Sir,

I have the honor to acknowledge the receipt of your letter above quoted,relative to the land in the Agency reserve here which the Ontario and Minnesota Power Company propose to flood.

I beg to state that if the I8 acres shown on the plan sent me,is flooded,it will not be necessary to §§ provide a road allowance along the edge of the water, as shown on the plan,for the road running across the Point,which is well graded,would be sufficient,and moreover the land along the edge of the water at the level to which it is proposed to raise it,as shown on the plan,would be §§ very little above the water,and a road along there would be of no use to anyone.

The graded road is the one referred to in your letter of the 4th December I900 No.I7374I-.

It is difficult to state what this land that it is proposed to flood,is worth,or what it may be worth in a couple of years,as the Duluth Rainy Lake and Winnipeg Railway,propose crossing the river at the mouth of Rainy Lake,and running between the Agency house and stable,and crossing over to the west side of the Point,to connect with the Canadian Northern Railway,at Fort Frances,and it is said that a new town will be built on the American side opposite the Point,but outside of this,if the Point was thrown open to day for sale,it would sell for $I000.00 per acre,or more

more from the graded road,and the portion that it is proposed to flood is the most valueable.

Feeling that I would like to have the opinion of others on the valuation of this land,I have privately spoken to a number of the principal men and property holders in the town,and they all agree that the land from the graded road is worth at present $1000.00 per acre,some even goes higher,and all agree that it will increase in value; also they all seem to think this land will not be flooded,as the Power Company have not yet permission to raise the water to the 500 bench mark,but only to 497,B.M.,and they all say they think the Power Company do not intend to flood it,but to secure it for speculation,let that be as it may,I would advise the Department to demand $1000.00 per acre as compensation for the land,flooded,and $3000.00 for the buildings and $150.00 for the garden,the latter I think should be paid to me,for the raspberry,gooseberry and currant bushes,rhubarb,lawn etc,which I have planted at considerable cost and labor. The Agency garden is knowen all over the country to be the best in the District. About 8 acres of the land proposed to be flooded at the end of the Point,is a splendid grove of very large trees,consisting of elm,ash,oak,maple and basswood,the balance up to the graded road is all cleared,and the whole Point is an ideal place for a summer resort.

Ottawa, 16th May, 1906.

Sir,-

With reference to your letter of the 26th February last, I beg to inform you that a valuation has been made by Mr. Indian Agent J.P. Wright, Fort Frances, Ont., of the land in the general reserve near Fort Frances, which the Ontario & Minnesota Power Company propose to flood, that is to say, as shown on the plan which you filed in the Department.

The said plan shows that an approximate area of eighteen acres will be flooded. This the Agent values at $1,000. per acre, and supports his valuation by saying that if thrown open for sale it would bring this sum; he adds that the land will increase in value. In addition to this the damage, on account of buildings, he values at $3,000. and $150. for the garden, the total is, therefore, $21,150. I have to request you to be good enough to forward this sum to the Department before taking any steps towards flooding the said land. The Department will then grant to the Ontario & Minnesota Power Company the right to flood the said land.

I have to request you to have a survey made, by a duly authorized surveyor for the Province of Ontario, of the boundary of the land along the water's edge as it is

at present, and when the flooding is complete the survey of the boundary along the water's edge according to its final level. The surveyor should prepare a plan showing his survey and the area included between the two lines. The understanding then is that if a greater area than eighteen acres is shown to have been flooded your Company will pay for the excess at the rate of $1000. per acre, and if it is shown that a less area has been flooded, the Department will refund the difference at the same rate.

Sir,

Referring to your letter above quoted, and previous correspondence on the subject of moving the Agency to the town of Fort Framces, I beg to state that the Duluth Rainy Lake and Winnipeg Railroad have run their line across the Rainy River at the head of the Rapids, and it cuts through the Agency house, in fact it strikes the front door, you will therefore see that the agency will have to be moved in a short time, and if we have to build it should be started at once, otherwise we will have to rent, which will cost about $45.00 per month if not more.

Dear Sir:- -re Pither's Point-

Referring to your favor of the 16th May, addressed to the late Mr. R. A. Grant, respecting the parcel of land on a general reserve near Fort Frances which the Ontario & Minnesota Power Company propose to flood. I am instructed by the Ontario & Minnesota Power Company to inform you that the value of the said land suggested by your agent, is entirely extravagant. The Company is of opinion that any reasonable person would not value the property at anything approaching the amount at which Mr. Wright has valued it. Under these circumstances, therefore, it would be advisable to arrive at some basis for obtaining the valuation of some independent party not connected with the Department in any way or in any way interested in property at Fort Frances.

I would therefore suggest that you should appoint some appraiser not interested in property at Fort Frances to hear the views of Mr. Wright and the reason why he has placed such a valuation on the property and the views also of the Ontario & Minnesota Company who would attend before the appraiser to meet Mr. Wright with reference to the same after which such appraiser might also make such enquiry as he found necessary for the purpose of enabling him to determine the value of this property as compared with other property in that locality and of the improvements thereon.

I should be glad if you would advise me when you have selected a disinterested party for the above purpose and name some time when he would be able to meet the parties at Fort Frances

Believe me to remain,

Yours very truly,

Sir:-

I beg to refer you to letter of the 31st July, 1906, relating to the lands in the Indian Reserve at Fort Frances, Ont., which will be flooded by the construction of the dam of the Ontario and Minnesota Power Company and to request you to be good enough to state what action the Company has decided to take in the matter.

In this connection I beg to draw your attention to the blue print enclosed herewith. The Canadian Northern Railway Company has filed a plan and has applied for the Right of Way shown on the said blue print. A part of the said Right of Way containing approximately two and a quarter acres is in the tract proposed to be flooded.

The Department proposes to sell the said Right of Way to the Canadian Northern Railway Company and to reserve in any grant made to the Railway Company the right to raise the water to the level that may be required by the dam now under construction, such right to be afterwards granted to the Ontario and Minnesota Power Company. The money received from the Railway Company will of course reduce the amount payable by the Power Company.

I shall be obliged if you will inform me if the above procedure will be satisfactory to the Ontario and Minnesota Power Company.

Sir,-

Referring to letter to you of 4th February last to which I may here say no reply has been received, I beg to inform you that the Canadian Northern Railway Company has objected to accept a title to the Right of way required by the said Company across the Indian reserve at Port Frances, Ontario, with the reservation in the said title of a right to be granted to the Ontario Minnesota Power Company to raise the water on the said Right of way.

It therefore appears that the Department will have to deal with either your Company or with the said Railway Company first, and then leave the two companies to arrange between themselves after.

Memorandum for
Deputy Minister.

I beg to report that in accordance with your instructions I have examined the land at Pither's Point in the general Indian Reserve at Fort Frances Ontario proposed to be flooded by the Ontario and Minnesota Power Company.

Pither's Point is especially adapted for the purposes of a Summer resort as it is situated ~~xixxix~~ on the Lake shore where there is a long sand beach which happens to be the only one within easy reach of Fort Frances. Lots in Fort Frances and in the two townplots on the opposite side of the river in the United States are being held at high prices. Sales are being made on the United States side and ready sales were made in Fort Frances two or three months ago. At present there is not sale for land in Fort Frances, but as soon as the present stringency in the money market is over the land at Pither's Point will sell well, either "enbloc" or subdivided into lots.

After careful examination and enquiry, I arrived at the conclusion that although the Agent's valuation of $1000.00 per acre may not be excessive yet if the matter went to abritration on this figure I am convinced we would lose. I beg to submit the following valuation ,-

18 acres less ~~3.78~~ 1.50 acres taken by the Canadian Northern Railway Co.=~~14.27 at $7.50=~~ 16.50 · 750 =	~~$10702.50~~ 12375.00
Buildings $3000.00 less $700. to be paid by the Canadian Northern Railway Co.,.....	$2300.00
Agents garden $150.00 less $100. to be paid by the Canadian Northern Railway	50.00

In this connection I beg to draw your attention to the following,-

The actual height to which the water may be raised is a point designated as the 497 Bench Mark . On account of the land being very flat more land will be damaged on account of its being nearly level with the water, than that actually submerged.

The Company under certain conditions and with the consent of the Governor in Council, may raise the water three feet higher than the said 497 B.M. If this should be done a very large tract ofland will become a marsh and even the site of the new industrial school building will be only a few feet above the water level. This may endanger the stability of the building. Also other tracts of land around the lake some of which will be within the limits of Indian reserves will be submerged. The damage all together will be very great. I think any proposition to raise the water above the 497 B.M. should be opposed decidedly by this Department.

As the area of the land and the area of that which will be damaged will not be known until the actual raising of the water takes place, I beg to recommend that the Company be requested to pay to this Department the said sum of ~~$13052.50~~ 14725.00 The sum of $2350.00 is to be taken from this to pay for the buildings and the Agent's improvements, and the balance to be held until the actual area as above stated are known with the understanding that all land submerged or damaged is to be valued at $750.00 per acre. The Company will then pay at this rate, if more that 18 acres are affected, and the Department will refund at the said rate if less than 18 acres are affected.

Sir,-

With reference to letter of the I2th Oct.,last, and previous correspondence I beg to inform you that the following is the valuation of the land on the Agency Reserve at Fort Frances which the Ontario and Minnesota Power Company proposes to flood, which has been made by Mr.Bray,and which the Department has approved.

I8 ac. less I.50 ac. taken by the C.N.R.Co., I6.50 at $750.00	I2375.00
Buildings 3000 less $700.00 to be pd.by C.N.R.Co..	2300.00
Agent's garden $I50.00less $I00 to be paid by the Canadian Northern Railway Co.....	50.00
	$ I4725.00

On account of the land being very flat the area of that portion which will be submerged and the area of that which will be damaged although not actually submerged will not be known until the actual flooding has taken place. It is therefore evident that this matter can not at present be closed. The Department is,however,prepared to grant the right to flood the saidland on payment of the said sum of $I4725.00 This sum will be held until the actual areas,as above stated, are known with the understanding that all land submerged or damaged is to be paid for at the rate of $750.00 per acre. If a greater area than I6,50 acres is affected the Company will then pay for the excess at this rate and if a less area,then the Department will refund at the same rate.

Ottawa Jan 27,1909

Sir,-

In accordance with your request of the 19th instant I beg to enclose herewith a copy of the letter to which you refer of the 13th Dec.1907 relating to the Land in the Agency Reserve at Fort Frances, Ontario which the Ontario, Minnesota Power Company, propose to flood.

Since the date of that letter the Canadian Northern Railway Company has changed the plan of its right of way . It now appears that they do not take in any of the buildings; These will therefore be wholly situated on the land proposed to be flooded by your Company. The valuation would therefore be increased by the amount of $700.00, making the total sum, demanded from the Ontario & Minnesota Power Company $15425.00.

Hon. Frank Pedley,

Deputy Minister Indian Affairs,

Ottawa, Ontario.

My dear Sir:-

You will remember that I called on you in relation to the point of land which our water power development will over-flow at Pithers Point near Fort Frances.

Since seeing you I have had no time to go into this matter definitely, and I am not yet fully prepared to take the matter up in definite form. All I know is that we will want to overflow that portion of the land which is shown on the blue print in your possession.

During my visit to Ft.Frances the first of this week I learned that certain parties were endeavoring to secure from your Department the control of this land. This is being done with the purpose, I suppose, of holding the Power Company up later, if a little money can be made out of it, and I simply write you this letter today, to ask you in dealing with this proposition to kindly reserve for us that portion of the land which will be overflowed, as indicated by your plat. Within a reasonable time I will take this matter up and in the proper manner arrange to have you dispose of the same in some satisfactory manner to both parties.

Thanking you in advance, and with kind regards, I remain,

Very truly yours,

Gentlemen,-

I beg to call your attention to letter from this Department dated January 27, 1909, regarding the payment to be made by the Ontario and Minnesota Power Co., for the land required by them on the Agency Indian Reserve at Fort Frances.

The total amount of the valuation was $15425.00.

In addition to the above the Indian Agent at Fort Frances now writes this Department that owing to the high water in Rainy Lake caused by the dam built by the Ontario and Minnesota Power Company the bank along the front of part of the Agency reserve and of the adjoining reserve No. 16A is rapidly being washed into the lake and that the Indian burial ground will shortly be all washed away.

I have to request therefore that immediate steps be taken by the Power Company to protect the banks of these reserves. The Power Company will be held responsible for any damages that may be made to the reserves by their action.

_No. 282759_

We have your letter of the 14th inst. in this matter, and have communicated its contents to our clients. We are told that the company since the information was given to you, has drawn off a large quantity of the water, so that it is now at a much lower level, and that accordingly there is no apprehension of damage along the lines suggested by you. Our clients also tell us that the question of the valuation of the lands is receiving their attention, and that it will be taken up as quickly as possible.

Memorandum for the

Deputy Minister.

Agent Wright of Fort Francis Agency has written twice in reference to portions of the Agency Reserve and reserve 16 A, being washed away owing to the [redacted] of the water in Rainy Lake by the Ontario & Minnesota Power Co.

Messrs Blake, Lash, Anglin & Cassells Solicitors were written to and replied that a large quantity of the water had been drawn off and that there is now no apprehension of damage.

Mr. Wright states that the water so far has never yet been to the height the Power Company can raise it, and that before an other year a portion of the graves will be washed into the Lake and the Town of Fort Francis will have a bill of damages for polluting the water. He urges that the Department have an Engineer examine and report without delay.

I recommend that his request be acceded to , and the Department employ an Engineer to do this work. The Department then would be in a better position to urge the Company to protect these reserves.

Memorandum for

Deputy Minister:

With reference to the damage being done to Indian Reserves at Fort Frances by the Ontario and Minnesota Power Company raising the water of Rainy Lake I think our remedy is to obtain damages the same as a private individual. It is presumed that their plans were approved and deposited with the Minister of Public Works.

We might employ Mr. Howelton to examine the Reserves and report what is requisite to be done to protect the reserves, and how far the action of the Company is responsible for the damage.

With regard to the effect on the navigation of Rainy River or the Lake this is a matter to be dealt with by the Department of Marine and Fisheries under Section 10 of the Navigable Waters' Protection Act by either the Dept. of Public Works or Marine & Fisheries.

Gentlemen,-

In accordance with instructions I have made the examination and surveys of the shore line of Rainy lake along the portion of Indian Reserves No. I and 16 A. and beg to make the following report:-

I find the erosion for the past season has been ten to fifteen feet, caused by the raising of the elevation of the water in Rainy Lake by the Minnesota ~~Park~~ Power Co. dam; The erosion is caused by the wave action and will continue until the break-water is constructed to prevent the waves from washing the shore.

On the map I have given the following;-

No.I. Key map showing, in red, that portion of the shore to be protected.

No. 2- Showing line of proposed break-water and soundings.

No. 3- Plan and estimate of the proposed break-water.

This map and plan is self-explanatory and give nearly everything detail. Further, I wish to call your attention to the following. I consider the break-water, as shown in the plan, is sufficient to protect the shore line and stop any further damage and is about the only one in reason as regards cost for such a long distance. It would be a very good plan to plant willows along the shore line back of the break-water as they would fill the

ground with roots and by the time the break-water was needed to be renewed ,they would furnish ample protected from the water, Conseguently would stop any further expense for protection on the Reserves. The cost of planting these willows would be very small and cost of caring for them after planting, would be practically nothing.

Unless something is done before next summer, the water will Encroach on the cemetary and some of the Indian houses will have to be removed.

The piling which will be required in the break-water, I am informed by Mr. Wright, can be furnished by the Indians providing they are notified at once so that they can get it out before the Spring breaks up, otherwise, piling would have to be secured from other points, and either driven down the river or shipped in by Rail.

You will note that I have used some brush mattress and rock for filling of small amount back of the break-water, this is simply to stop Earth being drawn under the break-water by the action of the water,.

Respectfully submitted,

Yours,

Memorandum for
Deputy Minister:-

In accordance with instructions from the Department Mr.G.A.Knowlton of Fort William was proceeded to the Indian Reserves at the West end of Rainy Lake in order to ascertain the damage that is being done by the raising of the water on account of the construction of the dam of the Minnesota and Ontario Power Company, to prepare a plan showing what he considered to be a remedy for the said damage and an estimate of the cost of the same.

His returns have been received consisting of a plan and report. The plan contains all the information necessary. I think his proposal to construct a breakwater of piling and timber is a good one and probably the best that can be adopted for the purpose.

His estimate of $8822.33 appears to be as nearly correct as an estimate can be made. If we add to this the cost of survey we may say that the approximate cost of the work will be $9000.00.

In view of Mr.Knowlton's report that eroding of the bank has been very rapid and will this summer again continue to be so,I think a copy of the plan should be sent to the Minnesota & Ontario Power Company with a demand that the Company should proceed with the work without any delay or with such other work as they may think proper and which will have the desired result of preserving the banks;otherwise this Department will hold them strictly responsible for all the damage. In this connection I would note that the school building, a very good one.

is not at a very great distance from the bank and the road allowance which runs along the bank will soon be washed away as it is practically pure sand.

Mr.Knowlton has charged for his own services at the rate of $15.00 per day. The maximum charge we have allowed in the Eastern Provinces and the North West has been $10.00 per day, and I have been informed on due inquiry that the Public Works Dept. has not paid a greater rate for similar services that $10.00 per day. Will you kindly state whether there is any special arrangement under which Mr.Knowlton should be paid $15.00 per day.

In view of the fact that Mr. Knowlton was requested to give an estimate of cost of work in his letter of 9th Feby that he would be required to be present at the meeting & that he would be paid $15.00 per day, & that he actually did attend the meeting, I am of opinion that he should be paid in full. Gentlemen,- Re Ontario & Minnesota Power Co.

Referring to your letter of the 16th Dec. last I have to inform you that Mr. John P. The Department accordingly issued instructions to Mr. G.A. Knowlton of Fort William to make the necessary surveys and report; enclosed herewith is a copy of his plan and of his report.

In view of the said report I have to demand that your Company proceed with the work indicated by Mr. Knowlton or with such other work as you may think proper and which will have the desired result of preserving the banks and I have to add that this Department will hold your Company strictly responsible for all damage done to date or that may ensue hereafter through their operations.

Ottawa May 2nd, 1910.

Sir,

I beg to acknowledge the receipt of your lette of the I4th ultimo relating to payment for the land required by the Ontario, Minnesota Power Company at Fort Frances, Ont. In this connection I beg to draw your attention to the copy of the letter enclosed herewith dated 8th ultimo and addressed to the Attorneysof your Company, Messrs Blake, Lash & Cassels, Toronto.

We have not received a reply to the said letter and we are now in receipt of another letter from our Indian Agent, Mr. John. P. Wright, Fort Frances, dated 28th ultimo, in which he sets forth the necessity of action being immediately taken to preserve the Indian grave yard or part of it frombeing washed into the lake.

I have to ask you to take immediate steps as indicated in the said letter to your Attorneys to protect the banks of the lake now being washed away. I have to request y you to be good enough to send an immediate reply and to say that in the event of your not taking immediate action in this matter the Department will be obliged to tx undertake the work of protecting the banks and the said work will be done at the expense of your Company.

Your obedient servant

Memorandum for
Deputy Minister:-

With reference to your inquiry hereunder I beg to state that both through the Attorneys and the President the Ontario Minnesota Power Company has been urged to pay for the land overflowed or to be overflowed at Pither's Point and to take steps to prevent the rapid erosion of the banks farther up the lake caused by the waters being raised.

The President, Mr.E.W.Buckus,replied on the I4th of April that he intended to call at this Department at the first opportunity.

On the 2nd instant Mr.Backus was again urged to take immediate steps to prevent the washing away of the bank above mentioned.

re Ontario-Minnesota Power Co.
Encroachment on Indian Cemetery, etc.
No. 282,759.

Dear Sir:-

On May 2nd. you wrote Mr. E. W. Backus, President of the Ontario-Minnesota Power Company, enclosing copy of a letter of April 8th. addressed to his Toronto Solicitors, Messrs. Blake, Lash & Cassels, and dealing with the question of the encroachment of the water upon certain Indian lands near Fort Frances, a part of which is used for burial purposes. Mr. Backus has asked me to act as his Ottawa Representative, and hereafter I would like you to address any communication on this subject direct to me.
He had hoped to see you personally about this matter, but so far has been quite unable to do so.

Your Engineer's estimate for the cost of Protection is $9,000, and Mr. Backus feels that this is an extremely large sum to be forced to expend in this connection.

He thinks that possibly the Indians might consent to remove their dead, being paid a reasonable recompense for doing so, but before negotiating with them to this end, he would like to know the number of those buried in the Cemetery in question.

I am sure you could get this information for me from your Indian Agent at Fort Frances, and I would be much obliged for the same.

Believe me, we have every desire to make a satisfactory settlement of this matter, but naturally I do not wish, by hasty action, to make a large expenditure where a very much smaller one might serve the purpose equally well.

Yours truly,

Andrew T. Thompson

Sir,-

Referring to your letter of the 28th April last No. 2760 I beg to inform you that we have a communication from the Ontario Minnesota Power Company to the effect that the estimated cost,$9000.00 ,of the work to protect the bank which is being washed away at the cemetery in the Indian Reserve, is an extremely large sum for the Company to be forced to expend for this purpose.

The President of the Company,thinks that possibly the Indians might consent to remove their dead on being paid a reasonable sum for doing so,but before entering into negotiations he would like to know the number of those buried in the cemetery in question.

The said letter deals only with the damage to the cemetery,but you are aware that the semater encroachment on the road allowance is necessarily great. It might be absolutely necessary to protect the bank as otherwise the encroachment may even endanger the school building.

If you think that the school building is not in any danger and the Indians are willing to remove their dead you might ascertain the amount that should be paid as compensation and also the sum that should be paid as compensation for the land that is already washed away and which will continue to be washed into the lake until no more trouble may ensue in this connection. It may,however, prove as above stated that some protection is absolutely necessary. Kindly examine the matter carefully and report at an early date.

I beg to acknowledge the receipt of your letter of the 25th ultimo and to inform you that our Indian Agent at Fort Frances has been instructed to report the number of dead in the cemetery which is being washed away into Rainy Lake and the compensation that should, in his opinion, be paid for the damage. He has also been requested to state whether the school building will be eventually endangered and the amount of land other than the cemetery that is being destroyed. I may say that it may prove to be absolutely necessary to protect the bank in question.

I have to draw your attention to the fact that you make no reference in your letter to payment for land damaged or flooded by the works of the Ontario and Minnesota Power Company. Action should be taken in this direction by the said Company.

I have the honour to acknowledge the receipt of your letter of the 10th instant relating to the damage being done at the Indian cemetery near Fort Frances by the construction of the dam of the Ontario, Minnesota Power Company and have to inform you that the Department has been advised that the Indian school is now in great danger.

The said building is an important one and although standing back a considerable distance from the Lake front, the ground is nearly level and is composed of sand; the danger is undoubtedly eminent. If the Ontario Minnesota Power Company does not put on a gang of men forthwith to execute the necessary work to protect the River bank, the Department can not possibly defer action any longer. Sir,—

Referring to your letter of 6th instant,

No. 282759, relative to the protection of the bank which is being washed away in front of the Indian school, the Indian cemetery and the reserve, I beg to state that I have spoken to the band as to the removing of their dead, but they will not consent to their being moved, and the Church also objects to this being done. There are over 100 buried in this cemetery.

I would again urge that immediate steps be taken to protect this bank, as it is rapidly being washed into the lake, and as the bank is high, and the land is sandy it will continue to wash away for an indefinite time. The Principal informs me that six feet in front of the school has been washed away during the past two months, and that the graves in the cemetery will be disturbed inside of three months, if they are not protected. Very often big blocks of earth, six and eight feet wide are falling in the lake, you will therefore see that it requires prompt action to stop this, and should not be put off by excuses, as delays are dangerous, particularly for that portion in front of the cemetery.

Dear Sir re Ont. Minnesota Power Co.

Your letter of the 16th. inst. has been forwarded to me here, where I arrived last Saturday to spend a brief holiday

You say that you are now informed that the Indian school 'is in great danger', owing the heightened water caused by the dam, that the said building is an important one, and 'although standing back a considerable distance from the Lake front, the ground is nearly level, and is composed of sand' which makes the danger really imminent. You conclude thus "Unless the Ont.-Minn. Company puts on a gnag of men forthwith to execute the necessary work to protect the River bank, the Department cannot possibly defer action any longer. I have to request an immediate reply".

All this is noted and I am to-day writing Mr. Backus, President of the Company, communicating the contents of your letter as above, and asking him to instruct me without loss of time.

I expect to be back in Ottawa a week from to-day, when I will take this matter up with you, and I have no doubt but that by then Mr. Backus will have taken some step to meet the situation.

Permit me to say in closing that this is the first intimation we have had, so far as I know, that the school was threatened with early injury,-it was the cemetery that was said to be in danger of destruction. Yours truly

re Indian Graveyard at Fort Frances.

Following receipt of your letter of the 23rd.July we notified the Ontario & Minnesota Power Company of its contents. We now desire to state that we have today received from the President of the Company a letter stating that they have ordered their material for the protection of the Indian burying ground, and have seen your agent at Fort Frances, Mr.Wright, with reference to this matter. It appears that the water is now so low in the lake that there is a good beach line below the clay bank,which has been giving the trouble, and that it is extremely unlikelythat there will be any possibility of damage during the remainder this season. The President instructs us to inform that they would put in the necessary protection work before there is any more damage done.

Sir,-

Referring to your letter of 15th November last, *No.* 282759, relative to the Ontario-Minnesota Power Company protecting the banks of the reserve at Fort Frances which are being washed away, I beg to state that they have not yet made any move towards commencing this work, and I cannot get any information as to when they will start; I have just had a conversation with Mr.Curtis and he informs me that Mr.Backus will be here tomorrow and that he ## will bring the matter before him and find out what is to be done. It is imperative that this work be done this winter, before the high water begins, for it would take only a short time of high water wash # out some of the graves.

Referring to your letter of the 15th November last, No. 282759, and to my letter of the 24th January last relative to the work of protecting the banks of the reserve at Fort Francesby the Ontario-Minnesota Power Company, I beg to state that although Mr. Backus, President of the Company, has repeatedly informed me that the work would be done, yet no steps that I can see has been done in the matter, and I fear that they will keep putting it off until it is to late, and as Mr. Backus has the reputation in this District of not performing what he agrees to, I think pressure should be brought to bear, that this work be done without any further delay.

Ottawa, March 25, 1911.

Memo. for the Deputy Minister.

Referring to letter hereunder of the 21st instant from Agent J.P.Wright, I beg to state that we have been urging the Minnesota Power Company to have the necessary work done to protect the banks of Rainy Lake near the Indian School from being washed away for the past two years. Nothing has yet been done.

I think the Agent's fears of serious damage are well founded as the banks at the place in question are composed of sand which wash away with ease under ordinary circumstances and at a very much greater rate on account of the ~~rising~~ raising of the level of the water in the Lake by the Minnesota Power Company's dam.

A year ago we engaged an Engineer, Mr. G.A. Knoulton. He submitted a plan for cribwork and an estimate of cost amounting to $8822.33. I beg to recommend that Agent Wright be instructed to notify the President of the Company that he should place within three days a sufficient force and material on the ground to have the work done in due time and to the satisfaction of the Indian Agent; and if this is not done the Agent to immediately engage a good foremen and men, and purchase timber &c., to carry out the work according to Mr. Knowlton's plan; also to engage the services of the said Engineer from time to time as may prove to be necessary. All costs to be charged against and collected from the said Company.

Sir,-

With reference to your letter of the 11th instant, regarding the protection of Indian lands near Fort Francis and the obligation of the Ontario-Minnesota Power Company in the matter, I beg to say that the Department is in receipt of a letter of the 21st instant, from Mr. J. P. Wright, Indian Agent, Fort Francis, Ont., in which he states that the Company have made no move as yet towards commencing the work, although the President has repeatedly informed him (Mr. Wright) that it would be done. In a former letter Mr. Wright stated that it was imperative that the work receive attention during the winter, before the high water, as it would only take a short time of high water to wash out some of the graves.

In view of the important and pressing nature of the matter, I have to inform you that it is proposed to request the Department of Justice to take prompt action, in the event of loss accruing as the result of the failure of the Company to give proper attention to the work.

I beg to say that the Department proposes to instruct Mr. Wright to notify the President of the Company that he should place, within three days, sufficient force and material on the ground to have the work done in due time, to his (Mr. Wright's) satisfaction. If this is not done ~~the Agent~~

I have your letter of April 4th. and am writing an urgent letter to Mr. Backus with regard to it.

Mr. Backus has been very much harassed of late by legislation here attacking his Company, and has, in consequence, the water having been very low this summer, and so no damage having been done, overlooked this matter somewhat.

I hope you will have patience for a few days, when I hope to have something definite for you.

Referring to your letter of the 21st ultimo No. 2981, I beg to inform you that we have had several communications from the Solicitor of the Ontario and Minnesota Power Company in this City on the subject of the protection required to prevent erosion of the land on the Fort Frances Indian reserves,

It appears that the Company has been very much harrassed of late by adverse legislation and as the water has been unusually low and no damage done the matter has been overlooked. There appears however to be some intention to endeavour to have necessary work done. I may say the Department would prefer not to take any action until practically compelled to do so.

No. 282,759 on the subject of the protection required to prevent erosion of the land on the Fort Frances Indian reserves, I beg to state that as the wet weather appears to have set in, and the water in the lake is raising, it will not be long before the water is up to the edge of the bank, when it will be more difficult to put in the work required, and steps should be taken at once to have this work done.

The Indians are very much concerned about their cemetery, and propose filling along the bank with fiff-raff, such as logs, stumps etc., as soon as they get through with their planting, provided the Department will furnish them with provisions, which could be paid from their Trust Fund, Account No. I30. I would recommend that I be allowed to purchase provisions for this work, the cost not to exceed, say $I0.00., this would hold the bank along the cemetery, for a while.

It has been fortunate for the protection of the bank,that the water in Rainy Lake has been low during the past two years,but it is very likely to be high this year,which if it does and the bank not protected,will cause a great loss to our lands. The following is a resume of the correspondence on file here, on this matter, viz:-

My letter of the 3rd Dec. 1909, calling attention to this matter.

Department's answer of 18th Dec. 1909, No. 282759, states that the Company report that they have drawn off a large quantity of the water on Rainy lake, and that there is no apprehension of any damage being done

Sir,—

Referring to your letter of 15th July last,

No. 282,759. relative to the washing away of the banks of Reserve I6A, I beg to state that the Ontario and Minnesota Power Company, did some work along the front of the School, but what they did will not last more than a year or so, and there is yet a long peice of this bank that is still unprotected, and the bank is rapidly being washed away, they have stopped work, and I understand do not propose doing any more.

DEPT. OF INDIAN AFFAIRS OCT 21 1912 SURVEYS.

I consider it very important that some steps be taken to protect this bank, that an engineer be sent to ascertain what is required, and that proper protection to the bank be done with as little delay as possible.

I have the honor to be,

Sir,

Your obedient servant,

Indian Agent.

Memorandum for the Deputy Minister:

Through the building of a dam by the Ontario and Minnesota Power Company the water has been raised in Rainy Lake so as to undermine the shores of Indian Reserve No. 16A. This company through their Solicitor, Mr. Thompson, has been urged very many times to have this work attended to. On March 27,1911, they were informed that if they did not give the matter immediate attention the Department of Justice would be requested to take prompt action. The company only staved off this action and after much urgence the agent reports on the 15th instant that the company did some work along the front of the school but what they did will not last more than a year or so and there is yet a long piece of this bank that is still unprotected and the bank is rapidly being washed away. The company has stopped work and he understands do not propose doing any more. In a previous letter he has stated that at least eight feet of the shore has been washed away during the last year. It appears necessary to have this work done without further delay. I beg to recommend that the matter be placed with the Department of Justice as to whether the company would be liable if the work was done by this Department.

Dear Sir:- Your file No. 282759.

We duly reported to the Ontario & Minnesota Power Company the contents of your letter of 15th. July to our Colonel A.T. Thompson, and we beg to report that we have received a letter from the president of the Company dated July 24th, in which he states that on that date he was giving instructions to the officers of the Company at International Falls to do work enough to ~~protect~~ prevent any serious damage to the Indian Graveyard for the rest of this year, pending the working out of a logical plan for its permanent protection. Doubtless this has been done in the meantime.

S i r;

Referring to your letter of 21st October last submitting the question as to whether the Ontario and Minnesota Power Company would be liable for the cost of certain protection works to be executed by your department I observe that by the Order-in-Council of 28th March, 1906 your department was authorized to grant the right to flood eighteen acres of the Indian Reserve known as No 1 General Reserve, at the western end of Rainy Lake, upon such terms as your department might decide upon. It does not appear, however, that the terms were ever decided upon or that any grant was made. Consequently, as I understand the case, the Company had no right to erect a dam which would cause the waters to flow back upon the reserve. I think therefore that unless the Company agree to satisfactory terms and obtain the necessary permission to flood these lands they may be enjoined from maintaining the dam, and are further liable for any damages consequent upon the flooding. I think the Company should be notified accordingly, and if they do not come to terms, proceedings should be taken in the Exchequer Court.

You are probably aware that the Department has been urging this company from time to time for the past three years to take the necessary action to protect the banks that are being washed away; I may say that it will be positively necessary to take proceedings in the Exchequer Court if the necessary works are not immediately undertaken.

Dear Sir:- Ontario-Minnesota Power Co.-Indian Graveyard at Fort Frances - File No. 282759.

I am in receipt of your letter of March 13th. in this matter.

A few days ago I received a letter from Mr. E.W. Backus, President of the Company , stating that he had collected, and was collecting some important data in connection with this matter, and that he expected to be in Ottawa before a great while to submit it to you. He thinks that you have been misinformed as to the liability of the Company in the matter, and that on hearing what he has to say and considering the proofs he will present in support thereof, you will see that the Company should not be held responsible for the whole damage, if for any part of it.

I saw Mr. Pedley shortly after receiving Mr. Backus' letter, and told him these facts, and he intimated that delay would be granted us.

I have been remiss in not having written you as to my interview with Mr. Pedley, for which I trust you will excuse me.

Sir,

Referring to your letter of the 21st ultimo, I beg to inform you we have received a report fromour Indian Agent, Mr. J. P. Wright, Fort Frances, in which he again urges that steps be taken to have a work of permanent protection to the bank that is being washed away constructed. He adds that the work that was done last fall is of no use and if the bank is not properly protected he is practically certain that at least thirty feet of this bank for about one half a mile will be washed away and perhaps much more and therefore no time should be lost in commencing the work. In view of this report I may say the Department cannot wait any longer; I have to request that the Ontario, Minnesota Power Company take the necessary work in hand at once.

Memorandum for the Deputy Minister:-

I beg to submit the letter hereunder of the 10th instant from Mr. A. T. Thompson and the correspondence in connection therewith for your special consideration. The matter of the construction of the dam at Fort Frances was brought to the attention of the Department in 1905. The Ontario and Minnesota Power Company submitted a plan and stated authority had been given at the last session of Parliament for the raising of the water in Rainy River and Lake to a certain point which would cause the flooding of a portion of the Agency Reserve at Fort Frances. An order in council was passed authorizing the Department to grant the right to flood the area required on such terms as might be agreed upon.

Demand was made upon the company for the payment of $14725.00, being the value of 16.5 acres of the said land and of the damages to the buildings thereon. The Department's letter was acknowledged with the statement that the company was considering the question of valuation.

It appears the company has not at any time raised the water to the extreme height to which its charter allows and

consequently no flooding has actually been done but the raising of the water has damaged the bank to a great extent by washing it away. This trouble has been brought to the attention of the company from time to time. In 1910, the matter appeared to be urgent and on the suggestion of the Indian Agent we had an examination made by the Civil Engineer who reported that the works necessary to protect the bank would cost about $9000.00. The president of the company took exception to this cost but has done nothing in the direction of executing the necessary works.

On the representation of the Indian Agent that the danger to the bank is becoming very serious and that it appeared almost useless to communicate further with the company advice was asked from the Justice Department. We were advised Jan. 13, 1913, that unless the company agreed to satisfactory terms and obtained the necessary permission to flood these lands they may be enjoined from maintaining the dam and are further liable for any damages consequent on the flooding, that the company should be notified accordingly and if they do not come to terms proceedings should be taken in the Exchequer Court.

The company was duly notified and has asked for a reasonable time for reply. The request was granted.

The Indian Agent has again urged immediate action, 4th instant. I think we should proceed to execute the works recommended by our engineer and submit the questions of preventing the dam being used and to enter an action for recovery of cost to the Law Clerk.

We, the undersigned, hereby certify that from the date of our former statement in October 1912 up to this time there has been no additional loss of earth in the lake. The loss that has occurred in the past has been due to strong east winds. This loss of earth has been going on to our knowledge for the last twenty years; probably for very much longer than that; for the houses nearest the lake shore have been twice removed further from the lake. Two houses were moved back about five years ago. They were the last ones that were moved back. Since 1890 we have lost over 150 feet.

Sir,

I am enclosing copies of statements signed by various persons with respect to the erosion of the shore of the reserve, which were forwarded to the Department on behalf of Mr. Backus of the Ontario Minnesota Power Co.. The purport of these statements seems to be that no additional erosion of the shore is caused by the damming of the water by the said Company. These statements are not very conclusive but the Department considered it advisable before taking any action in the matter to refer these statements to you for you views on the same. If erosion has been going on for years past it seems reasonable to suppose that the raising of the water or the keeping of the water at high level would increase the erosion, but it may be difficult to prove that or to determine just what percentage of additional erosion takes place on that account. Would you kindly state what you consider to be the amount of erosion caused by the damming of the waters and the grounds on which your opinion is based.

Sir,—

Referring to your letter of 14th instant,

No. 282759, with enclosures of statements signed by various persons with respect to the erosion of the shore of the reserve, I have the honor to state that with regard to the statement signed by certain of the Indians on the 14th Oct. last, Perrish Jourdain has just informed me that he never saw this paper and never knew anything about it, he also states that Rev, Father Vales told him today that he put his name on the paper Jourdain also states that Alek Breyere states that he never signed this paper, in fact knew nothing about it, and that Alevis Manville, was away hunting at the time the statement was signed, therefore his name was put on without his knowledge. With regard to the statement that they have lost 150 feet of earth in the lake within the past 20 years, can be taken in different ways but to say that within the past 20 years 150 feet in width or depth has been washed away is absurd; there has been a certain amount of erosion of the bank, during the past years, but only at short periods, while the water in the lake was very high, but the percentage was very light compared with what is was in the fall of 1909 and last year, when the water was kept up by the Power dam of the Ontario Minnesota Power Co., and it is their

their object to keep the water up as high and as long as they can; it has been fortunate that during the years of 1910 and 1911, the water never came up to the edge of the bank, therefore there was no erosion of any extent during th those years. In my opinion the erosion of the bank during the fall of 1909 and last year has been from 30 to 55 feet in width for about a mile of the shore, and I ventur to say that if protection is not made soonthat there will a further loss of say 20 feet this year.

The statement made on the 31st March last that since the former statement in October last , to that date there had been no additional loss of earth, is also absurd, as on the 14th Oct, last the water was from one to two feet deep at the edge of the bank, and naturly there must have been a certain amount of erosion until it froze up in November, of course as long as it was frozen there would not be any erosion.

I have been here nearly 13 years and excepting for a short time during the fall of 1900, there has been very little erosion of this bank.

I understand that Mr. Backus wants the Department to bear a portion of the expense of protecting this bank, let that be as it may, something should be done at once, and I think that Mr. G.A. Knowlton, C.E. suggestions should be carried out; rip-rap and other schems of Mr. Backus is no good, it requires pilling in my opinion.

The building of the dam of the Ontario Minnesota Power Co., has in my opinion increased the erosion , by 90% at least.

I have the honor to be,
Sir,

Report of Inspection of
Koochiching Indian Reserve.

Sir:

I visited the Koochiching Reserve May 17h 1913. I met the Chief and two Councillors and after the customary greetings, asked them if there was any matter which they wished to bring before the Department.

(1) The Chief introduced the question of loss of ground from the Reserve owing to the encroachment of Rainy Lake in high water time.

This led me to make careful investigation of the circumstances connected with this matter and I find as follows:-

The length of the land affected is nearly a mile.
The depth of the loss is from 25 to 54 feet.

There are many cracks in the soil at the top of the bank, which will go over shortly.

The bridges, which were all rebuilt last summer by the Northern Construction Company, will have to be moved back very shortly.

Five houses have already been moved back, three five years ago and two this year.

The water at the present time, is about 40 ft. from the bank, but in high water time, it would need to rise only about two feet to reach the steep part of the shore.

Some curbing was done by the Indians years ago to guard the grave yard. This consisted of poles driven into the ground, horizontal logs behind the posts and stone thrown in behind the logs and this is standing fairly well.

A curb was built last Summer some 1200 ft. long. This consisted of two inch planks 8 ft, long sunk in the ground 2 ft. and surmounted by a cap 4 X 4 to which the tops of the planks were nailed. The action of the waves has completely prostrated it and it is now lying flat on the ground and is absolutely useless.

The high water will come again in July and the nature of the soil is like sugar and no doubt great damage will result.

The Boarding School frontage it was noted, has been considerably lessened and damaged.

The hay grounds of the Indians, ahve been entirely submurged and they are now compelled to buy all their hay.

Some real work must surely be done to prevent further erosion or the results will be very serious.

As the Department has recently written to the Agent at Fort Frances in regard to this and has invited his report and recommendation, it may not be necessary for me to do more at this time than th state the facts for the information of the Government.

Councillor Bakekesick complained that a fisherman Gabriel Bruyer was fishing with long nets across the entrance to Stangekuming Bay, but on investigation, it was found that Gabriel was fishing under a License from the Ontario Government and that he was not closing the opening and did not intend to do so. Under the circumstances, all that was thought necessary was to refer this to the Fishery Inspector, who would see that the Law was observed.

Pierre Jourdain has adopted Roderick, son of Alice Spence who was the daughter of No. 14, Little Forks' Band when he was a small child. The mother died four years ago. The father of the boy, William Pierrot, was a half-breed, who still lives but does not support the child. In this connection the Chief and Council respectifully ask that the child be admitted to treaty under Pierre Jourdain's number. As this is approved by the Agent here, I have no hesitation in recommending it to the favourable consideration of the Department.

I visited the Indian Boarding- school and found it in good condition while the children are enjoying excellent health. But as I was instructed, on two occasions, not to inspect the svhool, I did not do so.

It was noted however that a very excellent barn has been erected during the year, which affords facility for every desirable pirpose.

It was further noted that Messrs. Snider Bros. are making good progress in laying the cement foundation for the enlargement of the school and they have gathered a large amount of stone for the basement walls.

I visited a considerable number of the houses on the Reserve and observed that there were seven new houses built since last year. Four new porches have been added to old houses and generally speaking, the Court yards had undergone some Spring cleaning while the houses were for the most part clean and well furnished.

I made every inquiry as to the general condition of their temporal circumstances and found that hunting had been good during the last Winter, that plenty of labour was offered them at good wages, that plenty of Rabbits could be snared at any time, but that fishing had not been as good as usual. General health was good.

I have also inspected the Indian Office and found the Cash book, which was written down to April the 30th, was correct and vouchers and receipts were on hand to correspond with every entry made.

I also found that the copy of the Cash book sent to the Department on May 1st, 1913, corresponded exactly with the entrys shown in the book itself.

I further found that cheque 3879 for $15, was on hand in the Cash box.

I examined the stock book and found that it was correctly kept and showed the following balances as being on hand:-

Biscuits 700 lbs, Bacon 24 lbs, Tea 140 lbs, Flour 500 lbs, Towelling 6 yds,.

I next examined the supplies in the warehouse and found that the quantities remaining in store agreed with the total in the books.

Memorandum:

Survey Branch,

It appears from the information on file that erosion of the shore of this reserve has been going on for some years past and it is claimed that recently this erosion has been much greater than usual on account of the keeping of the water at high level by the dam built by the Ontario-Minnesota Power Co. This Company has furnished statements made by four or five persons purporting to show that no additional erosion has taken place on account of the said dam. These statements do not appear to me to bear out the contention of the Company. The Indian Agent has reported that in his opinion the building of this dam has increased the erosion by 90%. I think there can be little doubt that the keeping of the water at hight level must increase the erosion. If a work is to be constructed to stop all erosion such a work should be constructed by the Department and the Company each paying the proper proportion. I would make such a proposition to the Company and if they are unwilling to do what is considered fair and reasonable, I would ask

Sir,

With reference to your letter of the 1st instant and enclosures, I beg to inform you that copies of these documents were forwarded to Mr. J. P. Mr. Wright says that one of the signers of the said document , Perrish Jourdain, had just informed him that he never saw the paper and never knew anything about it and also the Rev. Father Vales had that day told him that he had put his name on the paper. It is stated also that Alek Breyere never signed the paper, in fact knew nothing about it, and that Alevis Manville was away hunting at the time the statement was signed and therefore his name was puton without his knowledge.

It appears from the information generally on record that erosion of the shore of the reserve in question has been going on for some years past but recently this erosion has been much greater than usual on account of the keeping of the water at high level by the dam built by the Ontario-Minnesota Power Company.

There appears to be no doubt that the keeping of the water at high level has been the cause of increas-

* * * * * *

We are calling your special attention to give your fully power and assistance that make us wont and live poorly that they put a dam across the Falls at at Fort Francis,Ont.and both Towns of Fort Francis and International Falls dump their carbbages into the river and every thing thats dirty and muttenand the water what we drinks in the river is getting worseand worse right along at the present timeas far as we know the water that is dirty now kills the fish along the river. You are the man"as we heard" and the American that let this Dam and paper mill startes there at the Falls. The Paper Mill is the one who makes the river worseand worse for dumping their carbbages in the river. We want you to have this paper mill pay us whatever the worth of his doing at the Falls,and also the both towns. If you can not get this party to pay usget them to give one good pump to each family on our little reserve.

To the Secretary,

Dear Sir,- Your number 225792.

Replying to yours of the 5th. instant re Adam Colin and Aleck Moore, it seems to me that when there is a Colony provided for ex-pupils of these schools, a couple of boys who are capable and willing to go, and ought to go, and this is the best possible solution for their life, the way ought to be made open for them to enter the Colony. Had Adam Colin been at Fort Churchill, where he was born, when these people were taken into treaty, I think there would have been little doubt about him being taken in with the rest, for I know that a large number of just such as he is were taken in. The fact is that there are very few Indian people in that northern land who are entirely free from white blood, and I am not sure that there is enough flowing in his veins to have kept him out of treaty at the time these people were taken in a few years ago.

As to Aleck Moore, he is a brother of Linklater Moore who is out on the Colony and has been taken into treaty and what has been done for one can surely be done for the other. These boys I believe will do well on the Colony and would be a credit to the same and become an asset to the state. I trust that the Department will reconsider the matter. Yours sincerely.

Honorable Sir

As Mr Ogilvie must have constated during his short stay here, the work done temporarily last fall, on the bank of Rainy Lake to prevent it falling down, was completely over-thrown by the first heavy frosts of winter. If he should return, he would see that the water has attained its extreme height, consequently the east wind of yesterday caused much damage to our bank. As the water is kept at this level, late in the winter, and every year indefinitely, it is to be feared that we will lose the whole strip of land, that separates us from the lake. The bridges made last July at a distance of at least ten feet from the bank, have already become dangerous. Assuredly at the first storm, some will become intirely useless.

I cite these facts of extreme importance to the Dept. persuaded that it will try to do something to stop this misfortune.

I profit of this occasion to protest against the intentions that Bacons the superintendant of the Power Co International Falls, gave to my signature, in a duplicate request, that he hastened to present, this Spring to the Department in the intention, no doubt, of exempting himself the task necessitated by the damage caused by his commerce.

To my great regret, I have signed these requests; but I declare that in signing them my intentions were to witness the names and not the intention contained in them, as my report at the end of the fiscal year will testify.

I am

Honorable Sir

Yours sincerely.

Dear Mr. Pedley:- re Ontario-Minnesota Power Co.
Indian Graveyard at Fort Frances.

Confirming our interview of to-day I beg to say that I am in receipt of a letter from the President of the above Company, in which he says in part as follows.

" If the Deputy Minister finds upon investigation that our works are partially responsible for the erosion in question then it would probably be proper for our Company to bear a portion of the expense, but in any event the part our works play in the damage will undoubtedly be found to be slight.

I have been away most of the time since your last letter on this subject, and just as soon as I have time, we will substantiate the good faith of the affidavits, which were furnished you in this matter."

I presume you will put some enquiry upon foot to find out just how much the Company's works are responsible for the damage to the banks in question, and that having done so you will make us some proposition of settlement.

Yours truly,

The School building is erected on the south bank of the lake and is at present about 154 feet from crest of bank to building with the present lake level about 7'6" below crest. The waters above the lake have been materially raised and are constantly maintained at a greatly increased height over natural conditions owing to the building of a power dam at the falls between Fort Frances and International City and as the former shore line is constantly inundated owing to this cause and as the lake at this point is a considerable body of water allowing the winds and waves unobstructed action on the shore the consequent erosion is constant and exceedingly rapid, so much so that it is reported that 7½ ft. was worn away during one stormy afternoon (and appearance warrants full credence for the statement.) The persons responsible for the raising of the water should be held liable for the damage to the shores and it would appear that they fully recognise this responsibility as last year they erected a plank barricade along these shores to protect them, but of such a flimsy character that it is a matter of astonishment it remained erect until completed.

The Department should make active protest against the present unprotected condition of the shore since this dam was built as unless the shore is protected it is only a matter of a few years when the water will reach the school building.

Memorandum for the Deputy Superintendent General:-

I beg to draw your special attention to Mr. Ogilvie's report hereunder. As you are aware this matter has been dragging along since 1905, practically since the commencement of the construction of the dam. That company has not paid any sum for the land that has been damaged by its operations.

The company submitted in the first instance a plan showing a tract containing about eighteen acres that they considered would be flooded.

From a conversation yesterday with Mr. Magrath, of the International Waterways Commission I think it would be advisable that no protection works should be undertaken until that commission has decided on the level to which the water may be raised. In the meantime, I think demand should be made on the company for payment for the actual damage sustained todate which appears to be considerable. The Indian Agent, I think, would be able to give us a relaible estimate of the sum that

should be demanded.

It would appear that the company should assume the responsibility of protecting the bank and not the Department. It is evident that it is the duty of the company to undertake this work. If the damage continues the Department can collect for the damage done however great it may be.

Sir,

With reference to your letter of the 24th ultimo, I beg to inform you on further consideration of the matter it appears that as the maintaining the level of the water of Rainy Lake at a greater height than normal is thecause of the washing away of the bank of the Indian Reserve in question near Fort Frances and that the maintenance of the water at this level is caused by the operations of the Ontario Minnesota Power Company the question of protecting the banks is a matter to be dealt with altogether by that company.

The Indian Agent has been instructed to place a fair value on the damage already sustained and demand will bemade from the said company for the amount the Indian Agent may decide upon. I have also to request you to take due notice that if the damage continues the Department proposes to collect compensation in full for any damage that may ensue hereafter from the above mentioned cause. Please also take due notice that the rapid washing away of the bank is not only causing the loss of valuable land but a school building of considerable value will soon be in a dangerous condition.

Sir,—

Referring to my letter of the 10th July 1912 No.3304, and subsequent correspondence, relative to the protection of the bank in front of the Fort Frances Boarding School property, and reserve 16A, I have the honor to state that the water in Rainy lake is now higher, than it has been during the past 15 years, and the daily erosion of the bank is very heavy, in fact there has been 20 feet of the bank for a distance of ¾ of a mile washed away in the past two weeks, and during an east storm on the 4th instant, in many places portions of the bank of 10 feet in depth to 50 feet in length were washed away, and this is land that cannot be replaced, the road from the Boarding School is impassable, three bridges were washed out by the storm on the 4th instant, and if immediate steps are not taken to protect the bank in front of the cemetery, it will soon go into the lake in fact a portion of it would have been washed away, if the Indians had not built a wall of logs, two or three years ago, in front of the cemetery, but this is now all washed out; in my opinion the only way to protect this bank is to pile and face it with 4 x 6, as Mr.G.A. With further reference to the protection of the foreshorealong Reserve I6A, the Boarding School land, and the Agency Reserve, I have asked the Manager of the Northern Construction Company, who are doing the piling to protect the septic tank and drainage for the Boarding school, to give me an approximate estimate of what it would cost to pile this foreshore for a distance of one mile, driving piles 8 feet apart, and I0 feet deep, and facing it with 4 x 6, No.I lumber, and tamarack piles, nailed with 8 inch spikes; he estimated it would take 660 ,20 foot piles, which would cost $5. each; and it would take about I50.000 feet of lumber No.I, would cost about $30.00 per M feet to put it on, this would make a total cost $7.800.00, and I0% for profit would make the whole cost $8.580.00.

I am of opinion that he has estimated for to much lumber, as I think that for about 40 chains, it would not require the wall to be 7 feet high, as he estimated, but 4 or 5 feet would be sufficient, that would reduce the cost some $600.00.

As the Ontario and Minnesota Power Co. have promised to do this work for the past three years, and have not done it, and we have lost a large quantity of valuable land, and likely to loose much more, as every storm takes out large quantities, I would suggest that this

this work be done at once, and charged up to that Company, for if it is not done soon, the cemetery, will soon begin to go into the lake, and then we will have troubles of our own, with the Indians and the town of Fort Frances, as the town gets its water, about a mile and a half from the cemetery, and besides the valuable land we are loosing. Sir,—

Referring to your letter of the 17th instant, No.282,759, stating that my letter of the 7th instant, No. 4131, crossed the letter from the Department of the 11th instant, which was in reply to mine of the 7th instant, No 4130, which seems strange as both letters were wrote on the same day and enclosed in the same envelope, I beg to state that action has already been deferred to long as we have lost about 60 feet for a distance of a mile, and every day more is going, in fact the road and bridges north of the school is gone and in a few days the road south of the school will be gone, as part of it is gone already, I am satisfied that we have lost at least 7 acre of land this year already, this is a matter that does not want any deferring, but prompt action, this I have always asked for, but we are not a bit further advanced, than we were three years ago, the value of the land lost this year would nearly pay for the work required to protect the bank.

Memorandum

Mr. Pedley,-

The Reverend Principal of the Fort Frances Boarding School calls attention to the need of immediate action to protect the shores of that portion of the reserve in front of the school from damage from the water of Rainy Lake. The school is not only some 154 feet from the shore line, and the principal states that last year ten feet of the shore at this point was washed away but I gather from Mr. Ogilvie's report, dated June 23rd, a copy of which is turned out below onthis file, that conditions are much worse and that the drainage system at the schoolis is endangered. Mr. Ogilvie has, I understand, very full information respecting this.

The Ontario Minnesota Power Company would appear to be liable for damage incurred through the raisin g of the water of the lake and should be compelled to take the necessary steps to protect the shore from further damage. I note that the Company has been informed that the Department will hold them liable for any damage that has been or may be

be incurred, and also of the dangerous position of the school buildings. But the matter is so urgent that something should be done at once. It is not a question of compensation but of protection of the reserve and the school property where we have during the past seven years, spent a large amount of money. I do not consider that the department and the Indians can be adequately compensated for the losses incurred, and think that prompt action should be taken to safeguard the interests of all concerned.

To arrive at something definite I would suggest that an engineer from the Company and one from the Department meet on the ground and decide as to the best means of affording the necessary protection and that the Company be approached with this in view.

Since writing the above a letter has just been received to-day from Mr. Agent Wright, drawing attention to the serious condition of affairs. He estimates the loss of land this year as seven acres, the value of which, he ~~saxts~~ says, would nearly pay for the work required to protect the bank.

Sir,-

Referring to your letter of ~~26th instant,~~ *No.* 282759, requesting me to place a fair value on the damage already sustained, by the washing away of the bank of the Indian reserves, caused by the maintenance of the water of Rainy Lake, to a greater highth than normal, by the operations of the Ontario and Minnesota Power Company, I have the honor to state that in my opinion we have lost at least 8 acres of land, which at least is worth $500.00 per acre, but aside from this we have lost half a mile of road and three bridges, and leaving the cemetery, just on the brink of the lake and caused considerable loss and inconvenience to the Northern Construction Company, who have a saw-mill on that portion of Reserve 18B, that was leased, and also to the Indians, and leaving the road to the school in a very dangerous condition.

The loss is going on every day, and it is hard to say what damage will be done in the next few weeks, or even before this letter reaches you, for every storm makes a change, at the present time $5000.00 would be little enough compensation for the damage done.

Referring to your letter No. 285250-5 of the 7th of August 1913 relative to the raising of the water on Rainy Lake by the Ontario and Minnesota Power Company, to the 500 bench mark I have the honor to state that I have been informed that the Company cannot raise the water above the 497 bench mark which is the present height therefore I do not think that it will affect the Sceptic Tank of the Fort Frances Boarding School.

I inclose herewith a letter from Mr. O. Jalbert a merchant of Fort Frances wherein he states that the road to the Boarding School has been washed away. As intimated inmy previous correspondence immediate steps must be taken to protect this band as thereis a very erosion going on each day.

Sir,

In reply to your letter of the 12th instant, I beg to inform you that an engineer of this Department will probably leave for Fort Frances on Monday the 25th instant with the intention of meeting an engineer or other officer of the Ontario & Minnesota Power Company to arrange for the immediate construction of the necessary protection works required to prevent the further washing away of the land on the Indian Reserves at the Westerly end of Rainy Lake.

With reference to the road which has been washed away I have to say that in all probability it will be necessary to deviate the road inland a little and in any case for the present. That is to say, the proposed protection works may perhaps be placed far enough away from the present bank to afford room for the road but this will take some little time. I have to request you to immediately arrange to have a temporary road constructed. Should, however, the cost of this work be more than $200.00 please wire before commencing it.

Honourable Sir,

In the absence of Mr Wright, your agent at Fort Frances. I hasten to inform the Department. that the tempest of last Saturday and Sunday. caused immense damage to the bank of the School and Reserve grounds. Since over a month ago. all the bridges, built about this time last year. have fallen into water. But what is even more serious for us. and to which I wish to draw the attention of the Department, is. that we are at the point of having all communication with the Fort cut off. Another little east wind, and our roads will be unserviceable. Even at the moment. my men have to use extreme precautions to prevent their loads being precipitated into the lake. This prospect is far from being pleasant.

To prevent this misfortune I beg your Honourable Sir, to authorize Mr J. Noël. who has just fixed 75 feet of bank in front of the School to continue immediately his work. A delay would be disastrous

SPECIFICATIONS FOR THE CONSTRUCTION
OF A BREAKWATER AT THE INDIAN RESERVES AT THE WEST END
OF RAINY LAKE NEAR FORT FRANCES, ONTARIO.

Brush is to be laid four feet deep extending from the foot of the bank twenty feet out into the water. The brush should be cut in lengths of twenty feet and laid alternately; that is to say one piece with the brush end towards the lake and the next piece the brush end at the bank.

Stone is to be dumped or placed on this to the height of about five feet, the top of the stone pile should be at the same height as the present bank and about six feet from it as shown on the drawing attached hereto. The face of the stone towards the lake is to be carefully hand laid by a competent mason and with a slope of one and a half to one. Care is to be taken that at least three fourths of the stones contain ~~not less than~~ two cubic feet each.

The edge of the present bank is to be thrown in to partly fill the void between the stone and the bank as shown on the drawing and willows are to be planted thereon.

Memorandum for the Deputy Superintendent General:-

In accordance with instructions received I visited the Indian Reserves at Fort Frances and beg to report as follows:-

Accompanied by Mr. John J. Ross, Superintendent of the Minnesota and Ontario Power Company, Mr. T. D. McAnulty, C.E., of the same company and Mr. J. P. Wright, Indian Agent, I inspected the damage done to the Reserves Nos. 16a and the Agency Reserve No. 1 at the Western end of Rainy Lake. The damage consists in the bank being washed away for a distance of about one mile extending from a rocky point on Reserve No. 16A to the Northerly limit of the sixty acres of land leased to the Town of Fort Frances.

There is also considerable damage being done to the said leased land but as this is under the control of the town I did not take it into consideration.

In order to effectively protect the bank for the entire length of one mile it may be estimated that the sum of $25,000.00 will be required. I considered that this would be altogether an unreasonable sum to expend for this purpose but that it is absolutely necessary that

Indian Affairs. (RG 10, Volume 4021, file 282,759 1)

that measures should be taken immediately to protect the front of the industrial school lands and the cemetery.

As the road along the shore has been largely washed away and danger from this source may at any time occur; also as above stated the expense to protect the bank would be very great, I beg to especially recommend that the said road be practically abandoned and a new road be laid out as shown on the plan herewith. This road is very much to be preferred to the one along the lake shore for the use of the mill operators on Reserve No. 18; it is also shorter and will not be subject to any inroads from the action of the water of the lake.

The evidence to be obtained regarding the washing away of the bank is conflicting and also unreliable on account of the lack of data. There appears,however, to be no doubt that the washing away of the bank within the last four years, that is to say, since the dam has been in operation, has been extremely rapid when compared with the erosion ~~xx~~ which took place before the water was raised. Discussing the question with Messrs. Ross and McAnulty I suggested that their company should pay two-thirds of the damage done and cost of the proposed protection work and the Government to pay one-third. They urgently set forth that it should be the reverse, arguing very strongly on the benefit received by the construction of the dam, etc., as well as the fact that their evidence they had obtained was to the effect that the washing away of the bank would have occurred in any case in the course of time.

I finally submitted the following to them:-

Damage done to the present date....	$3000.00
Cost of the construction of the proposed new road.....	2200.00
Damages sustained by the Indians through the loss of land on Reserve No. 16 and moving houses.....	700.00

Indian Affairs. (RG 10, Volume 4021, file 282,759 1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Breakwater in front of school and cemetery.....	$ 7000.00
Total.....	$12900.00

I informed them that I would recommend that their company should pay $6000.00 with the least possible loss of time and one half of all future damages or repairs that may be required.

These gentlemen were willing to recommend to their president and board the payment of $6000.00 but pressed in the most urgent manner that the company be not bound to make any future payments.

I beg to recommend for your consideration and approval:-

1. That a breakwater be constructed in front of the cemetery and the school grounds commencing at the North [redacted] where a small stream enters the lake Southerly to the Southerly limit of the school ground, in accordance with the plan and specifications herewith attached.

2. That a road be opened across a part of Reserve No. 18, across Reserve No. 16 and along the Westerly limit of Reserve No. 1 as shown on the plan herewith. I may here say that I interviewed members of the town council of Fort Frances who expressed themselves as being perfectly willing that the road should be opened across the land leased to the town. I also saw the road master of the Canadian Northern Railway who stated a crossing should be constructed over the railway as soon as our road is opened.

3. That the lake front from the said Southerly limit of the school grounds to the Northerly limit of the sixty acres leased to the town be subdivided into lots as shown on the plan herewith and sold, the consent of the Ontario Government being first obtained. The sale of <u>these</u>

these lots to be made with the proviso that the purchaser will protect his own lake front and have no redress for damage done by the water either against the Department or against the Minnesota and Ontario Power Company. The balance of the land to be added to the reserve of the industrial school.

4. Rev. Father Vales is quite in accord with the change of the road allowance but desires to stipulate that he be paid $60.00 per acre for the labour of himself and his companions in clearing the portion of the land through which the road will pass and that he be allowed for the use of the school the timber on the remaining portion of the lands. I desire to recommend this, it being understood that the brush is to be used in the breakwater.

The damage suffered to date and future damage that may occur in the construction of the breakwater by the Indians of Reserve No. 16 to be paid them on valuations to be made by the Indians Agent. The Rev. Father Vales, principal of the school, apprehends considerable trouble if he has any whites near his school and it is his intention to keep a belt of timber between the town and the school lands. He willconsequently be very much opposed to the subdivision and sale of the lots as proposed above. I may say that I did not discuss this matter with the Reverend Father as I consider his exception is not well taken and I also think that it is important that the Department should be relieved by the proposed sale of the lots of any respobsibility in regard to the washing away of the bank. If approved the said breakwater and road may immediately be proceeded with. The work can be effectively and satisfactorily performed by the Indians

Indians working under a good foreman. This foreman should be appointed with as little delay as possible.

The Town Council of Fort Frances should be notified that the above arrangement refers only to the land under the control of the Department and that the Council will require to make its own arrangement with the Minnesota and Ontario Power Company.

Memorandum for the Deputy Superintendent General:-

In reply to the memorandum hereunder, I beg to state that a formal grant has not been made to this school but permission to cultivate the tract of land, supposed to contain about sixty acres, lying between the lands held by the school and the tract leased to the town of Fort Frances, was given to the principal of the Fort Frances Boarding School by letter dated the 6th ultimo. Please see File 285,250/1, herewith. I see no reason why this permission should not be rescinded as far as the strip along the shore of Rainy Lake is concerned. In fact as the Industrial School lands are under the direct control of the Department, the Department can take such action in connection with them as may be thought proper.

By Minister Secty

Ottawa, Oct. 4, 1913.

Sir,

Complaint has been made by the Indian Agent at Fort Frances for some years past that the construction of the dam in the river at Fort Frances and consequent raising of the water level by the Minnesota and Ontario Power Company has greatly accelerated the erosion of the bank of the lake along the fronts of Indian Reserves Nos. 16 A and the Agency Reserve No. 1. This erosion has been so great that the road allowance along the lake has in some places been completely washed away and unless some measures of prevention are taken rapid erosion will continue to take place.

Mr. Bray, Chief Surveyor and Engineer of this Department, was sent to inspect and report in the matter. He has reported with regard to the land still under direct control of this Department not including sixty acres at the Southerly end of the Agency Reserve which was some time ago leased for a long term to the town of Fort Frances for park purposes.

Mr. Bray's report is to the effect that the sum of $25,000.00 would be necessary to protect the bank for the portion that is being eroded from the North limit

limit of the said sixty acres to a rocky point in the Reserve No. 16 A, a distance of about one mile. He considered this to be an unreasonable sum to expend for the purpose but that it was absolutely necessary to protect the front of the lands ~~o~~occupied by the Indian Industrial School. This Department ~~pu~~proposes to construct a breakwater to protect the school grounds and to subdivide into lots a part of the lake front and to sell the same, provided the Provincial Government will give its consent. The sales will be made with the proviso that each purchaser will require to protect his own lake front without recourse against this Department or the Minnesota & Ontario Power Company for any damage done by the water.

The plan herewith enclosed shows the proposed subdivision of the portion of the lake front referred to which it is proposed to sell. In view of the foregoing I have to request that your Department will be good enough to consent to the sale of the said lands.

Gentlemen:-

It has been observed that logs belonging to your firm are allowed to float in against the bank of the Indian Reserves at the West end of Rainy Lake and by the action of the waves these logs strike the bank and cause great damage by assisting materially to the erosion of the bank. I have therefore to request you to be good enough to construct and maintain a boom to prevent your logs from striking the bank.

Referring to the recent visit of Mr. S. Bray, Chief Surveyor of this Department, to Fort Frances, I have to inform you that he has reported to the effect that accompanied by Mr. J. J. Ross, Superintendent oft the Minnesota & Ontario Power Company, and Mr. T. D. McAnulty, Civil Engineer of the same company, and also by Mr. J. P. Wright, Indian Agent, he inspected the damage done to the Reserves Nos. 16 A and the Agency Reserve No. 1 at the Western end of the Rainy Lake by the action of the waves of Rainy Lake.

He has reported on the damage done for a distance of about one mile extending from a rocky point on Reserve No. 16 A to the North-erly limit of the tract of sixty acres of land leased to the town of Fort Frances.

He estimated that in order to effectively protect the entire length of one mile $25,000.00 would require to be expended. He considered this to be an unreasonable sum to expend for such a purpose and finally submitted the following proposal to the said officers of your Company:-

Damage done to the present date..	$3000.00
Cost of the construction of the proposed new road.....	2200.00
Damages sustained by the Indians through loss of land on Reserve No. 16 and moving houses.....	700.00

1200 for construction

Breakwater in front of school and cemetery.....	$7000.00
Total.....	$12900.00

He then informed them that he would recommend that their company should pay $6000.00 with the least ppssible delay and one half of all future damages or repairs that may be required. These gentlemen were willing to recommend to you and your board the payment of $6000.00 but ~~r~~presented in the most urgent manner that the company be not bound to make any future payment. Mr. Bray's recommendation has been approved and I have therefore to request the immediate payment of the said sum of $6000.00.

The futther recommendations made by Mr. Bray, which have also been approved are:-

1. That a breakwater be constructed in front of the cemetery and the school grounds, commencing at the North where a small stream enters the lake Southerly to the south limit of the School Grounds in accordance with the plan and specifications herewith attached.

2. That a road be opened across a part of the Reserve No. 18 across a reserve No. 16 and along the Westerly limit of Reserve No. 1 as shown on the plan herewith.

3. That the lake front from the Southerly limit of the School Grounds to the Northerly limit of the sixty acres leased to the Town be subdivided into lots as shown on the plan herewith and sold, the consent of the Ontario Government being first obtained. The sale of these lots to be made with the proviso that the purchaser shall protect his own lake front and have no redress for damage done by the water either against the Department or against the Minnesota and Ontario Power Company.

The Department proposes to construct and maintain the breakwater in front of the school grounds and as stated it is proposed to sell the remainder of the land still under the control of the Department. The Minnesota & Ontario Power Company will thus be relieved of any future dharge. Please note that Mr. Bray's Report deals only with the land directly under the care of this Department and not with the portion leased to the town of Fort Frances.

It is hoped that you will see your way to immediately forward the said sum of $6000.00 and thus close this matter as far as your company is concerned, that is in the land as above stated under the direct control of this Department.

Copies of the plan of the reserve, showing the proposed new roads and subdivisions and a copy of the plans and specifications of the proposed breakwater are enclosed herewith for your information.

Sir,

I have to inform you that Mr. Bray's report has been approved, relating to the damage done to the Reserves Nos. 16 A and the Agency Reserve No. 1 at the Western end of Rainy Lake by the Water of the said lake. In accordance with his recommendation demand has been made on the Minnesota & Ontario Power Company for the payment of $6000.00.

It is intended that the said payment shall cover all past and future damages chargeable against the said company as far as the lands under the immediate control of this Department are concerned, that is to say, to the North limit of the sixty acres leased to the town of Fort Frances. The said town of Fort Frances will require to make its own arrangement with regard to damages that may be sustained by the works of the Minnesota and Ontario Power Company.

The following recommendations made by Mr. Bray have also been approved:-

1. That a breakwater be constructed in front of the cemetery and the school grounds, commencing at the North where a small stream enters the lake, Southerly to the

to the Southerly limit of the school grounds, in accordance with the plan and specifications herewith enclosed.

2. That a road be opened across a part of Reserve No. 18, across Reserve No. 16 and along the West limit of Reserve No. 1 as shown on the plan herewith.

3. That the lake front from the Southerly end of the school grounds to the Northerly limit of the sixty acres leased to the Town of Fort Frances be subdivided into lots and sold, the consent of the Ontario Government being first obtained; the sale of these lots to be made with the proviso that the purchaser will protect his own lake front and have no redress for damage done by the water, either against the Department or against the Minnesota & Ontario Power Company. The balance of the land to be added to the Reserve of the Industrial School.

4. Rev. Father Vales to be paid $60.00 per acre for the labour of himself and his companions in clearing a portion of the land through which the road will pass and that he be allowed for the use of the school the timber on the remaining portion of the lands occupied by the road, it being understood that the brush may be used in the breakwater.

The damage which has been suffered by individual Indians or may result during the construction of the breakwater is to be paid to them on valuations made by yourself.

It is considered desirable that steps should immediately taken to construct the said breakwater and open the road above referred to for which work there are funds available. I have therefore to request you to

you to be good enough to arrange for the cutting and laying of the ~~birch~~ brush and the quarrying and placing of the stone for the breakwater and also for the opening and construction of the road referred to. It is considered that the Indians themselves may be quite competent to undertake the whole of the work especially if a good foreman is appointed to take charge. Kindly report on this point as soon as possible However, you may commence the work immediately.

Dr. Moore is being communicated with, with connection to the sprouting and planting of willows along the bank , that is being washed away. These willows should be planted along the entire bank commencing from the rocky point in Reserve No. 16 A and extending Southerly to the South end of the breakwater at the Southerly limit of the school ground. It is supposed that three hundred willows should be sufficient. If more are required they can be subsequently ordered.

A blue print plan is herewith enclosed showing coloured brown thereon the new road to be opend and also the proposed subdivision and the necessary road allowances in connection with the same.

Sir;

I have the honour to acknowledge your letter of the 4th inst. No. 282,759, in connection with the flooding and erosion of the bank of the lake along the fronts of Indian Reserves Nos. 16 A. and the Agency Reserve No. 1.

We are asked to consent to your laying out lots on the Indian Reserve and disposing of them.

As you know, the Indian Reserves in that whole Rainy River District have not yet been approved by the Government of Ontario. The Minister was down at Ottawa about a year ago endeavoring to get the matter of Indian Reserves in the Rainy River District under Treaty No. 3, brought to a satisfactory position, but nothing has been done by your Department since that date.

The Minister will not consent to any disposition of the lands in Indian Reserves under Treaty No. 3 until the whole question is taken up and dealt with.

Sir,

Referring to your letter of 4th instant,

No. 282,759., relative to the erosion of the bank along the shore of Reserves Nos.I6A and the Agency Reserve No.I, on Rainy Lake, and approving of certain recommendations made by Mr.Bray, all of which I entirely agree with. As I propose starting this workat once, I would ask that an accountable cheque for $1000.00 be sent me, in order that I may pay the mens wages as they require it, say at the end of each week.

The Indians will be able to do the most of the work except the quarrying and facing the stone, which will require exper labo#r, but any labo#r that the Indians can do in this work will be given them.

I think it a pity that there is not to be any rip-rap work done on Reserve I6A, as the bank is going very fast and will in time eat around the work that is done but I will report more fully on this matter later on after I find out what the cost of the work will be.

Sir,—

Referring to your letter of 15th instant,

No. 282,759. relative to the protection works on Reserve 16A and the Agency reserve, I beg to state that I have engaged a very good foreman, named Abel Anderson, at $4.00 per day, to oversee the work of building the new road, and preparing the brush for the break-water or rip-rap work to be done at the bank, the rip-rap work cannot be done until the lake is frozen, for to attempt it now would be useless, as I could not get the men to work in the water, and if I could, the first east storm would tear it out, the men are tying the brush cut on the road, into bundles, so as to be convenient to haul and handle, and as soon as the lake freezes up, we will cut out the ice and lay the brush on the ground, and haul the rock on the ice.

The Indians are very anxious to have the bank on Reserve 16A protected, the cost of which I estimate will be about $3000.00, and it would only take a few years to loose the value of that in land, if it is not protected, as there are six houses that would have to moved in the next two years, if the erosion is allowed to go on, and I would strongly recommend that the break water be extended to the North line of Reserve # 16A. for if it is not done there will be all sorts of complaints for damages etc.

re. Your file No. 282759.

Referring to my interview with you and your Mr. Bray at the beginning of the week, I am in receipt of a telegram from Mr. Backus authorizing me to make the arrangement which I suggested; that is to say, my clients will pay in cash now $2,000.00 and will comply with the terms of the Department's letter of the 4th October last, subject to this, that, if upon the completion of the work it appears that the actual cost is less than Mr. Bray's estimate, we will have a proportionate reduction. The Department will keep track of the cost of the work and the balance of the moneys will be payable by my clients from time to time as the work proceeds.

Sir,

Re Ontario & Minnesota Power Co.

I beg to acknowledge the receipt of your favour of the 22nd instant, with respect to this matter and note that your client will comply with the Department's letter of the 4th October last, subject to the proviso that if upon the completion of the work it appears that the actual cost is less than Mr. Bray's estimate, you will have a proportionate reduction.

With respect to Mr. Bray's estimate it appears that two items viz, that for "damage done to the present date $3000," and that for "damage sustained by the Indians through loss of land on Reserve No.16 and moving houses $700" are regarded as ascertained. With respect to the item, "cost of the construction of the proposed new road $2200," Mr. Bray says he estimated that $1000 of this is the value of the land that will have to be taken for this road and the balance, $1200, is his estimate of the cost of the labour and material that may be required to make the road. SURVEYS.

Sir,—

Referring to your letter of the 4th October last, No.282,759,relative to the protection of the bank on Reserve 16A and the school land,I beg to state that I find that the rip-rap work was a larger job than I first imagined,and nothing could be done until the ice froze to the earth along the shore,so that the brush could be placed,and it is only during the past week that this has been done,then the machinery and outfit necessary to do the work had to be purchased or rented and the difficulty of getting experienced men to do the work. I asked several parties to give me a price on the work,one man wanted $26.600.00,and another wanted $7.00 per cubic yard for rock work,neither of these offers could I entertain,but Mr.Edwin Penniman,an experienced contractor went over the work last saturday, and said he would make me an offer for the rock work,I to put in the brush,and I have just received his offer by telegram,which reads as follows,viz:

"We would get out rock and place rip-rap in breakwater for two dollars and seventy cents per cubic yard measured in finished work,this means about $5500.00 as cost of rock for forty chains. Could ship outfit and get on ground next week.Please wire me. Penniman

for rip-rap work,and would ask for the Departments approval,as that price is much cheaper than I can get it done by day labour,and the time is getting short I could not take any chances. I consulted with Mr.McNulty, Superintendent of work for the Ontario and Minnesota Power Co.who has had a great deal of experience in such work,and he informs me that I am getting the work done very cheap.

Mr.Penniman is a well known contractor and very highly spoken off,I have known him for eight years,he lives at Fort William.

I would ask to be informed by wire if my action has been approved of.

Secty

Ottawa, Jan. 14, 1914.

Sir,

I have to acknowledge the receipt of your letter of the 9th instant and note that you recommend the rock work for protection of the shore in front of Reserve 16A and the school lands to be let by contract to Mr. E. Penniman. If it should be desired to let this work by contract it will be necessary to call for public tenders which the Department has not decided to do.

It is preferable that you should carry out the work as originally intended. That is to say, it is to be done by day's labour under an experienced foreman and under your general superintendence.

If the foreman you have already engaged has not sufficient experience or is otherwise not quite satisfactory another foreman will require to be appointed. The work should proceed in this manner, it is hoped, more satisfactorily than if let by contract.

With reference to your letter of the 9th inst., No. 4251, I beg to confirm the following telegram sent you this day:-

"As I understand outfit is on the ground, Department will accept Penniman's tender for the work, as per your letter ninth instant.

I have to point out that in my letter to you of the 4th October last, you were not authorised to obtain offers from whitemen for this work. Your action in this matter has had the effect of placing the Department in an awkward position and compelling it to a line of action it had no intention of taking.

In view of the telegram above quoted, my letter to you of the 14th instant is cancelled.

Referring to your letter of 14th instant,

No. 282,759., relative to the protection work of the shore in front of Reserve 16A and the school lands, which I had let to Mr.E.Penniman, you state that the Department has not decided to call for public tenders for this work, I do not think that there would be anything gained by calling for tenders, as I feel sure we could not get as good a price as we have, and I am positive that we could not do the work by day labour as cheap. I do not think the Department realizes the magnitude of this work, or the difficulties I would have in doing this work by day labour. If the Department had answered my letter by wire, as I had asked for I could have stopped Mr. Penniman from shipping his outfit here, but he has his outfit and and men here for several days, and has his drills working and track laid the expense of getting his outfit here and taking it back, and the rental of the machinery and derricks during the work would cost about 50 cents per cubic yard on the finished work, that only leaves $2.20 per cubic yard for blasting, loading, hauling and placing the rock which is much less than I could get it done for.

I have about 25 men cutting out the ice, cutting and haulingand placing the brush, about two thirds of this work is yet to do, and I expect the whole work will

As soon as possible after my return I shall come to Fort Frances, and I would appreciate it if you could make arrangements so that at that time you could give me a cheque for about Two Thousand Dollars ($2000.00) on account of the rip rap work at the Indian Reserve.

We might say, that including the pay cheques for last month, which will be sent so that they will reach there about the 15th, we shall have spent considerable more than the amount which we are asking you to pay, and at the same time the amount of work which is in place, will we think, justify you in making the payment which we have asked.

Memorandum for Mr. McLean:-

Mr. Glyn Osler, acting for the Ontario and Minnesota Power Company agreed that the said Company should pay $6000.00 in accordance with my memorandum of September 8, 1913, provided, however, that on account of the President of the Company having considered that my estimate of $7000.00 for the construction of the Breakwater was too great, that a proportionate reduction should be made from the said $6000.00 if the said Breakwater cost less than $7000.00.

Mr. Agent J. P. Wright has reported that the work has been completed. We have to consider this as being in two portions. The first 1800' in length, the construction of which I estimated at $7000.00, the second portion is 1330' in length which Mr. Wright at his urgent request obtained permission to have constructed. The total length of the Breakwater is, therefore, 3130'.

The total cost of the said 3130' is shown to

have been $11,931.30. The cost, therefore, of 1800' is $6861.00 or practically the same as my estimate. There is, therefore, no reduction to be made from the sum of $6000.00 payable by the Ontario and Minnesota Power Company. The said Company paid in accordance with our demand on November 28, last, the sum of $2000.00. I beg to recommend that demand be made on the Company for the balance of $4000.00 now due.

Ottawa, July 25, 1914.

Sir,

With reference to your letter of the 22nd Nov., last, I beg to inform you that Mr. J. P. Wright, Indian Agent, has reported to the effect that the break-water at Fort Frances, in front of the Indian Reserve and the Indian School Lands, has been completed and that he considers that the work is well done and that it will be very successful.

The understanding, as you are aware, was to the effect that the Company was to pay $6000.00, provided a reduction was made in the event of the work proving less expensive than Mr. Bray's estimate.

Mr. Bray's estimate was as follows, as you were previously informed:-

Damage done to present date.....	$3000.00
Cost of the construction of the proposed new road.....	$2200.00
Damages sustained by the Indians through loss of land on Reserve No. 16 and moving houses.....	$ 700.00
Breakwater in front of school and cemetery.....	$7000.00
Total.....	$12900.00

From this is to be deducted $3000.00 for the damage to the present date, $1000.00 for the land occupied by the new road and $700.00 damages sustained by the Indians, in all $4700.00; leaving the estimated cost of the construction of the break-water and road $8200.00.

Since the making of this estimate it has been found necessary to construct a greater length of breakwater. Mr. Bray estimated $7000.00 for 1800'; the breakwater was continued for 1330' farther at a total cost of $11931.30. The wall cost $1590.00. The total expenditure, therefore, which the Department has incurred in this work is $13521.30, which is a very much greater sum than was estimated.

It is also to be noted that the work originally intended, that is to say, 1800' of breakwater and the new road has cost a little more than Mr. Bray's estimate. The said 1800' cost $6851.00 and the road, as above stated, $1590.00, making a total of $8441.00. Mr. Bray's estimate for this work was $8200.00.

You forwarded a cheque for $2000.00 on account of the $6000.00 payable by the Ontario and Minnesota Power Company. I have now to demand payment of the balance of $4000.00 due and shall be obliged if the said payment be made as promptly as possible.

Referring to your letter of 4th October last. *No.* 282,759., and to paragraph No.2, relative to the new road opened across a part of Reserve No.I8, across Reserve No.I6 and along the West limit of Reserve No.I as shown on the plan enclosed, I beg to state that the road has been cleared, but not graded, and it is not passable until it is graded, which would cost about $300.

I might also say that the front road along the lake shore is now impassable, as the bank south of the Boarding School has washed away until there is no road left in places, this land should be disposed off as outlined in paragraph 3 of your letter.

The proper time to do the grading on the new road would be next month, as it has been to wet and soft to do it sooner.

Dear Sir, - Re Indian Burial Grounds and Ontario & Minnesota Power Company.

As requested in your recent correspondence I asked my clients to forward a cheque for the amount now owing as stated in your letter. Owing to the extraordinary financial conditions now obtaining they ask me to ask your indulgence in the matter of payment. I may say that the financial position of my clients is absolutely sound but like everybody else just now ready money is exceedingly difficult to obtain and I trust that it will not inconvenience you to grant their request. There is of course no disposition to dispute the amount and if you desire a more formal acknowledgment I am sure that my clients will be willing to execute it though you will probably agree with me that the correspondence makes this perfectly clear.

Memorandum for Mr. Scott:-

With reference to the letter hereunder from Mr. Agent J. P. Wright, I beg to draw your attention to clause No. 3 of my report of Sept. 8, 1913, which is as follows:-

"That the lake front from the said Southerly limit of the school grounds to the Northerly limit of the sixty acres leased to the town be subdivided into lots as shown on the plan herewith and sold, the consent of the Ontario Government being first obtained. The sale of these lots to be made with the proviso that the purchaser will protect his own lake front and have no redress for damage doen by the water either against the department or against the Minnesota and Ontario Power Company. The balance of the land to be added to the reserve of the industrial school."

This matter was brought to the attention of Mr. Aubrey White, Deputy Minister of Lands and Forests, Toronto. He replied on Oct. 8, 1913, stating that his Minister would not consent to any disposition of the lands in Indian Reserves under Treaty No. 3, until the whole question was taken up and dealt with.

I beg to draw your especial attention to this matter as the erosion is continuous and serious. I think

Sir,—

Referring to your letter of 24th November last,

No. 282,759, requesting me to give you an estimate of the cost of continuing the rip-rap to protect the bank from the point where it was finished at the Southern end of the school grounds to the Northern limit of the land leased to the Town of Fort Frances, I beg to state that the distance is about 40 chains or 2640 feet, and I think that two thirds of a cubic yard of rock to one foot would be ample, this would take 1760 cubic yards of rock, which would cost $3.00 per cubic yard, or $5280.00 for the rock work and say $720.00 for the brush work, the later could be done by Indian labour. I enclose a letter from Messrs Seaman & Penniman, who I asked to give me a price on the rock work. I think that if brush 10 feet long and 4 feet high is placed up to the edge of the bank and large rocks built on that with a 7 foot base and 5 feet high, it would be just as effective as is necessary, and would be a permanent protection to the bank.

This would make the total cost say $6000.00.

I have the honor to be,

Sir,

Your obedient servant,

Indian Agent.

The Secretary,

Dy. Minister— Referred this year to Mr. Graham. The price ($3.00 per cu. yd. for the rock work. (Special consideration. Rather cheap, I think.) This is reasonable. (The Resident Engineer estimated at $5.00 per cu. yd. for Rainy River protection work.) Can be done by Indian labour if necessary. O. Brady 11 Dec. 1914

Referring to your request for report on letter hereunder, I beg to add to my memorandum of the 23rd ultimo that it would appear advisable to have the work proceeded with, in order to protect the land from erosion by high water next spring. The amount expended might be charged as a lien against the adjacent land, which might be collected if it should be hereafter decided to subdivde it into lots for sale.

We have written to our clients and asked them if possible to arrange for a remittance.

The writer is aware in connection with some other business, that the Company has been practically unable to dispose of any of the putput of the mill on the Ontario side for a very long time, which means that a great deal of money is tied up in manufactured stock, so that we trust the Department will take a lenient view of the matter.

Dear Sir,

I am now in receipt of a letter from my clients in which they ask me to arrange, if possible, to have this payment postponed until the middle of the summer. They point out that on the first instant they had a very large payment to make on account of bond interest and redemption of some of their bonds which mature in series annually, and their expenses at this time of year incident to their woods operations are very great and they need every available dollar. They anticipate that it will be possible under existing financial conditions to make the payment in the middle of the summer.

Their previous expectations were disappointed owing to the set back in the paper market.

We are aware both from information that we have received both from these and other clients in the paper business,

HIGH COMMISSION WILL NOT RECOMMEND LOWER LAKE LEVEL

Washington, April 6.—U. S. and Canadian interests disputing the level of the Lake of the Woods, on the boundary between Minnesota and Ontario, reached their final arguments today before the international joint high commission. U. S. landowners claim heavy damages for lands flooded by the building of power dams at the Canadian outlet to the lake.

The commission's decision is not expected for some months. It will recommend to the two governments a level for the lake which it considers is for the best interests of the various parties concerned. Attorneys appearing before the commission have been led to believe from the line of questions asked that the commission will not recommend a lower level than the present, but even may decide a higher one is necessary. Commissioners have brought out fully the conflicting ideas as to the value of land already damaged or that would be damaged by still higher water.

Future regulation of the lake's level may be put in the hands of an international board. Commissioners have drawn out the opinion of all concerned on this question and nearly all have advised such control.

C. E. Berkman, representing farming and summer resort interests, resumed argument at the morning session. C. S. Hilton, as attorney-general of Minnesota, who did not go before the commission yesterday, followed him. The state owns big tracts of land bordering on the lake for which it asks pay. Mr. Hilton asked for no set level.

J. E. Samuelson appeared for Minnesota settlers. A. G. Murray, of Fort Frances, Ont., opposed a high level for Rainy lake, which feeds the Lake of the Woods.

WANT STABLE LEVEL LAKE OF THE WOODS

Farming and Summer Resort Interests Lay Claims Before Joint Commission.

Washington, D.C., April 5.—Advocates of both constant and variable levels for the Lake of the Woods, through which runs the boundary between the state of Minnesota and the province of Ontario, appeared today before the International Joint commission hearing final arguments in a controversy between Canadian and American interests over the lake level.

Minnesota farming and summer resort interests asked that the waters be kept as near stable as possible. Canadian power and manufacturing companies requested a level variable enough to permit an even overflow at their plants the year around. Land owners in northern Minnesota claim that the raising of the level of the lake, through the building of dams at the Canadian outlet, has damaged a vast amount of land on the Minnesota shores where the land is low.

Hard to Determine.

C. E. Berkman, who appeared for owners of farms and summer resorts on the Minnesota side, spoke also for navigation and fishing interests. A height three feet lower than the present level, he declared, was sufficient for navigation purposes. Fisheries, he said, wanted a low level. Mr. Berkman said it had been hard to determine riparian rights because of the long existence of the dam at Kenora, Ont., which has raised the normal level.

Even when a government calls on a riparian owner for its high water rights for navigation purposes, which has not been done in this instance, he added, the owner receives fair compensation.

Evidence presented, said Mr. Berkman, that navigation interests wanted a higher level was a subterfuge by the power companies, who, under the guise of interest in navigation, wanted to further their own interests at the expense of Minnesota farmers.

Wide variations in the water level would be particularly hurtful to American fishing interests, said Mr. Berkman, because it would permit vegetation to wash into the lake from the low American side and drive the fish to the Canadian side.

Constant Level.

Congressman Steenerson also asked for a lower level and one that would be constant. He demanded damages, too, for harm already wrought to farming lands by water raised by the building of the Kenora dam. Power interests, which in the main were visionary with development far in the future, should not stand in the way of farmers, who, at great hardships, have conquered the wilderness, he declared. Mr. Steenerson pictured villages wiped out and a vast acreage of farming land made useless if the commission recommended a higher level than the one now maintained.

Variable levels were advocated by C.P. Wilson, for the Canadian Flour mills at Kenora; Allan McLennan, city attorney for Kenora; and C. J. Rockwood, of Minneapolis, representing Kenora power concerns.

The Minnesota men did not complete their argument and Clifford L. Wilton, assistant attorney-general of the state, which owns big tracts of land on the lake, will be heard tomorrow.

Level Too High Now.

Representative Steenerson protested against any level higher than the present, which, he declared, was too high now. He asked damages for American land owners for injury he claimed had been done by high water over a period of 28 years.

Mr. Steenerson reviewed the whole history of the dispute. Every act of Canadian power interests raising the lake level, he said, had been sanctioned by the Canadian government. Had the dam at Kenora been within the United States, he said, American property owners could have had redress in the United States courts, but as it was they had been helpless. Any United States court, he said, would have enjoined the power interests on evidence that their work was damaging private property.

It has been a universal law, said Mr. Steenerson, that no one can obstruct the flow of waters to the injury of riparian owners. But in this case, he said, American owners were helpless because the courts were in a foreign country.

A Moral Objection.

"We have here," he said, "this situation: For twenty-five years American residents suffered and could not do a thing towards relief. There was no remedy until the treaty under which this commission is operating was signed. This now is a matter for international law, of which there are three kinds, custom, treaty and moral. This is a moral obligation."

If the commission permits a higher level than the present, said Mr. Steenerson, Minnesota villages will be wiped out and immense damage will be done to farming lands that so far have escaped.

"You cannot destroy homes," he declared, "for the sake of future power, which might be purely imaginary. Some of the plans of the power companies, as set forth here, sound decidedly visionary. It is proposed to disregard the rights of settlers who suffered hardships in development of their farms for the sake of a water power that may not be developed for the next 50 or 100 years."

I have the honor to acknowledge the receipt of your letter of the 7th instant, enclosing a copy of a letter from Alfred Bruyere, relative to the damage to his house and land, caused by the high water in the lake. Bruyere's house is on the south side of Reserve I8B close to the creek nearest to reserve I6A there is not as much erosion of the bank there as along the front of the Agency Reserve and Reserve I6A where the east storms have full force, but still there has been some erosion since the water has been kept up to the high water mark and the land near the creek has been flooded and I think there are certain damages due the Indians by the Ontario and Minnesota Power Co. but in my opinion it would cost more to get the amount than they are worth, for the peice of land damaged there, but this Company has flooded other land belonging to this band, at Hay Marsh Bayand Stangecoming Bay but this Company is noted for going into litigation rather than pay, in fact there has been numerous cases taken to the Courts and at present before the Courts, for just such damages. It is thought that after the International Joint Water Ways Commission, have made their final report, that these matters would be settled

There is no doubt but what Alfred Bruyere will have

Sir,—

Referring to your letter of the 20th ultimo, No. 282759, I beg to state that the present breakwater terminates on the North at a rocky point, which is on Reserve 18B, and any protection further north and east would be impossible at the present stage of the water.

Alfred Bruyere's house is now on an island of about an acre of land, and I expect it will be in the lake in a few weeks, the water in the lake is higher than I ever saw it before and is still rising, there are several Indians on this part of the reserve, who has their land submerged and their houses damaged, by the high water. The grove at Pithers Point is all under water, in fact I do not think there is one acre of land south of the railway that is out of water, the grove is entirely spoiled, as the trees will all be dead in another year. The bank of the Agency reserve south of the rip rap work is going very fast, fully 10 feet wide has gone this Spring. I would strongly recommend that Mr. Bray be sent here to value the lands that have been damaged and see what steps should be taken to protect what is left and that he should come as soon as possible.

Since the date of that letter the Canadian Northern Railway Company has changed the plan of its right of way. It now appears that they do not take in any of the buildings; these will therefore be wholly situated on theland proposed to be flooded by your Company. The valuation would thereforeb be increased by the amount of $700.00,making the total sum, demanded from the Ontario & Minnesota Power Company $15,425.00

Sir,-

With reference to letter of the 12th Oct.last,and previous correspondence I beg to inform you that the following is the valuation of the land on the Agency Reserve at Fort Frances which the Ontario and Minnesota Power Company proposes to flood,which has been made by Mr.Brayand which the Department has approved.

18 ac.less 1.50 ac. taken by the C.N.R.Co., 16.50 at $750.00	$12,375.00
Buildings 3000 less $700.00 to be paid by C.N.R.	2,300.00
Agent's garden $150.00 less $100. to be paid by the Canadian Northern Rly. Co.	50.00
	14,725.00
	700.00
	15,425.00

On account of the land being very flat the area of that portion which will be submerged and the area of that which will be damaged although not actually submerged will not be known until the actual flooding has taken place. It is therefore evident that this matter cannot at present be closed. The Department is,however,prepared to grant the right to flood the said land on payment of the said sum of $14,725.00 This sum will be held until the actual areas,as above stated, are known with the understanding that all land submerged or damaged is to be paid for at the rate of $750.00 per acre. If a greater area than 16.50 acres is affected the Company will then pay for the excess at this rate and if a less area,then the Department will refund at the same rate.

Gentlemen,-

I beg to draw y ur attention to our letter of the 13th December 1907 addressed to the Hon.J.K.Kerr K.C., to you letter of the 19th Jan.1909 acknowledging receipt of said letter and to our letter of the 27th Jan.1909 relating to the land at Fort Frances,Ont., which it was supposed would be flooded by the Ontario and Minnesota Power Company. This matter has been lost sight of because it was supposed that the Company would not injure the land to the extent of making it necessary that it should be paid for.

We have received a communication from our Indian Agent,Mr.J.P.Wright,Fort Frances,in which he says that the land in question is badly damaged and in fact at present the land is all under water.

It is considered if the dam had not been constructed the land would not be flooded as the river bed would then have no obstruction and would be sufficient even for the present high water.

In view of the foregoing I have to demand payment of the sum stated in our said letter of the 27th Jan.1909,namely $15,425.00. Enclosed are copies of the two said letters.

REPORT FOR THE ACTING DEPUTY MINISTER

I beg to report that I have visited Fort Frances and have inspected the damage done to the Indian reserve and the damage sustained by a number of Indians resident at that point. There are two more Indians who have suffered damage, whose places I was unable to visit. Mr.J.P.Wright, Indian Agent, will send me the values of the damages suffered by these two men later on.

The water in the lake is at an unprecedented height. This may have been caused in part by a large amount of rainfall but I think there should be no question that the maintenance of the water in the lake at a high level is directly attributable to the dam of the Ontario and Minnesota Power Company and that therefore that Company should pay for the damages which have been sustained.

I beg to submit herewith a draft of a letter addressed to Messrs.Blake, Lash, Anglin and Cassels making demand for payment for the losses sustained. There is also submitted herewith a schedule setting forth the Indians losses.

Ottawa, 5th July 1916.

Gentlemen,-

Referring to your letter of the 19th ultimo I desire to explain that the arrangement made some years ago in which the Ontario and Minnesota Power Company was to pay the sum of $6000.00and of which $3000.00 has been paid,referred to the damage being done by the maintenance of the water at a high level in Rainy Lake along the bank in front of the Indian Industrial School and southerly to the North limit of the tract of land in the Indian Reserve which is under a lease to the City of Fort Frances. The land flooded,for which payment was claimed in 1909 and again mentioned in our letter of the 16th ultimo, is at Pither's Point being the southern end of the reserve in question.

At the request of the local Indian Agent Mr.J.P.Wright, an officer of the Departmnt has visited the locality and has reported that the damage to the land in question at Pither's Point has been caused directly by the maintendnce of the water in Rainy Lake at a high level and that this is due to the dam of the Ontario and Minnesota Power Company Limited. The claim for payment therefore appears to be very reasonable and I have to request that the Ontario and Minnesota Power Company will be good enough to take action in this matter with a view to making prompt payment.

I have

I have further to call your attention and to make demand for payment for damages to Indian lands and houses situated North of the school above mentioned. Enclosed herewith is a schedule setting forth the damages which have been suffered by eight Indian residents amounting in all to $ 2960.00. There are still two or perhaps more Indians whose homes are still further to the North of whose claims you will be later advised.

These Indians are poor men and they depend very largely on the crops they obtain on the lands which have been flooded. It will be a piece of injustice to defer payment of these claims for any length of time. I have therefore to request that your clients, the Ontario and Minnesota Power Company, be good enough to forward the said sum of $2960.00 in order that the said payments may be made.

Dear Mr.Bray:

I have assumed that you are out of the City, and hence delayed acknowledgment of my letters to you of July 8th.,and July 12th.

I do not wish to seem importunate in pressing for the information, but the fact is that an Assistant is waiting in Minneapolis for the information.

I am addressing this communication care of your Office, with the request that upon receipt you will kindly telegraph (C.O.D.) me to the above address indicating what may be expected regarding the information.

Therefore, if you have not written so that I would be receiving some word from you on the 18th inst., could you please have telegram sent as above indicated, and I will know then what to advise the Commission's Office in Minneapolis.

Thanking you

Yours faithfully,

Dear Mr.White,-

I returned from my holidays yesterday. With reference to your letter of the 8th ultimo I think you have been supplied by Mr.Russell White with all the information you desire with the exception of the status of the two chain allowance along the river and lake front at Fort Frances. This allowance was made before my advent to this Department and I am unable to ascertain the origin of it. I may however state that where Indian reserves are concerned it is absolutely under the control of this Department and for all practical purposes does not exist, although indicated on some of our plans.

Should you require any further information I shall be glad to furnish it.

Dear Sir, Re No. 282759.

I have been in communication with my clients The Ontario & Minnesota Power Company on the subject of the claims referred to in your letter of the 5th July.

Our clients were considerably surprised by the presentation of your claim dating back to 1909.

They however point out that your local agent appears to be mistaken in attributing the damage due by the present flood water to the maintenance of our clients' dam at International Falls. The whole question is now under consideration by the International Joint Commission which will no doubt definitely settle the levels at which the water in the Lake of the Woods and Rainy Lake and the upper water shed is to be maintained, but in the meantime it is common knowledge that the Lake of the Woods during this year reached the highest point that was ever known. Our clients take the view that for the impounding of the water by their dam at Kettle Falls it is possible that Rainy Lake would have risen

even higher than it did this spring. The level in the Rainy Lake was in fact about two feet higher than the level at our clients' dam and this seems to indicate conclusively that the openings at our clients' works had greater capacity than the natural opening at Pithers Point and that therefore such floods as occurred were caused rather by the natural condition of the opening at Pithers Point than by the works maintained by our clients.

Gentlemen,-

With reference to your letter of the 8th instant I beg to inform you that our officer who examined the premises states it is known that the water in Rainy Lake reached a higher level this year than has occurred for many years, but this level would have been lowered in a few days were it not for the dam placed in the River by the Ontario and Minnesota Power Company, through which only a certain quantity of water was allowed to pass. This obstruction maintained the water at the high level for weeks thus causing the damage for which payment is claimed. I have therefore to again demand prompt payment of the whole claim and especially of the amount necessary to compensate the Indians for their losses.

Dear Sir, - Re Ontario & Minnesota Power Company Limited #282,759.

Upon the writer's return we have taken up the matter of your letter of the 14th ult. Our clients do not at all agree with the view of your Department as to their responsibility for the results of the flooding in question. We would suggest that the question might be referred for arbitration and award to Mr. Charles A. McGrath, Chairman of the Canadian Section of the International Joint Commission. Mr. McGrath is not only thoroughly well qualified to deal with such a question as this but he has no doubt already considerable knowledge of the general questions involved and our clients will be perfectly ready to abide by his decision if your Department is willing to join in referring the matter to him. If you are agreeable will you kindly advise me and I will draft a short agreement providing for this and submit it toyou.

Dear Sir, - Re Ontario & Minnesota Power Company Limited.
No. 282759.

I have yours of the 27th instant. I think the correspondence disclosed the claim against which our clients paid the sum of $6000. but I do not at the moment stop to check up your description of it which I presume is accurate.

I have submitted a draft agreement to my clients and will advise you as soon as I hear from them.

Yours truly,

Sir: **Re Pither's Point**

In reply to your letter to the Town Clerk of Fort Frances of the 30th ult. I am instructed as Solicitor for the Town to say that the Town desires to join in any action that the Department of Indian Affairs may bring against the Ontario & Minnesota Power Company for damages to Pither's Point which, as you say, is under lease to the Corporation, and has been and still is used as a Public Park. While a large area of the land in question is now under water and a considerable portion is converted into a swamp, resulting in the destruction of a magnificent grove of oak trees thus entailing permanent injury for which the lessors are entitled to compensation, yet the damages sustained by the Town are quite as serious. The most attractive part of the park being rendered absolutely unfit to be used for the purposes for which the Town leased it.

An action against the Power Company seems to be the only way to obtain compensation for present and future losses as the Company does not appear to be taking any steps to protect the property.

Your obedient servant,

A.G. Murray

Sir,—

F 282759-2

With reference to your letter of the 5th instant, I have the honor to state that, I do not consider that there is any necessity for any more rip-rap required for the bank in front of the Fort Frances Boarding School and 16A Reserve, but the stone work should be rebuilt and earth or gravel filled in between the rock work and bank, what this would cost, I am not at present able to estimate, as I have not looked over this work since the water has gone down and at the present time there is a foot of snow over it. I do not think there is any pressing need to have this work done now, and in the spring I can report fully on the matter.

DEPT. OF INDIAN AFFAIRS DEC 13 1916 SURVEYS

In all probability it will be many years, if ever, that we will have a flood like last year and if the Government does not allow the raising of the water in Rainy lake, to a higher level than is now allowed, the present rip-rap is sufficient, but if the water level raised, the Power Company will have to rip-rap this ba sufficient to protect it, then the school would be put out of business owing to their sewer system being floo ed. These are matters for future consideration.

Dear Sir,-

I beg to acknowledge your letter of the 15th instant (No. 282759-2), in which you quote a report of your agent at Fort Frances in regard to repairs to the break-water built by your Department at that place. I note that Mr. Wright suggests that "if the Government does not allow the raising of the water in Rainy Lake to a higher level than is now allowed the present rip-rap is sufficient," etc. Would you kindly let me know what your understanding is as to the level that is now allowed on Rainy Lake? I would also be glad to have a statement as to the undertaking that exists between your Department and the Power Company regarding the protection of the bank along the Lake shore in front of your reserve. Some of the work done under that arrangement, I assume, is the rip-rap referred to by Mr. Wright.

Referring to your letter of the 22nd ultimo, relative to the hight of water allowed on the Rainy lake, I have the honor to state that it has always been stated and accepted, that the water should not be allowed to be raised above the 497 bench mark. The crest of the dam is built to that height, and apparently accepted by the Government, but as far as I know, no Order in Council has been given, stating what the level should be, but this I know, the Municipality of the Town of Fort Frances have always objected to having the water in Rainy lake raised above the 497 Bench Mark. The Chairman for the International Joint Commission, should know more about this matter than I ever can know.

All I can say is that it has always been understood that these waters could not be raised above this level, and that strong objections would be made if attempted; also that if the water is raised above that level, it will destroy the present sewer system at the Fort Frances Boarding School.

LOCATION OF DYKE

As far as the rights of the Municipality are concerned but without prejudice to the rights of private riparian owners of lands and occupants of water lots, the Town will consent to the dyke being constructed outside the 66 feet road allowance (Front Street) so as to leave a clear 66 feet of roadway. All land within that area which is now or may be washed out should be restored by the Company to the Road level by filling behind the dyke. It should also be provided that the public are to have access to all parts of the dyke, and not at streets outlets only.

LENGTH OF DYKE

The dyke should extend upstream from the dam and should include all the banks of Rainy River and Rainy Lake above that point within the limits of the Municipality.

The foregoing is respectfully submitted on behalf of the Municipality of the Town of Fort Frances.

Yours sincerely,

H Williams

Mayor of Fort Frances.

CONSTRUCTION OF DYKE AND DRAINAGE FACILITIES

The dyke should be constructed in a substantial manner and maintained for all time at the Company's expense. The work should be carried out under the supervision of an engineer from your department.

As the natural outlet for the Town's surface drainage would be blocked by the present dyke, provision for this and for seepage water should be made by the construction by the Company of a tile drain of sufficient capacity to an outlet below the dam.

While the Council strenuously objects to the construction of a railway on top of the dyke as shown on some of the plans submitted to your Department, it will not object to the construction and use of a temporary railway for the sole purpose of building the dyke, but desires that your Department would require the Power Company to agree that the Town should have the right to remove such railway at the Company's expense in the event of the non-removal thereof by the Company within one week after the completion of the dyke.

That the dyke be completed by December 31st. 1917.

RAINY LAKE LEVELS

The Council submits that the waters of Rainy Lake above the dam should be maintained at a normal level of 495 B.M.; that 497 B.M. Rainy Lake Level should be high water mark; and that the crest of the proposed dyke should be at a level of 500 B.M. in order to provide for flood conditions (such as prevailed in the Spring of 1916) and for wave action of boats and wind. To support the demand for a maximum level on Rainy Lake of 497 B.M. and a normal level on the same Lake of 495 B.M. above Pithers Point, we would point out that at the present time and for several months past the River level between Rainy Lake and the Ontario and Minnesota Power Co. dam has been held at 497 B.M. flooding our Front Street and the basements of the dwelling houses adjacent to the river.

The Power Company contend that they are authorized to maintain the level at 497 B.M., but their only authority for this contention is the plan of the dam. On the other hand, The Hon. Mr. Justice Latchford, who was Minister of Public Works when the agreement in question was made, is the Town's authority for the statement that 495 B.M. was intended to be the normal level on Rainy Lake.

Re- Dyking of the Rainy River at Fort Frances by the Ontario & Minnesota Power Co.

Sir;-

I have much pleasure in conveying to you the thanks of the Council of the Town of Fort Frances for the action taken by you, of which evidence has recently been afforded us, to compel the Power Company to proceed with the dyking of the river bank in accordance with its agreement with the Government.

Last Monday, Mr. L.V.Rorke of your Department attended a meeting of t he Council and requested an expression in writing of its views in the matter, especially in regard to the location of the proposed dyke. The Council feels that in the absence of a plan of the dyke it is not in a position to comply with this request with proper definiteness, realizing how grave a matter it would be should any mistake occur in the location or construction of a work of such magnitude.

I am authorized, however, to place before you the conditions which the Council deems essential for the protection of the Town from a recurrence of damage such as has recently been sustained.

Dear sir,

I have just returned from Minneapolis where the Commission was in session for several days, and during that period took up the further discussion of the Lake of the Woods reference. While there I received your letter of the 18th January (No 282759-2) enclosing copies of correspondence that the Mayor of Fort Frances recently had with the Hon. Mr Ferguson re dyking of Rainy River.

Sir,

Referring to previous correspondence regarding the damage done to the Couchecking Reserve, caused by the high water in Rainy lake in the Spring of 1916, which Mr Bray inspected during June of that year, I have the honor to state that Chief and Council of that reserve have requsted me to ask if any steps has been taken to secure damages for their loss, they specially mentioned Alfred Breyere's house which was washed away, and their hay land that was flooded, which are now no good, being nothing but weeds.

Sir,

The last correspondence we appear to have had from you in this matter was your letter submitting for the consideration of the Department a proposed agreement for referring the claims of the Department against the Ontario and Minnesota Power Company, Limited, to arbitration.

In reply I beg to say that as there appears to be no reason why these claims should be submitted to arbitration rather than to have them determined by the Court, the Department is disposed to take proceedings in the Exchequer Court. I hereby make demand upon the Company for a prompt settlement of these claims as hereinafter set forth. In default of such settlement it is the intention of the Department to take proceedings to recover the amount of these claims, which, briefly, are as follows:-

(1) For flooding about 17 acres of land and damage to buildings, etc., thereon at Pithers Point $15,425.00

(2) Damages suffered by Indians on the reserve north of the said Treaty reserve at the west end of Rainy Lake as set forth in a schedule on No.1 of this file dated June 1916 ..... $ 2,960.00

Dear Sir,

Re No.282759-2.
Ontario & Minnesota Power Co.Limited.

I have your letter of the 17th instant. I am communicating with my clients on the subject.

My last communication from you was on the 7th November 1916, when I submitted for your approval a draft agreement covering the proposed submission to arbitration. My clients would naturally prefer not to be dragged into the Exchequer Court, and as you will see from the correspondence, they have been willing to agree on any reasonable method of having the claim passed upon.

In the circumstances, and after looking at the previous correspondence, I shall be glad if you will advise me whether you will not reconsider your letter of the 17th instant.

Sir,

Ontario & Minnesota Power Co.Limited.

I beg to acknowledge the receipt of your letter of the 18th ultimo with reference to the claims against the above Company and note your preference to have the matter determined by arbitration.

In reply I beg to say that the Company must be aware of the nature and extent of the damage done for which these claims have been made, and it seems to the Department that the Company should have adjusted them without the necessity of a suit. Since an action seems to be necessary, the Department, having fully considered the matter, has decided to take action in the Exchequer Court, rather than to refer the matter to arbitration, if settlement is not promptly made.

Sir,-

I beg to hand you herewith Departmental files Nos. 282759 and 282759-2 with respect to a claim against the Ontario and Minnesota Power Company, estimated at $18,385.00, for damage from flooding of the Indian reserve situate at the west end of Rainy Lake, due to the operations of the said Company. Repeated demands have been made on the Company for this amount but without success. The Company offered to arbitrate in the matter but it appears to the Department that it would be more satisfactory to take proceedings in the Exchequer Court. I have therefore to request that you will take the necessary action to recover this claim.

REX vs. ONTARIO & MINNESOTA POWER CO. LTD.

I have perused the files you sent me herein.

Request from Dept. P.W.

I notice that under Statutes of Canada, 4 and 5 Edward 7, Chapter 139, Section 1, The Ontario & Minnesota Power Company, Limited, were authorized to construct dams, etc. provided the plans were approved of by the Governor General in Council. I understand from the Memo submitted by Mr. Bray, the Deputy Minister, dated April 25th, 1913, that an Order-in-Council was passed approving of the plans. Would you please let me have a copy of same together with the plan which was submitted by the Company?

Copy

I also notice that a part of Pither's Point Park has been leased to the Town of Fort Frances. I would like a copy of this Lease.

Mr. Williams

Would you kindly let me have your opinion as to whether the Town of Fort Frances can be joined as a party plaintiff in the event of a complaint being filed in the Exchequer Court? I fully understand that the Crown has the right to file a complaint but doubt if an individual can and if I am right in this respect, can the Crown add an individual or Company as a party plaintiff?

It would seem to me that the claim of the Crown in the case of Pither's Point Park would have

to be limited to a claim for damages to the reversion and the Town of Fort Frances would have a substantial claim for loss of enjoyment of the Park during the period of their lease and that therefore, if it can be done, two parties should join in the action.

I would also like a copy of the Report of the International Waterways Commission.

I also draw your attention to a letter written by Mr. J. D. McLean, Assistant Deputy Minister, dated October 4th, 1913, (a copy of which I am enclosing in view of the fact that I have the file in my possession) in which there apparently is an offer made to the Company to pay $6,000 in full settlement of all damages. It does not seem to me that this letter is intended to cover all damages as the other correspondence shows that the Department was insisting upon its rights for further payment and the Company admitted that a certain amount was due and it occurred to me that this letter was intended only to cover damages in connection with the lands referred to therein.

I think it would be advantageous if either myself or my partner, Mr. Gordon, could have the benefit of an interview with Mr. Wright and I would like to know if this could be arranged.

In regard to the damages which the Indians have sustained, this is placed in the claim at the sum of $2960 but Mr. McLean in his letter of April 5th, 1916, states that there are two or perhaps more Indians whose homes are still further to the North and of whose claims he will be later advised. Is the claim to be increased accordingly?

With regard to claims for damages to the land, I notice a portion of the land has been expro-

O t t a w a.

Enc. Copy of O/C with plan.

Replying to your letter of May 17 instant, file No.282759-2, I have pleasure in enclosing herewith a copy of the Order-in-Council dated September 19, 1905, approving of the plan of a dam and other works proposed to be constructed by the Ontario and Minnesota Power Company, Limited, at Fort Frances, Ontario.

Referring to this Order-in-Council, Mr S.J. Chapleau, our District Engineer at Ottawa, made the following statement in his report of June 25, 1917:-

> "The Ontario and Minnesota Power Company had plans for their entire works, including dyke, approved by Order-in-Council September 19, 1905. These plans were not adhered to, and the plans upon which the works were built as they stand were, as you know, never approved by Order-in-Council".

It would appear, therefore, that the works which were not constructed in accordance with the plan approved by the Order-in-Council have no legal sanction.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

With regard to the dyke, the Company filed an amended plan on October 29, 1917, and this plan was approved by an Order-in-Council dated February 11, 1918.

Subsequently the Company decided to make a further alteration in the method of constructing the dyke, and submitted a plan to the Department showing the intended change. This plan was submitted to our District Engineer who reported on April 12, 1918, that the dyke had been completed in accordance therewith. As the change is merely in the mode of construction, does not involve a change in site, and does not interfere with navigation, it is intended to recommend this plan to Council for approval.

Should you desire to have a copy of the Order-in-Council of February 11, 1918, I shall be glad to send one to you.

Sir,-

With reference to the letter from Mr.J.W.Baine Esq., K.C., of the 9th ultimo enclosed with yours of the 14th ultimo I beg to enclose herewith;-

1. A copy of the Order-in-Council dated 11th August 1905, relating to the construction of the dam etc., by the Ontario and Minnesota Power Company.

2. A copy of the Order-in-Council dated 11th February 1918, relating to the construction of a dyke along the river above the dam at Fort Frances. It is noted however that the dam does not extend to the Indian reserve.

3. A copy of the lease issued to the town of Fort Frances for a portion of the Agency Indian reserve in which is situated Pithers Point, dated 13th May 1910.

4. We have been unable to obtain a copy of the report of the International Waterways Commission as it is out of print.

5. The $6000.00 paid by the Ontario and Minnesota Power Company was in full for all damages to that portion of the Indian reserve at the West end of Rainy Lake shown on the blue print plan enclosed herewith, between the letters A and B, which includes a share of the cost of the construction of the breakwater shown on the plan and the opening up of the new road also shown on the plan, in lieu of the road allowance which has been practically washed away by the high water of the lake.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General, on the

12th June 1918.

The Committee of the Privy Council have had before them a report, dated 23rd May, 1918, from the Minister of Public Works, stating that an Order in Council was passed on February 11th, 1918, approving, under Section 7 of the Navigable Waters Protection Act, Chapter 115, Revised Statutes of Canada, 1906, of the amended plan and description of the site of a dyke proposed to be constructed by the Ontario and Minnesota Power Company, Limited, along the shore of the Rainy River at Fort Frances, Ontario, from a point near the west end of Nelson Street to the property of the Shevlin Clarke Company, Limited, such approval being subject to the conditions of the Agreement of September 5th, 1917, referred to (in) the Order in Council, entered into by the Municipal Corporation of the Town of Fort Frances, the Ontario and Minnesota Power Company, Limited, the Fort Frances Pulp and Paper Company, Limited, and the International Bridge and Terminal Company, Limited, so far as the said conditions relate to the construction and maintenance of boat landings, plank crossings, convenient grades to the boat landings and access across the dyke to and from the water front;

That subsequently the Company decided to make a change in the method of constructing the work, and filed with the Department of Public Works a plan dated April 4th, 1918, showing the proposed change;

That the District Engineer reported under date of April 12th, 1918, that the dyke had been completed in accordance with the plan dated April 4th, 1918, mentioned, and

that.

The Honourable

The Minister of Public Works.

that while in his opinion the work would afford better protection to the shore and be easier to repair if it had been built as shown on the plan approved by the Order in Council of February 11th, 1918, the work as actually constructed does not interfere any more with navigation than if the approved plan had been followed, and he, therefore, recommended that the plan dated April 4th, 1918, be approved;

That the Assistant Deputy Minister of the Department has stated that to his mind the altered design in accordance with which the work has been finished is better than the one approved by the Order in Council of February 11th, 1918.

The Minister, therefore, in view of the fact that the departure from the approved plan was merely in the mode of construction; that it does not involve a change in the site of the work, and does not affect navigation, recommends that the annexed plan dated April 4th, 1918, showing the change in the method of constructing the dyke of the Ontario and Minnesota Power Company, Limited, at Fort Frances, Ontario, be approved under Section 7 of the Navigable Waters Protection Act, such approval to be subject to the conditions of the Agreement of September 5th, 1917, already referred to, so far as the said conditions relate to the construction and maintenance of boat landings, plank crossings, convenient grades to the boat landings and access across the dyke to and from the water front.

The Committee concur in the foregoing recommendation and submit the same for approval.

Sir:- (A 1492) The King v. Ontario and Minnesota Power Co.

Referring to your letter of the 17th ultimo (282759-2), I enclose copy of a letter dated the 6th instant from our Toronto agent.

Enc.

You will observe that this Department has dealt with the question as to joining the town of Fort Frances as a party plaintiff, so that no action is required by your Department in this connection. It appears, however, that our agent would like to have an interview with the Indian Agent, Mr. J. P. Wright, as soon as possible, and I should like to have your suggestions as to the best means of bringing this about.

I have the honour to be,

S i r,

Your obedient servant,

H. Stuart Edwards

Dear Sir:-

re-Rex v. Ontario & Minnesota Power Co. --#128374 D R.

In this matter I had the benefit of a very long conference with Mr. Wright, the Indian Agent, on Monday August 12th. Mr. Wright asked me to prepare a memo in each case in connection with the damages, which he promise to answer fully.

I have also prepared a complaint which I handed to Mr. Wright in order that he might fill in the description of the lands which have been damaged. I expect to hear from Mr. Wright in the course of two or three days, when I will forward you the complaint for perusal.

I regret that there has been some delay in filing this complaint but I am convinced that I could not obtain the necessary information without the interview with Mr. Wright.

IN YOUR REPLY REFER TO
No. 5410
ALSO
TO DATE OF THIS LETTER

11th September 1918

Sir,—

Rex vs.Ontario & Minnesota Power Co.

I beg to submit herewith the information I have obtained, regarding the claims the Indian Department have against this Company.

The losses claimed for the following Indians, members of the Couchecking Bandon Reserve No.18.B.are viz:

	Alexander Bruyere	$328.00
	Mrs Maria Sanderson	25.00
	Joseph Jourdain	25.00
	Abidonaquot	72.50
	Esquibeness	75.00
	Alexa Mainville	513.00
	Alfred Bruyere	500.00
	Gabriel Bruyere	915.00
	Louis Jourdain, Reserve I6, D.	I95.00
Plan C.	Paul Jourdain Do.	255.00
" "	Damage to road	350.00
	TOTAL	$3I53.50

Details of the above are given in exhibit A and shown on plans B & C.

Plan marked D, shows the land eroded along the shore of Rainy Lake, being 3.3 acres, this I estimate the value, to be $2250.00, valuing the first acre from the east end at $I200.00 per acre, the next acre at $750.00 and the remaining portion at $300.00. This plan also shows the land that will be covered by water

water when it is raised to the 497 Banch Mark, which is 5.32 acres, this I value at $1000.00 per acre, making $5320.00

Exhibit marked E, showes the number and description of trees killed and damaged, during the high water of 1916, they number 629 and I value them at $10.00 each on an average, this amounts to $6290.00

Plan marked F, shows the land on which the trees were killed and damaged, which covers an area of 7.25 acres, being nearly 2 acres more than the land that will be covered by the water when raised to the 497 B?M?, and the value of the remaining land south of the Can.Nor.Railway, being greatly depreciated in value, I estimate the scenic value at $2500.00.

This makes the total estimated damages as follows, viz:

Individual Indians	$3153.50
Fithers Point Park	$16.300.00

As requested by you I had several prominent gentlemen give me their estimate of these damages, and enclose herewith their replys.

C.J.Hollands, Police Magistrate, valuation,	$25.000.00
Robt Moore, M.D.	13.790.00
H.Williams, Mayor of Fort Frances,	12.000.00
D.J.Gillon O.L.S.	15.510.00

Perhaps Mr.Gillons estimate is more correct than mine for that portion on the south side of the Railway, but I think I am nearer correct, with regard to the estimated value on the north side of the Railway.

Exhibit marked G. is the Surveyor's description of the land washed away and the land flooded, as asked for by you.

I sent you the By-law passed by the Municipality of Fort Frances to release to the Crown these parts of Fithers Point Park which have been washed away and flooded with water at Bench Mark 497 and now enclose herewith the Deed of same, as requested.

I also enclose Mr.Murry's opinion as requested regarding the time limit.

I wish you would send the plans enclosed to the Dept.

MEMORANDUM FOR MR WRIGHT

re THE KING and ONTARIO MINNESOTA

1. Would you be good enough to have a By-law passed authorising the Municipality of Fort Frances to release to the Crown these parts of Pither's Park which have been washed away and flooded with water at bench mark 497.

2. The Release must also cover these lands on which trees were killed when the water was brought to bench mark 500.

3. As soon as the By-law is passed, will you kindly have the Deed approved of by the Town Solicitor and sent to us when we will insert the description. We will then send it down to Mr Edwards for approval.

4. Will you obtain for us a Surveyor's description shewing the lands which have been eroded by the floods, and the lands which are flooded at bench mark 497.

In having this description drawn, you must remember that the damages to a portion of these lands have been settled between the Crown and the Company and these lands should not be included in the description.

5. Would you also have the trees which were killed, counted and described.

6. Would you also let us have your estimate of

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

value of:

(1) The land washed away;

(2) The damage to the land which is flooded;

(3) The damage to the Park due to one part being cut off from the rest; and

(4) Destruction in the scenic value on account of the trees, marshy land, etc.

Could you have your observations as to value checked by three witnesses at Fort Frances. In choosing your witnesses, endeavour to obtain persons who would appear well in Court and are of substance in the Town.

7. Will you also send us down Surveyor's descriptions of the land washed away and the land flooded. We want these to be written descriptions in order that they may be put in the Information. It is not necessary that they should be made with too great particularity.

8. Would you then go up to the Indian Settlement and obtain from the Indians the exact details of their damage. In doing so, we would like you to check them and see that the damage is not excessive; and we think it would be well to have the bill set out in the greatest detail as possible, as we hope to get it settled and, of course, the Defendants will not settle until they see exactly what they have to pay.

9. With regard to the land which has been covered with filth and not been used since the flood, we think the amount of damages would be not the value of the land from year to year, but the cost of removing the filth and cleaning up the land.

10. Would you also send us down a copy of the

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

Indian Act and Treaty No. 3.

11. See Mr Murray.

12. We also would be glad if you would send us a statement of the damages in a separate letter which we can send to the Department, as we understand from our conversation with you that the damages would be less than the damages referred to in the instructions from the Department.

13. We are obtaining from the Department of Lands, Forests & Mines particulars of the title to Pither's Park, but if there is any further information you can get with reference to the same we will be obliged.

As soon as this is done we will have the Deed engrossed and signed by the Town, and will also send you a copy of the Information in order that you may check it over before it is finally filed and served.

I beg to acknowledge the receipt of your letter of the 20th instant with reference to the above matter with enclosures.

In reply I beg to say that the particulars of claim, as prepared by Mr. Wright, and the Surveyor's description of parts of Pither's Point Park damaged by high water, have been perused and appear to be satisfactory.

Ten blueprint copies of each of the four tracings referred to in your letter have been made, one set being retained by this Department and the others being forwarded to you herewith. Your enclosures are returned herewith.

It is presumed that the authority required for the perusal of documents, as referred to in the last paragraph of your Agents' letter of the 16th instant, will be given by your Department.

I have before me also your Agents' letter of the 24th ultimo together with the bylaw and draft conveyance and assignment referred to therein. Sir,

Rex vs. Ontario Minnesota
A-1492

I beg to enclose memorandum of account to date in this matter.

The Information was served on the Defendants on 21st October, 1918, and Mr Tilley communicated with me prior to the time for entering appearance and stated he was very busily engaged and asked me to let him have a few days to prepare his defence. I arranged that this extension should be given, and as the defence was not put in I again communicated with him and have received his undertaking to let me have the Defence this week. Immediately I receive the same I will forward it to you.

I have the honour to be, Sir,

INDIAN AGENT'S OFFICE

FORT FRANCES AGENCY,

4th Feby. 1919.

Dear Sir,

Rex vs. Ontario & Minnesota Power Co.

In reply to your letter, with enclosure, of the 30th of Jany. last, I beg to say that we can prove the height to which the water has been raised by the defendants dam, and the height it was kept at during the summer of 1916, which caused the damage. If the dam had not been built, the water would not have risen to the height it did, and even if the water had been higher than ever before known, the natural outlet would have carried the water off before any material damage had been done, as in former years before the dam was built. I consider it absolutely necessary to engage the services of D. J. Gillon, C.E.S., who made the plans that I sent you, and Mr R. F. Smallian, Resident Engineer for the Dept. of Public Works, if you would apply to E. J. Chapleau, District Engineer, Public Works, Ottawa, or the Deputy Minister of Public Works, Ottawa, for permission to engage Mr Smallian.

If we had these two men, Gillon and Smallian, we could submit such corroborative evidence that the defendants could not dispute, in fact I think they are starting on their figures very soon and will check each other up. The defendants Engineer, Mr Lyres, based his calculations on 10 days periods on the out-flow of the water in the Rainy Lake in his evidence before the Water Ways Commission, but these men propose making their calculations on daily periods and going farther back than Mr Lyres did. If we engage these men, and I strongly recommend that we do, please let me know as soon as possible.

Yours very truly,

(Sgd.) JNO. P. WRIGHT,

I beg to enclose copy of a letter received from Mr J. P. Wright, Indian Agent. I think it would be necessary to have some expert evidence as to the height of the water and would suggest that you authorise me to retain the witnesses referred to in Mr Wright's letter in order that the said witnesses shall not be retained by the Defendants.

I should be glad to have your instructions as to the fees to be paid to Mr D. J. Gillon, O.L.S. I presume that Mr D. F. Smallian, Resident Engineer for the Department of Public Works, would act on instructions from the Department and would not be entitled to any extra fees.

This Department is having a suit against the Ontario and Minnesota Power Company at Fort Frances, Ontario, and our Agent, Mr. John P.Wright, has suggested that it would be advisable to secure the services of Mr. R.T.Smallian, Resident Engineer for your Department, at Fort Frances, as a witness in this case. I would be glad to know if the Department might avail itself of the services of Mr. Smallian in this matter, and if so whether you would be good enough to instruct him accordingly. I presume that Mr. Smallian would act on instructions from your Department in this matter without any extra fees. Will you kindly advise me as early as possible.

Sir;- **Rex vs Minnesota Power Co.**
No. 1492

I have been engaged for some time in perusing all the documents in connection with the Ontario and Minnesota Power Company which are on file at the Legislative Buildings, Toronto, and I notice that amongst these documents are several letters from Mr. Backus and his associated stating that compensation will be paid for all damages caused by the raising of the water. When high floods were caused in 1915, a good many letters were received by the Department here which were forwarded to the company containing complaints of the damage done by the flooding and the company promised that they should not occur again. Will you kindly arrange for all correspondence which may be in the possession of the Crown in connection with the order-in-council in question or the passing of 4 and 5 Edward VII, Chapter 139 or with regard to the approval of the plans of the company

or otherwise in connection with the company to be forwarded to me. It seems to me that if there were any letters written by the company or Mr.Backus stating the company would pay compensation it would have a most important bearing on the case.

In reading over the documents which are on file in the Department in connection with the matter I was anxious to find support for the statement contained in the Order-in-Council, dated the 19th day of September 1905, passed by the Dominion Government which recites that by a clause in the Act of incorporation of the company all damages should be a charge on the lands owned by the company.

In the case of Smith vs Ontario and Minnesota Power Company, 44 O.L.R.page 49 Mr.Justice Riddel deals with this point and states that the order-in-council in question was obtained by a mis-statement of fact. Further, Mr.Justice Riddell says,"That it might be necessary for the Court to retain these cases until the order-in-council in question has been revoked or annulled."

I should be glad if you would consider this question because if the Department were willing to

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

move in the matter and have the order-in-council amended it would naturally be very great assistance to me in this case particularly if the same were to go to the Supreme Court of Canada and a different view be held by that Court. Apparently the company have a great many claims for damages and are fighting the same as hard as they possibly can and while we have a decision of the Appellate Division for Ontario in our favor it is very difficult to say what would happen if the case went any further and I think every effort should be made to have the approval of the plans of the company revoked until a proper undertaking has been given as to damages or else the order-in-council amended to provide that the company should be responsible for all damages which might be occasioned by flooding and also providing that the amendments should be retroactive.

I am leaving for Fort Frances on the 16th instant. I should be glad to know if the Department will make arrangements for my transportation or whether I shall obtain the same in the ordinary way.

S.J.Chapleau, Esq.,
Dist.Engineer P.W.D.,
OTTAWA, Ont.

Dear Sir,-

Your letter of the 9th.inst. regarding my account for $315.00 against the Department of Indian Affairs received and in reply thereto I beg to report the follow-ing facts on the matter.

About the first of February last when I was asked to do this work by Mr.J.P.Wright, local Agent for the Department of Indian Affairs, I plainly stated to him that it was quite impossible for me to do it during my regular office hours as my regular duties here occupied all my time and advised that I would undertake the work and do it after my regular office hours, providing I got paid for my services and the Department of Indian Affairs first obtained permission from this Department to engage me. Mr.Wright then instructed his Department through their layer's in this case at Toronto to get permission to engage me for this work. About the last of February Mr.Wright was advised that permission had been granted the Departmentof Indian Affairs by the Department of Public Works and he was instructed to engage me immediately.

Your letter and telegram to me of Feb.27th.and 28th. I then considered was sufficient proof for me to believe that the Department of Indian Affairs had obtained permission.

The services rendered, you will understand, were quite foreign to my regular duties and consisted in the computing of daily elevations, outflow and inflow of Rainy Lake for state of nature, monthly mean elevations, plotting profiles and tables, etc., all for the entire year of 1916.

The above work was performed entirely outside of my regular office hours and occupied almost all my evenings from February to well on in June. I, therefor, consider I am entitled to get paid for my services.

Yours respectfully,
(Sgd) R.F.Smallian
Res.Eng'r.

P.S.- This work was done at the request of Mr.M.L.Gorden of the firm of Bain, Bicknell, Macdonell & Gorden of Toronto, Solicitors for the Department of Indian Affairs in this case.

Memorandum Ottawa, 9th October 1919.

Accountant,-

I recommend that the account of Mr, DJ. Gillon, O.L.S., of the 2nd August last amounting to $337.50 for services in connection with suit pending against the Minnesota and Ontario Power Company be paid and that the account of Mr. R.F. Smallian, C.E., of the 6th August last amounting to $315.00 for services rendered in connection with the same suit be also paid.

I was afraid that Mr. Smallian was a member of the Civil Service and therefore could not be paid for extra services but on inquiry of the Public Works Department I have been informed that he is not. He is simply engaged for outside work and may be discharged at any time. As he has performed the services required after the hours he is engaged by the Public Works Department I think his account should be paid.

Sir,

A-1492
Rex vs. Ontario Minnesota

On 26th May, 1919, I forwarded you:-

1. Charter of the Ontario Minnesota Company;
2. Two agreements entered into with the Ontario Government; and
3. Copy of the Dominion Order-in-Council permitting the works of the Ontario Minnesota Company to be erected upon the plans being approved by the Department of Public Works.

Would you be good enough to return these documents to me.

In addition, I should be very much obliged if you would furnish me with two copies of Treaty 3.

In order to succeed in this action it is necessary to prove our title to the lands. I understand that under the provisions of this Treaty certain lands were to be set aside for the Indians; and Revised Statutes of Ontario 1915 Chapter 12, these lands were conveyed to the Dominion Government, in fee simple. After the lands were set apart Plans were prepared shewing the exact location. It will be

necessary at the trial to produce the plan or plans covering the lands in question. I have examined copies of these plans in the Parliament Buildings here but the authorities tell me the original plans are in the possession of the Indian Department. I do not know whether the plans could be verified by Mr J. P. Wright, Indian Agent at Port Frances, or whether it would be necessary to have this evidence given by the Head of the Indian Department.

In view of the Judgment of the Appellate Division in the case of SMITH vs. ONTARIO MINNESOTA, 44 O.L.R., 43, I think it is also necessary to prove as part of our case that the works in question were unauthorised and for this purpose it is necessary to call one of the Engineers of the Department of Public Works. It seemed to me that the evidence to be given by the Superintendent of Indian Affairs and the Engineer of the Public Works Department could be most conveniently taken in Ottawa and I should be glad to know if it would be satisfactory to Mr Justice Audette to hear the first part of the case in Port Frances and then take this evidence in Ottawa.

I do not know when Mr Justice Audette will be free to take this case, but if it is left much later the weather will be extremely cold and disagreeable at Port

Frances. I would suggest that an appointment be obtained for Monday, 24th November.

I expect considerable difficulty in obtaining proper evidence to prove the value of these lands, as the only evidence I have been able to locate is that of local people in Fort Frances. I had some conversation with Mr Fraser, who I understand is right of way agent of the Canadian National Railways, with regard to this matter. I understand Mr Fraser has had considerable experience in purchasing lands in similar towns to Fort Frances and would be very competent to give valuations on Pither's Point and on the surrounding territory. Mr Fraser stated that he would be very pleased to help us in the matter if permission could be obtained from the proper authorities, and I would like to make the suggestion that it would be very advisable to have Mr Fraser assist us in this case. We would require him at Fort Frances for about three days before the trial. In addition to this, I understand from Mr Wright that in 1907 the Canadian Northern purchased some of these lands for right of way and paid $1100.00 per acre therefor. I should like to obtain the file covering this purchase; and in addition to that, if the agent who made the purchase is still in the employment of the Canadian Northern I think he ought to be

called as a witness in order that he might substantiate the values given for this land. If it was difficult to have him attend at the trial, his evidence could be taken at Ottawa at the same time as the other evidence which I have referred to.

Dear Sir,-

Rex vs. Ontario & Minnesota

(Incl.)

I beg to inclose herein copy of a letter received from Messrs.Bain, Bicknell, MacDonell & Gordon, the Agents of the Department of Justice in the above suit, with respect to evidence to be adduced at the trial. Your Mr.Fraser has arranged to give evidence at the trial as referred to in your letter to this Department, dated the 16th ultimo. On page 2 of the inclosed copy of letter the lawyers state the nature of the evidence which they hope to obtain from Mr.Fraser, and I would be glad to have you forward the enclosed copy of letter to Mr.Fraser for his information at once as the matter is most urgent.

Yours truly,

Acting Deputy Superintendent General.

Sir:

Re - A- 1492
Rex vs. Ontario & Minnesota

In the file of the Department, their File Number 282739 (in two parts) which we have, the writer notices considerable correspondence which we think should be produced. We accordingly enclose a further Affidavit on Production for execution. This we are forwarding in triplicate, so that you may file the original, retain a copy for your files and return the third copy to us.

The letter of the 7th November, 1913, from Mr. J.D.McLean to Mr.Backus, President of the Power Company, referred to in the Affidavit on Production, is in part as follows;-

> "I beg to enclose herewith blue print plan showing in a roughly approximate manner the lands which have been more or less affected by the construction of the dam of the Minnesota Power Company, situated in the Indian Reserves, Numbers 18 B, 18 C and 16 D at the Westerly end of Rainy Lake."

Whether the above refers only to the land in respect of which a settlement of $6,000 for protective work was made or not, we are unable to say. If you have the plan we think it should be included in the productions. If not it should be added to the schedule as a document which you no longer have in your possession, owing to its having been forwarded to the Defendants. If you have the

original would you kindly forward it to us with two blue print copies. We presume the officer from the Public Works Department, who will be at Fort Frances at the trial, should be able to prove this plan in case it is necessary to use it in evidence.

The most important evidence of this officer will be to prove that the works erected by the Power Company were unauthorized, as their plans as submitted were not approved of. Further, we think it important for this gentleman to inform himself so that he could give evidence in connection with the Order-in-Council dated 19th September, 1905, being we think Number P.C. 1592, which gives authority to approve of the plans submitted by the Company, subject to numerous conditions and recites that there is a clause in the Act of Incorporation of the Company, making all damages to lands caused by their works a charge to be borne by them.

We wish to adduce evidence to show that this Order-in-Council was obtained by a misstatement of fact in the above connection and the witness should obtain all details in connection with whatever allegations or representations were made by the Company which led to the above referred to recital in the Order-in-Council, one which was certainly of the utmost importance. We would like a certified copy of the Order-in-Council, together with say three copies for use at the trial.

On the file above mentioned we find a copy of what is apparently an Order-in-Council, approved 28th March, 1906, and appearing to be numbered 289825. This recites that under Chapter 139-4-5 Edward VII. the Ontario & Minnesota Power Company has been granted the right to construct a dam at Fort Frances, which will raise the waters of the Rainy River about five feet; that this would affect the Reserve known as Number 1 General Reserve by flooding about 18 acres; that the Company has applied to the Department for permission to flood the area referred to and has expressed its willingness to make compensation for any damages done by such flooding; and that the Minister recommends the Department to be authorized to grant the right to flood upon such terms as the Department of Indian Affairs may decide upon.

We are not sure whether this was ever passed as an Order-in-Council. If so we will need a certified copy

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

and say four additional copies for use at the trial and the officer of the Department of Indian Affairs who will be at the trial should be prepared to give evidence as to;

What negotiations were made by the Company and how they expressed their willingness to make compensation for damages done by flooding and, if negotiations were completed to that extent, what terms the Department made with the Company. The file above mentioned does not cover either of the above points sufficiently to be self explanatory.

Further, the evidence of the officer from the Department of Indian Affairs will be needed in establishing the title to the property and producing and identifying the plan or plans shewing the exact location of the Reserves in question.

The writer is leaving for Fort Frances on the 28th instant and we should be advised in connection with the above before he leaves. We also think it would be advisable that the officers who are to attend as above mentioned at the trial should prepare and forward to us before the above date a short precis of what their evidence will be on each of the above mentioned points, and that we should receive copies of any documents which you consider advisable for us to use in their evidence . We think that both the gentlemen above referred to should be in Fort Frances the day before the trial.

We should think from going through the above mentioned file that there must be other files in the Department of Public Works and Indian Affairs which contain relevant material. If any such is found would you please see that they are forwarded to us, or to the writer c/o the Indian Agent at Fort Frances, if they are not located until the 28th instant, or if not until a later date they should be brought to Fort Frances by the officers of the Department who are coming there. If it would appear from the material on the files that there would be any considerable amount of discussion with these witnesses we think they should be there a couple of days before the trial.

August 21st-1920 — 4. — The Deputy Minister of Justice

We are returning File Number 282759 above mentioned under separate cover as, while there is nothing definite bearing on either of the two Orders-in-Council above referred to as regards either allegations that the Company's Charter contained a clause which covered damage to land, or the later Order-in-Council, which recites that the Company had agreed to make compensation for lands flooded, yet a perusal of the file in that connection may either lead to the documents being found, if such there be, or will refresh the memory of some of the officers of the Departments in question as to what was done or agreed to by the Company. If the latter be the case whoever would be able to give evidence in this connection should go to Port Frances and we should be advised to that effect and of what his evidence would amount to.

We need to make copies of the additional productions which are in the above mentioned file. We wish to get the file to you immediately however, and accordingly have been unable to do so here. Would you therefore please have four copies of the productions struck off and forwarded to us. As we are late in these productions, we think we should forward copies to the Solicitor for the Defendant.

Sir,-

Enc. I enclose herewith copy of a letter dated 21st instant from our agents at Toronto, together with a draft supplementary Affidavit on Production which I shall be glad if you will have completed in accordance with the instructions contained in our agents' letter and return the same to me at your earliest convenience. Will you please also attend to the other matters mentioned in our agents' letter so far as they relate to your Department. As the trial of this case takes place at Fort Francis on the 14th September, it is necessary that these matters be given immediate attention. You will observe our agents' request that copies be made of the documents set out in the affidavit. I shall be glad if you will Enc. have this work done in your Department. Dear Sir,

Rex vs. Ontario & Minnesota Power Company.

I beg to acknowledge the receipt of your letter of the 24th instant, enclosing letter dated the 21st instant from Messrs. Bain, Bicknell, Macdonell & Gordon, your agents, with respect to matters relating to the trial in the above matter.

enc. In reply I beg to return the Affidavit on Production in triplicate duly executed.

We do not appear to have the plan referred to in Departmental letter of the 7th November, 1913, from Mr. J.D. McLean to Mr. Backus, and it has, as suggested, been added to the schedule as a document which we no longer have in our possession. This plan does not refer to the land in respect of which a settlement of $6,000 for protective work was made.

I am informed that the Public Works Department has been furnished with a copy of letter of the 21st instant from Messrs. Bain, Bicknell, Macdonell & Gordon, and their officer will, I presume, be advised as to what is required of him.

I am enclosing certified copies of Order in Council

dated 19th September, 1905, P.C.1592, as requested, also certified copies of Order in Council of the 28th March, 1906.

A note has been made of the evidence which our officer is expected to give and of the fact that he should be at Fort Frances a couple of days preceding the trial.

I may say that there are no Departmental files relating to this matter other than those already forwarded to the Department of Justice and a temporary file containing recent correspondence.

I enclose also four copies of the additional productions as requested and return Departmental filesNos.282759 and 282759-2, and Docket No.A-1492 Department of Justice.

OTTAWA, Oct. 4, 1913.

Sir,

Referring to the recent visit of Mr S. Bray, Chief Surveyor of this Department, to Fort Frances, I have to inform you that he has reported to the effect that accompanied by Mr J. J. Ross, Superintendent of the Minnesota & Ontario Power Company, and Mr T. D. McAnulty, Civil Engineer of the same company, and also by Mr J. P. Wright, Indian Agent, he inspected the damage done to the Reserve Nos. 16 A and the Agency Reserve No. 1 at the Western end of the Rainy Lake by the action of the waves of Rainy Lake.

He has reported on the damage done for a distance of about one mile extending from a rocky point on Reserve No. 16 A to the northerly limit of the tract of sixty acres of land leased to the town of Fort Frances.

He estimated that in order to effectively protect the entire length of one mile $25,000.00 would require to be expended. He considered this to be an unreasonable sum to expend for such a purpose and finally submitted the following proposal to the said officers of your Company:-

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Damage done to the present date	$3,000.00
Cost of construction of the proposed new road	2,200.00
Damage sustained by the Indians through loss of land on Reserve No. 16 and moving houses	700.00
Breakwater in front of school and cemetery	7,000.00
TOTAL	$12,900.00

He then informed them that he would recommend that their company should pay $6000.00 with the least possible delay and one half of all future damages or repairs that may be required. These gentlemen were willing to recommend to you and your Board the payment of $6,000.00 but represented in the most urgent manner that the Company be not bound to make any future payment. Mr Bray's recommendation has been approved and I have therefore to request the immediate payment of the said sum of $6,000.00.

The further recommendations made by Mr Bray, which have also been approved, are:-

1. That a breakwater be constructed in front of the cemetery and the school grounds, commencing at the north where a small stream enters the Lake southerly to the south limit of the School Grounds in accordance with the plan and specifications herewith attached.

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

2. That a road be opened across a part of the Reserve No. 18 across a reserve No. 16 and along the westerly limit of Reserve No. 1 as shown on the plan herewith.

3. That the Lake front from the southerly limit of the School Grounds to the northerly limit of the sixty acres leased to the Town be subdivided into lots as shown on the plan herewith and sold, the consent of the Ontario Government being first obtained. The sale of these lots to be made with the proviso that the purchaser shall protect his own lake front and have no redress for damage done by the water either against the Department or against the Minnesota and Ontario Power Company.

The Department proposes to construct and maintain the breakwater in front of the school grounds and as stated it is proposed to sell the remainder of the land still under the control of the Department. The Minnesota & Ontario Power Company will thus be relieved of any future charge. Please note that Mr Bray's Report deals only with the land directly under the care of this Department and not with the portion leased to the town of Fort Frances.

It is hoped that you will see your way to immediately forward the said sum of $6,000.00 and thus close this matter as far as your company is concerned, that is, in the land as above stated under the direct control of this Department.

Copies of the plan of the reserve, showing the proposed new roads and subdivisions and a copy of the plans and specifications of the proposed breakwater are enclosed for your information.

OTTAWA, 5th July, 1916.

Gentlemen,

Referring to your letter of the 19th ultimo I desire to explain that the arrangement made some years ago in which the Ontario and Minnesota Power Company was to pay the sum of $6,000.00 and of which $3,000.00 has been paid, referred to the damage being done by the maintenance of the water at a high level in Rainy Lake along the bank in front of the Indian Industrial School and southerly to the north limit of the tract of land in the Indian Reserve which is under a lease to the City of Fort Frances. The land flooded, for which payment was claimed in 1909, and again mentioned in our letter of the 16th ultimo, is at Pither's Point being the southern end of the Reserve in question.

At the request of the local Indian Agent, Mr J. P. Wright, an officer of the Department has visited the locality and has reported that the damage to the land in question at Pither's Point has been caused directly by the maintenance of the water in Rainy Lake at a high level and that this is due to the dam of the

Ontario and Minnesota Power Company, Limited. The claim for payment, therefore, appears to be very reasonable and I have to request that the Ontario and Minnesota Power Company will be good enough to take action in this matter with a view to making prompt payment.

I have further to call your attention and to make demand for payment for damages to Indian lands and houses situated north of the school above mentioned. Enclosed herewith is a schedule setting forth the damages which have been suffered by eight Indian residents amounting to $2,960.00. There are still two or perhaps more Indians whose homes are still further to the north of whose claims you will be later advised.

These Indians are poor men and they depend very largely on the crops they obtain on the lands which have been flooded. It will be a piece of injustice to defer payment of these claims for any length of time. I have therefore to request that your clients, the Ontario and Minnesota Power Company, be good enough to forward the said sum of $2,960.00 in order that the said payments may be made.

OTTAWA, 5th July, 1916.

REPORT FOR THE ACTING DEPUTY MINISTER

I beg to report that I have visited Fort Frances and have inspected the damage done to the Indian Reserve and the damage sustained by a number of Indians resident at that point. There are two more Indians who have suffered damage, whose places I was unable to visit. Mr J. P. Wright, Indian Agent, will send me the values of the damage suffered by these two men later on.

The water in the Lake is at an unprecedented height. This may have been caused in part by a large amount of rainfall but I think there should be no question that the maintenance of the water in the Lake at a high level is directly attributable to the dam of the Ontario and Minnesota Power Company and that therefore that Company should pay for the damages which have been sustained.

I beg to submit herewith a draft of a letter addressed to Messrs Blake, Lash, Anglin & Cassels making

Dear Sir:

I am in receipt of your letter of the 25th of August, instant, enclosing copy of a letter from Messrs. Bain, Bicknell, MacDonell & Gordon, the Agents of the Department of Justice in the above suit, in which they indicate the nature of the evidence which they hope to obtain from Mr. R. H. Fraser.

As you have already been informed, Mr. Fraser has arranged to meet Mr. Gordon at Fort Frances sometime previous to the day of the trial. Mr. Fraser is at present in the West, and, as requested, I am forwarding to him a copy of your letter and of the enclosure.

It is noted that the evidence desired from Mr. Fraser has reference to papers on file in your Department. It is presumed that you will have these papers, and all information with regard thereto looked up, so that the same can be gone over by Mr. Fraser previous to the trial.

Yours faithfully.

Sir:

Re - A-1492
Rex vs. Ontario &
Minnesota

We are in receipt of your favor of the 21st instant. Mr. Justice Audette gave us until the 28th instant to apply before him to adduce further evidence. We think it will be necessary for us to give the other side the usual two clear days notice, so that our notice of application should be served by the 25th instant.

We would think it advisable to have copies of the full description and a report on the matters which we mentioned in our letters to you by the morning of the 25th, as we think we could be of assistance to you in deciding what course should be taken, being familiar with the proceedings at the trial.

Without knowing what material and information can be adduced through the Indian Department, we have in mind calling Mr. Rorke, head of the Surveys Branch (Ontario) here. We should think it would be advisable for him to produce the original tracing of the plan deposited in accordance with 5 Geo. V. Chap. 12, as failing other information, we think the stand that should be taken should be that the Reserve which the Ontario Government was cognizant of, and which they confirmed and transferred to the Dominion, was the Reserve as shown on the tracing of the plan deposited with the Government, which shows no two chain reservation.

Whether it would be advisable for us to adduce evidence through the officials of the Department of Ind-

ian Affairs to show that it was invariably the custom of the Department to reserve the two chain allowance around the borders of lakes and rivers wherever there were reserves within a reserve and not a two chain reservation outside of the reserve, is something that can only be decided upon after the information referred to in our letters above mentioned is to hand.

Further, we think it advisable, if definite information could be obtained, that evidence should be given showing that there was never a road built around Pither's Point.

Again, Mr. Bray's point that the Colonization Road built across Pither's Point was in substitution for allowance around the Point, is a most important one, if it can be substantiated.

If it is necessary for us to have a few days' additional time we think Mr. Justice Audette would not object to an ex parte application for a few days grace being made to him.

In the file of the Department, their File Number 282759 (in two parts) which we have, the writer notices considerable correspondence which we think should be produced. We accordingly enclose a further Affidavit on Production for execution. This we are forwarding in triplicate, so that you may file the original, retain a copy for your files and return the third copy to us.

The letter of the 7th November, 1913, from Mr.J.D.McLean to Mr.Backus, President of the Power Company, referred to in the Affidavit on Production, is in part as follows:-

> "I beg to enclose herewith blue print plan showing in a roughly approximate manner the lands which have been more or less affected by the construction of the dam of the Minnesota Power Company, situated in the Indian Reserves, Numbers 18 B, 18 C and 16 D at the Westerly end of Rainy Lake."

Whether the above refers only to the land in respect of which a settlement of $6,000 for protective work was made or not, we are unable to say. If you have the plan we think it should be included in the productions. If not it should be added to the schedule as a document which you no longer have in your possession, owing to its having been forwarded to the Defendants. If you have

original would you kindly forward it to us with two blue print copies. We presume the officer from the Public Works Department, who will be at Fort Frances at the trial, should be able to prove this plan in case it is necessary to use it in evidence.

The most important evidence of this officer will be to prove that the works erected by the Power Company were unauthorized, as their plans as submitted were not approved of. Further, we think it important for this gentleman to inform himself so that he could give evidence in connection with the Order in Council dated 19th September, 1905, being we think Number P.C.1592, which gives authority to approve of the plans submitted by the Company, subject to numerous conditions and recites that there is a clause in the Act of Incorporation of the Company, making all damages to lands caused by their works a charge to be borne by them.

We wish to adduce evidence to show that this Order-in-Council was obtained by a misstatement of fact in the above connection and the witness should obtain all details in connection with whatever allegations or representations were made by the Company which led to the above referred to recital in the Order-in-Council, one which was certainly of the utmost importance. We would like a certified copy of the Order-in-Council, together with say three copies for use at the trial.

On the file above mentioned we find a copy of what is apparently an Order-in-Council, approved 28th March, 190[illegible], and appearing to be numbered 289825. This recites that under Chapter 139-4-5 Edward VII. the Ontario & Minnesota Power Company has been granted the right to construct a dam at Fort Frances, which will raise the waters of the Rainy River about five feet; that this would affect the Reserve known as Number 1 General Reserve by flooding about 18 acres; that the Company has applied to the Department for permission to flood the area referred to and has expressed its willingness to make compensation for any damages done by such flooding; and that the Minister recommends the Department to be authorized to grant the right to flood upon such terms as the Department of Indian Affairs may decide upon.

We are not sure whether this was ever passed as an Order-in-Council. If so we will need a certified copy

and say four additional copies for use at the trial and the officer of the Department of Indian Affairs who will be at the trial should be prepared to give evidence as to;

What negotiations were made by the Company and how they expressed their willingness to make compensation for damages done by flooding and, if negotiations were completed to that extent, what terms the Department made with the Company. The file above mentioned does not cover either of the abo ve points sufficiently to be self explanatory.

Further, the evidence of the officer from the Department of Indian Affairs will be needed in establishing the title to the property and producing and identifying the plan or plans showing the exact location of the Reserves in question.

The writer is leaving for Fort Frances on the 28th instant and we should be advised in connection with the above before he leaves. We also think it would be advisable that the officers who are to attend as above mentioned at the trial should prepare and forward to us before the above date a short precis of what their evidence will be on each of the above mentioned points, and that we should receive copies of any documents which you consider advisable for us to use in their evidence. We think that both the gentlemen above referred to should be in Fort Frances the day before the trial.

We should think from going through the above mentioned file that there must be other files in the Department of Public Works and Indian Affairs which contain relevant material. If any such is found would you please see that they are forwarded to us, or to the writer c/o the Indian Agent at Fort Frances, if they are not located until the 28th instant, or if not until a later date they should be brought to Fort Frances by the officers of the Department who are coming there. If it would appear from the material on the files that there would be any considerable amount of discussion with these witnesses we think they should be there a couple of days before the trial.

We are returning File Number 282759 above mentioned under separate cover as, while there is nothing definite bearing on either of the two Orders-in-Council above referred to as regards either allegations that the Company's Charter contained a clause which covered damage to land, or the later Order-in-Council, which recites that the Company had agreed to make compensation for lands flooded, yet a perusal of the file in that connection may either lead to the documents being found, if such there be, or will refresh the memory of some of the officers of the Departments in question as to what was done or agreed to by the Company. If the latter be the case whoever would be able to give evidence in this connection should go to Fort Frances and we should be advised to that effect and of what his evidence would amount to.

We need to make copies of the additional productions which are in the above mentioned file. We wish to get the file to you immediately however, and accordingly have been unable to do so here. Would you therefore please have four copies of the productions struck off and forwarded to us. As we are late in these productions, we think we should forward copies to the Solicitor for the Defendant.

Sir,- Re- Rex vs. Ontario & Minnesota Power Co.

With respect to the matter of preparing a short precis of what my evidence will be in the above case on each of the two matters referred to on page 3 of your Agent's letter of the 21st August, I have to say that I am not aware of any negotiations made by the Company except as set forth in the files which have hereto fore been forwarded to the Department of Justice. We have no other files in the matter.

With reference to the title to the lands in question I have to say that I will take with me the following,-

(1) Extract from Treaty No.3 relating to the setting apart of lands for Indians.

(2) Extract from Report of S.J.Dawson, dated 17th Feb.1875, allotting the general reserve at the West end of Fort Frances.

(3) Instructions of 15th June 1875, to the surveyor to make a survey of the above reserve and the other Indian reserves adjacent to it on the North.

(4) Copies of the plan and of the Report on the survey of the said surveyor dated 14th July 1876.

(5) Copy of the surrender of part of the reserve by the Indians to the Crown.

(6) Copy of the plan of the reserve as it now exists.

(7) Plan showing the tract of land flooded at Pither's Point and positions of buildings, also the location of the Indian fields and buildings damaged by the high water for which compensation is now demanded.

I am enclosing copies of the above to be forwarded to your Agents as they request.

Sir,

Re A. 1492.
Rex v. Ont. & Minnesota.

Please refer to 5 Geo. V. cap. 12 (Ont.). Would you kindly advise me whether the Dominion Government paid for all or any part of the reserves in question in this action pursuant to the above statute. If not please advise me of the reason therefor.

The defendants will probably set up that the land in question comes within the exception as to water powers in sec. 2 of the above Act.

Mr. Bray should be able and ready to give evidence covering this point. I would like to show by his evidence -

(a) The total area of the reserves in question;

(b) That the provincial government was paid in full for this total area pursuant to the provisions of the Act, and that the last mentioned government accepted payment therefor and acknowledged same, and that no question of reserving a portion of the reserves (to be flooded in connection with the power development) was raised or if so was settled by the Dominion government paying for it nevertheless.

I have thehonour to be,

Sir,

Sir,

I beg to confirm telegram which Mr. Symmes of our agents' firm sent from Fort Frances on 10th instant and which I telephoned to your Mr. Robinson on Saturday morning. It reads:

> "My letter Bray has not information re payment to Ontario by Dominion under 5 George 5th chapter 12 Ontario He has wired accountant Stop Has Ontario exercised right under sec 4. Wire reply and send relevant files."

Encl. I also enclose, for your information, copy of the letter of 6th instant from Mr. Symmes which is noted in the above telegram but which I had not before me at the time when telephoning Mr. Robinson.

I am not referring these communications to the Department of Public Works as I should expect to find that your Department will have any information there is to give in the matter. As the trial has been adjourned and will not come on until some time during the first week in October it will be time to have attention given to this upon the return of Mr. Bray, after which we would like to have a report to forward for the information of our agent.

Your letter of August 25th to the Deputy Minister. As instructed I attended at Fort Frances, arriving there on Saturday September 11th, and was afterwards notified that the sitting of the Court had been adjourned until October 5th.

As there may be a question of adjustment of costs to date I enclose herewith my expense account amounting to eighty four dollars and five cents ($84.05) and would be glad to have your cheque for the same. I have only charged a proportion of my railway fares as I was able to do other work for my own Department on this trip.

DEPARTMENT OF PUBLIC WORKS

Upper St. Lawrence District Engineer's Office.

Ottawa, Sept. 18, 1920.

Re A-1492 Rex vs Ontario & Minnesota Power Company.

Memorandum for Mr. J. P. Bill,

for Dept. Justice file.

Following instructions of the Assistant Deputy Minister of this Department, I met Mr. B. H. L. Symmes at Fort Frances, Ont., on the 11th inst. and went over with him all features of the case with which this Department has to deal. I delivered to him certified copies of all documents of this Department, which had bearing on the case, and left in the charge of our Resident Engineer there Public Works files "1632 A-B-C-D, so that Mr. Symmes could go through them if he so desired.

With regard to letter to Deputy Minister of Justice from Messrs. Bain, Bicknell, MacDonell & Gordon, under date of Aug. 21st, I beg to advise as follows:-
Paragraph 1 has been done as above stated. Par 2 & 3 belong entirely to the Department of Indian Affairs; this Department has no plan such as that mentioned, and in consequence could not attest in Court to its correctness or otherwise. Par 4 First sentence: Certified copies from the files together with plans, now in the hands of Mr. Symmes, will establish that the Company's works as erected were not authorized by O.C. and are therefore irregular. Second sentence: The words 'Act of Incorporation of the Company' appear in a report to the Chief Engineer of this Department made by the late Mr. Harry Gray of the Chief Engineer'S staff, in a report by the Chief Engineer to the Deputy Minister, who evidently used the words in preparing the O.C., also in the O.C. of Sept. 19, 1905, and finally in the Company's enabling Act assented to July 20, 1905, Chap. 139 4-5 Ed. VII, in the first paragraph of which it is stated that the Ontario & Minnesota Power Co. has by its petition represented that it was incorporated by letters patent under the great seal of the Province of Ontario, dated the thirteenth day of January, one thousand nine hundred and five, under "The Ontario Companies Act" being Chap. 191 of the Revised Statutes of Ontario 1897. We have no copy of that Act and I wired and wrote to Crown Counsel at Toronto to get a copy of this Act; Mr. Gordon of the Firm advises me by phone that he has had a search made and that such Act cannot be found.

Par. 5 also deals with this matter; if the Act of Incorporation as enumerated in the Dominion Act does not exist, their misstatement of fact is apparently established, if the Act is in existence and contains the provisions as stated in its Article 4 there will be no misstatement and the Crown would apparently be protected against damages that may be attributed to the Company's operations.

Par. 6: This O.C. is not with the Department of Public Works, but is probably with the Department of Indian Affairs.

All certified copies of Public Works documents asked for are with Mr. Symmes.

We enclose an account of Mr.Seegmiller of Kenora, who you will remember was retained to give expert evidence as to values. In forwarding the same he stated that he would like to obtain a payment as soon as conveniently possible.

As there may be one or two items in the account which will be adjusted when we see Mr. Seegmiller at Fort Frances, we would suggest that you remit us say $350.00 on account. This we can deliver to him when we meet him in Fort Frances.

Could you let us know whether you have any further advice as to what date Mr.Justice Audette will arrive in Fort Frances? and whether we should send a wire to him or to his Registrar, if he took one with him, to ascertain when he will be there. To arrive at Fort Frances by the 5th of October it will be necessary for us to leave Toronto on Saturday evening next and unless we hear to the contrary we shall leave then.

Memo.

Fort Frances
9th Oct. 1920

For P. WHITE. Esq. K.C.

The reservation of two chains in width along the shores of the Indian Reserves at the west end of Rainy Lake mentioned in the "Minute of Decision" of Commissioner Dawson, did not detach this strip from the Indian Reserves. It simply gave the right to the Crown to grant booming and the other privileges mentioned when required without a surrender from the Indians as provided in the Indian Act, and it did not deprive them of the use of the said strip or of any compensation for their improvements or for loss or damage to their reserves when required for the said other purposes

The said reserves were confirmed by the Province as shewn on the plan furnished which plan shews that the said strip is a part of the reserves. This may be especially observed by noting that the boundary lines of the Reserves are in every case drawn down to the water's edge. (I have sent for a certified copy of the plan furnished the Province; from memory I may say that the two chain strip is not shewn thereon.)

No reference whatever was made to the Province of any reservation of the said two chains. The Dominion could not have accepted confirmation of these reserves with the proviso that the said two chains along the water front was the property of the Province as this would have been a bad breach of faith with the Indians as they had been rightfully in continuous ownership and occup tion of the said strip. If the Indiand had been ibformed hat they did not own the lard in their Reserves up to the water's re there would have been a rebellion.

Their improvements always begin at the wayer's edge: it is rd to suppose that there was any intention that they should

leave a wide strip of wood land between their houses and the water.

Mr Pither, who was one of the Commissioners who was appointed to allot these Indian Reserves, built his house on Pither's Point within the limit of the said strip. He would have been guilty of an act of great folly if he knew or had supposed that the land was not a part of the Reserve.

Dear Sir,-

Rex v Ontario & Minnesota Power Co.

I attended the sitting of the Exchequer Court at Fort Frances on October 5th. I met the valuators who had been employed on behalf of the Department to give evidence of the value of the lands and as I considered the prices they had stated to be rather too high and would not be accepted by the Court, I revised their estimates and they gave evidence in accordance with the statement which I attach herewith, making the total $17,975.00, this amount being in addition to the individual claims of the Indians.

DEPT. OF INDIAN AFFAIRS
OCT 14 1920
SURVEYS

From the attitude of the Judge I would consider that he would accept these amounts as being fair and I may say that the counsel for the defendant in his cross examination did not question or dispute the unit prices per acre which were placed upon the properties by witnesses. We were able to confirm these amounts by higher prices which had been paid for these lands by the Canadian Northern Railway of $1125 per acre on Parcel No. 1, and $750 per acre on Parcel No. 2, these prices per acre to include damages for severance. On Parcel No. 3 the price was confirmed by the recent sale by the Indian Department of a number of lots that adjoined,and as actual sales of property in the neighbor-

hood are always the best evidence of values, for this reason I believe the Judge would accept these figures.

After the taking of evidence and the closing of the case the question was raised as to whether the Indian Department had title to a strip of land following around the shore two chains in width and the Court adjourned the hearing to Ottawa at a later date to have this point settled. If this claim was established then the Indian Department would have very little claim for damages as this strip would include practically all the lands flooded.

I enclose my expense account and would be pleased to have cheque for the same.

Yours truly,

The Great North Western Telegraph Co.

OF CANADA

FORM 2.

It is agreed between the sender of the following message and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of an unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate, and in that case it shall not be liable for damages beyond fifty times the amount received for sending and repeating.

Correctness in the transmission of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding 1000 miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

October 14th-1920

The Deputy Minister of Justice,

OTTAWA

Sir:

Re - A 1492 --
Rex vs. Ontario &
Minnesota Power Co.

When we arrived at Port Frances on Monday afternoon, the 4th instant, we found that Judge Audette was already there. Accordingly he proceeded forthwith to inspect the locus, accompanied by Counsel. The trial opened formally on Tuesday, the 5th instant, at 10.30 a.m. and by dint of evening sessions was completed at 11.30 p.m. on Thursday the 7th instant.

When the trial was nearing its completion Counsel for the Defendant Company produced evidence to show that the description of the Agency Reserve, (which comprises Pither's Point) to be set aside under Treaty Number Three, was in part as follows;-

RAINY RIVER

"No. 1-- At the foot of Rainy Lake. To be laid off as nearly as may be as indicated on the plan-- two chains in depth along the shore of Rainy Lake and bank of Rainy River, to be reserved for roads, right of way to lumbermen, booms, wharves and other public purposes."

He argued that, in view of the above two chain reservation the reserve did not extend to the water's edge but merely to within two chains thereof, and that accordingly the reserve was not damaged, maintaining that the lands inundated did not extend further than two chains from the original shore line. While this is not correct in its entirety, practically all of the lands submerged are within two chains of the original shore line.

The Deputy Minister of Justice

October 14th-1920

Without admitting that there was a reservation of two chains allowance we argued that in any event it was to be within the limits of the reserve; that this was a description of the reserve with which the Province of Ontario had nothing to do and that there was no such reservation in 5 Geo. V.Chap.12,Ontario, by which Act the title to the Indian Lands was transferred to and confirmed in the Dominion, and that in fact there neither is nor has been any road or road allowance around Pither's Point. The Judge however seemed to consider this a point which went to the root of matters and we accordingly applied for leave to give further evidence to meet this unexpected situation.

While not granting same, largely we think because we were not able to tell him what our evidence would be, he has given us until the 28th instant to apply for leave to submit further evidence on this point.

Our Mr. White remained in Fort Frances, as he had a case there which would take him the better part of this week and he is obtaining what information there is to be had there on this point. Mr. Symmes has been searching in the Parliament Buildings here in the Lands and Forests Department, including Surveys, Colonization Roads and Northern Development Branches.

The tracing of the plan of E.C.Caddy,D.L.S., dated 14th July, 1876, showing the general Agency Reserve (Pither's Point) and being one of the plans referred to in 5 Geo. V, Chap. 12, Ontario, above mentioned, was made by Mr. S. Bray in 1889 and forwarded to the Crown Lands Department in January 1890. This tracing shows the Reserve in question running to the water's edge and does not show any reservation around the shore line, such as is mentioned in the description above. The tracing above mentioned was apparently forwarded in response to a letter, dated 22nd May, 1889, from A.S.Hardy to Mr. Vankoughnet asking that tracings of plans of Reserves in the Rainy River District be forwarded. A portion of this letter is as follows;-

"It will be sufficient for our purposes if only the outside measurements and courses be put on."

Indian Affairs. (RG 10, Volume 4021, file 282,759 2)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Apparently the original plan of this and some other tracings which were sent were not in Mr.Vankoughnet's Department, because on the 5th December, 1889, he wrote to the late Mr. Aubrey White stating that the tracings would be sent so soon as compared with the originals, which were with the Department of the Interior. Two tracings of the plan showing the Reserve in question were sent to the Department here. The above mentioned was the second one sent. The first was forwarded by Mr.Vankoughnet to the late Mr.White with a letter dated 20th February,1888, (Number 45974), in which he states that he is forwarding the tracing of the Reserves at the foot of Rainy Lake, because the Reserves in question are not clearly shown on some plans in general use. Acknowledging the above Mr. White replied that the Reserves appear on the map issued some years prior thereto by the Department of the Interior. This should be examined. ×

Mr. Symmes also found a plan of McIrvine Township in the Surveys Department here, which was surveyed by C.C.Forneri, Deputy Surveyor, dated 18th October, 1875. At the top of the plan appears the following;-

"Plan of Township No. 5 S, Range 31
East of 1st Meridian--McIrvine."

At the bottom of the plan appears the Surveyor's signature and date and the following;-

"Dominion Lands Office, Ottawa,
August 17th, 1876
Approved and confirmed.
J.S.Dennis,
Surveyor General"

This plan indicates a bush road or trail in dotted lines, extending along the River Bank from south and west of Fort Frances, thence up along the river around Pither's Point and for a considerable distance northerly from the Point, within approximately two chains of the shore line.

We also find that the Colonization Report of 1885 states that building started along the Rainy River Road westward from Fort Frances and the report sets out that they followed the general lines of road laid down by the Dominion Government about ten years before. We can find no record of any road work being done north of Fort Frances along the river

shore or around Pither's Point, or further north along the lake shore. Whether the bush road or trail indicated in the Forneri plan above mentioned indicates what was laid out by the Dominion Government as per Colonization Report above we cannot tell. Throughout the correspondence between the Indian Department and the Crown Lands Department of Ontario there is no mention in any case that we have been able to find of any reservation around the Pither's Point agency Reserve and schedules show the definite acreage of 170 acres without any deduction in the column of the schedule under the heading "Wagon Roads".

We think that every source of information should be exhausted in clearing up the matter of the two chain reservation, so that if possible we can bring further evidence on this point. In this connection we would summarize as follows;-

1.- The full description should be examined. What was in the file at Port Frances was apparently but a portion of it.

2.- The report and field notes of Caddy should be checked over, and his original plan examined.

3.- Forneri's original plan, field notes and any report or correspondence also examined and any records as to proposed roads or reservations gone over, in view of the Statement in the Colonization Report of 1885, and the road or trail appearing on Forneri's plan.

4.- Section 3 of 5 Geo. V., Chap. 12, Ontario, provides for payment by the Dominion to the Province at the rate of $1.00 per acre. This Section is incorrect as considerably more than 20,000 acres were in question. We understand that the Department of Indian Affairs drew this to the attention of the Crown lands Department, Ontario, and submitted an amendment of this Section, but whether through inadvertence or otherwise the original draft of the bill was put through.

If we could show that, with the area of Pither's Point being computed down to the water line, the total area would be the one settled on, whereas if

the area were computed only to within two chains of the water line it would not work out in accordance with the settlement, it might be worth producing in evidence.

5.- Mr. Bray considers that the road which was opened across Pither's Point was in lieu of the allowance around the Point. If established this would be most important.

6.- It should be ascertained whether the two chain reservation appears in the description of the other Reserves around Rainy Lake, particularly whose others in question in this action.

It might be advisable for Mr. Symmes to come to Ottawa to go over the information with you with a view to decide what we should adduce in evidence. This you can probably determine better after getting a report from Mr. White upon the information he has obtained in Fort Frances. This will be forwarded so soon as he returns.

Apart from the above question the case looks very favorable. Our evidence as to values was much superior to that of the defendants, whose witnesses in this respect broke down very badly. Our witnesses estimated the damage at about the amount of the claim. The individual Indian claims were proved by Mr. Dillon and Mr. Wright at the amounts given in the information.-- The Indians with one exception not being called, as the other side gave no evidence in reply on this phase of the case. We accordingly did not put in the Indians as they would have been very unsatisfactory and possibly dangerous witnesses.

The matter of costs of the adjournment in September was dealt with, the Court directing that costs of and incidental thereto be to the Plaintiff in the cause.

If Mr. Bray has obtained any information since his return it might be well for him to advise us.

We have the honor to be, Sir,

Your obedient servants,

Rex v. Ontario & Minnesota Power Co.

Sir,

I enclose herewith copy of a letter dated the 14th instant from our agents at Toronto, from which you will see that a somewhat surprising situation arose at the trial in connection with the title to the lands in question in this suit. Pending receipt of the further letter from Mr. White referred to in our agents' communication I should be pleased if you would have your department place me in possession of all possible information under the control of your department in connection with the dedication and present position of the two chain reservation referred to. Please also attend to the several suggestions set out on pages 4 and 5 of our agents' letter.

Encl.

The matter is somewhat urgent, as you will observe that we must definitely determine what position the Crown proposes to take before the 28th day of October.

Ottawa, 20th October 1920.

Sir,-

Referring to the letter of Messrs. Bicknell, McDonnell and Gordon of the 14th instant, enclosed with your letter of the 19th instant, I beg to reply to the points mentioned therein as follows,-

The reference, not numbered, relating to the fact that the reserves at the foot of Rainy Lake had not been clearly shown on some plans in general use; this refers to a general map which was exhibited in this Department on which was not clearly shown the reserves in question. Mr. Aubrey White, the then Assistant Commissioner, Crown Lands Department, Toronto, who acknowledged the letter of 25th Feb. 1888, referred to the fact that the map issued by the Department of the Interior showed these reserves. It is to be noted that all the maps that were subsequently issued by the Province have never failed to indicate thereon the reserves in question.

(1) Positively no full description of the reserves has been made, and the so called description referred to in trial at Fort Frances, is the Minute of Decision of the Reserve Commissioner, Mr. S.J. Dawson. Mr. Dawson was a federal officer. His powers extended to the setting apart of Indian reserves only, he had no power to set apart a strip of land for the use of the public as indicated in his Minute of Decision.

(2) The surveyor, Mr. W.C. Caddy, D.L.S., who made the surveys of the reserves in question at the West end of Rainy Lake, refers in his field notes to the two chains allowance along the shore as an allowance for landing purposes and has indicated this allowance on his original plan.

(3) The following occurs in Mr. Forneri's report of the survey of the McIrvine Township, adjacent to the Agency reserve No. 1 in question " I ran out a road line in a North-easterly direction and a short distance back from the river to the Hudson's Bay reserve, leaving this road all one chain wide and to the North of the line and also from the Government reserve following the bank of the river to the Pither's reserve. (The Agency reserve No. 1 was frequently referred to as the Pither's reserve, as the Indian Agent Mr. Pither resided thereon). There is no reference in Mr. Forneri's field notes of this road which he states is limited by the boundary of the Indian reserve.

A faint red line is drawn on Mr. Forneri's original plan parallel to the shores of Rainy Lake but this is distinctly shown to the water's edge, thus showing that all the land to the water's edge pertains to the Indian reserve.

the attention of the Deputy Minister of Lands, Mr. Aubrey White, in letter of the 19th March 1915, a copy of which is enclosed, to the fact that Clause 3 of the Bill as passed by the Ontario Government should be re-written as he has indicated, showing clearly that the 20,672 acres is in excess of the acreage required to be set apart as Indian reserves for Indians under the terms of Treaty No.3 and accordingly the Dominion Government agreed to pay $1.00 per acre for this excess.

It cannot be shown that with the area of Pither's Point being computed down to the water line, the total area would be the one settled on, as the difference would be too small in such a large area of land consisting of a large number of Indian reserves scattered throughout the district. It is however to be noted in the copy of the report of the surveyor, Mr. E.C.Caddy (which was sent together with other documents to your Agent as requested and of which you were informed by letter of the 4th ultimo) that in the case of the reserves at the West end of Rainy Lake, the area of the strip of two chains along the lake was not included in the area of the reserve as he indicated them.

(5) When permission was given to the Province of Ontario to open a road known as the colonization road across the northerly end of Pither's Point, the road or trail in use by the public which crosses the point South of the said colonization road was closed as far as the general public was concerned. This was a legitimate action of the Department, as no action had ever been taken to establish the road or trail as a public highway.

I beg to enclose herewith the correspondence numbered 5 in connection with this matter. The portion of the said colonization road located along the lake front was practically all washed away on account of the waters of the lake having been raised. As this action continued, it was found advisable to change the location of the road to the West limit of the reserve. This is illustrated by reference to the plan of the reserve as it now exists attached to the said correspondence.

(6) The two chains allowance for landing is shown on the plans of the surveys of the reserves at the West end of Rainy Lake made by the surveyor above mentioned, Mr. E.C.Caddy, D.L.S. These reserves are in one block and are known as the Agency reserve No.1, reserve 16-A, reserve 18-B, reserve 16-D, and reserve 18-C. There are two other Indian reserves, No.26 and No.23, bordering on the lake, no width for landing allowance is shown on any of the plans of these reserves.

I have to draw especial attention to the fact that no transfer was made to the Province of Ontario of a strip of land two chains wide referred to as being for landing purposes, on the contrary it is definitely and purposely shown on the plan furnished that all the land down to the water's edge was included in the Indian reserves.

For your information I beg to enclose a copy of a memorandum dated the 9th instant made by Mr. Bray for Mr. P. White, K.C., the Counsel acting for the Department and forwarded to him at Fort Frances. Also a copy of a telegram dated

the 15th instant. You will note that a certified copy of the plan furnished the Province of Ontario has been forwarded to Mr.White. This plan shows, as above stated, positively that the Indian reserves in question extend down to the water's edge and the position of the Department is that the two chains strip always formed a part of the reserves, has been in continuous possession and has been administered by this Department. Especial care was taken at the time of the confirmation of the reserves by Ontario to show on the plan that the two chains strip formed a part of the reserve. No descriptions whatever were furnished the Province; the plans only govern.

re- (2) A copy of Mr.Caddy's field notes of the survey of the Agency reserve No.1 is enclosed. It is to be noted that in some of the previous correspondence this reserve has been referred to as No.11.

Sir:-

Re - A. 1492
Rex vs. Minnesota

Further to our last letter reporting to you in this matter Mr. White has returned from Fort Frances. He is at present confined to his bed, owing to being thrown from his horse but Mr. Symmes had an opportunity of discussing with him, prior to his injury, the information he had obtained at Fort Frances.

He could not ascertain definitely in the time he was there under what authority the "colonization road" was constructed across Pither's Point, nor whether there was at any time a road around the Point bordering the shore. Mr. Symmes had written prior to Mr. White's return to obtain the name of the road under which it would be referred to in the Colonization Branch here and hopes to hear from the Local Road Inspector shortly.

In addition to the above Mr. Wright, the Indian Agent, wrote his Department on the 10th October, 1900, in connection with this road across the Point and we have a copy of a memo made by Mr. Bray, directed to the Secretary, on the subject of this road on the 28th November, 1900, but have no information as to what was done as a result of Mr. Bray's recommendation, though it would lead one to suppose that the Indian Department agreed to the building of this road by the Province.

By Order-in-Council No. 164, approved of on 27th February, 1875, in connection with the Reserves contemplated under Treaty 3, it sets forth that it was not at that time suitable to confirm absolutely the Reserves selected by the Commissioners and recommends that they be provisionally approved. Were these reserves as

selected later finally approved, and if so, how?

It is rather difficult for us to recommend what should be done in this case until we are able to collect all the information and material which we have obtained both here and at Fort Frances and what is on record and within the knowledge of the officials of the Department of Indian Affairs. We have not sufficiently full information about the Reserves, or about the roads or road making that has been done.

As we have not received any material from the Indian Department since writing you last we cannot determine just how this matter stands, or what evidence, if any, should be given . Our application should be made by the 30th instant. Unless the result of all the information obtained from the sources above indicated clears this matter up, it might be well for our Mr. Symmes to come to Ottawa. You might instruct us as to this, as you will have all the material to hand before we receive it.

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 8th July, 1874

PRIVY COUNCIL CANADA

On a memorandum dated 24th June, 1874, from the Hon. the Minister of the Interior, bringing under the notice of Your Excellency in Council the paragraph in No 3 Treaty (concluded last October at the North West Angle of the Lake of the Woods with the Salteaux Tribe of the Ojibbeway Indians) relating to the Reserve secured to the Indians under that Treaty, and recommending that Mr. S. J. Dawson, now in the neighbourhood of Rainy River, and Mr. Robert Pittier, the Indian Agent residing at Fort Francis, be appointed, in accordance with the provisions of the Treaty, for the purpose of selecting the Reserves where it shall be deemed most convenient and advantageous to each band or bands of Indians, such selection to be made as provided by the Treaty after conference with the Indians, and subject to the other conditions set forth in the Treaty.

The Minister submits that while he has no objection to have one of the Wild land Reserves at the locality on Rainy River designated by Mr. Dawson, he thinks that the other Reserves of that class yet to be selected should be removed as much as possible from the probable line of future settlement, and should not include any land known to the Commissioners to be mineral lands or any lands for which as mineral lands bona fide applications have been filed with either the Dominion or Ontario Governments.

That the selections of the Reserves made by the Commissioners should not be final until confirmed by the Governor General in Council and it should be the duty of the Commissioners as soon as possible after setting aside and selecting the Reserves as above directed to report their proceedings to the Minister of the Interior, and to send with their Report a Map indicating approximately the locality of the Reserves so selected for submission to Council.

The Committee concur in the above recommendation and advise that the suggestions submitted in the said Memorandum be approved and acted on.

Dear Mr.Symmes,-

Referring to requests of yesterday I have to say,-
(1) With regard to the allotment of Indian reserves in Treaty No.3 by the Commissioners,Messrs.S.J.Dawson and Robert Pither and the report of their proceedings signed by Mr.Dawson on the part of himself and Mr.Pither,I enclose herewith a certified copy of O.C.dated 8th July 1874, appointing these gentlemen Commissioners for the purpose and this is the authority under which they acted.

You will note there is no authority to the Commissioners to make any reservation of two chains along the shores of any Indian reserve.

(2) I cannot answer No.2. I can only state the fact that when any piece of land being a part of an Indian reserve has been used with or without the consent of the Superintendent General for the purposes of a school,church,cemetery or road and if the said piece of land has not been regularly surrendered by the Indians for that purpose,when it ceases to be used for the purposes of a school,church etc.,it reverts to the reserve.

In the case of certain streets and lanes in the town of Sarnia,situated in a surrendered part of an Indian reserve, which were closed by the Municipality,the Indian interest was disposed of for a valuable consideration to the persons in whose favour the said streets and lanes were closed.

(3) The correspondence regarding the plans sent to the Provincial Government of Ontario is supposed to be on two files which were in the possession of Mr.W.D.Hogg,K.C., who was Counsel for the Dominion in the case relating to the

final boundaries of the Province. These files do not appear to have been returned to the Department. Mr.Hogg moved his office some years ago and says that the two files are probably in one of a number of boxes in his cellar and that he will have a search made for them immediately. If found and if the correspondence regarding the plans is on them,I will immediately send you copies of all correspondence pertinent to the point you desire.

(4) With regard to Sections 2 and 4 of the Act to confirm the title of the Government of Canada to certain lands and Indian lands,Chap.12,5 George V,I have to say that there is absolutely no correspondence in this Department,nor record of any action having been taken by the Province in connection with Water Powers as provided in the said sections.

(5) Enclosed herewith is the copy you request of the Proclamation of King George.

I cannot see that I can do anything further in connection with this case than what I have already pointed out but I shall be very pleased indeed to look further into the matter in any direction in which you may considerable desirable.

Yours very truly,

YUKON INDIANS QUITE PEACEFUL

SAYS TALK OF TRIBAL WAR IS EXAGGERATED

A. W. Vowell, Who Has Returned From Inspection Trip, Talks.

"The report comes from such a great distance that it is very probably highly exaggerated," said A. W. Vowell, superintendent of Indian affairs, when spoken to this morning about a report of two Indian tribes in the far interior of British Columbia having been on the warpath in the spring of 1907. The report, which was given by an Indian to a Hudson's Bay Company man quartered at Vermilion was to the effect that two Indian tribes, the Dog Ribs and the Sifiannis, had been spilling each other's blood somewhere near the confluence of the Nelson and Liard rivers.

"I am inclined to believe from this discription of the location of the alleged scrimmage that it is not in British Columbia at all," remarked Mr. Vowell, "but in the Peace River district."

Mr. Vowell has, himself, just returned from a tour of British Columbia and the Yukon in the interest of the Indian department, and he says the Indians through that vast tract of country seem to be far from belligerant. As far as he was concerned he hadn't heard a syllable of any trouble.

The Church of England has been carrying on a great work among the Indians in the great northern hinterland for many years, and the Indian department has decided to assist in giving the Indians an elementary education, and in protecting their hunting, fishing and land tenure rights against the unscrupulous sportsmen and land grabbers. There are only about 1,200 Indians in this vast country, who live a very nomadic life, principally subsisting on game and fish, though some now go to work in the mines, where they receive the same wages as the white men.

As a result of Mr. Vowell's report, it is probable that schools will be established at Carcross and Atlin, where the English church have established missions. The Atlin Indians may soon be given a reservation.

Mr. Vowell says that things are quiet in the north this year, with a better prospect for next spring. Nearly all the placer diggings are in the hands of companies, who are doing considerable work. Some quartz claims near Atlin are making a good showing.

tunately for the Laird man, he got hold of the butt end. He realized that here it was life or death, and, putting his finger to the trigger, he pulled. The shot took effect in the stomach of the Blind Creek fighter, but did not put him out of action. The rifle stood at some distance. Realizing that the shot gun was emptied by the discharge, Jonathan dashed desperately after the rifle.

Here the fleet foot and steady hand of Bob saved his life. The Laird man and the Blind Creek man raced over the blood-stained grass to the rifle. Bob won the race, and with it the prize of his life. Turning quickly, Bob lifted the rifle and pulled the trigger. One clear shot broke the otherwise stillness of the Pelly wilderness, and as the little cloud of smoke lifted from the end of the rifle, Blind Creek Jonathan, outcast, the man said to be possessed of a half witted mind, reeled and fell in his own blood, killed by his own rifle.

Laird Bob went back to his people, the Pelly tribe, and the people Blind Creek Jonathan, they who had ostracized him, took his body and buried it according to the tribal custom. Then Chief Ijutth, brother to Jonathan, a brother who had refused to tolerate his thieving brother and had helped to ostracize him and keep him an outcast, undertook a vengeance of his brother, and roused the Blind Creeks against the Pellys. They demanded from the Pellys the thousand blankets and the thirty rifles, but the Pellys were loyal to Bob, and refused. They were stubborn and declined, as they said, to be held up and robbed. It was then that war was threatened, and the Pellys, being on the defensive, appealed to the whites, and the whites brought the news to Dawson. The Pellys in the meantime induced the Blind Creeks to await a truce. The shortage of ammunition favored the truce, and perhaps after all the Blind Creeks were glad, and were hoping more to bluff the Pellys into disgorging the coveted plunder.

But in the meantime Captain Fitz Horrigan arrived. The steamer Pauline could land him no nearer than sixteen miles from the headquarters of the Pellys. He took a poling-boat the remainder of the distance, and with Poole Field, Dell Van Gorder, Purser John Raymond of the Pauline, Joe Cote and four prospectors, went to the Pelly camp. The Pellys delegated six men to meet the whites. Captain Horrigan, realizing the effect of display on the aborigines, was in full regimentals, and with his written documents and side arms. The Indians recognized in him the arbiter sent by the frontier power of the land, the mounted police, and with great respect heard his representations as made through Mr. Field, who acted as interpreter. The Pellys were willing for a settlement at once.

Then a search had to be made for the Blind Creeks. They were found after much inquiry, and a delegation was sent to meet the little party of whites. The Pellys had no representative present. Chief Ijutth was at the head of the hostile delegation. Austere, furrowed and old, but vigorous, the chief showed no gloved hand. He was dogged and surley in every action. He wanted the reprisals for the death of his brother. His people would not submit to murder without the customary compensation which all the Indians believe in; that of a life for a life or the equivalent in chattels. For an hour and a half Captain Horrigan reasoned through Indian Jake, the bright English-speaking Indian, the interpreter. Implacable and cunning, the old chief held out. Finally the blood of Fitz Horrigan, the Anglo-Saxon in the man, rose to assert itself. The prowess of the law should predominate. Horrigan returned from a few paces apart. The Indians, several of them armed, and ugly in their talk—talk which might have meant a massacre of the whites in the conference—talked excitedly.

Horrigan saw the time had arrived. All parley must cease. He drew his watch, slapped the table with his book, and said in stentorian tones that ten minutes would settle it. At the end of that time the chief would acquiesce in peace proposals or be seized and carried to prison.

The glowering countenance of the chief grew more grim. The interpreter urged on him peace. The chief listened. The other counsellors paced, and spoke ominously.

As the ten minute interval closed, the chief grunted, and spoke with a shrug. The interpreter turned, and said the chief would agree to peace.

It was done. The peace was agreed on immediately. The next day the good faith was shown by the two tribes being together in feast. The law of the white man had prevailed. War was averted, and no reprisals are to be demanded. Horrigan and the officers returned and the tribes of the Pelly are at peace.

PELLY INDIANS THREATEN WAR

LOVE, JEALOUSY AND MURDER CAUSE RIFT

Decisive Action of Captain Fitz Horrigan of R. N. M. P. Averts Bloodshed.

Dawson, Aug. 14.—War has been pending in Yukon territory for weeks and has been averted by the narrowest margin after the most strenuous efforts on the part of the Royal Northwest Mounted Police. The Indian tribes of the Pelly river have been threatening to exterminate one another, and only by the intervention of the police has one of the most sanguinary conflicts been escaped.

Captain Fitz Horrigan returned last evening from the Pelly river, where he acted as mediator between the hostile tribes known as the Blind Creeks and the Pellys. He had a difficult time getting the Blind Creeks to consent to settlement, and it was only by declaring that he would seize and carry off the chief and his counsellor to Dawson if a decision was not made in ten minutes that the captain was able to force an acquiescence on the part of the ringleader in the trouble.

The Blind Creeks had demanded that the Pellys deliver to the Bling Creeks one thousand blankets and thirty rifles, the Pellys deliver to the Blind Creeks would proceed in their attempt to exterminate the Pellys.

Through the mediation of some of the whites along the Pelly, the ultimatum on behalf of the Blind Creeks was deferred until the dispute could be referred to the police. Poole Field, who was instrumental in the steps for peace, arrived in Dawson four weeks ago, and kept his mission a secret, conveying it only to the police. As soon as possible the matter was taken up by the police, and a steamer dispatched up the Pelly with Captain Horrigan on board to act as arbitrator. The captain arrived just in time. The Blind Creeks were restless, and about to make a murderous raid on the other Indians. It is possible that had it not been for the shortage of ammunition among them, that the appeal to arms would have been made by the Blind Creeks before the arrival of Captain Horrigan.

Fifty to sixty warriors were mobilized on each side, and had the threatened war taken place, it is likely that a bitter conflict would have resulted in the wiping out of many if not nearly all of the men on both sides before police could be sent to interfere.

As it is, the Blind Creeks have given up their demand for the thousand blankets and the thirty rifles, and when Captain Fitz Horrigan left several days ago the two tribes had resumed amicable relations, and were having a reunion and feast together in a way that would put to shame many warring Christian factions. Immediately after agreeing to settle and be friends, the two tribes assembled and began feasting in token of their new bound troth.

The threatened war arose out of an incident no less interesting than the threatened war. In the story is a murder, committed last November, the intimation of love on behalf of the wife of one of the murdered men for the other, and the passions of jealousy, anger and all the deeper sentiments that sway the human heart from infatuation to sorrow from bereavement.

The matter originated, it seems, through a petty jealousy engendered by the wife of one of the tribesmen giving a pair of moccasins to another at the time of the death of her little son, and the husband of the woman who made the present saying she did it because she liked the man to whom she gave the moccasins. This led to a quarrel between the two men, resulting in the murder of the jealous husband by the man whom the jealous husband had attacked. The tribe of the murdered man took up the matter on being fomented into action by the chief, who happened to be a brother to the dead man. Then came the demand for the blankets and rifles, with the alternative of war.

Jonathan, an outcast of the tribe of the Blind Creeks, ostracized because he had been guilty of petty stealing, and thus bearing the awful curse inflicted by his people for his offence, is the murdered man.

Laird Bob is the man who did the murdering. Bob is a member of the tribe by birth. Jonathan had married into the Blind Creek tribe, but the inexorable law of the natives of the entire region decreed him an outcast when it was found he was a thief. He wandered alone, with only his own family, and sometimes not even with them. A year or two ago his little boy died, and Laird Bob showed his sympathy for the outcast, and helped him to bury his boy. Then the mother of the boy in gratitude, gave to Bob a pair of moccasins out of gratitude, if not with some touch of affection for Bob. Jonathan asked her why she gave the moccasins to Bob and her answer to her spouse was that she liked Bob. This kindled the flame of suspicion and the monster of jealousy in the breast of Jonathan, and he would not rest until he sought the blood of Bob.

Last November, on the beautiful banks of the Orkey river, Blind Creek Jonathan accosted Laird Bob, and endeavored there to wreck vengeance on the suspected destroyer of his domestic love. There the two strong sons of the forest, each in the vigor of physical manhood, faced one another and battled to the death. Jonathan was, from all that could be learned, the aggressor, and after a fierce hand-to-hand encounter, even Laird Bob had cried enough, refused to cease his attack, and declined to make peace, and cried in his wrath that he would not cease until he had killed his antagonist. Then Bob was forced to fight in his defence.

Jonathan had brought with him a shotgun and a rifle. Seizing the shotgun, Jonathan struck Bob over the head and gave him a scalp wound. In the first encounter Jonathan had bitten Bob severely on one finger. When Jonathan resorted to the gun and struck the blow, Bob, rallying from the stinging effects, grappled in desperation and reached for the weapon. For-

Sir:-

I have the honor to make the following report for your information re Indians on Nelson River.

On June 4th last B.G.Clark of the H.B.Co.,at Vermillion reported to me having met an Indian(Dog Rib)at Hay river Post,100 miles north of Vermillion on the Hay river,who had come on a hunting trip from the Laird river leaving there in the summer of 1907.and this Indiantold him that the Sikanni and Dog Rib Indians had been fighting during the early spring of 1907.

Ten men were killed and several wounded and he believed that more trouble would follow . The fight occurred where near the Laird and Nelson rivers join,and on the Nelson river.

This Indian also reported that a brother of the R.C. Mission was travelling on the Liard River in a Canoe alone.

His canoe,clothing and food were found,but that he was missing and could not be found;some of the Indians believed that he had been killed also.

The Indian who made this statement to Mr. Clark left at once to hunt back towards the Liard river and will reach there some time next Spring.

I have used every effort to get information on this matter,but without success. Two parties have arrived from Fort Smith on Slave River. They heard nothing of this report. I informed Mr Conroy the paymaster of treaty No 8 who was going to great Slave Lake during the Summer,and he promised to make enquiries at Fort Simpson at the mounth of the Liard river.

Sir—

In reply to your letter no. 338,440 of May 11th I beg to state that Mrs. Ann Cardinelle is a Treaty Indian. She and her Mother are now living at the Roman Catholic Mission at Peace River Crossing and are being supported there at the expense of the Department. They are well and comfortable.

Mrs Cardinelle's husband never took Treaty. He was in the Brandon Insane Asylum some years before Treaty was made in this district.

The Lot 13 which Mrs. Cardinelle refers to was a Lot of something over 300 acres on which the Cardinelles lived before Treaty was made and before

any survey was made.

The Cardinelles entered into some deal with Henry McConnaster whereby for a small consideration McConnaster secured about 160 acres of land now Lot 13. The remainder of the 300 acres was given by Pat. Cardinelle to his son who in turn sold it to one John Mott. Lot is now Lot 14.

When Treaty was made any person living on land not exceeding 160 acres was given that land as a "Free Grant" on making certain affidavits before the Commission and again before the surveyor when the land was surveyed. This McConnaster did without any opposition on the part of the Cardinelles.

I take it that a Treaty Indian has no right to a "Free Grant" other than his rights to land in a reserve.

P. C. 95.

Privy Council,
Canada.

Certified Copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 19th February, 1909.

On a memorandum dated 5th January, 1909, from the Superintendent general of Indian Affairs, stating that owing to the changed conditions which the gradual settlement of the Western Provinces, exclusive of British Columbia, has brought about in Indian Affairs it is advisable to rearrange and improve the system heretofore employed in the transaction of Indian business with a view to greater economy and efficiency;

That the organization in these Provinces consists of the Indian Commissioner's Office at Winnipeg, with a staff of Inspectors and local Agents. Formerly the whole volume of western business was handled by the Indian Commissioner's office, but since the year 1892 the work has gradually been centralized at Ottawa until so little authority and usefulness has remained to this office in Winnipeg that its continuance does not seem to be either a wise or necessary policy;

The Minister further states, in reference to these changed conditions, that a large number of Indians in remote districts have come under the direct administration of the Department owing to the gradual opening up of the country. During the last three years an area of over 200,000 square miles, comprised within the limits of Treaty No.10 and adhesions to Treaty No. 5 has been ceded to the Crown and an Indian population of about 6000 has been added to the number already provided for by Treaty. This large increase in ceded lands and population has rendered necessary the appointment of an additional inspector and with this appointment

and in order, as before stated to promote efficiency and economy, it seems desirable to reconsider the whole question of Indian organization in the Western Provinces and to establish some new and improved system.

The Minister therefore recommends as follows:-

The Honourable David Laird, Indian Commissioner, to be transferred to headquarters in an advisary capacity. Mr. Laird's long familiarity with Indian matters in the West will be of value to the Department in deciding questions regarding the general policy. Mr. E. Jean, at present Secretary to the Indian Commissioner, to be transferred to headquarters to assist in the general clerical work, which will be somewhat increased by the change. As, under this reconstruction, the necessity for the office of Assistant Indian Commissioner and Chief Inspector ceases, Mr. J.A.J. McKenna, the present holder of these offices, be relieved of his duties therefore and be appointed to the position of Inspector for Roman Catholic Schools.

Messrs. A. Betournay and H. Richardson to remain at Winnipeg until an opportunity arises for their transfer to some other branch of departmental work.

Miss E. Robson to be transferred to headquarters, where a vacancy in the clerical staff is pending. Miss M. Gordon and Mr. W. Ivey to be given three months' leave of absence with pay.

That the inspectoral districts be re-arranged as follows,- Mr. John Semmens to be transferred as Inspector for the North Lake Winnipeg Inspectorate (including the late adhesions to Treaty No. 5 referred to above) at a salary of $2200.00 per annum. Mr. S. Swinford to be transferred to the South Lake Winnipeg Inspectorate at a salary of $2200.00 per annum. Mr. S. J. Jackson to be appointed Inspector for the Lake Manitoba Inspectorate at a salary of $2200.00 per annum

The Minister observes that the proposed changes will make an immediate saving of about $3,000.00 and the prospective saving will be in the neighbourhood of $9000.00 per annum.

The Minister therefore recommends that the proposed changes be made, the necessary funds being available from existing Parliamentary appropriations.

The Committee submit the same for approval.

Sir:

Sometime before Mr Laird left for Ottawa he advised me that the Office of Assistant Indian Commissioner and Chief Inspector which I held had been abolished and that I had been appointed Inspector of Roman Catholic Schools for the same territory as was covered by my previous appointment.

May I ask if the Department purposes making any programme of work which I shall be particularly required to do during the summer season, or if it is desired that I shall make a visitation of the Roman Catholic Schools in such order as may appear to me best?

In either event I shall require funds for travelling expenses.

Sir,-

In reply to your letter of the 4th ultimo, I beg to send herewith a list of the Roman Catholic Schools which come under your inspection. It is not thought advisable that you should undertake an immediate continuous inspection of all these schools, but that you should during the summer inspect the schools east of Winnipeg and upon submitting your report await further instructions from the Department. As the object for which the Day, Boarding and Industrial Schools for the education of Indian youth have been established are wellknown to you, it will not be necessary to give you minute instructions as to your duties. The Department desires reports as to the actual condition of the Schools in every aspect of their work, financially and otherwise, and such recommendations as will conduce to improvement; where such should be made. You should not authorize any works or any changes in the management which would involve an increase in expenditure, but all such matters should form the subject of recommendation; and you should be careful not to give the Principals of Schools, or those interested in them, to understand that your reports will follow certain lines; that you should in fact leave the Department as free as possible to consider whatever recommendations you may see fit to make.

An accountable cheque for $150.00 is enclosed herewith to meet your actual reasonable expenses, for which you should account in the usual way.

Ottawa, July 6, 1909.

Sir,-

I have to acknowledge the receipt of your letter of the 28th ult., and in reply I beg to say that your present inspection should, as you were advised on the 22nd ult., be confined to the Roman Catholic schools east of Winnipeg, comprising those mentioned in your letter above referred to.

The Pine Creek Boarding School may also be included, as well as Sandy Bay, should your line of travel take you near it.

Upon receipt of your inspection reports on these schools further instructions will be given you, as you have already been informed.

The travelling bag and despatch bag asked for in your letter of the same date will be ordered through the Government Stationery Office, and you may purchase a fountain pen.

Sir:

I beg to say in reply to yours of the 2nd instant (344,441) That I was delayed in proceeding to make the inspections therein referred to by the necessity of prolonged and regular treatment by my dentist.

At the same time I would thank you for your kindness in complying by wire on the 6th instant with my request for leave of absence. When I made the application it seemed as if it would be necessary for me to go east, but, the urgency having passed, I decided not now to avail myself of your kindness, but to complete reports &c. in connection with my last trip and continue the work of inspection.

MAY 23 1910

I purpose inspecting the Boarding Schools at Touchwood Hills, Onion Lake, Duck Lake, and on Keeseekouses's Reserve, and would ask for any particular instructions you may have to give.

I interpertreted the authority given me in your letter of the 2nd June, last, to make inspections east of Winnipeg to apply only to boarding schools, and yours of the 6th July, last, (344,441) tended to confirm me in that view. The question arises now because I have been asked to visit the day school at Clear Water Lake, which is referred to in another connection in your letter to me of the 28th May, last, (343,039/4) And I would be pleased to be advised whether I may visit

It will not be necessary for you to visit the day school at Clear Water Lake, as a late report shows that this school is doing very satisfactory work. You will not be required to inspect any day schools, or the Lac la Plonge school of those in Treaty 8.

The Department has no particular instructions to give you as to your inspections, but it would like you to make a thorough inspection and give a full report on each school visited.

Though I have no desire to interfere in ~~the~~ a matter which might be considered outside the sphere of my duties, I venture to suggest that it would be much more convenient and, I think, more economical, if a clerk, who was a stenographer and typist, was engaged by the month to work for Mr. Semmens and myself.

Mr. Semmens is at present out of town. I have no doubt it would be quite agreeable to him to have a joint clerk. Much time and inconvenience is often occasioned in securing the services of a stenographer and typist when required, and there is much clerical work about an office which it is scarcely fair to expect the Inspectors themselves to attend to.

Sir:

The correspondence which yours of the 16th Dec., last, 328976/5, required me to have with the Principal of the Sandy Bay School has led to my being informed by him that he received early last month an official communication from Inspector Jackson informing him of "the new deal between the Church authorities and the Department with regard to the Indian Boarding Schools" Mr. Jackson also advised him that he had been instructed to inspect the school and report the conditions to the Department.

As you are aware, I have not been advised by the Department as to any new arrangement in respect to schools. Inspector Semmens has very kindly offered to let me read the correspondence and memoranda he has had from the Department in the matter, as well as the report he some weeks ago made, under instructions, upon the Fort Alexander School. While appreciating Mr. Semmens' goodness, I felt that I should not avail myself of the opportunity he offered of informing myself on a matter in regard to which it appeared the Department did not desire that I should be informed. Of course it is awakward when Churchmen have to be told by me that I know nothing about the things upon which they fancy I should be informed, and seek explanation of where my jurisdiction ends and that of the other Inspectors begins in respect to Catholic Indian Schools. But I try to make the best of it. And I do not desire this letter to be construed as a request for the information which has been withheld from me. I have simply written it to show that the

the Principal of the Sandy Bay School was evidently somewhat rattled at receiving communications from two Inspectors, and as Mr. Jackson had communicated to him the new arrangement, of which it was obvious I was in ignorance, he apparently thought that he would deal on his visit with the question of recouping the expenditure on buildings. He was also doubtless considerably surprised, as I gather, on learning that another Inspector was to inspect his school so soon after my inspection. Not that he or any other Principal would object to the most frequent inspections by the other Inspectors - indeed they would welcome it; but they appear to have got the impression that I was in charge.

Sir,

I have to acknowledge the receipt, of your letter of the 10th instant regarding the inspection of Roman Catholic schools in the Western Provinces.

In reply I beg to say that it would appear that you are under a misapprehension as to the nature of the inspection work called for by the Department from the agency inspectors. These officers are taking measurements and reporting only upon the accommodation in the way of space, methods of heating, ventilation, etc., having in view the requirements to obtain the per capita grants on the new scale. Had this work been delegated to you in so far as the Roman Catholic schools are concerned it would have been necessary for you to visit each of them within a short space of time, an arrangement which, owing to their scattered locations, would have been neither economical nor practicable. It was, therefore, deemed advisable to utilize the services of officers so situated that the work could be performed with expedience.

As to the new agreement with these schools I may say that information as to its nature was not withheld from you. For your instruction I beg to enclose herewith a copy of the agreement and explanatory memorandum.

In further explanation I would say that the specifications of school buildings in Class "A" are, it is thought, given with sufficient definiteness in the eight clauses of the

the memorandum. School buildings owned by the Government should, of course, conform to these specifications. Buildings owned by the Churches which will entitle the management to a grant of $100.00 should be sanitary, in a good state of repair, and conform to clauses 5, 6 and 8 of the specifications, that is -

"5. Hospital accommodation for the isolation of pupils "ill with infectious disease or tuberculosis."

"6. Modern system of vetilation in dormitories and "class rooms and sufficient air space in dormitories and "class rooms for the number of pupils accommodated."

"8. Sufficient area of land for farms and gardens and "practical industrial work."

You will readily understand what is required for hospital accommodation.. Two or three rooms in the main building or in a separate building should be available for this service, and they should be so situated as to provide for special cases of illness. They should have, if possible, a southern exposure and should be well lighted and properly ventilated.

You will see by the memorandum that at least 500 cubic feet for each child should be available in the dormitories and 250 cubic feet for each pupil in the class rooms.

A modern system of ventilation is called for, that is, the foul air must be taken from the floor of the rooms through a heated chimney stack or in some other effective way and arrangements must be made for the entrance of fresh air.

The provision of sufficient areas for farms and gardens only applies where agricultural work can be conducted; on reserves where the Indians can support themselves by

Sir,

Referring to the authority recently given you to inspect among other schools the Qu'Appelle Industrial Institution I have to ask you to be good enough when you visit this school to look carefully into the question of the sufficiency and efficiency of the staff in the class-room, industrial and farming departments.

Reference to the new agreement with boarding schools, which goes into effect from the first proximo, will show you that it is the intention of the Department to insist upon teachers and instructors being able to converse with the pupils in English and to speak and write the language fluently and to be generally fully qualified for the work in which they are engaged. It is also the intention to insist upon fully qualified staffs in the industrial schools and it is with this object in view that the Department asks you to report fully upon the staffs at the institutions of this class within your jurisdiction, Qu'Appelle and St. Joseph's, when you next visit them.

DEPARTMENT OF INDIAN AFFAIRS
FEB 13 1912

405123

Winnipeg, Manitoba,
February 6, 1912.

The Secretary
Department of Indian Affairs,
Ottawa.

Sir:-

I have yours of the 31st ult., in which you ask me to forward a statement of the Schools visited by me in the claendar year 1911, with dates of inspection. You say that I am aware that the Department desires that an itinerary of inspections should be laid out somewhat in advance. You add that no authority has been given me for the inspections made thus far in the year 1912, and that before going any further, it is desired that I shall at once submit the statement above asked for, together with a statement of the work which I consider should be undertaken between now and the Easter holidays.

In reply I have to say that I have not made any inspections so far in 1912. I had purposed inspecting before Easter the schools at Kenora, Fort Frances, and Fort Alexander, and possibly those at Sandy Bay and Pine Creek.

I was not aware that I was required to furnish each year in advance an itinerary of inspections.

On the 27th February 1909 I was advised in a letter from the Indian Cpmmissioner that the Indian Commissioner's Office at Winnipeg had been abolished; that the duties of the Assistant Commissioner had ceased;

and that I had been appointed Inspector of Roman Catholic Indian Schools in the territory over which I had had jurisdiction as Assistant Commissioner.

I naturally expected some more formal advice with instructions as to my new duties. I awaited until the 4th May, 1909, when I ventured to ask whether the Department proposed to lay out any work for me. On the 22nd June I was favored with a letter informing that it was not at the time thought necessary for me to make any general inspection of the schools under Roman Catholic auspices, but that I might inspect the schools East of Winnipeg. It was intimated that I was so well aware of the object for which the schools had been established that it was not necessary to give me instructions as to my duties. It was added, however, that the Department desired reports on every part of their work, with such recommendations as I might have to offer for their improvements.

On the 28th June I acknowledged that letter and asked if it was the intention to confine the work authorized to the Day Schools at St. Peters and the Boarding Schools at Fort Frances, Kenora and Fort Alexander, conducted under the auspices of the Catholic Church, as these were the only schools that appeared to be within my jurisdiction east of Winnipeg.

On the 6th July you replied that the Pine Creek Boarding School might be included, as well as that at Sand Bay if my line of travel should take me near it.

On the 25th August I asked for advice as to when the Department would require inspections of the schools farther West; and on the 6th October that letter was acknowledged, and I was informed that at some convenient time I might visit the boarding schools in Saskatchewan

with the exception of Lac la Plonge, and in Alberta with the exception of those in Treaty No. 8. My itinerary, it was added, would be left to my own discretion.

On December 12th I was asked to submit a statement showing visits between January 1st and the end of December, with dates of each visit, and I was requested to outline the work that I proposed to do during the first three months of 1911.

Illness prevented a prompt reply; but on the 13th February, last, I advised you that I kept no record of the inspections made by me, and pointed out that full information could be quickly and easily had from the Departmental Records. On the 18th of that month I was favored with an acknowledgment, and told that, in accordance with my suggestion, reference had been made to the records. As no further request was made for a statement of inspections I concluded that the desired information had been found ready at hand. I presume that its handy source was again overlooked when the request for a similar statement was made in yours of the 31st ult.

As each report of mine is received at the Department an entry is made in the Registry Branch, and a glance at the indexed Register in which each entry is made will show the inspections made by me during the calenday year. The only way that I could give you a statement would be to gather together the copies of my reports and make a list of them, then look up the copies of my expense accounts and diaries and make a statement showing the days I was at each school. And as I am not in a position to keep an elaborate record system, that would not be a very easy task, and when completed would not be as surely accurate as the Departmental records.

Sir,

I have to acknowledge the receipt of your letter of the 6th instant in reply to the Department's letter of the 31st ultimo in which you were asked to submit a statement showing the schools visited by you during the calendar year 1911, with the dates of inspection.

In reply I beg to say that this information cannot, as you state, be obtained from the registry books of the Department as the dates of inspection are not included in the entries.

In this connection I would draw your attention to the fact that in your report on the Muscowequans Boarding School no mention is made of the date of the inspection. The report is dated from Winnipeg or the 18th of January and the Department took it for granted that the inspection had been made immediately previous to that date. Hence the reference to inspections made during the current year.

In official letter of February 8, 1911, you were informed that it was thought advisable to outline your ~~in~~ itinerary of inspections for some months in advance; that, of course, had reference only to the year 1911. This is, however, the principle which the Department wishes and intends to follow.

The correspondence contained in the last part of page one, all of page two and nearly all of page three of your

Sir:

Your communication of March 5th., to Mr. McKenna regarding instructions as to his Official duties has been handed me by Mr. McKenna. I will refer you again to his letter of the 1st inst., in which he advised you that he was taking this matter up with me.

Your advice from here has been that I am taking as Chief Inspector, this whole matter up with the Minister, and until I get an Official letter from him on this question, I would ask you to be good enough to withhold any further instructions to my Inspector of Schools.

I am advising the Minister as fully as I can on the slim knowledge that I have been able to gather of the way of the Department, how best to utilize the Officials of the Department under the system that has been in vogue.

I find that this Department is more or less of a fetish, and that the work is being duplicated in every particular; that here and at Ottawa, one-half of the staff should be relegated to where they belong, and that is in my opinion outside of public service.

I am advising Mr. McKenna to do as I suggested pervious to the 1st of March, that is await the

MEMORANDUM:-
Mr. Pedley.

I beg to call your attention to a letter of the 12th instant hereunder, signed "Yours &c., Glen Campbell, per L.L."

In the Minister's letter to Mr. Campbell of the 15th of January, last, he was informed that it had been decided to create the position of Chief Inspector of Indian Agencies and Reserves and Inspectorates in Manitoba, Saskatchewan, Alberta and the North West Territories and that when Parliament creates the position and provides an appropriation for salary and expenses he would be recommended for appointment. Mr. Campbell was requested by the Minister to familiarize himself in the meantime with the duties of the proposed position and take up temporarily the work to be assigned to it; he was also told that in due course he would receive general instructions and special instructions from time to time. This is all the official information on file regarding Mr. Campbell's appointment and powers.

On the 15th ultimo Mr. McKenna, Inspector of Roman Catholic Indian Schools, was asked for certain information regarding his inspections, to which he replied that he had taken the opportunity of the presence of the Chief Inspector to refer the question of supplying the information required by the Department to him and that he was told by that gentleman that he was taking up with the Minister the whole question of school inspection and that until Mr. McKenna was further advised there was no need of his taking further action of the Department's instructions and that he might write the Department accordingly. On the 5th instant Mr. McKenna was informed that the Department required him to furnish the information above referred to and that until he was officially advised to the contrary he was to carry out all instructionsnsent him from headquarters. Instead of doing so he handed the Department's letter to Mr. Campbell, who again refers the Department to Mr. McKenna's letter x in which he stated that he was taking the matter up with the Chief Inspector and Mr. Campbell asks the Department to be good enough to withhold any further instructions to his inspector of schools until he receives an official letter from the Minister on the whole matter of school

school inspection.

Here we have Mr. Campbell advising an officer of the Department to ignore definite instructions and that officer acting on his advice. It would be well to have Mr. Campbell's duties and powers clearly defined so that there may be no clash of authority in future and in the meantime directions should be given as to how the position taken by Mr. McKenna is to be dealt with.

Mr. Campbell's letter deserves special treatment.

Sir,-

I am directed to acknowledge the receipt of your letter of the 12th instant, in which you refer to a communication from the Department to Mr. McKenna of the 5th instant, regarding instructions as to his official duties, and to say that it is obviously necessary that Mr. McKenna should comply with the instructions issued from here. Your statement that "I find that this De-" partment is more or less of a fetish, and that the work " is being duplicated in every particular; that here and " at Ottawa, one-half of the staff should be relegated to " where they belong, and that is in my opinion outside of " public service." is one which the Department regrets you made use of and would scarcely have believed it had it not appeared in one of your own letters. A statement so sweeping in its character, emanating as it does from one of the officers of the Department, should have for its foundation a long and mature experience in Departmental work, and, even then, would have to be accepted with considerable reservation.

The last paragraph of your letter, in which you say that: "If you want to know anything about his " movements during last season, all you have to do is to " look up the records each and everyone of them signed by " himself. " is entirely gratuitous. The Department

Sir:

Evidently some extent is taken to criticism of mind of the work of the Department.

I will answer that letter later on, meantime will give you another example of duplication of work which seems to me a waste of time and money.

Last year when the census was taken the H. B. Co., were employed by the Government to take the census of the Indians in the north and employed J. G. Stewart for that purpose. He went around before Treaty and took the name and all information necessary of every man, woman and child in the whole of the Norway House District. I understand this is the way the duplication of work comes in that during the winter the Agent of Norway House was ordered by someone in the Department to take the census of those same people. I may point out that in the winter time the Indians are scattered from Dan to Beersheba hunting throughout that north land, and a more unfortunate time to hope to get a proper idea of their numbers could not possibly be chosen. I only refer to this to show that this is another exampleof where there is what I claim a great waste of time and expense and duplication of work by absolutely unnecessary, and further refer to it only for the reason that I believe it would be in the interests

of the Department to do away with this kind of business.

To properly understand the body of this letter perhaps you might refer to a letter written me No. 344441 signed by the Secretary which I will answer at some length when I have a little time.

Meantime I beg to remain,

BRANCH

Ottawa, December 18th, 1912.

Sir:-

I would point out that the orders of His Royal Highness in Council, the 24th May and the 15th June, 1912, granting you an additional $1,400.00 during your employment as Special Commissioner to negotiate with the British Columbia Government have ceased to be operative, as your report has been received and approved by His Royal Highness in Council on the 27th November, last. It would appear that there is no authority for continuing the increased rate of pay or the special per diem allowance granted by the Order in Council of the 25th November, 1912.

I have to request, therefore, that you will return cheque No. 1399 for $326.67, for which another at your usual rate of pay will be substituted.

I regret that illness prevented my replying duly to yours of the 15th ultimo.

I have not a copy of the Order in Council by me, but I am quite sure your letter is the outcome of a misunderstanding. The Minister's memorandum when I took up the Wild Lands Reserve case makes it clear that my status as Special Commissioner continues. My report on the B.C. Agreement was an interim report. I have a further report to make, and am awaiting action by both Governments on the Agreement.

On the Minister's return I shall be pleased to discuss with him the question you raise.

His Royal Highness

The Governor General in Council.

With reference to the Order in Council of the 15th June 1912, fixing the salary of J.A.J. McKenna, LL.D., at the rate of $4000.00 a year during the time he was engaged as Special Commissioner to investigate claims put forth by and on behalf of the Indians of British Columbia, and also to the Order in Council of the 25th November, 1912, authorising the payment to him of $10.00 a day on account of living expenses while he was engaged as Special Commissioner, the undersigned begs to state that from the date of the acceptance of the agreement made by Dr. McKenna with the Premier of British Columbia, namely, the 27th November, 1912 until the 13th December 1912, Dr. McKenna was engaged in investigating the claims made by the Ontario Government to certain reserves comprised within the territory covered by Treaty No 3, in the Province of Ontario.

The undersigned has therefore the honour to recommend that authority be given for the continuance of Dr. McKenna's status as a Special Commissioner from the 27th November until the 13th December 1912,

INDIAN AFFAIRS:

The Board had under consideration a memorandum from the Superintendent General of Indian Affairs referring to the Order in Council of the 15th June, 1912, fixing the salary of J.A.J.McKenna, L.L.D., at the rate of $4,000.00 a year during the time he was engaged as Special Commissioner to investigate claims put forth by and on behalf of the Indians of British Columbia, and also to the Order in Council of the 25th November, 1912, authorizing the payment to him of $10.00 a day on account of living expenses while he was engaged as Special Commissioner.

The Superintendent General states that from the date of the acceptance of the agreement made by Dr. McKenna with the Premier of British Columbia, namely, the 27th November, 1912, until the 13th December, 1912, Dr. McKenna was engaged in investigating the claims made by the Ontario Government to certain reserves comprised within the Territory covered by Treaty No 3, in the Province of Ontario.

The Superintendent General therefore recommends that authority be given for the continuance of Dr.

Ottawa, 4th March, 1913.

Sir, Chq. Smith & Chq. for $145.93 & $212.33 respectively

I return cheques No. 5113 of the 29th January, for $145.93 and No. 5636 of the 25th February, for $212.33, both being described as being in account of salary. Neither was accompanied by letter explanatory of the difference between the amounts covered by the cheques and my salary as Special Commissioner. Accompanying the first cheque is an unsigned statement of the calculation by which the amount of the first cheque was arrived at.

There must be some misunderstanding. My commission still continues. I am here in connection with the Commission. Since my interim report I have made oral reports and have had conferences on the British Columbia Indian Land Question with the Right Honourable the Prime Minister and other Ministers.

From the 27th November to the 13th December last, I was engaged on the Treaty Three Indian Reserve Question. A special Order-in-Council was passed authorizing my payment from the N.W. Vote during that time. That constituted simply a break in my payment from the B.C. Vote as Special Commissioner. It did not end my Commission.

I shall, therefore, be thankful to receive in due course a cheque for my remuneration at the rate fixed by the Order-in-Council appointing me Special Commissioner in lieu of the cheques herewith returned.

J. A. McKenna

Sir,-

In reply to your letter of 4th March which enclosed two official cheques of this Department, I have to say that you appear to have lost sight of letter of December 18th 1912, which apprized you of the reason for discontinuing your special payments ~~and of~~ under the orders In Council quoted. The Superintendent General took the view that your duties ~~under the order In Council~~ as present Commissioner had ceased with the acceptance of the report.

Ottawa, 5th April, 1913.

434:13

Sir:-

I beg to direct the Department's attention to the fact that I have been without salary or advance for expenses since the 13th December last.

On the 18th December you addressed me a letter saying that "it would appear there is no authority for continuing the increased rate of pay or the per diem special allowance for living expenses" and asking me to return the monthly salary cheque last sent me for $326.67, for which it was intimated that another at my "usual rate of pay" would be substituted.

I did not return the cheque. I wrote that there must have been a misunderstanding as the Minister's memorandum when I took up the Wild Lands Reserve Case made it clear that my status as Commissioner continued. When I was asked to take up that case I stipulated that my doing so should not interfere with my status as Commissioner, not that such status should merely be continued until I had reported in that matter.

The Minister was absent when I wrote you, but I intimated that I desired opportunity of further discussing the question on its submission to him.

I heard no more on the subject until early in March when, with an unsigned statement, came two cheques, one being for $145.93 on account of January salary and one for $212.33 as salary for February.

The Secretary,
Department of Indian Affairs,
Ottawa.

I

Indian Affairs. (RG 10, Volume 4044, file 344,441)

I returned the cheque with a letter dated the 4th of March, in which I pointed out that my Commission still continued; that I was here in connection with the Commission; and that during the time for which I was being refused Commissioner's pay I had made oral reports [redacted] and I had had conferences on the British Columbia Indian question with the Right Honourable the Prime Minister and others [redacted]. I drew attention to the fact that the Order-in-Council passed authorizing my payment from the N.W. Vote while engaged in the Treaty Three matter was simply a break in my payment from the B.C. Vote. It did not end my Commission.

No consideration appears to have been given to that letter. It was simply acknowledged in a brief note referring me to the letter of the 18th December. I was addressed as Inspector of Roman Catholic Indian Schools, though as such Inspector there was no reason for my being here. But it is well known that I have been held here in connection with the important B.C. business entrusted to me under Royal Commission.

To make my position clearer permit me to go back a bit.

When I was selected as the special representative of the Dominion Government to negotiate with the B.C. Government a settlement of the Indian Reserve Question, I was told by the then Minister to resign the Inspectorship synchronously with my appointment to the B.C. Commissionership. I did so; but when the letter of resignation came to the Treasury Board with the recommendation of appointment, the Deputy Minister

Indian Affairs. (RG 10, Volume 4044, file 344,441)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

Minister of Finance sent for me and, raising the point that the bald resignation might be held to determine my rights under the Superannuation Act, suggested that I write a letter in such a form as would evidence no break in employment. I did so. I was relieved of the duties of Inspector and appointed Commissioner.

The Order of His Royal Highness in Council did not grant me "an additional $1400.00 during" "employment as Special Commissioner", as stated in your letter of the 18th December last, but fixed a "salary at the rate of $4000.00 per annum". I quote from the copy of the said Order attached to the Royal Commission with which I have been honoured. Moreover the whole of the salary was paid from the B.C. Vote, and upon that salary my superannuation abatements were made without hesitation until the recent move to destroy my status as Commissioner.

I am sure that if I had been given opportunity, as desired in my letter to you of the 2nd January last, of presenting my case when submission was being made to the Minister the misunderstanding from which I suffer would not have occurred and I therefore respectfully press for reconsideration.

As you are aware, I have been appointed by Order-in-Council of the 31st ultimo a member of the Joint Commission provided for in Agreement respecting Indian Lands and Affairs in B.C.. I expect very soon to leave on the important work of the Commission, in connection with which, as Special Commissioner, I have been held here. The withholding of pay has much embarrassed

embarrassed me, and to admit of my winding up my affairs here in time for my leaving it is necessary that I should be promptly put in funds. Therefore I beg for earliest possible attention to this communication.

My Dear Mr. Scott;-

I have suggestions from time to time from Inspectors that they have not the authority to inspect our Roman Catholic schools in their districts. Take for instance In Mr. Semmens Inspectorate the schools at Kenora and Fort Frances have not been visited for years for purposes of inspection, and at Pine Creek in Mr. Jackson's Inspectorate the same state of affairs occurs. Would it not been well to have our Inspectors in their rounds thoroughly inspect and report on all those schools at least once a year. This matter is to-day brought to my attention by a delegation from Pine Creek who are finding great fault with the methods under which the school is run by the Church, as also by conversations I have had with the various Inspectors. I may say that the Pine Creek Indians are anxious to have a Day school established within the confines of the reserve properly equipped and with proper teachers.

Yours with regards,

I have your note of the 18th. instant with reference to the inspection of Roman Catholic schools. Sir,-

Mr. J. A. J. McKenna, LL.D., having been appointed to the Royal Commission on Indian Affairs for the province of British Columbia, will be unable to carry on his work as inspector of Roman Catholic Indian Schools for sometime, as his absence in British Columbia may be somewhat protracted. I have, therefore, to request that you will visit the Roman Catholic schools in your inspectorate and report thereon. As some of these schools have not been inspected for sometime, you may make a special visit for this purpose to the boarding and industrial schools. The day schools may be visited whenever other business may call you to the reserves in which they are situat ed.

This morning, by request, I discussed with the Honourable the Minister of Justice the proposal to allow Dr. J. A. J. The Minister requested me to ask your Department for an opinion on the legal position. Dear Sir,-

Referring to your letter of 20th instant, submitting copy of a recommendation to Council of 28th April last, by the Superintendent General of Indian Affairs, in the case of Dr J.A.J. McKenna, whereby it is in effect proposed that Mr. McKenna shall be entitled to contribute to the superannuation fund and to superannuation benefits upon the salary of $4000.00 per annum, of which he is at present in receipt as one of the British Columbia Indian Commissioners, I regret that I am unable to advise that this project is authorized by statute.

Dr McKenna in his capacity as Indian Commissioner is not a member of the Civil Service as defined for the purposes of Part I of the Civil Service Superannuation and Retirement Act. He is merely executing a special commission under the Crown, and the services are temporary. I do not think therefore that Dr McKenna is legally entitled to avail himself of the temporary increase of salary which he enjoys for purposes of deductions or benefits under the statute.

Yours very truly,

Deputy Minister of Justice.

My dear McLean,-

The Royal Commission will complete its final report this week. When the report is sent I take it that the Commission is dissolved automatically. We should pay Mr. White and Mr. Carmichael until they reach their respective homes. The pay of Messrs. Shaw and McDowall will cease also. Dr. McKenna will have to remain at Victoria for a while, but until we make some definite arrangement as to his future salary, he will have to go back to the old rate, namely- $2,800.00 a year. ($2600)

Very likely Mr. White will call to see you when he passes through Ottawa.

I thought I would drop you a line on this subject so that there may be no uncertainty about the financial arrangements.

I am going to Prince Rupert by the night boat, and expect to get home the last week in July.

Dear Mr. Scott,

On going into the matter, I found that, through what is doubtless a clerical error, my allowance under the Superannuation Act has been miscalculated.

The date of my permanent appointment was 1st July, 1887. On the 30th June, 1917, thirty years of permanent service will have been ended. The Superannuation Act provides that, in computing the number of years of service, a fraction of a year " if equal to or greater than one-half shall be counted as a full year's service". (Subsection 2, Section 11).

By Minute of the Treasury Board of the 4th January last, approved by His Excellency the Governor General in Council on the 8th of that month, the office of Inspector of Roman Catholic Indian Schools, which I filled, was " abolished from the 1st of April, 1917".

By the same Minute I was given leave of absence for three months from 1st January, 1917, and placed on the Retired List on the expiration of that period.

Duncan C. Scott, Esq (Continued).

Now, at the date of my retirement, I ~~will~~ shall have been in the permanent service twenty-nine years and nine months or, for the purpose of superannuation, thirty years.

If it be contended that the actual period of service terminated on the 1st of January, the date from which I was granted the leave of absence, my period of actual service at that date was just equal to one-half of the thirtieth year, and I am, therefore, entitled, under the law, to an allowance based upon the thirty years' service.

The aforesaid minute, however, bases my allowance on a service of twenty-nine years and fixes the allowance consequently at $1,508.00 per annum. I would ask you to take action to have the mistake corrected and the allowance based upon thirty years' service and therefore made $1,560.00 a year.

Yours faithfully,

McK/S

Ottawa, 21st March 1917

Mr Paget.

As requested, I have looked into the matter of "Superannuation Allowance" to Mr J. A. J. McKenna, and find that there has been an error in calculating the same.

The data of his appointments are briefly as follows:-

By O.C. of 3rd January 1887 - he was appointed a Third Class Clerk in the Privy Council at a salary of Four Hundred and Fifty Dollars from 1st July 1887 - but was transferred to Dept. of Indian Affairs on 28th November of same year - from which date the term of service was calculated in mistake - no entry having been made of his previous service in the Privy Council.

Mr Blair acknowleges the mistake and wishes this Dept. to write a letter asking to have the O.C. of 4th January 1917 amended so as to allow thirty years instead of twenty-nine years.

Dear Sir,-

I have to draw your attention to a recommendation to His Excellency in Council of the 20th December last for the superannuation of Dr. J.A. J. McKenna from the 1st April, 1917, with an allowance of $1560.00 per annum, on the basis of a salary of $2600.00 and thirty years' service, Dr. McKenna having been permanently appointed to the service on the 1st July, 1887; so that he had completed twenty-nine years and nine months of service on the 1st of April last.

The Order in Council of 8th January, 1917, which followed the above mentioned recommendation provided, however, for Dr. McKenna's superannuation on a basis of only twenty-nine years instead of thirty, allowing him only $1508.00 instead of $1560.00 per annum.

It seems that in passing the above mentioned O.C. Dr. McKenna's services were taken into account only

only from the time he came to the Department of Indian Affairs from the Privy Council Office, namely 28th of November 1867, the period from 1st July 1887 to that time having been overlooked.

Dear Dr. McKenna,-

I have your letter of 28th ultimo requesting information as to the commissions on which you served within the purview of this Department. I regret that there has been some unavoidable delay in getting the figures desired.

You served as a Commissioner in connection with treaties Nos.8 and 3 and the Royal Commission on Indian Affairs for the province of British Columbia.

By Order in Council of 27th June, 1898, you were named as one of the Commissioners to negotiate the Treaty with the Indians of the Provisional District of Athabasca and such of the country adjacent thereto as it might be deemed expedient to include in the Treaty. A commission was issued to you on the 5th April, 1899, and under authority of Order in Council of 5th July, 1899, you were paid, in addition to your regular salary of $2000.00 a year, extra salary amounting to $744.00 from 22nd May, to 22nd September, 1899, for your work as Commissioner. (124 days at $6.00 a day)

By Order in Council of 22nd May, 1912, you were appointed as Special Commissioner to investigate claims to be put forth by and on behalf of the Indians of British Columbia. For this service you were paid, in addition to your regular salary of $2600.00 a year, extra salary amounting to $805.01 from 1st May, 1912, until 27th November, 1912, and $10.00 a day living allowance.

Under authority of Order in Council of 25th January, 1913, your services were continued as Special Commissioner to investigate the claims made by the Ontario Government to certain reserves comprised within the territory covered by Treaty No.3 in the province of Ontario, for which service, in addition to your regular salary of $2600.00 a year, you were paid $60.61 extra salary from 28th November to 13th December, 1912, and a living allowance of $10.00 a day.

By Order in Council of 31st March, 1913, you were appointed on behalf of the Dominion as one of the members of the Royal Commission on Indian Affairs for the province of British Columbia, and for this service, from the 31st March

Memorandum, Hon. Arthur Meighen,-

With reference to Dr.McKenna's letters of 15th ultimo requesting better terms as regards his superannuation allowance, I may review his case as follows,-

Dr.McKenna, whose salary as Inspector of Roman Catholic Indian Schools was $2600.00 a year, was a contributor to the Superannuation Fund under Part 1 of the Civil Service Superannuation and Retirement Act, on the basis of his salary at that rate. He desired that his contributions should be made on the basis of his salary of $4000.00 ($2600.00+$1400.00) as one of the B.C.Commissioners. An O.C. of 15th June, 1912, provided that during the time in which Dr.McKenna would be engaged as Commissioner he be relieved of his duties as Inspector of B.C.Indian Schools and that the salary of $4000.00 provided for him as Commissioner should be understood to include his salary of $2600.00 as Inspector of B.C.Schools and an additional $1400.00.

On the 28th April, 1914, a memorandum was sent to Council recommending as follows,- "The undersigned has the honour to recommend that, as Dr.J.A.J.McKenna, who is a contributor to the Superannuation Fund under Part 1 of the Civil Service Superannuation and Retirement Act, has been paid salary at the rate of $4000.00 a year since 31st March, 1913, as a member of the Royal Commission on Indian Affairs for the Province of British Columbia, the deductions referred to in Section 17 of the said Act be made from his whole salary of $4000.00 a year from the said date during the term of his service on the said Commission." This recommendation was returned from the Treasury Board with a letter of 19th May, 1914, from the Secretary of the Board advising the Department that "The Board are unable to submit the memorandum for the favourable consideration of Council." Upon this action being taken by the Board a copy of the above mentioned recommendation to Council was submitted on the 20th November, 1914, to the Deputy Minister of Justice for an opinion on the legal aspect of the case. On the 26th of the same month Mr. Newcombe replied that he was unable to advise that this

project

project was authorized by Statute. He gave his opinion as follows,- "Dr.McKenna in his capacity as Indian Commissioner is not a member of the Civil Service as defined for the purposes of Part 1 of the Civil Service Superannuation and Retirement Act. He is merely executing a special commission under the Crown, and the services are temporary. I do not think therefore that Dr.McKenna is legally entitled to avail himself of the temporary increase of salary which he enjoys for purposes of deductions or benefits under the Statute."

With a view to any possible improvement being made in Dr.McKenna's position in the matter, I have had the case looked into sympathetically but I find that in so far as my purview extends I am unable to have the case reopened by the Board in view of thelegal opinion of the Justice Department.

I observe that Dr.McKenna at the close of his letter suggests that years might be added to his service. This may be done under Section 15 of the Civil Service Superannuation and Retirement Act. When he was superannuated it was on the basis of thirty years of service: so that, to give him the full period of thirty-five years, it would be necessary to add five years. The privileges of this Section are now infrequently applied but I am quite prepared to make the recommendation to Council if you so direct. I return Dr.McKenna's letter herewith, and also his further letter of January 24th.

DR. J. A. M'KENNA DIES AT VICTORIA

Closely Connected With Administration of Indian Affairs in Canada.

VICTORIA, May 31.—Dr. J. A. J. McKenna died suddenly last evening. He was born at Charlottetown, P. E. I., in 1862, and leaves a widow, two sons and five daughters.

Dr. McKenna entered the Dominion public service in 1886 and was, for a time, private secretary to Sir John A. Macdonald. Jointly with T. G. Rothwell, he effected, in 1897, a settlement with the Government of British Columbia for the administration of Railway Belt lands. Two years later he concluded a treaty with the Indians of the Athabaska and Peace River country, under which the Indians surrendered their lands to the crown, and in 1906 he concluded a similar treaty with the Indians in the Churchill River country. He was assistant Indian commissioner for a time and later inspector of Indian Catholic schools in the prairie provinces and Northwest Territories. He was a member of the joint provincial and Dominion commission which a few years ago investigated the Indian question in British Columbia, and, since the completion of that work, has been living in Victoria.

Sir,-

It is with regret that I have to report the death of J.A.J.McKenna, Esq. LL.D., which took place on the evening of the 30th, ultimo from heart disease. He had called at my office in the afternoon to see me but I was out of town. Upon arriving at my office on the morning of the 31st, the City Police Department phoned me to say that an unknown man had died in the ambulance the evening before and it was thought that it was Dr. McKenna and asked if I would go to the Undertaking Parlors to make sure. There were no papers on the body. It therefore became my painful duty to identify the remains and also to notify the family of the sad occurrence. It appears that the Doctor, after leaving my office, went up town and met a friend to whom he complained that he was not feeling well and had pains in the vicinty of his heart. The friend took him up to his room and gave him a stimulant but after talking for about an hour he fell off the chair and the ambulance was called but he expired in the vehicle before medical aid could be rendered.

I beg to inform you that Dr.J.A.J.McKenna, formerly in the employ of this Department, and who was superannuated on the 8th of January, 1917, died on the 30th of May, 1919. From a communication recently received from his widow, it appears that she lately received some superannuation forms from your Department, and this has lead her to suppose that she had some further claim on the Government.

Dear Sir:-

In reply to your letter of the 6th instant, re superannuation allowance of the late Dr. J.A.J. McKenna, who died on the 30th May, 1919, I beg to say that this Department has never been advised of his death, consequently his name still appears on our books as drawing superannuation, and forms were sent to his address for the fiscal year beginning April, 1920-1921.

It is the practice of the Government to pay the superannuation allowance for the full month only in which the official died. I find on enquiry that thelate Dr. McKenna had drawn his allowance for the month of May, 1919, so I regret to say there is nothing further due the estate of the deceased for the month of May, 1919.

A note has been made of Dr. J.A.J. McKenna's death, and as to the forms of superannuation in Mrs. McKenna's possession they may be destroyed.

MEMORANDUM

Hon. Dr. Roche -

I have read the letter from Mrs. J. A. J. McKenna addressed to the Rt. Hon. the Prime Minister. This is a painful subject and I may say that it was only out of consideration for Mrs. McKenna's position and the position of the children, that we were led to postpone action ~~at all.~~ from time to time

Looking back over the past I think it may be said that Dr. McKenna received very full consideration from the different governments of this country. Since his appointment he has had greater opportunity of proving his worth as a public officer than a great many persons of equal ability, and it is only owing to his unfortunate habits that in the end he finds himself superannuated. Of course it would not be pleasant for me to put on record any of the things which are known to us both, with reference to his conduct of late, particularly during his appointment

as one of the commissioners on B. C. Indian Affairs.

As for the unfortunate position in which Mrs. McKenna finds herself now, I can only say that if there had been a proper husbanding of his personal revenue since his appointment as commissioner, their position would now be different. From the date of his appointment in 1913 up to the end of June 1916 he drew nearly $25,000.00, or to be exact $24,870.76. For the three full years he was employed he received about $7,650.00 a year.

As you are aware we had plans for his future which were extremely considerate, but his unfortunate habits rendered them nugatory.

Clear the Way for Development

By J. A. J. McKENNA

The railway belt docket should be taken out of the better terms basket and put in the Indian. The belt with its Peace River appanage can be best administered here. That has been proved as to the water; and it is equally true of everything else in the belt. The reversion in Indian reserves is an obstacle to development. It blocks the way to increased production. It can't be got over. It must be removed. Swap them and the way will be cleared. Hon. Mr. Pattullo's proposed legislation for compelling production from idle crown-granted lands will have a province-wide field for operation. No cause will remain for Ottawa not carrying out as liberal and progressive an Indian policy here as is applied beyond the mountains.

In a previous article I said in reference to the belt, that were the terms of union being framed in the light of today there would be no transfer of provincial resources to the Dominion. Of the reversion the same is true. They are both the results of effete secret diplomacy. They are as undemocratic as they are alien to our constitutional system. There is a fairly complete record of the conception and birth of the reversion scheme. It's interesting but prolix. I'll just give the gist of it.

The terms of union bound the Dominion to an Indian policy as liberal as that of the colony, and British Columbia to set aside for Indians tracts of land "of such extent" as had been "the practice" here hitherto. That was absurdly easy for the government, but rough on the Indians. The policy and practice here had left them to the operation of the law of the survival of the fittest, pretty well unhampered by anything but the requirements of the public peace and the needs of the revenue. It may have been wise. It was certainly inexpensive. But it offended philanthropy, and there had to be amendment. Ottawa wanted a specific understanding as to acreage and pressed for eighty acres per family. Victoria pulled up from six to twenty. The negotiators seemed to be reaching an impasse when the famous Indian missionary, William Duncan, appeared, put a stop to the discussion about a basis of acreage; and the weary statesmen seized with avidity his suggestion that such tracts as the Indian groups wanted should be set aside for them, to be added to when required or diminished where population decreased. They were too tired to see that it hobbled Indian administration. The Indians got a mere usufruct. The beneficial interest was shattered. Neither the lands nor the valuables thereon or thereunder could be disposed of for their benefit. The clauses of the Indian Act intended to make worthy Indians freeholders, could not be put into operation for title to their individual holdings could not be given.

An agreement was made a few years ago to get rid of the obstruction. Under it a joint commission was appointed to finally determine the additional lands required for the Indians and to indicate what portions of present reserves were not required, these portions to be cut off, subdivided, and disposed of by public auction, half the proceeds to go to the Dominion for the Indians and half to the province. But the agreement makes it a sine qua non of diminishment that the Indians' consent thereto "as required by the Indian Act." The commission found that lands aggregating 87,291 acres should be granted as additonal reserves and as enlargements of those already constituted, and that certain of these reserves might be reduced to the extent in all of 47,058.49. Needless to say it will be very difficult to get the required consent of the Indians. To press for it might inflame a condition now happily quiescent. And as the nation is now circumstanced that would be obviously impolitic. Letting the existing reserves remain unreduced, with the recommended additions, the per capita acreage of the British Columbia Indians would only be increased some three acres and would be still less than one-third of the per capita allotment of the prairie Indians.

My proposal is that the province relinquish its reversionary interest in Indian reserves, convey to the Dominion for the Indians the lands recommended to be set aside as additional reservations, and forego the suggested cut-offs; and that the Dominion, in consideration therefore, recede to the province (1) the railway belt and Peace River block, (2) carry out as liberal, progressive and practical an Indian policy in British Columbia as is being or may be carried out in the prairie provinces, (3) administer the timber on reserves for the benefit of the Indians on the lines of the timber laws of the province, with proper safeguards, (4) provide for the opening up and development of mineral lands within Indian reserves by regulations that would assure uniformity of practice by being on the lines of the provincial laws, with the additional requirements that before entering upon an Indian reserve a prospector should obtain a permit from the Indian agent for the locality and that consent of the Indians should precede alienation, (5) provide for the disposal with the consent of and for the benefit of the Indians of any lands they can not use to advantage, and (6) so amend the Indian Act that, during the continuance of the war and for one year thereafter, and land or resources not being made productive use of by the Indians and which they refuse to surrender for development may without their consent be rented or lease, the rental or payments to go to the Indian owner or owners of such land or resources.

From a local standpoint that would be a bargain decidedly in the interest of the province; it would be so distinctly in the general interest as to justify generosity on the part of the Dominion. And the premiers of the Atlantic provinces could not object on the ground on which they have objected to the transfer to the prairie provinces of their natural resources.

Hon. Mr. Meighen.

I beg to draw your attention to an article published by Dr. J. A. J. McKenna, who was formerly an official of this Department, but was superannuated about a year ago; this article appeared in the " Daily Province, " of Vancouver, B.C., under date of Monday, February 25, 1918.

Dr. McKenna was one of the Commissioners appointed to adjust the Indian reserves with the British Columbia Government. You will, no doubt, remember this Commission and the criticism that it received. The report is still before the two governments.

To my mind, it is objectionable for Dr. McKenna to write such an article as this, in which he makes proposals which are at variance to the report made by the Commission, of which he was a member, and sets up other proposals. He supplies reasons why the

Provincial Government should not carry out the terms of the Commission's report, and substitutes a proposal that the Province would relinquish its reversionary interest in Indian reserves, and that the Dominion should hand back the Railway Belt and the Peace River block. I have marked with a blue pencil, in the margin, that portion of the letter in which he makes his alternative proposals; I cannot think that they are in the interests of the Dominion or of the Indians, and am strongly of the opinion that a superannuated Indian official should not communicate on such controversial matters as the Indian question in British Columbia through the provincial public press, particularly as it is always in a more or less acute stage.

Dear Mrs.McKenna,-

I received your letter of the 29th March, and have since given it earnest attention. Whenever the matter of your husband's superannuation status was referred to me, I made as favourable a report as possible, but the Government would not agree to add to his salary the amount that he was specially drawing as Commissioner. You are in the unfortunate position now that all Civil Servants are in who were under the old superannuation system. The allowance lapses with the life of the recipient and his family has no further claim to it. This is not as it should be, but such is the law. If the matter is referred to me again, I will certainly do all I can in your interests.

I note with pleasure that your son Vincent is now attending Toronto University.

We have had a severe winter in the east, and spring seems very slow in coming.

With kind regards, I am

Yours sincerely,

Dear Madam:

The Prime Minister duly received your letter of the 28th of July, appealing for a more generous recognition of the services of your late husband as Indian Commissioner, which you suggest might well be arranged on compassionate grounds.

Mr. Mackenzie King desires me to let you know that he has noted your representations in this connection, and will seek an early opportunity of discussing them with his colleague, the Honourable Charles Stewart, Superintendent General of Indian Affairs.

Dear Premier Kiup

Now that the Civil Servants' Widows' Annuities' Act is coming into force - it should be an opportune time to help to make up, to some extent, for the poor recognition already given for the unvaluable executive services of a lifetime - my late lamented husband, the Rev. J. A. J. McKenna, Indian Commissioner - accepted under protest, his super-annuation allowance considering it calculated on an unfair basis - At any rate, it could have been made more generous, for compassionate reasons, as were those of a widow - despite possibility of different political persuasions -

I have often felt I owe, tax in my duty towards his memory & to our dear family of three sons, & five daughters, who have to struggle to make an honest living, and to keep a home in each; in not making an appeal to your sense of justice, that some substantial recognition - a reward for long years of faithful, trying, & exceptionally

Dear Mr. Scott.-

I assure you. Your information as to the Civil Servants Widows Annuities act- is most welcome. I only hope the method of calculation may be along more generous and compassionate lines than were those of the Super-annuation allowance given my late lamented husband, and of which he complained considerably. However, every little helps, in a home like ours, & one we all cherish, and try to keep in tact.

It is very kind of you to go to the trouble of getting my marriage certificate from St Joseph's Church, & I so to expedite matters. I send the Certificate of death as required, besides the application forms filled in as directed.

Thanking you

Dear Mrs. McKenna,-

I have to acknowledge your letter of July 28th with enclosures. We have sent the papers to the Department of Finance and I hope it will not be long before the matter is adjusted. The amount of your allowance will be one-quarter of your husband's Superannuation. This proportion is fixed by law and we cannot vary the amount. While the amount may seem small, as you say, "every little helps" and upon the whole the measure adopted will bring considerable relief to very many widows of old Civil Servants.

Sir,

I have the honour to submit a special report on affairs on this reserve, for reasons that will appear in the sequel.

Charles Dowan #73 of Oak River, band, Reserve # 58, holds the somewhat unique position of being a member of the band, and yet not residing on the reserve. So far as I can learn at present, he occupies (and says he owns and has the deeds) of the N. W. ¼ sec 5, Tp. 11, R. 22, W. I. M,) which is 2 miles from the N. East angle of this Oak River reserve # 58, and has lived there for several years.

He likewise claims, and at a former time, p partially worked or tilled subdivision I and II in Sec. # 34 Tp. 10 R. 23, that is the N. W. corner sec. of this reserve but, he has not worked these subdivisions or any part of them since my induction here as Agent.

Moreover in my Agency report of last February I referred to a demand made by a number of young men on this reserve for land on which to reside and to cultivate and call their own. This demand was met at the time by some old men giving up lands they claimed, one among them being the said Charles Dowan, who gave up Subdivision I and II on sec. 34 as above. These subdivisions I then and there gave to John Wabidi # 66 of this reserve, an ex pupil of the Brandon Industrial School, and who had only 40 acres. These 40 acres I got for him last year, and he broke them during the summer.

After John Wabidi had finished seeding, these 40 acres this year, he began to to break his newly acquired subdivision #2 and by July 15th had 22 acres broken.

Then Charles Dowan appeared, claimed the land, and camped on this same subdivision; he easily disturbed Wabidi by using threatening language against him.

PUBLIC ARCHIVES

346820

As soon as I learned the state of affairs between them, I visited the camp, and inquired from Dowan what he meant by his conduct.

He replied by saying , he never gave up the land, the land was his and had been his for many years, and further he was going to keep it; if theinterpreter said he gave up the land, he lied;- neither would he leave it to the Department to decide the matter.

I explained that whatever rights he held would be respected by the Department; but he must always bear it in mind, that no Indian could hold lands, until said lands were allotted to him, by the Department, and this allotting would likely require first, a resurvey, and a fair redistribution of the reserve; further I would report his view and opinions to the Department,- but he must prepare himself to accept and abide by the Department's decision.

I have therefore the honour to kindly request that I be informed as to the exact position of this Indian Charles Dowan #73 oak River band, and what his rights are to the land he occupies. It would be both unfair and unjust if he owns no lands, to take away his reserve lands that he formerly worked and cultivated for years. Then John Wabidi should receive compensation for his 22 acres of breaking.

Any assistance conveyed to me by the Department will be duly appreciated.

I have the honour to be, Sir,

Dear Sir:-

Regarding the communications enclosed re the request of the Cheif Baptiste Logan requesting the removal of this man Harris from the reserve,the Chief's reasons,however incredible they may appear to you,are,I,believe true and well taken.Numbers of these people have brought this matter to my attention,and the Band to a man believes and maintains that this man Nichols was murdered by Isaac Harris.The reasons for this general belief,I believe are:-

The appearance of the body after death,and the marks of violence visible;the conversation of the doctors at the inquest overheard by the indians;Harris' son riding to the head of Okanagan Lake to inform Nichols' father of his son's death,and openly charging his father with Nichols' death,stating that a white man,one Thomas Clark,was present.This man Clark is now residing at Kamloops B.C..Chief Johnny Chilahitcha,of Douglas Lake had a full confession of the killing of Johnny Nichols from Isaac Harris' son,and the latter is now living at Kamloops and is ready to give evidence against his father Isaac Harris.Chief Johnny Chilahitcha wrote to Chief Edward of Enderby the particulars of Harris' son's confession of his father having killed Johnny Nichols.Regarding the murder of Nichols,after the confession of Harris' boy,I personally called the attention of Provincial Constable Gardom of Enderby B.C. to this case,enquired of him why some steps were not taken against this man;he,Gardom,replied "Well I turned the case over to Chief Constable Simmons,at Vernon".

I am well informed that this son of Isaac Harris here mentioned left his father's house and refused to return on account of his father having raped the boy's aunt in the boy's presence, forcibly having carried the woman to the bed and cutting the underclothing from the body with a knife,having first tied her to

the bedstead. The woman walked to Vernon the following day to have a warrant sworn out on this charge, but the Provincial Constable E.C. Simmons and the Stipendiary Magistrate, Leonard Norris, refused to receive the information and issue a warrant for Harris arrest.

As these matters are the matters of common conversation among whites and indians, you will see that the complaint and request of Chief Baptiste Logan has some fact and reason to commend it to your consideration.

Yours truly,

Dear Sir:-

I am instructed by the Chief Baptiste Logan of the Okanagan Indian Reserve,British Columbia,to ask your Department for the summary removal of one Idaac Harris a Clinton half breed illegal resident upon this reserve,for the following sufficient reasons:-

This man is criminal by act and intent,the cause of most of the friction within the band and much of the crime committed within the reserve for a number of years past.

The members of this bend to a unit believe that he has committed murder upon the person of one Johnny Nichols,a member of this band some two years past.

The son of tnis man Harris has openly charged his father with the murder of this man Johnny Nichols.

The said son has given this same information to several members of this band as well as having made a full confession of all the facts in connection with the death of the said Johnny Nichols to one Chief Johnny Chilahitcha of Douglas Lake,Nicola.

EXTRACT on 23/8/43

The man Harris has been improperly resident upon the reserve for a number of years,never having received the sanction of the band to be accounted a member of the same.He has been responsible for much of the drunkenness on the reserve for the past few years,and has,despite the authority of the late chief,Pierre Michel,encouraged drunken dances on the reserve,invited lumbermen engaged in nearby camps to come to those dances,and when drunkenness and riotousness followed,he has given information to the police and aided in the prosecution of the people whom he had prostituted.Regarding the death of of Johnny Nichols,there was also present at the time an Englishman,one Thomas Clark,now at Kamloops,and who was fined for supplying the liquor which perhaps led to Nichols' death.I ask that immediate action be taken to remove this man Harris from the reserve,and such steps taken as be necessary to ensure his prosecution.

Yours truly, Baptiste Logan

Dear Sir:-

With reference to the charges against Isaac Harris, so far as they relate to his residence on a reserve, I think he will have to be dealt with as all the other Indians when location on reserves is taken up. Mr. Irwin , no doubt, put too much power in this man's hands.

So far as the more serious charge of murder is concerned, Mr. Christie acted on my advice and did not bring the matter up. He gave me a number of papers and statements dealing with the matter. I introduced him tothe newly appointed chief constable who has taken the place of Simmons, dismissed, and handed over any information I had to him.

I then, at the request of Mr. Routh, the constable, wrote the Deputy Attorney-General of British Columbia, a copy of which letter I herewith attach and also his reply. This will relieve the Dept. of any further obligation in this matter.

Sir,-

I beg to acknowledge receipt of your favor of the 10th March enclosing declarations, communications, etc., relative to the death of Johnny Nichols (Cabbage).

In reply I beg to say, as stated in our letter to you on the 31st March in connection with another matter, that this is a matter to be dealt with by the Provincial authorities. Our Mr. Lamsden, Inspector of Indian Agencies laid the situation before the Deputy Attorney General of British Columbia in a letter dated the 5th day of November last, and in reply received a letter stating that the matter had been referred to the Chief Constable at Vernon. I observe among your enclosures a letter from J. H. Wright, P.M., dated March 7, 1910, stating that the case was withdrawn by Mr. Bridgeman acting for the informers on account of insufficient evidence. The material furnished us for perusal had apparently been submitted to Mr. Wright.

It appears therefore that the matter had received due consideration by the proper authorities, and that there is nothing further to be done by our Department.

I return herewith your enclosures as requested.

Sir:-

I have the honor to inform you that at a meeting of the Chemainus bands of Indians held in house of Chief Tom Semo at Chemainus Bay on the I0th, March, I908, a majority of the male members of the Band of full age of 2I years being present. It was unanimously resolved that they respectfully ask the Indian Department to allow them to withdraw from their ##### trust funds (Account No.57) the sum of Fifty Dollars ($50.00) to be used to purchase a headstone for their late and much respected Chief William Sillseemitston.

The following Indians were present, namely,- Chief Tom (I) Semo, Charley Sallier (2), August Frenchy (3), Sam Kokshit (4), Francois (5), Sampson,Piere (6), Sweeny (7), Johnny George (8), Louie Clause (9), Suserp (I0), James Mitchel (II), Charley Harris (I2), George Mitchel (I3), Jim Hayouse (I4), Frenchie, ### Alex Koughlano (I5), and Frankie (I6) (I7).

The late Chief died from consumption after a long illness and he had spent all his money on medicine, and now the members of the Band are anxious to have the sum of $50.00 spent in a headstone to mark his grave. As the late Chief always took a great interst in the welfare of the Band I will recommend that their application be granted as the whole band is in favor of the expenditure, I have seen all the others members that were not at the meeting. I have not asked for the authority until now, to give time for the earth to settle firmly in the grave.

I have the honour to enclose herewith a letter of the 15th inst., No. 727-W, received from Mr. Agent Robertson of the Cowichan Agency stating that at a meeting of the Chemainus Band of Indians held at Chemainus Bay on the 10th of March, 1908, a majority of the adult male members of the Band unanimously asked that the Department allow the Band to withdraw from Its Trust Fund Account (No. 57) the sum of $50.00 to be used in the purchase of a head-stone for their late Chief William Sillseemitston who died from consumption after a long illness.

As the late Chief was much respected by the Indians for his many good qualities I would ask that the Band's request, endorsed by the Agent, be given effect.

Sir;-

I have the honor to report that the False Creek Indians have requested me to ask the Department if it will allow them to use the funds to the credit of their band, in clearing and fencing the False Creek reserve. They say that they will clear it ready for plowing for $200.00 per acre, and when it is is done, they wish to crop it.

I advised them that it would be better for them to sell the False Creek Reserve, as it is too valuable to be used for farming purposes, and devote their attention to clearing land on the reserves they have at Squamish River. They replied that they would consider the question of selling the reserve, but that. in the mean time, they wished me to lay their request before the Department for permission to use their trust fund as above mentioned.

I may say that it would greatly improve the appearance of the reserve if it were cleared and cultivated, and when the time comes for disposing of it, the expenditures incurred in improving the land would very likely be repaid by reason of its enhanced value on account of such improvements.

If the Department approves of granting the request made

Sir:-

I have the honour to enclose herewith a letter dated the 10th inst., No. 505/13, received from Mr. Agent Mc Donald of the Fraser Agency , B.C., reporting that the False Creek Indians have requested him to ask the Department to allow them to use the funds to their credit in clearing and fencing the False Creek Reserve so that the ground may be plowed, their estimate of cost being $200.00 an acre.

I agree with the Agent that it would be better for the Indians to consent to sell the False Creek Reserve as it is too valuable to be used for farming purposes. Were the Reserve sold the Indians could devote their attention to clearing the land on the Reserves they have at Squamish River.

It is doubtful to my mind if, in case the False Creek Reserve were cleared as suggested, in the event of selling the same the cost of clearing would be realised over and above the sum which would ordinarily by expected to be received for the land in its present state, notwithstanding the Agent's statement to the effect that the expenditure incurred in making the improvement asked for by the Indians would very likely be recouped by reason of the Reserve's enhanced value on account of such clearing.

I have the honor to enclose herewith a resolution passed by the Chehalis band of Indians on the 5th instant, asking for permission from the Department to purchase, and pay for same from their trust fund (Account No. 97, page 124, Auditor General's Report, Part I, 1908-1909), sufficient ornamental wire fence to enclose their two grave-yards, also $100.00 worth of building material to enable them to repair their Church, and $100.00 worth of seed potatoes. The details of the material required for the fence are as follows, viz;-

1000 feet Ideal Heavy Lawn Fence	$250.00
2 Ideal Lawn Gates	11.00
50 lbs. Fence Staples	2.50
2 cans Coal Tar (10 gals.) for tarring fence posts	2.50
100 Ornamental Cedar post Tops	25.00
2000 feet Cedar Lumber 2 X 4	30.00
1000 " " 1 X 8	15.00
Freight	5.00
Total	$341.00.

They at first wished to have iron posts, but when they came to town to select the style of fence they wanted, it

it was found that iron posts would be too expensive, and they decided that they would provide cedar posts themselves, on which they would place the ornamental post tops asked for. The 3000 feet of cedar lumber is for the top and bottom of the fence.

The whole band, both old and young, are very anxious to have this kind of fence, as they say that it will be more ornamental, last longer, and be as cheap in the end as an ordinary picket fence, which would have to be renewed every few years.

Their Church is badly in need of reshingling, and the tower requires to be rebuilt, as it is at present in a rather shaky condition, and the whole building needs painting, for which they ask authority to expend the sum of $100.00. They were considering the advisability of building a new church, but I advised them that by repairing the old one, it would answer the purpose for a good many years. If the Department grants authority for this expenditure, I will furnish a detailed account when the material is purchased.

On account of the high price of seed potatoes last spring, most of these Indians did very little planting, and will have none for seed this coming spring, unless they purchase them, and they have not the ready money to do so. In order to encourage them to plant a sufficient quantity to insure their having at least enough potatoes for their food for the following year, it is advisable to supply them with seed. The indications are that the price of potatoes will be high this spring again, and the $100.00 asked for would

would probably be only sufficient to purchase from 200 pounds to 250 pounds for each family.

In view of the fact that they have not the means themselves to purchase the articles asked for, I recommend their request to the favorable consideration of the Department.

With reference to your letter of the 11th instant, in which you request authority to expend $35.00 in purchasing three pumps,with the necessary feet of galvonized iron piping for the use of the Pacheena Band of Indians, I beg to say that the interest account of the band is not sufficiently large to admit of this expenditure,unless the Indians are willing to forego the annual distribution of $100.00 interest money for one year . Hon Sir -

Once more I beg to call the attention of the Department regarding allotment of land due me in St Peters Reserve and other rights and privileges accruing from sale of lands under the agreement of the recent Surrender of said Reserve. In 1897 when I made application for enfranchisement according to the number of my family at that time I was entitled to 160 acres of land. But as the outer two miles was not yet sub-divided and not ready for allotment I received a Patent only for my lot 17 which contains some 47 acres. I was advised by the Indian Agent (late A.M.Muckle,) that my allotment of land would be given me when back of the two miles was surveyed. A statement to this effect by the late Indian Agent will be found in a letter on file in the Indian Office, Winnipeg.

When the Department made the first payment after the surrender I was paid my share; but a few months later when I applied for my allotment I was refused, because I declined to sign a receipt which included as part of my allotment lot 17 for which I now hold Patent issued under the provisions of Section 86 of the Indian Act, which Section also states that," and he shall be entitled to all the rights and privileges,"etc. See also the latter part of Section 88.

In view of the above facts which I have stated I feel strongly that I have been unjustly dealt with, and I sincerely trust that you will consider my case with favor and cause the mistake rectified without unreasonably delay.

I am Sir,

Respectfully yours,

Application has been made by one Moses Jacknife for Homestead Entry for the North West quarter of Section 11, Township 51, Range 6 West of the 4th Meridian, on the ground of settlement prior to survey.

There is some doubt, however, as to whether he might not be a treaty Indian and in that case of course he would not be entitled to Homestead Entry.

I am therefore to request that you will be good enough to look into the matter and report whether the said Moses Jacknife has ever taken treaty money.

There is in this district a certain number of Indians who desire to make applications for homestead entries, they are Part of Sitting Bull's Band who came to Canada in 1878- they are Sioux. They never had any treaty in Canada. In looking over the Dominion Lands Acts, it was my belief that they were entitled to homesteads entries.
But a person who claims to know something about the law said I could not take their applications, that they were not eligible for same.

Sir,-

I beg to acknowledge receipt of your favor of the 3rd instant enclosing copy of a letter from P. Lapointe, Esq., of Willow Bunch in which he states that certain Indians in his locality desire to apply for homesteads.

In reply I beg to say that Sec. 164 of theIndian Act reads as follows: "No Indian or non-treaty Indian resident in the province of Manitoba, Saskatchewan or Alberta, or the Territories, shall be held capable of having acquired or of acquiring a homestead or pre-emption right under any Act respecting Dominion lands, to a quarter-section, or any parcel of land in any surveyed or unsurveyed lands in the said provinces or territories, or the right to share in the distribution of any lands allotted to half-breeds."
The Indians to whom Mr. Lapointe refers would come under the description of non-treaty Indians and are not, according to this section, eligible for homesteads.

Sir,

Two members of the Iroquois tribe residing in the Caughnawaga Indian Reserve Canada, to wit: Frank D. Horne and James Montour want to find out if the Government does not give a free farm or land for farming purposes free of charge, to an Indian, in the Province of Saskatchewan. These two Indians have seen that country and desire much to be allotted land for them to work on.

I will be beholden to you to give me the necessary information in this matter.

I beg to enclose herewith a copy of a communication received from Mr. J. Waniente Jocks, with reference to the desire of two members of the Iroquois tribe to take up homesteads in the Province of Saskatchewan.

On the 23rd May, 1905, the Department of Justice advised that Section 126 of "The Indian Act" laid down the general rule on this subject, but, as it appears that the section in question only relates to Indians who are resident in the North West, I am to say that, before dealing with this case, it is thought advisable to obtain the views of your Department.

Sir,

I beg to acknowledge the receipt of your letter of the 30th ultimo, Ref. 357579, and in reply to say that since this case was brought to your attention on the 21st of May, a further communication has been received showing that the two Indians in question did not desire to secure homesteads, but to share in the issue of scrip to half-breeds in the North West Territories.

The question of their right to make homestead entries does not, therefore, require to be settled.

The letter of the Department of Justice dated the 23rd of May, 1905, merely called attention to the provisions of Section 126, of the Indian Act, and suggested that if a case of doubt should arise it should be submitted to your Department and that if necessary, advice could be obtained from the Department of Justice upon any legal point involved.

Sir,

I would be glad if the Department would inform me, as soon as possible, if there are any regulations that would govern the following matter.

One of the best Indians here desires to trade a lot of second hand machinery which he owns for a homestead that is owned by a halfbreed relation. He wishes to break up the homestead and dispose of it in a few years which he thinks he can do. At present the Indian has the halfbreed hired, & he also has a share in the half-breeds crop on the homestead which he wishes to purchase. There is a small ~~xxxxxx~~ loan by a Prince Albert bank against the homestead as well as $75.00 in taxes by the local council. The Indian wishes to pay this off, if he would be reconised by these authorities also the Lands Title Office. He informs me that he will continue to employ the halfbreed working at his own place on the reserve and at the homestead in question.

This is a matter I have not had experience in, so I could not advise the man, other than make his request known to the Dept. I would add that the man is the best farmer here having far more crop and doing much more than the others.

Dear sir;- 408454

I have the honor to ask information regarding an Indian having resided on a plot of land forty years or more. A White man came along and entered his plot as a homestead. He was ordered to leave the land and he refued. The homesteader turned around and sued him for tresspassing. The poor Indian was fined $10.00 and costs. He finally left his home. Under the Indian or Dominion lands Acts, can this Indian claim damages from this homesteader. It appears this homesteader adopted very pecuiliar methods in dispossessing this Indian of his abode (house) about three or four years ago. The Indian estimates his shacks and other improvements he had on this land $500.00. The Indian had not taken treaty and he has not taken it yet. He seems to just drift around now,

Dear Sir,-

I have your letter of the 28th instant, reference No. 357579, together with a copy of one of the 14th idem from Mr. Sam Gagnon, an Indian of Fort Assiniboine, Alberta, who wishes to secure homestead entry for the South West quarter of Section 12, Township 62, Range 5, West of the 5th Meridian.

As all homesteading lands in the Province of Alberta are now under Provincial control, this Department has no jurisdiction over matters of this nature and I would suggest that you communicate with the Department of Lands and Mines, Edmonton.

Dear Sir:

I am a Treaty Indian registered at Maniwaki, Quebec, and have been residing in Alberta for the last 14 years. Recently I have acquired a piece of land here and I am very anxious to hold it and make my home here.

Would you please advise me how this may be done or send me what documents may be required to establish my right of ownership.

I may state that I am a returned soldier and lost my right eye fighting in the C. E. F. Overseas. Until recently I held a job in a lumber Company here but owing to an accident which took 3 fingers off my right hand I will be unable to work at the same employment. I must make a home for myself someplace as my health is poor now also. I can do it I feel sure and be self supporting if I can just get the authority or right to hold land in my own name, as a Treaty Indian.

Please give this matter your urgent attention and advise me by return mail if possible.

Yours sincerely,

his X mark

Sir,

In reply to your letter of 19th June last, it appears that you are not eligible to make entry for a homestead by reason of the fact that you are a treaty Indian. You might consider whether it will be an advantage to you to become enfranchised and whether you can be sufficiently recommended. November 19th, 1934

Sir,-

Referring to your letter of the 7th instant. file 357579, with which you enclosed a letter received by you from George O.Brant, an Indian of the Tyendinaga Mohawk Band, presently resident at Markstag. Ontario. It appears from Mr Brants letter that he wishes to secure some land within the Township of Orie, where he can build a house for himself and family and live free of taxaction and other encumbrance.

In reply I have to state that I do not see where the Department of Indian Affairs can be of very much assistance to this man in helping him to secure land, except that he might be advised to take the matter up with the Ontario Provincial Department of Lands and Forests, and try and secure from them settlers rights on the land where he wishes to locate, there are I believe certain parts in the Province of Ontario where persons wishing to settle can secure the privilege to do so under certain conditions laid down by the Provincial Government. I have returned as requested Mr Brants letter to you.

Sir:-

I beg to draw your attention to the fact that Mr. E.B.Drummond of Lytton is bonded by your Company for $2000.00 in connection with the discharge of his duties as Indian Agent. The Department's Inspector, Mr. T.J.Summiskey, has reported that he has learned from the Lytton Indians that they paid to Mr. Drummond $170.00 on the 11th December, 1911, for which payment they hold a receipt. This amount has not been received by the Department. The Lytton Indians are indebted to the Department and it was Mr. Drummond's duty to collect moneys from them and forward to the Department toward liquidation of the said debt. Under the circumstances, I have to request that your Company will endeavour to collect from Mr. Drummond the above mentioned amount.

With reference to the matter of a loan of $500.00 made to the Lytton Indians in August, 1909 (before you held office as Indian Agent) to enable him to complete an irrigation ditch from Botanais Reserve Nos. 2,21 and 22, I have to point out that refunds were not made to the Department toward liquidation of the loan as agreed upon. It has recently been learned that the Indians in question paid to you in December 1911, the sum of $170.00 to be applied toward payment of the said debt. This money was not received at Head-quarters. The Indians hold a receipt given by you for this money, copy of which is now in the Department. Under the circumstances I have to request that you will forward the money to the Department without any delay. I may add that the Imperial Guarantee and Accident Company, with whom you are bonded, have been written to in this connection.

Sir,

I enclose statement of account as between the Department and myself to date,particularly drawing to your attention the outstanding item of $ 668.00 o/a Census,of which I have not seen one cent as yet,

Your circular 385009 of 8th February,1911, instructed me to act or I would not have done so,and in fact objected to the late Inspector.

I paid Miss Blachford myself and am consequently out something over $400.00.The matter,I am well aware rests more fully with the Census Department but if your Department has authority (as per circular) to instruct me to do the work,it has also,presumably,the authority to see that I am paid//.This matter is also being taken up with the Hon M.Burrell,member for this Riding.

With regard to (A),a cheque for the amount might be made payable to the order of J.DeShields,as the money is due to him.

With regard to (B),your file No 53780-65 covers the correspondence about this matter and I must respectively urge the payment of the balance.Neither the Department,Inspector Neelands,or anyone else can purchase a Remington No 11 D for $ 122.50 less 10% 7/11/41 and if the Company's Agent in Vancouver had been written to, this would have been known.

With regard to (C),it speaks for itself;As in previous vouchers,I have tried to fairly apportion food supplies required on trip in September as between Census and Agency;

Over half the fuel is on hand for next season.I am anxious to close up these matters one way or the other,i,e.either have them paid or definitely refused and should therefore be glad of an early decision.

Dear Sir:-

Re your letter of 3rd. July and repayment of $170.00 received from Indians by me on December 11th. 1911, on account of Botanie Ditch, I beg to advise that until I get a settlement from the Indian Department, I must decline to forward the amount.

Between the Department of Agriculture and Indian Affairs there is a net balance due to me over and above everything of something over $850.00, as a copy of the account(herewith for your information) which is shortly being sent to the Department shews, there being two debits for $33.00 and $36.00 respectively against the amount due from census which it is immaterial whether the Department or myself pay.

For my own information, I should be glad to learn from what date, and by what authority you acted as bondsmen for me, WITHOUT MY BEING ADVISED: Further the amount of the premium and by whom it was paid ?

For your further information, I may say that there is no action of mine as Indian Agent that will not stand any kind of investigation and you may therefore have no fear of probing the bottom so far as I am concerned personally.

Yours truly,

(SGD) E. B. Drummond.

Sir,-

I am in receipt of your letter of the 24th ultimo, with which you forwarded a statement of account from Mr. E. B. Drummond; and in reply I beg to say that in addition to the $170.00 referred to in previous correspondence as being unaccounted for by Mr. Drummond in connection with moneys which he handled for this Department, there is also a balance of $59.40 advanced to him for travelling expenses, for which he should account and an advance of $100.00 to be accounted for in connection with repair of Stryen Creek Bridge. These amounts make the total so far as the Department is at present aware to be accounted for by Mr. Drummond, viz:-$329.40. He has not forwarded the accounts for travelling expenses to which he has referred in his statement, namely $39.50 for September, $88.80 for October, $22.00 for November and $16.50 for December; nor has he furnished the miscellaneous account of $8.70 and the fuel account of $7.95. The Department is unaware whether the charges in the accounts referred to are proper owing to the fact that they have not been presented for consideration. Mr. Drummond's accounts for travelling expenses during June ($31.70), July ($46.80) and August ($92.30) have been received. He has been credited with these amounts. The account of J. DeShields for $21.00 and the balance of $39.75 for typewriter to which amount Mr. Drummond has referred cannot be allowed until the accounts are received and examined.

The claim for salary will be considered when Mr. Drummond shows good reason why he should be paid. He did not receive salary from the 1st May, as the Department understood that he was not at the Indian Office and certainly he did not attend to the duties of Indian Agent during the months of May and June.

Sir:-

With reference to previous correspondence had with you regarding the manner in which Mr. Drummond discharged his duties when he held the position of Indian Agent, I beg to say that it is observed from his diaries which accompanied his travelling expense account, that he received on the 6th September, 1911, $50.00 being fine imposed on a Chinaman for supplying liquor to Indians, and also that on the 7th December, 1911 he received $100.00 bail forfeited by Ah Bing, another Chinaman. The Department desires that you will endeavour to ascertain what disposition was made by Mr. Drummond of these two amounts. You should report in the matter after making careful enquiries.

I may add that there is a statement before the Department from Mr. Drummond with regard to transactions which he had with the Department. In that statement he claims that $39.75 is due him for fuel. It is desired that you will ascertain and report whether Mr. Drummond supplied any fuel for which he did not receive payment. He has intimated that a portion of the wood which he furnished is still on hand for use at the Agency this winter. Your full report in the matter is required without delay.

Sir:-

Mr. E.B.Drummond late Indian Agent has submitted a statement of his account with the Department. It is understood that you have a copy of the statement in question, and I beg to draw your attention to the following remarks thereon.

The vouchers submitted for travelling expenses from June to December inclusive are satisfactory, and Mr. Drummond will be credited with that amount, $339.70. The Department also finds satisfactory the vouchers for miscellaneous expense, telegrams etc. to the amount of $8.70, but the voucher amounting to $39.75 for fuel cannot be accepted. In the absence of definite information as to the quantity of wood supplied, I beg to say that the present Indian Agent, Mr. Graham, is being written to in this connection.

The voucher for $21.00 in favour of Mr. J. deShields should not have been included in Mr. Drummond's statement. He did not pay Mr. Shields. The amount of the voucher, I may say, is a proper charge against the Department, and it is proposed to settle it.

Mr. Drummond claims that there is $39.75 due him on typewriter. This claim will not be allowed. He was paid $110.$5 for a typewriter machine which had been used a year, and the Department considers that he received full value for the article supplied.

With reference to the claim of $209.66 for salary for the months of May, June and July, I beg to say that this will not be

Dear Sir:-

You letter of the 26th. of August addressed to my General Manager, Mr. E. Willans, at Toronto, was handed to me to take up with the Department at Ottawa. I may inform you that as the result of my interview with the Deputy Minister last week, the Department have admitted certain charges which they have placed to the credit of your account. I now enclose copy of letter I have received from them which will speak for itself, and on which showing they still claim a balance due them from you of $151.80. You will notice that it is possible that this amount would be reduced by $39.75 for fuel if definite information in regard to this item is furnished either by yourself, or your successor, Mr. Graham. You will also notice that the Department of Indian Affairs take the position that any moneys owing to you in connection with the Census, must be settled indipendently with the Department of Trade and Commerce.

In reply to your request for information as to our authority for acting as bondsmen, I may say that we were requested to do so by the Department on the 15th. of February, 1911, the Bond issued was for $2000, and the premium was paid to us by the Departmen

Awaiting your kind and prompt reply.

In reply to yours of the above date, I beg to report that I can find no trace of the two different amounts received from Chinamen for fine & bail by the late Indian Agent Mr Drummond, there is nothing in the Police Court books here to show that these amounts were ever received here, so presume that they were got elsewhere, most likely in Lillooet.

I will search the Police Court booksthere, and report upon this matter later.

Re the Claim of $39.95 which Mr Drummond has for fuel which he states that is due him for fuel supplied this office.

I may say that I can find no receipt here for the same, I will endeavour to find out who supplied it and when; as regards there being a supply on hand, I may say that there was about half a cord, which I am using at the present time.

Re the different other amounts which I have continually written to Mr Drummond about, he has ignored every letter, but when I saw him two weeks ago, he stated that he did not owe the Department one cent, and that he had written the Deparment, giving a full statement.

File No 370341 dated Oct. 10th. 1912.

With further reference to the above dated letter, I beg to submit the following report.

On Sept. 6th 1911 a Chinaman was charged at Lillooet xxx under Sec. 220 (a) of the Criminal code, for allowing Indian girls to prostitute themselves on his premises.

Mr Drummond tried this case and found the Chinaman guilty, for which offence he was fined $50.00.:which money was duly turned in to the Govt. Office.

With regards to the $100.00 bail, this amount was turned over by Mr Drummond to the Govt. collector, but he failed to estreat it properly, though he was written to several times about it.

The Chinaman has never turned up since, and the money passed on to the Treasury.

In any case Mr Drummond passed both sums of money on.

him lose this money, if any means can be devised to protect him. Had the indians handled the $500.00 referred to Mr. Fernie would have been paid. Mr. Drummond is so unreliable we cannot say as to how he manipulated the money. The transaction may be called irregular for Mr. Fernie to advance money to the indians for the purpose named:but Mr. Fernie being Chief constable, the indians came to him when at the time they had no agent.

I am strongly of the opinion that Mr. Drummond got the money from the indians in some way, if not why should he give his note to Mr. Fernie.

Dear Sir:-

I submit the annexed papers to you. The case they cover is as follows. In March 1911, there was no indian agent at Kamloops for a time after the removal of Mr. Irwin. The re was a meeting of the indians called by "The Friends of the Indians" at Victoria B. C. The two indians of Kamloops reserve whose names are on the attached certificate, Philip Thomas and Bazil Paul wanted to attend this meeting, but had no money nor no agent there to consult with. They approached Mr. W. L. Fernie, chief provincial constable, as he was well known to them and he advanced them $100.00. The indians had $500.00 rent coming to them from the Harper Ranch Coy. They intended to pay Mr. Fernie his $100.00 out of this sum and spend the balance, $400.00, in buying seed. Mr. Drummond handled the $500.00 and purchased the seed for the indians. When he paid for the amount of seed ordered he had no money left and gave his note to Mr. Fernie for the amount, which he failed to meet. I had this question investigated on the 7th inst. in Mr. Fernie's office at Kamloops in the presence of the indian Chief Loui and the two indians mentioned.

The $100.00 is owed to Mr. Fernie. I do not wish to se

Re note Jennie $100.00/100. 437708

This was given by me to Constable Jennie for the reason that he had no evidence to shew that the Kamloops Indians were indebted to him for monies advanced & the transaction occurred in Spring 1911, during Inspector Macdonald's absence north in re Fort George -

It is within the knowledge & has been of either Inspector McDonald, Mr Neild, or the present incumbent that the note was given by me & I have personally advised both Mr Neild & Mr Smith, about the facts, & it will be found that monies have been collected in the Kamloops Agency from the Kamloops Reserve & used to retire 2 other notes of mine also given at the same time & which were like this a proper charge on the Kamloops agency - Those notes should be on file in the Kamloops Agency -

Ottawa, May 23rd, 1913.

MEMORANDUM -

At an interview between Mr. Martin of the Imperial Guarantee and Accident Insurance Company, Mr. E. B. Drummond, the former Indian Agent, and myself, Mr. Drummond was allowed $25.00 extra on the Typewriter which we purchased and which is now paid for at a fair price.

Below is a statement of the claim against Mr. Drummond as it stands at present -

To advance etc. unaccounted for as per letter of the 11th Oct. 1912		500.00
By travelling expenses vouchers from 1st June to 30th Sept. 1912, since received	337.70	
By voucher for miscellaneous expenses received	8.70	
Additonal amount allowed for Typewriter purchased from Mr. Drummond	25.00	
Voucher for fuel paid for by Mr. Drummond since received	39.75	413.15
Amount received as rental from Harper Ranch Co. unaccounted for		87.05
Balance to be accounted for by Mr. Drummond		500.00
		$587.05

It will be noticed that in our letter to Mr.T. J. Code

Code, the Department of Trade and Commerce, we have charged Mr. Drummond with the whole $500.00 received as rental from the Harper Ranch. I hardly think we can charge him with this amount, but only with the amount of the note given to Constable Fernie. Mr. Drummond's letter of explanations of the 21st May is not satisfactory on this point, but we propose to correspond with the Agent. It is not for us to adjust the Stryen Creek Bridge claim and the other items; this devolves upon Mr. Drummond.

Ottawa ,26th May, 1913.

Sir,

I beg to say that the Department is informed that after Mr Irwin ceased to hold office as Indian Agent, two Indians, named respectively Philip Thomas and Bazil Paul of the Kamloops Reserve, were desirous of attending a meeting which was being held in Victoria, and as they had no money to meet their expenses they approached Mr W.L. Fernie, Chief Provincial Constable who it is stated advanced $100.00 to them. It is further stated that the Indians of the reserve had $500.00 rent money coming to them from the Harper Ranch Co, and that it was the intention of the Indians to pay Mr Fernie from the $500.00 and expend the balance ($400.00) in the purchase of seed. It is said that Mr Drummond handled the $500.00 and purchased the seed, but that when he paid for the seed there was no money left to settle with Mr Fernie, to whom Mr Drummond gave a note for $100.00 which he failed to meet, and which note is in the Department.

The Department desires that you will thoroughly investigate this matter and make report thereon. The fact that Mr Drummond gave the note to Mr Fernie goes to show that he received the money. You should endeavour to bring the whole transaction to light and report the same.

Your obedient servant.

Mr Fernie be paid from the amount which they thought was due from the Ranching Company, the stated sum being fixed at $500.00. With the understanding that $100.00 of that sum was to be paid to Mr Fernie and the remaining $400.00 ,towards securing Seed grain.

With this authority,it appears that Mr Drummond immediately applied to the late Manager of the Ranching Company Mr E.W.Calhoun (who it has been shown was in the habit of advancing monies to the Indians in respect to their grazing privileges at various times) for $500.00, and a cheque for that amount was issued made payable to E.B.Drummond on behalf of the Indians.

From the information gathered it appears that immediately Mr Drummond got possession of the cheque in question. He interviewed Mr Fernie and questioned him about the money he had advanced to the Indians, and what he understood from the Indians of the money coming to them from the Ranching Company, pretending to secure Mr Fernie pending the collection, he gave Mr Fernie his Note, while as a matter of fact he had collected the money before he gave the note.

On further inquires I found that Mr Drummond did not pay for all the grain,(if he paid for any),I find in a statement handed me by my immediate predecessor Mr Wm Neild that a very large portion of the amount , if not all was paid from an entirely different source, this sum was collected for building sand taken from the Indian reserve.

After I had gathered these information, I wrote Mr Drummond several letters, all of which were ignored by him. Later however I found him at the Leland Hotel this City, and forced an interview when he admitted receiving the cheque for $500.00, and the giving of his note to Mr Fernie, but claimed at the time to have spent the whole amount for seed. I pressed for a written statement of disburement which he promised to furnish but never gave.

Several weeks later I chanced upon him again in the Leland Hotel, when questioned on his failure to furnish the statement he got.

he got very gruff and insulting, refusing to give any satisfaction or to talk on subject, further than that he would give me a statement as soon as he could get in touch with his papere. I last saw Mr Drummond at New Westminster last October while attending the Fall Fair there, when he told me that he had not ha had the time to make out the statement I had asked for.

My immediate predecessor Mr Wm Neild who have since moved way from the City, before leaving; on the 14th day of January 1913 handed me a cheque for $7.99, which he told me was remaining in his possession from an amount he had collected for building sand taken from the reserve while he was in Office after paying for the Seed grain which was got by Mr Drummond for the Indians in 1911. Mr Neild statement showed that he had collected $239.75, for the Building sand, and that he had paid out in respect to Seed grain $231,76, leaving a balance in his hand of $ 7.99.

I have been unable to find out the exact amount of grain furnished by Mr Drummond for distribution at the time further than the information from 39 Indians who reported to received three sacks each of seed grain from the distribution, equal to 11700lbs, if the sacks averaged 100 each, but as Oats seldom average 100 pounds to the sack. At $40.00 per ton, it would seem that the amount paid out by Mr Neild would cover the cost of the grain. It is clear however that Mr Drummond received the money on behalf of the Indians to pay Mr Fernie which he has not done.

All of which is repectfully submitted.

Dear Sir.

I would be much obliged if you would give me any information you can as to the pecuniary situation between the Indian Department & my brother ~~who~~ Mr. E.S. Drummond, who was Indian Agent at Lytton. Last April I understood from Mr. Graham, the present Agent, that he was in possession of $600.00 government funds against which he claimed that the government owed him $800.00 for services rendered either for taking Indian Census or salary, but I don't think it can be salary, as to my certain knowledge, he was'nt at the office for a week, for six months before Mr. Graham was appointed. I also learnt that the government had a lien on his possessions.

I have just heard from my mother that he had been home to England, & told her that he had made the government pay him $200 on account and expected more. Knowing him pretty well I rather doubt his statements; & as my mother has asked me to find out the true state of affairs I have taken the liberty to write & ask you to kindly give me any information you can. Apologising for troubling you.

I remain yrs faithfully.

Sir:-

In compliance to the request contained in your letter of the 20th October, I enclose herewith copy of a letter of the 15th August which the Department addressed to Mr. E.B.Drummond giving a statement of the account between him and the Department.

Since the letter to Mr. Drummond was written, it has been learned that the Right of Way Agent of the Canadian Northern Pacific Railway Company mailed to him in July 1913, a cheque for $1087.80 for transmission to the Department. Mr. Drummond did not forward the cheque to the Department nor has it since been received. The Department has recently learned that it is out standing at the Bank, and the Department is now in communication with the Right of Way Agent of the Railway Company with a view to payment of the amount to the Department.

The Census and Statistics Branch, Department of Trade and Commerce will be able to give you information with regard to Mr Drummond's account for taking of the Indian census.

With reference to your letter of Oct 28th/13. re missing cheque, sent my brother by C.N.P.R. I have done my best to locate but have been unable to trace it. As signed for a registered letter and so I presume got the cheque, but it is not amongst his belongings, as I went through every document he left behind. I have been unable to locate him but hear that he is in Vancouver. I shall be moving down there in two or three weeks and will try and find him. Have you had any communication from him as my mother writes and says that he was in Ottawa as late as Oct 1st in touch with the Deputy Minister." With reference to Department letter of date and file as above, in connection with the matter of the enclosed voucher, I have attached herewith the cancelled cheque issued by Mr Fernie together with a letter I have received from him in reference thereto.

I beg further to state that this matter was brought to the attention of the Department by the late Inspector Cummiskey, and I was instructed by the Department under date of May 26th,1913 file as above to report fully on the matter, which I did under date of June 23rd, 1913, file 201-13, in which I gave a full history of the transaction. Which Mr Furnie's letter will further explain.

The money was furnished Philip Thomas and Basil Paul and used by them and Louie Chief to attend a meeting at Victoria. Mr Drummond collected the money to repay Mr Fernie, which he did by giving him his Note, which was in due course dishonored by failing to meet it when due. and which has never been paid.

We have copies of volumous correspondence before us, which has passed between the Indian Department and Comrade Drummond, and as you have these records of fyle it is unnecessary for us to go into the full details of the case.

It would be appreciated if you would kindly look this matter up, and write us the reason why an adjustment has been so long delayed.

Thanking you in anticipation.

Ottawa, June 23rd, 1920.

Sir:-

In reply to your letter of the 21st instant, I beg to say that Mr. E.B.Drummond held office as Indian Agent at Lytton, B.C. for sometime previous to 1913. He left the Service without submitting a formal notification in the matter to the Department, and without accounting for certain moneys which he received as Indian Agent.

Enclosed herewith is copy of a letter dated the 15th August 1913 addressed to Mr. Drummond giving a statement of the account between him and this Department at that date. I may say also that he had a claim of $399.00 against the Department of Trade and Commerce for services which he rendered in 1911 as Census Enumerator. The claim consisted of two items, $160.00 for personal services, and $239.00 for disbursements in connection with the work, but as he did not supply supporting vouchers, the account was not paid.

If Mr. Drummond can produce vouchers ~~in support of his claim for payment for work done as a Census Enumerator~~, or if he can furnish explanations in connection with the shortage in his accounts as Indian Agent, consideration will be given to his case.

Sir:-

I beg to draw attention to your letter of the 16th July, 1913,C 58,and also your letter of the 11th November, 1914,C 98,in regard to the case of Mr. E.B.Drummond who for sometime held office as Indian Agent at Lytton, B.C., and who acted as Census Enumerator in 1911. You will see by reference to those letters, and other correspondence in connection therewith, that Mr. Drummond was indebted to this Department to the amount of $589.05, and that you were requested to hand over to this Department the amount due him for his services in connection with Census work. You did not take such action owing to the fact that Mr. Drummond failed to submit vouchers for disbursements which he made.

The reason for bringing this matter to your attention is that the Secretary-Treasurer of the Riverdale Branch of the Great War Veterans Association at Toronto has written this Department in regard thereto. Mr. Drummond has failed to make good this Department's claim against him to the amount of $589.05, and as it is probable that your Department may be approached by the Association and requested to make payment to Mr. Drummond, it is desired that if any payment is going to be made to him it be made to this Department toward settlement of the shortage in his accounts as Indian Agent. The $160.00 due Mr. Drummond for personal services might,it is thought, be paid to this Department. I shall be glad therefore to hear from you in this matter at your convenience.

Your obedient servant,

Asst. Deputy and Secretary.

Dear Sir,

re.- Comrade E. B. Drummond.

I am in receipt of your favour of yesterdays date, and from the information before us it would appear that Comrade Drummond was suspended by the Department of Indian Affairs, so therefore formal notification to the Department of his leaving was not necessary.

It is also found that Drummond did account for all monies received by him as Indian Agent at Lytton, B.C.

We would also respectfully point out that Drummond did submit to the Department of Trade and Commerce statement & supporting vouchers to cover the item of $399.00 due to him as Census Enumerator. Mr St. Denis, the Secretary, informed Comrade Drummond that he would issue a cheque in settlement just as soon as he was permitted to do so by the Department of Indian Affairs, and as a matter of fact $200.00 was paid on account of this census.

With regard to the item of $589.05, this is taken care of, and disposed of in the following statement:-

	To balance claimed from E. B. Drummond.....		$589.05
1.	By reversal entry re Stryen Creek.....	$100.00	
2.	By reversal entry re Harper Ranch Co.....	$500.00	
3.	By error in credit of $337.70.....	$ 2.00	
4.	By salary May and part June 1912.....	$125.00	
5.	By due on account of Census.....	$399.00	
	Balance due to E. B. Drummond.....		$536.95

1. We would explain that Drummond did not receive the cheque for $100.00 re Stryen Creek, although this was charged to his account.

2. The cheque for $500.00 received from Harper Ranch Co was used to pay John Milton., Stevens & Allen., and F. Allison, for hay oats, potatoes, and wheat. An account was opened with this cheque at the Imperial Bank, Kamloops, and after payments had been made to the three firms above mentioned, there was a small balance of about $10.00 left in the account, which was transferred to Mr Smith, who had been appointed Indian Agent at Kamloops, succeeding Mr Neild. All vouchers etc having reference to these transactions were turned over to Mr Neild on his appointment as Indian Agent at Kamloops. There were notes given to the two latter firms above referred to for the balance of their accounts, and these were discharged either by Mr Neild or Mr Smith. It must be appreciated that Mr Drummond was not Agent at Kamloops, but was instructed to look after the office during the absence of Mr McDonald to Fort George to purchase the reserve, so he acted quite rightly in leaving all papers and vouchers with Mr Neild when he took over the office.

3. This item was evidently an error in booking for vouchers covering June to December 1911 inclusive, totalled $339.70, whereas only $337.70 was credited to Comrade Drummond.

4. Amount of salary due E. B. Drummond for May and part of June 1912. (date of suspension)

5. Amount due E. B. Drummond as Census Enumerator, for which vouchers have been submitted to the Department of Trade & Commerce.

The above clearly shows that there is a balance of $536.95 still due to E. B. Drummond, which is made up as follows:-

Department of Trade & Commerce.....	$399.00
Department of Indian Affairs.....	$137.95
	$536.95

look into it, and that afternoon went all over the Reserve. A meeting was held the next day, when Father LeJeune, O.M.I. was present at this and two or three other meetings held in connection with this matter on the Reserves at Kamloops. Fernie's claim for $100.00 came up and was discussed, and shewn to be the wish of the band that it be paid. Mr Drummond agreed to do so at the time, and did not think it would take so much money for seed as it did. Later Mr Drummond wrote to Mr Calhoun and received his cheque for $500.00, which was placed in the Imperial Bank to the credit of an account opened in the name of E. B. DRUMMOND, Indian Agent, and arrangements were made with the Bank for its operation by Dr K. C. MacDonald as well, for Mr Drummond was not Agent at Kamloops, and did nothing except as locum tenens. There were purchased hay, oats, potatoes, and a little wheat. These were all obtained from three stores, viz:- John Milton., Stevens & Allan, and the business ran in the name of F. Ellison. Cheques were made out payable to their order, as far as Mr Drummond can now remember, John Milton in full., Stevens & Allan for $200.00 odd dollars., F. Ellison for something short of $200.00, leaving a small balance in the Imperial Bank. Notes were given to three parties - Stevens & Allan., F. Ellison., and W. L. Fernie. It was proposed to finance these notes etc by collecting money for the shale which was being sold off the Reserve at the rate of about $10.00 per day, which was being collected & divided by the Indians. Furtner it was expected that there would be an Agent appointed to Kamloops shortly, and Mr Drummond felt that either Dr K. C. MacDonald or the new Agent would collect the monies for the shale into the Indian Office, and parties taking shale were notified to pay monies to Indian Office, though this may not have have been till after Dr MacDonald's return from Fort George. The non-appointment of an Agent, and Dr MacDonald's being away from Kamloops are the reasons why the returns from the shale that reached the office failed to produce sufficient funds to retire the three notes. The first time that Mr Drummond met Dr MacDonald after his return from Fort George he handed to him the pass book and told him what had taken place. Later, at the request of Dr MacDonald, Mr

Dear Sir,

re.- E. B. Drummond.

In reply to your 370,341-2 of the 27th ultimo, it is hoped that the following will explain the reversal entries referred to in my letter of June 25th last:-

1. REVERSAL ENTRY RE STRYEN CREEK----------$100.00
Comrade Drummond is debited by your Department with a cheque for $100 which it is said was forwarded to him, but which he says he never received. We understand that a cheque for $100.00 was later spent through B. Rebagliati of Lytton in connection with work on the bridge over Stryen Creek.

2. REVERSAL ENTRY RE HARPER RANCH COMPANY----------$500.00
It will be recalled that in the Spring 1911 there was no Agent in the Kamloops Office, and that Dr K. C. MacDonald went to Fort George in connection with the Indian Reserve there. Previous to leaving he asked Mr Drummond to come up once in a while from Lytton and see what mail there was, etc. On one of these occasions, which was early in April 1911, Mr Drummond met in Kamloops, Mr E. W. Calhoun, Manager at Harper's Camp, one of the most prominent men of the district, and he drew to Mr Drummond's attention the position of the Indians on the Kamloops Reserve, who having ploughed their ground, were without either potatoes or seed grain to sew or hay to feed their horses to put in a crop. After Mr Drummond had shown Mr Calhoun the practical impossibility of getting any satisfaction or money from Ottawa within time to be of any use to the Indians, for the ground was already ploughed, he offered to advance the amount of $500.00 against rent of grazing ground on Indian Reserve. Mr Calhoun was so insistent in the matter that Mr Drummond said that he would stay over and

Sir:-

I beg to acknowledge receipt of your letters of the 17th and 30th September bearing on the case of Mr. E.B.Drummond, who at one time held office as Indian Agent at Lytton, B.C., and in reply I beg to say that the statement which you have submitted with regard to advances which Mr. Drummond received for expenditure in connection with the Styren Creek Bridge is to a certain extent correct.

A voucher amounting to $100.00 for provisions etc. supplied to Indians by Mr. Rebagliati was forwarded to the Department by the present Indian Agent, Mr. H. Graham in 1913, but the said voucher did not give details of charges therein to the amount of $93.50. The word "supplies" was used to designate the articles furnished to that amount. I may say however, that the merchant acknowledged the receipt of $100.00 and therefore the Department is prepared to accept the above mentioned voucher in support of the expenditure which it is claimed it covers.

With regard to the $500.00 received by Mr. Drummond from Mr. Calhoun, Manager of the Harper Ranch Company; I beg to say that while Mr. Drummond's statements with regard thereto may be correct, yet no money and no vouchers were received by the Department in connection therewith, and consequently he cannot be given credit for the expenditure which he claims to have made until such time as vouchers covering the same are submitted.

The mode of procedure followed by Mr. Drummond in connection with this matter including the issue by him of notes, was most irregular. He gave a note to Mr. W.L.Fernie for $100.00, which note has not been paid, although the Department has been informed that Mr. Drummond collected the money wherewith to make payment. It was understood that Mr. Drummond would have paid Mr. Fernie from the $500.00 collected from the Harper Ranch Company and the balance of $500.00 was to be expended in seed.

The Department has been given to understand that the greater part of the seed grain accounts was paid in money collected for sand or for shale. In this connection I may say that Mr. Neild, who was appointed Indian Agent at Kamloops after Mr. Drummond left, paid $231.76 on the seed account, which it has been understood was almost the full amount of the account. The 39 Indians reported having received three sacks of seed each, or about 11700 lbs., which at $40.00 a ton would amount to about the value of the amount paid by Mr. Neild. Neither cash nor receipts have been received by the Department for the $500.00 above mentioned, and consequently the Department is not prepared to credit Mr. Drummond with that amount until either the cash or the receipted vouchers are submitted by him.

Mr. Drummond should forward to the Department a statement of the amount which he collected for sand or shale sold.

I may add that Mr. Drummond's indebtedness to the Department appears

Dear Sir,

re.- E. B. Drummond.

I am in receipt of your 370341-2 of the 18th inst.

Re.- $500.00 Harper Ranch item. Mr Drummond informs us that all vouchers in connection with the above item were turned over to Mr Neild when he took over charge of Kamloops office, the money having been expended as follows:-

John Milton's account in full.
Stevens & Allan - $200.00 odd.
F. Ellison something short of $200.00.

This left a balance of about $10.00 in the Imperial Bank, which was turned over sometime later to Mr Smith, the then Agent at Kamloops. The delay in turning this account over was that Mr Drummond understood that the arrangements made with the Bank were that either Dr. McDonald the Inspector, or the Agent at Kamloops would be able to draw the money, but the Bank would not pay out the balance without Mr Drummond's signature.

Mr Drummond collected no monies whatever, either for sand, shale, or anything else, that has not been accounted for, and this is the first time that same has been suggested.

The account of Mr Drummond now stands as follows:-

By reversal entry re Harper Ranch Company	$500.00
By salary May and part June 1912	$125.00
By balance due on account of Census	$399.00
	$1024.00

Sir:-

I beg to draw attention to official letters to you of the 26th May, 1913 and the 23rd June of that year regarding certain money ($500.00) received by Mr. E.B.Drummond, ex-Indian Agent of the Lytton Agency from the Manager of the Harper Ranch Company, which money was paid as rental by the said Company. In those letters you were requested to explain the transactions which took place with regard to the disposition of the money. You made reply in the matter in a three page letter. Unfortunately the first page of that letter has been destroyed. Seemingly it was written previous to the 9th of July (as the next letter on the fyle with the papers referred to, bears that date). The Department desires to receive a copy of the first page of that letter, if you can furnish it.

Mr. Drummond, who is at present in Toronto, is making claim against the Government for arrears of salary withheld because of failure to account for certain money which passed through his hands while he held office as Indian Agent. He states that all vouchers in connection with the $500.00 which he received from Mr. E.H.Calhoun, Manager of the Harper Ranch Company, were handed over to Mr. Neild, your predecessor at the Kamloops Agency, at the time that the latter took charge of the Kamloops Indian office. Mr. Drummond states also that the money was expended as follows:-

"John Milton's account in full
Stevens & Allan $200.00 odd
F.Ellison something short of $200.00."

Mr. Drummond states further that this left a balance of about $10.00 in the Imperial Bank, which amount he says was turned over sometime later to you.

The Department had been given to understand that the greater part of certain seed grain accounts handled by Mr. Drummond were paid with money collected by him for sand or for shale. In this connection he has stated he collected "no monies whatever either for sand, shale or anything else that has not been "accounted for".

The Department desires to have you verify Mr. Drummond's statement in this matter. You should forward also any voucher or receipts which you can find in the Kamloops office or elsewhere which bear on this case. Be good enough to give this matter your immediate attention.

DOMINION BUREAU OF STATISTICS

Ottawa, October 29th, 1920.

Memorandum re Mr. E.B. Drummond formerly of Ashcroft, B.C., who acted as Census Enumerator in taking the Census of the Indians on the Lytton Agency in 1911.

In a letter dated 8th March, 1912, addressed to Mr. J. M. Yorston, the Commissioner under whom he worked, he says -

"I beg to advise that there is no chance of my doing anything more with the Census until I see some money for what I have done, and as I do not expect to be in this Agency but a very short time, I now forward the missing sheet".

It will be observed that the above letter was written nearly one year after the date of the taking of the Census and that in the meantime the Census and Statistics Office had to obtain the balance of the Census by other means than through this enumerator.

On September 12, 1912, the following memo was submitted regarding this person's account:

"His letter and account were sent to the Accountant who reported thereon: "Unless he completes work he undertook to do, no payment will be made." Mr. Drummond's delay in sending, or rather his determination not to complete, his Census work has caused a great deal of annoyance to this Office, as his returns only contain a population of 1,676 out of a total of 2,200, the balance of which had to be obtained from other sources."

In view of the foregoing, the Bureau of Statistics cannot recede from the position formerly taken or not recognizing Mr. Drummond's claim until proper vouchers covering the work he has done has been supplied to this Office.

Kamloops, B.C.,

June 23rd. 1913.

Department file No. 370341/2, May 26th, 1913.

I beg to report on the subject matter contained in Department letter under date and file given above, in reference to an amount advanced by Provincial Constable W.L. Fernie to two Indians of the Kamloops Band, likewise the amount collected by Mr. E.B. Drummond from the Western Canadian Ranching Company in respect to said Company grazing privileges on the Kamloops Reserve. (Harper Ranch Co. referred to)

In connection with which I have to submit that the matter was brought to my attention some time in April, 1912, by Mr. Fernie who about that time applied to me and asked me to try and collect from the Indians the sum of $100.00 which he had advanced to the two Indians and for thepayment of which he held a promissory note from Mr. Drummond which he had failed to get as Mr. Drummond had no funds to meet it.

After hearing Mr. Fernie's statement I called a meeting of the Indians for the purpose of investigating the matter, the meeting was attended by the Chief and a large majority of the members of the band, when the following information was given.

That during the temporary occupation of the Kamloops office by Mr. Drummond in the spring of 1911, he promised the Indians seed grain for their spring seeding which he told them he could get them if they authorize him to draw what was due from the Western Canadian Ranching Company as rent for said Company's grazing privileges on the Reserve; to this the Indians consented. According to the Indians' count, they figured that there were $500.00 due for the year ending February, 1912. They told Drummond that they were indebted to Mr. Fernie in the sum of $100.00, which amount by their consent Mr. Fernie had advanced to Philip Tomma and Basil Paul that they wished Mr. Fernie be paid from the

amount which they thought was due from the Ranching Company, the stated sum being fixed at $500.00. With the understanding that $100.00 of that sum was to be paid to Mr. Fernie and the remaining $400.00 towards securing seed grain.

With this authority it appears that Mr. Drummond immediately applied to the late Manager of the Ranching Company, Mr. E.W. Calhoun, (who it has been shown was in the habit of advancing monies to the Indians in respect to their grazing privileges at various times) for $500.00, and a cheque for that amount was issued, made payable to E.B. Drummond on behalf of the Indians.

From the information gathered it appears that immediately Mr. Drummond got possession of the cheque in question, He interviewed Mr. Fernie and questioned him about the money he had advanced to the Indians, and what he understood from the Indians of the money coming to them from the Ranching Company, pretending to secure Mr. Fernie pending the collection, he gave Mr. Fernie his Note, while as a matter of fact he had collected the money before he gave the note.

On furthery inquiries I found that Mr. Drummond did not pay for all the grain, (if he paid for any), I find in a statement handed me by my immediate predecessor Mr. Wm. Neild, that a very large portion of the amount, if not all, was paid from an entirely different source, this sum was collected for building sand taken from the Indian reserve.

After I had gathered these information, I wrote Mr. Drummond several letters, all of which were ignored by him. Later however I found him at the Leland Hotel this City, and forced an interview when he admitted receiving the cheque for $500.00, and the giving of his note to Mr. Fernie, but claimed at thetime to have spent the whole amount for seed. I pressed f for a written statement of disbursement which he promised to furnish but never gave.

Several weeks later I chanced upon him again in the

the Leland Hotel, when questioned on his failure to furnish the statement he got very gruff and insulting, refusing to give any satisfaction or to talk on subject, further than that he would give me a statement as soon as he could get in touch with his papers. I last saw Mr. Drummond at New Westminster last October while attending the Fall Fair there, when he told me that he had not had the time to make out the statement I had asked for.

My immediate predecessor, Mr. Wm. Neild, who have since moved away from the City, before leaving, on the 14th day of January, 1913, handed me a cheque for $7.99, which he told me was remaining in his possession from an amount he had collected for building sand taken from the reserve while he was in office after paying forthe seed grain which was got by Mr. Drummond for the Indians in 1911. Mr. Neild's statement showed that he had collected $239.75, for the Building sand, and that he had paid out in respect to seed grain $231.76, leaving a balance in his hand of $7.99.

I have been unable to find out the exact amount of grain furnished by Mr. Drummond for distribution at the time further than the information from 39 Indians who reported to received three sacks each of seed grain from the distribution, equal to 11,700 lbs, if the sacks averaged 100 each, but as Oats seldom average 100 pounds to the sack. At $40.00 per ton, it would seem that the amount paid out by Mr. Neild would cover the cost of the grain. It is clear, however, that Mr. Drummond received the money on behalf of the Indians to pay Mr. Fernie which he has not done.

All of which is respectfully submitted.

Your obedient servant,

Sir,—

Replying to Department letter under date and file given above, I beg to submit a copy of my report of June 23rd., 1913, on the subject matter dealt with, and to say that according to the statement handed me by my immediate predecessor, Mr. William Neild, the seed grain supplied the Indians in the spring of 1911 was paid for with money collected for building sand taken from the Reserve. This collection amounted to $239.75, out of which Mr Neild paid $231.76, leaving a balance in hand of $7.99, which he handed me. This amount tallied with subsequent statements of the Indians, 39 of whom had received three sacks each of oats, between 11,500 and 11,700 pounds in all or 5¾ tons, at $40.00 per ton. All of this was paid from the amount collected for building sand, according to the statement of Mr. Neild.

Mr. W.L. Fernie was never paid the $100.00 and no account has ever been given of the disposition of the $500. which Mr. Calhoun told me he paid and which Mr. Drummond admitted having received. The statements in my report are substantially those furnished me at the time by Mr. Neild and the Indians concerned, and showed conclusively that not one cent of the $500.00 collected by Mr. Drummond was used for the purpose to which he agreed with the Indians. Mr. Neild's statment shows Stevens & Allan's account at $108.30 and F. Ellison $44.90. He did notgive the amount of John Milton's account, but as he disbursed $231.76 out of the #239.75 which he collected, no doubt,

Dear Sir,

Re.- E. B. Drummond.

I beg to acknowledge receipt of your 370,341-2 of the 4th inst.

As requested we are herewith sending you copy of voucher handed to the Census Department on May 20th 1913, the original of which should be on fyle in that Department.

This account shows $599.00 due to Mr Drummond, but as $200.00 has been paid on account of this item, the balance due is only $399.00, and Mr St. Denis., the Secretary of the Census Department informed Mr Drummond in August 1913 that he would give a cheque to clear the balance whenever the Indian Department permitted.

The $230.00 item in enclosed account was for monies paid out by Mr Drummond to Miss Blatchford for assisting with the Census, a receipt for which was sent, by request, by Miss Blatchford direct to the Census Department.

Should you require any further information please let us know, as we have complete records of this case on fyle,

We would thank you to kindly expedite this matter as much as possible.

Yours faithfully,

Dear Sir,

re.- E. B. Drummond.

I am in receipt of your 370,341-2 of the 12th inst.

It would appear from the extract of report made by Mr John F. Smith, Indian Agent at Kamloops, which you enclosed with your letter, that he knows nothing, or very little, of the $500.00 item in question.

There should not be much difficulty in investigating this matter for Mr Drummond opened an account in the Imperial ~~Account~~ Bank with Mr Calhoun's cheque for $500.00 in the name of E. B. Drummond, Indian Agent., and arrangements were made with the Bank for its operation by Dr K. C. MacDonald as well, for Mr Drummond was not Agent at Kamloops, and did nothing except as locum tenens. Hay, oats, potatoes, and a little wheat were purchased from three stores operated by John Milton., Stevens & Allan., and F. Ellison. Cheques were drawn on this account for John Milton in full., Stevens & Allan $200.00 odd., and F. Ellison something short of $200.00. This left a small balance of something like $10.00 in the Bank which was later paid out to the order of Mr Neild. This can be easily verified by obtaining a copy of Drummond's account from the Bank, and statements from the firms above mentioned. Notes were given to three parties, viz:- Stevens & Allan., F. Ellison., and W. L. Fernie, and it was proposed to retire these by the proceeds of sale of shale, which by Mr Smiths report, Mr Neild did.

The first time that Mr Drummond met Dr K. C. MacDonald after the latters visit to Fort George, he handed him the Bank Book and verbally told him what had taken place, and later Mr Drummond, at the request of the Bank Manager, signed a cheque for

the small balance at the Bank, and it is believed that this cheque was in favour of Mr Neilds. Later when Mr Neild was acting-Agent Mr Drummond gave him a summary of the whole affair, and drew to his attention the three outstanding notes. The result seems to have been that Mr Neild collected in some money & paid some, or all, of the notes.

Full records of these transactions should be on fyle at Kamloops Office, and it is not understood why so much time has been allowed to lapse without the Department ascertaining from the Bank & the stores dealt with, whether Mr Drummond disposed of the $500.00 in the way he states.

Mr John F. Smith, in his report, lays a direct charge of thief against Mr Drummond, and we therefore persist in your Department taking immediate steps to verify Mr Drummonds statements, and taking proceedings against him should it be found, by your investigations, that Drummond is lying.

We appreciate the fact that circumstances compelled Drummond to expend the money in question rather irregularly without your Departments authority, but the urgent need for action is ample excuse for his having done so.

It is very unfair to keep this matter dragging on year after year, for Drummond needs the money which you are withholding from him.

It is hoped that you will pursue investigations along the lines suggested, and that an amicable understanding & satisfactory settlement will be made at an early date.

Awaiting your further communications.

Sir,-

In reply to your letter of the 16th instant, I may say it is regretted that the Department cannot further consider Mr. E.B.Drummond's claim, until such time as he submits substantial evidence in the way of accounts paid from the $500.00 which he received from Mr. Calhoun, or until he makes refund of the amount in question.

I beg to point out in this connection that the evidence with regard to payments made for grain does not corroborate Mr. Drummond's statement. I may say also that the course which Mr. Drummond pursued shortly after the transactions referred to took place was the cause of inconvenience to the Department. He left the agency without acquainting the Department or any person of his proposed movements and he was absent for some weeks. It was said that he was on a prospecting tour, but definite information in the matter could not be obtained, and not only inconvenience but disorganization of the agency resulted consequent upon his sudden and unexplained departure.

MEMORANDUM

Mr. Scott.-

The claim of E.B.Drummond, ex-Indian Agent at Lytton, for a balance of salary of $137.95, has been previously considered, as it was pressed by the Secretary of the Riverdale Branch of the Great War Veterans' Association. The claim has been refused as Mr. Drummond, who was Indian Agent at Lytton previous to 1913, left the service without submitting a formal notification in the matter to the Department and without accounting for certain moneys which he received as Indian Agent. When acting as Agent at Kamloops in 1911 he received $500.00 from The Western Canadian Ranching Company for grazing privileges promising the Indians that he would supply them with seed. The seed was supplied but it was not paid for with the $500.00, as Mr. Drummond gave his note for $100.00 and the balance of the accounts were paid by Agent Neild from moneys received for building sand sold.

Mr. Drummond had a claim of $399.00 against the Department of Agriculture for taking the Census in 1911, payment of which has been withheld as he failed to complete the work and to submit proper vouchers for the work done. This Department requested the Department of Agriculture to withhold payment of the amount until Mr. Drummond accounted for the $500.00 paid to him by Mr. E.W.Calhoun for the Western Canadian Ranching Company. This Department has intimated that it would consider Mr. Drummond's claim as soon as he accounted for the $500.00.

MEMORANDUM

Mr. Scott,-

Memorandum of the 9th August 1922 on file No. 370241-2 sets forth the position taken by this Department in regard to the claim of Mr. E.B.Drummond, formerly Indian Agent, at Lytton.

There appears to be no record in this Department of the receipt of a letter (referred to in the attached communication) of the 21st August 1913 to the Superintendent General relative to a verbal statement made by Mr. St.Denis regarding Mr.Drummond's claim against the Census Department, but there is on file a letter of the 11th November 1920 from the Secretary Treasurer of the Great War Veteran Association, Toronto, in which reference is made to Mr. Drummond's claim of $399.00. The following is an excerpt from that letter, "Mr. St.Denis, the Secretary of the Census Department, informed Mr. Drummond in August 1913 that he would give a cheque to clear the balance whenever the Indian Department permitted."

As pointed out in the memorandum quoted above this Department wrote the Department of Trade and Commerce (as in charge of the Census work) requesting that if the said Department proposed making payment for census work performed by Mr. Drummond that such payment be made to this Department towards settlement of the shortages in his accounts as Indian Agent. A reply dated 1st November 1920 was received to the effect that payment of any claim that Mr. Drummond may have against the Department of Trade and Commerce cannot be made until proper vouchers have been received by that Department. Evidence was submitted also to the effect that Mr. Drummond's delay in sending in or rather "his determination not to complete his census work" caused a great deal of annoyance at the Dominion Bureau of Statistics.

The letter of the 25th October 1920 written by the Secretary-Treasurer of the Riverdale Branch of the Great War Veterans Association is on file. In reply to that letter this Department furnished information such as above referred to regarding the position taken by the Department of Trade and Commerce with regard to Mr. Drummond's claim for payment for census work.

The Secretary-Treasurer was furnished also with an excerpt

excerpt from a letter of the 5th November 1920 received from r. John F. Smith, Indian Agent, Kamloops. In that letter Mr.Smith ade statement to the effect that his investigations go to show conclusively that not one cent of the $500.00 collected by Mr. Drummond (the receipt of which he acknowledged) was used for the purpose for which he agreed with the Indians. It cannot therefore be said that Mr. Drummond has accounted for the $500.00 as claimed.

I may say further that on the 1st December the Secretary-Treasurer was advised that "the Department cannot further consider "Mr. E.B.Drummond's claim until such time as he submits substantial "evidence in the way of accounts paid from the $500.00 which he re- "ceived from Mr. Calhoun, or until he makes refund of the amount in "question".

MEMORANDUM

Mr. Scott.-

There does not appear to be any reason to change the view taken by the Department previously in regard to the claim of ex-Agent Drummond as he has not accounted for the $500.00 which he admitted having received from Mr.Calhoun, of the Western Canadian Ranching Company, and Mr. Fernie, to whom he gave his note for $100.00 for money loaned to two Indians instead of paying him from the $500.00 as authorized by the Indians,is still unpaid so far as the Department is aware. There is also an amount of $89.05 additional to be accounted for, or a total of $589.05. The balance apparently due Mr.Drummond from the Trade and Commerce Department on account of services as Census Enumerator is $399.00, but that Department refused to consider payment of the balance claimed as Mr.Drummond did not complete the work and failed to submit proper receipts and vouchers. Sir,

I beg to inform you that the Department is desirous of obtaining information with respect to an advance of $500.00 made to Mr. E.B. Drummond, in 1911 when he was acting Indian agent at Kamloops. It is understood that he paid from this amount accounts for hay, oats and potatoes amounting to something short of $200.00 to John Milton, Stevens and Allan and F. Ellison, but he did not submit receipts for these disbursements. I have to request, therefore, that you will interview each of the merchants mentioned. You should obtain all particulars bearing on this matter, and should report the facts. Such evidence in the way of receipts as it may be possible for you to obtain in substantiation of payments made by Mr. Drummond should be transmitted to the Department. This collection amounted to $239.75, out of which he paid $231.76, leaving a balance in hand of $7.99, which he handed me. Sir,—

In reply to Department letter under date of May 4th inst., I beg to state that as John Milton is now deceased, Stevens & Allan have been out of business for a number of years, and Frank Ellison has left Kamloops some years ago, it is not possible to obtain the information required by the Department first hand.

I therefore beg to submit a copy of a letter to the Department from Mr. John F. Agent, former Indian Agent, on the matter, under date of November 5, 1920, and which I trust will furnish the information the Department desires.

Your obedient servant,

William C. Dallin

Dear Sir:

E.B. Drummond.

I am in receipt of your letter of the 4th inst.

Mr. Drummond in 1911 opened a personal account at this Branch, but I can find no record of the account being opened in his name as Indian Agent. I am also unable to find any record of the business in connection with the Agency having been transacted through us.

Probably you could have Mr. Drummond send his Pass Book to us with instructions to send it forward to you, and at the same time he could give us full particulars of the information which is required.

If this is done I will be glad to be of any assistance to you, if possible, in settling the dispute.

Yours truly,

Manager.

Dear Sir,-

Replying your favour of the 2nd. instant. There is nothing on file in our Office subsequent to October 29th.,1920 to show that Mr. E.B. Drummond has submitted proper vouchers to enable the Bureau of Statistics to accept his expense accounts. In any case, as pointed out in previous correspondence, the Bureau of Statistics has no intention of allowing all of Mr. Drummond's expense accounts, in so much as he refused to complete his work, necessitating the obtaining of the balance of the enumeration from other sources.

With a view to tracing the disposition of the funds the Department wrote to the Manager of the Imperial Bank, Kamloops, and asked for a transcript of the account alleged to have been opened in 1911 and copies of any paid cheques in connection with the account. He replied stating that in 1911 Mr. Drummond opened a personal account at that branch but they could find no record of an account in the name of Mr. Drummond as Indian agent, nor any record of business in connection with the agency having been transacted through the bank. He suggested that Mr. Drummond send to him his pass book for transmission to the Department giving full particulars regarding the transactions.

The Department sent a copy of the Manager's letter to Mr. James Hawkins, Secretary-Treasurer of the Riverdale Branch of the G.W.V.A., Toronto, who had interested himself in the case, at the same time asking that Mr. Drummond comply with the suggestion, but evidently no action was taken as nothing further was heard regarding the matter until the receipt of your letter.

Unless Mr. Drummond clears up this indebtedness there can be no payment of salary that was withheld.

Yours faithfully,

The Secretary,

Sir,—

382130

I have the honor to inform you that Divorce proceedings were commenced in respect to two Indians Bennett v Bennett v David, in 1908, in connection with which the late Indian Agent, G.W?Morrow, received from the Petitioner the sum of $100.00 (one hundred dollars) towards the cost of the action.

It is understood that Mr Morrow resigned his office about that time, and Mr Ernest Lorenz, his successor in Office communicated with the solicitors connected with the case-Messrs Mc Lennan and Savage, but the matter drifted on until quite recently, when I found correspondence in connection with the matter as a result of my attention being called to the ~~matter~~ case by the resident missionary at Port Simpson, and the Petitioner-Mr Bennet.

By way of following up the case in behalf of the Indian I communicated with Messrs Mc Lennan and Savage, of Vancouver, B.C., as follows:- September 20th, 1911.

" Metlakatla, B.C.

It is understood that a sum of money was some time paid to you in connection with divorce proceedings-Bennett v Bennett. (Reference to letters) This case has been brought to my attention, and I beg to request that you will kindly let me know just where the matter stands". C.C.Perry, Indian Agent.

A reply to this letter contained the following:-

"Regarding the fees necessary to carry on this divorce case that were paid over to Mr G.W.Morrow. Mr Morrow has never paid the same over to us, although in a letter to us he states ~~that~~ that he thought he had done so, however, we know that no such payment has been made to us, and all our expenses and services to date have been incurred and rendered without payment of any fees whatsoever. That is the way the matter stands at present, which is certainly most unsatisfactory to all concerned."

On October 7th I wrote to Mr Morrow as follows,viz:-

"A recent communication respecting the matter of a divorce -Bennett v Bennett-received from Messrs Mc Lennan & Savage,Barristers,of Vancouver,dated the 26th ultimo,contains the following:-"Regarding the fees necessary,etc etc(as quoted in the front sheet). I shall thank you to be good enough to let me hear from you on this subject,as the parties are desirous to clear the matter up".

C.C.Perry,Indian Agent.

Over four months have elapsed since writing to Mr Morrow as above,but to date no reply has been received.

The Indians are watching the result of my negotiatinns in this matter with interest.I have read the letter of Massrs Mc Lennan & Savage to the Indians concerned in the case, as they thought that the soliciters had kept the money.Now that they know the firm referred to have not received the money they demand an explanation from Mr Morrow,and ask the assistance of the Department in setting this business right.

Dear Sir:--

We have yours of the 28th inst. re Bennett divorce. In this matter we have a letter from you dated Feb. 18th, 1908 asking us to commence divorce proceedings and you further stated that you "Have the money in sight". We accordingly commenced action and the papers were issued and served upon ~~Daniel~~ Fanny Bennett, the ~~Petitioner~~ Respondent. The Co-Respondent in the case was one George M. Davis and we were advised that he could be found at Victoria. We accordingly sent the papers to Victoria for service upon George M. Davis but we were not successful in serving them and although we have enquired a great many times from Port Simpson, we have received no information as to the whereabouts of George M. Davis. We can apply of course to the Court for leave to serve George M. Davis by substituted service but we would have to satisfy the Court that it has been impossible for us to serve him personally. The matter accordingly stands in this way at present.

We wrote you about the last of the year 1908 for the fees to carry on the suit and on the 5th of February, 1909 you wrote us that you had been paid $100.00 legal fees to obtain a divorce from Fanny Bennett. You also state that you were under the impression that

you had forwarded us the money. We have no recollection of having received the same and there is no record in our books that any amount was ever received on account of this divorce action.

You will recollect that the divorce action of Bailey vs Bailey was going through about this time and that you forwarded us the fees in that matter. We see no reason why Mr. Bailey cannot obtain his divorce if this action is proceeded with but of course we have to be assisted in the matter of service of the papers as above outlined.

forwarded to my former address in connection

up with the Solicitors the cause of delay
you will note is on account of being unable
to make service on Davis. I did not receive
a letter from Mr Perry as I have been in
Southern California since Oct last the chances
are it is in some part of that State as
I was moving around most of the time
however the matter escaped my notice long

did not mention the matter to me some
time however I presume the money was
paid to you judging from the Lawyers
letter so I have paid it to them and advised
them to write Mr Perry if I paid it before

Dear Sir:-

Referring to yours of the 10th inst., re Bennett Divorce case, we did receive from Mr. G. W. Morrow a few weeks ago the sum of $100.00 to cover legal expenses in this action.

We received instructions in the matter over two years ago from Mr. Morrow, then Indian Agent, and prepared the necessary Petition, Affidavit and Citation, and the same were duly executed and issued from our Court. The Citation bears date April 21st. 1909. The Citation and Petition were served upon the Respondent on the 22nd day of June, 1909 at Port Essington, B. C. The papers were then forwarded to the Sheriff at Victoria B. C. for service upon the Co-Respondent, George M. Davis, as we were notified that he resided at Victoria. The Sheriff held the papers for some months and finally returned them unserved, as he could not locate Davis. We have written to Port Simpson several times, asking for further information regarding the whereabouts of Davis, but no definite information could be supplied

In regard to further proceedings, it would be necessary to either obtain an Order for substituted service dn Davis, or apply to the Court for leave to proceed in the action, without service upon the Co-Respondent. Mr. Morrow, however, now informs us that he thinks that Davis is now living in Victoria and could be easily located there at the present time. When Mr. Morrow first instructed us, he promised to remit our fees shortly, but failed to do so and we received no payment whatever for the work we did and the disbursements incurred, until the remittance of a few weeks ago. We have since the said payment, communicated with the Indian Agent at Metlakatla, B. CC.and explained to him fully the present situation. When Davis is served or service upon him is dispensed with, there appears to be no reason why the matter should not be brought to a head and a decree of divorce issued to Bennett very shortly afterwards.

Regarding your request for the $100.00,received by us to be forwarded to your Department, you will understand that that payment was intended to be in full payment of our fees and expenses for obtaining a decree of divorce herein. A considerable portion of the services necessary in obtaining a divorce, have already been rendered and considerable out of pocket expenses have already been incurred by us. Sir,—

I have the honor to remind you that, some months ago the Department received from Mr. G.W. Morrow, late Indian Agent of the North West Coast Agency, a sum of money which was paid to Mr. Morrow for the cost of Court proceedings in connection with a divorce action-Bennett V Bennett, of Port Simpson.

It is understood that the Messrs Mc Lennan & Savage, solicitors for the Petitioner Bennett, deducted a certain amount from the sum advanced to Mr. Morrow, returning the balance unexpended to the Department, in behalf of Mr. Morrow.

I am now in receipt of a letter from the man Bennett, in which he asks that some action be taken to obtain the divorce mentioned. Bennett stated in a conversation a few days ago that if proceedings to terminate the action cannot be taken he would appreciate the return by the Department of the money received from Mr. Morrow.

I await your reply in connection before again writing to Bennett.

Sir,-

I am in receipt of your letter of the 15th instant, in which you state that some months ago the Department received from Mr. G. W. Morrow late Indian Agent of the North-west Coast Agency, the sum of money which was paid to him for the cost of court proceedings in connection with a divorce action Bennett versus Bennett; and in reply I may say that you should have taken the trouble to acquaint yourself with the actual facts before making the above statement. The Department did not receive any money in this connection. On the 10th April you were told that the firm of McLellan, Savage and White of Vancouver were being written to and requested to forward to the Department the $100.00 which Mr. Morrow stated he paid to them. On the 18th April the above mentioned firm wrote the Department acknowledging the receipt of the money and stating that the said payment was intended to be in full of their fees and expenses for obtaining a decree of divorce. The Department replied stating that the said firm should be instructed with respect to further action in connection with this matter by the petitioner for divorce. I may add for your further information and that of Bennett, with whom you have apparently been corresponding, that this Department does not recognize any responsibility in this connection. It should be clearly understood that this Department did not receive any portion of the $100.00 above mentioned, as intimated in your letter.

Sir,—

I beg to inform the Department that Rex Backfat, No L.85 of White Pup's band states that he has given his son, named "Crawling Snake" aged now 2½ years, to Daniel Little Axe, No L.61 of White Pup's band, and on these conditions,

Daniel Little Axe to be this child's adopted father so long as he lives but in the event of D. Little Axe's death, the child if alive is to be returned to his father, Rex Backfat,

D. Little Axe to get treaty for the boy also rations during the time of this agreement.

Daniel Little Axe, who has no family, and is well off, states that he will adopt this boy as his own, and that in the event of his death, the conditions stated above are to apply. he, Little Axe also agrees that the boy is to be a legal heir of his,

The above two Indians ask the Department to be good enough to send a document embodying the above terms, so that they may both sign it and have it kept on file in case of any dispute arising after the death of either of them.

Your obedient servant

Sir,

I beg to acknowledge the receipt of your favour of the 10th instant, stating that Daniel Little Axe has adopted Crawling Snake, the son of Rex Backfat, the conditions of which adoption are set forth in your letter, and you ask the Department to send a document embodying the said terms to be executed by the parties so that the matter could be kept on file.

In reply I beg to say that the Department is not disposed to take any responsibility with respect to the validity or enforcement of this agreement as it is a matter between the parties. The Department is only interested so far as the payment of the annuity is concerned. If Backfat wishes to have this boy's annuity paid to Little Axe he should request you in writing to have this payment made to Little Axe, and the Department will make the payment accordingly.

Sir,

I have to inform you that it has been decided to create the position of Chief Inspector of Indian Agencies and Reserves, and Inspectorates in Manitoba, Saskatchewan, Alberta and the Northwest Territories. When Parliament creates the position and provides an appropriation for salary and expenses, you will be recommended to His Royal Highness the Governor-General in Council for appointment. In the mean time I have to request that you will familiarize yourself with the duties of the proposed position and take up temporarily the work to be assigned to it. The salary will be at the rate of $3,000.00 per annum with actual, reasonable travelling expenses. Your headquarters will be in the city of Winnipeg. In due course you will receive general instructions and special instructions from time to time.

Sir;-

I am directed to acknowledge the receipt of your letter of the I2th.Instant,in which you refer to a communica-tion from the Department to Mr.McKenna.of the 5th instant regarding instructions as to his official duties,and to say that it is obviously necessary that Mr.McKenna should comply with the instructions issued from here.Your statement that "I find that this Department is more or less of a fetish,and that the work is being duplicated in every particular;that here and and at Ottawa.one-half of the staff should be relegated to were they belong,and that is in my opinion outside of the public service," is one which the Department regrets you made use of and would scarcely have believed it had it not appeared in one of your own letters,A statement so sweeping in its character ,emanating as it does from one of the Officers of the Department,should have for its foundation a long and mature experience in Departmental work,and,even then, would have to be accepted with considerable reservation.

The last paragraph of your letter,in which you say that"If you want know anything about his movements during last season,all you have to do is to look up the records each and every one them signed by himself" is entirely gratuitous. The Department hopes that in futire correspondence will be in somewhat different tone from the latter herein referred to.

Mr. McLean,-

With reference to the instructions to be prepared for Chief Inspector Campbell on the question of schools I think it would be well to utilize his services more for special investigations of industrial and boarding schools when properly instructed.

Of course, when visiting Reserveshe would naturally visit the school and report upon the work being done, buildings and equipment and as to whether Boarding Schools are being conducted according to contract, and the condition of ex-pupils on Reserves should also receive his attention when he was inspecting any special agency but he should not be allowed to alter the school policy in any way, to admit Indians or half-breeds to the schools or to act with a free hand in these matters. At the same time his services might be very valuable in bringing new ideas

new ideas to bear on the subject of ex-pupils and the practical work taught at the schools which should be designed to meet the needs of the future requirements of the pupil.

Mr. McLean,-

It is not the intention that Chief Inspector Campbell should be at the head of an office at Winnipeg with a staff of clerks independent of head quarters. He is to be a travelling officer. He should,therefore,not have any control over other Inspectors. The Chief Inspector and the staff of Inspectors should receive their directions from head quarters. He should be available at all times for special inspection and should be in the field the greater part of his time. He should not have power to incur any expenditure or to alter instructions of the Department with reference to expenditure without special authority from head quarters. It is only in this way that the appropriations can be properly administered. I think he should not have authority to alter directions given to Inspectors or Agents by the Department but he should frequently report upon these and suggest possible improvement.

I take it that there would be no objection to altering.

Sir,-

With reference to an Order in Council dated 27th ultimo, appointing you Chief Inspector of Indian Agencies and Reserves and Inspectorates in Manitoba, Saskatchewan, Alberta and the North West Territories, I am directed to call your attention to the following general instructions.

It is desirable that you should spend as much time as possible in the field, inspecting the various Agencies and Reserves in your district. The Department does not contemplate establishing an office at Winnipeg independent of headquarters, and you should keep in as close touch as possible with the Department, in order to determine if its instructions are being carried out.

Your district is divided into seven Inspectorates as follows,-

Alberta Inspectorate, under	Inspector Markle
North Saskatchewan,	Inspector Chisholm
South Saskatchewan,	Inspector Graham
Lake Winnipeg,	Inspector Bunn
Lake Manitoba,	Inspector Jackson
Lake of the Woods,	Inspector Semmens
Treaty No. 8,	Inspector Conroy.

In addition to the above Mr. J. A. J. McKenna is Inspector for Roman Catholic Indian Schools.

You have been furnished with a map showing the territory embraced by these Inspectorates, and will be in a position to familiarize yourself with the locations of the various Agencies and Reserves.

The staff of Inspectors at various times receive special instructions, which with their general instructions are not to be varied except by the Department.

Enclosed is a copy of the Indian Act, and you should see that as far as possible its provisions are carried out. Under cover of Department's letter of the 6th ultimo, you were furnished with a copy of the regulations recently formulated for the guidance of Inspectors, Agents and Teachers in regard to Indian Day Schools. A copy of the Agreement relating to the management and maintenance of Boarding Schools is enclosed for your information.

The Department will be glad to receive from you from time to time reports dealing with the facts regarding the methods of cultivating the land, caring for the stock, keeping the Agency books; or as to how the general work of the Agencies is being carried on. In order, however, that appropriations may be properly administered, you should not incur or authorize any expenditure without special instructions from Headquarters.

Regulations regarding land, timber, oil and gas are herewith enclosed. These matters are of a specific nature, and are generally dealt with under special instructions in the event of anything arising requiring attention.

The Department expects from its officers in the field full information regarding the reserves in the different Agencies and Inspectorates so that the work of administration may be properly carried on, and the success of the ad-

ministration

administration of Indian affairs at Headquarters depends in a great measure upon the loyal co-operation of all the officials, both in the Inside and Outside service of the Department.

In order that the Department may be kept in touch with your work, it will be necessary that you should advise the Department from time to time before making an inspection and obtain the required authority for so doing.

Sir,-

Your letter No. 402,890 received.

I am at a loss to understand to what is referred to in this letter. Except in very minor matters I have been particularly careful not to authorize any expenditure without reference to the Department because the embarrassment to the Department, that might result from such action, would recoil on me. I have no desire at any time to cause any Departmental troubles, hense my care as had been stated. However, if your letter is based on my action with regard to authorizing the Agent at the Blood Reserve to carry on plowing operations instead of leaving expensive machinery lying idle pending action of the Department, I beg to say that the Department had better wire the Minister and tell him that he must ~~may~~ not do things of this kind without authority from Frank Pedley etal as my instructions in this regard came verbally from the Minister.

I am directed to acknowledge the receipt of your favour of the 17th. ultimo, dealing with your authorization of certain expenditures mentioned therein, and in which you apparently resent the Department's action in calling your attention to the expenditures made without the Departmental authority, and in which you advise the Department to "wire the " Minister and tell him that he must not do things " of this kind without authority from Frank Pedley " etal as my instructions in this regard came ver- " bally from the Minister," and to say that it is expected that such language will not be used by any officer in communicating with the Department. Referring to your letter of the 18th instant, respecting the purchase of an engine, etc. for Moose Mountain Agency, I beg to point out that although the Band has Capital Funds at its credit they cannot legally be used for the purchase of implements or machinery which cannot be regarded as being permanent improvements. As the purchase, however, has been made payment cannot be refused and consequently the Department will have to provide funds from another source. It should be borne in mind always that the funds at the command of the Department are limited always to the Vote by Parliament and if provision is not made in the estimates for expenditure, there are no funds available from which to meet it.

The granary may be regarded, it is thought, as a permanent improvement and the cost will be charged to the Capital Funds of the Band and the accounts in connection therewith will be paid as soon as the necessary Order-In-Council is obtain authorizing the expenditure. Kindly advise Mr. Cory accordingly.

The Secretary,

Sir,-

Re No. 304,532 and III,775-I3. These two letters I have received and in answer beg to say that my statement in regard to the matters referred to in these letters is absolutely correct. I have in my desk memos of matters I took to the Minister on different occasions for his instructions. I have opposite these items pencilled memos of what the Minister said and I make no mistake in the remarks I made in my letters on these questions. Did I trust to memory I might be in error but I have the memos and know what I am talking about. In your Departmental letter No. 402,890, I see a paragraph as follows: "It is absolutely necessary that the Department should exercise control over its Officers &c". I would refer you to a letter written by an Official Mr. D.C. Scott to me in which he said with reference to changing instructions to Agents re the Stampede, "The Minister is the Department". I certainly feel obligated at all times to obey the behests of the Department if Mr. Scott's explanations of the Department are true, but I most emphatically object to being the butt of any Official as in the above quoted letters when I know that I am absolutely right in what I say, even if the language used is somewhat exaggerated. I want this filed along with the letters above quoted which were sent to me. In conclusion I may say I do not believe these matters were properly laid before the Minister and that his expression with regard to them was as sent to me. Of course I can readily believe that the

Dear Mr. Campbell,-

I have your letter of August 2nd. with enclosures. I did not think it necessary to telegraph to the Agents and, therefore, did not do so. The first sentence of your letter to them is quite sufficient to enable them to act with you in this matter:- "The minister has decided to allow the "Indians to take par part in the celebration." The Minister is the DEpartment, and when you are acting under his authority you have peoper instructions. Your letter seems to me to cover the ground and I like the idea of exhibiting some of the agricultural produce of the Indians. You will probably think it advisavle to give us a report after everything is closed up.

Yours sincerely,

My dear Mr. Scott:

As you know I promised to come and see you when down east, but on leaving Montreal on Monday, I got homesick for my work of organizing my Battalion here, and instead of stopping off at Ottawa for a days visit, I came right through. I had a hunch that I was wanted here and on arrival, found that my good angel whispered the right message to me, as my presence was very badly needed. You can realize that with over two hundred new men and twenty new officers, and new organization, that things could go to the bad very easily in a week, despite the good intentions of all concerned. I regret very much having had to put off my visit to your office, and the chat over many things I had hoped to have, but I expect it will not be long before I am back there when I will be able to leave my Regimental affairs in better orders than now.

Wishing you again the Compliments of the Season,

Sir:-

415333

My wifes sister Mary Singleton (age about 15 years.) of the Eagle Lake reserve wishes to come over to stay with us. and leave her parents next week. owing to the drunken habits of her father Alex Singleton. and her mother. (the mother also gambles.)

After the Treaty payment, (June 24 last) at the above said reserve I am told there was not a sober man or woman for five days. including young Joseph Adams a boy of about 14 years of age.

Mary has little or no peace at the reserve. whose word I have no reason to doubt. I therefor wish and ask you to give me authority to keep Mary when she comes to stay with us as long as she wishes to stay.

I have made complaints to the Indian Agent McKenzie. Kenora. time and again of the drinking and gambling habits of the Indians here: but find it is of no use. as I am of the opinion he is pretty fond of the liquor himself.

Blue berry picking will commence in a few days

so the Indians will be making some more money. and the children will again have no peace for drunks.

The Indians of this and Wabigoon Bands are on the decline. But I notice in the annual reports of Agent McKenzie that the Indians are gradually improveing. now I say this is absolutely untrue.

I used to be a teacher at the Eagle Lake Reserve and I might refer you to one of my letters of complaint dated April 22nd. 1908. and there are several previous to this date.

I am now a settler in this district.

Revd Sir,

I beg to enclose copy of a letter of the 4th instant, which the Department has received from Mr James Fox, of Eagle River, in which he states that his wife's sister Mary, daughter of Alex. Singleton, of Eagle Lake Reserve, is anxious to leave the reserve and reside at his house, owing to the intemperate habits of her father and mother, and the Indians generally on the reserve.

The Department desires that you will enquire carefully into the case, not only with a view to learning all the facts with respect to the Singleton family, but also in order that you may know whether drunkeness and gambling are carried on as stated upon the reserve. The charges made are of a serious character, more particularly as it is stated that the matter has been brought to the attention of the Agent, Mr McKenzie, and that he has failed to act) and therefore they should be given due weight by you when making enquiries . Your report will be awaited.

No.122:- July 22nd. 1912:-

ACCOUNTANTS JUL 24 1912

Sir:-

I beg leave to inform that I have just returned from Eagle River, where I had accompanied, Mr. Inspector Semmens? with regards certain statements made in James Fox, letter dated July 4th. 1912. and your letter to Mr. Semmens. No. 415,333. of July 10th. 1912.

I may add that all the statements made by Fox were proved to be falsein every respect,which will be shewn to you by the evidence that will be submitted to you by Mr. Inspector Semmens.

I may say that I have always done the very best I could to put down both drinking and gambling on all the reserves.and have taken action on every report I received, but in every case it was only hear say, whichis no evidence in a court of Law. In 1908. I receiced a report from Fox. that Gambling and drinking was going on, at the reserve, I went out there with Constable Emmens, it was during the winter, and no roads, only about one half way , and we had to walk through the snow the other half, when we got there Fox, could not give me any direct evidence, however we had the suspected women up and they pleaded guilty, to playing cards, for matches, and other articles, the women all had young babys, and as we could not take them in to Ox drift, they on a promise, were allowed to go on suspended sentance, on several cases since that time I have issued warrents for Indians and placed them in the hands of the Provincial constables, as well as some in the hands of Indian Constable Ralph Delbridge, they however were not returned to me,and I could not take any further action,

I have a very large district to look after, and often when a report arrives here I am absent on some other business, for days at a time, and consequently the report is laid over untill I have time to look into it, and further as it costs the Dept a lot of money to make these trips, I feel dilatory to incur the expense, except I am sure to get sufficient evidence to make a conviction,I am of the openion that when you will receive my returns for May, June and July.

July. when I get time to meke them out, you will find that both my self and constable have not been idle or derelict in performing our duty, I can further say that Mr. Inspector Semmens accompanied me during the payments of 1911 and 1912. and I leave it to him to say if I have not done my duty in all respects, as far as I could do , I may say that every one is liable to make a mistake, but I fancy I have not made many, which my work will prove,

I am perfectly satisfied to leave all my doing in the hands of Mr. Semmens, and any other Inspector who has visited this agancy since I have been in charge here, or who ever may come in the future, on inspection or otherwise.

Before allowing him to go however he was earnestly warned against indulgence in liquor and was reminded that the upmost penealty that the law requires would be meted out to all offenders. He was also asked to note and inform his people that in fractions of the law would be followed by imprisonment and not by fines as in the past.

.....

The statments in Mr. Fox's letter were then taken up

"1" Mary Singleton was asked whether or not she asked Mr. Fox to allow her to live at his house so as to escape annoyance from a drunken father and mother.

She replied that she had not asked to live with Mr. and Mrs. Fox but admitted that Mrs. Fox had asked her to come for the sake of company.

.....

"2" The evidence here submitted/showed that it was not true that there was not a sobber man or woman on the Reserve for two days after Treaty and Treaty was paid on the 25th instead of on the 24th as stated by Mr. Fox.

.....

"3" The writer has no objection to Mary going over to stay with the Fox's if her parents are willing, but I should object to outside parties coaxing away the girl by any undue influence

.....

"4" The Indian agent was asked if he had ever recieved writen complants about ~~anything in gambling but about~~ the drinking and gambling habits of the Indians of Eagle Lake and he admitted that he had. He was ask if he had attempted to correct the wrongs complained of and he said that he had repeatedly done so and that on several occasions Inspectors had visited the Reserve with him, but they never could obtain sworn evidence sufficient to convict.The Agent promised

that he would furnish a writen statment showing how many warrants he had issued against Indians at Eagle Lake but in the absoents of that the Inspector is convinced that the charge was not just . Mr. Fox when asked

.....

Mr. Fox was asked whether his complaints referred to the present or to the past and he answered that it was five or six years ago when he was teacher of the Eagle Lake school but that he was of the opinion that it was not much better at the present time. This was not sustained by any proof.

.....

"5" With regard to the blue berry picking and money making and consequent intoxication and disturbancne referred to in Mr. Fox's letter he had nothing to say eccept that it might be expected. It is hoped however that the circumstances of our visit will prevent this.

.....

.....

"6" Mr. Fox was next asked what he meant by the decline of the Indians on the Eagle Lake and Wabigoon Reserves, and he replied that he did not refer so much to numbers as to morals condition. The question of moral standing could hardly be taken up in court and the writer reserves the right to refer to this question in his report of inspection, but I very much question that Mr. Fox either by presept or example is a very helpful citizen of the neighbor-hood.

Sir,-

I beg to acknowledge the receipt of your letter No 415333 of the 10 th inst inclosing a copy of a letter from Mr James Fox of Eagle River which contained certain statements reflecting upon the general moral condition of the Eagle Lake Indians and also assailing the Agent Mr R.S. Mc Kenzie for neglect of duty. Said letter was received on the 16 th and on the 18 th I proceeded to Eagle River for the purpose of investigating the circumstances and charges.

The Agent was asked to be present and Mr Valentine the constable at Kenora was also called into service and Mr G. O. Grassick the local Constable employed under the Provincial Government was asked to cooperate in bringing in the accused persons and the witnesses .

Court was opened at 2 P.M. Friday the 19 th of july and Alex Singleton the Councillor was charged with unlawfully having intoxicants in his possession etc. (See Warrant inclosed) The evidence showed the accused not guilty and his discharge with a warning followed.

I then looked into that part of the letter which referred to Mary Singletons desire to be with Mr Fox for protection from a drunken Father, and found that she had never expressed such a desire but had been requested by Mrs Fox her sister to come and live with them for company

We next looked into the statements made by Mr Fox reflecting upon Mr Agent Mc Kenzies' work and found that there was no case .

The evidence submitted was recorded and signed by the witnesses and certified copies of the statements made under oath are attached.

I submit that so far as evidence was obtainable the letter sent by Mr Fox was unreliable and unjustifiabl

June 29, 1932.

Dear Sir,-

With further reference to my letter of the 13th April last and your reply of the 4th ultimo, your file 32-IA-IA7, regarding the re-organization of the Regina Indian Office, I have to say that Mr. S. Cookson, Principal Clerk in position IA-IA7-7 and Mr. H. P. Johnson, Principal Clerk in position IA-IA7-8, are now in Ottawa and it is desired that they be added to the establishment here, Mr. Cookson in the Secretary's Branch and Mr. Johnson in the Lands and Timber Branch.

The services of Mr. W. J. Hay, Clerk, Grade 2, in position IA-IA7-12 and Mr. Otto Brandt in position IA-IA7X-5, are being discontinued. Their positions may be abolished from the 30th September. Position IA-IA7-4, Inspector of Indian Agencies, Grade 2, the former incumbent of which was Mr. J. R. Bunn, now deceased, may be abolished.

If you have been advised by the Comptroller of the Treasury as to position IA-IA7-6, I presume the re-organization might now be made and should appreciate your taking the necessary action without delay.

Yours very truly,

D. S. Williams

OTTAWA, July 7th, 1932.

Dear Sir,

I am directed to acknowledge your letter of the 29th ultimo, with reference to positions IA-IA7-7 and 8, and of the positions affected by the closure of the Regina office.

I am to advise you that the Commission will take immediate action in the case of the two positions specifically mentioned, just as soon as you can supply statements of work indicative of the load imposed upon the units to which it is proposed to have the incumbents of these positions transferred.

A letter of enquiry is being addressed to the Comptroller of the Treasury in connection with position IA-IA7-6, requesting information as to his decision on the need of this addition to his staff, and the duties to be assigned.

Under Order-in-Council P.C. 44/1367 of the 14th June, 1932, it is not necessary to submit a report to Council for the abolition of the positions rendered vacant by the retirement or decease of the other positions referred to in your letter.

Department of Indian Affairs,
Commissioner's Office,
Regina, Sask., April 3rd, 1920.

Personal.

Dear Mr.Meighen,-

You are aware that Mr.Crombie has resigned his position as Inspector of Indian Agencies. He told me that he was asked to re-consider the matter, which he has done, but remains firm in his decision to leave, as his health compels him to move to the coast. I think that Mr.Crombie should have given me some notice. He took up the matter with Mr.Scott during my absence, and I have had nothing from the Department officially or otherwise to date.

Now what makes the position so difficult is that I have been trying to run this office since its inauguration with an inadequate staff. I knew this was the case at the beginning and since then the staff has not increased and the work has more than doubled. I did this in the interests of economy, but I am now convinced that it was not a wise policy. The staff has had to work overtime and often on holidays. This overwork has been the cause of much illness for myself and several members of the staff, and I realize that it is imperative that I have more help from now on. I doubt if there is an office in the Government or in any other private concern that is attempting to handle the volume of work that goes through this office, with as little assistance as I have. I need not dwell long upon the various duties that I have been called upon personally to perform since I became Commissioner, other than to mention the work of negotiating surrenders with the various Bands of Indians of Manitoba, Saskatchewan and Alberta for about Eighty Thousand Acres of land, which entailed the work of visiting the Reserves, holding meetings, examining land, drawing up Surrenders, making payments and seeing that the money was judiciously spent; all of which took up a great deal of time. You are aware also that the work of my office is altogether different to that of former Commissioners. New work has been undertaken and a more rigorous farming policy inaugurated on reserves; the leasing of large areas of Indian reserves, thus bringing in much larger revenues to the Indians than they ever had before. Greater attention has been paid to the work on the reserves, and I can assure you much more is needed, particularly in Alberta, where the work is not in good shape. The work of Greater Production on our own farms, if handled by a private corporation, would, I am sure keep an office staff of at least four or five members.

The volume of work in this office and on the reserves necessitates the following additional help,- A first Class office Manager, with an intelligent knowledge of Indians and our Policy.

An Extra Clerk.

Two Inspectors,- one to fill the position that Mr. mbie now occupies, and the other to be kept busy most of the e visiting and checking up reserves. I should like to have selection of these men. I want to bring in Mr.MacDonald

of the Indian Agency, Battleford, as Office Manager, to be given the rank of Inspector in order that he could get adequate pay to enable him to live in the city. He is a splendid accountant, a good correspondent and has a splendid knowledge of Indians and I think he would develop into an excellent assistant for me here.

As to the Inspectors, I have one Agent in view who I think should be promoted.

I am speaking to you frankly on this matter. I feel sure that you know I would not ask for additional help if I could possibly carry on without it. But it is absolutely necessary that I have the right sort of assistance if I am to accomplish anything. The work is heavy and when the additional staff is appointed there will be sufficient work to keep them all busily engaged.

I would ask that you give the matter your immediat consideration, as I am now practically alone here, with Crom leaving and Cookson, my Chief Clerk off duty for four months owing to sickness, and the rush of Spring work upon me.

Yours faithfully,

W.M.Graham

Send for Inspector Bunn to take Crombie's place until Civil Service Commission appoints successor. Could not approve transfer of Miss Mann as she would be affected detrimentally. May engage man temporarily to take Cookson's place until he is fit for work again. Will endeavour to fix this appointment up with Commission. Will get Commission to advertise for successor to Crombie at once, as we are not allowed to promote unless the position is thrown open to competition.

Dear Mr. Graham,-

As Mr. Crombie has written tendering his resignation from the 15th instant, I am taking the necessary steps to carry the same into effect from that date, and am so advising him by letter to-day.

The greatest possible care will have to be used in selecting a man for this place. Before I take the matter up with the Commission, will you kindly let me know whether there is anyone in our service whom I might recommend to the Commission for a transfer to fill this vacancy, or if you know of anyone having the requisite ability who might apply for the position.

Dear Mr. Scott,-

I am in receipt of your letter of 7th instant, which only reached me to-day, the delay having been in ottawa before letter was posted, as it was enclosed in an envelope that contained letters written on the 13th instant;

As you are aware Mr. Crombie has been stationed at Headquarters here for the past two years and has assisted me in all branches of the office work. He very seldom did any outside work, but was a very able assistant and worked hard when his health was good. It is essential for the man who takes over his work here to have a knowledge of Indian work on the reserves besides knowing how to handle correspondence, oversee the book-keeping etc. He should be able to relieve me of all the details and carry on the work during my absence, and thus make it possible for me to spend the greater part of my time on the reserves. I do not know of anyone who is capable of filling

filling this position at present.

The work on the reserves requires a great deal more attention and checking up than it has been receiving. Mr. Christianson was practically the only man available for such inspection work during the past year. Mr. Markle, as you know, has rendered no assistance for some time. The class of men we have been able to engage for positions of reserves has not been very efficient; there have been a great many changes and the work has suffered in consequences. It is absolutely necessary to have more Inspectors in order to keep closer supervision over the work in the field.

I wish to make the following recommendations regarding the assistance I consider it is necessary to have to properly carry on the work.

I should like to have Mr. Murison, of Touchwood, promoted to position of Inspector in Mr. Crombie's place, but not to stay in office here as the latter did. Mr. Macdonald of Battleford, is another Agent I should like to have for an Inspector, and he and Mr. Murison could render excellent service inspecting Agencies as required. Mr. Bunn should be transferred here. He could

Indian Affairs. (RG 10, Volume 4069, file 427,063 Pt.1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

could not fill Mr. Crombie's place, but he could take over part of the work and assist in the office generally. He would have enough to do here to earn his salary and one of the Inspectors at Winnipeg could take charge of the work formerly done by Mr. Bunn. To bring Mr. Bunn up here for a couple of months would be expensive and unsatisfactory. If he is transferred permanently he could be thoroughly initiated into the work and I believe would prove to be of great assistance. The house Mr. Crombie is vacating will be available for him if desired.

With the above changes and a thoroughly competent man to take over Mr. Crombie's work here, to have full charge of the office and carry on business while I am away on Reserves, I think I could manage until August, when Tyacke will, I trust, be replaced by some one who will be of some use.

It is of the utmost importance that increased assistance be authorized. I cannot ask my staff to keep on over-working and thereby risking their health as they have been doing. It would be unfair to them and not in the best interests of the work, which is increasing all the time and demands more attention.

Dear Mr. Graham,-

I beg to confirm my telegram to you of the 22nd of May, as follows:-

"We approve of the tr nsfer of Agent Murison " to your office as a prospective appointee to the position " of Inspector. The vacancy occasioned by Crombie's resig- " nation will be advertised at once by the Commission, and " all our Inspectors and any other of our eligible officers " will have the right to apply for this position so that " Murison's transfer does not give him precedence over " Christianson or any one else. And to say that I have to inform you that the position vacated by Mr. Crombie is classified as Indian Inspector, Grade 3, salary $3,000 with increases of $120 per annum up to $3,240; and Christianson's position is classified as Indian Inspector, Grade 2, salary $2,400 with annual increases of $120 up to $2,880.

Mr. Christianson might very well look forward to promotion and Mr. Murison take the junior position. I would like to point out that Mr. Murison will not be benefited by the change. He is at present classified as Indian Agent, Grade 5, with a minimum salary of $1980; of course either whole or a part of the value of the perquisites may be deducted from this salary, but even under the present circumstances he is receiving $1400 in cash with a free house, rations, light and fuel. If he were transferred to Regina it would be necessary for him to pay rent and he would not

You have referred lately to a Bill which is now before the House, which, if it passes, will ante-date the classifications.

Dear Mr. Scott,

I understand it is intended to retire from the service Inspectors Markle, Semmens and Jackson. When this takes effect I would advise that the following officers be appointed to take their places. One Inspector Grade 3 with headquarters at Regina; one Principal Clerk, a man that can be used at times to make inspections of agency and industrial school books, and assist in the general work of Regina Office.

I also require a clerk to check up agency returns and attend to correspondence arising from the work. At the present time I have a Mr. Hayes attending to this work. He is paid for the time being out of War Appropriation, although the work he is doing has nothing to do with this particular work.

The officers retiring from the service are drawing salaries aggregating $7200.00. Under the proposed arrangement the total salaries will amount to $5800.00 and we will have a much more efficient service.

Dear Mr. Scott,

x x x x

I am not sorry that this large undertaking is drawing to a close. It has necessitated a considerable amount of work, and was of such magnitude that the time of one man could have been fully employed in doing nothing else but directing the operations. The closing down of the Greater Production farms will not lessen to any appreciable extent the duties of the two Inspectors and myself as the work of this office is becoming heavier all the time, and with my limited staff, we are kept very busy dealing with the work at present underway. As a matter of fact Mr. Christianson and Mr. Murison are called upon to do more than they should. They are continually on the move, as you will have noticed from the comprehensive reports furnished by them to the Department from time to time, making frequent inspections of the various Agencies in the three Prairie Provinces. Much still remains to be done, and there is no doubt that four Inspectors could be kept fully employed in the field in these three Western Provinces. The conditions prevailing on the reserves in Manitoba are such that a considerable amount of time will require to be devoted to inspection work in that Province alone.

Sir,-

I have to acknowledge receipt of your letter of May 28th, No.427063-A in reply to mine asking authority to engage a temporary stenographer when one of my staff stenographers is away on leave.

As you request, I give below a detailed statement showing how each member of my staff is occupied,-

S. Cookson,- Principal Clerk, with supervision of office staff, whose duties more particularly involve-
The scrutiny of, consultation with the Commissioner in regard to and the general management of all correspondence, reports, etc. and work arising out of and incidental thereto.

H. P. Johnson,- Senior Clerk Book-keeper ,- whose duties comprise,-
A. The recording and indexing of correspondence and the care of Files and work incidental thereto.
B. The preparation and recording of all leases and the conduct of correspondence in connection therewith.
C. The recording and checking of returns.
The following is a list of returns read and checked up in this office,-
Agents' monthly reports
" " paylists
Half-yearly stock returns
Annual Inventories
Estimates
Doctors' Monthly returns
Nurses' reports
Inspectors' reports.

A.W.Tye. - Senior Clerk. In addition to duties of Commissioner's Secretary, performs the following work,-
A. Keeping cash records, making bank deposits and keeping record of Trust Funds, War Appropriation and Warehouse accounts etc. and attending to correspondence arising therefrom.
B. Recording telegrams received, keeping record of Indian Hospital patients, arranging

Mr. Scott,-

I observe in connection with Mr. Graham's Greater Production cash statements that a man named J. Little has been employed as Accountant since 3rd May last @ $150.00 a month. There does not appear to be any authority for this man's employment, neither has the position been established, nor has the appointment been made under the provisions of the Civil Service Act, which calls for a certificate from the Civil Service Commission. The payments therefore made to this man are irregular and I expect the Auditor General will take exception to them.

Sir,-

In the examination of the accounts rendered by Mr. W.M. Graham for his expenditure at Regina on account of Greater Production I find that Mr. J. Little has been employed by Mr. Graham as accountant from May 3rd, 1924 at a salary of $150 a month, and also that Miss J. The authority given Mr. Graham by the Order-in-Council of February 16th, 1918 (P.C. 393) for the employment of such assistance as might be required under the Greater Production Scheme was cancelled by the Order-in-Council of January 16th, 1922 (P.C. 82) which rescinded the former order. As a consequence, the employment of these officials by Mr. Graham without the authority of the Civil Service Commission is in contravention to the Civil Service Act. Dear Major Simmins,- July 6, 1925.

Incl. I beg to inclose herewith the statement, with reference to the employees at the Indian Commissioner's office at Regina, together with their salaries. You will note that we have a position as Stores Clerk, which is marked "vacant". Though Messrs. Smitton and Hay are both employed as Stores Clerks, neither one has as yet been assigned to this position, which was transferred from the warehouse at Winnipeg to the Regina office on the closing of the former warehouse last year. Mr. H. P. Johnson and Miss Alice W. Tye are recommended for Grade 4 Clerkships in the report on the recent revision.

COMMISSIONER'S OFFICE,

REGINA, SASK., 12th. November 1925

Dear Mr. Scott,

I wish to refer again to the case of Mr. H.P.Johnson who has been a clerk in my office since September 1920. I brought this man's case to your attention two years ago pointing out that he is wrongly classified in my opinion and thus inadequately paid for the services he is rendering to the Department. I also mentioned his case to you a year ago and it was decided then that the matter would be settled after an officer had been sent here to re-classify the staff. It is some time since Major Simmins was here and I would be glad if you will let me know what can be done for this man. His salary is $135.00 per month, he is married and may at any time be called upon to support his widowed mother. He was getting $125.00 a month he left the service of the City of Regina and had he been paid from Greater Production would have been getting $160.00. The nature of his work would justify paying him a better salary than this. Mr. Johnson has charge of all returns from the three Provinces, writes all correspondence in connection therewith which is quite heavy. Another important part of his work is in connection with leases and land sales. He draws the leases himself and in every way I have found him a most valuable assistant and I think he has not had all that he should have had.

He performs other duties which need not be enumerated here: in fact, he is one of the busiest, if not the busiest, men in the office and it seems to me that his case, which has been standing for two years, deserves attention. I hope you will be able to give him a classification that will provide a salary in keeping with his work.

TO
HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

As provided in Sub-Section 2 of Section 9 of the Civil Service Act of 1918 as amended, the Civil Service Commission, on the recommendation of the Department of Indian Affirs, presents the following report on the organization and establishment of the Office of the Indian Commissioner, Regina, Department of Indian Affairs:

At the request of the Department, the Commission has made an investigation of this office and has ascertained that while the general establishment of the unit is satisfactory, there are several cases which require adjustment. The recommendations, as set forth below, have the concurrence of the Department:

1. That position IA-IA8-~~628~~, now Clerk (Grade 4) be regraded as Principal Clerk, as the duties are no under-graded.

2. That position IA-IA8-625, now Principal Clerk-Bookkeeper, be regraded as Principal Clerk, and on the retirement of the present incumbent be reduced to Clerk (Grade 4), as the duties of positions IA-IA8-628 and 625 can be so distributed as to render this economy possible.

3. That authority be granted for the continuance of two temporary positions of Clerk (Grade 2), as they will be required for an indefinite period.

4. That three temporary positions, the incumbents of which have hitherto been paid from a special appropriation and not employed on certificates issued by the Commission, be graded as Clerk (Grade 4), Clerk (Grade 3) and Stenographer (Grade 2) respectively; and that their continuance be authorized as they will be required for an indefinite period.

6. That these changes, except where dependent on the retirement of the incumbent of a position, be effective from April 1st, 1925.

As provided in Sub-Section 1 of Section 45B of the Civil Service Act of 1918 as amended, the Civil Service Commission, on the recommendation of the Department of Indian Affairs, submits the following revised compensation for approval:

INSPECTOR OF INDIAN AGENCIES (GRADE 3)

The compensation for this class which is at present:

Annual: $3000 3120 3240
Allowance: $400 a year for rent in the Provinces of Alberta and Saskatchewan.

is to be revised to read as follows:

Annual: $3240 3360 3480

It is recommended that these revised rates be made effective from April 1st, 1925.

Regina, Sask., December 31, 1925.

Sir:

I am enclosing herewith a report on the Fisher River Agency, which was made by Mr. Inspector Christianson about two weeks ago.

x x x

Here is a case where we had a promising looking man (Mr. McCuish) who has completely fallen down. I cannot believe that he had the right idea in the beginning. He may have been influenced by outside parties, but we are not in a position to put this in writing. In the meantime Mr. Mc Cuish has not been suspended; he should have been, but we have no power to do so. All we could do was to tell him to remain on the reserve and to sign all letters, etc. until further orders. The management has been more or less left with Mr. Templeman, who is really not competent to act even temporarily, but I have no person whom I can send out, as we are shorthanded in the office here. I have repeatedly asked for more help here, so that I could send a relieving officer out. The same remark applies to the Birtle Agency where the Agent is to be let out for incompetency.

Our system is entirely wrong. I have brought this to the attention of the Department on several occasions. Some day something very serious will happen. You will agree with me that we should have men in training to fill these positions; men who when they are put in these offices will know something about them, but under our present system of appointing Clerks we will never get anywhere.

I beg to inclose herewith memorandum to Council of December 1, 1925, which we have withdrawn from the Treasury Board for the purpose of making it clear that it is our desire that the change with reference to the compensation for the position Inspector of Indian Agencies, Grade 3, shall only be applicable to the employees in that class in the province of Saskatchewan, as the purpose of the Order in Council was to provide for a change in the organization and establishment of the office of the Indian Commissioner at Regina. Will you kindly make the necessary correction or addition and return to me at once? I am advised by the Treasury Board that if the change is made on the copy as submitted, and which I am returning herewith, and initialled by both the Civil Service Commission and the Honourable the Superintendent General of Indian Affairs it will not be necessary to rewrite the Order.

WITH CHEQUES.

March 25, 1926.

Dear Mr. Graham,-

I beg to advise you that, under the authority of an Order of His Excellency the Governor General in Council of the 23rd instant, a reorganization of your office has been completed. The position occupied by Mr. H. P. Johnson, now designated as Clerk, Grade 4, has been re-graded to Principal Clerk. The position now occupied by Mr. Cookson and graded as Principal Clerk-Bookkeeper, has been re-graded as Principal Clerk, but provision is made that on the retirement of the present incumbent this position is to be reduced to a Grade 4 Clerkship, as it will be possible to distribute the duties of this position and Mr. Johnson's so as to render the above economy possible. Authority is granted for the continuance of the employment of Messrs. Smitton and Hay, also Messrs. Little and Reid and Miss Manz.

The compensation for the position Inspector, Grade 3, has been increased to a minimum of $3240.00 and maximum of $3480.00 per annum. The above changes to be effective from April 1, 1925.

I am inclosing herewith cheques in favour of Mr. Murison, Mr. Christianson and Mr. Johnson, the three employees entitled to arrears, for the amounts due them, and I am asking the approval of the Civil Service Commission for granting each one of them the statutory increase of $120.00 from April 1, 1926, to which he [redacted] would be entitled.

NOTES AND INSTRUCTIONS:

1. File this requisition with the Civil Service Commission as soon as the need for extra assistance is recognized. Prepare two copies; forward one and retain one awaiting "Certificate of Appointment." No letter of transmittal need accompany this requisition. If more space is required for describing the work, for stating the special qualifications, or for any other purpose, attach an extra sheet of paper.
2. When the position to be filled is a new one, that is, one not previously occupied, this form must be accompanied by Form C. S. 100 (Requisition for classification of new position.)
3. File a separate requisition with the Civil Service Commission for each vacancy in a temporary position. For permanent or seasonal places use the special requisition forms provided.
4. Give the position the classification title. If the position is a new one give it a tentative title which, as nearly as may be, is brief and descriptive of the work to be done.
5. Extract from the Civil Service Act, 1918:

Sec. 23. (1) When from a temporary pressure of work, extra assistance is required, ... the Commission may, on the written report of the deputy head that such extra assistance is required, authorize the employment of such number of temporary officers, clerks, or employees as are required to carry on the work.

(3) Temporary employment in the Civil Service shall only be authorized for such time, not exceeding six months, as the Commission deems necessary, and the period for which the employment is authorized shall be mentioned in the certificate of qualification issued by the Commission. One or more extensions of such period of employment may be granted by the Commission but each such extension shall be limited to a period not exceeding six months.

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 26th instant, your file 427,063-A-X, relative to the employment of three Clerks in the office of the Indian Commissioner at Regina. In reply I beg to inform you that the Commission does not appear to have a record of any of these candidates having qualified for appointment in the classes for which certificates are requested.

For your information I may state that the general examination for the class Stenographer Grade 2 is being held shortly and it would appear advisable for Miss Manz to apply for admission to the competition therefor, in order to establish her eligibility for appointment as Stenographer Grade 2.

The cases of these Clerks are still under consideration and you will be further advised shortly.

Dear Sir:-

In connection with the vacancy of a Principal Clerk in the office of the Indian Commissioner at Regina, Sask., which has arisen through the regrading of a position from Clerk Grade 4, under authority of Order in Council P.C.117/442, I have been instructed to inform you that authority has been granted to waive the advertisement of this position for promotional competition.

If Mr. H.P.Johnson, the incumbent of the former Clerk Grade 4 position, will file an application for promotion, and the Department of Indian Affairs will furnish promotional ratings for him, the matter of his promotion will receive consideration.

COMMISSIONER'S OFFICE,
REGINA, SASK., April 9th, 1926

Dear Mr. Scott,-

I have to report that one of my stenographers, Miss Manz, has been offered a position elsewhere, with better salary, and wishes to leave as soon as we can get someone in her place.

As we must have an experienced and thoroughly capable stenographer, I should like to have authority to engage one as soon as I can locate a suitable person. We have work here for four stenographers though we have been trying to get along with three, and it is most important that the new one shall have had considerable office experience and not just have come from business college. The last one, whom the Civil Service Commission appointed, following the examinations, as not as capable as she should be for this position, especially in the matter of taking dictation, but it is very difficult to make a change after an appointment is once made. If we should happen to get another one no better than the last, we simply would not be able to do the work, which is very heavy for three stenographers. In many cases our experience here has been that as soon as we train girls to be of use in this office they leave to accept better positions. In this case it is most important that we engage one who is already trained and will be useful from the beginning. I should threfore be glad to receive authority to engage a stenographer as soon as possible.

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter of the 9th instant, your File 100-4, and note that Miss Manz, Stenographer in your office, has stated that it is her intention to resign. I have communicated this morning with the Civil Service Commission with reference to a stenographer to take her place. They state that they have no eligible list at Regina and we may employ a stenographer, if one with proper qualifications can be obtained, but they state that the person employed must be within the age limit, namely, must be between the ages of 18 and 35, and must take the examinations which are to be held by the Civil Service Commission on May 4 and 5 at Regina, in order to qualify for appointment, otherwise a competition will have to be held.

Kindly have the person employed fill in an application for position and forward this here.

Dear Sir:

The Commission has had before it for consideration your letter of the 26th ultimo in which you request that temporary certificates be issued in favour of Mr. J. Little as Clerk, Grade 4, (Position IA-IA8-3003), and Mr. G. R. Reid as Clerk, Grade 3 (Position IA-IA8-3004).

As these officers were apparently employed without reference to the Civil Service Act, the Commission feels that it cannot do otherwise than to express its opinion that if appointments are desired, they should be made in accordance with the provisions of the Act, by means of local competition. Action is accordingly being taken to conduct a local test and secure an eligible list from which appointments may be made. Messrs. Little and Reid can, of course, enter the competitions, when they will have an opportunity of competing for the vacant positions as prescribed by law.

Dear Mr. Graham,-

Incl. I beg to inclose herewith copy of letter received from the Civil Service Commission, with reference to Messrs. Little and Reid, now temporarily employed in your office.

I have telephoned to the Civil Service Commission and ascertained from them that the test to which they refer in their letter of the 3rd instant will be practically on office practice, that is, questions will be asked with reference to filing, bookkeeping, letter-writing, reporting, checking, indexing, tabulating, etc., and possibly some arithmetic questions will be asked.

It is the intention of the Commission to advertise these positions as well as those of Stores Clerks, but it is hoped that the result may be the appointment of the present incumbents. In each case we will have the applications received and rated by you. I think it well, however, to advise you of the action that is to be taken, in order that Messrs. Little and Reid will know what is expected of them.

For permanent appointment, the initial salary will be $1260 per annum, which will be increased upon recommendation for efficient service at the rate of $60 per annum, until a maximum of $1500 has been reached.

An eligible list, which will be valid for one year for appointments of this nature, may be established as a result of this competition.

Applications must be in the handwriting of the persons applying (or if otherwise, the reason therefor to be given) and on forms supplied by the Commission, which may be obtained from the office at which this notice is displayed, or from the Secretary, Civil Service Commission, Ottawa, and are to be received by

The Secretary, Civil Service Commission, Ottawa, Ont.

not later than June 1,1926.

Length of residence in the locality must be stated. Applicants must describe the position as indicated above and must not vary description in making application.

According to law, preference is given among candidates possessing the necessary qualifications first to persons who are in receipt of a pension on account of disabilities received as a result of war service, who by reason of such service are unable to continue their pre-war occupation, and who have not been successfully re-established, and secondly, to persons who have been on active service overseas or on the high seas. Candidates must be British subjects and must have resided in Canada at least three years.

Under the provisions of the Civil Service Superannuation Act, 1924, a deduction of five per cent is made from the salary of every permanent employee entering the Service as a contribution to the Superannuation Fund.

Dear Sir:

Arrangements are being made to conduct written examinations for the positions of Clerk, Grade 2, Grade 3, and Grade 4, Department of Indian Affairs, at Regina, Sask., on June 23rd, beginning at nine A.M., under the supervison of Mr. J. A. McLeod, 1334 - 15th Ave., Regina, Sask.

At the close of the written examinations it is proposed to have the candidates orally examined by the Commission's Supervisor, Mr. McLeod, in conjunction with a representative from your Department.

Will you, therefore, kindly nominate a suitable officer for this purpose and instruct him to communicate with Mr. McLeod prior to June 23rd with a view to making the necessary arrangements.

A copy of a letter of instructions to rating officers together with a copy of the oral examination report form are enclosed herewith for the information of your representative.

Thanking you for your co-operation in this examintion,

Dear Madam,-

I beg to advise you that we are informed by the Civil Service Commission that they are conducting a written examination in connection with the positions Clerks, Grade 2, Grade 3 and Grade 4, in the Regina office, which have recently been advertised, the written examinations are to be under the supervision of their representative, Mr. J. A. McLeod, 1334 - 15th Avenue, Regina Sask., and are to be held at nine o'clock on the morning of June 23. They also state that at the close of the written examination it is proposed to have the candidates orally examined by Mr. McLeod, in conjunction with a representative of this Department, but, as the Indian Commissioner is in Ottawa and I understand that both the Inspectors are absent from Regina, it is desired that you will act as the representative of the Department.

Kindly communicate with Mr. McLeod before June 23, with a view to making the necessary arrangements. The employees will be rated by you after the examination is held, and I inclose herewith a sample copy of the rating sheet, together with letter of instructions to rating officers. It is hoped that the result of the competitions will be the appointments of the present incumbents of the positions.

Dear Sir:

With reference to your letter of the 15th ultimo, in connection with the appointment of a Stenographer, Grade 2, at Regina, Sask., to replace Miss L.E. Prizeman, I am instructed to submit the names of three candidates for consideration in connection with this position.

Miss Agnes B. McKnight, 2071 Angus St., Regina, Sask.
" Alice McNeil, 1260 Retallack Street, " "
Mr. Fred R. Inglis, R.C.M.P. Division, " "

These candidates were not successful at the recent examination, but it will be appreciated if your representative would interview them in the order named and secure the services of the first one who would be considered qualified for the position. COMMISSIONER'S OFFICE,

REGINA, SASK., Sept. 20th, 1926

Dear Mr. Scott:-

On Saturday morning a young man named Rekert walked into my office and presented a document from the Civil Service Commission, which stated that he was to report to me at once for employment. I have had no advice from the Department as to what position this man is to fill in the office, and whether he is replacing anyone already employed here. Both Mr. Reid and Mr. Little who are on the staff here, have been advised that they passed the Civil Service Examinations, and the former has received a document, stating that a certificate for six months has been issued in his favor. Mr. Little has, however, received no advice as to the permanency of his position.

If the man, Rekert, is to take the position of our bookkeeper here, I am satisfied that he is not capable of doing so. In questioning him regarding his experience, I find that it is very limited. He is only a youth between 23 and 24 years of age; he writes a very poor hand, and all the Civil Service Commission know about him is the information gathered from the few questions asked on the examination here in Regina, which is not at all sufficient grounds on which to dismiss Mr. Little, who is a bookkeeper, who writes a splendid hand, and who is the best man we have in the office on returns, and looks entirely after the checking of the Cash Accounts which are so important. I may say also that Mr. Little is a poor man and has a family of four children to support, and to deprive him of his position now, with the approach of winter, would certainly mean a hardship, not only for him, but for his family as well.

The work

The work that Mr. Rekert has been doing over in the Militia Department for the last three years, is not what could be termed bookkeeping at all; it is merely keeping a Record of Stores.

A year ago I had a visit from the Auditor General, who went out and had a look over Mr. Little's books, and when he came back to my office he told me that Little was not an Accountant, that he was simply a Bookkeeper. This year Mr. Reid of the Auditor General's office spent three weeks in this office, and a great deal of the time was with Mr. Little, and he can advise you better than anyone as to whether this is not a job for a first-class Accountant. If you will read the classification of a Grade 4 Clerk I think you will agree with me that it has nothing to do with bookkeeping. If Mr. Little is not to have this job, now is the time to make a change, and satisfy ourselves that we are getting the right man.

Mr. Rekert, as I have said, is between 23 and 24 years of age. He has been with the Army here as a Corporal for three years. He served in the War for three years, which means that he must have been between 16 and 17 years of age when he enlisted. Now where could he have obtained any bookkeeping experience before that?

This is a very serious matter, and I am trying to bring it before you as strongly as I can. I do not feel like taking the responsibility of handing the books over to this young man and making him responsible for the cash, and, as I have said, he writes a very poor hand, and I do not want the books disfigured. You are aware that this office is understaffed, and I have asked repeatedly to be given the necessary help to carry on the work. We could take this man on as a Grade 4 Clerk, but to give him the responsibility of the books I fear would be a great mistake.

Kindly let me know immediately what I am to do in this matter.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Dear Sir,-

Re J. E. Little

Replying to your inquiry re the above. Mr. Little was employed by ourselves as a Bookkeeper for some two or three years about ten years ago. His work was entirely satisfactory and he would have still been retained by ourselves had we been able to find employment for him, but Mr. Little came to us during the period of the War when we were very busy and had to materially increase our staff, and after the War period was over the natural result was business depression and staff reduction followed and as Mr. Little was one of the newer members of our staff we had to let him go. We do not hesitate, however, to recommend him very highly to any employer requiring the services of a competent Bookkeeper.

Dear Mr. Scott:-

With reference to my letter to you of even date, regarding Mr. J. Little, who is employed in this office as book-keeper; I have taken the trouble to get letters from his former employees, which are herewith attached. In both cases you will notice that Mr. Little is spoken of very highly, and this is the man who is being let out to take in a man who knows practically nothing about book-keeping, and who is to fill a position which I am informed by the Auditor General should be filled by a first-class Accountant. I am sure it is not your desire that our books should be handed over to an incompetent man, and when you read the attached letters you will be satisfied that in Mr. Little we have at least got a fairly competent man, although he is probably not all that could be desired, as I believe the work is of sufficient importance here to have not only a book-keeper, but a competent Accountant.

I think it would be a dreadful thing to let this man out and take on a man of the type that I have been advised to take on. It cannot be done in the interests of the Department.

You may not be satisfied that additional help is required in this office, but I am sure if you take this matter up with Mr. Reid who was here for three weeks, he will be in a much better position to give you a report than any outsider. We must have the help if the work is going to be done efficiently.

Clerk, Grade IV

With reference to my recent appointment as Clerk, Grade IV, Dept. of Indian Affairs, Regina.

I reported to the Commissioner immediately and as far as I know at present am to report for duty on the 27th instant.

Now Mr. Graham gives me to understand that it is not a Clerk that he requires, by an accountant and is evidently very disappointed that I am not an accountant.

However, the reason I am writing you, is that I am given to understand that I am to take over the Books in Regina, without any instruction whatsoever.

Now, no two concerns keep Books alike, nor is the Routine the same. Different methods of Banking etc., and yet I must take over these books as if I already am acquainted with the Routine of this particular department.

It is a very big chance to take, especially if the work is important enough to require an accountant, and risk, the work of the whole Department for the sake of a few instructions, in their private methods.

I am quite willing to work without renumeration for any length of time suggested by you, until I am thoroughly acquainted with the routine work, and let my predecessor draw the salary while he his instructing me. Even up to two weeks. Failing this, I cannot risk taking up the appointment, in all fairness to the Department.

If this is favourable to you, you can wire Mr. Graham to this effect before 27th of Sept.

Failing this, have you another position that I could fit in ?

MEMORANDUM : -

Mr. G. R. Reid has been employed in the office of the Indian Commissioner at Regina since September 1, 1924, at a salary of $125.00 a month. He was engaged by Mr. Graham without reference to the Department, and the first intimation we had of his employment was when the Accountant, in checking the accounts, brought this to your attention. He was paid from Greater Production funds from the beginning of his service until April 1, 1926, since which time he has been paid from Parliamentary appropriation.

Mr. J. Little was engaged by Mr. Graham on May 3, 1924, at a salary of $150.00 a month, and we were not aware here of his employment until the Accountant noticed it when checking the account. He was paid from Greater Production funds from the beginning of his service until April 1, 1926, since which time he has been paid from Parliamentary appropriation.

After investigation of the work of the Indian Commissioner's office, Major Simmins recommended that the authority of Council be granted for the continuance of the services of the two above employees, as they will be required for an indefinite period; this authority was obtained, and we asked the Civil Service Commission to grant certificates to these two men, but they ruled that the positions must be advertised, which action was taken, the result being the approval of continuance of Mr. Reid's employment, but the appointment of Mr. Rekert instead of Mr. Little.

AUDITOR GENERAL
CANADA

Ottawa, October 7th, 1926.

R

Dear Dr. Scott,-

Re: Indian Commissioner's Office, Regina

As you are aware, I made a personal visit to the Office of the Indian Commissioner at Regina in the summer of 1925, and my Chief Supervisor of Audit, Mr. J.W. Reid, has returned recently from making a more extensive survey of the activities of that office.

The preparation of Mr. Reid's formal report on the findings of his inspection has been delayed by the press of work in connection with the completion of my report for the fiscal year 1925-26. As it may be some little time before his report is completed, and as I understand that you are anxious to discuss the question of the re-organization of the Commissioner's office with the Civil Service Commission I consider it advisable to indicate hereunder the changes and additions to the present staff which I consider essential to put this office upon a satisfactory basis.

I consider this office one of the most important of government offices in Western Canada, and am of opinion that its activities should extend to the supervision of all matters connected with the Indians of the provinces of Manitoba, Saskatchewan and Alberta, subject, of course, to the direction and approval of your department.

The existing accounting system at this office is inadequate and not in accordance with modern accounting principles. The accounts pertaining to the various activities are dealt with by different members of the staff, without any correlation and without proper controlling accounts. They are not framed so as to permit a comprehensive statement of the state of affairs being prepared at frequent intervals for the information of the Commissioner and of your department. The accounts should be kept on double entry system for the purpose of mathematical control of entries, for statistical purposes and for the analysis of operations for the information of the Commissioner and of your department.

As a preliminary step towards putting the accounting system of this office on a

proper basis I would recommend that a fully qualified and experienced accountant be added permanently to the staff of the Commissioner, who should inaugurate an adequate and modern system of accounting. He should be accountable to the Commissioner for all financial matters relating to the Indian office, and should keep him posted with current and accurate knowledge of all the phases of the various financial activities.

I would also recommend the appointment of a fully qualified travelling auditor with experience in commercial auditing, who should make frequent and extensive audits of the books at the various Indian agencies, with special reference to the agency Trust Accounts. He should act in co-operation with the accountant, and should submit a written report on each inspection to the Commissioner.

As regards the inspection staff, it appears to me that a considerable part of the time of the inspectors is spent at the Regina office on duties only indirectly connected with the actual work of inspection. As a consequence the agencies are not inspected sufficiently frequently and I understand that some of the agencies have not been inspected for more than a year. I would suggest the appointment of a chief inspector, with headquarters at Regina, who would act as assistant and understudy to the Commissioner, and who would, under the direction of the Commissioner, direct and supervise the work of the other inspectors. In addition to the chief inspector there should be three other inspectors at least, one for each province, who should be engaged on inspectional duties only. If these three inspectors were to devote all their time to active inspection work only, they should, in my opinion, be able to inspect each agency in their respective districts at least twice a year, which, I consider is the minimum number of inspections that should be made.

It is possible that I may have to suggest other minor changes when Mr. Reid's formal report is submitted, but the above are, I consider, very important and, if they meet your approval, should be carried out as soon as possible.

Dear Mr. Scott:-

I have today forwarded to the Department the monthly pay-list for the staff of this office for the month of October, and I wish to draw your attention to the case of Mr. R. S. Rekart, whose name appears thereon as a Grade 4 Clerk, drawing the maximum salary of that class, viz:- $1800.00, and would ask you to kindly enlighten me as to why this man was appointed at the maximum salary.

I may say that while Mr. Rekart is classified as a Grade 4 Clerk, he is really not qualified to do the work of a Grade 3 Clerk. He is now doing junior work in this office, in assisting the bookkeeper, Mr. Little, and if Mr. Little were to go out of the service tomorrow, Mr. Rekart could not begin to carry on his work. Mr. Rekart has not anything like the qualifications of Mr. Reid, who is a Grade 3 Clerk in this office, and if Mr. Little were to leave the service, it would be Mr. Reid whom I would have to put on his work, rather than Mr. Rekart. It is a mystery to me how Mr. Rekart ever got the classification that he did. He certainly should not be drawing the salary of a Grade 4 Clerk. He has been here now for some time, and in questioning the officers directly over him, this is the opinion that I have received.

While additional clerical assistance is required in this office, it is not necessary to appoint a Grade 4 Clerk to this position, which could have been filled quite well by a Clerk Grade 3.

Yours very truly,

W. M. Graham,
Indian Commissioner.

Dear Mr. Foran,-

November 18, 1926.

I beg to advise you that I have received a communication from the Indian Commissioner at Regina, with reference to Mr. Rekert, the successful applicant in the competition held recently by you for the filling of the position Clerk, Grade 4, in his office. The Indian Commissioner states that Mr. Rekert is not qualified to do the work of even a Grade 3 Clerk, and that he could not begin to undertake the work of the position to which he has been assigned, namely, Clerk, Grade 4, at the maximum salary, ($1800.00 per annum,). Such being the case, it will not be possible for us to retain him in our service, and I am advising the Indian Commissioner that he may be given notice that his services will terminate at the end of December.

Yours very truly,

Deputy Superintendent General.

Dear Sir:

With further reference to your letter of the 18th ultimo, regarding a communication from the Indian Commissioner at Regina to the effect that Mr. R. S. Rekert, OAS, who was recently assigned to the position of Clerk, Grade 4, is not qualified to perform the work and his services are being terminated at the end of December, I am directed by the Commissioners to point out that this employee obtained first place in the examination recently held for the position, being rated at 69 in the written examination, 80 in education and experience, and 82 in the oral examination. A representative of your Department was, furthermore, one of the examiners at the oral test, when it was stated as regards Mr. Rekert that he was an outstanding applicant in every respect.

The rejection of Mr. Rekert on the ground of inability to perform the duties of the position in the face of this examination is difficult for the Commissioners to understand, but as the Commission has no option in the matter, I am instructed to enclose a certificate in favour of Mr. John Little of Regina, who is the next resident of Regina on the eligible list.

Dear Mr. Scott:-

I have your letter of the 17th. ultimo with reference to Mr. R. S. Rekert, who was appointed by the Civil Service Commission, after passing a competitive examination, as a Grade 4 Clerk in this office, and as Mr. Rekert has not the qualifications to do the work of a Grade 4 Clerk in this office his services are to be dispensed with, and in accordance with your instructions I have so notified him. I wish, however, once more to make a plea for additional help in this office. It is absolutely impossible for the bookkeeper to carry on alone. Since Mr. Rekert has been in the office he has been checking up the monthly Cash Statements and all other invoices, of which there are a great many going through this office, which work devolved on the bookkeeper who could not keep up with his work, and as Mr. Rekert has been doing this work, which is that of a Grade 2 or a Grade 3 Clerk I would ask if you would consider retaining him in the service for the time being at least.

Mr. Rekert has married since he entered this Department, feeling, I presume, that his position was safe, although I told him at the very beginning that it was not. I should be glad if you could see your way clear to give him the classification of a Grade 3 Clerk and pay him accordingly, at the minimum of that class. I am quite satisfied he would be happy to get such a position.

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter marked Private, and dated the 2nd instant, with reference to Mr. R. S. Rekert, now employed in your office as Clerk, Grade 4. In reply I beg to say that on receipt of your letter of October 20, last, to the effect that, while Mr. Rekert is classified as a Clerk, Grade 4, he is really not qualified to do even the work of a Grade 3 Clerk, we communicated with the Civil Service Commission and advised them that, such being the case, we could not retain Mr. Rekert in our service beyond the end of December. In reply they have stated that Mr. J. Little, 3918 Dewdney Avenue, Regina, is the next candidate on the eligible list, and they have issued a certificate in his favour. We can now continue Mr. Little's services under this certificate and he need have no further doubt as to his position. As for the continued employment of Mr. Rekert, it could hardly be arranged, as it is not the intention to add to the staff of the Regina office.

Incl. I beg to return herewith the rider which was attached to the certificate in favour of Mr. Little as Clerk, Grade 4, in the Regina Indian Office, Sask. Mr. Little has been paid from Parliamentary appropriation since April 1, 1926. The last temporary certificate you issued in his favour expired on October 1, but his service since that date has been continuous, as the successful applicant in the competition was unable to do the work. I have, therefore, inserted on this rider the above date, in order that Mr. Little's service may be fully covered by certificate.

I have to acknowledge the receipt of your letter of the 9th instant, your File AT/EFW-IA-IA8-3005, in which you state that the name of Miss Ada L. Horner, now employed as Stenographer, Grade 2, in the office of the Indian Commissioner, Regina, has been reached on the eligible list for permanent appointment, and that there is a vacancy in a permanent position in another Department to which she can be immediately assigned.

As Miss Horner is employed temporarily in a position which was created for an indefinite period, I think it in her interests that she should be appointed to the permanent position and a Stenographer to succeed her be assigned to the position in the Indian Commissioner's office. I am inclosing requisition herewith.

Dear Mr. Graham,-

I have to advise you that we have received notification from the Civil Service Commission that the name of Miss Ada L. Horner has been reached on the eligible list for permanent appointment and that there is a vacancy in another Department to which she can be permanently assigned.

As Miss Horner is now occupying a position in your office which was created for an indefinite period, it would seem in her interests to accept appointment in a permanent position in the other Department. The Civil Service Commission is communicating with her direct in this matter. If she accepts, another assignment will be made to your office.

CIVIL SERVICE OF CANADA

POSITION VACANT

Applications are invited from residents of Regina, Sask.

and locality possessing the necessary qualifications for the position of

STENOGRAPHER, Grade 2.

Department Dominion Government Offices.

Salary $1080 per annum; annual increases upon recommendation for efficient service at the rate of $60 per annum, until a maximum of $1380 has been reached.

Qualifications required Two years of education of high school standard or its equivalent, and preferably at least one year of experience in stenographic work; some knowledge of modern office practice; ability to take and transcribe difficult dictation at a fairly high rate of speed; intelligence, tact and good judgment. A written examination will be held in this connection. Except in the case of returned soldiers, preference will be given to candidates between the ages of 18 and 35 years. Applicants, except returned soldiers, will be required to submit an examination fee of $2.00, when filing applications. At present there is one vacancy for Stenographer, (Grade 2), (Temporary), (Female), in the office of the Indian Commissioner, Department of Indian Affairs, at Regina, Sask. at a salary of $1080 per annum. Temporary employees are not given annual increases.

An eligible list, which will be valid for one year for appointments of this nature, may be established as a result of this competition.

Applications must be in the handwriting of the persons applying (or if otherwise, the reason therefor to be given) and on forms supplied by the Commission, which may be obtained from the office at which this notice is displayed, or from the Secretary, Civil Service Commission, Ottawa, and are to be received by

The Secretary, Civil Service Commission, Ottawa, Ont.

not later than August 13, 1927.

Length of residence in the locality must be stated. Applicants must describe the position as indicated above and must not vary description in making application.

According to law, preference is given among candidates possessing the necessary qualifications first to persons who are in receipt of a pension on account of disabilities received as a result of war service, who by reason of such service are unable to continue their pre-war occupation, and who have not been successfully re-established, and secondly, to persons who have been on active service overseas or on the high seas. Candidates must be British subjects and must have resided in Canada at least three years.

Under the provisions of the Civil Service Superannuation Act, 1924, a deduction of five per cent is made from the salary of every permanent employee entering the Service as a contribution to the Superannuation Fund.

Dear Mr. Scott:-

I have your No. 427,063-A-X of the 13th. instant, advising me that Miss A.L.Horner, now engaged as stenographer in this office, will be transferred to another Department to which she can be permanently assigned, and that if she accepts, another assignment will be made to this office.

While I am glad that Miss Horner has the opportunity of securing a permanent appointment, the situation resolves itself into her being removed from the office where she has gained experience, to make room for another who has no experience. As a matter of fact Miss Horner has accepted the opportunity and will leave this office almost immediately, before any word has been received from you or the Civil Service Commission as to the appointment of her successor. It is perhaps unfortunate that the transfer could not have been deferred until I had received more ample warning, as one of the stenographers on the staff is absent on her holidays and the withdrawal of Miss Horner will mean that, temporarily, only one stenographer will be left. I expect to be able to engage a girl temporarily in Miss Horner's place until I hear from you definitely what the Civil Service Commission propose to do, but I wish to point out that this unfortunate situation has greatly hampered the work here. As a matter of fact I had been considering the advisability of asking for an additional stenographer, as, even with Miss Horner the stenographic work was piling up and it was impossible for the Inspectors to get their reports written, so that you will readily understand what a difficult position I have been placed in, and I trust that this matter will receive very prompt attention.

Dear Mr. Graham,-

With reference to your telegram of the 16th instant, regarding a Stenographer for your office, I beg to say that upon inquiry at the Civil Service Commission I ascertained that in the recent competition there were three applicants, but that none of them qualified, one was ruled out, owing to the fact that he had not had three years' residence in Canada, and they stated that the other two, namely, Mr. Thomas R. Jenner, 1813 Robinson St., Regina, and Miss Helen J. Parker, 1416 Retallack St., Regina, might be interviewed by you and if neither has the proper qualifications for appointment we might have local selection, if a satisfactory employee could be found. I, therefore, wired you to make a selection yourself for temporary employment, if neither of the above persons proved satisfactory. Kindly advise me the name of the person engaged and have him fill in the inclosed application form, when we will request the Civil Service Commission to grant a temporary certificate for a period of six months.

Dear Mr. Scott,-

You will remember that the case of Mr. George Reid, of this office, was brought to your notice when you were here and that you asked me to write about it.

Mr. Reid has been on duty here since July 24th, 1924 at a salary of $125.00 per month.

In June, 1926, he tried the Civil Service examinations for Clerk, Class 3, and was successful, but there are three difficulties about his position, which are as follows,-

1. Being a temporary employee he is not entitled to receive statutory increases.

2. If he were made permanent he would have to revert to the minimum salary of his class, which is $115.00, or $10.00 less than he is now receiving. This would be a loss that he is not in a position to sustain, as he is a married man with a family of several children, and finds it very difficult to live on his present salary.

3. As a temporary employee he is not entitled to come under the superannuation act.

It was suggested that the solution of these difficulties would be to raise his classification to that of Clerk, Grade 4, the minimum salary of which is $135.00, which would leave him $128.25 per month after the 5% for Retirement fund is deducted. He could then be made permanent in this class and receive statutory increases when worthy

worthy of them and would also be entitled to come under superannuation if he wished.

Dear Mr. Foran,-

I beg to request that you will give consideration to the question of amending Order in Council P.C. 117/442 of March 23, 1926, which was passed after investigation into the organization and establishment of the office of the Indian Commissioner at Regina. We find that the clerical positions are established in a temporary capacity only, though the services of the incumbents are required on a permanent basis. I would like to change the Order in Council with reference to Paragraph 4 and establish the three positions as follows,- two of Clerk, Grade 4, one Stenographer, Grade 2; this would be raising the grade of the position which is occupied at the present time by Mr. G. R. Reid from Clerk, Grade 3, to Grade 4. The Indian Commissioner has strongly recommended that this action be taken. He states that Mr. Reid is a returned soldier, is rendering faithful and efficient service and that he considers he should be placed on a permanent basis and given the benefits of superannuation.

Dear Mr. Scott,-

I am enclosing the pay-list for the staff of this office for the month of December, as I wish at the same time to reply to your letter of Dec. 2nd, No.427-063A-X.

Miss Parker, to whom you refer, was temporarily employed during part of August and her name appears on the pay-list for that month. She tried the Civil Service examination but did not pass, and while she was here I did not find her at all satisfactory. I learned from enquiries that Mr. Jenner would not be suitable so it was necessary to look for someone else. Miss Valian, who was here for a short time was very satisfactory but she wished to continue her studies at the Collegiate. During the latter part of November I was absent and on my return I realized the need of more office help at once, as the work was piling up and we could not keep up with it. I interviewed several young ladies and one of them has been engaged temporarily and her name is on the enclosed pay-list. Miss H.E.Wylie, the new stenographer, is experienced and well educated, having had one year at University. I hope she may prove satisfactory and if she does, I shall ask to have her made permanent, as we really need the three stenographers all the time.

Trusting that this explanation will be satisfactory,

I am,

Yours very truly,

Dear Mr. Foran,-

I beg to acknowledge the receipt of your letter of the 30th ultimo, your File IA-IA8-3005, and in reply to say that we have received a report from the Indian Commissioner to the effect that Miss Parker was temporarily employed during part of August in his office, but her services did not prove satisfactory, and that from what he learned on inquiry Mr. Jenner would not suit for the work of his office. He has temporarily engaged Miss H. E. Wylie, her employment having started on the 15th instant, and, if after a short trial, she proves competent to do the work, we will forward you application from her and request for temporary certificate.

Yours very truly,

Deputy Superintendent General.

Dear Sir,

Provision of two permanent positions of Clerk, Grade 4, and one of Stenographer, Grade 2, in the organization and establishment of the office of the Indian Commissioner at Regina.

With reference to previous correspondence on the above subject, your file 427, 063A-X., it is understood that the positions in question were utilized in connection with the "greater production work". Your request that these positions now be made permanent would seem to indicate that the duties are being absorbed into the other work of the Indian Commissioner's Office.

Before recommending to Council that the positions be made permanent it would be appreciated if you would supply such information as you can as to the need for these positions on a permanent basis.

Yours truly,

Dear Mr. Foran,-

I beg to acknowledge the receipt of your letter of the 28th instant, your File No. 33-1A-1; IA-1A8-3004, and to say in reply with reference to the positions you mention that, while at one time the incumbents of these positions were paid from funds arising out of Greater Production activities, we ceased to pay them from this fund on April 1, 1926, and since that time they have been paid from Parliamentary appropriation. A personal inspection of the office of the Indian Commissioner at Regina last summer convinced me that the positions are necessary owing to the volume of work to be performed, and I consider that these positions should be established on a permanent basis. I would ask, therefore, that the Order in Council of March 23, 1926, be amended and that the three temporary positions mentioned in Clause 4 be made permanent, but that they be graded as follows: Clerk, Grade 4, Clerk, Grade 4, and Stenographer, Grade 2, as we have requested that the position now temporarily occupied by Mr. G. R. Reid and designated as Clerk, Grade 3, be raised to Grade 4.

TO
HIS EXCELLENCY THE GOVERNOR GENERAL IN COUNCIL.

As provided in Section 9 of the Civil Service Act of 1918, the Civil Service Commission, on the recommendation of the Department of Indian Affairs, submits the following report for approval:

It is recommended that paragraph 4 of P.C. 117/442, dated March 23rd, 1926, be amended to provide for three permanent positions, two Clerks, Grade 4 and one Stenographer, Grade 2 instead of three temporary positions of Clerk, Grade 4, Clerk, Grade 3 and Stenographer, Grade 2, effective from October 1, 1927.

The Department reports that these positions should be established on a permanent basis.

Memorandum.

Honourable Charles Stewart.

With reference to the enclosed Memorandum to Council to be signed jointly by yourself and the Civil Service Commissioners and which provides for making permanent three positions in the office of the Indian Commissioner at Regina I beg to say that these are at present:

Stenographer, Grade 2, temporary incumbent Miss Hazel Edna Wylie.
Clerk, Grade 4, temporary incumbent, John Little.
Clerk, Grade 3, temporary incumbent, G. R. Reid.

The Indian Commissioner has strongly recommended that Mr. Reid's position be classified as Clerk, Grade 4 and the enclosed memorandum to Council makes provision for this.

We find that it is unsatisfactory to carry these employees on under temporary certificate and as the positions appear to be of a permanent nature we requested the Civil Service Commission to make them permanent and to give a higher status to one which they have approved and the enclosed memorandum is to give effect to this.

Dear Sir :

RE George R. Reid

The name of the above person has now been reached for permanent appointment as a Clerk, Grade 3 at Regina, Sask., the minimum salary for which is $ 1380 per annum.

If you have a permanent position vacant of the class mentioned, please state whether you desire the permanent appointment of the person named, and also if the necessary funds are available for the payment of the salary on a permanent basis.

In case you do not desire the permanent appointment to be made in your department, it is assumed that you will have no objection to the first vacancy in another department being offered to this employee.

Please advise the Commission at the earliest possible moment in this connection, in order that permanent appointments of others lower on the list may not be held up.

Dear Mr. Scott,-

I wish to again bring to your attention the case of Mr. Geo. Reid, a Clerk in this office, and would refer you to my letter of October 4th,1927, in which details were given regarding his position and salary. This letter was sent in response to the request in the fourth paragraph of your letter of September 30th.

A classification card was filled out and forwarded on November 3rd,1927, but since that date nothing more has been heard regarding this matter.

I should very much like to see him raised to the rank of Grade Four Clerk, with his permanent appointment dating back as far as possible. He has not spoken to me about this matter since last November but I know he has been expecting and hoping that some word would come about it , and so have I. He is very willing and energetic in his work and deserving of favorable consideration.

Dear Mr. Graham,-

I am advised by the Civil Service Commission that the position now occupied by Mr. Little in your office as Clerk, Grade 4, is being made permanent. Mr. Little, however, is being paid at the rate of $1800.00 per annum, while the minimum salary of the class is $1620.00 per annum and under the regulations a person permanently appointed must be paid the initial salary provided by classification. If, therefore, Mr. Little is granted permanency he will go back to $1620.00, but it might be possible for us to antedate this to October 1, 1927. Annual statutory increases are provided at the rate of $60.00 a year until a maximum of $1920.00 is reached and Mr. Little would be eligible for the first statutory increase from October 1, 1928, as he must serve a year at the minimum before increase. 5% would also be deducted from his salary for superannuation. Kindly discuss the matter with Mr. Little and advise me if he desires permanency on the above basis, if not, it might be possible for him to be retained under temporary employment as at present, but he cannot look forward to any increase beyond $1800.00 a year and will not have the benefit of contribution to the Superannuation Fund.

Dear Sir;-

Under authority of Order-in-Council P.C. 61/471, dated March 23, 1928, for a temporary position of Clerk, Grade 3, in the Office of the Indian Commissioner at Regina there was substituted a permanent position of Clerk, Grade 4. It is understood that the Department of Indian Affairs wishes to confirm Mr. G. R. Reid, who was the incumbent of the position of Clerk, Grade 3, in the permanent capacity of Clerk, Grade 4. Such action, however, would constitute a promotion for Mr. Reid and promotions are limited to permanent employees while Mr. Reid has been a temporary appointee only.

In this connection I am instructed to advise you that Mr. Reid qualified for permanent appointment as Clerk, Grade 3, in which class he could be appointed to a permanent position but, in the opinion of the Commissioners, he cannot be assigned as Clerk, Grade 4, without competition. I presume it will be the wish of the Department that this competition should be local and restricted to the residents of Regina. Will you kindly give me your opinion on this matter.

Yours truly,

Dear Mr. Graham,-

I have been in communication with the Civil Service Commission regarding the case of Miss H. E. Wylie, Stenographer, Grade 2, in your office, for whom they have not as yet issued permanent certificate. They advise me that she qualified as Typist but not as Stenographer, and, therefore, is not eligible at the present time for permanent appointment. In view of your report that her services are proving entirely satisfactory, we are requesting the Commission to issue an extension of her temporary certificate, and it would be to her advantage to try the stenographer's examination when next held and if she is successful there would, I think, be no difficulty in having a permanent certificate issued for her.

Dear Mr. Scott:-

I have Department letter No. 427,063A-X of the 24th August, informing me that you have received a communication from the Civil Service Commission advising you that Miss H. E. Wylie, Stenographer in this office, did not qualify as a Stenographer but did as a Typist and is, therefore, not eligible at the present time for permanent appointment. I feel satisfied that if Miss Wylie were given an opportunity to try for the Stenographer's examination she would undoubtedly be successful and would then be placed on the permanent staff. I would like if it could be arranged, and I am sure it can as far as this end is concerned, for her to go before the officer who held these examinations in the city of Regina and try this examination. Miss Wylie has been employed here for eight months now and this should effect her Statutory increase which will become due in four months, but, of course, if back services count she can wait.

I am very anxious to have Miss Wylie placed on the permanent staff as her services are satisfactory, and there is always a chance in getting a new stenographer that she might not prove a success.

CIVIL SERVICE EXAMINATIONS

List No. 412

Open competitive examinations are announced by the Civil Service Commission to be held in October, 1928, to establish lists of eligibles for employment as Stenographers, Grade 2. Candidates will be duly notified of the exact date of examination.

STENOGRAPHERS, GRADE 2

(Examination No. 14869)

Salary.—$1,080 per annum; annual increases upon recommendation for efficient service, $60, until a maximum of $1,380 has been reached.

Qualifications.—Two years of education of high school standard or its equivalent, and at least one year of experience in stenographic work; some knowledge of modern office practice.

Note.—Candidates who have not had at least one year of experience in stenographic work will not be admitted to this examination.

Examination.—Subjects and weights as follows: Shorthand (Test 24), wt. 3; Typewriting (Test 26), wt. 3; Spelling (Test 14), wt. 1; Letter-writing and Report-making (Test 16), wt. 2; Accuracy Test (Test 18), wt. 1.

SCOPE OF EXAMINATION SUBJECTS

Shorthand (Test 24)..	Dictation at the rate of 90 and 110 words a minute; subject matter to be business letter and memoranda.
Typewriting (Test 26)..	A written examination in typewriting consisting of a speed test at a minimum rate of 40 words a minute.
Spelling (Test 14)..	A written examination covering spelling.
Letter-writing and Report-making (Test 16)..	A written examination covering letter-writing and report-making, including penmanship, grammar, punctuation, vocabulary, business and correspondence forms, proof-reading, precis, and general office practice.
Accuracy Test (Test 18).. ..	A written examination, covering checking and comparing, tabulating, indexing, accuracy and general intelligence.

GENERAL DIRECTIONS

(1) In order to be declared successful candidates must secure 60 per cent on each subject, and an average of 70 per cent on the whole examination.

(2) Candidates for the examinations for Stenographers who fail in shorthand only and otherwise secure the required percentages may be listed as Typists.

(3) In cases where successful candidates secure the same marks their standing on the eligible list is determined by the date on which their application forms were made out.

(4) Eligible lists expire one year after the date of establishment, except in cases where in the opinion of the Commission, the public interest will be served by the continuance of the list. Where an eligible list is about to expire, persons whose names appear on the list and have not yet been given employment, are notified thereof, provided that persons whose names appear on the list and who are then employed in the service, retain their eligibility during the period of such employment.

(5) Although this examination qualifies for permanent appointment, candidates are warned that it is probable that, for some time, only temporary employment for short periods will be available.

(6) Candidates who intend to take the stenographers' examinations in French are advised that there are very few positions available in the Civil Service where French shorthand only is required. To obtain appointments as bilingual stenographers, candidates must write in both French and English Shorthand and Typewriting.

(7) The attention of male Stenographers is particularly called to these positions. Vacancies occur in the Department of Immigration and Colonization and the Department of National Revenue which are open to men only. The line of promotion leads not only to senior stenographic positions but also to executive positions in the departments.

(8) Temporary employees in this class should avail themselves of this opportunity to quality.

(9) Except in the case of positions at Ottawa, preference in appointments will be given to residents of the localities where the vacancies occur.

(10) Preference in appointment is given to candidates who have been on active service overseas or on the high seas and who are found to possess the minimum qualifications for the position. A further preference is given to candidates who are in receipt of a pension on account of disability received as a result of service in the Great War, who by such disability have been prevented from pursuing efficiently their pre-war occupation and who have not been successfully re-established.

(11) Under the provisions of the Civil Service Superannuation Act, 1924, a deduction of 5 per cent is made from the salary of every permanent employee entering the Service as a contribution to the Superannuation Fund.

(12) The examinations will be conducted at the following centres (provided that not less than three candidates make application to write at the same place): Prince Rupert, Victoria, Vancouver and Nelson, in the province of British Columbia; Edmonton, Calgary and Frank, in the province of Alberta; Saskatoon, Regina, and Moose Jaw, in the province of Saskatchewan; Brandon and Winnipeg, in the province of Manitoba; Port Arthur, Sault Ste. Marie, North Bay, Windsor, Sarnia, London, Woodstock, Brantford, Hamilton, Toronto, Peterborough, Kingston and Ottawa, in the province of Ontario; Montreal, Sorel, Sherbrooke, Three Rivers, Quebec and Rimouski, in the province of Quebec; Fredericton, Chatham, St. John, and Moncton, in the province of New Brunswick; Charlottetown and Summerside, in the province of Prince Edward Island; Kentville, Yarmouth, Halifax and Sydney, in the province of Nova Scotia. Examinations may be held at points other than these centres, but only when the number of candidates and the distance from a regular centre would justify such action.

(13) Applications must be made on Form C.S.C. 69. Applications filed in connection with previous examinations will not be transferred; candidates who have already tried an examination must file new forms.

(14) Application forms may be obtained from the Secretary of the Civil Service Commission, Ottawa, or from the Postmaster at the following centres: Prince Rupert, Victoria, Vancouver, Edmonton, Calgary, Moose Jaw, Regina, Winnipeg, Fredericton, St. John, Charlottetown and Halifax.

(15) Applications must be filed with the Civil Service Commission, Ottawa, not later than **October 1, 1928,** late forms will not be accepted.

(16) The fee for this examination is $2. The prescribed fee must accompany the application, except in the case of candidates who have been on active service overseas, who are exempt from paying the fee.

(17) Candidates will not be admitted to examination unless they have attained the full age of eighteen years and are not over thirty-five years of age on the first day of the examination, except in cases where duly qualified candidates within these age limits are not available.

(18) The age limit for entrance is waived in the case of persons who have been on active service overseas or on the high seas, widows of persons who have died owing to such service and persons entitled to the disability preference. The age limit is also waived in the case of permanent civil servants, who when first appointed were not over thirty-five years of age.

(19) Candidates must be British subjects.

(20) Candidates must have resided in Canada for at least three years, except in the case of persons with active overseas service who, if they were domiciled in Canada at the date of enlistment, need not conform to the rule of residency. This must be stated clearly on application form.

(21) Candidates for examination in typewriting must supply their own machines.

By Order of the Commission,

W. FORAN,
Secretar

Dear Mr. Foran,-

As requested in my letter of June 7, 1928, you have recently issued a certificate of permanent appointment in favour of Mr. John Little as Clerk, Grade 4, Position IA-IA8-687, in the office of the Indian Commissioner, Regina, effective from October 1, 1927, with minimum salary of $1620.00 per annum. Mr. Little was previous to this date and pending the advertisement of the position for permanent appointment employed under temporary certificate at a salary of $1800.00 per annum and this salary has been paid him to July 31, 1928. Owing to his permanency having been made effective from October 1, 1927, he would have to refund the difference in salary paid since October 1, last. He states that he is unable to make a refund to the Department of the overpayment of salary to him since that date, and he therefore asks that his permanent appointment to Clerk, Grade 4, be made effective from October 1, 1928. I have to request therefore that you will cancel the present certificate and issue a certificate of permanent appointment in his favour effective from October 1, 1928.

A statutory increase has been approved by you for him effective October 1, next. In the event of his permanency being dated from October 1, 1928, he would not be eligible for this increase until October 1, 1929.

Dear Mr. Foran,-

I have to request that you will kindly grant an extension of temporary certificate in favour of Miss Hazel Edna Wylie as Stenographer, Grade 2, in the office of the Indian Commissioner at Regina for a period of six months from December 15, 1928. It was expected that Miss Wylie would present herself at the open competitive examination for Stenographer, Grade 2, held in October, last. Through some misunderstanding she did not present herself at the proper time and it is therefore necessary to continue her employment under temporary certificate.

Yours very truly,

Dear Sir :

RE : Miss Hazel Edna Wylie.

The name of the above person has now been reached for permanent appointment as a Stenographer, Grade 2.

at Regina, Sask., , the minimum salary for which is $ 1080 per annum.

If you have a permanent position vacant of the class mentioned, please state whether you desire the permanent appointment of the person named, and also if the necessary funds are available for the payment of the salary on a permanent basis.

In case you do not desire the permanent appointment to be made in your department, it is assumed that you will have no objection to the first vacancy in another department being offered to this employee.

Please advise the Commission at the earliest possible moment in this connection, in order that permanent appointments of others lower on the list may not be held up.

Dear Mr. Graham,-

With further reference to the correspondence we have had regarding temporary stenographic assistance in your office for a period of two months, I beg to say that on reference to the Civil Service Commission they advised me that on the eligible list for Regina the name of Miss Eva Mildred Jenner, 1933 Garner St., Regina, appeared and I wired you on the 9th instant that she might be employed. The Commission have issued a temporary certificate in her favour for a period of two months, with salary at the rate of $1080.00 per annum. Kindly advise me if she has been employed and if so the date from which her service began.

Yours very truly,

A. S. Williams

COMMISSIONER'S OFFICE,
REGINA, SASK., July 31st, 1930

Sir,-

Referring to your letter of July 12th No. 427-063 A -X and previous correspondance regarding temporary assistance in this office during the absence of the regular stenographers, I am now enclosing voucher No. 713 amounting to $65.03 for 22¾ days' services rendered during July.

I wish to point out that it was not my intention to convey the impression that I wished to engage a stenographer for two months continuously, but only at odd times when extra help was needed.

On receipt of your telegram of July 9th I ascertained that Miss Jenner was out of the city, so I engaged Miss Pickersgill until the former returned. Owing to the prolonged absence through illness of Miss Diggle while Miss Wylie was away on her vacation ,it was necessary to have the two temporary stenographers for a few days,as we were very busy just then.

When it again becomes necessray to have extra assistance I shall engage Miss Jenner if possible.

From July 14th to 26th Miss Diggle was absent eleven working days. She tried to resume her work on Monday 21st but was not able to stand it. I am enclosing Dr. Straith's certify regarding her illness.

The Secretary,
Dept. of Indian Affairs,
Ottawa.

W.M. Graham

Dear Mr. Foran,-

I beg to acknowledge the receipt of your letter of the 6th instant, your File IA-IA1-3005, and to say in reply that we are today advised by the Indian Commissioner at Regina that it was not his wish to engage a stenographer continuously for two months at his office, but he desired to know who could be employed when extra help is needed. Miss E. M. Jenner was engaged for eleven days in July, from the 17th to the 28th, and paid at the rate of $90.00 a month. I shall advise you of her further employment.

Dear Sir:

I am directed to acknowledge the receipt of your letter of the 8th instant with respect to the employment of Miss Eva M. Jenner in the position of Stenographer, Grade 2, at Regina, Sask. As Miss Jenner was regularly assigned to duty in response to your requisition the certificate will be completed in her favour to cover the period from the 17th to the 28th of July and forwarded to the Auditor General.

You will understand that as the Commission is required to fill vacancies of Stenographer, Grade 2, in a numbeer of different Departments at Regina it is necessary that it be aware of the number of candidates available for appointment. While Miss Jenner was employed in your Department she would not be available for temporary duty elsewhere.

Dear Mr. Scott,-

I have your letter of August 7, No. 427,063 A-X asking if Miss Jenner has been appointed Temporary Stenographer, and in reply would refer you to my letter of July 31st, with which I enclosed voucher No. 713, and explained that I did not require the continuous services for two months of a stenographer, but that this extra help was only needed from time to time when work became too heavy during the absence of some members of staff. We have had this extra assistance for 22¾ days during July and shall probably need Miss Jenner again in September, but I cannot say beforehand just when the necessity will arise.

Hoping this arrangement will be satisfactory,

COMMISSIONER'S OFFICE,
REGINA, SASK., March 24th, 1932.

Sir:-

I write to advise you that the contract supplies for the coming fiscal year, deliverable at Regina, are coming in by degrees and to remind you that it will be necessary to continue to take over following consignments as they arrive and carefully re-ship them. So far only rice, tea, sugar, matches, and cod lines have been delivered in full, and partial deliveries made of holland twine, blankets, kersey, and biscuits. Mr. G. R. Reid, who has been notified however that his services will not be required after the 31st of March, has always handled this most efficiently and is thoroughly conversant with the work that has to be done and the carrying out of the many details which its proper performance entails. This will occupy time until the middle or probably the end of May, and I beg to suggest that Mr. Reid's services be retained for the months of April and May, and also those of a truck driver who will certainly be needed as an assistant. If the work is turned over to others who are not experienced, I am afraid there will be delay and confusion and a consequent waste of time.

I shall be glad if the Department will give this matter immediate consideration and advise me by telegram so that those retained may be notified and the work allowed to progress without interruption, unless the matter has already been taken up with one of the Inspectors.

Your obedient servant,

M. Graham,
Indian Commissioner.

Ottawa, March 30, 1932.

Dear Doctor Scott:-

In connection with the two employees at the Regina office, Mr. Reid and Mr. Little, whose services were dispensed with by Order in Council, to take effect from the 31st of March, 1932, I would say that since they entered the department I have been closely associated with both men. Mr. Little has acted in the capacity of book-keeper; has checked all accounts coming into the Regina office; all the cash statements from the different agencies, as well as making out vouchers, etc. Mr. Reid has attended to files; looked after all supplies that went through the warehouse, and has personally superintended the shipments of all food supplies and clothing every spring, as well as attending to numerous other duties in the office. He has also, on two occasions, been sent out to agencies and acted there in the capacity of clerk for two or three months at a time.

My reason for writing this is, that I have always had in mind the fact that both men would be exceptionally well fitted for the position of agency clerks. I have always found their work very satisfactory, and I have no hesitation in recommending them for agency clerks or in any other clerical position in the department.

Dear Sir:-

I beg to advise you that under the authority of Order in Council, P.C. 28/560 of the 10th instant, four positions in the office of the Indian Commissioner, Regina, were abolished and the incumbents retired. The positions are as follows:-

IA-IA7-9 Clerk, Grade 4, Miss A. W. Tye
IA-IA7-10 Clerk, Grade 4, J. Little
IA-IA7-11 Clerk, Grade 4, G. R. Reid
IA-IA7-17 Caretaker-Chauffeur, A. Galbraith

This action was taken under the provisions of the Superannuation Act of 1924.

Mr. Reid and Mr. Little are entitled to a gratuity; Miss Tye to an annuity; Mr. Galbraith to a gratuity.

It is desired that the names of these employees be placed on the list for re-employment in the Government service as provided under Section 54 of the Civil Service Act in vacant positions either in this or other departments.

One of the Inspectors attached to the Regina Office who is now in Ottawa has stated that the services of all of the above employees have been most satisfactory.

Yours very truly,

Acting Deputy Superintendent General.

Memorandum:

Honourable Thomas G. Murphy.

Since I was speaking to you over the telephone this morning, it occurred to me that possibly the employees of the Regina office to whom you had reference might be Mr. J. Little and Mr. G.R. Reid, both of whom had been employed as Clerks, Grade 4, there. When it was decided to abolish the Regina Indian office, they were retired under the provisions of the Civil Service Superannuation Act of 1924 on account of abolition of office. In each case they were granted ~~three~~ months retiring leave with pay which was approved by the Civil Service Commission. Their services ceased on the 1st instant and their superannuation will take effect from the 1st ~~July~~ next. In each case they were entitled to a gratuity under the Superannuation Act.

We have written the Civil Service Commission requesting that the names of these two employees be placed on the list for re-employment in the Government service as provided under Section 54 of the Civil Service Act, in vacant positions either in this or other departments. In letter of the 24th March Mr. Graham recommended that the services of Mr. Reid and also a truck driver be retained until it was possible to close the warehouse, but as the action regarding Mr. Reid's retirement was completed, it was decided, after discussion of the matter with Mr. Inspector Murison, then in the city, to continue Mr. Hay and Mr. Brant if this would have your approval. I am enclosing a memorandum in regard to it herewith.

Miss Diggle

Dear Mr. Williams:-

On April 4th I sent you the following night letter;-

"Miss Diggle senior stenographer would prefer to remain
"Regina stop only member of family earning salary others
"unemployed father pensioner. In view her monetary
"position also seniority cannot she be granted preference".

Upon my return to Regina I ascertained that Mr. Christianson had wired his wife instructing her to notify Miss Diggle to get ready to proceed with him as his stenographer to Calgary. In view of the circumstances as set forth in my night letter to you regarding Miss Diggle and also in view of my understanding with you that the allotment of stenographers would be made by the Department, after giving the requirements of the offices as now constituted consideration, I was much surprised to learn of the action Mr. Christianson had taken as I was not aware that any special privileges had been given to him. Upon receipt of your reply dated the 5th instant I had a conference with Mr. Christianson and Mr. Hamilton and read your telegram to them, after explaining the action I had taken in wiring to you. Mr. Christianson at once said; "That settles the matter. I will "take Miss Blanchfield". Mr. Hamilton left the decision with Miss Diggle and she decided to go to Winnipeg.

The matter is now arranged and I am quite relieved and satisfied to know that it is settled.

Trusting that the foregoing will explain to your satisfaction my reasons for taking the matter up.

Dear Mr. Williams,-

I beg to acknowledge receipt of your letter No. 427063-4A, dated the 4th instant, with reference to closing the Regina Indian warehouse and retaining the services of Mr. Hay and Otto Brandt for the present.

I may inform you that the shipment of contract supplies was not finally completed last year until the first of June. Last year over one hundred and eighty-four tons of contract supplies passed through the Warehouse and conditions will be no different this year. Supplies are arriving daily and we now have the Warehouse full, but I hope to get the outgoing shipments under way at once and will rush this work as fast as possible. You will understand that, in addition to the contract supplies, there is a large quantity of clothing and other articles which were taken over from the S.C.R. These are to be divided between Mr. Christianson, Mr. Hamilton, and myself, and will necessitate added work.

It is difficult for me to inform you as to the exact time when I may release these two men, but I hope to have the matter cleared up by the end of May. In this connection, I may say that, when the Minister was instructing me with regard to closing the Warehouse, he stated that he wanted it closed as soon as possible and, if necessary, I might engage the necessary extra help to facilitate matters. I hope to have the work in full swing next week and as it proceeds I will advise you as to the progress. Mr. Cookson and Mr. Johnson are assisting me with this work and, if there is no occasion for these men to go to Ottawa immediately, I would be very glad if the Department would permit me to retain their services here as they will be very useful to me in connection with the work of closing the Warehouse.

Dear Sir,-

I beg to advise you that it was decided to abolish the office of the Indian Commissioner at Regina, Sask., and to substitute therefor a system of Provincial Inspectorates. The plan for the future provides for three Inspectors located respectively at Calgary, Regina and Winnipeg, and a Travelling Auditor located at Regina, each Inspector to have a Stenographer. This will necessitate certain changes in our establishment there, and I have to request that you will take the necessary action. Delete,

Dear Sir,

I am directed in acknowledging your letter of the 13th ultimo relative to the re-organization of the Regina Office to advise you that, inasmuch as one member of the staff to be retained is an Accountant, the disposition of his position was taken up with the Comptroller of the Treasury.

Inasmuch as the Comptroller is not in a position to finally determine their needs with respect to the Accountant position aforesaid, and, as it is your Department's intention to transfer two positions of Principal Clerk to Ottawa for the performance of duties unstated, the Commission is of the opinion that, aside from the abolition of such positions as may from time to time be found surplus to requirements, in connection with which I may say the Commission awaits your advice, it would appear preferable to withhold action in the matter of drawing up an establishment for the Regina Office until such time as these and certain other matters may be definitely disposed of.

Your concurrence or disagreement with this plan of action will be appreciated.

COMMISSIONER'S OFFICE,
W. REGINA, SASK., 20th May, 1932.

Sir:-

I beg to inform you that Mr. S. Cookson is leaving Regina for Ottawa on Sunday evening, the 22nd instant.

With reference to Mr. Hay and Otto Brandt, I find that I will not be able to dispense with their services at the end of the month. There has been a large volumne of goods to move out of the Warehouse and the men have worked hard and done very well. I may say that having to take stock of the goods before I have completed the shipments will necessarily delay the work. I will report to you in good time when I am satisfied that the work will be completed.

Sir,-

I beg to report that the work of closing out the Warehouse will be completed by the end of the present month and I will have no further occasion to employ the services of Mr. Hay and Otto Brandt. I have already practically completed shipping out the main bulk of the clothing etc., but there is quite a large number of odds and ends which will entail considerable work and it is not anticipated that I will be in a position to release these men until the end of the month.

Dear Sir,-

With further reference to my letter of the 13th April last and your reply of the 4th ultimo, your file 33-IA-IA7, regarding the re-organization of the Regina Indian Office, I have to say that Mr. S. Cookson, Principal Clerk in position IA-IA7-7 and Mr. H. P. Johnson, Principal Clerk in position IA-IA7-8, are now in Ottawa and it is desired that they be added to the establishment here, Mr. Cookson in the Secretary's Branch and Mr. Johnson in the Lands and Timber Branch.

The services of Mr. W. J. Hay, Clerk, Grade 2, in position IA-IA7-12 and Mr. Otto Brandt in position IA-IA7X-5, are being discontinued. Their positions may be abolished from the 30th September. Position IA-IA7-4, Inspector of Indian Agencies, Grade 2, the former incumbent of which was Mr. J. R. Bunn, now deceased, may be abolished.

If you have been advised by the Comptroller of the Treasury as to position IA-IA7-6, I presume the re-organization might now be made and should appreciate your taking the necessary action without delay.

Yours very truly,

OTTAWA July 7th, 1932.

Dear Sir,

I am directed to acknowledge your letter of the 29th ultimo, with reference to positions IA-IA7-7 and 8, and of the positions affected by the closure of the Regina office.

I am to advise you that the Commission will take immediate action in the case of the two positions specifically mentioned, just as soon as you can supply statements of work indicative of the load imposed upon the units to which it is proposed to have the incumbents of these positions transferred.

A letter of enquiry is being addressed to the Comptroller of the Treasury in connection with position IA-IA7-6, requesting information as to his decision on the need of this addition to his staff, and the duties to be assigned.

Under Order-in-Council P.C. 44/1367 of the 14th June, 1932, it is not necessary to submit a report to Council for the abolition of the positions rendered vacant by the retirement or decease of the other positions referred to in your letter.

Mr. Cole.

With reference to the last paragraph of letter from the Civil Service Commission of the 7th instant, which is as follows :-

> "Under Order-in-Council P.C. 44/1367 of the 14th June, 1932, it is not necessary to submit a report to Council for the abolition of the positions rendered vacant by the retirement or decease of the other positions referred to in your letter."

I beg to say that I presume reference is made to positions

IA-IA7-4, Inspector of Indian Agencies, Grade 2, the incumbent of which was Mr. J.R. Bunn,
IA-IA7-12, Clerk, Grade 2, W. J. Hay, and
IA-IA7X-5, Interpreter, Otto Brandt.

The position formerly held by Mr. Bunn is vacant now and will be included in those reported as vacant under Order in Council P.C. 44/1367 of June 14. If you will refer to my letter of the 29th June, you will note that I requested that action be taken to abolish Mr. Hay's and Mr. Brandt's positions from the 30th September. They will be out of our service before that date but we desire to retain the positions until all leave has expired.

Dear Sir,

Attention Mr. MacInnes.

In reply to your enquiry of the 1st instant, your file 427063A-X, I am directed to advise you that by the expression "the load imposed upon the units" the Commission requested sufficient information in a concrete form relative to the work now required of the units in question as compared with the work required of them in say 1930 or in comparison with the period immediately prior to the closing of the Regina office. This information should be presented in the best possible manner for purposes of comparison and estimate of the per capita load on the staff by the Commission.

I regret the ambiguity of the concluding paragraph of my letter of the 7th July, which should have read:-

IN REPLY REFER TO FILE No. 33-IA-A (Dup) OTTAWA, January , 1933.

Please return to McCrookson

Dear Sir,

In reply to your inquiry of the 30th ultimo,(your file 427063 A-X), with reference to my letter of the 5th December last, in connection with the employment of Mr. Cookson and Mr. Johnson, I am to say that the expression "load imposed" is not synonymous with "duties assigned". The expression refers to the amount of work in contra distinction to the type or kind of work and in order to answer this question may I point out that it is necessary for some adequate record to be kept of the volume of work falling within the principal categories or, in other words, the duties which form the greater bulk of the work required of a unit must necessarily be kept account of before the question of "imposed load" can be answered.

The term "units in question" refers to the organization units or branches or sub-divisions of your office to which the above two gentlemen are respectively assigned. The term units in this case has no bearing on the unit load imposed upon the individuals referred to, but does refer specifically and wholly to that part of your establishment constituting an administrative unit duly charged with the performance of the work constituting the load referred to in the preceding paragraph.

OTTAWA, January , 1933.

Dear Sir,

I am directed to acknowledge your inquiry of the 30th ultimo (your file 427063 A-X) in connection with Mr. Cookson and Mr.Johnson.

What the Commission requires in each case is a statement of facts in support of the transfer of Mr. Cookson and Mr. Johnson and the resulting addition to the Headquarters' Staff.

The Department should endeavour to justify -

(1) The transfer of duties with the transferees from Regina to Ottawa.

(2) The addition to the Headquarters' Staff by quoting figures illustrative of the increase in work, if any, required of the office or branch to which the transferee has been assigned. If it is claimed that any such increase in work, or if any reduction in staff has resulted in an over-loading of the staff of the office to which these employees have been assigned, you are requested to submit figures covering overtime, or other determinable results in support of such claims.

Dear Sir,-

As you are aware, Mr. John Little was employed in the office of the Indian Commissioner at Regina as Clerk, Grade 4, and was laid off when that office was abolished. He has since been employed for two short periods,- at the Battleford agency in the summer of 1932 and at Duck Lake in the past summer.

I should like to have a report from you on Mr. Little's qualifications and ability to perform duties entrusted to him, and whether you would consider it in the interests of the Department to endeavour to place him should a vacancy arise in the near future. I should like to have something on my file concerning Mr. Little in view of the retirements and changes which may come about in the next year or so.

IN YOUR REPLY REFER TO
No. 300-4
ALSO TO DATE OF THIS LETTER

INSPECTOR'S OFFICE,
W. REGINA, SASK., 18th October, 1933

Dear Doctor McGill:-

I beg to acknowledge receipt of your letter dated the 11th instant, requesting a report from me on Mr. Little's qualifications and ability to perform duties entrusted to him.

Mr. Little served in the capacity of bookkeeper in the Indian Commissioner's office here from 1926 until March 31st, 1932, his permanent appointment dating from October 1st, 1928. Mr. Graham appeared to be well satisfied with Mr. Little's work. As a matter of fact he has stated to me that he considered Mr. Little the best man he had had on the type of work entrusted to him; that was checking bills of material, accounts, cash statements etc. In so far as straight office work is concerned, I am of the opinion that Mr. Little would perform the duties of a clerk satisfactorily and should fit in very well where his duties would be purely of a clerical nature, such as the duties of a clerk at Portage la Prairie where the office is not situated on a reserve. I would not feel like recommending him as an Agency clerk at an Agency where the Agent's duties take him away from the office for extended periods and where during the Agent's absence the clerk has to a great extent carry on the administration and deal directly with the Indians' problems. At a point such as this the clerk really acts in the capacity of assistant Agent and I am of the opinion that Mr. Little does not possess the experience or qualifications to take over a position of that nature.

Yours very truly,

W. Murison,

Dear Doctor Johnstone,-

With reference to our conversation regarding Mr. John Little, of Regina, I have to advise you that he was a Clerk, Grade 4, in the office of the Indian Commissioner. When this office was discontinued, Mr. Little's position was abolished. His name was placed on the eligible list for future appointment with the Civil Service Commission. Since his services were discontinued at Regina, he has been employed by this Department on two occasions for short periods. His name is still on the list and should a vacancy arise, his re-appointment to the Service would be given consideration. However, I do not know of any vacancy at the present time to which he might be assigned.

Yours faithfully,

Secretary.

MEMORANDUM

March 15, 1934.

DR. MCGILL.

Re John Little, formerly engaged in a clerical capacity in the office of the Indian Commissioner at Regina.

The claims of Mr. Little for re-employment in the Government Service are being strongly pressed on the Minister, who desires that every effort be made by the Department, through the Civil Service Commission, to have Mr. Little assigned to any vacancy that may occur in Saskatchewan, for which he has the necessary qualifications.

The Minister suggests that the proper official of the Department keep in touch with the Commission with this end in view.

Dear Mr. Foran,-

I beg to bring to your attention the case of Mr. John Little, who was employed in the Office of the Indian Commissioner at Regina from May 3, 1924, until June 1, 1932, when he was retired on abolition of that office. He was classified as Clerk, Grade 4, and at the time of his retirement was in receipt of a salary of $1800.00. Mr. Little's services as Clerk were entirely satisfactory, and when he was retired the Civil Service Commission was requested to place his name on the eligible list of those to be accorded preference in the matter of reassignment. Since then he has been re-employed for two short periods at Indian Agencies in Saskatchewan.

BP.

As the Department is most desirous of seeing Mr. Little reappointed to the Service, I should appreciate your favourably considering him when a vacancy arises in the Province of Saskatchewan for which he has the necessary qualifications, and I shall keep him in mind for any opening that may arise at one of our agencies for which his qualifications and experience are considered adequate.

I beg to acknowledge receipt of your letter of March 21, 1934 with reference to Mr. John Little, a lay-off from your Department.

The name of this employee has been placed on an eligible list as a lay-off for Clerk Grade 4 and for any other classes for which he may be qualified. I may say that his name has been submitted to the Department of Trade and Commerce for consideration for a possible vacancy as Inspector of Weights and Measures in the Regina District. That Department was requested to instruct the District Inspector of Weights and Measures at Regina to interview Mr. Little and report upon his suitability and qualifications. When this report is received you will be advised of the results.

Dear Dr. McGill,

With further reference to my letter of March 22, 1934 regarding Mr. John Little of Regina, a lay-off from your Department, I beg to inform you that the Department of Trade and Commerce has advised the Commission that Mr. Little has been interviewed by the District Inspector of Weights and Measures at Regina, who has reported that Mr. Little would not measure up to the requirements physically for position of this nature.

It is further noted that Mr. Little was fifty-seven years of age on his last birthday and that he was fifty-one years of age on his permanent appointment as a Clerk Grade 4 in the Department at Regina on October 1, 1928. As the age limit in open competition for the class, Inspector of Weights and Measures, is thirty-five, Mr. Little would not be entitled to enter the competition as his age on permanent appointment to your Department in 1928 was fifty-one.

Re: Mr. John Little, formerly employed as Clerk, Grade 4, Office of Indian Commissioner, Regina.

I have to advise you that on receipt of your memorandum of March 15, with regard to Mr. John Little, the Department communicated with the Civil Service Commission and requested them to consider him for appointment should a position become vacant for which he would possess the necessary qualifications. We were advised under date of March 22 by the Civil Service Commission that Mr. Little's name had been placed on an eligible list as a lay-off for Clerk, Grade 4, and for any other classes for which he may be qualified. They also stated that they had submitted his name to the Department of Trade and Commerce for consideration for a possible vacancy as Inspector of Weights and Measures in the Regina district, and that that Department was requested to instruct the District Inspector of Weights and Measures at Regina to interview Mr. Little and report upon his suitability and qualifications. They further stated that they would advise the Department of the result of this interview.

We have now been informed by the Civil Service Commission that the Department of Trade and Commerce has advised them that Mr. Little has been interviewed by the District Inspector of Weights and Measures at Regina, who has reported that he would not measure up to the requirements physically for a position of this nature. I quote from their letter as follows :-

Dear Sir,-

Re: IA-IA7-7 - Mr. S. Cookson
IA-IA7-8 - Mr. H.P. Johnson.

With reference to verbal enquiry regarding the above noted employees who were transferred from the Regina Indian Office to the headquarters staff in April 1932, I beg to say that in view of the existing staff control regulations it appears to me that no advantage would result in considering their reclassification at the present time. Mr. Cookson's position can only be definitely revised when consideration is being given to the creation of a Purchasing Branch which was organized in 1933. With regard to Mr. Johnson, as a reorganization of the Lands Branch, to which he was assigned, will likely follow when that Branch is relieved of accounting duties, it is not considered that his case can be finally disposed of at the present time.

Memorandum:

Mr. Pratt.

With reference to your memorandum of the 2nd instant concerning the attached report to Council, I have to advise you that when the office of the Indian Commissioner at Regina was abandoned in the spring of 1932, all the positions in the establishment for that office were abolished with the exception of IA-A-7 and IA-IA7-8, the incumbents of which are Mr. S. Cookson and Mr. H.P. Johnson. These employees were brought to headquarters in April, 1932. Mr. Cookson was assigned to the Secretary's Branch and Mr. Johnson to the Lands and Timber Branch. The authority of Council is required in order to confirm these transfer and to include the positions in the establishment at Ottawa, and in order that their salaries may be provided for in the Civil Government Vote instead of their being paid from the general vote, Indian Affairs, as has been done since 1932. Mr. Cookson and Mr. Johnson are both classified as Principal Clerks, and are in receipt of the maximum salary of the class, namely, $2400 per annum. The transfer of these positions with their incumbents to the administrative division, Ottawa, will, therefore, involve no increase.

Dear Graham,-

In reply to yours of 8th ult I can say positively that there was no imputation of wrongdoing in our letter of 4th May re Godfrey's statements. It seems to be difficult for officers in the outside service to place themselves in the position of those who have to deal with matters at headquarters. To stand by itself upon the records your first letter was not sufficiently explicit, and it was as much for your own protection as for any other reason that you were asked for additional information for it must be remembered that we hold our papers subject to production at any time upon the proper authority and that these letters might be read by persons who were unsympathetic or actively malicious; so that the record must in every case be as complete and satisfactory as it is possible to make it. I feel so cordially toward you personally as well as officially that I do not think you need fear that any action of mine would be suggested by prejudice, although it might happen that I might have to criticize sometimes adversely. After a long experience in Departmental affairs I can say unreservedly that I know of no officer in the service who

has received such warm support from his superior officers as you have, but I think that although you may feel from time to time irritated that things were not going as you thought just right you should reflect that at bottom everything is right; that there is no person plotting against you, and that it is the wish of the Department to give you every scope consistent with Departmental procedure. This red tape of which we sometimes hear too much is absolutely necessary to conduct a large Department, and it is often applied in the best interests of the officer who is railing against it.

I do not think there is anything in our letter of the 4th. of May which should have influenced you in the way it seems to have done, and I beg that you will disabuse your mind of any such vexing ideas. If you were at headquarters where the atmosphere is often filled with suspicion and jealousy you would not think much of the tone of such a letter.

I was glad to see that you had got the Surrenders at Pelly. I have not heard from Inspr. Chisholm, but he has promised to report upon his visit to the Colony and he will assuredly do so before he leaves for the North. I am glad to know that you think of going to Carlton this month. We will look forward to your report with interest.

As I wrote you in my note the other day I have been extremely busy for the last week or two, but now that the Session is over and the Ministers are gradually going away, I do not think that there will be such a pressure of work.

I hope that Mrs. Graham is well this Spring. My wife and I are interested in a garden, and I am having a new Furnace put in the house so that makes things lively at home.

I am today returning the photographs you so kindly sent me, for which accept my thanks.

Meeting of Executive Committee of the Liberal Conservative Association of Indian Head. Jany. 7th, 1914.

Present.

President, W. Govan, A. Davidson, A.W. Sherwood, Geo. Thompson and D.G. Mackay.

Moved by W. Govan.
Seconded by A.W. Sherwood,-

That, whereas, it has been brought to the attention of this Executive that Mr. W.M. Graham, Inspector of Indian Agencies, File Hills, Sask., has been advised by his physicians, on account of continued ill hea health, to resign from the service of the Department,

And, whereas, Mr. Graham's faithful service to the Indian Department has been personally known to each member of the Executive for twenty-five of the thirty years he has been connected with Indian Affairs.,

And, whereas, the illness from which Mr. Graham is suffering has been aggravated, ifn notcaused entirely, bu the strenuous life he has led in the discharge of his duties.

And, whereas, Mr. Graham's skill, tact and untiring devotion as Indian Agent and later as Inspector of Indian Agencies has been the means of placing the Indians of the Qu'Appelle District in the proud position

position they now occupy as the most prosperous and advanced of all the Indians in the Western Provinces, evidence of which is contained in the Departmental Blue-book.

And, whereas, the Agencies under Mr. Graham's control have, through his careful supervision become points of interest to which many distinguished visitors have been attracted;

And, whereas, this Executive has every confidence in the non-partizan loyalty, past and present, of Mr. Graham to the interests of the Conservatibe party.

And, whereas, no provision has yet been made for superannuation of members of the Outside Service of the Department,

Be it therefore resolved, that the Executive of the Indian Head Liberal Conservative Association expressed to the Honourable the Minister of the Interior its earnest desire that something be done to insure Mr. Graham ample recognition of his long services, should his physicians insist on his immediate retirement from active work in the Department, or should continued ill-health force Mr. Graham to the realization of his inability to longer continue in the service of the Department.

The Honourable Dr. Roche,
Minister of the Interior,

Dear Dr. Roche:- Personal.

Re Wm. Graham.

I do not like enclosing you so long a letter, but I think it is due to Mr. Graham that if possible you take time to read this letter from him dated the 22nd. of January. If now the officers of your Department, Mr. McLean and Mr. Scott, will use reasonable judgment in dealing with him, as another officer, the siege of trouble will be over.

As stated in my interview, I think their conduct in the case of Gibson and in the case of refusing the pay of gasoline at a fraction of what a rig would cost showed very poor judgment indeed.

Yours truly,

Arthur Meighen.

January 22nd. 1914.

My dear Arthur,

Your letter of the 17th. inst. received yesterday. I have to-day phoned Embury and McAra with regard to Gillis. I am glad you met Creamer, for this man, in my opinion, has been the cause of much of the trouble. It was he who was most determined to have **me** replaced. McDonald had many of his bullets fired by Creamer. I have been told that he was hedging. I could never get him to say what he had against me. Now with regard to Gillis, the situation is rather absurd. Here is a man seeking the Federal nomination, and the very people who are to elect him are the ones that he is working against by writing to the Department as he has been doing. I do not know Gillis, but have been told that Creamer is responsible for anything he has written, and as you have seen Creamer you can judge for yourself whether he has been fair. Creamer, I may say, is quite intimate with Paget, and I am told gets posted as far as the Department goes through him.

As regards Nixon, I am not at all surprised

and the department are to blame for placing me in a most awkward position with this man. Mr. Nixon is an old man, farming about 75 miles east of me, the department very unwisely have appointed this man's son as farming instructor at File Hills, which virtually means a hired man. He came to me with the idea more or less that he did not have to do this or that, and the fact that his father was to be my dictator was often flaunted before me. What a position to be placed in. The man is illiterate, and I think it is only fair that I should be placed in the position of being in control of my staff, and not my staff in control of me. This is a reasonable request. When Gibson was dismissed, he knew perfectly well that he could go to Nixon and get him to write to Ottawa, as he did, and worse still, succeeded in getting what I said he should not have. It is a straight case of being dictated to by your subordinates, and you know how long that would last with any private concern, and I hope you will bring this matter before the doctor.

Another thing, I think I should let you know about is, that McDonald went to Nixon, shortly after his defeat, and made a deal with him whereby he, McDonald, was to look after the patronage on the west end of the

constituency, and it is altogether likely that he is the cause of some of Nixon's letters. I understand Nixon is easily led, although I am not personally acquainted with him.

You spoke of a delegation meeting the doctor at Regina. I knew about this, in fact I met the train at Indian Head, and the doctor told me all. He gave me to understand that he told McDonald that he must be mistaken with regard to the patronage, and told him (McDonald) that it must be the private purchasers of the Indians he was referring to. I told the doctor at the time that there was nothing in it, and said that I wanted to send him a letter explaining how the matter stood. I wonder if you saw this? While in Regina I saw a letter written by the doctor on the subject of patronage to E. W. Reid, a McDonald man, the letter was largely made up of quotations from the letter I wrote to the doctor after my interview at Indian Head, and it appeared as if the doctor was quite satisfied with my explanations.

You are told that Mr. Scott is of the opinion that I could turn all the private funds of the Indians to those on the Government patronage list. If Mr.

Scott will instruct me officially to do this, his orders will be carried out; but the Minister must expect to be severely criticised, as it would be no time before the whole press of the Province would get hold of it.
I may explain to you that the funds I speak about are the proceeds of the Indians' Grain and Cattle, strictly private property earned by the result of his own efforts.
I will explain how some of this business is managed.

To begin with, 90% of the men I am transacting business for are educated perhaps as well as an average white farmer. Now a man will come to me and say he wants to buy a Massey Binder, the Agent will not give it to me unless I can show him that I am good for it. I call the Agent up and tell him that this man is good and that if he supplies it I will see that he is paid for it in the fall. Now what Scott suggests is that, if a man comes to me and says he wants a Massey Binder, I should say, I won't guarantee it unless you buy a Frost & Wood, simply because the Frost & Wood is a conservative. How many conservative white farmers would be dictated to as to where they would spend their own private funds. The Government has absolutely nothing to do with the funds I refer to, they are created by

the Indian, and I only happen to handle part of them through collections made to pay his own private indebtedness that I guaranteed. As it is at Balcarres 75% of the private funds go to friends of the Government, and I think it is wise policy to let well enough alone. However, if I am to use Russian methods, let them instruct me.

Referring to the Delegation that met the doctor at Regina, I understand there were four in the party, McDonald and three others. McDonald, without me ever saying anything to him, came to me two weeks after to explain that he had nothing to do with the delegation, he had said nothing against me, &c., &c. Another member of the party, a Mr. Tipling of Balcarres, a merchant, told me, three days after, that he had no kick coming, that I had always treated him fairly, and so on, and that he had not complained about me. The other two were from Abernethy, a town where the Indians did some implement business, but which has been cut off by the Grand Trunk Pacific Ry. These two, I understand, kicked because their business had fallen away. It seems to me that I should get the support of the department from the Minister down.

I am confronted with these difficulties all the time in carrying out a policy that should, and has brought credit to Canada in regard to her handling of the Indian question.

I am exceedingly grateful for what you have been doing for me. I realise that I am taking up a great deal of your valuable time. I feel satisfied, however, that you see I am being treated unfairly by the Department, and that if it is possible I will ultimately receive justice. I am hoping to hear something definite soon.

I have been going every day to the doctor, sometimes I think he is doing me good and sometimes I think otherwise.

Hoping you and all the family are well, and enjoying Ottawa thoroughly. Violet joins me in sending kindest regards to all.

MEMORANDUM

Hon. Dr. Roche -

I have read the attached letter from Inspector Graham to Hon. Mr. Meighen. I do not wish to prolong the interchange of memoranda upon this subject, but one or two things call for special comment in this letter of Mr. Graham's and cannot be overlooked.

I do not believe that Mr. Paget, Accountant of this Department, gives Mr. Creamer or anyone else information on Departmental subjects.

His statements with regard to myself on page 3 are quite unfounded. He bases altogether too much on the statement that I am alleged to have made, and when he converts it to his own purposes and writes the sentence that begins, "<u>Now what Scott suggests is that</u> - ", he borders very closely on a style of reasoning which I do not care to characterize.

Indian Affairs. (RG 10, Volume 4070, file 427,063-A)

Mr. Graham must have known that he was fabricating a statement. His whole difficulty with reference to patronage, including the patronage from the private funds of the Indians, arises from his decided lack of ability in certain directions.

When last session during your absence I promised that correspondence with Mr. Graham should be void of offence so far as possible, I undertook a somewhat difficult task as Mr. Graham cannot be written to as we would write to another inspector, but our directions must be expressed with as much care as if we were diplomatists addressing a foreign power.

I shall endeavour to keep things smooth between the Department and Mr. Graham. I have drafted general instructions to our inspectors which I intend to submit to you at an early date. I think these will tend to decrease friction and improve the inspection service.

Dear Mr. Graham,-

In view of the reports that I have received from most of the agencies, I have to inform you that I have decided to place you in charge of the farming and stock operations, and the work of supervising the ex-pupils within your inspectorate. I inclose herewith copy of letter which I am sending to each of the Agents, which will inform them of the authority that I have given you.

In your inspection reports you should make special mention of the action taken by you to improve conditions and state the instructions which you have from time to time given to Agents.

Dear Mr. Meighen,-

Incl. I am sending you herewith a draft of letter I propose to send to Inspector W. M. Graham, will you kindly return it with any comments you care to make. It seems to me that this letter and the one I am sending to the Agents should tend to improve matters, although much will depend upon Mr. Graham himself, he has not visited the Qu'Appelle agency, where Mr. Nichols is, for three years, I think, owing to the enmity between them, but we will have to insist on his going there and supervising that agency as well as the others. Things are in a very backward state there.

DEPARTMENT OF INDIAN AFFAIRS CANADA.

MEMO:

Mr. Scott.

With reference to the proposed changes that I have suggested in regard to the File Hills Agency and Colony and the South Saskatchewan Knspectorate.

The present cost of management is approximately ~~$639.00~~ 6790.00 made up as follows:-

Inspector's salary	$2,400.00	✓
Clerk's "	900.00	✓
Farmer Hocklev's salary	900.00	✓
Farmer Main's " (Colony)	720.00	✓
Mail Carrier's "	120.00	
Extra help	200.00	
" " , Sworder	250.00	
Two labourers	900.00	~~$ 6.390.00~~ 6.790.00
Fuel	400.00	

The cost of management under the proposed plan would be about $7360.00, or in other words, about $570.00 more than it costs at the present time, but this small additional sum provides me with a clerk the year round which is urgently needed on account of the increased amount of work that has to be done owing to increased production, war, etc. This small increase also provides work in connection with the auditing of the books of the Inspectorate which was formerly done by a special auditor. It also provides for the inspection of

of Roman Catholic Schools, which work was also carried on by a special officer.

If you take into consideration the fact that the work of the Auditor and the Roman Catholic School Inspector is to be carried on by me with no additional expense other than the above mentioned, I would point out that a saving would be effected.

Following are the details of cost under the proposed re-arrangement:-

Inspector's salary.....	$2,400.00 ✓	
Clerk's "	900.00 ✓	
Farmer Hockley's salary	900.00 ✓	
Bookkeeper Sworder's "	900.00 ✓

Dear Mr. Scott,-

With reference to the enclosed pay-list for the File Hills Agency for the month of July, I wish to explain why the name of the second clerk appears thereon. I have your authority to engage a clerk to assist me when necessary and from time to time I have issued vouchers in payment of such assistance. The work here is now so heavy that it is necessary to have an assistant all the time and I have been able to secure the services of Miss Ila Pentland and trust you will approve of her appointment. I would point out that the cost of managing this Agency is small, when you compare the results with those obtained at other Agencies where the cost is greater.

Miss Tye Has been in the office nearly every day in June and July although she received notice on July 8th that she had leave of absence till July 9th. She is feeling quite strong again now.

Dear Mr. Scott,-

I received your telegran yesterday on my return from Qu'Appelle Agency .I am surprised and thoroughly disappointed at your decision and am writing again with the view of placing the matter more fully before you, and trust that you will give it further consideration, as I am really in a bad way and must have the help.

I am satisfied that if you were on the ground here and could see for yourself the enormous amount of work that passes through my office,you would not have ruled as you have. It is hard for me to give you details of the work,but I should like to point out that the one clerk I have, is called upon to do more than any three Agency clerks in this Inspectorate put together, and I believe that the clerks at any of the other Agencies each do a full day's work. I would further state that there is more book-keeping in connection with the File Hills Agency alone than there is in the largest Agency in this Inspectorate and

and three times as much there is at two of the smaller Agencies,where there are clerks.

The office work naturally increases as progress is made and the business of the farming Indians with the public increases. You are aware ,that here,as well as elsewhere in this Inspectorate,the Indians are producing thousands of dollars worth of grain annually. You are also aware that it is necessary to have an absolute check on each individual's affairs in order to see that he gets a fair deal,makes judicious purchases and pays his indebtedness. In connection with marketing the grain there is the ordering of cars,shipping the grain,making out bills,receiving returns etc.,all of which necessitates office work. Take the threshing operations and the arranging of the hundred and one matters in connection with this work alone:last year we had three large outfits on this Agency.This means the hiring of from thirty to thirty-six men for two months;each man had to be looked after in various ways,wages advanced from time to time and advances made on account by merchants attended to,- all entailing a lot of work. After threshing, the work of selling the grain commences and one rush leads to

to another. As you know, I am away much of my time, which leaves extra work and responsibility on the clerk.

War conditions have added greatly to the work. We have a large number of women and children, who have nnbody except the office to look after their affairs and guide them in many different ways . Looking after their accounts, ordering supplies and seeing that they practise economy ,-all this adds to the office work. There are also eight farms left on my hands to be kept in active operation under the direction of the office. This entails much buying, selling and paying of wages to labourers. I tried to place these farms in the hands of tenants, but could not, owing to the shortage of labour. Private Bank accounts have been opened for all the soldiers from this Agency and they now have over Seven Thousand dollars at their credit. This, also , has meant much office work.

By referring to the last Blue Book, I see that it is not unusual to engage two clerks at many of the Agencies in Alberta and Northern Saskatchewan. The cost of office help per year including Agent's salaries, is

is as follows,- Carleton $2740.00 Blackfoot $3600.00, Blood, $2700.00 and Duck Lake(at which point I am fairly familiar with conditions) $2800.00. At File Hills there is only an expenditure of $900.00,the salary of one clerk who devotes more than half her time to the work of the Inspectorate ,which brings the whole cost of clerical work of the Agency down to $450.00 a year or $37.50 per month.

As to results obtained I wish to make the following comparisons,- In 1915 Duck Lake had 25,767 bushels of grain.Employed at that Agency there are seven Instructors at a cost of $3800.00. The average area in crop per farming Indian was 18 acres. Carlton Agency had 54,307 bushels and employed three Instructors and one Overseer at a cost of $1740.00; the average area in crop was 16¼ acres, and there are other Agencies on a par with the above. At File Hills, where the class of Indians is no better , no financial aid given, no interest monies to assist in procuring machinery, poorer land and more difficult to work, the following is the showing,- Crop in 1915 almost entirely hailed out. In 1916 they harvested 92,621 bushels of grain, there are two Instructors (no Agent) at a cost of $1620.00 and the average area in crop was 69½ acres.

I have not made these comparisons with the view of belittling what has been done at these other points. I have no doubt that those in charge of the Indians there work hard to bring about results, but I merely wish to ask that if the results at these points warrant two clerks, is it not fair that situated as I am here, with no Agent, absent much of the time and only the services of one clerk for half her time, that I should have the assistance for which I asked? I would also ask, is it fair to expect a girl to work from nine o'clock to six every day, Saturdays included and often Sundays, in order to keep pace with the work? Her health is impaired to-day through overwork and trying to do what one person is physically incapable of doing.

As I said at the beginning, it is difficult for me to enumerate in detail the various duties that the clerk is called upon to do, when there is so much going on. I know that since I have had the help of two in the office they have been kept busy all the time, though it is not by any means the busiest season. We are about to enter upon our busy season, which means hard work until the grain is harvested and sold and the debts all paid, which lasts well

on through the winter, to say nothing of the hundreds of other duties.

I might say that some time is taken up with Patriotic work, of which there has been a great deal done, the amount raised to date being $6,504.00, all of which is paid in through my clerk, who is the Treasurer. Cheques and receipts have to be made out for small and large sums from fifty cents up. A great deal of knitting and sewing has been done, all of which means extra work. It is true this is not part of her work, and much of it is done after hours, but would it be right to have the work neglected? The Indians need to be encouraged along these lines. Personally I cannot give any more of my time to war work among Indians than I am doing.

With regard to the employment of the extra help, I may say, as I have already reported to you, that I found it almost impossible to find a competent stenographer and Clerk this Spring. Miss Pentland, who came from North Battleford, at my request as well as a competent office hand, who is a school teacher, was induced by me to cancel an engagment that she made to teach in Lethbridge at a salary of $900.00, and is now in the position of being out of employment, as I had not the slightest idea that you would not

Dear Mr. Graham,

I have your note of August 12th. I regret that we cannot assume the payment of another clerk for your office. If the extra work is entailed by managing the farms at the Colony, the Indians themselves should pay for the clerical services.

I do not feel called upon to discuss your letter and the statement you have prepared in detail. I may say, however, that it has not convinced me that you have complete knowledge of the facts, or even sufficient to make a just comparison between the work of the agencies and the File Hills Colony.

Dear Mr. Blount,

I have your letter of the 30th. August with copy of telegram from Mr. P. H. Gordon. The telegram is sent on behalf of Mr. W. M. Graham, Inspector of Indian Agencies for South Saskatchewan. Mr. Graham is in some respects an excellent officer, and has done good work in the Department; he has received very cordial support from me and I have as far as possible advanced his schemes and interests, but I do not always share his extraordinary opinion of his own ability and importance.

The cause of the present telegram is our refusal to allow him to add an ~~additional~~ clerk to his staff. As you know we are supposed to be economical, and I have been consistently reducing the staff or refusing to add to it since the war broke out. Without obtaining authority from the Minister or myself,

Mr. Graham engaged a young lady from North Battleford at the rate of $70.00 a month as assistant clerk. He then reported his action to the Department and we refused to sanction it, as Mr. Graham does not require a permanent assistant clerk and as Parliament had made no provision for such service. This failure to maintain ordinary Departmental discipline has placed Mr. Graham in his present position.

I am sorry that the Right Hon. the Prime Minister or even that the Minister should be troubled with these petty matters, but it seems unavoidable. If you would like to see it, I should be glad to show you the correspondence with reference to this incident. As the Right Hon. the Prime Minister has asked me for a suggestion, I would suggest that he should reply to Mr. Gordon that the Department has taken no action which would necessitate Mr. Graham's resignation, and that the Hon. Dr. Roche would give the matter careful consideration.

Yours sincerely,

Have just learned that Graham Inspector Indian Agencies intends to resign treatment he has been receiving of late from Department is intolerable his resignation at this time should not be permitted he has asked for assistance that it is imperative he should have and is been refused it is useless to appeal to his minister. Can you do something to bring this matter before Premier as we are strongly of opinion that Graham's resignation would have disastrous effect on Indians we know departmental heads have no sympathy with his policy which has been demonstrated beyond doubt to be progressive and effective it is not possible for him to continue under present conditions and would urge that he be called to Ottawa at once as matters stand adjustment cannot be made by correspondence and everything is at stand still large harvesting operations about to begin and obstinacy of deput minister will not permit even reasonable requests kindly wire as matter is urgent.

Memorandum,-

Hon. Dr. Roche.

In my opinion there is no necessity for taking too seriously the alarmist telegram from the Secretary of the Indian Head Conservative Association. It is evident that Mr. Graham is resorting to the political influence which he has so often protested against when its effect has been hostile to him. The cause of his present appeal to policital influence is that we have refused to sanction the addition of a permanent assistant clerk to his staff. He undertook, without any authority either from the Head or Deputy Head of the Department, to induce a young lady who already had a profitable appointment as a teacher at Lethbridge to throw up her plans and join the staff of the File Hills agency at a salary of $70.00 a month, with, it is presumed, rations and lodging. After he had taken this unauthorized action he asked for the sanction of the Department and it was refused. Mr. Graham has authority to engage an extra

clerk to assist him in inspecting the agencies, counting cattle, etc., and, from time to time, Mr. W. D. Sworder has been engaged for this work, but it has always cost us under $100.00 per annum. We do not provide permanent clerical assistance for our inspectors in Alberta and Saskatchewan. Mr. Graham occupies a sort of dual position, as he has charge of the File Hills agency and Miss Tye is the agency clerk.

I do not think that Inspector Graham's resignation would have a disastrous effect on the Indians, in fact, we might have a rearrangement of the work to the distinct benefit of the Department. Mr. Graham is labouring under the delusion that he is indispensable; if he resigned, a couple of telegrams would be all that would be necessary for me to send in order to make the necessary arrangements for the time being to carry on the work. Mr. Graham's political friends would, no doubt, suggest a competent man for the position of inspector, and the work of the File Hills agency could also be arranged for.

I think the sooner this threat of resignation is accepted at its face value the better. As for the reference in the telegram to the uselessness of an appeal to yourself and to my obstinacy, the intolerable conditions under which Mr. Graham is working,

and the lack of sympathy, etc., etc., I may say that all these statements are absolutely without foundation; Mr. Graham has inspired them, and I must say that they are false. You will be able to recall how cordially I have supported him and how I have always spoken well of his work. He is now in possession of one of the best, if not the best, positions in the Indian service.

All that I would like to know is whether Mr. Graham is going to resign at once, if so, if he would wire his resignation we could telegraph and make all necessary arrangements, so that there would be no interruption of the work after the harvest.

and beg to say that the urgency of the case must be taken for our excuse for bothering you at a moment when we are sure your time is fully occupied by matters of grave importance.

We are however aware that tardy action will certainly mean the loss to the Indian Department of a man that cannot be replaced without the complete disorganization of a work that has taken 20 years to build up,and stands today as a monument to the efficiency of the subject of this letter.

We are sure that owing to your intimacy with all affairs pertaining to the West,the advancement and success of the Indians under Inspector Graham's care has not escaped your notice,and it would be superfluous were we to elaborate on the status of the Indians today,as compared with 10 or 20 years ago. Permit us how-ever to say,and we are actually in a position to be thoroughly

conversant with the conditions within the Inspectorate,that from an Agricultural,Educational,Military & War Work standpoint,no community of any nationality in the province can show a better record.

Friction which appears to be the outcropping of personal spite on the part of the Deputy Minister,is at the moment,and has for some considerable time,been hampering the work of the Inspector. Reasonable requests have been ignored,or refused,and no opportunity has been overlooked by the Deputy Minister to cast more than a shadow of doubt on the integrity of the Inspector.

As an instance,may we quote one case, Inspector Graham had occasion to proceed from the File Hills Agency to a Reserve 65 miles distant,and rather than spend three days on the trail with horses at an expense of $22.00 for meals etc,hired a car from an Indian for the round trip,for $5.60: this item when included in the monthly statement,was questioned by the department,and Inspector Graham was asked to"say if this Indian owned the car in his own right"

It does not appear to us,that a man who is responsible for the handling of hundreds of thousands of dollars of Department and Indian money,should have to rest quietly under the only implication that can be drawn from the above question.

Inspector Graham,in addition to his duties as Inspector of Agencies,and Agent at File Hills,has recently had the additional duties of Inspector of R.C.Schools,and Auditor of Agencies,forced upon him. Until a short time ago,these duties were carried on with the assistance of one clerk,when it was found that further clerical assistance was imperative.Mr Graham engaged a Book-keeper &Steno--grapher at $70.00 per month and asked to have the appointment made permanent; this was refused,and he was instructed to dismiss the clerk,and pay her $50.00 for the time she had worked.

Now "Graham's" duties as "Auditor" & "Inspector" necessitate his absence from his post as Indian Agent at File Hills,for considerable periods of time,and also demand the assistance of his clerk. While they are away,the hundred and one matters in connection with the Agency simply pile up,or are not attended to until his return,and it is a physical impossibility for one clerk to do the work. The handling of 100000 or more bushels of grain,this years crop,owned by a large number of different Indians will entail a large amount of office work,and we respectfully submit that if the work of the Indians,and of the Inspectorate must be attended to by one clerk,it will be a gross injustice to Inspector Graham and to the unfortunate clerk who will have to endeavour to do work that might reasonably be app--ortioned to two,if not three,assistants.

Inspector Graham's resignation will quickly follow a persist--ance of this injustice,and at this season of the year,with a large crop to be cut,threshed,and marketed,the penny wise,pound foolish policy of practically forcing the resignation of the only man who can bring the situation to a successful issue,would appear to us to be nothing short of calamitous,and at a time when the saving of every bushel of grain counts,the petty spite of a Departmental Official should not be allowed to jeopardise thousands of bushels

Dear Dr. Roche;- Re W. M. Graham Personal

Attached is letter received from the Conservative Association of Indian Head, and copy of my reply. I draw your attention particularly to the two paragraphs noted in the margin on the second page. There really does seem no reason why the letter to Mr. Graham should contain such a remark as that embodied in these paragraphs.

For the life of me I cannot undertstand why this continual friction keeps up. I have never personally, found Mr. Graham unreasonable in anything. I do not say that he is wholly in the right in this case but I certainly do not think he is wholly in the wrong. Perhaps I could have a memorandum.

To
Sir Robert Borden
Ottawa. Ont.

Dear Sir Robert/

I have just heard through the president of the Conservative Association here, that owing to a disagreement between the Deputy Minister of the Interior(Indian Affairs)and Mr W.M.Graham Inspector of Indian Agencies, at File Hills, Sask. the latter is about to tender his resignation.

Might I be permitted to address you in an unofficial way with regard to this matter, as I feel, that were you thoroughly conversant with the facts, Mr Graham's resignation would not be accepted, and steps would at once be taken to remedy the injustice under which Mr Graham is labouring.

During the past twenty years, I have closely watched the working out of first Indian Agent then Inspector Graham's policy of inducing the Indians under his control to adopt farming and cattle raising, not only as a means of livelihood, but with the object of turning the rising generation into an independent, self-reliant, and useful people.

From a small beginning, the farming operations of the Indians in the File Hills Inspectorate, have grown to be a factor in the grain production of this section of the country, and the fact that the Indians have ~~preserved,~~ persevered, through all the set backs incidental to twenty years of farming operations in Saskatchewan, shows first of all the determination of the guiding hand, and secondly the influence for good that Inspector Graham has had, over a tribe that twenty five years ago was notoriously the hardest to handle in the West.

A great work from an Agricultural standpoint remains to be carried to a conclusion, whereby the still younger generation, may be led to adopt the calling of their fathers: after that, there need be no fear of reversion.

Sixty binders, and forty mowers, are working today within the Inspectorate, and I need not draw your attention to the irreparable harm that would be done, were the "foreman" allowed to step down and out.

One hundred boys from the Agencies under Mr Graham's control have enlisted, and are overseas, alive or dead, or are returned wounded: special care must be taken of the latter, and the dependents of the boys who have been killed need a man like "Graham", who having lost a son at the front, can get closer to these people than could any stranger.

At a time like this,when I know that your every moment is occupied with matters of the gravest importance,I hesitate to inflict this letter upon you,but the urgency of the case,and my assurance that the acceptance of Inspector Graham's resignation at this time would be calamitous from an economic,and political stand--point,must be my excuse for asking that you may be good enough to look into the case with a view of at least ameliorating the absolutely unjust conditions under which Mr Graham has been working,and thereby retaining in the service a man who has brought his Indians to a high plane of civilization,and whose policy has shown itself to be wise and efficient.

May I assure you,Sir Robert,that your decision to remain at the head of the government,has given your many warm friends in this district the greatest pleasure and the most unbounded con--fidence in the outcome of the critical times through which Canada is passing.

I have the honour to be,

Dear Sir Robert:-

I was glad to receive your letter of the 4th instant but sorry that press of other business of real importance has evidently prevented your reading the correspondence to which I referred in my telegram. Had you read this I feel sure that you would have seen that relations between some underling at Ottawa and Mr. Graham were somewhat strained. For instance, in one of Mr. Graham's accounts he included a sum of $6.00 paid to an indian for the use of his automobile in driving him from File Hills to another reserve to pay out treaty money. The facts are that Mr. Graham left File Hills after six o'clock one night, drove, I think it is to Piapot reserve, paid out treaty money all the next day and returned by automobile that night, paying to an indian at his reserve, the $6.00 in question. A reply from the department asking for an explanation might have been quite

proper but the reply which was sent to Mr. Graham contained an insinuation which was not even veiled that such a sum had not been paid. Personally I should regret very much if any such letter was ever sent out from this office over my firm's signature and I feel sure that had you seen the correspondence you would agree with me that it is not in good taste or in the best interests of the country at large that such letters should go out from any department of the Dominion much less to a man of the standing of Mr. W. M. Graham, and I might say here that there are few people in the west who have had the opportunities of knowing more about indians and indian agents than myself. I was born in this Province and even to-day know by name most of the indians on the big reserves within one hundred miles of this City. Mr. Graham is a man who has the welfare of the indians as his only hobby. He has been of inestimable value to the Provincial Red Cross Branch of which society I am Provincial Secretary. Last week I had one of the head indian agents of the State of California staying with me who said that what Mr.

Sir Robert Borden:

Graham had achieved on the File Hills reserve was beyond belief.

To refer again to your letter I note that you say that the Deputy states that the only question that has arisen between Mr. Graham and the department was in connection with the appointment of a permanent clerk in the Inspector's office. This I can only say again is one of the minor points of difference. The chief objection as I have outlined above is that a man of Mr. Graham's age and experience should suffer the indignity of receiving letters from the department such as I have read.

I sincerely trust that you will speedily recover from your present indisposition as reported in the press and that you may have time to check over this matter as my personal opinion is that Doctor Roche has been leaving the matter entirely in the hands of his deputy who has caused the trouble.

With kindest regards, I remain,

Dear Sir,-

I have perused all the correspondence that has taken place in connection with the recent difficulty between yourself and the Department, and while I certainly do not approve of the wording of the communications sent out by Mr. Stewart of the Department to yourself, on the other hand I must take exception to the methods which you have adopted in order to have any grievances either real or imaginary redressed. Some time ago you justly complained of having your work hampered by local politicians and by other officials of the Government bringing political pressure to bear to counteract your usefulness, and were I as sensitive as yourself in regard to communications which have been sent to my colleague Hon. Mr. Meighen and to the Prime Minister, I would have resented in a much stronger manner statements which have been made in those communications. It seems rather peculiar that you would adopt the same course that you complained of in others and enlist the sympathy and services of members of Conservative Associations to make representations not to the head of your Department but going behind his back attempting to bring pressure to bear through the Prime Minister and the Secretary of State in order to have your own wishes carried out. One of those communications states that it was useless to appeal to myself, an entirely gratuitous statement and one which I feel sure would not have been made by the gentlemen in their letter to Mr. Meighen unless you had made such a statement to those gentlemen. So far as the telegram to the Prime Minister is concerned, it was referred to me in the usual manner as the Prime Minister never interferes with the management of any of his Ministers' Departments and has every confidence in his several Ministers. If, therefore, there is anything wrong in connection with Departmental matters, the least that I can expect from any employee of the Department is that such matters will

Dear Mr.Scott:-

I have your letter of the 24th.ultimo and I note that Miss Pentland's services are to be retained up to November 30th.,out off consideration for her,and not because you think that the work warrants the extra assistance,

I have no suggestions as to the rearrangement of the work here.I have done the best I could to carry on the business of the Agency as economically as possible and when I found that the work was getting beyond me and more than one clerk could possibly do,I put the matter before you in a business way,using all the arguments I could to impress upon you of the necessity of such assistance.I received your cutting reply to this letter and the matter so far as I am concerned ends here.

I may say however,for your information that

PRIVY COUNCIL
CANADA

Certified copy of a Report of the Committee of the Privy Council, approved by His Excellency the Governor General on the 16th. February 1918.

The Committee of the Privy Council have had before them a report, dated 12th. February, 1918, from the Superintendent General of Indian Affairs, representing that he has considered the possibility of utilizing the vacant Indian lands in the Provinces of Manitoba, Saskatchewan and Alberta, and also the officers and employees of the Department of Indian Affairs in these Provinces with a view to increasing the production of grain and live-stock.

The Minister states that pursuant to the Provisions of the several treaties with the Indians, large reserves were set aside out of the public domain, and in order to render the Indians self-sustaining, agents and farmers were appointed to instruct them in agriculture and stock-raising; a system of education in which agriculture formed a chief subject was also established for the youth of the tribes. A considerable degree of success has attended these efforts; rations are no longer issued to able-bodied Indians and they show increasing ability to provide their own maintenance. Last season they harvested 654,644 bushels of grain, their live-stock amounts to 22,362 head.

The Minister further states, however, that only a small portion of the land on Indian reserves is under cultivation and that these reserves are for the most part situated in the productive area of the three Provinces and are finely adapted for agriculture and stock-raising.

The Honourable
The Superintendent General of Indian Affairs.

Indian Affairs. (RG 10, Volume 4070, file 427,063-A)

The Minister has also considered how these idle lands might be brought under cultivation and how the present officers and employees of the Department of Indian Affairs and the Indians themselves might be organized in a scheme to produce supplies of food now so greatly needed. The conclusion has been reached that the appointment of a qualified Commissioner charged with the responsibility of developing such a scheme and carrying it out and clothed with the requisite authority to conduct its activities, would be the first essential to success.

The Minister, therefore, recommends that Mr. W.M. Graham, Inspector of Indian Agencies, South Saskatchewan Inspectorate, be appointed a Commissioner for the Department of Indian Affairs in Manitoba, Saskatchewan and Alberta, with the following duties and powers;

To make proper arrangements with the Indians for the leasing of reserve lands, which may be needed for grazing, for cultivation or for other purposes, and for the compensation to be paid therefor;

To formulate a policy for each reserve;

To issue directions and instructions to all Inspectors, agents and employees in furtherance of that policy;

To make purchases and engage or dismiss any extra or temporary employees, and market the yield of grain and livestock, and in effect to have the sole management of this work subject to the approval of the Superintendent General of Indian Affairs to whom he shall report fully at close and regular intervals,

The Minister further recommends that the said Commissioner be authorized also to make recommendations to the Superintendent General of Indian Affairs, looking to the greater efficiency of such of the Indian service in the said Provinces as is not related to the said special work.

The Minister believes that in this way it will be possible to bring larger areas under cultivation and produce grain and meat supplies of great value.

The Minister recommends further that, pursuant to the provisions of the War Measures Act, 1914, and of all other authority in that behalf, the sum of $300,000.00 be advanced from the War Appropriation to the Department of Indian Affairs for the purchase of agricultural machinery and implements, seed and live-stock, fence wire and other supplies and for rentals, salaries, and expenses necessary for the undertaking, the said amount to be refunded to the War Appropriation from revenues arising from sales as they accrue; all expenditure and revenue to be treated in the usual way and all accounts to be audited by the Department of Indian Affairs and by the Auditor General.

The Committee concur in the foregoing recommendations and submit the same for approval.

Dear Mr. Graham,

GREATER PRODUCTION.

In connection with the efforts which you will shortly be making to endeavour to get the consent of the Indians to the utilization of their waste lands for greater production, I have to inform you that the Justice Department has given the opinion that the War Measures Act will enable us to take the lands required without the consent of the Indians. I hope, however, that they will give their consent and thus cooperate in the scheme.

Dear Mr. Scott,-

I have your letter of the 21st ult. enclosing a copy of circular letter addressed to all Indian Agents, instructing them to send me copies of their monthly reports.

Is it your intention to give instructions on matters touched upon in these reports, or is this left for me to do? I diesussed this important matter with you and I understood that we agreed that both reports should come to mg office, and that I would deal with all matters pertaining to my work,such as cattle, preparation of soil,haying,plowing,harvesting etc. If these matters are not dealt with promptly and from one source, little will be accomplished. My idea was that Agents' and Inspectors' reports would come to me to be checked up and have marginal notes of action taken placed on the original, which would then be forwarded to Ottawa,and if further action was desired I would be advised.

Yours sincerely,

Dear Mr. Graham,

GREATER PRODUCTION.

I have your letter of the 4th. March with reference to the circular addressed to the Indian Agents. I have cancelled the first circular and substituted the one of which I enclose a copy. My understanding is that on the receipt of these Agents' reports you will issue instructions on all matters pertaining to your work such as cattle, preparation of soil, haying, plowing, harvesting, etc., and will make marginal notes of the action you have taken on the original and forward it to headquarters. There may be matters outside the sphere of your Commission, on which we would have to take action, but there should be no opportunity whatever of our instructions

Dear Mr. Graham,-

I have your letter, dated Calgary, March 11th, 1918, with reference to the arrangements you have made at Edmonton agency. Since I last wrote you I had an interview with the Civil Service Commission. I do not think we will have much trouble with them, but we must try to meet their regulations. They propose a regulation with regard to emergency appointments that will enable us to engage employees, but the employment must not extend beyond 30 days unless the Commission shall have issued the certificate. It will, therefore, be necessary for you to let me have, in connection with each case, as soon as you can, the name of the man and all available information about him, giving rate of pay, etc., etc., with your recommendation that he be engaged.

I note with reference to the appointment at Alexander's reserve that you have not given me the name of the returned soldier.

Mr. D. C. Scott -

I communicated with Mr. Graham in respect of leases made by Mr. Gooderham and am informed that he had nothing whatever to do with the arrangement made. Please see that no leases are made hereafter of any of the Indian lands for which Mr. Graham is not responsible.

Dear Mr. Graham,-

On the 20th of February, last, arrangements were made that you were to receive an allowance of $100.00 monthly, to be charged against the War Appropriation, in lieu of rations and other perquisites enjoyed at Balcarres. Owing to an oversight, you were not informed of this, and you may draw against the War Appropriation for the amount monthly from the time that you established yourself at Regina.

Striking Example of Efficient Service

The position of Indian Commissioner, for Manitoba, Saskatchewan and Alberta, has been recently revived, and William M. Graham, agent of File Hills, and inspector for South Saskatchewan, has received the appointment. His headquarters will be at Regina, and he will devote a great deal of attention to the exceedingly important question of increased production on all Western reserves.

Mr. Graham came from Ottawa to Winnipeg about forty years ago, and although but fifty years old, has been in the service of the Indian department for over thirty years. At Birtle, Moose Mountain, Regina and File Hills, he has devoted himself unsparingly to the success and true welfare of the red men.

In 1896 he was appointed to take charge of the File Hills Indian agency, which was, at that time, about thirty miles from the railroad. This agency had the reputation of being one of the most backward in the West, in those days, and the task that faced the new agent was far from being a light one. Yet, he succeeded, in a comparatively short time, in transforming File Hills into one of the most progressive agencies in the West—if not in Canada. To quote from the report of Frederick H. Abbott, of his tour of investigation of our administration of Indian affairs—on behalf of the United States government, (page 51):—"At File Hills, near Balcarres, on the Grand Trunk railroad, in the province of Saskatchewan, is a small reserve where I found an illustration of Indian administration which approaches nearest to the perfect ideal I have seen either in the United States or in Canada. This agency is distinguished particularly because of a colony of ex-pupils from the Canadian schools, which has developed into a unique Indian community." . . .

Mr. Abbott gives a very interesting description of the colony for ex-pupils, and in his summary of recommendations to the United States government, says: "9. The File Hills colony for ex-pupils embodies ideal methods of dealing with returned students which are practicable to adopt on many reservations of the United States."

What is thus known as the File Hills colony was begun over twelve years ago by the agent, Mr. Graham, who, upon obtaining the minister's sanction, put aside 18,000 acres to be used exclusively by the ex-pupils of the Indian schools. The idea was to put these young people at a certain distance from their beloved, but ambitionless relatives, where they could work out their own more promising destinies, away, at least a good portion of the time, from the retarding influences of the older generation. Needless to add, the separation was merely a matter of a few miles, and they could visit each other quite conveniently. This scheme, derided by many at first, and in spite of many discouragements, has turned out to be a success in every way, as shown by Mr. Abbott's opinion quoted above. There are ut 35 farmers—quite a few of them now at front and their farms worked for them by r Indians—and they had over a hundred sand bushels of grain last fall, and nearly uch in 1917. Several of them had individual of between 5,000 and 7,000 bushels. One Indian who went to the colony without a ten years ago, is easily worth over $20,000 and there are several others about as ff.

ie great war evoked a splendid patriotic se from File Hills. Practically every Inho could go, has gone to the front. One risoner in Germany; one died in France; r has been missing for some time, and or ten have been wounded. Old and young worked hard for the good cause, and in different ways, these Indians have raised ly $8,000 for the societies, such as Patriotic, Cross, Belgian, Serbians, and they have end three beds in hospitals. The old men have firewood—the squaws have made beaded es—and the younger ones given wheat and All to be turned into the much needed to help win the war. The young women nitted a great deal and tried their skill at e articles required by the Red Cross society. Ir. Graham has now begun his new task as n commissioner, rightly inspired and enged, no doubt, by the success that has at- his efforts for the true welfare of his File friends.

I beg to report that Commissioner Graham is bonded for $5000.00 in the London Accident and Guarantee Corporation and we are paying at the rate of [illegible] per cent. This bond was sufficient when his duties were simply those of Inspector of Indian Agencies, but now that he is handling such large sums of money there would seem to be necessity to increase the amount of the bond.

I would like to discuss with you at some time the question of the amount for which Commissioner Graham should be bonded.

Mr. Scott,-

An allowance of $40.00 a month was granted Mr. Graham last June for the use of his private motor car on official business. He has been paid this allowance from Consolidated Fund from the 7th April, 1918 to 30th November 1918, viz:- $310.00.

Recently he submitted for payment a voucher for this allowance for the months of December, January and February last, amounting to $120.00 during which time the car was not in use at least not in January and February as in the March statement of expenditure chargeable to War Appropriation "Greater Production" account, there is a charge of $25.00 for storage in heated garage for the months of January and February.

It is not clear to me whether Mr. Graham was to draw the allowance during the entire 12 months of the year or not, as your memorandum to me dated 28th June, 1918, simply states that he is to be given an allowance of $40.00 a month for his motor car.

I may say that allowances for use of private motor cars were made to several Indian Agents in Saskatchewan but they were restricted to the Spring, Summer and Fall months of the year.

Mr. Scott,-

In the statement covering expenditure incurred during the month of March charged to War Appropriation "Greater Production" Account at Regina, there is a charge of $98.90 for installing an Electric Range in Mr. Graham's residence, and as the Auditor General may question this being a proper charge against Public Funds, it is submitted for your approval.

I may say that the cost of the Range is not included in this charge, nor has a charge covering the cost of the range yet appeared in these statements. There will be subsequent charges no doubt for electrical energy in connection with the operation of this range.

Such expenditure as above referred to is something entirely new in connection with expenditure incurred by this Department throughout the Dominion, and before passing such charges I feel that I should have your approval.

MEMORANDUM

Hon. Mr. Meighen -

I beg to present for your consideration the facts in connection with the pay and perquisites of Mr. Commissioner Graham, at Regina. The following statement will show what Mr. Graham has been paid in cash for the last fiscal year and the value of what he has otherwise received.

Cash:

Salary	$2400.00	
Allowance	1200.00	$3600.00

Perquisites:

Rent		$1020.00	
Heating	$347.78		
	91.00	438.78	
Electric light and power		100.34	
Phone		90.00	
Garage rent		85.00	
Water rates		17.37	
Man for furnace		360.00	2111.49
			$ 5711.49

This is a fair estimate of the value of this position to Commissioner Graham. The cash allowance of $1200.00 was to represent the perquisites of which he was in receipt at File Hills. He estimated them to amount to $1553.80, but you decided to pay him at the rate of $100.00 a month. Mr. Graham's estimate is as follows:-

Two rations	$423.80
Garden	120.00
Two cows	250.00
Other expenditure	400.00
Man for furnace, etc.	360.00
	$ 1553.80

I think the two rations which he received were over-estimated at $423.80, as we now calculate two rations at $370.00 at the present high prices. Mr. Graham did not give any detail of what the other expenditure, $400.00, consisted of. Altogether the allowance of $1200.00 was fair and reasonable for these perquisites.

You will observe that I have added $360.00 for a man which was merely Mr. Graham's own estimate of what he received at File Hills. The man whom he now employs at Regina as chauffeur, furnaceman, etc., is paid at the rate of $90.00 a month. In addition to the whole of the wages of the chauffeur we pay $40.00 a month for the official use of the car, and Mr. Graham has applied for an increase

Indian Affairs. (RG 10, Volume 4070, file 427,063-A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

of this item to $75.00 a month.

Inspector Combie, Mr. Graham's first assistant, receives $3000.00 a year in cash and has to provide his own house, fuel, light and phone - $3000.00 in cash is all that he receives. I do not think we should continue to pay Mr. Graham on the present basis. I think a straight salary should be attached to the position of Commissioner for the Department at Regina, plus a free house, and that he should meet all his expenses from this salary.

No doubt the Department will be criticized for some of this expenditure when it is detailed in the Auditor General's report, and the attached memorandum from the Accountant will show that there are several items which might call for sharp criticism if they were noted at all. For instance, installing an electric range, rental for garage for private car, garden hose and lawn-mower; these are the sort of small items that often provide matter for irritating criticism.

When Mr. Graham was called upon to provide details of his work for the Civil Service Commission, he went very fully into it, and I approved his card without criticism or alteration. I wished him to have a favourable position in the re-classification. I think we should now wait to see what salary the Commission has given him and we will know that in a few days.

MEMORANDUM

Hon. Mr. Meighen -

I hope to be able in a few days to arrange with the Organization Branch of the Commission to establish the position of Indian Commissioner for the Provinces of Manitoba, Saskatchewan and Alberta in the classification of this Department, and to designate Mr. W. M. Graham for this position. Attached is the description of the position which I would propose. I hope you will approve of it. I think it covers everything including the powers that were given Mr. Graham by the special Order in Council.

The question of salary will also come up and I will endeavour to make the arrangement which you proposed.

You will remember that I am in correspondence with you and with the Saskatchewan Provincial Government about a school for the Sioux Band on the Round Lake Reserve.

Now they have come to me in distress, as they say that your Commissioner at Regina, Mr. Graham, who has "Greater Production" on the brain, is intending and hoping to transfer them to some Sioux Reserve near Dundurn, and to hand their Reserve over to Soldier Settlement, or some such thing. I beg to endorse their protest most heartily, and to urge that nothing of the sort be done. They are, though left alone by us and still pagans, a very respectable band: steady and industrious. They have been on that Reserve, or in that district for about 50 years and most of them, perhaps, have been born there and they love their home. The I.D. is supposed to be anxious to have the Indians take greater interest in farming, and to complain that they do not farm more. Surely to seize all the best of the farming land in one reserve after another is not the way to encourage them to be farmers? But this seems to be Mr. Graham's method lately; and I fear he has somehow gained the ear and the favour of the I.D. at Ottawa. He would not be in such high favour if you could hear how the Indians and the best Indian Agents speak of him. It is easy to make a reputation for success in one particular line of work if you determine to sacrifice all other lines for that one. Mr. Graham may get the praise for "Greater Production" but it is the poor Indians who make the sacrifice. Greater

Production is good and to be sought in a just and honest way, but it is not the whole of statesmanship. Nearly all our Indian work is suffering here because he seems to have eyes and ears and enthusiasm only for greater production. I trust you will be able to comfort these Sioux and allay their fears, and also to see that Mr. Graham realizes that his first job is that of "Indian Commissioner."

With best regards, believe me,

Yours faithfully,

J.A. Newnham,

Bishop of Saskatchewan.

Dear Mr. Scott,- 536636

I have your letter of the 26th instant drawing my attention to your letter of the 18th Sept. last, with reference to the proposed surrender of the Swan Lake Indians for Soldier Settlement purposes.

I can quite understand the Board directing your attention to the fact that no progress has been made and would say that a great many things have been left undone and will continue to be left undone until the Department realizes the conditions under which I have been and am laboring. I have on several occasions pointed out to you how handicapped I have been through having an inadequate staff, and no relief has been given me. I believe I have more difficulty in getting help than any other Branch of the Government in Western Canada. When I make my requests known they are treated with indifference. Not only is the surrender above referred to being held up but there are six others, which will involve an expenditure of probably one million dollars. I have been sitting in my office here from early morning until late at night, doing work which I should not be called upon to do, and as a result these important matters on the reserves have to remain unattended to, and I fail to see where the economy is.

You ask me to return the cheque for $13,500. This amount was returned to you on March 22nd and was included in Cheque No. 1485 amounting to $16,000.

The undersigned begs to refer to the fact that Mr.W.M.Graham was appointed Commissioner for greater production by Order in Council of 16th February, 1918. Since then Mr.Graham has been actively engaged in the work designated, and with marked success.

The revenues that have already accrued from the greater production farms amount to $187,438.78, and there is still wheat unsold valued at $111,740.00, and oats to the value of $8000.00. From the lands rented for farming and grazing under the provisions of Sub-section 3 of Section 90 of the Indian Act a revenue of $200,000 has been collected and credited to the Trust Fund accounts of the various Indians interested.

The undersigned begs to recommend that in recognition of the success of the undertakings above described Mr.Graham be granted an increase in salary from $2400.00 to $3400.00 a year from the 1st April,1920, chargeable to Vote No.263.

Mr.W.M.Graham was appointed Commissioner by Order of His Excellency in Council dated the 16th of February, 1918, and was moved to Regina on the 23rd of March, 1918 as head of the greater production scheme. It was clearly in the interests of the Service that the position of Indian Commissioner, which had not been filled since the death of the late Hon.David Laird, should be re-constituted,and Mr.Graham was appointed to the position. The Civil Service Commission was asked to classify the position and did so at a maximum salary of $3600. The Department's appeal to the Board of Hearing and Representation was sustained and resulted in the Order of His Excellency in Council dated the 29th ultimo placing the salary at from $3600 up. This salary is the one originally proposed to the Commission.

My dear Graham,-

We arrived on Thursday morning, after a rather tedious trip from Winnipeg. No.2 is a slow train and there was only one standard sleeper and that was overcrowded. We had the drawing-room and we were reasonably comfortable.

The moment I came back I took up the matter of your Order in Council and was able to advance it a stage. I phoned to the Prime Minister about it yesterday and he will be on the watch for it when it reaches Council.

We both look back to our pleasant visit to Regina and we hope to see you and Mrs.Graham here before long.

I will be furiously busy next week, so I take this opportunity to drop you a line.

As soon as I can get my accounts straightened up, probably about the middle of the month, I will send you a cheque for the advance you kindly made me.

FORM 2

Great North Western Telegraph Company of Canada

Exclusive Connection with the WESTERN UNION TELEGRAPH CO.

Cable Service to all the World

CONDITIONS.—Approved by Board of Railway Commissioners for Canada, under Order 162, dated March 30, 1916.

It is agreed between the sender of the message on the face of this form and this Company, that said Company shall not be liable for damages arising from failure to transmit or deliver, or for any error in the transmission or delivery of any unrepeated telegram, whether happening from negligence of its servants or otherwise, or for delays from interruptions in the working of its lines, for errors in cypher or obscure messages, or for errors from illegible writing, beyond the amount received for sending the same.

To guard against errors, the Company will repeat back any telegram for an extra payment of one-half the regular rate; and, in that case, the Company shall be liable for damages suffered by the sender to an extent not exceeding $200.00, due to the negligence of the Company in the transmission or delivery of the telegram.

Correctness in the transmission and delivery of messages can be insured by contract in writing, stating agreed amount of risk, and payment of premium thereon at the following rates, in addition to the usual charge for repeated messages, viz.: one per cent. for any distance not exceeding one thousand miles, and two per cent. for any greater distance.

This Company shall not be liable for the act or omission of any other Company, but will endeavor to forward the telegram by any other Telegraph Company necessary to reaching its destination, but only as the agent of the sender and without liability therefor. The Company shall not be responsible for messages until the same are presented and accepted at one of its transmitting offices; if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the sender's agent; if by telephone, the person receiving the message acts therein as agent of the sender, being authorized to assent to these conditions for the sender. This Company shall not be liable in any case for damages, unless the same be claimed, in writing, within sixty days after receipt of the telegram for transmission.

No employee of the Company shall vary the foregoing.

Dear Mr. Scott:

Just a line to let you know that I received word this morning of conditions on the Western farms. The crop yield is holding out around 45 bushels to the acre, and it looks now as if we will get an average yield of 40 bushels. I hope we will.

Since you left here, we have had nothing but sunshine- ideal weather. I have been trying to make the Touchwood trip, but have been very busy. Nora turned up last night from Fort Qu'Appelle. She says the roads are fairly good, but rough in spots. If all goes well I am going to make the trip either Sunday or Monday.

Mrs. Graham received Mrs. Scott's letter, in which she said you had to take accommodation out of Winnipeg on Tuesday morning instead of Tuesday night. I hope you had a pleasant journey from Winnipeg on.

With kind regards to Mrs. Scott,

I remain,

Yours very truly,

Dear Mr. Scott,-

I have your letter of the 19th instant enclosing a copy of the finding of the Board of Hearing and Recommendation, also a copy of an Order-in-Council with regard to the position of Indian Commissioner and the salary attached thereto.

I am disappointed to learn that Fuel, Light and water has been disallowed. This makes a great difference as I was led to believe that my salary would be at least $100.00 more per month than I had been receiving, viz. $3600.00 with perquisites, which included house, fuel, light and water. What I have received is about $600.00 of an increase at the outside. I also have to pay $100.00 tax to the city for the privilege of living here. It was disappointing that the increase was made only from July 29th, 1920, and not re-troactive from the time I took charge of the work here.

It is difficult to understand why the house was not included in the Order-in-Council as this would mean a good deal to me in making an adjustment for retirement. I am not much better off under the present arrangement than I was at Pile Hills, although the work and responsibility has increased fourfold.

Dear Mr. Graham,-

Would you kindly let me have the statements which you prepared for the Right Honourable the Prime Minister, bringing the figures of Greater Production down to date. I would like to have them for our information here.

How is the sale of grain getting on ? There has been a disastrous fall in price, and we will not get as much money as we were expecting, unfortunately.

I am glad to know that you are back from your trip safe and sound, though I suppose it was tiring at this time of the year.

Dear Mr. Calder,- With reference to the matter of my salary and allowances, about which a decision has just been reached after two years, I may say that the final adjustment is anything but fair when one takes into consideration the allowances and salary I had at File Hills as Inspector, which remuneration remained the same for eight years, without any increase. My duties and responsibilities have been increased fourfold since coming here and my financial condition has become worse. I shall compare the remuneration received while at File Hills with that received since coming to Regina until July 29th, last, when a slight improvement was made,-

Received at File Hills		Received at Regina.	
House		House	
Fuel and Light		Fuel and Light	
Salary, cash,	$2400.00	Salary, cash	$3600.00

I have filled since coming to Regina, and you are aware of the increased work I have accomplished and I think you will agree with me that I have reason for feeling thoroughly disappointed at such treatment.

Since July29th my salary has been fixed at $4800.00 without fuel,light and heat, which perquisites I have always had , and as these items amount to about $700.00 a year, the real increase in cash salary is only $500.00, which means that my present position is really worhh only $380.00 more to me than I was getting at Pile Hills.

My contention is that I should be allowed fuel,light and water and a cash salary of $4800.00 from the time I took charge here in March 1918. The matter of giving me an increase has been under discussion ever since that date,but as I was under the impression that such an increase when it did come would be retroactive,I thought the delay would not matter materially.Such has not proved to be the case and as the matter stands now,I have lived in Regina from March,1918 to July 29th,1920 at a loss of $120.00 each year and since the latter date am receiving $380.00 per annum of an increase, and this small increase is more than eaten up by the different environment in which I live.

I wish particularly to draw your attention to the fact that no mention is made in the Order-in-Council of the house which I am allowed. Why this is not mentioned I fail to see,as it is part of my salary.I would ask that this be included in the Order-in-Council as it will make a great difference to mwe when my pension is considered. As it is now it can be struck off at any moment.

I am enclosing copies of the letters you requested.

I feel that further comment is unnecessary and sincerely trust you will assist me in getting what I consider fair remuneration for the work I am doing.

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

RECEIVED
THE HON. THE MINISTER
DEC 6 1920

December 4, 1920.

Memorandum,-

Hon. Sir James Lougheed.

I beg to submit herewith a short statement of the pay and allowances of the Indian Commissioner at Regina.

Until the spring of 1918, Mr. W. M. Graham was Inspector for the South Saskatchewan Inspectorate, located on the Indian reserve at File Hills, about ten miles from the town of Balcarres. He there occupied a house, the property of the Department, and was in the enjoyment of certain perquisites, such as rations, fuel, light, etc.

By Order in Council of February 16, 1918, he was appointed a Commissioner for "Greater Production" on Indian reserves in the Western provinces, and was given special powers. He was moved to Regina, as it was thought that he could operate more successfully from that city. As the Minister did not wish him to be out of pocket by reason of the change, it was understood that he was to be furnished with a residence at Regina, and he was given $1,200.00 per annum in commutation of his perquisites at File Hills.

When we were discussing this commutation, Mr. Graham stated that the value of his perquisites amounted to $1,553.80, as follows : -

Rations	$423.80,
Garden	120.00,
Two cows	250.00,
Other expenditure,-	
fuel and light	400.00,
Man for a furnace ..	360.00.
	$1,553.80.

We, however, concluded that $1,200.00 would be a fair cash commutation.

On his removal to Regina he rented a house for $85.00, which we afterwards purchased at $12,500.00 from the amount advanced from the War Appropriation to finance the "Greater Production" scheme. The $1,200.00 commutation above mentioned is also paid from this advance. Mr. Graham was also allowed to equip the house with an electric cooking range, and he was paid his fuel bills and electric light all from the one source, namely, the War Appropriation account.

Indian Affairs. (RG 10, Volume 4070, file 427,063-A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

In recognition of his success, not only in managing the "Greater Production" scheme, but in the general administration of affairs in the West, he was recommended for a straight increase of $1,000.00. This was twice refused by the Treasury Board: in June of 1919, and again in April of 1920, the Board holding that the matter should come before the Civil Service Commission.

I recommended that we should ask the Civil Service Commission to create the position of Indian Commissioner, which had been vacant since the death of the Hon. David Laird, and promote Mr.Graham to that position. The Commission was asked to create the position, and attach thereto a salary of $4,800.00 per annum, without perquisites. The Commission created the position, but attached to it a salary of $3,600.00, without perquisites. We appealed from the decision, and I went before the Board myself, accompanied by Mr.Graham, who happened to be in the city, and we were thus enabled to make as favourable a plea as possible. The Board was, I believe, disinclined to grant the appeal, but finally passed the position at $3,600.00 and up, which enabled the Governor in Council to fix the salary at $4,800.00, which was done by Order in Council of November 9.

The present position is as follows: Mr.Graham receives a free house, for which we formerly paid a monthly rental of $85.00, and a straight salary of $4,800.00. He is at present receiving $60.00 a month for the use of his motor car, and he has the services of a chauffeur, but, as the allowance for the car is paid from "Greater Production" funds, I do not see how we can continue it after we close up our farms, unless we have an Order in Council, as the Auditor General will,no doubt, object.

With reference to the item which Mr.Graham draws particular attention to, namely, that the house should be considered as part of his salary,in order that when his pension is considered it might be allowed, I may say that Mr.Graham is not a contributor to any superannuation fund and is therefore not eligible for superannuation. The temporary Act passed last session provides for the inclusion in the salary of any perquisites, such as rations and residence. I may say that I believe I was instrumental in having this clause inserted, as I wrote to the Hon.Mr.Calder on the subject, as it affected all our Indian Agents in the West. It would of course not be the Department's intention or Mr.Graham's either for him to take advantage of this Act. We do not want to lose his services. If a new Superannuation Act is considered, it might be worth while to consider adding the value of the perquisites to the salary, but as abatement is an essential part of a true superannuation system, the abatement would also have to be paid on the value of the perquisites.

Dear Mr. Scott,

I spoke to Sir James Lougheed this morning about my fuel allowance which was struck off, and at the time I wrote to you about it. I asked if this could not be given back to me, and I also asked that my house which is allowed me be mentioned in the Order in Council, as it means much in making up my pension. I had this in mind several times to speak to you about but did not do so, and I am writing this note so that you will know what has taken place. I shall be glad to have your assistance in bringing this about.

Dear Mr. Graham,-

I have to acknowledge the receipt of your note of February 23, with reference to your fuel allowance. I shall certainly speak to the Minister about it, probably tomorrow morning. The only item in your letter I can reply to at present is your remark about the house being mentioned in the Order in Council. That would not, unfortunately, give you any rights under Superannuation; such perquisites are mentioned in the present Bill, and, when our officers are superannuated under that Bill, they receive the benefit, but, until it is provided by statute, an Order in Council would not fix it. As this principle was incorporated in the temporary Bill, owing to my representations I believe, there would be little doubt that it would also be a provision of any permanent act.

Dear Mr. Scott,-

On the 28th on February you acknowledged my memo to you of the 23rd saying that you would certainly speak to Sir James Lougheed about my fuel allowance which was taken away from me.

When the $1200. was added to my salary of $3600. the fuel, light and water was cut off, and these items amount to fully $600.00 per annum, so that my position was really only better than the old one by about $600.00 per year, which was considerably less than I was led to expect during the two years I was waiting for an adjustment to be made. As this fuel was always paid out of the profits of Greater Production, it seems to me that all that would be required is the sanction of either the Minister or yourself to continue paying the accounts as in the past. As a matter of fact, I have been holding the accounts pending word from you. I am sorry to trouble you about the matter again, but you will understand why I do so.

A MAN

W. M. GRAHAM,
Indian Commissioner

AN 8,000-ACRE WHEAT F

"W. M. Graham, commissioner for the Department of Indian affairs in Manitoba, Saskatchewan and Alberta has just completed 35 years of service with the department. Starting as a clerk in the Birtle agency in 1885 he has served successively as clerk, agent, inspector, and finally commissioner. He has been resident in western Canada 50 years, his family having come to Winnipeg from the Ottawa Valley in 1872, when the future commissioner was two years olds."

The above brief official note conveys little of what the life work of William M. Graham has meant to the Canadian west. To him belongs the very proud distinction of being the first man to solve the problem of making the Indian take kindly and successfully to farming, for he is the man who devised the community instruction principle for Indian reserves which has made the File Hill Indian reserve in Saskatchewan, famous over the whole continent of America and has drawn visitors from officialdom at Washington to find out "how it is done."

Mr. Graham speaks fluently five separate and distinct Indian languages, and is often called upon to interpret between two Indians of different tribes who cannot understand each other.

Today W. M. Graham is the biggest farmer in western Canada, having surpassed even the Noble Foundation in the number of acres under cultivation and while his fame in years to come will no doubt rest mainly on the success of his efforts in teaching the Indians to like farming his work on the "Greater Production Scheme" in connection with the Great War will ever remain a most noteworthy achievement.

In 1918, when the urge for greater production was at its height, Mr. Graham was given the opportunity of carrying out a scheme which he had in his mind from the start of the war; namely, of increasing production by the bringing under cultivation the large areas of the Indian reserve land which were lying vacant, and which owing to the extremely liberal allotment of Indian reserves when the treaties were first made, were not needed by the Indians or likely at any time to be occupied by them, but which Mr. Graham felt might be made to yield a source of revenue to the Indian reserves, and at the same time increase the production for war purposes. The order-in-council permitting Mr. Graham to carry out this scheme was passed in February, 1918, and reads in part as follows:

"The minister, therefore, recommends that Mr. W. M. Graham, inspector of Indian agencies, south Saskatchewan inspectorate, be appointed commissioner for the Department of Indian Affairs in Manitoba, Saskatchewan and Alberta, with the following duties and powers:

"To make proper arrangements with the Indians for the leasing of reserve lands, which may be needed for grazing, for cultivation, or for other purposes, and for the compensation to be paid therefor.

"To formulate a policy for each reserve.

"To issue directions and instructions to all inspectors, agents and employees in furtherance of that policy.

"The minister further recommends that the said commissioner be authorized also to make recommendations to the superintendent-general of Indian Affairs, looking to the greater efficiency of such of the Indian service in the said provinces as is not related to the said and special work.

"The minister believes that in this way it will be possible to bring larger areas under cultivation and produce grain and meat supplies of great value.

"The minister recommends further that pursuant to the provisions of the War Measures Act, 1914, and of all other authority in that behalf, the sum of $300,000 be advanced from the war appropriation to the Department of Indian Affairs for the purchase of agricultural machinery and implements, seed and livestock, fence wire and other supplies, and for rentals, salaries and expenses necessary for the undertaking, the said amount to be refunded to the war appropriation from revenues arising from sales as they accrue; all expenditure and revenue to be treated in the usual way, and all accounts to be audited by the Department of Indian Affairs and by the auditor-general.

"The committee concur in the foregoing recommendations and submit the same for approval."

It was a gigantic undertaking, as it meant, at very short notice, the getting together equipment capable of handling the work, as Mr. Graham is too old an experienced westerner to risk the danger to the future seed bed of breaking land too late in the season. By the 20th of April a start was made and between that date and mid-July 20,000 acres of virgin prairie sod had been broken, 12,000 of it in the province of Alberta on the Blackfoot and Blood reserves, and 8,000 in Saskatchewan, scattered over various reserves of that province breaking was done with large tra 30-60, and was carried on practi night and day, the average wo day being from 18 to 21 hours. land after breaking was thoro disked and harrowed, and the can testify to the excellent con of the seed bed when seen late fall of 1918.

Leased Lands

on to the gigantic task just here was leased to various ,000 acres of unbroken land for the raising of grain, the rental from these lands going to each reserve and being used for the purchase of machinery, horses, etc., thus reducing the annual Indian appropriation. The leased lands were kept under very close supervision by the Indian department and a higher character of cultivation and good quality seed insisted upon.

The total value of the crop of the greater production scheme in the two years amounted to $1,081,000. The total cost to the government of this scheme was $480,000. Not only that, but all the oats that can be spared and a large amount of the wheat has been sold for seed, thereby providing a source of clean seed which is very necessary and desirable following the years of drought when weeds naturally increased enormously.

Grazing Leases

In addition to the lands leased for grain there was very considerable revenue obtained from the lease of 310,000 acres of grazing land. These leases were made for five years, and in that period the returns from these leases to the Indian reserves will be $624,000. In leasing this land great care has been taken to limit the number of cattle per acre, so as to maintain the permanent value of the land as pasture. Much of this land leased for grazing purposes is of far too rough and broken a nature to make profitable farm lands, and this renting as grazing lands makes a very valuable revenue to the Indian reserves.

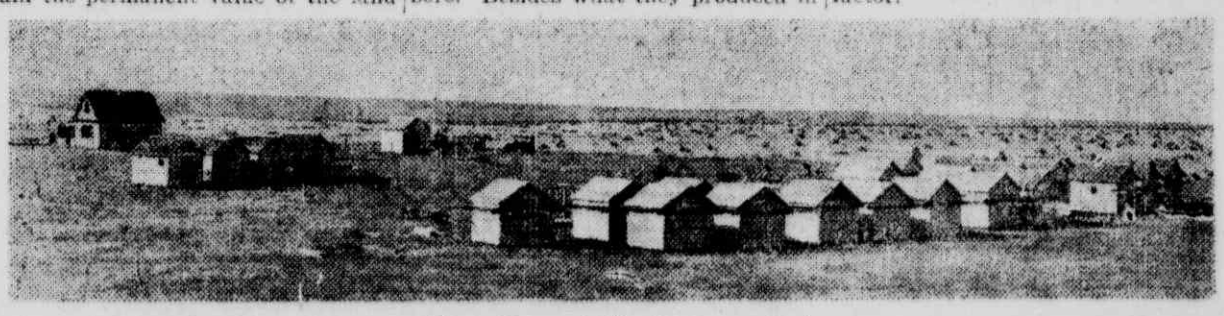

What the Indians Did

The work in connection with the Indian reserves as a war service was not confined to the crop produced from the land broken by the Indian department nor to the land leased to white settlers. The Indians themselves increased their cultivation enormously. In 1918, 1919 and 1920 inclusive 23,000 acres of new land was broken on the reserves and this work was all done by the Indians themselves by horse and ox power, and in the three years mentioned the Indians produced 1,900,000 bushels of grain of all kinds, and in addition, cultivated 48,720 acres of excellent summer fallow. There was 704,602 bushels of grain produced in 1920. The Indians on the various reserves included in this scheme, own at the present time 21,000 head of cattle and 12,000 horses, which in addition to the grain produced, gives them a very good standing as compared with the work of many of their white neighbors. Besides what they produced in the way of grain, they put up from the various reserves 65,510 tons of hay and produced an enormous quantity of potatoes.

The land cultivated by the Indians themselves will, of course, remain under cultivation by the Indians and any additional cultivation that might be handed back to them. It is probable that the lands cultivated by outsiders will be sold (or continued to be leased) or some portion of them at least, at prices obtainable for land in a high state of cultivation, and the rentals and returns from sales will go to each reserve from which the land has been sold or rented.

During 1920, 69,128 acres of Indian land have been surrendered to the Crown and resold to the Soldier Settlement board, in fact, some of the most desirable land obtained by the returned soldiers have been secured in this way, as the Indian reserves all of them contain a very large quantity of excellent arable land.

When the entire transaction is closed there will be a very handsome profit to the Indian department, which goes to show that work of this kind can be done well by governments if they employ the right man. After all "the right man" is the important factor.

My dear Mr. Scott,-

I was greatly pleased to receive to-day the four splendid Indian pictures and intend to have them suitably framed and am sure they will look exceedingly well as wall decorations. Thank you for sending them.

I have now been back at work for a week and for the most part have been feeling very well and much benefitted by the trip.

We read with interest the account of the Keats' celebration in the "Toronto Saturday Night" and note that your contribution will probably be printed as a souvenir.

With kind regards to Mrs. Scott and yourself,

Dear Mr. Scott,-

Since returning home I have hardly had a minute to myself. Spring activities are beginning and there has been more or less of a rush for the past two weeks, and it will continue for two or three months.

Inspectors Bunn and Christianson left last Tuesday for the Blood Reserve, the former to do the auditing and the latter to start up farming operations and talk up surrender. I intend going West about the 27th and hope to meet the Bloods on the 29th.

Mrs. Graham met with a fearful accident while in St. Paul, where she stopped off to visit her sister ten days ago. She tripped at the top of the stairs and had a horrible fall all the way down. Her nose had some of the small bones broken; her eyes were almost closed up and even now afterten days there are black and blue marks on her cheeks. She stayed in Winnipeg for treatment and only arrived home this morning. We all think her face will not be disfigured when it heals up.

The weather here has turned mild and I would not be surprised if we got an early spring.

Yours sincerely,

Dear Mr. Graham,-

I am very much concerned to know of Mrs. Graham's accident, and I intend to write her a note to-day.

I am glad to know that Inspectors Bunn and Christianson are at the Blood reserve. Wilson is still in town, and certain Members on the Opposition side are beginning to ask questions on the Blood reserve matters, no doubt prompted by him. He evidently intends to stay here for some time.

I hope that you will be able to negotiate the surrender.

Dear Mr. Scott,-

Thanks very much for your letter regarding Mrs. Graham. I am pleased to say that the Doctors have apparently made a good job of her nose and her face is gradually coming back to its natural shape and color.

I received your wire on Thursday asking for a statement of Greater Production and the book-keepers have been working on it day and night ever since. Our estimate on the quantity of wheat in bins was high as compared with the actual weights which we have recorded when weighing the grain into the cars. However, I rather expected this.

I have been expecting to hear from you for some little time as to whether I am to be allowed my fuel. The last time I heard from you you mentioned that you would be glad to take up this matter with Sir James and as it is about two months since you wrote, I feel that the matter has been overlooked. I trust you will be able to authorize me to buy my fuel and pay for same out of Greater Production Funds, as heretofore. I can assure you that I am very little better off to-day than I was at File Hills(where I had fuel allowance) if I am to have my fuel cut off. It is not necessary for me to say anything more regarding the duties of the two positions,-Inspector and Commissioner, as you are quite familiar with the work each entails.

Hope to hear favorably from you,

Dear Mr.Graham,-

I have your note of the 25th April with reference to the fuel allowance. The matter has by no means been overlooked, and I have spoken to Sir James about it several times. The present position is that neither the Minister, nor myself, nor the Governor in Council has any power to authorize or to pay you a fuel allowance, or allow you to pay it and charge it to Greater Production. It could only be done by a special order from the Civil Service Commission after recommendation by the Board of Hearing.

My debate with Sir James was whether it would be useless to take the matter up with the Board. I last spoke to Sir James about this early in the week and it is my intention to take it up with Dr.Roche, but you will remember what success we had with the Board of Hearing on the previous occasion, and I do not expect to make progress.

Re P.C.C. Minute No. 15-1499

Replying to yours of the 25th instant, stating that all purchases over $500.00 made by Mr. Graham in connection with Greater Production Farms should be approved by the Superintendent General of Indian Affairs, I am directed to inform you that it is considered this approval is unnecessary in view of the authority given Mr. Graham under Order-in-Council No. 393 nor has it been obtained since the commencement of operations in 1918. Under authority of this Order-in-Council expenditure amounting to $ $850,000.00 has been incurred by Mr. Graham without any further reference to the Minister whatever. In regard to the manner in which purchases should be made the Department has endeavoured to comply with the requirements of the Purchasing Commission and will continue to do so. It is not always possible to submit requisitions with specifications and request for list of names of firms from whom to call for tenders, before making the purchases, but whenever this is practicable Mr. Graham will be requested to observe the regulations and when it is not to give full particulars when forwarding the usual report.

I am directed to acknowledge your letter of the 26th ultimo, relative to Minute No. 15-1499, and Order-in-Council No. 393.

It is noted you are under the impression that the approval of your Minister is not necessary where expenditures are made by Mr. Graham in connection with Greater Production Farms. I beg to point out, however, that expenditures of this nature come under the same regulations as those applying to purchases for any other Department of the Government. The fact that this expenditure was authorized by Order-in-Council would in no way relieve Mr. Graham from having to obtain the approval of the Minister or Deputy Minister according to the amount involved in the purchase.

It would be appreciated if in future you would have Mr. Graham submit his requisitions to this Commission through you, so that action to be taken may be directed by us.

MEMO.: Mr. Paget,-

Although it seems quite certain that this O.C. was passed owing to the existence of the War Measures Act, still that fact is not stated, except as regards providing the sum of $300,000.00 to carry out the provisions of the O.C.

The Privy Council Office states that numbers of O.Cs. definitely passed under the War Measures Act have been cancelled but that this one has not been dealt with individually in that way; and that the Justice Department had better be asked whether or not it has automatically expired.

This is just a personal note, written before leaving, to say that I hope that everything will go well during my absence.

It would have been very pleasant if we could have carried out our original plan, and I could be with you in the West this summer, but this seemed the most favourable time for us to take this trip, and we were able to make arrangements, and thought it best to go.

I hope you and Mrs. Graham and Miss Tye will have a good summer, and that the work will not be troublesome or vexatious in any way. I know the staff here will try to expedite matters.

Give our warmest regards to Mrs. Graham and Miss Tye, and take sincere remembrances for yourself.

Dear Mr. Meighen,-

I am inclosing a letter I received today from Sir James Lougheed in response to mine dealing with the matter of my fuel allowances and the omission in the Order in Council of any mention of a house being allowed me.

Sir James is in possession of full details in regard to my case, and has been since last February, but nothing further has developed regarding it. Mr. Scott has on several occasions spoken to him in this connection.

It is in regard to the house being mentioned as part of my stipend that I am particularly anxious just now, as it would mean a lot in the event of my being superannuated. If there is a change of Government in the near future it might be very difficult to get this adjusted, as the circumstances would not be understood.

I know you are very, very busy these days but I thought a few words from you to Sir James might be of great assistance in this instance.

Wishing you all kinds of good luck,

Yours faithfully,

W. M. Graham.

CERTIFIED COPY OF A REPORT OF THE COMMITTEE OF THE PRIVY COUNCIL, APPROVED BY HIS EXCELLENCY THE GOVERNOR GENERAL ON THE 18th February, 1918.

Privy Council
Canada.

The Committee of the Privy Council have had before them a report, dated 12th February, 1918, from the Superintendent General of Indian Affairs, representing that he has considered the possibility of utilizing the vacant Indian lands in the Provinces of Manitoba, Saskatchewan and Alberta, and also the officers and employees of the Department of Indian Affairs in these Provinces with a view to increasing the production of grain and live-stock.

The Minister states that pursuant to the provisions of the several treaties with the Indians, large reserves were set aside out of the public domain, and in order to render the Indians self- sustaining, agents and farmers were appointed to instruct them in agriculture and stock-raising; a system of education in which agriculture formed a chief subject was also established for the youth of the tribes. A considerable degree of success has attended these efforts: rations are no longer issued to able-bodied Indians and they show increasing ability to provide their own maintenance. Last season they harvested 654,644 bushels of grain; their live-stock amounts to 22,362 head.

The Minister further states, however, that only a small portion of the land on Indian reserves is under cultivation and that these reserves are for the most part situated in the productive area of the three Provinces and are finely adapted for agriculture and stock-raising.

The Honourable,

The Superintendent General of Indian Affairs.

The ---

The Minister has also considered how these vile lands might be brought under cultivation and how the present officers and employees of the Department of Indian Affairs and the Indians themselves might be organized in the scheme to produce supplies of food now so greatly needed. The conclusion has been reached that the appointment of a qualified Commissioner, charged with the responsibility of developing such a shceme and carrying it out and clothed with the requisite authority to conduct its activities, would be the first essential to success.

The Minister, therefore, recommends that Mr. W. M. Graham, Inspector of Indian Agencies, South Saskatchewan Inspectorate, be appointed a Commissioner for the Department of Indian Affairs in Manitoba, Saskatchewan and Alberta, with the following duties and powers:

To make proper arrangements with the Indians for the leasing of reserve lands, which may be needed for grazing, for cultivation or for other purposes, and for the compensation to be paid therefor;

To formulate a policy for each reserve;

To issue directions and instructions to all Inspectors, Agents and employees in furtherance of that policy;

To make purchases and engage or dismiss any extra or temporary employees, and market the yield of grain and live-stock, and in effect to have the sole management of this work subject to the approval of the Superintendent General of Indian Affairs to whom he shall report fully at close and regular intervals,

The Minister further recommends that the said Commissioner be authorized also to make recommendations to the Superintendent General of Indian Affairs, looking to the greater efficiency of such of the Indian service in the said provinces as is not related to the said special work.

The Minister believes that in this way it will be possible to bring larger areas under cultivation and produce grain and meat supplies of great value.

The Minister recommends further that, pursuant to the provisions of the War Measures Act, 1914, and of all other authority in that behalf, the sum of $300,000.00 be advanced from the War Appropriation to the Department of Indian Affairs for the purchase of agricultural machinery and implements, seed and live-stock, fence wire and other supplies, and for rentals, salaries, and expenses necessary for the undertaking, the said amount to be refunded to the War Appropriation from revenues arising from sales as they accrue; all expenditure and revenue to be treated in the usual way and all accounts to be audited by the Department of Indian Affairs and by the Auditor General.

The Committee concur in the foregoing recommendations and submit the same for approval.

Clerk of the Privy Council.

The recommendation herewith is to rescind an O.C. of 16th February, 1918 (P.C.393) under which, chiefly during the war, in an effort to increase production on Indian reserves, Mr. W.M. Graham (Inspector of Indian Agencies for the South Saskatchewan Inspectorate) was appointed Commissioner to carry on the work; under which, pursuant to the provisions of the War Measures Act, 1914, a Parliamentary appropriation was set apart to finance the project.

As the time has expired during which it was the intention to carry on this work, it is now desirable that the above mentioned Order in Council should cease to be in effect.

A copy of the Order in Council of 16th February, 1918, is hereto attached.

Sir,-

I am in receipt of your letter of Jan. 20th enclosing a copy of an Order-in-Council rescinding the Order-in-Council passed on February 16th, 1918 ((P.C. 393).

I am at a loss to know the purpose of this action or to understand just what changes it will effect or what my position now is in regard to Greater Production operations, and would be glad to receive further explanation.

February 23, 1922.

Dear Mr. Graham,

As you are aware, the policy of the Department is to close the Greater Production farms at as early a date as possible, and I write to ask for a definite recommendation as to how this can be accomplished in order that next season's crop may be the last sown and harvested. Certain suggestions have been made to me by practical agriculturalists, but I should like to hear what action you would suggest in order that it would not be necessary to operate these farms during the season of 1923.

I may say that it is the policy of the Department not to grant any further leases of land for farming purposes on Indian reserves. It is not considered to be in the interest of the Indians or in the public interest to grant any further leases of this nature. The dangers surrounding such leases are obvious. The farming operations are undertaken for immediate gain and not for permanent occupation, and the lease holders might at any time leave the properties in such a condition that they would be a menace to the surrounding country.

It would be the policy of the Department to continue the issuance of grazing leases on fair terms, where there are lands available and not required for cattle owned by Indians. It is, however, the policy of the Department to gradually obtain surrenders of surplus Indian lands and to sell them to settlers.

I would be glad if you would let me have at as early a date as possible your answer and suggestions to the first paragraph of this letter, as I wish to decide what should be done and I am prepared to take practical advice on the subject.

Yours truly,

Deputy Superintendent General.

Mr. Read
See me please

Sir,-

On January 16th, 1922 an Order-in-Council (P.C. 82) was passed rescinding from that date the Order-in-Council of February 16th, 1918 (P.C. 393) relative to the scheme for Greater Production on Indian Reserves and to the appointment of Mr. W. M. Graham as Commissioner for carrying on that work.

I find however, that, notwithstanding the rescinding of the original Order-in-Council, the Greater Production activities have been continued all through the year 1922 although not to as great an extent as before.

Kindly advise me as to your authority for continuing this work after the passing of the Order-in-Council of January 16th, 1922.

I am, Sir,

Your obedient Servant,

Dear Sir,-

I am in receipt of your letter of the 23rd instant, with reference to the Greater Production activities.of this Department.

When the original Order in Council was cancelled it was believed that we could close the operations immediately, but such has not been the case. I will write to the Indian Commissioner at Regina and ask him to outline for my information the present position of these farming industries, and if it is necessary to continue any of them for any length of time, I shall endeavour to obtain proper authority.

Yours very truly,

Memorandum:

Mr. Graham's pay and allowances.

When Mr. Graham was removed from File Hills to Regina the Honourable Mr. Meighen arranged that he should lose nothing in a monetary way by the transfer. He was then in receipt of $2400. plus a free house, rations, fuel and light. Mr. Graham estimated these perquisites to be worth the following amounts:-

Rations	$423.80
Garden	120.00
Two cows	250.00
Other expenditures, fuel and light	400.00
Man for furnace	360.00
	$1553.80

Mr. Meighen, however, agreed that a cash allowance of $1200. at Regina would be a fair commutation of these perquisites, and that is the amount that he was paid. On his removal to Regina he rented a house for $85.00 a month, which we afterwards purchased at $12,500. from the proceeds of the Greater Production scheme. The purchase was properly made through agents of the Department of Justice and was authorized by Order in Council of the 16th December, 1918. The Minister endeavoured afterwards to increase Mr. Graham's salary by a straight $1,000., but our memorandum was twice refused by the Treasury Board,- in June, 1919, and again in April, 1920, the Board holding that the matter should go before the Civil Service Commission. The Civil Service Commission was asked to create the position of Indian Commissioner at a salary of $4800. without perquisites. The Commission, after considering Mr. Graham's description of his work, placed the salary at $3600. We appealed the decision, and I went before the Board myself, accompanied by Mr. Graham, who happened to be in the city, and as favourable a plea as possible was put forth. The Board finally passed the position at $3600 "and up", which enabled the Governor General in Council to fix the salary at $4800, which was done by Order in Council of November 9, 1920. This procedure was illegal, as the Department of Justice afterwards gave an opinion on such cases that the Civil Service Commission must fix the maximum salary, and the practice has since been discontinued.

Mr. Graham has been receiving $60. a month for the use of his private motor car, and he has the services of a chauffeur, who is paid by the Department as messenger.

Mr. Graham has several times in letters to the Minister and others given statements of what his position was worth at File Hills, as follows :-

House	
Fuel and Light	
Salary, cash.....	$2400.00
Rations:meat,tea,flour, rice, soap.....	540.00
Butter,cream,milk,eggs.	360.00
Garden.....	120.00
Exemption from tax which has to be paid in Regina	100.00
Exemption from incidental expenses of the city, subscriptions, etc., etc.	200.00
	$3720.00

This statement is made in a letter addressed to the Honourable James A.Calder dated November 17, 1920. It differs somewhat from the statement made to Mr. Meighen when we were considering the change. At that time he made his perquisites to be equal to $1553.80, and in the later letter they total only $1320.00. However, the cash equivalent of what Mr. Graham is now receiving at Regina is as follows:-

Salary.....	$4800.00
Free house.....	1080.00
We have allowed him $60 a month for a motor car.....	720.00
And he has the services of a chauffeur for other purposes, but he is not satisfied with this remuneration and has demanded that in addition to this, he should be allowed fuel, light, and water. In a letter to me of October 30, 1920, he estimates this to be worth$600,.....	600.00
but in the letter to Mr. Calder, just referred to, he places it at $700. If we had allowed this, his position would be worth the cash equivalent of.....	$7200.00
This is, of course,an extravagant rate of pay for this position.

Mr. Graham is a competent officer of high rank, and he has produced wealth for the Indians, but no Civil Servant could be paid on the basis of his wealth-producing power or on the special success of his administration. The positions throughout the Service are graded, and salaries are attached to them, and Parliament provides the funds to pay them. At present Mr. Graham is by far the best paid man in the Public Service in the west.

MEMORANDUM

Mr. Scott,-

Herewith is a memo. giving dates, taken from Mr. Graham's diaries that accompanied his travelling expense vouchers, on which he motored to different points. Whether he used his own car on all these trips or the Government car, that is at Regina, on some of them, it is impossible to say. The Inspectors use the Government car when necessary to motor out from Regina.

It will be observed that during the years 1920 and 1921 there were only three trips made by motor car in 1920, and none in 1921. It might be possible of course that during these years trips were made to Qu'Appelle Agency reserves by motor and no expenses incurred, in which event there would be no charges in the expense vouchers, and consequently no mention made of these trips in the diaries attached to the vouchers.

It was in April, 1918, that Mr. Graham was first allowed $40.00 a month for his car, and it was increased to $60.00 on 1st September, 1919.

Mr.Scott,-

The Department's file have been examined to find the number of Indian patients treated in Regina Hospitals during the past two years (from September, 1921). The hospitals in that City are the Regina General and the Grey Nuns' Hospital. Since the date mentioned the Department paid for treatment of 96 Indians, including certain pupils from the Qu'Appelle Industrial School. A few of these Indians were entered more than once as patients. Five only were cared for in the Regina General Hospital; the others, namely, 91, were treated in the Grey Nuns' Hospital.

The following statement shows the Agency Hospital files examined ami the number of patients from each Agency,-

Memorandum,-

Honourable Charles Stewart.

Re: The Indian Commissioner's allowance for his private motor car.

Since April, 1918, Mr. Graham has been allowed a monthly payment for the maintenance of a car which is his own personal property and which is driven by an employee of the Department. He was paid at the rate of $40.00 a month from April, 1918, until August, 1919, inclusive, when the payment was increased to $60.00 a month. He was paid at the latter rate until I stopped the payment as I wished to have the matter reconsidered. It is a most unusual allowance. There is nothing similar in our own Department and I think I am safe in saying in any other Department. Mr. Graham lately drew attention to the fact that the Brigadier General of the Military District of Regina and the Officer in Charge of Soldier Civil Re-Establishment were furnished with cars, but these cars are owned by the Department and are for use only on official business.

In a letter from Mr. Graham to yourself he seems to treat this motor allowance as an addition to his salary and clearly that cannot be allowed. If his pay is inadequate the Civil Service Commission could be asked to re-adjust it. If the charge of $60.00 a month could be considered as fair for official work done by Mr. Graham's motor there would be no serious objection to it but the allowance is so far beyond any fair charge for such service that the payment from public funds is open to very serious question.

One service for which this car is used is stated to be the transfer of patients from the railway st tion to the hospital.....

Hospital at Regina. I find that for the last two years, that is from September, 1921, there have been only ninety-six patients in the hospital at Regina. This allowing for a double trip it would mean one hundred and ninety-two trips. The usual charge in Regina, I believe, is $1.00. Allowing for $1.50 a trip it would mean a total expenditure of $288.00 for two years or only $144.00 a year for this service. The actual use made by Mr. Graham of the motor outside Regina can be covered from his expense accounts, although he may have used it for other trips which would not be shown in these accounts. I attach an extract by the Accountant from these accounts which shows that during the years 1920 and 21 there were only three trips made by motor car, all in the year 1920. In the years 1918, 19, and 22 certain use was made of the car but payment of the same would be very much less than what we are paying by way of a monthly charge.

The allowance cannot be defended and, in my opinion, the Department is open to serious criticism in paying it. I think we should be prepared to allow Mr. Graham actual prevailing rates for the use of his motor when it is used on official business.

I would recommend that Mr. Graham's allowance be paid at the rate of $60.00 as usual, up to the end of the current month, and that after that we should pay only prevailing rates for the use of the motor while on official duty.

Dear Mr. Graham,

Since my return to Ottawa I have taken up with Dr. Scott the matter of an allowance for your motor car and we are quite in agreement that you are entitled to remuneration for the use of your car while on Government business. I have, therefore, instructed that you be paid under the old arrangement up to the 30th September, and after that date (upon presentation of vouchers) you are to be paid for the use of your car outside Regina at the rate of fifteen cents per mile- any use of the car in the City to be paid for at the usual hire rate charged within the City limits. Sir : -

I beg to inform you that I was unfortunate in my visit to the West and was unable to visit the Peigan Reserve as I intended doing. While on the Blood Reserve I contracted a severe cold which developed into Influenza and was compelled to go into Calgary where I was confined to my bed for eight days.

I sent for the Agent to come and see me and he informed me that conditions on the Reserves are in splendid shape, the cattle are doing fine and they have about 30,000 bushels of wheat and 10 or 12,000 bushels of oats and he does not anticipate any hardships during the coming winter. These Indians did a good deal of summer fallowing this summer, somewhere in the neighborhood of 1000 acres and have put up sufficient hay to carry them through the winter. The schools are as usual.

RECORDS

OTTAWA, December 26th, 1923.

Sir,-

I beg to refer you to my letter of February 23rd last and your reply thereto of February 26th, with regard to the continuance of activities under the Greater Production Scheme after the passing of the Order-in-Council of January 16th, 1922 which rescinded the authority for carrying on that work.

Although the authority for carrying on the Greater Production Scheme was cancelled as from January 16th, 1922, the activities were continued to a certain degree during the season of.1922 and again, in a somewhat less extent, during the season of 1923. The moneys received after the cancellation of the authority were dealt with in the same way as before, Mr. Graham depositing all receipts to his credit in a special account at Regina and making all payments in connection with the work from that account.

As the special authority originally conferred on Mr. Graham under the War Measures Act was removed by the cancelling Order-in-Council of January 16th 1922, I consider that the further continuance of this scheme was contrary to the provisions of the Consolidated Revenue and Audit Act which provides (Sect. 45) that "All public moneys, from whatever source of revenue derived, shall "be paid to the credit of the account of the Minister of Finance "and Receiver General", and further (Sect. 41) that "The Auditor "General shall see that no cheque issues for the payment of any "public money for which there is no direct parliamentary appropria-"tion."

I am of opinion that Mr. Graham should be required to transmit forthwith for deposit to the credit of the Receiver

General

Ottawa, February 15, 1924

Dear Sir -

Following the various conferences and conversations between the Deputy Superintendent General of Indian Affairs, yourself and myself for the purpose of defining your duties and responsibilities as Indian Commissioner, I have decided as follows: You are to have the general charge and administration of all matters pertaining to the affairs of the Indians in your district subject to the control of the Department.

Without limiting the above you are to have control of the following matters:

(1) - Buildings and repairs to buildings.

(2) - Inspection of agencies.

(3) - Leasing of Indian lands.

(4) - Schools, management staff, etc.

(5) - Farming, stock raising, etc.

(6) - Care of the sick and destitute.

In regard to appointments on the staff of schools, you are to be consulted before any such appointments are made.

Yours faithfully,

W.M. Graham, Esq.,
Commissioner of Indian Affairs,
Regina, Sask.

Dear Mr. Scott,

I have just returned from the Province of Alberta, where I have been for nearly three weeks. I visited the Blood, Peigan, Sarcee, Blackfoot, Hobbema and Edmonton Agencies, and eight Indian Boarding Schools.

x x x

HOBBEMA AGENCY.

I next visited Hobbema Agency, and for the first time met Mr. Askey, the Agent. He is, I would say, a fair type of man, careful and in dead earnest. He has shown good results since he took charge. The acreage has increased. There is abundance of hay on hand, in fact I believe one-half of the quantity put up is still available.

Dear Mr. Graham,

I have your letter of May 3rd. with reference to the purchase of horses for the Long Plain Indians. I regret that there are no funds available for the purchase of these horses and the accounts cannot, therefore, be paid. In your first letter on this subject dated April 17th. you said "I only ask for this authority if the band have interest funds available". As there was only $300.00 available in the interest funds and as it was apparent that you desired to purchase the horses, we endeavoured to meet the situation by granting $300.00 from Parliamentary appropriation. Unless the Indian band would pass a resolution allowing us to charge the amount to capital, we will not find it possible to pay the account.

I think it most important that no expenditure should be undertaken in advance of authority of the Department. It would appear that in this case you had authorized the purchase before you received our telegram.

Dear Mr.Graham,-

With further reference to your letter to the Minister of April 17th, I beg to say that I discussed this matter with the Minister yesterday. I think he intends to reply to you direct with reference to the barn which you proposed to erect on the site chosen for the Roman Catholic school on the Blood reserve to the effect that we cannot find funds for it this year.

You may proceed with the erection of the two barns for the new Anglican school. I note from your letter that you have received an offer "to build the whole three buildings for $5,500.00." I presume you meant the three barns. If so, the two barns which you were authorized to erect will cost less than this amount and we will therefore be able to find funds for their construction.

Dear Mr.Graham,-

My attention has been drawn to your letter of April 24th with reference to the ex-pupil Stanley Clear Sky, of the Birtle Agency.

When you wrote this letter you had evidently entirely lost sight of our letter to you of the 29th September, 1922, and your reply of the 2nd October,1922. As you recommended this expenditure, you will have to assume the responsibility, and you should make a personal application of the strictures which you have seen fit to apply to the Department. If this man should never have received five cents worth of assistance, I am afraid you will have to be held responsible for the error of judgment.

I trust that I shall see no more of this class of correspondence. You promised me that you would discontinue it.

No.201-3 Regina, Sask., May 16th, 1924.

Dear Mr. Scott:-

In reply to your letter of May 12th with reference to assistance granted to Ex-pupil Stanley Clear Sky , of the Birtle Agency, I have to acknowledge that the letters of 1922, to which you refer, were entirely lost sight of when mine of April 24th was written, and that therefore the strictures, which I applied to the Department were out of order and should not have been made.

In September 1922, the Department referred to me a request for assistance, which they had received from Agent Wheatley, and I made the mistake of endorsing this request fron an Agent, in whose judgment I had little confidence, and who was even then being retired for incompetency, without having personal knowledge of the case, or a report fron an Inspector. As I was not in a position to obtain this information I recommended the assistance rather than deprive Clear Sky of the help his Agent considered essential. Subsequent events have proved that this Indian was not worthy of the assistance given to him.

My letter of April 24th would not have been written if I had the proper Clerical Assistance in this office. There is so much work to be done by my small staff, that they do not always take the time to thoroughly look through old files before writing on a subject, in fact, they have not the time to do this.

Yours very truly,

Dear Mr.Graham,-

I have your note of the 29th ultimo, with reference to the building programme, and the necessity for additional inspectorial assistance.

We are now advertising the position at Duck Lake. Applications are returnable to you. We have also asked the Civil Service Commission to advertise for an Inspector to work from Regina on the smaller buildings, sort of a Travelling Inspector, as you suggested. Mr. Sutton may apply for this position. So far as I am personally concerned, I should be glad to find that he would be successful.

I note your statement that our building programme outside of the schools will probably amount to $160,000.00. I do not understand how you arrive at this amount. Would you kindly send me a list. Even including the houses and stables for the Blackfoot Indians, it would not appear to me to amount to such a figure. We must be careful not to over-expend our appropriations in any single instance.

It will be quite impossible to add to the clerical staff. If you require any copying of specifications, you might have that done outside.

Dear Mr. Scott,-

. . . .

I am now preparing a report which shows that over $50,000 was actually wasted at Elkhorn, through carrying on work in this manner. There was a deliberate waste tearing down construction that should never have been touched; ripping up floors which were in perfectly good repair; replacing engines which should not have been replaced. All of which is accounted for by the fact that the man in charge of the work was getting ten per cent on material and labor. If we are going to continue work in this way, we might as well cancel all arrangements that were made while I was in Ottawa. I will not take responsibility for the building program, if the Department say who I am to delegate this work to.

Dear Mr. Graham,-

I have your letter of May 13th, with reference to the Birtle school.

I think you have misunderstood the real intent of that letter and you might read it again. This property is owned by the Church and the Principal is a practical man. You have been given instructions to erect an outside classroom, to purchase materials and engage labour. I do not see that there would be any objection at all in sending one of your Inspectors to look over the work, but I think we have a valuable assistant in the Principal, who is on the ground. Your responsibility for the building programme is not interfered with, and it cannot be discharged simply because the Department gives you suggestions from time to time.

Dear Mr. Scott,-

. . . .

If the Department understood the immensity of the work that is carried on here, I think they would realize that I take upon myself very little authority. The records show this. In fact the difficulty is that I can scarcely make a move without obtaining authority. In many cases I know perfectly well there are lots of funds available and it is just a matter of writing to ask "May I do this". I am not entrusted with the necessary authority. No business concern could function successfully under these conditions. Nobody is more aware than I am that there must be control of Government funds, but at the same time I should think this control might be delegated to a certain extent to the officials who are responsible for the carrying out of the work economically.

Dear Mr. Graham:-

I have given consideration to your letter of the 26th ultimo with reference to the drainage system at the Blood Hospital.

I have read Mr. Smith's report carefully. I observe that he recommends a complete remodelling and extending of the plumbing system. He, himself, however, points out that it may not be expedient to spend so much money on a building that may not long be continued in use. He urges, however, the imperative need of a proper sewage disposal as the present conditions are a menace to the patients and staff.

I note your statement that we have a "poor job" at the Blackfoot reserve owing to the extravagance of Mr. Smith and that we could have saved $25,000.00 there. These are very serious charges to make and I must ask you to explain to me in detail the grounds or reasons upon which they are founded. In other words I would like you to inform me just how and why we could have saved the $25,000.00 to which you refer.

I would take this occasion to observe that grave allegations against an employee of the Department who has been regularly appointed by the Civil Service Commission should be substantiated by a statement of facts, and I would point out that vague generalities on such a subject are most undesirable in official correspondence which forms a part of our records which are open to scrutiny and investigation.

We have on file here all the recommendations that Mr. Smith has made, together with the cost of carrying them out where they were approved. We have always found Mr. Smith practical and insofar as I know he has not added unnecessarily to the cost of any of the buildings that he has supervised. In the absence of further and more explicit information, therefore, I am unable to share your view of him, and I must have a more comprehensive explanation of the charges contained in your letter before reaching any conclusion with regard thereto.

With reference to the drainage of the hospital, if Mr. Faunt can carry out any improvements for $400.00 he may be authorized to undertake them.

I agree that we must have an appropriation for rebuilding this hospital on a new site, and you may place an amount in next year's estimates.

Dear Mr.Foran,-

A question has arisen with reference to the classification of the position of Indian Commissioner which is at present occupied by Mr.W.M.Graham. Mr.Graham is considering the possibility of electing to come under the provisions of the new Superannuation Act, and the immediate question is in connection with his perquisites of office, which are allowed by the Act to count in the matter of superannuation.

On January 12, 1920, I requested the Organization Branch of the Civil Service Commission to create a new class: Indian Commissioner, at a salary of $4[illegible].00 per month, with a free house, fuel and light. The Organization Branch fixed the annual salary at $3060 - $3240 - $3420 - $3600, under date of February 6, 1920. On March 4, 1920, I wrote to you stating that I could not approve of this classification of the position. On further consideration the Commission presented a memorandum to Council, dated July 23, 1920, making the compensation: monthly $300 and up; annually $3600 and up. This was approved by the Governor General on July 29,1920, and on October 9, 1920, the Governor General in Council placed the salary at $4800.00.

You will observe that no allowance was made for free house, fuel and light. As Mr.Graham was living in a house, the property of the Department at Regina, which was purchased not from parliamentary appropriation, but from the avails of the Greater Production scheme, he continued to reside in the house, but the Department paid no accounts for fuel or light.

We are desirous of making the free house part of Mr. Graham's emolument so that it may legally count in the question of superannuation. Would you kindly examine into the facts and inform me how this may be done.

Dear Canon Gould,

Owing to my absence from the City, and pressure of work since my return, I have had to delay replying to your letter of the 11th ultimo until to-day.

I saw Commissioner Graham in Calgary and asked him how it happened that he gave employment to your farm instructor. He informed me that this was at the request of the farm instructor himself, and that he refused to employ him until the instructor assured him that he was leaving the services of the Church officials in any case. I warned him that for the future it would be well to refrain from employing any persons engaged in educational or labouring work for the Church schools. I mention this in order to clear up what at the moment appeared to me to be rather strange action on the part of our Commissioner.

Dear Mr.Graham,-

Re Superannuation

As the time for election to come under the Civil Service Superannuation Act of 1924 is comparatively short, I think it well to write you a line with reference to your own case.

At present we hold your letter of the 15th December, in which you elected to become subject to the Act. When you were here last winter I understand that the Accounts Branch prepared and handed to you a statement of your salary on the proper forms, and it was understood that you were to calculate the interest and complete the statement and return it to the Department. As you know, the form provided must be filled in in triplicate, and you should decide what method of paying the contribution you wish to adopt. I trust you will complete the form and send it to me as soon as possible.

I trust your application will be passed by the Finance Department without question and that your allowances after the time of your removal to Regina will be computed with your cash salary as a basis of superannuation. I shall do everything possible to have the matter adjusted in this way.

I am sending you herewith a copy of the Order in Council of the 14th January,1925, and a copy of a letter from the Civil Service Commission. After the receipt of the

Dear Mr. Scott:-

Your letter of the 16th instant 119-1-5 is really a surprise to me. I have on no less than half a dozen occasions been told by the Minister that matters pertaining to buildings in the West here were to be left in my hands, so far as the necessity for such buildings is concerned. Why should I ask Dr. Ferrier what is required in the way of outbuildings at the Morley School?

I have been in a most unenviable position with the Department for the last three or four years, and it seems to me that there is no way to get along without friction, and this friction is caused by the Department giving me explicit instructions with regard to the carrying on of the work, and then changing them in order to act on the advice of outsiders over the head of those whom the Department are supposed to entrust with this work.

I have no desire to be unreasonable, and I would like to work in harmony with the Department, but no matter how hard I try there is always some misunderstanding cropping up.

Helping the Indians

A news story in Saturday's Post bearing upon Indian activities in the West reflects much credit upon W. M. Graham, of Regina, Indian Commissioner for the Western provinces. The article told of the changes that have come over the Indian population of the West in late years, not only in the matter of vocation, but also in habits.

Mr. Graham has given painstaking attention to the problems of the Indians and to their development in all that pertains to their welfare. He has seen many of them develop into the finest of agriculturists and into a citizenship that is a credit to any province. Saskatchewan, for one province, is proud of its Indian population, and has noted with much satisfaction its development agriculturally and in other ways. The Indian agriculturists of this province are thrifty and enterprising. They are bringing scientific methods to bear upon their work, and their skill in farming has been as marked as was their prowess as huntsmen when they directed their efforts more to hunting and trapping than they do today.

In adjusting themselves to new conditions the Indians have shown a remarkable adaptability. Friendly counsel and a degree of supervision are still required, and this is what the local branch of the Department of Indian Affairs is giving in praiseworthy measure.

Dear Mr. Stewart,-

I am enclosing a copy of a letter I have just written to Mr. Scott in reply to one from him, after he had talked with you about the buildings at the Morley School. I am also enclosing a copy of the letter from Mr. Scott, dated Dec. 16th, which gave rise to this correspondence.

The extract from Mr. Scott's last letter, which I have quoted in my reply to him, will suffice to show you why I have reason to feel that this matter has not been placed before you by him, in a way that is fair to me.

In the instructions contained in your letter of Feb. 16th, 1924, a copy of which is attached hereto, I was given, among other things, control of Buildings and Repairs to Buildings. Am I having such control when I receive definite instructions from Ottawa to arrange for the erection at Morley of a barn, a hen-house and a hog pen, for the exact requirements of which I am to correspond with Dr. Ferrier. This expenditure may, in my opinion, not be necessary at the present time, but nothing is left to my judgment; I am simply told to go ahead and erect the buildings that Dr. Ferrier wishes to have there.

Surely in pointing out to Mr. Scott that his letter was not in accordance with your instructions, I gave him no reason to give you the impression that I would not take advice from the Department, or give consideration to any proposals they might make.

I have striven hard to follow your instructions and have carried on the building operations economically, but there has been constant friction which there would not have been, had Mr. Scott been willing to co-operate with me in carrying out your instructions.

Yours faithfully,

Dear Mr. Graham,-

I have your note of December 22, with reference to the proposed outbuildings at the new Morley school. You ask me a question in the first paragraph which is easily answered. You should correspond with Rev. Mr. Ferrier as to the requirements in the way of outbuildings at Morley; he is in charge of these institutions for the church that is conducting them and is, therefore, vitally interested in their equipment.

So far as I can judge, there is no friction between yourself and the Department. There have been very few cases in which there has been any misunderstandings and they have been unimportant. It was never the Minister's intention that your supervision of the work in the West should be entirely independent of the Department or that you should not be advised thereupon or asked to give consideration to any proposal that might arise. The Minister authorizes me to make this statement, as you seem to have a different impression. However, I may say that it is not the intention now nor ever has been to hamper or criticize you in the performance of your duties, but rather to encourage and assist you.

Yours very truly,

Duncan C. Scott,

Dear Mr. Scott,-

I have your letter of the 4th instant with reference to the proposed outbuildings at the Morley School.

I do not know what was said by you to the Minister that led him to authorize you to say,- " It was never the Minister's intention that your supervision of the work in the West should be entirely independent of the Department, or that you should not be advised thereupon or asked to give consideration to any proposal that might arise."

This has never been my contention, and there was nothing in my letter to indicate that I had such an impression. If you have presented the matter in this light to the Minister you have been unfair to me.

In your letter of Dec. 16th, No.119-1-5, I was not "given advice or asked to give consideration to any proposal", but you gave me explicit instructions to erect certain specified buildings at Morley. You told me how large the stable was to be and that I should correspond with Dr. Ferrier to find out exactly what was required. I was not asked for my opinion regarding these buildings or whether I considered them necessary or not. The instructions were for me to arrange for their erection at the earliest opportunity and that funds were available at the present time. No amounts were mentioned.

To prove to you that your contention is wrong regarding my not being willing to take advice or give consideration to proposals from you, I wish to refer you to correspondence which took place in connection with a similar matter at Old Sun's School, and would quote the following letters,-

Yours of August 14th,1924, No.104-1-5
Mine of " 19th, " , No.401-11A
Yours of Sept. 4th, " , No.104-1-5.

I understand quite clearly that it is necessary for me to consult with the Church authorities as to the number of animals they wish to have accommodation for, and even to receive suggestions regarding the buildings, but this is not what was done in this case. I was told by you to erect certain buildings.

You will recall that only a few years ago thousands of dollars were wasted in putting up a very elaborate barn at the Edmonton school,- one of the finest barns in Alberta, but an unwarranted expenditure. The Minister is also of this opinion.

There was also extravagance and waste of tens of thousands of dollars at Elkhorn School, and I could mention many other cases.

It was matters of this kind that led the Minister to give me instructions, of which I enclose a copy, and which I have been trying my very best to carry out.

The extract from Mr.Scott's last letter, which I have quoted in my reply to him, will suffice to show you why I have reason to feel that this matter has not been placed before you by him in a way that is fair to me.

Dear Mr. Dunning,

I have your letter of the 27th instant with regard tothe advertisement calling for applicants for the position "Inspector of Indian Agencies, Manitoba."

This is a matter I have been somewhat incensed about: Over two years ago, I asked Commissioner Graham to arrange to recommend a man for the position. For some unknown reason, he has delayed from time to time, making a recommendation. Manitoba is suffering in consequence and, to some extent, Saskatchewan and Alberta, inasmuch as we have to pull off our Inspectors in those Provinces and send them in to Manitoba.

For this reasn, I instructed Dr. Scott, my Deputy, about a month ago, to take the necessary steps to have the Civil Service Commission advertise the position. I have notified Commissioner Graham to have any of the officials whom he is desirous of promoting, apply, and their applications will receive careful consideration.

Believe me,

Dear Mr. Graham,

I am sending you today an official note with reference to the building operations. My telegram of a few days' ago was necessitated by the fact that no one knew how supply was to be furnished **or** how much we should receive. The warrant came through the other day and the directions are very restrictive and for the next three months, at least, we shall have to be very careful of our expenditure. I hope, however, to be able to authorize our building programme in full. I know that you will be guided by my telegram regarding travelling expenses and keep the cost of administration down as much as possible until Parliament grants us supply.

I have heard nothing from the Civil Service Commission about the competition for the positions in your office but I am looking after that personally.

When you are ready to report on the Blood reserve situation I shall be glad to hear from you.

I had a few days with the Hon. H. H. Stevens as Acting Superintendent General and now Hon. R. B. Bennett is our Acting Minister.

Dear Mr. Scott,-

In a conversation with Mr. Reid of the Auditor General's Department, who is now in Regina, I learned that you had mentioned something to him before leaving Ottawa about some grain having disappeared or having been stolen from the Greater Production Farm, and that this disappearance was associated with some one who had been on the farm but has since left our service.

I may say it was a great surprise to me to hear this as I had never had even a hint or insinuation of any kind about this. Mr. Reid is under the impression that you told him the Foreman had three months' leave of absence from me with pay and that he did not return. This is not correct. Mr. Moir, who had been in our employ since 1918, and his wife never lived with him here on account of her delicate health. Each year he spoke of leaving in order to go back to her. Last Fall he told me he would have to give up his work and I tried to persuade him to remain. When he left he promised he would come back if he could, but it was very doubtful.

If such a report got to you I am a little surprised that I was not so informed and given a chance to investigate. Kindly let me know if there is anything in connection with the alleged shortage that I should know, in order to clear up the matter.

Dear Mr. Scott,-

I wrote to you on August 17th last regarding two very servious charges you seemed to have heard against me.

The first was that I allowed a man to take three months leave of absence with full pay.

The second was that grain had been stolen from the Greater Production Farm at Edenwold and that this disappearance of grain was associated with one who had been on the farm but who has since left our service.

In my letter I expressed surprise that if such a report had reached you, I had not been informed of it and given a chance to investigate. I asked you to let me know if there was anything in connection with the alleged shortage that I should know in order to clear up the matter.

As yet I have had not reply, and I should be glad to hear from you in this connection.

Dear Mr. Scott:-

I know you will be anxious to hear something of the crop situation on the Blood Reserve. The latest report I have from Mr. Christianson is today, and he tells me that at the time of writing, September 24th., they had thirty-five binders working on the fields around Farm 4, but that the situation near Cardston was not so good, as the land being very wet the binders would not function. However, he stated that with one good day of sunshine they would be able to work on the fields, and as we have had two or three good days since the time of his writing I am satisfied that the work is well under way by this time. The sample of the grain will, I believe, be better than we expected it would be. We have had some frost, but, as you know, the grain was well filled even at the time we were on the reserve and it should be a fair sample. Threshing is well under way at all other points in this province and northern Alberta, and if the weather continues as it is today, it being very bright and clear, we should get our threshing cleared up in three weeks' time. Everything is humming here at the present time, for, as you know, this is our busiest season.

I have had your wire authorizing me to dispose of some of the cattle on Lake Winnipeg in the event of our not being able to secure sufficient feed for the number we have at present. I think it very risky to depend on the word of Indians in matters of this kind and I have instructed the Agent to go up there at once in order

in order to ascertain what the actual situation is before taking any action with regard to disposing of cattle. I will be in Winnipeg in ten days' time, I hope, and by that date the Agent will have returned from Lake Winnipeg and I will be able to decide just what is the best thing to do.

The day after you left I received word that His Excellency, Viscount Willingdon, and party, purpose visiting the Qu'Appelle School on October 5th., and will take lunch there. I am sending supplies from here, and also a woman to take charge of some of the catering, as I am quite satisfied the people at the school cannot do all the things that should be done. The cost of this will be very small.

I hope you had a pleasant trip back to Ottawa. We enjoyed the run back to Regina very much and had no mishaps. We ran out of gas near Broadview, but fortunately were only about a quarter of a mile from a filling station. We never thought of gas from the time we left Brandon until it ran out.

I have heard nothing from Birtle since you left. The Agent, Mr. Lazenby, was up here with some Indian children for the hospital, and I told him that he was not to recruit any more children for this school at the present time.

Dear Mr. Graham,-

Incl. I have just received a letter from Agent Dodd, of which I send you a copy. This letter seems quiet enough, as if the Indians were satisfied and I hope that impression is correct. I have not signed the lease yet because I found quite a demonstration against it, but there is no doubt that it will be signed and the terms carried out. Would you let me know whether the Club has had the full use of the privilege without paying any additional amounts to Indians? Judge McKay whispered to me at the luncheon that they would like to elect me an honorary member of the Club, but I think that it would be unwise owing to this friction and I having to take the responsibility of approving of the lease. You might mention this to the Judge.

We are getting settled down into the grooves here again but we both enjoyed our trip to the West immensely, never more so, I may say. It has been a most useful trip in every respect. Our last motoring days will be a memory for a long time. I hope Mrs. Graham feels very well after the journey.

Will you give my regards to Dr. Corbett? I am making inquiry about the books that he mentioned and will have some information for him before long.

I was looking into Reid's case and I think it was understood that he was to write to me and I am awaiting his letter; meanwhile we are continuing his temporary certificate.

I have a note from Christianson, saying that they are getting along fairly well under great difficulty at the Blood reserve.

You will, no doubt, understand my telegram re Isle a la Crosse. Our appropriation is exhausted and as freighting now is so tremendously expensive I want to wait until the freeze-up before sending anything in. I will have to have the Minister's authority, probably a Governor General's warrant, but I want to know whether Saskatchewan is taking up its responsibility and I want the Minister to agree that we must re-consider the whole basis of the operation of this hospital. This is for your own information.

Dear Mr. Graham,-

I have your note of September 28 and I am glad to have the latest news from Southern Alberta. I am sure His Excellency will be pleased with his visit to the Qu'Appelle school. I had rather expected to hear from Birtle as to what progress they were making with those makeshift improvements. I should like to be sure that they were able to make some arrangement for the laundry work.

The authorities of the Presbyterian Church have asked us to build the Cecilia Jeffrey school, in the Lake of the Woods district, first and build the Birtle school in 1929; that is, they expect two new schools in two years. I want to improve their accommodation, but I am somewhat doubtful whether we can get fairly large appropriations in two consecutive years.

I dropped you a line, asking you to see the Winnipeg people about the demonstration farm. Of course, we cannot say anything definite, but you might just feel them out. Perhaps if we could make some arrangement with them by which the purchase price would be paid in instalments, the Presbyterian Church might think it advantageous to have the Birtle school built first. Mr. Ferrier tells me that conditions at the Cecilia Jeffrey school are very bad.

By the way, the beaded coat has not turned up. I am anxious to get a really good specimen for this friend of mine, and if you can make any suggestion I shall be very pleased.

Dear Mr. Scott,-

I have your letter of June 17th and would say that during the first two weeks of Mr. Graham's absence the three Inspectors were away and I was looking after the office.

Mr. Hamilton inspected Birtle and Griswold Agencies and then came home for a few days before proceeding to Assiniboine Agency, where he now is.

Mr. Murison went to Duck Lake for an Inspection and special work in connection with buildings, and from there went to Onion Lake, where he still is.

Mr. Christianson was at some of the outlying reserves of the Manitowapah Agency from May 25th to June 7th and returned to Regina on the 8th. Since that date he has made trips to File Hills and Qu'Appelle Agencies and has been extremely busy in the office dealing with men in connection with building operations and other special matters.

EXTRACT 4-11-7

Before Mr. Graham went away he instructed me to forward the Pelly Agency applications to you with whatever comments Mr. Christianson could make about the various applicants, but as neither Mr. Christianson nor Mr. Cookson were aware of these instructions, and understood the applications were to be held for Mr. Graham's return on June 26th, this matter, I am sorry to say was overlooked until last Saturday when I spoke about it and asked to have the applications prepared for forwarding. They are being sent to-day.

I regret this oversight ,and my only excuse is that I have had a great many extra responsibilities during Mr. Graham's absence.

MEMORANDUM

Hon. Charles Stewart -

When I was in Regina Mr. Graham drew my attention to his pay and particularly to the rental valuation placed on his residence upon which he pays superannuation. We valued this perquisite at $1200.00 which he says is too high as he thinks the house could be rented for $900.00. I would like to see what could be done by way of adjusting this through the Civil Service Commission. Meanwhile I think we might allow Mr. Graham to charge the cost of heating the house to the Greater Production Account.

I intend to submit for your consideration a proposal that there should in some way be an amendment to the Indian Act permitting us to conduct farming operations and devote the funds to Indian purposes rather than have them go to Casual Revenue with the necessity of having a special vote of the amounts before they can be utilized.

Dear Dr. Scott,-

I received your letter of the 5th instant last week but did not answer at once as I have been out on the reserves a great deal.

I am indeed grateful to you for your kindness in authorizing me to pay for my fuel from Greater Production funds,and for your promise to take up with the Civil Service Commission the matter of making a re-arrangement regarding my salary,which, as you say, will make matters easier for me. The farms I own have been a complete drag on me for the last five or six years and have been running at a loss. I have tried hard to sell them but have not been able to do so as yet. Anything you can do for me will be greatly appreciated.

Our work is progressing nicely but the yield is not going to be as large as I thought it would be, due of course,to the heavy frosts we had,the worst in years.

Mr. Stewart was in town all day Monday and came to the office in the afternoon.

You will be glad ,I am sure, to have the Lesser Slave Lake surrenders settled. I would suggest that the sale take place in the early Spring , if the necessary arrangements can be made.

By the way, either one of the Inspectors or myself should supervise the sale of the Little Black Bear land,as Mr. Dodds has had no experience and his clerk would not be of much help to him. Will you kindly see that instructions along these lines are sent out.

Again thanking you for your consideration and with kind regards ,in which Mrs. Graham and Alice Tye join,

I am,

Yours very sincerely,

W. M. Graham

Dear Mr. Graham,-

Incl. The inclosed official letter will arrange the matter we were discussing when I was in Regina. No doubt we will have a fuss with the Auditor about making this charge to Greater Production but we will endeavour to get over the difficulty. As you note from my letter I will take up with the Civil Service Commission the possibility of having a rearrangement which will make things easier for you.

The Minister left for Edmonton last night. I hope you have good news from all the agencies.

With kindest regards to you all, I am,

Well Merited Tribute to Regina Citizen

Everyone familiar with the able and conscientious work which W. M. Graham, Indian Commissioner of the Prairie Provinces, devotes to the betterment of conditions among the Indian population will appreciate the tribute which has been paid to him by Chief Buffalo Child Long Lance, Indian author of these plains, in dedicating to him, as also to Rev. Canon Middleton, missionary to the Blackfeet Indians in Alberta, the new book which he has written bearing upon the Indian race in Canada and on this continent.

Chief Long Lance, who is now in New York but is well remembered in Regina and is known throughout the West, dedicates his book to "the two white men who have guided and encouraged me most since I have taken a place in civilization." But the interest Indian Commissioner Graham has taken in this brilliant young chief of the prairies he has also taken in hundreds, even thousands, of other members of our Indian population in the many years he has been in the position which is his. A report just issued from Washington is a rather scathing indictment of the treatment of the Indian population of the United States by the American authorities. It charges woeful neglect of these wards of the nation in health matters, in educational development, and in numerous other directions. No such grounds for complaint exist in Canada's treatment of her Indian people, and it is to men of the type of Indian Commissioner Graham of this city, whose interest in the Indian population and solicitude for their welfare in season and out is so great that this relatively happy state of affairs is largely due.

Dear Mr. Scott,-

I am having difficulty again over my house. When I came to Regina first I was unable to get a house anywhere for some time and then I heard of place belonging to a man who was going to Vancouver for two months. I rented this and was glad to get it. During the next two months I was constantly searching for a house that I could rent permanently and but after much trouble was successful in getting a lease for one year only, of the house I am now living in. The contract contains a "sale clause" and ever since I have been in the house I have been living in more or less uncertainty,knowing that the owner was very anxious to sell. During the last three weeks three real estate agents have brought prospective buyers in to see the house,and I was not surprised when I received a note to-day from the owner,who now lives in Vancouver,

informing me that she had received an offer of $12,500.00 for the place ,but would give me the first chance to buy it at that price.I am quite certain she has a bona fide purchaser in view.

I am writing this letter to ask the Department if it will authorize me to buy this house,at the price above mentioned, in connection with the whole scheme of Greater Production. I am satisfied that the house can be sold at any time in the future for the same amount. If this arrangement can be made it will relieve me of a great deal of anxiety, in fact,if I were turned out to-morrow I would not know where to go. It is simply impossible to rent a house for any length of time,-every one wishes to sell. I do not even know of a place that could be rented temporarily. You are aware that we are making sufficient out of rentals to meet this expense.

I have written to the owner asking her to defer action until I have a reply from you, and I trust you will give this matter favorable consideration.

MEMORANDUM

Hon. Mr. Meighen -

I am sending herewith a letter which I received today from Commissioner Graham. Under ordinary circumstances I would not recommend the acquirement of a residence in Regina for any of our officers, but in this case I would not wish to urge anything against it. It seems to me that the present arrangement, which was to be of a temporary nature, will become permanent in so far as Mr. Graham's residence at Regina is concerned. I think we can operate his general superintendency of our work from that point better than from any other.

We can no doubt finance the purchase, as with reasonably good crops next year we should be able to refund the loan to the Government and have a surplus. Apart altogether from the grain crop Mr. Graham has rented sufficient land for grazing and farming operations to meet the cost of the purchase.

I would point out that if the conditions are as Mr. Graham sets forth, he will be to a certain extent inconvenienced, and as he has worked very hard to make a success of this scheme, I think he ought to be considered. The purchase, if made, would be for His Majesty represented by the Superintendent General of Indian Affairs, and he ought to make it in the usual way through an agent of the Department of Justice. The cheque is usually made jointly to the owner and the agent of the Department of Justice.

23rd November,1918.

Dear Mr. Meighen,-

I am returning herewith correspondence you have had in reference to purchasing a house for Mr. Graham at Regina. Personally, I may say I do not like the idea of purchase. While houses for rent are pretty scarce at the present time, I should think it would be possible to secure one for Mr. Graham specially, if a sufficient rental is paid. The chances are there will be considerable building next year, thereby relieving the situation to some extent. My view would be that Mr. Graham should be instructed to secure a rented house in one of the chief centres in Saskatchewan. If he cannot get one in Regina, he may be able to do so at some other centre.

Sincerely yours,

C. Stewart.

Dear Mr. Graham,-

Since the receipt of your letter of November 1st, in which the suggestion is made that the Department should purchase the house which you at present occupy at Regina, the matter has been given very full and careful attention. The Honourable the Superintendent General has fully considered and consulted regarding the matter. As a matter of policy it is not considered advisable to acquire a property at Regina, the general principle which would guide the Department is the one applicable to all Departments, that is, that their officers should provide their own houses. Your case is a transfer of conditions which obtained at your previous headquarters, where it was absolutely necessary for us to provide a residence. The arrangements at Regina have been considered temporary, and are subject to readjustment, but, for the present, we only desire to continue renting the property, and we trust that you will be able to find accommodation.

It has been suggested to the Minister that there will be considerable building in Regina next year, and that the situation will be relieved to some extent, also that if it is not possible to find a suitable house for rental at Regina, there might be one in some one of the other chief centres in Saskatchewan. You might take these points into consideration.

I assure you that the matter has been given sympathetic attention.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott,-

Not having received any reply to my letter of Nov. 1st, in which I explained my difficulty in regard to my dwelling house, I am wondering if my letter went astray. I stated in my letter that the owner would defer action pending my reply from you, and owing to the long delay, she has become very anxious lest she has lost the opportunity to sell. It has been necessary for me to advance a cheque from my personal acct. for $500.00 to hold the option open. I did this in the hope that the Department would favorably consider my request to purchase the house, in view of the urgent necessity of the case and the other conditions enumerated in my letter.

Dear Mr. Scott,-

I am writing to ask if you cannot do something to make matters a little easier financially for me than they are at present.

It is now eleven years since I came to Regina and during that time I have worked hard and you are in a position to know, better than anyone else, whether I should get consideration in the way of an increase of salary. The work has been heavy and my nose has been kept very close to the grindstone with little time off.

In my position at Pile Hills, I had a house, fuel, light, rations and many other perquisites; since coming to Regina I have had to pay approximately $1600.00 a year for supplies etc. which came to me as rations and perquisites while I was on the reserve. The cash increase I received was $1200.00 per annum. As you know, there is a great deal of increased expenditure necessary when one lives in the city, and taking all these things into consideration, I have really been worse off financially since coming to Regina as Commissioner, than I was as an Inspector. My responsibilites, of course, have been greatly increased.

I think you will see that I am justified in asking for a little better treatment, and I would ask that no charge be made against me for the house and fuel etc.

The $50.00 per month taken off for Superannuation has made a big drain on me. I know all have had to do this but in my case it has been particularly heavy,especially as my salary has remained the same during the last nine years,whereas all others have had increases, which helped them.

Since coming here $100.00 a month has been deducted from my salary for rent alone. I never thought this was a fair charge,when you consider the valuation placed on Agents' allowances,which consist of house,two rations,cows,garden,fuel and light, much more than I get, and still they are only charged $600.00 a year, which is less than these allowances cost the Department. In my case the house allowance alone is $1200.00 and the house cost very little more than some Agency houses, and actually cost the country nothing,as it was bought from Greater Production profits.

I hope you will be able to give this matter favorable consideration.

Dear Mr. Graham,-

With further reference to your letter of April 6th regarding your salary and allowances, I am asking a real estate firm in Regina to estimate the annual rental value of the house. If it is less than $1200.00 per annum I would propose to ask the Civil Service Commission to increase your salary to an equivalent amount;- that is, if the report is that the rental is worth $900.00 a year, $300.00 would be added to your cash salary.

I do not grasp the meaning of this sentence in your letter: "I would ask that no charge be made against me for the house and fuel etc." No charge is made against you at present only that you are paying the superannuation abatement on that amount. You could not be relieved of this abatement; if you were, you could not be superannuated on a basis of $6,000.00.

I am quite sure that the Civil Service Commission will not increase the cash salary unless we can show that the rental charge is too high, and then I am not sure what view they will take of it. I shall however do the best I can with the proposition.

With kindest regards, I am

In regard to Mr. W. M. Graham, Indian Commissioner, Regina, Sask.

Salary .....$ 4800.00 per annum from July 29,1920.

Allowance for residence and garage, estimated value $1200.00 from March 24, 1918.

Mr. Graham contributes $47.68 monthly to Superannuation Fund No. 5 on account "arrears" in respect of past service = $572.16 per annum and he will be required to do so until December 31, 1944 (nearly 16 years more). Having served over 35 years when he elected to come under the provisions of the C.S.Superannuation Act, he was not required to contribute 5% of his salary for current service.

When superannuated Mr. Graham's retiring allowance would be based on a salary of $6000.00 ($4800 salary plus $1200 estimated value of allowance). From his retiring allowance $4200.00 per annum, he would have to contribute $572.16 per annum until December 31, 1944.

He is 62 years of age.

Dear Mr. Scott,

I have your letter of the 13th instant and I am keenly disappointed to learn that you fear you will have difficulty in making matters easier for me.

It is hard for me to understand why I am charged $1200. for a house when other officers in our Department get House, fuel,light,rations,cow and garden etc. and are only charged $600.00. In the Police Department the officers here,including the Asst. Commissioner ,get even more than do our officers, as their rations are more generous and a charge of only $750.00 is made. If a Real Estate Agent were to place a rental value upon Col.Worsley's house which is better than the one I live in ,he would give it a greater value than he would mine. If my allowances were valued in proportion to those of other officers, the amount would be about $300.00.

The position of Indian Commissioner in the old days was better than that of the Police Commissioner from a financial standpoint, but times have changed all this notwithstanding the fact that the work of the former has increased three fold at least.

I hesitated a long time before I wrote to you on this matter and I am appealing to you to give it consideration. The salary I am getting is not large.

PERSONAL AND CONFIDENTIAL.

My dear Mr. MacKenzie,-

Further to our conversation of a day or two ago in the matter of perquisites to Officers of this Force, I set out hereunder a valuation thereof which I hope will assist you in your purpose.

Maximum regimental pay of Officers from Assistant Commissioner downwards:

Assistant Commissioner.....	$3,250 per annum.
Superintendents.....	$2,650 " "
Inspectors.....	$2,050 " "

Upon retirement to pension, the maximum allowed is 35 completed years upon the basis of one-fiftieth of pay and allowances for each year served. The allowance referred to is that contained in Order-in Council P. C. 87/1124, dated 15th May, 1912, a copy of which the Commissioner transmitted your Deputy. This would provide Officers maximum pension benefits as under:

Officers	Regimental Pay.	Allowances.	Total Pay & Allowance retired on
Asst.Commissioner..	$3,250.....	$ 925.....	$4,175
Superintendents....	$2,650.....	$ 750.....	$3,400
Inspectors.....	$2,050.....	$ 625.....	$2,675

Our Officers do not pay 5% contribution to Pension Fund on those allowances, but do so on their regimental pay only. The allowances set in 1913 are certainly low for the present day. However, at present it represents their maximum retirement benefits.

As a comparison with Civil officials of the Government and also to illustrate the lowness of these allowances, I would further add for your information what I would consider a reasonable estimate of these allowances to-day - in illustration of which I would take the rank of a Superintendent:

Superintendent 's Regimental Pay.....	$2,650.00	pr. yr.
Rent - $75.00 per month.....	900.00	" "
Fuel.....	150.00	" "
Light and Gas.....	120.00	" "
Double daily ration @ $1.20 per diem.....	438.00	" "
Total	$4,258.00	" "

In the foregoing computation I have omitted the privilege of medical attention and comforts, which only have a cash value when utilized.

I hope the foregoing will be helpful to you and as a closing word it may be well to compare for you the present status of a Superintendent on retirement as between the present fixed rate of the Order-in-Council referred to herein with that of a reasonable cash value of these perquisites as enumerated above. I would still use the rank of a Superintendent:

Present Regimental Pay.....	$2,650.00	pr. yr.
Estimated value of Rent, Fuel, Gas & Rations referred to above.....	$1,608.00	" "
Total	$4,258.00	" "

Regimental Pay.....	$2,650.00	
Allowance fixed by Order-in-Council 15th May, 1913 750.00.....	$3,400.00	" "
Present day loss.....$	858.00	-

Should you require any further information on the matter, do not hesitate to ring me up.

Yours sincerely,

June 14th. 1929.

Dear Mr. Graham,

I am in receipt of your letter of the 10th. June. As I understand, that would mean a cash increase of $1200.00 and a revaluation of the rental value of the house reducing it to $400.00. We cannot be very hopeful that the Civil Service Commission would consider that adjustment.

The only possibility I see in the immediate future is that if the Board appointed by the Government to inquire into the salaries of technical men agrees with the recommendations of the Civil Service Commission, all officers in administrative positions in the service who receive $4,000.00 or over will have $420.00 added to their salaries. I do not think it unlikely that the Board will support this although I have no means of knowing. In that case you would receive this increase and the Government has stated that it would date from the 1st. April 1929.

Yours very truly,

DCL

Memorandum,-

Honourable Charles Stewart.

Re Pay and Allowances of
The Indian Commissioner at Regina.

Pursuant to our discussion on the above subject I am sending you herewith my file of correspondence with Mr. Graham.

Mr. Graham's cash salary is now $4,800.00, with a free house and garage, and during the last year I have allowed fuel for the house, which is paid from the Greater Production funds. I may sooner or later get into conflict with the Auditor about this last item, but after my visit to the west last summer, owing to Mr. Graham's representations, I decided to pay for the fuel. In addition to this he receives $60.00 a month for the use on public business of his own motor car and his chauffeur is an employee of the Department. It will be seen therefore that no other officer in our service below the rank of Deputy Head is really as well paid as Mr. Graham, and he is I think the highest paid government official in the west. When we adjusted his salary it was understood that he was to receive $4,800.00 cash, and for the purposes of superannuation his rent allowance was to be valued at $1200.00. He is therefore eligible for superannuation on a basis of $6,000.00. Owing to comparisons made by Mr. Graham, I went into the matter thoroughly and compared the value of his allowances with those of the Police Officers and received confidential information from that Department. His contentions are not borne out by the facts. The contention at Police headquarters is that their

allowances are underestimated for purposes of superannuation, and, using their Superintendent's position as an example, that they should be increased by $858.00; but this does not mean that they would be getting this much more in cash; it simply means that they would be paying 5% on the $858.00 into the Superannuation Fund and would be superannuated on a basis of $4258.00 instead of a basis of $3400.00.

My intention, if I could possibly arrange it, was to reduce the value of the rent allowance, and increase Mr. Graham's cash payment, leaving the figure for superannuation at $6,000.00; but when I asked an independent valuator at Regina what the rental value of the house was, he reported that the house should bring an annual rental of $1200.00, exactly as we had estimated it. Mr. Graham seems to have the idea that he is paying $1200.00 for this house, but he gets the house free, and pays in effect $60.00 a year as his superannuation abatement.

In letter of June 4 I asked Mr. Graham pointedly what he wanted, and he tells me under date of June 10, last, that he wants $6,000.00 in cash, that is a cash increase of $1200.00 and a reduction of the value of his allowances to $400.00, i.e., the pay would be $6,000.00 in cash and a free house, to be valued for superannuation purposes at $400.00, and the superannuation basis $6,400.00. Giving every due consideration to the subject I think that it would be quite impossible for us to agree even to attempt such an adjustment. You will see from my remarks as regards Police pay and allowances that their tendency is rather to increase the value of the allowances than to reduce them and in this way give their officers an added advantage for superannuation.

I appreciate Mr. Graham's interest in his work, but nevertheless I think that the salary of the Indian Commissioner for the western provinces (setting aside all <u>personal</u> considerations) is fair and reasonable.

MEMORANDUM

Dr. Scott:-

Mr. W. M. Graham elected to pay to Superannuation Fund No. 5 in twenty (20) years from January 1st, 1925, to December 31st, 1944, arrears of contributions in respect of his service from December 1st, 1885, to September 30th, 1923, at the rate of $47.68 a month. He contributed to Retirement Fund from October 1st, 1923, to date of election, January 31st, 1925.

Mr. Graham will be sixty-three (63) years of age on 11th January next, and if he lives will be required to pay "arrears" until he is nearly seventy-eight (78) years of age. In the event of death, payment of arrears would cease and his widow would be entitled to one-half the annual allowance to which he would have been entitled if he had been superannuated or retired at the date of his death.

Memorandum:

Mr. Pratt.

I have read the attached papers with reference to the arrangement for building the Interpreter's house at Crooked Lakes. Mr. Graham's telegram in explanation correctly describes the situation. Some years ago all this local building was handed over to Mr. Graham. He represented that the system which we had heretofore adopted of allowing Agents to supervise the erection of buildings or to erect them by contract was unsatisfactory and not economical in one of his blue ruin reports, and for some time he has been allowed to manage all the programme for smaller buildings. Of course this has thrown a large amount of work on the Regina office and tends to build up the staff there, and the alteration of the old policy of dealing directly with Agents and having periodical inspections of the reserves has merely served to the same end, that is, it has increased the work of the Regina office and involved the Inspectors in managerial functions that they were never intended to perform. Personally I think that Mr. Graham has looked after this work darefully, but it is a question whether what we have saved has not been fully offset by the increased expenditure at Regina and the diversion of time from the Inspectors' duties which might have been applied to their proper work.

Personal.

Dear Mr. Scott,

I wish to thank you very much for the portrait of Crowfoot. The artist who made the reproduction certainly did splendid work and I shall be very glad to have this picture on my wall.

Mrs. Graham and I both feel the need of a long holiday but can see no chance of being able to take it in the near future. Miss Tye is planning to go East in September for her vacation.

With kind regards from us all,

Yours sincerely,

COMMISSIONER'S OFFICE

REGINA, SASK., Feb. 11th, 1930.

Dear Mr. Stewart,-

I have your letter of the 3rd instant and wish to thank you for the trouble you have taken in this matter in my behalf.

I am, as you feared I would be, disappointed at the decision of the Civil Service Commission, although I am not altogether surprised, as I expressed the opinion, when talking the matter over with you last October, that if it went to the Commission, it would not receive fair consideration, as I was aware from previous experience I had had with the Board that it had not the proper conception of the magnitude of the duties pertaining to the position of Indian Commissioner of the three prairie provinces. When I read the Commission's letter to you it was only further evidence that the Commission does not realize the amount and quality of the work I am called upon to do.

3960-40

The definition of the classification quoted by the Board does not begin to define my work. To anyone reading this definition it would appear that I was being directed by the Deputy Minister to supervise the various activities of the Indians. It must be remembered that fully seventy-five percent of my work is not covered by the definition, and it is for this reason I am being unfairly, in my opinion, treated by the Commission.

I have been placed in charge of over thirty thousand Indians and my main duty is to make them a self-supporting lot of people as far as possible. This means that a system of farming and stock raising had to be inaugurated on a sound basis and that the activities of the Indians along these lines had to be completely changed, if we were to make progress.

There are over 2200 Indians in these provinces engaged in farming and considerable more than this number are raising cattle.

In the five years previous to my taking over this work (1913-1917) the Indians in these three provinces grew 3,586,938 bushels of grain from 184,302 acres; they grew 5,511,339 bushels of grain from 324,594 acres in the five years from 1923-1927. This will, I think, show

that the....

that the position has meant much initiative on my part. As you know, Indians are not fond of work, and each case has to be dealt with separately. The Indians have, to a large extent, earned money to buy their own equipment. Nearly a thousand Indians have been placed in new homes and this will have a wonderful effect on their health.

Our cattle have increased and to-day we own approximately 25,000 head of the finest cattle in the West, the result of careful breeding. Last year they sold about $200,000.00 worth of cattle and provided for their own beef requirements as well.

I do not think it is fair to compare my work with that of an Assistant Deputy Minister. It might, however, be interesting for you to read the following comparison of salaries paid the Indian Commissioner and the Deputy Superintendent General, keeping in mind the fact that the work of the Commissioner has increased at least four fold over what it was twenty years ago, and the work of the Deputy Supt. Gen. has probably not increased more in proportion and possibly it has not increased as much.

From 1905 to 1906 the Dep. Supt. Gen. and Ind. Commissioner received the same salary,- $3200.00
From 1906 to 1908 Dep. Supt. $4000.00; Commissioner $3200.00
From 1909 to 1911 " " $5000.00; " "
From 1912 to 1918 " " $5000.00; 1912-13 " 3700.00
No Commissioner till 1918.
From 1920 to 1923 " " $6000.00; Commissioner $4800.00 and house.
From 1924 to 1927 " " $8000.00; " "
From 1928 to 1929 " " $9000.00;
(or possibly 10000.00?)

You will note that for twenty years the Commissioner received the same salary as the Deputy Minister and from 1906 the difference between the two salaries gradually became greater. I feel that this difference has become too great, in view of the greatly increased duties of the Indian Commissioner.

Since assuming this office I have been instrumental in bringing into use Indian lands that were idle, and have leased hundreds of thousands of acres for grazing and farming. The net result has been that I have sent to the Department nearly one million dollars of found money for the Indians.

The Greater Production scheme was a success and showed a profit of nearly two hundred thousand dollars. I need not dwell on this as the success is well known to you. This was inaugurated and put into effect by myself. For this work I received no compensation although it was foreign to the Indian work. I may say here that the late Arthur Sifton, who was at the time largely instrumental in delegating this work to me, stated just before he died, that I would be compensated adequately for this work, but unfortunately he passed away and no action was taken. You will recall that during the first few years of your term of office there was much dissatisfaction among the Indians of Alberta. To-day this is almost a thing of the past.

We have....

We have a fairly contented people who complain little and are making a good living. The system of feeding the young people has almost disappeared.

I think you will agree that in view of the many administrative and complex problems of my position, it is not fair to compare my work with that of an Assistant Deputy Minister.

You were almost sure when I was discussing my salary with you in Regina that the question of perquisites was one for the Department and not the Civil Service Commission to deal with; why I should have to pay nearly twice as much for what I receive as do the Police Officers or even other Indian Department officials, is hard to understand.

In 1917, as Inspector, I had charge of 3'145 Indians and on the reserves then under my charge 13,475 acres were seeded. As Commissioner I have over 30,000 Indians to look after and in 1928 we had 67,229 acres seeded; so that in the matter of farming alone my work has increased at least five fold, and along other lines, such as buildings, health activities, office work etc. the work has increased in proportion. If I had remained in the position of Inspector, my remuneration would be about $500.00 per annum more than it is at present, as Commissioner.

This is a most discouraging state of affairs after the hard work and worry of the past twelve years.

Yours faithfully,

(Sgd.) W. M. Graham

Dear Mr. Graham,-

As I wished to take a personal interest in your request for a reconsideration of your rate of pay and perquisites, I asked Doctor Roche, Chairman of the Civil Service Commission, to call upon me. He did so and we had a lengthy conversation on the subject. I handed Doctor Roche the letter which you addressed to me in order that he might have the benefit of your remarks. I have just received a letter from the Commission dated the 28th January, and I cannot do better than send you a copy of it. You will, I fear, be disappointed by the decision of the Commission, but at least you can feel assured that the case received very careful attention. As you will observe, I took a personal interest in the matter, and the Board had the facts before them, including your own presentation of the case.

Yours sincerely,

Dear Sir,

I have perused all the correspondence that has taken place in connection with the recent difficulty between yourself and the Department, and while I certainly do not approve of the wording of the communications sent out by Mr. Stewart of the Department to yourself, on the other hand I must take exception to the methods which you have adopted in order to have any grievances either real or imaginary redressed. Some time ago you justly complained of having your work hampered by local politicians and by other officials of the Government bringing political pressure to bear to counteract your usefulness, and were I as sensitive as yourself in regard to communications which have been sent to my colleague Hon. Mr. Meighen and to the Prime Minister, I would have resented in a much stronger manner statements which have been made in those communications. It seems rather peculiar that you would adopt the same course that you complained of in others and enlist the sympathy and services of members of Conservative Associations to make representations not to the head of your Department but going behind his back attempting to bring pressure to bear through the Prime Minister and the Secretary of State in order to have your own wishes carried out. One of those communications states that it was useless to appeal to myself, an entirely gratuitous statement and one which I feel sure would not have been made by the gentlemen in their letter to Mr. Meighen unless you had made such a statement to those gentlemen. So far as the telegram to the Prime Minister is concerned, it was referred to me in the usual manner as the Prime Minister never interferes with the management of any of his Ministers' Departments and has every confidence in his several Ministers. If, therefore, there is anything wrong in connection with Departmental matters, the least that I can expect from any employee of the Department is that such matters will be brought to my attention and not be troubling any of my colleagues with the same.

Ottawa, January 28, 1930

IA-I-93.

Dear Sir:

Your letter of the 6th ultimo, addressed to the Chairman, Civil Service Commission, forwarding a request for a reconsideration of the pay and perquisites attached to the position occupied by Mr. W.M. Graham, Indian Commissioner, at Regina, has been considered by the Civil Service Commissioners, who have instructed me to advise you as follows:

The class applied to the position occupied by Mr. Graham did not appear in the original classification book as approved by Parliament. At the time the Organization Branch of the Civil Service Commission was drafting a class to apply to this position, it was proposed that the salary should be set at $3060-3600, but this compensation was appealed by the Department and was sent to the Board of Hearing and Recommendation. That Board recommended a compensation of $3600-4200, plus house, light and heat; but the Civil Service Commission, on further consideration of the matter, decided to recommend to council a compensation of $3600 "and up". Order-in-Council P.C. 1755, of the 29th of July, 1920, authorized $3600 "and up", and Order-in-Council P.C. 2430, of the 9th of October, 1920, set the compensation under authority of the above Order-in-Council at $4800 per annum. P.C. 1/80, of January 14, 1925, amended P.C. 2430 by adding "with a free house and garage, value $1200 per annum."

The above compensation is that now applied to the position occupied by Mr. Graham, who thus receives $4800 cash, plus house, light and heat. For superannuation purposes, the value of the latter is set at $1200 per annum.

Mr. Graham now asks that he receive $6000 cash, plus house, light and heat, the value of the latter, for superannuation purposes, to be set at $600 per annum.

The duties of Mr. Graham's position are described in the following definition of class, drawn up in 1920 when the activities of the position were at a peak:

Hon. Charles Stewart,
Minister of the Interior,

Definition of Class

Under direction of the Deputy Superintendent General of Indian Affairs, to supervise the agricultural and stock-raising operations of the Indians in Manitoba, Alberta and Saskatchewan. to lease grazing and agricultural lands upon Indian Reserves; under special instructions to direct the cultivation of unused land on Indian Reserves; to make investigations for the Department; to direct the work of inspectors, Indian Agents, and other employees; and to perform other related work as required.

It is considered that the responsibilities of this position are less than those of the following, which have been classified by the Civil Service Commission as indicated:

Assistant Deputy Minister,
Department of Public Works,
$4620-5220

Assistant Deputy Minister,
Department of Agriculture,
$4620-5220.

Assistant Deputy Minister,
Department of National Defence,
$4620-5220.

Assistant Deputy Minister,
Department of the Interior,
$4620-5220.

Director, Experimental Farms,
$3900 and up, with house.
Actual Salary $5000, plus house.

In the Department of Agriculture, the Dominion Field Husbandman and the Supervisor of Illustration Stations receive only $3000-3480. In the Department of Mines at Ottawa, the Director, Geological Survey and the Director, Mines Branch, receive $4500-5400.

The above positions have been quoted as typical of the compensation attached to higher paid positions in the Service, and

it would be possible to quote quite a few more, comparison with which would show that to set the compensation of the class Indian Commissioner, as applied to Mr. Graham's position, at $6000 per annum, plus allowances valued at $600 per annum, would be manifestly unfair, and entirely out of proportion with the compensation of other classes in the Civil Service.

I am accordingly directed to inform you in answer to your inquiry that the increase asked for by Mr. Graham would not be supported by the Civil Service Commission.

J. R. Bunn, Winnipeg, Inspector, Grade 2	3000.	Aug.26, 1855.	R.

The total Estimate for the Regina Office for the next fiscal year is $47,846.00, and the Department of Public Works pays rental for the offices at the rate of $3960.00 per annum, in all.....$51,806.00.

The plan for the future would provide for three Inspectors located respectively at Calgary, Regina, and Winnipeg, and a Travelling Auditor located at Regina, with three Grade 2 Stenographers.

Indian Affairs. (RG 10, Volume 4070, file 427,063-A)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

The Estimates under the new plan would be as follows :-

Inspector at Calgary, William Murison	$3600.00	
Inspector at Regina, M. Christianson	3600.00	
Travelling Auditor, H.B.Rayner, Regina	3000.00	
Inspector, Winnipeg, A.G.Hamilton	3000.00	
		$13,200.00
Postage, Telegrams & Express, & Miscellaneous		1,700.00
Clerical, 3 Stenographers, Grade 2 :		
E. Diggle	$1380.00	
H.W.Wylie	1245.00	
Miss Blanchfield	1095.00	3,720.00
Travel		4,580.00
Two Principal Clerks at Ottawa		4,800.00
Rentals		2,000.00
		$30,000.00

Present cost	$51,000.00
Cost under new arrangement	30,000.00
Saving	$21,000.00

The warehouse at Regina should be closed. In future all supplies, contract and otherwise, should be sent direct to the Agencies. The warehouse and the residence of the Commissioner, both of which are owned by the Department should be sold.

The Greater Production Farm should be closed. As the stock and implements would not likely bring much if sold, they should be distributed to school pupils or other Indians who are beginning farming. The buildings there are not of much value, and the material might be used by Indians. A decision should be come to as to the treatment of the land now under summerfallow.

The following superannuations or retirements should take place at Regina and Winnipeg owing either to abolition of office or to promote economy :-

W. M. Graham	-Entitled to an annuity----6 mths. retiring leave.
A. W. Tye	-Entitled to an annuity----6 mths. retiring leave.
John R. Bunn	-Refund of contributions to Retirement Fund.
J. W. Little	-Entitled to a gratuity----2 mths. retiring leave.
G. R. Reid	-Entitled to a gratuity----2 mths. retiring leave.
W. J. Hay	----------
Otto Brandt	-Entitled to an annuity----3 mths. retiring leave.
A. W. Galbraith	-Entitled to a gratuity----2 mths. retiring leave.

The two Principal Clerks should be transferred to Ottawa.

CANADA

In making this change, which will certainly promote economy and should not impair the efficiency of the Service, I would make some cautionary observations :-

If the change is to be made effective on the 31st of March, next, the Estimates for General Expenditure, 1932-33, might be reduced by $10,000.00

Officers transferred will be paid their travelling expenses and there will be some cost in transferring records to headquarters, paying salaries during leave, and other incidentals, and it would not therefore be wise to cut the whole of the extra saving this year.

It will not be possible to make the change unless the staff at headquarters is strengthened. The two Principal Clerks who have had considerable experience should be transferred to Ottawa and attached to the Accounts Branch where all stock records, Inspectors' Reports, Agents' Diaries, etc., etc., would be checked.

As I have frequently pointed out, the Accounts Branch is undermanned, and our system of accounting needs to be modernized. I would recommend that the Civil Service Commission appoint an expert to reorganize the Branch and to recommend improvements in the system of accounting.

While this change will not increase the work of the Medical Branch, there is at present before you a plan for the reorganization and strengthening of that Branch.

Dear Mr. Graham,-

After carefully reviewing the administration of Indian affairs in the West, it has been decided that the office of the Commissioner at Regina should be abolished, and the Commissioner's Office as such be closed at the end of the fiscal year. This step has not been taken without the fullest thought, extending over a period of some sixteen months. A copy of the Order-in-Council passed in connection with your retirement is enclosed.

It is proposed to carry on the work by utilizing the services of an Inspector in each Province, who will be responsible to the Department for the administration and conduct of all matters pertaining to the welfare of the Indians in their respective Provinces.

On looking over your record of service with the Department, I observe that you have served a period in excess of forty-six years, during which time you have steadily risen by promotion to the chief office in the gift of the Department in the Western Provinces. This certainly is a tribute to you as a worthy public servant. I also observe that you have reached the age of sixty-five years, and that by reason of the length of your service you are entitled, on retirement, to the maximum amount allowed by the Superannuation Act.

May I convey to you my appreciation of the manner in which you carried out your duties during the time I have had the honour to preside over the Department of Indian Affairs, and may I also wish for you continued health and enjoyment of the leisure you have so well earned.

Yours very truly,

W.M. Graham, Esq.,

A FRIENDLY PALEFACE

IT is hard to know whether to write down that Indians joined with the white men or white men joined with the Indians in honoring, at the end of last week, Mr. W. M. Graham who is retiring as commissioner under the Department of Indian Affairs in Western Canada after 47 years of service. White man and red man both owe him an incalculable debt of gratitude for the service he has rendered during that half century or thereabout. In those years the Indian tribes of Western Canada have progressed from hopelessly backward races to a position where they can virtually call themselves self-supporting. For this they can thank Mr. Graham, acting, of course, as the servant of the Great White Father, for it was his genius, his initiative and, above all, his devotion to the cause of the simple folk over whose destinies he presided which added blessings to their once none too happy lot. And in so doing the retired commissioner has served his Empire well, for has he not helped to bring about an answer to the Churchman's prayer for the King's Majesty, "that under him we may be godly and quietly governed"?

But the economic emancipation of the Indian has been one of those qualities that "blesseth him who gives as well as him who takes," for it has removed the Indian from the list of public charges. (Would that another skilled specialist mind could be turned loose on the unemployment problem). Treaty money? Of course, but a treaty is a sacred thing. Under the ex-commissioner's regime, also, Christianity has almost entirely replaced paganism amongst the Indians of the West due to the friendly co-operation and encouragement extended impartially to missionaries of every denomination, faithful and devoted lieutenants of the state in this work.

So when the Stoney tribesmen conferred on him the other night an honorary chieftainship—a distinction shared only with T.R.H. the Prince of Wales and the Duke of Connaught—it was no doubt the overflowing of an earnest gratitude unaided and unabetted by paleface officials. But when they named him Day Star because, like the star seen from a Rocky canyon, he watched over them even when he was not present amongst them, they clothed their thoughts of him in poetry that never the white man taught. When the red man, in the days of his savagery, sat astride his horse at the butte's summit, gazing reflectively across the plain, it is clear now that he did not dream in vain if his mind, though all a mystery to us, was giving birth to such thoughts as this. Indeed, it sets one to wondering how many sweet songs have died unwritten.

INDIANS' FRIEND IS DEAD

Wife of Former Indian Official Passes Friday

MRS. W. M. GRAHAM

Mrs. W. M. Graham, wife of the former Saskatchewan Indian commissioner and one of the organizers of the world's Junior Red Cross, died suddenly Friday evening at her home, 2320 Lorne street.

Death was attributed to heart trouble.

Resident of the west since childhood, Mrs. Graham was 71 years of age.

Widely known in women's circles in Regina and throughout the province for her welfare work, particularly in regard to the Red Cross, Mrs. Graham was deeply interested in the prairie country and shared with her husband an interest in the welfare of the Indians among whom she worked for many years.

Funeral On Monday

Funeral service will be held Monday afternoon at 2 o'clock at St. Paul's Anglican church and burial will be in Regina cemetery.

Mrs. Annie Helena Violette Graham was born at Sarnia, Ont., in 1868, daughter of Mr. and Mrs. J. H. Wood, and when a child she moved with her parents to Birtle, Man.

It was at Birtle, on Dec. 10, 1890, that she married W. M. Graham, at that time a clerk in the Indian department, and with him throughout the years she shared an interest in work among the Indians.

Following their marriage, Mr. and Mrs. Graham moved to Cannington Manor, Sask., south of Moosomin, and in 1895 moved to Regina where they remained for two years until they moved to the File Hills reserve, where Mr. Graham was in charge for 21 years.

To Regina In 1918

They returned to Regina in March, 1918, same year Mr. Graham was made Indian commissioner, a post from which he retired a few years ago, and had resided in the city since.

While Mrs. Graham lent her assistance freely to many causes in Regina, her chief interest was in work of the Red Cross and she had been a member of the provincial society since its organization previous to the Great War.

To Mrs. Graham fell the honor of being one of the organizers of the permanent peacetime Junior Red Cross of the world. During the Great War junior groups were organized throughout the Dominion to assist in wartime work, but following the armistice they were disbanded and it was in 1919 that Mrs. Graham was instrumental in organizing the junior group that is an adjunct of the world's senior society.

Suggested Continuation

In the spring of 1919, at a meeting of the Red Cross at which the then Lieut.-Governor Sir Richard Lake presided, Mrs. Graham suggested the junior organizations should be continued in view of the splendid work the younger people had accomplished throughout the war. Mrs. Graham at that time said she believed, and events since have fully shown the wisdom of her thoughts, that the younger people could assist in the work of helping crippled children.

At that meeting Mrs. Graham and A. A. Ball, then deputy minister of education, were appointed a committee to consider organization of junior groups and upon their recommendations the junior groups throughout the Dominion were reorganized.

"The Junior Red Cross work was always nearest her heart," said Mrs. T. D. Brown, active Red Cross worker, Saturday, as she recalled events of that meeting. "She was always thinking of the kindest things to do for children in the hospital."

Other Interests

Many other organizations won the efforts of Mrs. Graham's untiring work. She was the first president of the Women's Canadian club and was a president of the Women's Art association and through her association with that organization was one of the prime movers in the placing of a monument at Fort Qu'Appelle, Sask., to commemorate signing of the Indian treaties.

Mrs. Graham is survived by her husband and a brother, L. S. Wood, in St. Paul. Miss A. W. Tye, of Regina, is a cousin and Mrs. A. G. Styles, also of Regina, is a niece. Mrs. Arthur Meighen, wife of Senator Meighen, is a niece.

Good Friend of Indians

MR. William Morris Graham, the former Indian commissioner who had been associated with the Department of Indian Affairs for 47 years and died at Regina on Thursday last, was born in the Ottawa Valley in Confederation year, but brought to the West a few years later, when his father, who was with the Wolseley expedition, was made superintendent of Indian Affairs in Manitoba. That was in 1871. Mr. W. M. Graham may be said to have been associated with Indian affairs in the West from that time till he retired from the service eight years ago.

Mr. Graham had risen through the usual stages of clerk, agent, inspector in the department, till finally he became the last commissioner for Indian affairs for Western Canada. He was not so much a departmental authority and an admirable administrator, as he was the friend of Canada's wards in the West. He was not only known by the Indians, but he knew them. Their interests were his for almost the whole of his life, and they were served with sympathy and ability.

* * *

A TRIBUTE to the passing of this old-timer of the West, this civil servant of the old school, this faithful friend of the Indians, appeared in the Regina Leader-Post. This testimony could be best appreciated in the city in which Mr. Graham was known for so many years, but it will appeal to many in Manitoba who can recall him and had association with him. The Regina Leader-Post said editorially:

"Mr. W. M. Graham built into the West in comprehensive educational programmes for the Indians, in winning them over in large degree from nomadic ways to agriculture and the white man's method of life fairly generally. He taught them crafts, he taught them discipline and respect for authority. He fitted them into useful living and into appreciation of our national life.

"And the Indians loved W. M. Graham for his interest in them. They loved him for his practical friendship. W. M. Graham was an unforgettable figure as he moved among his charges. He could talk with them in their sundry tongues. He could gesticulate with them as well as speak their language. He 'knew' his Indians. He was 'at home' among them. It was no affected, superficial interest that he displayed. He loved his Redmen of the plains as they loved him.

"William Morris Graham will require no elaborate memorial of stone or bronze. His memorial lies, will continue to lie, in the regard and affection that for long years to come will attach to his memory in the hearts and minds of our Indian population from the old Red River area right through to the Alberta foothills. Here was a man among men — a kindly, genial, helpful spirit who 'went about doing good.'"

Former Indian Commissioner Dies In Regina

[By The Canadian Press]

REGINA, March 29—W. M. Graham, former Indian commissioner for Western Canada, died Thursday evening in hospital following a stroke. Funeral services will be held Saturday at 2 p.m from St. Paul's church. Burial will be in Regina cemetery, beside the remains of Mrs. Graham who died December 15 last.

Surviving Mr. Graham are two sisters, Mrs. H. Hammond, Oakland, Calif.; Mrs. E. O'Loughlin, Toronto, one brother R. H. Graham, Winnipeg; a niece, Mrs. A. G. Styles, Regina, and his secretary for great many years, Miss Alice Tye, Regina.

William Norris Graham one of nine children, was the third son of Mr. and Mrs. James F. Graham, both of whom were born in the Ottawa Valley, and where William Morris was born January, 1867—the year of Confederation.

His father, James F. Graham, came west in 1870 with the Wolseley expedition. In 1871 he became superintendent of Indian affairs in Manitoba, and his family came out from the east. Mr. Graham was connected with the Indian department until 1884.

W. M. Graham, Friend of Man!

It is fine where a man's life is built into helpful, constructive and kindly effort in behalf of others. Such was the life of W. M. Graham, retired Indian commissioner of the western Canadian provinces, who died suddenly and unexpectedly in Regina on Thursday in his 74th year. Mr. Graham was actively associated with the department of Indian affairs for no less than 47 years—close to a half century of painstaking and useful effort, effort with imaginativeness and vision to it.

William Morris Graham was born in the year of Confederation—1867—and this seems fitting. Eighteen hundred and sixty-seven was our big building year in Canada. A Dominion was born and created that year. Canada as we know it today was started on its way in 1867. The career of W. M. Graham began in that same year—another building influence his, like those figures, Macdonald, Tupper, Brown and Cartier, who were moving on the Confederation stage at that time.

* * *

W. M. Graham built into the West. He built personality into this West that was his adopted land virtually from his infancy. He built into the West as did his father before him. His father was a member of Wolseley's expedition to Fort Garry in 1869-70, and was Indian superintendent in the West before the son assumed the mantle. W. M. Graham built into the West in comprehensive educational programs for the Indians, in winning them over in large degree from nomadic ways to agriculture and the white man's method of life fairly generally. He taught them crafts, he taught them discipline and respect for authority. He fitted them into useful living and into appreciation of our national life.

And the Indians loved W. M. Graham for his interest in them. They loved him for his practical friendship. W. M. Graham was an unforgettable figures as he moved among his charges. It was no affected, superficial interest that he displayed. He loved his Redmen of the plains as they loved him.

* * *

William Morris Graham will require no elaborate memorial of stone or bronze. Indians unveil cairn in honor of Grahams

A cairn in memory of the late Mr. and Mrs. W. M. Graham will be unveiled by Indians of the File Hills agency on July 1.

The cairn will be a tribute by the four bands of Indians of the agency for the work done by Mr. Graham, long-time Indian office official and commissioner of Indian affairs for the province previous to his retirement, and Mrs. Graham, who took a great interest in welfare of the Indians.

The unveiling will take place at 2 p.m., on July 1 at the agency, 12 miles north of Balcarres.

Mr. and Mrs. Graham were well known on the prairies and many leading Reginans have been invited to attend the ceremony. For the convenience of those travelling to Balcarres by morning bus, arrangements have been made for transportation from Balcarres to the reservation, and return to Balcarres in time to catch the 8:40 p.m. bus to Regina. The bus to Balcarres leaves Regina at 7:30 a.m. It is also expected several parties will make the trip in private cars.

THE LEADER POST 28/6/44

Bits and Pieces

By PHAN

July 1 will be unveiling day of the memorial cairn to William Morris Graham and Mrs. Graham at File Hills Indian agency where Commissioner and Mrs. Graham spent many years of their life, devoted to the welfare of the Indians of the west. Annual Indian sports day will also be held that day, and one of the features of the ceremonies connected with the fete will be procession of the old Indians in all their regalia. There will be a good sports program, and Lebret Indian school band will provide the music.

The cairn in memory of their benefactor, was the idea of the Indians themselves, who shortly after Mr. and Mrs. Graham's death a few years ago, suggested to the authorities they wished to erect a monument of native stone to the man who had directed them for so many years. Mr. Graham joined the Indian department staff at Birtle in 1885, and successively was at Moose Mountain, File Hills and Regina, being superannuated after nearly half a century of service. Mrs. Graham died in December, 1939, and Mr. Graham in March, 1940.

Mrs. A. G. Styles, a niece of Mrs. Graham, will unveil the monument, and the address of the day will be given by one of the Indians, probably Joseph Ironquill.

M. Christianson, general superintendent of Indian affairs for Saskatchewan, has taken the directing hand in assisting the Indians with organization for the construction of the cairn, and also for their big day, July 1, to which the public is invited.

The cairn is built of native stone, "niggerheads," picked by the Indians and hauled to the site of the monument. The masonry was done by Kirk Hunter, 73, old time settler of Indian Head, master craftsman of his art, which he learned in Scotland as a youth.

On the south facing of the monument will be the plaque for Mr. and Mrs. Graham. On the east facing will be the names of the Indians who served and died in the First Great War. The west facing is reserved for a plaque on which the names of all Indians in the present war will appear. At the base, the monument is five feet square and rises to a height of eight feet, the top being about a foot and a half square.

The site of the monument will also become a modern park where native trees and shrubs will be cultivated, and provision has been made for large lawns and flower beds. The park is to be maintained in perpetuity in respect to the memory of Mr. and Mrs. Graham and as a milestone marking one of the changing periods from the old life of the Indians to the modern Indians of today.

Graduates of the Indian schools of the prairie provinces, over which Mr. Graham was commissioner, were the first to express the idea of a monument, and when the old Indians were consulted in council it was given unanimous approbation as a real mark of respect in recognition of a work that forms one of the epics of the plains.

DEPUTY SUPERINTENDENT GENERAL
OTTAWA.

February 20th, 1918.

Mr. Paget.

Kindly ask for a creditfor $100,00.00 from the War Appropriation under Order in Council of the 16th, of February,1918 and send to Mr. W.M.Graham an accountable advance of $20,000.00 to Balcarres. You will observe by the Order in Council that a total advance of $300,000.00 is to be made from the War Appropriation, the expenditure to be conducted in the usual way.

Mr. Graham is to receive an allowance of $100.00 monthly, to be charged against the War Appropriation in lieu rations and other perquisites enjoyed at Balcarres.

Miss Tye is to be transferred to Regina, where Mr. Graham's office is to be located, and is to be paid at the rate of $1000.00 a year, without any allowance for rations.

Mr. Graham's staff at Regina will be limited to the following to be paid from Indian appropriation;

4 clerks and
1 messenger.

but all these may not be engaged immediately, in addition Mr. Graham may engage 2 qualified agriculturists as his assistants; these will be paid from the War Appropriation; it is not the intention to burden the Indian Appropriation with any charges incident to the Greater Production scheme.

If at any time you are in doubt as to what should be charged to the War Appropriation, kindly consult me.

Dear Mr. Scott,-

I wish to bring the following matter before you for consideration.

When I was in your office last month the question came up of allowance to Miss Tye in lieu of rations, after we move to Regina, and I said then, I thought $100. per annum would be adequate. Although Miss Tye at first expressed her willingness to accept that amount, she has since pointed out that the cash allowance of $8.33 per month would mean a decrease of $6.00 per month in her salary, made up as follows,-

Meat	45lbs. @ 22¢	$9.90
Flour		3.
Tea, rice, soap		1.40
		$14.30

Moreover in Regina there will be car fare to and from the office, for which a fair allowance would be $4.00 per month.

From the above you will see that if Miss Tye were to receive $93.30 per month it would mean the same as she is now getting.

As she has been in the service for over fourteen years and has had no increase for a number of years, I would recommend that her salary be increased to $95.00 per month, commencing April 1st, and hope you will be able to give this matter favorable consideration.

Yours very sincerely,

Dear Mr. Graham,

I have your letter of March 21st. with reference to Miss Fyo's salary. I think that if we paid her $1100.00 from the 1st. April it would be fair, and the Minister agrees with me, as I read him your letter today and placed the facts before him.

Yours sincerely,

I hereby certify that Miss Alice Tye is suffering from the effect of severe strain of overwork and is not in a condition to carry on her work without a continued rest of 2 or 3 months. I would urgently advise that she go away for a change of climate and believe her health would be greatly benefited by such and that she will then be able to resume her duties.

CONFIDENTIAL

Dear Mr. Scott,-

I am this morning in receipt of your telegram in response to mine of the 11th instant, asking for additional help for this office.

In my telegram I referred to the fact that the Soldier Settlement Board and the Income Tax Office were allowed to select their own help. It was a surprise to me to learn this, inasmuch as I was under the impression all along that the Soldier Settlement Officers were appointed by the Commission. In fact I discussed this matter from time to time with Mr. Meighen and Mr. Black and the latter told me himself that they were able to make their cases understood to the Commission and were very leniently dealt with.

Now if there is a Department in the Government that requires a special act of Parliament, it is the Indian Department, and I might as well be frank with you now and tell you that the Department work is going back, particularly in Alberta. We have there today four or five Agents who should by no means be holding such positions. Appointments are being made from time to time of Clerks and Farmers and in time these employees fall into the indolent ways of the Agent. It is not fair to me and I cannot do the work as it should be done, and I take this occasion to say that something will have to be done immediately if I am expected to carry on the work in an efficient manner.

Personally I do not lay all the blame on the Civil Service Commission, as I am sure if they understood conditions as they exist, they would be willing to help us out, as I understand the Commission was created to improve the service. If things go on as they have been for the last year and a half, I can see where we are going to end.

Yours very truly,

W. M. Graham

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

May 6, 1920.

Memorandum:

Honourable Mr.Meighen.

Dealing with the question of the staff under Commissioner Graham, I beg to send herewith a statement showing the staff that he now has, and the staff as it would be if reconstituted in accordance with his various recommendations.

Owing to Mr.Crombie's resignation, Mr.Markle's seeming incapacity for useful work under Mr.Graham, and the illness of Mr.Cookson, Mr.Graham's staff has been weakened.

I endeavoured to meet the immediate necessity of the case by authorizing him to engage a temporary clerk in Cookson's place and to call Inspector J.R.Bunn from Winnipeg for temporary service. I have not heard whether Mr.Graham succeeded in getting a man in Cookson's place, but he does not think it advisable to move Mr.Bunn temporarily to Regina.

The volume of work in this office is increased by certain factors which should be considered temporary. Special work in the obtaining of land for Soldier Settlement is practically over. The operation of our greater production farms still exists, but I do not think we should adopt these farms as part of our work. I think we should close or lease them as soon as possible, and thus get rid of a speculative business of grain production. I think we should continue to lease grazing lands on the reserve under the provisions of subsection 3 of section 90 of the Indian Act, but I think it questionable whether we should continue to lease lands for farming. Commissioner Graham is having difficulty in collecting rents from farmers whose crops were a failure, and this condition is likely to arise not infrequently in the future. I am afraid the result will be that we will have a lot of abandoned farm lands on our reserves. Our proper business is to civilize the Indians and get them to produce with their own labour on their own farms and what with the detail of this branch of our work and the many subdivisions, which it is not necessary to enumerate here, the time and ability of the Commissioner will be fully occupied; but to restrict ourselves to the true activities of the Department would not necessitate such a large staff as Mr.Graham has requisitioned for. With three active Inspectors, the Commissioner should be able to keep everything in good running order. His tendency, as I note it, is to concentrate at Regina. He wishes to transfer Mr.Bunn permanently to Regina; he wishes to appoint an Inspector for Treaty 10, who would be stationed at Regina; and he wishes to have an office-manager in Mr.Crombie's position. This is a new position which would have to be created by the Civil Service Commission, and funds voted by Parliament.

Indian Affairs. (RG 10, Volume 4070, file 427,063-A1)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES
CANADA

I would draw your attention to the fact that the only man paid from Greater Production on this staff is Mr.Garvin, the bookkeeper,- $1,400.

Mr.Graham has recommended the transfer of Agent Murison and Mr.MacDonald, now Agents, respectively, at Touchwood Hills and Battleford, to Regina as Inspectors. The Civil Service Commission looks upon transfers in the light of promotion, and we would have to advertise the positions. Mr. Murison and Mr.MacDonald might apply and might be successful.

I question whether it is good policy to make Agents Inspectors. Mr.Murison, from what I know of him, would not be a good Inspector. Mr.Graham in the past has been unfavourable to him and the conduct of his work.

I cannot agree with Mr.Graham and his suggestion that we should appoint a permanent Inspector for Treaty 10, and locate him at Regina. The wisest policy for that remote part of the country is at some future time when Parliament provides money to appoint a physician and agent at some point in the district, either at Isle a La Crosse or Stanley. There is no use making winter trips into that country, as the Indians are hunting Indians and could not be found.

Mr.Graham always refers to our action in keeping on Mr.W.A.Tyacke, after he reported that he was no good. The truth of that matter is that Mr.Graham neglected to advise Mr.Tyacke of his appointment for four months, and did not do so until he was instructed by you to take action. If he had instructed him when he was appointed by the Civil Service Commission, he would now be out of our service.

I am anxious to lighten Mr.Graham's difficulties, but I would advise proceeding with caution in adding to the staff. I think Mr.Graham should be told to employ Mr.Markle to inspect, whether he is personally favourable to him or not. He certainly can make himself useful in some direction. The Civil Service is advertising the position left vacant by Mr. Crombie, and if Mr.Graham can find a good man, we should run the risk of employing him at once with the hope of having him permanently appointed. I have authorized him to engage a bookkeeper in place of Cookson, and I still think he should have called on Mr.Bunn for temporary service, as he did last autumn.

Dear Mr.Graham,

I received your two wires of yesterday and have just replied as follows,

> "Regarding Barker, have advised Commission in view past experience cannot accept this man. Regarding help, you were authorized some weeks ago to select temporarily,successor to Cookson. Crombie's position being advertised but meantime you might if possible also select temporary for that post. Why not also bring Inspector Bunn temporarily. Writing you fully re other suggestions."

As regards taking Inspector Bunn to Regina, permanently, you may not be aware that a Government Bill has been introduced, providing for retirement on allowance of officials who for various reasons should in the public interest be retired. When this comes into effect, it would seem to me very probably necessary that Inspector Bunn should be retained at Winnipeg. Also, having lived there so long, I scarcely think he would desire himself, to be moved to Regina, without at all events entailing a very considerable increase.

Before going further into the whole question of permanent staff at Regina, I think we ought to

come to a conclusion as to the future of the Greater Production branch. This enterprize has undoubtedly been well conducted, has been a credit to the Department and was thoroughly justified under the circumstances. It is another question though how long we should continue it -- the direct farming features, part cularly. I would be glad of a memorandum from you, giving your own views on this subject, with any recommendations you may care to make as to what contraction we should look forward to making in these operations.

As regards Mr. Tyacke, on account of the delay in advising this man of appointment, it seems to me that he had a claim upon us that would have put us in considerable difficulty if we had ignored him. After reviewing the circumstances, and this phase especially, I authorize his rentention until early in August, but no longer.

You are aware of course that we dispensed with the services of Ostrander and Butlin, also referred to in your letter of 13th April.

As regards Jones, Sub-Agent on the James Smith Reserve, action has been deferred deliberately. We have to be especially careful in the case of Jones, as in the case of every returned man, as they are generally and justly regarded to have special claims. Do you think it would be possible to recommend the removal of Jones anywhere to a

Dear Mr. Scott,-

It was a great disappointment to me to see the class in which the Civil Service Commission has placed me. In calling me a Clerk-Stenographer and placing me on a par with Miss Ballagh, who has only been with the Department for two years, and whose work is entirely different to mine, I consider an injustice has been done. On two different occasions full particulars have been sent to the Department as to my duties, length of service, etc. and it was not stated in either of these reports that I was a Stenographer. As this information was sent in connection with the re-classification by the Board I cannot understand why they have placed me in the class they have. My work was fully outlined and anyone who read them or

who is at all familiar with the work of our office, would,I believe, admit that my duties carry with them more responsibility than do those of a clerk-stenographer. Keeping the cash books,which is only a small part of my work, is,nevertheless , an important item when the amount of business transacted is considered. There is a certain proportion of the correspondence that is handed over to me to be dealt with. It would be superfluous to recount here my numerous duties, but I feel that my case did not receive proper consideration. The Class of Senior-Clerk Book-keeper would better fit my case. The work of the Stenographers ceases when they leave the office,which is usually promptly at the appointed time,whereas I can seldom leave on time and scarcely an evening passes without my having to transact some business by telephone or telegram.

I trust my case may be given re-consideration. I would point out that I have been over sixteen years in the Department , and have worked hard.

Dear Mr. Graham:

I have received Miss Tye's protest against her classification as Clerk-Stenographer, and her request for classification as Senior Clerk-Book-keeper.

I should like to point out the fact that Miss Tye's employment in this Department for more than 16 years is given practically no consideration by the Commission in the making of the classification. The only facts taken into consideration are the actual work performed. In other words, the positions and not the incumbents are classified.

In this instance I think it would be advisable for Miss Tye to launch her protest through you, in order that you might supplement her memorandum with a strong letter of concurrence and recommendation. I am attaching a blank card upon which Miss Tye might enumerate those duties which were not fully brought out in the original card she presented.

I might add that the present Constitution of the Board of Hearing renders that Body competent to hear only such broad questions as class appeals and that individual appeals, which are usually against the application of classification, are referred only to the Civil Service Commission. The Commission at present is not in a position to deal with them, being fully occupied with the revision of schedules and consideration of the findings of the Board of Hearing. It is possible, therefore, that these individual appeals will not be dealt with

for quite some time, as the Commission may very well postpone them until a Board competent to hear them is appointed.

If you will be kind enough to send me the enclosed card, fully filled out, together with Miss Tye's detailed statement of her duties, supported by your own recommendation, I shall be glad to lay the matter before the Commission.

Dear Miss Tye:

I have received your letter of the 24th instant, in which you protest against your classification as Clerk-Stenographer and ask to be classified as Senior Clerk Book-keeper.

I am well aware that you have given many years of excellent service to the Department, but, in making the classification, the Commission took into consideration only the actual work performed. Seniority, therefore, was not taken into account. It was, in fact, a classification of work and of positions and not of the incumbents. The only body at present engaged in hearing appeals is the Board of Hearing but this Board is competent to hear only appeals against the classification itself. Individual protests, which are appeals against the application of classification, cannot come before it but are dealt with when the time permits by the Civil Service Commission itself.

I have written to Mr. Graham, explaining the situation to him, enclosing a blank card upon which I would ask you to enumerate fully all the duties which you perform. This should be supplemented by a statement of your case, containing all the reasons for your protest and should be sent to Headquarters with Mr. Graham's written concurrence and recommendation. When this is received, I shall be in a position to forward it to the Commission and it will give me much pleasure to add all assistance in my power.

Dear Mr. Scott,- Personal

I see by the Press that there is a lot of dissatisfaction with the Board of Hearing and Civil Service Commission regarding the delay etc. in having various cases attended to. Speaking of delay, - I think I have every right to feel that my case has not received fair treatment. At the outset the Board of Classification placed me in a wrong class. This I pointed out to you On June 24th,1920. Further explanations followed and on Oct. 29th you wrote informing me that my appeal had gone before the Commission on Sept. 3rd. Since then I have been waiting patiently,-a great deal of patience was called for, I can assure you. If I had remained at File Hills I would have been drawing more salary than I am now getting.

I trust that some adjustment will be made in the very near future.

Dear Miss Tye,-

I have your personal letter of the 19th with regard to your appeal.

I may say that when the Board was first constituted and appeals first heard, it was decided to deal with all questions of class before taking up the individual and personal appeals. The Board expects to finish with these class appeals at an early date and preparation has been made for the hearing of personal appeals. The personal appeals from the Inside Service at Headquarters are being heard first in order to find out how the personal committees will work out. When these are well under way the personal appeals away from Headquarters will be given consideration.

I shall see that your case receives attention at the earliest possible moment as I am interested in obtaining a better classification.

Mr. Lamothe,-

Could we not have Miss Tye's appeal dealt with in similar manner to Miss Whitwell's. Seems to me the cases are somewhat parallel.

Miss Tye was incorrectly classified as Clerk-Stenographer. She is not a stenographer at all but acts as Secretary to Mr. Graham and performs bookkeeping work.

A more proper classification would be Senior Clerk-Bookkeeper $1380.00 to $1740.00 - Present salary $1200.00.

Would you kindly take this up with Mr. Scott with a view of having this appeal settled at an early date.

I send you both Miss Tye's and Miss Whitwell's files.

Dear Mr. Foran,-

Some days ago I spoke to Mr. Medland, who was dealing with the personal appeals in this Department, about the classification of Miss Alice W. Tye, in the Regina office. I should like to confirm my statement to Mr. Medland that I concurred in Miss Tye's appeal. I am convinced that her present classification is not correct, and would recommend that it be changed from Clerk Stenographer to Senior Clerk Bookkeeper.

Yours truly,

Dear Sir:

With reference to your letter of the 23rd ult., on File 427063-A1., regarding the case of Miss Alice W. Tye, in the Regina office, I have to advise you that the Organization Branch regret that on the evidence submitted, and taking into consideration the Organization of the Regina office, it is not at present convinced that this position has been improperly classified. The matter will, therefore, be held in abeyance until the visit of an investigator from the Commission to the Regina office, when the matter will be gone into on the spot.

Ottawa, January 9, 1922.

Dear Miss Tye,-

I enclose herewith cheque for $101.25 being arrears of salary due you from the 1st April,1921 to the 31st December last, less overpayment of $33.75 bonus for the same period.

As a Senior Clerk your salary is now being paid at the rate of $1440.00 for the fiscal year 1921-22 and you are, therefore, entitled to arrears amounting to $135.00 for the above-mentioned period. Under the regulations governing payment of bonus, however, an employee who is not the supporting head of a household, receiving a salary of $1260.00, is entitled to $30.36 a quarter, which you have received, while one receiving a salary of $1440.00 is only entitled to $19.11 a quarter. You have been overpaid $33.75 bonus for June,September and December Quarters,which amount has been deducted from the arrears of salary due you for that period,viz:- $135.00, leaving a balance of $101.25 enclosed herewith.

Ottawa, April 16, 1923.

Sir,-

I beg to inform you that Miss Tye has been made permanent from the 1st April,1921, by O. C. 26/542, dated March 27, 1923, but as she received an increase in salary for the fiscal year 1921-22 to which she was not entitled being a temporary employee, she cannot be paid any arrears of increase for the fiscal year 1922-23 but she will receive an increase of $60.00 per annum to date from the 1st instant.

After an employee is made permanent an increase in salary cannot be given until a year lapses. Miss Tye,therefore, was not entitled to an increase until 1st April,1922 and the increase she received in 1921-22 she was not entitled to until 1922-23.

BALCARRES, P.O., SASK. March 7th 1918

Dear Mr. Scott,-

When Mr. Graham returned from Ottawa and said that in the event of my being transferred to the Regina office, my salary would probably be $1000. a year, and asked if I would be satisfied with that, I replied that it would be quite satisfactory. The hundred dollars extra in cash, at first sight, seemed to be sufficient to make up for the lack of rations, but at second sight I find it would mean s decrease of $6.00 per month, as my rations are of the following value,-

meat 45 lbs @ 22¢	$9.90
flour	3.
tea, rice and soap	1.40
	$ 14.30

Of course if this matter has already been settled, it is not worth re-arranging, but in case it has not yet been dealt with, I wish to bring it before you for consideration.

I am writing in Mr. Graham's absence and without his cognizance. He will be away for some time and when he does return will not have time for such details.

A salary of $90. per month in town would be just the same as I am not receiving.

Yours faithfully,

Do you consider that I render as valuable service to the Department as does J.Moore, our office boy,interpreter, etc. ? Because he receives $11.50 more each month for his services than I do. I have your note of the 26th. instant. Your appeal for reconsideration in classification went to the Commission on the 3rd. September. A Board has been appointed to consider all these appeals and when they get to work I am going to give your case my personal attention. I know there is vexatious delay in these things but I hope that the Commission will see the justice of your claims as I do and will give you a substantially better position.

I hope you have been well since I left Regina. We enjoyed our visit ever so much. Since I got back I have been very busy but was able to enjoy some fine weather with which we were rewarded for our disappointment in Saskatchewan.

Dear Mr. Scott,-

I feel that it is only fair and just to Miss Tye that I should again bring her case to your notice.

It is a year and a half since she first protested against the classification of Clerk-Stenographer under which the Civil Service Commission placed her, notwithstanding the information sent in regarding her duties, which clearly pointed out that her work was not that of a stenographer at all.

It is nearly five months since Major Bird was here and heard her appeal and nothing has been heard since regarding it. It is not a favor I am asking; it is merely justice. The circumstances here have caused me to hesitate to press her case but I really think that something should be done soon. With all her experience and training she is classed as a stenographer and has been receiving little more than a young girl just out of a business college. She has been told that seniority did not count when the classification was made, but that it was based on the actual work being done. It has been pointed out that she has not been doing the work of a Stenographer but of a Senior Clerk Book-keeper, and for this position her long experience has fitted her. If she had remained at Pile Hills she would now be drawing more than she receives here. Even if the right thing is done now and her classification changed, she will have suffered a great loss, unless it is made retroactive.

I trust you will be able to have this looked into and satisfactorily adjusted.

Yours sincerely,

W. M. Graham

Dear Mr. Scott,-

Under separate cover I am sending you at Mr. Graham's request two sets of the photos taken at the Qu'Appelle Industrial School, during the visit of the Governor-General on June 26th. I think Mr. Graham's idea was that you might wish to give one set to His Excellency on his return from the West.

I should have forwarded these several days ago but every moment in the office was taken up by more urgent work and it is only now, during Mr. Graham's absence in Manitoba, that I am able to get up-to-date with the office affairs.

I was sorry not to have seen you while you were in the West, but perhaps you will be stopping off when you make your next trip. I am hoping to go to Galt for a couple of weeks, leaving here the 9th or 10th of this month. I have not seen Ontario in the summer time since I came West in 1903 and am looking forward to the trip with keen pleasure.

Dear Mr. Scott,-

Sometime in February last I was asked for certain information which was required in connection with my permanent appointment being made. I promptly sent the information.

An increase in my salary was due on April 1st but was not received and on Aug. 12th Mr. Graham wrote to learn why Mr. Cookson and I were not receiving our increases. You replied Aug. 19th, No. 427,063- X explaining that the reason was that we had not been made permanent employees under the blanketing-in regulations, as all had not responded to the first circular, and those who had complied must suffer for those who had not. I note in a letter to-day regarding Mr. Hardinge of Touchwood Agency, that his position was made permanent as from April 1st, 1922, under the blanketing-in regulations, but that later it was learned that he had not been continuously in the employ of the Government since Nov. 1919 and therefore the Order-in-Council would have to be rescinded. I have been in the employ of the Government continuously since 1903 and it seems unfair that I am not receiving my increase, while others who have served only two or three years are receiving theirs.

Could not we, who have complied with the information, be blanketed-in in the similiar manner to that used in Mr. Hardinge's case and not be compelled to wait till all the delinquents have replied to the circular ?

It will, therefore, not be necessary to have a special Order in Council in your case, and I trust that the matter may be arranged by the Commission at a very early date. Of course, you will understand that the blanketing-in will be retroactive to April 1, 1922, so that arrears will be paid when we have authority.

With reference to your memorandum of the 5th instant, regarding Miss Alice Tye, I have to say that she was first appointed to this Department as Assistant Clerk in the Qu'Appelle Indian agency on December 1, 1903, and has since been continuously in our employ. At the present time she is in the Regina office. When the reclassification of the Department was undertaken she was placed in the class: Clerk - Stenographer, but she appealed against her classification, and a revision was made by the Civil Service Commission to Senior Clerk, the minimum salary of which is $1320.00 per annum and the maximum salary $1680.00, the change to be effective from April 1, 1919. Miss Tye is at present in receipt of a salary of $1440.00 per annum. She is a temporary employee whose work is considered of a permanent nature and her name was included in the list of those to be made permanent under the blanketing-in regulations. A memorandum is now before Council, providing for the blanketing-in of these employees, which has been approved by the Civil Service Commission; it will be retroactive to April 1, 1922. As soon as the Order passes, these employees, (including Miss Tye,) will be made permanent, and we will be in a position to pay them arrears of statutory increase. These facts are known to Miss Tye.

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

June 13, 1923.

Dear Miss Tye,-

I have your note of June 5th. I was indeed surprised to receive such a letter.

The imputation that somebody is responsible for worrying somebody to death necessitated my showing the letter to the Minister. Official conditions in so far as we are able to judge are not such as to actuate the expression of such malicious views. I can assure you there is no strife between headquarters and the Commissioner's office, and the condition of war is not apparent. While due consideration and respect should be and are accorded to the views and recommendations of all responsible officials, the administrative head of the Department, whoever he may be, must reserve the right to make changes in the methods of transacting business and even to criticise if deemed necessary. I have been ever praiseful of Mr. Graham's work, and whatever success he has had has been in a great measure due to the support he has received through many years from those who could give it. The files of the Department and the Annual Reports bear witness to the praise accorded Mr. Graham. He has been lauded in Parliament, and the press not infrequently has drawn the attention of the public to the work the Department is doing under his direction, and he has been rewarded with the highest salary paid to any officer in the outside service of this Department.

When I showed your letter to the Minister, I read him a letter which I wrote to Mr. Graham in 1909. I would draw your attention to the following sentence :-

"After a long experience in Departmental affairs I can say unreservedly that I know of no officer in the service who has received such warm support from his

superior officers as you have, but I think that although you may feel from time to time irritated that things were not going as you thought just right, you should reflect that at bottom everything is right; that there is no person plotting against you, and that it is the wish of the Department to give you every scope consistent with Departmental procedure. "

That statement, written fourteen years ago and based upon accurate observation, might apparently be very appropriately reiterated today. If any change is necessary as intimated in your communication it must take place in Mr. Graham's methods and pessimistic views, and I have no objection to your making him acquainted with my ideas in the matter. If he requires long leave owing to ill health or from any other cause, I shall be very glad to arrange for three or four months' leave for him immediately.

Yours very truly,

Commissioner's Office,

Personal. Regina, Sask., June 13th. 1923.

Dear Mr. Stewart,

I know you are a very busy man and for this reason I have hesitated a long time before writing to you, as I had hoped that time would perhaps improve a very unsatisfactory condition of affairs that exists between the Deputy Superintendent General and myself.

This condition has existed for a number of years but was somewhat eased off during the war period. Before that things had got to a point where I could scarcely function as an Inspector and letters I received were not the kind that one officer should receive from another. When these letters were brought to the attention of the then Minister, Mr. Scott's explanation was that many of them left the office without his knowledge. Instructions were given that he should personally see all letters of a controversial nature before they were sent to me, and after that matters were improved for a time.

From the very day that the present Government came into power, Mr. Scott has again assumed his former attitude and began to make things unpleasant for me. His first step was to have the Order in Council of Feb. 1918, under which I was appointed Commissioner of Greater Production activities, repealed. I was told of this in a three line letter from the Secretary and when I asked how this important work was to be carried on, I did not even receive a reply. The Order in Council gave me the following powers -

" To make proper arrangements with the Indians for the leasing of reserve lands, which may be needed for grazing, for cultivation or for other purposes, and for the compensation to be paid therefor:

To formulate a policy for each reserve;

To issue directions and instructions to all Inspectors, Agents and employees in furtherance of that policy;

To make purchases and engage or dismiss any extra or temporary employees, and to market the yield of grain and live-stock, and in effect to have the sole management of this work subject to the approval of the Superintendent General of of Indian Affairs, to whom he shall report fully at close and regular intervals.

Superintendent General of Indian Affairs,

The Minister further recommends that the said Commissioner be authorized also to make recommendations to the Superintendent General of Indian Affairs, looking to the greater efficiency of such of the Indian service in the said provinces as is not related to the said special work. "

On Jan. 30th. 1922, ten days after the date of the letter notifying me that the O.C. had been cancelled Mr. Scott made a memorandum to you regarding this cancellation, which he said had been decided upon after a conversation with Senator Bostock, the Acting Superintendent General. He pointed out that in February 1920, the Civil Service Commission had created a new class, namely that of Indian Commissioner, at the request of the Department, in which class it was intended to appoint Mr. W. M. Graham. The following is a definition of that class :-

" Under the direction of the Deputy Superintendent General of Indian Affairs, to supervise the agricultural and stock-raising operations of the Indians in Manitoba, Alberta and Saskatchewan; to lease grazing and agricultural lands upon Indian reserves; under special instructions to direct the cultivation of unused land on Indian reserves; to make investigations for the Department; to direct the work of Inspectors, Indian Agents and other employees and to perform other related work as required."

I would ask you to please note the difference between the powers conferred by this O.C. and those of the former one, which Mr. Scott had repealed at the earliest opportunity.

In commenting on the Greater Production Scheme, Mr. Scott made the following statements,-

" Since 1918 the Greater Production scheme has added largely to our duties and responsibilities and I have no doubt has drawn attention away from the first duty of the Department. Mr. Graham has done his best with the scheme and has succeeded in producing a quantity of grain and in leasing grazing and farming privileges for the benefit of the Indians, but the independent farming operations are so remote from the genuine purposes of the Department that the whole matter requires careful consideration.

In 1920 the Rt. Hon. Mr. Meighen agreed with me that we should cease farming operations. Just now as my more extended report will show, we are in a somewhat critical position. We have not refunded a dollar of our loan of $362,000.00. We have $307,000.00 in the bank and Mr. Graham contemplates farming 10,000 acres during the coming season. He has already spent on these operations nearly $900,000.00 since the spring of 1918 and we have produced grain to the value of $879,378.00 and increased the revenue of the Indians by farming and grazing leases by $360,147.51."

In regard to the attitude attributed to Mr. Meighen, I wish to say that two years ago Mr. Scott made a similar statement and Mr. Meighen assured me he was absolutely wrong in making it. Mr. Meighen realized the absurdity of thinking of closing out the G.P.operations after only crops had been harvested. When it was undertaken the understanding was that it would be for five or six years, as it was anticipated that it wou d take that long to bring it to a successful conclusion.

The whole tendency of Mr. Scott's remarks is to give the impression that the Greater Production scheme has not been very successful and that the ordinary work among the Indians has been neglected because of it.

I can give you facts and figures to prove that both these suggestions are entirely wrong. The Greater Production scheme has been a decided success; we have paid back the original loan and have a cash balance of $125,000.00. Our financial statement shows a credit balance of $230,000.00. We have brought into circulation for the benefit of the Indians and others one million dollars, over and above the amount advanced. We have given work to a great many Indians to their great advantage. More than seventy Indian farmers have been established on land which was brought into cultivation by us. We have leased land that was bringing in no revenue, and by so doing have helped both the lessees and the Indians. I think any business man would admit that these operations have been very successful from every viewpoint.

Turning to the work among the Indians themselves we find that a comparison between the last five years and the previous five shows the following increases for the period 1918-1922 -

Acres sown, increase of 79,033 acres or 42%
Acres broken " " 4,775 " " 17%

Does this look as though the Indian work had been neglected?

On the Blood Reserve in 1917 the Indians had under cultivation 5,984 acres; in 1923 they have 13,600 acres, of which only 3,200 acres was handed over by the Greater Production Farm in 1922, and this has been cultivated by individual Indians since that time.

On the Blackfoot reserve in 1917 they had 5,468 acres and in 1923 they have 13,284 under cultivation. Only 2,550 acres of this was land taken over from the G.P.

On these two reserves alone the Indians have more than doubled their cultivated areas.

When I took charge in 1918, I found many incompetent employees on various agencies and these have been replaced by men better fitted for the positions and who are carrying on the work more successfully than it was formerly being done. Some of these men, among them Mr. Dilworth of the Blood Reserve, stood high in the opinion of Mr. Scott, simply because he had not

CANADA

first hand knowledge of the real conditions and had based his opinion on reports received, which did not always give the correct information.

The Indians on the Blood Reserve were in very bad shape when I took charge. They owed over $80,000.00; farming had gone down to practically nothing. What they have today is the result of a lot of hard work and a common sense policy carried out on the reserve. Tractors were formerly used and the land held in common by a number of farmers. Now each Indian works separately and gets the full returns from his farm. I consider this is an important step in the right direct. I started up 41 Indians farming on this reserve without calling upon the Department to pay one cent.

The cattle industry on the Blood Reserve was handled in a shameful way. Not an Indian on the reserve could tell whether he owned one or twenty head of cattle. The animals were all in one large herd, which was mixed up with the stock of Gordon, Ironside and Fares, who held a blanket lease over the reserve. Five thousand head were reported on hand, but when the first count was made little more than half this number were accounted for. White men were employed to help at the round-ups and Indians were paid for putting up hay for their own cattle. The season of 1919-20 was, as you know, a very bad one for the cattle and the Indians lost heavily, though not quite so heavily as did the white settlers in the surrounding districts. Today these herds are practically where they were when I took charge, and every Indian takes care of his own stock and knows what he owns.

It is not only on the Blood and Blackfoot reserves that there has been improvement during the last five years. On nearly all the reserves in Alberta and Saskatchewan progress has been made. Inspections have been made oftener and the Department is in possession of much more detailed information than they had under the former system. An Inspector can be sent to any point at a day's notice if any special matter arises calling for attention or investigation. The Inspectors are in closer touch with conditions in Alberta and Northern Saskatchewan than the men who preceded them were, although these men lived in the districts over which they had charge. They are also better able to see that my policy, which has proved to be successful, is carried out on the reserves.

In Manitoba the reserves have been neglected for the last twenty years as a result of incompetent Inspectors and Agents. Last winter I sent one of the Inspectors from here to make a survey of various reserves and as a result of his report I made recommendations regarding the appointment of Farming Instructors at several points, and pointed out the urgency of the matter receiving attention promptly before the spring work would commence. After considerable delay and correspondence one man was appointed and Mr. Scott said

the others would have to wait till Parliament voted funds. As these men, with one exception, were asked for in the estimates, and it was important to have funds for this work this season, it would have been better, in my opinion, to have let some other item drop rather than these. This was one matter I had hoped to discuss with you personally before the estimates were passed, but I was not given the opportunity.

Other recommendations I have made on matters of importance have been either ignored or treated lightly, to the great detriment of the work. I claim that the practical knowledge and experience I have gained during 37 years in close touch with western conditions should add sufficient weight to my recommendations to obtain for them prompt and careful co sideration and not the opposition and delay they so often encounter. Scarcely a day passes without a letter indicating the antagonistic attitude of Mr. Scott towards me. Mr. Scott was always opposed to such wide powers being given to me, but as the problem here is almost entirely an agricultural one, I think you will agree that in order to put into effect an aggressive policy it is necessary that someone with practical experience should have such powers and authority.

I cannot expect you to take time to read a lot of details in connection with this trouble, but I can assure you, Sir, that an investigation into the matter would show that I am not to blame for the friction which exists and which hampers the work and makes it impossible to carry on business successfully.

It was only last week that I had a delegation of ranchers from Alberta in my office, on their way home from Ottawa, where they had gone to interview you re leases on the Blood reserve. Had Mr. Scott been able to post you as to conditions on that reserve, I am quite satisfied you would have acted in the first place the same way as you did after the ranchers went to see you. Mr. Scott knew where I stood in the matter and that I would strongly have advised against cancelling th leases.

In my office I have only two stenographers, although I am convinced there is work for three. Before leaving for the west on May 22nd. Miss Hunter asked if she could take her holidays early in June. Knowing that it was quite impossible to carry on with only one stenographer, I wrote at once for authority to engage temporary assistance while either of my stenographers was absent on leave. I expected the necessary authority would be granted by the time I returned, as this was about the time my stenographer wished to leave. Instead of getting a reply giving me the necessary authority, I was asked to give details of what each member of my staff does in this office. No authority was given to employ temporary assistance. This goes to show how even my trifling requests are questioned, regardless of the effect on the work.

I had charge of the altering of the Round Lake school last fall, a matter involving several thousand dollars expenditure. The existing furnace in one of the outside class-rooms was put in repair and it was thought it would adequately heat the building. During the winter it was found that it did not do the work expected of it and this was reported to me. I had occasion to send an expert on heating to this school the other day in connection with another matter, and while there he looked into the heating system and reported that the furnace was too small. He guaranteed that he would supply a larger furnace that would heat the building satisfactorily for $357.00. We would then have the smaller furnace for some other building. To my surprise, I received this morning a letter from the Indian Agent, a new man, stating that he had received authority from the Department to instal a second furnace in this class-room at a cost of $700.00. In this case the work was taken out of my hands and the Department called upon to pay about twice as much as is necessary besides the extra work that it will mean to keep two fires going. This is only a simple instance to illustrate how matters are taken out of my hands without first notifying me. Such methods are not businesslike or in the best interests of the work.

On the Blackfoot Reserve last Fall with Mr. Scott, we went into the matter of replacing the plaster throughout the Crowfoot school and it was decided to use instead kiln dried V.joint. I was instructed to get prices and proceed with the work. Shortly after Mr. Scott returned to Ottawa he wrote to inform me that he had ordered 25,000 feet of linobestos to be used instead of V.joint on the walls. When I heard this I felt that a serious mistake had been made, but hesitated to say anything, knowing that suggestions from me were not welcome. The result of this change of plans cost the Government hundres of dollars, for after putting up several thousand feet of the linobestos, the Clerk in Charge said it was absolutely unfit for this work. When this was reported to Ottawa instructions were sent to take down what had been put up and use plaster instead.

I received a plan from Ottawa for an office building at Crooked Lake Agency. The plans were followed out and this building is now sitting on concrete piers 20 inches above the ground, which means that snow and wind can pass under it, and it would not have been habitable last winter had it not been for many loads of earth I had hauled there to bank it up, as a temporary measure. Eventually we shall have to have a cement foundation under it.

The File Hills Hospital was closed all last winter as it was impossible to get a trained nurse to go there for $75.00 per month. You have heard of the cases of Nurse Newton and Nurse Weiss, both of whom were promised $100.00, but who received only $75.00 a month; also the case of Mr. Newton, whom I engaged to assist the Nurse and to do the work formerly done by an Indian girl. As his duties comprised looking after the horse, cow and furnace in addition to other things, it was just as suitable to have a man there as a girl.

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

In spite of all my recommendations and representations Mr. Scott would not give authority to pay this man anything and he worked there all winter for nothing. Absurd suggestions were made as to having the work done by the labourer at the farm or at the Agency.- suggestions which showed absolute ignorance as to the existing conditions. After the Hospital had remained closed for a time, Mr. Scott realized that it was necessary to have authority to pay a nurse $100.00 a month and to allow an assistant, and this has since been granted. I contend that this should have been done a year or more before it was and the Department would then have been spared a great deal of adverse criticism that it has received in consequence of the unfair treatment of Mrs. Newton and her husband.

On May 3rd. Agent Gooderham reported that native horses on the reserve were increasing at a dangerous rate etc. etc. In forwarding his report I recommended that some of these ponies be bought for the older non-farming Indians on reserves in Manitoba, Northern Saskatchewan and Northern Alberta. Mr. Scott replied saying that my proposal seemed to be without relevancy, that he would be interested to know what I had in mind, but that further correspondence on this subject would be taken up with the Agent direct. I wrote again and explained fully that these ponies which were useless on the Blackfoot Reserve, where the farming Indians required good work horses, would be a great help to the older Indians who depended on hay, wood, pickets, etc. for a livelihood. I also pointed out that the ponies were consuming much valuable pasture on the Blackfoot Reserve, which should be kept for the cattle. Today I am in receipt of a reply from Mr. Scott as follows :-

" I have your letter of the 2nd. instant, but it does not give me information which would enable me to alter my opinion as to your recommendation. There has been as yet no suggestion which would tend to the satisfactory disposal of this question. "

Now, Sir, I would ask you how the work can be successfully carried on when my suggestions, recommendations and requests are treated in the manner indicated by the above examples, and I would say that these are only a few examples of the cases of like nature that have occurred during the past year. Mr. Scott has the advantage of me in that he is able to lay his side of the case before you and to represent things in the light most creditable to himself, but I feel sure that if I could have the opportunity of talking with you and Mr. Scott together for an hour or so, I could present my case in such a way that you would realize the unfairness of the treatment I have been receiving and the impossibility of expecting to get results unless more businesslike methods and common sense are brought to bear on the work, instead of the policy of obstruction at present employed.

While this friction is very unpleasant for me personally, it is not that aspect **that** I wish to emphasize but rather the retarding influence it has on the work, which is bound to be seriously hampered and affected by such methods. All this trouble is the result of personal antipathy towards me and the only reason I can assign for this feeling is that in the carrying out of my work, in which I have been so deeply interested all my life, I have realized that if good results were to follow it was necessary for me to have certain powers and authority and Mr. Scott has been very reluctant to give me as much latitude as I think is needed. It seems to me at times that he is not so much interested in the success of the work as in the curtailing of my authority. If I had made a failure of my work among the Indians, then one could understand Mr. Scott being reluctant to act on my recommendations, etc. but I think my record will bear inspection and the results achieved would warrant more encouragement and co-operation than I have been receiving from the Deputy Superintendent General.

Yours faithfully,

W. M. Graham.

MEMORANDUM

Hon. Charles Stewart -

I have read the letter which Mr. W. M. Graham, Indian Commissioner, has written you, dated the 14th. June, which you were kind enough to let me see. Needless to say, Mr. Graham's statements with reference to my attitude towards him in the administration of the Department so far as his office is concerned are incorrect and without foundation. There is a fundamental difference between Mr. Graham and myself as regards the administration of the Department. He apparently feels that he should have autocratic control. I do not wish to make any over-statements, but if time served, I think I could give evidence that this is his real opinion . I have been willing to give him as large a measure of control as was consistent with the administration of affairs in a Department of the Government constituted by statute, for the administration of which I am responsible, but I cannot go farther than that, and within these limits I have given him very cordial support for many years.

With reference to the Greater Production scheme, it must be remembered that it was only a temporary measure to increase production during the War, and I was sympathetic with it so far as that went, and Mr. Graham has had ample credit in the annual reports of this Department for what he has done. The success of the grain-growing features of the scheme do not seem to me very remarkable apart from the energy with which Mr. Graham prosecuted them. The renting of Indian reserve lands for farming was a bad policy, and has been dropped. The part of the scheme which is entirely satisfactory and which has been a real benefit to the Indian funds is the leasing of Indian land for grazing privileges, and we are continuing this policy. Mr. Graham states that the Rt. Hon. Mr. Meighen assured him that I was absolutely wrong in making the following statement :- " In 1920 the Rt. Hon. Mr. Meighen agreed with me that we should cease farming operations."
Under date of May 6, 1920, I reported to Mr. Meighen on the staff under Commissioner Graham and the work conducted by him. Mr. Graham was endeavouring to add to his staff at Regina, and to centralize the work there, and I desired to bring the matter fairly before the

then Minister. In this memorandum I reported as follows :-

"The volume of work in this office is increased " by certain factors which should be considered " temporary. Special work in the obtaining of land " for Soldier Settlement is practically over. The " operation of our greater production farms still exists, " but I do not think we should adopt these farms as " part of our work. I think we should close or lease " them as soon as possible, and thus get rid of a " speculative business of grain production. I think " we should continue to lease grazing lands on the " reservesunder the provisions of subsection 3 of section " 90 of the Indian Act, but I think it questionable " whether we should continue to lease lands for farming. " . . . . . Our proper business is to civilize " the Indians and get them to produce with their own " labour on their own farms, and what with the detail " of this branch of our work and the many sub-divisions, " which it is not necessary to enumerate here, the " time and ability of the Commissioner will be fully " occupied; but to restrict ourselves to the true " activities of the Department would not necessitate " such a large staff as Mr. Graham has requisitioned " for. "

Mr. Meighen wrote to Mr. Graham under date of May 13, 1920 as follows :-

" Before going further into the whole question " of permanent staff at Regina, I think we ought to " come to a conclusion as to the future of the Greater " Production branch. This enterprise has undoubtedly " been well conducted, has been a credit to the " Department and was thoroughly justified under the " circumstances. It is another question though how " long we should continue it -- the direct farming " features, particularly. "

I think it is perfectly clear from these extracts what Mr. Meighen's opinion was. As a matter of fact the Greater Production farms were never considered as anything but temporary.

The cancellation of the Order in Council under which Mr. Graham was appointed to the position of Commissioner for Greater Production, which was a temporary position, has not affected the work in any way or in any degree. The Greater Production farms have gradually been closed and we are now only operating one farm north of Regina and there has been no change in the methods of operating.

As regards the position of Indian Commissioner, which was created for Mr. Graham, and the description of the duties which he quotes in part, I have to say that this description was initialled by Mr. Meighen, who evidently found it satisfactory.

I cannot believe that the operation of these Greater Production farms has not affected the general administration of Indian Affairs. Mr. Graham gives

evidences of it himself when he says that in Manitoba the reserves have been neglected for the last twenty years as the result of incompetent inspectors and agents. Mr. Graham is always prone to refer to a past with which he was not connected as an era of failure and incompetency, but so far as his own responsibility goes, he neglected Manitoba for five years and paid but little attention to it. The Birtle Agency was only inspected a few months ago for the first time under his regime. Being now relieved of the onerous duty of the Greater Production farms, he finds it possible to pay some attention to the province of Manitoba. It is quite true that Mr. Graham asked for the establishment of Farming Instructors on three of the Manitoba reserves. I allowed two, but as the establishment of Farming Instructors involved the erecting of houses and barns, I decided to re-establish only the Farmer at Swan Lake Reserve this year and to wait until the appointment of a new Agricultural Inspector which will give us a greater measure of control in this province.

I can only remark with reference to the matter of grazing leases on the Blood reserve that judging from Mr. Graham's correspondence and the correspondence of the agent, I seem to have as good an idea of the conditions as they have.

I am not at all impressed by the cases which Mr. Graham cites in his letter as being representative of the unfairness of the treatment that he is receiving. I have asked my officers to make a precis of all Mr. Graham's recommendations on all subjects since the 1st. January with the action taken by the Department. I attach that hereto. You will see that almost invariably his recommendations were approved. I could have still further antedated this statement, but we are extremely busy just now with current work.

I would pay no attention to his endeavour to establish a case against me personally, if I was not aware that his relations with everyone of his superiors in the past have been the same. Mr. Graham has had a long service and he has endeavoured to work with many people, but the result is always the same. Unfortunately, it has been my duty for a long time to keep him smoothed out, and my papers contain evidences of friction and trouble which I have endeavoured to allay. I find myself writing him, as long ago as June 13, 1909, as follows :-

" I feel so cordially toward you personally as well as officially that I do not think you need fear that any action of mine would be suggested by prejudice, although it might happen that I might have to criticize sometimes adversely. After a long experience in Departmental affairs I can say unreservedly that I know of no officer in the service who has received such warm support from his superior officers as you have, but I think that although you may feel from time to time irritated that things were

were not going as you thought just right, you should reflect that at bottom everything is right; that there is no person plotting against you, and that it is the wish of the Department to give you every scope consistent with Departmental procedure. This red tape of which we sometimes hear too much is absolutely necessary to conduct a large Department, and it is often applied in the best interests of the officer who is railing against.it."

If my strenuous experiences with this gentleman have resulted in a somewhat cooling of my personal feeling towards him, he himself is to blame.

As you requested, I am making a separate memorandum and recommendations with reference to the work in the west. I think if they are carried out, it will be entirely in the interests of economy and efficiency.

I attach hereto a separate memorandum on each o the cases cited by Mr. Graham as evidences of unfairness and lack of business methods.

Deputy Superintendent General.

COMMISSIONER GRAHAM'S RECOMMENDATIONS	ACTION TAKEN.
Mr. Walls, Agent at Qu'Appelle, Sask., a Grade 5 Agency, resigned. Commissioner Graham recommended the transfer of Mr. Dodd, agent Saddle Lake, Alta., a Grade 4 Agency, to above Agency and the promotion of Mr. Pugh, Clerk at Edmonton to the position of Agent, Saddle Lake.	Owing to the regulations of the Civil Service Commission this matter was difficult to arrange but I finally prevailed on the Commission to carry out Commissioner Graham's recommendations.
Commissioner Graham recommended the dismissal of Mr. Carter, Agent, Fisher River.	Mr. Carter's services dispensed with.
Commissioner Graham recommended that Mr. R. D. Wilson, Agent Assiniboine be demoted to Clerkship and Moore, Clerk at Battleford promoted to the Assiniboine Agency.	Recommendation not approved. Principle involved of demotion not advisable. Wilson's dismissal justified by the record of his administration. Commissioner Graham's recommendation regarding promotion of Moore will be given consideration.
Commissioner Graham recommended superannuation of Mr. Yeomans, Agent Stony Agency.	Mr. Yeomans being retired as of July 1st. 1923, under the Calder Act.
Commissioner Grhham recommended that of all the applicants for the position of Indian Agent at Birtle, Man. made vacant by the superannuation of Mr. G. H. Wheatley, Mr. P. G. Lazenby be appointed.	We concurred in his recommendation and the Civil Service Commission appointed Mr. Lasenby.
When the position of Agent at the Pelly Agency was advertised by the Civil Service Commission, Commissioner Graham recommended that Mr. Charles McConnell, an applicant for Birtle be allowed to transfer his application to the competition for Pelly, and he recommended him strongly for appointment there.	We made ~~strong~~ recommendation to the Commission that this would be advisable and Mr. McConnell was given the appointment.

COMMISSIONER GRAHAM'S RECOMMENDATIONS	ACTION TAKEN.
Commissioner Graham recommended that a relieving Agent be attached to Regina office, who would be available to conduct any of the Agencies where incumbents resign or are relieved of their duties, pending appointments of successors.	Request not acceded to.
When Mr. Thomas Graham, Indian Agent at the Peigan Agency died suddenly Commissioner Graham recommended that C. A. Arthur then temporarily employed as Clerk-Bookkeeper at the Blood Reserve be transferred to the Peigan as Acting Agent, and strongly recommended him for appointment permanently. As this position had to be advertised by the Civil Service Commission this action taken. Several applications were redeived, among them being applications from C. A. Arthur and a man named W. G. Askey. Mr Arthur was not a returned soldier. Mr. Askey was and several of the other applicants were also returned soldiers. In reporting on the competition Commissioner Graham strongly recommended that Mr. Arthur be given the appointment.	We forwarded his recommendation to the Civil Service Commission for their consideration. They wished to appoint Mr. Askey, as he appeared well qualified and had oversees service. In the meantime the Hobbema Agency became vacant and in order to meet Commissioner Graham's desire re Mr. Arthur we requested the Civil Service Commission to establish an eligible list which they did, the names of Mr. Askey and Mr. Arthur being rated the highest. Mr.Arthur was appointed at Peigan.
Commissioner Graham recommended that Mr. C. W. Kirby, acting agent at Hobbema be dismissed, and that Mr. Askey , one of the applicants for the Peigan Agency, whose name had been placed on an eligible list in that competition, be appointed as his successor.	Mr.Askey was appointed at Hobbema
Some time ago Commissioner Graham recommended the dismissal of Thomas Cory, Indian Agent, Moose Mountain and recently stated, "We cannot look for improvement so long as the present arrangement lasts."	No action taken.

File Hills Hospital

The statement that the File Hills hospital was closed on account of the salary we were willing to pay the nurse is incorrect; it was closed because a suitable nurse could not be found to take charge. When Mrs. Newton resigned we authorized Commissioner Graham to engage a nurse on temporary employment, at $100.00 a month, but for some time he could not succeed in finding anyone. You have heard of the case of Mrs. Newton, I sent you a full memorandum regarding her employment on October 19, 1922.

Miss Weiss only remain in our service for a short time; while employed by us we had no difficulty with regard to her salary, and it was only after she resigned to get married and Commissioner Graham was requesting a salary of $100.00 for Mrs. Newton because this had been paid to Miss Weiss that he learned we had only paid her at the rate of $75.00 a month.

We refused to recognize the appointment of Mr. Newton, as it was made by the Indian Commissioner without authority, and we could not under the then classification pay the salary which was promised him by the Commissioner. He was given board and lodging, but no salary by us.

We decided to pay a salary of $100.00 a month to the graduate nurse in charge of the hospital, and $25.00 a month to the nurse (Indian Reserve,) her assistant, when this became possible, owing to the fact that these positions were exempted from the operation of the Civil Service Act.

Commissioner Graham, in October, 1920, wrote, regarding the salary that should be paid to the Nurse at the File Hills hospital, as follows : -

> She is supplied with everything- fuel, light and full rations, and her duties are not overly heavy.
>
> I do not think that she is entitled to any further amount than a straight $900.00 a year; and if it is optional with the Department as to whether they pay a bonus or not, this could very well be eliminated.

Crowfoot Indian Boarding School.

Repairs were urgently needed to the plastering of this school erected some years ago. Mr. Graham recommended V-joint sheeting. This recommendation was not acted upon as V-joint sheeting in schools would not prove satisfactory. Instead of that our architect used linobestos, a staple product manufactured by a reputable firm in eastern Canada and used extensively. Unfortunately the linobestos shipped to Cleichen was not properly cured and cracks developed.

It is true that some expenditure was involved in carrying out the repairs due to the faulty linobestos, but we are in communication with the firm which manufactures it and they are making a satisfactory settlement for the defective material.

Crooked Lakes Office Building.

Mr. Graham makes the statement that an office building, erected according to plans and specifications prepared by our Architect at headquarters, is not habitable because it was built on concrete piers 20 inches above the ground. The plans and specifications provide that the tops of the concrete piers shall only be 6 inches above the ground, and that the space between the sill and the ground is to be covered by a face-board. The plans and specifications are in every way workmanlike and thoroughly professional. The Agent reported that the building was complete and was satisfactory in every way, and upon this certificate the account was paid. The Agent is, therefore, responsible, and I intend to further investigate this matter. I placed the work in Mr. Graham's hands, and it was to be expected that he would have some oversight, but he left the matter with the Agent.

Crooked Lake,
Broadview, Sask,
June 11, 1923.

Sir:

In accordance with your instructions in your 304-11A of the 3rd May, I beg to state that I have made an inspection of the furnace and heating arrangements at the Round Lake schoolroom.

I find that the hot air pipes were not properly fitted and the cold air ducts were loose. These should either have been cemented or soldered, or at least held by retaining clips to prevent slipping down. Perhaps a great part of the damage could be attributed to the careless handling of the cordwood by the pupils.

I had previously reported to the Department at Ottawa the inadequate heating system of the schoolroom, and obtained authority to install another furnace at the other end of the building, the excavations to be floored with cement and a cement retaining wall erected around the whole of the excavation. At the time I reported on this I thought that the present chimney could carry the load of the two furnaces, but I have been advised by experts that this cannot be done. A new chimney must therefore be built at the opposite end, in such a position as to clear the belfry. The Department authorized an expenditure of $700.00 to cover the cost of excavation, cement work, new furnace and nineteen storm sash. I think that at this figure I can still erect the chimney without exceeding the appropriation.

The Department advised that the work on the excavation be carried out by day labor.

I should be glad if you will advise me if any other work is to be undertaken at the School this summer. If so, the same crew could handle this work.

Your obedient servant,

R. E. Osborne,
Indian Agent.

ALTERATIONS: ROUND LAKE SCHOOL:-

With regard to the alterations at the Round Lake Boarding School, Mr. Graham states that on his instructions an expert on heating guaranteed to supply a larger furnace that would heat the building satisfactorily, and that he was subsequently surprised to receive a letter from the Indian Agent of the reserve in question in which the Agent stated that he had authority from the Department " to install a second furnace in this classroom at a cost of $700.00." This statement of Mr. Graham's not only creates a false impression, but absolutely mistakes what the Agent said, and which I submit is rather a daring attempt on Mr. Graham's part to mislead you. Fortunately, we have a copy of the Agent's letter to Mr. Graham, in which, after setting forth the situation of the matter, he states to Mr. Graham that the Department authorizes " an expenditure of $700 to cover the cost of excavation, cement work, new furnace and nineteen storm sash," and including a "new chimney," all of which are considered necessary to make a complete and satisfactory heating system. The cost of all the abovementioned works and articles was estimated by the Agent at $700. The exact amount to be paid for this new furnace is not yet known, as we are awaiting a report from the Agent as to the type of furnace which is considered advisable to install, in order to obtain from the Purchasing Commission the names of firms who may be given an opportunity of quoting prices.

Attached hereto is a copy of the Agent's letter to Mr. Graham in this matter.

Mr. Graham's Motor Allowance.

This is paid for a car which is merely a personal possession of Mr. Graham, for his private use at Regina, out of the public funds, and we pay a man who is used by him constantly as his private chauffeur. There is ample evidence of that. The allowance cannot be continued. When he uses his car on Departmental business we are quite willing to pay him a per diem allowance for it. The statement he makes that a car is allowed for the Soldiers Civil Re-establishment officer and the Brig. General of the Military District at Regina "both of whom" as Mr. Graham writes, " have less reason to have such an allowance than I have" is incorrect. Of course he thinks the Brig. General and the Director of Soldiers Civil Re-establishment have less reason to have anything than he has. The phrase is illuminating. I have been informed by the Department of Soldiers Civil Re-establishment that a car is allowed for the official use of the Director of that district. It is used by himself and his Inspectors when inspecting the soldier settlers in that district. I am informed by the Department of National Defence that a car is allowed for the Military District of Regina for official use only. It is used for light trucking work and for the use of all officers while on duty. These cars are not private cars. They are owned by the Government and operated officially. We have the following official car equipment at Regina. One Ford truck and two old McLaughlin cars. All that we require there, as a matter of fact, is the Ford truck. It would be decided economy to hire transportation when it is required.

MEMORANDUM

TO THE SUPERINTENDENT GENERAL:

Having its beginning in 1918 with the inception of the Greater Production scheme, an anomalous situation continues to exist with reference to one phase of our Indian Lands administration in the three prairie provinces and I am of the opinion that action should be taken to alter the situation before some incident occurs which might result in undesirable publicity and criticism. I refer particularly to the present system of leasing lands within the provinces of Manitoba, Saskatchewan and Alberta.

When undertaking to lease any portion of an Indian reserve it has always been the practice of the Department to require execution of leases by the Deputy Superintendent General following all necessary preliminaries. Our agents or officials, no matter what their status, have never been given authority, by the Indian Act or otherwise, to execute leases as representing the Department and their duties have always been confined to negotiation and recommendation. This procedure is still followed in all the provinces with the exception of those above noted.

Under the War Measures Act, in 1918, the Greater Production scheme was inaugurated by an Order in Council dated the 16th day of February of that year and certain additional administrative authority was thereby granted to Commissioner Graham, then Inspector. With reference particularly to the duties and powers of the Commissioner incidental thereto, it gave him the following authority:

> "The conclusion has been reached that the appointment of a qualified Commissioner charged with the responsibility of developing such a scheme and carrying it out and clothed with the requisite authority to conduct its activities would be the first essential to success.
>
> "The Minister, therefore, recommends that Mr. W. M. Graham, Inspector of Indian Agencies, South Saskatchewan Inspectorate, be appointed Commissioner for the Department of Indian Affairs in Manitoba, Saskatchewan and Alberta with the following duties and powers:

Memorandum-
To the Superintendent General-2

> "To make proper arrangements with the Indians for the leasing of reserve lands which may be needed for grazing, for cultivation, or for other purposes and for the compensation to be paid therefor;
>
> "To formulate a policy for each reserve;
>
> "To issue directions and instructions to all inspectors, Agents and employees in furtherance of that policy;
>
> "To make purchases and engage or dismiss any extra or temporary employees, and market the yield of grain and livestock, and in effect to have the sole management of this work subject to the approval of the Superintendent General of Indian Affairs to whom he shall report fully at close and regular intervals."

Under and by virtue of the power and authority above given the Commissioner apparently assumed, owing no doubt, to the reference to leasing in the Order in Council, that he had the right to issue and execute leases of Indian Lands and that his signature thereto as Commissioner had the same force and effect as the signature of the Superintendent General or his Deputy. During the active conduct of the Greater Production campaign and the immediate post-war period we were not concerned particularly with this phase of the situation for, in any case, the War Measures Act and the Order in Council of February 16th, 1918, might reasonably be construed as providing somewhat exceptional powers, and every effort was being made to make the Greater Production scheme a success. However,as you are aware, an Order in Council was passed on the 16th day of January, 1922, as follows:

> "The Committee of the Privy Council, on the recommendation of the Acting Superintendent General of Indian Affairs, advise, with reference to the Order in Council of 16th February, 1918, (P. C. 393) relative to the scheme for greater production on Indian Reserves, principally during the war, and appointing Mr. W. M. Graham as Commissioner to carry on the work,-that the said Order in Council be rescinded as from the date hereof."

The War Measures Act repealed and the Greater Production Order in Council revoked, the necessity therefore presents itself of returning to our original practice in the matter of leases. No provision is made in the Indian Act for the extension of any authority to execute leases to officials of the Department and consequently leases executed by Commissioner Graham are not

legal. It is undesirable that there should be any doubt about the security and legality of leases of Indian Lands especially where large areas are involved, and I am of the opinion that we should, without delay, again require the submission to headquarters of all leases for final consideration, approval and execution.

Sir,

Referring to your letter of March 17 with enclosed copy of P.C. 25/560, I am writing to ask if it will be possible to have my retiring leave for the next five months paid now, as I am planning to leave Canada early in June to attend the World Conference of Girl Guides in Poland. I have been appointed as one of the two Canadian delegates to the Conference, but we pay our own expenses, so it would be a help if my retiring leave could be paid before I go.

I received the salary cheque for April and was disappointed to see the deduction of ten percent, as I understood from your letter that I would receive the same salary for the next six months after March 31, as I had been receiving.

Kindly let me hear by return mail as I am planning to leave Regina May 14.

When the time comes for the Pension cheques to come to me will it be possible to arrange to have them sent to my account at a Bank, or must they be sent to me wherever I may happen to be?

Indians Erect Monument To Pioneer Couple

REGINA, Nov. 20.—(CP)—A monument to William M. Graham, former Indian Commissioner for Western Canada, and to Mrs. Graham, both of whom devoted nearly 47 years of their lives working for the cause of the Indians on the plains, has been erected by Indians of the four reserves in the File Hills Agency. Official unveiling of the monument will take place July 1, 1944.

The monument has been built within a few feet of the site of the old Graham house at File Hills.

Mr. Graham organized the Indian Affairs Department in 1885 and was appointed Indian Commissioner for Western Canada. He held that position until he retired in 1932. Mrs. Graham died suddenly in Regina in December, 1939, while Mr. Graham died in March 1940.

Dear Mr. Graham:-

In connection with your letter of the 14th instant relative to the employment of Miss Linda Ballagh in Miss Pentland's place as stenographer in your office, it is unavoidable that I should recall my request for full information in each case of this kind in order to comply with the requirements of the Civil Service Commission. As we have necessarily to be governed by their requirements in this matter, I have to request that, in submitting the name of any appointee, you will give full information with regard to the position to which the person named is to be appointed, the salary to be paid, date of employment and the duration or probable duration of employment, the full name of the appointee and his address, and accompany your letter with any written applications, recommendations or other assurance as to the possession by the appointee of the requisite knowledge and ability for the performance of the duties of the position and also as to his being duly qualified therefore with regard to age, health, character and habits.

Will you have the kindness to report more fully with regard to Miss Ballagh.

Yours very truly,

Dear Mr. Scott,-

Referring to your letter above quoted, I beg to offer the following information regarding Miss Ballagh.

Age,-23; Nationality,-Canadian; Religion,-Presbyterian Had two years' experience in stenography and left a position in the Provincial Government to come here. Her address is Suite 10, Victoria Court, Victoria Ave. Regina. She made personal application and had no written recommendations, but from what I have seen of her work since June 13th when she began work here, I have no hesitation in saying that she will be able to fill the position satisfactorily. I have promised her $75.00 per month and the amount due her for the time she worked in June is $45.00. I cannot state as to the probable duration of her employment here, but I hope that after two months' trial she will be taken on permanently.

Dear Mr. Scott,-

I have your letter of Augustlst No. 427063-X in which you inform me that the Civil Service Commission has granted certificate for the temporary employmen t of Miss Ballagh as Stenographer for six months from June 13th,1918, and that she can quality for permanent appointment only by passing the prescribed examination in due course. I do not know if Miss Ballagh will consider it worth her while to try this examination, when the need of stenographers is so great that she could, if she so desired, easily get a position elsewhere in this city for from $85. to $95. per month. She is a thoroughly qualified Stenographer, and it seems absurd to hold this examination over her head. When Miss Pentland left this office to take a position elsewhere at $100.00 per month, I was without the necessary assistance for some time, and unable to get it. You will remember I asked if you

you if you could help me in any way, and you could suggest no one. If Miss Ballagh leaves at the end of four months, just after getting thoroughly accustomed to the work, it will probably be more difficult to get office assistance then than it was this summer. Even now the work is so heavy that I should have more help. I trust that some way will open by which we can retain her services permanently, should she decide not to bother with the examination.

Dear Dr.Roche,-

With reference to our recent conversation relative to the employment, by Commissioner Graham at Regina, of Miss Linda Ballagh and Miss Beatrice Childs as stenographers and Mr.Alfred Garvin as bookkeeper, for whom temporary certificates have been issued and for whose permanent appointment you stated an examination would be necessary, may I ask when and where the examination will be held and also whether a special examination will be set for Mr.Garvin as bookkeeper. Dear Mr. Scott,-

Your letter of the 7th inst., (Your File 427063-X) addressed to the Chairman of the Commission with reference to certain employees in your Regina office, has been handed to me for attention. It is noted that you have been furnished with a certificate for Miss Childs, which will run till the 30th of June next, and one for Mr. Garvin for the same period; but the certificate for Miss Ballagh has expired and it is presumed that you desire a renewal, though I do not find a definite request for same on our files.

In answer to your question as to what is necessary to qualify these officers for permanent appointment, I have to point out that they must pass the prescribed examinations. These are known as Grade C. of the Second Division in the case of Miss Ballagh and Miss Childs. If they are qualified to take the Grade B. Senior Examination they would be entitled to a minimum of $1050. Three years experience is the minimum permitting candidates to take this senior examination.

In regard to Mr. Garvin, it would be necessary for him to take a special examination in a competition, and if you intend that the position he holds shall be of a permanent character, that is, if he will continue after the end of June next when his certificate expires, I will be glad if you will send me specifications as to the qualifications necessary and steps can be taken to advertise the position. Either this or Mr. Garvin would, if he preferred, take the ordinary examination in 2-B.; but of course this would limit his salary schedule from a minimum of $1050. to a maximum of $1300. on appointment, and with possible promotion to Grade A. which would give

Dear Mr. Graham,-

In connection with the employment of Mr. Garvin and the Misses Childs and Ballagh in your office, I beg to say that I have just received a communication from the Civil Service Commission stating that if permanency is desired as regards these employees they will have to pass the prescribed examination set by the Commission. In the case of Miss Ballagh and Miss Childs, as stenographers, the examination would be for Grade C of the 2nd Division, which includes writing, copying manuscripts, spelling, letter writing, stenography (taking ordinary business letters at 75 and 90 words a minute and transcribing notes), and typewriting at 25 words a minute. Or they may enter for the Grade B examination for senior stenographers which includes writing, copying manuscripts, spelling, letter writing, stenography (taking business letters at 100 and 120 words a minute and transcribing notes), and typewriting at 50 words a minute. Candidates for examination for the latter grade would be required to have had 3 years' office experience in order to be admitted to the examination. As to Mr. Garvin, he would have to take a special examination in a competition, and the Commission has requested that I send them specifications as to the qualifications necessary, when steps will be taken to advertise the position.

Del R/Dist.

Will you therefore be kind enough to state whether you consider that it will be necessary to appoint any or all of these clerks permanently; if so, kindly give me the required information as to the work to be done by the bookkeeper.

In the meantime, as the time covered by Miss Ballagh's six months' certificate expired on the 13th December last, I am asking the Commission for a certificate for another six months from that time.

Dear Mr.Scott,

I enclose herewith a form sent by the Secretary to be filled in ny Miss Linda Ballagh, Stenographed in this office, which has been dily attended to.

Referring to your letters of 24th.March and 8th April, under Department file 427063-X, in regard to Miss Ballagh, I have to say that she is quite willing to undertake the prescribed examination. I should like to be given the assurance however that if she passes it I shall be allowed to retain her services, and not be required to accept any other candidate who may also have sat for and passed the examination, even if the latter should have scored more marks, that is, that she will not be required to compete for the position but only prove her ability to qualify for it. Miss Ballagh has been in my office now for ten months, has proved herself capable, painstaking and interested; she understands the work and is thoroughly conversant with ordinary routine duties. All these are essential qualities and favourable to her appointment, and the introduction of another inexperienced stenographer in her place would handicap me and the work of the office severely.

I hope therefore you can assure me that she will not be disturbed, provided she passes the test. Will you also advise me of the date and place when the examination will be held, in order that Miss Ballagh may be prepared to attend.

Miss Linda Ballagh who has been in my office for the past year has applied to me for an increase of salary. Miss Ballagh is a capable stenographer and Clerk and I would very much like to see her salary increased. In paying this salary we are not giving more than is paid to stenographers in the local Government or law offices in this City. It is needless for me to speak of the high cost of living.

In reference to your letter of the 6th inst. File No. 427063-X regarding the date of examination for Stenographers I beg to report as follows in regard to Miss Ballagh.

Miss Ballagh, who has been employed in this office for nearly a year, has given entire satisfaction, proved to be highly efficient and now is so conversant with the work as to be a valueble employee. Her probationary term will expire on June 13th and as no notification has as yet been received as to the date of the examinations, I would ask that you arrange for a further term. I note that your letter does not give any assurance that Miss Ballagh would be appointed provided she passed the examination. As I pointed out in my letter of April 15th I would be handicapped in my work her if Miss Ballagh were not given the appointment permanently and an inexperienced stenographer put in her place would take some time to get on to the work.

The unsatisfactory manner of appointments and the doubt as to permanency make it very,very difficult for me to hold good help when I do get it.

I trust that you will succeed in convincing the Commission in this instance of the importance of making this appointment permanent.It is needless for me to point out that the longer a stenographer is in an office of this kind ,where there are so many returns etc. to become familiar with, the better it is.

In connection with the case of Miss Linda Ballagh, who is employed under a temporary certificate of the Commission as stenographer in the office of the Commissioner for greater production on Indian reserves, at Regina, and who is to try an examination for permanent appointment when the date for the holding of the same has been set by the Commission, I have just received a letter from the Commissioner pointing out that Miss Ballagh has become so conversant with the requirements of his office that he would be seriously handicapped if Miss Ballagh's term of service were to expire before she has an opportunity of trying the examination.

The certificate under which Miss Ballagh is employed expires on the 13th proximo, and Mr. Graham is most anxious for her to present herself for the examination and to retain her services in the meantime.

Mr. Scott,-

The Auditor General's office has called attention to the certificate granted by the Civil Service Commission for the employment of Miss Linda Ballagh in the Regina office, which provides for the extension of her employment for a period of 2 months with effect from the 13th of June, 1919, and points out that a certificate for permanent employment has not issued.

Dear Sir,-

I beg to refer to the cases of Miss Linda Ballagh and Miss Beatrice Childs, temporary stenographers in the office of the Commissioner for greater production on Indian reserves, at Regina. The fact has been pointed out by the Auditor-General's Office that certificates are lacking for Miss Ballagh's and Miss Childs' present employment. A certificate is on file covering Miss Ballagh's employment until the 13th August, 1919, and one covering Miss Childs' employment until the 1st July, 1919.

In a personal interview which I had with Dr. Roche in March last he informed me that with a view to their permanent appointment Miss Ballagh and Miss Childs would be required to pass an examination. By letter of 7th of that month to Dr. Roche and letters of 22nd and 29th April to you I inquired as to when and where the examination would be held. On the 1st May you wrote stating that you noted that Miss Ballagh and Miss Childs desired to take the examination, that the date of the examination had not been decided upon but that as soon as it was decided upon they would be notified.

I have had no intimation from the Commissioner for greater production with regard to the examination, and I should like to be informed, in connection with the Auditor-General's reference, as to whether Miss Ballagh and Miss Childs were notified with regard to the holding of the examination.

Yours truly,

Dear Mr. Graham,-

The Auditor-General's office draws attention to the fact that the periodsof employment for Miss Ballagh and Miss Childs as covered by certificates of the Commission, have expired.

I find that Miss Ballagh and Miss Childs were advised by the Commission in June last as to the holding of an examination on the 25th of that month. Miss Ballagh's time expired on the 13th August and Miss Childs' on the 1st July. Of course there is a limit to temporary employment, and for permanent appointment it was necessary for them to have passed the examination above referred to. In obtaining the last certificates for Miss Ballagh and Miss Childs they were given time in which to try the examination, but from a letter just received from the Commission it does not appear that either of them appeared at the examination in June, nor even at the examination in November. As they have passed no examination for permanent appointment after having been given the opportunity to do so, and as the usual number of temporary certificates has already been issued on their behalf, in the ordinary course their employment would be regarded as having ended on the dates above mentioned; but before deciding what communication to send to the Commission with regard to them I should like to hear from you as to what reason can be given in support of any further request to have their employment continued.

Yours truly,

Deputy Superintendent General.

Dear Mr. Scott,-

I am in receipt of your letter of the 17th instant, in regard to the expiration of the certificates covering the employment of Miss Ballagh and Miss Childs.

Your information in regard to their not having attended an examination, is incorrect, for both of them presented themselves before the Examiners on the 25th and 26th June last, having previously paid their fees to the Civil Service Commission, and it seems incredible that there should be no record of this.

I was under the impression that they had passed their examinations. I now ascertain that I was wrong, and that they are both set down as having failed and their failure was for the reason that they were given no marks for stenography. In all the other subjects they both obtained the qualifying percentage. I was very much surprised to see that they both had

had received no marks for stenography, and have ascertained that the lady examiner appears to have been insufficiently qualified to hold the examination. She was nervous I am told, did not articulate properly, and at a pace considerably faster than she should have under the rules set by the Commission. It would appear that both Miss Ballagh and Miss Childs protested in writing to the Secretary of the Commission, who replied stating that after he had taken up the matter with the Supervisor in charge at this point, they would be communicated with again. I am informed that neither of them have had any further communication from the Secretary, and I think it only fair that their protest should be enquired into, or they should be given an opportunity of appearing again before a qualified examiner to receive dictation, without further expense to themselves.

I am quite satisfied, in view of my knowledge of them as stenographers, that they could pass this branch of the examination, with credit to themselves. I think this explanation is sufficient, in support of my request to have their employment continued.

I shall be glad to hear from you after you have communicated with the Commission and drawn attention to the matters I have related herein.

Dear Mr. Foran,-

I am sending you herewith Requisition for Permanent Appointment of a Clerk-Stenographer at the Regina Office. Miss Ballagh, the present incumbent, who is classified as Clerk-Stenographer is leaving at the end of this month and Mr. Commissioner Graham reports that it will be necessary to fill her position immediately. The nature of the work requires a stenographer experienced in office work who can act as clerk when necessary.

I understand that there is no one on the eligible list at Regina and I would ask you to be kind enough to authorize this Department to secure the services of a competent and experienced Clerk-stenographer who could be employed temporarily until she passes the necessary examination.

Dear Mr. Scott:

With regard to the appointment of Mrs. E. M. Drake as Stenographer on my staff, you will remember that on July 28th last, you informed me by wire, that there was no eligible Stenographer and to make a local selection for temporary appointment. Before I took Mrs. Drake on, I had one or two others who were absolutely unfit for the position. I then learned of Mrs. Drake, and induced her to come on my staff. She gave up her position with one of the leading Law Firms here.

I am merely writing you now, as the Civil Service Commission have asked Mrs. Drake for additional information regarding herself, and I notice one of the questions is if she is wholly dependent on herself for a livelihood. Mrs. Drake is not solely dependent on herself, still she has earned her living for years, and I would not like to have any hitch. She is now accustomed to the work of this office, and I think, that in view of the fact that there was nobody eligible, and I had to get somebody, the position should not now be advertised. It would put me in a very awkward position if Mrs. Drake were to have to compete, and by chance would not get the position, especially as she was induced to give up a permanency. I think you will understand my position, and I shall be glad if you would do what you can to have this thing fixed.

Yours very truly,

December 9th., 1920.

Dear Mr. Foran,-

On July 9th. last I sent you a requisition for the permanent appointment of a clerk-stenographer in the office of the Indian Commissioner at Regina, and requested the Commission to authorixe this Department to secure the services of a competent person who might be employed until she passed the necessary examinations. On the 19th. of July you advised me that there was no eligible list for this class of positions at Regina, and authorized me to make a suitable local selection. I communicated with the Commissioner, who selected Mrs. E.M. Drake, and I advised you to this effect on October 19th. The application form, duly filled out, was sent you on the 1st. ultimo.

The Commissioner writes that Mrs. Drake has been requested by the Civil Service Commission to supply certain other information, and among other questions is an inquiry as to whether she is solely dependent upon herself for a livelihood.

I should like to point out that the Commissioner has had considerable difficulty in securing competent clerical assistance in his office, and when Miss. Ballagh resigned he offered the position to Mrs ' Drake, who gave up her situation with one of the leading law firms in order to accept it. Mr. Graham states that Mrs. Drake is competent, possesses a knowledge of the work of the office, and is satisfactory in every way. Although she is not solely dependent upon herself for a living, she has earned her own livelihood for years. Mr. Graham points out that it would place him in a very awkward position if Mrs. Drake's appointment is not confirmed, and I trust that, as there was no eligible list from which the appointment could be made, you will be able to issue the necessary certificate for Mrs. Drake's permanent appointment at an early date.

Wm. Foran, Esq.,

Dear Sir:

With reference to your letter of the 7th instant, regarding the further employment of Miss Ellen M. Drake, Clerk Stenographer in the office of the Indian Commissioner at Regina, it is noted that you desire the permanent appointment of Miss Drake in this connection.

I would advise that the records of the Commission do not show that Miss Drake has ever qualified for such appointment. An extension certificate, however, has been issued under date of the 1st instant, for a period not exceeding six months with effect from March 2nd, 1921.

It is suggested that you advise Miss Drake that she should present herself at the next regular examination, in order to qualify for permanent appointment.

Dear Sir:-

I beg to acknowledge the receipt of your letter of the 23rd instant, your file No. 27063-A3, regarding the permanent appointment of Mrs. E.M. Drake as Clerk-Stenographer in the Indian Commissioner's Office, Regina.

In this connection I would refer you to P.C. 1393.-

"Hereafter no married woman, whose husband is living, shall be eligible for appointment in the Public Service.

Provided that, when the Commission reports that the supply of experienced help for any particular kind of work is not sufficient to meet the demands of the Public Service, a married woman may be certified for temporary employment.

Provided further, that where it can be established by a married woman that her husband is unable, through illness or other cause, to contribute to her support, such married woman may be certified for permanent or temporary employment."

Drake filed a sworn declaration that she was, "in part dependent on her salary as Stenographer". Such declaration would seem, under P.C. 1393 as quoted above, to warrant temporary employment only. I am, therefore, asking Mrs. Drake to furnish a declaration as to the exact amount of support she receives from her husband. This information, of course, will be treated as confidential and is required solely in order that the regulations of the Commission be complied with.

I am also forwarding to Mrs. Drake a copy of list No. 88 in which the general examinations to be held in May are advertised, and a copy of the application form which is required in this connection.

I have to acknowledge receipt of Department letter No. 427,063-A3 of the 8th instant enclosing a copy from the Civil Service Commission in regard to the appointment of Mrs. Drake.

I note the reference to P.C.1393 which deals with the appointment of married women. I draw your attention to a telegram sent me on the 28th July last advising me that there was no stenographer on the eligible list and directing me to make a local selection. This I did, selecting Mrs. Drake from a number of applicants.

On the 13th October I advised you in regard to her appointment explaining that she had resigned from a good position to fill the vacancy in this office, and my view under the circumstances is that her appointment should be confirmed.

Ottawa, April 23rd., 1921.

Mr. Scott,

I do not know what to do in this case. Your telegram of the 28th. July distinctly states that Mr. Graham was authorized to make a local selection for TEMPORARY appointment. The Commission seems determined to have Mrs. Drake pass the examination before making her permanent. She has evidently neglected to send in her application to sit for the examination, and the last day on which they are accepted is past. Her temporary certificate is valid until September 2nd. There may be another examination in the meantime, but in all probability the date is not yet set. Mr. Graham states that Mrs. Drake resigned a good position to accept this one with him, and makes that the basis of his plea for her permanency. Moreover the Commission objects to Mrs. Drake's permanent appointment on the ground that she is a married woman,- their letter of April 4th. I cannot see what action the Department can take to help Mr. Graham out, and as the ~~xanfixx~~ telegram and confirming letter both explicitly say "temporary", Mr. Graham will have to persuade Mrs Drake to take the examination.

Dear Mr. Graham:

I am sending you herewith copy of a letter which I have received from the Civil Service Commission, with regard to the appointment of Mrs. E. M. Drake.

On July 28th I advised you by wire that there was no eligible list at Regina and authorized you to make a local selection for temporary appointment and I confirmed this telegram on October 2nd. I have several times requested the Commission to have Mrs. Drake made permanent but they have refused, on the grounds that, in order to comply with the law, Mrs. Drake will have to pass the examination for the position.

On March 2nd the Commission advised me that Mrs. Drake would have to present herself at the next regular examination in order to qualify for permanent appointment, but they extended her temporary certificate until the 2nd of September. They now advise me that the closing date for the acceptance of applications for admission to these examinations is past and that their records do not show that Mrs. Drake has filed any application. It is, therefore, evident that her permanent appointment cannot be proceeded with until she qualifies by examination.

I do not see that the Department can take any further action in the matter and I would ask you to advise me whether Mrs. Drake proposes competing at the next regular examination. If so, she should send in her application to the Commission, who will advise her of the date and place.

MR. AMYOTTE

Dear Mr. Scott:

I am in receipt of your letter of the 27th ultimo, enclosing copy of a letter which you received from the Civil Service Commission regarding Mrs. E.M.Drake, who is employed in my office as a Stenographer.

Of course you remember the circumstances under which Mrs. Drake was engaged. After applying to the Civil Service Commission for a Stenographer, I was informed that there were none available and that I should make a selection myself. I employed Mrs. Drake, who was in the employ of a legal firm here, and at that time did not know there was any question regarding married women, nor did she. It was after she was employed in this office that this question came up.

I notice, according to your letter of the 10th March last, Mrs. Drake has been granted a temporary Certificate, dating from the 2nd March for six months, which means that her temporary Certificate would end at the 2nd September next. Does this mean that I will have to seek another stenographer at the expiration of this time. I think this is an injustice, not only to Mrs. Drake, but to myself. Just as soon as we get a stenographer trained to understand the way of the office, and one who is competent to do the work, we have to break in another one. Surely there is some way in which this can be made right.

If Mrs. Drake desires to be made permanent, she should present herself for the examination which is required by law.

I regret that you should have experienced any inconvenience but, under the existing regulations, I see no other manner of making Mrs. Drake permanent than having her pass the necessary examination.

Might I ask if Mrs. Drake does pass the examination, will she be made permanent. I ask this question because when Mrs. Drake was asked to take the position here, I did not know there was any law about married women not being eligible. Had I known, I would never have placed her in the position of resigning a better position than the one I have really given her. I think consideration should be given in this case.

Sir,

On the 4th. of July last I received a letter from the Secretary of the Civil Service Commission enclosing a notice calling for applications for the position of Clerk--Stenographer in this office to replace Mrs. Drake whose Temporary Certificate will expire on 2n.d September next. Applications were returnable to me not later than July 20th., and I beg to state that the only application I have received is one from Mr. Norman F. Smith. I have interviewed Mr. Smith, who has presented testimonials to me, copies of which I enclose with his application, together with a copy of his Discharge Certificate, from which you will note that Mr. Smith had nearly four years active service.

I beg to recommend that the Civil Service Commission furnish temporary certificate in favour of Mr. Smith for six months during which time it will be possible to ascertain whether or not Mr. Smith's services are acceptable to the Department, and I will then make a further recommendation.

I also enclose, herewith a copy of the poster which was placed in this office.

I have not communicated with the Secretary of the Civil Service Commission in regard to this vacancy. Will you please do so.

Dear Mr. Graham:

With regard to the permanent appointment of a clerk stenographer in your office at Regina and the application of Mr. Norman F. Smith, will you be kind enough to advise me if any other applications have been received for this position. If so, will you also let me have ratings on the various applicants, in order that a selection may be made.

Yours very truly,

Dear Sir,

Re: Clerk-Stenographer, Office of the
Commissioner, Dept. of Indian Affairs,
Regina, Sask.

I beg to acknowledge your letter of the 31st ultimo regarding the result of the advertising of the above noted vacancy, (your reference No. 427063-A3). In this connection I beg to advise you that in response to a letter from Commissioner Graham, under date of August 25th an extension of the certificate for three months has been issued in favour of Mrs. Drake. In your letter of the 4th ultimo the statement is made that the Department would like to employ Mr. Norman F. Smith under the thirty day clause presumably to replace Mrs. Drake. From Mr. Graham's letter of the 25th ultimo mentioned above, it would seem that there are two vacancies in the Office of the Commissioner. May I be advised please if it is the intention of the Department in view of the extension in favour of Mrs. Drake to employ Mr. Smith in the second vacancy. If so kindly forward the requisition to cover his appointment.

Dear Mr. Graham,-

The Civil Service Commission advised me on July 4th that Mrs. Drake was not eligible for permanent appointment and I sent you a copy of this letter of the 11th of July.

When the extension certificate of Mrs. Drake expires in all probability the Civil Service Commission will require that the permanent vacancy be advertised. In the meantime I presume that Mrs. Drake can carry on the work.

In your letter of July 25th you recommend that Mr. Smith be given a temporary certificate for six months. The Civil Service Commission takes exception to this procedure, pointing out that a person temporarily employed naturally has a better chance of competing for permanent employment than an equally fitted candidate who has not had the experience. The Commission, therefore, considers that this procedure creates an unfair competition and they point out that this may be obviated by appointing permanently, instead of temporarily, the person who is selected, and at the expiration of six months you have the privilege of reporting whether his services are satisfactory or not; if the services are satisfactory he is confirmed in the position, if an adverse report is received the position will be re-advertised. In this way you are not inconvenienced and I think that it would be advisable, insofar as possible, to comply with the wishes of the Commission. You might let me have your views on this at your earliest convenience.

Yours truly,

Deputy Superintendent General.

Dear Mr. Scott,

I have your No. 427063- A3 of the 30th. ulto. in regard to the engagement of Mrs. Drake. The reasons for the objections raised by the Civil Service Commiss--ion to the issue in Mr. Smith's favour of a certificate of temporary employment are not quite clear from your letter. However, I refer you to my telegram to the Secretary of August 3rd. last in reply to his of the 2nd. idem, and my letter to him of the 30th. ulto, which crossed yours, in which I applied for a permanent certifi--cate. The issue of a permanent certificate, therefore, in Mr. Smith's case will be quite satisfactory, and I trust there will be no further delay in confirming his appointment.

I am a little puzzled over the details of the procedure set down by the Civil Service Commission in regard to appointments. In your letter you state that objection is taken to granting a temporary certifi--cate for six months, but this would appear to be the procedure of the Civil Service Commission in regard to appointments to Farm Instructorships for in almost every case appointees to this position have been granted at first only temporary certificates. It is not clear, therefore/

Fair competition

therefore, why exception should be made to the issue of a temporary certificate to a Clerk-Stenographer (Mr. Smith) when temporary certificates are issued to Farm Instructors. I do not see the significance in this case in the reference to a person temporarily employed naturally having a better chance to compete for permanent appointment than an equally fitted candidate who has not had the experience. Mr. Smith made his application on the strength of the invitation of the Civil Service Commission, the usual poster having been employed by them, and when I first asked for a temporary certificate, it was with a view to following what I thought was the common practise of not permanently employing an applicant until an opportunity had been given to ascertain whether his services would be satisfactory. In my mind there is a difference between an employee engaged under a temporary certificate, and one engaged under a permanent certificate that whereas a temporary certificate does not assure to the holder the permanence of the position which he holds, he cannot claim that an injustice has been done if he should be relieved of his duties on account of incompetence; whereas in the case of an issue of a permanent certificate he naturally assumes that all his qualifications have been duly weighed, and that he is entitled to hold the position, subject only to dismissal for misconduct.

While I am writing on the subject of appointments, I would like to draw your attention to a letter I addressed to the Secretary on August 15th. last in reference to Department letter No. 6-103 of August 8th. Regina, Sask. 30th. Sept. 1921.

Sir,

I beg to advise you that Miss Hazel McElroy has resigned her position and relinquishes her duties today. I was under the impression that I had before advised you of her intention, but on looking over my file I note that I mentioned the subject to the Secretary of the Civil Service Commission, to whom I wrote on 25th. August last. However Mrs. Drake's certificate having been extended, and Mr. Norman F. Smith having been engaged to take the place of the latter, whose original certificate terminated on the 2nd. inst., no vacancy is created.

On July 25th. last I advised you that Mr. Smith had applied for the position of Clerk-Stenographer in this office in response to a poster issued by the Civil Service Commission calling for applications, the notice being published in view of the fact that Mrs. Drake's appointment was to have ceased on September 2nd. In that letter I advised you that Mr. Smith was the only applicant, and requested that the Civil Service Commission might be asked to furnish a temporary certificate in his favour for six months, but on August 3rd. replying to your telegram of the 2nd. idem. I asked that Mr. Smith's appointment might be made permanent from September 2nd. I have received no further communication from you in regard to this. I now beg to recommend that he be permanently appointed at the minimum salary for his class of $75.00 per month, together of course, with any bonus to which he is entitled by law. He has been working in this office since July 25th, a period of two months - and his services are entirely satisfactory. As he applied for the position in response to an advertisement issued by the Civil Service Commission in the month of July last, there should be no obstacle to the issuing of a permanent certificate in his favour, and I beg to recommend that the necessary requisition be made to the Civil Service Commission, and that his appointment shall take effect from the 1st. proximo.

Dear Sir,-

I beg to acknowledge the receipt of your letter of the 24th October, File 1415, and to say in reply that there is a vacancy in the position of Clerk-Stenographer at the Regina Office, caused by the resignation of Miss H. McElroy. I do not think it will be necessary to advertise this position again.

A vacancy was advertised in July, last, and in response to the advertisement one application only was received, namely, that of Mr.Norman F.Smith. I inclose herewith requisition for the permanent appointment of Mr. Smith.

Mrs.E.M.Drake is now being employed at the Regina Office as Clerk-Stenographer on temporary certificate for three months from the 2nd September, and I think that at the expiration of this certificate the position which she now holds should be re-advertised.

I am advised by Commissioner Graham that Miss Gibson was the only applicant for this position. He states that Miss Gibson has had considerable experience, and he recommends that she be appointed.

I would ask that you kindly let me have a decision in this matter at the earliest possible date, as Miss Gibson is now out of employment, and has advised the Indian Commissioner that she will not accept a position, pending the decision of the Civil Service Commission regarding her application for appointment in the Regina Indian Office.

Dear Sir,

I beg to acknowledge the receipt of your letter of the 9th instant with enclosures regarding the appointment of a Clerk-Stenographer at the Office of the Indian Commissioner at Regina, Sask.,(Your reference No. 427063-A 3).

As you are aware in connection with Clerical positions, it is necessary before a permanent certificate is issued for the candidate to qualify for permanency by passing an examination. As we have no record of Miss Gibson having passed the examination for Clerk-Stenographer under the Civil Service Commission, it will be necessary for her to do so before she will be considered eligible for permanent appointment. If Miss Gibson had been a successful candidate at the general examinations held recently, the matter of a permanent appointment might have received attention at once. As it is there will be no opportunity for her to qualify for permanency until the next general examination which will be held probably in May, 1922. It will be advisable for Miss Gibson to apply for admission to these examinations as in the event of eligibles being obtained in Regina as a result of these examinations, it would be necessary to fill this position,which is of a permanent nature,

Dear Mr. Graham,-

With reference to your letter of December 5, your File 100-19, regarding the position of Clerk-Stenographer at the Regina Office, I beg to say that I forwarded Miss Elizabeth Muriel Gibson's application to the Civil Service Commission, with a request that she be appointed. I am advised by them that it is necessary, before a permanent certificate is issued, for the filling of clerical positions, that the candidate qualify for permanency by passing an examination. As it does not appear from the records that Miss Gibson has done this, it will not be possible to appoint her at present permanently. She should apply for admission to the examinations in May, 1922, and, in the meantime, she will be appointed by the Civil Service Commission under temporary certificate.

Yours very truly,

Dear Mr. Scott,-

While I was at Ottawa last month I was speaking about the unsatisfactoriness of Miss Gibson, one of my stenographers, and of how impossible it is to keep up with the work owing to her inefficiency. I think I had your verbal permission to let this girl go and engage another with the necessary qualifications for the position. I have located such a stenographer,- a girl with five years' experience, and who, I feel quite sure, would prove most satisfactory. I should like to engage her for six months on probation and allow her to try the Civil Service examination towards the end of that period, if she desires to remain and is giving satisfaction. Will you kindly wire the necessary authority for me to let Miss Gibson go and engage this new assistant. It is very desirable that the change be made in the near future. It is impossible to carry on our work here with inexperienced girls just out of Business college.

With reference to your request that you be authorised to employ a young lady on six months' probation, I beg to say that I am informed by the Civil Service Commission that this will not be possible, owing to the fact that they are holding an examination at Regina on the 2nd May, and when the result of the examination is known there may be several persons on the list eligible for appointment. Dear Mr. Scott,-

I have the Secretary's reply to my letter to you dated April 22nd regarding the need for employing a Stenographer here to replace Miss Gibson, who has not been performing her work satisfactorily.

I am disappointed that the Commission refused to meet my request to have Miss Hunter taken on for a period of six months on probation,in the face of the fact that they allowed me to engage Miss Gibson under similar conditions, and also in view of the fact that the Department are aware that the correspondence is so heavy here that we really should have a third typist in addition to the two now employed. For the past month I have had to have one man stay here after hours in an endeavor to keep up with the work, but it is still behind. In Miss Hunter we would have had a really competent worker, highly recommended and experienced and it would have eased matters considerably if permission had been granted to engage her.

I mentioned the fact that we should have on our staff here a Senior Clerk Stenographer,when I was discussing the work we had to do.I am still of this opinion as the work with the two Junior Clerk Stenographers is at times more than they can handle.

In the event of the Commission sending me a Stenographer from among the successful candidates I should like to know whether or not her services may be dispensed with at once if she prove to be inefficient or will it be compulsory to carry her for a month or so ?

I hope the Department will be able to put this matter before the commission so that they will appreciate the position I am in and how important it is that I should have an experienced stenographer in view of the work there is to be done.

Miss Hunter, will, I understand, present herself as a candidate for examination to-morrow.

Dear Mr. Foran,-

The services of Miss Gibson, at present working under temporary certificate as Clerk-Stenographer in the Regina office, have not proved satisfactory, and we desire to replace her. Commissioner Graham is in correspondence with the Department, regarding the appointment of a successor, and we have advised him to hold the matter in abeyance until after the results of the examination held at Regina on the 2nd instant are known, as then it is probable that an eligible list will be established from among the successful candidates. I am in receipt of a communication from him, in which he asks whether, if the Stenographer assigned to his office from among the successful candidates proves to be inefficient, her services may be at once terminated, or whether it will be compulsory to carry her for a month or so, to give her a trial.

I shall appreciate your giving me this information.

I am enclosing the pay-list for this office for the month of June. You will note that Miss Gibson left on June 10th and Miss M.M.Hunter was engaged in her place. During my absence in Alberta Miss Gibson announced that she had been offered a position with a business firm here and would like to accept it as soon as possible. I instructed Miss Tye over the telephone to tell her she could leave whenever she wished and to engage Miss Hunter.

Dear Mr. Scott:-

I have your letter of the 16th instant, regarding the employment of Miss Hunter as clerk-stenographer in this office.

I note that Miss Hunter was successful and that her name is on the eligible list for appointment. Miss Hunter is now in my office and is giving good satisfaction and I hope that the appointment will be made permanent as soon as possible, so that she can take advantage of the statutory increases and bonus.

We have been most unfortunate with stenographers in the past and I hope that now that we have found one who is qualified to do the work, that there will be no difficulty in having her made permanent.

Yours very truly,

Wm. GRAHAM.

Sir:-

In reply to your letter of the 1st instant, I have to explain that statutory increases are not given automatically. They have first to be recommended by you to the Department in a special letter. Action is then taken to obtain the Civil Service Commission's approval.

In Mr. Smith's case as his salary was given on the January pay-list at the increased rate, it was taken for granted that you recommended the increase and therefore a recommendation was made to the Civil Service Commission, whose approval was received and cheque for $5.00 covering the increase for January was sent you on the 2nd instant.

In future when it is desired to give a permanent official an increase in salary, you should make a recommendation under cover of a separate letter in each case.

Sir,

I beg to advise that last month I tendered to Mr. W.M. Graham, Indian Commissioner, Regina, on whose staff I have been since July 1921, my resignation as Clerk-Stenographer in the Department of Indian Affairs, to take effect on the 31st inst., and was duly advised by him that it had been accepted.

In explanation of my resignation, I beg to state I formed the opinion that my services in the office of the Indian Commissioner were not considered of value, but wish to state further that I believe, after two interviews I had with Mr. Graham a few days ago, I was in error in arriving at such a conclusion, as Mr. Graham advised me, in the interviews, referred to, that my services have been appreciated by him personally, and that he would have no hesitation in recommending me for re-employment in the Department of Indian Affairs should a vacancy occur there which he considers I am capable of filling.

My object in reporting my resignation to you is with a view to ascertaining if it is possible to have my name placed on a list of Clerk-Stenographers eligible for employment in Regina, or district, and an opportunity given me to continue my work in the public service, in which I am very anxious to remain.

I may state that in November 1921 I passed the examination for Clerk-Stenographers, and received permanent appointment as at 23rd December 1921.

You are hereby notified that, because of a temporary pressure of work in this department, the employment of extra assistance is necessary. You are requested to authorize the employment of some person to fill the temporary position described below:

DESCRIPTION OF POSITION:

Title of position: Clerk-Stenographer

Department: Indian Affairs Branch: Indian Agencies Division: IA8-627

Place of work: Regina (City) Indian Office (Province) Salary rate: $960. per annum, plus bonus. Appropriation: Man. & N.W.T. Vote.

Date appointee should report for duty: June 6, 1923. Probable length of employment: 6 months.

Officer to whom appointee should report: W.M. Graham, Esq., (Name) Indian Commissioner (City) Regina, (Address) Sask.

SPECIAL QUALIFICATION REQUIREMENTS FOR POSITION:

THE APPOINTEE SHOULD POSSESS THE FOLLOWING SPECIAL QUALIFICATIONS AS TO:

Education: as per classification

Experience or technical proficiency: do.

Place of residence: Sex: Woman (Man, woman, or either)

Other qualifications:

EXPLANATION OF NEED FOR ASSISTANCE:

Reason extra assistance is needed: To substitute for Stenographer resigned.

If the position has been previously occupied, give the preceding occupant's name, salary rate, reasons for and date of leaving: Norman F. Smith (Name), July 31, 1923. $1020.00 per annum. (Salary rate) Resigned. (Reasons for leaving)

Signed: (Signature of Deputy Head)

NOTES AND INSTRUCTIONS:

1. File this requisition with the Civil Service Commission as soon as the need for extra assistance is recognized. Prepare two copies; forward one and retain one awaiting "Certificate of Appointment." No letter of transmittal need accompany this requisition. If more space is required for describing the work, for stating the special qualifications, or for any other purpose, attach an extra sheet of paper.
2. "When the position to be filled is a new one, that is, one not previously occupied, this form must be accompanied by Form C. S. 100 (Requisition for classification of new position)."
3. File a separate requisition with the Civil Service Commission for each vacancy in a temporary position. For permanent or seasonal places use the special requisition forms provided.
4. Give the position the classification title. If the position is a new one give it a tentative title which, as nearly as may be, is brief and descriptive of the work to be done.
5. The Civil Service Act, 1918:

23. (1) When from a temporary pressure of work, extra assistance is required,.....the Commission may, on the written report of the deputy head that such extra assistance is required, authorize the employment of such number of temporary officers, clerks, or employees as are required to carry on the work 1906, S. 94, amended.

(3) Temporary employment in the civil service shall only be authorized for such time, not exceeding six months, as the Commission deems necessary, and the period for which the employment is authorized shall be mentioned in the certificate of qualification issued by the Commission. One or more extensions of such period of employment may be granted by the Commission but each such extension shall be limited to a period not exceeding six months.

Dear Mr. Foran,-

I beg to acknowledge the receipt of your letter of the 9th instant, your File IA-IA8-670, inclosing copy of letter which you received from Mr. Norman F. Smith, who was employed as Clerk-Stenographer in the Regina Indian office, but who tendered his resignation as of the 31st ultimo, and later requested that, if possible, he be continued in his former position, and to say that I have communicated with the Indian Commissioner, who states that it would not be desirable that his services be retained. The Indian Commissioner has employed as substitute for Mr. Smith, Miss Ruth Smith Coster. I inclose herewith her application, also temporary requisition, and would ask that you have a temporary certificate issued in her favour for a period of six months, from June 6. In this connection I have to say that though Mr. Smith's resignation did not take effect until July 31, the Indian Commissioner employed Miss Coster as substitute for the staff stenographers while on their statutory leave, and she was, therefore, employed from June 6.

COMMISSIONER'S OFFICE,
REGINA, SASK., October 31, 1923.

Dear Mr. Scott : -

I beg to bring to your attention the case of Miss Hunter who has been employed in my office as ~~Junior~~ Clerk Stenographer for the last year and a half.

Miss Hunter is a very efficient stenographer and her work includes the assistance in reports, crop and lease returns and other work in connection with the carrying on of the business of the office, I am satisfied therefore that she is entitled to another classification, that of Senior Clerk Stenographer which will permit of her being paid a higher salary than she is now receiving. Miss Hunter can go out and obtain a better salary than she is receiving here, she has two sisters receiving from $100.00 to $130.00 a month and they have not had the experience that Miss Hunter has had.

I would be glad if you could see your way clear to give Miss Hunter another classification.

We could not get along with the work here if we had to depend upon the stenographers that would be supplied through the Civil Service Commission as these girls are usually just out of business colleges and have not got the education necessary to do the work that a stenographer in this office is called upon to do. I think you will agree with me that an office of this kind should have one stenographer in the class that I am asking Miss Hunter be placed in.

MEMORANDUM

November 19, 1923

Dr. D.C. Scott -

The Minister is receiving representations on behalf of Miss Hunter, who it seems has been for some little time employed in Commissioner Graham's office at Regina.

It appears that Miss Hunter is classified as a Junior Clerk Stenographer, but it is claimed that she has been and is doing considerably more difficult work than that called for under her present classification - in fact work that comes under the class of Sr. Clerk Stenographer, and it is felt that she is justly entitled to this higher classification.

In order that the Minister may have more complete details of Miss Hunter's position, please submit a full report in the matter for his information.

MEMORANDUM

MR. FEATHERSTON

I beg to acknowledge the receipt of your memorandum of the 19th instant, with reference to Miss Hunter, an employee in the office of the Indian Commissioner at Regina, who desires to obtain higher classification for her.

In reply I have to say that Miss Hunter was first employed by us in a temporary capacity on the 10th June, 1922, and her permanent appointment was confirmed by the Civil Service Commission on the 1st July, 1922, she having successfully passed the necessary qualifying examination. Recently we received a communication from the Indian Commissioner with request that we raise her classification from clerk-stenographer to senior clerk-stenographer, but we replied that it would not be possible to accede to his request.

The salary range for clerk-stenographers is, minimum, $960.00, maximum $1260.00, and for senior clerk-stenographer, minimum $1320.00, maximum $1680.00.

During the summer when the holiday season was on Commissioner Graham applied to be allowed to employ a substitute for his stenographers while on their regular statutory leave, and before acceding to his request we asked him to furnish the Department with a statement showing how each member of his staff was occupied. I think it well to send you a copy of his reply.

You will note that his staff is a pretty large one, the salaries of the different members of the staff being as follows:-

Mr. N.F. Smith, the second clerk-stenographer, has resigned, since the receipt of this letter, and pending the filling of the position permanently Miss Coster is being employed and paid at the rate of $960.00 per annum.

You will note that Mr. Graham states that the two stenographers are kept very busy all the time, and that the volume of correspondence in his office is heavy. This, I have no doubt, is true, but I cannot see any justification for raising the classification of Miss Hunter's position. She has been in our employ only about one and one half years. We have at headquarters many clerks who are doing faithful and onerous work, and have given service ranging up to eighteen and twenty years, who are classified as clerk-stenographers, and we have only one senior clerk stenographer. This clerk has exceedingly important clerical work, and has been in the service of the Department for twenty-two years.

Dear Sir: -

I beg to acknowledge receipt of your letter of the 3rd instant, your file No. 427,063-A3, relative to the position of Clerk Stenographer in the office of the Indian Commissioner at Regina.

In reply I beg to inform you that the only applicant for this position was Miss R.S. Coster, who is already temporarily employed in this capacity. Miss Coster was asked to write at an examination which was held at the same time as the General Examinations, the results of which are not yet made public. As soon as the results of this examination are available you will be further advised.

Dear Sir:-

In connection with the recent competition to fill the vacancy of Clerk-Stenographer in the office of the Indian Commissioner, Regina, Saskatchewan, I regret to inform you that the only candidate in this competition, Miss R.S. Coster, failed to qualify for permanent employment, obtaining only 10 per cent on the shorthand examination and 0 per cent in the typewriting test.

As, however, the Commission has no eligibles at Regina, should the Department of Indian Affairs request an extension of certificate in favour of Miss Coster who is already temporarily employed, I am directed to inform you that the Commissioners are disposed to regard such a request favourably.

Miss Coster is being informed of the results of the recent examination, and is being advised that it would be desirable for her to attempt to qualify at the next general examination.

Dear Sir;-

With further reference to my letter to you of the 18th October last, regarding the employment of Miss Ruth S. Coster, as Clerk-Stenographer in your office, I beg to say that Miss Coster was the only applicant for this position when it was advertised recently. She competed in the general examinations held in November but failed to qualify for appointment. The Civil Service Commission now advise me that as they have no eligibles on the list for Regina, they would be disposed to favourably consider an extension of Miss Coster's temporary certificate, if we desire this.

Will you kindly let me know whether Miss Coster's services are proving satisfactory, and if you wish to retain her in the employ of the Department for a further period. If so I shall request the Civil Service Commission to grant the extension.

Dear Mr. Scott : -

I beg to acknowledge receipt of your letter of the 28th ultimo, No.427063-A3, regarding the employment of Miss Ruth S. Coster as Clerk-Stenographer in my office and I note Miss Coster was the only applicant for this position when it was advertised and that she competed in the examinations held in November but failed to qualify for appointment.

I am rather disappointed at this as I had Hoped that there would be no doubt that she would be able to pass any necessary examinations. Miss Coster passed through the Public and High Schools and has a fair education, she is of a rather nervous temperament and she may have fallen down on shorthand in consequence, which I am told was rather a difficult test, however I would be glad if you would arrange to have an extension certificate given Miss Coster for six months or longer as I am quite satisfied that she has the education and will qualify. We do find her a little slow in her shorthand but she is improving in that respect.

Dear Mr. Graham,-

I am very sorry to have to inform you that owing to ill health Miss Hunter will have to go to the coast to live and wishes to leave this office at the end of February. She is enclosing a certificate from Dr. Jackes, who has thoroughly examined her and has prescribed this move for her. The X.ray pictures show some trouble in the lungs and her heart also is not as it should be.

She asked me to write to you to see if you could arrange to have her transferred to some Department in Vancouver, for of course she says she will have to continue to work and would prefer to remain in the Civil Service. She is familiar with the work of the Soldier's Settlement office here and if there is any vacancy in that Department in Vancouver she would be glad to have it.

I trust you will be able to locate a place for her at the coast, as she has been so highly satisfactory while in this office.

Dear Mr. Foran,

I am enclosing herewith a certificate from Dr. Jackes of Regina, recommending that Miss Mary H. Hunter, Permanent employee of this Department in the office at Regina, Sask., be granted six months leave of absence on account of ill health.

Miss Hunter has been in the employ of this Department since the 10th. June, 1922, and is, therefore, entitled to one month's leave with pay. She was formerly employed by the Military Hospitals Commission from 1916 or 1917 to 1920 and was from that date in the Department of Soldiers' Civil Re-establishment until she was appointed to this Department.

Miss Hunter has proved herself a very efficient and valuable employee and I would propose to grant her one month's leave with pay and the remainder of the period asked for, namely five months, without pay. I should be glad to have your concurrence.

I beg to acknowledge the receipt of your letter of the 3rd instant, your File 100-4, and inclosed medical certificate in favour of Miss Hunter, one of the Clerk-Stenographers in your office, who desires leave on account of ill health.

In reply I beg to say that I have requested the Civil Service Commission to grant her leave, with pay, for a period of one month, and further leave, without pay. On receipt of a reply from them, I shall advise you their decision.

I presume it will be necessary for you to employ, under the 30-day clause, a Stenographer to replace Miss Hunter. Kindly advise me the date that Miss Hunter leaves and what arrangements you are making for carrying on the work, and, if a Clerk-Stenographer is employed, have her fill in and return to me as soon as possible the inclosed application form, in order that I may obtain a certificate from the Civil Service Commission.

Sir:-

I beg to acknowledge the receipt of your letter of the 7th instant, with reference to an application for six months' leave of absence on account of ill health, for Miss Mary M. Hunter a permanent employee of your Department at Regina, Sask.

I note your statement that Miss Hunter is entitled to one month's leave, with pay. I would call your attention to the fact that under the old Regulations, an employee with less than five years' service might be granted two months' leave, with full pay, and one month with half pay within any twelve consecutive months, and that if Miss Hunter's leave is to be considered as dating from the 1st of October, 1923, as would appear from her medical certificate to be the case, it would be quite in order for the Department to grant her one month's leave with pay, and recommend leave without pay, for the other five months. However, if the leave is to be dealt with under the new Regulations, Miss Hunter's leave credit could only be calculated at the rate of one and one-half days' leave for each month of continuous service, and counting from the 10th June, 1922, the date of her assignment to your Department, Miss Hunter would only be entitled to twenty-eight and one-half days' leave, with pay. I shall be obliged if you will let me know when the absence commenced, and under what Regulations leave is recommended?

Dear Mr. Foran,

With reference to your letter of the 11th. instant regarding the application for sick leave by Miss Mary M. She has been in poor health since last Fall but she was not incapacitated and was on duty until the end of February last.

Miss Hunter's leave would, therefore, date from the 1st. March and come under the new regulations. With this explanation I would ask for your approval of leave with pay for the month of March and five months leave without pay.

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter of the 12th instant, your File 100-4, and note that you have employed Ellen M. Drake as Stenographer in your office temporarily, to replace Miss Hunter. Upon reference to the file I find that Mrs. Drake was an employee in your office in 1921, but that she was a married woman not wholly dependent on herself and had not passed the necessary qualifying examination. Under the regulations of the Civil Service Commission, a married woman not wholly dependent cannot be employed, even temporarily, unless we can certify that no one else properly qualified is available in the district. Such being the case, before asking the Civil Service Commission for a temporary certificate for Mrs. Drake, I shall await a letter from you.

It will be necessary for you to forward the application of the person employed, as, until this is received, a certificate cannot be issued.

As I advised you in letter of the 8th instant, we have requested the Civil Service Commission to grant Miss Hunter one month's leave on account of illness, with pay, and further leave, without pay.

Dear Miss O'Donahoe-,

I received a letter today from Miss. Hunter who is now in Vancouver. She informs me that she called at the S.S.B. office at that point and was told by Capt. Johnston that one of the girls had left a short time ago, and that the position was being filled as stenographer temporarily by another girl. Miss. Hunter wrote to me at once asking me to take up her case with the S.S.B. with a view to being placed on the staff of the S.S.B. at Vancouver. A transfer from our Department could be arranged.

I have today written to Mr. Maber asking him if he could arrange for Miss. Hunter's transfer, and might I ask you if you would call up Mr. Maber on receipt of this letter and see if anything could be done for her.

Miss. Hunter's letter was sent to me at this point, and I am writing to you from here, that no time will be lost in placing Miss. Hunter with the S.S.B. in Vancouver.

Dear Mr. Scott:

I have your letter of the 18th inst. with reference to my employing Ellen M. Drake as Stenographer in this office temporarily, and in reply I beg to state that while I was in Ottawa I was advised Miss Hunter would have to give up her position at once and go to British Columbia. I returned only a few days before Miss Hunter left this office. When I was in Ottawa I was advised that there were two applicants for the position who might be suitable. However, when I got here I found neither of these applicants would take the chance of giving up permanent positions with the uncertainty of not being accepted by the Commission. I made several attempts to get a Stenographer, but could not find one who could begin to do the work. You will understand that after Miss Hunter left, I was left with only one Stenographer, who could not possibly keep up with the work of this office. Failing to get a single girl, there was nothing else for me to do but to ask Mrs. Drake if she would take the position for a while, until I could locate a suitable Stenographer. I hope, under the circumstances, that you will put this case before the Civil Service Commission, so that there will not be any question about paying Mrs. Drake for the temporary service she is rendering.

In connection with this matter, I may say I am still trying to find a suitable Stenographer. There are dozens of girls around, but none of them would be qualified to do the work . The salary we can give is less than that given by Commercial and Legal Firms.

Signed. (Signature of Deputy Head)

NOTES AND INSTRUCTIONS:

1. File this requisition with the Civil Service Commission as soon as the need for extra assistance is recognized. Prepare two copies; forward one and retain one awaiting "Certificate of Appointment." No letter of transmittal need accompany this requisition. If more space is required for describing the work, for stating the special qualifications, or for any other purpose, attach an extra sheet of paper.
2. "When the position to be filled is a new one, that is, one not previously occupied, this form must be accompanied by Form C. S. 100 (Requisition for classification of new position)."
3. File a separate requisition with the Civil Service Commission for each vacancy in a temporary position. For permanent or seasonal places use the special requisition forms provided.
4. Give the position the classification title. If the position is a new one give it a tentative title which, as nearly as may be, is brief and descriptive of the work to be done.
5. The Civil Service Act, 1918:

23. (1) When from a temporary pressure of work, extra assistance is required..... the Commission may, on the written report of the deputy head that such extra assistance is required, authorize the employment of such number of temporary officers, clerks, or employees as are required to carry on the work. 1906, S. 94, amended.

(3) Temporary employment in the civil service shall only be authorized for such time, not exceeding six months, as the Commission deems necessary, and the period for which the employment is authorized shall be mentioned in the certificate of qualification issued by the Commission. One or more extensions of such period of employment may be granted by the Commission but each such extension shall be limited to a period not exceeding six months.

Dear Mr. Foran:-

I beg to advise you that when Miss Mary M. Hunter, permanent employee of this Department in the Regina office became ill on the first of March last, it was necessary for the Indian Commissioner to employ temporary help during her absence.

He employed Mrs.Ellen M. Drake but as Mrs. Drake is a married woman we called his attention to the fact that unless he could certify that no one else properly qualified is available we cannot retain her even temporarily. I have a letter from him in reply, copy of which I enclose.

Encl.

I also enclose Mrs. Drake's application for the position and temporary requisition.

I would ask that you accede to the request of the Indian Commissioner and issue a certificate in Mrs. Drake's favour.

If Miss Hunter, through illness, fails to return to her duties at the expiration of her leave we will, of course, have the position advertised for permanent appointment.

Yours very truly,

Deputy Superintendent General.

COMMISSIONER'S OFFICE,
REGINA, SASK., April 23rd, 1924.

Sir:

I beg to inform you Miss Hunter, formerly employed in this office as Stenographer, who was on sick leave, and who was hoping to get transferred to another Department of the Government, has succeeded in doing so; she is now employed by the Soldiers Civil Re-establishment Board at Vancouver ; her name will therefore be struck off the list.

In connection with this vacancy, I must take this occasion to point out to the Department that we will have to have a real first-class Stenographer. A recent graduate from a business college is absolutely useless. At times we have correspondence in this office for four Stenographers- two are doing it. I wish to point out clearly to the Department, that to expect me to take an ordinary girl who passes the Civil Service examination, is not going to fill the bill. We will have to have one with business experience. I would therefore ask you to give me authority to select a girl- although I have none in view at the present time- and take her into the office on six months' probation; and after she is tested, she will then have to submit, of ocurse, to the examination. We must have a Stenographer who has real experience and can be trusted to do something more than take notes. It is no easy job to select a Stenographer in Regina. Miss Hunter has been out of this office for nearly two months, and I have since been looking for a Stenographer. I have interviewed a few and none of them are of the type to do the work required of them here. The girls who are any good will not give up positions they now occupy, and take less money, and then take chances of not passing the examination; as you know, passing the examination does not mean everything. There are many girls who would be considered excellent Stenographers, who might fail in an ordinary examination. I would ask the Department to give me every assistance in getting the right kind of a girl. As I previously requested, I want permission to take a girl on for six months, if the Law provides for this.

Sometime ago when asking that Miss Hunter's classification be changed I pointed out that I needed here Stenographers of a higher grade than the classication "Clerk-Stenographers" calls for. It is going to be most difficult to get a thoroughly efficient and experienced stenographer to come in under that class unless there is hope of being raised to another class if her services prove satisfactory.

I have the honour to be,
Sir,

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter of the 23rd instant, your File 100-4, and to say in reply that it is our desire that if it is not the intention of Miss Hunter to resume her position in your office she send in her resignation. It will be necessary for us to have this before we can release the amount to her credit in the Retirement Fund. She is at present being carried on under sick leave, without pay.

I communicated with the Civil Service Commission this morning, placing before them your representations as to the necessity for obtaining an experienced stenographer to succeed Miss Hunter, and asked them whether it would be possible to accede to your request that you be allowed to employ a stenographer on probation for six months. They state that Miss Ethel E. Dilworth, formerly employed in the Government here, but now residing at Rouleau, Sask., wrote them very recently, requesting that she be given employment in the Government service in Regina. They state that she has had seven years' experience, is represented as being an excellent stenographer, is 29 years old and would be eligible for permanent appointment. They request that you communicate with her and employ her under the 30-day clause on trial for a month, and, if her services prove satisfactory and you so desire, they will give her permanent appointment. They are issuing a temporary certificate for 3 months, from March 1, in favour of Mrs. Drake, but her services cannot be continued beyond that time.

Yours very truly,

Deputy Superintendent General.

Dear Mr. Scott,-

I am today in receipt of cheques for some of the employees enumerated on the April pay-list, but there is none for Mrs. Drake.

I would point out that I was authorized to engage temporary assistance during Miss Hunter's absence and that Mrs. Drake was the only available stenographer I could locate. She has been working since March 3rd without receiving any remuneration for her services and I do not consider she is being treated fairly at all by being asked to wait so long for her salary. Mrs. Drake will be able to remain only three weeks longer in this office and I wish to say that I was fortunate indeed, to have her services during this busy time, as she thoroughly understands the work of this office and has been a great help to me.

I wired you asking that no further action be taken regarding Miss Hunter as I was informed after writing to you that there is a possibility of her coming back to Regina immediately, in which case I should like to have her in this office again. As soon as I hear definitely as to her plans I shall write to you regarding her.

Dear Mr. Scott,-

Referring to my telegram of April 26th asking that you take no action in regard to Miss Hunter until you heard from me, I would say that this telegram was sent after I had been told by Miss Hunter's mother that there was a probability of her coming back to Regina in the very near future, and if she came she would like to resume her duties in this office. I would certainly have been glad to have her back, but I learned to-day that she has definitely decided to remain in Vancouver for a time and it will therefore be necessary to take immediate steps to engage someone in her place here. Mrs. Drake who has been here temporarily, will not be available after the 21st, at the latest, as she is leaving for the old country on the 24th. In fact, she would like to leave sooner if we can fill the position before that date.

In this connection I wish to strongly urge again, as I have done on several occasions in the past, the necessity of being allowed to engage a Senior Clerk Stenographer for this office, as that is really the classification we should have, in order to get competent assistance to do the work that is to be done. Under the present classification of "Clerk Stenographer" we cannot secure the services of an experienced and capable girl.-the only sort we can get is one just through business college, and I assure you it is impossible to carry on the work with assistance of that kind. When Mrs. Drake leaves I shall be left with only one Stenographer, who, as you know, has not passed the Civil Service Examination, and has had very little experience. At the present time there is work for four

four stenographers in this office ,and I simply must have a thoroughly competent one in Miss Hunter's place in order to keep up with it at all. I have been making enquiries in business offices and find that good stenographers are getting from $110.00 a month to $125.00. I cannot get them to come here for $80.00 a month,especially as there is the worry and inconvenience of the examination to be tried in connection with this position, and they can get more lucrative positions in other offices without the bother of an examination. In order to get the proper assistance we shall have to pay more ,and I would therefore strongly urge that you request the Civil Service Commission to allow us to engage a Senior Clerk Stenographer for this office at once. The need is urgent and immediate action should be taken in this matter.

I would ask you to wire me at the earliest possible moment authority to engage the assistance required.

Dear Mr. Scott,-

I have your letter of May 6th and am thoroughly dissappointed to note your definite assertion that no action can be taken at the present time to raise one of the Clerical positions in this office from Clerk-Stenographer to Senior Clerk-Stenographer.

When I made a similar request last Fall you said you would ask the Civil Service Commission to make this change, but I heard nothing further about it. This Spring the work of the office has increased tremendously; all the returns and reports from the Western provinces are sent here, as well as all matters in connection with expenditure on the various reserves. In fact, almost all the business in connection with these reserves now passes through this office. When I was in Ottawa last winter discussing this additional work that was to come before me for attention, I was given to understand by the Minister that I would be given adequate staff to handle the increased work. It is absurd to expect two stenographers to do all the work of this office. In addition to requesting that one position be raised I would now ask for authority to engage a third stenographer, as such assistance is urgently needed. You cannot possibly realize the amount of work that is being done here or you would give some consideration to my requests. I think that if the facts were properly placed before the Commission they would readily see that the request is rational and they would give it favorable consideration. I fail to see why it should be impossible to have this done. It seems to me it is the only fair and businesslike action to take.

See letter Nov. 5/23. On this file when we requested could not change classification

At present we have a state of affairs that really calls for some action. We require better assistance and yet when I requested that a change of classification be made,I was briefly told that such action could not be taken at present. No reason was given for this refusal. Is it not to meet just such needs as this that we have the various classifications?

The lack of adequate stenographical assistance naturally holds back all the other work and although all the members of my staff are working at concert pitch to try to keep abreast of the work,it cannot be done under existing conditions. Very often some of the men have to leave their own work and do some of the urgent type-writing and as a cossequence their own work keeps piling up. If this state of affairs continues I shall be forced to ask for another clerk, but for the time being I feel that if we had the requisite stenographical help we could keep up with the work as the other clerks would not then be called upon to do any of the type-writing. The two Inspectors have been working very hard for the last five years,without having any holidays. Their work is often held up through not being able to have the services of a stenographer when they need one. Surely there is some way by which we can obtain this help that is so necessary.

I would therefore again request authority the raise the classification of one of the stenographers in this office and to engage a third one.

I have written to Miss Dilworth but have not as yet received a reply to my letter.

Yours truly,

Dear Mr. Scott,-

I have to inform you that Miss E.E.Dilworth began work in this office yesterday, May 19th as Clerk Stenographer, in place of Mrs. Drake who had been employed temporarily in the position formerly occupied by Miss Hunter.

I find it absolutely necessary to employ more stenographical assistance at once and if I can locate anyone this afternoon I shall have her come to the office to-morrow. Three members of my staff have dictating to do, files piled up on their desks and the two stenographers are both too busy with other work. One of the clerks, who should be checking up the March cattle returns, cannot get at them, as he is also type-writing to try to help the situation and keep up with the correspondence that needs attention.

It would be impossible to give this work out to a Public Stenographer. If it were a matter of specifications or circulars, this might be done, as you suggested in your letter of May 12th, but it is not possible to do this with correspondence.

For the past year I have been pointing out the necessity for more help in this office but my requests have not been favorably considered and authority has not been granted as yet. Now matters have reached such a point that I must have the help at once and I trust that you will be able to make some arrangement for the payment of it.

Dear Mr. Scott,-

Referring to my letter of 20th May and previous correspondence regarding the necessity for more help in this office, and to your letter of May 30th No. 427,063-A 3, I am enclosing herewith voucher No. 2359 amounting to $28.40, being amount paid for a temporary Stenographer.

You state in your letter that there are no positions established for additional clerical help in this office and you have no funds voted to pay salaries. I wish to say that I consider my recommendations and requests for additional assistance have not been given fair consideration, as otherwise provision would have been made some time ago for this extra help. Is it fair to double the work and expect me to carry on with the same staff ? It is impossible to do so. Either I must have more help or the work will suffer. Perhaps some of the staff could be transferred from Ottawa to this office, now that all the returns, that formerly were sent direct, are sent here to be checked. Is it fair that various members of the staff should have to come to the office after hours and on Statutory holidays in order to keep up with the work? Under present conditions they have to do this. To-day I have been handed the resignation of one of the Clerks and the reason he gives is overwork. I have beenasking for additional help for more than a year. Surely some arrangement might have been made in that time to meet my request, so often repeated. I am greatly disappointed that my recommendations in this regard have met with no response and I trust that some provision may yet be made in the Estimates.

Honourable Charles Stewart.

Owing to the constant demand of Mr.Graham for extra clerical assistance, I have given instructions to provide himself with temporary clerks under the provisions of the Civil Service Regulations.

Mr.Graham in some of his late letters has referred to the "immensity of his task" and has asked me whether it is fair to double the work and expect him to carry on with the same staff. The present situation has arisen owing to his own importunity. If the work has been doubled, which of course is a very great exaggeration, it is owing to his own effort, directed in season and out of season to that end. I have always been willing and anxious to give Mr.Graham all necessary support, but I have never been convinced this his office should be responsible for transacting independently every item of work in the three western provinces. The chief importance of the Commissioner's office and the duties of those under him lies in inspectorial work, and in the direct control of farming and stock-raising operations. To my mind he should have nothing to do with the administration of the schools. It simply complicates matters and does not add to efficiency, and only leads to friction. In connection with building,if he is to be in charge of the building operations and if any repairs are to be made, there should be no objection to his being directed to look after these repairs. The collection of rents and leases should also be conducted from headquarters just as we collect for the land sales in the west. Mr.Graham should arrange for the leases, report them to the Department, and we should afterwards make the collections.

With reference to his staff, I do not think that he requires at most more than another Clerk-Stenographer, and I think it would be in the interests of good administration to make the changes that I have suggested.

Dear Mr. Foran,-

With further reference to my letter of the 30th ultimo, regarding the employment by this Department of Miss Ethel E. Dilworth as Clerk-Stenographer in the office of the Indian Commissioner at Regina, I beg to say that she is employed in Position IA-IA8-624, which was formerly filled permanently by Miss Mary M. Hunter. Miss Hunter, owing to illness, obtained sick leave on March 3, last, and subsequently sent in her resignation, of which you were advised on May 17, last. Mrs. Ellen M. Drake was employed temporarily in this position from March 3 until May 19, when her services ceased. You issued a temporary certificate in her favour for three months, from March 1, 1924. When Mrs. Drake was leaving, the Indian Commissioner wrote, asking for permission to engage a girl for six months, if the law provides for this, so that she might be given a trial, and, on our communicating with the Civil Service Commission by telephone to ascertain if this action might be taken, we were advised that Miss Ethel E. Dilworth, whose name was on your eligible list, might be employed temporarily, under the 30-day clause, and, if her services proved satisfactory, she could be given permanent appointment. Miss Dilworth assumed the duties of the position on May 19. We are paying her at the minimum salary of Clerk-Stenographer, namely, $80.00 a month. I am writing the Indian Commissioner to ask whether her services are proving satisfactory, and, when I hear from him, I shall again communicate with you. In the meantime, I presume we should have a temporary certificate for Miss Dilworth, for which I inclose requisition herewith.

Dear Mr. Scott:-

I have your letter of the 30th ultimo regarding the services of Miss Dilworth, who is temporarily employed in this office.

I may say that Miss Dilworth's services have been perfectly satisfactory to me, but I fear that she will not remain with us unless I can give her a different classification.

Miss Dilworth has had considerable experience in the public service and can command a better salary, and I have been persuading her to remain with me in the hope that I could get her a classification that would bring her pay equal to that of stenographers in banks, implement firms, and other institutions.

Surely an office of this size is entitled to one Senior Clerk-Stenographer. We have three stenographers working here now, besides one of the men helping out at times, and of late we have been unable to keep up with the work.

Dear Mr. Graham,-

I am sending you herewith a copy of a letter from Agent Waddy with reference to conditions at his agency.

I wish it were possible to appoint another Inspector in order that you might have a larger staff for inspectorial work. Have you not yet discovered a competent person? If not, I would suggest advertising and allowing you to examine the candidates with the hope of finding a competent man. Mr. Waddy's report as to the condition of these Indians is somewhat alarming; forty-six Indians of the Split Lake band died last year owing to an epidemic.

I would ask you not to advertise with regard to the position of another inspector as I have one of our own agents in mind. The difficulty now is to find a man to take charge of the Agency.

An Inspector visiting this agency would not remedy matters in any way. Mr. Waddy is competent and he probably gives us all the information that an inspector would give. However, I am not making an excuse for not having the agency inspected. You have turned a deaf ear to my requests for help in this office, notwithstanding the fact that the work has been nearly trebled. I cannot understand the reason for this. The work has to be done, and no good reason is given except that the Department will not increase the staff. This is no reason at all. So far as inspection work is concerned, never in the history of the Department was the inspection as well up as it is now, but in order to keep it in the shape that it is our inspectors are working early and

Advertising for an inspector and picking out a green man and expecting to act on his recommendations to me is almost a joke.

Dear Mr.Graham,-

I have your letter of August 5th, in which you deal with several matters as regards the staff. The Department has not seen fit to increase the staff because I am directed by the Government not to increase the staff of the Department, but rather to decrease it. In your letter of June 4th you tell me that your work has been doubled, and in your letter of August 5th you tell me it has been nearly trebled. I do not know which multiplication is correct. If you would let me know, and also give me the items that have doubled the work of your office, I should be very glad to have them. I will not at present advertise the position of Inspector but will discuss the question of your staff and the vacant position of Inspector with the Minister as soon as I have an opportunity.

" To take and transcribe difficult dictation and perform specialized clerical work in connection therewith requiring wide knowledge of specialized clerical methods and involving the exercise of considerable judgment, or to supervise clerical or stenographic employees of the same or lower rank; to handle correspondence without dictation; and to perform other related work as required.

" Examples: Taking and transcribing difficult correspondence, reports, and other documents; taking and transcribing minutes of committee and other meetings and preparing notices of action taken at such meetings; answering correspondence either with or without notations made by a superior; preparing instructions with regard to the conduct of departmental business; having the custody of correspondence, books, papers, and other documents and records; looking up, tabulating, and analyzing information to be used as a basis for official action; answering the telephone and meeting callers. Dear Sir : -

In reply to your letter of the 11th instant, in which you recommend the permanent appointment of Miss Ethel E. Dilworth to the position of Clerk-Stenographer in the office of the Indian Commissioner at Regina, Sask., vacated by Miss Mary M. Hunter, resigned, I may say that a certificate of permanent appointment will be issued just as soon as the necessary evidence regarding age, health, character and habits has been furnished the Commission, in which connection Miss Dilworth will be communicated with direct.

It is noted, however, that you recommend Miss Dilworth's permanent appointment to date from the 19th of July, 1924, but as it would appear this permanent position was officially vacant on the 1st of July, 1924, there would be no objection on the part of the Commission to dating the permanent certificate from the latter date. Referring to your letter of June 30th, No. 427063 A3 , I wish to ask for certain information in connection with Miss Ruth Coster, one of the Stenographers in this office,- Miss Coster has received notice from the Civil Service Commission of an examination to be held Oct. 28th and as her plans are very indefinite as to the length of time she may remain in Regina,-possibly she may leave next Spring, - she is anxious to know if a further extension of six months would be granted to her from Dec. 20th, next , if she does not try the examination. In view of the circumstances I trust it will not be necessary for her to take the examination, in order to get a further extension, as I should like to have her in the office here until she decides to leave.

I have your letter of the 22nd instant, your file 427063-A3, relative to the case of Miss Ruth Coster, a Clerk-Stenographer in the office of the Indian Commissioner at Regina.

In reply I would say that it would appear advisable for Miss Coster to qualify at as early an opportunity as possible for employment as Clerk-Stenographer. As you are aware, the General Examination for positions of this class is to be held on October 28, 1924. Should qualified eligibles be secured in Regina as a result of this Examination it is doubtful whether the Commission would be in a position to grant a further extension of Miss Coster's certificate if she were not qualified. You will easily see that it would be to her advantage to take action to become eligible for employment.

I have your letter of the 27th September, #427063-A3, with reference to the case of Miss Coster, Clerk-Stenographer in this office; also the enclosure that you sent from the Civil Service Commission regarding her case.

I am sorry that you are unable to arrange with the Commission to have Miss Coster get an extension for another six months, especially when I am satisfied with her work, and the only reason that she did not pass the written examination before was on account of nervousness. I tried to persuade her to go up for the examination again, but she is reluctant about doing so.

If there is no possible way of getting a further extension of six months, why she would have to take the examinations or retire from the Service. Of one thing I am quite sure, I would not get as efficient a stenographer as Miss Coster, in the event of her losing the position. This clerk has a good education, and is doing her work well, and it seems too bad that she cannot be kept on.

If there is anything you can do further in regard to getting an extension for her I would be glad.

Yours very truly,

Wm. Graham

Dear Mr. Foran,-

With further reference to my letter of the 23rd and your reply of the 25th ultimo, your File IA-IA8-670-T regarding the case of Miss Ruth Coster, Clerk-Stenographer in the office of the Indian Commissioner at Regina, who desires to be granted a further extension in her temporary certificate when it expires, instead of taking the examination to be held this fall, I beg to say that I am in receipt of a letter from the Indian Commissioner, in which he states that he is especially well satisfied with Miss Coster's work, but that she is extremely nervous, and for that reason was not successful in passing the written examination which she tried. He states that she is reluctant about taking the examination again, and that, if Miss Coster's services are not retained by him, it will be very difficult to get a stenographer as efficient. He states that she has a good education, is doing her work well, and he urges that, if possible, her request be acceded to.

I place the matter before you, and trust that you may be able to give his request favourable consideration.

Dear Mr. Scott,-

I have your letter of the 21st ult., #827,063- A 3, informing me that you were in receipt of a communication from the Civil Service Commission, in which they stated that on August 22nd and again on September 26th, they had written to Miss Dilworth, Clerk-Stenographer in my office, asking her to supply evidence with reference to her health, character, and habits; this being required before a final permanent certificate could be issued in her favour. I may say that Miss Dilworth will forward this evidence, but in this connection, I wish to refer to previous correspondence on the subject of a higher classification for her, and would ask if anything has been done since your letter of August 9th, in which you stated that our Department would soon come before the Civil Service Commission for re-classification?

In the matter of staff to carry on the work here my recommendations receive very little attention, though the work is important and my opinions and recommendations regarding the expenditure of large sums of money are accepted by the Department. It seems to me to be an absurd and unbusiness like situation .

COMMISSIONER'S OFFICE,
REGINA, SASK., August 22nd, 1925.

Sir,-

I beg to enclose herewith the resignation of Miss Ruth Coster from the position of Clerk Stenographer in this office, as she has the offer of a more remunerative position in New Brunswick and wishes to leave in a month's time. I would recommend that her resignation be accepted, though I am very sorry she is leaving our service, as she is an efficient stenographer and understands the work thoroughly. She would like to withdraw the money that has been deducted from her salary for eight months(including August) for the Retirement Fund, and if possible, to receive refund before she leaves. The amount will be $32.00. Kindly let me know if this will be possible.

I shall need someone in her place as soon as she leaves and would like to know if there are any names of suitable stenographers on the list, for this position. If there are not, I must take immediate steps to find someone here.

Dear Mr. Graham,-

I have to acknowledge your letter of the 22nd instant, your file 100-4, and note that Miss Ruth Coster has tendered her resignation to be effective in a month's time. It will be necessary to accept her resignation by Order in Council before the money to her credit in the Retirement Fund can be paid her. I am today having a memorandum to Council prepared to accept her resignation and when this passes no time will be lost in releasing the money to her credit in the Retirement Fund.

I have requested the Civil Service Commission to advise me whether there are any names of stenographers on the eligible list available for appointment in Miss Coster's place and have asked them to let me know by return mail if possible.

Yours very truly,

Acting Deputy Superintendent General.

I have your letter of the first instant, #427,063-A3 with reference to the resignation of Miss Coster.

I note that the Civil Service Commission propose holding a competition immediately in order to fill the position. I hope by this that we are not going to get a girl from a Business College who can merely pass the examination - a girl without office experience. If this is what it means we are going to be handicapped.

You say that I can employ a stenographer temporarily for a month. No girl who is in a position will resign on the mere chance of getting permanent employment.

Dilworth, Stenographer, Grade 2, in Position 13-IA-IA7, Regina Indian office, has tendered her resignation, effective from September 30, next. She is leaving our service with the intention of being married.

Miss Dilworth has been in our employ since May 19, 1924, and I would ask that you approve of two months' retiring leave in her favour, under Section 73 of the Civil Service Regulations, from the above date. Commissioner Graham requests that action be taken so that her position may be filled on October 1, as he will require the services of a stenographer immediately she leaves.

Will you kindly let me know whether there are any names on the eligible list, Regina, for Stenographer, Grade 2.

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter of the 12th instant, your File 100-4, in which you advise that Miss Ethel E. Dilworth has signified her intention of resigning from September 30, owing to her approaching marriage. In reply I have to say that we will ask the Civil Service Commission to approve of granting her the two months' retiring leave to which she would be entitled from the above date.

Under the regulations Miss Dilworth will be entitled to refund of her contributions to the Superannuation Fund without interest, but it will not be possible to take action regarding her withdrawal allowance until the expiration of any retiring leave which may be granted her.

It would be well for you to forward Miss Dilworth's resignation in writing to the Department, as it will be necessary to have this accepted by Order in Council.

Yours very truly,

Dear Sir:

I am directed to acknowledge the receipt of your communication dated the 19th instant, in which you point out that the services of a Stenographer, Grade 2 will be required at the Regina Indian Agency office on the 1st of October, 1931, to replace Miss Ethel E. Dilworth who is resigning, and to inform you that Miss Mary Patricia Blanchfield, 2260 Scarth St., Regina, is the next candidate on the eligible list for consideration.

Would you be good enough to have your representative approach Miss Blanchfield with a view to securing her services. This candidate is, I think, available for employment of a permanent nature at any time.

Dear Mr. Scott:-

I have your letter of the 15th instant, No. 427,063-A3 A, advising me that Miss Blanchfield is the only girl on the eligible list to fill the vacancy created through the resignation of Miss Dilworth.

Miss Blanchfield tells me that she is 19 years of age. Now what I required was an older girl and one with more experience than Miss Blanchfield can have. I have in view a most excellent girl who was highly recommended to me by Mr. Turnbull and others. This girl is about 35 years of age, has had 10 or 12 years experience, and would be considered a high class stenographer. I was hoping I would be able to take this girl on, and I am satisfied that, with the years of experience she has had, I would be fortunate. Miss Blanchfield has now a position with the Provincial Government, and she would resign, taking the chance that she would be suitable to me. I do not wish to have her resign. Would I be justified, in your opinion, in turning her application down on the grounds of her age and only having had the experience she could possibly have, which would not be more than two years, if that? You might advise me as to this by wire as Miss Blanchfield is continually phoning up to ask what decision I have arrived at, and the end of the month is very near. I would like to employ the girl with the experience, temporarily, at least, and then she could write the examination when the time comes. I would rather have this position filled temporarily than have Miss Blanchfield resign and then feel obligated to keep her on if she was not satisfactory.

Dear Sir,

In reply to your communication of the 21st instant with respect to the employment of Miss Mary Patricia Blanchfield in the position of Stenographer, Grade 2, in the Regina Office, I am directed to inform you that before the Commissioners can consider the appointment of any other employee, the services of Miss Blanchfield will definitely require to be rejected. It would also appear that your representative at Regina desires to employ the services of a Stenographer of 35 years of age. You will understand that the age limits for entry to Civil Service examinations are from 18 to 35 and as the lady in question has not as yet sat for examination and as no examinations are being held this fall she would have no opportunity of doing so at least before next spring, when she will no doubt then be ineligible to write. It is considered that Miss Blanchfield should be given a trial in this position for a few weeks and at least an opportunity to show her capabilities. Mr. Graham will no doubt realize that any new employee should be given the opportunity of a few weeks training.

Dear Mr. Graham,-

I beg to acknowledge the receipt of your letter of the 18th instant, with reference to the appointment of a Stenographer to succeed Miss Dilworth, who is resigning. In reply I have to say that I have communicated with the Civil Service Commission, who state that as Miss Blanchfield's name is on the eligible list and she has qualified for the position she must be given an opportunity to show whether she can satisfactorily perform the work, and, if not, must be definitely rejected before they will assign anyone else to the position. The girl you mention, who is about 35 years of age, would not be eligible for permanent appointment on this account. The age for entrance into the employ of the Government in clerical positions is between 18 and 35.

I think you should explain fully to Miss Blanchfield that in resigning the position she has now and taking the one in your office she will run the chance of rejection if her services do not prove satisfactory, and, if she is willing to make the change under these circumstances, she should be given a trial. It is possible that after a short time she would prove most satisfactory as Stenographer in your office.

Dear Mr. Scott,-

I wish to bring to your attention the following matter and to ask for favorable consideration.

J.L.Moore,who acts as Messenger, Office boy, Interpreter and Chauffeur, is finding it impossible to live on the salary he receives,-Viz. $75.00 per month. Before this office was established in Regina, he was in our employ at File Hills,where he received $40.00 a month ,and house and rations etc. The extra $35.00 he now gets is not nearly enough to cover the extra expense that living in the city entails. He has a family of five, three of whom are of school age. The eldest was a pupil of the Brandon Industrial School,but was found to be Tubercular when he came home last summer and has been in Hospital and Sanitarium ever since. Their second eldest son died at the Brandon school two years ago. The next two boys live at home and attend the Public School.If they were placed in an Industrial School, which

which would be quite in order, they would call for a grant of $140. each per year from the Department. The parents are bearing all the expense of clothing and educating these boys, who I believe are better off physically and educationally than if they were sent away to a Boarding school.

In view of the circumstances I would be glad to see his salary increased to $90.00 per month, which increase would partly cover the expenses of educating his children, and the amount would be less than the Department would be called upon to pay if he decided to send them to Boarding school.

Yours sincerely,

W. M. Graham

Dear Mr. Scott,

In connection with the appointment of an Interpreter for this office, I beg to state that only one application has been received, from Alex. S. Moore, a brother of the late Interpreter, and I may say at once that it cannot be considered. Some time ago he was dismissed from the R. C. M. Dear Mr. Foran,-

Incl. I beg to inclose herewith requisition, asking an extension of temporary certificate in favour of Mr. O. Brandt as Indian Interpreter at the Regina office at a salary of $600. per annum, plus an allowance of $480. in lieu of light, heat and quarters. The former certificate for Mr. Brandt covered the period from October 1, 1921, to March 31, 1922. He was employed as substitute for Mr. Archie Lyall, on account of the latter's illness with scarlet fever. After his recovery, Mr. Lyall did not return to our service, and Mr. Brandt is still being employed.

As I take it that the Order in Council of June 29, 1922, is the one which gives authority for the exemption of the position: Interpreter, I presume it will only be necessary to have the certificate extended to that date.

Dear Mr. Foran,-

I beg to advise you that Mr. Otto Brandt, Indian Interpreter, Regina, Sask., is being retired under the provisions of the Civil Service Superannuation Act of 1924 on account of the abolition of his office. I inclose copy of Schedule "A", as Mr. Brandt would be entitled to an annual allowance.

Mr. Brandt was born on September 30, 1895. He has been employed continuously as Indian Interpreter for the Regina Office, Saskatchewan, from January 1, 1922. His salary at the present time is $900.00 per annum, and we give him an additional allowance of $480.00 per annum. The value of his allowance must be approved for the period he received perquisites, as shown in the attached schedule, before an annuity can be authorized.

It is proposed to grant Mr. Brandt three months' retiring leave with salary from April 1, next, and to have his superannuation effective as of June 1, 1932.

Dear Mr. Williams:-

I beg to acknowledge receipt of your letter No. 427063-A4, dated the 4th instant, with reference to closing the Regina Indian Warehouse and retaining the services of Mr. Hay and Otto Brandt for the present.

I may inform you that the shipment of contract supplies was not finally completed last year until the first of June. Last year over one hundred and eighty-four tons of contract supplies passed through the Warehouse and conditions will be no different this year. Supplies are arriving daily and we now have the Warehouse full, but I hope to get the outgoing shipments under way at once and will rush this work as fast as possible. You will understand that, in addition to the contract supplies, there is a large quantity of clothing and other articles which were taken over from the S.C.R. These are to be divided between Mr. Christianson, Mr. Hamilton, and myself, and will necessitate added work.

It is difficult for me to inform you as to the exact time when I may release these two men, but I hope to have the matter cleared up by the end of May. In this connection, I may say that, when the Minister was instructing me with regard to closing the Warehouse, he stated that he wanted it closed as soon as possible and, if necessary, I might engage the necessary extra help to facilitate matters. I hope to have the work in full swing next week and as it proceeds I will advise you as to the progress. Mr. Cookson and Mr. Johnson are assisting me with this work and, if there is no occasion for these men to go to Ottawa immediately, I would be very glad if the Department would permit me to retain their services here as they will be very useful to me in connection with the work of closing the Warehouse.

Dear Mr. Turnbull:

You will no doubt recall that I was employed by the Department of Indian Affairs at Regina for quite a number of years as Mr. Graham's chauffeur. I was laid off on the 1st of July when the department was reorganized.

I would advise that I have been working practically three months with the Department of Indian Affairs, in the warehouse and doing trucking jobs, without receiving any pay. I would be glad if you would speak to the Honorable Mr. Murphy on your first opportunity and see if it would be possible for me to be paid for the extra work I did the following three months after my retirement on the 1st of July, 1932.

Following is a list of the work I completed from the 1st of July until the 1st of October, and you can see from this statement that I should be considered a little and be allowed two months pay.

1. I shipped the balance of the groceries and finished shipping the balance of the old warehouse goods.

2. Three truck loads of hospital goods to the Lorlie Hospital.

3. Four trips to Fort Qu'Appelle.

4. One trip to Balcarres.

5. One trip to Broadview.

6. Four trips to Piapot Reserve.

7. I made the transfer by truck, taking the farm instructor from Poor Man's Reserve to Sandy Lake Reserve, and brought the Sandy Lake instructor back to Poor Man's Reserve. On account of bad roads and rain it took eight days to make the exchange.

8. Crated and shipped the balance of office furniture,

In this connection Mr. Brandt has written Mr. Frank Turnbull, M.P. I quote from his letter as follows :-

Voluntary Statement of Otto Brandt re services rendered after 1st July, 1932, for Indian Department.

The Department of Indian Affairs,

Ottawa, Ont.

My letter to Mr. Turnbull concerning the work done for the Indian Department in Regina after July 1st, 1932, was written after the work had been completed. I was urged to do this by my friends even after I had explained to them that I had voluntarily offered to do the work and had been repeatedly informed by Mr. Murison that he had no means of compensating me for my work.

I offered to do this work voluntarily and when Mr. Murison told me that he had no means of paying me, I told him that I did not expect payment that I was only too glad to do anything for him in an attempt to return Mr. Murison's kindness.

I did this work willingly, of my own accord, having in view that at some future time I would be absorbed into the Service and I had my own end in view in keeping my name good with the Department.

INSPECTOR'S OFFICE,

Dear Sir:-

I beg to acknowledge receipt of your letter No. 10-113 A, dated the 21st ultimo, with reference to a letter written to Mr. Frank Turnbull, M.P., by Mr. Otto Brandt who at one time was employed as a Messenger in this office.

This letter came to me as very much of a surprise, in view of the fact that I did not employ the services of this man nor did I ask him to perform any services either for myself or the Department. I was perfectly well aware that I could not, in conformance with the Civil Service regulations, employ this man during the period when he was receiving retirement allowance from the Department. The statement made in the letter that he had been working practically three months after July 1st at the Warehouse and doing trucking jobs is a very great exaggeration of fact. Mr. Brandt's services so far as the Department is concerned ceased on June 30th and he was so informed by me.

After the 1st of July there was still a considerable quantity of army supplies in the Warehouse and a very small shipment of groceries. Mr. Brandt asked me what I was going to do regarding these and I informed him that I intended having the Indians from the Piapot Reserve come in with their wagons and take out the obsolete and useless material to the farm on the Piapot Reserve and would have an employee of the Department drive the truck for the few other trips which would be necessary. He asked me if he might do the work. I was very reluctant to have him do this, but he actually pleaded to be allowed to do it and said he "would like to do something in return for the many kindnesses and "favors" I had shown him.

I had very little to do with the arrangements leading

- up to the trip -

up to the trip enumerated as No. 7 in the letter in connection with the transfer of Farming Instructors from Poorman's to Sandy Lake Reserves. I had intended having the Farming Instructor drive the truck, but Agent Waddy, who was on leave at the time, came to Regina and Mr. Brandt offered to drive the truck, stating that his wife was very anxious to see the North country and if he might take her along he would be very glad to have the privilege of making the trip. He and Agent Waddy made the arrangements. Otto and his wife left Regina on the 14th July for the Touchwood Agency. He and Farmer Burch went to the Carlton Agency with a truck load of goods while Agent Waddy took Mrs. Brandt, his own wife, and Mrs. Burch and child with him in his car. They took a considerable time to make the trip, as there was no need for hurry.

During the month of July I saw very little of Otto. He visited his wife's people at Stalwart for a week during this month. So far as my memory serves me he made some trips in August at intermittent times taking up about seven days altogether. In September he spent two weeks working in the harvest fields at Stalwart. I did not see him during this period. The trip to Broadview was made voluntarily, as all other trips were. His reason for wanting this trip was given in that a man near Broadview had offered to trade his farm for Otto's house in Regina and Otto wanted to go and look the farm over and this would afford him a good opportunity. The trips which he enumerates, apart from the Carlton and Broadview trips, could have been done in twelve days at the outside. On each occasion when he came and asked me if he might perform these services, I informed him that I did not like to have him work for nothing and that it would be impossible to obtain compensation for him. His reply invariably was, "I do not expect "to be paid. I am only too pleased to have the opportunity of "doing something in return for your kindness to me".

Before replying to this letter I asked Otto to come up and see me. I read your letter to him and he was very prolific in his expressions of regret in the action he had taken. If he had known the matter would be referred back to me, he would never have taken it up, or, as he states, listened to his friends and permitted them to persuade him to do so. He expressed his desire to make a statement to that effect. I am enclosing the statement which he gave to Miss Wylie without any suggestion or influence being exercised by myself in this regard. I trust that this explanation will close the matter.

Yours very truly,

W. Murison,
Inspector

MEMORANDUM

Mr. Buskard -

I have to refer to your memorandum of the 18th. ultimo enclosing letter from Mr. Turnbull, M.P., with regard to a claim of Mr. Otto Brandt, formerly of the Regina Office, for payment of alleged account for services rendered since the closing of the Regina Office.

As you were informed on October 21st. Mr. Inspector Murison was communicated with and I am sending a copy of his report for the Minister's information together with statement from Mr. Brandt relinquishing all claim to payment for the services which he admits were voluntarily offered and for which no payment was expected at the time.

Dear Mr. MacPherson:-

I have your letter of the 18th instant, enclosing a communication addressed to you by Mr. Otto Brandt, in which he claims payment for services rendered by him to this Department subsequent to July 1, 1932, while he was on retirement leave prior to his superannuation on October 1st of that year.

Mr. Brandt made a similar claim through Mr. Turnbull, M. P., in the fall of 1932. We communicated with the Inspector of Indian Agencies, Mr. Murison, and ascertained that any work Mr. Brandt did during that period was voluntary. As a matter of fact he signed a statement to that effect, in Regina, on the 2nd November, 1932.

You will thus see that there are no monies due him.

Dear Mr. Scott - 519702

The work in my office which has been increasing all summer and is likely to increase for some time to come necessitated the employment of an extra clerk and Bookkeeper an extra stenographer. I have taken on Alfred Garvin for the former position at $1,400.00, and Beatrice Childs for the latter at $900.00.

My staff at Regina has been called upon all summer and fall to work overtime and many nights and Saturdays have been spent in the office, in order to keep up with the work and this they could not do. I am, therefore, asking you to grant me the clerical assistance asked for.

Dear Sir,-

I am informed by Commissioner Graham, of Regina - who, you will remember, was appointed by Order in Council of 16th February, 1918, as Commissioner for greater production on Indian reserves in Man., Sask. and Alta. - that about a month ago he found it necessary, owing to the increased work of his office, to employ an extra bookkeeper, Mr. Alfred Garvin, and also an extra stenographer, Miss Beatrice Childs, the former being paid salary at the rate of $1400.00 and the latter $900.00 a year. By the Order in Council above mentioned the Department is authorized to charge the various expenses of the work of greater production, including salaries, etc., to the War Appropriation, and Mr. Garvin's salary is being charged to that appropriation. Miss Childs' salary, however, is being charged to Vote 246 "General Expenses, Man., Sask. and Alta." Will you kindly have certificates issued covering the employment of the above mentioned persons from about the 1st ultimo on the work of greater production on Indian reserves, their salaries to be charged as above indicated.

Dear Mr. Roche,-

With reference to our recent conversation relative to the employment by Commissioner Graham at Regina, of Miss Linda Ballagh and Miss Beatrice Childs as stenographers and Mr. Alfred Garvin as bookkeeper, for whom temporary certificates have been issued and for whose permanent appointment you stated an examination would be necessary, may I ask when and where the examination will be held and also whether a special examination will be set for Mr. Garvin as bookkeeper. I should like to have this information in order to advise Mr. Graham in that connection.

Dear Mr. Scott,

Your letter of the 7th, inst, (Your file 427063-X) addressed to the Chairman of the Commission with refdrence to certain employees in your Regina office has been handed to me for attention. It is noted that you have been furnished with a certificate for Miss Childs, which will run till the 30th of June next, and one for Mr. Garvin for the same period, but the certificate for Miss Ballagh has expired and it is presumed that you desire a renewal, though I do not find a definite request for same on our files.

In answer to your question as to what is necessary to qualify these officers for permanent appointment, I have to point out that they must pass the prescribed examinations. These are known as Grade C of the Second Division in the case of Miss Ballagh and Miss Childs. If they are qualified to take the Grade B. Senior Examination they would be entitled to a minimum of $1050. Three years experience is the minimum permitting candidates to take this senior examination.

In regard to Mr. Garvin, it would be necessary for him to take a special examination in a competition., and if you intend that the position he holds shall be of a permanent character, that is, if he will continue after the end of June next when his certificate expires, I will be glad if you wil-l send me specifications as to the qualifications necessary and steps can be taken to advertise the position. Either this or Mr. Garvin would, if he preferred, take the ordinary examination in 2-B but of course this would limit his salary schedule from a minimum of $1050 to a maximum of $1300. on appointment and with possible promotion to Grade A which would give him a a maximum of $1500. It would therefore seem necessary that he take the special examination in competition, as suggested above.

Dear Mr. Graham,-

In connection with the employment of Mr. Garvin, and the Misses Childs and Ballagh in your office, I beg to say that I have just received a communication from the Civil Service Commission stating that if permanency is desired as regards these employees they will have to pass the prescribed examination set by the Commission. In the case of Miss Ballagh and Miss Childs, as stenographers, the examination would be for Grade C of the 2nd Division, which includes writing, copying manucripts spelling, letter writing, stenography (taking ordinary business letters at 75 and 90 words a minute and transcribing notes), and typewriting at 25 words a minutes. Or they may enter for the Grade B examination for senior stenographers which includes writing, copying manuscripts, spelling letter writing, stenography, (taking business letters at 100 and 120 words a minute and transcribing notes), and typewriting at 50 words a minute. Candidates for examination for the latter grade would be required to have had 3 years' office experience in order to be admitted to the examination. As to Mr. Garvin, he would have to take a special examination in a competition, and the Commission has requested that I send them specifications as to the qualifications necessary, when steps will be taken to advertise the positions.

Will you therefore be kind enough to state whether you consider that it will be necessary to appoint any or all of these clerks permanently; if so, kindly give me the required information as to the work to be done by the bookeeper.

In the meantime, as the time covered by Miss Ballagh's six month's certificate expired on the 13th December last, I am asking the Commission for a certificate for another six months from that time.

Yours truly,
Duncan C. Scott,

Dear Sir,-

I beg to refer to the cases of Miss Linda Ballagh and Miss Beatrice Childs, temporary stenographers in the office of the Commissioner for greater production on Indian reserves, at Regina. The fact has been pointed out by the Auditor-General's Office that Certificates are lacking for Miss Ballagh's and Miss Childs' present employment. A certificate is on file covering Miss Ballagh's employment until the 15th August, 1919, and one covering Miss Childs' employment until the 1st July, 1919.

In a personal interview which I had with Dr. Roche in March last he informed me that with a view to their permanent appointment Miss Ballagh and Miss Childs would be required to pass an examination. By letter of 7th of that month to Dr. Roche and letters of 22nd and 29th April to you I inquired as to when and where the examination would be held. On the 1st May you wrote stating that you noted that Miss Ballagh and Miss Childs desired to take the examination, that the date of the examination had not been decided upon but that as soon as it was decided upon they would be notified.

I have had no intimation from the Commissioner for greater production with regard to the examination, and I should like to be informed, in connection with the Auditor-General's reference, as to whether Miss Ballagh and Miss Childs were notified with regard to the holding of the examination.

Dear Mr. Graham,-

The Auditor-General's office draws attention to the fact that the periods of employment for Miss Ballagh and Miss Childs as covered by certificates of the Commission, have expired.

I find that Miss Ballagh and Miss Childs were advised by the Commission in June last as to the holding of an examination on the 25th of that month. Miss Ballagh's time expired on the 13th August and Miss Childs' on the 1st July. Of course there is a limit to temporary employment, and for permanent appointment it was necessary for them to have passed the examination above referred to. In obtaining the last certificates for Miss Ballagh and Miss Childs they were given time in which to try the examination, but from a letter just received from the Commission it does not appear that either of them appeared at the examination in June, nor even at the examination in November. As they have passed no examination for permanent appointment after having been given the opportunity to do so, and as the usual number of temporary certificates has already been issued on their behalf, in the ordinary course their employment would be regarded as having ended on the dates above mentioned; but before deciding what communication to send to the Commission with regard to them I should like to hear from you as to what reason can be given in support of any further request to have their employment continued.

Dear Sir,-

With further reference to the matter of the examination of Miss Linda Ballagh and Miss Beatrice Childs, temporary stenographers in the office of the Commissioner for greater production on Indian reserves, at Regina, (vide your letter 9th instant No.136207), on communicating with the Commissioner in the matter I am informed by a letter from him of 23rd instant as follows,- "I was under the impression that they had passed their examinations. I now ascertain that I was wrong and that they are both set down as having failed and their failure was for the reason that they were given no marks for stenography. In all the other subjects they both obtained the qualifying percentage. I was very much surprised to see that they both had received no marks for stenography, and have ascertained that the lady examiner appears to have been insufficiently qualified to hold the examination. She was nervous I am told, did not articulate properly, and at a pace considerably faster than she should have under the rules set by the Commission. It would appear that both Miss Ballagh and Miss Childs protested in writing to the Secretary of the Commission, who replied stating that after he had taken up the matter with the supervisor in charge at this point, they would be communicated with again. I am informed that neither of them has had any further communication from the Secretary, and I think it only fair that their protest should be inquired into or they should be given an opportunity of appearing again before a qualified examiner to receive dictation, without further expense to themselves. I am quite satisfied, in view of my knowledge of them as stenographers, that they could pass this branch of the examination with

Dear Mr. Scott,-

I am in receipt of your letter No. 427063-A5 of the 24th instant, stating that you have received from the Civil Service Commission the certificate of temporary employment of Miss Beatrice Childs, for six months from the 1st of July next, at a salary of $900. per annum.

I would refer you to my letter of the 9th instant, in which I informed you that Miss Childs had notified me of her intention to resign her position, to take effect on the 15th of May, and asked that steps be taken to furnish me with a qualified stenographer. I presume this matter has received your attention, although your letter would indicate that it had not, or perhaps you may not have seen my letter.

Yours very truly,

W. M. Graham

Dear Sir:-

With reference to your requisition of the 8th inst. for a Junior Clerk Stenographer for the Indian Agencies at Regina, Sask., I am directed to inform you that owing to the fact that the Commission has no person available in that locality for this position, your Department is authorized to make a suitable local selection, advising the Commission in due course of the name of the person selected.

The appointee will have to qualify for the position by taking the Civil Service Examination held on July 6th next.

The salary will be paid at the rate of $600 per annum.

Dear Mr. Graham,-

On the 11th. instant I advised you by wire that you might engage a stenographer to take Miss Child's place. The Civil Service Commission write me this morning that, as they have no one on their eligible list at Regina, it would be in order for this Department to make a suitable local selection, and advise them of the name of the person selected. The appointee will have to qualify for the position by taking the examinations which will be held on July 6 next.

I shall be glad if you will let me know the name of the person you select, and the date she assumes her duties. You might also advise her regarding the examinations.

Memorandum:-

Mr. Scott.

In view of the fact that the Commission had no one on their list, do you think that we wou would be justified in asking for this appointment at the maximum instead of the minimum of the class? Miss Childs was classified as Junior Clerk Stenographer, and the only way that can be rectified is by a requisition for a new position - and then it is just possible that the Commission might have some one on their list.

Dear Mr. Foran,-

With reference to my letter of the 8th and to your reply of the 15th May, fyle 13843, regarding the appointment of a Junior Clerk-Stenographer for the Commissioner's Office at Regina, Sask., I wish to advise you that I communicated with Mr. Graham advising him that your Department had no person available in that locality for this position and that we would be authorized to make a suitable local selection. The Commissioner has now reported that he was unable to secure a Clerk-Stenographer for a salary of $600 per annum and he was, therefore, obliged through pressure of work to secure the services of Miss Hazel McElroy, who resigned her position with the C.P.R., where she was receiving $100 per month. The Commissioner advises me that she is willing to accept the position at salary of $75.00 per month and bonus. I am, therefore forwarding you the Request for the Classification of a New Position and the Requisition for the Permanent Appointment of Miss McElroy as Clerk-Stenographer at a salary of $960. per annum and bonus. Her predecessor was receiving $900 per annum but was unwilling to stay.

Miss McElroy assumed her duties on the 18th of May and has been advised that it will be necessary for her to take the examinations which will be held on July 6th.

May I ask you to be kind enough to issue a certificate for Miss McElroy's appointment from the 18th May at $960 per month, as soon as possible?

Dear Mr. Scott:

I have your letter of the 7th instant, No. 427063-A5, informing me that you had been advised by the Civil Service Commission that Miss Beatrice Child's name has now been reached on the list of those eligible for permanent appointment as Clerk-Stenographer at a salary of $960.00 per annum, and asked me to advise you if it is my desire to ask the Commission to issue a Certificate for Miss Child's permanent appointment.

I beg to refer you to my letter of the 9th April, last, in which I informed you that Miss Childs had given me her resignation, to take effect on the 15th May. On the 24th April you wrote me, saying that the Civil Service Commission had granted a Certificate of Temporary Employment for Miss Childs, for six months from the 1st of July at a salary of $900.00 per annum. On the 30th April I referred you to my letter of the 9th, in which I informed you that Miss Childs had notified me of her intention to resign her position, to take effect on the 15th May. On the 10th May, not having heard anything from you regarding a successor to Miss Childs, I wired you, referring to my letters of the 9th and 30th April, urging the appointment of a successor. On the 11th May, I received a wire from you, stating that I might engage a Stenographer to take the place of Miss Childs, and that you would take the matter up with the Commission. On receipt of this telegram, I engaged Miss Hazel McIlroy, who is now on the staff here. On the 8th May, I received a letter from you saying that you were sending a requisition to the Civil Service Commission for the temporary appointment of a junior Clerk-Stenographer, to replace Miss Childs. On the 18th May, I wrote you regarding the appointment of Miss Hazel McIlroy, to take the place of Miss Childs. On the 17th May, I received a letter from you

you saying that you had wired authorizing me to engage a Stenographer in place of Miss Childs; as there was no one eligible on the list in Regina, that it would be in order to make a suitable local selection. A few months after Miss Childs left here, an adjustment was made through the Department for bonus cheque, which was duly received, and sent on to her. Miss Childs was married on the 15th May last, and left the service at that time.

Sir,

I beg to advise you that Miss Hazel McIlroy has resigned her position and relinquishes her duties to-day. I was under the impression that I had before advised you of her intention, but on looking over my file I note that I mentioned the subject to the Secretary of the Civil Service Commission, to whom I wrote on 25th. August last. However, Mrs. Drake's certificate having been extended, and Mr. Norman F. Smith having been engaged to take the place of the latter, whose original certificate terminated on the 2nd. inst., no vacancy is created.

On July 25th. last I advised you that Mr. Smith had applied for the position of Clerk-Stenographer in this office in response to a poster issued by the Civil Service Commission calling for applications, the notice being published in view of the fact that Mrs. Drake's appointment was to have ceased on September 2nd. In that letter I advised you that Mr. Smith was the only applicant, and requested that the Civil Service /

Service Commission might be asked to furnish a temporary certificate in his favour for six months, but on August 3rd., replying to your telegram of the 2nd. idem, I asked that Mr. Smith's appointment might be made permanent from September 2nd. I have received no further communication from you in regard to this. I now beg to recommend that he be permanent-ly appointed at the minimum salary for his class of $75.00 per month, together, of course, with any bonus to which he is entitled by law. He has been working in this office since July 25th. - a period of two months - and his services are entirely satisfactory. As he applied for the position in response to an advertisement issued by the Civil Service Commission in the month of July last, there should be no obstacle to the issuing of a permanent certificate in his favour, and I beg to recommend that the necessary requisition be made to the Civil Service Commission, and that his appointment shall take effect from the 25th proximo.

Dear Sir,-

I beg to request that you will grant an extension of the temporary certificate issued in favour of Miss Hazel McElroy, who was employed as Clerk-Stenographer in the Regina Indian Office.

Miss McElroy was employed by us from the 18th of May, 1920 until the 30th of September, 1921. We received from the Civil Service Commission a temporary certificate in her favour for six months, from the 18th of May, 1920, and the Audit Office desires that we obtain a certificate covering the remaining period of her service.

In a letter of the 30th of June, 1921, from Commissioner Graham, he states that on the 25th of August, 1921, in writing to the Secretary of the Civil Service Commission, he mentioned the fact that Miss McElroy had relinquished her duties.

Dear Mr. Scott,-

The work in my office which has been increasing all summer and is likely to increase for some time to come necessiatated the employment of an extra clerk/and Bookkeeper an extra stenograhper. I have taken on Alfred Garvin for the former position at $1400.00 and Beatrice Childs for the latter at $900.00.

My staff at Regina has been called upon all summer and fall to work overtime and many nights and Saturdays have been spent in the office, in order to keep up with the work and this they could not do. I am, therefore, asking you to grant me the clerical assistance asked for.

Dear Mr. Scott,

Your letter of the 7th, inst, (Your file 427063-X) addressed to the Chairman of the Commission with reference to certain employees in your Regina office has been handed to me for attention. It is noted that you have been furnished with a certificate for Miss Childs, which will run till the 30th of June next, and one for Mr. Garvin for the same period, but the certificate for Miss Ballagh has expired and it is presumed that you desire a renewal, though I do not find a definite request for same on our files.

In answer to your question as to what is necessary to qualify these officers for permanent appointment, I have to point out that they must pass the prescribed examinations. These are known as Grade C of the Second Division in the case of Miss Ballagh and Miss Childs. If they are qualified to take the Grade B. Senior Examination they would be entitled to a minimum of $1050. Three years experience is the minimum permitting candidates to take this senior examination.

In regard to Mr. Garvin, it would be necessary for him to take a special examination in a competition., and if you intend that the position he holds shall be of a permanent character, that is, if he will continue after the end of June next when his certificate expires, I will be glad if you will send me specifications as to the qualifications necessary and steps can be taken to advertise the position. Either this or Mr. Garvin would, if he preferred, take the ordinary examination in 2-B but of course this would limit his salary schedule from a minimum of $1050 to a maximum of $1300. on appointment and with possible promotion to Grade A which would give him a maximum of $1500. It would therefore seem necessary that he take the special examination in competition, as suggested above.

Yours truly,
Wm. Foran,
Secretary.

Dear Mr. Graham,-

In connection with the employment of Mr. Garvin, and the Misses Childs and Ballagh in your office, I beg to say that I have just received a communication from the Civil Service Commission stating that if permanency is desired as regards these employees they will have to pass the prescribed examination set by the Commission. In the case of Miss Ballagh and Miss Childs, as stenographers, the examination would be for Grade C of the 2nd Division, which includes writing, copying manucripts spelling, letter writing, stenography (taking ordinary business letters at 75 and 90 words a minute and transcribing notes), and typewriting at 25 words a minutes. Or they may enter for the Grade B examination for senior stenographers which includes writing, copying manuscripts, spelling letter writing, stenography, (taking business letters at 100 and 120 words a minute and transcribing notes), and typewriting at 50 words a minute. Candidates for examination for the latter grade would be required to have had 3 years' office experience in order to be admitted to the examination. As to Mr. Garvin, he would have to take a special examination in a competition, and the Commission has requested that I send them specifications as to the qualifications necessary, hen steps will be taken to advertise the positions.

Will you therefore be kind enough to state whether you consider that it will be necessary to appoint any or all of these clerks permanently; if so, kindly give me the required information as to the work to be done by the bookeeper.

In the meantime, as the time covered by Miss Ballagh's six month's certificate expired on the 13th December last, I am asking the Commission for a certificate for annther six months from that time.

Yours truly,

This man has been employed in this office for some time and I have had an opportunity of judging his capabilities. He is young and inexperienced and I find he is not competent enough to carry on the important work required to be done. What we require is a first-class book-keeper and we would have to pay a good salary to retain the services of such a man.

I have no desire to tunr this young man out on the street for the oresent and I would ask that the position be not filled permanently until I have secured a returned man who is fully capable of filling the bill. I am in receipt of your letter of the 12th. instant stating that the Commission has selected Mr. Wm. J. Tyacke of 10277 92nd. Street, Edmonton, for the position of book-keeper in the office of the Commissioner for Greater Production at Regina.

I beg to point out that the Commission was not asked to make an appointment in this case. In my letter of the 21st. June last the possibility of making an appointment was mentioned, but it would have been necessary to give the Commission a description of the qualifications required in an appointtee before advertising or filling the position, as we do not there require an ordinary book-keeper but a person of experience and ability.

I may say that I have just received a letter from the Commissioner for Greater Production desiring that Mr. Garvin's services be retained in a temporary capacity (this temporary period is approved of by your letter of the 8th. instant, reference 95987) until he has had an opportunity of interviewing a returned man whom he has in view. The Commissioner does not mention in his letter the name of the man referred to, but possibly he may be the Mr. Tyacke referred to in your letter of the 12th. instant.

I shall be glad if the action of the Commission with regard to Mr. Tyacke's appointment can be stayed for the present, and I would ask you to kindly wire him.

Dear Sir, File E.B. 303

I am in receipt of your letter of the 17th instant regarding the appointment of Mr.Wm. J. Tyacke to the position of Book-keeper in the office of the Commissioner for Greater Production at Regina.

In reply I would refer you to your letter to the Commission of March 7th in which you asked whether a special examination would be set for this position, and to our reply of March 22nd pointing out that Mr. Garvin who was then temporary employed would be required to take a special examination in competition and asking you to furnish specifications required for the position. On receipt of your reply of April 29th containing the required specifications as furnished by Commissioner Graham, the position was ordered advertised and you were notified of the advertisement on May 6th. The examination was held on June 12th and Mr. W.J.Tyacke, Edmonton, Alta. was declared the successful candidate.

Under these circumstances there is in the opinion of the Commission no necessity for delaying the appointment or for making any new selection.

Dear Mr. Graham,-

With reference to our previous correspondence on the subject of the appointment of a bookkeeper for your office, I endeavoured to have the position held open in compliance with your request, but the Civil Service Commission has carried out their intention of having an examination for the position, of which you were advised and with regard to which you furnished specifications for the advertisement.

I am now advised by the Commission that Mr. Wm. J.Tyacke, of 10277 - 92nd St., Edmonton, Alta., has been selected for the position and that he is being requested by the Commission to report for duty immediately upon receipt of instructions from the Department.

Will you therefore kindly advise Mr.Tyacke and arrange accordingly.

As the Commission desires to know when Mr.Tyacke commences work, please advise me as to the date on which you take him on your staff.

Inclosure. September 11,1919.

Memorandum:

Honourable Arthur Meighen.

I have read Mr.Graham's telegram of the 4th inst., which I am returning herewith. The position taken by Mr.Graham is untenable, as on Feb.28, 1918, His Excellency in Council rescinded all powers formerly given to Commissions or Commissioners to make appointments, and all appointments in the public service must now be made by the Civil Service Commission. It is quite true that Mr.Graham has not been interfered with in the appointment of his field officers. My very interest in the work and the desire for his success has led me to wink at this, but the Civil Service Commission or the Auditor General might at any time discover that these appointments are being made irregularly and illegally, and put a stop to it. In the case of the field officers, it is difficult to get good men, and the delay involved in making the appointments through the Commission would seriously impede the work; but the appointments at the Regina office are of a clerical nature, and as there is no difficulty in securing clerks, I cannot consider these appointments in the same light as those directly concerned with the agricultural work on the reserves. The facts of the present case are as follows:-

In February, last, Mr.Graham took on Mr.Garvin in a temporary capacity as bookkeeper, and a certificate for his temporary employment was issued by the Commission. In March I was advised by the Civil Service Commission that for permanent appointment a competitive examination would have to be held, and Mr.Graham was advised accordingly on the 24th March. As requested, Mr.Graham furnished the specifications as to the qualifications necessary. In due course the Commission informed the Department that a competitive examination had been held on June 12, and that Mr.W.J.Tyacke, of Edmonton, a returned soldier, had been selected for the appointment. On May 8, last, we sent Mr.Garvin an application form with a copy of the advertisement. If Mr.Garvin did not enter the competition, he is not entitled

to any consideration, and if he did, he was unsuccessful. It is apparent, therefore, that we cannot do otherwise under the existing regulations than accept the appointment of Mr.Tyacke.

I might add, although it does not affect the status of the case, that at one time Mr.Graham reported to the Department that Mr.Garvin was unsatisfactory and that he wished to get rid of him.

CERTIFICATE OF APPOINTMENT.

The Civil Service Commission have had under consideration an application from the Deputy Superintendent General of Indian Affairs for the selection of a person well qualified to fill the position of Bookkeeper in the Office of the Commissioner of Greater Production on Indian Reserves in Manitoba, Saskatchewan and Alberta. They have, accordingly, held a Special Competition for this position in accordance with the provisions of Section 38 of the Civil Service Act, 1918, and, as a result of such competition, they have selected for appointment Mr. William John Tyacke, a returned soldier of Edmonton, Alta.

NOW, therefore, THIS IS TO CERTIFY that Mr. William John Tyacke, who is a British Subject within the required limits of age, who has been three years resident in Canada, and who is duly qualified as to health, character and habits, is hereby appointed under the provisions of Section 38 of the Civil Service Act, 1918, to the position of Bookkeeper in the Office of the Commissioner of Greater Production on Indian Reserves in Manitoba, Saskatchewan and Alberta, which office is under the jurisdiction of the Department of Indian Affairs, at an initial salary of $1,400. per annum, to date from the 11th October, 1919.

Dear Mr. Scott,-

I offered Mr. Tyacke the position of Agency Clerk, which I consider is worth from $400. to $600. more than the one which he at present holds, and he has refused to accept it, giving as a reason that he is trying to get another position in the Government, which he hopes to secure, and that he does not like the idea of going to the country to live.

Mr. Tyacke is not competent to fill the position which he at present holds. I do not wish to be harsh and have told him that in refusing this position, that he would have to make other arrangements. We can carry him on until the Spring, and at that time we will have to procure a proper kind of man.

In the meantime I would ask that the matter be allowed to stand in abeyance.

I will try and locate a returned soldier and then submit his name to you for the approval of the Civil Service Commission.

Sir,

I beg to acknowledge yours of the 21st inst. and note that I am not qualified to fill the position and perform the duties of Book Keeper in the office of the Commissioner for Vocational Education, Regina, and that my services are to be dispensed with on March 31st.

Before making any comment on the foregoing I would like to draw your attention to the following.

I am a married man, nearly 42 years of age, with four children all of whom are attending school, and I returned from France to Edmonton last March. I took the examination for this position in June, and was notified on July 21st that I had been successful and that I had to hold myself in readiness to report immediately upon receipt of instructions from the Dept of Indian Affairs. August passed. The middle of Sept. came still no word. I then went to see the Head of the Returned Soldiers' Commission for Alberta. He wired to Ottawa. After waiting 20 days, he wired again, and four or five days after, he received a wire from Ottawa, stating that they were looking into the matter. Finally on Oct. 3rd I received word from Mr Graham that I had to report at Regina. I went at once and after being allowed a few days to locate a house I commenced work on Oct. 11th, nearly 3 months after the time I had been notified to hold myself in readiness, and during which, I had only worked two weeks. As a result from arriving so late in the year. I could not rent a house, and after waiting for a month, during which time my wife and family were still in Edmonton. I had to buy a house and had to send to relatives in England for the money to make the first payments.

OFFICE OF THE
DEPUTY SUPERINTENDENT GENERAL
OTTAWA

Memorandum,- February 11, 1920.

Hon. Mr. Meighen.

Incl. I beg to attach hereto a letter, from Mr. William J. Tyacke, of Regina, making a claim against the Department for a portion of his expenses while waiting to be notified of his appointment to the Regina Indian office.

Mr. Tyacke was chosen by the Civil Service Commission from the competitors for the position of clerk at the Indian Office, Regina, and was appointed by the Commission on July 12, 1919. They notified Mr. Tyacke of his appointment, and asked him to report for duty immediately on receipt of instructions from the Department.

On July 31 Commissioner Graham was told to advise Mr. Tyacke of his appointment, and to arrange for his services, but he did not take action until October. Mr. Tyacke's service, therefore, dated only from October 11, 1919.

You will, no doubt, remember this case, as, in order to get Mr. Graham to act, I had to lay the facts before you with a special detailed memorandum.

We have the right to reject the appointments of the Civil Service Commission within six months of the date of the employment of an official, or to give him a second six months' trial, if thought advisable.

Commissioner Graham reported unfavourably of Mr. Tyacke's work, and requested his discharge, you approved, and I took action. Mr. Tyacke now makes a claim against us, with which I have certain sympathy. I think, however, that it would be a bad precedent and a dangerous one to pay any of these charges. I would suggest as a way out of the difficulty that we continue to employ Mr. Tyacke for four months on the second six months' probationary period. This

Dear Mr. Graham,

As you are probably aware, Mr. Tyacke has made a claim on the Department for expenses amounting to about $800.00 while waiting to be notified of his appointment on your staff.

You will remember that you were notified on the 31st July last of the selection by the Civil Service Commission of Mr. Tyacke for the position, but that he was not taken on your staff until the 11th October. I think Mr. Tyacke has some grounds for his claim, having considered the same sympathetically with a view of affording him some compensation, I have decided to retain his services from the 11th April next for a further period of four months. I am so advising him by letter of even date. The Minister has approved of this action. A copy of my letter to Mr. Tyacke is enclosed herewith.

Yours truly,

Dear Sir,-

Your letter of the 29th ultimo has been received in which you make claim for a portion of your expenses while waiting to be notified of your appointment to the Regina office.

I have been considering your claim sympathetically and have decided to continue your employment for a further period of four months from the 11th April - that is, until the 11th August next.- and of course you will be paid salary until that date unless you find other employment and leave the service in the meantime.

Sir,

RE notice of dismissal as Book-Keeper in office of Commissioner of Ind. affairs Regina.

About four weeks ago I Wrote to you pointing out, that taking up the above position had cost me about $800. of which over $500 was directly attributable to the Officials of the Indian Department, either at Ottawa or Regina, and asking for a refund of a portion of this money. but up to the present I have had no reply.

I would also like to draw your attention to the following.

Since the beginning of January I have been attending Accountancy Lectures at the Collegiate, with the intention of taking the Intermediate Examination of the Chartered Accountants' Association, which is held during the last week of April.

The next examinations of the Civil Service Commission, do not take place until June.

My eldest daughter is in Grade 11 at the Collegiate and her examinations take place in June.

You will thus see that should I have to leave Regina at the end of March, I will miss my examinations which as I am nearly 42 years of age will be my last chance, and my daughter will also miss her examination, thereby throwing her back twelve months. and in view of this, I would respectfully ask that my duties be continued until the end of June.

I am, Sir.
Yours respectfully.

Dear Sir,-

I am in receipt of the following telegram today from Mr. W. B. Crombie, Acting Commissioner for greater production at Regina,- " Garvin bookkeeper this office notified by Civil Service Commission to report immediately for duty Duck Lake. Require this man here. Chief clerk has been off duty since December account sickness. Working nights in order to carry on during Commissioners absence. "

You will remember that by letter and requisition of 11th ultimo I requested that the Duck Lake clerkship be advertised. A certificate was recently received from the Commission for the permanent appointment of Mr. Garvin to the position. The Department is also in receipt of a certificate for the temporary employment of Mr. W. Witts (R.S.) for six months from the 30th January last in this position.

In view of the latter mentioned certificate and of the urgency for Mr. Garvin's retention for a short period at the Regina office, I would request that the Commission will kindly approve of Mr. Garvin's remaining at Regina for the present. I have wired Acting Commissioner Crombie that this request is being made to the Commission.

Dear Sir,

It was a shock when I learned that under the regulations my salary and bonus for the month of March had been reduced by one half. This is a very vital consideration, for my salary is the only contribution to the support of my family, and the decrease has embarassed me. Cost of living is high all over the Country, but perhaps nowhere so high as in Regina, — rent alone absorbs fifty-five dollars per month, — and my illness involved heavy supplementary expenditures. Present anxiety is now renewed by sudden impairment of income.

To recover normal strength the doctor advised a period of rest, and, while I would

appreciate the recommendation of the Deputy Superintendent to the Civil Service Commission to allow me leave, but without pay, for a period of two months, the permission, if given, I could not avail myself of under the qualifying conditions, for I have not the means. In short I have no alternative but to ask to be allowed to resume my duties at once.

Although I have not been with this Department for as long a period as that cited in the regulation which have been applied in my case, I was for several years in the N. W. M. Police, another branch of the Dominion service, and I hope the Department will review the circumstances and reconsider their decision, allowing me full salary and

Dear Mr. Scott,-

I have your letter of the 3rd instant, regarding reductions which the Department are making from Mr. Cookson's salary, owing to his absence from the office through illness.

I wonder if there is any possible chance of this man getting his pay, as it is impossible for him to make ends meet on his salary, and now to be placed in the position of not being able to draw his salary for half of March and all of April, is to say the least, hard. Mr. Cookson has a large family - five girls. He pays a big rent and by the time he buys fuel and clothing, there is hardly enough money left to keep his body and soul alive.

I know that you will do everything possible to help this man out.

Dear Mr. Graham,-

I have your letter of April 8, with reference to Mr. Cookson's salary.

While I feel very sympathetic towards Mr. Cookson, as well as to some of our other officers who, just at the present time, are being similarly dealt with, I regret that I am bound by the Civil Service Regulations, which have been approved by His Excellency the Governor General in Council, and have the force of law. There is no doubt that there are cases where these Regulations, regarding the extent of sick leave that may be granted, work hardship. The extent of leave is governed by the length of time the employee has been in the Service, and, in Mr. Cookson's case, we have granted all the privileges in our power.

Dear Mr. Scott,-

On the 17th of January last you authorised me by wire to send Mr. Witts, who is a returned soldier with a family, to Duck Lake Agency to fill the position of Clerk. At the time Mr. Witts was notified by me to proceed to Duck Lake, he was employed with the Great War Veterans here, as Clerk, but was looking for an outside position. The reason for sending him in a hurry was, Mr. Ostrander, who held the position of Clerk there, left and the Agency was without assistance. Mr. Witts has moved his family to Duck Lake and is now established at that point.

During my absence the Civil Service Commission, without reference to this office as to what had been done, notified Mr. Garvin that he had been appointed Clerk at that Agency. Mr. Garvin being a single man and living with his mother, could not accept the position and the Civil Service Commission was wired to that effect. The taking away of Mr. Garvin from the office at the time would have completely tied up the work here, as he was the only available Clerk we have in the office, with the exception of the stenographers.

It would appear to me that the Department is not familiar with conditions here or orders of this nature would not have been issued. It is true you sent Mr. Tyacke here to replace Mr. Garvin, but when this man arrived it was found in no time that he was utterly incapable to perform the duties which were assigned to him. He has been doing little work of any kind, unless under close supervision. I am told that he is to remain in this office for a further period of six months, which is hard to understand. He is taking up office space and we are charged with his help and getting no value. If the Civil Service Commission make a mistake in appointing a man who is unfit for the work and bring him in from another Province when men could be found at the very door, it seems to me that

me that the Government should not hesitate to relieve such a [redacted]n of his duties.

I cannot understand the Department's attitude towards Mr. Garvin all through. It has been pointed out quite clearly that he enlisted voluntarily in the Royal Air Force and his records show that it was no fault of his that he did not see active service. He passed the Civil Service examinations last June, and as the Commission saw that he was fit to go to Duck Lake, shows conclusively that they were disposed to give him employment. I cannot understand why the work in my office should be disorganized as it is. Mr. Garvin has been here for fifteen months and for the past eight months has proved himself to be very satisfactory and is a valuable asset to the office.

The situation in this office at the present time is this - We have work sufficient to keep going just double the staff we now have, when all are on duty, yut as you know, Mr. Cookson, who is the senior Clerk here, has been absent for over three months. Mr. Crombie is leaving on the 15th of the month and I have no one whom I can depend upon to carry on the work. In fact two men are really doing what should be delegated to four or five. It seems peculiar that the Soldier Settlement Board, Customs Office and Post Office are provided with a full staff. This Department where so much has to be done and where so much depends upon directions and supervision, is handicapped through lack of staff.

I hope that Mr. Garvin's case will be satisfactorily adjusted at an early date and his appointment made permanent.

Dear Mr. Graham,-

I have your letter of the 7th April, with reference to Mr. Garvin's case. The action of the Civil Service Commission to transfer Mr. Garvin to Duck Lake was taken without my knowledge or approval, and as soon as I heard of it, I had the matter reconsidered. I informed you why we were keeping Mr. Tyacke in my letter of the 24th February, 1920. As for Mr. Garvin's case, you have evidently forgotten that you reported by telegram on the 19th June, 1919, and afterwards by letter of the 9th July, 1919, that Mr. Garvin "is not competent enough to carry on the important work to be done", and you asked that you should be allowed to keep him "until you had secured a returned man who is fully capable of filling the bill."

Up to the present I had not heard that you desired to keep Mr. Garvin permanently. I have arranged that he should not be interrupted in his present position, and as you report that he is very satisfactory, I will now make application to the Civil Service Commission to have a permanent certificate issued for his continued employment.

As the Minister informed you in his letter of the 3rd April, the Civil Service Commission will not make any special rule for this Department. We have six months in which to reject an employee, and can, if necessary, extend the probationary period for another six months.

Mr. Tyacke's term of service in this Department will cease on the 11th August, next.

Sir,-

Taking as authority Department letter No. 427,063-A6 of the 29th ultimo, Mr. A. Garvin's name was placed on the pay list for the month of May. The pay cheques for the staff were received this morning, but a cheque for Mr. Garvin was not included. As he is performing work which is a proper charge against appropriation, his salary ought to be paid from Headquarters.

I would remind you that Mr. W. J. Tyacke was appointed with a view to securing the services of a better qualified man than Mr. Garvin. The appointment however failed altogether of its object, and if Mr. Tyacke's salary is charged to appropriation I think Mr. Garvin's should be also.

Dear Mr. Scott,-

I wrote to the Department on the 31st ultimo in regard to the placing of Mr. Garvin's name on the pay list, and have today received an official notification dated the 11th June, stating that when Mr. Tyacke leaves the service on the 11th August next, Mr. Garvin's name can then be added to the monthly pay list, and that his salary will then be at the rate of $1,020.00 per annum, plus bonus of $222.00. The salary and bonus combined are less than Mr. Garvin is now receiving and after examining the classification printed by the Civil Service Commission in September of last year, I note that he is graded as Clerk-Book-keeper. Mr. Garvin's duties here are very much more important than those defined for Clerk-Book-keeper and I think he should be classified as Senior Clerk-book-keeper, the duties defined under that class being more in line with those assigned to Mr. Garvin.

I shall be glad if you will take the necessary steps to have Mr. Garvin correctly classified.

The initiative in any change should be taken by Mr. Graham. It is impossible for the Department to follow out suggestions. The necessary information upon which to base our case is not available. If these were incorrectly or carelessly stated it is not the fault of the Department. At present Mr. Garvin's appeal cannot go before the Board of Hearing, and any promotion must be thrown open to more or less competition. Mr. Graham seems to think that changes can be made overnight. Dear Mr. Graham:

I have your letter of the 16th instant, with regard to the classification of Mr. Alfred Garvin.

As I explained to you in my letter of even date regarding Miss Tye, it would be more advisable to have the brief prepared by Mr. Garvin and submitted to Headquarters through you. I shall be glad, therefore, if you will kindly take the matter up with Mr. Garvin with a view to having this done. When it is received, I shall be pleased to take the matter up with the Civil Service Commission.

Yours truly,

Sir!

Re termination of services as Bookkeeper in Office of Commissioner of Indian Affairs Regina.

As the extra time so kindly granted by you in your letter of Feb 24th has nearly expired I am compelled to again draw your attention to my letter of Jany 29th especially that part dealing with my actual financial loss. In the first place, however, I must say, that I appreciate your kindness, very much, in extending my time from March 31st to Aug. 11th giving me as I stated in my letter of Feb 24th, opportunity to take both the Chartered Accountants and the Civil Service examinations and also allowing my daughter to take her Junior Matriculation examination.

I am now on the look-out for another position, but taking that part of Mr Graham's letter to you (Apr. 13th) which refers to myself, as a criterion of the kind of recommendation I would receive from him it is evident to me that I stand very little chance of procuring work in Regina. and it is with this idea in mind, that I would respectfully ask you to re-consider my case, and make me an allowance for the three months I was waiting to come to Regina, in order that I may secure work in some other part of the country.

I may add that a prominent official of the Returned Soldiers in Edmonton was very emphatic in his opinion that I should be allowed for that time.

I remain Sir.
Your obedient servant

Sir/

Yours of the 17th inst. to hand and I note that you are unable to grant my application for an allowance for the time I was out of work in Edmonton. Waiting instructions from the Indian Department to take up the position of Book Keeper in the office of the Commissioner for Greater Production on Indian Reserves. Regina.

I was dismissed according to your letter of Jany 21st on the grounds of "qualification." What that exactly means. I don't know. If it means that I have not been performing my work satisfactorily, it seems strange to me that I was never told so. and I wonder who has been doing the work for the past nine months. Should it mean that I have no theoretical knowledge of Book Keeping I hope the following will interest you.

I hold the following certificates :-

3 years. Course { 1st Class (Junior) / 2nd Class (Intermediate) / 1st Class (Advanced) } National Union of Teachers London. England

I was Instructor of Book Keeping for two years to Technical classes
I was student for 1 year Accountancy Lectures. University of Alberta.
I took the Alta. Chartered Accountants' Inter. Examination gaining 47% in Book Keeping.
I was Instructor of Book Keeping. Khaki University. Witley camp England.

In addition to the foregoing I have been engaged as Ledger-Keeper in Edmonton & Calgary, and Audit Clerk in Edmonton. and yet I am classified in a certain letter as "an incapable and incompetent" man, whilst, strange to say, the man who is qualified to take my place, and whom I've been asked to-day to initiate into the mysterious methods of book-keeping as practised here, has never done a stroke of Book-Keeping in his life.

The above explanation is sufficient to show, had you already not known, that qualification was only an excuse for my dismissal, but the real cause of my dismissal, and the reason why I was kept waiting so long to take up the position was the refusal of a certain Government official to recognise the authority of the Civil Service Commission to appoint anyone to a position under his control before he had expressed his approval of the party. as he very aptly puts it "The Civil Service Commission may appoint but they can't retain".

I think, with all due respect to yourself, that I am only asking for my just rights, but should you decide otherwise, I may say, that I don't intend to suffer alone.

I am, Sir,
Yours respectfully,

Sir,

I enclose, herewith, certificate by Dr. D. S. Johnstone of this City in regard to Mr. W. J. Hay, an employee in this office, who, you will note, has been sick since the 14th. of November last. Mr. Hay's salary is charged to the warehouse account, and I have issued cheques in payment to him for the months of November and December. I think and trust that my action in this matter is in order.

Dear Mr. Graham,

My attention has been drawn to your letter of the 22nd. ultimo with regard to Mr. Hay, who it appears has been absent from his duties in the warehouse from the 14th. November, and who has been paid to the end of the month of December. It seems that Mr. Hay only assumed his duties on the 1st. November and that after he had worked 14 days he was taken ill and has been paid for 1½ months.

Bearing in mind the regulations governing the granting of leave to employees, this action is quite irregular and no further payments should be made to him. In future all absences of such duration should be reported to the Department before any payment of salary or wages is made.

Dear Mr. Scott,

I have your letter of the 2nd. inst. in regard to my action in paying the salary of Mr. W. J. Hay during his absence from the office on account of sickness.

my memo Jan 10/1923

Regarding the assumption that Mr. Hay only took over his duties on 1st. November last, I have to remind you that he has been an employee in this office for the past 2½ years. His name does not appear on the office pay sheet, but his salary is charged to warehouse account, and has appeared in the cash statement covering the warehouse transactions for the past fourteen months.

Mr. Hay's duties comprise the keeping of the warehouse stock books, the care and filing of invoices and records of shipments, in short all the office work dealing with the warehouse business. His services are also employed in checking returns from time to time, and he gives such other assistance in the office as requirements may necessitate. I think that, in view of the fact that Mr. Hay has been engaged for so long a period, he should be entitled to draw his salary while absent owing to sickness, and I strongly recommend that he should continue to be paid until he is able to resume his duties.

Memorandum

Mr. Scott:-

Mr. Hay has been employed at Regina since November, 1921, as pointed out in my memorandum on fyle, not November, 1922 as stated in your letter. However, this does not alter the case, under section 39 of the regulations governing leave of absence a temporary clerk cannot be given, with pay, more than 12 days sick leave, but can be given additional leave without pay.

This man is paid from warehouse account funds, but the regulations apply to him irrespective of the fund from which he is paid.

He has been absent from duty since 14th November last, and it seems is still absent.

Dear Mr. Graham,

I have your letter of the 10th. instant with further reference to Mr. Hay's leave of absence. The regulations apply to Mr. Hay irrespective of the funds from which he is paid. A mistake was made in stating that he assumed his duties on 1st. November 1922, as the records show that he has been employed since 1921. No exception can be made in this case and the regulations must be observed. Therefore, further payments of salary cannot be sanctioned until Mr. Hay resumes his duties.

Mr. Hay is, as you know, not paid from any Parliamentary appropriation, but from the warehouse funds, therefore his name could not be placed on our bonus pay-list. Employees whose salaries were charged to Greater Production were not paid bonuses by us, but were paid by Mr. Graham from his funds.

I would suggest asking Mr. Graham why he did not pay this man a bonus. There is another warehouse employee, and I presume he did not get the bonus either.

Mr. Featherston.

Mr.W.J.May, who is referred to in Miss Allan's memorandum of the 24th March, is a temporary employee, paid not from Parliamentary Appropriation but from a fund created by the sale of Militia Department and other clothing and supplies to Indians and Indian Residential Schools. The position is, therefore, in every sense a temporary one.

If it is thought advisable, I can instruct Mr.Graham to pay him a bonus or increase his salary. There is another employee at the warehouse, who, I think, would make a like demand, but if they are not being paid a reasonable wage for their services, there is no reason why the matter should not be remedied. At present they have plenty of funds there, but the positions are of a most temporary character.

Dear Sir:-

Previous to this year Mr. Thomas Henderson has been each fall looking after the crops grown on the leased Indian lands on the Blackfoot Reserve, and also the lands which have been sold under contract by your Department.

When Mr.Henderson disposed of his ousiness last fall to the writer, the records of the Indian work were all handed over to him, and at the time Mr. Henderson tendered his resignation he recommended Mr. MacCallum as the logical person to succeed him.

The writer has other farm interests to look after which are in close proximity to the reserve and he did considerable driving with Mr. Henderson last fall and is conversant with the work it is necessary to do for your Department. Consequently he is in an excellent position to carry on and he has the orginization and the records to insure the work being given proper attention and being done in a satisfactory manner.

The writer is a native Canadian who has lived in the West since 1910 and understands conditions thoroughly. As to his ability and character he would refer you to the local branch of the Royal Bank of Canada. He is also well known to Mr. Gooderham, your agent at this point.

As it will only be a short time now before this work will require to be started the writer wishes to apply for the position vacated by Mr. Henderson, and if you will give this application favourable consideration and let him know if it is acceptable to your Department he will plan his work so that he can give proper attention to looking after your interests.

Yours truly,

Regarding your inquiry hereunder, referring to letter addressed to the Deputy by Messrs. McCallum & Sutermeister, of Gleichen, I would suggest that, before any action is taken, Agent Gooderham be asked to report whether in his opinion Mr. McCallum would be a suitable person to take up the crop share inspection work formerly performed by Mr. Henderson. This work is of a peculiar character, and the results in so far as the Department is concerned depend greatly upon the supervision given by whatever official may be appointed. Mr. Henderson was peculiarly adapted for this work, but unfortunately, in the interest of his health, found it necessary to move to California.

Dear Sir:-

I beg to acknowledge receipt of your letter of the 15th inst. inclosing copy of letter of application by Mr.MacCallum for the position of Inspector of Leases for this Reserve. In reply,I beg to say that Mr.MacCallum is a capable business man and through his partnership organization is,I believe, in a position to handle the position in a satisfactory manner.

The firm of MacCallum & Sutermeister could do this work in much the same way as the firm of Henderson & Wallory did it. In the latter firm, Mr Henderson did the outside work and Mr.Wallory did the office work. In the new firm, Mr.Sutermeister will do the outside work,I understand, and Mr.MacCallum the inside work. This firm is managing many properties formerly managed by Henderson & Wallory.

I have found Mr.MacCallum and his partner to be strictly honest - a very important point to be considered in the selection of an inspector.-Mr.Sutermeister is a Swiss and cannot get naturalization papers. I believe you should know this because he is a practical outside man and could undoubtedly do the outside part of the work, in connection with the leases.

I do not know any person or firm better equipped to take over this work than Mr.MacCallum who represents the firm of MacCallum & Sutermeister.

There is not much more that I can say regarding this applicant. He is a young man with a good education and has been known to the writer for over twenty years. The fact that he is unemployed and capable of handling the position is my main reason for recommending him before any other applicants that I know.

The crops are light and I believe all inspection will be completed within three months. It is hoped that arrangements can be made to fill the position without delay.

Dear Mr. Foran,-

I beg to advise you that it was necessary to obtain the services of a Clerk, Grade 3, at the Blackfoot Indian agency for a short time to clear off arrears of work. Mr. S. E. Dafoe, of Gleichen, was engaged under the 30-day clause, but as it will be necessary to retain his services for probably three months we desire that a temporary certificate be issued in his favour. I am inclosing herewith his application, also requisition. I may say that before instructing the Indian Agent to engage someone I ascertained by telephone from your office that there is no eligible list at Gleichen either for Clerk, Grade 2, or Clerk, Grade 3.

Dear Sir:

With reference to your communication of the 12th ultimo, File 427,063-104A ty. enclosing a requisition for a temporary Clerk, Grade 3, at the Blackfoot Indian Agency Branch, Alberta, in which position the services of Mr. S. E. Dafoe of Gleichen were secured under the authority of the Thirty-day Clause, I am directed to inform you that in the absence of qualified eligibles and owing to the fact that it is not anticipated that the services of an employee will be required for a period longer than three months the Commissioners have approved of Mr. Dafoe's employment for the period stated.

Your attention is, however, called to the fact that should it be necessary to continue this position subsequent to the 11th of November it will be necessary to advertise a competition in order to establish an eligible list.

Dear Sir,-

With reference to the engagement of Mr. S. E. Dafoe as Temporary Clerk at your agency, owing to the additional work in connection with the inspection of Crop Share Leases, kindly let me know how long you think it will be necessary to retain his services. From the paylist it appears that he began work on August 11 and we thought it advisable to get a three-months' certificate from the Civil Service Commission, which they have issued, effective from the above date; in sending it to us, however, they state that should the services of an employee be required for any longer than this period a competition will have to be held. Kindly let me hear from you in the matter.

Sir:-

Replying to your letter of the 8th inst. regarding Mr. S.E.Dafoe's services as Temporary Clerk at this Agency, I beg to say that I believe it will be necessary to retain him until the end of the month of November.

Owing to adverse weather conditions many of the farmers under Crop-Share Agreement have been unable to thresh their crops and until this is complete the share of the crop to be turned over to the Department cannot be ascertained. From present indications, I do not see how any threshing can be done for at least two weeks.

OFFICE OF
INDIAN AGENT

B.1.

Gleichen, Alta.

August 4th.1931.

Dear Sir:-

On return from holidays I made a tour of the farming country South of the Bow River. Crops are not good and in my opinion, wheat will not average over 10 bushels per acre. Recent hot weather has seriously cut down the yield and stopped growth. Coarse grain crops are short and without rain, will not be worth threshing and at best will make very little feed. I estimate the wheat crop on the leased area at 25,000 bushels. Coarse grain crops which were seeded late in the season are still very short and thin and cannot be estimated.

Harvesting operations have started but will not be general before the 15th of this month. Inspection of crops under agreement will be necessary as in former years although the value will be considerably less. This work can be done as was done last year, by securing the services of an extra clerk and sending him in the area by car every day when threshing or combining is in progress. The regular staff cannot do this work and the services of an extra man may not be needed for more than two months or at most until the end of October. Mr. Sam Dafoe of Gleichen did this work last year and his services were satisfactory. He is not working at present and unless he secures employment within the next few days, he will be glad to do the work again this year. It is known that his appointment will not receive opposition locally. The car which was used last year by him can be used again and I would recommend that authority be granted to secure his services for the period mentioned. As inspection should commence not later than the 17th inst. a wired reply would be appreciated, please.

Memo.

Acting Deputy Superintendent General,-

I desire to offer certain observations concerning the letter hereunder, from Agent Gooderham to Dr. Scott, and dated the 4th instant. The work for which Agent Gooderham now suggests the temporary employment of Mr. Sam Dafoe, of Gleichen, is in connection with the numerous crop share leases which are at present current and in effect on the Blackfoot Reserve. You will recall that these crop share leases were inaugurated and entered into by the Department with defaulting purchasers in 1926. They have been entirely satisfactory, with the result that the Department has obtained more than half a million dollars in this manner from accounts which for years previously were considered absolutely hopeless.

In connection with all these agreements it is necessary for the Department to employ special help during the threshing season, in order to carefully check up threshing operations and to see that the Department receives the share of the crop to which we are entitled by the terms and provisions of the crop share agreements. The employment of such a temporary official is not only necessary, but I am convinced, decidedly profitable to the Department, and in fact in no other manner could an accurate estimate be obtained of the returns due the Department.

I should like to direct your attention to the statement which Agent Gooderham makes, to the effect that Mr. Dafoe's employment would not be opposed locally.

Dear Mr. Foran,-

With reference to my letter of the 29th ultimo and enclosed requisition requesting that you issue a temporary certificate in favour of Mr. James Campbell, of Drumheller, Alta., as Clerk, Grade 3, Blackfoot Indian Agency, Alta., and verbal request for full information as the necessity for his employment and the kind of work he will be called upon to perform, I beg to state as follows,-

There is a supply of good coal, if properly mined, on the Blackfoot Indian Reserve, but the Indians are not competent to operate this without supervision, and the Indian Agent reported to the Department that he could supervise their mining operations with the assistance of Mr. Campbell who is a qualified miner and who could give them valuable assistance and advice. Mr. Campbell wanted a much higher salary, but we advised the Indian Agent that he might be engaged if he would be willing to accept the minimum remuneration for a Clerk, Grade 3, namely, $115.00 per month. Mr. Campbell has agreed to do this and we requested you to issue a certificate in his favour.

It is a matter of public importance that we should develop this coal mine. Mr. Campbell is fully qualified, both to perform clerical work in the office, with which he assists and to supervise the mining operations. He is being paid from Band Funds. The Agent reports him as being a diligent worker and that he is obtaining good results. If you desire any further information or advice with reference to the employment of this man, I should be glad to discuss the matter with Mr. Cole.

OFFICE OF
INDIAN AGENT

4th August.1932.

Sir:-

Your File - 427063-104XA ty.

Answering your letter of the 15th July - I returned from holidays on the 1st inst:and have made a tour of inspection over the area which requires a man to looK after crop share leases and crop payment contracts.

Owing to hot dry weather the crops are maturing very rapidly and harvesting has commenced though it will not be general until the 15th.The acerage under crop is large and uniformly good,and the services of an Inspector will be required for three months commencing not later than the 15th inst: The area to be covered extends for 40 miles and the bushelage to be checked will run into hundreds of thousands.This will require,not only the full time of the Inspector but will entail a tremendous amount of work at this office.

Mr.S.E.Dafoe held this position in 1930 and gave satisfaction.I recommend that his services be secured again as an extra clerk at the salary of $115.00 per month.This was the salary paid in 1931.

The Inspector must have a car.In 1930 and 1931 a Ford Tudor originally used by myself was detailed to this work.It is now practically out of commission and to put it in running condition would cost nearly $150.00.It is a 1928 model and a dealer values it as it stands at $75.00.

$ 796.73

I ask that this car be turned in at that value on a Ford Truck with closed cab (Medel A.A.) through the local Ford agents MacCallum & Smith.The net cost would be $596.15.When inspection work is completed this truck would be issued to the Farm Instructor at Cluny.His present truck has run about 50000 miles and during the winter it is in daily use

between the coal mine and Cluny and must be in running condition.The truck in use is worn out and will not do the heavy winter work.

This is the most economical way to provide transportation for the Inspector and the Farm Instructor,I think.

Owing to the very limited time left to make final arrangements,would you please wire your reply as to the appointment of Mr Dafoe and the purchase of the truck.

OTTAWA, August 10, 1932.

Dear Sir:-

I beg to advise you that it will be necessary to employ an extra clerk, grade 3, at the Blackfoot Indian Agency office, Alberta, for a short time, and we have today wired the Indian Agent that he may engage Mr. S. E. Dafoe who was employed in 1931, at a salary of $115.00 per month. He will be paid from Band funds.

I am enclosing herewith a requisition and would ask that you grant approval of this. You will note that the certificate of the representative of the Treasury in this Department is endorsed on the requisition. If it is, necessary on your so advising us, we will have this temporary employment approved by the Treasury Board. It has the approval of the Minister.

Dear Sir,-

With further reference to telegram of the 10th ultimo instructing you to engage Mr. Dafoe as Clerk, Grade 3, in your office, I beg to say that we requested the Civil Service Commission to issue a temporary certificate in his favour, which they have done, to the 30th instant, but in forwarding this to us, they state that as Mr. John Barrie qualified as a result of advertisement for appointment as Clerk, Grade 3, his name is on an eligible list in the Civil Service Commission and, therefore, if the employment of a Clerk is required after the 1st October, Mr. Barrie will have to be considered.

I should appreciate your letting me have a report at as early a date as possible as to whether you consider Mr. Barrie would be suitable for the position now held by Mr. Dafoe and, if so, whether he would be available for appointment. If he is not suitable and available, I think we would have no difficulty in obtaining the desired certificate for Mr. Dafoe.

Personal

Dear Sir:-

Referring to your letter of the 7th. instant, I beg to say that I do not think that Mr. Barrie could handle the position now occupied by Mr.S.E.Dafoe. Barrie is a miner with some office experience.Dafoe is a farmer who has had office experience. The position is not an office job; Dafoe is out every day among the farmers checking up threshing; dealing with elevator warehousemen and collecting grain tickets etc. He is really an inspector of all lands under lease and sales agreement. He must know farm locations and the farmers. The territory to be inspected is 40 miles in length with an average width of 5 miles. This work requires the services of a man familiar with the district and with a knowledge of farming. Mr. Barrie never lived in these parts and his services would be of no value on this work. I understand that he holds a very good position with a coal mining Company at Drumheller and would not be interested even if he could do the work.

To classify the work or position which Dafoe performs as Clerk Grade 3 is most misleading. I know your difficulty in fitting these jobs into a classification, but if you could advise the Commission that the position is much like that of a Farming Instructor and that Mr.Dafoe is peculiarly fitted for it, I believe they will understand.

Threshing is in full swing and there will be over 250,000 bushels of grain on our straight leases and added to this is the inspection of crops off 25,000 acres sold on crop-payments.from which a large bushelage will be collected. Dafoe's services must be retained. I really do not know where we might secure a man who could replace him.

A. F. Mackenzie Esq.

Acting Deputy Superintendent General,-

The season of the year is approaching when it will be necessary for our Inspector of Leases on the Blackfoot Reserve to very closely watch harvesting and threshing operations of our numerous purchasers who, during recent years, have been paying for their lands under the terms of crop share agreements.

When these crop share agreements were first made effective they were particularly successful owing to the close and careful supervision given at the time by Mr. Henderson, temporarily employed as our Inspector. This work is now being performed by Mr. Sam Dafoe under the direction of our local Agent, Mr. Gooderham.

I am quite familiar with the local situation having initiated on the ground these crop share agreements, and I am advised that in order that Inspector Dafoe may carry out his work efficiently a light delivery truck is urgently required for his use. The purchase of such a truck is very strongly recommended by Agent Gooderham and I am convinced that it is absolutely necessary as it is quite impossible to cover the several townships over which our crop share leases are scattered without some such means at the disposal of our Inspector.

I am advised that at present there is no car available for this purpose in connection with the Blackfoot Agency, with the exception of one old car which cannot be operated without extensive repairs, which repairs would actually greatly exceed its present value. To repair such a machine I consider senseless economy.

Indian Affairs. (RG 10, Volume 4071, File 427,063-104)

PUBLIC ARCHIVES
ARCHIVES PUBLIQUES

For the present our Inspector has to make use of the Agent's car, with the result that Mr. Gooderham is compelled at times to sit idly in his office when it is both his desire and his duty to be travelling around the Reserve attending to various matters. Following the completion of our Inspector's work this truck, if purchased, could be turned over to one of the farm instructors, who also at present is very much in need of one in connection with his work.

Knowing the situation as I do I very strongly recommend that authority be given our Agent to purchase a light delivery truck for the purpose referred to, and I should like you to discuss this matter with the Minister at your earliest convenience as a definite decision is quite pressing.

Dear Sir,-

I have to acknowledge the receipt of your letter of the 27th ultimo, file IA-IA8-3002, with which you forwarded a temporary certificate in favour of Mr. S. E. Dafoe as Clerk, Grade 3, Blackfoot Indian Agency, Alta., effective from August 15 to September 30, 1932, and in which you state that if the services of a Clerk are required after October 1, Mr. Barrie will have to be considered. On receipt of this letter we communicated with our Indian Agent, and I enclose a copy of his letter with regard to Mr. Barrie.

I think you will agree that it would be in the interests of the Department to have Mr. Dafoe continued in this position until the work under his charge has been completed, and I would, therefore, ask you to kindly give consideration to extending his temporary certificate to November 15 next, as requested in my letter of the 10th ultimo.

ALSO TO DATE OF THIS LETTER

Sir:

I beg to bring to your attention that the weather in this part of the country has been very unseasonable this fall, and therefore threshing has been delayed to a great extent. Mr. Gooderham, the Indian Agent at Gleichen has informed me that there are still quite a few farmers on the leased land and land sold on the crop share basis on the Blackfoot Reserve, who have not yet completed threshing operations.

Mr. S. E. Dafoe, as you are aware, was hired there on a temporary certificate as a Grade III Clerk, for the purpose of looking after the Indians' share of the crop on the above mentioned lands. The Civil Service Commission issued a certificate to Mr. Dafoe for a period ending the 15th instant, and the Agent now has asked that this certificate be extended to December 15th, or preferably December 31st. The Agent points out that the grain will not be marketed by these people until about the end of December, and the services of Mr. Dafoe will be required at this time. I would recommend that his services be continued until the work is completed, which should not be any later than the date above mentioned.

The Department will receive this letter on the 14th instant, and should it be decided not to extend Mr. Dafoe's certificate, I would ask that I be wired to that effect: Otherwise, his services will be continued until a reply is received to this letter.

A Clerk, Grade 3, was engaged at the Blackfoot Indian agency, Alberta, in connection with the crop share lease agreements. The approval of the Treasury Board and certificate from the Civil Service Commission were obtained, covering employment for three months to November 15, 1932. It has been represented to the Department by the Inspector of Indian Agencies for the Province of Alberta, that as threshing operations have not yet been completed owing to unfavourable weather conditions, and the grain will not be marketed before the end of December, the services of the Clerk will be required for a further period of a month or six weeks. The approval of the Treasury Board is, therefore, requested to cover this employment to December 31, 1932. Payment for this service is made from the Interest Account of the Blackfoot Indian Band.

Memorandum:

Honourable Thomas G. Murphy.

On July 4th last, we were advised by memorandum from your office that if it would be necessary to employ an Inspector in connection with crop share leases on the Blackfoot reserve, Mr. S.E. Dafoe was to be engaged. We communicated with the Indian Agent and were advised that it would be necessary to employ someone in this capacity from the 15th August for a period of three months. Mr. Dafoe was, therefore, engaged as Clerk, Grade 3, at a salary of $115.00 a month, less 10%. We obtained the approval of the Treasury Board for this employment to November 15, and have received the temporary certificate from the Civil Service Commission to the 15th instant. We have today received a letter from Inspector Christianson, copy of which I enclose, in which he states that Mr. Dafoe's services will be required until December 15 or 31.

I regret that the approval of the Treasury Board was not obtained for a longer period than three months, but at the time it was not expected that Mr. Dafoe's services would be required beyond November 15.

If you concur in Mr. Christianson's recommendation in view of the statements made in his letter, I would ask you to kindly submit the matter for the approval of the Treasury Board in order that we may be able to obtain an extension of temporary certificate for Mr. Dafoe.

MEMORANDUM

Dr. McGill:

With reference to the attached correspondence, and particularly to the Minister's memo, I do not see how Mr. Dafoe's employment beyond the 15th of November can be sanctioned either as a Clerk or a Labourer without the authority of the Treasury Board. It would be improper to pay this man as a labourer in view of the fact that his duties call for, and he has already been classified and paid as a Clerk Grade 3 for six months.

It is regretted, therefore, that this office cannot concur in the suggestion that Dafoe be paid as a Labourer for the period he may be employed subsequent to November 15th.

As you are aware, at the Blackfoot Agency, Alberta, we have been employing Mr. S. E. Dafoe as Clerk, Grade 3, in connection with crop share leases. His employment to the 15th instant has been covered by temporary certificate. It was hoped that his service would not be required beyond that date, but we have been informed by Inspector Christianson that owing to unfavourable weather conditions in the district, threshing operations have been greatly delayed, that many of the farmers on the leased land on crop share basis have not completed threshing and that the grain will not be marketed before the end of December. In view of this report it would seem impossible to dispense with Mr. Dafoe's services. I have, therefore, to request that you will kindly issue an extension certificate to cover his employment to December 15th, next.

Yours very truly,

Encl.

A Clerk Grade 3 was engaged at the Blackfoot Indian Agency, Alberta, in connection with the crop share lease agreements. The approval of the Treasury Board and certificate from the Civil Service Commission were obtained, covering employment for three months to November 15, 1932. It has been represented to the Department by the Inspector of Indian Agencies for the Province of Alberta, that as threshing operations have not yet been completed owing to unfavourable weather conditions, and the grain will not be marketed before the 15th of December, the services of the Clerk will be required for a further period of one month. The approval of the Treasury Board is, therefore, requested to cover this employment to December 15, 1932. Payment for this service is made from the Interest Account of the Blackfoot Indian Band.

Dear Sir,-

I have to acknowledge the receipt of your letter of the 3rd instant with reference to the employment of Mr. S. E. Dafoe at the Blackfoot Agency, and for your information I quote a telegram which I have sent to Mr. Gooderham today :-

"MR. DAFOE'S SERVICES SHOULD NOT BE RETAINED AFTER TODAY STOP REQUEST FOR AUTHORIZATION OF HIS EMPLOYMENT SINCE NOVEMBER FIFTEENTH BEFORE TREASURY BOARD AND APPROVAL NOT YET OBTAINED"

Mr. Dafoe's salary to December 15 will be paid as soon as we receive the authorization of the Treasury Board which we hope will be at an early date. I regret that under existing conditions, Mr. Dafoe's services could not be retained to the end of the month.

Dear Sir:-

In reply to your wire of the 17th. instant I beg to say that I have interviewed Mr S.E.Dafoe and he is prepared to accept the position of Clerk in connection with Crop-Share Agreements, commencing August 15th. I am glad the Department is prepared to employ Mr Dafoe again for this workthis year as he is competent and familiar with the work. Crops are light and harvest will be early owing to extreme heat and lack of moisture. However, there is every indication of a big increase in price over last year.

Transportation for Mr. Dafoe must be considered as daily inspection over a large area is necessary and 60 miles a day on this work is not an unusual drive. ~~on this work~~ I would recommend that Mr Dafoe use the Ford Tudor driven by me for the last three years and that authority to purchase a new car for my use be granted. My work requires a car at all times and although I have driven the Ford over 30,000 miles it is still in good order and would do very well for Mr Dafoe. The replacement is a fair charge against Band Funds I believe. I mentioned this point to Dr. McGill when he was here and mentioned the fact that I was under the impression that the car supplied to me has always been purchased from Band Funds.

I may say that the FORD, Chevrolet and ESSEX Terraplane cars can all be purchased less discount secured on Government purchases and there is very little difference in the cost of these cars. All of them are now built to suit persons with long legs and they are a good deal more comfortable than the old Fords. I hope that authority will be granted to replace before August 15th so that a car will be available for Dafoe at that time. Without a car, neither he nor I can carry out our work.

1 Mr. Conlon
2 Mr Dafoe

July 25, 1933.

Dear Sir,-

I have to advise you that it will be necessary to employ an additional Clerk again this season at the Blackfoot Indian Agency, Alberta, in connection with crop share agreements, during the season of harvesting and until the grain is threshed and delivered at the railhead. This position was included in a list of positions approved by the Treasury Board for the period to September 30, next. The Indian Agent reports that the harvest will be early owing to extreme heat and lack of moisture, and that the services of the Clerk will be required from August 15th.

B.P.

Last year, and for some years previous, we employed Mr. S. E. Dafoe. His services are available again this season. He has been most satisfactory in meeting the Department's requirements in the past, as in addition to being competent to do the clerical work involved, he is thoroughly familiar with farming and threshing operations in the district, and much of his time in settling the payments in connection with the crop share leases has to be spent in the field.

A.G.W.

I am inclosing a requisition, and would ask that you kindly give favourable consideration to the re-employment of Mr. Dafoe.

Yours very truly,

JOINT MEMORANDUM

Indian Affairs. IA-IA8-3002.

Temporary appointment of a Clerk, Grade 3, Blackfoot Agency, Alberta. 31/7/33.

The Department of Indian Affairs reports the seasonal need of the above.

Investigation discloses that the establishment of this Agency is:-

One Indian Agent, Grade 5
One Medical Superintendent, Indian Reserve
Two Male Clerks, Grade 2
Three Farming Instructors
Two Head Stockmen

With the above establishment in mind, the Organization Branch went into the need of additional clerical assistance and in discussion with the Department it is found

1. that the Department, for a period of time, disposed of a large number of plots of land for the benefit of the Indians of this Reserve

2. that 215 crop share leases are in operation, the farms being situated as much as ten and fifteen miles apart, scattered over an area of some 240 square miles

3. that difficulty being experienced in obtaining payment a system of payment, based on the crop share liens method, was devised and put into operation

4. that, due to liens held locally, difficulty has been experienced in collecting the crop share representing the share accruing to the Indians as payment on the land

5. that the results secured during the past three years amply justify the expenditure incurred by the seasonal

ARCHIVES PUBLIQUES
CANADA

appointment of an additional clerk, the collections being some $500,000 in the past three-year period.

6. that before this position was first filled, an attempt was made to arrange with the Agent for the work to be done by his staff

7. that the previous incumbent of this position was required to keep track of the various threshing outfits operating in this territory and to be on hand during threshing operations for the purpose of checking the yield and for securing to the Government its assigned one-third share of the yield. This he has been able to do without undue friction, owing in no small part to the fact that he was a practical farmer; a man of mature years, alert and keen; knows the terrain and possesses a motor car which he uses in this work.

The Department has agreed to again look into the clerical situation at the Agency at the earliest possible opportunity affording a personal visit of an administrative officer from Headquarters, with a view to effecting a more economical arrangement for next season.

The Organization Branch recommends that this position be filled for the current season.

.....
Chief, Organization Branch

Examiner's report

In January last the Commissioners ruled that the competition which the Examination Branch recommended should be held in connection with this position, be deferred until shortly before the work would open up again.

No information as to when this employee would be required / was available until the requisition for a seasonal appointment was received July 26th.

As this employee is required in connection with harvesting and as, owing to extreme heat and lack of moisture, the harvest will be early, the Department states that he will be required by August 15th. He will be required until harvesting and marketing of grain is over, approximately 4½ months.

There is no time to hold a competition to have a selection made by August 15th.

The Department recommends Mr. S. E. Dafoe who was employed in a similar capacity last year and in previous years.

The Examination Branch recommends the temporary appointment of Mr. Dafoe for one month from August 15th, and that the competition be proceeded with. A selection can probably be made by September 15th.
