THE Advantages offered to the Public by this Institution are MANY and IMPORTANT, and the states of Premium quite as LOW as security to the Assured, and safety to the Office, will admit of.

The following are some of the advantages offered by this Society:—
The peculiar Benefits secured to the Assured by the principle of the LOAN Department.

One half of the Premium for the first five years may be paid by the Assured's own Note. These Notes need not be paid, but may remain on Interest, to be deducted from the Policy on the doubt of the Assured.

Notes need to be deducted from the Policy on the death of the Assured.

Insurers can at all times demand, as a right, a Loan to the extent of two-thirds the amount of Premium they have paid—upon deposit of their Policy, and guaranteeing it will be kept in force. This important advantage removes the fear so many entertain of being obliged, through pecuniary emberrasement, to let their Policies lapse, and at a time such a provision is absolutely needed for their families.

No Charge for Stamp Duty, nor for Medical Examination.

Examination.

The Bonuses divided Annually, either in Cash, Reduction of Premium, or in addition to the sum Assured, whichever of these three ways the Assured may each year desire, after being a Policy holder for Four Years, at which period a Bonus is payable for the Four Years—Annually afterwards.

THIRTY DAYS allowed after each Payment of Premium becomes due, without Forfeiture of Policy.

of Premium becomes due, without Furfaiture of Policy.

The General Agency for the British North American Colonies being established in Montreat, RISKS will be accepted by the General Agent and Temporary Policies at once granted.

The Local Board meet regularly at the Office, and by them the business of the Colonies conducted, thereby affording to the Assured every facility.

LOANS will be Granted, and LOSSES PAID, at the General Agency, without referring to London.

Pamphiets, Blanks, and all requisite information, may be had on application at the MONT-REAL OFFICE, or to the AGENTS throughout the Province, through whom proposals for Assurance will be transmitted.

A NALYSIS OF MINERAL WATER OF A POINT DU JOUR.—From Mr. Hunt's Analysus of the Water of the Mineral Spring at Point du Jour, near L'Assomption, i infer that it will prove a valuable addition to those already discovered in Canada.

It appears to be well adapted to cases of scrofula, diseases of the akin, gout, rheumatism, and dyspeptic complaints generally.

Mineral Water to be useful should be taken for some time, and when it seems to lose its effect, that from another apring should be substituted; and one not agreeing with an individual, another may act kindly and effectually. Weak and delicate persons should seek the advice of a physician with regard to the employment of these waters.—It would be a great blessing to society if these productions from the laboratory of nature were to supersede the vile and heterogenous compounds, with which the world is cursed, under the name of "Patent Medicines." Montreal, 11th March, 1850.

I certify that I have used the Point du Jo I certify that I have used the Peint du Jour Spring Water in my practice, and have found it to act as a mild purgative and alterative. From the quantity of Iodine it contains, it will, I doubt not, be found neeful in acrofulous diseases and in some form of syphilis, in addition to other remedies.

Tastimony of Mr. NATHAR MATREWS. a highly respeciable and insulting clitism of Newerk, N. J. Da. G. W. HALENDY - I believe your Forest Wins and Pilks have been fits means of saving my life. When I commerced taking them, I laid at the point of death, with Drophy, Piles, and Asthma. My Physicians had given me over he pist care, and my lamily find lost all hope of my recovery. While in this dreadful himstim, your Forest Wine and Pilts were precured for me, and before I has finished the first bottle of the Wine, and box of Pills, I experienced great relief; my body and limbs, which were greatly swollen, became sensibly reduced. Hopes of my recovery by your medicines for study a month; the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now anjoy as perfect health as ever I did in my diffe, eithough I am more than sixty years of age. I seribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in chains a complaints, and I can cheerfully recommend them to be public.

Yours, respectfully. M. MATHEWS.

Marriage requires the falidiment of savaral conditions, in order that it may be really the cause of mainly happiness. Could the voil, which covers the origin of dumestic vertebedness, be raised, and its treasures in away instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are 4-c ways injurious; the gift which, when used in moderation, is fraught with advantage, becomes, when abused, the prolific source of mischief, and of greater or less injury to the constitution and vital powers.

The particular excesses, on the nature and consequences of which this Treatise professes to dilate, are productive of greater misery to the human frame than any other to which it is subject.

This West, contains an accurate and complete account of the Anatony and Physiology of the Reproductive Organs, and of their relative conditions in height and disease. Nor are these the sole contents of the work: the means of ecopy, as well as the nature of the danger, are pointed out in clear and intelligible language. It deservedly requires the closes submition and curry, for what subject can be of more importance than the preservation of health, and of the physical capabilities of which avery man should be possessed. POINT DU JOUR, PARISH OF L'ASSOMPTION. POINT DU JOUR, PARISH OF L'ASSOMPTION.

THESE truly valuable WATERS are distinguished for the large quantity of Bromine and Iodine they contain, and are acknowledged superior to all other Medicinal Waters. They are the most agreeable refreshment of the description that have yet appeared. They can be used cold to the gleatest degree in the most oppressive heat of Summer, and that without altering or affecting injuriously the health of the person using them; upon the contrary, they are found to improve and strengthen. The large number of cures effected by the use of the above Waters, enable us to recommend them to the public as an excellent remedy in a very great number of eases. The names of a few only of the persons of celebrity, who have given their written recommendation of the Waters, are here given. These, however, the show the happy results arising from their application:— A Vicenton, M. Nelson, M. D.,

As ordered by the ALEXANDER URQUHART. Medical Hall, 7, Great St. James' Street.

Medical Halt, 7, Great St. James' Street.

THIS Valuable Preparation has been before the public for many years, during which time it has been extensively used, and has proved eminently successful in all those diseases in which this medicine is prescribed. It is considered by Physicians of the present day the very best Medicine for re-establishing the constitution after it has undergone the effects of Mercury. In Chronic Rheimaism, the most marked effects have been produced by the use of Saraspariila; and in continued use is often alread with improvement of appetite and digestion, increase of strength, the production of a more heafthy state of mand and the palliation, or, in some cases, complete disappearance of various morbid symptoms, as Eruptions, Dierastions, pains of a Rheimain charterier, Ac., &c.

Drs. McCulloch, Campbell, McDonell, and Fraser, who have extensively used it in their practice, have knudy favored the Proprietor with the following Certificates:—

ALEX, UNGMAPZ, Eng.,—DRAS SIR,—I have much pleasure its bearing testimony to the faithful manner in which you prepare your. Fluid Extract of the Compound Deceetion of Sursaparilla. This I am enabled to do, on account of several of my poticals having derived the greatest betteft from its use.

For Constitutional Syphilis and Chronic Rheumatism, I have prescribed it with the most marked effects, I can, therefore, without the least hesistation, recommend your propers your street of the Compound Deceetion of Sarsaparilla, while it is at the same time store palasable, and less apt to derange the Stomach.

The base of it is derived from the Amole, or "soap plant," of California, an article used by the natives of that compression and thus the use of strong shain, so hartful to this sizu, is avoided. Its regetable and detergont properties have the purest and most nouriabing effects out the akin,—it soothes und allays irritation, and has a fine, thick, creamy lather, which does not dry on the face. It is a decided luxury to be shaved with this incomparable soap. ANALYSIS OF THE ST. LEON WATER.

I HAVE cabinatted to enalysis the Water from the Source of St. Leon, and fand it to be strongly saline. It contains chloride of sodium in large quantity, with magnesin and lime, parrly as cairbonnies, disobleved by the tracess of carbonic acid, and parrly as chlorids. Like most of the other saline waters of the containt, it contains comine and iodine; in addition to which, I have detected, in small quantities, salts of barytes and strontile, which and hitherto been met with only in the waters of Varences. In its general characters, it is allied to the Sources of Cartion, Pinntagenet, and the Intermittent of Cale-ionia.

A. MANN, 4, Place d'Armes.

During the past eighteen months, I have had ample experience of the Plantagenet Mineral Waters, which had confirmed the favourable impression their analysis led me to entertain of them, as a safe, cooling and alternity beverage during the heat of surmore, I have also found them useful anxiliaries in the treatment of some derangements and diseases. Str., I have now prescribed this Plantagenet Water for upwards of a year, and I am very happy in being able to state to you, that the opinion waits I formed of their probable usefulness, based on Mr. Hout's Analysis, at the time of my commencing to use them, has been fully and satisfactorily verified by subsequent experience. I now recommend them extensively, and I have frequent opportunities of hearing from my patients that their employment has been alterated with all the beneficial results for which they were prescribed.

TO THE LADIES.

THE GENUINE BALM OF COLUMBIA FOR RESTORING THE HAIR.

"Long hair is a glory to woman," says Paul, And all feet the truth of the pious quotation; Preserve it then, ladies—your glory may fail,

Unless you protect it with this preparation. If you wish a rich, insuriant head of hair, free from daudraff and seurif, do not fail to procure the genuine Balm of Columbia. It causes of baldiness, it will unore than exceed your expectations. Many who have lost their hair for twenty years, have had it restored to its original perfection by the use of this halm. Age, state, or coudition, appears to be no obsisted whatever; it also causes the field to flow with which the delicate hair tubes is filled, by which means thousands (whose hair was gray as the Asisike engle) have had their hair restored to its natural color by this invaluable remedy. In all causes of fever it will be found the most pleasant wash that can be used,—A few applications only are necessary to keep the hair from failing out. It strengthens the roots, it never fails to impart a rich glossy appearance, and as a perfume for the toilet it is unequalised. It holds three times as much as other miscalled hair restoratives, and is more effectual.
