are the simplest, most durable, least liable to get out of order, and most easily worked of any; and that his FAMILY SINGER will do a greater variety of work than any other Machine. The universal adaptation, un-equaled beauty and simplicity, perfection of material and style of finish, recommend his several varieties of

SEWING MACHINES as the best, while their low price places them within the reach of all.

SCAMMELL BROS., aug 27-tf 5 and 6 SMYTH STREET. Potato Diggers.

From the Swiss Times of May 20th.]

We have already drawn attention to the annual meeting of the Society of Arts held on the 23rd current, under the presidentship of M. Th. de Sansarre, and are now able to furnish some further details.

Professor Soret, in delivering a meet interesting report, passed in review the operations of the Industrial section, in reference to Commerce, laying great stress upon the competition that has taken place in the meanifacture of with the object of testing the workmanship and precision of chronometers. This competition was institute of with the object of testing the workmanship and precision of chronometers turned out by Genevass manufacturers, and none but those adopted for pooket use were admitted. They were deposited in charge of the authorities at the Observatory, and underwent the most searching ordeal possible to be applied to pocket instruments of this class. The jury specially retained to decide the difficult question as to whom to award the palm of excellency unanimously decided in favor of Messrs, J. M. Badollet & Co. This firm having carried off the sole prize by exhibiting a chronometer which fulfilled in the highest degree every condition required, crowned their first success by gaining honorable mention for two other chronometers. The allusion to this triple honor was received with enturies after the plant of the Fine Arts Section, closed the meeting with a happy and humorous dissertation upon subjects connected with this department. can stand aside with thanks, while we Livingstone and published in the Herald to-day, are in exactly the same hand. writing as the facsimile republished to-day in the Herald, and that hence they bear just as much similarity to the letter written by Stanley to Noe in 1866-7. It is not probable that Stanley forged Livingstone letters from Zanzibar in 1866, when he was in the United States. It will be observed that in these letters occur many ex pressions and constructions of sentences peculiar to Dr. Livingstone, and which readily identify them as being one of the great explorer. Hence it is clear that the letters must be more like Dr. Livingstone's own handwriting than they are like the bardwriting of Stanley in 1867 and 1868, and the wonderful discovery of the simil arity between the letters of Livingstone and Stanley falls to the ground.

It is unnecessary to allude to the fact that, to successfully commit the fraud suspected by those unwilling to believe, Mr. supplies evidence that ought to satisfy Stapley must not only have been gifted any reasonable person of the gross in- with wonderful skill as a forger, but must blunder of taking back to Zanzibar attendants who had been in his train thoughout his expedition; of carrying with him to England a bright, sharp boy, who might at any time expose his deception : corresponded with him from Zanzibar. and of despatching from Zanzibar a relief party to join Livingstone, who, if they failed to find him at the appointed spot or to receive satisfactory information of his ovements would soon return to the island generous, and convincing defence of its and make known the deception. Gentle men of the jury, this is our case, and we claim a verdict in our favor.
