VOL. XXXI—No. 11,275

## ENQUIRY INTO THE FRUIT GROWING INDUSTRY

### Investigation Will Secure Reliable Data as to Extent of Land Adapted to Fruit in Various Provinces and Varieties Found Most Profitable.

**OTTAWA, July 5.**—The minister of agriculture has authorized a special enquiry to be made into the fruit growing industry of Canada under the direction of J. A. Rudzick, dairy and cold storage commissioner. The well-known fruit grower, W. H. Bunting of St. Catharines, Ont., has been engaged to conduct the enquiry. The officers of the fruit division will collaborate with Mr. Bunting in the work, as far as their other duties will permit them to do so. He was assisted also by local officials of the different provinces and districts.

The report, which should be a very valuable one, will be available at a Dominion conference of fruit growers, that is to be held at Ottawa some time next winter. The investigation will be conducted with a view of securing some reliable data respecting the area and extent of land adapted to fruit growing in the various provinces, varieties of fruits which have been found to be most profitable and successful in the several provinces or sub-divisions of the same, general trend of the industry towards concentration in certain areas, and the possibility of standard varieties; difficulties which are likely to be encountered; methods of production; facilities for distribution and marketing; and possibilities of exportation, etc.

### ATTEMPTED TO RAISE REVOLT

Great Fight Between Seamen in Barracks at Lisbon and Populace—City in State of Panic.

**LONDON, July 5.**—Despatches received by a London news agency today from Lisbon say that a great fight has taken place between the seamen and the populace quartered in barracks in the city. The seamen, incited by monarchist agitators, attempted to raise an armed revolt. Revolvers and knives were used with deadly effect. The government called out available troops, both cavalry and infantry, and after severe fighting managed to quell the revolt and restore order.

The city is in a state of panic, according to these despatches, and elaborate precautions are being taken by the authorities to suppress any further revolutionary movement. The government is informed that the leader of the monarchists has recently received funds in the shape of a remittance of \$40,000 from Brazil.

A strict censorship has been established at Lisbon, and no messages are allowed to pass except those approved by the government. The correspondent sent the foregoing to Madrid, Spain, to avoid the censorship.

### LINEMAN ELECTROCUTED.

**ST. MARY'S, Ont., July 5.**—Andrew Lee, an employee of the W. L. and H. Commission, while up a pole on the street just before the electrical storm struck in the afternoon, grabbed a live wire, which snaked around his head, and he fell to the ground dead.

### Maxville Burning

**OTTAWA, July 5.**—The Grand Trunk Railway Montreal train has been held up all night at Maxville, where the town and station is reported burned. Telegraph linemen have gone to assist in getting news. Ottawa has sent fire engines, ladders, men and 2000 feet of hose by special train by request of Maxville, and should arrive there after midnight. The town was reported to be burning.

JAMES BAIRD.

James Baird, county crown attorney, who passed away yesterday, was respected by all, beloved by those within familiar touch.

### THE OUTLOOK STILL BIG.

From a local Ontario point of view the heat wave has been hard on crops. Hay is short, the stalks thin and far apart. Oats and barley in places have failed. Fall wheat has been shriveled here and there. Market gardeners and small fruit farmers have had poor yields. The main grain crop has already fallen many points below normal and some of the things, others are past redemption or the season is over. But even then we imagine Ontario will have a fair crop. She never has less than a fair crop. We will have a better line on the Ontario crop situation a week hence.

But from the west the news is most assuring. There is every prospect of a two hundred million bushel yield of wheat alone.

All the great staples in the United States promise a big crop this year. Things today look big crops in America, and a big year in business—especially in Canada.

### TORONTO LIVE STOCK CENTRE.

The Toronto stock yards are now the centre of the live stock and dead meat trade of Canada. The Chicago houses buy regularly on the Toronto market. So do Winnipeg firms. Toronto ships dead meat all over Ontario and to all the provinces to the east. We handle most of the export cattle for Great Britain. The business has developed to such an extent that instead of four market days a week there will henceforth be a market every day, and big business each day.

### THE RAIN AN UPLIFT.

The rain of yesterday was most grateful to the parched earth and sweetening mortals.

The phenomenal hot spell had about tied up business and factory production.

### SHOULD EXTEND TERAULAY-ST.

That the congestion of traffic on Yonge-street creates grave danger, which the extension of Teraulay-street thru to Davenport-road is needed to relieve, is the opinion of Dr. J. M. Johnston, 35 Elm-street.

The fact was impressed upon his mind yesterday afternoon by two accidents. Thomas Graham, 50 years, 508 Parliament-st. was struck by a college car 132 at Gould and Yonge-streets at 3.30 yesterday afternoon. His head was cut and after being treated by Dr. Johnston, he was removed to St. Michael's Hospital in the police ambulance.

Just half an hour previously in the same vicinity a boy was struck by a vehicle, but was able to go home.

### BELSHAW WASN'T STARVED.

Evidence given by Coroner A. J. Johnson yesterday at the opening of the inquest on William Belshaw, the painter, who was killed by a fall from a building in the exhibition grounds on June 24, set at rest the report that the man had died from starvation. Dr. Johnston stated that the intrustee showed a meal to have been eaten within four hours of his death. Adjudgment was made until July 2 at 2.30 p.m.

### SEVERAL PROSTRATIONS IN GALT.

**GALT, Ont., July 5.**—To-day was the hottest day in the history of Galt. The mercury this morning at eight o'clock registered 82 and at twelve o'clock was a little higher. Several prostrations have occurred. The majority of the moulting shops are again closed. Street sprinkling was ceased to-day. At the market this morning there were only a few farmers and they reported that the crop of vegetables and the crops were drying up.

### DOCKERS AGAIN ON STRIKE.

**GLASGOW, July 5.**—The dockers have again gone on strike, and the shipowners declare that the men cannot be depended upon to adhere to the agreements made by their leaders. The owners threaten to lay up the ships unless matters improve.

## Didn't See Census Man

**MONTREAL, July 5.**—That the Parish of St. Alphonse d'Youville did not see a census man during the recent enumeration is the statement of prominent citizens residing there, who also declare that this statement applies to Villiers, which is bounded by St. Hubert and St. Leung Park, up to the Canadian Pacific Railway line. The total area affected comprises 135 families, 110 of whom are French-Canadian and Catholics, and the population is estimated at 350.

Father Simard of the Redemptorist Order, parish priest, said to a reporter this morning:

"It is true that we have not seen a census man, and I fall to explain this discrimination, the result of which will be that the increase in our French-Canadian citizenship will be shown. I am led to think that these tactics are intended to force us to reduce what some people call our pretensions and what we call our rights."

Albert Gingras was the enumerator for Maisonneuve, and W. F. Gingras for Jacques Cartier, but both assert that the Parish of St. Alphonse d'Youville was not on their lists.

## GERMANY SEEKING USEFUL SETTLEMENT

### Say German Newspapers Regarding the Sending of a Warship to Morocco.

**BERLIN, July 5.**—The final object of the step taken by Germany in sending a warship to Agadir, Morocco, according to The Cologne Gazette, is an honorable admission of settlement of the Moroccan question.

This is the note struck by other responsible organs which are now most anxious to discredit any idea of territorial acquisition. They say that Germany has been trying in vain to come to an understanding regarding Morocco, but the French government has evaded the issue since the advent of the now retired Premier Monis and the launching of the French expedition to Fez, and that a demonstration was necessary to make the Frenchmen talk business. Baron von Kidderley-Wechters, the German secretary of state for foreign affairs, has returned to Berlin, which indicates that an answer from France is soon expected.

In conclusion The Cologne Gazette makes reference to Theophile Delcasse, whose resignation as French minister of foreign affairs in the Rouvier cabinet was due to the delicate Moroccan situation in 1909, and against whose supposed influence in the present controversy certain German newspapers are conducting a campaign. The Gazette says that at the closing days of Delcasse's occupancy of the foreign office were hostile to Germany. "We have no reasons for regret if a person with a real personality like that of M. Delcasse should become French minister of foreign affairs."

## EXIT BROADWAY TABERNACLE

**Methodist Book Room Will Pay \$200,000 for Property.**

Broadway Tabernacle, at the northeast corner of College-street and Spadina-avenue, will disappear as a place of worship and give way to the Methodist Book Room.

A meeting of the board of trustees was held on Tuesday night, at which the subject was discussed. The offer, which is in the neighborhood of \$200,000, was considered too good to reject. The property has a frontage on Spadina-avenue of 116 feet and is valued at \$98,000.

A new church will be built out of the proceeds of the sale, but as yet no plan has been decided upon.

## OXFORD GRAFT REPORT

**Finds Adversely Against Youngs, Buchanan and Mills.**

**WOODSTOCK, July 5.**—Judge Saunders' report on his investigation of the charges of graft in Oxford County was given to the county council this morning. The report on the closing days was not already submitted. He approved of the charges against the three county officers, Toull, McIntosh and Burkh, who were said to have paid to get their positions. There was no evidence to substantiate these charges. He found adversely against John Youngs, M. T. Buchanan, Jas. G. Mills, deceased.

In regard to the insinuation against S. M. Fleet that he was not handling correctly the grant for the road in the Town of Ingersoll, he reported that the audit showed that all money had been properly spent, but administered a severe castigation to Fleet, and to the town and county councils for the loose manner in which the funds had been handled.

## MACK WAS LAYING IT ON A BIT TOO THICK

### 103 Degrees in the Shade Didn't Daunt His Desire for Double-Decked Nether Decoration—Haled Panting Before Bewildered Magistrate.

**CHATHAM, Ont., July 5.**—(Special.)—James Macdonald was down and out. He was not quite out of trousers, but those which covered, but could not be said to be either adorn or decorate his person, were the last legs, like their owner. James therefore annexed the nether garments of Fred Runnells, which contained several coins of the realm.

The alarm was given and the local pussy-foots opened up a gumshoe hunt for the missing pants and contents. It was a hot day. Thermometers with long standing reputations for veracity spoke of 103 degrees, and one of the wily sleuths, spied Macdonald, who seemed to be powerful hot up. He slipped him some more and threw in a couple of piercing glances, and thus the apertures which time and a hard laid had made in Mack's trousers, he caught a fleeting glimpse of the missing garments. Mack was wearing them under his own.

Mack was haled, panting from the heat and an over dose of pants to police court, where the magistrate awaited him with a look of incredulity. Mack opened up. He was got with the goods and gave up the coins. Owing to the peculiar position occupied by Runnells' pants it was not so much that he should give them up in public.

The magistrate panted some more, bewildered pants this time. Then he declared that he had expected 70 days to be called upon to try some jolly pants in this hot weather, but a double dose of pants was beyond his understanding at the present temperature. He pondered deeply, but was obliged to remand Mack till July 12, during which time he will pant and ponder on pants.

## HAD FIGHT TO RESCUE SCOWERS

### Sudden Storm on Lake Caught Workers on Intake Pipe Unprepared—Tugs Brought Back Scows and Yawl.

The sudden gust of wind which sprang up early yesterday afternoon lashed the waters of the lake into roughness in incredibly short space of time and furnished the workers on repairing the intake with what Engineer Randall admits was more than a mere dash of healthy excitement. In fact, divers Margerson and Barnett, who were under water when the elements cut loose, were in considerable peril.

The large and small derrick scows were working at the time. The latter was anchored at the ball buoy, pumping sand from the top of the buoy. Margerson had just descended when the storm broke. He was quickly hoisted up before the scow could break away from anchor.

The large scow was anchored alongside the north end of the south break in the pipe, putting up a slight pole for surveyors' markers was down in the water, and when the storm started he tried to ascend the ladder it broke and it took the best exertions of five men to draw him aboard.

Two scows swung aside, and Capt. Goodwin's tug was commissioned to round them up, and did so with half a mile out from the eastern end.

Just before the trouble began, one of the men started out in a yawl and started to beat it out into the lake. Another man started after him, in a punt and reached the yard. The two were rescued about half a mile out by D. C. Fellows in charge of a life launch.

During the squall the police patrol boat, in charge of Policeman Chisholm, came upon a 20-foot sailing boat, in trouble half a mile off the pier. There was a man and woman aboard, but neither seemed to know much about the handling of the boat. They were towed to safety at the York-street slip before the vessels for their expense. They refused to give their names.

## TWO MORE SUCCUMB TO HEAT IN TORONTO

**John Chisholm, Retired Farmer, and William Patterson, Passed Away Suddenly.**

One death in Toronto yesterday was directly attributed to the heat, while in another instance the sufferer hastened the end.

John Chisholm, aged 70, of 135 Ryerdale-avenue, was seized with faintness yesterday morning about 8 o'clock after he had breakfasted. He lay down on a couch and expired almost immediately. Mr. Chisholm was a retired farmer, having come from near Agincourt to make his home in Ryerdale not long ago.

The heat hastened the death of William Patterson, printer, 61 years old, who had been ill at the residence of his sister, Mrs. George Owen, since a session was held on the evening of July 4. It was thought that he would recover, but the heat told on him, and he passed away suddenly at a late hour yesterday night.

## PROHIBIT IMPORTS

### English Swine and Cattle Have Foot and Mouth Disease.

**OTTAWA, July 5.**—(Special.)—Following the receipt of a cable to-day from the high commissioner in London, announcing that the deadly foot and mouth disease had broken out at Hounslow, Middlesex, England, affecting swine and cattle, an order in council has been passed prohibiting imports and cancelling import permits for sheep, cattle and swine, except such as are already embarked for Canada. Steamship companies have been notified of the order, which holds good till the disease is eradicated. Horses are not affected.

## BOY STOLE WHISKEY

**William Hopkins, 143 Dufferin-st., is sixteen years of age. William was caught by Detective Young yesterday while extracting a case of whiskey from the warehouse of the Canadian Inland Navigation Company at the foot of Bay-street.**

## BANKING ON SIR FRED.

**Appointment of Minister of Militia to London Declared Certain.**

**OTTAWA, July 5.**—That Sir Frederick Borden will be Canada's new high commissioner in London is declared here to be a settled thing.

"I am banking on Sir Frederick getting it," said a prominent Liberal member to-day.

The appointment of the minister of militia to succeed Lord Strathcona will mean that E. M. MacDonald of Fleet-street will be promoted to portfolio. Other cabinet changes may be made in the same shuffle. Sir Frederick Borden's departure from office has been long the subject of speculation, and he is thought by many to be a suitable man for the high commissionership. He is well liked in England.

## POWDER WORKS EXPLODED.

**HOLLIDAYSBURG, Pa., July 5.**—Intense heat, it is believed, produced an explosion at the Standard Powder Works at Holliday Station, on the Pennsylvania branch of the Pennsylvania R.R. to-day, resulting in the death of four employees and the complete destruction of the works.

**Wrestling Final.**  
**LONDON, July 5.**—(C. A. P.)—In the final of the section wrestling championship, Bacon of United Empire won from Walker.

## YAWL CROSSING ATLANTIC.

**HORTA, Azores, July 5.**—The 20-foot auxiliary yawl Seabird, in which Capt. Thomas F. Day of New York and T. P. Goodwin and F. E. Thurber of Providence, R. I., will attempt to cross the Atlantic, sailed for Gibraltar at daybreak to-day.

The captain expects to make the passage in eight days. He and his companions reported all well as they set sail. The Seabird sailed from Providence on June 19 and arrived here July 1.

## SLEW HER CHILD THEN SUICIDED

### Both Bodies Found Near Beamsville Reservoir—Desperate Deed of Hired Girl of Twenty Years.

**BEAMSVILLE, July 5.**—(Special.)—With the finding of the body of the three-year-old infant of Edna Comfort in the village reservoir to-day, murder was disclosed and by 10 o'clock to-night it was known that the crime had been explained by the girl, when her body was also found in the same place.

The woman was a hired girl of 20 years, who worked about with different farmers in the locality. On Monday she was employed picking berries on the farm of E. W. Tiffin, close to the reservoir. She had her child with her at this time, and after having her supper, took it to return to her home with her mother and brother. She never arrived there, but as she often stayed at the houses of those by whom she was employed, no great alarm was felt.

The body was discovered by Isiah Purford, a farmer, who saw it floating in the reservoir. When it became known that the Comfort woman's child had been found in the water, news was disclosed of her disappearance and a party set to work to drag her body.

Coroner Alexander of Grimby opened an inquest in the town hall to-night, which was adjourned until Tuesday next, after the child's remains had been identified by the grandmother, who appeared unwept under the trying ordeal. He will open an inquest into the death of the mother tomorrow morning, when post-mortems will be performed on both bodies, which now lie in the morgue of Undertaker J. W. Buck.

The reservoir in which the bodies were found is a mile south of the village and the girl lived on her brother's farm, a mile south of this. No motive is known for her terrible act. She was a cheerful disposition, had a bank account and had no trouble in finding employment.

## BLOWN 50 FEET THRU THE AIR WITH BOAT

### Storm Does \$3000. Damage at Long Branch—Two Children Blown 75 Feet.

**LONG BRANCH, July 5.**—(Special.)—Trees were uprooted, a pavilion demolished, the wharf badly damaged in to-day's storm, which damaged property to the extent of \$3000 in all. The electric light wires were dismantled but were temporarily repaired to-night.

So strong was the wind when the storm struck at two o'clock this afternoon that Harry Macdonald, a house keeper on the lake shore, who was putting away a rowboat, was carried 50 feet with it thru the air. Fortunately he struck in a pile of brush and beyond a few scratches was unhurt.

Two little children attending the Salvation Army picnic were under a wooden canopy with slats roof at the shore end of the dock. The girl was blown 75 feet along the shore, bringing up against a dished. She was only slightly hurt. The boy was buried under the roof of the canopy, which was completely wrecked, but crawled out of the debris uninjured.

## BADLY BURNED IN EXPLOSION.

**Frederick Stager, a medical student, 24 years of age, living at 984 Bath-street, was severely injured in a drug store by an explosion of drugs yesterday afternoon. He was terribly scorched about the neck. He was removed to the Western Hospital, where his condition is regarded as critical.**

## CITY COUNCIL PROGRAM.

Some important items will find a place on the order paper for to-day's session of city council, which is likely to be a protracted one. The aldermen will have to consider:

Judge Winchester's report and the reorganization of the works department;

The Humber boulevard scheme;

By-laws relating to handling of food and milk;

The question of commencing immediate construction work on the civic car lines;

The vexed King and Yonge expropriation scheme.

## SMALL DEFICIT FOR SLOCUM CO.

### Assets, Reckoned at Nearly \$300,000, Include \$100,000 for Goodwill, and \$113,000 for Advertising.

With a nominal deficit of \$1,868.77 the creditors of the T. A. Slocum Chemical Company, which went into liquidation shortly after the "Love inquiry," voted the Trusts and Guarantee Company permanent liquidator at a meeting held in Referee Kappel's office yesterday. About twenty-five persons attended representing various interests.

The action of the interim liquidator in keeping the concern going and preventing depletion of the assets was confirmed. There was some discussion over the management of the company. It was decided to offer the assets for sale by tender, meanwhile the business will be kept alive by the liquidator. L. S. Levee, former president, is being employed by the liquidator in connection with laboratory work at \$50 per week. The company does a large agency business, and those who have investigated the accounts express the opinion that a profit can be shown for this source in any event.

A board of inspectors was appointed yesterday to confer with the liquidator of the names of whom are: James Watt, of Northrup Luman & Co.; Douglas Murray, Murray Printing Company; and H. M. Ludwig, K.C.

The statement is as follows:

ASSETS.	
Unpaid stock subscriptions.	\$500.00
Bills receivable.	829.00
Trade accounts receivable.	52.00
Machinery.	4610.00
Office furniture.	3854.00
Office supplies.	230.00
Printing plant.	255.00
Real estate.	32,423.00
Accounts receivable.	20,730.00
Inventory, June 6, 1911.	\$15,483.97
Good-will.	100,000.00
Advertising, '08, '09, '10, '11.	112,988.00
	\$228,268.01
	1858.77
Nominal deficit.	\$230,126.78

LIABILITIES.	
To the Public.	\$18,205.00
Sundry accounts payable.	36,583.00
Taxes.	468.00
Wages unpaid.	400.00
Real estate outstanding charges including.	2564.00
	77,688.73
To the Shareholders.	500.00
Preferee's stock.	512,700.00
Common stock.	50,000.00
	\$222,700.00

Real Deficit Underestimated. No comment was made at the meeting on the figures contained in the financial statement, nor can it be said what the actual deficiency will amount to, but at least of sale if any, is determined and all its claims are in, July 10 has been fixed as the last date for the filing of claims, and it is expected that three or four months will be required to realize upon the balance of the subscribed stock. In addition, the item of \$100,000 appears in the financial statement. This is an arbitrary figure, and it is a moot point whether the purchaser of the assets will consider the good-will worth this sum. Associated with good-will is the item of \$112,988 for advertising extending over a period of years. This money has been spent, and the promoters are at liberty to claim that the entire amount spent can be reckoned as an asset in addition to good-will.

"It appears to me," said a gentleman who attended the meeting yesterday, "that the future of the company was due to over-advertising."

## FELL 30 FEET, BABY UNHURT

### Nine Months Old Harold Preston Had Remarkable Escape.

**Harold Leslie Preston, the 9 months old son of Mr. and Mrs. Harold Preston, 225 Bain-avenue, fell out of a three-story window, a distance of 30 feet above the ground, on Tuesday afternoon, and the only injury received was a slight abrasion on his left leg and a small bump on his head.**

In falling, the little lad struck a clothes line suspended across the garden, and the impact ripped the scantling from the fence, to which the line was attached.

Dr. Chapin of 232 Bain-avenue was called and after a thorough examination declared no bones were broken and there were no internal injuries. Outside of a little shaking up the boy was practically unharmed, which is considered most remarkable.

The mother had placed the child on a bed drawn near to the window for air and had just turned away for a moment, when he evidently drew himself up to the sill and fell over.

## SIR WILLIAM HOME TO DAY

Sir William Mackenzie will arrive in Toronto this morning, on his return from the coronation.

## LOOK FOR THE TWELFTH.

The "Glorious Twelfth" will be here in a few days. It's a great occasion for the display of silk hats. The Dinsen Company, the oldest hat makers in Toronto, have imported a line of splendid English silks, which were manufactured especially for the day. These silk hats are priced from four dollars upwards with Heath hats as a specialty. Heath makes hats for His Majesty the King, and Dinsen is his sole Canadian agent.

### CROWN ATTORNEY BAIRD SUCCEUMBS TO ILLNESS

Was Widely Esteemed For Sterling Personal Qualities—Appointed Two Years Ago.

James Baird, K.C., county crown attorney for the County of York, is dead. He passed away at his home at 8 Elm-avenue, in Rosedale, at four o'clock yesterday morning. He was fifty-two years of age and death followed a long and trying illness, which kept him from active exercise of his duties for several months. Mr. Baird was born in Scarborough Township May 28, 1858. He received a public school education and graduated from Toronto University. He was called to the bar in 1888, and became a member of the firm of Shilton, Allan and Baird. When this firm was dissolved, he, with A. S. Lobb, formed the partnership of Lobb and Baird. A few years later he formed the firm of Baird and Mackenzie, and when appointed county crown attorney in 1908, the same year in which he was made a K.C., he took into the firm Louis T. Monahan, the partner of H. Drayton, K.C., whom he succeeded and who has carried on the bulk of the crown attorney work during Mr. Baird's illness. He leaves a widow, two sons and two daughters. The eldest son, J. McLean Baird, is a student-at-law. The younger boy is still in college. Mr. Baird had suffered from Bright's disease for a number of years and it was this that finally caused his death. At the close of last year he relinquished his more arduous duties, but he still kept a supervising eye on the office, but in February he made a trip to Havana, Cuba, in an effort to regain his health. When he returned a month later he knew that he had failed. This did not abate his natural cheerfulness and when seen since then, which was to his friends grievously seldom, he was as bright and cheery, even as jovial as before. Had Many Warm Friends. Even when confined to his house and almost to his bed, James Baird found time to think and act for others in gentle acts of forbearance and kindness. More than one will remember with gratitude the man who, from a sick bed, interposed a gentle hand to protect one upon whom the hand of the law might otherwise have fallen too heavily. The late crown attorney was a man of a wide social circle. He had many friends and by all of these he was much esteemed and is deeply regretted. He was a member of the Granite Club and an enthusiast bowler. He was also a member of the York and Albany Clubs. Also he was past grand master of Stephenson Lodge F. & A. M., which will conduct the funeral from the residence this afternoon. Rev. Dr. Strachan will conduct the service and interment will be at Mount Pleasant Cemetery. In all legal and club circles yesterday morning as the word of his death spread about there to be heard simple words of regret and sorrow, most of which were coupled with the recollection of some of the kindly incidents of daily life, which endeared James Baird to his professional associates and personal friends.

### TO EXCLUDE HOME RULE

House of Lords Pass Lord Lansdowne's Amendment to Veto Bill. LONDON, July 5.—The house of lords to-night by a vote of 233 to 81 passed Lord Lansdowne's amendment to exclude home rule from the operation of the veto bill. War Secretary Haldane again made it clear that the government would refuse to accept the amendment. An interesting feature of the debate was the intervention of the Bishop of Ripon, who said that he disliked the referendum, which was advocated by Lord Lansdowne, but preferred it to the veto bill.

### DOG AS A LIFE-SAVER.

NIAGARA FALLS, Ont., July 5.—Charles Weidensold and his dog today saved two Greeks from drowning in the Niagara River, a mile above the falls. Weidensold went to the river to give his dog a swim. While he was there two Greeks came along and removing their clothes waded into the water. Neither could swim. They got beyond their depth and called for help. Weidensold jumped into the water without removing his clothes and brought out one man, while his dog grabbed the other and made it possible to bring him in. Weidensold then returned to the water and brought the second ashore.

### NURSES GRADUATE

CHATHAM, Ont., July 5.—(Special.)—The graduating exercises of the nurses of the St. Joseph's Hospital were held last evening in St. Joseph's Hall. Five nurses graduated: Misses Bessie Ritchie, Bessie Gregory, Margaret Lyden, Hanna Reichmann and Marie Peck. The valedictory was read by Miss Peck. Dr. McKough and Dr. Charteris delivered addresses. Rev. Fr. James presented the medals and diplomas.

### ACCIDENTALLY SHOT.

CHATHAM, July 5.—(Special.)—The 15-year-old son of Fred King of Spenser-avenue was accidentally shot through the left thigh yesterday. He was attempting to pry out a shell from one of the chambers of a 32 calibre revolver when the shell exploded, sending the ball thru the flesh about 16 inches and out again. He is reported to be doing well.

### OLD RESIDENT DEAD.

CHATHAM, July 5.—(Special.)—The death of Luke Kelley, a very widely-known and most highly esteemed resident of Chatham, took place at his home this morning. Mr. Kelley had attained the age of 87 years and six months and had resided in Chatham since he had been employed by the Manson Campbell Co. as their traveling representative for a great many years.

**Dr. Martell's Female Pills**  
EIGHTEEN YEARS THE STANDARD  
Prescribed and recommended for women's ailments, a scientifically prepared remedy of proven merit. The result for their use is quick and permanent. For sale at all drug stores.

### INTERNATIONAL STEEL ASS'N. TO BE FORMED

Representatives of Nations Meet in Conference at Brussels—Committee to Work Out a Plan.

BRUSSELS, July 5.—The steel interests of Canada, England, the United States, France, Germany, Belgium, Italy, Austria and Spain were represented by 180 delegates who met in a conference at Brussels preliminary to the formation of an international association, broadly similar to the American Steel Institute. Judge E. H. Gary, chairman of the United States Steel Corporation, who presided, said he believed the idea to be feasible. Necessarily, it should be formed and managed, so as to avoid antagonism or interference of any kind on the part of the national associations, and so as to secure the approval of public sentiment. Baron Von Bodenhausen of the Krupp works, speaking for the German group, warmly supported the idea, and one by one the members representing all the nations and groups fully accepted the project. M. Kestranek of Austria, M. Dier for France, Sir Hugh Bell and Sir John Randle for Great Britain, M. Grouner for Belgium, Count Zubiria of Spain, M. Witmer of Russia and M. Armington of Hungary, T. J. Drummond of Canada, J. A. Farrell, C. M. Schwab, Willis L. King and E. A. S. Clarke of the United States. The conference adopted a resolution accepting Judge Gary's proposals, and decided to appoint a committee tomorrow to work out a definite plan.

### KEELEY MINE GOOD ASSET?

Farmers' Bank Shareholders May Realize Substantial Sum. While Liberals are preparing to take up the government's action regarding the organization of the Farmers' Bank, a story is current in the city that the Keeley Mine, in which all hope for the shareholders is sunk, may develop into something worth while. Curator Clarkson was chary about discussing the question yesterday, but the curator gave the opinion that the mine would be developed in the interests of the shareholders, and the mine would not be sold unless a large price was offered. Credence is given to this report, as it is claimed that the Wettlaufer Mine, adjoining the Keeley, has \$1,000,000 of ore piled on the ramp, and within the past few weeks a 5 per cent. dividend has been declared. William Laidlaw, K.C., states that the defence in the protest of the Kingston farmers against the imposition of the double liability has been defeated.

### ROBBED BABY CARRIAGE

Pursuit of Montrealer by Woman Ended in Arrest. The hot weather was forgotten in a wild pursuit in Spadina-avenue, at 5:30 yesterday afternoon when Thomas Keenan, a visitor from Montreal, came upon Mrs. Annie Lloyd, who was wheeling her infant child in a baby carriage. Mrs. Lloyd's chateauine jacket in the backseat, and Keenan sped it. He grabbed it and extracted \$10. Then Mrs. Lloyd gave chase, in which others joined and, at Queen-street, Keenan unwillingly ran into the arms of Policeman Scoton (427). He was taken to the Eglar-street station and charged with theft.

### NEVER FORGET THIS!

When packing for the country cottage don't forget your box of Zam-Buk and your Zam-Buk Soap! Blisters, sunburn, scratches, insect stings, etc., if not immediately attended to, are likely to spoil your pleasure. Zam-Buk assures you against trouble from these. Zam-Buk is antiseptic; kills all wire fence, or insect sting. Soothes poison wounds, whether from barbed wire, or from a dog bite, or from a baby's chafed places; cools those sunburn patches, and prevents freckles. No mother should be without it. Purely herbal in its composition, Zam-Buk is superior to the ordinary ointments containing animal oils and fats, and mineral coloring matter. All druggists have a box of Zam-Buk. Best for Baby's bath and for tender skin. 25c tablet.

### CROP OF KINDERGARTNERS

List of Successful Candidates at Normal Schools. The following candidates passed the recent examination for kindergarten directors, held at the Normal School at Ottawa and Toronto: Misses Bessie Ritchie, Bessie Gregory, Margaret Lyden, Hanna Reichmann and Marie Peck. The valedictory was read by Miss Peck. Dr. McKough and Dr. Charteris delivered addresses. Rev. Fr. James presented the medals and diplomas.

### JUST A LOCAL SHOWER MORE RAIN PROMISED

End of Torrid Spell Gradually Looming into View—May Save Fruit.

The long look-for rain has come at last. There's not very much of it yet, but every little bit helps. The temperature reached more 83 degrees mark about 12:30 p.m. yesterday, and the atmosphere was heavy and uncomfortable. At 1 p.m. the mercury slid down to 84, and then a few rumblings of thunder were heard. About 1:30 p.m. the first few drops of rain arrived, but shortly afterwards the sun broke out again, with apparently added fierceness. The humidity was more marked even than on Monday, and as a result the murky atmosphere seemed all the more stifling. Even the few scattered showers that came at intervals later in the afternoon didn't lower the heat much, but the breezes were made somewhat more refreshing. A peculiarity of the showers yesterday was the small area to which they were confined. Downtown in the city it rained pretty steadily at 3 o'clock, as it also did in the west end. In the northeast part of the city and in the Don valley the showers amounted to only a few drops. The weather bureau officials stated last night that the rain and thunderstorm which was indicated yesterday afternoon will be more general to-morrow.

### Yes, It's Gradual.

The present spell of torrid weather is now being broken, but the process is gradual. Reports from the meteorological office last night stated that there would be a general rainfall all over the heat-affected areas. There was a slight thunderstorm yesterday in the Niagara district, but it was very local, and did not extend as far as Buffalo. The electrical disturbances in the afternoon upset the hydro-electric transmission line for a little while. The affected section of wires was somewhere near Port Credit. There was a considerable drop in temperature last night, the mercury not registering over 82 degrees. The humidity of the atmosphere, however, made it very uncomfortable. About 11 p.m. a refreshing breeze sprang up, but it seemed to convey a new lease of life to the citizens of Toronto. The yellow haze in the sky just after sunset showed that there is a thunderstorm not far distant. It was with a feeling of relief that people rose yesterday morning, and that a distinct drop in temperature had occurred. At 8 o'clock the mercury stood at 80 degrees, but by nine it had jumped to 82. Then it settled back to 80 degrees at 10 o'clock, but rose steadily afterwards until the maximum figure of 85 was reached about 12:30. The continued heat appears to be playing havoc with the crops, and the farmer, many of the animals being unable yesterday to do any work at all.

### Still a Chance for Fruit.

"All we want is rain and more of it," said P. W. Hodgets, secretary of the Ontario Fruit Association yesterday. "There is still a hope for the raspberry crop if the showers continue." The United States is still suffering from a drought. Never in the country's history has the wheat area been so widespread as yesterday. It extended from South Dakota to the Atlantic coast.

### SEYMOUR COMPANY'S OFFER TO KINGSTON

Claim Better Rates Than Hydro Gives Toronto, But Claim is Not Borne Out by Figures. KINGSTON, July 5.—(Special.)—The Seymour Power Company is out with an offer to supply electric light for all homes in Kingston at a price which they claim will be cheaper than rates now in vogue in Toronto, under the electric commission. R. B. Snyder, sales agent, Belleville, is here in connection with the proposition. The offer is to charge 10 cents per kilowatt-hour, not including lights, bath rooms, basements and attics, besides three cents per kilowatt-hour for current. It is claimed that the offer will save down present bills to nearly one half.

### BACK FROM PORCUPINE

T. and N. O. Commissioners Say Fire Losses There Will Be Enormous. After a tour of inspection over the new T. and N. O. line into Porcupine, J. L. Englehart, chairman of the commission, and his fellow-commissioners arrived back in the city yesterday. Mr. Englehart states that the damage done by the recent fire is enormous, although he declined to give an estimate of the loss in figures. The amount of timber consumed by the flames was burning in all directions between the right of way and Porcupine.

### LORETTO PUPILS GOOD SHOWING.

The music department of Loretto Abbey has completed a very successful year with a number of noteworthy pupils at the recent university examinations. Loretto has completed her first year towards the degree of bachelor of music, standing first in that course. In the result of the local examinations published last week, the abbey pupils held the list in both senior and junior piano and almost all secured first-class honors in both theory and piano.

### ST. MARY'S JULY 5.—Mrs. Peter

Forayth, a widow, 84 years old, was found dead to-day at her home, where she had been sitting alone. Death was due to heart failure.

### WILD WEST SHOW WAS SEEN BY 8000 PEOPLE

"Broncho-Busters" and Other Intrepid Plainsmen and Indians Gave Crowd Thrills.

"Are they real Indians, papa?" asked a little youngster at the Young Buffalo Wild West Show last night, and papa was forced to admit that they were. Yes, and real cowboys, too. In fact, a great big slice of the wild and woolly west was transported bodily into our midst yesterday, and thousands crowded to Dufferin Park to get a glimpse of it. Few were satisfied with the glimpse, however. The large arena was lined with spectators during the afternoon performance, which went on despite the heavy thunderstorm. Fully 8000 saw the evening performance. Crowds, crowds, crowds, and more crowds from the time the advance party of the morning parade entered the grounds Toronto's youth crowded in their hundreds to see the real live cowboys. It was a pleasure to observe the eagerness with which they applauded the roping and shooting and the Indian war dance. Well, the wild whoopers of the painted braves were indistinguishable in the salvas of applause from hands and feet of thousands. Possibly the best reception was given to Annie Oakley, whose marvelous display of rifle shooting was a revelation to Torontonians.

### Not a Gentle Art.

And the broncho-busters, it is best described by one of the "busters," A. Brinistool: "Come, steady, you pinto, cut out all that jumpy. You are the wust critter that ever I see; But all of yer plungin' and buckin' an' humpin' is muscle plum wasted—you can't unseat me. You shore are a bad un—the spurrin' is a quipin'! I've handed you out in the last hour or so. Don't seem to affect you; I reckon I ain't hurtin'. Let up your tantrums—consarn you hide—whoa!" "Hi-yah! Now yer goin'! Say, boy, but that's class! Yer gruntin' an' squealin' as if you was mad! I cinched you so tight cas I knowed you was sassy! I knowed when I picked you that you was shore bad! What, goin' to cut it? I knowed you'd come to it! I knowed purty soon that you'd swallow Git in the corral thar—I knowed I could do it! You on'y mean little brute—adios!" Some Measurable Feats. Many of the displays were especially noteworthy. The great crowd held its breath as the tall, Vernon, leaping from the back of his running horse to the back of a Texas steer, grasped it by the horns, and with a terrific struggle, succeeded in throwing it. The roping of Ambrose Means met with a great deal of success. He was the only party who penetrated into the African jungles on a bloodless hunt. With his knife he roped a buffalo and succeeded in tying it to a tree. The roping of the larri on the tail of a gallant horse was a feat of the highest order. Again, stooping, he threw the rope and caught the rope's both feet in the nose, beneath the horse's belly. The dancing horses also put in a very interesting performance. Ridden by Mandie Burbank and Jules, they performed a variety of fancy dances to the music provided by one of the many bands the show carries.

**Packard MOTOR TRUCKS**

Ask the man who owns one!

Packard Motor Trucks are built entirely in the Packard shops. Thirty-nine acres floor space, 6000 men devoted exclusively to the manufacture of Packard Motor Cars and Trucks. Packard Motor Trucks are sold exclusively through Packard dealers. Packard Trucks are vitally Packard.

—Main Floor.

Mail Orders for these goods should have envelope marked City Ad. and arrive here first mail Friday morning; if later we cannot promise to fill.

THE T. EATON CO. LIMITED

## York County and Suburbs

DIED AT AGE OF 102.

**Mrs. Crew Was Oldest Resident of Scarborough Township.**

The death of Mrs. Mary Jane Crew, Scarborough's oldest resident, which took place on Tuesday, removes a wonderfully striking figure, and one who had outlived all the friends of her early youth.

Born in Prince Edward County in May, 1808, of New Brunswick parents, Mrs. Crew had attained the remarkable age of 102 years. Mrs. Crew died at the residence of her son, Richard, of the Ontario House, Kings-road, Toronto. Her death was directly attributable to the intense heat of the past few days, she having been in good health and spirits on Saturday morning, but in the afternoon complained of feeling unwell, and later lapsed into unconsciousness, from which she never rallied.

The deceased lady was the mother of eight children, three daughters and five sons. Of these one daughter and two sons survive, one of whom is Richard and the other Isaac, who lives on Ivy-avenue in the city. One son, William, died in Winnipeg less than a year ago, aged 80.

A wonderful woman was the late Mrs. Crew, her hearing and eyesight being almost unimpaired, while her memory was marvellously retained even to the last.

The funeral takes place to-day (Thursday) from the Ontario House, Kingston-road, at 2 p.m., to St. Margaret's Church, Highland Creek.

NORTH TORONTO.

**NORTH TORONTO, July 5.**—(Special.)—Before Magistrate Ramsden this morning, the American-Abell Engine

## HONORED THE MEMORY OF CANADIAN HEROINE

Monument Unveiled to Laura Secord on Queenston Heights by Sir Charles Moss.

**ST. CATHARINES, July 5.**—(Special.)—A large assemblage gathered at Queenston Heights to-day to witness the unveiling of the handsome memorial to Laura Secord, the Canadian heroine who distinguished herself so nobly in the war of 1812. The monument erected on the site of the old Brock monument, twelve feet high and costing \$200, was unveiled by Sir Charles Moss, chief justice of Ontario, and at present administrator of the province. Speaking of the wonderful achievements of the heroine and of the appropriateness of erecting the monument on Queenston Heights not far from her own home, he mentioned the fact that he had come to unveil the monument in words of thanks, assurance and extraordinary fervor. Some thought and a little care is all that is required.

## PROHIBIT LAWN SPRINKLING

Grass Must Go Unwatered for Next Five Days.

The local board of health met yesterday afternoon and passed an order prohibiting the use of lawn sprinklers for the next five days. By the end of this time it is calculated that there will be thirteen to fifteen feet of water in the reservoir.

Waterworks Engineer Fellowes reported at 5 p.m. yesterday that the water level had begun to rise again in the reservoir, which then contained only six feet. It is expected that at least two feet will be added to this before noon to-day.

Yesterday special policemen were sent out on bicycles to summon all people found using sprinklers on their lawns.

The people of the city have used about 160,000 gallons the last three days. The pumps have been worked at full daily capacity of 50,000 gallons and 100,000 gallons have been taken from the reservoir.

There is no necessity for a shortage of water if people will be reasonable in their use of the available supply. Under ordinary circumstances with all the factories working full blast, 35,000,000 gallons are used per day. The margin between this and the daily pumping capacity of 50,000,000 gallons is 15,000,000, quite enough to meet all requirements, ordinary and extraordinary. Some thought and a little care is all that is required.

## YORK COUNTY ESTATES.

Probate of the will of John H. Greenwood, farmer of the Township of Vaughan, who died May 21, 1911, shows net assets amounting to \$3,500. By his will his widow, Elizabeth Emily Greenwood, is his sole beneficiary.

## AFTER TUSSOCK MOTH.

City Commissioner Wilson is asking citizens to co-operate with the department in the preservation of the trees.

"The Tussock moth is just going into the web," he said, "and householders who notice these might help us out by pulling them off."

## COMPLAINTS AGAINST BAKERS.

Summonses have been issued against the following bakers on light-weight charges: Borwick Baking Co., Nasmith Co., Harry Barker and Dales, Limited.

## HAPPY, HAPPY USE TIZ

A Marvel for Sore Feet. Acts Right Off

Sore Feet? Never After Using TIZ—Good-bye, sore feet, aching feet, swollen feet, sweaty feet, smelly feet, tired feet.

Good-bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before sold.

It acts at once and makes the feet feel remarkably fresh and sore-proof. TIZ is not a powder. Powders and other foot remedies clog up the pores.

TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and sterilizes the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

If you don't find all this true after trying a box of TIZ, you can get your money right back.

TIZ is made only by Walter Lusher Dodge & Co., Windsor, Ont., and is for sale at all drug-gists at 25 cents per box.

## IRISH FAIR.

A novel entertainment has been arranged by the men of Cooke's Church, in the nature of an Irish Fair, which is to be presented in Moss Park Rink this evening.

The 48th Highlanders band will render a programme of popular Irish melodies. The receipts are for purely philanthropic purposes undertaken by the Brotherhood Organization of the church.

## OPPORTUNITY FOR THOSE GOING WEST.

On July 11, July 25 and August 8 through tourist Pullman sleeping cars will leave Toronto 11.00 p.m. for Winnipeg and points on Grand Trunk Pacific Railway to Chicago.

Cars will run via Grand Trunk Railway System to Chicago, these connecting lines in connection with "homeseekers" excursions. The rates to Western Canada are very low—Winnipeg and return, \$32; Edmonton and return, \$41. Tickets good for 60 days.

Proportionate rates to other points in Manitoba, Saskatchewan and Alberta. Tourist cars will be fully equipped with bedding, etc., and porter in charge. Berths may be secured at a low rate. Winnipeg Exhibition dates July 12-22. Full particulars and tickets from any Grand Trunk agent, or address A. E. Duff, district passenger agent, Toronto, Ont.

## Do Customers Pass by Your Store?

LOOK at the prosperous stores around you. Analyze their success. You'll find that attractive appearances, a smart, clean store front, and the use of systematic labor-saving devices (with the idea of raising the standard of their individual store service) are the magnetic qualities which are drawing the custom you so much desire.

Such trade can be yours if you apply the same methods to obtain it. One of the first and important steps in this direction is the installation of a modern freight elevator. Choose one suited to your particular needs from among the series of

## OTIS FENSON FREIGHT ELEVATORS

Immediately it is installed, it starts to effect changes and improvements that do much to enhance the attractiveness of your store and make it conspicuous for reliable and prompt service. Your store staff, as well as customers, will benefit materially by the adoption of this time—and labor-saving convenience. Salesmen, instead of spending hours in laboriously hauling new stock, arranging, piling and storing it, can so systematically the work as to reduce the labor and time consumed to a very small fraction of the original amount. Sufficient time, too,

will be found to properly attend to customers and phone orders—dress windows—keep the store neat and clean—and get orders out on time. Every inch of upstairs and downstairs space can be utilized to best advantage, relieving the congestion downstairs which inevitably occurs where there is no elevator, and allowing stock to be handled quickly, conveniently and economically. The ease of operation and control and special safety features which mark the Otis-Fenson, will meet with the approval of merchants who look for reliable efficiency in an elevator, coupled with absolute safety.

Where there is no need for a power elevator—something smaller and lighter being sufficient for all ordinary purposes—we make a Hand Power Elevator which is admirably suited to such cases.

Send for our new illustrated book, "Freight Elevators and Their Uses."

BORDEN AT PICNIC OF GRAIN GROWERS Tells Them He Would Rather Go Down to Defeat Than Recant His Conviction on Pact.

MINNEDEGA, Man., July 5.—(Special.)—A grain growers' picnic introduced variety into the tour of R. Borden to-day. It was held at Shoal Lake and was the second meeting which the opposition leader addressed during the tour.

The proceedings at the picnic opened with a meeting of the grain growers, which was in progress when Mr. Borden and his party arrived.

Mr. Borden followed by President Henders of the Grain Growers' Association for the Province of Manitoba. He discussed reciprocity "from the standpoint of the grain grower."

He advocated the adoption of the reciprocity agreement in the present place, because it would open the American market to them.

He stated that for four years the question of reciprocity had been before their annual convention at Brandon.

He stated that for four years the question of reciprocity had been before their annual convention at Brandon.

JOHN CATTO & SON 65-61 KING STREET EAST, TORONTO. RICHTER DIDN'T FLY

Biplane was Damaged in Storm Yesterday Afternoon. Joseph Richter who was to have made his first flight in a Curtiss biplane yesterday evening at Hanlan's Point was unable to do so owing to the fact that the terrific storm entirely demolished the shed in which the biplane was stored, causing slight injury to the rudder and the planes, some of which were bent.

Richter was much disappointed when he saw that it would be impossible for him to make the flight, as the weather was ideal, and had not the machine been hastily removed to the ground stand the damage might have been serious.

H. E. Vandeventer, manager for Richter, told The World yesterday that Hanlan's was a very dangerous place for a flight, as the aviator might easily collide with the bleachers when rising from the ground. If he had descended in a stiff breeze he might easily alight on the sand bar.

Mr. Vandeventer said that weather conditions were at present ideal for a flight, and Richter was anxious to soar. He will fly this evening at 7.30 p.m. from the stadium, providing the weather conditions are favorable. As there would be danger if a crowd were to approach too near only the officials and the members of the press will be permitted to enter the stadium during the flight.

Over 3000 people were turned away last night, the number of them all being themselves of the opportunity of inspecting the biplane.

Victim of Accident Identified. The G.T.R. construction man who was fatally crushed by a train at Sunnyside, early in the morning of July 1, has been identified by a brother. His name was Henry Martin, not Warren, as understood previously. He was 21 years old, and a native of Jersey Channel Islands.

Cheese Boards. MADOC, July 5.—Eight hundred boxes cheese boarded, all sold at 11.4c.

The Traders Bank of Canada has offices in the PORCUPINE DISTRICT under the management of Mr. G. G. Bullard.

At KESLO MINES, the nearest railway station, they have a branch under the management of Mr. J. D. Tipton.

Transfers of money by mail or telegraph can be made through any branches of this Bank.

Travellers going into Porcupine are invited to avail themselves of the advice and services of the above mentioned managers.

Stuart Strathy General Manager Toronto

THE WEATHER

OBSERVATORY, TORONTO, July 5.—(8 p.m.)—A few local thunderstorms have occurred to-day in Ontario and Quebec, but the weather in Canada has been nearly everywhere fine. Very high temperatures have again prevailed in Ontario and western Quebec.

Minimum and maximum temperatures—Ottawa, 40-72; Victoria, 48-70; Vancouver, 50-72; Calgary, 51-72; Edmonton, 44-74; Battleford, 50-72; Moosejawan, 43-71; Winnipeg, 45-70; Port Arthur, 51-82; Parry Sound, 65-88; London, 67-100; Toronto, 70-85; Montreal, 81-90; Quebec, 83-84; St. John, 56-80; Halifax, 82-88.

Probabilities—Lower Lakes and Georgian Bay—Moderate to fresh southerly, shifting to westerly and northwesterly winds; partly fair with thunderstorms in most localities; turning cooler at night.

Ottawa Valley and Upper St. Lawrence—Partly fair and very warm; moderate to fresh southerly winds; cooler by Friday.

Lower St. Lawrence and Gulf—Unsettled with showers and thunderstorms. Maritime—Moderate to fresh southerly to southwesterly winds; mostly fair and warm, but some showers and squalls.

Superior—Fresh northwesterly winds; generally fair and comparatively cool. Manitoba, Saskatchewan and Alberta—Fine and warmer.

THE BAROMETER.

Table with 4 columns: Time, Ther. Bar., Wind, and other weather indicators for various times of the day.

STEAMSHIP ARRIVALS.

Table listing ship arrivals from July 5 to 10, including ship names, companies, and agents.

TO-DAY IN TORONTO.

JOHNSON—At his late residence, 211 Ross-street, west, on Tuesday, the 4th of July, Thomas Brown Johnson, aged 79 1/2 years.

FUNERAL—On Thursday, July 6, at 3 p.m., to Mount Pleasant Cemetery.

HAMILTON HAPPENINGS

HAMILTON BOY CLAIMS ITS FOURTH VICTIM

Young Englishman Drowned While Bathing—Thermometer Stood at 103.

HAMILTON, July 5.—(Special.)—The insatiable waters of Hamilton Bay claimed their fourth victim this season, when John Cochrane, an Englishman, 29 years of age, lost his life while bathing at Oaklands, about four o'clock this afternoon.

Cochrane boarded with the family of a companion, Chas. Payne, were bathing near the shore at Oaklands, when they decided to venture further out. According to a witness they obtained a row boat and went about 300 yards into the bay.

One Hundred and Three in the Shade. The weather remained in its spotlight here to-day, and in addition to equalling his Monday heat record of 103 in the shade, he threw in a bountiful supply of humidity.

Milk Famine Threatens. Another serious aspect of the hot weather developed today, when it was discovered that the city's milk supply cannot be avoided if the present torridity continues.

Several prohibitions have been reported today. Some of the victims are thought to be seriously affected. One of the cases reported was that of Alex. Watson, who was overcome at the C.P.R. construction camp, where J. P. Hogan was fatally stricken yesterday. He is at the City Hospital.

Use Gibbons' Toothache Gum Price 10 Cents. 246

OBITUARY.

Mrs. Ann Cummer. Many old friends will regret the death of Mrs. Ann Cummer.

Deceased was the widow of Edward Cummer, who was a member of the secretary of the I.O.F. here. Mr. Cummer died in March, 1910, in his 60th year.

Thomas Benn Johnson. One of the oldest and best known residents of the city passed away Tuesday after a long illness.

He was born in Nova Scotia. The family came to York Mills about a hundred years ago. Deceased, who was 79 years of age, was born in 1831, and died on Tuesday, July 5, 1911.

Atlantic City Excursion. \$11.00 round trip from Suspension Bridge, via Lehigh Valley Railroad, Friday, July 14; tickets good 15 days. Particulars at East King-street.

The Morning World is delivered before breakfast to any address in Toronto or suburbs for twenty-five cents per month. Phone 81, 8308.

BUY LAND AT HUTTON

DO NOT WAIT UNTIL PRICES DOUBLE AND TREBLE But Buy Now, When Prices Are at Their Lowest and There Are Splendid Prospects for a Rapid and Substantial Increase

HUTTON is one of the most promising townsites in Southern Alberta. It is ninety miles east of Calgary and is financed by some of the most progressive business men of the West.

Full information will be cheerfully given by the following exclusive Toronto agents:

HODGINS & COMPANY 558 College Street Phone College 6857

MUST COMMIT PERJURY TO BREAK CONTRACTS

Wholesale Grocers Believe in Strict Regulations to Prevent Jobber Being Undersold.

"We are not out to bleed the public; we want nothing but what is reasonable, a fair compensation for the efforts of the trade. What I advocate is a measure that will raise the standards of the grocery trade, and is framed to the mutual advantage of the general public, the retail trade, and ourselves."

All this and more said Hugh Blain at yesterday's session of the Wholesale Grocers' Guild.

At times the discussion waxed nearly as warm as the weather, the "conductor" and "decoration system" causing all the trouble.

Ironclad Contracts. For many years the vexed question of wholesale breaking contracts and cutting prices to large retailers, with a consequent demoralization of the trade, has been discussed.

Need of Machinery. "What I want," he said, "is machinery that will force all parties to keep the agreement. The reason I haven't signed a lot of these agreements is because so many have been broken."

Relief for Poor Men. He declared that in his fifteen days' winter travels used discretion and charged slow paying customers more money.

The St. Charles Cream Co. was part of an agreement with this firm had saved some \$250,000 to the association on the canned milk of this one.

Officers Elected. The following officers were elected without opposition, upon the report of the nomination committee:

AUCTION SALES.

# Crisis in Morocco a Disturbing Factor in the Stock Market

## Foreign Selling of Americans Depresses the New York Market

World Office, Wednesday Evening, July 5.—Another European war scare had an influence on the internationally listed stocks today. London was reported a weak market and cables spoke of Paris being demoralized.

Under these circumstances the Toronto market acted as weak and only in the case of C.P.R. was there any loss registered of sufficient importance to cause anxiety.

C.P.R. opened down almost four points. Berlin was alleged to be the large seller of the shares, but after the opening sale the price recovered over a point and held the advance.

The South American fractions were also influenced by London. It sold down to 110 3/4 and Sao Paulo to 17 1/2.

In the other issues dealt in the undertone was easy and transactions were made at small concessions.

There are few speculative buyers in the market and investment orders are not as prolific as they were.

Dullness rather than anything else was the feature at the close, but brokers report a small amount of selling orders.

## Moroccan Situation Affects Stock Market

London Doesn't Like Look of Continental Politics—C. P. R. a Weak Point.

LONDON, July 5.—Money more plentiful and discounts easy. The stock market was again depressed and unsettled, due to the continental political outlook. Paris, Berlin, and local selling caused a fall of half a point in consols, which weakened other British securities. Cairo and other foreigners closed unsettled. The consols settlement was concluded without any trouble.

Canadian and American securities ruled quiet and easy during the early session, awaiting New York advice. Montreal Power, which had advanced to 110 1/2, fell to 110 1/4. Canadian Pacific fell 1/4 and Rio to 10 1/2 under the New York closing of Monday. New York bought at the lower level, and caused a recovery of 1/4 to 1. The close was steadier.

## WALL-STREET POINTERS.

Americans in London Irregular.

Public service committee award subway contracts.

International conference of steel makers begins at Brussels.

Special meeting of Maine Central stockholders at Portland to authorize financing.

The government cotton report indicates a crop of 14,600,000 bales, the largest on record.

President Taft urges all parties to support of reciprocity agreement in speech at Indianapolis.

Burlington crop report says Nebraska corn is set unimpaired and there are great possibilities for that crop.

President Shaugnessy says Canadian Pacific could be controlled or working arrangement with Erie.

## Montreal Market Shows Easier Tone

Irregular Price Movements on Eastern Exchange—C. P. R. a Weak Spot.

MONTREAL, July 5.—While trading on the Montreal stock market today was somewhat more active, price movements were irregular with the tone easier. There was some selling of Canadian Pacific, which carried the price down to 236 3/4, with the last sale at 237 and 236 7/8 bid at the close. Montreal Power was easier at 222. The Montreal stock market today was somewhat more active, price movements were irregular with the tone easier. There was some selling of Canadian Pacific, which carried the price down to 236 3/4, with the last sale at 237 and 236 7/8 bid at the close. Montreal Power was easier at 222.

## ON WALL-STREET.

Erickson Perkins & Co. had the following: It was a weather stock market throughout the day, closing at about lowest prices, after a mid-day rally. There was no sign of relief from the excessive heat—no rain in sight in the great rain belt. It is true indications point to rain in the extreme northwest, but we need not look for any in the middle west for a day or two at least. Stocks will probably work somewhat lower as liquidation continues. Selling today is prevalent and buying was moderately good. The buying in steel was good.

Chas. Head & Co. to R. R. Bondard: There has been only a desultory and featureless market today. Opening prices were lower in sympathy with London and declines ran down to a point or two, the latter in Union Pacific, with a subsequent rally of 1/4 to 1/2 point, and following dullness. Berlin sold C.P.R. on account of the war scare in Morocco. It is estimated that our market had to be absorbed at least 50,000 shares of foreign stock. In the late afternoon better drives broke prices to near the lowest of the day and the closing was heavy. The outlook for prices pending the foreign disturbance is uncertain, but so far as this country is concerned everything is all right, and we believe the patient holders of good securities will get win out.

## Probing Into Lehigh Valley Finances

Interstate Commission Solves Riddle of Where the Money Went.

NEW YORK, July 5.—The interstate commerce commission in its decision in case of Meeker and Co. versus Lehigh Valley Ry. says earnings of latter for 1910 were sufficient to pay 2012 per cent dividends, but company have increased unappropriated surplus from \$12,000,000 to \$27,000,000 and could have collected equivalent water power rent divided on Lehigh Valley Coal Co. certificates of indebtedness carried among its assets.

## Failures Across Line Ahead of Last Year

Emergency Statistics of United States for Half Year Reflect Business Conditions.

Failure returns for the half year in the United States are in keeping with the known conditions of business in that period, there being more failures in the last six months than in the like periods of last year or of 1909, but are far below those of 1908.

Compared with last year there are 97 per cent more failures and 7.6 per cent larger liabilities. The increase in number over 1909 is 15 per cent, and the increase in liabilities is 22 per cent, but the decrease from the after-the-war panic year 1908 is 14 per cent in number and 44 per cent in liabilities.

## MUNICIPAL DEBENTURES.

The Town of Berlin has just awarded its \$20,000 4 1/2 per cent debentures. The Ontario Securities Company, Limited, has been awarded \$2,000 debentures of Town of Galt, Ontario, bearing 4 1/2 per cent interest semi-annually, and maturing June 5, 1931. This issue is for the purpose of providing an electric power plant. The assessed valuation of the municipality is \$4,800,000.

## THE DOMINION BANK

Notice is hereby given that a dividend of three per cent. has been declared upon the Capital Stock of this institution for the quarter ending 30th June, 1911, being at the rate of twelve per cent. per annum, and that the same will be payable at the Head Office of the Bank and its Branches on and after Monday, the 3rd day of July, 1911, to shareholders of record of 20th June, 1911.

By Order of the Board.

C. A. BOGERT,  
General Manager.

## BUYERS NEED CONFIDENCE AND MONEY.

World Office, Wednesday Evening, July 5.—The Moroccan situation influenced the European markets today, and was effective in marking down the prices of some of the local list. C.P.R. was hard hit, and declined nearly four points from Monday. Rio and Sao Paulo were off scarcely a point. Aside from the war possibilities, the extreme heat framed sentiment more than anything else, and a change in the weather is liable to work wonders, both on crops and securities. Only those who have confidence and the funds are current buyers, and then operators generally win out.

## Cotton Markets

Erickson Perkins & Co. (J. G. Beatty), 14 West King-street, report the following prices on the New York cotton market:

Close, Open, High, Low, Close.

July 1911: 14.41, 14.31, 14.52, 14.45, 14.54

Aug. 1911: 14.43, 14.45, 14.53, 14.44, 14.49

Oct. 1911: 13.27, 13.29, 13.49, 13.32, 13.45

Dec. 1911: 13.27, 13.29, 13.49, 13.32, 13.45

Jan. 1912: 13.27, 13.29, 13.49, 13.32, 13.45

## COTTON GOSSIP.

Erickson Perkins & Co. had the following at the close: Absence of rain over the western belt led to a resumption of bull buying and covering to-day in the new crop and prices advanced a dollar a bale, apprehension regarding the drought becoming more general as the market worked up. Advices from Texas indicate a commencement of deterioration and buying from southern, but it is becoming a market feature. The southern hedging in volume renders the market susceptible to manipulation.

## SUCCUMBED TO TERRIFIC HEAT.

Thirty-five deaths were registered at the city clerk's office yesterday afternoon being directly due to the heat. Ten of these deaths were of children of whom four succumbed to the heat. Most of the adults whose deaths were directly attributable to heat were over middle age, two were over eighty and one had reached 103. One man, tho, was only 33 years of age.

## More Fountains for High Park.

Park Commissioner Wilson is urging the advisability of establishing more drinking fountains in High Park. The park contains 335 acres, said the commissioner, "and there are only nine drinking places. Riverside Park, with 108 acres, has seven fountains, and Queen's Park has three for 37 acres."

## June Steel Output Was Below May

But indicated a slight improvement in Trade Conditions—Record for Half Year.

NEW YORK, July 5.—The Iron Age to-morrow will say: Very complete reports from blast furnace operators show June output of 1,787,566 tons of coke and anthracite pig iron, against 1,892,456 tons in May. The daily output in June was 59,585 tons, which is 1494 tons under the daily rate of May. The decline in the June output was confined to merchant furnaces. Those connected with steel plants maintained daily rate of 42,791 tons, against 42,270 in May. These figures substantiate the reports of an improvement in the steel trade in June, and it is expected that the July figures will show this tendency more strongly. The figures for June added to the previous figures make an aggregate of 11,470,000 tons of coke and anthracite pig iron produced in the first half of the year. Adding an estimate of 160,000 tons for charcoal pig iron made, the total for the half year is 11,630,000, against 12,319,000 produced in last half of 1910. The decline was thus a little over 5 per cent. The steel bar market seems firmly anchored on the 1.25 Pittsburgh basis.

## Porcupine Watches Three Nations Lake

Active Development Work in That Section Brings in Good Results.  
PORCUPINE CITY, June 30.—(From Our Man Up North.)—Mining interest is centring around mining lots at Three Nations Lake, where several syndicates and one company are busily engaged in development work. The free gold find in a stringer of quartz on the Lehigh claims held by the Lang syndicate, is one of the finest showings in the camp so far as the lead has been uncovered. And, from the fact that the stringer widened as it dipped into the low level, more encouragement is given to the workers who believe that the ledge of rock thro which money stringers carry out of the Lehigh is not far away. The La Palme claims are to be turned into a company, and the stock offered on the market shortly. The Minnesota Company, who took a working option on the Cobalt Silver National, has just to the west of Three Nations, are also engaged in mine development work, and it is said that this week the second payment on the option will be made. Work on the Jarline properties to the south and west of Three Nations is also being pushed vigorously. Wide quartz leads are uncovered. Further to the west and nearer to Bobb Lake the McKinley and Thompson syndicate are hard at work uncovering and following promising quartz deposits. The quartz and schist are of a honey-combed variety, and just the kind in which free gold values are found in that district. Eastern and Central Whitney locations are certainly being thoroughly and carefully worked.  
Chas. Fox.

## HAD BEEN ON THIN ICE

Bishop Fallon Refers to Bilingual School Controversy.  
SAULT STE. MARIE, Ont., July 5.—(Special.)—The ceremonies in connection with the grand convention of the Knights of Columbus closed this evening when the Vespers delegates entertained the visiting delegates at a banquet, attended by 300. An address was made by Bishop Fallon, who dealt with imperialism. During his remarks he stated that he had recently been on thin ice, but had not fallen thru, no doubt referring to his bout with Hon. Mr. Hanna re bilingual schools. The address was admitted to be one of the best and most entertaining ever delivered before the Canadian Club here. The Bishop's remarks regarding closer intimacy between the mother country and its dependencies met with favor from those attending.

## THE BIGGEST YET.

What is claimed to be the largest map of the Porcupine mining division in the world is now on exhibition at the offices of English's Limited, 16 Victoria street. The map fills the entire Victoria street and is 11 feet in length and 5 feet in width. It has attracted considerable attention both on account of its size and the detail of the attractive way in which it is presented. The map shows no less than 24 townships, with 10 townships properly detailed. All the mining properties are blocked out in their respective positions.

## Crop K And

High Temperatures  
CHICAGO, July 5.—The market for five market wheat, and a drop in any level previous closing figures. Closing figures for top point of the 4 1/2 net, oats 2 1/2, and wheat 1 1/2. Provisions to a greater extent. Towards the end of the session, wheat was offered in small quantities, but no offerings. During the day, wheat ranged from closing going in the oats on an extent of one less cent. A crop of 100,000,000 bushels of wheat was put on the market. The same time as the percentage compared with the official report of 100,000,000 bushels of wheat, and the net high was 46 1/2. For the most part, the market resulted in a big advance of the day as a whole, with a net high of 51 1/2. A liberal export was cleared on an extent of 100,000,000 bushels. Receipts of wheat, with corn, Chicago, 100,000 bushels. Minneapolis, 100,000 bushels. Winnipeg, 100,000 bushels.

## The Simpson Price-Barometer Always Points to "FAIR"

Thermometers and barometers have been performing some queer antics lately; but now that we can stop knocking the weather for a short time, let us ask ourselves—"Weren't some of our recent discomforts up to us." Had we—or for that matter, have we now—clothing designed to keep us cool, and frequent changes of everything we wear next the skin?

Look carefully through this list; if it suggests things lacking in your wardrobe, you'll be able to supply the deficiency to-morrow at a worth-while saving, for we've planned to make Friday and Saturday here

### Two Red Letter Days

English Tweed Suits, grey and brown shades; three-button, single-breasted sack style; sizes 36 to 44. Regular to \$12.00. Friday ..... 5.95
