STATE'S CASE WEAK, MRS. CARMAN MAY SECURE HER LIBERTY

Postponement of Hearing Was an Admission That Evidence Against the Doctor's Wife Was Not as Strong as Desired.

[By Special Wire to The Courier]

FREEPORT, N. Y., July 10.—The attacks upon the testimony of witnesses at the inquest into the death of Mrs. Lotie Bailey to-day led to predictions that Coroner Norton would be forced to reverse his decision and order the release of Mrs. Florence Carman on Monday next, when she will appear before him for a preliminary hearing, on the charge of having murdered Mrs. Bailey. This prediction is further bolstered up, according to Mrs. Carman's counsel, her husband and friends by the fact that District Attorney Smith yesterday practically admitted the state's case was weak when he sought to secure a postponement of the preliminary hearing until a week from Monday.

The prisoner's counsel objected to a postponement of the preliminary hearing and is eager to have it held as scheduled in the hope of being able to so confuse the state's witnesses on cross-examination as to force the coroner to release Mrs. Carman. If he succeeds friends of the accused woman believe that the case will never reach the grand jury, which convenes at Mineola on Tuesday next. But it is regarded as scarcely likely that Mr. Norton, sitting as a justice of the peace will turn Mrs. Carman loose after hearing the same evidence upon which he, sitting as coroner, ordered her arrest.

REV. C. W. ROSE

Who Has Received a Call to Amherst, N. S.

REV. C. W. ROSE MAY LEAVE CITY

Receives Invitation to One of Largest Churches in Nova Scotia.

One of Brantford's most popular pastors has been signally honored recently in receiving a call to one of the largest and most influential churches in Nova Scotia. Two weeks ago a committee from the First Baptist Church, Amherst, N.S., waited upon Rev. C. W. Rose, and intimated that should he accept a call to become first minister of that church one would be extended at once. Mr. Rose has taken the matter under consideration, and an announcement will be made to the congregation at Park Baptist Church here on Sunday.

The Amherst church has a membership of 1,020, and the pastor is given two assistants. It is a most important charge in every respect. In his work in Brantford Rev. Mr. Rose has proved eminently successful and popular. He has been a prodigious worker among his people, who would regret greatly his departure from the city. At the same time, the invitation is an attractive one, and while Mr. Rose would not intimate to-day what his intentions were, there is a strong possibility of his accepting the call.

WIFE WHO HAD DICTOGRAPH SPY ON PHYSICIAN

Through the strange shooting of Mrs. Louise Bailey, wealthy and socially prominent in Hempstead, in the office of Dr. Edwin Carman, at Freeport, L. I., the police and detectives thought they had found some clue when they discovered in the bedroom of Mrs. Carman, wife of the physician, a dictograph. The instrument had been installed by Mrs. Carman unknown to her husband, because, she frankly admitted, she had become suspicious of her husband and wanted to learn for herself. When the shooting started the detectives trailing through the house Mrs. Carman tore out the transmitter and hid it in the garret.

MRS. EDWIN CARMAN.

NO TICKLERS WILL BE ALLOWED DURING THE OLD HOME WEEK

Mayor Spence Puts Ban on the "Naughty" Little Feathers—Executive Got Through a Lot of Business Last Night.

The mayor of the city was emphatic in the stand that Brantford would take should one tickler be put on the streets during old home week. Ald. Pitcher had mentioned the fact that there were already hundreds of them lying in the city, and Mayor Spence, with a significant air, said: "Just let them put one on the street and then we will take action." This might be sufficient warning to all intending peddlars.

The executive committee of the Old Home Week celebrations had a fair amount of business to transact, and it was not an early hour when they concluded.

A Peterboro firm by name of Brooks & Company, stating that they were agents for the Curtis aeroplane company, offered an attraction in the shape of two flights by airmen round the city, for which they wanted a fee of \$500 for the first day. It was suggested humorously as the letter was filed, that they be charged for the right to fly over our noble city.

The Massey-Harris Company were thanked for their greatly appreciated example of giving the O. H. Week preference over the annual trip and their scheme was recommended to other manufacturers.

The fraternal committee were given the exclusive right of selling all tickets.

Ald. Pitcher reported that the sale of stands upon the market had gone excellently, and that already \$448 had been realized during the afternoon, while he was sure the market stands would realize \$1000.

The men were referred to the committee that has charge of the sale of stands. It was felt that the Hydro power system should furnish the extra power required for the electric decorations free gratis, and a deputation will wait upon the Commission with that request.

The question of an old home week service was brought up, and it was decided to send letters to the clergy requesting them to give the matter consideration.

It is possible that the old city hall will be given a new coat for the occasion in the form of a dose of paint, but those present in a jocular moment, were not sure that this was to the best interests of the home-seekers that the old edifice be given a new appearance.

G. T. R. EARNINGS. MONTREAL, July 10.—Grand Trunk railway traffic earnings, July 1 to 7, were \$1,048,006, compared with \$1,087,463 for the same week of 1913. Decrease, \$39,457.

FIREMAN NIP A BLAZE AT SCHULTZ FACTORY JUST AT RIGHT TIME

Nothing but the prompt response of the Central hall firemen and their splendid work, saved the Schultz Bros. factory at the corner of Albion and Waterloo streets from total destruction at a fire which occurred there just at midnight last night, and which at one time threatened to destroy the whole plant.

The firemen arrived in response to a telephone call from the night watch man and from a box alarm from box 35. The fire started in the engine room, just over the boilers, in the shaving and sawdust used to feed the furnace of the boilers. Just what caused the fire is not known, but it is thought to have been combustion among the shavings. The fire quickly spread through the shop to the roof and walls, and when the firemen arrived was going fiercely. Under the direction of Chief Lewis, three lines of hose were laid, and the blaze in the boiler room soon extinguished.

but up above, the whole second story was a blazing furnace. It was very hard to get at, as there were no openings through the floor, but after once cutting a way through, the blaze was conquered, and as the fire died down, dense clouds of smoke rolled out of the windows, attracting a large crowd of spectators. Several times the fire broke out through the roof, but each time a prompt dose from the house put it out.

The engine room is situated in a separate wing from the main part of the factory, and the firemen deserve great credit for keeping the fire confined to this section, as only a brick wall, through which there was a large opening with lumber protruding through it, separated the boiler room from the main section of the factory.

A TERRIBLE FATALITY-- FOUR WERE DROWNED WHEN PUNT COLLAPSED

Thomas Garnet, His Two Children, and Little Brantford Girl Were Victims of Grand River Tragedy Last Night—A Struggle in the Water.

Four persons, three of one family, lost their lives in the waters of the Grand River last night near Onondaga when Thomas Garnet, a well-known farmer of the Township, his ten year old son, Mansel, eight year old daughter, Leone, and Myrtle Reid, 14 year old daughter of Charles Reid, 68 Brunswick street, this city, servant maid in the Garnet family, were out of a punt and were drowned.

had in the meantime put on a bathing suit and was in swimming when Mr. Garnet pulled the punt in to let Miss Reid and the children in. He noticed that the punt was leaking—it was a very old one and leaked badly. However, the children and Miss Reid got in and Mr. Garnet rowed up the river for a short distance. All went well until they started back to the landing place, when the punt suddenly sprung a bad leak and almost without warning capsized. The little girl Leone must have gone down immediately, as she was never seen again. Truckle had been swimming, a short distance from the boat and swam quickly to the scene and managed to get hold of the boy.

It is one of the most distressing fatalities that has occurred in Brant County in many a day. The Grand River has claimed a goodly number of victims from Brantford City and the surrounding country, but seldom has it ever come so near completely wiping out one family.

Last evening about nine o'clock Mr. Garnet rowed an Indian across the river and was returning in the punt to his farm, when Myrtle Reid and the two Garnet children, seated on the bank, called to him to take them out for a boat ride. The hired man of the farm, Thomas Truckle,

A terrific struggle for life then took place in the waters. Garnet, who was unable to swim, grabbed hold of Truckle, who had to make a terrific fight with him to make him let go as he had all he could do to manage

CHIEF WITNESS' STORY IS NOT TAKEN AS TRUE

And the Charge of Conspiracy Against Dr. Macklin and Mr. Elliott Fails

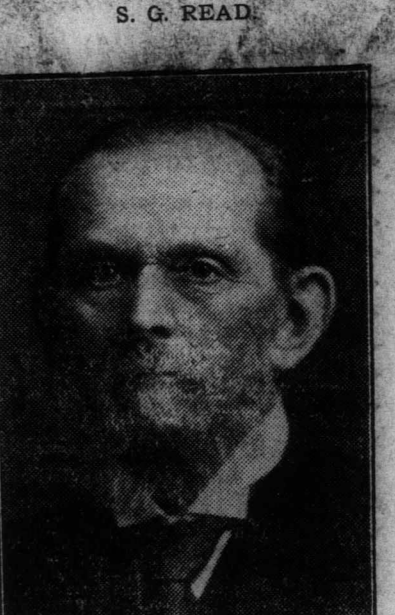

Just Lied When He Approached Dr. Macklin With Friendship.

[By Special Wire to the Courier] GORDERICH, Ont., July 9.—The conspiracy charge against Dr. A. H. Macklin, defeated Conservative candidate in Centre Huron, and Rev. Joseph Elliott, which has been adjourned so often, came up again to-day before Police Magistrate W. E. Kelly. M. G. Cameron, K.C., counsel for Rev. Mr. Elliott, and J. C. Makins of Stratford, counsel for Dr. Macklin, objected that Police Magistrate Kelly had no power to dispose of the case, claiming that it could only be heard in an election court.

Crown Attorney Seager contended that the magistrate had power to hear it. Police Magistrate Kelly reminded the parties interested that they had agreed to go on with the case at this time, and stated that he would hear the evidence.

Made a Sorry Witness. J. B. Hunter, the star witness, was called, and his evidence was of a very contradictory nature. He said that he did not take an interest in politics, but he was a born Liberal and his father had been a Liberal before him. Rev. Joseph Elliott had called on him at his home on the 16th of June, he swore, but the only part of the conversation he could remember was the phrase, "We've got the money," which he claims the Rev. Joseph Elliott used. He next interviewed his lawyer, Mr. L. E. Dancy, who assisted him in laying a trap for Mr. Elliott. It was arranged to have two men concealed in an adjoining room when Mr. Elliott again called to keep an appointment Hunter had made with him. During this conference Hunter told Mr. Elliott that he could get the votes of three men, who he admitted in court he had never interviewed and could not influence. Mr. Elliott said he would have to see the doctor first. Later, according to the witness, Dr. Macklin telephoned and made an appointment for next morning. During

Brackin, the Liberal candidate, who was defeated at the polls by 18 votes, is represented by J. A. Walker, C. L. Lewis, and Alex. Clarke. It is expected that it will take about a week to complete the work.

MEDICOS ADVANCE A RADICAL PLAN

Every Person Should Have
to Have an Examination
Once a Year.

TORONTO, Ont., July 10.—That in the opinion of the members of the Ontario Medical Council of the College of Physicians and Surgeons owing to the number of unfortunate deaths during the past year it would seem a very wise provision towards the preservation of human life for every individual to submit to a physical examination at least once a year, so that any disease or bodily ills could be detected before they advanced to a dangerous degree.

This resolution prepared by Sir James Grant of Ottawa met with the unanimous approval of the delegates to the annual meeting of the medical council now in session in Toronto. Sir James Grant mentioned numerous deaths from disease which had been taken in hand in time could have been checked and eventually cured. He pointed out that while an exam-

ination might prevent years of suffering it only occupied a few minutes and the cost was very small in comparison with the bills for medical attendance which must come in when the ill advanced to a stage where the person was incapacitated.

Mr. F. W. Hinsdale, who is in Toronto preparing for the actual operation of the workmen's compensation act, addressed the doctors this morning.

"There is no doubt in my mind, but that the Ontario act is an ideal one and that every contingency has been provided for," said Mr. Hinsdale.

That physicians would be in a much better position after the act went into force than they were now, was a statement made by Mr. Hinsdale.

GERMANY HAS ITS HARRY THAW CASE

Arenburg Prince, Criminally Insane Seeks to Secure Liberty--A Brutal Crime.

BERLIN, July 10.—The particularly atrocious murder by a scion of one of Germany's noblest families is recalled this week by the effort of Prince Prosper von Arenburg, now owner of a large estate in Argentina, to have the stigma of insanity removed.

The Prince was only saved from the executioner's axe as a murderer ten years ago by the Emperor, who altered the death sentence to ten years in prison.

The case at the time set all Europe talking. Prince Arenburg was sent to the German colonies in Southwest Africa as a punishment for having mishandled privates in his Prussian regiment. The South African climate upset the Prince, who had been a heavy drinker, and eventually he was charged by a court martial in Potsdam with murdering a half caste named Cain.

Brutal Crime
It was proved that Prince Prosper drove a rifle cleaning rod into the half caste's head and twisted it round the man's brain. The court martial condemned him to death despite the frantic efforts of his advocate.

The despatching of his family however, saved him from the axe and the Emperor first commuted the punishment to ten years' penal servitude and then to the same period of ordinary imprisonment. Instead of being sent to a military prison he was placed in a civil jail at Hanover, where it was charged he

was treated with less severity than ordinary prisoners. After a few years the family got evidence of medical experts that the Prince was insane at the time of the murder. So the case was retried and the prisoner was acquitted on the ground of insanity, whereupon he was sent to a private asylum instead of being treated as a criminal lunatic. A short time afterward he was discharged as cured.

A little later he bought an estate in Argentina, where he is said to have done well. Now the Prince wants to return to Germany and be restored to all the privileges taken from him when he was adjudged insane. A new commission is to be appointed and it is probable that evidence will be produced to show that his insanity is cured.

Malicious gossip naturally asserts that Prince Prosper's insanity never was serious. Another Prince whose affairs have caused talk in the past and is again in the limelight is Prince Eberwink, heir to the Bentheim estates and throne. He is being sued in Berlin for a bill of \$500.

The Prince's financial affairs appear to have gone wrong ever since he caused an international sensation by renouncing his right of accession in order to marry the daughter of Mayor Langenfeld, of Homburg.

EIGHT OF KARLUK CREW MISSING IN ARCTIC

Two Parties Set Out for Land; Not Seen Since--Capt. Bartlett's Message.

OTTAWA, July 9.—That eight men left the Karluk party seeking land after the boat sank in the Arctic, and that they have not been heard from, is announced in a report which Deputy Minister Desbarats has just received from Captain Bartlett, written from Nome. It is feared that some of them may be lost for the main party had a terrible struggle before reaching Wrangel Island, and the smaller parties must have had as strenuous experiences.

Last Seen on Ice

The first report from the Karluk party was generally read as a statement that all had reached Wrangel Island and were waiting for a boat to take them home. It turns out that ten days after the Karluk sank on January 11 a party of four with a supporting party set out for Herald Island. The supporting party returned and reported that progress had been stopped by open water three miles from shore. Two days' effort failed to span the gap. Four men were left with provision on the edge of the ice waiting for a chance to land. That is the last heard of them.

The four were: Officer Alexander Anderson of Fifehire Station, second officer Charles Bartlett of Victoria, B.C.; Seaman John Bredy of Victoria, B.C.; and Seaman Archibald King of Victoria, B.C.

The Second Party

On February 5 another party of four set out for the land which the report states to have been visible, though it was sixty miles distant and Arctic night prevailed. This party consisted of Henri Beuchat of Paris, the anthropologist of the expedition, Allister Forbes McKay of Edinburgh, the surgeon of the expedition, who had accompanied Shackleton on one of his expeditions; L. Murray of Foxfield, Hants, England, the oceanographer of the expedition, and another Shackleton man and sailor, Thomas Morris. The party was seen a week later by an exploring expedition from the main party, which reported that Beuchat's hands were frozen and he seemed to be in poor shape, but refused offers of assistance and transportation back to camp. That was the last heard of them.

Bartlett Sick Himself

A letter from Captain Peterson gives a statement of the condition of Captain Bartlett, which that hardy mariner did not think it worth while to mention. Captain Peterson says that Captain Bartlett was in bad shape. On the long sledge journeys his hands and feet had been badly frozen, and he was suffering greatly. However, Bartlett has apparently recovered, for he is at Nome waiting for the American revenue cutter Bear to take him with supplies to Wrangel Island. When Captain Bartlett left Wrangel Island the thirteen men who remained were apparently in good shape.

Chief Engineer Munro was in charge, and it was proposed to send him to Herald Island to search for the Anderson party and the McKay party. The day before Bartlett and Munro and two men set out with dogs to return to the camp at the scene of the wreck for more supplies. The fate of the parties cannot be known until next autumn, and under the most favorable conditions word of the parties will not reach civilization until September.

Carson Enters Belfast And Is Welcomed

BELFAST, Ireland, July 10.—Full military honors were accorded by the Ulster volunteers today to Sir Edward Carson, the Ireland Unionist leader when he arrived accompanied by the Marquis of Londonderry, Viscount Castleragh, Walter H. Long and Ronald McNeil and other Unionist members of parliament to attend the meeting of the Ulster provisional government.

A guard of honor composed of 400 armed volunteers and 50 armed motor cycle despatch riders met and escorted the leaders to the residence of Capt. James Craig, the military leader, where they will remain for a week.

The intentions of the provisional government have not been disclosed, but one object of the meeting is arrangement of an impressive celebration on the 12th of July, or "Orange-men's Day" in order to show the government and the people of Great Britain that nothing but the absolute exclusion of Ulster from the operations of the Irish Home Rule bill "will satisfy us."

As one prominent Ulster man put it the government is somewhat uneasy as to the outcome of the celebration. Major General Cecil MaCready who is in command of the militia in the Belfast district, was in conference with Premier Asquith on the subject of the situation and the police have been instructed to act with great care, so as to give no excuse for an outbreak.

SAGE TEA DARKENS HAIR TO ANY SHADE

Don't Stay Gray! Here's an Old-Time Recipe That Anybody Can Apply.
The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grand mother's time. Sage is used to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or ture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy" you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.
A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy, soft and abundant. Agent T. George Bowles.

THE LATE MR. EMMERSON

The death of Hon. Mr. Emerson removes a man of prominence in many ways. His character was not picturesque, but unique. He was a bitter fighter on occasion, although in private life he had many friends, and on both sides of the House was held in esteem.

Deceased was in politics nearly all of his mature years; was Premier of New Brunswick for a while, and after he entered the Dominion House was Minister of Railways in the Laurier Cabinet.

UNNECESSARY NOISE

All of us are familiar with the class of individual ranked in the "big noise" category, and equally so with reference to the altogether unnecessary hubbub in the average community.

The people of Chatham, long suffering, like other centres, have decided to go hot foot after the elimination of a large portion of the evil. On their category they have put railway whistles and bells, siren whistles on automobiles and unmuffled motors boats.

There ought to be more common sense in these kindred matters, and if there isn't then the law should step in.

Take the factory screeching in this city. Employees could get to work and leave work just as easily without any such pandemonium. The smaller establishments get along without it, and so could the larger.

The factory screeching in this city. Employees could get to work and leave work just as easily without any such pandemonium. The smaller establishments get along without it, and so could the larger.

THE IRISH SITUATION

The Asquith Government has certainly made a sad mess of things in handling the Irish question. As the outcome John Bull is faced with the horror of a civil war and Lord Roberts has issued the warning that the entire army will become demoralized.

Many Canadians who know the success which Local Legislatures have attained in the Dominion, cannot understand why such a method should not be adopted in the Old Land. Such chambers for England, Ireland, Scotland and Wales, would relieve a lot of the burden from the far too frequently congested Commons.

Meanwhile the tension is of a most alarming nature. The feeling in the House was recently fully evidenced as will be seen by these extracts from the cabled report of the Montreal Star representative who is on the scene.

"The Government majority having earlier in the evening fallen to 23, it felt that anything might happen."

All this time Premier Asquith was absent. Protests were made from the Front Opposition Bench, Mr. Lloyd George explained that Mr. Asquith was dining with the American Ambassador. Walter Long replied that his excuse was insufficient.

Lord Robert Cecil made an interjection, which led William Redmond to exclaim heatedly.

"Why should you sneer at the American Ambassador?" Cries of "Order, Redmond" and "Sit Down!" followed.

however exalted a person, he could not be in his place at 10 minutes to 11 o'clock. (Cheers). Such an excuse is an insult to the House of Commons.

Mr. Lloyd George appealed to the leader of the Opposition, but Bonar Law amid loud Opposition cheers replied:

"The Right Honorable gentleman tells us there is an engagement with the American Ambassador. If it was a question of peace or war, that would be an excuse. But it is not. In the circumstances, it is the first duty of the Prime Minister to be here. (Cheers). The truth is that this is only another example that the Prime Minister believes he can safely treat the House of Commons with an amount of contempt, such has never been shown it before. (Cheers)."

Meanwhile it is very evident that Asquith will have to budge with reference to Ulster, or else that fighting will occur.

NOTES AND COMMENTS

In Alberta they object to a shortening of the name and yet in Manitoba minutes. As soon as he could be revived he gave an incomplete account of what had happened, but soon became unconscious again, and remained in a dazed condition from sheer exhaustion.

An Iowa man on a bet ate 219 onions at one sitting. They say that the distance his breath carried in the neighborhood afterwards made the folks think of wireless telegraphy.

"A cow recently walked into a village bank in Ohio. She probably wanted to have her milk certified."

Mebee; but then perhaps she had udder business which she considered needed attention.

If that other batch of Hindus now on their way to this country expect to be received with brass bands and open arms they'll get just about as badly fooled as the girl who during a buggy ride told the young man that her hands were cold, and he advised her to sit on 'em.

Mrs. Nellie McClung, the well known authoress, has been stumping against the Roblin government in Manitoba. With regard to which the Ottawa Free Press (Liberal) rises to remark, "Here's hoping she has had better success than those gentlemen Sir James Whitney calls 'demagogic pastors' had in Ontario."

Montreal is going to make the experiment of placing one thousand wire baskets at street corners. In these citizens will be asked to place papers generally, and those who continue to litter the streets will be prosecuted. Washington has had this method for some time with good success. The scheme is an excellent idea.

Drug School For Youngsters

Conditions Existing at Sing Sing Told by an Ex-Warden.

[By Special Wire to The Courier]

NEW YORK, July 10—The Sing Sing state prison at Ossing was described as a drug school for its younger inmates, yesterday by John M. Clancy, former warden before the state prison board. Pencils, fountain pens, shoe heels, embossed postal cards, handkerchiefs and letters were common carriers of drugs into the prison during his administration, said the former Warden. Clancy was succeeded recently by T. J. McCormick. He appeared before the board voluntarily in response to a request that he tell of conditions, after he had been quoted as saying that an organized political ring controlled a drug-importation industry at Sing Sing.

It was common knowledge in the prison, said Mr. Clancy, that keepers and others were paid twenty-five and fifty cents for smuggling out letters in which directions were given as to the method of delivering drugs into the prisoners hands. Measures to prevent the smuggling did not avail, he said. Once the drugs were inside, Clancy asserted, prisoners never before addicted to the habit were taught to become drug-users and in turn paid heavily for the smuggled goods.

the boy. The Reid girl had in the meantime gone down, as she was not seen at all by Truckle. Truckle, although terribly exhausted, made towards shore with the boy. When about twenty feet from the landing place the little body stiffened right out and secured a death grip on Truckle's body. It is Truckle's opinion that the boy had died in his arms. Truckle in order to save himself had to let the boy go, and when he got to shore fell unconscious on the bank.

Truckle was found unconscious by Mrs. Garnett, who was waiting on the bank for the return of her husband and children. Hearing screams from off the water, as she stood with a neighbor, she was at once filled with alarm, and dashed to the water's edge. Hearing sounds she called for help and started along the bank, stumbling over the unconscious form of Truckle in a few minutes. As soon as he could be revived he gave an incomplete account of what had happened, but soon became unconscious again, and remained in a dazed condition from sheer exhaustion.

Quickly as possible rescue parties were formed by the neighbors, under the direction of Mr. Alex. Hamilton, a neighboring farmer. Mr. James Mathers, West Brantford, grocer, was telephoned to, who notified Mr. Reid and Mr. Mathers took Mr. Reid and Harry Low, uncle of the drowned girl in his auto out to the scene of the dreadful tragedy.

The river is quite wide in this vicinity and has a depth of about twenty feet. All night long the neighbors searched for the bodies with grappling irons and by diving, but it was not until this morning about 7 o'clock that their search was rewarded by the finding of all four bodies.

Mrs. Garnett is grieved stricken as a result of the accident. She was already in a delicate condition, and the shock of the disaster, that has wiped out her entire family, except one 7 year old son, has completely prostrated her.

Thomas Garnett was one of the best known farmers of Brant County. He was born at Mt. Pleasant and up to seven years ago had lived there, until he moved to the present farm, near the Methodist church on the River road. He leaves one brother at Mt. Pleasant.

To the Reid family on Brunswick street this city, the fatality has struck a severe blow. The Reids were close friends of the Garnett family and Myrtle had gone down to the farm just one week and four days ago to help Mrs. Garnett. The young girl was esteemed by all who knew her. She leaves to mourn her loss, besides her sorrowing parents, two brothers, Albert and Fred and one sister, Bessie, to whom the deepest sympathy of the city will be extended.

The Fire Department was appealed to last night for the life boat, but owing to the lateness of the hour, assistance was considered useless, and it was thought better to wait until morning to recover the bodies.

No Inquest.

County Coroner Dr. H. M. Raphael of Cainsville, after learning the facts of the case, decided that an inquest was unnecessary.

The funeral of the Garnett victims will take place Sunday afternoon, at 2 o'clock, from the residence of Edgar Garnett, Mount Pleasant, brother of the late Thomas Garnett, to Mount Pleasant cemetery. No arrangements have been made for the funeral of Miss Reid as yet. When her body was taken from the water it was terribly disfigured, and the father is at a loss to account for the condition of the body. The body will be removed to Beckett's undertaking rooms, Dalhousie street, to-night, where arrangements for burial will be made.

BRYAN'S PART WELL PLAYED

British Paper Praises Work of the United States Secretary.

LONDON, July 10—The Daily News commenting editorially on the announcement of United States Ambassador age, at the Peace Centenary meeting in the Metropolitan Tabernacle last night that a new treaty of the two countries, was being concluded, says:

"This feat, which has crowned Secretary of State Bryan's lifelong labor for peace, is the realization of a dream with which Sir Edward Grey roused the House of Commons to an astonishing display of enthusiasm three years ago, but which the amiable weakness of President Taft was not strong enough to translate into action."

"Mr. Bryan's proposals," The News concludes, "are strictly practical, the object of referring disputes to a commission being to secure time for reflection and cooling off when public opinion is dangerously excited."

The first meeting of the provisional government of Ulster has been called for to-day.

ROWELL PLAN

(Continued from Page 1)

the only Christian party. Such a political division, if were possible, (which it is not), must be repulsive to every thinking man. It would mean that to maintain laws for the moral benefit of the people the one party must always be kept in power, which, in itself, is undesirable and would prove disastrous to the province.

"Some weeks ago, before the election was announced I wrote he Globe and endeavored to point out that the Rowell plan of campaign was unfortunate, both for the temperance cause and the Liberals, and at the Watford convention I did likewise so far as time permitted.

"My predictions have been more than fulfilled. Although Mr Rowell put up a campaign that in vigor and earnestness has never been excelled, if equalled, in Canada his policy made practically no progress. The few seats gained by the Liberals were gained by other causes.

"No other result could have been expected. Mr Rowell's declaration of policy consolidated the liquor forces for the first time in a political contest, and failed to unite the temperance forces. Many temperance voters that the legality of the traffic was being wiped out as fast as public sentiment would uphold legislation. Others had no faith in the movement and stayed with their own party, as might have been expected. In the first place the policy was adopted, not for the purpose of abolishing the bar, but as a vote-catcher, as was boldly announced at the time by those who foisted it on the party. In the next place many of its loudest advocates carried on a campaign that has left an ugly stain every day for years helped to give an air of respectability to the traffic and created the sale of untold quantities of liquor, blubbered for two weeks over 'the boy' and caricatured the victims of the traffic in the most indecent manner. To quote from Winston Churchill's latest book, 'Inasmuch as directly or indirectly, they made profits from conditions which are an abomination before God,' they proved their insincerity and injured the cause they professed to advance. The fact that the boy has already been forgotten, and the traffic continues to be promoted by these papers, is additional proof of their insincerity.

"Believing then, and being more firmly convinced since, that the Rowell plan of campaign can only be injurious to the temperance cause and the Liberal party, I voted to smash that plan.

"So long as elections are threatened to be boycotted for voting according to their convictions it is folly to expect men to desert their party in any considerable number. Those who stopped the paper have simply confirmed as right the stand I took on the question.

"To divide the people on political lines on religious and moral questions is a crime, and whoever devised the Rowell plan of campaign did just what every political grafter and monopolist desires—divided the forces striving for better conditions. In the interest of the temperance cause and of Liberalism that plan of campaign must be abandoned, and the sooner the better. That's why I voted against it.

URIC ACID IN MEATS CLOGS THE KIDNEYS

Take a glass of Salts if your Back hurts, Bladder bothers.

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The uric gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

CHIEF WITNESS

(Continued from Page 1)

this interview witness testified he did not have the opportunity of saying more than five words, and that Dr. A. H. Macklin had given him a ten-dollar bill, which he carried in his hand to his lawyer.

During his cross-examination Hunter admitted that he owed many bills around town, including bar bills at the hotels, but he said he hoped he would soon be all right again. Mr. Makins remarked that if he got many more ten-dollar bills it would help him a whole lot.

Hunter's evidence was very much at variance with the statements contained in the affidavit which he made just after his interview with Mr. Elliott and Dr. Macklin. His final admission to Mr. Makins was that he had a "rotten memory."

Failed to Get Job.

Mr. Cameron also cross-examined Hunter and introduced some new points into the case. He asked Hunter if he had ever gone to Mr. Elliott and asked for any favors and Hunter admitted that he had asked for him to get a certain position from the Provincial Government, and Mr. Elliott had interviewed certain officials at the Parliament Buildings. Hunter did not get the situation and later when Mr. Elliott tendered Hunter his bill for the expenses, Hunter would not pay it. He claimed that he did not pay it all, but had paid about six dollars. However, Mr. Elliott produced a letter in Hunter's handwriting in which he stated that if Elliott would bear with him he would pay it in a day or two. Mr. Elliott produced another letter wherein Hunter asked him to use his influence with Musgrove who he understood could fix the position for him, and if it could be arranged he would give Mr. Elliott half the first years salary. He also admitted that he had taken the election over and had had cast his vote. He said that he did it in the advice of his lawyer. Hunter was on the witness stand for two and a half hours. Police Magistrate Kelly said that he had heard all the evidence he thought necessary but if the Crown wished to proceed they could do so. However, Crown Attorney Seager admitted that any further evidence that could be brought could in no way further implicate Dr. Macklin.

Utterly Discredited.

Mr. M. G. Cameron in asking that the case against his client be dismissed explained that Hunter's evidence was utterly unreliable and that he had deliberately lied repeatedly. The man had discredited himself and the other he got out of town the better.

There was no evidence that would justify the accused being sent for trial and he asked that they be honorably discharged.

Mr. Makins on behalf of his client stated that his views were the same as Mr. Cameron's. He could not find language strong enough in which to clothe his opinion of a man like Hunter. He also asked that his client be honorably discharged.

Crown Attorney Seager said he regretted very much that he had had to handle the case. It was only as a sworn officer of the Crown that he had been compelled to act on the affidavit made by Hunter.

In giving his decision Police Magistrate Kelly said: "I cannot say that the evidence I have heard is totally reliable. Hunter may have said some things that were true, but there were also many things that may be untrue. I feel that I could not recommend a man for trial on the evidence of this man Hunter. Dr. Macklin and Rev. Mr. Elliott are charged with conspiracy, and I do not think there is any conspiracy in this case. I regret very much that this case was ever heard of, and I believe that if the facts had been known the people of this riding would have been able to vote more intelligently. I cannot see my way clear to commit these gentlemen for trial and in the face of what I have heard to-day I cannot do anything but honorably discharge the defendants."

ATTACHMENTS are queer things and I reckon they serve a big purpose in life. One can't feel an attachment for anything without experiencing a certain feelin' of pleasure and gratification in so doing. Attachment is based on likin'. Course there are the other kind of attachments like the feller with the cork leg and the pup with the tin can. But bless ye, they don't count for anything. Man is like a grapevine, he can't very well grow up by himself. From his heart go out little green feelers that want ter grip hold of somethin'. When they find that somethin' they fasten on tight and the attachment grows stronger day by day as the slender link between man and what he has found strengthens. Sometimes the green strands snap and then comes the sorrow of loss; but the reachin' vine must take its chances with life's hazards and that's allars the hope that the green link may hold unbroken till the end of the journey.

MAYOR SPENCE MAKES IT PLAIN TO MR. HAM

Has Signed Statements From Police Officials in Contradiction to Report.

Mayor Spence to-day addressed the following letter to Mr. Ham: Joseph H. Ham, City:

Dear Sir,—I note your reply to my letter of July 8th, 1914, in *Expositor and Courier*, and in reply to same would say I have given you the facts of my movements on Sunday evening, 28th June, 1914. The names of those who can back up same are reputable citizens, so you could have verified it if you had wished. Instead of doing so you come back with other insinuations, which I propose to answer, although as a rule I do not consider such statements worthy of a reply.

In reference to my statement in previous letter, how and from whom telephone message was received, a record of all such calls is kept at police headquarters. The Chief Constable is my authority for the statement, and I can see no reason why he should record such a call or make the statement to me if the call was not made in the manner and at the time described, and so recorded.

In regard to your own statement to P.C. Tyrell, I have the signed statement of that officer, and it is open for your inspection now or at any time, and I also have the signed statement of P.C. Pickells, who relieved P.C. Tyrell at 11 o'clock, or shortly after that hour, and who also visited P.S.D. 21, on the strength of P.C. Tyrell's report to him of your statement, and of his interview with one of your supporters and workers there, who informed him the Mayor had been there since 7.30 in the evening, and had been doing all sorts of misdeeds, while as a matter of fact I was in the village of Port Dover at that time. So if this is the kind of evidence you have to offer to substantiate your insinuations, you can readily see how much weight it should carry in the mind of any right-thinking citizen.

Besides above I have the signed statement of the Sergeant in charge of station, as well as the statement of the officer who was present when P.C. Tyrell made his report. Also two other officers have volunteered statements of my movements on Sunday night, June 28th, 1914, when you and your satellites caused the report to be broadcast throughout the city in reference to its Mayor and his actions in Ward 4, which I now brand as false to the core, and unworthy of you or any other right-thinking citizen to be a backer and upholder of.

Now, Mr. Ham, I would like you to be frank; did not one of your enthusiastic workers get the number of this mysterious car you all seem to have had dreams about, and is it not a fact that when you tried to trace it up through official sources, the name you got was the name of one high up in the Reform party? If so, why was it down there unknown to you and your workers, doing what you report it to have been doing?

In your letter of this date, you charge the writer with talking to the Turner brothers. In this part of your letter you are quite correct, only some half dozen or more Conservative workers were present; the writer was not out of his car, and there is no secret of what the conversation was, i. e., whether any Reform workers had been around offering bribes to voters, and no reform worker was anywhere within ear-shot, neither were lights ever out in the car, nor did the engine stop during the short time I was there. The utter folly of such a statement being made should be apparent to any citizen who knows the locality, as it is as light as day through the introduction of Hydro lights.

In regard to Mayor Spence being in Ward Four, my other letter covered everything in detail; my total time in Ward Four was twenty-five to thirty-five minutes, the latter at the extreme outside, and if you will show that during that time, or at any other time, during the election campaign, I did one act that even had the resemblance of being incorrect, come forward and state the case and I am prepared to meet it, whatever it may be, but I am not prepared to allow you or anyone else to make false charges or cast insinuations, while I occupy the chair of Chief Magistrate of the City of Brantford.

In reference to your advice as to how I should conduct myself while Mayor of Brantford, I hold the same right of freedom of speech and action as any other elector of this city, in any parliamentary election. When it comes down to municipal matters the citizens have a right to demand their business be conducted free from party politics, and my record in the city council, both as Alderman and Mayor, shows that I have lived up to this standard, which cannot always be said in past years. So I need no advice from you on that score. You advise the Mayor to look after the Board of Works. Well, Mr. Ham, if there is any particular piece of work in the City of Brantford that is being neglected, and you know of it, then it should be your duty as a citizen to advise me of same, and if your complaint is well founded after investigation, then the party or parties who are responsible for such neglect, will be dealt with accordingly. But I think it is unfair and unkind for you

BIG GASOLINE WAR FINE FOR DETROIT

Price Has Dropped to 11 Cents a Gallon and May Go to 7.

DETROIT, July 10.—All indications of the past few months point to a thoroughly systematic and long-continued price-cutting war in Detroit, with the Standard Oil Company of Indiana as the aggressor, and independent dealers in gasoline and oils as the aggrieved.

Detroiters are now getting gasoline at the lowest price of any users in the country. When the price was cut recently from 12 to 11 cents a gallon many took it as an indication that some economy had been made in the cost of production or distribution.

The recent cut was inaugurated by the Standard. Many independent dealers, interviewed to-day, could see nothing to it than a first step in a long, hard fight, advancing as their reasons the fact that the Standard is selling gasoline here cheaper than anywhere else in the country.

One Standard official stated to-day: "We are certainly trying to sell as much gasoline as possible in Detroit, but we are not anxious to sell at a loss."

That the Standard is willing to assume losses for an indefinite period for the sake of great future gain resulting from a practical monopoly of the gasoline industry in Detroit is the assertion of one independent dealer, who says he looks for a gradual drop to seven cents a gallon within the next few months.

With the City Police

The charge laid against Stanley Popula of keeping a disorderly house on Niagara Street was this morning dismissed. It was admitted that all were having a convivial time and it was not denied that much liquor was being consumed but defendant stated that they were celebrating a christening as is the custom in the old country. This plea was corroborated by no fewer than eight other foreigners, who were charged with being disorderly in the house and the magistrate thought there was some truth in it and allowed all defendants to depart.

Marquis McKay was found riding a bicycle on Marlboro Street and was fined one dollar for the offence.

Charles Christolm obtained a mattress and bed from Meyer Nausbaum on the instalment plan and has not as yet paid for them, and Nausbaum suspected him of fraudulent intentions and with this he charged him at the court to-day. Defendant pleaded not guilty and the charge was laid over until Tuesday.

Bogos Kalagian, the Armenian found wandering around Elgin, Sheridan and Chatham, suspiciously was allowed to go upon payment of the interpreter's fee. He pleaded not guilty to vagrancy and said he had no evil intentions, having just taken an evening stroll when he was arrested. He was warned to take his evening walks in more circumspect manner in the future.

Lawrence Coyle, a British army pensioner, and a well known character, dropped dead in a bar room of the age of seventy, at Toronto.

EMPLOYMENT AGENT FLEECS RUSSIANS

Took \$15 From Them and Sent Them on Wild Goose Chase.

ST. CATHARINES, Ont., July 10.—Complaints are continually being made about employment agents in different cities throughout the Dominion taking money from foreigners in many cases their last cent, and shipping them to this district under glowing promises of plenty of work along the Welland ship canal.

On their arrival here they are left stranded, as there are far too many idle men in the district now. To-day two Russians, unable to speak a word of English, applied at the police headquarters for assistance. They were without funds and starving. The chief furnished them with food.

Through an interpreter it was learned that they had paid \$15 to an employment agent in Montreal for a situation, and understood that a job was waiting for them here, but on arrival could find no work of any kind. Dominion Fair Wage Officer E. W. Compton has arrived in this district to investigate a number of complaints that have reached the Ottawa department that certain contractors along the Welland ship canal were not adhering to the fair wage clauses of the Dominion regulations.

INCREASE IN RATES DECREASE IN SPACE

Consensus of Opinion at Canadian Press Association Meeting.

TORONTO, July 10.—"Ask for it," is Mr. John Kirkland's solution of the question. How to get local retail advertising for a local newspaper, as told at the Canadian Press Association meeting. "It is a tried and proper way," said Mr. Kirkland.

Raising the local rates was the speaker's second advocacy. Advertisers will respond at the improved service and have been known to increase their space. Educational work among the townsfolk has created a demand for advertising. An educational policy cannot be too much stressed by a publisher.

SIR EDWARD CRITICISES LONDON, July 10.—Criticism of the bloated armaments of the European powers were directed at Sir Edward Grey, the British foreign secretary in the House of Commons to-day. In reply Sir Edward declared that Great Britain had done her best, but her direct suggestions to foreign countries as to the limitation of armaments had been without any good result. On the contrary they had been regarded as attempts to limit their control of their freedom of action and had been resented accordingly.

Would Put Them on Wagon

[By Special Wire to The Courier]
HAMILTON, July 10.—If Controller Morris, moral reform leader, has his way the council will pass a by-law forcing all city employees to become total abstainers. Morris does not agree with those who say the city has no control over its employees off duty. He thinks that all employees ought to be total abstainers and that men caught drinking should be fined. He will likely father a by-law to this effect.

BANDITS GOT AWAY WITH LOT OF VALUABLES

All Night Search Fails to Reveal Whereabouts of Robbers.

ST. LOUIS, July 10.—An all night search failed to reveal a definite trace of the bandits who late last night held up train No. 5 of the Missouri, Kansas and Texas Railroad bound from St. Louis for the southwest, Near Matson, Mo., sixty miles southwest of here and robbed the safe of money and valuables intended for distribution in Texas and intermediate points. Railroad officials early to-day could not give any estimate of the amount of plunder with which the bandits escaped. The car in which the American Express Company's safe was blown open by dynamite was partially demolished. The crew who watched the bandits operate while two of the robbers stood over them with leveled revolvers disagree as to the number of highwaymen their estimates ranging from two to five.

The hold-up took place about 11 o'clock, an hour later Sheriff Dierker of St. Charles county with blood hounds and a posse of deputies were in pursuit of the bandits. Farmers, railroad and express company officials also boarded the special train which was sent to the scene of the robbery. From the lonely spot in the woods, where they compelled the crew to halt the detached baggage and express cars, the bandits with arms pockets loaded with booty ran in the direction of Klondike. It is thought that from here they crossed the Missouri river to Labadie in Franklin County. Farmers living near the river say they heard a flat boat rowed across the river at midnight, but the boat has not been found early to-day.

Scout Notes

Nine Scout officers left yesterday morning for St. Andrew's training camp, Toronto, where an instructive and pleasant time is anticipated. The executive of the Scout Council met at the Y.M.C.A. to-night to complete plans for an entertainment to be held during Old Home Week in August.

Several members of the Y.M.C.A. patrol held their examination for the distance judging and marching test on the Mount Pleasant road last Wednesday, and passed successfully. The Scout Council has decided to grant \$1 to each Scout attending camp, which amount will be repaid from the entertainment in August.

The advance guard of fourteen boys leave next Saturday morning for the camp at the Elms Lake Erie. All Scouts attending the camp will have a most interesting time and can pass for the sea scout badges and decorations.

No Let Up By Government

TORONTO, July 10.—The officers of the Ontario license department are showing increased activity in the summer season.

Word was received at the Parliament buildings this evening of the conviction of three hotelkeepers at Arthur. Selling after hours was the nature of the charge in each case and the fines were heavy.

Two convictions were registered against one, Buschlen; two against Heffernan and one against G. Bolger. There is a possibility that more may follow in a few days.

Meat Prices To Take Jump

Chicago Predicts That a High Record Will be Established.

[By Special Wire to The Courier]
CHICAGO, July 10.—Meat prices will rise above record figures of recent years, despite the huge grain crop, packing house representatives to-day assert. They say that the present scarcity of cattle and the effect of dry weather on grassing lands will more than offset the enormous grain yield. The beef price of 16 cents to the butcher was predicted as an early possibility, and it was pointed out by one of the packing house men that cattle even now are higher than for some time. Scarcity of grass-fed cattle was referred to as one cause for the predicted advance. The dry summer in the west last year is the chief cause of the present scanty supply on the hoof. Another factor is that the demand for meat exceeds the supply.

Favor Votes For Women

ST. PAUL, Minn., July 9.—Woman's rights to-day were recognized to the fullest extent by the National Education Association. It passed resolutions endorsing woman suffrage and equal pay for teachers regardless of sex, and allotted five of its ten vice-presidencies to women.

The resolutions adopted at to-day's business meeting endorse pensions for teachers, increased salaries, vacations

MUSIC AND Drama

At the Brant.

One of the finest entertainments ever brought to the Brant Theatre is produced there this week. It takes the form of a tuneful melange entitled "The Music Hall Girl." The sketch is presented by Edwin Niner, and it includes some of the musical comedy celebrities of the North American continent. It is clever and witty and includes a charming little story, while it is interspersed with good musical numbers, which comprise solos, duos, trios and sextettes, besides the general chorus. There is not a doubt that it has not been approached in the city. Perhaps the greatest hit is the excellent comedy work of Edwin Niner as a German comedian, while he is well supported by a capable band of songsters, among whom is to be found May Kelley, a noted Irish baritone. There are some clever character impersonations by members of the company, and the whole melange goes with a swing which leaves no intervals. Besides this, there is a photo play, "Love's Sunset," which has been declared the Vitagraph masterpiece. It is a heart-touching story, mightily interesting in two reels. The Brant Theatre is this week super-excellent.

Captain Got Into Trouble

[By Special Wire to The Courier]
ST. CATHARINES, Ont., July 10. When Chief of Police Taylor of Thorold boarded the Steamer Cadillac to serve a summons on Captain Sullivan, in connection with a wage case, Sullivan maintained that no British peace officer had a right to board an American vessel. To enforce his contention the captain called his mates and two of his crew, and had the chief thrown from the boat to the canal bank. High Constable Boyle and Chief Howe of Port Dalhousie met the steamer at that place and arrested the captain after considerable bluff and bluster on his part. He was taken to St. Catharines, charged with an indictable offence and held in \$4,000 bail.

My opportunity came from the treasurer of a small manufacturing plant. They were just beginning, had a limited amount of capital, and but a few men. They desired to eliminate the expense of a book-keeper.

At 5 therefore, every night, I went over to Poole's army factory office and fixed up his books. They were in a horrible mess. Everybody had taken a shot at them from the shipping clerk down to the office boy.

The Good Night Story

The Golden Mountain By Vernon Merry
IN the long ago there were two brothers who lived on adjoining farms, and one of them was very rich and one very poor. The rich brother never gave his poor brother any help, and was as big as he could be whenever they met.

UNSEEN COMPANY By Michelson

BZZZ!—no, it's more like a purr. At least that buzz sounds just like the softest purr to occupants of a car who may be utterly absorbed in each other. Call it a kind of music. Call the green and yellow and blue of the scene a chromatic whirl. These two really see and hear nothing but themselves.

Common Origins

People say "God bless me" after sneezing from the fact that in the days of the plagues this terrible malady began with violent sneezing and other indications of cold. The exclamation was thus originally a prayer to be delivered from the plague.

How Easy It Is for the Man By WINIFRED BLACK

SHE killed herself three months ago—the pretty little woman I've known ever since I went to her wedding, when she was twenty and as sweet as a brier rose, as pretty as a pink and just as good as gold.

Her Wages of Sin.

The school principal gave her just money enough to get away to the nearest big city, on condition that she didn't speak to any one before she went—and that she would keep his secret as well as her own. She came to the city—alone, in terrible pain, friendless—with just money enough to get a carriage and drive to a newspaper office where she had read of the name of a woman whom she thought might help her.

His Happy Lot

Yesterday I went past the little church where the man and woman used to go and the door was open and I stepped in to see what was going on. And it was a wedding, and the bridegroom was the man whose wife had killed herself—and the bride was a young girl nineteen or twenty. Where had I seen her before? Oh, yes, I had sat behind her and the man at the theatre some six months ago and the man took great pains to tell me that he had just dropped in by accident and happened to find one of his Sunday school class in the seat next to him. And wasn't she the same girl I saw walking with the man out on a lonely country road—some Sunday, way last fall?

Secrets of Health and Happiness

Why Your Nose Lining Demands Strict Care

By DR. LEONARD KEENE HIRSHBERG
A. B., M. A., M. D. (Johns Hopkins).
CHAUCER was the Canterbury poet who knew man and medicine better than the doctors of his day. He even anticipated the French physicist of yesterday-week, who discovered that nose-piece for telephone service is superior and helpful to the mouthpiece. Thus: "Full well she sang the service divine, Entuned in her nose most sweetly."

"The executive committee have de-

Berkman, "and they will tell in their
own way the meaning and significance
of it."

To-night there will be meetings of
the special delegates from the various
organizations with which the three
victims were identified, and the
activities of the anti-military league
will take part in the procession on

ANARCHISTS WILL ASSEMBLE AT UNION SQUARE

NEW YORK, July 10.-After a brisk
campaign and a fighting finish Mani-
toba is voting to-day for a new legis-
lature. Rain threatened this morning,
but it is probable that despite this
fact a very heavy vote will be polled.

CHARGES AND DENIALS ARE PROMINENT IN THE CITY PAPERS THIS MORNING

It is announced that the government has
cancelled the commissions of Fred
Hamilton and T. C. Keenleyside, said
to be the only two Liberal justices of
the peace in Winnipeg, just on the
eve of the elections. It is asserted in
an opposition paper that this was the
obvious purpose of making it diffi-
cult for Liberals to swear out infor-
mations to-day in the event of elec-
toral crookedness.

Both parties appeal to their support-
ers to guard the polls and to vote
early. There are fewer expressions of
absolute confidence in the result this
morning and it is possible most people
expect a closer finish than in some
previous elections. However, Hon.
Dr. Montague the only member of
the government in town last night de-
clared that the contest looked most
satisfactory for the government forces.

The government press refer to
charges made yesterday that detec-
tives have secured inside information
of the workings of an alleged Conser-
vative machine as "a transparent
fake," and "the joke of the cam-
paign."

On the other hand the oppo-
sition deny that George Vincent
made an affidavit that he had
distributed liquor in behalf of the
Liberal candidate in Kildonan and St.
Andrew's was a Liberal worker. Lib-
erals charge a frame-up between Vin-
cent and his band and the Conserva-
tive party.

At Portage La Prairie, Hon. Arthur
Meighen repeated his charges that
Rev. C. W. Gordon (Ralph Connor),
had received dividends from a licens-
ed hotel at Neepawa. Dr. Gordon re-
plied that he had sold out his interest
at a loss of \$20 before the hotel came
under license.

The opposition this morning make
the assertion that the Liberal execu-
tive has been advised of a "concerted
attempt to affect the result of the
election by ballot switching" and de-
clares that a letter of warning comes
from a "very high official in the Con-
servative organization."

Red Sox Bumped The Ottawa Senators, 4-3

First Time This Week The Fans Have Had Chance to Cheer—Chase Pitched Fine Ball—After Dropping Three to London, Every- one Hopes for Clean Sweep of Ottawa Series

Good work on the bases and in the field and timely home run by Rube Deneau won the opening game with Ottawa for the Red Sox at Agricultural Park yesterday afternoon by the score of 4-3. It was just what the fans had been liking for some time past, real good ball playing and yesterday they got it, the game left one wondering why the Ottawa team have held second place in the league so long and why the Red Sox have occupied the cellar.

It is just such work as the Red Sox accomplished yesterday that win ball games and nothing else in this wide world will do it.

To begin with it wasn't so much the hitting of the locals that won them the game, for the visitors exactly dou- bled their hits, but it was the splendid fielding and the timely putting out of the Senators after they had hit, and that is certainly part of good base- ball.

Chase a Lill opposed each other on the mound, an though Chase was somewhat indisposed from a heavy cold, yet he fought his way through, fought real hard especially in the last inning when the Senators used two pinch hitters, Wager and Shocker, in an attempt to tie the score, Chase striking out Wager out, who batted for Dolan, and Shocker batting for Lill, going out Roth to Ivers. Ver- haps the hitting of the Red Sox would have showed up better had not Lill walked five men to Chase walking on- ly one. In the outfield Long played a splendid game at bat putting five Senators out, although he didn't secure a hit during the entire game, being walked once. Rogers, the Senator's left fielder almost totally collapsed in the third inning. He suffers from a weak heart and is still crippled from a broken leg that did not set completely. He received great applause from the fans in the sixth when he

hit for the only home run the Sena- tors made. The fireworks started in the second inning when Smykal hav- ing been walked by Chase, Dolan for- ced him at second and went to third on Power's single who stole second and Lill following singled scoring Dol- an and Powers. The Red Sox in their half promptly tied the score by the scoring of Thraikill and Lamond by a balloon ascension on the part of the Senators, when Lill threw home to catch Thraikill but threw to the stand and Lill throwing to second to catch Lamond threw to centre and Lamy sped on home. The Sox gained a two run lead in the fifth by Rube's ho- mer and by a squeeze play by Gabby Ivers and Roth scoring Ivers. Rogers home run in the sixth gave the Sena- tors their last run and the Red Sox won out 4-3.

ORGANIZED BALL ROUNDLY SCORED

BUFFALO, N.Y., July 10.—The motion to vacate the injunction ob- tained against Hal Chase by the Chi- cago American League club restrain- ing him from playing with the Buf- falo Federals was argued yesterday. Keen H. Addington of Chicago, per- sonal counsel for Chase, in his argu- ment, attacked the so-called national agreement, under which organized baseball operates. He characterized organized baseball as a combination contrary to common and statute law, and a violation of the Sherman anti- trust law in that it constituted a traf- fic in players.

"Organized baseball does not come into court with clean hands," he said. Attorney Addington read various clauses of the national agreement in support of his argument, and pointed out the different conditions which he claimed operated against the differ- ent players.

Attorney Ryan replied only to the attack on the legality of the contract, reserving until to-morrow his argu- ments upon the allegation that organ- ized baseball operates in violation of the Sherman anti-trust law.

GALT AND GUELPH WIN W.O.L. GAMES

Victory Over Stratford by Galt Ties Them for First Place.

GALT, July 10.—With the score 3 to 2 against them in the eighth, Galt last evening scored nine runs, ham- mering the ball to all corners of the lot and Stratford lost 11 to 4. Up to the time of the balloon ascension the game was nip and tuck, and Parker for the visitors was twirling good ball. In the eighth the batting order went around for the second time and every player on the local team with the exception of Manager Burridge, got a run. Jack Broomfield for the locals, with the exception of the opening inning, twirled well. By last night's victory Galt broke the tie that existed for second place with Stratford. The score: Stratford 4, Galt 11.

Guelph 10; Woodstock 9.

GUELPH, July 10.—Woodstock, the leaders of the Wobbly League, in a loosely played game went down to defeat before the Guelph Maple Leafs the fall-enders. It was a see-saw ab- tle from start to finish. Guelph used two pitchers, Tasker being batted out of the box in the third, when the vis- itors scored six runs. Two or three fast double plays featured the game. There was a goodly crowd present. The score, Woodstock 9, Guelph 10.

Big Nicholls will pitch against Ot- tawa to-day and it is the one best bet the big fellow will win.

Ordinary League Games Will be Played Saturday

Tutela and Holmedale Will Provide Real Argument and the Dufferins Will Meet the Scots United.

Tutela v. Holmedale
Cockshutt's v. Wanderers
Duffs v. Scots
P. S. A. v. Paris

Some interesting games will be played on Saturday in the Brantford and Paris Football League.

Tutela will be at home to the Tigers, whom they put out of the John Hill Cup last week, and on current form they are winners, although the Holmedale bunch can put up a very good argument. Cockshutt's have the Wanderers to entertain, and with the improvement shown by the old Dragons and the falling off of the ex-champs, it would not be surprising to see a tie score.

A real fast game should be the outcome of the Duffs and Scots meeting, as both teams are pretty keen. The Scotchmen will find the Duffs a rough proposition and will have to go hard to win. It is doubtful if they can do this, as the Duffs are strong in the rear-guard and are not likely to fall to the United.

P. S. A.
The P. S. A. Football Club selected the following team to meet the Paris Club at Recreation Park on Saturday: Hunt, Knowles (captain), Illsley, Howell, Rogers, Myring, Martin, McLean, Parr, Arthur, Hurst; reserves: Secord, Holloway, Trebble. All players should be on the field at 5.30, on account of the photos of the team being taken.

Scots.
Scots United team to play Duffs on Saturday at Agricultural Park: Goal, Magill; backs, Cook, Murphy; half-backs, Harrington, Morrow (captain); Forgie; forwards, Vipond, Linn, Jones, Hutchison, Richardson; reserves, Ramsay, Maich. All players are requested to be on the field not later than 5.45.

Duffs.
Duffs and Scots United meet in a league fixture at Agricultural Park. This will undoubtedly be a great game, both teams being confident of victory. Football enthusiasts in the city should not on any account miss witnessing this game. Everything points to a clean and interesting contest. The following will represent the Duffs: Knowles, Harbour, W. Holland, Williamson, Mercer (captain), Biggs, Usher, Humphries, J. Holland, Poynter, Keightley; reserves, Alexander, Palmer, Street. Kick-off at 6 p.m. sharp. Players to be at armories at 5 p.m. Referee, Mr. Hollister.

Wanderers.
The Wanderers will line up as follows against Cockshutt's at Mohawk Park to-morrow: Goal, Rudden; backs, Charlick and Johnson; half-backs, Atkinson, Little and Wallace; forwards, S. Mears, Hutchings, Bonner, Little and Johnson; reserves, Scott and Richardson. All players to be on the grounds by 5.45 p.m. Take the 5 p.m. car.

FIRST SHUTOUT SCORED BY DUFFS

City League Soft Ball Game at Recreation Park Last Night—Big Crowd.

The Dufferin Rifle softball team are making things hum in the city league. Last night they scored the first shut out on record in the league, when they beat the G. S. & M. aggregation by 4-0. A great crowd at Recreation park watched the game. Hetherington pitched a great brand of ball for the winners, and was well supported. In fact no better work has been shown this year than that of Brags at short and Alf Dowling at first base. The batteries were: Duffs, Hetherington and Allen; G.S. & M., McQuinn and Dowling. Umpires, J. Croucher and E. Slattery.

No Life Mask for Secretary Bryan

Humorous Speculation as to Reason of Refusal or Silver-tongued Nebraska.

WASHINGTON, July 10.—No life mask for Secretary of State Bryan, at least not until the process has been considerably changed, and the reason is given privately, has caused many smiles throughout Washington's artistic circles.

Emory Garet, whose masks have attracted considerable comment, desired to obtain a sitting from the Secretary of State.

Garet, not being personally acquainted with Mr. Bryan, enlisted the services of a friend, delegating to him the task of making arrangements for a sitting.

Then the private secretary to the Nebraska came into the game, for when the friend called he was asked a number of questions in regard to the manner in which the work was done. It was explained that the subject was placed in a chair and his features heavily covered with soapy paste, which was allowed to remain in place for eight or ten minutes to "set."

The artist was eagerly awaiting the return of his friend.

"Did you get him?" he asked.

"Nothing doing," came the answer. "When Bryan's secretary found out that his boss would have to have his mouth covered and could not talk for ten minutes, he nearly fired me out of the office."

CATCHER "SHRECK" DIES.

PHILADELPHIA, July 10.—Ossie Schreckengost, who won fame as the batter's partner of Rube Waddell when the latter was the star pitcher of Connie Mack's Philadelphia Athletics, died in a hospital here yesterday, from a complication of diseases. He was about forty years old. He was released by the Philadelphia club about five years ago and quit the game shortly afterward. Schreckengost outlived his famous partner only a few months, Waddell dying in Texas last March.

REDS BUY TWO ORIOLES.

CINCINNATI, Ohio, July 10.—President August Herrmann, of the Cincinnati National League team, announced that infielder Derrick and Outfielder Thombly of the Baltimore International League team, had been obtained by Cincinnati. He stated that Thombly would be tried out immediately but that Derrick would probably figure in a trade soon.

BRUCE HOTELMEN FINED; SELLING AFTER HOURS.

WALKERTON, July 10.—In one week fines totalling 170 have been collected from hotelkeepers in this riding for illicit sale of liquor. Messrs. Bishelman of Midway and Kennama of Deemerton, are the latest to fall foul of the inspectors, being assessed 50 each for selling after hours.

The body of Thomas Banks, 6 Hercourt street, was recovered from the lake near Toronto.

Yesterdays game was a battle between the team which occupies second place in the league standing and the team which occupies the last place. Considering how many points separate the teams it is difficult to see how evenly matched they appear on the field. In fact, on yesterdays showing, Brantford looked every bit as good as Ottawa. In two out of three games played with London this week the Red Sox looked for the best part their own even with the leaders. How are you to explain it. Luck undoubtedly is a great factor in baseball and Brantford without question has been out-lucked. Last week for instance two games were stolen by an umpiring. This week London carried all the horseshoes and instead of Brantford taking two out of three at least, the Cockneys romped home with all three games. Then came the league's next best, Ottawa, and in a game in which luck cut but little figure, Brantford beat Ottawa 4-3. Can you beat it?

We have no love for London, but if by beating Ottawa this week it will help London, then the Red Sox will do it.

Gaby Ivers has had one hit; this week and his slump occasions real worry. Gabyly has been hitting at the first ball pitched which for Gabyly hasnt proved good business because he invariably pops out.

Ottawa got no less than ten hits off Chase yesterday, while the Red Sox garnered several less off Lill and yet we won. It was not entirely Chase's victory because he got grand support in every inning.

Matty Lamond is doing grand work for the Red Sox. His catching is simply immense and his throwing still better. Lamond this year has had opposition in the presence of LaCroix and it has done him good. Matty has shown real stuff; he is hitting, throwing and fielding, and while the pitchers asked at the first of the season to have LaCroix behind the bat, they are now asking for Matty. This is not

Shaughnessy says reporters down by beating Ottawa this evening. If the team wins every player is a hero, if it loses, every player is a tramp. After looking at yesterdays line up of the Senators all we can say is that they are lucky to be in second place.

Ivers scored the last out of the game yesterday. It was remarkable the way Gabyly, remembering Wednesday, squeezed the horse hide right off the sphere.

Chase as usual got in bad the first two innings. He pulled out in the first but in the second a pitcher Mr. Lill did the damage against him.

Kockneys Down Saints in Great Game—Toronto and Erie Win.

LONDON, July 10.—The Cockneys did not need that ball game yesterday particularly, but they did want to climb on that St. Thomas jinx, Har Howick, and so they simply had to beat him up 4 to 4, the final tally. A large crowd of bugs were on duty and they gave the "welcome to our city" greeting to Doc Keisling's less than stellar performance. The Indians, just to be very polite, booted the game away, and started to get it back. During the process they gave an exhibition of spite did aggressive work and incidentally the finest exhibition of plain fancy tumbling seen in a pastime to or any season.

H. Howick had his slippery working to beat the band for a sp and the pastime seemed to be slipping from our grasp as it were. In the innings the Saints had combined a fine with bad plays by Bierbauer a Dumm. In the third they annexed a pair of runs. With two gone, K beat out a punt, Heine Steiger caught him cold and when Kopp raced second Bierbauer dropped the to Inker slammed a hit to left and K scored. Inker went to third wh Dumm's throw oozed through Snyr Hadley tallied him, but was caught stretching it. They annexed another in the fourth on three hits, Bierbauer helping some. In the sixth double by Kading and Gillespie's scored another.

Errors Lose for Petes.
PETERBORO, July 10.—Toronto came from behind and beat Peterboro 5 to 4 yesterday in one of the most interesting games of the season. The Petes scored three runs in less than ten innings off Bauwien, the Beaver new pitcher, but Roberts, who succeeded him was effective in the 7th, and one more run was all the Petes could get. Meanwhile, the Beavers kept after Schettler, scoring in the fifth and registering the tie run in the sixth. In the seventh Krey's double was responsible for run No. 4. The Petes tied it up their half, but in the eighth, with two on, Trout's single and two fumbles sent the winning run over.

ERIE, July 10.—The Yanks touched hits to better advantage than they did yesterday. They piled up a 10 to 4 score against Hamilton yesterday. Fregey pitched well, his clerks threw lights, and he pitched the scoring on both sides. Hamilton used three pitchers, Shears finished the fifth innings after Erie scored four runs and Clements' pitching the last three innings. C replaced Fitzpatrick when two were out in the sixth and let Hamilton down with one more hit.

World's Greatest Short Stories

No. 1.

THE MAN WITHOUT A COUNTRY

By Edward Everett Hale

EDWARD EVERETT HALE

MARY ROBERTS RINEHART

Twenty-four famous authors were asked recently to name the best short story in the English language. The choice of Mary Roberts Rinehart and Owen Johnson was "The Man Without a Country," by Edward Everett Hale. His works are published by Little, Brown & Co.

PART I.

HILIP NOLAN was as fine a young officer as there was in the "Legion of the West," as the western division of our army was then called. When Aaron Burr made his first dashing expedition down to New Orleans in 1806 at Fort Mifflin or somewhere above on the river he met, as the devil would have it, this gay, dashing, bright young fellow at some dinner party, I think. Burr marked him, talked to him, walked with him, took him a day or two's voyage in his flatboat and, in short, fascinated him. For the next year barrack life was very tame to poor Nolan. He occasionally availed of the permission the great man had given him to write to him. The other boys in the garrison sneered at him because he sacrificed in this unrequited affection for a politician the time which he devoted to monogambela, sledge and high-low-jack. Bourbon, such as and poker were still unknown. But one day Nolan had his revenge. This time Burr came down the river not as an attorney seeking a place for his office, but as a disguised conqueror. It was rumored that he had an army behind him and an empire before him. It was a great day—his arrival—to poor Nolan. Burr had not been at the fort an hour before he sent for him. That evening he asked Nolan to take him out in his skiff to show him a canebreak or a cottonwood tree, as he said—really to seduce him—and by the time the sail was over Nolan was enlisted body and soul. From that time, though he did not yet know it, he lived as "a man without a country."

For that half century and more he was a man without a country. Old Morgan, as I said, was terribly shocked. He called the court into his private room and returned it fifteen minutes with a face like a sheet, to say: "Prisoner, hear the sentence of the court. The court decides, subject to the approval of the president, that you never bear the name of the United States again."

Nolan laughed. But nobody else laughed. Old Morgan was too solemn, and the whole room was hushed dead as night for a minute. Even Nolan lost his swagger in a moment. Then Morgan added: "Mr. Marshal, take the prisoner to Orleans in an armed boat and deliver him to the naval commander there."

The marshal gave his orders, and the prisoner was taken out of court. "Mr. Marshal," continued old Morgan, "see that no one mentions the United States to the prisoner. Mr. Marshal, make my respects to Lieutenant Mitchell at Orleans and request him to order that no one shall mention the United States to the prisoner while he is on board ship. You will receive your written orders from the officer on duty here this evening. The court is adjourned without day."

I have always supposed that Colonel Morgan himself took the proceedings of the court to Washington city and explained them to Mr. Jefferson. Certain it is that the president approved them—certain, that is, if I may believe the men who say they have seen his signature. Before the Nauticus got round from New Orleans to the northern Atlantic coast with the prisoner on board the sentence had been approved, and he was a man without a country.

When I was second officer of the Intrepid some thirty years after I saw the original paper of instructions: Washington (with the date, which I have been late in 1807). Sir—You will receive from Lt. Neale the person of Philip Nolan, late a lieutenant in the United States army. This person on his trial by court martial expressed with an oath the wish that he might never hear of the United States again. The court sentenced him to have his wish fulfilled. For the present the execution of the order is intrusted by the president to this department. You will take the prisoner on board your ship and keep him there with such precautions as shall prevent his escape. You will provide him with such quarters,

rations and clothing as would be proper for an officer of his late rank if he were a passenger on your vessel on the business of his government. The gentlemen on board will make any arrangements agreeable to themselves regarding his society. He is to be exposed to no indignity of any kind, nor is he ever unnecessarily to be reminded that he is a prisoner.

But under no circumstances is he ever to hear of his country or to see any information regarding it, and you will especially caution all the officers under your command to take care that, in the various indulgences which may be granted, this rule, in which his punishment is involved, shall not be broken.

It is the intention of the government that he shall never again see the country which he has disowned. Before the end of your cruise you will receive orders which will give effect to this intention. Respy yours, W. SOUTHARD.

For the Secretary of the Navy.

I suppose the commander of the Levant has it today as his authority for keeping this man in his mind custody. The rule adopted on board the ships on which I have met "The Man Without a Country" was, I think, transmitted from the beginning. No mess liked to have him permanently, because his presence cut off all talk of home or of the prospect of return of politics or letters, of peace or of war—cut off more than half the talk men like to have at sea. But it was always thought too hard that he should never meet the rest of us, except to touch hats, and we finally sank into one system. He was not permitted to talk with the men unless an officer was by. With officers he had unrestrained intercourse, as far as they and he chose. But he grew shy, though he had favorites. I was one. Then the captain always asked him to dinner on Monday. Every mess in succession took up the invitation in its turn. According to the size of the ship, you had him at your mess more or less often at dinner. His breakfast he ate in his own stateroom—he always had a stateroom—which was where a sentinel or somebody on the watch could see the door. And whatever else he ate or drank he ate or drank alone. Sometimes, when the marines or sailors had any special justification, they were permitted to invite "Plain Buttons," as they called him. They called him "Plain Buttons" because, while he always chose to wear a regulation army uniform, he was not permitted to wear the army button, for the reason that it bore either the initials or the insignia of the country he had disowned.

I remember soon after I joined the navy. Some one told the system which was adopted from the first about his books and other reading. As he was almost never permitted to go on shore, even though the vessel lay in port for months, his time at the best hung heavy, and everybody was permitted to lend him books if they were not published in America and made no allusion to it. He had almost all the foreign papers that came into the ship sooner or later, only somebody must go over them first and cut out any advertisement or stray paragraph that alluded to America. Phillips told me a story of something which happened at the Cape of Good Hope on Nolan's first voyage, and it is the only thing I ever knew of that voyage. Phillips had borrowed a lot of English books from an officer, which in those days, as indeed in these, was quite a windfall. Among them, as the devil would order, was the "Lay of the Last Minstrel," which they had all of them heard of, but which most of them had never seen. I think it could not have been published long. Well, nobody thought there could be any risk of anything national in that, so Nolan was permitted to join the circle one afternoon when a lot of them sat on deck smoking and reading aloud. Nolan took the

book and read to the others, and he read very well, as I know. Nobody in the circle knew a line of the poem, only it was all magic and border chivalry and was 10,000 years ago. Poor Nolan read steadily through the fifth canto, stopped a minute and drank something and then began, without a thought of what was coming:

"Breathes there the man with soul so dead,
Who never to himself hath said,
"This is my own, my native land?"

Then they all saw something was to pay, but he expected to get through, I suppose, turned a little pale, but plunged on:

"Whose heart hath ne'er within him burn'd
As home his footsteps he hath turn'd
From wandering on a foreign strand?
If such there breathe, go, mark him well."

By this time the men were all beside themselves, wishing there was any way to make him turn over two pages, but he had not quite presence of mind for that. He ragged a little, colored crimson and staggered on:

"For him no minstrel raptures swell,
High though his titles, proud his name,
Boundless his wealth as wish can claim,
Despite these titles, power and pelf,
The wretch, concentered all in self—
And here the poor fellow choked, could not go on, but started up, swung the book into the sea, vanished into his stateroom, "and, by Jove," said Phillips, "we did not see him for two months again. And I had to make up some beggarly story to that English surgeon why I did not return his Walter Scott to him."

That story shows about the time when Nolan's braggadocio must have broken down. At first they said he took a very high tone, considered his imprisonment a mere farce, affected to enjoy the voyage, and all that, but Phillips said that after he came out of his stateroom he never was the same man again. He never read aloud again unless it was the Bible or Shakespeare or something else he was sure of. He was always shy afterward when I knew him—very seldom spoke unless he was spoken to, except to a very few friends. He lighted up occasionally, but generally he had the nervous, tired look of a heart wounded man.

Nolan's transfer at sea to the Warren was the first of some twenty such transfers, which brought him sooner or later into half our best vessels, but which kept him all his life at least some hundred miles from the country he had hoped he might never hear of again.

It may have been on that second cruise—it was once when he was up the Mediterranean—that Mrs. Graff, the celebrated southern beauty of those days, danced with him. They had been a long time in the bay of Naples, and the officers were very intimate in the English fleet, and there had been great festivities, and our men thought they must give a great ball on board the ship. They wanted to use Nolan's stateroom for something, and they hated to do it without asking him to the ball, so the captain said they might ask him if they would be responsible that he did not talk with the wrong people—who would give him intelligence." For ladies they had the family of the American consul, one or two travelers who had ventured so far and a nice very of English girls and matrons, perhaps Lady Hamilton herself.

What Burr meant to do I know no more than you, dear reader. It is none of our business just now. Only when the grand catastrophe came some of the lesser fry in that distant Mississippi valley to while away the monotony of the summer at Fort Adams got up for spectacles a string of court martials on the officers there. One and another of the colonels and majors were tried, and, to fill out the list, little Nolan, against whom, heaven knows, there was evidence enough—that he was sick of the service, had been willing to be false to it and would have obeyed any order to march anywhere with any one who would follow him had the order only been signed. "By command of His Exc. A. Burr." The courts dragged on. The big flies escaped—rightly for all I know. Nolan was proved guilty enough as I say, yet you and I would never have heard of him, reader, but that, when the president of the court asked him at the close whether he wished to say anything to show that he had always been faithful to the United States he cried out in a fit of frenzy:

"D— the United States! I wish I may never hear of the United States again!"

I suppose he did not know how the words shocked old Colonel Morgan, who was holding the court. Nolan had grown up in the west of those days in the midst of "Spanish plot," "Orleans plot" and all the rest. He had been educated on a plantation where the finest company was a Spanish officer or a French merchant from Orleans. His education, such as it was, had been perfected in commercial expeditions to Vera Cruz and I think he told me his father once hired an Englishman to be a private tutor for a winter on the plantation. He had spent half his youth with an older brother hunting horses in Texas, and, in a word, to him "United States" was scarcely a reality. Yet he had been fed by "United States" for all the years since he had been in the army. He had sworn on his faith as a Christian to be true to "United States." It was "United States" which gave him the uniform he wore and the sword by his side. I do not excuse Nolan. I only explain to the reader why he damned his country and wished he might never hear her name again.

He never did hear her name but once again. From that moment, Sept. 23, 1807, till the day he died, May 11, 1863, he never heard her name again.

Defection of Orange Order on School Question Made Road on Majority

(By Special Wire to The Courier)
WINNIPEG, July 11.—The results of yesterday's elections are still somewhat in doubt. The Telegram has today's tally claims the election of 25 government supporters and 21 members of the opposition, while the Free Press estimates 23 Conservative and 21 Liberal with two in doubt, these being St. Rose and St. George, who are placed by The Telegram in the Conservative column.

The election was remarkable in many ways. The government for met many losses.

The opposition believed early in the evening they had won and their enthusiasm was shown among Liberals on the strength of the reports coming in then. Later some seats counted as safely Liberal had to be moved to the government column and The Free Press this morning admits that the government has "a precarious lead."

The Telegram on the other hand declares that the government will win a majority "ample to guarantee stable administration." Several seats were undoubtedly seen a recount. In Kildonan and St. Andrews, Hon. J. Montague has a majority of 3 and a recount will be demanded. Most of the cabinet members had their majorities reduced. Hon. Hugh A. Strachan was defeated in Portage la Prairie by seven votes. Premier Roblin's majority in Dufferin was reduced to 450 from 460.

A spectacular feature of the election was the return of F. J. Dixon, a dependent Liberal in Centre Winnipeg by a majority of approximately 19. The Liberals lost three seats: LaSalle, La Verandrye and Winnipeg north and gained Arthur, Carillon, Lorraine, Hamiota, Norfolk, Portage Prairie, Russell, Virden, Winnipeg Centre and Winnipeg South.

Of the new seats the Liberals won Glenwood, Morden-Rhineland, St. Charles and Conservatives, Elmwood, Iverville (acclamation, and Roblin). The majority of T. C. Norris, Liberal leader in Lansdowne rose from 450 to 459.

Editorial Opinion.
Commenting editorially on the result this morning The Telegram says: "The government has been succeeded, but by a considerably reduced majority in the Legislature. Returns still incomplete, but sufficient to indicate the total result. One minister was defeated and in the face of it is said a recount will be demanded. The government has a working majority."

In the final analysis it is obvious that the educational question was an issue on which the government's majority has been substantially maintained.

All the fads and follies of the opposition was put aside by the election as unworthy of consideration, but appeal to religious differences, centering around the school question, the deciding issue.

"The Orangemen have been defeated by the very tactics which kept them in power in a turmoil from 1890 to 1900. This was especially noticeable in Dufferin, where for thirty years Premier Roblin possessed the confidence of the very men who on this issue of their ballots against him. The Orangemen have been victims of a man who has used them to advance his own self interest without a thought of attempting to improve the conditions which they have contrived for the Orangemen to be suffering from."

"Now that the government has sustained these same Orangemen, see that their fears played upon such success by political adventurism were not grounded upon fact."

The campaign of vilification and misrepresentation conducted against the government, was never so bitter as during this contest, but the people

MORE EMIGRANTS THAN IMMIGRANTS
Unusual Situation is Likely to Develop Towards Fall.

OTTAWA, July 10.—A curious situation as regards immigration to Canada promises to prevail at the end of the present year. According to present expectations for the first time in many years emigration from the Dominion will be greater than immigration to it. This is due to the fact that there are more foreigners such as Ukrainians, Galicians, Romanians and the like leaving the country than there are coming in. Immigration this year is expected to amount to not more than 150,000 instead of 350,000, which is the usual number.

The Immigration Department has discontinued its advertising in the country for immigrants and has on the other hand made it known that no newcomers are desired except those prepared to go on land immediately after their arrival and with sufficient money to be able to do this. These immigration conditions, however, will likely prove of more benefit than harm to the country. Those who are emigrating from Canada are chiefly the floating class of foreign labor, people who do not wish to go on the land, but flow from one city to another in search of transit work. The present world-wide financial stringency and the consequent scarcity of work is hitting these people the hardest, and they are returning in numbers to the land of their birth.

According to Mr W. D. Scott, Superintendent of Immigration, however, the settlers who are now coming in are the very best type, the kind that the country needs. They are chiefly Americans with money to put into western farms, as well as old countrymen similarly qualified, and will be permanent additions to the citizenship of the Dominion.

CANADIAN YACHTS EASILY DEFEAT THE AMERICAN.
PRINCESS COVE, Ont., July 10.—Canadian craft more than held their own in the first day of the Lake Yacht Racing association regatta being held here, outside Princess Cove, 20 miles from Picton, in the Bay of Quinte, on a splendid triangular course off Pleasant Point Light. The Royal Canadian Yacht Club of Toronto, yacht Nirvana defeated the Watertown N.Y., Neara, handily in the first race of three for the George cup, and other Canadian boats also won from American competitors though the Watertown won in R. Division D.

WILL NOT INTRUDE ON GAY STAG PARTY

Chicago Women Commissioners Declare Independence—Quit Toronto Visit.

CHICAGO, July 9.—Chicago's International Aldermanic tour left for Toronto and Montreal last evening, minus the listed six women members of the party. The women, led by Mrs. Ella Flagg Young, Superintendent of the city schools, deserted the junket in a body after criticisms that their presence would interfere with what the masculine contingent wanted to be a gay stag party.

HOT WEATHER AILMENTS
A medicine that will keep children well is a great boon to every mother. This is just what Baby's Own Tablets do. An occasional dose keeps the little stomach and bowels right and prevents sickness. During the hot summer months stomach troubles speedily turn to fatal diarrhoea or cholera infantum and if Baby's Own Tablets are not at hand the child may die within a few hours. Wise mothers always keep the Tablets in the house and give their children an occasional dose to clear out the stomach and bowels and keep them well. Don't wait till baby is ill—the delay may cost a precious life. Get the Tablets now and you may feel reasonably safe. Every mother who uses the Tablets praises them and that is the best evidence that there is no other medicine for children so good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from the Dr. Williams Co., Brockville, Ont.

masculine junketers, however, that they would be on the Lusitania on Tuesday bound for Europe as official members of the delegation for the study of terminals, vice, traction and school questions abroad. The men intimated there would be many a slip 'twixt Montreal and New York.

Men Take the Cue.
The women members of the delegation will be: Mrs. Young, Mrs. Gertrude Howe Britton, Superintendent of the Juvenile Protective Association; Miss Margaret Fisher, daughter of Walter L. Fisher, Secretary of the Interior in President Taft's Cabinet; Mrs. John F. Wallace, wife of Chicago's terminals expert; Mrs. Bion J. Arnold, wife of Chicago's traction expert, and Mrs. Lawrence E. McGann, wife of the City Commissioner of Public Works. As soon as these women announced they would not go it was noticed that all the men of their families who were members of the delegation had failed to appear at the train.

Women Will Not Be Stopped.
In reply to this, Mrs. Britton said: "Mrs. Young, the other women and I certainly shall not inflict our presence on the Aldermen. We are not in the least timid about the accommodation Alderman Geiger says have not been provided for us. We shall get along all right. We have been appointed to take the trip and we are going to take it and bring back something of value to the city from our study of vice conditions and the schools."

Mayor Hoeken, Toronto, promises to help workingmen to acquire homes of their own.

ON GOOD TERMS BUT DID NOT CONVERSE

Strange Behaviour of two Brothers For Fifteen Years—Result of Dispute.

ST. JOSEPH, Mo., July 10.—Robert and Joseph Miller, brothers, spoke to each other this week for the first time in fifteen years. All of this time they have lived in the same house, eaten at the same table, slept in the same room and been partners in the produce farm which they own. They are well-to-do.

Fifteen years ago when their stock in trade consisted of a run down little garden truck they had a falling out over who did the most work and Joseph vowed that he would never speak to his brother again until Robert spoke first. Pride prevented, each from being the first to break over.

When they had anything to say to each other they did it through the medium of a third person. "Ask Joe if he is going to town today or whether I shall go," Robert would say to a hired man, even although Joseph was within a few feet of him.

broken when Robert was buried underneath a slide of cordwood which he was piling up. Joseph rushed up. "Oh, Bob, are you badly hurt?" he asked. Afterwards he said that he did not realize that he was breaking his vow.

"No, Joe," was the reply, "but this wood is holding me so that I can't get off without help."
Then the two men laughed, shook hands and began to converse about getting Robert out of his unpleasant captivity.
