JAPS NOW READY TO TAKE NEICHWANG CAPTURE OF KUROPATKIN MAKES SURE

Prepare to Close in on the Enemy —Kuropatkin Being Forced Northward.

JAPS ON THE YINKOW ROAD SAKHAROFF REPORTS FIGHT

St. Petersburg, July 10.—Lieut.-Gen. Sakharoff, in a despatch to the general staff, confirms the report of the Japanese occupation of Kichou. He says that the Russian loss did not exceed 150 killed or wounded. Gen. Sakharoff adds that the Japanese are in the Yinkow road.

Gen. Sakharoff says: "Our detachment remained during July 8 at Kichou station, having its advance posts on the right bank of the Kantakhe River, the enemy occupying the heights on the left bank and fortifying themselves thereon.

"Our battery on the railroad bridge opened fire at the enemy's patrol. Towards noon a fusillade occurred between our detachment of the enemy and our company and our losses were six wounded.

Along the Seashore.

"Towards the evening of July 8 the enemy's force, consisting of four divisions and a brigade, could be made out in front of Kichou, extending along the seashore. At dawn, July 9, the enemy resumed the offensive upon the rear-guard of our detachment, which retired about 6.30 in the morning from Kichou to nine and one-half miles inland.

"At 10 o'clock, under heavy pressure, our rear guard retired on our position at Makhungtsing and Yeh-NING. The rear-guard held this position until a heavy fire until 2 o'clock in the afternoon when it was ordered to retire. The Russians retired slowly and in perfect order on the third position just as our main body was concentrating at Datchau and on the position at Makhungtsing.

"The enemy kept up a very heavy cannonading for two hours uninterruptedly, but our battery carried on the struggle successfully firing along the Shuanlunsa Pass. It finally fell back with hardly any casualties.

"On our right flank our horse battery shelled the Japanese battery. At the same time the enemy's cavalry advanced slowly along the shore road to Yinkow.

"Our losses are not yet known, but according to the commander of our forces they do not exceed 150. Among the killed was Count Nyrkov, captain on the general staff."

AN INVASION OF BRITISH INDIA PLANNED BY GEN. KUROPATKIN ACCORDING TO LONDON EXPRESS

But the Scheme as Outlined Does Not Show Intimate Knowledge of the Undertaking.

London, July 11.—The Daily Express to-day prints what it claims is Gen. Kuropatkin's signed plan of invasion of British India, which, it is stated, was filed in the Russian war office as the official method of procedure in case of a war between Russia and Great Britain. The document goes into minute details and is three columns in length.

Briefly summed up, General Kuropatkin divided such a war into two campaigns, one ending with the capture of Herat and the other after two or three years' administration of Herat, Kabul and Kandahar. After that, says Gen. Kuropatkin, the British would find themselves without native support in India proper.

The plan deals minutely with the methods Russia ought to adopt to secure the cooperation of the Persians and Afghans by an elaborate system of agents and sheikhs. It estimates that one Turkistan army corps and one Russian Cossack brigade has to be sent in the initial stage of the campaign, which "I should prefer to begin in November, as the winter is the best time for the men and all Russian ports are frozen. A casual bell can, any time when required, be found thru a collision between Russian and Afghan outposts."

General Kuropatkin's alleged plan for the invasion of British India will not be taken very seriously, and it is believed, goes far to explain his success in Manchuria. It is, of course, conceivable that the Russians if they were so disposed could without much difficulty capture Herat, which is situated in the extreme west of Afghanistan, and within easy distance of the Russian frontier. But as the integrity of Afghan territory is a cardinal feature of British policy, an attack upon Herat would become at once a *casus belli*, and if not resisted and repulsed, the British would be followed by the immediate advance of the British army and the occupation of Herat and Kabul, and the British would find themselves without native support in India proper.

The plan deals minutely with the methods Russia ought to adopt to secure the cooperation of the Persians and Afghans by an elaborate system of agents and sheikhs. It estimates that one Turkistan army corps and one Russian Cossack brigade has to be sent in the initial stage of the campaign, which "I should prefer to begin in November, as the winter is the best time for the men and all Russian ports are frozen. ROAMED STREETS AND LANES GLAD ONLY IN ROBE DE NUIT

Adventures of a D.T. Patient Who Twice Escaped From Western Hospital Saturday Night.

On Saturday evening a patient was taken to the Western Hospital suffering from delirium tremens. He was placed in one of the tents on the lawn. He imagined that his rivals were plotting to prevent him from keeping an important engagement. He determined to outfit his enemies and quietly took his departure, clad only in his night-robe. When he reached the street he put on a spurt and kept it up until he ran into the arms of a policeman, to whom he told his story.

The officer took him back to the hospital, where he was put in a room. Still bent on keeping his engagement at all hazards he again made his escape, and down the street he went as fast as he could run. He darted into a lane, and, seeing the window of a stable open, he crawled in and hid in the straw, thinking his rivals were in pursuit.

The stable belonged to a milkman, who, according to his usual custom, proceeded to get out his delivery wagon. The possessor of the results of his "job" hearing the noise, arose in his long white robe. In the dim light the figure looked 15 feet high to Mr. Surprised Milkman, who gave a yell like a Co-manche Indian on the warpath. He made double-quick time for his house and bolted the door.

Mr. Jag started again on his John Gilpin career. He reached Austin-avenue, and seeing the back door of a house open, he ran in and hid in the house and out the front door. The astonished inmates nearly threw a fit. What his adventures were after that is not known until he was picked up in a lane, thoroughly exhausted, by two men, who drove him to No. 30 police station. The sergeant notified the Western Hospital and he was returned to the care of the nurses.

172 KILLED IN A COLLISION ABOUT 100 INJURED

Regular N.Y. Passenger Train Crashes Into an Excursion Train Which Had Stopped.

New York, July 10.—Seventeen persons were killed and about 100 were injured in a collision which occurred at Midvale, N.J., just before noon today, when a regular passenger train from the Greenview Lake branch of the Erie Railroad ran into an excursion train which had stopped to take water. All of the dead and injured lived in Hoboken, Jersey City and New York.

The accident is believed to have been caused from a tower operator having lowered his signal too soon, and this was admitted by D. W. Cooke, general passenger agent of the Erie Railroad, who gave out a statement, in which he said: "The operator in the tower failed to set the block signal against the excursion train, and the regular train was allowed to proceed. The first engine had taken water and the train had moved up and stopped with the second engine beside the tank when the regular train drew near."

The flagman of the special signalled the engine of the excursion train out owing to a curve in the road his flag was not seen until too late. It is claimed that the engineer of the regular train had slowed down to about ten miles an hour before he crashed into the special, but his engine tore thru the rear car the greater part of its length and drove forward into the tank which was in the car ahead. The killed and injured were in these two cars.

HOPE THAT SOO STEEL PLANT WILL BE READY IN 2 WEEKS

President Warren Says Directors Were Gratified—Made Contract for Helen Ore Output.

C. D. Warren returned yesterday from the Soo, where he spent last week with the directors of the Lakes Superior corporation investigating the plant and works of the company. As stated in The Sunday World, Mr. Warren will, as president, have absolute control of the policy of the company, and he will have the support of the directors in the conservative policy which has been inaugurated.

"We inspected all the different industries," said Mr. Warren to The World, "and found many of them in a very satisfactory condition, especially the steel plant and rail mill. The board has several members who are experienced men in the iron business, and they were more than pleased with the installation of these two departments. It has frequently been stated that the steel plant and rail mill were installed with second-hand machinery. This is not the case. Everything is of the newest and most modern type, and several of the American directors declared it one of the best on the continent. The directors, after having investigated the steel plant and rail mill, concluded that this would be one of the main industries of the new corporation. Its prospects are bright, and it should certainly be one of the chief, if not the most important, in operation. This plant will be at work at the earliest possible moment, and it is hoped to have it working and ready for government inspection in not less than two weeks."

PARKER CHOSEN OF DEMOCRATS BUT BALKS ON MONEY QUESTION MAY LEAD TO DECLINING HONOR

Senator Davis of West Virginia Given Nomination for Vice- President on First Ballot.

For president, Alton B. Parker, chief justice of the New York State court of appeals.

For vice-president, Henry G. Davis of West Virginia, former Senator.

At 6.45 on Saturday morning, Alton B. Parker was nominated by the Democratic convention at St. Louis as presidential candidate. On the first ballot he was given 688 votes out of the required 697, and the nomination was made unanimous. In the afternoon, however, a sensation was sprung when a telegram received from Judge Parker, on the part of Esopus, N.Y., stating that unless the convention would accept him as an avowed believer in the gold standard, he must decline the nomination. After a conference of leaders it was decided that the sense of the convention was that Judge Parker's attitude on the money question was fully understood by the delegates before he was placed in nomination, and that the telegram therefore disclosed no new feature. This was done. Late in the evening Henry G. Davis was nominated on the first ballot as vice-presidential candidate, and the convention adjourned sine die.

PARKER'S BOMBHELL

St. Louis, July 8.—When the convention adjourned after the startling announcement was whispered around that Judge Parker had declined his views upon finance, in which he declared for the gold standard and suggesting that the convention should know this fact that it might be given an opportunity to secure some one else for the party nomination should have been in accordance with those of delegates. William J. Bryan was absent, being at his hotel in St. Louis at the time the text of the telegram addressed to Hon. W. F. Shepley.

"I regard the gold standard as firmly and irrevocably established," said the telegram, "and I am silent on the subject, my views should be made known to the convention, and if it is proved to be unsatisfactory to the majority, I request you to decline the nomination for me at once, so that another may be nominated before the adjournment."

(Signed) A. B. Parker.

Mississippi Threatened Secession.

RIOTS AGAINST CHRISTIANS REPORTED WEST OF CHEFOO

May Be Another Boxer Uprising— Assistance Has Been Asked and Will Be Sent.

London, July 10.—A great whale hunt in Nesting Bay, Shetland Islands, came to an end yesterday morning, after having lasted 24 hours.

The whales, which numbered about sixty and were from 10 to 25 feet in length, entered the bay on Monday night. Next day a number of boats went out, their crews armed with guns and other weapons.

There was a scarcity of hands owing to most of the men being away at the fishing, but girls volunteered in large numbers, and from their boats kept the whales from escaping by throwing stones.

Forty whales were in turn driven near the shore and either shot or harpooned.

May Be Another Boxer Uprising— Assistance Has Been Asked and Will Be Sent.

London, July 10.—A great whale hunt in Nesting Bay, Shetland Islands, came to an end yesterday morning, after having lasted 24 hours.

The whales, which numbered about sixty and were from 10 to 25 feet in length, entered the bay on Monday night. Next day a number of boats went out, their crews armed with guns and other weapons.

There was a scarcity of hands owing to most of the men being away at the fishing, but girls volunteered in large numbers, and from their boats kept the whales from escaping by throwing stones.

Forty whales were in turn driven near the shore and either shot or harpooned.

JAPS NOW READY TO TAKE NEICHWANG CAPTURE OF KUROPATKIN MAKES SURE

Prepare to Close in on the Enemy —Kuropatkin Being Forced Northward.

JAPS ON THE YINKOW ROAD SAKHAROFF REPORTS FIGHT

St. Petersburg, July 10.—Lieut.-Gen. Sakharoff, in a despatch to the general staff, confirms the report of the Japanese occupation of Kichou. He says that the Russian loss did not exceed 150 killed or wounded. Gen. Sakharoff adds that the Japanese are in the Yinkow road.

Gen. Sakharoff says: "Our detachment remained during July 8 at Kichou station, having its advance posts on the right bank of the Kantakhe River, the enemy occupying the heights on the left bank and fortifying themselves thereon.

"Our battery on the railroad bridge opened fire at the enemy's patrol. Towards noon a fusillade occurred between our detachment of the enemy and our company and our losses were six wounded.

Along the Seashore.

"Towards the evening of July 8 the enemy's force, consisting of four divisions and a brigade, could be made out in front of Kichou, extending along the seashore. At dawn, July 9, the enemy resumed the offensive upon the rear-guard of our detachment, which retired about 6.30 in the morning from Kichou to nine and one-half miles inland.

"At 10 o'clock, under heavy pressure, our rear guard retired on our position at Makhungtsing and Yeh-NING. The rear-guard held this position until a heavy fire until 2 o'clock in the afternoon when it was ordered to retire. The Russians retired slowly and in perfect order on the third position just as our main body was concentrating at Datchau and on the position at Makhungtsing.

"The enemy kept up a very heavy cannonading for two hours uninterruptedly, but our battery carried on the struggle successfully firing along the Shuanlunsa Pass. It finally fell back with hardly any casualties.

"On our right flank our horse battery shelled the Japanese battery. At the same time the enemy's cavalry advanced slowly along the shore road to Yinkow.

"Our losses are not yet known, but according to the commander of our forces they do not exceed 150. Among the killed was Count Nyrkov, captain on the general staff."

AN INVASION OF BRITISH INDIA PLANNED BY GEN. KUROPATKIN ACCORDING TO LONDON EXPRESS

But the Scheme as Outlined Does Not Show Intimate Knowledge of the Undertaking.

London, July 11.—The Daily Express to-day prints what it claims is Gen. Kuropatkin's signed plan of invasion of British India, which, it is stated, was filed in the Russian war office as the official method of procedure in case of a war between Russia and Great Britain. The document goes into minute details and is three columns in length.

Briefly summed up, General Kuropatkin divided such a war into two campaigns, one ending with the capture of Herat and the other after two or three years' administration of Herat, Kabul and Kandahar. After that, says Gen. Kuropatkin, the British would find themselves without native support in India proper.

The plan deals minutely with the methods Russia ought to adopt to secure the cooperation of the Persians and Afghans by an elaborate system of agents and sheikhs. It estimates that one Turkistan army corps and one Russian Cossack brigade has to be sent in the initial stage of the campaign, which "I should prefer to begin in November, as the winter is the best time for the men and all Russian ports are frozen. A casual bell can, any time when required, be found

SMOKE BYLAW DEFECTIVE? GIVES TOO MUCH LATITUDE

What Amount of Smoke From Any One Chimney is Sufficient to Foul the Air?

The city bylaw dealing with the use of smoke consumers went into effect on Dominion Day, but so far no attempt has been made to enforce it, altho, as a matter of fact, the bylaw has given rise to various opinions concerning the advisability of such measures.

ISSUES ARE BUT THE CLOSE OF THE WEEK

Brain and Stock Prices Are Rivals in Advance—Tone of Locals Heavy.

World Office, Saturday Evening, July 9.

The holiday extending over the end of last week and the first part of this week has given a decided stimulus to values on Wall Street, and the strongest and most active period in nearly two months has been witnessed since Tuesday. Peculiarly, it is in the stock market that this stimulus is most noticeable, and it is in the stock market that the advance has been most pronounced. This feature of the stock market has, however, been as common during the last few months as it is now, and it is not unusual to find that the advance in the stock market is not accompanied by a corresponding advance in the price of commodities. This is the case in the present advance, and it is a feature which is worthy of note. It is a feature which is worthy of note, and it is a feature which is worthy of note.

YORKSHIRE SOCIETY.

Happy Time Spent Saturday Afternoon by Over 100 Members.

Yorkshiremen, with their wives and families, to the number of over 100, held the first picnic of the society on Saturday afternoon to the home and grounds of Knock Ward, near Toronto Junction.

- George Smith, B. Pearson, 4
S. Abbey, and J. Pearson, 4
S. Musgrave, B. Varley, 4
Harrison, B. Varley, 4
T. Houlsworth, B. Varley, 4
W. Harrow, B. Varley, 4
A. Musgrave, B. Varley, 4
G. Guest, not out, 0
T. Taylor, run out, 1
E. Bates, at Cockin, 0
G. W. Tappin, at Cockin, 0
Extras, 0
Total, 14

Refreshments were partaken on the verandah of Mr. Ward's residence, during which a capital concert, under the leadership of G. W. Tappin, rendered several pleasing selections. The evening was spent in an impromptu concert, and dancing was indulged in until the arrival of the special car for the night.

The society holds its meetings on the first Tuesday of each month in Person Hall, corner of York and Yonge streets, and all natives of the Shire of York are welcome. The membership is constantly over a hundred and rapidly increasing.

TO COMBER, ONT.

Bowmanville, July 10.—(Special.)—About 75 business men of this town, and friends of George B. McClellan, assembled at the Bennett House last evening to attend a banquet given in his honor. For the past seven years he has been associated with the branch of the Standard Bank, latterly as teller, but has resigned to accept a management in the Crown Bank of Canada.

What Might Have Been. The reflection of a furnace in the basement of the Gendron Manufacturing Company at Ontario and Duchesse streets caused a fire scare at 10 o'clock last night and gave the department a useless run on an alarm sent in from box 24.

Use Levee Dry Soap (a powder) to wash woollens and flannels—you'll like it.

Summer Business Suit Problem

It is often a problem with business men how to dress for hot weather comfort. Our stock of summer business suits is a splendid solution of this problem. An inspection settles the question and you will have your lasting gratitude.

R. SCORE & SON, Tailors and Haberdashers, 77 King Street West, Toronto. EARLY CLOSING—5 p.m. Daily—1 p.m. Saturday.

OLD FINDLAY MAY RECOVER HIS LOST HOPE OF DOCTOR

Post Office Clerks Get Promotion and With It Increases in Salaries.

Hamilton, July 10.—(Special.)—Ald. Findlay is apparently going to fool the doctors who gave his case up as hopeless. Friday night they gave him the morphia to live, but his wonderful vitality surprised them. To-night he has improved so much that Dr. McNicol has strong hopes of his recovery now. He has succeeded stopping the vomiting that set in Friday.

These are the clerks in the local post-office who have been promoted from the junior to senior third class. Messrs. Harron, Miller and Fielding, they have been getting \$800 a year, and their salaries will be increased \$50 a year for two years. Mr. Fielding is the only Liberal among those promoted, and some of his friends are demanding that Postmaster Adam Brown and his assistant, Mr. E. Eger, be superannuated.

Back From New York. J. H. Long, who used to practice law here, visited the city Saturday. His home is in New York now. James Neilligan, son of J. E. Neilligan, one of the city assessors, has been appointed agent of the Northern Navigation Company, and Dr. Terry has succeeded him as soliciting agent of the G. T. R.

Druggist Samuel Chapman and his wife have patched up their differences, and the matrimonial suit started by her has been withdrawn. The Oranmen of the city marched to St. James' Cathedral on Saturday and heard Rev. Bro. F. E. Howitt preach. There was a large turnout.

Forwarded to Michigan. The remains of George B. Rogers, the G. T. R. brakeman who was killed by his train and was killed Friday night, were forwarded to Ypsilanti, Mich., this evening. A service was held at St. Hilda's church, and the remains were interred in the cemetery.

CLAIRVOYANTS' DEFENCE.

London, July 10.—Clairvoyants, crystal gazers, astrologers, palmists and the like flourish in London much to the same extent as in New York. The fashionable shopping streets of the west end, such as Regent and Bond, are their favorite habitat and society women and girls their chief customers.

The Mail recently sent a reporter the round of the chief professors of the occult arts, and the result was a series of extraordinary mass of ridiculous statements. No two clairvoyants agreed in anything, and the only thing they all had in common, namely, their wonderful and consistent inaccuracy.

Rowmanville, July 10.—(Special.)—About 75 business men of this town, and friends of George B. McClellan, assembled at the Bennett House last evening to attend a banquet given in his honor. For the past seven years he has been associated with the branch of the Standard Bank, latterly as teller, but has resigned to accept a management in the Crown Bank of Canada.

What Might Have Been. The reflection of a furnace in the basement of the Gendron Manufacturing Company at Ontario and Duchesse streets caused a fire scare at 10 o'clock last night and gave the department a useless run on an alarm sent in from box 24.

Use Levee Dry Soap (a powder) to wash woollens and flannels—you'll like it.

Amongst the stylish straw sailors this season the low crown—wide brim—narrow band block has the most friends—it's a block that seems to become most anybody who can wear a straw sailor at all—and when you pick one from those light, cool sennit or split braids you've just about the limit in head comfort for summer—

Straw Sailors—1.00 to 5.00—Special 2.00—2.50—3.00

STORE CLOSING AT 5.30 P.M.

A Clean Stock Sheet.

A clean stock sheet means the proof of a satisfactory half year's business. It means more—there is a feeling of pride about it. We all want the stock sheets to show a simplified, orderly stock, reduced to its very lowest level.
