Who, being come with their Speaker,

His Excellency the Governor General was then pleased to open the Session by a gracious Speech to both Houses.

Honorable Gentlemen of the Senate :

Gentlemen of the House of Commons :

The hope I expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized.

Canada has been favored with a year of great prosperity.

Her farmers have enjoyed a plentiful harvest and remunerative prices.

Her manufacturing and other industries have been and continue to be developed under favorable auspices.

Her trade and commerce have been steadily increasing, and peace and order prevail within her borders.

For these various blessings we cannot be sufficiently thankful to the Giver of all good things.

The Chief Magistrate of the *United States* has been cut off by the hand of an assassin, and it is fitting that the sorrow of our people for a loss which was not that of our friends and neighbors alone, should be here adverted to as another instance of the sympathy which unites in brotherhood the British Empire and the American Republic.

During the Recess I had the pleasure of visiting the Province of *Manitoba*, and of traversing the extensive prairies of the *North-West*, and from personal examination can sincerely congratulate *Canada* on the possession of so magnificent and fertile a region to be inhabited, I trust, in the course of years, by millions of thriving and contented subjects of Her Majesty.

The immigrants have not confined themselves to *Manitoba* or its vicinity, but are scattered over the country westward to the base of the *Rocky Mountains*, and from the international boundary to the banks of the Northern *Saskatchewan*. It is, therefore, thought that the time has come for the division of the Territories into four or more Provisional Districts with an appropriate nomenclature. The subject will be submitted for your consideration.

During my journey I was met by numerous Indian tribes, all expressing confidence in the continuance of the traditional policy of kindness and justice which has hitherto governed the relations between the Government and the Aborigines.

I regret, however, to say that the necessity of supplementing the food supply of the Indians still exists and is likely to continue for some years.

Every exertion has been made to settle the Indian Bands on Reserves, and to induce them to betake themselves to the raising of cattle and cultivating the soil.

These efforts have met with a fair measure of success, but we can only expect by a long continuance of patient firmness to induce these children of the Prairie and the Forest to abandon their nomadic habits, become self-supporting, and ultimately add to the industrial wealth of the country.

The influx of a white population has greatly increased the danger of collision between the settler and Red man, and in my opinion renders an augmentation of the Mounted Police a matter of urgency. Your sanction to this increase will be sought.

The second Report of the Commission appointed to investigate the existing system of the Civil Service will be laid before you, and a measure on the subject submitted for your consideration.

The decennial Census having been taken last year, the duty of reconsidering and re-adjusting the representation in the House of Commons is imposed upon you. A measure for the purpose will be laid before you.

Several other measures of importance will be submitted to you. Among them will be Bills for the winding up of Insolvent Banks, Insurance Companies and Trading Corporations; for the consolidation and amendment of the Laws respecting the Dominion Lands; for the amendment of the Acts relating to the Supreme Court of Canada, and Bills relating to the tenure of office of the Judges of County Courts, and to Fugitive Offenders within the Empire; and your attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction.

The work of construction on that portion of the Canadian *Pacific* Railway between *Prince Arthur's Landing* and *Winnipeg* is being pressed to completion, and it is confidently expected that in July next, railway communication will be established between those places. The section between *Rat Portage* and *Winnipeg*, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract, to the Canadian *Pacific* Railway Company, by whom it is now operated. Considerable progress has been made on the Eastern Section, commencing at *Callander Station*, and the vigorous prosecution of the work on that portion of the line during the present year provided for.

In *British Columbia* the work upon the section between *Savona's Ferry* and *Emory's Bar* is being carried on, with every prospect of its completion within the time specified in the contract, and the line from the latter place to *Port Moody*, which has been carefully located during the past season, is now being placed under contract with a view to its completion at the same date as the section from *Savona's Ferry* to *Emory's Bar*.

Upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward. During the past summer the road has been graded for the distance of two hundred and eighteen miles, and of this, one hundred and sixty-one miles are open for traffic.

The Company have, in addition, graded eighty-nine miles of branch lines.

I am pleased to be able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

The works on the *Welland Canal* were so far advanced that the waters of *Lake Erie* were introduced for its supply in June last, and in September the new portion of the Canal between *Allanburg* and *Port Dalhousie* was opened for traffic.

You will be pleased to know that a monthly line of steamers which has been subsidized under the authority of Parliament, is now plying between the Dominion and *Brazil*, with good hopes of a mutually profitable trade.

The Report of a Royal Commission issued to inquire into the question of factory labor, and into the best means of promoting the comfort and well-being of the workingman and his family, without undue interference with the development of our manufacturing industries, will be laid before you, and I invite your earnest consideration of this report.

Gentlemen of the House of Commons :

The Accounts of the last year will be laid before you. It will be satisfactory to you to find that the Expenditure has been less and the Revenue considerably more than the Estimates of last year, leaving a surplus of over four millions of dollars. A portion of this sum has been used in the reduction of the public debt by the redemption of matured debentures bearing six per cent. interest, and the remainder applied to the payment for public works chargeable to capital account. The necessity of issuing the Debenture Loan authorized by Parliament for those purposes has therefore been obviated.

The Estimates of the ensuing year will also be submitted, and will, I trust, be found to have been framed with due regard to economy and the efficiency of the public service.

*Honorable Gentlemen of the Senate :**Gentlemen of the House of Commons :*

I now invite your attention to the several subjects mentioned and to the general business which will come before you, with full confidence in your ability and patriotic desire to forward the best interests of the country.

His Excellency the Governor General was pleased to retire, and the House of Commons withdrew.

The House resumed.

The Honorable Sir *Alexander Campbell* presented to the House, a Bill intituled :
"An Act relating to Railways,"

The said Bill was read for the first time.

The Honorable the Speaker reported His Excellency's Speech from the Throne, and the same was then read by the Clerk.

On motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Hamilton (Kingston)*, it was

Ordered, That the House do take into consideration the Speech of His Excellency the Governor General to-morrow.

On motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Hamilton (Kingston)*, it was

Ordered, That all the Members present during this Session be appointed a Committee to consider the Orders and Customs of this House and Privileges of Parliament, and that the said Committee have leave to meet in this House, when and as often as they please.

Then, on motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Hamilton (Kingston)*,

The House adjourned.

PRAYERS :

The following Petition was brought up and laid on the Table :—

By the Honorable Mr. *MacInnes (Hamilton)*,—Of the Canadian Steam Users Insurance Association, *Toronto*.

The Honorable the Speaker presented to the House,—Returns of the Baptisms, Marriages and Burials, in the District of *Ottawa, Kamouraska* and *Joliette*, and in the County of *Gaspé*, for the year 1880.

Ordered, That the same do lie on the Table, and they are as follow :—

(*Vide Sessional Papers No. 21.*)

The Honorable the Speaker presented to the House, The Report of the Librarian on the state of the Library of Parliament.

The same was then read by the Clerk, and is as follows :—

TO THE HONORABLE THE SENATE OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian on the state of the Library of Parliament respectfully sheweth :—

That for the reasons stated in the last Annual Report, the sum available for the purchase of books within the past year was but half the ordinary amount. Conse-

quently the additions made to the General Library during that period were comparatively few. In those classes, however, which are chiefly consulted by Members during the sittings of Parliament, the Librarian has endeavored to render the Library as complete as possible.

The collection and binding of the principal newspapers published in the several Provinces of this vast Dominion,—although a work of unquestionable necessity, and of increasing value for future reference,—is nevertheless a heavy item of expense. But, in view of the exceptional nature of such expenditure, application has been made to the Treasury for an addition to the Vote for Library Contingencies, to defray the cost of binding executed in Canada.

The purchase of Canadian Law Reports, for distribution to Exchange Libraries, has likewise borne heavily upon our funds, hitherto. However, at the request of the Joint Library Committee, the Government have agreed to charge the cost of such Reports to the fund out of which it is customary to provide for the purchase of Canadian works, selected or approved by Government for similar distribution.

By these arrangements it is hoped that the Parliamentary grant for the augmentation of the Library will henceforth be relieved of charges which, however indispensable to be incurred, do nevertheless materially reduce the means available for the purchase of books in Europe, and in the United States.

The rapid strides now making by Canada in population, and in the various elements of material prosperity, are naturally imparting an impetus to intellectual activity and literary research amongst our people. To keep pace with this progress, and to foster the development of learning, and of mental improvement, generally, in our midst, it is indispensable that this, the sole public Library in the Dominion, should not fall into arrears. To avoid such an evil, the liberality of Parliament in this direction is earnestly besought. Already the Library is largely resorted to by literary men, and seekers after knowledge, in all parts of the country. Great public advantage has ensued from the opportunities thus afforded to students; but the benefits will be proportionably augmented as the collection attains a greater degree of completeness, in the different branches of science, literature, and art.

The Librarian has observed, with regret and disappointment, that upon the removal of the Supreme Court to more commodious quarters, it was not deemed expedient to restore the rooms thereby vacated to their original destination, and former occupancy, for Library purposes. In the anticipation of this event, he had repeatedly urged, in previous Reports to Parliament, the benefits that would accrue from restoring these apartments to the use of the Library. He is well aware that the exigencies of the House of Commons, at the present time, have appeared to demand the employment of these rooms for other purposes, more immediately urgent. But he would crave permission respectfully to place on record his belief that, in the near future, when the question of additional space for the Library shall have become imperative, such further provision can in no other way be so suitably supplied as by incorporating the rooms vacated by the Supreme Court with the Library premises; whilst, by adding a small wing to the main Parliament Building, superior accommodation might be obtained for the House of Commons requirements, in close proximity to the House itself.

The donations received, and the works deposited under the Copyright law, during the past year, have been exceptionally numerous, as will appear from the lists hereunto appended.

The number of volumes in the Library last year was estimated at 98,196. Since then, the total number has increased to about 100,800 volumes.

All which is respectfully submitted,

ALPHEUS TODD,

Librarian of Parliament.

(For List of Copyrights, Donations, &c. Vide Sessional Papers No. 13.)

Ordered, That the same do lie on the Table.

The Honorable the Speaker presented to the House,—A List of the Shareholders of The *Molson's Bank* as on the 31st January, 1882.

And also, a List of the Shareholders of *La Banque Nationale* as on the 16th April, 1881.

Ordered, That the same do lie on the Table, and they are as follow :—

(Vide Sessional Papers No. 22.)

The Honorable Mr. *MacInnes* (*Hamilton*), moved, seconded by the Honorable Mr. *Ogilvie*,

That the following Address be presented to His Excellency the Governor General to offer the respectful thanks of this House to His Excellency for the gracious Speech he has been pleased to make to both Houses of Parliament: namely :—

To His Excellency the Right Honorable Sir JOHN DOUGLAS SUTHERLAND CAMPBELL (commonly called the Marquis of *Lorne*), Knight of the Most Ancient and Most Noble Order of the Thistle, Knight Grand Cross of the Most Distinguished Order of *Saint Michael* and *Saint George*, Governor General of *Canada*, and Vice-Admiral of the same, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY :

We, Her Majesty's dutiful and loyal subjects, the Senate of *Canada*, in Parliament assembled, respectfully thank Your Excellency for your gracious Speech at the opening of this Session.

We feel with Your Excellency that the hope you expressed at the close of the last Session, that on the re-assembling of Parliament we should be able to congratulate ourselves on a season of peace and prosperity has been fully realized :

Canada has been favored with a year of great prosperity :

Her farmers have enjoyed a plentiful harvest and remunerative prices :

Her manufacturing and other industries have been and continue to be developed under favorable auspices :

Her trade and commerce have been steadily increasing, and peace and order prevail within her borders :

And for these various blessings we cannot be sufficiently thankful to the Giver of all good things.

The Chief Magistrate of the *United States* having been cut off by the hand of an assassin, we feel that it is fitting that the sorrow of our people for a loss which was not that of our friends and neighbors alone, should be adverted to by Your Excellency as another instance of the sympathy which unites in brotherhood the British Empire and the American Republic.

We learn with great satisfaction that during the recess Your Excellency had the pleasure of visiting the Province of *Manitoba*, and of traversing the extensive prairies of the *North-West*, and that you are able, from personal examination, sincerely to congratulate *Canada* on the possession of so magnificent and fertile a region, to be inhabited, we trust, in the course of years, by millions of thriving and contented subjects of Her Majesty.

We recognize the fact that the immigrants have not confined themselves to *Manitoba* or its vicinity, but are scattered over the country westward to the base of the *Rocky Mountains*, and from the international boundary to the banks of the Northern *Saskatchewan*; we agree with Your Excellency in thinking that the time has come for the division of the Territories into four or more Provisional Districts,

with an appropriate nomenclature, and that this subject, when submitted to us by Your Excellency, will receive our attentive consideration.

We are pleased to learn from Your Excellency that during your journey you were met by numerous Indian tribes, all expressing confidence in the continuance of the traditional policy of kindness and justice which has hitherto governed the relations between the Government and the Aborigines, while we share Your Excellency's regret that the necessity of supplementing the food supply of the Indians still exists and is likely to continue for some years.

We are happy to know that every exertion has been made to settle the Indian Bands on Reserves, and to induce them to betake themselves to the raising of cattle and cultivating the soil, and that these efforts have met with a fair measure of success; but we are aware that we can only expect by a long continuance of patient firmness to induce these children of the Prairie and the Forest to abandon their nomadic habits, become self-supporting, and ultimately add to the industrial wealth of the country, and that the influx of a white population has greatly increased the danger of collision between the settler and the Red man; we observe that Your Excellency is of opinion, that an augmentation of the Mounted Police has been rendered a matter of urgency, and our attention shall be given to the sanction of such increase as Your Excellency may think it necessary to seek.

We learn with much satisfaction that the second report of the Commission appointed to investigate the existing system of the Civil Service will be laid before us; and any measure on the subject submitted to us shall receive our willing consideration.

We are aware that the decennial Census having been taken last year, the duty of reconsidering and readjusting the representation in the House of Commons is imposed upon us, and we will carefully consider any measure for the purpose which may be laid before us.

We learn with much interest that several other measures of importance will be submitted to us, and that among them will be Bills for the winding-up of Insolvent Banks, Insurance Companies and Trading Corporations, for the consolidation and amendment of the Laws respecting the Dominion Lands, for the amendment of the Acts relating to the Supreme Court of *Canada*, and Bills relating to the tenure of office of the Judges of County Courts, and to Fugitive Offenders within the Empire; and that our attention will be called to the present anomalous position of the Vice-Admiralty jurisdiction; and all these measures, when submitted, shall receive our best attention.

That we receive with much satisfaction the information which Your Excellency has afforded us respecting the Canadian Pacific Railway, and are glad to know,—

That the work of construction on that portion of the said railway between Prince *Arthur's Landing* and *Winnipeg* is being pressed to completion, and that it is confidently expected that in July next railway communication will be established between those places; that the section between *Rat Portage* and *Winnipeg*, one hundred and thirty-five miles in length, has been completed and transferred under the terms of the contract to the Canadian *Pacific Railway Company*, by whom it is now operated; that considerable progress has been made on the Eastern Section commencing at *Callander Station*, and that the vigorous prosecution of the work on that portion of the line during the present year has been provided for:

That in *British Columbia* the work upon the section between *Savona's Ferry* and *Emory's Bar* is being carried on, with every prospect of its completion within the time specified in the contract, and that the line from the latter place to *Port Moody*, which has been carefully located during the past season, is now being placed under contract with a view to its completion at the same date as the section from *Savona's Ferry* to *Emory's Bar*:

That upon the sections to be constructed by the Railway Company, the work has been most energetically carried forward. That during the past summer the road has been graded for the distance of two hundred and eighteen miles, and that of this, one hundred and sixty-one miles are completed and open for traffic:

And that the Company have, in addition, graded eighty-nine miles of branch lines.

We share the pleasure expressed by Your Excellency in being able to state that the traffic on the Intercolonial Railway has largely increased, and that this line was during the last fiscal year, for the first time in its history, worked without loss to the country.

We are glad to learn that the works on the *Welland Canal* were then so far advanced that the waters of *Lake Erie* were introduced for its supply in June last, and that in September the new portion of the Canal between *Allanburg* and *Port Dalhousie* was opened for traffic.

We are pleased to know that a monthly line of steamers which has been subsidized under the authority of Parliament, is now plying between the Dominion and *Brazil* with good hopes of a mutually profitable trade.

We shall read with great interest the Report of a Royal Commission issued to inquire into the question of factory labor, and into the best means of promoting the comfort and well-being of the working man and his family, without undue interference with the development of our manufacturing industries, which Your Excellency is pleased to say will be laid before us, and shall give it our most earnest consideration.

Your Excellency may rest assured that we shall give our best attention to the several subjects mentioned by you, and to the general business which will come before us, and that we thank Your Excellency for the expression of your full confidence in our patriotic desire and our ability to forward the best interests of the country.

After Debate,

The question of concurrence being put thereon, the same was unanimously resolved in the affirmative.

The Sub-Committee, to whom was referred the Bill intituled: "An Act to incorporate the '*Quebec* Timber Company (Limited),' " beg to report that in their opinion the doubts which have arisen as to the jurisdiction of Parliament to legislate, as is in the said Bill proposed, are sufficiently serious to make it expedient to obtain, before proceeding further with the Bill, the report of the Supreme Court, or two of the Judges thereof, under the 33rd Section of "The Supreme and Exchequer Court Act."

The Sub-Committee recommend that the Committee report the Bill back to the Senate with a recommendation that the Senate, under its 55th Rule, do refer the Bill to the Supreme Court, to examine and report thereon, and more particularly:—

1st. Whether a Company, already incorporated under "The Companies Act of 1862 to 1880," of the Imperial Parliament for the purposes mentioned in the Bill, has a legal corporate existence in *Canada*, and, if so, whether a second corporate existence can, upon its own application as a Company, be given to it by the Canadian Parliament, and

The Court pray to be excused from answering this question, on the ground that the question affects private rights which may come before it judicially, and which ought not to be passed upon without trial.

[REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM,
21st February, 1882.

The Sub-Committee of the Joint Committee on the Printing of Parliament, to whom was referred the audit of the Printing Accounts for the past year, beg leave to report as follows :—

That they have carefully examined the annual Statement of the Parliamentary Printing Accounts, and having verified the expenditure by the accounts and vouchers as well as by the cheques which were issued in payment of the same, and being thus satisfied of their correctness, have so certified and signed their names.

The Sub-Committee would draw especial attention to the fact that these accounts, vouchers and cheques had already been furnished the Auditor-General monthly, as well as the annual statement for audit and examination, and have been certified to as per his letter annexed to the annual Statement.

The Sub-Committee have much pleasure in again drawing attention to the further reduction effected under the supervision of the Committee in the cost of the printing services of the past year, amounting to \$5,572.02.

This result has been attained by the care taken in not printing returns of a private or local nature which do not affect the public welfare, as also by the very favorable prices which pertain in the present contracts.

Under the above circumstances, the Sub-Committee concur in the recommendation that the Estimates for the next year be reduced by \$10,000.

All which is respectfully submitted.

REPORT OF THE CLERK OF THE COMMITTEE.

COMMITTEE ROOM,
16th February, 1882.

*To the Chairman and Members of the
Joint Committee on Printing.*

GENTLEMEN,—In submitting the usual annual Statement shewing the expenditure for the Printing of Parliament, I would draw attention to the further decrease in the cost for the past year of \$5,572.02.

The reductions in the two past years are to be attributed, in the first place, to a diminution of the quantity of work to be performed as recommended by the Committee, and, secondly, in a much larger degree, to the very material difference in the prices which prevail under the present contract as compared with those of the previous one.

Under the circumstances I have felt justified in asking that the Estimate for the Parliamentary Printing for the next year be reduced by \$10,000, subject to the approbation of the Committee.

The annual Statement was submitted to the Auditor-General for examination, he having previously been furnished monthly with all the accounts and vouchers that had passed through my hands, as well as the cheques issued by me in payment of those same accounts. The only difference between us, as shown by his letter appended, is the application of the money paid by parties for the printing of their Private Bills, he treating it as "Casual Revenue," while I charge it as a "Refund" for the purpose for which it was intended, viz. : for reducing the cost of Private Bill Legislation. The accounts, vouchers and cheques are still in the custody of the Auditor-General.

The several services have been performed in the usual satisfactory manner ; no complaints have been made to me.

I have the honor to be,

Your obedient and humble servant,

HENRY HARTNEY,

Clerk, Joint Committee on Printing.

Then, on motion of the Honorable Sir *Alexander Campbell*, seconded by the Honorable Mr. *Aikins*,

WEDNESDAY, 5th April, 1882.

PROTEST entered this day in the Clerk's Book, before the rising of the Senate, against the second reading of the Bill intituled: "An Act concerning marriage with a deceased wife's sister," on Tuesday the 4th instant.

DISSENTIENT.

First. Because the Bill is contrary to the principles of sound legislation.

Second. Because the passing of the Bill is an encouragement to a class of marriages which have been generally discouraged and regarded with disfavor by Christian Churches and legislators throughout the world, from the earliest days of Christianity up to the present century.

Third. Because the natural tendency of the Bill is to disturb and disarrange domestic relations, which have been settled and recognized for many centuries, and to introduce confusion and trouble into families.

Fourth. Because the Bill is contrary to the spirit of Christianity.

Fifth. Because it is very doubtful whether the Parliament of *Canada* has power to pass the Bill, for the reason that the subject-matter thereof seems to be one of the matters placed by the *British North America Act, 1867*, within the exclusive jurisdiction of the Legislatures of the Provinces.

Sixth. Because the Bill deals with a matter which, by virtue of the treaties between France and England, respecting the cession of *Canada* to the latter power, was to be regulated by the system of law existing in *Canada* at the time of the said cession, and which, by virtue of the said treaties and of various Acts of the Imperial Parliament relating to *Canada*, including, amongst others, the Act 14 *George III.*, Chapter 83, and the *British North America Act, 1867*, is to be regulated by the system of law now prevailing in the Province of *Quebec* and by the Legislature of that Province.

Seventh. Because the Bill is contrary to the spirit of the *British North America Act, 1867*, and to the intentions of the framers thereof, as shewn by the declaration of the Canadian Government at the time of Confederation (1865.)

Eighth. Because the evidence before the Senate as to the popular sentiment on the matter, goes to show that that sentiment is hostile rather than friendly to the proposed change.

PRAYERS:

o

The Honorable Sir *Alexander Campbell*, Minister of Justice, presented to the House the following communication from the Earl of *Kimberley* :—

Colonial Office to Governor General.

Copy
Canada }
Secret. }

DOWNING STREET, 2nd February, 1882.

MY LORD,—In his Despatch No. 4, of the 5th of February, 1878, my predecessor informed the Governor General of *Canada*, that the subject of the Extradition relations of this country with Foreign Powers being at that time under the consideration of a Royal Commission, Her Majesty's Government had not thought it advisable to take any steps for suspending in *Canada* the operation of the Imperial Extradition Act of 1870, as desired by the Joint Address to the Queen from the Senate and House of Commons of the Dominion, transmitted to the Secretary of State, in the Governor General's Despatch No. 112, of the 18th of April, 1877.

2. In a telegram addressed to the Secretary of State, in March, 1880, you recalled attention to this subject, and enquired the intentions of Her Majesty's Government in regard to it. Your Lordship was informed in reply, by a telegram from my predecessor, to the effect that Her Majesty's Government wished to reconsider with the Dominion Government sub-section 3, Section 16 and Section 2, Clause 18 of the Act passed by the Legislature of *Canada*, in April, 1877, before recommending to Her Majesty, the issue of an Order-in-Council, as desired by the Address of the Canadian Parliament above referred to, and that they had been advised in 1877, that the power conferred by the first of these Clauses on the Minister of Justice, was very extensive, and that in most cases the exercise would constitute a breach of Treaty obligations.

3. I have now received your telegram of the 24th of January, intimating that your Ministers are anxious for details of the objections of Her Majesty's Government, as the matter will probably be discussed in *Canada* during the Session of the Dominion Parliament.

4. As regards the objection to the second section of Clause 18, I need only refer you to the despatch addressed to the Earl of *Dufferin*, by the Earl of *Carnarvon*, on the 5th of April, 1877, and to His Lordship's confidential despatch of the 1st of June, 1877.

5. Her Majesty's Government attach more importance to the objection to sub-section 3 of Section 16, which gives to the Minister of Justice, power to refuse to make an order for the surrender of a fugitive from justice "for any other reason," than those set forth in the section. They agree in the opinion given by the late law officers of the Crown, referred to in the telegraphic communication to which I have adverted above, as to the effect of the power conferred on the Minister of Justice by this sub-section 3 of Section 16, and they would wish the Government of the Dominion to consider this point further.

6. An abrogation of the very extensive power in question would, as I am advised, remove the difficulty which at present hinders the issue of the Order-in-Council for suspending in *Canada*, the operations of the Imperial Extradition Act of 1870.

I have, &c.,

(Signed)

KIMBERLEY.

 the Queen, in relation to affairs in *Ireland*; and requesting their Honors to unite

Attest,

JOHN GEORGE BOURINOT,

Clerk of the Commons.

The said Address to Her Most Gracious Majesty was then read by the Clerk, as follows :—

TO THE QUEEN'S MOST EXCELLENT MAJESTY :

Most Gracious Sovereign :

We, Your Majesty's most dutiful and loyal subjects, the Commons of *Canada*, in Parliament assembled, desire most earnestly, in our own name, and on behalf of the people whom we represent, to renew the expression of our unswerving loyalty and devotion to Your Majesty's person and Government.

1. We have observed, may it please Your Majesty, with feelings of profound regret and concern, the distress and discontent which have prevailed for some time among Your Majesty's subjects in *Ireland*.

2. We would respectfully represent to Your Majesty that Your Irish subjects in the Dominion of *Canada* are among the most loyal, most prosperous, and most contented of Your Majesty's subjects.

3. We would further respectfully represent to Your Majesty that the Dominion of *Canada*, while offering the greatest advantages and attractions for those of our fellow-subjects who may desire to make their homes amongst us, does not receive that proportion of emigrants from *Ireland* which might reasonably be expected, and that this is due, in a great measure, in the case of many of our Irish fellow-subjects who have sought foreign homes, to their feelings of estrangement towards the Imperial Government.

4. We would further most respectfully represent to Your Majesty, that in the interests of this, Your loyal Dominion and of the entire Empire, it is extremely to be desired that Your Majesty may not be deprived, in the development of Your Majesty's possessions on this continent, of the valuable aid of those of Your Majesty's Irish subjects who may feel disposed to leave their native land to seek more prosperous homes.

5. We desire respectfully to suggest to Your Majesty, that *Canada* and its inhabitants have prospered exceedingly under a Federal system, allowing to each Province of the Dominion considerable powers of self-government, and would venture to express a hope that if consistent with the integrity and well-being of the Empire, and if the rights and status of the minority are fully protected and secured, sure means may be found of meeting the expressed desire of so many of Your Irish subjects in that regard, so that *Ireland* may become a source of strength to Your Majesty's Empire, and that Your Majesty's Irish subjects at home and abroad may feel the same pride in the greatness of Your Majesty's Empire, the same veneration for the justice of Your Majesty's rule, and the same devotion to, and affection for, our common flag, as are now felt by all classes of Your Majesty's loyal subjects in this Dominion.

6. We would further express a hope that the time has come when Your Majesty's clemency may, without injury to the interests of the United Kingdom, be extended to those persons who are now imprisoned in *Ireland* charged with political offences only, and the inestimable blessing of personal liberty restored to them.

We pray that the blessings of Your Majesty's Reign may, for Your people's sake, be long continued.

J. G. BLANCHET,
Speaker.

Ordered, That it be received, and
The same was then read by the Clerk, as follow :—

THE SENATE,
COMMITTEE ROOM,
Friday, 5th May, 1882.

The Committee appointed to enquire into the best means to be adopted to obtain correct reports of the Debates and Proceedings of the Senate, and for the publication of the same, and to report from time to time their views to the House, have the Honor to make their Second Report.

That during the present Session on all important questions that have been considered in the Senate, Reporters from several of the leading Journals of the Dominion have attended the sittings in the Chamber, and have given to the Public, through the columns of the daily papers, a synopsis of the Proceedings of the Senate, and on debates of general interest have furnished to the public abbreviated Reports of the speeches delivered.

The Official Reports in the *Hansard* does not seem to have reached the general public, owing no doubt to the earlier publication of the synopsis in the morning papers.

The *Hansard* has thus become a record only of the proceedings of the Senate, valuable no doubt as a reference in future debates, but in the opinion of many Senators it is questionable whether its continuance at an expense of \$5,000.00 would be warranted if it is to serve as a record only.

Your Committee have therefore come to the conclusion to suggest its discontinuance, and if the House concurs in that opinion your Committee would recommend that an effort be made at the beginning of the next Session to obtain a more extended Report of the utterances of the Senate through the Reporters of the leading daily Journals.

Your Committee desire to bear willing testimony to the efficient and satisfactory manner in which the official reporting has been performed. The gentlemen engaged on the *Hansard* have faithfully observed all the conditions in their agreement with the Committee.

All which is respectfully submitted.

ALEX. MACFARLANE,
Chairman.

On motion of the Honorable Mr. *Macfarlane*, seconded by the Honorable Mr. *Scott*, it was

Ordered, That the said Report be taken into consideration by the House on Monday next.

The Honorable Mr. *Read*, from the Select Committee appointed to examine and report upon the Contingent Accounts of the Senate for the present Session, presented their Fourth Report.

Ordered, That it be received, and

THE SENATE,

5th May, 1882.

PRAYERS :

The Honorable Mr. *Odell*, from the Joint Committee of the Senate and House of Commons, appointed to assist His Honor the Speaker in the direction of the Library of Parliament, presented their First Report.

Ordered, That it be received, and

The same was then read by the Clerk, as follows :—

The Members, on behalf of The Senate of the Joint Committee on the Library of Parliament, beg leave to present a First Report :—

Adverting to their recommendation made at the last Session of Parliament, approving of the purchase, from Mr. *Gerald E. Hart*, of his valuable and unique Collection of coins and medals, illustrating the History of *Canada*, from the first settlement of the country under the French régime, to the present time, the Committee desire to renew the expression of their opinion in favor of this purchase. They understand that Mr. *Hart*, is still willing to dispose of the Collection for the sum of Two thousand five hundred dollars. But he has since compiled a descriptive Catalogue of the pieces, which appears to be of much historical interest, independently of its special utility as explaining the worth of each individual coin and medal. For this catalogue an additional sum of Five hundred dollars is asked. The Committee consider this to be a reasonable price, and they advise that if the Government ask and obtain the consent of Parliament to the purchase of this Collection, and decide to deposit it in the Library of Parliament, the Catalogue be printed for the information of Members. Proper arrangements should also be made for the care, exhibition, and safe keeping of the Coins.

Since the removal of the Supreme Court from the Parliament House to a separate Building, much inconvenience has arisen to the Judges and lawyers attending the Court, on account of the inaccessibility of the Law Books which should

be on hand for consultation. With a view to avoid unnecessary expenditure in the purchase of duplicate works, and at the same time to afford all possible facility for reference to the Judges, the Committee have approved of the transfer of the series of Law Reports (those of the English Courts up to the year 1865, and the American Reports to the present time, with the continuations hereafter procured) from the Parliament Library to the Court Building. These Books, however, still to remain the property of the Library of Parliament, and to be in charge of a clerk detailed from the Library for this service. It is also to be understood, that Members of Parliament, Government Officers, and all other persons heretofore permitted to have access to these Books, shall have equal liberty to consult them in the Court Building as formerly. The Committee object to the removal from the Parliament Library of any text-books or Colonial Reports. Such Books they consider should be purchased for the exclusive use of the Supreme Court.

In the apartment recently vacated by the Supreme Court, but now occupied as a News Room for the House of Commons, the Committee observe that shelves have been placed for the reception of Books. The Committee believe that the use of these shelves by the Librarian would add very materially to the accommodation increasingly required. But they agree with the Librarian in the opinion that before this shelving could be safely utilized, it will be necessary that it should be covered in by sliding glass doors, and should be placed under lock and key. When this has been done, large series of Books, not in frequent use, can be deposited in this apartment, without risk, and with considerable advantage.

The Committee would advise that the transcripts of papers, and original historical documents concerning *Canada*, which have been, or may hereafter be collected under the direction of the Bureau of Agriculture and Statistics, should be permanently deposited in the Library of Parliament, which already contains much important material, in manuscript, of a similar description. They also recommend that the drafts of the Constitutions granted to the British North American Colonies, recently applied for by Address of the House of Commons, should be placed in the Canadian department of the Library, when received from *England*.

The Committee observe, with surprise and regret, that there has been much irregularity in the return of Books, borrowed by persons during recess of Parliament, upon Tickets obtained from The Speakers of either House. With a view to correct this reprehensible abuse, and to ensure punctuality in future on the part of those to whom this privilege may be accorded, they have authorized the Librarian to withhold the further loan of Books to persons now in default, until all arrears have been made good, and hereafter to enforce a stricter rule in this particular.

The Report of the Sub-Committee on the accounts of Expenditure of the Grant for the augmentation of the Library, which embodies suggestions for relieving the Annual Grant of certain heavy items, that materially diminish the sum available for the purchase of Books for general reading and reference, is herewith submitted.

LIBRARY OF PARLIAMENT.

REPORT OF THE SUB-COMMITTEE OF AUDIT.

The Sub-Committee appointed by the Joint Committee on the Library of Parliament for the Session of 1882, to audit and report upon the accounts connected with the Library of Parliament for the past year, present the following Report:—

That they have inspected the various accounts submitted to them which have been paid since the last audit numbered 809 to 899, both inclusive, together with a draft in favor of *E. G. Allen*, for \$1,038.75, and two in favor of *Bossange*, for \$156.74

and \$267.08 unnumbered, amounting in the whole to the sum of Four thousand three hundred and twenty-two dollars and eight cents (\$4,322.08), and have examined the several receipts and vouchers for these payments which they find to correspond therewith.

The Committee submit herewith, for the information of the Joint Committee, an abstract shewing how the reduced grant of \$3,500.00 for the fiscal year 1881-82, has been expended, coupled with a statement of the existing liabilities reported to them as incurred in the year 1881, including an additional liability incurred in anticipation of the increased grant for 1882-83, as explained by the Librarian—amounting together to the sum of Three thousand three hundred and fifty dollars, thirty four cents (\$3,350.34), thus leaving only a balance of \$3,649.60 for the support of the Library during the remaining portion of the current year.

LIBRARY,
8th May, 1882.

OTTAWA, 26th April, 1882.

Hon. W. H. ODELL,

DEAR SIR,—I beg to repeat in writing the substance of my statement to the Library Committee, at its first meeting, this Session, in regard to the Library expenditure.

On 26th November, 1881, I applied to the Finance Minister,—in answer to his circular for an estimate of money required for the Library Department, as well for the present as for the ensuing financial year—that the existing deficiencies in the Library made it highly desirable that we should receive “an immediate advance \$3,000—and also, that for the ensuing fiscal year, a further sum of \$10,000, granted for the purchase of books.”

Some time after a Clerk from the Finance Office brought me (*by order*) a prospect sheet of the Estimates, which included the items above-mentioned.

But shortly before the House met, I learnt with surprise and chagrin, that, on finally revising the Estimates, the Government had concluded to give us nothing but the *ordinary grant*, for next fiscal year!

Meanwhile, I had sent home some orders and had arranged for a supply of new, important, and desirable books, to be sent on once a month during the sitting of Parliament.

I did not countermand my orders, because I felt that even if our means were of the smallest, it would be best to expend the greater portion of the annual grant, whilst Parliament was in Session, and so give Members the advantage of our additions, rather than spread over our purchases to months when the Parliament was not in Session.

I have had the satisfaction of knowing that this plan has met with the practical approval of Members, for an addition to various works indispensable for reference which have been bought, the selections in general literature have proved very acceptable, and have been, for the most part, quickly taken up by Members on the look out for new and interesting publications.

I hope, after this, that our grant may be adequate to sustain the credit of the Library, and to gratify the taste of our readers.

Believe me, dear Sir,

Truly yours,

ALPHEUS TODD.

 LIBRARY OF PARLIAMENT.

SUPPLEMENTARY REPORT.

The Sub-Committee for Audit further report the following additional information in regard to certain details of expenditure, viz:—

An abstract shewing the expenditure for French and English books respectively from the audit in 1881, to the end of the fiscal year 1881, together with an abstract of the additional amount spent for the same service from 1st July, 1881, to the opening of the Session, February 9th, 1882. And in view of a desire expressed by several members of the Joint Committee at their last meeting, for information relative to the amount of the average expenditure for Law Books, Newspapers and Literary Journals, including binding as well as incidental expenses for Binding books and necessary repairs thereto—have had an abstract prepared containing the information sought for distinguishing Law Reports from Text Books, accompanied by a detailed list of the the Newspapers and Literary Journals, shewing the amount of subscription therefor paid out of the Library grant and cost of binding, together with a separate memorandum of the total expenditure for binding and repairs to books—indicating an average expenditure for this service of \$1,000.

The Sub-Committee would, in this connection, suggest to the Joint Committee to consider how far it may be practicable to obtain a special grant for Law Books (or at any rate for such as it is proposed to transfer to the Supreme Court) and whether an arrangement cannot be made whereby the cost for binding Books, Newspapers, Literary Journals, &c., and for general repairs (fairly comprised under the head of Contingencies) would be provided for by an addition to the grant under that head; thus leaving the separate annual grant for the Library intact and available for the purchase of Books irrespective of such contingencies.

May 10th, 1882.

ROBERT LEMOINE, Esq.
Clerk of the Senate,
Ottawa.

SIR, I have the honour to enclose, for the purpose of being laid before The Honorable the Senate, the certified copy of the Bill intituled: “An Act to incorporate ‘the *Canada Provident Association*,’” together with the opinions of the Chief Justice and Judges of the Supreme Court of *Canada* thereon.

I am, Sir,
Your obedient servant,

ROBT. CASSELS,
Registrar, S.C.C.

IN THE SUPREME COURT OF CANADA.

To the Honorable the Senate of the Dominion of Canada, in Parliament assembled:

We are of opinion that the Bill intituled: “An Act to incorporate ‘*The Canada Provident Association*,’” referred by the Honorable the Senate for the opinion of the Supreme Court, is not a measure which falls within the class of subjects allotted to Provincial Legislatures, under Section 92 of the *British North America Act, 1867*.

S. H. STRONG, J.
W. A. HENRY, J.
N. E. TASCHEREAU, J.
JOHN W. GWYNUE, J.

SUPREME COURT, 8th May, 1882.

We think the Bill intituled : " An Act to incorporate ' *The Canada Provident Association*,' " having for its objects the carrying on of business and operating throughout the Dominion of *Canada*, is a measure which does not fall within the class of subjects allotted to the Provincial Legislatures, under Section 92 of the *British North America Act 1867*.

But we are not, in the very short time allowed us for consideration, prepared to say that so much of Section 1 as enables this Company to hold and deal in real estate beyond what may be required for their own use and accommodation, or so much of Section 2 as enacts that, " such fund or funds shall be exempt from execution for the debt of any member of the Association, and shall not be liable to be seized, taken or appropriated by any legal or equitable process to pay any debt or liability of any member of the Association," are *intra vires* the Parliament of *Canada*.

We think, before a positive opinion is expressed on these clauses, the matter should be argued before the Court.

W. J. RITCHIE, C.J.
T. FOURNIEB, J.

The same being again read by the Clerk,

The Honorable Mr. *Odell* moved, seconded by the Honorable Mr. *Aikins*,

The Honorable Mr. *Power* rose in his place to a question of Order, and objected to the adoption of the Eighth Report of the said Joint Committee on the Printing of Parliament, on the ground that the principal matter contained therein had been already disposed of by this House by the adoption of the Seventh Report, and that the matter in question had not been referred back to the Committee by this House for reconsideration.

After Debate,

His Honor the Speaker decided as follows :—

“ I think I am required to confine myself in judging of the Report to its correctness in respect to its form, that I cannot take into consideration anything that has been stated here as having taken place in the Committee Room. I do not find anything irregular on the face of the Report. Committees are authorized to report from time to time as they may see fit. In the case of the Joint Committee on Printing, I think it is perfectly competent for them, if they consider it necessary, to recommend the printing of any additional documents from time to time as to them may seem fit. I therefore rule that the motion is in order.”

"MAY IT PLEASE YOUR EXCELLENCY,

The Commons of Canada have voted the Supplies required to enable the Government to defray the expenses of the Public Service.

"In the name of the Commons, I present to Your Excellency a Bill intituled:—

"'An Act for granting to Her Majesty certain sums of money required for defraying certain expenses of the Public Service, for the financial years ending respectively the 30th June, 1882, and the 30th June, 1883, and for other purposes relating to the Public Service,' to which I humbly request Your Excellency's Assent."

To this Bill the Clerk of this House, by His Excellency's command, did thereupon say:—

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benevolence, and assents to this Bill."

His Excellency the Governor General, was then pleased to deliver the following Speech:—

Honourable Gentlemen of the Senate :

Gentlemen of the House of Commons :

I desire to convey to you my best thanks for the earnestness and assiduity which you have shewn in the performance of your Parliamentary duties, and I am glad to believe that on returning to your homes you will find the country everywhere enjoying a large measure of prosperity.

The Civil Service Act will, I trust, be productive of the best results. It will improve the organization and add to the usefulness of that service, already so efficient.

The measures relating to the extradition of fugitive offenders, to the winding up of Insolvent Banks, Insurance Companies and Trading Corporations, and for amending the Criminal Law, are all of an important nature.

The appropriation in aid of Railway enterprise will tend greatly to open up vast tracts of fertile country hitherto almost inaccessible to the settler.

The annual grant for the encouragement of the sea fisheries and the improvement of the condition of the fishermen will be of great value to that important branch of the national industries.

The removal of the duties on tea and coffee will lessen the cost of those important articles of food to the people, and the repeal of the Stamp tax on Bills of Exchange and Promissory Notes will be appreciated by the commercial community as a relief from an irksome burden, while the transmission of newspapers and periodicals free from postage will be accepted as a boon by the whole country.

Our manufacturers already in a prosperous condition will be further aided by the abolition of the duties on metals and other raw materials used in their several productions.

It is satisfactory to know that the buoyant state of the revenue will permit these reductions, amounting to about a million and a quarter of dollars, to be made without inconvenience.

During the recess my Ministers will continue their efforts to secure favourable commercial arrangements with *France* and *Spain*. In these endeavours the High Commissioner will receive the same hearty support from Her Majesty's Government and the Imperial Diplomacy as has already been given to him.

Such support must greatly strengthen *Canada* in any negotiations entered into for the improvement of her trade with Foreign Countries.

It has been the more readily accorded, that Her Majesty's Government rely on no preference being given by *Canada* against the Trade or Products of the Mother Country.

Gentlemen of the House of Commons:

I thank you in Her Majesty's name for the supplies you have granted, which will be expended with all due attention to economy.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I heartily congratulate you on the rapid and successful developement of our manufacturing, agricultural and other industries.

I am, however, advised that their progress would have been still greater were it not that capitalists hesitate to embark their means in undertakings which would be injured, if not destroyed, by a change in the Trade and Fiscal Policy adopted by you in 1879. In order therefore to give the people, without further delay, an opportunity of expressing their deliberate opinion on this policy, and at the same time to bring into operation the measure for the readjustment of the representation in the House of Commons it is my intention to cause this Parliament to be dissolved at an early day.

Then the Honorable the SPEAKER of the Senate said :—

Honourable Gentlemen of the Senate and

Gentlemen of the House of Commons:

It is HIS EXCELLENCY THE GOVERNOR GENERAL'S will and pleasure, that this Parliament be prorogued until Monday, the Twenty-sixth day of June next to be here holden, and this Parliament is accordingly prorogued until Monday, the Twenty-sixth day of June next.
