## SIR T. CURRIE DISAPPOINTED WITH COUNTRY LOAN RESULTS; URGES PEOPLE OF DOMINION TO DRIVE FOR 300 MILLION

Detroit, Mich., Nov. 23.—It was announced here today that Henry Ford had subscribed for \$500,000 worth of Canada Victory Bonds.

Ottawa, Nov. 23.—Sir Thomas Currie, minister of finance, who has been engaged all this week with meetings in his constituency of Leeds, has telephoned the following message respecting the Victory Loan:

"While greatly gratified at the widespread patriotic interest which has been manifested in the Victory Loan throughout the entire Dominion, I am disappointed at the small subscription today, which has not equalled our expectations, and is not as large as it should be having regard to the urgent national importance of the loan. There are more subscribers than at the same period of previous loans, but the individual average is comparatively small."

## WAR MINISTER CABLES CONGRATULATIONS TO SIR JULIAN BYNG OVER FINE TRIUMPH

Mewburn Sends a Message Praising Feat—Canadian Cities Celebrate.

Ottawa, Nov. 23.—Major-General Mewburn, minister of militia, has addressed the following cablegram to Lieut.-General Sir Julian Byng, congratulating him on the success which has attended the advance of the army under his command:

"On behalf of the Canadian militia and the forces now training in Canada for services overseas, I heartily congratulate you and express unbounded admiration for the gallant behavior of the soldiers of the mother country and we rejoice in the thought that they were led to victory by a former commander of the Canadian Army Corps."

## LENINE ORDERS FORCES REDUCED

Petrograd, Nov. 23.—A reduction of the Russian army, beginning with the class conscripted in 1919, has been proclaimed by the Bolshevik leader, M. Lenin, in an official announcement today states. The order is to take effect immediately.

On behalf of the Canadian militia and the forces now training in Canada for services overseas, I heartily congratulate you and express unbounded admiration for the gallant behavior of the soldiers of the mother country and we rejoice in the thought that they were led to victory by a former commander of the Canadian Army Corps."

## BOLSHEVIKS SEND DELEGATION TO MEET GERMAN SOCIALISTS

Armistice and Peace To Be Discussed at Stockholm Talk.

Stockholm, Nov. 23.—The Bolshevik Government, according to a report from Haparanda, has sent representatives to meet German Socialist delegates, probably at Stockholm, to arrange an armistice and negotiate peace. It is understood that the delegates from both sides will hide their identity.

## GENERAL CURRIE MAY RETURN TO DOMINION ON 6 MONTHS' FURLOUGH

Ottawa, Nov. 23.—The militia department is not in a position to confirm or deny the report that Gen. Sir Arthur Currie, commanding the Canadian Army Corps in France, has expressed a desire that he may return to Canada on furlough. A high official of the department stated today that the matter was not one over which the militia authorities here had jurisdiction. Gen. Currie is in command of an army corps, and it was explained, would have to make any application for leave to the British officer in charge of the army of which his corps is a part. If leave was granted he would probably report to the Canadian overseas minister of militia, in London, before sailing for home. In all probability he would be on the ocean for some days before a definite report of his coming was given out.

## TROTSKY WILL PUBLISH DIPLOMATIC DOCUMENTS

London, Nov. 23.—Leon Trotsky, the Russian revolutionary leader, has announced that the Russian secret diplomatic correspondence in his possession and will be published immediately.

It is reported, the dispatch adds, that the revolutionary committee at Moscow has selected the branch state bank there. It is said that 100,000,000 rubles, recently were transferred there from Petrograd.

## ITALIANS FOIL CROCHING SWEEP OF THE ENEMY AND LINE HOLDS

Great Attempt of the Kaiser's Hordes to Trap Italian Armies Fails.

Rome, Nov. 23.—Throughout yesterday the Teutons attacked the Italian position between the Brenta and Piave Rivers. Several positions were lost more than once, the state-ment adds, but all were retaken.

Towards evening the last Italian counter-attack definitely stopped the Austro-Germans.

## HEAVY FIGHTING ITALIANS HOLD POSITION

Italy, Thursday, Nov. 23.—By the Associated Press—Heavy fighting continued on the northern line, centring along the low mountains above Monte Grappa. These successive mountainous attacks by the enemy, which would be a really formidable obstacle should the lower ranges be taken.

## POLICEMEN GET EXEMPTION, BUT FIREMEN REFUSED

Members of Police Force Allowed to Continue Civilian Work by Tribunal.

Fire-Fighter Must Go Different Stand Taken by the Heads of City Services Reflected in Exemptions.

## ALL CEREAL FOOD MEN HAVE NOT REPLIED TO THE CONTROLLER'S QUESTIONS

Ottawa, Nov. 23.—Many manufacturers of cereal food have not replied to the questions asked by the special committee appointed by the food controller to make recommendations as to the conditions upon which licenses should be issued for the manufacture and sale of cereals put up in packages of less than 20 pounds weight.

## VATICAN NOT NEUTRAL, SAYS LONDON POST

London, Nov. 23.—The Vatican is accused in an editorial in the London Post of being implicated in the propaganda which the newspaper says was largely responsible for the recent Italian reverses. Reviewing what it describes as "the Vatican's policy of neutrality," the Post declares that its political activities during the war "can by no means be regarded as consistent with the principles of neutrality."

## IRON GIANTS PAVED PATH FOR TOMMIES INTO GERMAN LINES

British Army Headquarters in France, Thursday, Nov. 23.—(By the Associated Press).—The impression which existed in the minds of many soldiers that the British tanks were freaks of little value as instruments of war, is being wiped out on account of the achievements of the great army of these mighty engines which on Tuesday morning broke through the main Hindenburg line and carried the war miles into enemy territory. The work which the tanks did on that first day, and have been doing ever since, is one of the most striking features of the war. It cannot be said they are alone responsible for the great victory won by the British for infantry, artillery and cavalry have played their part. Nevertheless, the tanks drove the entering wedge, without which the triumph would have been impossible.

## MINOR FIGHTING HAS TAKEN PLACE AT VARIOUS POINTS.

London, Nov. 23.—Another general strike has been declared in Finland, according to a Reuters dispatch at Helsinki Wednesday and sent via Helsingborg. It is blocking all civil functions and is called to compel the substitution of the Diet dissolved in July, which had a Socialist majority, for the existing Diet, where the Socialists are in the minority. ## GOOD SERVICE IS FIRST ESSENTIAL OF LIBRARY WORK

Delegates representing 79 public libraries of Western Ontario are attending the annual meeting of the London District Library Institute in progress this afternoon in the public library.

Provincial Inspector of Public Libraries W. O. Carson, for many years public librarian in London, is conducting the afternoon meeting, devoted to discussion of various phases of library service.

In his opening address, Mr. Carson gave prominence to the subject of book selection, which he declared to be a fundamental matter. "We are holding eight library institutes in this province this year," he said, "and probably the work done by the libraries represented in the London District Institute ranks as high as any. Of the 79 libraries I should say about fifteen are doing really good work in book selection; a much larger number are doing fairly good work, and a still larger number just fair."

**Better Selection.**

At this point Mr. Carson urged the importance of better methods of library selection and better information before purchasing. Attention was drawn to the Ontario Library Review Quarterly, a guide to the best new books, containing as it does in each edition the names of the 150 best books of the three months with full titles and names of authors and publishers, along with descriptive notes. Copies are sent not only to every public library, but to the trustees as well.

The inspector's statements in regard to the service rendered by the libraries of Western Ontario in the matter of book selection were based on what has actually been done. Duplicate invoices of all books purchased are sent with the yearly report to the inspector and the government grant based on this.

A warning was sounded against buying of sample lots of books sent by wholesalers. While the books are good in themselves, Mr. Carson stated they are not representative, and consequently money spent on them is not invested to the best advantage. Where fiction is concerned he advised the buying only of the best.

"Buy the best," he said, "and have plenty of duplicate copies, rather than variety, through lowering the standard."

With regard to the object of existence of a library, namely, good service to the community, Mr. Carson preceded public recognition. "Fiction," he said, "is not a necessary part of library service. It is a luxury, and it should be performed. In the first place, it must be adequate provision to meet the problem. There is a certain demand for library service in London about four books per capita per annum."

Some places with a population of 10,000 have library service in the way of books for not more than a population of 5,000.

The next point dwelt upon was what the speaker termed "keeping the library vitalized," spending a certain amount on new books each year in proportion to the patronage. "For every 100,000 books circulated in the course of a year, \$1,000 should be spent on books for that year," was his estimate. Though failure to spend an adequate amount, he warned, a rundown condition of the library results and patronage falls off.

**Trained Workers a Factor.**

Another subject given prominence was that of the trained worker. "The most important factor in good library service," he stated, "is the trained worker. With regard to this, the training school in Toronto, he referred to the fact that the past year has been a particularly good one in the way of achievement, one student coming all the way from Vancouver. Among Londoners who attended were Miss Tanner and Miss Mulken and several from special libraries, such as that of the Canadian Manufacturers' Association.

"Touching upon the subject of 'Modern Methods,' Mr. Carson pointed out the advantages of display of important and desirable books, of use of bulletins, compiled book lists, and of book talks when opportunity is afforded. In the last analysis the inspector declared the librarian has assistants to be factors of outstanding importance in rendering service to the public through the public library."

## ENUMERATORS' ATTEMPTS TO INFLUENCE VOTES BRINGING MANY BITTER COMPLAINTS

Many of Those Who Are Listing Voters Here Accused of Being Mere Tory Workers With Thin Official Disguise to Secure Campaign Information.

Are the enumerators of London, the men who are preparing the voters' lists, agents of the Government?

This question is being asked by hundreds of citizens. The Advertiser being swamped with questions regarding the activities of some of these men.

That many of them are unfair is certain. That many are simply disguised Tory workers is undoubted. They are abusing their office for the purpose of trying to make votes for the Conservative candidate here. The evidence is impossible to refute. Such an abuse of privilege is hard to equal.

For instance, here are some of the conversations of these fair (?) enumerators:

"You have a brother in France?" asked one enumerator of a married lady. "Do not vote any more," he said, "your name is on the list."

"My wife is going to vote in this election," the lady replied. "Do not vote," the enumerator said. "You are not entitled to vote."

"Oh, I don't know," was the answer. "I am just trying to figure it out."

"You should vote for the United Government," replied the enumerator. "Do not vote for the Liberals."

"My wife has a brother at the front," explained a citizen.

"Well, if she votes for the Government, as she should, she will be given a vote," replied the enumerator.

A Russian who has been naturalized for five years, and is entitled to a vote as he is not a former citizen of any of the countries opposed to the Allies, was informed by another enumerator that he was not entitled to a vote.

"You go down to Crony's committee rooms and they will fix it all right; there for you," this gentleman informed the Russian.

One woman stated that her husband was a conscientious objector, and she wondered whether he would be allowed to vote. He was known formerly as a good worker.

"I will have to go down and see him," said the enumerator, "and he will tell you whether he is entitled to a vote or not."

"We are going to have a very close run at this election, and every vote is going to count. How do you think he would like the French to come up here and put him out of his home?"

"Not very well in such cold weather," answered the woman smilingly.

Another young woman, whose brother is at the front, has resided in London for six months, and the enumerator refused to put her on the list, claiming that new books each year in proportion to the patronage.

"For every 100,000 books circulated in the course of a year, \$1,000 should be spent on books for that year," was his estimate. Though failure to spend an adequate amount, he warned, a rundown condition of the library results and patronage falls off.

The majority of enumerators are branded as simply disguised Tory workers in many instances, and the citizens are complaining by the scores. The method of making up the lists is sufficiently unfair and one-sided in any event. Not to put the names of men and women, no matter how they intend to vote, on the lists is nothing short of criminal and the most tardy kind of policy.

The dice is loaded, a Tory worker stated today, and he smiled. He knew something of the whole district province and Dominion. From Stratford come the stories that the enumerators working there are nothing but Government canvassers. Some of the enumerators it is claimed, are informing all soldiers' wives that the Liberals of Canada are disloyal and that no Liberal candidate should be given the vote of any soldier's dependent.

Those who are complaining of the procedure of the enumerators point to what the whole story has not been told today. There will be more.

## Premier Ignored the Serious Charges Made by London Labor Men.

Mr. Ballantyne gave the French-Canadian a first-class name, called them splendid men, loyal and kindly and courageous, but badly led. The leaders were to blame for the present position in Quebec, and he grouped Sir Wilfrid Laurier, Bourassa, Lavergne, Lemieux and others as being responsible for this condition of affairs and his party arrived in London at 5:30 o'clock p.m. and were met by a delegation from the Great War Veterans' Association, headed by Lieut.-Col. Coles, Hume Cronyn and

Quebec. The French-Canadians are the very best citizens, and the soldiers here tonight can vouch for their being the best of fighters. The whole root of the trouble is that the French-Canadians are led and influenced wholly by a political machine headed by Lavergne, Bourassa, Lemieux & Co. The

### A COWARDLY SPEECH.

**SIR ROBERT BORDEN**, in his Toronto speech, made a sly and cowardly attempt to blame the Allies for the high cost of living in Canada by saying that "Allied governments offer to our producers prices that necessarily regulate the price paid by the consumer... this country."

This is just another confession of weakness and incompetency to be added to an already long list. Accepting the premier's statement that these outside buyers do offer big prices—does this "necessarily regulate" the cost? Has the Government no control of conditions in its own country? If it has not, it is time it relinquished the reins of power to more efficient hands. Britain has fixed prices. Sir Robert says it can do that because it is an importing country. Does he suppose that if Canada or France sent commissions to Britain to purchase wool or potatoes or anything else that these commissions would be allowed to override the laws?

Britain would not need to interfere with the outsiders; it would simply say to its own citizens: "You shall not ask or accept more than a certain price for your goods." Canada could do the same for her producers, middlemen or anyone else, and by enforcing such an order could make of no avail all higher offers whether by individuals or commissions. Admittedly, it would require a strong government to carry out such a plan, and that is something Sir Robert cannot provide. But, there are others who can.

It is a sample of Conservative patriotism to endeavor to unload on the mother land the blame for conditions which cause suffering, when the blame lies solely upon the spineless Government at Ottawa.

### LABOR IS AWAKE.

**LABOR**, in this city at any rate, has not been deceived as to the real issues of this election by the Tory election cries. It cannot be blinded to the inequities of the Borden Government by the promises of what is to be done in the future. It is judging Sir Robert and his cabinet by what has been done in the past six years, the only fair test, and it finds the record so black, so utterly opposed to all for which labor stands, that indorsement is impossible.

Speaking at the Trades and Labor Council meeting on Wednesday evening, Delegate Terry remarked: "The franchise act is the rottenest act that was ever perpetrated in this country or any other country. They had the 'Iron Laws of Bismarck' in Germany at one time, but they were not a touch compared with the franchise act." The delegate has discerned the Prussianism of the Borden Government, which has been crying aloud "Down with autocracy," while it has striven with all its might to establish autocracy and Prussianism in democratic Canada.

Concerning the franchise act, the sin is one of omission, as well as of commission. Not only have men who were and are, morally, fully entitled to the vote been cut off the lists, but women who by every law of right have an indisputable claim have been classed with alien enemies and refused the franchise.

There are so many treacherous deeds of the Borden Government that it is difficult to select one or two as the worst, but in its dying moments that Government excelled itself. The disfranchising act and the C. N. R. purchase bill were the culminating atrocities. Not content with robbing the people of their votes, the Government agreed to open wide the pockets of the working man and the nation at large in order that C. N. R. interests might plunge in their hands and lift out anything up to \$10,000,000. Labor resents these outrages and that is one of many reasons why, in London, it has chosen George S. Gibbons as its standard-bearer. He is unqualifiedly opposed to exploiting the people for the benefit of party or interests. He stands for justice and progress which are labor's aims.

### HOW LONG?

**A TRAVELING** man wrote a letter to a Toronto paper the other day giving his own personal experience of how "the spread in prices" is brought about. He has found that eggs and fowl may be purchased by citizens much more cheaply from stores in country towns and villages, even after express is paid. For instance, it cost him 32 cents for eggs that were selling in Toronto at 47 cents.

He found out, moreover, that express rates discriminate against the individual buyer. He says that the dealers "can ship chickens (and no doubt other goods as well) at 75 cents per 100 pounds, while the outsider who buys to send for home consumption pays \$1.15 per 100 pounds."

It is evident that the consuming public is being strangled right and left by all sorts of nefarious combinations. What is Mr. Hanna doing to help the average citizen? There are barnacles all over the ship of our community and "monsters of the brine" lean over the parapet to devour whom and what they will. Mr. Hanna, being Man Friday to Borden and Flavelle, makes a curious do'sun for this ship. The people cry "unhand us at least, if you do nothing to help us." But there is no answer but a laugh. The only way is to put the thieves out and put Laurier in.

Mr. Hanna brazenly declares that he is not in to lower prices but only to provide food for the boys in Flanders. It would seem, in fact, that his idea of providing food is to send meat and bacon

to the armies of Great Britain, France and Italy to allow profiteers in this country to put up the prices as high as they like, the higher the better, so that comparatively few of us can eat. Between Mr. Hanna's way of reserving the food first for the rich here, secondly for the armies, and the Prussian method of card distribution, who could hesitate? Let us put down ultra Prussianism in Canada, so that we more easily strike down the simple article at Potsdam. Making the world safe for democracy, like charity, begins at home.

### CHANCELLOR ROCHE'S VISIT.

**THE VISIT** of Hon. Dr. W. J. Roche, the chancellor of Western University, is an event of interest to all interested in educational or patriotic work. He gives an address this evening at the university gymnasium, Oxford street, on "The Work of the Military Hospitals' Commission in Its Care of the Returned Soldiers." The Gym. holds about five or six hundred people, and doubtless a good crowd will welcome the ex-minister, first medical graduate and LL.D. of Western University.

Dr. Roche is one who loyally does not forget his Alma Mater. He comes at the call of its Literary Society, regardless of inconveniences to himself, to speak on one of our most vital problems, the cure, education and direction of the returned heroes. As Western's chancellor, her first graduate and one of her most eminent sons, he will have a rousing welcome from all those who appreciate a conscientious public man, a kindly and courteous gentleman, a scholar and an alumnus who loves to fulfill a duty of remembrance and affection for the school and the community where he was trained.

### THE NEXT CALL.

**JUDGE WINCHESTER**, a member of one of the exemption tribunals in Toronto, stated on Tuesday last that men in Class 2 would be called out in February. We do not know what authority the judge had for his statement. But it is in accord with the views of the minister of militia, Gen. McBurn, who declared in Hamilton the other day: "We are in this war, or should be, not with one, two, or three hundred thousand men, but to the very limit of our resources."

The judge issued his warning on Tuesday; promptly on Wednesday came the denial. Mr. Newcombe, chairman of the military service council, says the question has not been considered, and there is nothing in the situation to make consideration necessary. We did not know that Mr. Newcombe was in the Cabinet, where such a matter would first be considered. But, any way, why this haste to contradict Judge Winchester? The minister of militia has said that one hundred, two hundred, three hundred thousand should not be the limit. And the conscription policy involves the calling out of the second class whenever there is authority deem it necessary. Unless the Government is prepared to drop the military service act after the first call, which it shows no signs of doing, conscription will have to go on. Why in such a hurry to deny what is inevitable under the Government's policy?

### THE KAISER'S LATEST.

"The proper study of mankind is man,"—Pope.

**THE** war is emphasizing this statement of Pope. The Kaiser has been a study, and his last statement that "the U-boats would not succeed by the aid of man power alone, but would require the aid of God's power," is a staggering blow at every sense of decency and justice. What an estimate he must have of God's justice, who expects Him to help to drown innocent women and children, to multiply the horrors of the sinking of the Lusitania! What colossal self-conceit he must have who thinks God is his partner in the most horrible crimes ever committed on earth! Perhaps some of it is traceable to the belief in the "divine right of kings." As they said of Hamlet: "See what a noble mind is here o'erthrown." Is it possible that the Kaiser can be excused on the ground that his mind is o'erthrown? Everyone will remember Elbert Hubbard's last reference to the Kaiser's insanity, caused by the "withered arm" and "running ear," but few then believed it possible that the horrible atrocities of this war would have received the approval of Germany's learned professors and clergymen. Surely Pope was right when he said, "The proper study of mankind is man."

### EDITORIAL NOTES.

Cutting prices is a big problem, says Premier Borden, which is a good and sufficient reason for evading it, of course.

Bourassa is almost the Bernard Shaw of Canada, and in the oracle business has two advantages over the Irishman: (1) he has a larger and less critical following; (2) Bernard would not be allowed to run in England a paper like Le Devoir.

It is again necessary to draw the attention of correspondents to the fact that The Advertiser will not publish anonymous letters. The name and address of the writer must be sent as a guarantee of good faith, though not necessarily for publication.

Sir Robert Borden has come to the conclusion that some military tribunals are too lenient and others too harsh. Is the fault not with the Government for failing to be specific in instructions given and leaving too much in the hands of the boards' members?

A short while ago, Conservative papers were wont to tell us that the whole credit for raising Canada's army was due to Sir Sam Hughes. Now they are distributing this credit among the officers commanding the units. Who did it all, anyway? Was it not principally the recruits?

A lecturer recently in this city made a plea for McGill University in remarking that people were too apt to think their own local university the best and that they had better send their sons and daughters to some truly great institution at a distance, in order to see things in right perspective. But the small university, like small countries, turns out big men. Scotland, Ireland and Canada produce as good men and women as England or the United States. So it is with the small university. And any citizen with the essence of patriotism in him will support his own local seat of learning.

By Susan Claggett.

"Are the islands fort?"

John English answered the question

absently, without turning his head.

"They are masked batteries, I be-

lieve."

"All of them?"

Something in the tone of voice

caught his attention. He looked at

the woman standing beside the rail,

past her to the bay and the many

islands dotting its surface.

"Boston is well protected," he re-

marked, and he smiled.

"Of course," Rachel Baruch moved

so as to face him. "I am a good

American," she said dryly.

"Yes."

"One implies reservation and an

implication."

"For an instant annoyance dominat-

ed her face. A chance likeness, a

"The times call for reserve. As for

implication, I never imply a thing."

"Then why," she waved her hand

outwardly.

"Ignorance, I have never before been

in Boston harbor."

She looked at him doubtfully.

"My explanation is not satisfac-

torious."

"Your pardon. There is something

familiar, yet I am sure I have never

seen you before. A chance likeness, a

similarity in tone."

"I am fortunate," she argued favorably

for me," he answered lightly.

"A friend of mine," she said, "is the man

in fact, I am running away from him."

"The obvious

reason?"

He did not reply. The swell, that

trip to Yarmouth, some

thing to be dreaded, was rolling the

steamer in a most unpleasant way

and Rachel Baruch, the daughter of

themselves, "isn't it very rough?"

she asked, glancing about helplessly.

"I have been told this trip is worse

than an ocean voyage." Then he

glanced her face and was all con-

cerned.

"It is nothing," Rachel said hastily;

"a little dizziness that will pass, but

I think I will go down."

"The air is best for you, and you will

miss the sea. But she shook

her head and left him.

He did not meet again until a

week later. Lingerer upon the pleasure

of the Queen's Hotel, Halifax, he saw

her pass. His first thought was to

join her. His second, to wonder why

he should desire to do so. Such an in-

clination belonged to youth, not to a

man who has long left sentiment be-

hind and found his most congenial

companionship among his own kind.

His means permitted him to live as

he pleased in the house built by some

forgotten ancestor. This he had changed

little. The principal alteration had been

in the attic, which he had transformed

into a billiard room. The principal at-

traction had been in the lower story,

where he had added a room, and this room

visualized itself with some amazing ad-

daptation to the furniture and the

decorations of the room. A baby grand

stood beside one window. Now, he

could not tell the difference be-

tween Lucie and the sextet from Lucia,

and he realized the incongruity of it

all. He had not been a greater

astonishment, as he noticed upon the

hearth two slender, silver vases. This in

itself was not unusual, but when he

glanced one of the pair, he wondered

what had happened to him. Close be-

side his worn-out and comfortable No. 8's

was a woman's shoe, dainty and small.

A blast from a steamer at the pier

roused him, and he looked at his watch

as a porter approached with his grip

and rug, and with an unconscious sigh

he came back to the business of the

moment.

That a man should have dreams is

not surprising. The surprising thing

was that this condition of mind was

brought about, not by a young woman,

but by one quite 30 or more years of

age. She could not even lay claim to

beauty, but in Rachel's face was force

and sweetness, a note in her voice that

appealed to him. Analyzing his condi-

tion of mind later on, he reached the

conclusion he was in a state bordering

upon the (dicy of extreme youth; for

the first time in his life he could not

constrain his feelings to respond to his

will.

He wondered why he had been so

short-sighted, and he tried to catch the

chance offered by the gods, and as he

lashed himself mentally over his fail-

ure to do so, something in the attitude

of a woman upon whom his eyes had

rested unseeing, for some time brought

a sudden realization that after all fate

was kind.

His mind no more to join her. He

was content to wait, hoping she would

recognize him when she turned. She

was disappointed. Once her eyes swept

over him casually, as casually as they

passed over others standing near.

Still he waited for recognition. "Like

a fatuous youngster," he told himself.

Instead, she moved to the other side

of the steamer.

That evening when he went on deck

he found her in the chair next to his.

"I knew you would be here," she said,

but I have traveled so little it is diffi-

cult to accept the freemasonry of ship-

board life. But it was a memory as

one perfect time in a hitherto pleas-

ant life. A man of literary tastes, he

found in Rachel one who had read

largely and had the courage of her

rather positive ideas. But it was the

personal in which he was interested.

Especially was he concerned in the

identity of the man from whom she

was running away, and he asked one

evening if she still noticed a resem-

blance.

"Occasionally," she replied, and

would have changed the subject, but

he persisted. It seemed to him that

he must know what part the man had

played in her life.

"I am interested in my double, Miss

Baruch, and I have been wondering

if you would tell me more about him."

She replied readily. "There is little

to tell, and to that I can be welcome.

"Not if I can help it," said John

English. Then he stopped, amazed at

what he had said.

"You have nothing to do with it."

"I have everything to do with it,"

he returned shortly. He left his chair

and walked to the rail, appealed by his

unrestrained words. Marriage at no

time had occurred to him. He had

enjoyed Rachel's society, but a nearer

intimacy he had not considered. Then,

as he stood looking out across the

moonlit sea, he again visualized his

den and the extraordinary changes in

its arrangements; the dainty shoes be-

side his shabby slippers, and across

from his comfortable armchair the

smaller chair occupied by the woman

now seated in the corner of the deck

## ANY SENSATIONS MAY BE UNEARTHED IN INGERSOLL FIRE

Citizens Now Recall Hearing  
Explosion and Auto  
Departing.

INGERSOLL, Nov. 22.—Citizens were startled today by the disclosures in The London Advertiser in connection with the mysterious fire which destroyed the premises of the Northway Company and its employees. From the first, there were many who were inclined to the theory that the fire was never supposed to be covered up. Some sensational features on the morning of the fire have been recalled. On the morning of the fire several citizens living near the burned premises claimed to have heard loud explosions some time before the fire broke out. Another person living near the store stated that some time about 1 o'clock in the morning a large automobile drove through. It is believed the missing merchandise was piled away in this car.

Pte. William Nell, whose name appeared in today's casualty list, has been killed in action, enlisted here with the 18th Battalion. His sister, Mrs. Mary Nell, lives in the town. Another brother, Pte. James Nell, was killed in action a few weeks ago, and he still has another brother who is at the front with a Scottish regiment. The news of the death of Pte. Nell, who was employed at the Northway store, was received here. Pte. Nell was employed at the Northway store, and was one of the men who were killed in action. The services in the Methodist Church on Sunday next will be of more than usual interest, as the anniversary of the death of Pte. Nell is observed. The preacher for the day will be Rev. A. J. Langford of Mitchell. Professor Morris of London will sing at the services during the day.

A number of awakens, knit by the Ladies' Aid of St. Paul's Church, will be sent overseas for the soldiers from the Presbyterian congregation. The ladies are in possession of a number of names of the boys overseas, and they are now calling upon citizens to supply the proper addresses, in order that the letters may be forwarded without any unnecessary delay.

## WESTERN FARMERS NOT FROTHEERS, SAYS A. L. SIFTON

LETHBRIDGE, Nov. 22.—"The charge is being unjustifiably made in eastern papers and the western people are beginning to believe it," says A. L. Sifton, minister of agriculture, in a statement today. "The farmer is the most heartless profiteer in Canada, and the most selfish. We know it is not true, but we have got to show the easterners that it is not true by getting behind this Victory Loan drive. The full extent of our possibilities," said Mr. Sifton, president of the A.F.A., in the course of an address upon the Victory Loan at a meeting here.

Hon. A. L. Sifton, speaking at the same meeting, said:

"In order that you might have a greater conception of the need, let me state that about the time the new Government was formed there was a period of ten days when no wheat was purchased in Canada for export, and the result of this was that the price of wheat fell to a level which was not only a disgrace to the Government but a disgrace to the farmers of Canada."

## M'COIG CHEERED AS HE TELLS ELECTORS OF CROOKED DEALS

Popular Candidate Got Great  
Reception at Blenheim  
Last Night.

BLENHIM, Nov. 22.—Blenheim Opera House was filled to its utmost capacity tonight by a crowd of electors keenly interested in the big issues of the present campaign. They cheered Archie McCoig again and again as he told of the doing of the profiteers and the interests who are robbing the people, and stated that Mr. McCoig has not been acknowledged by Premier Borden as the Unionist candidate nor by the Conservatives.

Mr. McCoig was given a magnificent reception. At the start he was presented with a handsome bouquet by little Archibald McCoig, son of the candidate, who was two brothers at the front. One of them was recently wounded. R. L. Gosnell was chairman.

Mr. McCoig directed his heavy artillery with telling force against the profiteers. He also went after such crooked deals as the Canadian Northern without gloves, and also told the electors just how certain horse deals had been conducted by the Borden Government agents in Nova Scotia.

Mr. McCoig was in the form, and his points hit home and stuck with the voters.

Mr. McCoig was in the form, and his points hit home and stuck with the voters. He told the electors of the fight Mr. McCoig has made in his interest, and of the square deal he has always given everyone.

A feature of tonight's meeting was the playing of music rendered by the Guild Brass Band.

## FEW TANKS WRECKED IN GREAT ADVANCE

Some Knocked Out by Shells  
or Bugged, But Most Got  
Through.

LONDON, Nov. 22.—Nothing has been announced here officially or unofficially concerning the number of machines constituting what the correspondents describe as the "grand fleet" of tanks employed in Tuesday's advance, but the number apparently has been greater than in any previous action. Casualties, of course, were inevitable in an operation on such a scale, but the dispatches agree that they are not great. Some even describe the tank losses as light.

One writer says that "a number were knocked out by direct hits from German big guns. Another says that some were overturned by shellfire and others were bogged. One or two bursted their noses in the soft earth or turned over in trying to climb down steep banks. One fell into a canal, but it is evident that the great majority plunged ahead unhindered."

What Thin Folks Should  
Do To Gain Weight.

Good Advice for Thin Men and Women.

Thousands of people suffer from excessive thinness, weak nerves and feeble stomachs who, having tried advertised flesh-makers, food-fads, physical culture stunts and rub-oil creams, resign themselves to life-long skinniness and think nothing will make them fat. Yet their case is not hopeless. A recently discovered regenerative force makes fat grow after years of thinness, and is also unequalled for repairing the waste of sickness or faulty digestion and for strengthening the nerves. This remarkable discovery is called SALTGYN. The best strength-giving, fat-producing elements of acknowledged merit have been combined in this peerless preparation, which is endorsed by eminent physicians and used by prominent people everywhere.

A month's systematic use of SALTGYN should produce flesh to the extent of at least 10 pounds by correcting faults of digestion and by supplying highly-concentrated fats to the blood, increased catch, and the additional fats that thin people need are provided. It can be obtained from the Standard Drug Company and other leading druggists everywhere.

NOTE—While SALTGYN has given excellent results in the treatment of nervous indigestion, it should not be taken longer than five days at a time by those who are not willing to gain at least ten pounds in weight.—Advt.

DO not use Edison records on any  
but a NEW EDISON phonograph.

Played with any other than the Edison  
reproducer, which floats evenly over the  
surface, delicately balanced and finely adjusted,  
the record is distinctly injured with each playing  
and rapidly deteriorates in tone quality.

You cannot get even approximately the full glory  
of an Edison "Re-Creation" with any other phonograph than

The NEW EDISON

"The Phonograph with a Soul"

The record is only one of three factors inseparable for Edison's perfect  
Re-Creation of music. Edison earned his triumph by five years' exhaustive experi-  
ments, perfecting these three factors together.

THE RECORDING: By his new  
recording methods, Edison is able to record  
every delicate tone wave, or shading of ex-  
pression, even to the most minute overtone,  
in any artist's voice or instrument.

THE REPRODUCER: The New Edison Reproducer  
is absolutely essential to Edison perfection. Edison tried out  
5000 different materials and compositions before he was satis-  
fied with his reproducer diaphragm. This acoustic research  
work involved an expenditure of over a million dollars, and  
it alone can bring out the real music in an Edison record in  
all its original beauty.

In justice to the public and to the high standard of Edison tone quality, we  
earnestly warn against the use of Edison records on any "talking machine."

Those who seek the privilege of enjoying in their homes the perfect Re-  
Creation of music should select the NEW EDISON.

We gladly welcome your request for a thorough demonstration  
of the New Edison.

## ITALIANS MEET ENEMY SHOCKS AND HOLD LINE

Yield Only Slight Ground on Monte Fonta, Barring Way to Plains.

SEVERE LOSSES FOR FOE  
Tentons Are Hurling Masses Into Vortex—Defenders Greatly Outnumbered.

LONDON, Nov. 22.—Sanguinary battles are in progress in the Italian theatre between the Brenta and Piave Rivers, where the armies of the Teutonic allies, in greatly superior numbers, are striving to break through the hill country to the Venetian plains. Hand-to-hand encounters are of frequent occurrence, and in the meantime the Italians are seemingly holding their own and inflicting severe losses on the invaders.

West of the upper reaches of the Piave, where the enemy is endeavoring to gain the valley leading into Venetia, the Berlin war office claims the capture of Monte Fonta, and the Monte Spina, but according to the Rome war office, except on the former position, where a few advanced Italian lines were reached, the enemy everywhere has been repulsed.

Along the Piave, southward to the Adriatic, no important engagements have taken place.

FOURTH ITALIAN ARMY MEETING HEAVY SHOCKS.

HEADQUARTERS OF ITALIAN ARMY IN NORTHERN ITALY, Nov. 22.—(Non)—By the Associated Press.—The 4th Italian army, under Gen. Robilant, is meeting the full force of the tremendous shock the enemy has concentrated between the Piave and Brenta Rivers. In authoritative quarters the correspondent was told that the enemy forces delivering this blow are in the proportion of three to two as compared with the Italian forces, and which is practically the relative strength of two wings west of the Brenta where Gen. Pecori commands the 1st Italian army, and the right wing along the Piave, where the Duke of Aosta holds the enemy in a vise.

It is in this position that the 4th Army is experiencing the intensest action, with attacks following in rapid succession.

One Point Broken Through. Reports early in the day were satisfactory, as the main fighting ground was farther north, on the enemy's positions, though at one point the enemy succeeded in breaking through the Italian lines on the foothills of Monte Fontanaccia, compelling the reformation of the defensive lines a little farther back.

These fluctuations are marked by the bloodiest fighting, with the enemy reserves coming forward for three successive attacks, which were met at the point of the bayonet and driven back, except for one push down the coveted valley.

Rush Enemy Positions. Just west of this main field of action the Italian 1st Army rushed the enemy positions near the Brenta River, and in two attacks and counter-attacks held the occupied ground, which was strewn with enemy corpses.

On the Lower Piave the enemy forces in the bushes on the west bank of Zenson, are now placed at 700 men, who are being raked by the artillery as they have tried to get up the machine guns across the small area they occupy.

Reports are coming in from the invaded Venetian district of fearful acts committed by soldiers, but this is stated under reserve, as it is impossible at present to give confirmation.

MASSED ENEMY DRIVES CUT UP BY ITALIANS.

Italian Army Headquarters, Wednesday, Nov. 21.—By the Associated Press.—The greatest mass attack which the enemy has made is in progress along the Upper Piave River at the point where it bends to the north-east into the Belluno Alps. As the action proceeds the enemy is bringing up fresh masses of his reserves, including picked troops of the Prussian Guards, besides some of the best German troops drawn from the western and Russian fronts. He also has 20,000 mountaineers from Lower Hungary, troops which are noted for their brutal vandalism.

The battle in the mountainous region in the north, between the Piave and Brenta Rivers is nearing its culmination, centering at Mulgrapp, and has become a struggle of giants. It is now clear, that notwithstanding the great numbers of troops employed by the enemy and his advantages of terrain, he is able to advance only slowly now that he is not being assisted by the element of surprise, by treason and other circumstances which favored him at first. Even if the Italians should be obliged to abandon the Piave River line they may be expected to fall back more slowly and offer still more tenacious opposition.

Rushes Checked. The action through the day has shifted westward from Monte Tomba and Montefenera to the slopes of Monte Perica, where the heavy reserves have been checked. The Italian positions remain substantially unchanged in the region of Montegrappa, which dominates the whole range of lower hills.

The monitor fleet off the mouth of the Piave is shelling heavily the enemy positions menacing Venetia. Italian aviators who have flown over the invaded district of Venetia says they saw throngs of civilians under guard headed for Austria.

Signor Marconi, inventor of the wireless, has arrived at headquarters and taken a place on the staff of General Diaz, the commander-in-chief.

An officer, accompanied by an observer, has just arrived here from the northern fighting front, where they have been watching the operations just to the west of a point where the enemy's mass attacks were reaching their maximum intensity today. The Brenta River, leading to the large river of Bassano, and thence widening fan-shaped, into the Venetian plains. The observers were so close to the fighting line that their army automobile narrowly escaped falling into the hands of the enemy.

The fighting ground gave evidence of the intensity of the struggle during the last few days. The positions and the trenches lately occupied by the Austrians were strewn with bodies, which lay half-covered with snow, as it was impossible to bury the slain because of the rapid shifting of both lines.

Enemy's Object Fails. The most desperate fighting was around Monte Meletta, where the Italians held one side of the entrance, and the Austro-Germans the other. The enemy's object was to advance through the two valleys of Frenzel and Valstagna, which open directly into Bassano, and then to strike the Venetian plain. This design is not known, but conjecture is disclosed in its full details in the Austrian plan of attack, taken from the bodies of Austrian officers left on the field. These plans give the precise directions of the hour and date at which the operations along the Bassano shall be carried out, as if the enemy believed no doubt existed of his successful advance.

Enemy Driven Back. But at this point the enemy calculations proved wide of their mark, as the Italians not only held the valley passage to the plains but drove the enemy back at the front of the bayonet, first from the trenches and then from the improvised breastworks until his retreat

## \$4,000 "Conscience Money" Is Returned

OTTAWA, November 22.—Four thousand dollars "conscience money" has been received by the Department of Finance from St. John, N.B. The amount, in four 1,000-dollar notes, and the envelope containing them, addressed to "The Finance Department, Ottawa."

This is an exceptionally large amount of "conscience money" to be received at one time by the department.

It was marked by a great swath of dead and wounded.

It seemed as though the Italians were suddenly imbued with tenfold courage to save their country and individual instances of bravery stand out amid the general heroism. At one point a contingent of thirty Italians left a shelter and heaved their way through the enemy lines bringing back twenty-seven prisoners. Some instances were not isolated, but general until the main lines of the enemy were driven back to the woods on the upper slopes of Monte Meletta.

Snow Drifts Deep. On the whole range of this fighting ground was a scene of frigid desolation, showing the rigors of the winter campaign now in full operation. Snow lay in deep drifts along the slope and drifted in places to a depth of five feet.

The Italians are suffering great hardship with fortitude in their battle to keep back the invaders. The observer found men huddled in caves, from which hung icicles. Many were absolutely frozen out from the superhuman efforts and slept on the ground in blankets, with ice all about them and drifted snow without.

Morale at Top Notch. Rations were served daily, but with extreme difficulty in the midst of such a whirlwind of action. The skies are grey, but stars show at night and with all these rigors and bloody work the morale and confidence of the men is at the top notch. A bride of April has been seen passing to the front. They did not wear the usual of April hats with a cock's feather, as one sees them in Rome, but were figures in gray-topped with steel. They swung forward rapidly as though eager to arrive, and to every inquiry they replied with confidence, lacking every trace of vainglory. It is this confidence which is Italy's greatest asset at this critical moment, for the heroic defenders really believe they will hold the enemy back.

DETROIT, Nov. 22.—The trial of Albert C. Kaltschmidt, well-known local German, charged with complicity in dynamite plots, will begin in federal court here December 4.

MANY APPEALS IN ALBERTA. CALGARY, Nov. 22.—Out of 13,510 claims for exemption passed on by local tribunals in the province of Alberta so far, a total of 10,606 have been allowed and 2,904 dismissed. Today's returns to the registrar showed 1,341 claims allowed and 246 dismissed. It is said a large number of appeals are to be taken.

'WHO WILL WIN THIS BATTLE?'

Your kidneys are the filters of the body. If they become inactive and fail to eliminate the waste matter, they are apt to throw the whole mechanism of the body out of order, thus toxic poisons can accumulate in the system and be as deadly as snake venom.

Besides causing the minor ailments of rheumatism, sciatica, lumbago and backache, neglect of the kidneys is apt to develop into more serious diseases, such as diabetes or stone in the bladder.

Rid the body of toxic poisons—clean the bladder and kidneys and cure the twinges of rheumatism with Anuric and you win the battle of life.

Anuric was first discovered by Dr. Pierce, and has benefited thousands of sufferers as well as appeased and eliminated the ravages of the most serious kidney diseases. Now procurable at any good drug store, or send Dr. V. M. Pierce, Invalids' Hotel, Buffalo, N. Y., or branch office, Bridgeburg, Ont., 10 cents for trial package.

Thorold, Ont.—"I was wonderfully helped by taking 'Anuric.' For about three years I had kidney trouble and rheumatism. I also had backache. My limbs went numb and I had rheumatism in my arms and hands. My hands would swell and joints would be so sore and stiff I could scarcely do my work. They would pain me something awful. I doctored but without relief. At last I saw 'Anuric' advertised. I began its use and two bottles completely cured me of all my rheumatism, and I think it was permanent, for that was a year ago, and I have never had any return of this ailment. I have never found a medicine so good as 'Anuric.'—Mrs. R. H. Huty.

SICK WOMAN HAD CRYING SPELLS

Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Enhaut, Pa.—"I was all run down and weak inwardly. I had female troubles and nervous feelings and my head bothered me. I would often have crying spells and feel as if I was not safe. If I heard anyone coming I would lock the door so they would not see me. I tried several doctors and they did not help me, so I said to myself, 'I guess I'll have to try one of these doctor's medicines and took Lydia E. Pinkham's Vegetable Compound. It soon made a change in me and now I am strong and do all my work.'—Mrs. Augustine Baughman, Box 26, Enhaut, Pa.

Why will women continue to suffer day in and day out and drag out a life of misery and heartache, missing three-fourths of the joy of living, when they can find health by Lydia E. Pinkham's Vegetable Compound?

## 'Canada Forward' Editor Is Guilty of Seditious Libel

TORONTO, Nov. 22.—Isaac Bainbridge, editor of the Canadian Forward, was found guilty tonight by a jury in the assize court on the charge of publishing a seditious libel. Taking the view that no great harm had come from the publication or the circulation of the articles complained of, the jury added a recommendation of mercy to its verdict. R. T. Harding, counsel for Bainbridge, made a motion to Justice Hodgins asking for an arrest of judgment.

## WILL OPEN CANADIAN POLLS IN U.S. FIRST TIME EVER RECORDED

Female Relatives of Canadian Aviators Down South Allowed to Vote.

OTTAWA, Nov. 22.—For the first time in the history of the Dominion Canadian polls will be established in the United States. Many Canadians have joined the Royal Flying Corps and are stationed in one of the southern states. For these military polls will

be established, and the men will cast their vote in the elections as though still in Canada. Further, once a soldier leaves Canada his female relatives are entitled to vote. Therefore, female relatives of Canadians in British or Canadian units in the States will vote as well as the soldiers themselves; female relatives of soldiers in Canada do not vote.

Ratifying officers throughout the country apparently are experiencing difficulty in interpreting the Dominion elections act as amended. Explicit instructions have been issued, but these in a number of cases have been disregarded or insufficiently studied. It is pointed out here that if the official instructions are carefully followed and enumerators instructed in accordance, most difficulties will disappear.

## INDEPENDENT TELEPHONE ASSOCIATION IS BY WESTERN ONTARIO

TORONTO, Nov. 22.—Col. T. A. Maury, Ingersoll, was chosen honorary president; F. S. Scott, Brussels, president; and Anson Groh, Preston; A. M. Leach, Paisley, and W. R. Wadsworth, Byron, were elected members of the executive of the Canadian Independent Telephone Association at the annual convention here today.

HAIR—RABY. FOREST, Nov. 21.—The marriage took place on Tuesday, at the home of the bride's parents, Mr. and Mrs. John Raby, James street, Forest, of their only daughter, Mabel, to Stan M. Hair, of Willow Brook Farm, Bosa, quiet, only son of Mr. and Mrs. Albin Hair. The ceremony was performed by Rev. J. R. Laverie, of the Presbyterian Church, in the presence of the immediate relatives. The young couple left on the afternoon train for a trip east.

Belgian Minister Makes Protest at Washington.

## BARBARIANS LET LOOSE

Systematic and Flagrant Violation of Another Treaty—Shoot Red Cross Emblems.

WASHINGTON, Nov. 22.—The Belgian minister today handed to the state department a protest of the Belgian Government against the bombing of Belgian sanitary units at Calais and Fetti Philippe, and the military hospital at the Gravelines Gateway, by German airplanes on September 26 and 27. Several casualties resulted from bombs dropped on the hospital. The request points out that Germany was one of the nations signing the Geneva convention for the amelioration of the conditions of the wounded and sick of the armies in the field, of July 6, 1906; calls attention to the fact that the Red Cross emblems were conspicuously displayed on the sanitary units and hospitals bombed, and continues: "The king's Government enters a solemn protest against the systematic bombardment of Belgian sanitary formations by German airplanes."

"It denounces this new and flagrant violation of international law to the international committee of the Red Cross and to the Allied and neutral governments which have signed the Geneva international convention of July 6, 1916."

## LAURIER DEALS WITH UGLY YARN OF PREMIER AT SYDNEY MEETING

Liberal Chief Was Never Invited to Co-operate in Recruiting.

## OFFERED HIS ASSISTANCE

But Head of Government Ignored Aid and Let Enlistment Die.

## DECLINED 1 COMMISSION

Did Not Co-operate in the National Service Venture—Results Justify Stand.

OTTAWA, Nov. 22.—Sir Wilfrid Laurier has given out the following reply to the statement made at Sydney, N.S., on Saturday, November 17, by Sir Robert Borden, when he stated that "on two occasions" he had asked "the Right Hon. Sir Wilfrid Laurier to co-operate" with him in regard to recruiting:

"I have noticed in the press a statement made at Sydney, N.S., on Saturday evening, November 17, by the Right Hon. Sir Robert Borden, to the effect that on two different occasions he had requested me to co-operate with him in connection with voluntary recruiting and that I had refused. I wish to state in reply that I have no knowledge of these invitations. I remember quite well that at the outbreak of war I directed a communication, of which the following is a copy, to Sir Robert Borden:

"Dear Sir Robert Borden.—There is every probability that the war will be of long duration, and I understand that the Government is already contemplating the organization of a second contingent. May I suggest that as our population is composed of various ethnic elements it might be well to recognize the fact and to allow the formation of units out of these several elements. "The war office at all times has taken advantage of the force of race sentiment in the formation of an army. At all times it has recruited purely Scotch regiments, as well as purely Irish regiments. We understand that Lord Kitchener has just authorized the recruiting of an exclusively Welsh force. The aim I have in view is in reference to the formation of a French-Canadian regiment. You are possibly aware that a movement is on foot in Montreal and Quebec for the purpose of raising such a regiment."

"There is every reason to believe that if the formation of a French-Canadian unit were authorized, there would be a generous response. "I offer these observations with the sole object of helping in the cause which we have all at heart. Think well of my suggestion. I will gladly assist in any way that may be deemed advisable and I will hold myself ready to meet you at your convenience for a mutual exchange of views, both as to the object itself, and the best means of attainment."

"Yours sincerely, "WILFRID LAURIER." "While the proposals made in this communication were approved of by Sir Robert Borden, I cannot say that I have any recollection whatever of being asked to co-operate with the carrying out of them. It is true that in the fall of 1916 I was asked to co-operate in the selection of a parliamentary committee to serve under national service board. The reasons why I declined are well known to everybody, and I think events have proven that my action was justified in the matter. Furthermore, that no appeals were made to me by Sir Robert Borden, or through me to any members of my party, to assist in the voluntary recruiting system of this country."

(Signed), WILFRID LAURIER."

## OVER MILLION WOMEN, SOLDIERS' RELATIVES, TO VOTE IN CANADA

General Mewburn Says That 20,000 Men Will Be Sent This Year.

[Special to The Advertiser.] HAMILTON, Nov. 22.—Addressing a mass meeting of women here this afternoon Gen. S. C. Mewburn, minister of militia, made the important announcement: "I feel it my duty to get 20,000 men overseas by the 1st of January."

He said the 5th Division was now less than 10,000 men. He declared Canada's total casualties from October 28th up to last night totalled 13,058, he said. He came direct from Ottawa this morning.

He figured that over a million women relatives of soldiers, would have a vote in the coming election.

## TWO U.S. TRANSPORTS HAVE PERILOUS TRIP THROUGH WAR ZONE

One Badly Damaged in Collision, Then Almost Torpedoed.

A FRENCH PORT, Nov. 22.—The latest transports to reach here had an exciting trip through the submarine zone. The first night in the zone two transports collided. One was damaged slightly, while the other had a small hole torn in her bow, and a few projecting guns damaged. Temporary repairs were made and the ships proceeded.

The following night a submarine attacked the transports. The wake of a torpedo was seen off the bow of one of the vessels, but no conning tower or periscope was visible. The transports raced ahead, succeeded in reaching port safely, where the collision damage was repaired.

## NO ELECTIONS IN FRANCE UNTIL 1920 AT LEAST

PARIS, Nov. 22.—The committee of universal suffrage in the Chamber of Deputies today rejected by a large majority the proposal to hold the elections normally due in 1918, because of the impossibility of taking the votes of prisoners of war and the difficulty of balloting among the soldiers at the front.

The elections, under this decision, will be postponed until 1920, and no special elections will be held to fill vacancies, of which there are 47 in the Chamber.

## FOUR WEEKS TO END BOLSHEVIKI POWER, SAYS KERENSKY MAN

Dr. David Soskice Declares Outlook Is Not Hopeless.

## RUSSIA'S POSSIBILITIES

Electoral Lists Distributed—24 Different Political Parties.

STOCKHOLM, Nov. 22.—"No matter how dark the situation in Russia is today—and it is dark, indeed—it must not be forgotten that Russia is a country of unlimited resources and workable staff. Dr. David Soskice, confidential secretary to A. F. Kerensky, the deposed Russian premier, and his right-hand man, to the Associated Press correspondent today.

"The Bolsheviks were in control of Petrograd and many other places when I left the capital on Friday," Dr. Soskice continued, "but they cannot maintain power. I consider four weeks the utmost length of time they can last. They are today saying to their adherents: 'We have given you peace and land.' The decree issued on Friday declared all the factories and workshops now the property of the workmen."

Dr. Soskice said there were rumors that German officers were on the Bolshevik staff. He instanced as evidence German activities in the discovery in the possession of one sailor in Helsingfors of 5,000,000 Finnish marks, and 16,000 marks in the possession of another.

Dr. Soskice declined to say where Kerensky is at present.

## POLITICAL PARTIES.

PETROGRAD, Nov. 22.—Electoral lists for the constituent assembly are being distributed by the town council. There are nineteen parties, including besides the various shades of Socialist and Constitutional Democrats, the Council of Cossack Troops, headed by Gen. Kaledines; the party of the Union of Christian Democrats, the All-Russian League of Equal Right for Women, the Women's Union of Aid for the Country, and the United Orthodox Parishes of Petrograd.

Nikolai Lenine, premier of the Bolsheviks, has proclaimed all newspaper advertisements to be the property of the state, and allows them to be printed only in the publications of the Provisional Workmen's and Peasants' Government or of the Local Council of Soldiers' and Workmen's Delegates.

## AWFUL ATTACKS OF HEART TROUBLE

Eased by Second Dose of MILBURN'S HEART AND NERVE PILLS

One of the first danger signals announcing heart trouble is the irregular beat or violent throb. Often there is only a fluttering sensation, or an "all-gone" sinking feeling, or again, you may experience a smothering sensation, gasp for breath and feel as though about to die.

In such cases the action of Milburn's Heart and Nerve Pills in quieting the heart, restoring its normal beat and imparting tone to the nerve centres, is beyond question, marvellous.

Mrs. Frank Asenau, Newcastle, N. B., writes: "I had awful attacks of heart trouble for the past five or six years, and as I had tried many kinds of medicine without getting any better, I decided to give Milburn's Heart and Nerve Pills a trial, and to my surprise I found ease from the second dose. I continued taking them until I had used six boxes, and now I feel as well as can be."

"At present my sister is taking them for nervousness, and finds great comfort by their use."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

## JAMES A. SNIDER SAYS HE SUFFERED NEARLY ALL HIS LIFE

Feels Better Since Tanlac Overcame Trouble Than He Has in Thirty-Five Years.

"I'm feeling better today than I have in 35 years, and it's all due to the good work of Tanlac," said James A. Snider, of Jackson street west, Hamilton, recently. Mr. Snider has the distinction of being one of the fastest coopers in Canada, but was forced by ill-health to give up his trade. He has now returned to work, however, and is employed by the Paardeburg Chapter, L. O. O. F. Mr. Snider is well known both in Hamilton and vicinity, and although 69 years of age he has the appearance of a man many years younger. Continuing his statement Mr. Snider said:

"A medicine that will make a person my age gain in weight, and relieve them of troubles of 35 or 40 years' standing, is certainly wonderful. I had been suffering from a bad stomach nearly all my life. I had no appetite, and just had to force myself to eat. At times I felt like there was a hundred-pound weight on my stomach, and I was almost doubled up with misery. Gas would build up, and I often had dreadful smothering spells. I have had the best treatment both in the United States and Canada, and have taken all kinds of medicines. I would feel a little better for a day or so, and then feel as bad or worse than ever."

"Tanlac did for me just what others say it has done for them, and I want to make this statement, because I feel like it may help lots of people who are in the same fix as I was. Why, before I took Tanlac I had rheumatism in my knees, and the pain was so severe I couldn't straighten up, and now the rheumatism is nearly all gone, and I can walk as good as anybody. It has put my stomach in good condition, the gas has stopped forming, and I don't have any more of those awful smothering spells. My food agrees with me, and I know it is building me up, because I have already gained several pounds, and have just finished my second bottle of Tanlac. All the pain is gone now, and I want to say again I feel better than I have in 35 years. I can't say enough in praise of Tanlac, and I'm going to tell everybody I can about the good it has done me."

Tanlac is sold in London by Standard Price Limited, under the direction of a special representative, and by an established agency in every town.—Advt.

## Ry. Brotherhoods Patriotically Lay Up Strike Motives

WASHINGTON, Nov. 22.—The railroad brothers' chiefs in a statement issued tonight after a two hours' conference with President Wilson on the wage dispute, announced that any suspension of transportation would be avoided, and declared their willingness to discuss and consider any suggested solution of the difficulties.

President Wilson, in a statement given out later declared that the railroad brotherhood representatives had agreed to patriotically stand by the Government, and to consider any proposed solution in a spirit of convention, and were not inclined to contend for anything which they did not consider to be necessary for their welfare.

**DEPS**

for Children's COUGHS & COLDS.

"The next solacing fact is this: That most of this debt will be a debt we owe to ourselves. Great Britain is borrowing in the main from her own children. The debt is in the family . . . and the more we lend the less will Great Britain owe to others. And that is the most important fact in our national security and national wealth."

—Premier Lloyd George in Albert Hall, London, October 22nd last.

## Happy will be the Nation which Owes its War Debts to its Own People

THE interest on Canada's war debt is now about \$25,000,000 a year.

If that interest is paid in Canada to the Canadian people it will go back into circulation in Canada, instead of being sent out to foreign creditors.

Likewise when the principal comes due it will be kept in Canada for re-investment and thus will aid in the development of the nation and its resources.

And that is a most important fact in Canada's national security following the war, just as it is important to Great Britain's National security that her war debt shall be owed to her own children, when the war is over.

So when you buy Victory Bonds you not only directly help Canada to fight the war but you contribute to the national security after the war.

## MILITARY HOSPITALS COMMISSION TO HAVE

17,900 BEDS JAN. 1

10,953 Returned Men Enrolled in Institutions.

35,000 MEALS PER DAY

One Discharge Depot in Quebec Used Ton of Fish at One Meal.

OTTAWA, Nov. 22.—Figures complete to November 15 indicate that there are 10,953 returned soldier patients on the strength of the military hospitals commission command. This figure is 754 greater than on the first of the month. Of these, 8,913 are in convalescent hospitals, 1,311 in sanatoria, and 729 in various other types of hospitals.

On November 7 there were 10,959 Canadian casualties in hospitals in the United Kingdom, a decrease of 196 in a week.

During the current year 21 new centers of treatment and vocational training were erected and equipped by the commission. Forty-five other buildings were erected and equipped for the same purpose. In these two classes of buildings beds for 10,000 convalescent soldiers were provided.

Beds in 113 institutions, commission has beds in 113 institutions, of which it controls 71. The accommodation in beds is approximately 12,000, in addition to 2,500 other beds in clearing depots, such as those at Halifax and Quebec. The commission is serving 35,000 meals daily.

At one institution in Quebec, a discharge depot where foodstuffs are being added to the difficulty, the dietary department has a record, for one of these meals alone a ton of fish was used.

Over 3,000 men are enrolled in vocational training classes and over 900, so disabled that they cannot return to their former work are receiving instruction to fit them for new occupations.

The building program of the military hospitals commission at present is at the beginning of 1918, when, at a present rate of progress, about 15,000 men will be enrolled for treatment. If present conditions continue the commission will serve over 20,000,000 meals during 1918.

France will force silver hoarders to let go their coin.

Clemenceau Decides to Demonstrate Certain Types of Coins.

PARIS, Nov. 22.—The Government has decided to demonstrate certain types of silver coins, to put a stop to the hoarding which is paralyzing trade. The instance is cited of 15,000,000 nickel coins struck by the mint to replace disappearing from circulation, all of the new coins vanishing virtually as issued.

With the metal thus brought in, it is estimated, the mint will have enough for a year's issue.

SINKING 'WITHOUT TRACE' IS NOT ON THE INCREASE

Lord Lytton Replies to Beresford in Lords.

LONDON, Nov. 22.—In the House of Lords today Admiral Lord Beresford (retired) called attention to the increasing number of ships that are "sunk without trace," and to the disclosure in the communications of Count von Luxburg, former German minister to Argentina, of Germany's plans for the sinking of vessels in this manner.

Lord Lytton, civil lord of the admiralty, replying to Lord Beresford, said that in fact no ship had been lost "without trace." The normal loss in peace time, he pointed out, was fifteen vessels yearly. As the result of careful inquiry, he added, he had no reason to believe that such disasters were increasing.

OTTAWA VOTERS' LIST IN MESS, SAYS PAPER

Work of Enumerators is "Very Unsatisfactory."

OTTAWA, Nov. 22.—The Ottawa Evening Journal says it is anticipated that as a result of the poor work of enumerators a large number of the voters will have to be sworn in on election day.

"Evidence accumulates," says the Journal, "that the work of some of the enumerators is very unsatisfactory and that many women who are entitled to vote at the coming election are going to be disfranchised."

It is anticipated that the number of appeals will be very large.

DR. BRAITHWAITE TO PREACH AT EMBRO

EMBRO, Nov. 22.—Dr. E. E. Braithwaite, of the Western University, London, will occupy the pulpit of the Congregational Church at both services on Sunday, Rev. E. G. Warren will preach at the Congregational Church, Woodstock.

Mr. and Mrs. Wm. McKenna, of North Bay, received word that their son, Pte. George McKenna, who was wounded over a year ago, had been discharged from the first post to come home.

Mr. McKenna has received a letter from her son, Gunner H. B. McKenna, who went overseas with the 63rd Battalion, and he stated he was in a base hospital, and that he had been gassed. His letter was written on Nov. 14, and he stated he was in a base hospital, and that he had been gassed. SARNIA, Nov. 22.—Owing to the heavy gale today a large number of freighters are tied up rather than take the chance and go out in the lake. In the neighborhood of 30 steam freighters are tied up between this port and Corunna. Since the big storm in November four years ago the lake captains have become more cautious and are not taking the chances of leaving their boats in the lake.

The wind velocity today reached a maximum of nearly 60 miles an hour, coming from a northerly direction off the lake.

WILL VISIT PETROLEA

SARNIA, Nov. 22.—Sarnia third degree union, I. O. P. Lodge, 25, will go to Petreola Friday evening to confer the degrees. The members will go by auto.

COAL WAS EXPENSIVE

SARNIA, Nov. 21.—Detective Thos. Hare is here as a special agent for the Fero Marquette railway. He has been conducting a quiet investigation regarding coal that has been disappearing from the railway.

THIEVES ARE BUSY

SARNIA, Nov. 22.—Clothes thieves are busy in Sarnia. A woman who laid a complaint with the police today had her clothing, clothes and all stolen while she was at supper last evening.

MAY START SHORTLY

SARNIA, Nov. 22.—Following a conference between city and township officials over the Exmouth street drain, arrangements are practically completed whereby the contractors will be enabled to proceed with the work. A 30-inch lead drain, the amount above the taxation, and the township to contribute to the cost of laying the tile at half what would be charged for laying wood. The work will commence as soon as possible.

BAKERS ASSN.

SARNIA, Nov. 22.—Smith & Carter, provision and confectionery business on Christina street, have assigned for the benefit of the creditors.

CANADIAN PRESS ASSN. REPRESENTATIVE BARRED FROM UNIONIST MEETING

Editor Declares People Are Disgusted With Union Tactics.

[Special to The Advertiser.] PENETANGUISHEN, Nov. 22.—At a meeting of the Unionist Association of the town of Midland was officially announced that the Canadian Press Association representative, Mr. J. H. Pennington, had been barred from the riding of East Simcoe. An attempt was made by the Unionist Association to bar Mr. Pennington from the riding of East Simcoe on account of his buying timber lands from the Indian department.

At a Unionist meeting at 9:30 a.m. Mr. Pennington was barred from the riding of East Simcoe on account of his buying timber lands from the Indian department.

he went to Toronto on Thursday morn-  
ing, and accompanied Mr. Robert Borden  
to London, making great efforts to  
induce the premier to give him in-  
dorsement. According to those in close  
touch with the situation, this was re-  
fused.

The deputation which consisted of  
Mr. Plewes, Geo. W. Cowan, Charles  
Austin, William Anderson and John  
Flanagan, the latter formerly of Lon-  
don, were ready to go to Hamilton to

impress upon Hon. N. W. Rowell the  
necessity of indorsing Mr. Plewes.

On the basis of authority it is stated  
that if he wants to run he can run, and  
he will have to take his chances.

Neither Mr. McCole nor Mr. Plewes  
will be given the stamp of the Union  
Government. In that case, Mr. Mc-  
Cole will have a much easier time than  
was at first anticipated, and that is  
rather easy.

## CENTENNIAL CHOIR DELIGHTED AUDIENCE BY ITS FINE WORK

Artistic Program Was Given  
in Church Last Evening.

While the program presented last  
evening by the choir and soloists of  
the Centennial Methodist Church, under  
the direction of Bert Weir, organist and  
choirmaster, was lighter than is usu-  
ally heard from this very good organiza-  
tion on the occasion of an annual choir  
concert, it was pleasing, nevertheless,  
and was evidently much appreciated by  
the audience. The unaccompanied  
numbers were especially well done,  
notably "There is Music By the River"  
(Finlandia), and "The Sea Hath Its  
Pearls," by the same composer. Mr.  
Weir is to be congratulated upon the  
good material he has in his choir and  
the response to training revealed in  
promptness, good pronunciation and  
tempo, enunciation and phrasing. Miss  
Gertrude Wood, soprano, a talented  
pupil of Mr. Weir, who has recently  
been appointed soprano soloist of Knox  
Presbyterian Church, and Miss Jessie  
Irving of Hamilton, reader, were the  
assisting artists, charming by their con-  
tributions.

Has Good Control.  
Miss Wood has a most pleasing, mus-  
ical and flexible voice, clear and bright  
in the upper register, and under excel-  
lent control. Flexibility was revealed  
in the particularly good advantage in the  
"Chanson Provencale" (Dell'Aquila),  
abounding in trills. A considerable  
amount of dramatic power was brought  
into play in the interpretation of her  
encore, the story of a little girl, a re-  
quest that daddy married mother in-  
stead of waiting for her.

Miss Wood was also heard with Miss  
G. Stanfield, who has a deep, full  
contralto voice, in the duet from Judas  
Maccabaeus (Handel), "O Lovely  
Peace."

Possessed of charming manner, grace  
of carriage and gesture, and a winsome  
manner, in addition to a pleasing  
speaking voice, good pronunciation and  
undeniable gift of mimicry, Miss Irving  
captivated her audience, and on  
each appearance was with a most flat-  
tering reception. She was particularly  
successful in her mastery of the dia-  
lect of the Englishwoman talking to a  
friend over the telephone, and the  
lonesome Dago in America, the latter  
number rendered with touching pathos.

Caught the Spirit.  
While she caught to a satisfactory  
degree the spirit of the Scotchwoman  
whose rage was aroused by being taken  
on a motorcycle joyride by her hus-  
band, the Scotch tongue might be im-  
proved upon.

The young artist's ability was  
evident from all another angle in  
her presentation of a small girl enter-  
taining the minister, who ended up by  
singing an Irish lullaby. Miss Irving  
can laugh till she sets everyone else  
a-laughing, and she can stage-cry with  
equal realism.

Mr. Weir was heard in three organ  
solo numbers, a Scotch fantasia by Mc-  
Farlane, in which good orchestral effects  
were achieved. Evening, by Buck,  
artistically rendered. "The River-  
Tanz, No. 5," by Brahms, in which the

cleanliness of the pedalling was worthy of  
note.

The program was rounded out by a  
male quartet, "Over the Ocean Blue,"  
by Petrie, sung by Messrs. R. Patterson,  
A. Tudor, C. Hill and V. Atkinson,  
with good balance and swing, and a trio,  
the waltz song from Faust, given by  
Mrs. P. Brighton, Miss E. Read and  
C. Hall.

**HON. DR. ROCHE HERE**  
Addresses Western University Literary  
Society at "U." Gym, Tonight.

Hon. Dr. W. J. Roche, chairman of  
the civil service commission and chan-  
cellor of Western University, will ad-  
dress the university literary society  
tonight in the university gym. Dr.

Roche, who is the former minister of  
the interior, will speak on the work of  
the military hospitals commission among  
returned soldiers. Several musical num-  
bers will be given. The meeting will be  
open to the public.

**Keep Dates Correctly.**  
Memory plays odd tricks. At the  
time important events occur they make  
such deep impressions that they would  
seem impossible for them to be forgot-  
ten in any degree. Yet dates, names  
and places often slip the memory. A  
diary prevents mistakes by recording  
essentials in their proper relative places  
at the time and scene of action. Old  
Charles long since laid away have been  
frequently used as conclusive evidence  
in court. Since the war began every-  
body realizes the importance of keep-  
ing permanent records to give in later  
years as many individual experiences  
as possible.

Of equal importance is the study of  
French, which language is of more im-  
portance than ever before. To meet  
the demand for and to encourage the  
keeping of permanent records and gain-  
ing knowledge of French the news-  
papers are supplying readers with the  
Soldiers-Sailors Diary, and English-  
French Dictionary. In this book the  
diary pages are undated and may be  
used any day. It never can become  
out-of-date.

The Soldiers-Sailors Diary and Eng-  
lish-French Dictionary is being distrib-  
uted in this city exclusively by the  
paper on a coupon plan, explained on  
another page. The book, which is richly  
bound in durable textile leather, is  
practically indestructible, is of pocket  
size.

ONE OF LONDON'S FOOD WANTS.  
Omn's Fish Market always carries the  
best of all kinds of fresh and salt water  
fish in season. It is a great advantage  
to the buyer to have a large stock of  
anything to choose from, and Omn's  
Fish Market has long since become one  
of the appreciated foodemporiums of  
London. There's another advantage in  
buying at Omn's. They know their busi-  
ness, and conduct their business from  
experience with the trade and what the  
people want. Just now they are carry-  
ing large stocks of freshly-killed and  
dressed poultry.

**BREAD RATION IN ITALY.**  
ROME, Nov. 22.—The Government  
has issued a new decree limiting the  
amount of bread for each person to  
one-half pound per day.

## If Hits Were Everything Connie Would Grab Flag Swatting Averages Prove

THESE AVERAGES PROVE that the leading details upon offense. They are the run-getters and the game-winners. In the American League last season the Athletics ran up 1,231 base hits.

They made more base hits than the White Sox, the Red Sox or the Cleveland Indians, who finished 1-2-3.

The White Sox made only 1,233 hits, the Red Sox 1,241, and the Indians 1,253.

Yet these clubs set the pace, while the Athletics finished last.

The only club that made more hits than the Athletics was the Tigers, and

they finished fifth. Hits, apparently, are not everything in an offense.

Which means that the Reds last season made more hits than any major league team from either circuit.

But the Reds did not score the most runs or win the most games.

What value should be attached to runs? Well, the Athletics scored more runs than five clubs which beat them out.

They scored a good many more runs than the Red Sox or Indians.

In football a strong offense may prove a weak defense. But in baseball a weak defense may wipe out a stout offense on any given afternoon or through any given season.

## WORLD'S SERIES CUTS NET SMALL FORTUNE

NEW YORK, Nov. 19. — Some idea of the amount of money that falls to the share of a big league baseball player who is fortunate enough to participate in several world series can be gained from a recent compilation showing the winners players of the various series who have figured in such post-season contests in the past few years.

Jack Barry leads the list with \$17,937 as a result of his participation in six series.

Eddie Collins, who has figured in an equal number of world championship contests, as a member of the Philadelphia Athletics or the Chicago White Sox, is second, having amassed \$14,580.

Jack Coombs has collected \$13,627; Bender, \$11,743; Eddie Plank a like sum, and Johnny Evers, \$7,983. This

quartet of players figured in five series. Among strunk, John McInnes and Frank Baker played in four series, while members of the Philadelphia Americans, and their reward was \$10,211 each. All things considered, Larry Gardner, Forest Cady, Harry Hooper and Duffy Lewis, of the Boston Red Sox, probably hold the record, as each of them won \$11,050, by playing in three series. Christy Mathewson collected \$2,535 in the form of extra dividends while a member of the New York Giants. Charley Herzog and Arthur Fletcher came in for \$9,113, due to their membership in the same team. "Chief" Meyers, Rube Marquardt, Fred Merkle won \$9,881 while playing for the Giants and the Brooklyn Nationals.

## GIANTS LEADER ANXIOUS TO GET RIGHT-HANDERS

McGraw Discusses 1918 Prospect for the New York National Club.

## GIANTS NEED HURLERS With Matty's Pitchers and His Own Southpaws, McGraw Thinks He Could Trim Everything.

"If I could have Matty's staff of right-handers, with my own set of left-handers," sighed John McGraw a few days ago, "I could whip any two American League ball clubs put together."

And he doubtless could.

The Reds have the best set of right-handers in the business, and McGraw surely had the finest gang of southpaws. Notice the words "have" and "had."

They count for something. Next spring Matty should have even a finer set of right-hand pitchers—and McGraw's left-handers may disintegrate completely.

If any team in either circuit needs pitching help, it's the Giants. Champions though they are, winners by an enormous margin, losers in the big annual classic through stupidity—they are in a bad way for pitchers, and may be even worse off when the fight gets under way.

McGraw built his team to take this year's flag, and got it. He didn't build for 1918, unless the signs fail, he will have an awful time repeating, for the simple reason that his pitchers don't look fit to stand the strain of another season.

Both the right-handers and the southpaws of the New York club need a lot of reinforcing—and where can John J. get the reinforcements? Slim Salts, well on in pitching years, put all John J. in his last campaign, was falling toward the finish, and showed no strain in the big series. He doesn't look like much of a winner for next year.

Rube Benton may not duplicate his success of this season. The Rube is growing fat; even his training worries him more than the last one—he is quite likely to stay on the sidelines till next season is far advanced.

Schupp is all right—the Louisville kid is just rounding into magnificent form, and will hardly retrograde—but he can't do it all alone.

Harcourt seems to be near the end—not to be counted on for much hard work in the future. Perritt is aging a little—this is possibly his last season. Anderson is just a filler-in.

The whole staff looks shaky and unreliable. McGraw may find himself next spring with not more than two pitchers who are good for over 50 per cent of victories—and where will the champions get off in that event?

There is no question as to the superiority of the Reds' right-handers over those of the Giants' staff. They can shape up two left-handers who can win right along, why be afraid of the Giants next season?

Amendment To

Racing Rules

Highly Probable

The Toronto Star says:

At the next meeting of the Jockey Club it is quite likely that an important amendment to the rules of racing, which materially affects the standing of apprenticeship riders will be passed.

It has been proposed by H. K. Knapp and seconded by F. R. Hitchcock to change rule 171a so that an apprentice rider will not lose his five pounds allowance at the termination of the season, but will continue to hold his one year, but will continue to hold his five pounds allowance until he has ridden forty winners.

This change in the rule of racing will be of great benefit, not only to the apprentice riders, but to employers who sign up young lads and teach them how to ride. Under the present rule of racing, an apprentice rider loses his allowance at the termination of 365 days of racing, whether the lad has ridden only one winner or 200 winners during that period.

Another feature of this proposed amendment is that, in addition to an apprentice boy being entitled to five pounds allowance in selling races, he will be allowed a three-pound allowance in the present rule, an apprentice rider has no allowance in selling races.

With the three pounds allowance it will mean that all horses that are assigned weights by the official handicapper will have a drop in the scale of that many pounds.

SEASON WON'T OPEN UNTIL AFTER XMAS.

Vancouver, B. C., Nov. 23.—The Pacific Coast hockey season will not open until the week commencing Christmas.

Announcement to this effect was made yesterday by President Frank Patrick of the coast hockey association, stating that action was made necessary owing to the failure of various players to have their cases disposed of by the exemption tribunals, and that as there was no prospect of securing players until such time as their cases are heard, it would be impossible to start on December 7, the date fixed on the schedule for the opening matches on the circuit.

In announcing this decision, President Patrick again stated that the Coast Hockey Association is not applying for exemption for any players.

## NO SPORT THRILLS AS TRAPSHOOTING

Not Even Golf Has More Participants Than Sport Alluring.

FULLY 200,000 SHOOTERS

More Than 4,000 Organized Clubs Throughout Country for Trapshooting.

There is no sport in America, not excepting golf, that grips and holds the interest as trapshooting, more popularly known as the "sport" alluring.

As shooting is instinctively and distinctly American, one cannot wonder that the sport has taken its place among the leading pastimes on the American continent.

It is a matter of record that more than 4,000 clubs have been organized solely for trapshooting.

With an average membership of 50, this means an organization of practically 200,000 men who are more or less expert in the use of shotguns.

Many thousands more are unattached, that is to say, sportsmen who own shotguns, but who are not affiliated with any club. It is variously estimated that at least there are a half million active or semi-active trapshooters in the United States today.

As an asset to the nation in time of trouble, one need not draw very heavily on the imagination to picture the value of this army of trained marksmen.

The sport of trapshooting, be it known, developed its facilities to an extent where one's judgment of distance, keenness of sight, etc., may be developed upon to an unusual degree.

An afternoon at the traps pulls one away from mundane things and acts as a tonic for nerves strained to the point of breaking. Hence the attraction to the men of business in search of relaxation.

Trapshooting, therefore, should be encouraged everywhere, if for no other reason than that it is a clean sport for clean and virile people.

A number of clubs, organized exclusively for women have made their appearance during the past few years, and today a fair sprinkling of contestants representing the fair sex are seen at even the big national events, such as the Grand American handicap, the blue ribbon event of the "sport alluring."

KITCHENER READY WITH TWO SQUADS

Intermediates and Juniors Will Be On Ice This Winter—Officers Elected.

Kitchener, Nov. 23.—The Kitchener Hockey Club organized Wednesday night and as a result this city will be represented in the O. H. A. by intermediate and junior teams.

Last season both teams were runners-up and as each has practically last year's lineup it looks as though they will win.

The officers elected were: Union Jacks (junior)—President, Fred Snyder; vice-president, Harry Rahabek; manager, Charles Kaplan; secretary-treasurer, W. H. Skum.

Intermediates—Honorary presidents, H. E. Wettlaufer, E. C. Kabel; president, E. D. Ritz; vice-presidents, Percy Pearce, I. K. Roos, H. Wagner; secretary-treasurer, Jene Roschman.

NATIONAL LEAGUE WILL NOT REQUEST ANY EXEMPTIONS

NEW YORK, Nov. 22.—The National League will not ask special exemption for any of its ball players, and is not in sympathy with any selfish plan or discrimination in favor of its business or players, declared John K. Tener, president of the league, here today.

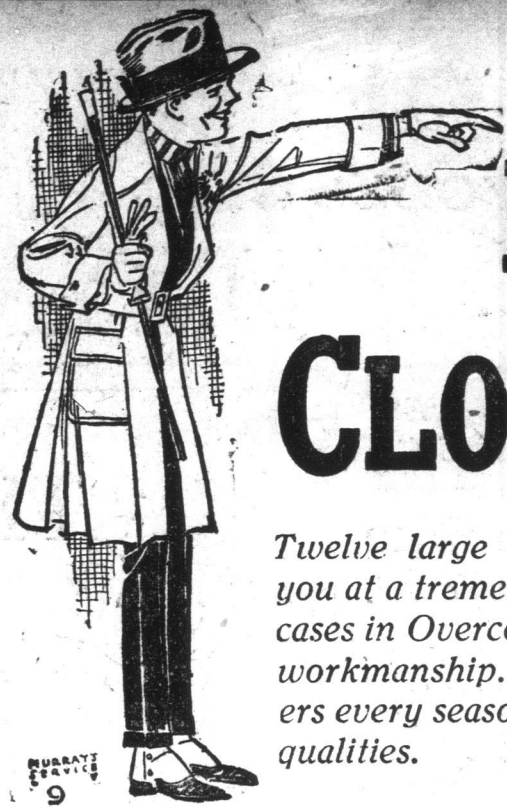

Governor Tener stated immediately after the United States entered the war that baseball would do its full share. Today he was more emphatic than ever in stating that such a plan would be a disgrace to the game.

"Baseball is a trifling thing compared to the going of liberty," he said. "I cannot state too strongly that the National League has no sympathy with any selfish plan or discrimination in favor of its business or players. It will not ask a special exemption for any of its ball players."

The National League will continue to help the Government in every way possible.

McCaffery Suing

President J. J. McCaffery of the Toronto baseball club has issued a writ at Ontario for defendant W. S. Johnson & Co., Limited, claiming \$1,000 under a contract whereby, Mr. McCaffery says, the defendants undertook to pay that amount for the exclusive right to sell the scoreboard or program of ball games played at the island during the season of 1917.

## SHOULD BE CONSCRIPTED, VIEW OF ONE TRIBUNAL

Montreal Body Has Been Exempting All Students.

MONTREAL, Nov. 22.—Judges of the Laurier avenue military service tribunal discussing dispatches from Toronto, complaining of the large number of exemptions granted in this district, stated that in their opinion the reason why so many exemptions are being granted can be laid to the fact that the law is very wide and contains many loopholes.

For example, although on the face of it, a student in the faculty of arts or law, is not studying for the national interest, still the tribunal judges that it is these students who, when they complete their education, will form the ruling class of our country. In this event, they think that students of all faculties should be granted exemptions, as it is in the national interest that they be kept in the country. They thought that practically everybody, with the exception of those who spend their days in poolrooms and

## REAL PEACE PRINCIPLES ARE BOUND UP WITHIN ALLIES' WAR OBJECTS

Taft, Head of League to Enforce Peace, Speaks.

BUFFALO, Nov. 22.—Speaking here today, former President William Howard Taft said that the League to Enforce Peace, of which he is president, is firmly committed to the accomplishment of the objects of the world war as the Allied nations see them.

"He who proposes peace now either does not see the stake for which the Allies are fighting, or wishes the German military autocracy still to control the destinies of all of us as to peace or war," Mr. Taft said. "Those who favor a permanent world peace must oppose proposals for peace at this juncture of the war."

"The Allies are fighting for a principle, the maintenance of which affects the future of civilization. They cannot concede peace until they conquer. When they do, it will be permanent."

Places of a like character, could be exempted.

At the Westmount tribunal, a judge pointed out that all the exemptions, except in cases of physical disability, were only temporary.

KILLED IN ACTION.

GALT, Nov. 22.—Two more Galt men were today reported as having made the supreme sacrifice. Mrs. J. Stubbins, 99 Glenmorris street, whose husband was reported killed in action August 21, received word that her brother-in-law, Sergeant Alex. Stubbins, formerly of the 34th Battalion, and a former resident of Galt, was killed in action on November 5. He was single and worked for the waterworks commission.

Pte. Sidney J. Lee, formerly a sergeant in the 11th Battalion, and youngest son of Mr. and Mrs. George Lee, Centre street, also fell in battle on November 6. He was 32 years old, and single. A brother, Pte. W. F. Lee, formerly of the 24th, was given up for dead after being missing for months.

While another brother, Ernest Lee, of the original 1st Battalion, was badly wounded early in the war and is now on duty in England.

Mrs. F. Gates, Stone road, was notified that her husband, Acting Sgt. R. W. Gates, has been admitted to a hospital suffering from gas poisoning.

## ARRANGE SILVER CREDIT IN AMERICA FOR INDIA

Discussions in Progress Between United States and Britain.

LONDON, Nov. 22.—Discussions are in progress with the United States Government, with the object of the acquisition by it of the silver produced in the United States, a portion of which would be placed at the disposal of the Government of India, largely to pay for Indian produce required in America. It was announced in the House of Commons today. The announcement was made by Stanley Baldwin, financial secretary to the treasury, in reply to questions.

## ALFRED PAYNE WAS STRICKEN SUDDENLY

ST. THOMAS, Nov. 22.—Alfred James Payne, a well-known resident of this city, dropped dead on Talbot street near Hawatha street, today. Death was due to heart failure. He was 52 years old and came to St. Thomas from Port Stanley.

He was employed on the Wabash Railway as a locomotive engineer. Mr. Payne left his residence, 111 - Curtis street, in the morning, apparently in his usual good health. Deceased was a member of Division 123, B. of L. E. and Charity Lodge, No. 5, B. of L. E.

FIVE 118TH MEN KILLED IN ACTION

KITCHENER, Nov. 22.—Five local men were today reported as killed in action: Pte. Frank Conrad, son of Mrs. John Conrad; Pte. Harry John Looker, son of Mrs. M. Looker, 65 Chapel street; Pte. Harry C. A. Delton, son of Harry Delton, 255 King street east; Pte. Sheldon Uffelman, son of Jacob Uffelman, Waterloo; Pte. Walter C. Schierholz, son of A. W. Schierholz, Waterloo. All are members of the 118th Battalion.

ST. THOMAS, Nov. 22.—Lombert Renaud, an employee of the Greene & Swift Tailoring Company, this city, had one of his legs badly cut while at work. Several stitches were necessary to close the wound.

FINNISH DIET USURPS POWER OF EX-CZAR

STOCKHOLM, Nov. 22.—A Helsinki dispatch to the Politiken says that the Finnish Diet, by a vote of 127 to 68, has decided that the Diet shall exert the power formerly held by the emperor in his position as Grand Duke of Finland.

HAD LEG BADLY CUT.

ST. THOMAS, Nov. 22.—Lombert Renaud, an employee of the Greene & Swift Tailoring Company, this city, had one of his legs badly cut while at work. Several stitches were necessary to close the wound.

#### GOING TO KEEP A PIG?

Ever since the appeal went forth through Canada some weeks ago for greater production of pigs, people have seen fit to make merry on the subject. Why should pigs be classed with Charlie Chaplin films? And long before the days of the famous Charlie, pigs were pigs as material for jesting. But raising pigs isn't such a joke, as Peter McArthur and farmers who have waged warfare against hog cholera can tell. Raising pigs, moreover, has been elevated to the dignity of a serious/patriotic responsibility. The war which is waging with unabated ferocity is a war of food as well as of men and munitions. And bacon is one of the three kinds of food most imperatively demanded for export overseas. Bacon, it is, with beef and wheat which go to make up the staples of rations for the men on the firing line. Pork, in the form of bacon, is easily transported, takes up minimum space, considering its food value, and requires no refrigeration. Bacon, consequently is an ideal food for shipping with transportation facilities at a premium. Perhaps you have bought a Victory Bond, perhaps two, three or more of them, "Gentle Reader" (as the old-time novelists would have called you). Buying those bonds, you had visions of helping to bring those splendid fighting men home in a greater hurry than would be possible if you failed to do your part. What about helping to hasten them up and strengthen them up, and keep up their morale with good substantial rations, of which bacon forms an important part? Perhaps you can't fight because you are the man who cannot be spared, or who is physically incapacitated. Perhaps you are the woman who longs to do something definite.

What about doing your fighting by raising pigs? (It is possible you will have to if you are blessed with very near neighbors, or if your own family isn't fond of pigs). Perhaps the bacon from the pigs you raise won't be actually eaten by that hungry, mud-stained boy of yours, or your neighbor's boys. But there is one thing sure, every pig you raise is going to make it more certain that your boy, and those other gallant boys you know, are going to get their share of the bacon rations and not be obliged to stand up under the strain and face the foe hungry.

#### "THE ORDINANCE WON'T LET YOU"

The city people more than the country people have been sharpening their wits on this pig-raising business. It is considered an awfully funny thing to suggest that Victoria Park be transformed into a "community pigery" or something of the kind, along the lines of community gardening. Then some people who haven't an idea of doing anything of the kind themselves, have thought it very brilliant to suggest "A pig for every back yard in Canada in 1918," as well as a second edition of the 1917 garden.

But there are really serious and practical people in the city of London who are pondering the question of pig-raising in their own back yards. They have found out, on inquiry, that starting in the pig business in the city isn't so simple as it might seem. It isn't just a question of ample room, suitable buildings and purchase of stock. It's a question of "The city bylaws will get you if you don't watch out."

No saying what would be done to you if you transgressed the city ordinance regarding pigs to the extent of attempting to raise them in your own back yard. The strong would stretch out and get both you and your pigs in its grasp. That is one thing sure.

Before you can raise pigs you must get that bylaw changed which prohibits the keeping of pigs within city limits with one exception, in the Asylum grounds.

#### WHY NOT "WAR MEASURE LICENSES?"

At least one man in the city of London has taken seriously to heart the appeal of the Government concerning an increase in the production of pork. He has a big lot of land, some distance from the centre of the city. Sometime ago he consulted the medical officer of health to find out if there would be any objection to the establishment of a pigery thereon. He stated that it would be located some 300 yards from the nearest neighbor, that the building would be suitable in every way, and that every possible care would be taken to keep conditions sanitary.

From a health standpoint, the medical officer of health didn't see there could be any objections. However, he wasn't in a position to hand out a decision till he consulted the city bylaws. The bylaws prohibited the matter out of his hands, forbidding as they do, the keeping of pigs on property within the city limits, excepting on the Asylum grounds.

"What do you think about the bylaw, in face of the apparent need of increasing production of pork?" Dr. Hill was asked a few days ago by the editor of this department.

"Well," he replied, "the only way to make it possible to go in for raising pigs within city limits would be to have the bylaw suspended, or special provision made where licenses might be granted under certain circumstances and in certain districts to raise pigs. Though there is no reason why pigs cannot be raised under sanitary conditions as chickens, at the same time, keeping pigs anywhere approaching the downtown district would be quite out of the question. Nevertheless the matter is one well worth taking up for outlying districts inside the city limits. Pigs could be raised in a number of places inside the city limits just as well as in the country, and with no more infringement upon the rights of neighbors. In granting licenses to people to raise pigs assurance would be required that the applicant would have proper buildings and a proper yard, and would keep these in proper condition."

#### SAVE THE BABIES—REBUILD THE NATION.

A "Kiddies' Booth" for the promotion of child-saving work in war time is to be a big feature of the Hero Land Bazaar, under the charge of the League of the Allies, to take place in Grand Central Palace, New York, opening November 24th. Lady Aberdeen, president of the Woman's National Health Association of Ireland, who with Lord Aberdeen is a member of the committee, has sent to a friend in the city an advance notice in regard to the Kiddies' Booth. The following are arguments offered why child saving work is required in war time:

"It is of vital importance that the children who will reap the fruits of the tremendous sacrifices being made by the present generation, should grow up in the fullest vigor of body, mind and soul, so as to be the worthy guardians of the liberties won in the present world struggle.

"In 1915 NINE fighting men of the British Empire were killed very hour on the battlefield.

"During the same year TWELVE infants under one year DIED EVERY HOUR in Great Britain and Ireland.

"90,067 infants out of 986,821 born in Great Britain and Ireland in 1916 did not live twelve months.

"It is estimated that the loss of infant life before life is even greater than that during the first year of life.

"It is calculated that three-fourths of the infant mortality is due to PREVENTABLE causes.

For every infant who dies it is estimated that there are at least five who endure unnecessary sickness and who are more or less handicapped for life through these same preventable causes.

"In communities where systematic educational campaigns have been carried in regarding the care of mothers and infants the death rate amongst babies has been reduced from 10 to 50 per cent.

In the WAR PROGRAM laid before the conference of the American Association for the study and prevention of infant mortality held in October at Richmond, Virginia, it was stated that:

No more patriotic service can be rendered today than through the maintenance of the integrity of the home and the conservation of the health of the children of today, who will be the citizens of tomorrow.

#### KEEPING WELL IN WINTER.

Irving Fisher, professor of political economy at Yale University, and chairman of the life extension institute, gives the following rules:

Open all the windows wide before you use the room in which you live or work. Let fresh air in all the time. The best temperature is between 68 degrees and 70 degrees Fahrenheit.

Open one window at the top and one at the bottom. The good air comes in one window and the bad air goes out the other. If you feel the air blowing on you, place a board in front of the window to send the air up. Such a "window board" should always be used in winter.

People who are used to fresh air almost never have colds.

Try to keep the air in your house as pure as the air outdoors. Do not let dust and smoke stay in the house.

Let in all the sunshine you can. Sunshine and fresh air kill germs and thereby help to keep out sickness.
