

NO RELAXATION OF BILINGUAL REGULATION

Hon. Dr. Pyne Says Every Child in the Province Must Have an English Education and the Whole Object of the Regulations is to Make That Clear.

The Ontario government has determined that there shall be no misunderstanding of its position on the bilingual school regulations. The discussion and criticism which followed the change of policy, according to the announcement of a few days ago, has influenced Hon. Dr. Pyne, minister of education, to make clear exactly the significance of the new arrangement.

Last evening he made it evident that the cabinet had decided to cleave to their resolution of 1911 and to ensure every child in the province a solid English education. This had always been the aim, and the regulations issued had never been considered otherwise than in the nature of a temporary expedient. Now the government had learned where improvement was possible. No relaxation in any way would be contemplated and no English-French teacher would find opportunity to encroach. On the other hand the placing of authority in the hands of the chief inspector would work towards uniformity of system.

In view of some misapprehensions that appear to exist regarding the new regulations I wish to point out that the object of the department is to carry out the views expressed by the unanimous resolution of the house two years ago," said the minister, who quoted the resolution in question. "That indicates plainly that every child in the Province of Ontario must have an English education. That is the whole object of the regulations and the determination of the department is to carry them out. When the regulations of 1911-12, which expired June 30 last, were framed, it was made perfectly plain that these were temporary, and that, as the prime minister and I made clear to all who discussed the matter with us, at the end of the year such changes might be made as experience showed necessary. Fortunately the changes required are slight and will tend to insure more than ever the proper teaching of English.

Not Best System.

"Under the regulations of last year," the minister continued, "it was found that the division of the province into three English-French districts, with two inspectors over each, did not insure the most satisfactory inspection, and the year's experience showed me that the uniformity of enforcement had not been obtained. Such uniformity is essential to the success of the plan for ensuring proper English training for French-speaking children. The department has therefore made the chief inspector of public and separate schools responsible for the carrying out of the regulations on a uniform plan in every school district involved."

Dr. Pyne then emphasized the fact that the inspector was in immediate and constant touch with the minister and directly responsible to him. He turned was responsible to the people and must answer for his actions on the floor of the house.

No Local Influence.

"It should be clearly and distinctly understood," he said, "that the English-French inspectors now placed under the charge of the chief inspector, are neither directly nor indirectly under the control of county councils, or responsible to those bodies for their actions; so that no local influence can be brought to bear on these men in carrying out the law. They are with the chief inspector responsible alike to the minister of education, who appoints them and who answers for their actions."

He wished to make clear also at this point, that the new regulations were in no way a relaxation of precedent. The department was displaying a definite policy.

"There is no change in the new regulations which gives an English-French teacher a single opportunity to encroach," he said, "and so far from being a relaxation of the system in force last year, the alterations are in reality a setting forth of the definite policy of the department to secure the proper teaching of English in every school. It ought not to be forgotten that in this respect that probably 50 years ago a system of French teaching in schools has grown up, and that what we have to consider is the best method of insuring an English education to every child."

In conclusion the minister stated that this explanation, with his previous remarks, showed the determination of the department.

HUERTA IS WILLING TO RETIRE MEXICO AGAIN AT PEACE SAYS U.S. OBSTRUCTED PROGRESS

Will Be Glad to Turn Over Presidency to Successor After Unrestricted Elections—Permission to Foreign Warships to Remain in Mexican Waters Will Not Be Renewed.

MEXICO CITY, Sept. 16.—(Canadian Press.)—Provisional President Huerta delivered his semi-annual message last night at the opening of the second session of the 27th Mexican Congress. In it he promised to spare no efforts to bring about the unrestricted elections of president and vice-president of the Mexican republic next month, declaring that it would constitute the greatest triumph of his career to turn over the office to his successor with the country at peace, as he hoped to do. Gen. Huerta said the strained diplomatic relations between Mexico and the United States had caused the Mexican nation to suffer unmerited affliction and had retarded the pacification of the country. Nevertheless, he asserted he had good grounds to hope for an early solution of the differences between the two nations and to see Mexico and the United States once more united in the bonds of friendship.

The provisional president drew a distinction between the attitude of the government of the United States and that of the people of that nation, saying: "The tenacious of our diplomatic relations with the government of the United States, although luckily not with that people," had put Mexico into a state of apprehension.

Huerta's Words Discreet.

The message was disappointing to many who had expected that Provisional President Huerta would deal at some length with recent diplomatic relations.

Duke Soon to Return.

LONDON, Sept. 17.—(C.A.P.)—It was stated at Clarence House last night that the Duke of Connaught will definitely terminate his vacation on Oct. 17, and hopes to be back about Oct. 24. No decision has been made as to regarding the Duchess, but her convalescence has been lately progressing so satisfactorily that it is hoped she will be able to return to Ottawa.

Major Murray has arrived in town to make preparations for their departure.

DEADLY PACKAGE MAILED TO GEN. OTIS

Owner of Los Angeles Times Owes His Life to Vigilance of Japanese Servant, Who Became Suspicious When About to Open Parcel in His Presence.

(Special to The Toronto World.) LOS ANGELES, Sept. 16.—An attempt on the life of Gen. Harrison Gray Otis, whose newspaper plant, The Los Angeles Times, was destroyed by the McNamaras, several years ago, was made today, when a machine, said by the police experts to be a high explosive, was sent thru the mails.

In the forenoon, when Gen. Otis' mail was received at his home, the mail was taken by the Japanese servant, who stripped the paper wrapping from a peculiar box. The package was so suspicious in appearance, that the servant called Gen. Otis and showed it to him.

Gen. Otis summoned the police, and Captain Felt, the powder expert of the department, opened the package from the side and pronounced the contents dynamite. There were four sticks.

"There is sufficient dynamite in that box," said Captain Felt, "to have killed a regiment. The dynamite is of high power, generally spoken of as 85 per cent. glycerine. It is controlled by a mechanism that would explode the dynamite had it been opened in the usual way. The top of the box was loose and would readily have opened to the touch of the finger sliding back in a groove. The under part of the lid contained a rough substance that would have passed over the head of a match or a fulminating cap and caused an explosion.

There were two matches arranged so that they would scratch on sandpaper if the covering was torn, and the concussion cap connected with a stick of dynamite. It is a miracle that the bomb was not exploded in the mails."

Otis Kept Nerve.

Without a trace of nervousness after the narrow escape from death, Gen. Otis told of how the bomb was received, and how he had first joked with his Japanese servant about it.

"I was writing a letter when the mail arrived. As usual the Japanese servant opens the mail and gives it to me. He had taken off the outer covering carefully, when he called to me: 'This thing looks like dynamite.'"

"I supposed he was only joking, and I called back to him not to strike it with a hammer. 'But say general, this is dynamite,' and his tone was such that I went over to him. I telephoned the police, and when an officer arrived, we drove down in my automobile and delivered the bomb to Chief Sebastian."

"I am glad I have a careful Japanese," was the laconic remark of Gen. Otis.

The date of the stamp is illegible. The package was addressed; H. G. Otis, 2401 Wilshire Boulevard, City. It was written with a blue indelible pencil, and by a neat penman. The whole box was not more than three to four inches in dimension.

CORONER'S JURY CANNOT FIX BLAME FOR COLLAPSE OF PETERBORO STORE

PETERBORO, Sept. 16.—(Special.)—That the evidence submitted was not sufficient to determine the person or persons responsible for the collapse of the Turnbull building, on the morning of August 28, with the resultant loss of five lives, was the verdict brought in at 11.30 tonight by the coroner's jury, which investigated the death of Cashier Dolly Sison, one of the victims.

The jury recommended that the city council provide a building inspector, whose duties would include the inspection of buildings undergoing alterations.

G. W. Gouinlock, architect, of Toronto, said that the basement wall, which had not been properly constructed, was not sufficiently strong to bear the weight placed upon it as a result of the method used in the alterations, and that the beams placed over the opening made in the wall were not long enough.

The jury retired at 10 o'clock, and was out an hour and a half.

JEWEL MYSTERY NOT AT AN END

Man Who Found Valuable Pearl Necklace is Detained by Police and Revelations Are Expected.

(Special Cable to The World, Copyrighted by The Toronto World and N. Y. World.) LONDON, Sept. 16.—Augustus Horne, the finder of the \$650,000 pearl necklace, was taken to Scotland Yard tonight by detectives for examination, and is still detained there. Ex-Supt. Leach, who is engaged on the case in behalf of the underwriters, thinks that the jewels were discovered in the street; but he declines to enter more fully into the matter, as there possibly will be further arrests. On the other hand, it is asserted that one man whom the police are watching, was seen to pass along the road where the jewels were found some hours prior to their discovery. It is evident the mystery is not yet at an end, and it is freely declared by the London papers that some most dramatic revelations are yet to come.

Horne is a piano-maker, 40 years of age, living with a wife and three children in two rooms. After the find he spent the day with companions, not turning up at his work nor returning to his home till late evening, shortly before the arrival of detectives to take him to Scotland Yard. His wife only heard of her husband's good fortune from a newspaper reporter. At first she expressed complete incredulity. "No such luck" was her repeated comment. Then, "We shall not get the reward anyway," and finally, "Well, if it is true and we do get it, I don't know what ever we shall do with that much money."

CHARGED WITH WOUNDING.

George Crestoff, 288 East King street, was arrested last night on a charge of wounding Louis Turfokay in a fight following a game of cards at Crestoff's room.

Knows How to Mount a Play.

Harrison Grey Fluke's productions have always been noteworthy for their beauty and completeness, but it is doubtful if he has ever before mounted a play as exquisitely as he has "The High Road," which is at the Princess this week. The scenic features are certainly a fitting background for Mrs. Fluke's wonderfully artistic and appealing portrait of Mary Page.

Sound Like Wholesale Robbery.

About ten thousand men's hats were lifted yesterday from Dineen's, 140 Yonge street.

TO CELEBRATE "CANADIAN DAY"

Imperial Services Exhibition in London Will Have Distinct Maple Leaf Tinge Today.

LONDON, Sept. 17.—(C. A. P.)—The imperial services exhibition at Ears Court today, celebrates "Canadian Day" when the guests of honor are stated on the official program to be "Col. Hughes and officers, Hon. Sir Richard McBride, Hon. T. W. Crothers and Gen. Ian Hamilton."

Lord Chelmsford is chairman of exhibition and Admiral Sir Albert Markham and members of the committee will receive the guests, who will witness the display of "naval and aerial warfare." During the afternoon bands will play Canadian national airs. An interesting feature will be Allan Jamieson's collection of historical Canadian pictures, prints and medals, which will be on view in the picture galleries of the imperial court. During the day bunches of maple leaves made expressly for Canadian day by crissles and flower girls, will be sold by Canadian ladies, the proceeds going to the London East End Institute. In the evening there will be a grand display of fireworks the "set pieces" being portraits of the King and Lord Strathcona, a map of Canada and a giant representation of the maple leaf. Col. Hughes and officers, Sir Richard McBride and Gen. Hamilton are all out of London.

GARAGE WAS BURNED EARLY THIS MORNING

Motor Cars Destroyed and Loss Will Exceed Four Thousand Dollars.

At 1.30 this morning fire destroyed the garage of the Northern Forwarding Company at the corner of Duesch street and McFarren's lane. A motor car and a motor truck were also very badly damaged. The loss will reach \$4,000. The watchman at Price's dairy discovered the fire.

CHARGED WITH THEFT.

Samuel Myers, 575 West King street, was arrested by Detective Jarvis last night, on a charge of stealing a small sum of money from Mrs. Mary Lewis. Myers was a hack driver and it is alleged kept the change out of a bill given him by Mrs. Lewis.

RAILWAY STRIKE IS THREATENED IN ENGLAND

Dockers at Liverpool and Birmingham Quit Work in Sympathy With Dublin Strikers and Movement May Involve Great Railway Systems.

LONDON, Sept. 16.—(Can. Press.)—The country is again threatened with a great railway strike, and Liverpool, as before, will be the storm centre. The trouble began with the refusal of the Liverpool dockers to handle freight from Dublin, where the transport workers are on strike. Men to the number of 3500 employed in the freight yards of the various railways went out this afternoon and were joined later by 4000 at Birmingham.

"That a complete freight tie-up is expected on the northwestern lines is indicated by a warning issued by the Cunard officials to homeward bound Americans to carry all their baggage with them on the boat train. The Liverpool workers struck without the sanction of the railway unions, and lack of support may prevent a national strike on the railways, but as other big centres are involved the outlook is ominous. The only hopeful feature is the appointment of a committee of strikers to negotiate with the companies.

Deadlock at Dublin.

At Dublin the deadlock continues. Vast crowds gathered in the streets tonight, but there was only one riot, which resulted in the smashing of the windows of street cars. More than 10,000 men are on strike in Dublin.

The Bus Drivers' Union adopted a resolution tonight calling out all the employes of the transport combine, which includes practically all the motor bus lines and tube railways, unless drivers discharged for wearing the union badge are immediately reinstated and the union recognized.

CANADIAN LIVE STOCK AND THE UNITED STATES TARIFF.

The greatest run of cattle in any one day in Canada was at the Toronto Union Stock Yards yesterday, when 7000 head were unloaded and passed the scales. This must have been 1000 head more than on any former occasion. One noticeable feature was that prices held steady and the best class of butchers' cattle advanced from 10 to 15 cents per hundred; the rough class of stockers were easier.

Our feeders and drovers are watching with interest the tariff bill now before the United States Congress, and which is likely to become law within a fortnight. As the bill now stands, it contains a clause which is to be effective on October first; but even if the bill was to be signed by the president any time within the next fortnight, the likelihood is that it would take another month to allow the treasury authorities to check off the tariff and complete the instructions to customs collectors at the many ports of the United States; and therefore the act can not be in force much before November 1.

Whatever the effect of the tariff may be on the Canadian cattle trade for the first month or two, it might be as well for those interested to watch and see what will really happen when the law has settled down and Argentina and Australia begin to ship their products into the United States. If there is a rush of cattle and meat from the outside into the States, there must as a consequence be a fall in prices and will affect Canada, no one can yet say. It will take three months for the adjustment, whatever it is, and then everyone will know where he gets off.

THE BIG QUESTION.

We hear a lot about the high ocean freight rates and the efforts of the Canadian Government and of Chairman Drayton of our railway commission, now in England, to obtain relief for our farmers.

The World believes that the key-stone of the arch that supports the ocean freight monopoly is the Canadian Pacific Railway.

Whether Canadian mills will continue to grind Canadian wheat under the new American tariff we believe will depend on the Canadian Pacific reducing freights and withdrawing from the ocean combine!

Whether our western grain and flour seeks Europe by Canadian or American ports also absolutely depends on this same Canadian Pacific Railway and its freight charges.

Canada must work out her destiny in all these respects herself, and we suspect very much on the floor of parliament. Parliament by wise guidance and a bold policy can secure Canada's future in all these respects.

FOR SALE—\$12.00 per foot. Greenwood street. Splendid site for store or house. Best lot in the block. Call 119.00 below the market price. Act quickly. FANNING & GATES, Realty Brokers, Tanager-Dunlop Building, 25-27 Adelaide street west. Main 5322.

A SNAP—\$5500.00. Glendale avenue. Eight large rooms, solid brick, detached, side drive, billiard room, beautifully decorated. \$2800.00 cash. Inspection by appointment. Must be sold quick. FANNING & GATES, Realty Brokers, Tanager-Dunlop Building, 25-27 Adelaide street west. Main 5322.

MOTORISTS IN REVOLVER DUEL

Gunmen Exchanged Shots on Broadway While Crowds Were Pouring Out of Theatre.

NEW YORK, Sept. 16.—(Can. Press.)—Gunmen, said by the police to be members of rival gangs, whose activity in the primary election today led to the renewal of an old feud, engaged in a revolver duel while seated in two automobiles standing on upper Broadway, just as a nearby theatre matinee crowd streamed into the street.

The attacking party, of seven, after firing on three men in the other car half a block away, and being shot at in return, attempted to speed away, but were overtaken by a traffic patrolman in a taxicab. Three men jumped from the car and escaped. Four, including the chauffeur, were arrested and locked up charged with felonious assault and violating the concealed weapons law. No attempt was made to capture the members of the besieged party.

DOCTORS WORK TWENTY HOURS IN ATTEMPT TO SAVE A LIFE

Joseph Premo and His Wife Found Unconscious from Gas Fumes, and Premo May Not Live.

In such a critical condition that little hope is entertained for his recovery. Joseph Premo, aged 30, lies in the emergency ward at the General Hospital, unconscious, as the result of gas poisoning, while his wife is confined to their home, 86 McCaul street, also suffering from gas poisoning.

The couple were discovered by a neighbor yesterday morning about 10 o'clock in a bedroom at their home. Both were unconscious and a get jet turned partly on allowed a great quantity of gas to escape into the room.

THREE BOYS HAD NARROW ESCAPE

Found a Stick of Dynamite and Played With It Until Warned of Its Danger.

Tossing a large stick of dynamite into the air and fighting for possession of it, three boys had a miraculous escape from death at the corner of Eastern avenue and Don Mills road last evening. Prompt action on the part of a street railway employe prevented fatalities. New the dynamite rests in a steel vault at Wilton avenue police station and there are three badly frightened boys in the east end.

It is not known exactly where the lads obtained the dynamite, but they claim to have found it near Frankel Brothers' junk yard on the Don Mills road. It appears to be a sound stick and is plainly marked "dynamite." Evidently they fancied that this was the name of something good to eat, or at least to play with. They carried the stick along the road and stopped to have some fun. Just at that moment the carman arrived. He saw the word "dynamite" just as one little fellow tossed it to one of his chums. The man caught the stick and told the boys how narrow had been their escape.

The street car man took the dynamite to Wilton avenue station, where Sergeant Lydatt wrapped it in cloth and put it away carefully.

FIRE IN HOTEL GUESTS ESCAPE

Brozel House in Buffalo Flame-Swept Shortly After Midnight—No Lives Lost.

BUFFALO, Sept. 17.—(Can. Press.)—Fire broke out in the Brozel Hotel, at Seneca and Wells streets, shortly after midnight. Fifteen minutes after the alarm was sounded the upper floors were in flames and second and third alarms quickly followed the first.

All the guests of the hotel escaped. The fire started in an adjoining building, occupied by the Dirmberger Popcorn Co. The top floor of the hotel caught fire first, thus giving the 230 guests ample time to get out.

Evils of Over-Borrowing Overcome by West's Bountiful Yield and Canadians Are Showing Disposition to Pay Their Debts—Feeling Already Much Better.

MONTREAL, Sept. 16.—(Can. Press.)—The Canadian west has given us the best wheat crop the Dominion has ever seen, and there is a general disposition among all classes of people to pay their debts," was the statement made today at the Montreal branch of the Canadian Bank of Commerce by Sir Edmund Walker, president of the institution. Sir Edmund said he believed in Canada, her resources and the enterprise as well as the commercial and financial genius of her people.

He considers that the unprecedented wheat crop, together with a splendid yield of other cereals, through the west will act as a saving clause to the financial situation. He said: "The country certainly overborrowed, but that is a matter about which

the people do not like to be told, yet the fact remains that if we had not done an over amount of borrowing we would have been spared the quite recent financial depression all over the Dominion.

Country Righting Itself.

"Undoubtedly the country will right itself and the feeling is already very much better, and the great crop will be the saving clause."

Sir Edmund has just returned from Quebec where he attended a meeting of the Battleford commission. He expressed great satisfaction at the progress they were making. In fact, he announced that in two years their work will be about completed, yet in reply to the query as to whether their full plans would then be carried out Sir Edmund said: "They will never be fully carried out while the Ross rifle factory is in the way."

He said the amount of money at their disposal every year was limited and no outsider could conceive the amount of trouble the commission has met with since they began their labors, but now everything is about straightened out and the outlook is good."

CROP ENDS FINANCIAL WORRIES SO SAYS SIR EDMUND WALKER

WAGES SCHEDULE WAS DISCUSSED

Subcommittee to Interview Construction Company on the Matter.

COAL GAS POISONING

Mayor Allan's Plan for Providing Funds for New Hospital.

HAMILTON, Ont., Sept. 16.—(Special.)

The controllers yesterday had a spirited session over the schedule of wages that the Guest Construction Company of Montreal is said to be paying its labor on the hydro's new conduit system.

The most curious of all sea-stories in fact one of the most amazing mysteries in history is that of the ship Marie Celeste, which sailed some years ago from Boston to the Mediterranean with thirteen souls on board.

Just when she was beginning to be regarded as missing she was found a hundred miles west of Gibraltar.

In the cabin a half-finished meal was on the table, with the chairs slightly pushed back.

Five prominent firms of architects in this city, who propose to form themselves into an association to undertake the building of a new general hospital, submitted their proposition in the form of a letter to the board of health yesterday.

Miss M. Callahan, Miss Mary Wood, two aged women, living together at 61 Leconic street, died of coal gas poisoning.

When discussing the hospital situation yesterday, Mayor Allan was of the opinion that the time had arrived to begin to start on the new hospital.

Mysteries of The Sea

Vessels that Sailed Away and Never Again Came Into Port—Strange Tale of The "Marie Celeste"

A British court of enquiry has just decided that it can make little of the tragic puzzle of the Mountswain, a steamer which left Baltimore some months ago to cross the Atlantic and was never seen again.

But why they did not nobody will ever know. The most curious of all sea-stories in fact one of the most amazing mysteries in history is that of the ship Marie Celeste, which sailed some years ago from Boston to the Mediterranean with thirteen souls on board.

Just when she was beginning to be regarded as missing she was found a hundred miles west of Gibraltar.

NOTABLE VICTORY GAINED BY THAW

Judge Aldrich's Decision Means Freedom From Matewan During Progress of Legal Battle.

LITTLETON, N.H., Sept. 16.—(Can. Press.)—Counsel for Harry K. Thaw laid today the foundation for plans to carry his case to the supreme court of the U. S.

When the governor of New Hampshire passes on the matter of his extradition to New York, at the hearing to be held at Concord, on Tuesday next, the findings, if adverse to Thaw, will be reviewed by the U. S. district court, and should a decision against him then be rendered, successive appeals will be taken until the case reaches the highest court in the land.

This was the announcement made by the Thaw lawyers tonight, after the most notable court victory for the fugitive, either in Canada or in the U. S., since his escape from the Matewan Asylum for the criminal insane, early on Sunday morning, August 17. It was made after a hearing on a federal writ of habeas corpus, obtained in Thaw's behalf and invoking the fourteenth amendment to the constitution, had been indefinitely suspended until such time as counsel saw fit to begin arguments after the extradition matter had been decided by the governor.

Entitled to Protection. Edgar Aldrich, U. S. judge for the district of New Hampshire, in deciding that Thaw had the right, in effect, to hold his habeas corpus writ in abeyance, explained in his writ that this was the petitioner's privilege in that should he be ordered extradited "it would still be open to federal authority to afford such protection as the constitution and the laws of the U. S. require."

Thaw's jubilant counsel left town tonight, leaving their client in the joint custody of the U. S. marshal and Sheriff Drew of Coos County, Wm. Travers Jerome departed for New York tonight, accompanied by Franklyn Kennedy and Sheriff Hornbeck of Dutchess County. They will come back for the hearing on Tuesday.

Thaw will be taken to Concord in the morning. He was quartered in Thayer's Hotel tonight, feeling fine and predicting that the gates of Matewan would never close behind him again.

Mr. Jerome had little to say. "Thaw is tied up now with a federal writ," he said, "and there is no getting around it. But the questions to be decided by the governor are simple, and we hope for victory."

BLOOR VIADUCT PLANS CHANGED

Railway Board Alters Location of Pier as Requested by C. P. R.

OTTAWA, Sept. 16.—(Special.)—An application of the City of Toronto for approval of plans for a viaduct crossing the Don Valley and the properties of the G.T.R., C.P.R. and C.N.R., and connecting Bloor street with Danforth avenue, was considered by the railway board today.

The Canadian Pacific objected to the location of the pier on the Danforth avenue end, which in the plans was located on C.P.R. property. It was contended by the company that the property might later have to be utilized for the extension of tracks.

The board held that the pier would have to be placed further over. This, while somewhat marring the symmetry of the viaduct, will not materially harm the plans of the city.

Tomak, the agricultural centre of Siberia, boasts of the only university in that country. It was opened 26 years ago and is so well endowed that tuition fees amount to only \$50 a year.

At the university hospital may be obtained the only Pasteur treatment for mad dog bite that is available in Siberia.

The graphite deposits of Madagascar are to be exploited by a French company.

AUTHOR BARTHOLOMAE ASSAILS THE CRITICS

Philip Bartholomae, author of "When Dreams Come True," which has been running this season in Chicago, and "Little Miss Brown," is indignant at the newspaper comments on his new farce, "Kiss Me Quick."

"It is a pity that the newspaper reception of my farce, 'Kiss Me Quick,' neither surprised nor wounded me, for it was directly in line of precedent, so far as my plays are concerned.

"To the public: The newspaper reception of my farce, 'Kiss Me Quick,' neither surprised nor wounded me, for it was directly in line of precedent, so far as my plays are concerned.

"It may be recalled that my first play, 'Over Night,' when presented in New York, was accorded a solitary indorsement by a single newspaper, and then made a long tour of the other leading cities, attracting large audiences everywhere, and actually breaking records in several instances.

"Bitterly unfavorable comment was far from killing either of these plays. We are about to find out whether it will kill 'Kiss Me Quick,' or the public will give to my farce a measure of the support and approbation bestowed with such liberality upon my previous works.

"In the case of 'Over Night' we gave away a portion of the house each evening, and we were given a reputation by word of mouth that possibly could be undone by any amount of critical assault. The result proved that our position was correct, for at the end of the second week we were drawing paying patronage that packed the theatre.

"In the instance of 'Kiss Me Quick' I propose to give back the money of any spectator who does not like the play. Further, I shall be happy to entertain as my guest any theatre-goer who feels reluctant to pay for a ticket.

"This letter is not indited in rancor or reproach. It merely sets forth the history to date of three plays not liked by the New York reviewers, and expresses the hope that the public may at least pass for itself upon the merits of 'Kiss Me Quick,' irrespective of the opinion of professional and possibly jaded critics."

"Philip Bartholomae."

TRAMP REWARDS KIND SERVANT

EVANSVILLE, Ind., Sept. 17.—A \$27,000 reward for giving a cool biscuit and cup of coffee to a man who appeared to be a tramp in 1886 has been bestowed upon Mrs. Mattie Hannum in the final settlement of the Marshall McMurrin estate.

LOVE'S JOURNEY

The express train came up and the frail little bamboo station trembled. A delicate little woman descended from one of the cars and looked about like a scared bird.

The sun spread its dazzling light on the white dust and the only sound to be heard was the shrill music of the grasshoppers in the meadow.

I have taken courage to write you this letter. For many months you have stayed away from your home, you are away from your home, you ask the clouds for news about you, but the clouds answer her not.

When you get this letter I shall be in Kobe at one o'clock the following day.

She knew that the letter must be in his hands, and still he had not come to meet her, nor had he sent a servant with a rickshaw.

What had happened to him? Why did he stay away from her?

She shuddered. There was a strange noise in her ears and suddenly the yellow grain fields began to turn red as blood and move up and down as with an earthquake.

When Ai opened her eyes she was lying at the roadside. Somebody had picked her up and placed her in the shade. Two men were sitting at her side fanning her hot forehead.

She began to walk along slowly, for she was still very dizzy and faint. Evening came with a cool breeze from the fragrant meadows, which were hidden under a veil of white mist as the sun went down behind the distant hills.

On the dark sky arose the bright crescent of the moon and Ai's heart swelled with confidence and new courage. She suddenly knew that before midnight his arms should be around her and she should feel the kisses of his lips.

Now the lights of the city were quite close and soon she passed thru the first streets. A porter showed her the house where her husband was living.

Her heart was in her throat on the stood long hesitating in the darkness, before she entered. A dark figure arose from a mat—his servant. He bowed to the strange woman, but would not tell her where his master was.

She threatened him that she would have him discharged, and immediately told him that she was the mistress of the house and that her husband was expecting her.

"What was happening here? She tried everything but the man remained as silent as ever.

At left the house, threw herself down on the ground and burst into sobs, as if her heart were breaking. The wife of a neighbor came out and raised her up. She led her thru a maze of streets until at last she stopped outside a house with a gaily-colored lantern.

"Your husband is in there," she said and left her.

At looked at the long row of lanterns heart.

No Christian May Aspire To Office In Mexico

The following letter, written to Mr. J. D. Grace, by Dean Harris, who long lived in Mexico, and who wrote "Paths and Trails," in that country, is exceptionally interesting at the present moment.

"For a long time Mexico has been living peacefully near to the frontier of the 'underworld' of civilization. The country for forty years has not produced a statesman.

From Guadalajara Victoria, who took office on October 4, 1824, as first president of the Republic of Mexico, to Huerta now holding office as provisional president, every chief officer

with his cabinet were, and are the enemies of Christianity.

"No man who is known to be a practising Christian may aspire with any hope of success to any position above a policeman in Mexico. There is no hope for Mexico if it returns to its allegiance to God. No people or government can continue to prosper without religion. Mexico is not now, and never was fitted for a republican form of government.

Under Porfirio Diaz, republicanism was slavery, and the man or woman who called their souls their own were taking a gambler's chance.

The horrors of a civil war in their last American centuries surpass any other possibility of description. The returning victorious troops are not numbered with prisoners, but with the common people, who surrender if the Poecas cannot fry to the munitains, they know that with bloody hands they will be welcomed to hospital graves, and that the stretch of the decomposed body of an enemy is sweet to the victor. God help the pious, the common people who like dumb cattle are led to slaughter. I repeat there is no solution of the Mexican problem, till its rulers 're-establish religion.'

LOCATION OF THE ROOMS IN HOUSES

Important Feature in Building Dwellings—Sunlight is Deciding Factor.

The distribution and location of the various rooms in a detached dwelling should receive more consideration in their relation to exposure and sunlight.

A western or southwestern exposure is not good for a dining-room, as the afternoon sun heats it unreasonably in summer.

The living-room, which should be bright and cheerful, should face the east. The drawing-room or reception-room, usually little used, can face to the north or west.

The library must be dry and may face the east. The morning room should face east or southeast. Kitchens require cool locations where there is possible and the northerly exposure is therefore best.

Bedrooms should have the utmost possible amount of sunlight, as it is materially conducive to health, and in building the positions of the beds should be indicated on the plans. You should not have them in a direct draught between doors or windows, or windows and fireplaces, nor should the eyes of the sleeper face the light on awaking; neither should the side of the bed be placed against the wall.

Every bedroom should have an open fireplace or a ventilating flue.

Bathrooms and plumbing on different floors should be so placed over one another as to give direct simple drainage. Ceilings should be from ten to eleven feet from the floor in the design, and the windows are often best cleared when grouped, as inside wall space is saved.

Windows that are too large and too many make the house hot in summer and cold in winter, but they may be remedied in part by using glass

HOTEL MEN ARE ON DEFENSIVE

Churches Accused of Undue Meddling by Judge Durand in Addressing Convention.

WINNIPEG, Sept. 16.—(Can. Press.)—Nearly 700 delegates to the fifth annual convention of the Dominion Hotelkeepers' Association, gathered in the industrial bureau, this afternoon, for the formal opening.

Addresses of welcome were made by Mayor Deacon, on behalf of the city, Joseph Pahey, representing the Manitoba Association, C. M. McCahey of the Licensed Hotelkeepers' Association of Manitoba, and Geo. W. Wright of Toronto, president of the association.

Judge Durand, president of the Personal Liability League of Ontario, also spoke, outlining the work of the league. In his address, the president stated that it was the intention of the association, to establish a training school in Winnipeg, where the younger men might learn the business more thoroughly. He also resented the way in which hotelkeepers had been attacked, and urged them to defend their business.

"Religion has been commercialized, and the churches turned into a political institution. A class of self-satisfied and personal purveyors of public morals have set themselves up to attack you."

The meeting then went into committee, from which the public was excluded.

RELIGIOUS INSTRUCTION IN ONTARIO SCHOOLS DISCUSSED

Anglican Provincial Synod of the Opinion That Present Regulations Are Inadequate and Impracticable—Practical Measures Should Be Adopted for Putting Aims Into Effect.

One metropolitan archbishop, seven bishops, sixty clerical and forty-five lay delegates made history at St. James' parish house yesterday afternoon by opening the first session of the new Anglican provincial synod of Ontario. The enrolled procession of bishops entered the auditorium, the members of the lower house rose to receive them. The bishops entered in the order of their election, the most recent came first and Archbishop Hamilton last. The metropolitan wore resplendent robes and was preceded by a cross-bearer. Gentle railing from Hon. S. H. Blake, hot shot from W. S. Cockshutt, M.P., and pungent argument from leading delegates, clerical and lay, enlivened the session. The interest focused on religious instruction in the Ontario public schools. The discussion was preceded by a short service, led by Archbishop Hamilton, and the withdrawal of the members of the house. The bishops sit separately and conduct their business in private. Religious instruction. The report of the committee appointed last year when the dioceses in Ontario were detached from the province of Canada to form an ecclesiastical province for Ontario. The report of the committee recommended the appointment of a representative committee on religious instruction with power to act for the synod during the next three years, and to be empowered to confer with other communions with a view to the adoption of recommendations to the minister of education for any desired changes. Archbishop Inglis considered that the present regulations were inadequate and impracticable. Mr. Backus believed the trouble was chiefly due to the opportunities under the present regulations being unknown, or for other causes, neglected by the churches. Hon. S. B. Blake said that the 400,000 public school children of Ontario were entitled to the priceless treasure of minds stored with memorized inspirational texts. The trouble was that if religious instruction had to be furnished by the 8000 teachers, it would be necessary for the teachers themselves to be taught first how to give religious instruction. Proof of this was furnished by the entire absence of a thing almost unknown in Toronto—that was courtesy—except from the newspaper reporters, who were always courteous. The regulations gave the clergy great privileges, but at 79 years of age he felt big enough to sympathize with any boy's anger if compelled to remain for

WOODSTOCK JAIL "LIBERTY HALL"

So Says Dr. Bruce Smith, Who Held Investigation Over Two Escapes.

WOODSTOCK, Sept. 16.—(Can. Press.)—Dr. Bruce Smith, inspector of prisons and asylums, held an investigation, under oath, here today into conditions leading to the escape of two prisoners, William Klue and Albert Bernard, from Oxford County Jail on Sept. 4. The evidence showed that the men had not been locked in their cells because they were ill. Turnkey Burgess swore that when he wanted to go to church he locked the prisoners in cells and left the jail unguarded. It came out that two prisoners had been frequently entrusted with the jail keys and that another prisoner has his cell left open so that he could attend to the jailer's horse. Still another was allowed to sleep in the store room. Dr. Smith was astonished at the laxity and neglect shown and spoke of the jail as "liberty hall" and "a place where no one need stay who did not want to." Evidence will be sent to the government for consideration. In the meantime the suspension of Wilson and Burgess stands.

FRANCE IS SWEEP BY FIERCE STORMS

PARIS, Sept. 16.—(Can. Press.)—"Thunderstorms of exceptional violence have swept over France, doing great damage. At Marseilles the streets were transformed into torrents; hundreds of cellars were flooded and quantities of merchandise on the quays were ruined or washed into the sea. All the traffic in the city was suspended for a time. A boat containing a fishing party of six was capsized in the harbor and five persons were drowned. At St. Agreve, in the department of Ardeche, and other places, houses were struck by lightning, with some loss of life.

ST. MARY'S ITEMS.

ST. MARY'S, Sept. 16.—(Special.)—The board of the Water, Light and Health Commission, have installed 500 new electric light and water services up to Sept. 1. Fifty new electric light metres have been ordered. A public meeting will be held in the town hall on Thursday, Sept. 18, for the purpose of discussing the flour mill bylaw. It has been arranged to play the final game in the G. A. L. A. Intermediate series at Brampton, on Monday, Sept. 22, between the Alerts of St. Mary's and the Bracebridge team. There will probably be an excursion train from here.

CHURCH DOESN'T LIKE THE WORLD

But He Reads the News and Editorial Columns Every Day.

SCURIOUS AND FALSE

That's What He Called an Article He Perused Yesterday.

Ald. McBride, permanent chairman of committee of the whole, is to remain in that office until the end of the year. His removal was demanded by Controllers Church and Foster in the board of control yesterday, but the demand was afterwards withdrawn. "Ald. McBride made a very unfair attack upon Controller Foster in the council meeting last night during your absence from the chamber," Controller Church said to Mayor Hocken. "Ald. McBride has been making such unfair attacks all the year. We should do something to preserve order in the council. The board of control is brought into ridicule and contempt."

TALKS ALL THE TIME.

"We should repeal the bylaw and put McBride out of the chair," Controller Church insisted. "He talks all the time and violates the rules of debate. He interferes when others are speaking and orders them to sit down. He participates in all discussion, and so retards business. I'm prepared to send on a recommendation to remove him from permanent chairmanship."

"DO YOU THINK THAT WILL IMPROVE MATTERS?"

"Do you think that will improve matters?" Mayor Hocken queried. "Some members think the repeal of the bylaw should be deferred to the end of the year," Controller Church remarked. "I wouldn't make any change this year," Mayor Hocken urged. "Nor I," said Controller O'Neill. "The chairman of the committee of the whole talks too much and leaves the chair too often," Mayor Hocken said. "Let us try to keep him to the rules. Don't let us start the members disobeying the rules."

COUNTESS ENTERS MOVIE BUSINESS

Hopes to Raise it to High Standard as Educator.

LONDON, Sept. 16.—The Countess of Warwick announces her intention to enter the "movie" business as an author in order to help the British film in the race for supremacy. As well as writing plays the Countess will play Warwick castle with its historic environs and her own estate at east on the disposal of the film manufacturers with whom she is acting. "I have written my first play in a highly sensational vein," said the Countess tonight. "It is called 'The Great Pearl Affair,' and therefore is extremely timely, but I hope to prove that things of a far higher character can be filmed. There is much that can be done to raise the moving picture to a splendid position as an educative influence, and I have great hope and high ideals."

EFFICIENT HOUSEKEEPING BY HENRIETTA D. GRAUEL DOMESTIC SCIENCE LECTURER

Celebrated Recipes

GOOD living and deep thinking have ever gone hand in hand. Away with thin blooded philosophers with faces set against good things to eat. Benjamin Franklin said "You cannot get blood from a turnip" after he had given vegetarianism a fair trial and returned to his mutton, and the ripe old age that he enjoyed he attributed to porterhouse steaks and their delicate accompaniments.

A dish that Franklin brought back to America from France he called "Little turkeys." It is pork tenderloin cut thru the middle, but not in half, and filled with the same rich dressing that you would use for stuffing a turkey. Sew or tie together, roll in spiced flour and bake 20 minutes in a hot oven, in a shallow pan with enough water to cover the bottom. Make a rich cream gravy from the liquid drippings and pour a little over each "turkey." Serve with baked spiced apples.

Other recipes from the cook books of famous families are the following: Queen Victoria's potage à la Reine.

One quart of rich chicken stock freed from fat, season highly with onion, salt and pepper. Crush the yolks of three hard-boiled eggs fine and mix them with a cup of rolled sifted cracker crumbs. Chop the breast meat of the boiled fowl until it is a soft paste and add it to the egg and cracker mixture. Add a pint of cream and then press all thru a sieve into the hot soup. Stir and if, after a moment's cooking it is too thick, thin with cream.

Mark Twain's famous poached fish: Use about four medium-sized mackerel or a three-pound catfish. Remove the flesh from them without cooking; pick out the bones and pack the pieces of meat in layers with the spices and salt sprinkled between and completely covered with vinegar. The seasoning to be used is one-third of a cup of salt and an equal quantity of whole spices—cloves, peppercorns and allspice, in equal proportions, cover closely with a snug-fitting lid and cook in a moderate oven about two hours. Remove the lid until cool, then re-cover and keep in a cool cellar or refrigerator. This is a splendid relish.

If Dr. Wiley had ever tasted Mother McKinley's oyster fricassee, he would never have enquired if oysters had feelings. He, like the rest of us, would have valued sentiment and swallowed the molluscs. She rolled the oysters in flour and browned them in butter, and when they were fried to a turn, poured hot cream over them. In a moment the cream was thickened and the whole was served with diamonds of buttered toast and accompanied with fresh crisp celery.

A person may dine out twice a week thruout the year and not encounter more than one loaf of good corn bread in all that time, nevertheless it contains the essential elements of good living, and is as wholesome as delicious.

Pocahontas' own recipe was used by the colonists, and here it is: One open fire, a stone griddle, coarse ground Indian corn meal. Salt the meal and wet it with boiling water. Beat until smooth and add a little melted fat. Pour in cold water until the batter is the right thickness. Cooked on a griddle greased and smoking hot, and fry in little cakes. Cooked on a modern range these same corn cakes, served with the hunger sauce best known to early settlers, are the best things known to satisfy an appetite, especially if there is ample supply of butter and a deep pitcher filled with maple syrup.

Australia's co-operative industries span 2700 feet long is proposed for the Mersey River at Liverpool. Ostriches and alligators are raised in incubators in South Africa.

A suspension bridge with a main span of 2700 feet long is proposed for the Mersey River at Liverpool.

Ostriches and alligators are raised in incubators in South Africa.

LOTS OF MONEY IS BEING SPENT

Toronto People Must Be Prosperous, Judging by the Stores.

BEST KIND OF CLOTHES Men and Women Alike Are Purchasing Expensive Garments.

Never since the time that Toronto was Muddy York until now has there been such a brave showing of clothes and material for sale, as are now displayed in our dry goods, millinery and tailoring establishments. And never, perhaps, have people been so keen on the subject of garbing themselves in the latest and best as they are at present. Yesterday afternoon, despite the rain, shoppers swarmed about the counters, and between the showers they oftentimes made futile attempts to get from one big store to the other. Some caught in a heavy downpour were forced to seek shelter in the buildings, where they formed a solid and living evidence of the interest taken by our citizens in shopping.

Any part of Europe, so we are told, is cheaper to live in than Toronto, and no portion of America, not even excepting New York, Chicago and the other large centres, is more expensive. Yet our people live and live well, and in proportion to our numbers, slums and slum-like quarters are by no means an overwhelming element. That there is a market for the gorgeous and elaborate fabrics shown in our shops is a foregone conclusion. The magnificent brocades and velours, the high-priced alpines, the costly fur and rare laces which buyers now collect from foreign markets for the purpose of catering to Toronto taste, will all be seized upon during the next few weeks, and in the coming season our society functions will display a richness greater than that of any season in the past.

Now this could not be done if there were not money wherewith to do it. Merchants are far too wary to fill up their shelves with the costliest things in the foreign markets if they were not pretty certain of a prompt sale on this side. The money stringency so much talked about is not affecting our lares and penates to any appreciable degree.

Another proof of our prosperity is the number of leasured men and women who are apparently in a position to take their ease with the utmost luxury. The money stringency so much talked about is not affecting our lares and penates to any appreciable degree. Another proof of our prosperity is the number of leasured men and women who are apparently in a position to take their ease with the utmost luxury. The money stringency so much talked about is not affecting our lares and penates to any appreciable degree.

"All's Well"

The cooler wave of the last few days has brought out another evidence of our prosperity. The old may cry out as our city's motto, "All's well." Great drays piled with bags, which in turn are piled with coal, are drawn up to the houses and from them men are replenishing the cellars, so that no nip of Jack Frost even in his earliest reminders may be felt by our comfortably-housed citizens.

WILL TOUR THE DOMINION.

"Made-in-Ireland" Train to Have Ten Sample Cars.
LONDON, Sept. 16.—(C.A.P.)—The Canadian Associated Press understands that a "Made-in-Ireland" train, under the auspices of the Irish Chamber of Commerce, is about to tour the Dominion. Specimens of Irish manufactures will be transported from Belfast to Quebec by way of the Empress steamers from Liverpool. At Quebec a C.P.R. train, consisting of ten sample cars, will be fitted up with exhibits from the three transcontinental railways, as far as Calgary, returning via Montreal and St. John, N.B. At the latter port the exhibits will be restocked for Liverpool and Belfast. The round trip is estimated, will cover about 12,000 miles, and will average from 75 to 80 days. Arrangements have been made with the C.P.R. that the cost of each car shall include all expenses of the entire trip from end to Belfast, including maintenance charges for the four attendants allowed to each car.

The NURSERY CONDUCTED BY Elinor Murray Child Culture.

How many mothers with little babies realize how great a part they play in forming their children's characters and developing their intellects? Perhaps you think it strange that I talk to you of educating your 18-months baby, or of training the instincts of your 3-year-old boy. The physical welfare of babies is now a recognized study, and every mother in every station of life is intensely interested in learning to keep her baby well and make his body fit for life's struggles. Every mother realizes that the health and strength of maturity depend upon her watchfulness over the early growth. I wish we all attached as much importance to the development of character. Until Froebel's time scarcely any thought was given to the right or wrong training of a child's natural instincts. People never dreamed that a baby's impulses had anything to do with his future character.

GOOPS BY GELETT BURGESS

I like to see a child who stays unmoving, while one sings, or plays. But Goops like Jacob Epitaff will fret and fidget, talk and laugh! I can't enjoy the music—neither Can I enjoy young Jacob, either!

Don't Be A Goop!

According to the report submitted to the annual meeting of the Durban (South Africa) Chamber of Commerce, on April 15, there were 12 whaling companies at work during the year 1912 on the south and east coasts of Africa, mostly on the east coast. The five Natal companies captured 984 whales last year.

Letter from Buckingham Palace

The Columbia Phonograph Co., 770 Broad St., New York City, N.Y.

Dear Sir, Please accept our warmest congratulations on the receipt of your first record. We are pleased to hear that you have been successful in your collection of records. We are sure that you will find them most interesting and enjoyable. We are sure that you will find them most interesting and enjoyable. We are sure that you will find them most interesting and enjoyable.

Columbia

ANY of the following Columbia dealers will deliver a complete outfit for free trial in your home. Have it sent out for tonight. Models at from \$20 to \$650. Columbia Double-Disc Records cost 85c for two standard selections. They fit any machine. Be sure to send for free catalogue and a free sample record worth 85c. (10c to cover cost of handling).

The Columbia Company is compiling a list of names of all disc instrument owners, to whom they will send interesting Talking Machine literature free every month. Send your card to Advertising Department, Columbia Graphophone Co., 365 Sorauren avenue, Toronto.

- Dealers wanted where not already represented. Apply to the sole selling agents, MUSIC SUPPLY CO. (Wholesale only), 88 Wellington street west, Toronto.
- Columbia Graphophones, Grafonolas and Double-Disc Records can be obtained from the following Toronto dealers:
- Adams Furniture Co., City Hall Square.

 - Whaley, Royce, Limited, 237 Yonge Street.

THE GARDEN CONDUCTED BY RACHEL R. TODD M.D.

Scillas.

The scillas are all great favorites. In fact, if we except the snowdrop and the crocus, there are no bulbous plants more familiar or more vastly appreciated than these same squills (another name for scillas). They make a bold and beautiful show no matter how they are used. Every species differs from both in the size and form and color of the flower and disposition of the flower spike. One sort sends up a hardy shaft bearing from six to eight brilliant single and double bells, another variety produces scores of dazzling sky-blue stars, each star on a single stalk, still another sort proudly rears aloft a noble trunk of darkest blue. Bell-like, ball-like, star-like—the colors ranging thru all the tints of blue from the faintest lavender to blue-black balls; some striped, some spotted, and some tipped. What a feast of color and form! Scilla siberica is a favorite beauty. It is a large bulb, comparatively speaking, which sends up dozens of star-

shaped flowers in color an intense royal blue, each flower borne on a single slender green thread of a stem; until the dark green foliage is actually flower hidden making a great blot of color from one to two feet in circumference. No living soul can ever forget that living blue. The bloom remains, day after day, unchanging, for many long weeks. A splendid combination is a bed of snowdrops framed with winter aconite, finished off by a double row of scilla peruvia, whose sturdy trusses line up in rich blue—a lovely picture. These scillas should be planted now. In the rookery in small circles cut out around the tree trunks along the borders of the garden walks—there are plenty of spots where these scillas may be planted, and left in undisturbed possession for some years. These scillas, remember, are March flowers—that means a very early show of buds, do not forget.

MUST WORK TOGETHER.

French and Spanish Interests in Africa Demand Close Collaboration

PARIS, Sept. 16.—(Can. Press.)—The French Review, a publication devoted to Franco-Spanish interests, today published an article by Foreign Minister Stephen Pichon, recalling the historical association of the two countries which are so situated geographically as to permit close collaboration.

FR. PLAMONDON RETRACTS

QUEBEC, Sept. 16.—(Can. Press.)—Father Plamondon, who preached a retreat last week to the students of Laval University has raised a controversy in political circles. In one of his lectures to the students in the Quebec seminary chapel, he spoke on the worthlessness of

LADIES

public men and held up Henri Bourassa as a model of perfection for the students to imitate. He also said there were only four good newspapers to read—The Devoir, La Croix, La Verite and L'Action Sociale. Parents of students having voiced objection and indignation, the university authorities have prevailed upon Father Plamondon to issue a retraction.

India has produced about 2,500,000 tons of sugar annually for the last two years.

NEWS OF WESTERN ONTARIO

BIG LEGAL BATTLE ON AT BRANTFORD

City and Railway Co. Lock Horns on Franchise Cancellation Question.

BRANTFORD, Sept. 16.—(Special.)—The City of Brantford today commenced a legal battle against the Street Railway Company for the cancellation of the 50-year franchise and the recovery of \$20,000 tax arrears. The case, which promises to continue for several days, is being heard before Chief Justice Meredith.

An array of legal talent represents the different interests, including W. T. Henderson for the city, George H. Watson, K.C., M. Simpson, K.C., and J. A. Patterson, K.C., for the street companies and bondholders.

The city set out to show that every agreement made with the Street Railway Company had been broken and that the city had suffered greatly as a result. Bylaws which were produced by the city clerk each one of which he stated had not been complied with.

Today the most startling evidence submitted was that \$170,000 bonds had been sold by the company, and it is expected that during the progress of the case it will be shown how these bonds were disposed of. In this connection a scandal involving the names of certain parties interested in the company is promised. It is alleged that there is no record of this bond issue.

It is thought that the city might succeed in having the franchise canceled, it is pointed out that the municipality could not take possession of the car lines, and if running rights were canceled a complete stoppage of the street cars would be effected.

Regardless of the result of the trial, a strong effort is being made to have municipal ownership of the street railway, although this would not apply to the line between here and Paris and Galt.

Entries Above Previous Standards—Fine Showing of Horses and Cattle.

GUELPH, Sept. 16.—(Special.)—The Guelph Central Fair opened this morning. The stock entries in all classes are well with. There is a large showing of "Shorthorns." The dairy breeds are represented by good exhibits on exhibition, while the beef breeds are also well shown. The show, which is the largest in the city, is being held at the Agricultural College.

The industrial and school entries are well above previous standards. The Ontario Agricultural College has a most unique collection of plants and flowers on exhibition, and the Industrial Farm has one of its finest manufactures at the prison, which was exhibited at the Toronto Exhibition.

FREIGHT MOTOR KILLS HORSE
GUELPH, Sept. 16.—(Special.)—One horse killed, another severely injured and the driver with a badly injured foot were the casualties from a rather peculiar accident today on Waterloo street. A wagon loaded with household furniture was approaching the city, when the street car's powerful freight motor, pushing a loaded car, suddenly jumped the tracks and bore down upon the horse, turning it and braked against, dashed over to the sidewalk, plowing its way thru the horses, with results as stated.

SPURIOUS MONEY MADE BY PRIEST
Discovery of Counterfeiters' Den Follows Disclosure of Foul Murders.

NEW YORK, Sept. 16.—(Can. Press.)—The discovery of a counterfeiters' den, which has been a long time in the making, was disclosed today by the disclosure of a foul murder. The den was found in the basement of a building at 124th street, in the Bronx, and was the work of a priest, who had been using the money to finance his various schemes.

ORIGIN OF LIFE TO BE REVEALED
Sir Oliver Lodge Believes "Potential Living Matter" Not Beyond Science's Reach.

BIRMINGHAM, Eng., Sept. 16.—(Can. Press.)—At a joint meeting of several sections of the British Association today, the debate which was on "The Origin of Life" attracted a great audience. The discussion was conducted by Sir Oliver Lodge, who declared that the meeting was not a laboratory synthesis of some material that might possibly be endowed with life, but that it was a matter of higher and different order. By using a molecule sufficiently complex, sufficiently unstable and supplied with the energy of sunlight, you have apparently the physical and chemical substratum for the operations of life, you have potential living matter. It is only a matter of time, he said, that will be a great achievement, and he has little doubt that it may be done.

TORONTO GROWS AT RAPID RATE

Mayor Hocken Tells Ad Club of Five Years' Progress.

MORE RESPONSIBILITY Members of Council Are Kept Busy Attending to Re-quirements.

Before the Toronto Ad Club yesterday, Mayor Hocken reviewed the progress of the city during the past five years, and the resulting huge additions to the population of the city.

His first deal with the filtration plant, with its daily supply of from 2,000,000 to 4,000,000 gallons, and the necessary improvements which have to be made. It is proposed to have a daily supply of 100,000,000 gallons, and the necessary improvements which have to be made.

The next deal with the extensive trunk sewerage system, with its disposal works at the foot of Morley avenue, and the low level interceptor, the total cost of which is \$2,426,306. The new Toronto sewerage system, which has an authorized capital of \$1,000,000, was discussed by the mayor at some length.

A comparatively new plan is the playgrounds movement, which is occupying considerable attention of the civic officials. The first playground was established in St. Andrew's square in 1909, with an area of 1.34 acres. The rapid success has led to the establishment of other playgrounds, and the O'Neill playgrounds in 1911.

The management of the playgrounds is in the hands of the Parks department, and seven men and 14 women supervisors are employed. There are a total of 82 baseball diamonds, 15 tennis courts, 8 croquet lawns, 3 lacrosse fields, 5 bowling greens and 2 quelling grounds.

The industrial farm is the feature to which the mayor's attention was drawn. In 1912, 370 acres were purchased on Yonge street, near Richmond Hill, which has been increased to 625 acres, at a cost of \$222. The mayor believed that the expenditure of \$150,000 has been justified.

A milk inspection, which is one of the new civic departments, has been a great success. The inspection is conducted as to health and cleanliness, while cow stables and milk houses must be kept suitable for the handling of clean milk.

Nurses for the treatment of tubercular patients is another forward step. There are now 15 nurses, besides the six child-welfare nurses and four temporary nurses. These nurses visit the homes, give instruction in child care, help with nursing and do other such work.

Restaurant inspection is one of the latest services established. The aim is in providing the public with pure wholesome food, with clean and sanitary surroundings, is being fulfilled.

RARE STORIES OF PANAMA AND CANAL
Told in Human Interest Style by Author Who Made Careful Study of People.

Among the many thousands of people that have helped to construct the canal, there are some who are of great interest. The author of "Panama and the Canal," who has made a careful study of the people who have helped to construct the canal, has written a book which is full of human interest.

This equipped, Mr. Abbot made a careful survey of the canal and its surroundings, and he has written a book which is full of human interest. The book is a study of the people who have helped to construct the canal, and it is a book which is full of human interest.

ORIGIN OF LIFE TO BE REVEALED
Sir Oliver Lodge Believes "Potential Living Matter" Not Beyond Science's Reach.

BIRMINGHAM, Eng., Sept. 16.—(Can. Press.)—At a joint meeting of several sections of the British Association today, the debate which was on "The Origin of Life" attracted a great audience. The discussion was conducted by Sir Oliver Lodge, who declared that the meeting was not a laboratory synthesis of some material that might possibly be endowed with life, but that it was a matter of higher and different order.

RESTAURANT CHEF MISSING
GUELPH, Sept. 16.—(Special.)—Joseph Biggs, late chef and manager of the King Edward restaurant here, has disappeared. His clothes and other belongings are still in his room at the hotel. He has not been seen since Monday, and his disappearance cannot be accounted for.

BOOK REVIEWS BY CHESTER FIELD

THE AMERICAN INDIAN

The publication of volume IX of "The North American Indian," a field excursion conducted under the patronage of the late Pierpont Morgan, brings before the public another comprehensive study of a people who are rapidly losing their aboriginal traits and acquiring the customs of the dominant race.

The book is beautifully illustrated with typical photographs in which characteristic phases of Indian life are portrayed. It contains, besides selected tribal vocabularies, transcriptions of songs which have been obtained thru the use of photography.

The present volume deals chiefly with the Salishian tribes of the coast. They inhabited the entire territory west of the Cascade Mountains from the Columbia River northward to the fiftieth parallel, including the islands between the Straits of Juan de Fuca and the Strait of Georgia, the serrated coasts of British Columbia and the north portion of Vancouver Island.

Twenty years of camp life are being devoted to the completion of this work. It is the interest of Mr. Morgan, and the perseverance of Mr. Curtis that we are indebted for the delightful and picturesque volume.

AMBITION'S WAY

"The Way of Ambition" by Robert Hitchcock, a story of New York, differs considerably from his previous novels where he depicts so glowing the colors of the south and the north. The story is a musical genius, quiet and retiring, who is discovered by a critic who is interested in his work and brings it to the attention of London's society.

Some little disturbance has been caused among "The Four Hundred" of Boston by a new book by James H. Stedman, "The Loyalties of Massachusetts," the Canadian edition of which is being brought out by William Briggs and Co. The book is a study of the loyalty of the people of Massachusetts at the time of the revolution.

SULZER TO FACE COURT TOMORROW

Firm in Belief of Acquittal, He Expects to Receive Fair Trial.

ALBANY, N. Y., Sept. 16.—Gov. Sulzer has broken his long silence by the following statement concerning the impeachment proceedings that are to begin on Thursday.

He continues to present to the public a calm exterior. His self-satisfied attitude is the admiration of his friends and the wonder of his enemies. When Sulzer faces the high court of impeachment at the capitol at high noon next Thursday, it will be the first opportunity in this country to watch an attempt to remove from office a governor under the exact forms of law laid with all the safeguards that rule of evidence in a court of criminal jurisdiction place about the defendant observed almost as rigidly as in such a tribunal.

Steamer "Kingston" leaves Toronto 2.30 p.m. Monday, Wednesday, Saturday. Including berth and evening dinner in each direction, also 50 mile inland ramble.

RESTAURANT CHEF MISSING

GUELPH, Sept. 16.—(Special.)—Joseph Biggs, late chef and manager of the King Edward restaurant here, has disappeared. His clothes and other belongings are still in his room at the hotel. He has not been seen since Monday, and his disappearance cannot be accounted for.

THE CANADIAN FLAG

Considerable interest was aroused at the Toronto Exhibition by comments of some of the visitors on the various forms of flags which were displayed.

The book is a series of short stories presenting British history in biographical form, and in a way that is sure to recommend itself, particularly to younger readers.

ROUND THE CORNER

"Round the Corner," by Gilbert Cannan, and published by Appleton & Co., is attracting considerable attention just now. Its leading character is Francis Foyat, a descendant of an aristocratic but improvident family. He was simple minded and kindly and "regarded religion as his work and makes everyone else an excuse from it."

The mother, however, is incurably romantic, and of her cheerfulness and of the things that get in an unbearable middle she relieves herself in tears and wails everyone else as uncomfortable as possible.

THE LOYALISTS

Some little disturbance has been caused among "The Four Hundred" of Boston by a new book by James H. Stedman, "The Loyalties of Massachusetts," the Canadian edition of which is being brought out by William Briggs and Co.

He continues to present to the public a calm exterior. His self-satisfied attitude is the admiration of his friends and the wonder of his enemies. When Sulzer faces the high court of impeachment at the capitol at high noon next Thursday, it will be the first opportunity in this country to watch an attempt to remove from office a governor under the exact forms of law laid with all the safeguards that rule of evidence in a court of criminal jurisdiction place about the defendant observed almost as rigidly as in such a tribunal.

will pay for The Sunday World for one year, by mail to any address in Canada or Great Britain. Delivered in Toronto or for sale by all newsdealers and newboys at five cents a copy.

Subscribers are requested to advise promptly of any change of address or delay in delivery of the World.

WEDNESDAY MORNING, SEPT. 17.

BACON, WHEAT AND MONEY.

The announcement from Washington that the price of bacon has increased since 1899 by 128 per cent. may cause one to enquire "Who gets the money?" We take it for granted that the swine-breeding industry has not fallen off for during these years the United States has been a large exporter of hams, lard and bacon. The farmer's land has no doubt increased in value, and the corn he fed was worth more and more money as time went on.

During these years the farmer has been compelled to pay more for some things, especially if he had a boy at college or a girl at boarding school. He probably has lived in more comfort, is employing more help and at better wages; possibly, he has purchased an automobile. Perhaps after all he has not little more money at the end of the year.

Be that as it may, the fact remains that if the creditor had contracted for so many pounds of bacon instead of so many dollars, he would have made a profit of 128 per cent. apart from legal interest. The American farmer, therefore, pays in gold, which is cheaper than formerly, if measured by corn, cattle or bacon.

Broader speaking, there has been a general rise in prices, indicating that for some reason the purchasing power of money is less than formerly. It is commonly held that a rise in prices will follow a large expansion of the currency, and that a decline in prices will follow a contraction of the currency.

But of course whether the ordinary man wins or loses is a mere accident. The people who control the volume of currency are after bigger game. Perhaps even they are not entirely masters of the situation.

But would it not be a good thing were the people themselves thru their government to create and regulate the currency of the country?

PARTISAN CONTROL.

The opponents of the Glass currency reform bill are shifting their position to safer ground, when they object not to government control or political control, but to partisan control of the federal reserve board. Fortunately President Wilson can be trusted to select the best men available, and public opinion should restrain any future president from abusing the power of appointment. As only one member retires annually it would be out of the question to reorganize the board during the lifetime of a single administration.

It must be admitted, moreover, that our neighbors are less narrowly partisan in their appointments to high office than we are in Canada or even in the mother country. In their appointments to the federal bench, including the supreme court, all the latter-day presidents have to some extent ignored politics. Thus Mr. Taft appointed Chief Justice White, and it would not be surprising if Mr. Taft became a supreme court judge by the appointment of President Wilson. Even in making up his cabinet the president of late years has not confined his selections to thick and thin party supporters.

Our Dominion Board of Railway Commissioners in Canada has kept fairly well out of politics, and we hope

it will always so remain. As vacancies occur the best available men should be chosen to fill them, and the board should be free from partisan pressure or suggestion of any kind. Government control or political control if you please, over the banks, railways or other public utilities, need not mean, and should not mean, partisan control, for partisan purposes.

IN THE MELON PATCH!

Melon cutting among the railroads goes on apace. The latest to suggest handing out nice juicy fruit to its shareholders is the Union Pacific Railway. Having been forced to dispose of its holdings of the Southern Pacific Company by judgment of the United States courts, the Union Pacific Company is now casting about for a method of distributing the cash to its shareholders—a sum of about \$10,000,000. Union Pacific, under the late Mr. Harriman, had its dividend increased from 6 per cent. to 10 per cent., of which about 2 1/2 per cent. was received from dividends on its holdings of Southern Pacific stock.

Financial journals, whose interests lie altogether with the capitalists and against the people, are beginning to fear the day of retribution when the ordinary man will hold that 10 per cent. to shareholders on capital largely consisting of water is exorbitant and unjust. Apprehension along these lines has been felt in the United States for a considerable time, and now comes the following from London, in which the Union Pacific and Canadian Pacific are jointly exhorted to beware of the future. Speaking of dividends paid by the Union Pacific and the Canadian Pacific, the London correspondent of The New York Evening Post says:

Well informed authorities on this side are strongly of the opinion that it would be a diplomatic proceeding on the part of the Union Pacific to adopt some plan whereby dividends would be reduced below the present figure. The feeling is that a 10 per cent. distribution for a railway in the United States of means commensurate with the services rendered, and also in reference to freight rates. The same difficulty is experienced by Canadian Pacific and it is felt that this company must eventually split up its assets into different companies.

If rumor is to be credited, the C. P. has long ago sought to provide a plan for its land and other assets. Like the Union Pacific, a dividend of 10 per cent. is paid, but care is taken to see that 3 per cent. of this comes from the land holdings. Of recent years the C. P. Company has issued new capital at \$125, \$150 and \$175 a share, while the market prices of the shares have been anywhere from 25 per cent. to 50 per cent. above these figures. All of these issues are now carrying the 10 per cent. dividend, a large return surely even for these days of high money.

The World has repeatedly contended that any new C. P. R. financing should be done by 4 per cent. bonds, but this course would not allow of a distribution of unwieldy earnings. Some day Canadians will arouse themselves as the London correspondent hints, and ask that a greater return be made to the railways' customers, and a smaller one to the shareholders.

PICNICS BREED TURBULENCE.

Ald. McBride has received a severe castigation at the hands of The Telegram for stirring up the wrath of Controller Foster, and still further irritating the controller by laughing at him. Ald. McBride made some statements about the controller's picnics which were evidently not agreeable. He stated that the street car transportation was furnished free by that company, and the ferry rides free by the ferry company. These allegations caused Controller Foster to use unparliamentary language towards Ald. McBride, and to invite him outside to meet the fate which is understood to await all who accept such invitations.

Other pourparlers were interchanged—including an intimation of the nature of an ultimatum to Ald. McBride from the controller that he could defend him in personal combat on any occasion the alderman might be pleased to designate. At least, if the statements had been thrown into parliamentary form by City Clerk Littlejohn, they would probably have taken some such shape. The Telegram points out to Ald. McBride the evil of his ways, the strain is enough, in the course of the article.

DEBENTURES

Issued in sums of \$100 and upwards. For terms of one or more years. Interest paid half-yearly. Interest computed from the date on which money is received, at a rate varying according to the term for which the debenture is issued.

These Debentures Are a Legal Investment for Trust Funds. They are a favorite investment of Benevolent and Fraternal Institutions, and of British and Canadian Fire and Life Assurance Companies, largely for deposits with the Canadian Government, being held by such institutions to the amount of more than ONE MILLION DOLLARS.

We shall be glad to mail a specimen debenture, copy of annual report, and any further information desired, to any who send us their address.

CANADA PERMANENT MORTGAGE CORPORATION

The Philosopher of Folly

HONEST POVERTY. About the joys of poverty, oh, prithee, friend, talk not to me—go chase yourself to clover! The poets used to sing, I know, its charms some hundred years ago. But that time's past and over. In those days bards with hearts afire would agitate the dulcet lyre and sweetly voice its praises—they kept their pots upon the fire with songs exalting honest toil; they lauded it like blazes. But should a singer now arise and hand out lyrics on this wise he'd be a mighty rash un, for poverty of any kind, if he but looked around, he'd find was badly out of fashion. That lack of coin was but a test intended to bring out the best in men—thus held the sages: "And that it does but by the roots!"

PROVINCIAL PRODUCTS.

Hon. J. S. Duff, minister of agriculture, is forwarding to the London office of the Ontario Government a choice exhibit of provincial products. This includes consignments of honey, grain, vegetables, cheese and minerals and woods. The whole will be handled thru H. A. Macdonell, director of colonization and immigration.

A FRUIT MARKET.

Controller O'Neill is to be congratulated on the success of his first move in connection with the establishment of a fruit market for the city. Controller Foster started in long ago to get something done to relieve congestion, but he has not the executive turn, as he admitted in declining to look after one of the city departments last spring. He will be able to criticize the success of his action, perhaps.

BROCKVILLE'S NEW ARENA.

BROCKVILLE, Sept. 15.—(Special.)—The contract has been awarded for the completion of the building by Dec. 15.

HOME BREW FOR AUSTRALIAN ARMY

Next Inspector-General of Forces Will Not Be a Britisher. LONDON, Sept. 16.—(C.A.P.)—The Melbourne correspondent of The Times understands that the next Inspector-General of the military forces of the commonwealth will be an Australian and not a Britisher. Gen. Kirkpatrick retires next year.

THE DOCTOR SAID—

"What you need is nourishment, in an easily digested form. I want you to drink O'Keefe's PILSENER Lager. As one of my eminent colleagues stated, Lager Beer is a form of liquid beefsteak, which imparts power and strength to the system. Take a bottle of O'Keefe's PILSENER Lager with your lunch and dinner, and another at bedtime. I know that O'Keefe's PILSENER contains the concentrated strength and vigor that I want you to have. Remember, your capital is your health. Order a case at your dealer's, and be sure to say O'Keefe's."

For Health's Sake DRINK

WOLFE'S AROMATIC SCHIEDAM SCHNAPPS

the spirit that not only gratifies the palate, but satisfies the calls of nature. In no invigorating cordial compounded for organic disorders are there the same stimulating influences and tonic virtues as are to be found in Wolfe's Schnapps, a distilled spirit which possesses natural ethers of supreme worth where the organs of the body demand a tonic corrective.

It clears and cleanses the liver and kidneys of all impurities, promotes healthy and vigorous action and provides nature with a reserve of vitality. And all this in the form of a refreshing and pleasing drink. Good for both sexes at all times and in all climates.

Agents: GEORGE J. FOY, Ltd., TORONTO DISTRIBUTORS.

FIFTH RACE—Mary Lou, Kilandan, Disparity.

SIXTH RACE—Mark B. Eubanks, Winning Wish, Rash.

RHEUMATISM KEPT HALF-MILER AT DORVAL LAKES LAST, LONG ODDS

Suffered Tortures Until "Fruit-a-tives" Cured Him

McMillan's Corner, Ont., Sept. 30th, 1910.

"Your remedy, 'Fruit-a-tives' is a perfect panacea for Rheumatism. For years I suffered distressing pain from Sciatica or Sciatic Rheumatism, being laid up several times a year for days at a time. I went to different doctors who told me there was no use doing anything—it would pass away. They gave me mustard plasters and other remedies that did me no good. Plasters bring no effect on me—except to blister me and make raw spots. I took many advertised remedies without benefit, but finally, about two years ago, I got 'Fruit-a-tives' and they cured me.

Since then, I take 'Fruit-a-tives' occasionally and keep free of pain. I am satisfied 'Fruit-a-tives' cured me of Rheumatism and they will cure anyone who takes them regularly. If this letter would be of value to you, please publish it." JOHN B. McDONALD.

Indeed, this letter is of value to us and to the thousands of sufferers from Rheumatism, Sciatica, Lumbago and Neuralgia. It points the way to a certain cure. 50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-tives, Limited, Ottawa, Ont.

LACROSSE AT COAST PRACTICALLY DEAD

Supporters of Pro Game Have Lost Interest in the Far West.

NEW WESTMINSTER, Sept. 16.—With the Minto Cup games between the V.A.C. of Vancouver and the Salmon Belles, world's champions, only two weeks away, the fact is just beginning to dawn upon the lacrosse fans of the coast that unless almost superhuman efforts are made during the winter and spring months, Canada's national summer game will soon be a thing of the past as far as professional sport is concerned.

When the champions of the world fall for the winter, the lacrosse fans of the coast are left with the Minto Cup, the only professional sport in the province. The fact is just beginning to dawn upon the lacrosse fans of the coast that unless almost superhuman efforts are made during the winter and spring months, Canada's national summer game will soon be a thing of the past as far as professional sport is concerned.

HAS TO DISGORGE

Sixty Thousand in C. P. R. Stock is Only Held in Trust.

LONDON, Sept.—King George is still busy settling up various outstanding items on his father's account. A number of persons are evidently trying to exploit the proverbial kindness of the late King Edward VII. The most recent instance of his concern is the Canadian Pacific stock, which was sold to King George's estate by the late King Edward VII. The most recent instance of his concern is the Canadian Pacific stock, which was sold to King George's estate by the late King Edward VII.

URBAN INCREASE REAL PHENOMENON

It Has Been the Outstanding Feature of Past Generation.

What is really happening is an extraordinary upsurge and growth of cities. We had 1884 cities in 1900. In 1910 there had become 2490, and these inhabitants had increased from 31,500,000 to 42,500,000, a gain of 35 per cent. If we look back 26 years instead of 10 we shall see 192 cities become 2490, and a population of 14,772,488 grow to 42,523,352. This is the rural population is growing fairly well, says Black Jefferson in The September Atlantic, but cities are growing by leaps and bounds. Not an atom from the country but the development of the cities has been the phenomenon of the generation.

A TRIP TO PANAMA

THE WORLD wants every one of its readers to take a trip to the GREAT PANAMA CANAL and see the wonders of this mighty achievement. You say you can't spare the time. All right, then we'll bring the Canal TO YOU—all in one BIG volume, filled to the full with PICTURES of ACTUAL SCENES never before published, described in words that hold you spellbound. Read on, and learn how you may get this magnificent book—this complete story of Panama in picture and prose—

FOR \$1.18 ONLY

Not merely a picture book, but an educational work of rare interest to every member of the home.

Art plates reproduced from water-color studies abound throughout the entire magnificent volume.

Every progressive man, woman and child is eager to know all about the Panama Canal and the remarkable country through which it passes. Realizing this fact, several hundred newspapers have arranged to take an enormous advance edition of the most elaborate and complete illustrated history of PANAMA AND THE CANAL, published by the Syndicate Publishing Company of New York, Toronto and London.

THE WORLD is the one paper in Ontario through which PANAMA AND THE CANAL IN PICTURE AND PROSE can be had. The plan outlined below tells you how to get this only complete Panama Book ALMOST FREE.

The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader. The illustrations are modern works of art, covering every important scene in the Canal Zone; they include 15 water-color plates with more than 600 photographic studies.

Presentation By THE TORONTO WORLD

Willis J. Abbot, the versatile writer on International subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than \$400,000,000. It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it! Truly it is the wonder of this progressive age!

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially-made paper.

Our Special staff photographers made the hundreds of beautiful views with which practically every page of this exhaustive book is illustrated.

Panama and the Canal in Picture and Prose

The Most Unusual Canal Scenes Described in Word Pictures That Fill You With Astonishment at the Wonders of This Great Undertaking.

Learn How You Can Get This Beautiful Volume Almost Free

Compared to other similar standard books, it is Fully Worth \$4.00

The greatly reduced illustration printed below shows less than half the size of the large illustrated volume.

It tells you of the people of Panama and the Zone—their dress, their homes, their work and pastimes.

and will be sold at that price after the present edition has been distributed. This unheard-of value to our readers represents more than a 70 per cent. saving.

Greatly Reduced Illustration of the \$4 Volume—Exact Size 9x12 Inches.

HOW TO GET IT
In The Toronto Morning World is printed daily a Panama Certificate. To get Panama and the Canal in Picture and Prose at less than the usual cost of printing and binding, clip and present

Clip Panama Certificate from The Daily World

6 Panama Certificates of Consecutive Dates

Distributed from The World Office, 40 Richmond St. West, Toronto, or at the Branch office, 15 Main St. East, Hamilton

NEW SCHEME FOR CLEARING WRECKAGE

Oxy-Acetylene Torch Cuts Twisted Steel Girders With Great Facility.

Indianapolis has recently been engaged in removing with fire the wreckage caused by flood waters, states the Scientific American. Two bridges which crossed White River and Fall Creek, respectively, were badly damaged during the recent flood. Both bridges were of stone and concrete with a framework of heavy steel girders, and when they went down these supports were reduced to a mass of twisted junk, but without all efforts to remove them. Finally the city engineer solved the problem of cutting away the steel wreckage by calling upon a company of that city that makes a well-known automobile acetylene lighting system.

CONVICTS EAGER TO BE BAPTIZED

But Some of Wardens Doubt if Conversion is Permanent.

LANSING, Kan., Sept. 15.—While scores of their fellows stood about witnessing the ceremony, twenty-three convicts at the state prison here were baptized in the prison laundry. Thirteen of the convicts were women. Chaplain Harmon has been holding special revival services in the prison chapel on Sundays. Attendance was not compulsory. The prisoners were baptized by sprinkling. The following Sunday a tank in the laundry was selected and the convicts were immersed. Chaplain Harmon has the support of Warden J. D. Boklin, himself a minister, who took an active part in the services. Warden Boklin is from a prominent family in Kansas. His home is at Winfield. Chaplain Allen is from Crawford County. Both the Warden and the chaplain are Methodists, and Warden Boklin is quite enthusiastic about the work. He said: "I have had forty years' experience in this kind of work and I have great confidence in the character of the evangelical work being done in the prison. There is no reason why sinners within prison walls should not be converted the same as sinners without."

LETTERS IN A MELON

Missouri Farmer Gets the Initialed Eggs One Better.

ALBANY, Mo., Sept. 15.—A farmer's wife in Harrison County, some time ago, found eggs in her barnyard which bore certain letters and inscriptions, but it has remained for Henry County to produce watermelons with letters of the alphabet inscribed upon their rinds.

SHARP CRITICISM FOR SAM GOMPERS

English Labor Leader at Chicago Convention Calls Him Reactionary.

CHICAGO, Sept. 16.—(Can. Press.)—Fifty delegates declaring they represented a vast army of unskilled workmen attended the opening of the annual convention of the Industrial Workers of the World here yesterday. The delegates listened to Tom Mann, English labor leader, criticize Samuel Gompers, president of the American Federation of Labor. "Gompers is a pure reactionary," he said, "and has got far away from a sympathetic understanding with the needs of the great army of borne down unskilled laborers. He virtually is at the head of the American Labor Trust. Instead of welcoming into its membership all who need the benefits of organization the 'Labor Trust' draws a sharp line, excluding the unskilled. If the aims of any right movement for the ultimate emancipation of the workingman are to be considered all workers, skilled and unskilled, must be welcomed."

CYNTHIA "Y"

The Cynthia "Y" held a corn roast at Ward's Island on Saturday last, as a reunion of members after the holiday. Over forty "Y's" and their friends were present and gathered around an extra large bonfire, had a glorious time. Corn, sausage, yellow, country corn—headed the list. "Hot dogs" with mustard to taste came next and roasted marshmallows made a grand finale. The fire died out about 8 o'clock and the "Y's" started home, ready for the new season's work.

Former N. Y. Journalist Walking With Six-Legged Calf

ATLANTA, Ga., Sept. 16.—E. J. Seymour, formerly political writer in New York, walked into Atlanta, bringing with him from his home in Hastings, Fla., a six-legged calf. With the calf he was bound for California. Mr. Seymour is exhibiting the animal freak at one point after another, shipping his exhibition tent ahead of him by rail and walking thru the country with the calf to overtake it. "I am going to reach California in time for the exposition out there," said he. He added that the calf is a yearling now, and that the animal perhaps will be full grown and well exercised in all six of its legs when he gets to the coast. Seymour gave a free exhibition of the animal within the federal prison Saturday, the prisoner suspending a bull game to give him and his freak a thorough looking over. Seymour boasts that the calf has, in addition to six legs, four shoulders and a double backbone.

COLT TOSSES BABY

MUNDEN, Kan., Sept. 16.—Robt, the 2-year-old son of Mr. and Mrs. Charles Stephens of Munden, was the victim of a peculiar experience in which he narrowly escaped death. The child was playing in the yard and noticed by the parents, wandered to the pasture in which were a number of horses among them being a two-year-old colt. The animal had been in the habit of picking up mice or anything it could get hold of with its teeth and tossing them in the air. This he was discovered doing with the little boy. The parents, sitting in the yard, were startled by Vera, Darby, a neighbor, who, in driving past, saw the child's predicament and at once went to the little one's rescue. Altho picked up by the bare feet, the child suffered no broken bones and while badly bruised will recover.

THE NEW RYRIE BUILDING

This handsome building at the corner of Yonge and Shuter streets is nearing completion, and soon will be occupied.

SALE OF LOTS AT PRINCE GEORGE

BRITISH COLUMBIA

SITUATED at the confluence of the Fraser and Nechaco Rivers in Central British Columbia, 450 miles north-east of Vancouver, B.C., and 467 miles east of Prince Rupert, B.C., or midway between Prince Rupert and Edmonton, Alta., on the main line of the Grand Trunk Pacific Railway.

By reason of its central location, Prince George will be the natural distributing point for the extensive territory comprised in the Pacific Province of the Dominion, and it has therefore long been the expectation of the general public that upon the completion of the Grand Trunk Pacific Railway, Prince George will early become a large and important centre.

Having purchased what was known as the Fort George Indian Reserve No. 1 for the purpose of locating a townsite thereon, the Grand Trunk Pacific Development Company Limited has caused the same to be surveyed and platted and will offer lots in this townsite for sale by public auction at Vancouver, British Columbia, Wednesday September 17th, 1913, and at Edmonton, Alberta, Wednesday, September 24th, 1913.

EXPORT SALES OF MANITOBA WHEAT

Reported Heavy Demand Gives Impetus to Prices at Chicago.

CHICAGO, Sept. 16.—Big export sales of Manitoba wheat at the board port back to today into the market here. Closing prices were firm at 1-1/2 to 1-3/4 over last night.

Flurry in Corn. In corn, as in wheat, there was a bullish flurry after midday. The Iowa State report indicated that the yield would be lighter than expected.

Northwest Receipts. Receipts of wheat in car lots at the northwest primary ports, with comparative figures for the week.

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of grain, 24 loads of hay.

FARM PRODUCE, WHOLESAL. Hay, No. 1, car lots, \$13.00 to \$13.25.

HIDES AND SKINS. Prices revised daily by E. T. Carter & Co. of 45, King street west.

TORONTO SUGAR MARKET. Sugar are quoted in Toronto, in bags, net cwt., as follows:

GRAIN AND PRODUCE. Local grain dealers' quotations are as follows:

AGREEMENT SIGNED FOR HUMBER SHEME. Home Smith's Name Affixed to Papers Giving Possession of Land.

AMERICAN WHEAT COMMISSION. NORTH PORTLAND, N. D., Sept. 16.—(City Press.)—Peter Lyall, who farms eight miles east of here, shipped over the new G. T. P. Boundary-Regina flour.

GUESSED WEIGHT OF BIG CATTLE

George C. Rowntree Had It Exactly, and Many Others Were Close.

The result of the competition for estimating the weight of the four big cattle exhibited by Messrs. Murray, Patchett & Tappart in connection with the Canadian National Exhibition, has come to hand.

The cattle were weighed in the presence of Messrs. J. H. Ashcroft, manager of the exhibition, and William, live stock reporter, Toronto World.

Flurry in Corn. In corn, as in wheat, there was a bullish flurry after midday. The Iowa State report indicated that the yield would be lighter than expected.

Northwest Receipts. Receipts of wheat in car lots at the northwest primary ports, with comparative figures for the week.

ST. LAWRENCE MARKET. Receipts of farm produce were 600 bushels of grain, 24 loads of hay.

FARM PRODUCE, WHOLESAL. Hay, No. 1, car lots, \$13.00 to \$13.25.

HIDES AND SKINS. Prices revised daily by E. T. Carter & Co. of 45, King street west.

AMERICAN WHEAT COMMISSION. NORTH PORTLAND, N. D., Sept. 16.—(City Press.)—Peter Lyall, who farms eight miles east of here, shipped over the new G. T. P. Boundary-Regina flour.

RECORD BREAKING RECEIPTS OF CATTLE

Choice Butchers Firmer—Lambs, Sheep and Calves Steady—Hogs Lower.

Receipts of live stock at the Union Yards were the largest on record of any market in the Dominion. At 4 p.m. there had been 242 cars received, comprising 7000 cattle, 2961 hogs, 2783 sheep and lambs, 57 calves and 409 horses.

Prices for good to choice butchers' cattle were firmer, but the common and medium grades were lower. The market for sheep and lambs was steady, while rough grades of light stock were in sympathy with the buffalo market.

Export, lambs and calves held about steady, but sheep were stronger. Choice butchers' steers sold at \$4.60 to \$5.20; good to choice, \$4.25 to \$4.75; medium, \$3.75 to \$4.25; inferior, \$3.25 to \$3.75.

Representative Sales. Charles Zander & Son, 2000 yearling steers at \$4.50; 9 yearling steers, choice, at \$4.40; loads of yearling heifers at \$4.25 to \$4.50.
