FRUIT GROWERS ASSOC.

The Chatham Fruit Growers' Association, composed of eighty of our most progressive farmers, is doing a large business in the shipment of choice fruit to the Northwest, and during this season is sending forward two carloads of apples and pears each week. The Association has been working along quietly for some years and has established a splendid reputation as careful shippers, and every consignment so far has been eagerly sought for by the merchants of Winnipeg and elsewhere at advanced prices upon the daily market quotations. So long as the management exercise diligence in the selection of the fruit there will be no trouble in disposing of the different shipments, and no better person could have been selected than the present manager, W. D. Ross, to see this is done. Extensive additions in the building will be commenced in the course of a few days for a dryer.

SUCCESSFUL TEA MEETING

H. S. Clements M. P., Officiates At A Big Event At Kent Bridge

AN EXCELLENT PROGRAM

The tea-meeting held in Knox Church, Kent Bridge, last evening, was one of the most successful ever given in that district. It was most enjoyable from every standpoint, and was highly gratifying and satisfactory to the good ladies who had the management of the affair in hand.

Rev. Mr. Hare, the energetic young pastor of the church, is doing a great work in this congregation. He is a capable young preacher, with an admirable character, and he is popular with the people of all denominations.

Last evening the supper was served in the hall at the rear of the church, and at the conclusion of this part of the evening's entertainment the people adjourned to the church, where an excellent program of music and speeches was given. Herbert S. Clements, M. P., of this city, was present and acted as chairman of the evening. He performed the duties of the office admirably and to the satisfaction of all present. Mr. Hare opened the meeting with devotional exercises and then called upon Mr. Clements, who was received with tumultuous applause. Mr. Clements made an able address, which was warmly received. In introducing him Mr. Hare had referred kindly to his ability as a statesman and orator, and Mr. Clements did not fall short of the mark.

The following was the program given, all of which was keenly enjoyed and greatly appreciated:

The Imperial Guarantee & Accident Insurance Co., Toronto, Ont.:

Gentlemen,--Please accept my sincere thanks for your cheque \$183.71, which has been handed me to-day by your agent, Mr. R. A. Claim papers were mailed you on the 26th August and you forwarded my cheque on the 27th, which was indeed a prompt and satisfactory settlement. From your treatment of me I believe you to be straightforward and reliable in every particular, consequently I shall do everything I can to help you.

Again thanking you for your exceedingly prompt adjustment of my claim and wishing you great prosperity in future, I am, Yours respectfully,

The C. C. I. Has Opened The Fall Term Under Favorable Circumstances

NEW TEACHERS ENGAGED

At the regular meeting of the C. C. I. Board, held in Secretary Harris' office yesterday afternoon, there were present, Chairman S. B. Arnold, Rev. Dr. Battisby, Lt.-Col. J. B. Rankin, Mr. R. A. Harrington, Mr. W. G. Richards, Mr. John Liddy, Mr. A. E. Mounter, Mr. F. A. Robert, Mr. J. W. Twohey and Secretary Harris.

Mr. Robert, of the Property Committee, reported that the roof of the school had been leaking and was badly in need of repair, but he had experienced some difficulty in securing a man to do up on the roof and examine it. However, by the time of the next meeting of the Board he hoped to be able to report that a man had been secured to do the work.

For the Internal Management Committee, Col. Rankin reported since the resignation of Mr. Jewett, they had advertised for new masters, and had secured Mr. Ayers at \$1,200 per annum and Mr. Kidd at \$900, thereby making a saving of \$50 if these gentlemen prove as efficient as their predecessors. He also reported the absence of Mrs. Lafferty, who was called away to the bedside of her mother, who is critically ill. A substitute had been secured to take her place in the meantime. The Chairman and Col. Rankin had a pill v. it of inpection to the school recently and had found everything to be quite satisfactory.

The following accounts were ordered paid:

Central Drug Store, 25c.
Lewis Keane, 50c.
Wm. Foreman & Co., \$3.48.
Lindsay S. Parrott, \$6.89.
J. D. Soutar, 55c.
C. P. R. Telegraph Co., 50c.
Departmental examinations, \$117.38.
United Typewriter Co., \$60.
Andrew Harbert, \$4.40.
Bell Telephone Co., \$12.50.
Shoa & O'Keefe, \$22.
Globe newspaper, \$2.87.
Mail newspaper, \$2.70.
F. McMillan, \$1.25.
T. Brooks, \$13.
Fleming & Tillson, \$291.91.

OUT ON BAIL

Windsor, Sept. 10.--Three of the men recently arrested for tapping the Great North Western Telegraph Company's wires, namely, Walsh, Maran and Robinson, have been released on bail. The other man implicated, P. McGary, was liberated on bail last week. They will all be tried here on Friday, the 15th inst.

HIS REASON.

Bjones is egotistical even in mind. Yes; he says it is much better to allow people to mismanage their own affairs.

LARGE FUNERAL

The funeral of the late Mrs. James Liddy took place Monday morning from her late residence, Creek Road, Harwich, and was one of the largest that passed through the city to and from St. Joseph's church for some years. While the large procession was wending its way towards the city, a large number of carriages and vehicles awaited it at every cross road seven miles beyond the city, till it was nearly two miles long, thus testifying to the high esteem in which the deceased lady was held, and the universal sympathy felt for the bereaved husband and family of ten children, which the Grim Reaper has thus deprived of a congenial, loving companion and ever devoted mother and evermore. Amongst those to attend the funeral from a distance were Mr. and Mrs. M. E. Liddy, Windsor; Mr. and Mrs. N. F. Liddy, Detroit; Wm. Liddy, formerly of The Planet, but now with Hiram Walker & Sons, Limited, Walkerville; Mr. and Mrs. Edward Hogan, and Mrs. Norman Hubert and Mr. Sullivan, of Detroit.

QUEER MODE OF SPELLING

Citizen Points Out A Flagrant Error On New Public Building

HOW TO SPELL "ARMORY"

The following letter from an observant citizen calls attention to an error for which there is no reasonable excuse:

Editor Planet:

In passing through Tecumseh Park with a C. C. I. pupil the other evening I saw a sign that should set all Kent people thinking. On the front of the noble structure now building, and which was meant to add beauty to the Park, my eyes caught the word "Armory" in blazing letters above the main entrance. In drawing attention to it I asked this pupil to search the unabridged dictionary as I knew it was not spelled correctly. He did so and proved my words true. Hundreds of people pass this building daily with this error before them, and then many wonder in after time why the school master does not teach pupils to spell. It will add to the glory of the builder and building to remove this error as soon as possible, as in forty-five years of study of Mavre, Carpenter, Sullivan, up to the present time of Gage, Hughes, Carnegie, and Roosevelt, I have never seen "armory" spelled with a "u," as is found on ours. No wonder Laurier's tower at Ottawa fell down!

Yours very truly,

CITIZEN.

COLLEGIATE IS OVER-CROWDED

Plans Are Accepted For A New Addition To The Building

THE PRINCIPAL'S FIGURES

The C. C. I. Board has accepted plans and specifications for renovations and additions to the Collegiate Institute, to cost in the neighborhood of \$30,000. The matter has been left in the hands of the Finance committee to bring before the City Council at the next regular meeting of that body. If passed by the City Council, the plans will then be submitted to the Department of Education at Toronto for their acceptance and approval.

The cause of this action on the part of the C. C. I. Board is that the Collegiate Institute is at present claimed to be overcrowded. For instance Principal Twohey presented figures to show that there were certain rooms with a seating capacity for 33 pupils in which there were at present 45. Another has a capacity for 36 in which there are 40, and so on. Three rooms are also being used upstairs which are not considered to be fit for class rooms. This space was once the old assembly room, and it is said to be difficult for the teacher to make his voice heard on account of the peculiar lay of the room.

In connection with this, Chairman Arnold at the meeting yesterday afternoon said that the lighting in this portion of the building was very poor. Mr. Harrington said that he for one had all along been opposed to making renovations to the heating of the school until the whole building was thoroughly renovated, as it ultimately would have to be.

On motion of Messrs. Rankin and Harrington, J. W. Wilson, of the firm of J. L. Wilson & Sons, local architects, was heard before the Board. Mr. Wilson presented his plans, and explained how the addition would have to be made to the present building if the work were gone on with. The new building would be built adjoining the one one, with six rooms, each with a seating capacity for 45 pupils. Both buildings would be heated by the same heating system, the boiler being placed in the centre. The total cost for heating addition and renovation would amount to about \$30,000.

It was moved by Col. Rankin, seconded by Mr. Harrington, that it is expedient that the Collegiate should have three new rooms to take the place of the three rooms now being used in the upper flight of the building, that the plans and specifications prepared by J. L. Wilson & Son be accepted, and that the matter be referred to the Finance committee of the Board to bring it before the City Council for their approval before taking them before the Educational Department for inspection.--Carried.

Success often means the ease with which principle was put aside.

As a rule the orator who uses the biggest words has the least to say.

WHAT TO EAT.

A Melon Salad the Latest Gastronomic Novelty.

A melon salad is not often seen, though regarded by those who have tried it as a highly satisfactory way of serving this delicious fruit, especially when, as sometimes happens, it is not as full flavored as one could wish. Cut the fruit in cubes, being careful to exclude all hard rind. Make a dressing of olive oil, which for this purpose should be specially good, and white wine or not too strong vinegar, in the

MELON SALAD.

proportion of at least three tablespoonfuls of oil to one of vinegar, a quarter of a teaspoonful of pepper and half a teaspoonful of salt. Mix these well together and pour over the melon. Serve very cold in a salad bowl, or, for a novelty, it may be served from the shell of the melon from which the soft part of the fruit has been cut. Sprinkle this salad with a little chopped green tarragon, the delicate flavor of which blends particularly well with that of the melon. Garnish with lettuce hearts or any greenery at hand.

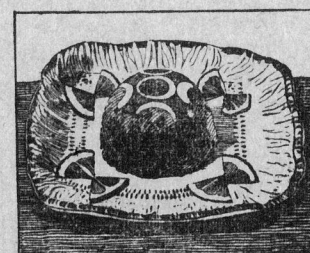

Salmon souffles are wonderfully good. Take one-half pound of cooked salmon, two hard boiled eggs, anchovy essence, a gill of fish stock, one-quarter ounce of gelatin, half a pint of whipped cream, salt and a tiny pinch of cayenne. Pound the fish to a paste, then add the yolks of the eggs and the whites after chopping and rubbing through a sieve. Now add the anchovy paste and seasoning, moistening it with the stock in which the gelatin has been dissolved; sieve all these things together and when cold mix in the whipped cream. Pin narrow strips of paper round the top of small souffles, fill these an

inch or so above the edge with a mixture, smoothing the top neatly with a knife; decorate with hard boiled eggs and chopped water cress or with tiny sprigs of water cress or chervil; set on ice till serving time, then carefully remove the papers and use.

Veal cake is a useful dish for picnics. There are various ways of making it, according to whether a rich, substantial dish is required for some special occasion or whether the purpose is merely to utilize a few slices of veal. One of the simplest modes is to cut the roast veal into slices, lay these in a mold alternately with a few slices of ham or tongue and between the layers, which should be well seasoned with pepper, intersperse thin slices of hard boiled egg. When the mold is full, pour in a little rich stock or good gravy. Bake for half an hour and turn out when cold. Another way is to mince a pound of lean veal and half a pound of streaky bacon; add to them a tablespoonful of mushroom

VEAL CAKE.

catchup, a gill of real stock, the grated rind of half a lemon, parsley, a seasoning of salt and paprika; press the mixture into a well buttered mold or basin, the inside of which may be decorated with slices of hard boiled egg, etc., cover with buttered paper and bake in a moderate oven for an hour and a half; turn out when quite cold and garnish with some buttery slices of lemon.

Rest in the Kitchen.

Be sure to have an easy lounge or chair in the kitchen, where you may spend the few waiting moments between the acts, as it were, in rest.

If you cannot afford to buy a lounge especially for that purpose, make one. This is easily done.

Get two long boxes from the dry goods store. Place them end to end and nail together. Make a mattress and fill it with any desired materials. Shredded shucks are clean and excellent. Over this drape any kind of cover to suit the fancy.

Be sure to get something that can be washed and ironed. Red and white bedtickings are pretty and desirable and never fade, and when laundered looks as good as new. Make a pillow to match.

Now, while you are watching the cakes, bread, pies and the like, remember there is your lounge. Rest. Do not say you have no time. You have to wait for your baking to brown. Why not rest while you wait?

You will be surprised how much refreshment you will gain even for one minute's relaxation upon this improvised lounging quarter.

Better Than Spanking

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. S. Wiers, Box 4, Windsor, Ont., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her to-day if you children trouble you in this way. Don't blame the child; the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.

THE GAME OF CHESS.

Finest Mental Drillmaster the World Has Ever Known.

When the Romans placed over the door of the temple of Janus "Ex Oriente Lux et Ludus Scacchorum" (Out of the East Came Light and the Game of Chess) they spoke of the two greatest bequests that the storied east had ever made to the young and aggressive west—the light of religion and the greatest mental achievement of man since he came through Eden's winking portals.

In the middle ages, when the monks and abbots watched from afar the brutal soldiery of Christendom swooping down like a pestilence on the sunny plains of the south, they chanted "A furor Normanorum libera nos, O Domine" (From the fury of the Northmen deliver us, O God) and returned to chess—all that was left a noble soul in a vain and turbulent world.

Chess is the finest mental drillmaster the world has ever known. As a mind trainer it ranks above Greek and dialectics.

But, above all, it is the science of battle; it is war without bloodshed; it is strife on equal terms, which all the race loves and to which from the cradle to the grave all mortality is subject.

SUMMER CATARRH.

Hot Weather Seems to Have Bad Effect Upon Some People.

It is generally recognized by physicians that many people suffer more with catarrh during the summer than in the winter. The hot, dry weather and the change from the hot days to cool nights seems to have a bad effect upon the disease.

Even after the usual methods of treating catarrh have been unsuccessful, Hyomei will cure the disease, and all catarrh sufferers should take the treatment.

In many instances Hyomei has cured catarrh when the patient has suffered since childhood. Quite a number of people in Chatham who for years have been unable to get a good night's sleep on account of the disagreeable tickling and dropping at the back of the throat, have obtained quick relief from a few treatments of Hyomei and the continued use has made a complete and lasting cure.

There is no stomach dosing when one uses Hyomei. Simply breathe the moderate air through the pocket inhaler that comes in every outfit and all germs will be killed and the mucous membrane will be healed.

The complete outfit costs \$1.00, extra bottles 50c.

ZULU WAR TACTICS.

Method of Attack with the Crescent Formation.

Zulu military tactics are associated with the name of Tyaka, the ruthless Zulu conqueror, who welded into the stock of the Amazulu, the people of the heavens, all the young men of the various tribes he conquered, incorporating them into regiments and thus building up a powerful military nation. Yet it was to Dingiswayo, the wanderer, that the inception was due. This man, the son of the chief of the Umtwa, was driven into exile in consequence of an abortive plot to seize the reins of power.

During that exile he lived in Cape Colony and saw the military methods of the British. With instinctive genius he saw how the rich could be added to his own nation, and on his return and accession to the chieftainship he divided his people into regiments, distinguishing them by names and by a special color of shield for each regiment, though for a time they retained the umkonto, or throwing assegai, as their chief weapon. He heard the great use made by the British infantry of their favorite weapon, the bayonet, and so he replaced the umkonto by the ixwa, or broad bladed stabbing assegai.

The peculiarity of the Zulu tactics has earned it the name of the crescent formation for attack, and it is noteworthy that, broadly speaking, it was the method employed by the Boers in their invasion of Natal and adopted by Lord Roberts in his advance through Orange River Colony, and it was the fear of its success which kept the Boers continually on the run. The best thing with which to compare it is, the head of the stag headed beetle. Horns are thrown out widely on either flank, while the main body forms the head itself. From the main body a small force is detached to engage the enemy while the horns creep around the flanks.

This force in the days of Tyaka was frequently dispatched with the command, "Go, sons of Zulu, go and return no more," and death at the hands of their fellows was the fate of those who returned. While this force was holding the enemy the horns carried out their task if possible, and as soon as the two horns had met in the rear of the enemy the head or chest was launched upon the position, and the upshot was that the whole force of the foe tasted the assegai, for in war no quarter was given or asked.

MODES OF THE MOMENT.

An Up to Date Trifle—The Sunburn Veil—How It is Adjusted.

The veil for preventing sunburn is among the up to date trifles of the summer wardrobe. Its difference from the automobile veil, however, is not in color or quality. Rather it is the manner of tying it on the head. Usually it is composed of chiffon a yard and a half or two yards long, and the popular colors are green and brown.

Automobile veils are generally put on from the brim of the hat downward,

WAIST FOR MATRONLY WOMAN.

The etiquette of Holland is exceedingly strict in all classes. The young girl is most carefully chaperoned, and she never goes anywhere, even to church, unless accompanied by her parents, some male relative or other equally trusted attendant. At a dance the parents sit round the walls sipping their coffee or wine, and the young men must make the best of their chances in the opportunities afforded by the dance, for when it pleases the guardians to depart there is no help for it, the girls must go too. An unmarried girl always takes the right arm of her escort, while the matron takes the left, perhaps because it is nearer the heart.

Lace evening wraps are seen more than any other style of cloak this summer. The finest quality of lace is not necessary, many of the wraps being comparatively inexpensive. Sleeveless capes are seen again, but a loose kimono sleeve is, as a rule, preferred. The lace wrap is made up elaborately with net and chiffon, the lining in most cases being of light silk or taffeta.

The surplice waist illustrated is very good style for a matronly woman. It is carried out in pin spotted rose colored silk. A cross over fichu of plain rose silk and a deep outer fichu of cluny lace finished with rosettes of black velvet ribbon complete the attractive model.

JUDIC CHOLLET.

FRIBBLES OF FASHION.

New Styles in Watches—Modish Handkerchiefs—The Latest in Collars.

To be up to date watches must be flat and enameled, so flat that they are as thin as the blade of a knife.

The pocket handkerchiefs fashionable women are using are quite large and made of the softest, finest material. They are simply hemstitched, the beauty of the mouchoir depending upon the excessive fineness of the lawn.

Linon collars to be worn with shirt waists have a frilled border or hem

BLACK STRAW HAT.

opening fanlike and plaited like those seen in Vandyke portraits. They are separate from the waist and are sold by the dozen.

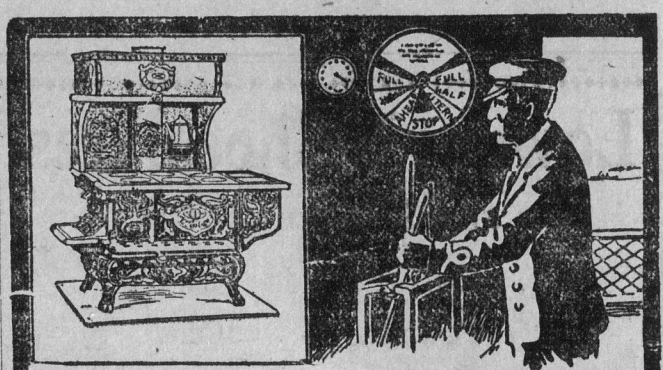

Tailored suits of covert cloth, either in the tan or English gray suitings, are good investments for fall wear. The shops are reducing their supply, and many of these suits are selling at a nominal price.

Thin materials, such as mousseline, chiffon and mull, are combined with checked silk, the silk being used as bands between others of the fabric itself or lace.

A black bon can be worn with any gown, so it is wise to get a good one. Net, for example, is twice as serviceable as malines, which loses its stiffness on the first damp day. The net should be trimmed with a quantity of black satin ribbon.

The hat illustrated is a charming undersummer model that will do duty in the fall. It is of black straw with a puffed chiffon crown. The ostrich pompon is white.

The etiquette of Holland is exceedingly strict in all classes. The young girl is most carefully chaperoned, and she never goes anywhere, even to church, unless accompanied by her parents, some male relative or other equally trusted attendant. At a dance the parents sit round the walls sipping their coffee or wine, and the young men must make the best of their chances in the opportunities afforded by the dance, for when it pleases the guardians to depart there is no help for it, the girls must go too. An unmarried girl always takes the right arm of her escort, while the matron takes the left, perhaps because it is nearer the heart.

Many a man is his own master as long as he is away from home.

An Example.

One of the most intimate friends of M. Dumas fils was a retired naval officer who lived in a distant corner of Normandy. As soon as the author of "Camille" died the officer went over all the letters which he had received from Dumas and destroyed every one which referred to any private affairs of the author. Where letters also contained literary and philosophical discussions he carefully blotted out the personal parts in order that nothing of a personal nature might ever reach a publisher. This is an example not often followed.

THE TROUBLE FROM DOVER

Investigation Into Charges
Of Graft, Against The
Clerk, Commenced

TO COME UP ON MONDAY

The investigation into the charges
of graft, made by Mr. Leonard in
his newspaper, the Wallaceburg Her-
ald-Record, against Dover Township
Clerk Welsh, was commenced this
morning in Judge Bell's chambers.
The investigation arises out of an
article which appeared in the Herald-
Record, in which it was hinted that
the Clerk received a rake-off out
of the township printing.

The township council, after cer-
tain statements made in connection
with the affair by the Clerk, who
denied the charge, ordered that this
investigation be held in order for
the Clerk to be given a chance to
vindicate himself. Fred Stone ap-
pears for Mr. Leonard, O. L. Lewis
for Mr. Welsh, and W. E. Gundy for
the township.

Certain papers relative to the af-
fair to be used as exhibits, were
fired this morning, and an adjourn-
ment was made until Monday morn-
ing next at ten o'clock.

Mr. Gundy asked the Judge to de-
fine Mr. Stone's position in the mat-
ter, and the Judge decided that when
the evidence is heard, that the
charge of graft, and the examination
of witnesses, and Mr. Stone will have
an opportunity to examine further
if he wishes to, on matters relative
to the issue. Mr. Lewis will have
the right to cross-examine the wit-
nesses.

The adjournment will give the par-
ties interested a chance to look over
the exhibits.

SPORT

FOOTBALL

A very exciting football game was
played last evening on Tecumseh
Park between the city team and the
LaCroix St. boys. The game was in
favor of the city team by a score
of 2-1. The LaCroix St. boys played
a very fast game and are the
makings of a strong team, but the
city team had the advantage over
them in combination. The line-ups
were as follows:—

CITY TEAM.
Goal—Dyer.
Backs—Fox and Humphrey.
Half-Backs—Bedford, Abraham
Scottie.
Forwards—Martin, Parrott, Greg-
ory, Newby and Cummings.

LACROIX ST. BOYS.
Goal—Dyer.
Backs—Johns, Jordan.
Half-Backs—Walker, Laurin, C.-
Lins.
Forwards—McKie, McComb, Shaw,
Jenks and Morrill.

Referee—Harrington.
Goals scored by Newby and Greg-
ory for the city team, and McKie for
the LaCroix St. boys.

A COUNTY LEAGUE.
A large and enthusiastic meeting
of representatives from the different
county football teams was held in
the Municipal Hall last evening for
the purpose of forming a county
league. The meeting was well at-
tended, and the greatest interest
was displayed by all those present.
It was decided, upon motion, that
such a league should be formed.
Accordingly, the following officers
were elected:—

Hon. Pres.—Geo. Langford, Sr.
Hon. Vice-Pres.—James Fox.
Pres.—R. A. Harrington.
Vice-Pres.—Geo. Meynell.
Secy.—Treas.—P. H. Parrott.

Protest Committee is to consist of
three officers, elected and a representa-
tive from each of the competing
teams.

The following rules are to govern
the league:—

1. Each team wishing to enter the
league must have in the hands of
the Secy. a fee of \$1 on or be-
fore the 22nd of September.

2. Only persons residing in the
county will be eligible to play with
any of the teams.

3. League games must start with-
in one-half hour of the advertised
time.

4. President shall appoint all
referees.

A letter was then read by Chair-
man Chas. Cumming from H. S.
Clements, M. P., in which he ex-
pressed his approval of a county
league, and placed at the hands of
executive a handsome silver trophy.

Another letter was then read
from A. B. McGee, M. P., in
which he stated that it would give
him much pleasure to donate eleven
gold medals to the winning team.

Both of these kind offers were
graciously accepted by the meeting.
A hearty vote of thanks was tend-
ered these gentlemen for their lib-
eral donations.

Mr. Geo. Meynell, who was pres-
ent at the meeting, then gave a
short address, in which he congrat-
ulated the different teams of the
county and presented the Chatham
team with twelve handsome even-
gers. Mr. Wm. Stone in a likewise
manner donated the caps,
while Mr. Roy Tobey of the 2 T's,
furnished the rest of the outfit.

P. S.—The game between St.
Thomas and Chatham, Thursday of
this week, at 5 o'clock p. m., on
Tecumseh Park is looked forward
to as a good fast game.

To Take Over Dockyards.
Ottawa, Sept. 8.—It is understood
that the Halifax Dockyards will be
taken over by the Canadian Govern-
ment from the Imperial authorities
early in October. Negotiations for
their transfer have been in progress for
some months past. The property is
worth several million dollars, and in-
cludes a number of valuable residences.

Power For Belleville.
Belleville, Sept. 8.—The city council
has appointed a committee to ascertain
how many power users in the city will
undertake to use power to be provided
by the Hydro-Electric Power Commis-
sion. The committee is to make an
application being made to the Commis-
sion for power for the City of Bel-
leville.

Blames For Wreck, Suicide.
Mattoon, Ill., Sept. 8.—J. O. Backus,
assistant superintendent of the Central
Illinois Traction Co., committed suicide
by shooting yesterday, following the
verdict of a coroner's jury fixing on him
the blame for a wreck on the road
two days ago, in which the motorman
was killed and several passengers se-
riously injured.

CHIEF HOLMES GETS A SHOCK

He Is Surprised At The
Honesty Of A Woman In
Dresden

MORE OF GAMBLING CASE

"Do I look well?" was Chief
Holmes' remark to The Planet's Po-
lice Court reporter this morning.

The reporter took a second look
but could not notice that the chief
had become any thinner. He hadn't
even commenced to lose his healthy
red cheeks. It was noticed that the
chief showed the effects of the
heat, as is the custom with all
people of similar dimensions these
warm days. Apart from this, there
was nothing noticeable to cause any
particular alarm.

"Well, I shouldn't look very well,"
he continued, "for I was paralyzed
this morning."

And then he pulled out a letter,
the reading of which, a few hours
previous, had caused him to experi-
ence a narrow escape from heart
failure.

It has been the custom for some
time for the ladies of the Home for
the Friendless to leave with the
Chief a pass book, from which he
can issue passes to people whom
the ladies send to him, and who are
stranded in Chatham and wish to
go home. A few weeks ago he was
called upon by a young woman
who wished to get railroad fare to
Dresden, and as she had no money
she applied to the Chief. The Chief
issued the pass, as the woman seem-
ed to be quite worthy and deserv-
ing.

When the pass is given out in
such cases the Chief generally
makes the receiver promise to send
the money back, at the earliest pos-
sible moment, and in every case, the
applicant being anxious to get the
pass, the promise is quickly and wil-
lingly made. It was so in the case
of the woman in question, and sure
enough, true to her promise, the
money was sent back this morning
by private messenger.

The chief could not believe his eyes
when he saw the money, for it was
the first time in the history of the
Chatham Police Court that money of
this kind has been returned. The
amount was 40 cents.

"It only goes to show," said the
Chief, "that there are a few honest
people left in this world, and
charge we find them even in the
Police Court."

Another information was laid yes-
terday afternoon against the man
who was convicted of keeping a
common gaming house. The new
charge is of selling liquor without
a license. The case will come up
later.

GAS WORKS' ACCIDENT

Sends 14 Men to Hospital Suf-
fering From Bad Burns.

Were Engaged in Lifting Massive Cov-
er From Vat of Chemicals When
Rush of Flame Overpowered Them—
Faces, Arms and Bodies of Victims
Are Badly Scorched—Pitiable Ap-
pearance of the Burned Men.

Toronto, Sept. 10.—While in the act
of raising the massive lid of a purifier
box at the Consumers' Gas Co.'s plant,
on Saturday morning about 11 o'clock,
a sudden rush of flame caused injuries,
more or less serious, to fourteen of the
company's employees.

Machinist James Pargeter, who was
examining the box to see that it was
sound, at the time when the outbreak
occurred, escaped without other ill-re-
sults than inhaling the fumes. He de-
scribes the fire as rushing out in foun-
tain-like volume.

Dr. Chambers, who has the injured
men under his charge, says that all will
recover. It was fortunate that the
flames did not ignite the clothing of the
men, otherwise, the burns would prob-
ably, in more than one instance, have
speedily proved fatal.

As it was, the victims were all burn-
ed either about the face, neck, or lower
arms, which were exposed to the
blast of fire. The men were suffering
acutely when brought to the hospital
and presented a pitiful appearance.
There were great weals of raw flesh
showing on faces drawn with suffering.
Eyebrows were scorched away by the
fierce blast.

The entire hospital staff busied them-
selves relieving the sufferings of the
victims.

Horse's Kick Fatal.
Bright—Sept. 10.—Robert Oliver, a
farmer residing about a mile from
Bright, was struck by a horse and died
of his injuries Friday night.

Tot Killed in Street.
Montreal, Sept. 10.—While playing in
the street Saturday in front of her
home, little two-year-old Alice Chap-
man, niece of the late Hon. J. A. Chap-
man, met a terrible death, being run
over by an express wagon. The little
tot was making mud pies in the street,
when the horse and wagon dashed over
her at a terrific rate.

Dog Saves Master.
Marlin, Sept. 10.—W. H. Howe was
gored by an infuriated bull the other
day, and would probably have been
killed but for his faithful dog, which,
after repeated attacks, drove the animal
away.

Boy Killed on Track.
Uxbridge, Sept. 10.—William Oxtoby,
13 years of age, was run over and
killed on the railway track near here
yesterday morning. The boy's parents
are deaf and dumb.

Body Found on Lake Shore.
Pickering, Sept. 10.—The badly de-
composed body of a young man was
found on the lake shore yesterday
morning. His clothing consisted of a
shirt and drawers only. Three
weeks ago a floating boat was picked
up in the same locality. It contained
a man's outer clothes, gold watch, etc.

CANNED THIMBLEBERRIES.
Fatal—Death of Mrs. Nash of Exeter
Gives Rise to Popular Story.

London, Sept. 10.—The sudden death
of Mrs. John H. Nash, two weeks ago,
in this city, has given rise to a pecu-
liar story.

It seems that nothing was said of the
affair at the time, the body being sent
to Exeter, where her parents, Mr. and
Mrs. S. Fansen, reside. At the hospi-
tal, where she died, it was said her
decease was due to asthmatic or bron-
chial trouble.

The late Mrs. Nash, however, was
only taken to Victoria Hospital two
hours before she died.

It appears now that some of the fam-
ily say that death was due to poison-
ing, caused by eating canned thimble-
berries. Certain other members of the
family were taken ill at the same time,
thereby giving rise to the idea that
Mrs. Nash was also poisoned.

She was not quite 25 years of age,
and, according to a letter sent the day
before her death to her parents in Ex-
eter, she mentioned that she had never
been in better health.

DEATH BEFORE DISGRACE.
Receiving Teller Suicide's When His
Theft Became Known.

Troy, N. Y., Sept. 10.—Arthur R.
Keefe, receiving teller for the Security
Trust Co., committed suicide at his
home here Saturday evening by drink-
ing cyanide of potassium. He lived but
a few minutes after taking the poison.
Mr. Keefe was short in his accounts
at the banking house, and it is believed
that fear of arrest and the disgrace at-
tending such action prompted him to
commit the deed.

The officials of the bank state that
Keefe was under bonds in the sum of
\$10,000, and that his irregularities will
be within these figures. The institution
will lose nothing.

Worried Over Money Loss, Suicide's.
Toronto, Sept. 10.—Worried over the
loss of some money until completely
deranged, Christopher Little, aged 57,
of 217 Dalhousie street, shot himself at
1 o'clock Sunday morning. Little end-
ed his life in the presence of his wife
and of William Thompson, son-in-law,
the latter of whom had been called to
try and quiet the aged man. Little
was a carpenter by trade and a mem-
ber of the L. O. L. and I. O. F., carry-
ing \$3,000 insurance. He leaves a
widow and two daughters. An inquest
will be held.

Dr. McLeod Pulls Revolver.
Niagara Falls, Ont., Sept. 10.—A
man from the northwest was fined \$15
and costs for pulling a revolver in the
face of a colored porter on Grand
Trunk No. 6 Saturday. He gave his
name as Dr. McLeod.

ceived from Mogador says that Anloos

A Police Officer's Evidence

INDIGESTION AND CONSTIPATION CURED

Mr. Alexander Gordon, a retired Police Sergeant,
of Merry Street, Motherwell, says:—"Up to two or
three years ago I enjoyed excellent health. Then my
bowels became disordered and I suffered most fearful
pain. Indigestion also attacked me and eating became
very unpleasant on account of the nauseous after-effects
and bad taste in the mouth. I also suffered from
weakness and terrible pains in the back.

I was very ill when Bileans were brought to my
notice. I decided to give them a trial. Obtaining a
supply, I was delighted to find that soon after com-
mencing the course I obtained relief. I persevered,
with the result that the constipation and back pains
were overcome, and the indigestion disappeared.
I am now as healthy as ever and can eat my food with
relish."

CHANGE OF SEASON AILMENTS.

At this time of the year the body needs toning up to meet
the demands that will be made upon it by the coming
winter. Signs of this need are headache, spells, a weak
"run down" feeling, biliousness, indigestion, etc. A short
course of Bileans will have the effect of toning up and
bracing up the whole system.

From Forest to Patient.

ALL modern science goes to prove
that herbal medicines are
vastly superior to those con-
taining mineral ingredients. The herbs of the field and the trees of the
forest constitute nature's "medicine chest," and the highest benefit which
science can confer on man is the discovery of nature's medicinal balms
and essences, and their preparation in form suitable for use by the people.

Bileans for Biliousness—the great Australian cure for indigestion, head-
ache, debility, liver trouble, etc.—are purely vegetable. They are entirely
different and superior to ordinary liver and stomach medicines. It is well
known that liver medicines hitherto in use mostly contain bismuth, mercury,
and other harmful mineral products, and rely upon these ingredients for
their temporary effects. These mineral constituents are very injurious if taken
for long, and produce such effects as that of loosening the teeth, causing the
hair to fall out, etc. Bileans are entirely superior. They are compounded from
extracts and juices of the finest known medicinal plants. In taking them there
is no fear whatever of any harmful secondary effects. They cure that which
they are taken to cure, and do not leave behind them evils worse than the
original ones. They do not merely purge and weaken, like the old-fashioned
medicines, or do the work which the liver and stomach should do. They tone
up and enable these organs to fulfil their proper functions, so that when a cure
is effected and Bileans are left off, the organs remain strong and healthy. Users
of Bileans need therefore never fear their use will lead to the contracting
of the terrible "pill-taking" habit.

STEAMER LETTERS.

Fan and Fanatics for the Ocean Traveler.

"Steamer letter" has come to have a peculiar significance in the language of travelers. The scope of such a letter is as wide as the ocean to which it belongs, for in its development it means anything from the gigantic baskets of fruits and flowers which, crowding the saloons on sailing days, are a burden to every one but the honored recipients, down to the humble postal card without even a picture, which has been scribbled by some enthusiastic friend, crammed in a post box and comes on at the last moment by the supplementary mail.

If one's object is simply to give a friend pleasure there is nothing that can accomplish this more surely than to send a package of letters to the purser of the steamer, asking him to deliver one each day during the voyage. After the first day out, when no postman makes his daily rounds, when the only news the wireless telegraph brings is that some actress has again lost her jewels or some great house at Newport has been burglarized, a personal letter, with the least touch of home feeling in it, will appreciate in value every second. Therefore if one is a good letter writer and can write a seemingly spontaneous letter for each day there is nothing that will give the absent voyager more pleasure. But, unfortunately, the talent of good letter writing is bestowed on few and those to whom fate has denied it must devise something else as a substitute for daily letters.

Where amusement alone is desired in a steamer letter the best way perhaps is to have for each day of the voyage a verse with some nonsensical accompaniment. For example, in one box a lemon, with a stick of candy through which it was to be imbibed, had this verse:

If a body feel the motion sailing o'er the sea,
Then a body take a notion very like to be.
Then a body needs a lemon. Here is one for you.

May it prove a strength and comfort, as 'tis said to do.

A box for a college girl had for the first day a tintype of three of her chums waving handkerchiefs in farewell, marked "To be opened on leaving the pier." A package of gum or a bottle of clam bouillon, both of which are said to be specifics for seasickness, will sometimes please those who "feel the motion." A "Jackson ball" can be sent as an "entire voyage souvenir."

A collection of funny pictures about the sea or traveling adventures can be made from old copies of Life or Filegarden Blatter and will never come amiss. A clever story of the ocean or of travel out from an old magazine and bound by itself in a piece of heavy wall paper will surely give pleasure. Good Housekeeping.

Archbishop Consecrated.

Halifax, N. S., Sept. 10.—The consecration of Archbishop McCarthy of St. Mary's Cathedral, Monaghan, Ireland, was the consecrating prelate.

Birth-marks, which mark and mar the outside of the body are a grief to every mother whose children may bear them. But for every child who bears a birth-mark on the skin there are many who bear an indelible birth-mark on the mind. Nervous mothers have nervous children and many a man and woman owes an irritable and despondent temperament to those days of dread when the mother waited the hour of her maternity. The use of Dr. Pierce's Favorite Prescription strengthens the mother for her trial. With strength comes a buoyancy of spirits and quietness of mind, which is one of the happiest gifts a mother can bestow on her offspring. By giving vigor and elasticity to the delicate womanly organs "Favorite Prescription" practically does away with the pain of maternity and makes the baby's advent as natural and as simple as the blossoming of a flower. There is no opium, cocaine or other narcotic contained in "Favorite Prescription."

Discretion in speech is more than eloquence.

All earthly ills yield to two all-potent remedies, time and silence.

Humor and Philosophy

JUST WEATHER.

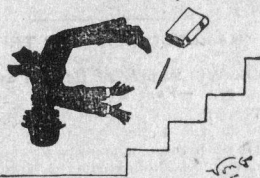

Sing a song of weather—
Often a mist.
Taken altogether,
There's a lot of it.
Rime the gantlet, truly,
When it is on deck.
And poor mortals duly
Get it in the neck.

In the summer season
Roasts us to a turn,
Thinks for some strange reason
Always makes connection
With a toe or ear.
Biting every member
In a way that stings
That we may remember
It is running things.

Always coax a fellow,
We have understood,
From his umbrella
When you look so good;
Then you stick it to thunder,
Handing him your word;
Tries to duck from under,
But you get there first.

Couldn't do without you,
Nor would we desire,
For there is about you
Something to admire.
Have to grin and bear it,
For it's just your ways,
But you try to square it
With some heavenly days.

Seemed That Way.

"What is his business?"
"He is an insulting engineer."
"You mean a consulting engineer."
"Possibly, but I just went inside and politely asked him to buy a book, and he ordered a husky attendant to throw me out."

His Wife's Hat.

One of the stock jokes with which man—the mean, horrid thing—amuses himself is in slighting because he cannot buy a farm and an automobile on account of the expense he is put to buying his wife new hats.

To hear him delivering his favorite free lecture on this subject one might think that he made a practice of buying a flower garden lid for his better half once a week and maybe once a day during the rush season. That, dear unmarried female readers, is about as far from the truth as John L. Sullivan is from the presidency.

The average man is doing mighty well if he buys his spouse a bit of millinery every two years. The rest of the time she fixes the old one over, and he raves over it and pronounces it better than new. That is because he is a fox gentleman, but he doesn't fool the neighbors or his wife's relations.

He Shrinks.

"Why are the hours after 12 called the small hours of the night?"
"Because a man feels so small when he comes home and tries to explain to his wife why he stayed out."

Decision.

"He is sick from eating too much spring chicken."
"Out on a fowl."

Useless Accomplishments.

She couldn't dance, she couldn't paint, and music always harried her. But, oh, how she could sew and cook. And that's why no one married her.

PETT PARAGRAPHS.

It isn't likely that you will ever be ashamed of paying your debts.

People can't help growing old, but why will they also insist on growing fat?

With some people a matter of credit is a debt forever.

If men spoke only when they had something to say we fear the power of speech would fall into disuse.

Any man who works at being the father of a four-year-old boy has a job that is hard to hold.

The debtor that never came is very numerous.

Now that I have a job, I am not so sure that I am not a debtor.

Umpiring a courtship is all trouble and no honors.

Ever notice that you never have to get up when you are not sleepy?

Getting some things for nothing is paying too much for them.

If you can't have a good opinion of your neighbors, try to give them a good opinion of you.

Occasionally you see a man who acts as if he considers himself a handsome majority.
