EARLY RECOLLECTIONS.—An excellently taken photograph of the Town of Guelph, as it appeared in 1827, has been laid upon our table by Mr. Anderson, who has a number of them for sale. The residence of Mr. David Allan, the old market house, and the mill,—on which so many handsome residences now stand,—collected by the monarchs of the forest, are landmarks not easily forgotten, and seem to remind us of early recollections and associations of a pleasing character. We feel like writing half a page on this subject, but resist the temptation, and content ourselves with advising our readers to purchase one of the pictures.

DR. WALKER.—The thaw of Monday removed the snow and laid bare the ice on our streets, making walking extremely difficult. It was a time to study character. The bold and defiant steps of some of our citizens, as they passed along the slippery sidewalks, in several cases ended in a fall, and numbers saved their persons by sheer agility. It was really amusing to see the almost superhuman efforts made to prevent falls—but fall some did, while their more fortunate neighbors laughed right out, adding to their merriment. Others crept along with so much caution that we were forced to believe they were troubled with rheumatism; while others were the counterpart of the girl of the period—as nearly as that moon as the human form divine could well assume—and keep their upright position. Patients will need to keep their feet warm, and their heads warm, if they cannot purchase, and the streets, from a serious frost, are a subject of

A Social in aid of St. John's Church, Elora, held in the parsonage on Monday evening, netted the sum of \$21.

The Y. M. C. Association intend holding a social in Knox's Church basement on Tuesday evening next. A choice programme has been prepared.

We regret to announce that Wm. Matric, the patient referred to at St. Joseph's Hospital here, was in a dying condition at 11 o'clock to-day.

A CITY contemporary favors the idea of allowing every young man in receipt of an income of over \$300 to exercise the franchise. We can see no good reason for differing with our confrere.

A race up Macdonnell Street between two span of horses, attached to wood sleighs, was the only excitement in town to-day. It is unnecessary to add that the foremost one was the winner.

The steamer was in full sail to-day, for the purpose of instructing Mr. Lawrence, the new caretaker, in his duties in connection therewith. We hope he will have the engine always in readiness in the shortest possible time.

WELLAND CANAL ENLARGEMENT.—A public meeting has been called by the Mayor of Chilton for Friday evening next, at seven o'clock, to take into consideration the subject of canal enlargement. Many people believing that the shortest route for a canal between Lake Erie and Ontario is from Chippawa to Queenston, and also that it is the best as well as the cheapest route. Representation will at once be made to the Government.

A man was driving a horse on Monday last, and while crossing the railway track the outer upset and the animal fell on its side. A train was in sight, and the gentleman, becoming confused, was unable to do anything. The lady with heroic fortitude proceeded at once to unhitch the animal from the outer, and with the assistance of a gentleman who came up at that time they succeeded in getting both horse and cutter off the track just before the train reached the spot. So relates the London Advertiser.

SMOKING ACCIDENT.—On the morning of the 13th, only a few hours after a Miss Worsley had engaged in Crilly & Martin's paper mills, in Cornwall, her short dress caught on a revolving wheel, completely smothering one of her legs from the knee down, and bruising the other badly. But for the timely assistance of Mr. Smith, book-keeper of the firm, who heard the screams of the girl and ran and stopped the mill, it would have been impossible to have saved the girl's life. It was with difficulty that she was extricated from her perilous position after the machinery was stopped.

UNDER THE HEADING, "Characteristic Barbarism," a Cornwall exchange thus exposes the Mayor of that town:—We have been informed that four of the children of Mr. Hugh Leclair were attacked with small-pox about ten days ago. Leclair is a day laborer in this town, but on account of that disease being in his family he could get no employment or the means to procure food, and necessities for his sick family. In that trying strait he naturally applied to the Mayor for the corporation. But that worthy functionary probably feeling that any large crumbs that might be lying about the corporation table, were little enough for himself, ordered the destitute man to "go about his business as he would get no help from the town of Cornwall."

FIRE IN ERASMUS.—We regret to learn that a disastrous fire took place in Erasmus on Saturday last. Mr. John Rea, living on lot 30, 4th Con., had on that morning put on a fire in the foundation of his barn, only partially built, where he stored his trunks, which were frozen and which he was endeavoring to thaw. The fire by some means communicated to the straw which had been used to fill the roof of the barn, and in a few minutes the roof was on fire, and he was unable to get out his horses and cattle which were all burned. He lost two horses and a head of fat cattle, besides 6000 feet of lumber which was used for the roof. There was of course no insurance, and the loss is heavy, what makes this more distressing is the fact that last summer Mr. Rea's barn was insured by the Mutual Fire Insurance Co. of Toronto, but the policy was not put in force, and he has lost his second heavy loss.

HIGHLY SUGGESTIVE.—An influential paper, published in Paris, denounces the assumption of the title Napoleon IV., by the Prince Imperial, as illegal and offensive.

On the evening of the 13th inst., the roof of the stables belonging to the Victoria Hotel, Kilmount, on account of excessive rain, fell to the ground. No lives were lost.

A house belonging to E. Mallory, and occupied by Thos. Carruthers as tenant, near Castleton, was burned on the 13th; cause unknown; loss \$1200. Insured in the Agricultural A. 8400.

A span of draught horses, owned by D. Plewale of Brantford, drew from the Haldimale Mills on Saturday last, over the Kerby Hill to the Railway Station, one hundred barrels of flour in three loads, and never turned a hair.

The tenders for the erection of Messrs. Gray & Scott's new Mammoth Saw Works at Kincardine, were decided on the 13th, and the contract awarded to Mr. J. S. McEwen, of Seaford. It is estimated that the completion of the works will involve an expenditure of \$30,000.

The London murderer, the Rev. J. S. Watson, M. A., is removed to the convict prison at Parkhurst, in the Isle of Wight, from Frontenau, where he had been nine months. Mr. Watson is, to quote his own words, "in tolerable health." He is treated as the most ordinary convict, and is allowed no privilege.

A young woman named Sarah Draper left a basket, containing an infant child, with one of the employees of the car works, in London the other day, and was arraigned for doing so. The young woman claims that she left the child in the charge of its father, and will defend the case from that standpoint.

STRANGE AND FATAL ACCIDENT.—A fatal accident occurred in the woods of Mr. Currie, Turnberry, on Saturday, 11th inst. A number of men were employed in getting out timber for McArthur Bros., of Montreal. Two of them were chopping at one tree, when the axe of one glanced and struck the other on the side of the neck, severing the jugular vein, so that he died in 40 minutes.

SERIOUS ACCIDENT.—Mr. C. Keenan, car-repairer on the Canada Air line, met with a serious accident near Simcoe on Friday last, while engaged in repairing a car. It appears a gust of wind caught a box car that was standing on the track, and pushed it up against the next car, when Keenan was caught and nearly crushed to death. His shoulder was nearly dislocated, and several of his ribs were seriously fractured.

THIS MORNING'S DESPATCHES

Terrible Earthquake in India.

1,500 Persons Killed.

Napoleon Lying in State.

Bazaine's Grief at His Death.

Hostile Newspaper Article.

Arrest of an Internationale.

German Visitors and the Pope.

Reinforcements for Cuba.

Anti-Emancipation Movement.

London, Jan. 13.—A despatch from Bombay says a report has reached that city that a terrible earthquake has occurred at Soonghur, a town in India, a detachment district of Baroda Dominion, 114 miles north of Bombay. 1,500 persons are said to have been killed in the town alone. Nothing has been heard from the surrounding country, but it is feared there has been much additional loss of life.

Paris, Jan. 14.—Marshall Bazaine is deeply affected by the death of Napoleon, the news rendered him quite ill. His wife has gone to Chislehurst.

London, Jan. 13.—Arrangements have been made for the admission of 20' persons hourly to view the remains of Napoleon while lying in state.

Berlin, Jan. 13.—The Prussian Cross Gazette to-day contains a bitter article against England. It considers the invasion of Khiva by Russian troops, the negotiation of Prussia with Portugal for the acquisition of Delagoa Bay, and the measures taken by the United States in regard to the Sandwich Islands, as so many attacks on the prestige of England. The article alludes to Russia and the United States in a complimentary manner, and intimates that those powers, combined with Germany, might divide the world between them.

Paris, Jan. 13.—Several members of the International Society have been arrested at Narbonne. One of the leading men of the Society, with important documents on his person, was captured by troops near the Spanish frontier, and has been brought to the city for examination.

Home, Jan. 13.—The Pope gave audience to-day to a large number of visitors from abroad, among whom were several German ecclesiastics. He addressed the latter, complaining of the treatment the church had received at the hands of European powers, and ended with the following words:—"The Governments strike the Church, which is stricken as Christ was struck. It is the duty of the Governments to defend the Church, whereas they rather seek to destroy it, and with it morality."

Madrid, Jan. 13.—Additional reinforcements for the army in Cuba have sailed for Havana.

St. Petersburg, Jan. 13.—The Minister of Finance has made up his budget for 1873. It shows a surplus of receipts over expenditures.

A manifesto has appeared against the proposed reforms in Porto Rico. It advocates the gradual abolition of slavery, and strongly opposes the policy of the Government with regard to the Antilles. The paper is numerously signed by the nobility and members of the monarchial parties.

Paris, Jan. 13.—The Right are disposed to take the ground that the act of expulsion is unsustainable by law. M. Guillard, the Minister of the Interior, in the course of a speech to a deputation, showed what forbearance the Government treated the Bonapartist press at the present moment, but declared its violence could not be tolerated much longer.

Boston, Jan. 13.—The steamship City of Washington, seventeen days from Liverpool, for New York, put into this port this morning short of coal, having experienced a very rough passage, with constant westerly gales and high seas. She has sustained no damage, and will resume her voyage as soon as a supply of coal can be put on board. Her mails are landed here and will be forwarded to New York by rail.

New York, Jan. 13.—The Times will publish to-morrow an interview with President Watson, of the Erie Rail Road, who states that the report that that Company is about to issue ten million convertible bonds is correct. That the road had a floating debt of between three and four millions, which has been incurred for construction, and it was intended to devote part of the proceeds of the sale of ten million of projected issue of bonds to taking up of this construction debt, the remainder of the proceeds to be devoted entirely to the change from broad to narrow gauge, of which the road stands greatly in need.

When questioned as to the possibility of a declining dividend upon preferred stock, Watson said the matter would probably come up before the Board to-morrow, and he was resolved that no dividend should be paid unless it can be honestly declared from earnings.

Boston, Jan. 14.—A disastrous attempt was made last evening to burn the building known as Hotel Harrison, a tenement house. A fire was set under the stairway, whereby all means of escape were cut off, but, fortunately, it was discovered in time for the inmates, consisting of two families with three children each, to make their escape.

New York, Jan. 13.—The reported withdrawal of Tremain from the Stokes case is probably a supposition based upon the fact that he was in favour of the new jury bill, which is severely attacked in the bill of exceptions as amended, and hence affording ground

Board of School Trustees.

The Board met in the Council Chamber on Monday evening. Present, Messrs Kennedy, Keating, Newton, Raymond, Stevenson, Sharpe, Knowles, Ingles, Harvey and Armstrong. Mr. Peterson in the chair.

The secretary read a communication from Mr. Fisher, who complained that his duties were too onerous to perform for the salary he was receiving, and hoped that the Board would do something for his relief.

Communications were read from Miss McLagan and Miss McNaughton, requesting an increase of salary; and from Miss Walker to the effect that she would be ready to commence her duties on the 13th inst.

The following were applicants for the teachers place, vacated by Mr. Hutton: Messrs. Muecke, R. Cochran, S. Caldwell, C. Harper, J. A. S. B. Netherley, A. Goering, C. Fletcher, D. W. Law, S. McLennan, H. A. Bell, D. Nairn, S. Foster, R. Cooley, D. Johnston.

The chairman announced that he had received a letter from Mr. Innes, stating that he had been appointed School Trustee, on Tuesday last, for the East Ward, without his knowledge or consent, that owing to his other engagements he was unable to attend to these duties, and requested the Board to accept his resignation, and take steps to elect another trustee in his place.

Moved by Mr. Newton, seconded by Mr. Inglis, That the resignation of Mr. Innes be accepted. Carried.

Board went into committee of the whole for the consideration of the applications for teacher. Mr. Kennedy in the chair.

Moved by Mr. Raymond, seconded by Mr. Newton, That the application of Mr. Harper be accepted to fill the position rendered vacant by Mr. Hutton.

Mr. Knowles thought it would be well to hear a little about Mr. Harper before this motion was carried, he had sent no certificate to the Board.

Mr. Raymond thought that if Mr. Harper taught the Central School at Ottawa that he could not be without the necessary certificate.

Mr. Torrance said he might have taught under a temporary certificate.

Mr. Peterson felt disposed to favor the appointment of Mr. Harper, as that gentleman had already passed an examination before our Inspector. He said that he was a good teacher, and would be able to pass the necessary examination, otherwise he would not have been able to obtain the degree of B. A. He would support the resolution, which was declared carried. Committee rose and reported progress, and the motion passed. Mr. Stevenson said that the Senior Girls' School required a few yards of carpet for the children to stand upon, as it would increase their comfort; together with a cover for the piano.

Mr. Knowles said that in reference to Mr. Fisher's application he considered the salary paid him was too small, considering the amount of work required of him.

The Board went into Committee of the whole to consider Mr. Fisher's application. Dr. Keating in the chair.

Mr. Knowles thought it was no detriment to the children of the schools to pick up a stick of wood and put it into the stove.

Mr. Inglis thought that the children ought not to be asked to pick wood out of the snow and put it into the stove. He would not allow his children to do so, whatever Mr. Knowles might do. Mr. Fisher had been a source of trouble to the Board ever since he was a member, and he considered him a very slovenly man.

Mr. Harvey thought that the Board should define the caretaker's duty, and Mr. Peterson coincided with his views.

Mr. Kennedy thought that, until Mr. Fisher was dismissed, and another person appointed, the schools would suffer.

Mr. Stevenson said that the Board had greeted a good woodman for the Girls' School, and the wood was under shelter. Mr. Raymond said that something ought to be done in the matter, and thought that the proper committee should dispose of it in accordance with Mr. Harvey's views.

The Committee rose and reported. The Chairman referred the matter to the School Property Committee.

Mr. Kennedy complained of the absence of the teacher of French and German from the South-Ward-School, and wanted to know by whose authority he was removed.

A meeting of the Committee is to be held to consider the matter.

The Board then adjourned.

Fire in Guelph.

The Refinery of the Wellington Oil Company, situated near the passenger station of the Great Western Railway, was in imminent danger of being destroyed by fire on Monday afternoon. About three o'clock the pipes leading from the still to the condenser—a trough about seven feet deep and one hundred feet in length—from some unexplainable cause became so overheated as to set fire to the condenser, which was considerably burned, together with quite a quantity of oil. No alarm was given in the town, but the clouds of black smoke seen in the direction of the refinery were indicative of a large fire. Fortunately those present worked with a will, and were successful in staying the progress of the flames. The loss will not exceed \$250, which is covered by insurance.

Who blesses others in his daily deeds, Shall and the healing that his spirit needs. For every flower in others' pathway grows, Confers its fragrant beauty on his own.

If this be true, the proprietors of the Canadian Pain Destroyer must be the safest and most successful of all.

New York, Jan. 13.—The reported withdrawal of Tremain from the Stokes case is probably a supposition based upon the fact that he was in favour of the new jury bill, which is severely attacked in the bill of exceptions as amended, and hence affording ground

Vote By Ballot.

Mr. Charles Clarke, the talented member for Centre Wellington in the Legislative Assembly, is gradually gaining for himself an influential and prominent position in the House, not only on account of the active part he is taking in the legislation of the Province, but also from the fact that his great ability, sound judgment and advanced views on all public questions are beginning to be known and appreciated by the Government and his fellow members.

Not having yet seen the bill we cannot speak as to its provisions, but we have no doubt that Mr. Clarke has carefully considered every clause of it, and that it has been so framed that the Government and the House will accept and adopt it.

The principle of vote by ballot being conceded, the mode in which it will be carried into effect is no difficult task, but simply a matter of detail. A few years ago had any one been hazarded the conjecture that vote by ballot would become a part of the constitution of Great Britain, he would have been put down as a wild dreamer and a foolish Utopian.

ONTARIO LEGISLATURE.

Monday, Jan. 13. Among the petitions presented was one from Mr. Clarke, from A. D. McDonald and others, of Elora, praying for certain amendments to the School Act.

The Last Sad Rites.

The arrangements for the funeral of the Emperor have now been completed. It will take place on Wednesday morning at 10 o'clock. The remains will be conveyed to the chapel in a hearse drawn by eight horses.

Mr. Wood (Victoria) moved for copies of all correspondence between the Government and the different municipalities included in the Municipal Loan Fund. Carried.

THE ALDINE

An illustrated Monthly Journal, universally admitted to be the Handsomest Periodical in the World. A representative and champion of American Taste.

Not for Sale in Book or News Stores

THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful literature; and a collection of pictures, the rarest specimens of artistic skill, in black and white. Altho' such succeeding number affords a fresh pleasure to its friends, the real value and beauty of THE ALDINE will be most appreciated after it has been bound up at the close of the year. While other publications may claim superior cheapness, as compared with rivals of a similar class, THE ALDINE is a unique and original conception—alone and unapproached—absolutely without competition in price and character. The present issue is a complete volume, cannot duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there are the chromos besides!

Art Department.

Notwithstanding the increase in the price of subscription last Fall, when THE ALDINE assumed its present noble proportions and representative character, the edition was more than doubled during the past year; proving that the American public appreciate, and will support, a sincere effort in the cause of Art. The publishers, anxious to justify the ready confidence thus demonstrated, have exerted themselves to the utmost to develop and improve the work; and the plans for the coming year, as unfolded by the monthly issues, will amply and delight even the most sanguine friends of THE ALDINE.

The publishers are authorized to announce designs from many of the most eminent artists in America.

In addition, THE ALDINE will reproduce examples of the best foreign masters, selected with a view to the highest artistic success, and greatest general utility; such as have become familiar through photographs or copies of any kind.

The quarterly limited plates, for 1873, will reproduce four of John S. Davis' inimitable child sketches, appropriate to the four seasons. These plates, appearing in the issues for January, April, July, and October, would be alone worth the price of a year's subscription.

The popular feature of a copiously illustrated "Christmas" number will be continued.

To possess such a valuable epitome of the art world at a cost so trifling, will command the subscriptions of thousands in every part of the country; but, as the usefulness and attractions of THE ALDINE can be enhanced, in proportion to the numerical increase of its supporters, the publishers propose to make "assurance double sure," by the following unparalleled offer of

PREMIUM CHROMOS FOR 1873

Every subscriber to THE ALDINE, who pays in advance for the year 1873, will receive, without additional charge, a pair of beautiful oil chromos, after J. J. Hill, the eminent English painter. The pictures are entitled "The Village Belle," and "Crossing the Moor," are 14x20 inches— are printed from 25 different plates, requiring the attention of its conductors to keep THE ALDINE out of the reach of its competitors in every department, the chromos will be found correspondingly ahead of any that can be offered by other periodicals. Every subscriber will receive a certificate, under the signature of the publishers, guaranteeing that the chromos delivered shall be equal to the samples furnished the agent, or the money will be refunded. The distribution of pictures of this grade, free to the subscribers to a five dollar periodical, will mark an epoch in the history of Art; and considering the unprecedented cheapness of the price for THE ALDINE itself, the marvel falls little short of a miracle, even to those best acquainted with the achievements of inventive genius and improved mechanical appliances. (For illustrations of these chromos, see November issue of THE ALDINE.)

THE LITERARY DEPARTMENT will continue under the care of Mr. Richard Henry Stoddart, assisted by the best writers and poets of the day, who will strive to have the Literature of THE ALDINE always in keeping with its artistic attractions.

TERMS—\$5 per annum, in advance, with Oil Chromos free.

THE ALDINE will, hereafter, be obtainable only by subscription. There will be no reduced or club rate; cash for subscriptions must be sent to the publishers direct, or handed to the local agent, without responsibility to the publishers, except in cases where the certificate is given, bearing the fac simile signature of James Sutton & Co.

THE STOMACH AND ITS DERANGEMENTS are the common cause of most of the Chronic Wasting Diseases for which invalids are constantly seeking remedies. When the food is imperfectly digested and assimilated, the blood becomes impoverished, and all the organs of the body are debilitated by want of nourishment. The general depravity of the system manifests itself in some constitutions by disease of the Lungs, Heart, Liver, or Kidneys, and in others by scrofulous enlargement of the glands, eruptions of the skin, ulcers of the nose and face, neuralgia, rheumatism, nervous debility, mental anxiety, neuritis and rheumatic neuralgia, all of which arise from depraved nutrition. To invigorate the stomach and perfect Digestion, and the formation of Healthy Blood, Dr. Wheeler's Compound Elixir of Phosphates and Calissava is of great efficacy and reliability, being light on the infant or adult, and prompt and permanent in its effects. Sold by all Druggists. **dw**

which can be cured by a timely resort to this standard preparation, as has been proved by the hundreds of testimonials received by the proprietors. It is acknowledged by many prominent physicians to be the most reliable preparation ever introduced for the relief and cure of all Lung complaints, and is offered to the public, sanctioned by the experience of over forty years. When resorted to in season it seldom fails to effect a speedy cure in the most severe cases of Coughs, Bronchitis, Croup, Whooping Cough, Influenza, Asthma, Colds, Sore Throat, Pains or Soreness in the Chest and Side, Liver Complaint, Bleeding at the Lungs, &c. Wistar's Balsam does not dry up a Cough, and leave the cause behind, as is the case with most preparations, but it loosens and cleanses the lungs, and allays irritation, thus removing the cause of the complaint.

Prepared by **SETH W. FOWLE & SONS,** Boston, Mass., and sold by Druggists and Dealers generally.
