Blaine and Canada.

Once more, has James G. Blaine rendered the efforts of Canada to seek a settlement of difficulties between curselves and our neighbors augatory. We sent two of our Ministers lat week to Washington to meet Mr. Blaine and discuss the misunderstanding in regard to canal tolls, and our representatives had no soonet held one conference and gôt fairly started at another when the "magnetic man" announced that he could not consider the question further, as he was about to resign his office. Thereupon the Canadian commissioners and the British Minister withdrew and the former started home, disgusted at their treatment. Blaine is a man without honor, possessed of no gentlemanly instincts, thoroughly unscrupulous. But he is brain, forceful, magnetic, and with all these good and bad qualities a very dangerous man.

What concerns Canada, then, is as to his future. For the present he is out of the way. Should he fail in getting the nomination at Minneapolis next week he is a dead

menace to Canada. Should be get the momination he will be harmless, as far as Canada is concerned, until after March, 1893, and will be treated by Harrison and his cabinet as a traitor; and therefore they his cabinet as a traitor; and therefore they will undertake to carry out the Behring Sea arbitration independent of him. It is now certain and quite satisfactory to Britain and Canada that the Behring seal dispute will be arbitrated free of the baneful influence of Blaine. He has been the marplot heretofore, and he is the man who first set up the dashing yet unsubstantial claim of United States sovereignty on the high sea.

come up again with a rush.

The World is not much of a prophet, bu it thinks that Blaine's chances are not of the best and that a dark horse will be the outcome of Blaine's treachery to Harrison. We will even go further and say that that man will be the redoubtable protectionist Major McKinley.

The University Vote.

The politics of the University of Toronto have been of a warm and interesting character of late, and the discussion of Friday night terminated in a substantial vote of

fied their act by the success that resulted from it.

But the reader must bear in mind that what Mr. Mulock did was done four years or more ago before the University had got down to its present style of doing business. It has taken three years of agitation to substitute for the former arbitray way of doing business the present method, which involves the origination of all universty policy in the senate and secures joint action and approval of the senate, trustees and government, and in some cases of the faculty as well. And yet, as The World pointed out the other day, the Minister of Education has got to be regulated and prevented from committing another such job as his alienation of over \$100,000 more than the act authorized from university funds for the benefit of Upper Canada College.

Under these circumstances the great bulk of the senate declared a vote of confidence in Mr. Mulock. That being the case, the University reliterates its approval of the

shift settlement and that is not what is wanted at time like this. In the settlement proposed the man best fitted for the burden of responsibility has no responsibility does not impress most of us as being poculiarly adapted to bear fit. Mr. Rust is an excellent efficial, has done years of faithful service for the city and is in fact alfogether too useful to be sent traveling the moad that Mr. Cunningham has just trod.

We therefore trust that he will not be nominated, and if nominated not elected. Blaine is, and always has been for Canada, a dangerous man.

Blaine's Chances.

Blaine, as we said above, is a thoroughly unscrupulous man. His resignation of office in the Harrison Cabinet in order to oppose the President for the party nomination was bold, deceiful, tricky and treacherous. But it was Blaine all through. He has written three distinct letters, saying that he was not in nor would he be in the Presidential race, and yet it is now evident he has been plotting all the time to oust his chief. So startling, so dramatic was Blaine's resignation that The New York Tribune of yesterday (Sunday) was unable to make up its mind what to say

An Important Improvement.

The new seamless rubber hose now being introduced by the Canadian Rubber Com-

of the senate declared a vote of confidence in Mr. Mulock. That being the case, the University reiterates its approval of the Park hospital scheme; and Mr. Mulock owes it to himself to see that it is realized. After so substantial a vote he ought to display renewed energy in having it erected and made the corner stone of the flourishing medical school now run by the University of Toronto in Queen's Park. This is not the time to talk of abandoning the idea of a Park hospital or of leaving the completion of the task to others.

THE FAT PIG AND THE RUNT. Dr. Wild Deals With Government Grants Clothing and Gents'

Dr. Wild in last night's sermon adopted for his text Lam. 111., 37, "Who is it saith and it cometh to pass, when the Lord com-mendeth it not?" After lingering for some time on his Anglo-Israel theory, he relapsed into matters of more vital interest to the audience. Free agency, he asserted, was the privilege of every man, but the will of nations could not be asserted in opposition to the will of God.— Concerning the recent alienation of Persia from Britain, he considered that a mere ordination had come to pass, as Persia was one of the thirteen nations which would be in opposition to Israel in the battle of Armageddon. Yet, not withstanding their destined greatness, Great Britain and the United States were piling up a debt of sin before the Lord, one owing to the Chinese opium trade and the other by means of the Chinese exclusion bill, and that debt would be settled in future years by millions of lives. Here the doctor branched off into a subject touching nearer home; some time ago, he time on his Anglo-Israel theory, he relapsed be settled in future years by millions of lives. Here the doctor branched off into a subject touching nearer home; some time ago, he said, Mr. Devlin, M.P., had introduced a motion in the Domiaion House asking the Home Government to grant Home Rule to Ireland, yet this same gentleman recently recorded his vote against a bill for home rule in the Northwest provinces, and commenting on this strange conduct the seer perorated, "O consistency, thou art a jewel!" Speaking of the recent Methodist petition that the religious denominations might receive Government aid, the Doctor exclaimed, "In that case the Jesuits would be the fat pig, and the Methodists the runt; the runt, you know, is one small pig in a family that gets no show at all." Amid laughter and stamping of feet, he proceeded to show the difference between this petition and a resolution passed by the recent United States Methodist Conference, who had expressed their determination, as a body, to refuse Government aid. The latter he considered to be in the right, this opinion eliciting audible hear, hears from a couple of Methodist ministers in the front pews.

Next Sunday the Doctor will not be present to discourse to his flock, as he has to atlend the coming Congregational Conference to be held in Montreal.

Young Ladles Preached To.

Young Ladies Preached To. The annual sermon of Moulton Young Ladies' College was preached last night at Bloor-street Baptist Church. Rev. O. C. S. Wallace and Prof. Drew of Rochester Theological Seminary occupied the platform, the former conducting the service, which was most enjoyable, and Prof. Drew preaching an excellent sermon. His subject was "Growth in Spiritual Strength," and he made an able and exhaustive analogy between growth in the natural world and growth in the spiritual world and growth in the spiritual world and growth in the spiritual world, showing that the conditions of life in both are identical. The graduating class occupied the centre front seats and appeared much interested in the address. After the service a communion service was held, a number of new members being received.

Ms. H. M. Lockwood, of Lindsay, Ont., whose portrait follows, is a well-known Railway employee, and has lived in Lindsay for the past three years.

Mr. Lockwood was born and brought up in Hastings County, where his kindly disposition and sterling qualities have the bire.

The incidents which are related by Mr. Lockwood are vouched for by numerous friends in Lindsay who are acquainted with all the facts.

MR. H. M. LOCKWOOD. Mr. Lockwood writes as follows:

"I was terribly afflicted with boils, having no less than 58 in eight months, during that time I tried many remedies without relief, Doctors' medicine did not relieve me, in fact I could not get rid of them at all until I began using B.B.B. It completely cured me, and I have not had a boil since taking the first bottle. I write this to induce those afflicted with boils to try B.B.B. and get cured, for I am confident that but for Burdock Blood Bitters I would still have had those terrible boils, which shows plainly the complete blood cleansing properties of this medicine, because everything else that I tried failed.

"A friend of mine who also suffered

this medicine, because everything else that I tried failed.

"A friend of mine who also suffered from boils, took one bottle by my advice and thanks to B.B.B. his boils all disappeared."

"As a perfect blood purifier, cleanser and tonic, Burdock Blood Bitters excels all others. In addition to this it has properties not possessed by any other remedy; it regulates the bowels, thus curing constipation; it tones the liver and removes biliousness; it strengthens the stomach and cures dyspepsia. In a word it regulates, tones and strengthens every organ of the body in a natural and effective manner and thus restores perfect health.

An Umbrella Combine. ALBANY, June 4.—What appears to be a combination of umbrella manufacturers was incorporated to-day under the name of The Umbrella Co., with a capital of \$8,000,000.

The directors are mostly residents of New Black Rust in Western Wheat.

VIRGINIA, Ills., June 5.—Black rust has appeared in some of the finest wheat fields here and serious damage is feared. -Mr. John McCarthy, Toroito, writes: "I can write that the like of the like over the like of the architecture in the world. It cured me of Heartburn that troubled me for over thirty years. During that time I tried a great many different medicines, but this wonderful medicine was the only one that took? John and rooted out the disease."

BERRBOHN'S REPORT.

LONDON, June 4.—Floating cargoes — Wheat and corn firm. Cargoes on passage—Wheat and corn firm. Cargoes on passage—Wheat and corn firm. Mark Lane—American corn firm. Sale, and sale left no bit of their aggressiveness, and have left no means untried in order to induce a general self-self-ground markets closed to day.

Liverpool markets closed to day.

Receipts of produce to-day per Grand Trunk:

Wheat 1000 bushels: Indian corn 500 bushels: oats 2059 bushels: ree 375 bushels; flour 608 bags: butter 60 packages; cheese 10 boxes; eggs 13b; sugar boxes; leather 360 rells; raw hides 125 lbs; sugar

country are all reasonably prosperous. Money is still a drug in the market. But little gold went out onto-day's European steamers as compared with amounts reported to be shipped, and the easy rates of money in the European capitals preclude the hability of shipment abroad of gold in any considerable amount. The silver bugaboo has lost most of its dangerous aspect to Wall-street. The videspread discussion of this all-important question has resulted in a far better understanding among the people at large of both its good and bad sides. The general situation is sound and the man who buys stocks now is the one who will make money.

Kennett, Hopkins & Co, to R. Cochran: The news affecting the stock market was generally unimportant to-day outside the crop and weather reports, which continue unfavorable, creating serious apprehensions, particularly concerning corn crop. Burlington and Rock 'Island were conspicuously weak and the tone of the general market was heavy. Trade journals to-day report general business slack over a large part of the country. The bank statement was more unfavorable than expected, showing a decrease in surplus of \$934,000, but the surplus is so large that this is of no importance. London did little to-day and Monday is a holiday in that market.
