which  
it had passed and of the steps which  
that at last it was about to have quar-  
ters suitable for its accommodation.  
The duty of the citizens to its young  
men—the greatest natural resource of  
the city—was emphasized by the  
chairman. Modern accommodation  
would have to be provided. That was  
the task to which their hands were  
now set.

E. W. Keenlyside, president of the  
Y. M. C. A., followed, and  
told of the heart-breaking task they  
had there until they secured a site and  
provided accommodation and equip-  
ment which had enabled them to do a  
work not dreamt of four years ago.  
To-day they had seventeen staff offi-  
cials in their secretarial, athletic and  
educational work.

He was followed by Mr. Michener,  
who said he hoped they would all elim-  
inate of this proposal and treat it  
from a business standpoint. If there  
was one thing apart from the spirit  
of Christ in it which had made the  
Y. M. C. A. a success it was the fact  
that it was a business proposition. Com-  
ing to local conditions he declared that  
they were attempting to do the work  
of a college in a high school and an  
athletic association on a second floor in  
quarters originally intended for of-  
fices. (Laughter.)

The west was calling the young men  
of the country. They were coming to  
this and other cities, breaking home-  
ties and forming new ones and a duty  
lay on the citizenship of Victoria to  
see that those men were preserved as  
clean men. They should also be pro-  
tected from their starting point, the  
community just as a fine machine  
should not be needlessly imperilled.  
Mr. Michener followed with an in-  
teresting computation of the value of  
the young men of this city from an  
economic standpoint which is embodied  
in the computation by Mr. Allen at  
the head of this article.

In his talk, Mr. Allen stated that  
Victoria was the largest city on the  
coast which remained without a Y. M.  
C. A. building. "If you are leaving  
anything out of your city life which  
you require," he added, "it is not be-  
cause you cannot afford it. No man  
can walk your streets breaking home-  
ties and convinced that you have the wealth  
here to get anything you want."

Continuing, Mr. Allen said that when  
thousands came to the A. Y. P. ex-  
position this summer they would come  
not to see certain exhibits, but to see  
a city and a people. Men would be at-  
tracted not by the fact that the fair  
was open on Sunday or that a wide  
open town was being run, but by the  
commercial institutions, by the  
churches, by the Y. M. C. A.'s, by the  
educational bodies. These were the es-  
sential things which no city could  
overlook in attracting residents.

"There are two things which are  
never built too big," concluded Mr.  
Allen, "a departmental store and a Y.  
M. C. A." He added that the poten-  
tial value of the Y. M. C. A. to Seattle  
was greater than Moran's 'ship yards.'  
"If you got a chance to obtain a fac-  
tory which would employ 600 hands  
wouldn't you go hot-foot for it? In-  
quired, "If you wouldn't, I know some  
towns that would. And yet a Y. M.  
C. A. with a membership of 2,000 is  
worth more to a city than a factory  
with 600 men," he added.

The chairman here, amid enthusiasm,  
read the contributions to the fund  
which appear elsewhere in this issue.  
The chairman also announced that  
there were two original members of  
the Y. M. C. A. present, in His Worship  
the Mayor and Mr. Carr.  
His Worship, who was loudly ap-  
plauded, pointed out that Calgary had  
a building which represented a contribu-  
tion per capita of population of \$3,  
whereas the proposed building in this  
city would cost only \$2.50. "This city  
needs it and it can afford it," declared  
His Worship.

Mr. Carr recalled the experiences of  
twenty-four years ago, when the move-  
ment was first launched, and described

### PHYSIC YOURSELF

It is a Tonic you want! Physicing lowers  
the system and makes it more susceptible  
to disease. The winter months have been  
the greatest of Tonic and should be taken by every one at this season  
of the year. PSYCHINE assists the gastric juices and ferments in  
their digestion of the food, cleanses the mucous membrane of the  
Stomach, and has an invigorating and beneficial effect on the muscles  
and nerves. For Catarrh of the Stomach, Ulceration or Weak Stom-  
ach, Dyspeps

NATIONAL WASTE AND ITS CURES

SUBJECT DEALT WITH BY PRACTICAL MAN

The Utilization of Resources of Country Should Be Fully Carried Out.

President Rowley of the Eddy Paper Company, in an article upon national waste and how to prevent it, has the following to say:

The great waste is filling up with population, but the older provinces need more people. In some parts of Quebec there is a falling off, as the latest returns show that in eighteen districts out of sixty-five, there was a loss of population.

Nearly half the counties in the Maritime Provinces have by the last census actually lost not only the natural increase of 2 1/2 per cent, but a further percentage drawn away by the attractions offered by the great west, or the industrial centres of New England.

Loss of population is always a symptom of decadence and how that is to be arrested is a question of deep importance to the country and of interest to every public-spirited citizen.

All artificial inducements, such as subsidies, bonuses, etc., offer only a temporary stimulus and ought to be put aside, as valueless.

From Lake Superior to the sea east, the country possesses natural resources as great as the vast wheat prairies and stock lands from Lake Superior to the Rocky mountains, and a hundred times more diversified.

This belt of country, more than 1,000 miles in breadth, possesses immense forests, fisheries, stretching around hundreds of miles of coast line, minerals of all kinds, coal and iron, great fruit, dairying and stock raising lands, and above all a superb climate for developing the human animal to its greatest perfection.

No country is more richly endowed. What more is necessary for the creation and development of a nation? Still it has a great lack of people; the country needs more people and we do not have them because under the ordinary laws of supply and demand there is not profitable employment for them.

How is employment to be provided for workers? The only way is to work up the natural resources of wealth—our forests, fisheries, farms, minerals. These are the only true bases of the future activities, and wealth of our people.

Provide employment by working up raw materials, which our country rich in finished products, ready for consumption. For example, take our forests. Shipping abroad logs and wood, to be worked up by foreign labor and returned to us in a finished product, is a reckless and national extravagance, as it transfers to another country both the population and capital required in manufacturing, as well as the united profits created.

We wish the United States well, but we have to look out for ourselves. We have no need to ask them to manufacture for us goods made from our own natural products. We want the workers this side of the line—not south of it.

We want people to fill up our towns and villages, make new homes, earn money, spend it, develop new lines of trade, industry and manufacturing.

With more population we will be less dependent, more powerful, more wealthy, more important in the world's affairs. We will give a concrete example of the labor value of even a rudimentary industry—that of banking or "rossing" pulp wood. It is taken from the U. S. Commissioner on pulp wood, etc., lately published. A witness who is a pulp wood operator in the Adirondacks and ships "rossed" wood to Watertown and also to Niagara, gave evidence that the labor cost of stumpage is per cord, the labor cost of "rossing" is \$1.32 per cord. The labor of cutting and carrying to the mill is \$4.80 per cord. The mill burned the refuse of the "rossing" at the price of \$1.75. The overhead charges 50c. The price at the mill the present year is \$15.50, so that the profit was \$1.05 per cord. Therefore, the labor employed received \$3.70 of the \$15.50. The witness did not give evidence for the succeeding steps, namely, converting the wood into pulp, and from that into paper, but his evidence was sufficient to show the labor value of even so rudimentary a process as peeling the wood. His output of barked wood is 25,000 cords a year. The labor cost of this outside of stumpage would be over \$200,000. The sum of \$500 per year per man would afford employment for 60 hands. Suppose he had them working for him; that would represent a village of 1,200 people all demanding their requirements of civilized life and augmenting the general welfare and prosperity. These figures are not altogether applicable to Canada, but if one "rossing" mill producing 25,000 cords, can give so much profitable employment, what would be the result if all the half million cords of pulp wood annually exported to the United States, were "rossed" on this side? The labor earnings would reach into millions and extra workers employed and their families would add tens of thousands of people to our population.

But take a step further and suppose the wood instead of being exported was converted into pulp on this side of the line, one could hardly compute the value of such a large industry and the impetus it would give to trade.

The last report of the board of trade of Portland, Maine, states that 31 steamers from New Brunswick carried 55,340 cords of pulp wood and by other steamers there was received about 14,000 cords, amounting in all to 69,355 cords of wood. Suppose that quantity "rossed" in New Brunswick; it would represent wages to the amount of about \$600,000 and employment to a population of about 3,000 people. If converted into pulp before shipment, these figures would be vastly increased.

While Canada is beyond question the greatest spruce-producing pulp wood country in the world, wood pulp itself is only one in the catalogue of Canadian assets, that ought to be utilized to bring workers, prosperity and wealth to our country.

The question now is will each pro-

vince undertake to conserve its great resources of natural wealth to the use of its own people in order to attract to Canada all industrial people that will increase our population of consumers and tax-payers, develop the internal trade and enrich the whole country with the results of new productive energy.

APPROPRIATIONS FOR YEAR MAY COME UP

Park Work May Receive Greater Attention Than Planned—Business for To-night.

The regular meeting of the city council will be held this evening, when the estimates will be the main item of business. There have been pretty well done at the meeting of the members of council, and there is not likely to be very much discussion on them to-night.

The proposed estimates for the year were originally left some \$3,000 less than the expenditure last year, but as it was felt to be very important that there should be no stinting of this work during the present summer, when such a rush of travel is expected, Alder Turner pressed strongly for the full appropriation, and has succeeded in getting it increased.

Water Commissioner Raymer wants an item of \$6,000, which was struck out of his estimates, restored. This was intended to provide for the erection of a brick store house with slate roof for the safe keeping of the boats and other valuable stock belonging to the department. The commissioner considers that this building is absolutely needed, as the stock is now subject to damage by fire.

The Mayor's proposal to set aside \$500 out of this year's revenue, as a first contribution to an endowment fund for the sending of young Victorians to the Royal Military College, will also come up.

FATALLY SHOT AFTER ROBBERY GAMBLERS

Man Secures \$30 But Receives Bullet Wound When Making Escape.

Butte, Mont., April 13.—Because "he went broke" at a gaming table in the Mountain View saloon, Edwin Madden held up the resort, which 30 men were playing, last night, and robbed the bank of \$38.

As Madden was making his escape through a secret exit John Selsa, a bar tender, caught him with his revolver at Madden, fatally wounding him.

On his death bed Madden declared he "got what was coming to him." He said it looked so easy for the gamblers to corner the bank, that he determined to take a chance at the game himself.

GAS SLOT METER CAUSE OF DEATH

Young Woman Suffocated in Rooming House in Seattle.

Seattle, Wn., April 13.—When Coroner Snyder was called to investigate the cause of the death of Miss Midge Engler Snyder in the morning, this morning, the sixth case of asphyxiation from the deadly gas slot meter during the past month was registered. Inmates of the rooming house informed the coroner that though the girl had turned on the gas with suicidal intent, but upon investigation Coroner Snyder learned that John Landen, who lives in the basement, had inserted a 25 cent coin in the meter this morning, and his breakfast and left the house. Four hours later Miss Engler, whose room is supplied by the same meter, was found dead, her room filled with gas. Coroner Snyder is of the opinion that when Miss Engler retired last night she neglected to turn off the gas. Later it burned out. When Landen put a coin in the meter the flow was again turned on in the girl's room, and she was suffocated as she slept.

BRIEF LOCALS.

—The grocery clerks will not meet in Pioneer hall on Monday night next but will gather in Labor hall at the corner of Douglas and Johnson streets.

—At the recent examination of candidates as B. C. Land surveyors the following were successful:—A. P. Augustines, W. B. Bucknell, Cecil M. Roberts, H. H. Roberts and P. A. Landry.

—Victor Ista pleaded guilty in the police court this morning to stealing goods from Charles Pichon, Johnson street, valued at \$50. He was remanded for sentence until Thursday. There is another charge against the same man who was in the employ of the informant.

—A building permit was issued on Tuesday to Lee Cheong, Lee Way and Lee Yan Yow for two stories and basement premises to be used for stores and offices on Broad and Johnston streets to cost \$1,900. Mrs. McLeod was issued a permit for a four roomed dwelling house on Francis street to cost \$800, and David Webster took out a permit for a seven room house on Coburg street to cost \$1,800.

—The funeral of the late Miss Rachael Wilson took place on Tuesday at 2:30 o'clock from the B. C. Funeral Furnishing Company's parlors, where the Rev. T. E. Holling conducted an impressive service. Rev. Mr. Nicholas officiated at the graveside. There was a large attendance of friends and many flowers were sent. The following acted as pallbearers:—R. Curran, T. James, W. Jack and A. L. Malvern.

A Rome dispatch says: Mount Etna is in an eruption, although reports to that effect have been current, and according to the latest advices received here from Catania, there is no apprehension felt that another earthquake is imminent.

NO STEAMERS THIS SUMMER

G. T. P. WILL NOT INVADE COASTING TRADE

Officials of Company Left Today on Trip to East.

The G. T. P. will not put steamers on the run from Victoria to Prince Rupert this summer. This statement was made by E. J. Chamberlin, general manager of the company, this afternoon. The other enterprises that the company have on hand precludes its going into this service at the present.

Tuesday afternoon the G.T.P. party left by the Princess Victoria for Vancouver on their way east. It comprised Mr. Chamberlin, Darcy Tate, solicitor; J. E. Dalrymple, general freight agent; G. W. Ryley, townsite agent; G. A. MacNicholl, purchasing agent on the Pacific coast, and Mr. Kinella, private secretary to Mr. Chamberlin. Mrs. Chamberlin and Mrs. Bonnet also accompany the party. Mr. MacNicholl will only proceed as far as Vancouver, which is his headquarters. Darcy Tate will leave the party in the prairies also.

During the stay here details were discussed with the government relative to the sale of lots at Prince Rupert. It has been decided to put about 1,000 lots up to auction at the initial sale to be held in Vancouver, and these will be scattered in the different blocks. The Victoria sale will likely follow closely after.

CLUB ESTABLISHED IN NEW QUARTERS

Billiard Tables and Other Furniture Installed in Temporary Home.

The Pacific Club will hold a special general meeting on Monday next for the purpose of going thoroughly into the matter of finding new permanent quarters. They have an offer from Fremont & Son to take the flat in the new building similar to the one they had before, and it is understood that other schemes will be up for consideration.

The club has secured temporary quarters in the Duck block on Broad street, where they have already installed two billiard tables and a good deal of furniture which will be used in the permanent quarters when ready. Meals are being served to members, and every other department will be in full swing at once.

The Pacific Club has played an important part in the liberal government, but to the whole community, that they have already recovered to a large extent from the effects of the fire.

CANADIAN MILITIA MAY CROSS BORDER

Vancouver Regiment Receives Permission to Visit Fair at Seattle.

Washington, D. C., April 14.—The state department to-day notified Senator Piles of Washington state, that permission would be given for the admission of the Duke of Connaught's Own Rifles from Canada for the Dominion day celebration at the Alaska-Yukon-Pacific-Exposition.

It is customary, however, to let the request be made by the foreign government wishing to send troops into the country, and the state department has addressed a query to the British embassy which will probably lead to the making of such a request.

AUTOMOBILE PLUNGES DOWN EMBANKMENT

Occupants Thrown From Car and Narrowly Escape Death.

Everett, Wash., April 14.—Mrs. F. H. Wright, of Everett, is to-day suffering from severe cuts on the neck as the result of an automobile accident yesterday in which the five persons in the car narrowly escaped death. The big touring machine was being driven by a woman who was learning the art and who at a critical moment neglected to turn the steering wheel, sending the automobile plunging over a bridge. After falling a distance of fifteen feet the car turned over a slide down a twenty-foot embankment. The occupants, Mrs. Herbert Clough, who was at the wheel, her husband and little daughter, Mrs. F. H. Wright and an automobile agent, were thrown in every direction, but all except Mrs. Wright miraculously escaped injury. The machine was badly wrecked.

C. P. R. NOW CONTROLS WISCONSIN CENTRAL

Milwaukee, Wis., April 14.—The control of the Wisconsin Central Railway Company was yesterday fully transferred to the C. P. R. and thus made a part of the Canadian Pacific system, giving it an entrance to Chicago.

Agreements between the Soo line and the Wisconsin Central heretofore authorized by their respective boards, were ratified and approved by the largest vote ever cast.

MARATHON RUNNER DEAD.

Pittsburg, Pa., April 14.—Wm. R. Howick, aged 17, is dead as the result of a marathon race in which he participated three weeks ago. Howick attended the public schools of this city and was in excellent health before the race in which he was an easy winner. Since the contest he has not been well, and his death is believed to be the result of the terrible physical strain of the 26 mile grind.

BIG FIRE RAGES AT ROCHESTER

SEVERAL PERSONS SUSTAIN INJURIES

Loss Is Estimated at Half Million Dollars—Militia Ordered Out.

Rochester, N. Y., April 13.—Fire destroyed half a million dollars worth of property here to-day was placed under control at 4 o'clock this afternoon. The entire department of Rochester, assisted by battalions of Scranton and Buffalo departments, battled with the flames for four hours before they were able to check them. A 45-mile wind fanned the fire and caused it to spread rapidly.

The number of persons were injured, either by jumping from windows or being caught under falling walls. It is believed that all will recover.

The fire started in a six-story factory building, abandoned by a sale it soon spread to a row of apartment houses. Then Temple E. Rith Keshel was destroyed and St. Peter's Presbyterian church caught fire several times. All of the members of the local militia companies have been ordered out to act as patrols for the burning district.

CLUB ESTABLISHED IN NEW QUARTERS

Billiard Tables and Other Furniture Installed in Temporary Home.

The Pacific Club will hold a special general meeting on Monday next for the purpose of going thoroughly into the matter of finding new permanent quarters. They have an offer from Fremont & Son to take the flat in the new building similar to the one they had before, and it is understood that other schemes will be up for consideration.

The club has secured temporary quarters in the Duck block on Broad street, where they have already installed two billiard tables and a good deal of furniture which will be used in the permanent quarters when ready. Meals are being served to members, and every other department will be in full swing at once.

The Pacific Club has played an important part in the liberal government, but to the whole community, that they have already recovered to a large extent from the effects of the fire.

FRENCH-CANADIANS TO PARTICIPATE IN FAIR

Members of Seattle Club Have Promised Liberal Contributions.

Seattle, Wash., April 14.—At a meeting of the French-Canadian club in the Seattle Theatre building, a committee was appointed to make arrangements with the exposition officials and the Canadian commissioner for the participation of the local French-Canadians in the fair.

Many members of the club have pledged themselves for liberal contributions and the committee named is authorized to solicit subscriptions from all the local French-Canadians in order to make a good showing on the ground. The French speaking people are expected to visit Seattle next summer.

SEATTLE PRIEST DEAD.

Rev. Father Ulrich Scheffold Passes Away After Short Illness.

Seattle, Wash., April 14.—Rev. Father Ulrich Scheffold, pastor of St. Benedict's church, died yesterday at his home on Wallingford avenue, of meningitis. Apparently in vigorous health, there was little warning of the advance of the disease until it reached the acute stage.

Father Scheffold was born in Germany in 1872. He came to America in 1888 and shortly after entered St. John's college, Collegeville, Minn. He completed his course in 1897 and was ordained a priest of the Roman catholic church. His brother, Father George, is a professor at the catholic college, at Lacey, Wn. In 1906, Father Scheffold came to Seattle. He is survived by a brother and sister in Canada, and his brother, Father George of Lacey, and another sister, Sister Carolope, of Brainerd, Minn.

SWEDISH NOBLEMAN DEAD.

Redding, Cal., April 14.—A mysterious Swedish miner, known as John Wenner, died yesterday at his home in Redding. He was a Swedish nobleman of dual rank. His real name was John Amiel Wennerstrom. This fact was made known by Wenner's wife when she testified at the inquest. Mrs. Wenner has been at St. Helena for her health.

SETTLERS FOR WESTERN CANADA.

St. John, N. B., April 13.—Of the 572 passengers on the Lake Manitoba yesterday, about 800 were for the West. The list included about 100 Salvation Army wards, these being mostly for Ontario.

Playing cards were invented about 1381. Andrew Selkirk, an engineer and a descendant of Alexander Selkirk, the original of Deane's "Robinson Crusoe," has just died at Cowdenhead, Pitt. He had led a roving and adventurous life, taking part in many expeditions and gold diggings. He owned much house property, and much of it built by himself.

INVASION OF THE DOMINION

LONDON JOURNAL ON CANADIAN IMMIGRATION

Opportunities Awaiting Settlers—British Columbia Fruit Lands.

The 1909 season of Canadian immigration has fairly begun. British emigration to the great Dominion of the West may be said to have been opened by the Canadian Pacific Railway Company when its fine Atlantic liner the Empress of Britain sailed from Liverpool with nearly 1,000 emigrants on board, all bound for the land of promise, of hope, and of rich opportunity which stretches from Halifax and St. John to Vancouver and Victoria, says the Standard of Empire. By the time these lines reach Canada, thousands of the Dominion's 1909 immigrants will already be on the soil of their adopted land. Within a month thousands of the newcomers will be running up shacks and stables for the shelter of themselves and their stock on their homesteads of virgin soil in the west. A certain number, too—and if our people are wise it will be a larger number than ever before—of men with some means, and, in some cases, with families, will be taking over possession of already established farms and homesteads in the beautiful, homely, and well-settled provinces of Nova Scotia and New Brunswick. Others again, by no means ill advised, will be settling themselves upon sections purchased, it may be, from the Canadian Pacific, the Grand Trunk Pacific, or from the Canadian Northern Company, or from private individuals, in close proximity to towns and railway stations in the wheat belt, and

Preparing to Operate these lands at once in connection with markets as close at hand as they would be in England, and with prospects a good deal more hopeful than those of any old-world agriculturist.

There are two other kinds of openings in Canada which will receive a larger number of newcomers this season than ever before—and, for the sake of our own folk, we trust that a very large proportion of them may be British. We refer to the fruit-growing lands of British Columbia, and the wonderful irrigation settlement of the Canadian Pacific railway in Southern Alberta. Here is a belt of three million acres of rich land, within sight of the foot-hills of the Rockies, blessed with one of the most delightful climates and as it were, insured against failure by the biggest single irrigation undertaking on the American continent. Here newcomers will find all the

Advantages and Ampleties which go with close settlement and mixed farming. The new world contains nothing much more solidly attractive for the immigrant with some means than this wonderful irrigation colony. There is only one feature of it we would like to see altered. Its manifold advantages have appealed so strongly to the shrewd Yankee farmer, and to the far-seeing Germans, both in the Fatherland and in the United States, that unless the slower moving British emigrant makes up his mind pretty briskly we shall find the opportunity lost, so far as our own folk are concerned, and that would be in all ways lamentable, for such chances are rare.

With regard to the fruit lands of beautiful British Columbia the field is of course less limited; but even there our people must be careful. The opportunities offered are too rich to be long neglected. The sunny Okanagan valley, and the lake-studded Kootenay country are the cynosure of many long and envious eyes which are not British. The same is true, of course, of the Dominion's most wonderful wheat belt, the record-making province of Saskatchewan, Shrewd Yankees and Germans are peering out their claims on its rich black loam just as fast as applications can be filed and deeds signed. So in the towns of the west, the best sites are being seized, capital and energy are pouring in, for the rewards awaiting each are such as no older land possesses, and the men of foreign countries will not wait upon the leisure of the prospective emigrant from Great Britain. "The heritage may be yours," the foreigner may be supposed to say, "but if you cannot make up your mind to go and develop it and reap your own reward, you cannot blame us for stepping in before you."

Nearer at hand than the great up-thrusting west, and flanking the beautiful Maritime provinces, the very British province of Ontario stretches its immense and fertile length from the borders of Quebec and of the United States to the head waters of inland navigation and the frontier of Central Canada. Rich in orchards, minerals, timber, and first class agricultural lands, threaded by railways, and dotted over with flourishing cities, large towns and market places, Ontario is a rare place for the home-seeker; a land of singular natural beauty and wealth, a place full of opportunities for the enterprising.

And the immigration season of 1909 has now fairly started. What is the year to bring forth for Canada and for the Old Country? The first half of the question is a good deal easier to answer than the second. For Canada, the year will certainly bring a large increase of population and land settlement. There is every indication that it will also bring a remarkable

Access of Great Prosperity. The estimates of all the leading authorities point to this conclusion. The prime minister, Sir Wilfrid Laurier, and the minister of the interior, Hon. Frank Oliver, hold this view strongly. The presidents of the great railways, Sir Thomas Shaughnessy, Charles M. Hays, William Mackenzie, and the presidents of the great banking institutions, Sir Edward Clouston and E. J. Byrom Walker, have agreed with all the leaders of Canada's manifold activities who have recently expressed an opinion on the subject, in predicting a season of unprecedented development

and progress for the Dominion. There falls to be considered the second half of our question, as to the share of the people of the mother country in this great forward movement on the part of the leader among the overseas states of the Empire. It is easy to enumerate legislative reform which are demanded by the situation, and chief among them we place

Recognition and Reciprocity

where Canada's generous preference to Great Britain is concerned. But, putting aside legislative action, which is not likely to affect the season upon which we have already entered, there remains very much in the shape of personal and individual action which might be begun this very hour, with the comfortable certainty that it would bring its own reward—a rich one—and that it would ensure to our own folk the share which should be theirs in the most notable feature of the life of this young century, the progress of the great new nation of Canada.

During the next few months there should be a British invasion of the Dominion, and the leaders of the invading force should be members of parliament, representatives of the great manufacturing houses of this country, prospectors of commerce, finance, mining, real estate, and industry generally, and writers and lecturers. The rank and file of the invading force should consist of tourists, sportsmen, pleasure-seekers, younger sons with a career to make, and parents with positions to find for their sons.

We mentioned the representatives of manufacturing houses, and in so doing we were not thinking merely of commercial travellers, though there should be a solid phalanx of these, fully armed and accoutred. We were thinking also of senior and junior partners at the heads of departments, of men having authority and discretion, of the heads of firms capable of deciding upon the

Establishment of Branch Houses in the Dominion, where, under the sheltering aegis of a wise and kindly government, and tariffs less favorable to dumping than our own, they might look with confidence to sharing profitably in the marvellous rapid growth and development which is now characterizing every aspect of Canadian life. By the financial prospectus we raked his brain, but the name of the fair one was hopelessly gone.

With the patience born of experience the willing deputy suggested the Christian names applicable to a fair maid that entered his mind, in the hope of furnishing a working basis to the perspiring youth. By happy chance the roving glance of Baylard fell upon a stately Easter lily which stood in a vase upon the desk and he cried with happy content, "That's the name of the girl one was hopelessly gone."

The fact that the surname was missing and could not be found was no hindrance to the determined deputy, and ten minutes later Baylard left the office possessed of a license to wed Miss Lily Irene of Oakland. Plans for the happy event are going on apace.

Here is food for thought for the people of the United Kingdom; it is better worth thought than most subjects. We cannot predict with any certainty how much or how little advantage will be taken of these opportunities by our people; but we can say with certainty that the matter has never been placed before them as during the past year, and we can say with certainty that the invasion will take place, just as surely as the St. Lawrence will be opened for navigation. The invasion will assuredly take place; but it is for the people of the United Kingdom themselves to decide what place they will have in the rewards. Canada's attitude is exemplified in Canada's preference to the mother country.

Here is food for thought for the people of the United Kingdom; it is better worth thought than most subjects. POSITION OF MINISTER OF PUBLIC WORKS

Sir Wilfrid Laurier Has No Statement to Make at Present.

Ottawa, April 13.—In the Commons this afternoon, Hon. G. E. Foster asked Sir Wilfrid Laurier if in view of the report of New Brunswick royal commission he would make any statement as to whether or not any action would be taken with respect to the minister of public works.

Sir Wilfrid replied that so far he had only seen press dispatches relative to the findings of the commission, and consequently had no statement to make in connection with any charges made.

Hon. W. S. Fielding, in reply to F. D. Monk, said no negotiations were now in progress between Canada and Germany relative to reciprocal tariff agreement. The matter had several times been informally talked over with Germans interested in better trade relations with Canada, but the matter so far had not gone beyond the status of pour parlers.

CRAZY SNAKE IS READY TO SURRENDER

District Attorney Decides He Has No Authority to Accept Offer.

Tulsa, Okla., April 13.—Because the United States has not declared war on anybody, Federal District Attorney Gregg was to-day forced to refuse to accept an offer of surrender made by Crazy Snake, the outlaw Indian chief, and his little band of followers.

A courier came down from the hills to-day and sought Col. Hoffman. He bore a message from Crazy Snake saying that he would give himself up if the government would accept his capitulation and guarantee him protection. The matter was referred to Gregg, who finally decided that he had no authority to accept the chief's surrender.

KILLS WIFE AND HIMSELF.

Marysville, Kas., April 13.—Angered because his wife refused to arise from bed and drink more beer, of which both had imbibed freely, Jno. Wilson, a farmer, shot and killed her, wounded his step-daughter, aged 12, set fire to his house, and then committed suicide. The Wilsons are reported to have been indulging in a protracted spree.

MANAGER ARRESTED.

Butte, Mont., April 12.—Manager Harry Rose, of the Inter-State Telegraph Company, was arrested to-day for having received a telegram for the transmission of money to a point of the state to be bet on a horse race. Charles Colbert, who offered the telegram and \$5 in money to be sent, was also arrested.

FIFTEEN KILLED IN MEXICAN RIOT

TROOPS PATROL THE STREETS OF TORREON

Fighting Followed Refusal of Mayor to Permit Easter Ceremony.

El Paso, Texas, April 13.—Troops are patrolling the streets of Torreon, Mexico, to-day according to dispatches received here to prevent a recurrence of the rioting of Saturday and Sunday, when 15 persons were killed.

The trouble began last Saturday when the mayor refused to permit the Easter ceremony known as "burning Judas." The people grew excited because their religious ceremony was to be prevented and rioting followed.

Six policemen, three soldiers and six rioters were killed and a number of persons severely wounded.

FORGOT NAME OF HIS BRIDE-TO-BE

Young Man Suffered Lapse of Memory When Securing Marriage License.

Oakland, Cal., April 13.—Louis Baylard, of Suisun, and his bride-to-be today are awaiting the peal of the wedding bells which an unhappy lapse of memory on the part of the anxious swain was nearly instrumental in postponing to a future date. Yesterday Baylard entered the office of the county clerk and timidly requested a permit to wed. All went well until he was asked to state the name of the future Mrs. Baylard. Immediately there was a halt in the proceedings. The would-be benedict thought and pondered and raked his brain, but the name of the fair one was hopelessly gone.

With the patience born of experience the willing deputy suggested the Christian names applicable to a fair maid that entered his mind, in the hope of furnishing a working basis to the perspiring youth. By happy chance the roving glance of Baylard fell upon a stately Easter lily which stood in a vase upon the desk and he cried with happy content, "That's the name of the girl one was hopelessly gone."

The fact that the surname was missing and could not be found was no hindrance to the determined deputy, and ten minutes later Baylard left the office possessed of a license to wed Miss Lily Irene of Oakland. Plans for the happy event are going on apace.

CASHIER FOUND SHOT THROUGH THE HEART

Mystery Surrounds Death of Employee of Nevada Bank.

Lovelock, Nev., April 13.—Did W. T. O'Connell, assistant cashier of the First National Bank of this city, commit suicide or was he foully dealt with? While the belief is general that he took his own life, the coroner's jury has refused to render a verdict to that effect, preferring to further investigate the case before coming to a conclusion. The jurors cannot be convinced that O'Connell, who was found yesterday with a bullet wound through his heart, fired the shot, although there is no evidence to the contrary.

It is known that the cashier's accounts at the bank are straight.

NEW RATES FOR WATER ON MAY 1

COUNCIL DISCUSSED BY-LAW MONDAY NIGHT

Ald. Fullerton Protests Against Any Profit Being Made Out of Service.

The by-law embodying the new scale of water rates and consolidating the regulations governing the department and the supply of water, hitherto contained in three separate by-laws, came up for consideration by the city council at a special meeting held Monday.

For each dwelling or building containing more than 12 living rooms \$55.50

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 1.70 1.50

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 2.30 2.00

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 2.30 2.00

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 2.30 2.00

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 2.30 2.00

For each dwelling or building containing more than 12 and not exceeding 14 living rooms 2.30 2.00

houses, shall be commenced as residences and stables, green-houses, nurseries and conservatories connected with or appertaining to dwellings and residences shall be charged a rate of 10 per cent. in excess of the rate for such dwellings or residences.

Outside City Limits. For all connections outside the city limits, for every 1,000 gallons—20c. per 1,000 gallons, provided that no monthly meter bill shall be less than \$1.35 exclusive of meter rent.

At the outset City Solicitor Mann submitted a resolution to suspend sections of the by-law so as to take as read the clauses of the by-law which had been copied from the old by-laws without change.

Water Commissioner Raymur replied that the intention was to capitalize it and raise the revenue for extensions.

Should Not Make Profit. Ald. Fullerton urged strongly that the rates should imply cover the necessary cost of maintenance and interest and sinking fund charges, and should not be estimated on the securing of a profit from the operation of the system.

For every blacksmith shop where public blacksmithing is done in respect of the same as a dwelling \$55.50

For every blacksmith shop where public blacksmithing is done in respect of the same as a dwelling \$55.50

For every blacksmith shop where public blacksmithing is done in respect of the same as a dwelling \$55.50

For every blacksmith shop where public blacksmithing is done in respect of the same as a dwelling \$55.50

arranged that such a handle is unnecessary. After considerable discussion, in which several members of the council could not see anything wrong with the section, it was altered.

Ald. Turner also protested against the water commissioner's proposal in regard to turning off water, and insufficient notice of change of hours for sprinkling which led to water being turned off prematurely as a punishment for using water for that purpose in forbidden hours.

Grand Forks Plans Big Celebration Committees Are Preparing Programme of Events for May 24th.

Grand Forks, April 12.—The volunteer fire department of this city will hold their annual celebration this year on the 24th of May, as usual.

When the section imposing a frontage tax on property along which water-mains pass was reached, Ald. Fullerton renewed his protest he has already made in a note, but the rest of the council went in for shortening up the proceedings, Ald. Stewart remarking that as the by-law had already been discussed in committee they should be asked to spend another evening on it.

When put to a vote Ald. Fullerton was the only one to vote against the imposition of the tax.

Before taking up the new scale of rates, Ald. Henderson asked what approximate revenue was expected under it.

Water Commissioner Raymur said it was impossible to say until the first month's returns were in. Anyway, the whole matter has been up in committee and he thought it was all practically settled.

Should Not Make Profit. Ald. Fullerton urged strongly that the rates should imply cover the necessary cost of maintenance and interest and sinking fund charges, and should not be estimated on the securing of a profit from the operation of the system.

For every blacksmith shop where public blacksmithing is done in respect of the same as a dwelling \$55.50

PLAIN TALK ABOUT BY-LAWS

ALD. TURNER OBJECTS TO ABSURD PROVISIONS

A Man's Right to Erect Fences on His Own Property Is Upheld.

Four by-laws were disposed of by the city council at a special meeting held Monday night. In spite of starting promptly on time it was long after 11 before adjournment was reached.

The council had not got far on this before Aldermen Turner and Henderson began to express some candid opinions about the wording of it.

Local Improvements. One of the provisions of the by-law was that where owners on a street not heretofore taken over by the city desire sewers, water or local improvements the council may require the written application and consent of the majority in number of the owners, representing more than one-half the assessed value.

TEST CASE ON CHINESE GAME

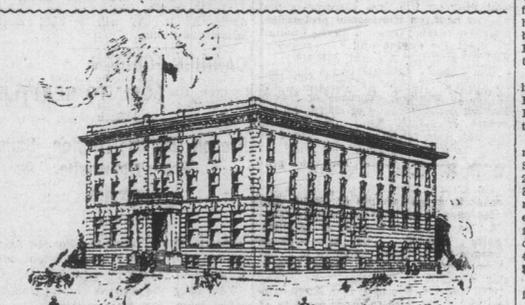

YING FOY COMMITTED FOR TRIAL ON CHARGE

Detectives Give Evidence in First of Sixteen Cases.

The sixteen Chinese gambling cases were commenced this morning in the police court when Ying Foy, of 49 Government street, was charged with selling a lottery ticket to John Collins on April 2nd last.

Witness—Don't know any Chinese by name.

Witness—No; accused told his name here in court.

PROPOSED Y.M.C.A. BUILDING

TURKISH TROOPS ARE IN MUTINY

DEMAND DISMISSAL OF SEVERAL MINISTERS

Mutineers Surround House of Parliament—Reign of Lawlessness.

London, April 13.—The situation in Turkey is so serious to-day that the minister of war has fled and mutinous troops are in possession of his office, according to reports sent out by the Vienna correspondent of the Central News.

The correspondent admitted that the report had not been confirmed, but it was persistent at Vienna, one version being that thousands of soldiers had joined the mutineers.

No bloodshed has been reported from Constantinople, but the Vienna correspondent admits the possibility of there having been fighting, and news of this has been suppressed.

Bloodshed Feared.—Constantinople, April 13.—The house of parliament is surrounded to-day by two battalions of mutinous soldiers who are demanding the dismissal of Hilmi Pasha, the grand vizier, the minister of war and the president of the chamber of deputies.

The situation is regarded as extremely critical as it is feared that more troops will mutiny before night, unless these now surrounding parliament can be pacified.

The Sultan is distracted to-day, being assailed by trouble from every side. The situation in Asiatic Turkey, where the Arabs are in rebellion, is no better and England has threatened to interfere.

Navigation on the Tigris river has been tied up for days because of the action of the Arabs in sitting on the banks and firing at every craft, regardless of the colors she flies.

Failure of the government to pay the troops was used as an excuse for the uprising, but the real cause of the trouble is the long standing enmity of the young Turks, who control parliament, for the Liberals.

The soldiers are demanding that a number of useless officials be dismissed so that the government expenses will not be so great and the troops may be paid off.

The situation has resulted in a reign of lawlessness, the most alarming since the revolution. It is declared that a massacre will follow if the present uprising is successful.

SOLUTION OF WATER QUESTION

OAK BAY HAS NEW PROPOSITION NOW

Ald. McGregor's Scheme Will Receive Attention of Council.

The Oak Bay council is doing its best to work out a water distribution scheme which will meet with the approval of all the people of Oak Bay and will not work a hardship on anyone.

The first plan they had in hand was to do all the work of laying mains on the local improvement plan, the residents served paying for the service. This it was found could not work out equitably as some mains are laid much larger than others and the cost of the large ones should be charged up against the whole district served by such mains.

The second proposal was made to do the work partly under the local improvement plan and partly to be paid out of general revenue. This was found to be illegal according to the will of the solicitors. The next proposal was to do all the work from the general revenue, and by-laws were prepared to give effect to this, the water committee having been practically unanimous that this was the only solution of difficulty.

When the by-law came to be presented to the general meeting of the council however Councillor Pemberton, who had been unable to attend the water committee meetings, made strong objections to the proposal and it was again set over. Then Councillor McGregor got busy and discovered what looks like a feasible scheme whereby all the money to be raised on the credit of the whole municipality and then each street wishing the mains laid shall be charged the average rate of laying such mains which it is thought will be about 45 cents per foot frontage on the property.

By adopting this plan it will not be necessary that a petition from the rate-payers be sent in, but the by-law must be submitted to them for their approval before being finally passed.

The proposition was not dealt with at the meeting of the Bay council Tuesday but a draft by-law has been prepared by Councillor McGregor. It has not yet received the final sanction of the solicitors, although they have expressed general approval that it will be in order. Should it go through it will be necessary to appoint a water commissioner and an annual rate covering the whole expense of raising \$50,000 will be struck and it is estimated will be considerably less than two million dollars.

The water commissioner will be empowered under the by-law to receive petitions and assess properties under the local improvement by-law and all properties facing on streets served whether from a large main or small will be assessed the same amount.

The council think now that they have a scheme which will meet with the favor of everyone, but it has yet to be thrashed out in committee and then passed by the whole council. In order that they may have time to do this the date of the public meeting to discuss the by-law has been set forward from the 19th, to the 26th, the regular meeting of the council on that evening having been postponed.

PORTLAND TERMINAL

Louis V. Hill Reports Settlement With Harriman Interests.

St. Paul, April 13.—Louis V. Hill, president of the Great Northern railway, returned from a visit to-day to the Pacific coast. He said that the last remaining difficulty of operation between the Harriman and Hill interests on the coast have been settled by an agreement between himself and E. H. Harriman, by which the Hill road would secure part ownership in the terminal at Portland, and go on there as a bedfellow with the Harriman interest. Incidentally, he declares that the Harriman-Hill feud, so-called, was remarkable only for its non-existence.

METHODIST PASTORS ARE INDIGNANT

Denounce Practice of Churches Seeking Ministers With Small Families.

San Francisco, Cal., April 13.—Much interest is being shown here to-day as a result of the denunciation on the part of the Methodist ministers of this city of the deplorable position taken by various Methodist churches of the country in endeavoring to secure pastors who are not burdened by numerous offspring.

During the regular weekly meeting of the Methodist clergy of this city yesterday, the question arose, "How many children should a Methodist minister have?" After general discussion, led by Rev. Carl Warner, it was agreed that the position maintained by the majority of congregations regarding the families of ministers was unfair and unsatisfactory.

He claimed that seven good positions were open only to preachers with limited progeny and this has resulted in the regulation of ministers possessing many children to the less desirable churches.

This stand was supported by the majority of the ministers present, several of whom declared unreservedly for the big family.

"God help the child who has neither brother nor sister," one of the ministers said, warmly, and his statement was roundly applauded by the meeting.

FOUL BAY DITCH GIVES TROUBLE

COMPLAINT RAISED AT OAK BAY COUNCIL

Tram Line Must Be Laid at Side of Street Instead of Centre.

Those who have not paid their road tax in the Oak Bay municipality have a few weeks' respite, for the collector has orders not to continue the collections until a new by-law has been passed which will comply with the new municipal clauses act, as revised at the last sitting of the legislature.

The present by-law does not permit of making collections from people who are over fifty years of age, and there are several other defects. At the meeting of the council last night, those present being Reeve Henderson, and Councillors Pemberton, Newton, Noble and McGregor.

There was a rather slim attendance at the council meeting, and the present being Reeve Henderson, and Councillors Pemberton, Newton, Noble and McGregor.

Councillor Noble again brought up the matter of the open ditch on Foul Bay road, which was in a bad condition. There had been negotiations going on between the municipality and the city, lasting for two years, and yet this matter was not settled.

The person had died as the result of the bad smell, and prospective purchasers of property would not close a deal on account of the horrid stench.

The clerk explained that the work could be done by them, and then the provincial government would decide how much each should pay. After much discussion, in which it was stated that one of the residents intended bringing the matter before the provincial health authorities, it was decided that the clerk should again write the city council and draw their attention to the urgency of having a sewer put in at once.

Mrs. Richards was granted permission to make a temporary water connection with her house.

The inspector of boilers wrote saying he had inspected the boiler of the new engine, and asking that the fee of \$5 be forwarded, after which a certificate would be issued. This was ordered to be done.

A petition asking for a sewer on St. Patrick street, from Bay avenue to Saratoga avenue, was ordered to take the usual course.

Councillor Pemberton complained of the bad state of Cadboro Bay road, in the neighborhood of Pinnery road.

Mrs. Richards complained of the action of the tramway company in laying their rails up the centre of the new street, near the exhibition grounds, instead of on the side, and also of their digging up the street and mixing the gravel with the black soil, and leaving everything in such bad condition. He said he did not think the tramway company owned all creation.

The council were unanimous in condemnation of the action of the tramway company, and they will be notified that they must remove their rails from the centre of the street and build the track to one side, and also leave the street in good condition.

DIVIDENDS DECLARED BY GRAND TRUNK

Half Yearly Reports Show Reduction in Working Expenses.

London, April 13.—The half-yearly report of the Grand Trunk railway shows gross receipts of \$2,329,841, against \$2,763,246 for the previous half-year; working expenses, \$2,422,413, against \$2,710,394; net profits, \$909,428, against \$1,952,312, further net revenue credits brought forward, \$1,094,312. The total amount available for dividends is \$443,078. A half-year's dividend is recommended on the 4 per cent guaranteed stock; 5 per cent for the full year, on the first preference, and 2 1/2 per cent on the second preference. \$12,228 is carried forward as the amount at debit for engine and car renewal, and for suspense account, \$544,149.

The Canada Atlantic had a decrease in gross receipts of \$26,485, and a decrease in working expenses of \$54,470, leaving a net revenue of \$19,723, an increase of \$17,985. The net revenue charges were \$63,101, against \$62,106, so there is a net revenue deficiency of \$43,378, against \$61,885 for the previous half-year.

The Grand Trunk Western had a decrease in gross receipts of \$92,713, and a decrease in working expenses of \$114,771, leaving a net profit of \$123,510, against \$104,955. The net revenue charges were \$29,127, so there is a net revenue credit of \$24,323, which is carried forward.

The Detroit, Grand Haven & Milwaukee had a decrease in gross receipts of \$19,868 and a decrease in working expenses of \$17,336. The net revenue charges were \$7,933, leaving a net revenue surplus of \$12,135, against \$15,795 in the previous half-year.

The semi-annual meeting of the Grand Trunk takes place here on April 21st.

LEASE CANNERY

Vancouver, April 13.—The gulf of Georgia cannery, one of the largest on the Fraser river at Steveston, has been leased for the current season by M. Desbrisay & Co., who will immediately have the plant repaired and refitted in readiness for the big run.

The lease carries with it an option to purchase at the close of the season, and it is reported in cannery circles this morning that the sale is practically certain to be carried out.

LAUNDRY WILL DISCONTINUE

END-OF-THE-TANGLE IN MORRISON CASE

Cameron and Colwell Stable Matter Will Be Discussed Next Monday.

The city council has to spend a good deal of its time wrestling with problems of business outside the fire limits, a question which came up in an abstract and a concrete form at Tuesday's meeting. In the latter phase the council had to deal with the Chinese laundry on "Fort" street, and also with the proposed stable on Yates street.

Dr. Richard Morrison, owner of the building at the corner of Fort and Quadra streets, used as a Chinese wash-house, asked for a by-law to enable his tenants to get out.

The mayor said he had a letter from Fred Peters, K. C., on behalf of the tenants, asking for a week's delay. The mayor said he would call on Saturday that they had to move.

A resolution drafted by the city solicitor was read, reciting that the building was a nuisance in the sense of the wash-house by-law, and enjoining the owner to remove it. The clerk had put through a number of good deals for the municipality and had saved them much money.

The clerk when called upon said that five weeks ago he had met one of the representatives of the Dominion Securities company who had asked if they could get a chance to purchase some of the municipal debentures. Being asked how much they would give another representative of the company met him later and made an offer in writing to buy at par. The clerk at once sent a message to the bank and asked them for an offer for the same debentures.

They bid the same amount, but that offer gave the municipality an advantage in the matter of redemption of coupons. After discussing the matter with the Finance committee members it was decided to accept the offer of the bank.

After the debentures had been sold the representative of the securities company was notified and he replied that he thought they had not been used fairly. He then offered to give 101 for the debentures and later made an even higher offer. It was however impossible to accept the higher offer as the debentures had been already sold.

Councillor Noble made an objection to the borrowing of this money before a by-law had been presented to the people, but it was pointed out that the money was not borrowed, only arranged to be borrowed for the borrowing.

TWO BOWLING ALLEYS HAVE CONSOLIDATED

After To-night All Games Will Be Rolled on Elite Floor.

A consolidation of the Elite and Douglas street bowling alleys which has been pending for some time was effected on Tuesday with the formation of the British Columbia Bowling Association, comprising the owners of the two alleys, T. J. W. Hick, E. E. Greenshaw, T. J. Fox and C. C. Matthews.

The bowling will be conducted at 738 Fort street and the Douglas street alleys will be closed since last summer. Improvements are proposed there and a seventh alley is planned to be added to the six in use that were laid when the Elite alleys opened.

The Douglas street alleys will be shut up but the company intend to secure alleys in other cities for the purpose of giving the members of the Victoria Bowling Association and those who play the game opportunities of frequent practice in outside games.

There are some residing outside the city anxious to get back into the game and the company will provide alleys in centres where support is likely to be found.

CARRIES FOREIGN COAL TO SEATTLE

French Barque Buffon Sails From Newcastle, Australia.

Seattle, Wash., April 14.—For the first time in more than a year, foreign coal is bound to Seattle by sailing ships.

Yesterday the French bark Buffon sailed from Newcastle, Australia, with a full cargo for this port. The Frenchman is due here during the latter part of June or early in July. The Buffon is under charter to J. and A. Brown and it is understood that her cargo is consigned to the Pacific Coast company.

Not only is this the first square rigger bringing foreign coal to Seattle in many months, but the Buffon is the first French wind-jammer bound here with merchandise of any kind since last fall. For six months the Buffon carried a cargo of ballast before she secured a charter for the current season.

Another French vessel recently fixed to load for Seattle is the barque Michele, which will receive general cargo at Glasgow. The vessel is under charter to Balfour Guthrie and company. She arrived at the English port last month with wheat from Portland.

OAK BAY'S SALE OF DEBENTURES

SUBJECT DISCUSSED AT COUNCIL MEETING

Clerk of Municipality Explained the Whole Situation.

At the close of the meeting of the Oak Bay council Tuesday Reeve Henderson brought up a matter which he said he thought needed disposing of at once. There were rumors going around that the clerk, F. J. Floyd, had not acted judiciously in the matter of disposing of the debentures of the municipality. He said he thought the clerk should be given an opportunity to explain.

Councillor Pemberton said the clerk had consulted him as chairman of the Finance committee and he had authorized the closing of the offer as he considered to purchase at par was a good offer. When later they were offered one per cent more the offer came too late. He thought the par offer was the best he had received for a long time.

Councillor Newton substantiated what Councillor Pemberton had said. He had heard some talk but he thought what had been said was very foolish. The clerk had put through a number of good deals for the municipality and had saved them much money.

The clerk when called upon said that five weeks ago he had met one of the representatives of the Dominion Securities company who had asked if they could get a chance to purchase some of the municipal debentures. Being asked how much they would give another representative of the company met him later and made an offer in writing to buy at par. The clerk at once sent a message to the bank and asked them for an offer for the same debentures.

They bid the same amount, but that offer gave the municipality an advantage in the matter of redemption of coupons. After discussing the matter with the Finance committee members it was decided to accept the offer of the bank.

After the debentures had been sold the representative of the securities company was notified and he replied that he thought they had not been used fairly. He then offered to give 101 for the debentures and later made an even higher offer. It was however impossible to accept the higher offer as the debentures had been already sold.

Councillor Noble made an objection to the borrowing of this money before a by-law had been presented to the people, but it was pointed out that the money was not borrowed, only arranged to be borrowed for the borrowing.

MAN DROWNED

Gananogue, Ont., April 13.—Three young men of Gananogue, Ontario, were drowned in a boat accident on the Ottawa river.

The boat was carrying a cargo of lumber and was bound for Ottawa. The accident occurred on the night of April 12th.

The three young men were all students at a local school. They were out on a party when the accident occurred.

The bodies of the three young men were recovered from the river on the morning of April 13th.

The cause of the accident is still under investigation. It is believed that the boat was overloaded and that the young men were not properly instructed in the use of the boat.

The local school board has expressed its sympathy for the families of the three young men.

The Ottawa police department is conducting an investigation into the accident.

The bodies of the three young men were buried in a local cemetery on the morning of April 14th.

The local school board has decided to hold a memorial service for the three young men on the morning of April 15th.

The Ottawa police department has issued a report on the accident.

The report states that the boat was overloaded and that the young men were not properly instructed in the use of the boat.

The local school board has expressed its sympathy for the families of the three young men.

The Ottawa police department is conducting an investigation into the accident.

The bodies of the three young men were recovered from the river on the morning of April 13th.

SUNDAY CLOSING OF ALL STORES

DEPUTATION URGES ACTION BY COUNCIL

Mayor Quotes Opinion of Legal Advisers That City Has No Power to Act.

The closing of all places of business on Sunday was urged by a deputation which waited upon the city council on Tuesday before the regular business began. Upon the vote of the citizens in January, asking for the closing of all stores, the deputation based its request. On that occasion, in reply to the referendum question, "Should Sunday closing of all stores be enforced throughout the city?" 2,543 citizens voted, 1,138 in favor, 1,000 against and 255 ballots being spoiled.

In the deputation were represented the local branch of the Young Men's Day Alliance, the W. C. T. U. and the Adult Bible classes of the various churches. Those present were: Noah Shakespeare, Rev. W. M. Rochester, western secretary of the Young Men's Day Alliance, Rev. C. Burnett, Rev. A. E. Roberts, George Carter, W. H. Parsons, Alex. Menagh, A. Whitehead, J. C. McCallum, Mrs. Field, W. C. T. U.; Mrs. Parsons, Mrs. McKeown, Mrs. Jennings.

Noah Shakespeare was the spokesman of the deputation, and told the council that they represented a strong and growing feeling among the people of Victoria, in common with the rest of the Dominion, that the Sabbath should be properly observed and the laws to that end enforced. At the municipal elections the people had instructed the council to enact a by-law closing the places which still remained open on Sunday, and they were asking why this had not been done.

W. H. Parsons presented a resolution adopted by the young men's Bible class of Centennial Methodist church, urging upon the council the necessity of closing all stores on Sunday and asking why this had not been done. Mr. Parsons said that during the tourist season, when thousands of people visited the city a large number of places were left open by the city council. The deputation was only asking what the council had power to pass.

Mayor Hall, replying to the deputation, said the city solicitor thought the referendum went further than the council had any power to pass a by-law. City Barrister Taylor had been asked for his opinion and on April 8th gave it, to the effect that the legislation asked for was not within the power of the city nor of the province. The Dominion had by statute which was in force, though not enforceable without the consent of the attorney-general of the province, prohibited the Sunday closing. This opinion merely confirmed what had always been the advice given the council. His worship referred to the cases of the Hamilton Electric Railway Company and the Vancouver barbers' case, where municipal Sunday regulations were held to be ultra vires. He assured the deputation that the council was quite alive to the question and that if it had the power a by-law would have been passed long ago.

Mr. Shakespeare recalled former occasions when city councils had gone against legal opinions and won out and urged that the present council pass a by-law, even if it lost. Lawyers and judges differed and it was worth while testing a by-law.

"I for one would not be governed by what any city solicitor said," declared the postmaster.

Mr. McCallum said he had seen a letter in which the city solicitor expressed a different opinion to that quoted by the mayor.

Rev. C. Burnett commented on conditions here, of which he said he was ashamed. Visitors wondered why the Sabbath was not observed here as in other provinces of the Dominion. While the council had other work besides that of moral reform it should heed to the requests of an influential section of the community.

Rev. W. M. Rochester contended that the council had power to do what was asked. Both province and city might accomplish much towards the desired end by indirect laws.

Mayor Hall said he would like to see the law brought into force in the province and he suggested that the deputation might see the powers that be in regard to that.

Mr. McCallum suggested that licensed businesses get a six-day license, which would effect the end in their case.

Ald. Raymond, chairman of the health and morals committee, said the deputation could rest assured that the council had done everything possible. It was very much opposed to passing by-laws just to have them declared void, and the advice of the civic law department was that that would be the result in this case.

"Well, we leave with the assurance you will do something and that personally you are in favor of enforcing the law," said Mr. Shakespeare, and the deputation withdrew.

RECEIVES APOLOGY

Washington, D. C., April 13.—The peacock feathers of Chinese Minister Wu are lifted from the dust to-day and the bright button of his official position is freed from suspicion of tarnish through the receipt of a letter of apology from the governor of Pennsylvania to Secretary of State Knox.

A misunderstanding which threatened to become an international complication arose through the arrest of two Chinese merchants in Pittsburgh.

It was alleged that Minister Wu interfered with the course of justice by threatening with deportation any Chinese who appeared as witnesses against the merchants. Wu laid the case before Knox, who found that the charge against Wu was unfounded. The minister then suggested that a written apology be sent to him to place him in good grace with the imperial court, and this was done.

NEED \$50,000 FOR NEW SEWERS

LOAN BYLAW WILL BE PUT BEFORE PEOPLE

Beacon Hill Park—Military Training—Lighting the Causeway.

Owing to the amount of other business before it the city council did not get down to the estimates Tuesday. Mayor Hall intimated that when they come up he will propose that the council take up the matter of permanent improvement of main thoroughfares and make up their minds whether to make it a loan for the purpose or have it done on the local improvement system. The work could not be done out of revenue, but it could be done if there was more traffic on the main streets outside the fire limits than there was on many of the side streets inside.

Ald. Turner suggested that the matter be taken up on Friday night. He said he had a quiet time with the idea and believed in getting it at once.

The council decided to put through a by-law for a \$50,000 additional loan for sewer purposes, to be submitted to the voters in several paving by-laws now pending.

Military Training.—Mayor Hall's proposal to set aside \$500 towards an endowment fund to send young citizens to the Royal Military college did not come up for settlement, but was touched on.

A petition against it from several citizens was received.

Mayor Hall remarked that the amount was not a large one—it would not do much street work—while the value of the money was something like \$500,000. Even though the Dominion dealt with finance in general the cities had a duty to perform as well.

Ald. McKeown thought it would be better for the Dominion government to take up the matter and appropriate the number of students from each province.

Ald. Bishop favored spending the money in aiding the cadet corps which was a recruiting ground for the militia.

Mayor Hall suggested that an endowment like this would be assisting the cadet corps in utilizing the boys something to work for.

This matter took a utilitarian point of view. The theory was all right, but at present, when there was not half enough money for street work, the money could not afford to spend any money in this way.

Local Improvement Work.—Ald. Fullerton voiced the feeling of some old residents, who thought that four-fifths of the cost of local improvements was pretty heavy on them.

Ald. Fullerton said they had for years been paying for the cost of keeping up the streets in the centre of the town and now that it came to doing work on their own streets, they thought they should get more help from the general fund.

Ald. Henderson agreed that as to the main outlets for traffic the city should contribute more. Douglas and Government streets and the roads to the outer wharf were largely used by the public generally as were Port street and Cadboro Bay road. It was unfair to ask people to pay as large a share of the cost of work on these as on outlying streets where few were benefited.

There was a danger that owners would not consent to street improvements unless the arrangement was made more elastic.

Ald. Turner agreed with his colleague.

In the end a rider was attached to the arrangement as to proportions made by the streets committee last week, that this should not prevent the city paying a larger proportion than one-fifth of the cost of local improvements outside the fire limits.

On the report of the finance committee on a request from the Colonist Printing & Publishing Co. that it and the Post get two-thirds of the city advertising the council resolved that the club get it for two months and the Colonist for five months and the Post for two months.

It was decided to call for tenders for the erection of the high pressure pumping station.

Rev. Toms offered to advance the sum of \$3,650 to the city, without interest, as the city cannot allow it, for the purpose of putting sewers on Cowan avenue.

Beacon Hill Park.—Hon. J. S. Helmecken forwarded a request for the removal of the use of a corner of Beacon Hill park, near Cook street, as a bowling green. He said he noticed that portion of the park had been denuded of its turf and used as an embankment around the green. He foresaw future trouble if the council allowed this to go on.

Ald. Raymond told the council it should consider this matter. If a bowling club got it for two months and a tennis club come along and get the same, until the park was all occupied by them?

The matter was referred to the parks board.

Edw. J. & Sons wrote in reference to the improvement of the lighting of the causeway, to draw attention to the Sunray Flaming Act lamp, two of which they had had in front of their store. These are of 2,000 B. burn 20 through the receipt of a letter of apology from the governor of Pennsylvania to Secretary of State Knox.

TRANSFORMATION IN EMPRESS GROUNDS

E. A. Wallace is Working Out Elaborate Scheme at Hotel.

Few people have any idea of the extent of the garden which is being made around the Empress hotel.

The quarry at the north end of the grounds looked a hopeless place for the gardener to touch, but it yielded before the magic touch of the landscape and rock gardener.

At the south end, the part that was planted last year, the best effects will be seen this year.

At the rear of the hotel to the north are the tennis and croquet lawns just being prepared for sowing.

BUSY OLD HEN CAME TO A TRAGIC END

Young Lady's Garden Was Not to Be Spoiled by Intruder.

This is the true and most tragical history of an unwise old hen who had no regard for the property of others.

A wily old hen who lives not far away was looking for pastures new a day or two later.

There was a wild scene in that garden when the thief was discovered.

There was no satisfaction in this for the lady, however.

There is a spot to-day where it will be impossible to try to tell all the features of this wonderful garden, nothing but a visit can fully convey an adequate idea of its scope.

THE CONFESSIONS OF A CONFIDENCE MAN

Remarkable Series of Articles Describing the Inside of a "Popularity" Contest--How the Public is Worked.

The Times has bought the exclusive rights for Victoria of a series of remarkable articles entitled "The Confessions of a Confidence Man."

This is the first time that the "inside" has been given to the public. The writer will describe all the different devices employed by his class to get the public to work for their benefit.

The contest graft is dead now. All the old operators of any consequence have quit the game.

But I promised to tell you the inside of the "contest" graft. I don't suppose it will harm any of the old boys, since they are out of the game.

The next step was securing "prizes." Some interesting stories might be told of the methods of arranging for expensive automobiles, pianos, town lots and other valuable things to be "given" to the candidates.

While the "prizes" were being arranged for, we began the publication of a series of advertisements, which we used in every town.

Sometimes we would have the good luck to get some names entered in response to these advertisements. The names secured in this way seldom turned out to be live ones, but we did not expect them to be.

Very few of the victims responded even to this second move, but this, also, was anticipated. This was only the second degree in the operation of "hooking" them, and its largest value was in the effect it had from an advertising standpoint.

Following the letter, we appointed the victims personally. Sometimes a man, sometimes a woman of the crew (we had both) would be successful in persuading the candidate to "go through."

At this point the contest is considered "planted." The candidates are innocently enthusiastic, their eyes are shining, and they are carefully arranged, each candidate given the number of votes calculated to give them the standing in that one whom we had expected to be a good producer, lacked persistence.

REMODELLING FURNACES AT GRANBY SMELTER

Two Have Been Completed and Are Giving Excellent Satisfaction.

Phoenix, April 13.—A. B. W. Hodges, general superintendent of the Granby company, was in town last week on one of his periodical visits to the mines.

At the smelter the remodeling and enlarging of the second furnace was completed, and work on No. 3 and 4 commenced.

While the tonnage treated at the smelter is largely Granby ore, which is self-fluxing, the smelter has been receiving shipments from a number of small properties.

### FASHIONABLE WEDDING TO-DAY

#### MR. CURTIS SAMPSON AND MISS PEMBERTON WED

#### Popular Victorians Receive Congratulations of Many Friends.

(From Wednesday's Daily.)  
A fashionable wedding was solemnized at 2:30 this afternoon at Christ church cathedral, when Harriet S. Pemberton, daughter of the late J. D. Pemberton, surveyor general of B. C., and Mrs. J. D. Pemberton, of "Gonzales," was united in marriage with Mr. William Curtis Sampson, Langley street, His Lordship Bishop Perrin officiated, and the choir rendering a full choral service. The cathedral was beautifully decorated for the occasion with daffodils and Easter lilies.

The bride, who was given away by her brother, J. H. Pemberton, was very richly and becomingly gowned in cream liberty stain, having yoke and sleeves of silk embroidered net, and panelled front of heavy silk applique on train. She wore a diamond and emerald necklace, and a pearl and emerald necklace, the gift of the groom; and carried a sheath of Easter lilies tied with white satin streamers. She was preceded by her bridesmaids, the Misses Armine Philips, and Mat Pemberton, Miss Angela Beauland, Miss Helen Loundy and Miss Yoder Pemberton, all of whom wore purest green sprigged muslin, with green sashes, and white mob caps trimmed with green ribbon, and carried green baskets of daffodils. Master Francis Pemberton in a quaint Greenway dress of green sprigged muslin, with green sashes, and white mob caps trimmed with green ribbon, and carried green baskets of daffodils. Master Francis Pemberton in a quaint Greenway dress of green sprigged muslin, with green sashes, and white mob caps trimmed with green ribbon, and carried green baskets of daffodils.

Immediately after the ceremony a reception was held at "Gonzales." The reception hall was banked by daffodils and ferns; in the drawing room pink carnations and pink silk scarves, wild lilies and maiden hair, and in the dining-room, where luncheon was served, the table was artistically decorated with lilies of the valley, bridal roses and ferns, while large true lovers' knots of white mull, intertwined with strands of smilax, ornamented the corners, and the drawing room took their places below an arch of smilax and white roses surmounted by a large true lover's knot.

The bride's going away suit consisted of a very handsome pale blue brocade coat, with cloth skirt to match and straw hat the same shade draped with maline and satin. The honeymoon will be spent in the country.

Among the presents were the following: Mr. and Mrs. Jacob, silver calendar; Mr. and Mrs. Cuppige, silver bon bon dish; Mrs. Powell, two silver bon bon dishes; Mrs. Dods, note book; Mr. and Mrs. Combe, silver mounted bon bon dish; Mr. and Mrs. Shalross, silver tea caddy; Mrs. Jennings, Satsuma bowl; C. McCarthy, green pottery vase;

International Delegate Morgan Addresses Gathering at Fernie.

Fernie, B. C., April 15.—The United Mine Workers' convention re-opened this morning, with the following present: President F. H. Sherman, Vice-president Robt. Evans, Secretary-treasurer Carter, board members Whitehouse and Dunlop, Honor Jaxson was admitted as a representative of the farmers of Saskatchewan; W. Fisher, Bankhead, G. Stubbs, Bellevue, H. Fox, Cannore, W. Graham, Coleman; T. A. Davison, Fernie; T. Briggs, Fernie; W. Wrigley, Frank; J. O. Jones, Hillcrest; T. Chambers, Hoanem; J. Larson, Lathbridge; F. E. Gistler, Lillie; C. Garner, F. Francis, Michel; J. C. Coghill, Maple Leaf; W. White, Royal Collieries, Lethbridge; Hopkins Evans, Taber; D. L. Miller, Fernie; S. Dunn, Pasburg; W. R. Lane, Corbin.

After the delegate had been called to order the following resolution was submitted to the delegates and received their hearty endorsement: "Resolved, That the district officers was the only one that could be taken to protect the interests of the mine workers of this district, be it therefore resolved that we endorse such action as has been taken, and that the full situation be placed before President Lewis, showing that not only have the operators broken faith with the officers of district 18, but have also wrongly stated their own position to President Lewis for the purpose of discrediting the organization."

The resolution seemed to meet the views of all present. No alterations or amendments were suggested, and it may be taken to embody the sentiments of all the delegates. International board member Morgan was present, and in view of startling rumors that have been circulated by the press in the district, to the effect that he was there to sign up agreement over the heads of District 18, and that President Lewis was behind him in whatever he did, there was uneasiness in some quarters as to the ultimate outcome of his mission. During the discussion this morning following President Sherman's report yesterday, and the resolution passed this morning, Mr. Morgan was given hearing. Mr. Morgan reviewed briefly the manner in which he had been sent to Fernie for the second time and also touched on the situation as it appeared to him. In plain language Mr. Morgan pointed out that he was here not to dictate to District 18, but to ascertain the real state of affairs. He stated that he had no intention of signing any agreement that was not satisfactory to the officials of District 18, and further, that he was willing at all times to be of any service to them in their struggle.

Mr. Morgan was given a first-class hearing by the delegates, who thus are assured of a square deal from the international.

This afternoon the miners are endeavoring to outline a policy which will be rigidly adhered to in the present struggle. The best of feeling prevails among the delegates. The duration of the strike is apparently a secondary matter to them.

The C.P.R. claim to have all the coal they need, but investigation into some of their centres does not bear this out.

### ENDORSES ACTION OF OFFICIALS

#### CONVENTION OF MINERS PASSES RESOLUTION

#### International Delegate Morgan Addresses Gathering at Fernie.

Fernie, B. C., April 15.—The United Mine Workers' convention re-opened this morning, with the following present: President F. H. Sherman, Vice-president Robt. Evans, Secretary-treasurer Carter, board members Whitehouse and Dunlop, Honor Jaxson was admitted as a representative of the farmers of Saskatchewan; W. Fisher, Bankhead, G. Stubbs, Bellevue, H. Fox, Cannore, W. Graham, Coleman; T. A. Davison, Fernie; T. Briggs, Fernie; W. Wrigley, Frank; J. O. Jones, Hillcrest; T. Chambers, Hoanem; J. Larson, Lathbridge; F. E. Gistler, Lillie; C. Garner, F. Francis, Michel; J. C. Coghill, Maple Leaf; W. White, Royal Collieries, Lethbridge; Hopkins Evans, Taber; D. L. Miller, Fernie; S. Dunn, Pasburg; W. R. Lane, Corbin.

After the delegate had been called to order the following resolution was submitted to the delegates and received their hearty endorsement: "Resolved, That the district officers was the only one that could be taken to protect the interests of the mine workers of this district, be it therefore resolved that we endorse such action as has been taken, and that the full situation be placed before President Lewis, showing that not only have the operators broken faith with the officers of district 18, but have also wrongly stated their own position to President Lewis for the purpose of discrediting the organization."

The resolution seemed to meet the views of all present. No alterations or amendments were suggested, and it may be taken to embody the sentiments of all the delegates. International board member Morgan was present, and in view of startling rumors that have been circulated by the press in the district, to the effect that he was there to sign up agreement over the heads of District 18, and that President Lewis was behind him in whatever he did, there was uneasiness in some quarters as to the ultimate outcome of his mission. During the discussion this morning following President Sherman's report yesterday, and the resolution passed this morning, Mr. Morgan was given hearing. Mr. Morgan reviewed briefly the manner in which he had been sent to Fernie for the second time and also touched on the situation as it appeared to him. In plain language Mr. Morgan pointed out that he was here not to dictate to District 18, but to ascertain the real state of affairs. He stated that he had no intention of signing any agreement that was not satisfactory to the officials of District 18, and further, that he was willing at all times to be of any service to them in their struggle.

Mr. Morgan was given a first-class hearing by the delegates, who thus are assured of a square deal from the international.

This afternoon the miners are endeavoring to outline a policy which will be rigidly adhered to in the present struggle. The best of feeling prevails among the delegates. The duration of the strike is apparently a secondary matter to them.

The C.P.R. claim to have all the coal they need, but investigation into some of their centres does not bear this out.

### SUNLIGHT SOAP

A BASKET FULL of clean, sweet-smelling linen is obtained with half the toil and half the time if Sunlight Soap is used. Sunlight shortens the day's work, but lengthens the life of your clothes. Follow directions.

### PREPARATIONS FOR EDUCATIONAL CONVENTION

#### Teachers From All Parts of Dominion to Gather in Victoria.

Great preparations are being made for the visit of the Dominion Educational Association to this city in July next. A school exhibit is being arranged in which the cities of Victoria and Vancouver will take part, the Assembly hall having been taken for the purposes of displaying the exhibit and also for the general meeting of the association. The exhibit is in charge of H. Dunnell of this city, superintendent of the manual training for the province, and it is understood will be made up largely of drawing, both brush and pencil, map drawing, nature work, and manual training. Examples of penmanship will not find a place there as it is the intention to leave the old beaten track. The work in preparation for this exhibit has been going on throughout the spring and will be continued to the end of the session. While there will probably be nothing very startling in the work produced it is expected that the drawing which locally is in charge of Miss Mils will show that the pupils have made great progress within the last year or two.

Preparations are being made to receive 1,000 teachers from different parts of Canada, half of whom will probably be from the province, as there are 850 teachers in the public schools of the province aside from the numerous private school teachers, all of whom will take part in the convention. In order to cope with the large number of people who will be here in the very heart of the busy season an information bureau is being established in charge of David Wilson, superintendent of free textbook distribution, who will prepare a list of suitable hotels and boarding houses and will arrange to give the visitors the fullest information as to what to see and where to go. There has also been talk of chartering a steamer for an afternoon's cruise but nothing definite has been decided upon as yet. There will be other steps taken to suitably entertain the visitors, but the committee in charge are not in a position to make an announcement as the plans are only in embryo.

As before stated, the general meetings will be held in the Assembly hall, that being the largest hall in the city, where it is thought it will be possible to seat one thousand people. The higher education department will meet at the Victoria college and the South Park school, and the Pemberton gymnasium of the Central school will also be utilized.

The fact that the papers to be read before the association by some of the most distinguished educationists in the country, both from the schools and the universities, makes it certain that every teacher who takes any pride in his profession will attend even though the convention be held during the holiday season. Victoria will welcome the members of the convention, realizing that it is a great honor for this city to be chosen as the meeting place.

### MRS. R. S. DAY TO REPRESENT DOMINION

#### Local Lady is Delegate to International Council of Women.

News has just been received from Toronto that Mrs. R. S. Day of this city has been elected by the National Council of Women of Canada one of the nine delegates to represent the Dominion at the coming quinquennial meeting of the International Council, which is to be held in Toronto in June. The following is the list of delegates in the order of election: Mrs. Edwards, Lady Taylor, Mrs. Day, Mrs. Thomson, Mrs. Boomer, Miss Derick, Mrs. Torrington, Mrs. McEwen and Mrs. Dennis.

### NEW JUDGE IN MANITOBA

Winnipeg, April 14.—Judge Cameron succeeds Judge Phippen in the court of appeals. Hugh Robson, of Atkins & Robson, goes to the King's bench in Judge Cameron's place.

### WILL BUILD NEW PAVILION.

Winnipeg, April 14.—The contract was let to-day for the horse show pavilion, to cost \$50,000.

Captain Crawford has kindly consented to loan the flag of the Shearwater for the Native Sons' ball, to be given at the Empress on Friday evening, the 16th inst. The effect of the flag against the already beautiful background of the Empress rotunda and palm room will form a very brilliant scene.

### MILITANT WOMEN GAIN VICTORY

#### STOP CONSTRUCTION OF TUBERCULOSIS CAMP

#### Armed With Brooms and Mopsticks They Drive Men From Site.

Seattle, Wash., April 14.—The attempt to start construction on the proposed tuberculosis camp in the fashionable Queen Anne Hill district has resulted in failure, owing to the opposition of women in the neighborhood, who turned out yesterday afternoon to the number of forty or fifty and drove the lumber wagons of the field and the foreman in charge of the work into the nearby brush.

When the vanguard of the lumber caravan reached the proposed site, the gathering of the clans from neighboring residences began. Armed with broom sticks and sundry fearful and wonderful offensive and defensive weapons, the mob of angry women surrounded the wagon driver and demanded that he unload his lumber elsewhere. The driver expostulated. He could not help it, he said. Offensive taunting of several brooms in his face served to change his mind, however, and he drove away.

When the man with the blue prints arrived to select the site, he was beset with such suddenness and earnestness by the militant females that he was glad to make his escape without tarrying to argue the question. It is contended by those who live near the proposed camp that the location of a tuberculosis retreat will depreciate the value of their property and make the neighborhood undesirable. At a meeting of the residents of the district, held last night, legal counsel was engaged and it was resolved to fight the establishment of the sanitarium through the courts.

Work Stopped By Police. Undaunted by the demonstration against the project to quarter victims of the white plague on Queen Anne Hill, the anti-tuberculosis league leaders put men to work on the tract selected for the colony early this morning.

Indignation meetings were held by the women of the neighborhood on back door steps and for a time it looked as though there would be a riot, such as would put a suffragette demonstration in London to shame. Then it was learned that carpenters at work had no city permit and an inspector with a number of police officers soon appeared on the scene and stopped the erection of tents for the consumptives.

The women then ordered their attorney, Judge Milo Root, to prepare papers of character to restrain the league from establishing the colony.

### ATTEMPTED SUICIDE FROM STEAMER QUEEN

#### Woman Jumped Overboard When Vessel Was at Dock Wednesday.

There was great excitement Wednesday morning at the outer dock when a woman from the steamer Queen, while in port on its way to San Francisco, jumped overboard and was hauled out by the deck hands. So far as can be gathered it was a case of attempted suicide. The woman whose name was given as Mrs. O'Brien, took passage to San Francisco from Port Townsend. On the way across the straits she acted very queerly, walking up and down the deck and muttering to herself. After retiring she again came on deck parading up and down clad only in her nightgown.

After the vessel had been a short time at dock the woman was seen to come from her cabin in a half-clad condition and leap over the side of the steamer from the forward deck on the opposite side from the dock. The alarm was given at once and the freight port opened. This happened to be just opposite where the woman was in the water, and she was easily pulled in with a boat hook. She was at once put to bed and hot water bottles applied, both the ship doctor and Dr. Billing, of the immigration department, attending her. When the steamer pulled out she had revived and was in a fair way towards recovery, but showing a tendency to be hysterical.

### THREE KILLED IN SNOWSLIDE

Valdez, April 13.—The steamship Ohio, sailing yesterday, carries the body of James M. Montgomery, who was killed in a snowslide at the Bonanza mine April 6th. The slide occurred while a party of seven were digging a horse trail from Kennecott flats up the mountain side. The entire crew were carried a quarter of a mile and three were killed. The dead are Montgomery, John Williams, of Seattle, and James Gray. The bodies were recovered eleven hours after the accident and were sledged over the trail, a distance of 165 miles, in five days, to catch the Ohio. Williams leaves a wife and daughter in Seattle. Gray was a mining engineer of Liverpool, England.

### INVESTIGATING QUESTION OF TRANSPORTATION

#### U. S. Congressman Seeks Information on Conditions in Panama.

Washington, D. C., April 14.—Congressman McLachlan, of California, left to-day for Panama, where he will make an extensive investigation of the whole transportation situation. Information gained on the trip will be used in furthering the passage of his bill providing for the establishment of a government steamship line on the Pacific coast. The complaint is made that the Pacific Mail Steamship company is simply occupying the field and is making no effort whatever to facilitate freight transportation on the Isthmus. Said the congressman before departing to-day. Spain is also alleged that the Panama railroad raised its rates so that it is impossible to really compete with the trans-continental roads. I will find out about the situation for myself so as to be able to present the facts at the next regular session of congress.
