# CHIEF KEE IS WINNER OF HAMILTON DERBY

Sporting Section The Toronto Sunday World

**Sporting Section** 

30TH YEAR-PAGES 1 TO

TORONTO SUNDAY MORNING JUNE 19 1910

PRICE FIVE CENTS.

## Dyment's Good Stake Norse Captures Hamilton Derby

Sager Was Second and William Pitt Third-Jack Atkin Breaks Track Record in First Race.

HAMILTON, June 18. - (Special.)ilton spring meeting, and was one of Jockey Club ever had. Three trains ple. There were eight races on the

down the stretch. Jack Atkin took the first event easily setting a new track record for three-year-olds, running the distance in 1.11 4-5. The old mark was held by Ethon and Guy Fisher—1.12 1-5.

The fifth event on the card was the Hamilton Derby, Polls and Banives being the only ones to decline to go. The betting opened with Fulfill and Sager at 2 to 1 split favorites. Don Antonio was next at 3 to 1, but was backed down half a point, going to the post favorite at that price. The field got away to a good start, with Detroit first to show. Sager and Chief Kee were close up, with the rest of the field a length or two back. Musgrave, on Chief Kee, began to ride just turning for home, and caught Sager in the stretch-turn, drawing away with a rush, and won going away fast by two lengths. Chief Kee showed a good performance, and was much the best with his heavy impost. Sager ran well, but could not stand off the rush of the winner. Wm. Pitt also ran a nice race, and finished well getting the show money without much effort. Fulfill ran a very bad race, was close up, but tired in the run home, as also did Don Antonio.

Jack Atkin Wins First.

Jack Atkin Wins First.

John Reardon, 107 (Burns)

J. H. Houghton, 100 (Pease)

Geo. S. Davis, 110 (Gullett)

Denham, 105 (Foden)

Stanley Fay, 113 (Ramsay)

Time 1.114-5. Start good. Winne Schreiber's b.h., 6, by Sain. Jack

Schreiber's b.h., 6, by Sain. Jack Atkin was a good horse to-day; got away well, lay second to Denham to the stretch, where he drew away fast; won in a romp by three lengths in record time. Fountain Square closed with a rush; got the place easily from Theo Cook.

Tollendal Wins at Wire.

THIRD RACE-Two-year-olds, five fur ongs: 1 John Pendergast, 111 (Burns)..... 13-

Schorr's ch.c., 2, by Ornament—Genius. Pendergast broke in front; had lots of speed; drew away in the stretch, to win

Chief Kee Wins Derby. FIFTH RACE—Hamilton Derby, fo hree-year-olds, \$2500, 1¼ miles: 1 Chief Kee, 122 (Musgrave).......6— 

Time 2.06 3-5. Start good. Winner John Dyment's b.c., by Alloway—Decade. The field got away to a good start, with a good deal of crowding right after the start. Detroit was the first to show, and set a merry pace to the stretch, with Sager a close second and Chief Kee a length away. They kept this order to the stretch run, where Musgrave made his run with Chief Kee, he drawing away with a rush, and was running fest at the finish. He was much the best. Sager and Pitt were driving hard, too. Fulfill thred.

Belle Kingston Wins Sixth. SIXTH RACE, 3-year-olds and up, sell-

SIXTH RACE, 3-year-olds and up, selling, 5½ furlongs:

1 Belle Kingston, 97 (Ramsey) 5-1

2 Clem Beachey, 107 (Upton) 12-1

3 Catroke, 97 (Pease) 8-1

Bursár, 97 (Taplin) 10-1

Bambro, 110 (Minsgrave) 10-1

Malitine, 97 (Diggins) 10-1

Flying Squirrel, 107 (Davis) 9-5

Big Hand, 115 (Wilson) 40-1

Domithilda, 97 (O'Connor) 15-1

Grandissimo, 107 (Burns) 40-1

Purslane, 110 (Davenport) 20-1

Sir Edward, 118 (McCarthy) 10-1

Sir Edward, 118 (McCarthy) 10-1

Time 1.06 1-5. Start good. Winner, Wm. Walker's b.f., 3, by Kingston—Belle Field II. Belle Kingston broke in front, lead her field all the way, winning ridden ont by length and a half from Clem Beachey. Latter ran a good race, but could not get up; was easily second best. Flying Squirrel ran poorly, had no speed at any part of the journey.

SHEEPSHEAD BAY RESULTS.

year-olds and up, seven furlangs:
1. Uncas Chief, 111 (Dugan), 3 to 1, even and 1 to 2.
3. Folile Levy, 118 (McGee), 7 to 2, even 10 and 2 to 5.

Time 1.26 2-5. Duke of Ormonde, Raebourn, Metaphor III., Bang and Montcalm also ran.

2. Governor Gray. 3. Bebby Boyer. Time 1.00 3-5. GRANITE TOURNAMENT

Results of the Doubles Played on Saturday.

The Granite bowling tournament finished up Saturday with the doubles, the following being the scores:

Hurst 16. Ratcliffe and Rennie (def.) 10, Barker Buffalo: Ratcliffe and Rennie (def.) 10, Barker and Ormstead 12.

McIlwraith and Fairhead 12, Corrigan and Rutherford (def.) 19.

Lennox and Hopkins 7, Grant and Duncan 16.

Boisseau and Ryan (def.) 7, Hamill and Sunday games—Toronto at Providence, Buffalo at Newark, Rochester at Jersey City. Pendergast broke in front; had lots of speed; drew away in the stretch, to win by two lengths going away. Decency outgamed Muskmelon in a drive. Red Wine shut off early; showed little speed. John Dillon at 10 to 1.

FOURTH RACE, steeplechase, selling, tyear-olds and up, about 2 miles:
1 John Dillon, 148 (Ryan) 10—11
2 Nate B, 148 (Stone) 5—1
3 Stellaland, 138 (Bryant) 15—1
— High Hat, 140 (McKinney) 7—1
— Marksman, 153 (Simpson) 5—1
— Mill Work, 138 (Lucas) 30—1
— Impertinence, 146 (Pemberton) 20—1
— Dr. Heard, 158 (Cochrane) 12—1
— Dr. Koch, 158 (McClain) 8—1
— Ted, 158 (Grantland) 30—1
— Expansionist, 158 (Hughes) 5—2
Time 4.19. Start good. Winner Clyde Gallenas' b.g., a, by Maceo—Merry Nell. John Dillon jumped and ran a good race, had all the speed. Nat B. closed up well in the stretch drive, but could not get up; was an easy second, ten lengths in front of Stellaland. The first five were the ouly ones to finish, the rest either fell or refused.

Chief Kee Wins Derby. Knox 17.

No Buoquets For Governor

In forbidding the Jeffries-Johnson prize fight, only after the promoters had expended thou-sands of dollars in preparation for the event, and after many lovers the event, and after many lovers of the fistic game had arrived, or started for the field of battle, Governor Gillett of Colifornia has shown himself to be weak and vacillating. He yielded to clamor after it had been given out by high officials that there would be no interference. Consequently he deserves no encomiums for up-holding the law.

But the action of the governor

may show just how far the plug-uglies who are scheduled to pummel themselves on July 4 are in the contest. Years ago "Chawlie" Mitchell and John L. Sullivan, in order to pull off a contest, which carried with it a purse of a few thousand dollars a side and the championship belt, were forced to charter a tug, which carried them to a small island in the Seine River, where they belted each other for several hours in a vain effort to decide which was the better man. Later the same Sullivan and Jake Kilrain stole away to a corner of a southern state, where they pitched a ring in a field, far from the madding crowd, and settled the

Nowadays, however, a prize fight for a title or a purse could not be decided without the aid of a moving picture machine. The big end of the receipts for the fighters is the profits of the cine-matograph. If a single blow should put one of the contestants to sleep, the pictures of the battle would not be worth a copper to the fighters, so the contests are strung out till the camera has enough of it to put the pictures on

In the last issue of The New Quarterly Review the sixth instalment of the "Note-Books of Samuel Butler," author of "Erewhon," contains the following very remarkable story:

A friend of mine, when a young man of about five-and-twenty, one day tore the quick of his finger nail—I mean he separated the fleshy part of the finger from the nail—and this reminded him that many years previously, while quite a child, he had done the same thing. Thereon he fell to thinking of that time, which was impressed upon his memory partly because there was a great disturbance in the house about a missing five-pound note, and partly because it was while he had the scarlet fever.

Following the train of thought aroused by his torn finger, he asked

BERLIN, June 18.—An inhuman tragedy is reported to have taken place in Albania in connection with the shooting of a rebel. According to a message from Constantinople, an Albania of good family, who had joined the insurgents, was captured and was ordered to be shot.

Among the firing party from Uekub was the son of the condemned man. He demanded to be released from the duty, but the Turkish commander forced him to remain with the squad. But when the order to fire was given the son aimed high in the air, and his father fell shot by the remainder of the son aimed high in the air, and his father fell shot by the remainder of the son, and he was marched off to the military prison, where he hanged himself.

The officer in command was subequently transferred to another garrison.

All this time he was rapidly acquiring the reputation of being a lunatic thruout the whole house, but the key was brought, and by the help of it he got the nut off. When he had done so, there, sure enough, by dint of picking with his pocket-knife, he found the missing five-pound note.

O. R. A. MATCHES

Program Includes New Trophy Offered by President Osler.

The program for the 1910 matches, which will commence on Aug. 16 next at the Long Branch rifle ranges, will be issued about July 1. The sum of \$400 has been added to the various competitions, the total cash prizes amounting to \$6200, in addition to various trophies, cups and medals.

The principal changes in the program are the addition of the president's match for a valuable trophy donated by the president, E. B. Osler, M.P., for tyro teams making the highest score in the militia aggregate match; the Lord Roberts and Earl of Meath imperial competitions for pro-vincial teams of cadets under sixteen years of age, and special cash prizes for such cadets.

for such cadets.

A general contribution to the tyro match has been given by the corporation of the City of Hamilton, and this match will now be known as the City of Hamilton match.

The committee has recognized the principle of the rear aperture sights, which were such a great success at Bisley last year, and have authorized the use of the Birmingham small arms, London small arms and Wesley Richards sights, also the bridge and extension thereto, attached to the Ross

Any sights and extension bridges other than those mentioned which competitors may desire to use at the matches must be deposited with the secretary, Capt. A. A. Miller, at Toronto, not later than Aug. 1, and must be approved by the council, otherwise they will not be permitted to be used at the matches. Intending competitors

## Federal Ministers Seeking Soft Places

## New Lines at Once Ordered by Board

Roosevelt Home From World Tour

What R. L. Borden and Hon. C. J. Doherty Expect to Accomplish on Their Tour -Something About the "First Lieutenant."

of Mr. Borden's Ontario tour, one might be inclined to ask has anything peen accomplished? What is the po-

What the political situation is might well be asked, with the prime minis-

well be asked, with the prime minister preparing to tour the west and the leader of the opposition scouring Ontario and invading some of the Liberal strongholds. It is not that an election is near, for the Liberal organizers do not expect an appeal to the country before the fall of 1912 or later.

But despite Liberal optimism the government is apprehensive of the result of the next election, and it is altogether probable that several cabinet changes will ensue before then. Hon. A. B. Aylesworth's retirement is looked for after the sessions of The Hague tribunal, and there is little doubt that Hon. L. P. Brodeur will also disappear from the political stage in the fall.

Hammering at Government.

in the fall.

Hammering at Government.

Meanwhile the Conservatives are alert. Mr. Borden is hammering insistently at the government's record, alternating in his address between the naval program, the increased expenditure, the general acts of mal-administration, the Quebec bridge, and finally what he calls that "colossal blunder," the National Transcontinental. it clear at Aylmer last Friday that it will be convenient for the Grand Trunk Pacific to refuse to take over the eastern section of the line until the Quebec bridge is finished, and during the intervening period trans-continental traffic can easily be di-verted from the main line at Cochrane er the Timiskaming and Northern Ontario Railway to the Grand Trunk line at North Bay and thence thru Toronto to United States ports. The railway company will also have a loop of paying rental on the eastern section comes up. Sir Wilfrid Laurier's esti-mate of the section from Winnipeg to Moncton was \$13,000,000, taken from "mountains of information," and the indications now are that it will amount to over \$200,000,000. It would not indeed surprise the country to find the rail-way company saying, "We cannot pay a rental on this enormous cost. Your estimate was \$13,000,000, and altho we would not object to paying interest on a capital investment of a million or far. Some adjustment will have to made." Under such circumstances

where would the country be? Where is Foster? is significant in connection with Mr. Borden's tour that Hon. C. J. Doherty, ex-judge of Montreal, has been chosen as the Conservative leader's first lieutenant, and thruout the whole week no reference whatever has been made of Hon. Geo. E. Foster, whom Liberals all over the country

The contrast between the two men is striking. Trained for many years in the practice of law, expressing the calm judicial temperament characteristic of a learned judge, Hon. Mr. Doherty is a speaker of unusual type. He talks to his audience in a deliberate way; his style is more conversa-tional than declamatory, and flights of rhetoric are left to the more vola-

believe is on the eve of retirement

his speeches are tempered with a fine vein of humor, with subtle suggestions and anon with pointed sarcasm that render the effect on his hearers most lasting. Not unlike Hon. J. J. Foy, attorney-general, in appearance, every speech last week was upon the subject of social and political purity. Without personal aspirations, he declared that his purpose in entering public life was to assist in re-estab-lishing those traditional standards of henesty and fair dealing that Canadians have learned from their fore-

Modest Irishman. Hon. Mr. Doherty is modest, almost shy. At the different receptions given to the Conservative leader last week he has always remained in the background, and when traveling from town to town he seeks a quiet place in the smoking car where he can be alone with his thoughts. One peculiarity
Judge Doherty has in speaking is the
use of long parenthetical sentences.
Frequently after a longe preamble,
which he has modified or amplified
with almost level excellent to get with almost legal exactitude, to get his precise meaning, he will pause for some seconds searching for the exact word with which to clinch the argument or drive home more effectively the market until the later Grimsby the market until the later Grimsby ment or drive home more effectively the point he is seeking to make. His ideas are lofty and well expressed. He exhorts his hearers to have Canada known the world over as a country where the standards of public and private responsibilities are high and sowhere the standards of public and private responsibilities are high and social rectitude is an essential.

There is no an accountry the lake.

Clarkson and Oakville growers advised The World Saturday that in tendays they will be ready to make heavy

There is none of the fiery invective or the incisively bitter phrases that have allenated from Hon. Mr. Foster the affections and sympathies of those

## Leader Borden and Lieutenant Doherty

They Are Holding a Series of Political Picnics in Ontario.

R. L. BORDEN, M.P.: Not less than ten millions of the people's money have been squandered or stolen each year.

What does the government propose? A small fleet of unarmored cruisers, not one of which could take its place in the battle line, and every one of which would be obliged to seek the powerful protection of a New Zealand or Australian Dreadnought in the presence of a battleship or armored cruiser of the enemy. As a fighting force the proposed navy is therefore practically useless.

Canada should stand before the world as a

country which expected from its representatives in public life, honor, honesty and straightforward, open dealing with those they represented. In our leader we give you all that. In fact, his name is so synonymous with that principle that I feel I am wasting time in speaking about it.

# ONTARIO CROPS LOOK GOOD.

, The crop situation in Ontario to-day is encouraging, especially in the neighborhood of Toronto. Fall wheat is heading out in a great many places; the clover crop is fairly good, excellent in some places; there is lots of pasture for cattle, and oats and barley seem to be coming on all right. Root crops have also had a fair start, and turnips and mangels have broken thru the ground without being hindered any from a top crust. Rain now would do no harm.

# BUILD AT ONGE BODY FOUND IN A

## Canadians Join in Welcome to Teddy

When Teddy comes marching home again, Hurrah! Hurrah! We'll give him a jolly good welcome then. Hurrah! Hurrah!

Look who's here. It's Teddy, back from the jungle and from the places of Europe, where he hit only the high spots.

The United States, which is his home, and the continent of North

America which owns him, welcome him back. Canada, being a part of the continent of North America which owns him, joins in the welcome.

Three cheers for Teddy!

The Great Republic hasn't been doing so well since he left off running its affairs to go after the wild beasts of Africa. The Brobdingnagian president whom he put in his place till his return is a nice fellow and all that sort of thing, but he won't do for the job.

"He's my president," Taft is reported to have said to a caller recently, and he spoke for a whole lot of the people of the United States. Roosevelt (for that is the gentleman's name) is the most spectacular figure in the life of the United States. We like him as a man and as a state of a great country and that is now The Sunday World is gains to

ruler of a great country, and that is why The Sunday World is going to make a suggestion, which is this:

Let Mr. Roosevelt come to Canada. He ought to get acquainted with Canadians, and the Canadian people ought to see him at close range. It would be a great thing to have Mr. Roosevelt take hold of affairs at Ottawa for a spell, but that is not likely to eventuate, and the next best thing would be to have him come over, meet the people, and talk to them. He would be bound to say some things that some people would not like to hear, but we would be better for the visit.

Mr. Roosevell, come over into Macedonia and help us,

EX-PRESIDENT ROOSEVELT IN MUFTI.

## SUNDAY WEATHER

Generally fine and decidedly warm; local thunderstorms.

## A RETROSPECT.

June 19, 1721: Great fire in Montreal. The intendant granted the monopoly of carrying the post, from Quebec to Montreal, to M. Lanouiller; it was the first regular post service in Canada. June 19, 1842: Shanghai taken by

June 19, 1858: Gwalior in India re taken by British army.

New York Goes Wild Over Reception to Roosevelt-Fifty Ships in Line — A Monster Land

Parade.

(Special to Sunday World.)
NEW YORK, June 18.—Theodore
Roosevelt came home to-day. He was
riven an enthusiastic reception with

given an enthusiastic reception with booming guns and cheers both on land and water, taking part in an imposing marine display and paraded thru the streets of New York.

Immediately after landing he pledged himself to put his shoulder to the wheel and help solve the problems that confront the United States. He uttered no word as to whether he would support the administration or insur-

Mr. Roosevelt was extended to him while he was still on the water.

There was one faint cheer as he stepped ashore.

There was one taint cheer as he stepped ashore.

The formal reception at the battery was imposing. With tens of thousands cheering, Mayor Gaynor was escorted there by a squad of 90 mounted police, one of whom carried the mayor's flag.

The mayor addressed the returned traveler, and then Col. Roosevelt replied briefly.

do my part, so far as I am able, in helping to solve problems which must be solved if we of this, the greatest republic on which the sun has ever shone are to see its destinies rise to the high level of our hopes and its opportunities.

"This is the duty of every citizen, but it is peculiarly my duty, for any man who has ever been honored by being made president of the U.S. therefore forever after is rendered the debtor of the American people, and is bound thruout his life

Continued on Page 2, Column 3.

**Expect to Have Trains Running** by Next Summer-Have Also Power to Operate Boats on the St. Lawrence.

OTTAWA, June 18 -- At a meeting of directors held here to-day, it was decided to go ahead at once with the construction of the Ottawa, Rideau Valley and Brockville Railway. The line will run from Brockville to Ottawa by way of Algonquin, North Augusta, Merrickville, Burrits Rapids and Manotick.

Manotick.

The line will probably be controlled by the Grand Trunk or some other of the big lines. The survey work will start at once, and it is the intention to make a beginning on the construction of the line this fall. It is hoped to have trains running next summer. The company also has the right to operate boats on the St. Lawrence, and an effort will probably be made to divert fort will probably be made to divert much tourist traffic to Ottawa.

## Q.O.R. Church Parade

Ex-members of the Queen's Own will muster at the Armories at 2 p.m. to-day, and present members at 2.30 for divine service on the University lawn.

Route of March—University-avenue to Queen, to Spadina, to College, to University Crescent, to University lawn. Return thru the east gate and north of Parliament Buildings, south on the east side of the park and University-avenue to the Armories. In case of bad weather, the service will be held in the Armories.

The order of parade will be: Ex-members' band; general officers, colonels and lieutenant-colonels who are ex-members of the regiment now members of the regiment now members of other corps, in 'uniform; '66 Veterans; other members who served prior to 1872, in order of their former companies; Battleford Column N. W. F. F., 1885; other ex-members of the regiment in order of companies in which they served, 1872-1910; Queen's Own' Riffes of Canada.

## THE BAY TRAGEDY

Mabel Melrick (on right) and her sister, Miss Emma Carlaw, who lost their lives on Friday night when their launch Cecilia collided with

### TOVELL-MASSEY.

Dr. and Mrs. Tovell, Toronto. se bridegroom's father read the marage service, assisted by the Rev. Dr. errin, uncle of the bride. The floral corations were carried out with high dian brass stands and vases filled th Bermuda lilies and connected with wide band of lilies of the valley, hich made a lane of exquisite flowers m the top of the house (where the agnificent presents were displayed) where the ceremony took place in e drawing room, where it cudminatd in an artistic background of palms tall lilies, in front of which there ras a stool with two white satin cushis on it for the bride and groom to played Mendelssohn's wedding music antil 11.55, then a quartet sang the idal chorus from the "Rose Maiden." ne bridal party was preceded down e stairs by the ladies' trio, Mrs. Dilth, Mrs. Kleiser Payne and Mrs erry, all dressed in white and singing bridal chorus from Lohengrin. During the service the quartet sange. The Voice that Breathed O'er Eden' id chanted the Lord's Prayer, the iss Massey was given away by her icle, Mr. Chester Massey. The youth. ful bride looked lovely in a princess fown of como satin, with yoke and garniture of Brussels point lace and corsage bouquet of orange blossoms. The Brussels applique lace vell full over the train, being fastened away from the face with small bouquets of

orange blossoms. She carried a shower bouquet of lilies of the valley and wore a diamond pendant, the gift of the groom, and a string of pearls from her mother. Miss Rita Ellis and Miss Joy Denton were the bridesmaids, dressed alike in water green crepe do chene, with tunics of gold net bordered with gold emproidery, large hats with full crowns of gold net and lace with bunches of lily of the volley. They carried baskets of lilies, which, with their pearl set pendants, were the gift of the groom. Mr. Lawrence Whittemore was best man, and received gold links from the bridegroom; he gave the ushers, Mr. Richard W. Harcourt, Mr. H. Leston Carter (Boston), Mr. Mur-ray Wrong, and Mr. Cheever Scott, scarf pins set with pearls. Mrs. Massey held a reception after the cere-mony, at which she wore a gown of black poplin with tunic of chiffon embroidered with silk jet, with yoke and sleeves of black late, and carried a bouquet of orchids. The dejeuner was served at small tables, after which the

dress of embroidered tan crepe and hat to match with wings. Mr. and Mrs. Tovell left by the afternoon train for New York. NO WATER IN THE WELL.

bride changed her gown for a traveling

Independent of His Cistern. Once upon a time a man went into the country to live, and when he had located he found himself in the midst of a drought and with a tin cisterr

Suburbanite Fails in Attempt to Be

filled with muddy water as his only scurce of supply.

He thought and thought, and finally decided to dig a well. There was a depression in the ground that might might not have once been a well, and this he purposed to excavate.

With some labor he procured the services of two negroes, and had the

satisfaction of seeing them swiftly throw out soft dirt until one was far below the surface of the ground. Then the man in the country went blithely to town to attend to business and thereby make enough money to

pay for digging his well. Ere he departed he said to one of the negroes:
"Now, don't you come out of there until you strike water." "No, Suh!" grinned the negro. don' wan' come twell I hits watuh."

To the other he said: "Hear that, don't you? Well, don't you let him out of there until he rikes water. Yessuh," said the negro. "I'll keep veston News.

MORE VALUABLE TO U. S. SAYS TAFT OF ROOSEVELT.

In view of what happened when he (Roosevelt) reached civilization, those of us who had the privilege of talking with him before he went can afford to have some fun at his expense in his frequently avowed determination to avoid all public functions and entertainments. He expected to call on the persons in authority in each place which he visited, to have half an hour's conversation with the ruler if he would receive him, and then to go on his way like a private citizen, seeing the things of interest and hurrying home.

Instead of that, his path from the time he landed in Europe until he sailed has been a royal progress, and this courtesy and attention and profound respect shown him, not only by kings and the leading men of every country, but also by the people, have not been equaled since Grant made his tour about the world. This is the more remarkable because Grant had the deserved reputation of being a great military leader who had commanded a million men and won a war of gigantic extent; while Mr. Rooseveit's achievements which have given him the standing before the world have been almost wholly in peaceful times, and in a war against civil wrong and corruption, which ordinarily is not spectacular and does not command world-wide attention.

The remarkable character of the reception that he has had in Europe shows the deep impress that his personality, his character, his aims and his methods as a civil and aims and his methods as a civil and social remormer have made upon the world at large. He was always, of course a man of great breadth of vision and catholicity of view; but he comes back to us now with his experience enriched by observation of each country of Europe from a point somewhat behind the scenes. With his notable power of quick acquisition of the cfroumstances of a situation, his close and more or less intimate association with the rulers of the leading countries of Europe and with their

with the rulers of the leading countries of Europe and with their prominent statesmen has given him an insight into world politics that will make him still more valuable to his country as a statesman.

The people of this country will give him a welcome from their hearts, first, because of their affection for him and the fact that he has returned to them safe and sound from a perilous expedition: second, because since he left them they have seen the people and the great men and the monarchs of other countries tender their profound respect to the same qualities in the man that his own people had previously noted and loved; and, third, because by his personal touch, the sincerity and strength of his deliverances, he has increased the world.

William H. Taft.

About neon the man-in-the-country went to his city telephone in answer

"Dishea's Bill," explained a voice. "You tol' me not to let dat nigguh come out de well. Well, he wans't t' come out. "What's the matter with him?" asked the man.

"He's done struck a' ol' stick o' dynamite down dah."
"Tell him to throw it out and go ahead," said the man; "he's got to get water before he comes out." In about an hour the phone rang again

"Dishea's Bill," said the same voice. "Dat nigguh want to git out wuss

"What's the matter now?" asked the "He done foun' free mo' sticks o' dannymito," said Bill, "an' he's tryin'

' climb up de wall. "Throw rocks on him," said the employer excitedly; "poke him with a spade. Anything to keep him there."

A short time later Bill called again.
"Yessuh. Dishea's Bill ergin," he said. "Hit twarn't no use. No, suh. Dat nigguh foun' a couple o' bones down dah' vessuh. down dah; yessuh. He low dey wuz

man bones, and he come out lak er buzzard, an' I reckon he's still flyin'." "Did he find water?" asked the man anxiously. "I dunno, suh," said Bill. "I ain' goin' nigh dat well. No, suh!"-Galstand of the land festivities.

Continued From Page 1. to remember this as his prime obligation, and in private life as much as in public life so to carry himself that the American people may never have cause to feel regret that once they placed him at their head."

The Land Parade. With the end of the ceremonies at the battery, the police cleared a way along the western edge of the enclosure, and Mr. Roosevelt passed thru the court of honor, accompanied by Mayor Gaynor and Cornelius Vanderbilt, the latter as chairman of the recention committee to the first of the

bilt, the latter as chairman of the reception committee, to the first of the waiting line of carriages.

Major-General Charles F. Roe, under whose direction the parade was, clattered about on horseback a bit, gave a few orders, scanned the line, and then signalled his bugler. Over the hum of the crowd the notes of the bugle rose clear, and the parade thru the heart of the nation's metropolis was off, with Mr. Roosevelt bowing right and left.

WELCOMED BACK TO

Welcomed Home. With the guns of two forts and a battleship booming out a salute, Theodore Roosevelt came into his home port to-day after an absence of 15 months, during which he journeyed more than 26,000 miles.

26,000 miles.

It was just 7.40 a.m. when the liner reached quarantine, and the Dolphin, yacht of the secretary of the navy, swung alongside, bearing, besides Secretary Meyer, Secretary of Agriculture Wilson—the two members of the cabinet who served as Mr. Roosevelt's advisers—and Capt. Archibald W. Butt, aide to President Taft, and formerly aide to Mr. Roosevelt, bearing a letter from the president to his predecessor.

Every craft in New York waters, an

Every craft in New York waters, and many from foreign ports, in the lower bay, had dressed ship and flags were a-flutter, as the liner moved majestically to quarantine for the official greeting from the nation.

Along the west waterfront of Manhattan and Brooklyn thousands and thousands of persons were banked to catch a glimpse of the 15-mile water parade from quarantine up the bay and parade from quarantine up the bay and the North River to 59th-street, and then back to the battery at the lower tip of Manhattan Greets the Boys.

Peering over the raff of the Kaiserin, high above the smokestack of the Manhattan, stood the former president, surrounded by members of his party, getting his first taste of the splendor arranged for him.

For the moment he was not the man

of the day-he was a man of family back from a long trip. Archie he saw first, piping shrilly and

shaking a handkerchief and his hat.

Leaning far over the railing Mr.

Roosevelt called in a stentorian voice,

"Hello, boy!" Then he made out the other waving

stripling below as Quentin. "You look bully, Quentin," was his And the lads yelled back together.

But the smile that they got was dim-compared with that which the ex-president gave to a pretty girl clinging to the arm of a robust young man. She fluttered a dainty handkerchief as Mr. Roomvelt bowed.

She was Miss Eleanor B. Alexander, who on Monday becomes the bride of Theodore Roosevelt, jr.

The start of the marine parade was made to the screeching of whistles which bore the message to Manhat-

tan's crowds, a mile away. The Androsscoggin swung around in a business-like manner and then forged

ahead, passing between the two files of Fifty Ships In Line.

When the great ships started on the long course, there were more than 50 in line. First went the revenue cutter Patrol, followed close by the puffing police launches, Nos. 1, 2, 3 and 4. The cutters Calumet and Hudson and the steamers Manhatton and Owlet followed, preceding the navy contingent.

First the U. S. S. Dolphin, seemingly the pilot of the towering Dreadnought South Carolina, business-looking from the waterline to the tops of the openwork masts. Snaking along in her wake came the five torpedo boat de-

stroyers, their low, free boards and rakishness emphasized by comparison with the battleship.

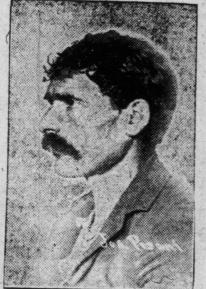

Then came the heart of the paradethe revenue cutter Androsscoggin, flags a-flying, gay and bright, bearing Theo-

dore Roosevelt and citizens' reception Behind came the revenue cutters Seneca, Mohawk and Manhattan, bringing up the rear of the govern-

ment ships. Commodore Dalzell was in the van of the merchant fleet, on his flagship, the Dalzelline.

The 12 divisions of this section extended in a mighty string for miles. In the first division, the Albany, bearing the Republican Club of New York, led; with the Commodore, chartered by the Hamilton Club or Chicago, Nashua, carrying the Roosevelt neighthe Hamilton Club of Chicago, and While the head of the procession

was not yet abreast of Manhattan, the ships not officially placed fell out and ran back to Manhattan that their passengers might hurry to the grand-

# LANNING A HOME?

HINKING of moving into a snug little cottage and furnishing it up just as you have planned for years? Thinking of the expense, too, probably. Pshaw! If expense is all that is keeping you from enjoying life as nature meant you to enjoy it—if you want a cosy home, yet don't like to disturb the bank account—just come right down to-morrow and select whatever you want. See how very, very easy we'll make it for you, with our smallest of cash prices, and most liberal terms of credit. You'll have to pay car fare to get out of the high-rent, high-price district, to be sure-but you'll not mind that after we have quoted our prices, and told you how very small the payments will be.

## THIS HIGH-CLASS THREE-ROOM OUTFIT COMPLETE

THE BEDROOM

Consists of Colonial dresser and cheffonier in polished manogany or golden quarter-cut oak finish, brass bed, square design, massive style, or Colonial bed to match furniture, two chairs and one table to match dresser and cheffonier, fine steel spring and felt mattress, beautiful rug in floral or Oriental design, and electric or gas fixture.

## THE KITCHEN

# O, JOY, IT'S SUMMER NOW!

Made - to - Order Suit

No More--No Less

The really-real Summer has been a long time coming, but it is here now in real earnest, and the only way to make it enjoyable is by wearing light clothing.

You require a light Fabric Suit of all Scotland Wool. We handle the product of the Scotland Woolen Mills, than which there is no better. We have recently received another splendid shipment of these goods, and we can confidently place it to advantage against any other you will find elsewhere.

You may select the cloth from the thousand of yards now on sale in our Toronto Store, and we will guarantee to fit you. If you are not satisfied a legal guarantee returns your money to you.

OUT-OF-TOWN MEN: Ordering with us by mail is as easy for you as if the measure were taken by our own cutter. The chart and the instructions positively insure that your measurement will be properly recorded. Write us for book of samples and for sample plates.

OUR NEW MAGAZINE: We have just issued a number of our splendid magazine. It contains some very useful information on general subjects, besides giving some particular hints on how to dress for different occasions, and what is new thereon in Paris, London and New York. Drop us a postal-the magazine is free.

THEY'RE A QUEER LOT. Always Something New Goming Out About Razor-Back Hogs.

The group on the porch was talking about razor-back hogs, and the store-

keeper was telling a story:
"There was a felter travelin' thru
here," he said. "He was a stranger !n these parts. One day he came across a bunch o' hawgs that had big slits in their ears. He figgered at them slits. They was too big for brands. What else could they be? After a bit a native came down the trail. 'Jess lookin' at them hawgs,' said the stranger. 'You was,' says the native. 'D'ye min' tellin' me what them big slits in their ears is fer?' says the stranger. 'Noot at ears is fer?" says the stranger. 'Noot at all,' says the native. 'Have you noticed these hills?' 'What d'ye mean?' 'Noticed how steep they is?' 'Yes. I have.' 'Wal,' says the native, that's it. We have to put them slits in the hawgs' ears so they kin stick their hind legs thru 'em an' rough lock themselves down these hills to keep from killin' themselves."

car the other afternoon. Also she wore a dark, spotted veil that gave an air of mystery to her appearance.

The conductor, when he looked up casually from his work of jotting down the trip statistics on a heavy manhia card, saw her watching him furtively, stealthily. From him she would turn her glance toward the other passengers to make sure she was not observed.

from killin' themselves.' there, too. He saw a drove o' razor-backs carryin' on mighty queer. There was about 20 of 'em, an' they acted like they was crazy. They would run He became really alarmed. Perhaps

like they was crazy. They would run fust to one tree an' then to another, tryin' to climb it. Planted square across the great sound disturbs the peace of the balmy vaterway that forms the eastern portal to central Canada is a triangula Not a Paradise.

It would strain the most fertile im-agination to picture this sea-girt in-dependency as a paradise. The most absurb claims on behalf of the country have been misrepresented by he much-criticized "Maple Leaf" with the much-criticized "Maple Leaf" with more than usual poetical license. Perhaps when the author wrote of "the fair Dominion" extending "from Cape Race to Nootka Sound" he considered Newfoundland one of the federated provinces in posse, if not in esse. It is the kind of faith, though, that has to wink at some very emphatic contraindications for "confederation" in Newfoundland is always a plank in the platform of a party anxious to qualify foundland is always a plank in the platform of a party anxious to qualify for political martyrdom. In the recent colonial election Sir Robert Bond charged his opponent, Sir E. P. Morris, same general character as that of those portions of the North American continent in the same latitudes, minus the

colonial election Sir Robert Bond charged his opponent. Sir E. P. Morris, with intent to railroad the country into union with Canada. The accused emphatically repudiated the charge, alleging his innocence in a affadavit made out in due legal form, Moreover, he proved so conclusively to the electorate that Sir Bobert himself had been doing all the "plotting" along that line that the Bond party was completely snowed under when the ballots were cast, their former majority of twenty being changed to a minority of about the changed to a minority of about the is seen same number. So the "Maple Leaf" places the Atlantic boundary of the Dominion a trifling five hundred miles stoo far eastward. The "isle of fish and fog" still remains a separate and self-important entity.

What Was Left. The geologist of the colonial govern-ment alleges that the make-up of the island is one of the most ancient. Acisland is one of the most ancient. According to Indian tradition, the Great Spirit dumped the forty-odd thousand square miles of territory at the mouth of the St. Lawrence as so much undestrable material ofter he had liked sengers scattered over a Shaker Lakes workable material, after he had licked the American continent into shape.

is seen of the dense fogs that prevail on the great banks over one hundred miles distant from the Newfoundland

box-stove fired-up. Religion.

Religiously, the pupie are almos. eveniy aivided between Anglicane; noman Catholics and methouses. the capital city of St. John's, the various churches possess some nne brick and stone buildings, while every smaller town has also two or three well-built wooden church structures. Religious activities meet with the same great difficulty as educational workthat of keeping in touch with
the scattered population. The clergy
do most of their travelling
in boats, on snow-shoes or by dogteam. One Anglican missison in Newfoundland north includes three

hundred miles of coastline and one of the incumbents tells of having to swin unbridged rivers in the summer months when the boats were all too busily engaged in fishing operations to ferry him from place to place.

Folk-lore.

Closely bound up with the religion of the people is their folk-lore. Probably some of the mysticism of the great ocean has cast its spell on their characters. They are superstitious to an extreme. "Tokens" or revelation from the departed are cardinal article Ghosts parade the graveyards or haun stormy night. The call of the loon, the bay of the dog or the fight of the crow, in the minds of the older folk. the ecstacles of soul-stirring revivals; they confidently believe in clear-cut they confidently believe in clear-cut revelations of the unknown—are really spiritualists of the most confirmed type, altho in a different sense from that in which the term is applied in the cities—it is, therefore, but natural that they should constantly "see visions and dream dreams" visions and dream dreams."

No Politics. The average Newfoundlander is a bitter partisan, but he has no politics, if by that term we mean clear-cut election campaigns along the line of convictions on well grounded political principles. The campaigner who is most apt at inventing "catch-cries" or people must necessarily remain low. most apt at inventing "catch-cries" or designing cartoons has generally all the fortunes of the electoral war on his side. During a campaign the party newspapers become absurd alarmists, side. During a campaign the party newspapers become absurd alarmists, forsaking all reason and logic to make an impression on the electorate favorable to their particular parties. Sectarian slogans and the "no confederations of the electorate favorable to their particular parties. Sectarian slogans and the "no confederations of the electorate favorable to their particular parties. Sectarian slogans and the "no confederations of the electorate favorable to their particular parties."

tion" catch-cry always figure largely and effectively. Past records are conveniently forgotten and the man of proved statesmanship goes down without mercy when some demagogue persuades the intelligent electorate that the country needs "a change." It rests with the newspaper press of the colony to inaugurate a new era in Newfoundland politics. While, how-ever, they persist in conducting their

## Artistic Oriental Articles

## Wedding Presents

If you stop to think how much you have admired the touch of quaintness given by an artistic article of Oriental Brassware when you saw it in a friend's house, and how much you have wished you had a decorative piece like it for your own home, you will realize how much a bride would appreciate the same thing as a wedding gift. This is the leading Oriental store of Canada. Its assortment of brass goods and rugs is unequalled. Here is a list of suggestions for Wedding Gifts, ranging in price from \$1.50 up to \$75.

## Treasures King George Inherits

Over Five Tons of Gold Plate Which Now Belongs to New Monarch is Used at State Banquets.

Both Windsor Castle and Bucking- plates. The latter are of pure gold.

Relics From the Spanish Armada. ham Palace are overflowing with treasures of every description-plate. pictures, jewels, statuary, books, and relics of enormous historic value. When our late King came to throne he found valuables of all kinds locked away, undisplayed and uncata-

-worse than all-absolutely unprotected from fire.

During his all too brief reign King Edward effected a complete revolu-tion. In the first place he installed

The value of the plate alone which King George inherits is almost inestimable. The so-called gold pantry and a magnificent emerald hangs from at Windsor consists of two large fire-proof store-rooms in which is kept plate of an estimated value of £1,750,-

The gold plate which is used for state banquets weighs over five tons. It is not, of course, all solid gold. If

There is not much ancient English plate in the gold pantry. Charles I. melted down all the plate of his day and coined it into money. But there are some exquisite foreign pieces. among them a great silver flagon taken from the flagship of the Spanlus" Cup, made by that master of the art, Benvenuto Cellini. There is a

shield by the same great Italian, and the wonderful gold tiger's head taken royal residences, in the second he put in every possible appliance and arrangement for fire fighting, and after that extended the royal library, inspected the gold pantry, and had all the various treasures of the two palaces properly inventoried and discontinuous control of the wonderful gold tiger's head taken from Tippoo Sahib's throne after the storming of Seringapatam in 1799. This tiger's head is a marvellous work of art. It is life-size, and its teeth and eyes are cut out of pure rock crystal. Another relic cantured called the "Uma." In shape it is like a pigeon, with a peacock's tail.

> its breast. According to an old Indian legend, whoever owns this bird will rule India. There is also a shield formed of snuff

boxes and valued at £9000, and a great quantity of beautiful cups and salvers, among them a rose-water fountain of the larger pieces were gold they would silver designed by the late Prince Conbe too heavy to move at all. Some of the epergnes take four men to lift. These are of silver-gilt. It takes one man to carry two dishes or eight treasures of plate, and also the jewels

which are locked in another underground safe. These jewels have, of course, nothing to do with the crown jewels, which are kept in the tower They are the private property of the royal family. Queen Alexandra's personal jewelery is of immense value, and for precaution's sake has, we believe, been all duplicated in paste. Windsor Castle is not the place for the enterprising burglar to "a-burgling." There is an old law, still unrepealed, which enables the reigning sovereign to put to death any person or persons thru whose careless-ness any of his gems may be lost. What would happen to a burglar nos

shudders to contemplate. Windsor Royal Library. The royal library at Windsor contains over 100,000 volumes, among them many that would fetch enormous prices if put up to auction. There is a Metz Psalter for which a collector would sell his last stick, a Charles I. Shakspere, a magnificent Caxton on vellum, and other treasures too num-

erous to mention.

Below the library is a room containing one of the finest collections of prints in existence. These alone would probably fetch fifty to seventy thous-and pounds if sold. In the same room

gold given by a number of Rajahs. There is no reigning monarch in the world, not even the Czar of all the Russians, who is master of such an amazing collection of beautiful and valuable objects as is George V. Big Hippodrome for Hanlan's Point

Contracts have been closed with Mr. Lol Soloman of the Toronto Ferry

Company, Limited, by the Canadian-American Amusement and Construction Company to open a hippodroma the same as those now in operation in all large cities in the States, namely, New York, Boston, Washington, Chicago, Columbus, Ohio, and Montreal, Canada. High-class vaudeville will be given twice daily. Nothing but the biggest feature acts, the same coming direct from polo grounds, New York City. At present a small army of car-penters and mechanics are busy build-ing a stage, which will be put together in sections, allowing removal for base-ball and lacrosse games. Watch daily papers for opening.

and pounds if sold. In the same room are no fewer than 20,000 drawings of the old masters and a collection of over 1000 miniatures. The late Queen Victoria collected these miniatures.

Besides all these ancient treasures. King George will presumably inherit the great collection of valuable objects got together by his father. These include the Coronation presents, valuable was found necessary to amputate the hand at the wrist.

## Member For St. Pancras Says Asquith Weakens On Lords' Veto Issue

Tells World Reporter in London That Government Is Not Entering Sermiously Into Fight-Ridiculous Claim That King George Should Be Spared Task.

By Alex Pringle. LONDON, June 7 .- Joseph Martin, M. P., for the St. Pancras division of sympathy with the hesitating proce-

The member for St. Pancras ha as a hobby no doubt than a means of income, as it is generally known that his law practice in British Columbia, combined with certain judicious invest-ments there, placed him out of reach of the proverbial prowling wolf. That he takes time off for recreation is shown by the simplified notice painted on his door "will return," leaving only the day and hour to be added.

Grown Quite Tame.

When I entered his office this morning in answer to his cheerful "come in," Mr. Martin was sitting at his desk the olcture of docility and passiveness picture of doculity and passiveness in marked contrast to the impression of him which I gained while seeing something of his strenuous life in Western Canada. Apparently the air of England had had a tranquilizing effect. I thought of the first time I saw Mr. Martin. It was at a political meeting in Vancouver, where for 15 minutes he smiled in the face of a howling mass of men, who were determined to prevent his getting a hearing; and of how he had defied the audience and an nounced between howls and catcalls that he was there to speak and speak he would, even if he stayed all night. And he did, with the crowd cheering him as lustily towards the end as they had jeered him at the start. I also recalled seeing him being led out of a British Columbia police court between two constables for "sassing" the ma-

But Mr. Martin had not talked long before it became evident that he feels like starting something even in the the talk about "the tru "keeping the crown free from the squabble," etc., is irritating "Fighting Joe." Discussing the fate of the Veto resolution, Mr. Martin said:

resolution, Mr. Martin said:

"I don't think the government are entering seriously into the fight against the lords. Every step that has been taken has been taken under pressure from the Nationalists by whose grace the government remain in power. From the tone of the press now it looks as if the issue will be pressured for a time. And they give postponed for a time. And they give such silly reasons for it. The claim that the matter should be shelved for a time, out of respect for the memory of the late King is utter nonsense, while the plea that the new King should be spared the task of taking up such an important matter so early in his reign is an insult to George V. as it implies that he is incapable. George V. is 45 years of age and if he is not fit to attend to his duties now he never will be. Liberal organs are saying that there is sufficient business to take up the attention of the com-mons till the end of August without the veto measure, but the government were aware of all that when the veto resolution was brought in. It all indicates that the cabinet are weakkneed and that they propose to let the issue slide for a time if allowed

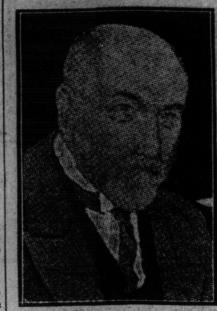

to do so.' Ruining the Party.

"I think they are ruining the Liberal party," Mr. Martin affirmed.

"The issue has got to be faced. It is impossible to get Liberal legislation past the lords who are Conservative,

and something must be done.' Mr. Martin reaffirmed his well known free trade principles. The Conservatives he said would try to introduce the tariff question into the next campaign, but it would be overshadowed by the greater issue con-cerning the lords. They had had the best chance possible at the election to carry tariff reform and had made but an indifferent showing and he thought as times were steadily growing more prosperous in the Old Country there

"FIGHTING JOE"

He's Ready to "Start Something to See Who Is Boss," Says World Reporter in England.

any further headway.

Touching on his life here, Mr. Touching on his life here, Mr. Martin said he found living in England quite to his liking and that there was no possibility of his ever returning to Canada to remain. Questioned as to whether there was much difference between politics in Canada and in Great Britain, Mr. Martin said:

"Oh, yes, there is a great difference. Nineteen out of twenty politicians in Canada are looking for something, but that is not the case here. If it were known in this country that a member was making money out of politics he would be doomed no matter how great his majority.

Canadians a Poor Lot. 'The people of Canada seem soon as they discover a member who cannot be influenced they spend money right and left to defeat him. You never hear of a discussion of a bill to subsidize the C. P. R., or the C. N. R. These companies grease both sides and

"No, the Canadian politicians are a poor lot," Mr. Martin affirmed sighing and folding his hands across his

No Chance for Borden.
On the matter of the Conservative party's chances of returning to power "Fighting Joe" thinks they are very slim indeed. "They haven't any men," he affirmed with emphasis. "There might be some hope for them if they went in for a low tariff, but they are for a tariff even higher than that of the present government. There is a pronounced feeling growing in Western Canada in favor of a low tariff, and the people of the west will have to be reckoned with. After the next census and redistribution the west will have 25 or 30 more members. west will have 25 or 30 more members, who would give tremendous support to a low tariff party. Under the present arrangement the westerners pay more for their goods without receiving any benefit to offset the extra cost, while the manufacturers in the east while the manufacturers in the east gather all the benefits. The west will eventually see the situation in its true light. Americans now entering Western Canada do not care a snap about the Canadian parties, but they can see where the tariff hurts them."

Make the Farmer Prosperous. Mr. Martin expressed decided favor with the proposed reciprocity negotiations between Canada and the United States. He holds that a reciprocity tariff would be highly beneficial to both countries. The United States needed Canadian timber and minerals, and Canada needed cheap goods from across the line. Of course a low tariff, he said, would injure a few industries in Toronto, Montreal and other eastern points, but the country

at large would profit, thru getting cheaper goods and freer access to a great market for its products. "Make the Canadian farmer pros-perous, and Canada will be all right. Farming is the main industry in Canada, and always will be," Mr. Martin

After the British houses rise which it is expected, will be about the end of August, Mr. Martin will spend a few weeks in Canada, going thru to the

ued at over a quarter of a million, and

many Indian works of art, including a wonderful embossed shield of solid

Why Not Play It Yourself? TY THY not be a performer yourself—not ever a mere listener? Why not indulge your OWN taste at will, for music grave or gay, classical or modern sonata, nocturne, caprice or waltz, as you may do with the Mason & Risch Player Piano at command? And—be more than independent of the grace or whim of others—be able to play so beautifully, so expressively, that the severest critic will be delighted with your performance. Why not? In addition to the Mason & Risch Player Plane we have other Players beautiful in tone, superior in co how easily played they are—how easily possessed. Moderate cash payment and a liberal allowance on your present instrument, if you have one, secures your Player Plano. Booklet mailed free on request. # CANADIAN FORESTERS'

Architectural Features of

In this week's illustrated section of The Sunday World will be found reproductions of the handsome facade and other notable features of the building now being erected for the Canadian Forester's Limited. The location is on the north side of College-street, seventy-five feet west of Yonge-street, practically at one of the busiest and most convenient corners of the city, and with transportation facilities that could not be surpassed. This latter fact is of considerable importance especially seeing that the main object of the undertaking is the provision of a hall with all the necessary adjuncts that shall afford a home and rallying place for the close on four thousand men connected with the twenty-four subordinate ed with the twenty-four subordinate courts of the Canadian Order of Foresters comprised within the City of Toronto. The proposal was carefully considered by a central committee, composed of two delegates from each

eport meeting with the full approval

of the Italian renaissance and its ele-gant proportions and balance of line promise to make it the architectural feature of the College and Yonge dis-trict. The ground storey and the top trict. The ground storey and the top storey will be of stone, and the intermediate three storeys of American art brick—a vitrified block which produces a pleasing decorative effect. All the front part of the building on College-street will be fitted up as offices and a prominent bank has already signified its intention of becoming a tenant. From the other enquiries that have been received it is not anticipated that any difficulty will be experienced in getting the offices let at remunerative figures.

enced in getting the offices let at remunerative figures.

The assembly hall is situated at the back and will be seated for 700—500 on the ground floor and 200 in the gallery. It will be finished in mahogany and as there are no pillars it will have the floor clear for dances, receptions and other social functions. In the basement are the supper room, seating from 200 to 300, retiring rooms, smoking room and all other necessary accommodation. On the third floor, and above the hall, are the lodge rooms, the entrance with tiled floor and marble wainscoting will be absolutely fireproof, and the stairway will be absolutely fireproof, and the stairway will

have carefully kept in mind the encouragement of the co-operative principle. The capitalization is \$100,000, in 100,000 shares of \$1 each, and not more than 500 shares can be purchased by any one subscriber. One quarter of the amount subscribed is to be paid on application and the balance in equal amounts at three, six and nine months thereafter. This arrangement is expected to enable every member of the order in Toronto to have some part in the erection of a building which will be a credit not only to Canadian Forestry but equally to the city. It is estimated that the cost of the building proper will be \$50,000, which, with the expense of finishing and furnishing and the original cost of the site, means roundly \$70,000 for the completed structure. The directors intend to issue only \$65,000 worth of stock and the balance will be held in the treasury to meet possible future extensions.

RAISES THE SPIRITS

When you are tired and discouraged it will put new life into you.

Mr. and Mrs. Arthur Samson Jameson were among the popular visitors over for the military ball, and spent a couple of days at the Queen's Royal, with Mrs. G. A. Case and Mrs. Van Straubenzie, Mrs. Jameson looking radiant at the military ball, where she was wearing a very becoming gown of sparkling black jet and lace. Mrs. E. F. B. Johnston and Miss Jessie Johnston also arrived in time for the ball, and gave a small dinner beforehand, their guests including Mrs. Vallancy Fuller, Mr. and Mrs. Richard Walsh, Mr. Norman Paterson and Mr. Harold Scandrett. Mrs. R. W. Millichamp and her sister, Mrs. Gooderham, also came over for the dance, and were with Mr. and Mrs. W. Bright's party, which also included Mrs. Charles Swabey and one or two others.

## DOANE-SPROULE.

On Thursday, 9th inst., Rev. A. E. Doane, B.A., and Miss Mabel A. Sproule were united in marriage at the home of the bride's father, Mr. T. J. Sproule, 54 Shanley-avenue. The bride, who was attended by Miss Gertrude M. Sproule, was becomingly attred in embroidered paillette satin, trimmed with pearls and lace, and carried a bouquet of white roses and lilies of the valley. The bridesmaid wore a costume of pale blue Salome silk with lace trimming, and carried a bouquet of white roses.

Messrs. J. Ferguson and Wilfred Sproule acted as ushers; Mr. Fred Roe played the wedding march and Mr. J. Johnston of Laurell supported the groom.

a white lace gown over satin and the table was most artistically arranged with silver vase of white peonies.

Col Bloomfield Connolly, C. B., and Mrs. Bloomfield Connolly, 20 Wickhamrosd, St. John's, London, S. E., have issued invitations to the marriage of their daughter, Jane (Janie), to Mr. James Edward McCormick Featherstonhaugh, in St. Margaret's, West.

DANCE AT THE QUEEN'S ROYAL

A very successful dance was held at the Queen's Royal, Niagara-on-the-Lake, on Saturday evening, when over two hundred people were present and the floor and music were of the best, the number of officers in uniform present adding to the brilliancy of the scene. Mrs. Cotton was a large of the scene. ent adding to the brilliancy of the scene. Mrs. Cotton was wearing a very handsome black gown and Miss Elsie Cotton was all in white; Mrs. A. E. Gooderham wore a black and white foulard dress with real lace; Miss Elizabeth Lamport wore a becoming black satin and jet gown and Egyptian silver scarf; Miss Gdadys Edwards was in a pretty manya frock. Egypuan silver scarr; Miss Gdadys Edwards was in a pretty mauve frock and bouquet of beautiful orchids; Mrs. Tyson Dines, St. Louis, was in black satin and jet; Mrs. Cecil Gibson, white chiffon gown with silver and pale blue; Miss Phyllis Moffat was in pale blue; Miss Phyllis Moffat was in the last pink shiften and Miss Marion. ## HALLIWELL- NOBLE.

A quiet wedding took place in St. Paul's Episcopal Church, St. Paul, Minneapolis, last Thursday afternoon at 4.30, when Harriet Emma, youngest daughter of Mrs. Emma E. Noble and the late Alex. F. Noble, was united in marriage to John L. Halliwell of Toronto, by Rev. Mr. Thurston. The bride was attired in a dark blue traveling gown, with large black ton. The bride was attired in a dark blue traveling gown, with large black hat, and carried a shower boquet of pink roses and was attended by Miss Helen Gazzolo of St. Paul. The reception was held at the residence of the bride's sister, Mrs. Norman L. Newhall, on West Twenty-sixth-street, after which Mr. and Mrs. Halliwell left for a lake trip; and on their return will reside in Toronto.

William Hayden, to Mr. Donald Waters Douglas, son of Mr. and Mrs. J. H. Douglas, son of Mr. and Mrs. Pritchard presided at the organ, and during the signing of the register Mr. Frank Fulton, sang "Love's Coronation." The church was decorated with a profusion of marguerites, bridal wreaths and palms. The graceful bride was brought in and siven away by her father. She was wearing an ivory duchess satin gown with bodice of Princess lace and seed pearls. Her long tulle veil was crowned with a coronet of orange blossoms and she carrieds, a Parisian shower of roses and illiles of the valley, which, with a diamand cluster ring set in platinum, were the groom's gifts. Mrs. Eigsr W. Paul, sister of the bride, was matron of honor, in pink liberty satin with gold and ivory lace and ivory net hat with pink plumes. Pink bridesmaid's roses formed the bouquet, and the groom's gift to her was a pearl sunburst. The flower girl, little Miss Jean MacAllister, was in white French batiste with hand-made torohon lace and pale blue ribbons. She carried a basket of marguerites and wore a wreath of the same on her hair. Mr. Hughes was best man and the ushers were Mr. Alex, Douglas, cousin of the groom, and Mr. Fred Patterson.

The bridal party and guests drove to the residence of the bride's perents in Euclid-avenue after the ceremony, where Mrs. Hayden held a reception. She was wearing ashes of violet silk and hat to match, and carried yellow rosebuds. Mrs. Douglas was in pale blue foulard with black hat. To the strains of an orchestra the bride and groom received congratulations in the drawing room, which was decorated with quantities of bridal wreath and marguerites. Refreshments were served from a buffet in the house, and in the chclosed garden, after which Mr. and Mrs. Douglas drove away to catch the 5.30 train for Buffalo a

The engagement is announced of Miss Julia B. Moment, daughter of the late Dr. Alfred H. Moment, Raleigh, North Carolina, to Mr. Walter R. Winter, son of Mr. and Mrs. F W. Winter, Toronto. The marriage will take place in New York on the 29th of June.

## IN INDUSTRIAL REVIVAL PLANS FOR IRISH WEEK

From a Staff Correspondent. BELFAST. June 18 .- Belfast has

An Industrial Development Association has been formed in the northport of the local businessmen who one of the features will be a great procession thru the streets composed of the workers in the various industries and floats carrying symbolic tableaux. Nearly all the shopkeepers have agreed to display only Irish goods in their windows during the week and a number of them have pledged themselves to do all in their power to push the sale of Irish goods at all times in preference to those

which have been imported. Something of the kind has been tried in Dublin, but without much success, the failure being due chiefly to the apathy of the large tradespeople who apparently cannot see the advantage of surrendering an immediate large profit on imported goods for a smaller one on Irish goods, the money for which will eventually be spent again in their shops.

the Belfast processin will bear Abraham Lincoln's statement of the case for the protection of home indus-tries: "If my wife buys an imported cloak America gets the cloak and the foreigner the money. If she buys one made at home America gets both the cleak and the money."

Market Facilities Are Adequate, Opinion Seems Divided.

when it would naturally be expected there would be several carloads from what the calendar says. The ruling prices, wholesale, yesterday, for domestic strawberries, were 17, 18 and 20 cents per box—mostly 20c. Baltimore berries have become soft and mushy and are not much in demand. Scouts sent out by the wholesalers report prospects for a fair but not a bumper crop. Toronto gets her strawberries from Oakville, Clarkson's and Burlington. The fruit growers of Jordan, St. Catharines and Grimsby ship almost entirely to the west and supply Montreal and Ottawa.

Is Market Too Small?

The growth of the fruit business in Toronto during the last ten years has been little short of a marvel, and this gives rise to the question of whether marked facilities are adequate. Some of the commission merchants believe a new market should be provided and some do not. Opinion seems divided between the large and small dealers. The big fellows say the present market is all that could be desired. It is handy to both rall and boat, and on Yonge-street the main business artery of the city, It does become cramped in the height of the fruit season, but they feel that the expense of providing a new building would not be warranted, considering it would stand idle for about eight months in the year. They all have permanently established quarters down around Frontstreet, so the prospect of a new, exclusive fruit market building is not particularly attractive to them.

Still, they admit the old Grand Trunk depot has all she can do and will admit of little or no business expansion unless somebody is crowded out. Two-difficitions are the milk came in. To-day the whole building is hardly able to hold the business.

ere the milk came in. To-day the building is hardly able to he

It is only a few years since 8000 bas-kets covered the whole peach crop. Now that much is handled in a day. Less than 10 years ago there were not

Now there are easily 150. Front and Scott-streets are absolutely blooked with fruit rigs, and the siding to the south of the fruit market is tangled and clogged like a Chinese puzzle.

A very few years ago there were no Italians in the traffic, Now it would be a day's job to count them, Nine or ten years ago there was no importing done from California. White & Co., tho the firm was not known by that title then, claim to have originated this branch of the trade, with 25 car loads the first year. Last season they shipped in 52 car loads, assorted in peaches, pears, plums, grapes and apricots. They will handle 80 cars or so this summer. Their fruit shipment for 1910 was sold by auction on Tuesday last. They will have another sale on Monday. One car réalizes about \$1700 and contains \$95 to 1000 packages.

City Plans Lag.

City Plans Lag.

In the hope of reviving the municipal fruit market scheme, which has been languishing since the special committee last met on May 4, Controller Fostonia and the second second in the second ter, its chairman, says he will call the committee together in a few days, "to

committee together in a few days, "to see where we are at."

Property Commissioner Harris was not given any instructions at the previous meeting, and has not been in touch with the fruit men on the subject since that time. He does not consider the outlook promising. "There is considerable dissension among the fruit men," he said, "they seem unable to agree. Some want the market, but others do not."

It is stated by some of the fruit men who advocated the civic market, that a number of dealers who would like to declare themselves for it, are afraid to do so because of the influence of larger dealers, who get favored treatment from the Grand Trunk

vored treatment from the Grand Trunk which controls the present fruit market and are averse to any change.

## THIS WEEK AT HANLAN'S

The Great Holden" Will Give Sensational Performance Twice a Day.

I ever saw." This is the unanimous verdict of the immense crowds who have seen the sensational performance of "The Great Holden" at Hanlan's Point this week, where this sensational ls giving his exh and at the finish, with a terrine leap, already accomplished, ascends to a small platform, at a height of greatly over 100 feet, from where he dives backwards, turning a sommersault in midair, into a small tank of shallow water. Both these feats are not only thrilling, but can easily be termed death-defiers.
Owing to Holden's great success and
the large crowds he has drawn this week to Hanlan's Point, he has been re-engaged for next week. Darling's Dog and Pony Circus has now become so well known that it is the centre of attraction for ladies and children These pretty animals are so well train ed that their intelligence seems to be almost human. In addition there is the comic mule, whom the most daring adventurer has yet failed to ride around the Hamburg-American liner Kalser- the sawdust ring. Another feature in Auguste Victoria, which arrived today with President Roosevelt aboard. the monkey, who leaps the gap in his and Wilcox, Gartelle Bros., Hawley and Detectives and deputy marshals were automobile. The It is the longest and best of aeria trips yet invented. To-day (Sunday) the band of the Governor-General's Body Guard will render two of their popular concerts.

## NEW JUDGES APPOINTED.

MONTREAL, June 18 .- (Special.) It is announced to-day that the three new judges of the superior court have selected by Sir Wilfrid Laurier They are: R. A. E. Greenshields, advocate; Charles Laurendeau, advocate, and J. A. C. Ethler, advocate and federal member for Two Mountains.

Union Horse Exchange.

Receipts of horses at the Union
Horse Exchange last week, altho there
was a moderate demand for best quaiity horses, was steady. Mr. Smith reports several sales to buyers from out side points in Ontario, as well as many to city customers at about steady prices. Farmers are asking prohibitive prices in the country, which accounts for the smaller numbers on sale, as dealers cannot get horses at prices that will allow a fair remuneration for trouble in handling.

Mr. Smith reports prices as follows Draughters \$200 to \$235; general pur pose horses \$175 to 210; expressers and wagon horses \$150 to \$230; drivers \$100 to \$225; serviceably sound \$35 to

Ask for plan and price list.

## ARMSTRONG & COOK

**OWNERS** 

4 EAST RICHMOND ST., MAIN 1215

The local real estate market has apparently run into the doldrums of late.
While trading in certain instances is eported to have been brisk during the t week, the general situation seems to be very dull. A good many small transactions have been put thru, but there have been comparatively few of any general interest to the public. with the coming of the hot weather has been only natural to experience some inactivity. Despite this fact, however, several local dealers report that they have done good Cusiness in for properties. These are being maintained at a high level, but there is apparently some difficulty in getting things down to a business basis, and on this account the actual amount of turnovers is not as great as it might

The ony feature of the real estate elt. uation at the moment is the steady demand for high-class residential building lots. This is not particularly noticeable in any one section of the ctity, but is distributed over a wide orea From the High Park district in the west, thru to Rosedale on the north, there is a good enquiry for a better class of land. The number of properties put on the market during the past few weeks have gone remarkably well. Suburban lots continue in favor with the general public, who are looking for medium prices land, and

Realty and Building estate men state that houses are in good demand, there is reported to be a large number offering for sale, and in this connection it is stated that sellers are finding it rather difficult to dispose of their property.

What Royal Funerals Cost European countries, Britain does not err on the side of extravagance in the matter of Royal funerals. It cost the French Government \$500,000 to bring the remains of Napoleon from St. He-lena and re-inter them beneath the dome of the Invalides in Paris. There special demartments, the not at all has been no such expenditure as this equal to that of the early spring. There in Britain. Thirty thousand pounds has been no failing off in the enquiries were expended on the obsequies of

> cessors were smaller still.
>
> One of the simplest yet most impressive funerals of recent years was that of the late Duke of Clarence.
>
> The cost did not exceed \$2500 all told. The funeral was a military one, and the rites and ceremonies were those prescibed for an ordinary general officer. This was in accordance with the expressed wish of the deceased,

The funeral of the late Prince Consort was carried out at the comparatively small expense of \$30,000, but

Half a Million Soldiers. By far the most magnificent of all modern funerals was that of the Czar Alexander II., who was slain by Nihi-list bombs on March 13, 1880 Five hundred thousand troops lines the streets on the day of the funeral, and 1200 horses took part in the procession. The coffin was borne on a car specbuilt of ebony and gold inlaid with malachite from the Imperial mines; the wheels were of solid silver and richly chased. Seventy conveyances were required for the wreaths and floral emblems the combined val-ue of which/was estimated at \$400,000. Upwards of 1,000,000 candles, some of Upwards of 1,000,000 candles, some of them weighing as much as 30lb, were burned during the funeral ceremony and at the previous lying-in-state, and incense to the value of \$50,000 was consumed. It is computed that from first to last this imposing funeral must have cost half a million sterling.

Quite as magnificent in its way, the on a less expensive scale, was the funeral of the Emperor William I. grandfather of the present Kaiser. grandfather of the present Kaiser.
Never before or since has Germany witnessed so solemn er stately a function. The whole city was swathed in crape, and the general gloom was crape, and the general gloom was crape, and the smoke from hunchested by the smoke from hunchested. tion. The whole city was swathed in crape, and the general gloom was intensified by the smoke from hundreds of thousands of burning torches and cressets. Among those who fol-lowed the coffin to the grave were for the duke had always desired to the Kings of Saxony and Roumania, be buried with soldierly simplicity. the Kings of the Belgians, the Prince of the King of the Belgians, the Prince of Wales, the Crown Princes of Austria. Denmark, and Russia, and more than a hundred other representatives of kingly or princely houses. The total cost of the funeral has never been

of the expenses incurred," it is said that Berlin alone contributed some-thing like \$400,000 towards the ex-

Some Recent Figures.

The Kings of Italy have always been buried with regal splendor, but at no great cost to the state. Six thousand pounds was the sum expended on the burial of the late. King Humbert; the funeral expenses of Victor Emmanuel were exactly half that sum. On the other hand, it cost \$100,000 to bury Ferdinand II., King of Naples and about \$350,000 for the funeral of King Charles of Sardinia.
Some idea of the probable cost of King Edward's funeral may be gained from the expenses in connection with that of Queen Victoria. These amounted to \$175,000, of which \$42,500 went for the entertainment of royal and for-eign guests, and \$75,000 for the traveling, food, and accommodation of

Rev. Dr. Llwyd Will Preach. Rev. Dr. J. P. D. Llwyd, vice-provost of Trinity College, will be a very busy man indeed in the City of Toronto today (Sunday). In the morning Dr. Llwyd will preach at St. James; in the afternoon he will address the great mass gathering of men under the auspices of the Queen's Own Regiment on the University Campus and in the evening at the 21st anniversary service of the parish of St. Mary the Virgin,

Dr. Llwyd during his recent say in the old country had the honor of assisting Canon Hensley Henson in the memorial service for the late King Edward in St. Margaret's Church, Westminster. Dr. Llwyd spoke at many meetings in the old land during his stay, and as a result of his visit several clergymen are coming to stay, for a time at least, in Canada to assist in the work of the Anglican Church here.

# Wall St. Dull at Week-End, But Prices Hold Fire

## Wall St. in Recuperative Mood But Small Fluctuations Rule June 8, 126,487, a further increase of

Big Interests Seek to Build up Another Following in New York Market-Canadian Exchanges Generally Firm.

World Office,
Saturday evening. June 18.
Wall-street has been in a recuperative mood this week. The changes in prices have been small, but show resistance against pressure Market sentiment among outside traders is bearish, a natural attitude on a small recovery after a heavy decline. Among commission houses the market is classcommission houses the market is class-ed as professional. This is only technito be professional. To properly gauge the outlook it is necessary to bear in mind that most of the speculative holdings were shaken out during the recent break. The big interests who can control prices on any and every can control prices on any and every occasion are not desirous of promoting declines when there are few margined accounts to be exhausted, and it will be therefore necessary to build up another following before any pronounced dip is again permitted.

Assuming that outside conditions have an influence on stock prices and for the long pull they have, it would for the long pull they have, it would appear that recent events favor the market. Crop reports excepting a short recent period of dry hot weather, are satisfactory. Wheat is reported to be suffering, while on the other hand the corn crop is benefited. Many run away with the idea that advancing prices at Chicago are detrimental to New York stocks. There are special instances when this may be the case, but generally speaking the theory can be disregarded. Wheat prices are much lower than a year ago and may be justly entitled to advance even if a fair crop is assured.

Politics have become less a matter of comment than they were and President Taft has even spoken a word favorable to the railroads. The new railroad bill has practically passed into law and some relief will be experienced when congress adjourns in perienced when congress adjourns in themselves hard pressed and are trying to get their affairs in order so that they campaign for the fell clearly appeared for the fell clear themselves hard pressed and are trying to get their affairs in order so that they campaign for the fell clearly appeared for the fell clearly appeared for the fell clear themselves hard pressed and are trying to get their affairs in order so that they campaign for the fell clear themselves hard pressed and are trying to get their affairs in order so that they campaign for the fall elections starts in earnest. An effort is being made that a higher railroad tariff is essential if present wages are to be maintained and it is possible that a remodeling of railroad rates may be permitted.

Necessity has already compelled some changes in foreign trade statis-tics. Returns for the latest published month show a large decrease in imports and a correspondingly large in-crease in exports. A continuance of will help out the international Offering of Preferred Stock at Par financing and permit of a better outlook for money conditions during the check has been administered to the rabid real estate speculation in strong competitor with Wall-street for some years and has mainly accounted not interested in the stock market.

Most bearish among the arguments used in favor of lower stock quotations is the idea that there will have to be a modification of dividends. These cent. during the past year, and unless there are said to amount to roughly 16 per is a bountiful crop with a fair average cent. on the preferred stock; this, for price for commodities, earnings are an average over the last three years, likely to suffer to a considerable extent. which were not at all brisk in a busi-The action of the market the last few ness way. days points to a slow upward move-ment and advances will be unimadvances will be unimited the rally is used for dispurposes. This program will be amenable to unforeseen le events, but these, unless are not allowed to interfere trend when the plan of trend when the plan of the interest will now largely centre in the work of the interestate commerce commission to dispose of the advanced freight rate problem. It is expected to meet early next week. The house is afternoon. The bank statement was afternoon. The bank statement was a good one.

Montreal Fower work of the interestate commerce commission to dispose of the advanced freight rate problem. It is expected to meet early next week. The house is afternoon. This program will Arrivals From Lower Yukon District of course be amenable to unforeseen disastrous, are not allowed to interfere operations is in full swing. Speculative purchases of the leading issues should be good for a turn of a few now on their way to the assay office at

The Canadian stock exchanges have drifted into a period of midsummer apathy somewhat earlier than usual. During the past week trading on the Toronto Stock Exchange has been narrow and the volume of transactions has been small. Speculation has been in a lifeless state and price fluctuations have been confined generally

The feature during the week was the advance in Black Lake, which under an improved speculative de-mand sold up to new high records almost from day to day. The movement was not confined to the common stock alone, the preferred shares and bonds participating in the upward movement. Ever since its listing this stock has been somewhat of a favoramong local speculators and while it is only recently that any bullish enthusiasm has been engen-dered, tips in relation to the security have been going the rounds for some little time. It is understood that the within a short while and it is stated that when this is accomplished the the 25 per cent. reserve rule. This is earnings will begin to show up re-

The traction shares have displayed general firmness during the week. One or two small reactions have been offet by advances elsewhere. There has been no news in relation to these issues of any influence market-wise, but it is stated that South American buying has come into the market and this is held responsible for any movements which have come into being.

markably well.

News from the Canadian west points 27.42. to an excellent crop this year. The latest report from the statistics bureau at Ottawa, issued early in the week, showed an increase in the acreage devoted to field crops, and the total acreage in Canada is estimated at some two million acres over last year. Crop reports indicate that in some sections rain is badly needed, but the general impression to be gathered from the reports is that the crop

is in satisfactory shape. The market closes the week with a generally firm tone in evidence. The speculative movement is too narrow to warrant any big movement, but despite the paucity of dealings, values are holding remarkably firm. There is a scant supply of floating stock on the market and purchasers are finding it rather hard to pick up securi-tles except by raising the price. The better tone on Wall-street has served Pittsburg reports a slight improve- International Con

to strengthen confidence in all the exchanges and with good crops in prospect outside conditions are in the main favorable. Midsummer apathy, however, seems to have gripped the local exchanges and unless speculation broadens no material changes are probable.

According to officials of important United States banks, western institu-

tions are drawing down their balances in eastern banks very rapidly.

A Boston banker, now in Washington, asserts that within the last few weeks his institution has lost \$12,000,000 deposits thru the withdrawal of funds by western banks which have found may be prepared for the late summe and fall demand.

In nearly all cases withdrawals fro eastern banks, it is said, have been section of the west where real estate speculation has been at its height. Information received here is to the effect that loan extension in the middle west

Great Northern preferred is said to be taken for foreign investors.—Financial Bulletin.

The outlook for the day is that the market will be narrow, with small fluctuations. The holiday spirit has pervaded Wall-street, and while no tremendous ovation awaits Mr. Roose-velt in the financial district, a more or less general exodus to participate in the festivities may be expected. The dulness of yesterday will probably be repeated, and in the absence of news developments the fluctuations will be unimportant. We would advise trading conservatively in the active issues and small profits should be taken. Operations should be confined to such issues and and Copper stocks. Don't wait too long for profits and protect trades with stop orders. We are bearish on the ultimate trend of the market, but in its present state it would yield quickly to any news of an encouraging nature that might develop. Recent price movements have been dominated by floor transactions and the room traders have been arrayed on the built side. This class of traders is likely to grow impatient and precipitate a movement that would be of radical importance if the would be of radical importance if the complete in the fluctuations will be a market will be any news of radical importance if the complete in the fluctuations will be a market will probably be a market will probably be repeated, and in the absence of news and conservatively in the active issues and small profits should be taken. New York Cotton Market.

Price of Oil.

PHTSBURG, Pa., June 18.—Oil closed

Cotton Gossip.

Erickson Perkins & Co. had the fellowing: Bull interests showed their control of the situation by holding the market firm during to-day's short session, in the face of continued favorable weather over the entire beit and the action of the government awainst weather over the entire belt and the action of the government against them, but trading was limited to the professional element and transactions were void of significance. We continue to regard the present level of quotations as unwarranted by general conditions, but we do not advise short sales of the near rositions, preferring sales of the near positions, preferring to limit trades to the short side of the new crop on all bulges.

# PROTECTING POWERS TO

Reintroduction of International Garrisons to Preserve Nominal Turkish Sovereignty.

PARIS, June 18.—To insure respect for their decisions, the four protecting powers of Crete, Great Britain, Rus-sia, France and Italy, have decided to send unaval forces to Suda Bay, in the northwester npart of Crete. The re-introduction of international garrisons at Crete, in order to preserve a pacific state of affairs, has been considered for some time, but the plan was opposed by Russia. The present action fellows protests made by Turkey against the threatened purpose of the Cretans to elect and send delected. gates to the Greek parliament at Athens. The protecting powers entertained the protest and made known that, while the Cretans would be assured of autonomy, the nominal Turkish sovereignty in the island must be

HOME-GROWN STRAWBERRIES Canadian Crop to Be at Its Height This Week-Was Ten Days Late.

Canadian strawberries from Oak-ville, Clarkson's and Burlington came in the Toronto commission houses on Saturday to the extent of about 500 cases. This was about double the receipts of Friday. A fairly good crop, altho ten days late, is looked for. The crop will be picked daily for the next two weeks, and the receipts are expected to reach the top mark by the end of next week. Owing to the partial failure of the

Maryland strawberry crop the com-bined supply of foreign and Canadian berries, retail prices are ranging high. The American berries sold at 15 cents, while the home grown freshly picked berries ran as high as 20 cents.

Dr. Sheard Says Provincial Board of Health Can't Take Action,

"Some body of scientific men in Ontario should be clothed with authority to take these men and treat them as they should be treated."

So says Dr. Sheard, chairman of the provincial board of health, with reference to the disclosures that the water passing thru the ozone filtration plant at Lindsay was "doped" so as to make a good showing under test.

Dr. Sheard says he doesn't think the provincial board can take action, and that its up to the Town of Lindsay.

Remarkable Service.

Few prominent Canadian trade unionists are taking much interest in the proposition that they finance the project for a seat in the British House of Commons for a Canadian. The scheme was first proposed by a Winnipeg man and he proposes that a Winnipeg man be made the choice of Canadian labor, for the position. Even in Winnipeg the proposition has its critics. W. J. Bartlett of the cantional labor party says. "I think cantional labor party says." I think anitoba labor party says, "I think a trade unionists of Canada should ne trace unionists of Canada should not prove to our colleagues in Great ritain our ability to eject labor rep-sentatives at home, before we un-ertake to play an impedial role."

SUNDAY MORNING

Congratulations.
"Art" O'Leary, business agent of the oronto Bartenders International eague, No. 280, is in New York. He on a wedding tour having married ne of Toronto's fair daughters. Mr. O'Leary is one of the Queen City's successful labor representatives. When he assumed the oversight of the local it had about 100 members and after a few months, increase began to result until at present the local has a membership of 312. Mr. O'Leary will be absent from the Labor Temple for about two weeks.

Toronto Organizer in the West. J. A. Monjeau, Toronto, Canadian ganizer of the International Bro therhood of Electrical Werkers is at present in Winnipeg, holding special meetings with the two local unions in that city. Winnipeg locals inform the Toronto organizer that their "inside" local is 90 per cent strong and their "outside" local 100 per cent. This refers to inside wire men and outside pole and line men and shows that they almost control their branches of trade.

ches of trade.

Mr. Moujeau will visit Fort William and Port Arthur before returning to

Glockling's Hats.
The Trades and Labor Congress
President, William Glockling, believes
in patronizing union-made hats. He
buys many of them, not so much that he believes in casting a hat aside every few days, but as he terms it "it finst be." Mr. Glockling is on an organizing tour for the congress; at London a fell hotel guest sat on his "chapeau;" several vents in a Christy did not appear to the liking of "Wil-slie," so he purchased another. At Ot-stawa this disappeared from the rack at the dining room door and a la clerical one left in its stead. renial president bought another and leat a hasty retreat to Montreal to Glockling removed his hat and placed it on the marble top radiator; a gentleman "about three sheets in wind" came out of the wet goods artment, sat down and removed his hat, and occasionally butted into the conversation in a "Quebec dis-lect;" he finally left and some time ter when labor discussions were beoming monotonous and the hours wee," the "labor skates" decided to

retire when lo behold, the man with the dialect had taken Mr. Glockling's shat by mistake. The genial president used language, not of the variety used at a Methodist Church Conference. The hat left was tall in crown and harrow in brim and "Mr. President" coked as if he had just come "over." In spite of appearance he wore the and publications. J. H. Kennedy is hat for a day or so in hopes the party would return to exchange it, when Labor Council and W. J. Hevey, past sare enough the second day after Mr. secretary; both gentlemen have had a man made his appearance, as soon as vast experience in the labor movement Hockling saw him he grabbed the hat in various official capacities and are om off his head, saying: "This is my well versed in trade union ethics.

at," and tendered the man his A book just issued by them is the of-"chapeau." When the man, still under ficial directory of architects, building contractors, wholesale and retail lurabled. "Oh, no I change him again," ber merchants in Ontario, as well as all local unions in the province, with names of secretaries, residences, places Felt Hat Trimmers Union. President hied off to a hat store and said: "I'll take good care no one takes my hat in mistake again." So he

Fraternal Delegates.

It appears as if there will be not dearth of candidates for the fraternal delegateship from the Fort William session of the Trades and Labor Conscress of Canada to the St. Louis convention of the American Federation of Labor; already it is said the following have declared their candidature: Sam Hadden, president of the Toronto Typos graphical Union, No. 21; E. W. A. O'Dell, Hamilton, general organizer of the Boot and Shoe Workers Union, and G. W. Brunet, Montreal, a Canadian organizer for the International Printing Pressmen and Press Feeders Union, and it is altogether likely there will be several other aspirants. The position is a coveted one of considerable honor and prestige, and among the prominent Toronto labor men who have already been honored are Dave Carery, of the Musicians; J. H. Kennedy, of the Sheet Metal Workers; James Simpson, of the Typographical Union; W. V. Todd, of the Cigar Makers, and Fred Bancroft of the Patternmakers

Where to Affiliate.

Many of the trades and labor councils in Canada are now affiliated with the American Federation of Labor congress, among them Toronto, Hamilton and Montreal. There is no objection to central bodies in Canada earlilisting with the American Federation, but if trades councils in Canada designing the Trades and Labor Congress of Canada. The Trades Congress of Canada dearly instead of both, that body should be the Trades and Labor Congress of Canada. The Trades Congress of Canada. The Trades Congress is the legislative representative body for labor in Canada, both provincially and federally, and as such should be supported by the central labor bodies. If after this obligation is met, there is a desire of further affiliate for moral reasons there can be no objection, but the motto of trades councils in Canada-should be "Trades Congress affiliation first."

Altho not as young as he used to be no better selection could be made on Ontario's proposed labor commission to report on "compensation for work men's injuries, etc.," than the veteran labor leader. Mr. A. W Wright "Aleck" understands these problems from the ground floor up.

## Lifeless Speculation Rules The Local Mining Markets

ransactions now for a considerable ime, and up to this writing there has

Professional sentiment as regards the Cobalts is more or less favorable to the market and the general opinion is that only the paucity of dealings is restraining bullish sentiment. There is no sign of any material buying power, but on the other hand there is not much inclination to liquidate present holdings. On this account fluctuations have been held down to small fractions, but these in the majority of instances have been towards lower levels. The market demonstrates a soft tendency, under which values undergo adjustment from day to day, but the depression is not such as to induce realizing sales in expectation of further reactions.

ELK LAKE. June 17.—The first shipment of ore by way of the Montreal River was taken out yesterday by the Upper Ontario Steam Navigation Company and consisted of 800 sacks of second-grade sent out by the Millerett Mining Company with a view of ascertaining the cost of shipping by this route. The price for the shipment was \$2.05 per 100 lbs., of which amount the Upper Ontario Steam Navigation Co. received fifty any call for the shares from prospec-tive speculators. The floating supply of securities in the market, however, has been maintained at low levels and, tho the demand has been scant in most instances, it has been fully equal to stocks forced for liquidation.

vins & Son on several charges. Whatever the outcome the company seems by no means out of the woods, and promises to be tied up for some time to come in litigation.

The market closes the week with no definite tendency exhibited. There is not sufficient buying coming into the exchanges to warrant any bullish movement and until an improvement from the present lifeless speculation is manifest, no material change is likely to occur.

Dividend Possibilities.

BOSTON.—One who is closely associated with La Rose says: "The recent establishment of a central power plant in Cobalt, by which powers in the district at low cost, should make every \$1 cf value on La Rose property worth \$4.

"Up to the present time La Rose thru inability to develop outlying districts of its property owing to heavy cost of erecting compressor plants. The Cobalt Hydraulic Co., however, compresses air by water power, and since the turning on of the power by that company three weeks ago, air can be piped to all parts of the camp at less than one-half what it would cost to produce it at the individual properties.

"As a result of this cheap power, La Rose will be able to prospect and develop outlying parts of its property, which formerly it was unable to touch, to would ordinarily cost \$50,000 to build a compressor. To develop the entire property properly would have required the expenditure of \$1,000,000 in power plants, and the lapse of two to three years. Now, however, this can be done at slight cost in almost as Buildian and the lapse of two to three years. Here's the Best Thing that's Going to Happen for the Benefit of Housekeepers

Wherever there is a "Hoosier" Kitchen Cabinet Agency there is a "Hot Weather Sale" in progress just now-or will be beginning Monday. It is a gigantic movement instituted by The Hoosier Manufacturing Company with the co-operation of every store in the United States and Canada selling Hoosier Cabinets, the object being to place thousands of these Cabinets in as many homes as quickly as possible.

From an advertising standpoint one "Hoosier" Cabinet in use in the home is worth a dozen in the store. It will do more good missionary work for the makers than a heap of newspaper talk. Housekeepers become enthusiastic over them and recommend them to their friends. This is the primary reason for this great plan of selling "Hoosier" Kitchen Cabinets.

But the plan calls for a limited number only of Cabinets to be sold on these extremely liberal terms, and those who want to come in on the easy-way-to-get-one plan should enroll early. Particulars and points of advantage to club members are told of below.

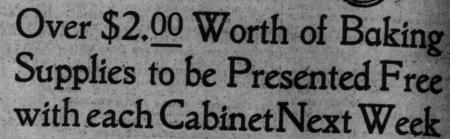

The Very Insignificant Sum of One Dollar is all that is Required to Place a Hoosier Cabinet in Your Home

Clubs of limited numbers are forming in each city-local membership being limited to 500 persons. There is no formality or red tape whatsoever in joining the club. A payment of \$1.00 down and agreement to pay \$1 per week until cabinet is paid for covers every requirement. The cabinet will be delivered to your home at once, and you can begin to enjoy its comfort and

The cabinet, which is the "Hoosier" special-shown in the illustration, will be sold during the sale at the specially low price of \$35.00, but the simple arrangements we make with all who place their order for a cabinet makes it too easy a matter to hesitate about.

## About the 'Hoosier' Special

This is the most popular kitchen cabinet in the world. It combines every good feature that tends to save time, labor and materials in kitchen work. Some of the special features are the sanitary self-cleaning metal flour bin, with sifter attached; a selffeeding metal sugar bin, six crystal glass spice cans, with aluminum air-tight lids; large glass tea and coffee air-tight jars; daily reminder and wane list; an aluminum covered work table, size 40 x 39 inches; a metal bread and cake box, plate racks, cupboards, sliding shelves for pots, pans, etc., made of solid oak and finished steam and waterproof. A most complete kitchen cabinet

We are going to fit up each cabinet we sell next week with a generous supply of baking necessities such as sugar, flour, spices, tea, coffee, etc.

In keeping with the good name of the "Hoosier," we have chosen only the best things to go with the cabinet. Here's the list of supplies:—

- 1 Pkg. 'Melagama' Tea 1 Jar MacLaren's Cheese
- 1 Pkg. 'Melagama' Coffee 1 Jar MacLaren's Jelly 1 Tin Cowan's Cocoa

1 Pkg. Assorted Spices

- 1 Tin Gillett's Baking Powder 1 Gillett's New Cook Book 1 Bag (10 lbs.) "Cobalt" Flour
- 1 Bag (5 lbs.) Granulated Sugar 1 Tin Gillett's Baking Soda 1 Pkg. Tillson's Pan-dried Oats

## Important Reasons for Joining this Club Monday

You can put off till later, but every day you wait you lose. You lose the time a "Hoosier" Kitchen Cabinet will save you; you lose the dozens of steps a "Hoosier" cabinet will save; you lose the space a "Hoosier" kitchen cabinet will save; you lose the pleasure in your kitchen work that a "Hoosier" Cabinet would

Your total losses are so great that it is econ ier" Kitchen Cabinet on these easy terms at the earliest possible

This is why Monday will be the best day, to join the "Hoosier" The Hoosier Special Have your cabinet in your real hot weather has begun.

Thirty Days' Free Trial-Those who are the least bit skeptical as to the merits of the "Hooster" Cabinet can place their order with the understanding that if the and convenience that is claimed for it, that after thirty days' trial it may be returned to us "

# and a'l payments will be refunded. We have no hesitation in making this offer, as no one has yet sent a "Hoosier" Cabinet back to us. Nor have we ever received any but words of the highest Monday's Home Furnishing Specials Some Pointed Paragraphs of Economy told of in Brief Form Here-No Room for Pictures, Prices Illustrate the Values

Colored Champion Insists on His Share of the Picture

SAN FRANCISCO, June 11 .- "He's bluffing." That's the way Jack Johnson expressed it when told that his discharged manager, George Little, had announced his intention of bringing him into court. "If Little is serious," the champion went on, "I'll make him a proposition. I'll pay his lawyer's fees and present him with \$500 in cash if he only brings the matter into court.

with \$500 in cash if he only brings the matter into court.

"The documents are not worth the paper they are written on. I don't want Little around me. I discharged him, and that's an end to the matter. Little can talk all he wants, but you don't see him making any move toward laying his claim before any court of this land."

Little instructed Henry Ach, who was chief counsel for Boss Ruef in the graft trials, to prepare a suit restraining the principals or their backers from collecting any of the money taken in at any fight they might hold participated in by Jonnson.

The Englishmen pride themselves on Jockey Club Rules, he having the mount on Counterpane in the Maiden

Diete After was the first norseman the Englishmen pride themselves on their steeplechase horses, but I say it without the slightest prejudice that the English thorobreds do not com-Plate at Sandown Park in 1886. The pare with the French as jumpers. Plate at Sandown Park in 1886. The second jockey to bear the colors to victory was George Barrett, who rode Galliffet in a selling plate at Goodwood in 1889, and for some time after this Barrett was the regular jockey for His Majesty's horses.

RAN ONE, TWO, THREE,

How "Sailor Bill" Grabbed the Good-wood Cup With His Triple Entry.

When William IV, "Sailor Bill," ascended the throne, royal circles and the public were under no weight of grief over the demise of his predecessor. Unlike King George, who has turned over his horses to Earl Derby for a year, William IV plunged headlong into racing and within a few weeks had a triple entry running for the Goodwood Cup. There was no fine scruples about him as he started the whole three which finished one, two and three. The race was run on Aug. 11, 1830, as follows:

The Gold Cup, value 300 sovs, and the surplus in specie, a subscription of 20 sovs each, with 100 sovs added by the City of Chichester; once round. (38 subscribers.)

His Majesty's b m Fleur-de-lis, by Bourbon, a-9-9 (G. Nelson) 1; His. Majesty's b h Zinganee, 5-9-10 (J. Day). 2; His Majesty's ch h The Colonel, 5-10-0 (Pavis), 3.

Also ran:—Lord Exeter's b f Green Mantle, 4-9-3; Mr. Grant's b f Lady Emily, 4-8-13; Duke of Richmond's b c Hindoo, 4-9-3.

Betting: 3 to 1 agst Zinganee, 7 to 2 agst Fleur-de-lis, 11 to 2 agst Hindoo,

AUSTRALIAN RACING.

Bookmakers Amenable to Jurisdiction of Jookey Club,

A precedent in regard to the book-makers has been established by the Equity Court at Sydney, Australia. A bookmaker brought suit to have a by-law of the Australian Jockey Club de-clared invalid, because under it the club had refused to register or license club had refused to register or license him without giving any reason for the refusal. He asked that the club be restrained from preventing him from exercising his business as a book-maker. After hearing the evidence of the acting chairman of the club that the application had been referred to a sub-committee and refused on that committee's report, the chief justice in equity, Mr. Justice Simpson, dismissed the application with costs.

WON FORTY-SEVEN RACES.

Brilliant Career of Charlie Eastman Well-Known Tennesse Sprinter.

Charlie Eastman, always a prominent horse on the Canadian tracks, was destroyed in New York a few days ago in consequence of an attack of paralysis of the throat, a rare disease with the thorse of the control of the with the thorobreds. He was a Tennessee-bred horse and a speedy sprinter, holding his own in the best company to the last. He was a winner of forty-seven races, including a number of stakes. His total winnings amounting to \$22,015. ing to \$27,915. As a three-year-old he ran three-quarters in 1.11 4-5, over the Fort Erie track.

AGAINST NEW YORK TRACKS

Governor Hughes Deals Final Bid the Empire State Jookey Clubs.

Governor Hughes is thought by many American horsemen to have given the death blow to profitable racing on the New York Jockey Club tracks, by signing the bills prohibiting bookmaking by oral betting and holding the officials of jockey clubs personally responsible for violations of the law in their race courses. In Kentucky where the thorobred bread-Kentucky where the thorobred breeding interests are so extensive, longer meetings than formerly are likely to be held in the probable event of the York. At Louisville a forty day meet-

New York's lead in prohibiting oral bookmaking. As the Californian assembly does not meet, however, until January, racing on the Pacific Coast is assured next fall and winter for probably ninety days before any new legislation becomes effective. In Louisiana the movement to reestablish racing has been checked by a majority of the members of the assembly signing a declaration against a repeal of the Locke law.

# POPULAR WITH TRAMPS

Guardians Trying to Frame up Regulations Which Will Get

Rid of Them.

From a Staff Correspondent.

DUBLIN, June 18.-Down in Kildare the local authorities have just wakened up to the fact that they have been running an excellent hotel free of charge which has become famous among the tramps all over Ireland. At the last meeting of the guard-

ians the clerk reported that during the

last six months 1221 tramps had been entertained for one night or more in the workhouse, and that of late they had become quite exacting about what they called their rights. If the beds were not comfortable they made a row, and if the food was not up to their idea of what it should be they abused the attendants and complained to the master. The clerk explained that he didn't see what the guardians could do to stop this state of affairs, for the present law compels the local authori-ties to grant food and lodging to every

ties to grant food and lodging to every destitute person applying to it.

The only test of destitution is that the applicant should be without money—and it is a recognized practice for the tramps to cache their money in a wall or bury it before applying to the workhouse and then recover it after they leave. It was also stated that on some nights when the workhouse was full of these "destitute" persons the farmers in the neighborhood were complaining that they couldn't get laborers to do the necessary work. Some of the guardians wanted to try the this Barrett was the regular jockey for His Majesty's horses.

"Tod" Sloan altogether rode three winners in the Royal livery, his first being on Nunsuch in the Old Cambridgeshire in 1898. His two other successes were gained two years later on Lucknow in the Portland Plate at Doncaster, and on Lord Quex in the Ditch Mile Nursery at Newmarket Discaster, and on Lord Quex in the less than two thousand persons employed there, exclusively to operate the machines.

## A NEW ERA

I dipped into the future, far as human eye could see,
Saw the Vision of the world, and all the wonder that would be; Saw the heavens fill with commerce, argosies of magic sails. Pilots of the purple twilight, dropping down with costly bales; Heard the heavens fill with shouting, and there rained a ghastly dew From the nation's airy navies grappling on the central blue; Far along the world-wide whisper of the south wind rushing warm. With the standards of the peoples plunging thru the thunder storm.

—From Tennyson's "Locksley Hall."

The great fact is that the flying machine has arrived. It may not do everything that Tennyson's fine poetic prophecy of sixty years or more ago outlined at the present moment, but our belief is that that prophecy will be greatly exceeded in a very short time by reason of the airship

It was said of the telephone, of the phonograph, of the electric light and the telegraph, even of the steam railway that they were impossibilities. or, if possibilities, that they were only toys. It was even said of the steam engine, but once the underlying principle had been settled, development of all these inventions was a comparatively easy matter. The same was said of the submarine boat: A vessel could never be found that could dive and keep under water; but that is now well in hand, and every navy is equipped with submarine vessels for fighting purposes. It may be that the next development on this line will be a submarine railway running on tracks on the bed of the ocean. But all this aside, the airship has arrived, and that fact makes an epoch in the history of transportation and quick

Great speed may be one of the surprising developments in connection with the airship. By great speed we mean a speed of perhaps 200 miles an hour, and this means 5000 miles in a day, or around the world in five days, or a week at most. It probably means that before two or three years are over an airship will go across the Atlantic in three days, across the continent in three days, and similar journeys in different directions. When this kind of travel is perfected, the King of England, as the head of the British Empire, can easily be in London one day and in Ottawa two or three days after, or go from London to India or from London to Africa much quicker and probably under safer conditions than by rail or by ship.

As has been pointed out, the air vessel will revolutionize and probably prevent warfare. At least, there are people that make that predic-

Another feature of the small airship is its low cost. There is no reason why, in a little while, a mechanic will not be able to build his own airship for from \$500 to \$1000, and the fact is thatthey will be able to turn from New York to Philadelphia. This will bring the airship away be-Now the price of a high-class automobile, and more people may have airships than have automobiles, which is another surprising probe the near future.

## sistence

Men Who Have Watched Toronto Grow

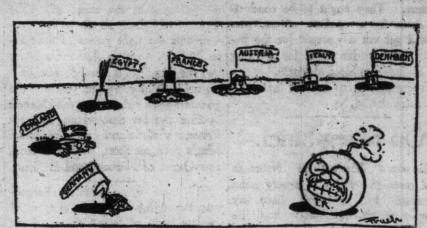

IV.-Rev. Canon A. J. Broughall, D.D., Rector of St. Stephen's.

naper man meets some personality prestor respect for the small minority of goodness unknown and unsung by any except their intimates and beneficiaries. But it generally happend that in character and influence these men are "cities set on a hill, which cannot be hid;" they are forced into prominence by these very attributes which inspire them with the desire to

Perhaps it is the same characteristic of human minds, responsible for the awe-struck regard with which we stand before some ancient shrine, that inspired the scribe with great veneration for the aged divine who has ministend for the aged divine with hard the aged to the changing congregation at St. Stephen's now for close on two generations. But mostly the feeling en the lump of our citizenship with was due to the personality of the man. moral steadiness and uprightness.

The kindliest of blue-gray eyes looked out from the thin, placid face; the voice was even and unfaltering, its tones pleasant, yet firm and decided. What help, bleesing and comfort must have flowed into stricken hearts who have sat at the feet of this leader of the church and partaken of things religious. One could well conceive of the venerable clergyman as maintainthe venerable clergyman as maintaining the "even tenor" of his ministry whatever the vicissitudes of human events, a "rock in a weary land" to lefeat beat fiercely.

for the comfortable accommodation of girls coming into the city to obtain employment. And Canon Broughall prefers not to make any pronouncement on the times or their trend. "We have our work." he says, "and that is sufficient. If we accomplish this dutifully we counteract any evil tendencies that may arise."

LAST DETONATION IN EUROPE BY EX-PRESIDENT ROOSEVELT.

## Our Letter Box

HOME-GROWN ARCHITECTS. Editor World: In your issue of June . I notice that a reader directs attention to the custom prevailing very largely in Canada of engaging American architects, who in turn employ American draftsmen, clerks, etc. It appears to me, as your correspondent suggests, that it is about time this much of his own country sort of thing came to an end. Our own architects have on many occasions proved themselves not only the equal but the superior of their American Working men and chanics strenuously object to the in troduction of foreign labor. Why then should not this same policy, prevail in all ranks, whether professional, mechanical or otherwise? If Canada is to really fulfill her destiny she must be self-reliant in all things. While perhaps it is too much to expect carpenters, bricklayers, masons, etc., to decline to work for American architects it would still only be carrying their own policy to its logical conclusion. Anyway it is up to Canadians long to be remembered—Stevens Point their own policy to its logical con-clusion. Anyway it is up to Canadians to do all they can to encourage their own people, especially when, as I have said, their own people have proved own people, especially when, as I have said, their own people have proved themselves in every way as capable and able as their foreign competitors. If I chose I could mention grave mistakes American architects have streets of the towns along its banks. made in one or more important build- Railway tracks have been subr ings in Toronto. It is even said that and on several lines traffic has been a structure costing several hundred

thousand dollars was built without a chimney and that the chimney had to be added to the building after its completion. However it is not on the defects of our American friends that we should build up our success, but on our own merits, which I am fatuous enough to believe are clearly as deserving as those of the people of any other nationality.

By the way, how would it have been if The World instead of promoting an dinarily difficult. excursion to NewYork , had planned one to the Dominion Exhibition at St. John, N.B. In all things we must be Canadian, and, of one thing I am sure, "It is 12.40 o'clock." [\*This is the name of another officer namely, that no Canadian knows too

Looker On. St. John, N. B. June 10.

Never Will Forget It. ## Hero's Story of His Own Death

Japanese Officer Describes His Fate in Submarine.

The most thrilling description ever written of death in a submarine appears in Japanese papers which have just reached this country.

It was written by Lieut.-Commander Sakuma Tsutomu, captain of the Japa- observes, "Truly Buddhism in China less submarine which sank recently in is sadly deteriorating." This reminds Hiroshima Bay, and it describes, in calm and dignified language, full of thoughtfulness for his comrades, the gradual and inevitable approach of death as the boat lay helpless at the bottom of the bay and the fumes of the deadly gas rose and the water came in slowly. Every man in the submarine perished, and when the vessel was raised later the commander's letter was

This is a translation of the text of it: "Altho there is, indeed, no excuse to make for the sinking of his Imperial Majesty's boat and for the doing away of subordinates thru my heedlessness, all on the boat have discharged their duties well, and in everything acted calmly until death. Altho we are departing in nursuance of our duty to parting in pursuance of our duty to the state, the only regret we have is due to anxiety lest the men of the world may misunderstand the matter and that thereby a blow may be given to the future development of submarines. Gentlemen, we hope you will be increasingly diligent without misunderstanding (the cause of this account of the submarines). be increasingly diligent without mis-understanding (the cause of this ac-cident), and that you will devote your full strength to investigate everything and so ensure the future development of submarines. If this is done we shall have nothing to regret.

How it Happened.

While going thru gasoline submarine exercise we submerged too far, and when we attempted to shut the sluice-valve the chain in the meantime gave way. Then we tried to close the sluice-

way. Then we tried to close the sluice-valve by hand, but it was then too late, the rear part being full of water,

electric lights gave out. Offensive

At about 10 a. m. on the 15th the boat sank, and under this offensive gas we endeavored to expel the water

with a hand pump. cannot be hid;" they are forced into prominence by these very attributes which inspire them with the desire to remain in seclusion.

All this by way of introduction to a little chat The Sunday World was a little chat The Sunda

hope for development and progress, and that, at the same time, one should not cultivate excessive delicacy lest work should be retarded. People may be tempted to ridicule this after this failure, but I am perfectly confident that my previous words have not been mistaken

"The depth gauge of the conning ower indicates 52, and despite the endeavor to expel the water the pump stopped, and did not work after 12

"The depth in this neighborhood be-ing ten fathoms the reading may be

orrect.

By dint of assertion an attempt has been made to make it appear that must be appointed from the most distinguished among the distinguished, or there will be annoyance in cases like this. Happily all the members of the crew have discharged their duties well, and I feel satisfied.

By dint of assertion an attempt has been made to make it appear that Goldwin Smith upheld all the ordinary church standards. It is right to recognize that he had the utmost sympathy with all right-minded church and Christian endeavor, as who has and I feel satisfied.

Dying "Compliments."

I have always expected death whenever I left my home, and therefore my will is already in the drawer at Karasaki. (This remark refers only to my private affairs. Please inform my

"I respectfully beg to say to his Majesty, I respectfully request that none of the families left by my subordinates shall suffer. The only thing I am anxious about now is this."

"Please convey my compliments to the following gentlemen (the order may not be proper): Minister Saito; Vice-Admiral Shimamura; Vice-Admiral Fujii; Rear-Admiral Nawa; Rear-Admiral Yamashita; Rear-Admiral Narita. (Atmospheric pressure is in-creasing and I feel as if my ear-drums breaking). Captain Oguri; Captain Ide; Commander Matsumura (Junichi); Captain Matsumura (Riu); Commander Matsumura (Kiku)-my elder brother. Captain Funakoshi; In-structor Narita Kotaro; Instructor "12.30 o'clock, respiration is extraor

"I am breathing gasoline. I am intoxicated with gasoline. I feel pain. "Captain Nakano."

to whom the dying officer desired to be remembered.]

The record left by Lieut. Sakuma is written in a notebook in pencil (says the "Japan Herald"). The words are written in good order and show no traces of a faltering hand. Neverthe-less, such parts as "I feel as if my eardrums are bursting," "I have been in-toxicated by gasoline," and "I feel pain . . " are written in Japanese kana, indicating that the writer was in a state of delirium, suffering from the gas. The record is to be reproduced

in photograph and to be distributed It is plain that the commander worked to the last moment with his men. When he saw that all was over, he went up to the observation tower, and began to write his record. He even eft the door of the observation tower so that it could be opened from outside, showing how thoughtful and collected he was even in the face of death. the door had been locked from inside, no entry could have been made with-out destroying the door.

# CRUSTS & CRUMBS

Albert Ernest Stafford.

A correspondent of The London | not? But he was distinctly as Times draws attention to the ruinous condition of the great temple of Hu Yin Miao, one of the finest he had seen in China. He had discovered no more striking evidence of decay, and one of the eastern traveler in Scot land who was shown Holyrood Chap-el, as one of the sacred shrines of the el, as one of the sacred anrines of the country. The roof is off, the walls crumbled, and he was assured that no services were held there. Then he was taken to Dryburgh Abbey, as another of the great shrines of the country. No worship was conducted there either. Next he was conveyed to Melrose Abbey, the grandest of all the ruins. This had been a magnificent Christian foundation he was told, but no services were held there told, but no services were held there any more, nor had been for centuries. No wonder the poor heathen reported that Christianity was in a bad way, with evidences of decay on every hand in Scotland.

"E'en those most honored bear the rabble's hate.
And Rufflans scoff at Britain's laur-

Thus A. Clark, who published a diatribe in 1902 entitled "When Bards Sing Out of Tune." It will be noted that this was years prior to Mr. Austin's composition on the death of King Edward. Some very hard things have been said about the Laureate's attempts to be a Latreate and not all by ruffians. He is now a man of 74, an age when the wine of youth and poesy only comes to the Masters. Tennyson never published a line he needed to be ashamed of, but he was a great critic as well as a great poet, and he had a wife of the rarest taste to confirm or question his judgment. Aifred Austin did a foolish thing in accepting the laureis from Tennyson's brow. There were half a dozen better men at the time, and had he been well-enough advised to resign the offer to one of these he would have been to one of these he would have been remembered for the act better than he will be by his poetry. And we do not forget some of his exquisite early lyrics either.

lyrics either.

It is astonishing how dogmatic people can be about matters which they have never taken any pains to study. We meet men every day who will lay down the law in the most arbitrary manner on subjects about which they are a century or two behind the age. Some folks think it is very foolish for a man to come along and profess his belief that the earth is flat, and that the sun revolves centric universe. And the less oppor-tunity these people have had for study and for getting real knowledge the more dogmatic they are. Ill-bred children are always opinionated.

It is quite usual to refer the origin of modern Free-Masonry to the seventeenth century. This leaves out of account the "Lodge of Glasgow St. John" among other considerations. The Incorporation of Masons in Glasgow owes its origin to this lodge whose exclusive privileges were founded on a charter from Malcolm Canmore, dated the very year of his return from England, 1057, which is still in their possession. This charter was sustained in the Court of Session in a question of privilege, decided in favor of the Incorporation, principally on the evidence it affordprincipally on the evidence it afforded. Is there any further documentary evidence going behind this date of

death. Here is what he says at future life, one of the latest a considered of his utterances. considered of his utterances. "We card all ghost stories and spirit tie apparitions as at most signs general craving. We resign all oning like that of Butler, who dees the soul as 'indiscerptible,' as ing that it exists separately from body. Nor can we be said to anything that bears the char of Revelation. That the Found Christianity looked for a future with its rewards and punishmen evident. But he brought no spinessage, lifted not the curtain mystery, did nothing to clear minds upon the subject. His as gue of Dives and Lazarus shows to him as to us the other world a realm of imagination." This is

## Comedy of the Lieutenant and His Tradesman Double

Young Civilian Berliner Mistaken Hindu Mourning for a Handsome Guardsman Rises to the Opportunity and Makes Love Successfully in the Name of the Officer - Fined \$75 and Thinks it Cheap at the Price, as Does the Guardsman.

From a Staff Correspondent. BERLIN, June 18-"Love is a Kind of Warfare ("Militiae Species Amor

Est") sang Ovid, whose reputation as

of Wariare ("Militiae Species Amor Est") sang Ovid, whose reputation as expert in certain matters remains supreme. If Ovid survives in Avernus, he must regard the German law courts with gratitude, for this week they brought overwhelming corroboration of his immortal maxim.

The protagonists in this drama of justice are both men. Herr Lieutenant Platon von Groeschel is a stalwart, blue-eyed, yellow-haired, clean-limber soldier, with a eagle nose, who might have inspired the panegyric of Tacitus on Teuton virility and virtue. Herr Leon Joel is also stalwart, blue-eyed, yellow-haired, clean-limbed and eagle-nosed; but he differs from Herr Lieutenant in being a tradesman, and his virtues are valued by impartial justice at five-and-seventy dollars.

Double of Officer.

Until a couple of weeks ago, Herr Joel never guessed that there was a cavalry officer living a mile away who, in face and stature was as like him as are two drops of rain. The discovery was agreeably made. As he was walking down Unter den Linden, thinking innocently of Halley's, comet or the Munich ber war, a tiny well-gloved hand caressingly patted his coat sleeve and a coquettish treble trilled melodiously in his ear:

"Herr Lieutenant von Groeschel!"

Herr Joel turned and saw at once that here was a grievous mistake. Beside him, evidently haying just de-

Herr Joel turned and saw at once that here was a grievous mistake. Beside him, evidently having just descended from her smart victoria, stood a pretty, slimmish and bright-eyed lady of 23, whom he had never seen before. The bright-eyed lady beamed. Evidently she had somewhere met a yellow-haired soldier at a ball, and was delighted to meet him again. And she repeated still more coquettishly: "Ach, Herr Lieutenant von Groeschel!"

A Toronto lady has received from a relative in Durban, Natal, a copy of the notice of the High Priest of the Vedic Religion on the occasion of the death of King Edward. The notice

## FRENCH ARMY EXPERTS PLANNING GREAT FLEET OF SHIPS OF THE AIR

for King Edward Government Will Build Fourteen Cruisers and Six Scouts to Navigate Out of Range of Land Fire.

> (By Pierre Renan.)
> PARIS, June 18.—General Brun, Min ster of War, states that the experiments of the military authorities are now being directed solely towards discovering the most efficient form of aircraft. As regards dirigibles, he added, the program of construction was al-

ready being carried out.

The French government proposes to create a fleet of 14 "cruisers," capable of performing flights of 500 kilometers, and six "scouts" of smaller dimensions

Both classes of craft would have to be capable of navigating at an altitude at which they would be out of fire

range.

The French army would have in addition to these three dirigibles three "cruisers" three "scouts," and the small Zodiac airship presented by national subscription. Improvements were continually being introduced, and altho he was convinced that aeroplanes were destined to play a great part in military operations, there could for the moment be no question of doing without the dirigible airship.

Has 15 Aeroplanes.

With regard to aeroplanes, General Brun stated that the French army already possessed 15 of these machines and that as many were under con-

already possessed is of these machines and that as many were under construction for the government. In this department it was necessary to proceed very gradually in view of the improvements which were daily being introduced. The military authorities were engaged in making practical expensions. periments for their own purposes with these machines at Vincennes and at Chalais-Meudon. At the military aviation school at Chalons, moreover, the authorities were training not only pilots, but skilled "observers" who would feel at home in the air and who would be able to devote their whole

There was no need for explanations. Before he could utter a word, the Before he could utter a word, the bright-eyed lady reproached him roguishly for not coming to tea, asked after the health of his aunt and said that his appearance was admirable in civilian dress. And the sham lieutenant, completely hypnotized by the bright eyes, stammered clumsy compliments, declared that his aunt was in excellent health and that he would come to tea without fail.

The republique was an improvement on the instate the last of the suppers were given in quiet restaurants; champagne was drink, and hands were significantly pressed under damask tablecloths. As becomes a soldier, Herr Lieutenant proved a model lover. He was gallant, but not to bright eyes, stammered clumsy compliments, declared that his aunt was in excellent health and that he would come to tea without fail.

Two days later, Herr Joel, thoroly at home in the role of Guardsman von the instate. "La Republique," which before the disaster scored such a conspicuous success at the French manoeuvres. After damask tablecloths. As becomes a soldier, Herr Lieutenant proved a model lover. He was gallant, but not to bright eyes, stammered clumsy compliments, of the last the suppers were given in quiet restaurants. The disaster scored such a conspicuous success at the French manoeuvres. After damask tablecloths. As becomes a soldier, Herr Lieutenant proved a model lover. He was gallant, but not a such rich of the loss of "La Republique," which before the disaster scored such a conspicuous success at the French manoeuvres. After damask tablecloths. As becomes a soldier, Herr Lieutenant proved a model lover. He was gallant, but not despend the loss of "La Republique," which before the disaster scored such a conspicuous success at the French manoeuvres. After damask tablecloths. As becomes a soldier, the loss of "La Republique," which before the disaster scored such a conspicuous value of the disaster scored such a conspicuous value of the disaster scored such a conspicuous value o Two days later, Herr Joel, thoroly at home in the role of Guardsman von Groeschel, sat in the pretty lady's salor and drank out of shell-like cups her odorous tea. The lady, her mother the countess and other pretty visitors who dropped in were charmed looking warrior, agreed that civilian dress indeed became him and paid him compliments:

"Your walk shows that you're no infantryman, Herr Lieutenant... hit's a bit ungraceful... but manifest in dispensable at Tea-Parties.

Widow His Undoing.

The only war was love. Among Herr Lieutenant's conquests was an Austrian back-eyed daughter, whom he courted with exceptional zeal. But a rich widow crossed his path. The black-eyed baroness was forgotten, and Cupid fied in tears. When the love-sick girl asked him to join a theatre party, he excused himself on the ground that he was writing a work on "Cavalry in the Russo-Japanese War." On the same evening the love-lorn baroness saw him entering a restaurant with the widow hanging on his arm.

Indispensable at Tea-Parties.

Wildow His Undoing.

The only war was love. Among Herr Lieutenant's conquests was an Austrian back-eyed daughter, whom he courted with exceptional zeal. But a rich widow crossed his path. The black-eyed baroness was forgotten, and cupid fied in tears. When the laying up of the airship for an indefinite period, as, among other changes, it was indispensable to enlarge the gashage. It was decided that, as far as possible, "La Liberte" should be kept ready for commission at the shortest possible notice, and that the old car with the single motor should be preserved intact, while the work of enlarging the envelope should not be given the laying and necessarily involved the laying and necessarily involved the laying and necessarily involved the laying and archers.

ment flew a spiteful anonymous letter. "Your lieutenant," it said, "will disgrace you by his flirting with mar-ried ladies. . . What's more, he breaks the regulations and wears ci-vilian dress when he should be in uni-

Early next morning the Guards Ca-valry Barracks in North Berlin witnessed a tempestuous scene. Before the desk of his red-faced, irascible colonel stood the real Lieutenant von Groeschel and stammered denials and incoherent asseverations of innocence The furious vteran shut his ears. "Make love on the quiet, if you like!" he roared, thumping the desk. "Youth will be youth! But there are limits! Even I in my young days. . . ." And the real lieutenant, who was respectably betrothed to a law-yer's daughter in Breslau, saw that his denials were worthless, and at last in despair turned his back upon his unreasonable senior and stalked out

Only when the enquiry began did truth at last prevail. When, some days later, conquering Joel issued from the widow's house, he was tracked to his father's villa, and his identity dis-

The last act was played this week. Herr Joel was prosecuted for "insult." When the blushing (real) lieutenant rose to support the charge, all men agreed that seldom had they seen a handsomer pair of twins. Herr Joel got off with a fine of \$75, and was county to the second results of th

spectable name.

The fine is considered lenient. For the price of a suit of clothes to be called "Herr Lieutenant," to coquet with countesses, to take cups of tea from dimpled hands, to be praised for your capable, with the property with the prop with countesses, to take cups of tea from dimpled hands, to be praised for your cavalry walk—what man ever bought life's greatest blessings at so low a price? It is said that the real your cavalry walk—what man ever bought life's greatest blessings at so low a price? It is said that the real lieutenant shares this view. As Herr Joel, he argues, bought his joys so cheaply, he must pay a supplementary fine; and he threatens on the first occasion to whack his double without mercy. So Herr Joel stays modestly at home on moonless nights, while a stalwart individual, with a stick and a real cavalry walk, keeps watch out-

One Killed; Scores Injured.
One man has been killed and score njured already as the result of the uarrel between the O'Brienites and

The O'Brienites claim Cork as their territory, and with some justice for they have succeeded in thoroly whipping the regular party men at the polls, and they resent the invasion of the constituency by Messrs. Redmond. Dillon and Devlin. Their followers have assembled in force at every meeting held by the enemy and have done their best to break it up.

Hereditary Quarrel.

As a matter of fact there is more in the fighting which is going on in the Newmarket district of Cork than appears on the surface. Newmarket has always been notorious for its faction fights and the quarrel of to-day may be said to be a hereditary one. In the old days Newmarket was on the very border of the kingdom of Cork and the Newmarket men regarded the mountain men who came down from the surrounding hills to fairs and markets as aliens and intruders. When they came the Cork men gave them a warm reception and there is thus a tradition against outside interference of any kind in the district. At any rate the Cork riots are a pretty noor beginning for the "All for Ire-There was a curious scene at Ranelagh, England recently, a scene which, unique at the moment, seems likely to become a commonplace ere long: all of which is to say that, in an aeroplane-shed it was possible to book places for aeroplane-flights. The price charged for each flight with a skilled pilot was ten guineas. Each ticket was numbered, and it was arranged that the "first come first served" principle should be observed. Ladies were especially keen to take tickets for flights; the first ticket, indeed, went to a titled lady. The weather was

TRYING FOR \$5000 PRIZE.

TOPEKA, Kas., June 15.—J. C. Mars, aeropianist, sailed away in his Curtiss bi-plane at 5.10 o'clock this morning, headed for Kansas City, in an effort to win a cash prize of \$5000.

Four motor cars, carrying his mechanics, repairers and fuel for his machine and press representatives, followed after him.

an unpleasant surprise the other day when he opened a reticule which had snatched from a lady.

He pulled out a pair of handcuffs, and at the same time a heavy hand was laid on his collar and he was arrested.

The reticule was the property wife of a detection.

and at the same time a heavy hand was laid on his collar and he was arrested.

The reticule was the property of the wife of a detective. She had been acting as a decoy for her husband.

TOPEKA, Kas., June 15.—At 8 o'clock to-night J. C. Mars abandoned his Topeka to Kansas City aeropiane flight for the day at Bismarck, near Lawrence.

## duce and meat all showing high totals. Last year established a record in the frozen meat trade. The quantity exported totalled close on 270,000,000 pounds, an increase of 38,000,000 pounds over the preceding twelve months, and about 26,000,000 pounds over the record established in 1903. For the first time the weight of lamb exported, namely Of Her World-Famed Rubies

low a price? It is said that the real lieutenant shares this view. As Herr Joel, he argues, bought his joys so cheaply, he must pay a supplementary fine; and he threatens on the first occasion to whack his double without mercy. So Herr Joel stays modestly at home on moonless nights, while a stalwart individual, with a stick and a real cavairy walk, keeps watch outside his door. Love is a kind of warfare; and Ovid was right.

The officer in command was subsequently transferred to another garright.

Interesting Items Concerning French Writers and Artists.

chiefly French, of the 18th century is is probably the finest one of its special character in private hands. Following the example of another great French collector, Jean Grolier, M. Doucet has formed this art library not so much for his own private and exclusive use as for that of those who are engaged in research in art matters. To all intents and purposes the library is a public one; it is open to all interested in art and no tedious and embarrassing conditions are laid down for those who wish to consult it. The inquirer has only to find his way to

lieved to exist in the library of Saintfier for ancient and Oriental art, M.
Chavannes for Chinese art, M. P.
Perdriset for classical antiquities.
Other aminent scholars who have readily given their assistance in the selection of the best books in their respective specialities are M. G. Millet, M. Fouchet, and M. Emile Berteaux; while the general organizing and classification of the library has failen into the competent hands of M. Rene Jean, the conservateur of the library, with M. Etienne Deuville and M. Gaston Capon (the latter of the soil for agricultural purposes has disclosed large capitals, the heads of large columns. Not long ago, a digging bought by M. Saint.

lieved to exist in the library of Saint-Genevieve.

A new failway just opened by the Georges paid \$3040, after a valuation of \$5000 for "Last Sheaves," a night effect at Mezy. The next largest price of the sale was received for a large canvas by Dagnan-Bouveret, called "The Woman in White," which M. Leioir bid up to \$5800, after a valuation of \$5000. The centre. There is little doubt that the centre of the library, with M. Etienne Deuville and M. Gaston Capon (the latter of the soil for agricultural purposes has disclosed large capitals, the heads of large columns. Not long ago, a digging of the soil for agricultural purposes has disclosed large capitals, the heads of large columns. Not long ago, a digging from \$1200 up to \$3000; bought by M. Saint.

formed, classified, and arranged in the short space of three years. The wealth and variety of the library are, as one passes thru the various rooms and corridors, almost bewildering, for no subject has been overlooked and no art monograph forgotten. The library is especially rich in documents relating to French art. The library is also well furnished with catalogues of all the great public and private art collections in Europe and America.

embarrassing conditions are laid down for those who wish to consult it. The inquirer has only to find his way to No. 16, Rue Spontini, Paris, to ring the bell of a suite of rooms on the ground floor, and to explain to one of the librarians in charge the nature of his wants.

Those who have been in the habit of using the Bibliotheque Nationale in Paris will have many unpleasant memories of the waste of time and the disappointments in their applications for books at the magnificant but hadly-organized institution, where the student is entirely at the mercy of the indifferently or insufficiently trained assistants. Possibly M. Doucet has himself experienced somethins of this very serious inconvenience in days gone by.

When M. Doucet realized the necessity for a comprehensive art library he decided to seek the advice of a number of specialists; and so, while he has been from first to last the moving spirit of the whole concern, he has availed himself of the knowledge of such savants as M. Edmond Pottias for ancient and Oriental art, M. Chavannes for Chinese art, M. P. Perdriset for classical antiquities. Other eminent scholars who have readily given their assistance in the

MRS. ARTHUR MURPHY. Brilliant Canadian writer, whose new book on the Canadian West published this coming autumn by the Cassel Company.

From the Bookshelf to

the Cow

A man is never too old to learn. Charles William Eliot, former president of Harvard, began his post-presidential work with the easy things. It was a simple matter for him to construct a five-foot shelf of the world's best books. That labor disposed of, he turns to really difficult tasks. He will

is complex. First there is her selec-tion. This should be with judgment, and not with an eye to size and im-pressiveness alone, lest the dear doctor

mistake of a certain distinguished judge in choosing "a gentleman cow." The best cows are not large. A large cow is a great consumer, but her pro-

duction is not proportionate. The best cows are not handsome. The hand-

some cow is liable to take on airs and object to interference with ner person when one seeks to milk her. That quiet, unlovely, ungainly cow with the

crumpled horn, unseemly and unsymmetrical, may be the best cow of all for an owner whose dairy instruction has been in the college classroom. Moreover, she may be the best in results.

These are only a few of the things to be known. Once selected the cow must be fed with generosity and dis-

crimination. She will not live on breakfast foods alone, and fasting fads

are not in her line. She will need generous supply of wherewithal if she is to produce sufficient quantities of the finished product. She needs room.

The back yard farm is not adapted to her proportions, and the vacant lot is

obviously unavailable. She must be gently bespoken, treated with kindness

and consideration. Lastly, she must be approached from the right hand

side to be milked, no matter what the pictures in The Ladies' Home Journal

seem to show. And this is but the beginning of the progress from the bookshelf to the cow.—New Haven,

Douglas Sladen, the author of "Queer Things About Japan," and "The Secrets of the Vatican," has compiled a

popular work on Egypt which is shortly to be published by Messrs. Hurst & Blackett, with the title of "Queer Things About Egypt." Much of the

book deals with the humorous side of

Egyptian life as observed by Mr. Slad-

Conn., Register, June 7.

At a sale of pictures at Christie's, London, recently, a water color by Nasmyth entitled brought the highest price of the day, \$10,237.50. George Morland's "Credulous Innocence," also a water color, brought \$1272.50. Sir Hubert Herko-mer's "Entranced in Some Diviner Mood of Self-Oblivious Solitude," a water color which was shown at the Chicago world's fair of 1893, went for \$2677.50. Paintings followed the watercolors. Rosa Bonheur's "Gathering Faggots" sold for \$557.50. Benjamin Constant's "Empress Theodora" went for \$262.50; Corot's "Woody Path" went for the low price of \$78,75; Raeburn's unfinished portrait of a girl brought \$2677.50; Tenler's "Peasants Before a Cottage" brought \$26.25, the lowest price of the sale. Sir Joshua Reynolds "Portrait of Mrs. Waylen" brought \$1312.50; Raeburn's "Portrait of Lady Seten," \$4462.50; Gainsborough's "Portrait of Squire Bennett," \$1732.50; Millais' "Dew-Drenched Furze," \$3780; Millais' "Fringe of the Moor," \$4305; Orchardson's unfinished picture of "The Last Dance," \$3835; Alma Tadema's "Hide and See," \$1575; and Frith's "Claude Duval," \$3255.

JUST PRETENDING.

But I've a night that is all my own. Brighter than stars or a moon aloft, Without one star or a harvest moon; Eyes that beamed with a love-light Little 'possum in the wood; Little darkey with a gun; A still, still night by a sleeping lake, Told me a story of love, ah well, With just one breeze from the south The zephyr heard but it would not Little 'possum keeps so still, For he's not prepared to run!

He is hanging to a limb,
Just pretending he's asleep;
But when darkey comes along
He will slyly take a peep.

Then, if darkey points the gun
'Possum from the limb will fall;
Not that he'll get hit, you know:
He's pretending, that is all.

## Critics and the Alleged Low Standards of Literature.

There is a certain type of jeremiad that has revived at short intervals as far back as we can remember; it is the lament of the decline in literary standards. It is written in great distress of mind over the number of books that are not literature and the number of worth caring for or capable of distinctions. We would merely at the mistake of exaggerating the number of the properties of comparable merely to selling one venison, and the man who takes it venison is in nine cases out of that we would extenuate the sin over-praising. We would merely at the mistake of exaggerating the nices heaviles of comparable merely to selling one venison, and the man who takes it venison is in nine cases out of that we would extenuate the sin over-praising. We would merely at the mistake of exaggerating the merely to selling one venison, and the man who takes it venison is in nine cases out of that we would extenuate the sin over-praising. We would merely at the mistake of exaggerating the merely to selling one venison, and the man who takes it venison is in nine cases out of the decline in literary standards. It is written in great distress of mind over the number of the decline in literary standards. It is written in great distress of mind over the number of the decline in literary standards are not literary standards. It is written in great distress of the merely to selling one venison, and the man who takes it venison is in nine cases out of the properties of the merely to selling one venison, and the man who takes it venison is in nine cases out of the properties of the merely to selling one venison, and the man who takes it venison. that has reviewed at short intervals as far back as we can remember; it is the lament of the decline in literary standards. It is written in great distress of mind over the number of books that are not literature and the number of or readers that do not know the difference. Now these lonely, cries of the consciously cultivated—of whom, when you come to think of it, there are not a december of the half back on this considerable in the commissration for the "half back" on the part of sentlemen who are presumably completely baked is no doubt a .necessary stage of American "culture." But there is need of protein at the lower standards of current literary the low standards of current literary with the sheet. They are not considerable in the sortid conspiracy—a groomy plotture indeed.

If this were so, what a corruption fund for nasound criticism must have subsisted thru the ages, says a writer in Century Magazine. To go not consider the consulting of an infirmity. So used are in Century Magazine. To go not consider the consulting of an infirmity. So used are in Century Magazine. To go not consult the subsisted thru the ages, says a writer in Century Magazine. stealing a leg of mutton. But we really think that a man of spirit and delicacy would quite as soon satisfy his wants in one way as in the other."

At about the same time Scott was writing in his diary:

"I have very little respect for the stealing a leg of mutton. It elevate them.

Stealing a leg of mutton. But we really the man who negligently calls him a great one. Reviewers are generally in a hurry and, as a rule, haste makes praise of criticism, and recall our principles of criticism, and recall our unworthy authors to what they are not, before we can expect them to rise into the altitudes of greatness, to which all the complacent praise of the day can never thinks, to stealing a leg of mutton. It

## NEW BOOKS

Harvard verse are at hand in a thin. from The Harvard Monthly, 1885-1910," published in connection with the twenty-fifth anniversary of that pubperiods. We find acceptable material periods. We find acceptable material in each. Bliss 'Carman, William Vaughan Moody, and George Santayana are the best-known names among the three dozen poets quoted from. Thomas Parker Sanborn, of the class of 1886, died three years after leaving his college. That, perhaps, somewhat intensifies the mood of his verses, "At Christmas":

The embers dying on the hearth
Fall into ashes gray below;
Without, the flakes of sullen snow
Flit in a faint dissembled mirth.

Where is the little golden star
That led the wise men years ago?

\* The snow-flakes wanton to and fro
Dark clouds the heavenly portals bar.

William A. Leahy of the class of 1887 has a rollicking song in defiance of Death, the thought of which so insistently haunts the undergraduate

String your arrow to my lips, Harry Lincoln.

Ere you go to hunt the mountain roe.
Many wooers he low ere the bridal;
Many maids lose lovers on the way
For Death's a hunter, too, Harry Lincoln
So kiss me, Harry. Now ride away.

Life's a-maying

sentative of a very popular type of cellege verse is the Saga of Lief Erickson, by Charles Tripp Ryder, 1906, who calls his lines a translation "from the Old Norse of Nothing Attole." Lief Erickson, having sailed up the Charles on a ferryboat, is represented as thus exhorting his fellows:

thousand years"; (A slight exaggeration of

## The Wild Olive

like its predecessor, a story of great n, and a genius for thinking ought in terms of human ex can capture this kind of s

esce with the interest of an unusually strong and appealing love-story. The hero, Norrie Ford, is in worse case than "the man without a country;" he is deprived of the right to be himself, because, after being sentenced to death for a murder which he did not commit, he has fled from the law. The scene opens in the Adirondack wilderness. Norrie Ford has broken prison and is running thru the woods at night. By chance he comes to the house of the judge who had condemned him, tho he believes him innocent. The meeting between them dramatically states the problem—on one side, the man representative of society who has done his official duty in sententhe man representative of socie has done his official duty in

Mittle shack which she uses as a studio, until the pursuit has died down, then furnishes him with money to go to South America. Gratefully he tells her that his life is at her service. Ford takes from Miriam the name of Herbert Strange; thru her he is virtually transformed into another being. The new man is much stronger and more capable than Norrie Ford, but there is a basic flaw in him; he believes that, as society has cast him out, it can no longer hold him to its strictest rules; he feels that he has a right to take what has been denied him. In time he wins success and, thru the family of his employer, is brought into contact with his own class. But he cannot escape the conbrought into contact with his own class. But he cannot escape the consequences of his false position. He falls in love with his employer's niece. Evic Colfax, wholly dazzled by her beauty and superficial charm. The bitter question for him is whether he has a moral right to marry her. It is made harder by his discovery that Evic is the step-daughter of the judge who condemned him. Nevertheless, he wins her consent to marry him, and her uncle (who is also her guardian) gives a qualified approval to the match. Then Strange is sent to New York on important business, and here York on important business, and her he meets Miriam again. With all he might she tries to prevent the marriage with Evie, which, in the lon run, can only result in unhappin At last she reluctantly reminds of his promise to her long ago. effect upon him is greater than expects or can endure, loving him a she does. He declares that he will reveal himself as Norrie Ford and rais his chance with the law. Very finelit is shown how the woman's creativing into his true self. Almost against he will she has roused the deepest impulse of his manhood, and she is able to do so just because all along she has been absolutely true to hersel and to him.

# Clever Novels of To-day are In Reality Amplified Short Stories.

logically and progressively to a state of comparative perfection; then, when it is exploited so far as is humanly element of self-consciousness comes innecessary to strive for new effects; he must catch the attention of the public at any cost; he must be clever and these are the canker worms of decay.
While an art is progressing to per-

The song of life has been sung, the human heart has been analyzed, the passions and emotions have been possible, it has an evident decline. The portrayed; the modern writer must keep always before him the deadly to the work of the artist. He finds it with clever technique and tricking

same things, embellishing them merely lisher's criterion is not, "Is it good, them out in new garb. The novels of to-day are really amplified short stories, elaborating one original, even if that cleverness and originality lead away from truth. And artistic finish, writes Frederick Dix in The Independent. They far surprass their prototypes in technique, but they fection, every advance stimulates the have far less of the true art impulse artist; every step forward is a token The clear-cut conceptions of De Mau-The artist forgets himself passant, the crisply drawn emotionaand lives for his art. After the art has reached its zenith, the artist is lured virility of Bulwer, the tense realism of into subtleties and catch phrases and Kipling, all influenced the artistic tricks. During the last dozen years I methods of modern writers, but with have reviewed for various magazines this growth of refinement came the several million novels—at least, it decrease of primal ruggedness, enthuseems that many as I look back upon siasm and inspiration. Kipling, with all them. Some of them I have read! As I his vigor, succinctness and picturesque look back over the uncounted flock or | force, never produced a true novel. | ment of an immoral theme, lives. The duodecimo volumes which have flitted Howells introduced what might be in and out of my study window, I termed the photographic process, which realize that they have left some little reproduces but does not represent, and residum of general impressions, and to-day we have as our foremost the strongest of these impressions is nevelists such writers as Henry James,

Each phase of art is developed subtleties in order to catch the popular and Mrs. Humphry Ward, who plays uplift. the drawing-room zither, but not the

sounding horn. The novel of to-day suffers terribly from commercialism. The writer must content himself with paraphrasing the question, "Will it sell?" The pubwill it add prestige to my house?" but, "Will it sell?" The reader asks before he buys, not "Is it good, is it art, is it literature?" but, "Is it being read and discussed? Should I buy it to be up on the subject?" This is the soil where the canker worm thrives. The novel, like every other form of art, to be a work of art and to live, must be inexorably moral. The more recent novels from the pen of an English novelist who gave promise of being able to produce classics, Maurice Hew-lett, show decided traces of moral meretriciousness too subtle to be called indecent, but which, in spite of their refinement of style, will cause them to be forgotten, I believe, when "The Scarlet Letter," with its moral treatauthor of "The Stooping Lady" is beginning himself to stoop. On the residum of general impressions, and the strongest of these impressions is that every human situation, emotion, inquence, characteristic, passion and environment has been described, and that modern novel writers, despairing of finding anything new, are resorting to re-telling, to tricks of technique and to-day we have as our foremest the strongest of these impressions, and the lieve they are returning to the more lieve they are lieve th other hand, certain writers who be-

One modern novelist, in my opinion, Africa; with Joseph Conrad and E. J. Conolly he learns the horrors of tyrises considerably above the plane of brilliant mediocrity present-day. Breaking all current traditions, scorning the popular demand for condensa tion and rapidity of action, wandering leisurely along thru many hundred pages in each of his four books, and making many detours in the oldfashioned way of Thackeray, writing, evidently for the mere pleasure of writing, yet having a strong story

in his old age, won a permanent place for himself as a writer of good novels. What impressions do these modern novels leave upon me? That their writers have, with much cleverness, great skill, ingenuity, versatility, boldness-and with a weather eye out for royalties they are to reap-produce at a tea, or sail the main in palatial countless books—ah! a most amazing yacht or fisherman's dory, enter the army of books!—which divert, amuse, courts of royalty or eat black bread army of books!-which divert, amuse, some cases instruct, in a few stimulate, but which seldom uplift or your whim to explore the sweatshop inspire. The novel reader of to-day or factories, delve in the mines under receives a liberal education in life.
With Kipling and Mrs. Fraser he learns India better than the traveler; ward into the future? It is all here he becomes acquainted with coolie and at dollar and a half per!

phoon and raging seas; with Mrs. Ward and Mrs. Wharton and Robert Grant he visits the aristocratic homes Mrs. Harrison, Mary Wilkins, Davis, Chambers and others he hobnobs with with Winston Churchill he scans our nistory; with Edwin Lefevre he anl Hopkinson Smith he is entertained in Creole and Virginia society; with Myra Kelly he studies the children of the slums and with Conan Doyle and Hornung he bacomes a letective or a burglar, as his fancy pleases.

# In The Realms of Music and Fine Art

## The Much Maligned Accompanist Speaks

His Tribulations and His True Functions as Andre Benoist Sees Them - Curious Attitude of Audiences.

The accompanist is perhaps the most maligned component of the artistic are ignorant of his tribulations and few have the correct idea of his true should just play the piano part very

ANDRE SENDIST AT HIS PIANO.

at most to the accompanist's official glorification. But none the less, it makes a distinctly humorous impression on one who knows each side of the story to hear Mr. So-and-So exalted above all others as a great and noble exponent of the art of accom-paniment, when the truth of the matter is that the gentleman has been traveling the length and breadth of the country with one singer or player, doing the identical list of works over and over again for months and months at a time. Is it a wonder he understands the idiosyncrasies of the person with whom he is co-operating a way to avoid all contretemps? Is it a wonder that an actor who has played the same role six hundred and eighty times should be quite familiar

results carry him from his customary ways. Oftener than not it is just a

matter of nerve..

"The vanity of singers in appropriating the applause to themselves also helps to diminish the importance of the accompanist in the public's estimation. That is generally true of the smaller and least significant vocalists. The truly great ones, such as Mmes Nordica Sembrich. Schumann-Calists. The truly great ones, such as Mmes. Nordica, Sembrich, Schumann-Heink and Gadski, display a most charming spirit in this respect, and nevera fall to bring out the planist to share in the applause. As for Mme. Nordica, she is endeavoring—and succeeding to the share in the applause of the selves of the men in the cast. Jefferson de Angelis was Ko-Ko. but this particular Lord High Executioner seemed to think Gilbert's lines insufficiently mirth provoking of themosphere.

ed toward me in apparent anger, tho I knew that the mistake was not mine

## "Mikado" Revived In Pristine Glory

Perennial Freshness of Sullivan's Music and Gilbert's Wit -An Uneven Performance by an All-Star Cast.

No more auspicious evidence of the ultimate extinction of such comic opera perversions as those which have usur ed the Broadway stage during the last decade could be desired than the amazing fervor with which theatregoer have welcomed the current revival of softly and never for a moment be Gilbert and Sullivan's "Mikado," unde the direction of Messrs. Shubert and listen very carefully to the singer or player and always follow his wishes for fast or slow, right or wrong. Otherwise-well, we should be just as happy if he didn't exist."

Such is the creed of the musically illiterate! How different the description of the ideal accompanist, the accompanist of the future, indirectly formulated a century ago by Schubert: "The manner in which Vogel, the tonor, and I, at the plano, unite in the performance of a song so that for the moment we seem to be one greatly astonishes folks."

Now the type of art song written since the days of Schubert calls for precisely such an accompanist—a true artist, who shall mingle the individuality of his own task with that of the soloist, seeking naither unduly to exalt or humble himself. But, thanks to artistic vanity and public ignorance, how many such are in evidence to-day?

On this topic some highly interesting information was recently furnished by Andre Benofist, whose work with Mme. Nordica and other eminent personages has called forth praise about as radent as the accompanist—those who have played six hundred or more recitals with one and the same artist, and those who are obliged to go on at the last minute, without previous preparation, completely subject to the caprices of a singer or player with whose methods he is entirely unfamiliar.

"Need I add that of the auccessful ones in these three branches the last is by far the most entitled to whatever laurels may come to him. I know it is not the fashion to devote more an a few lines of newspaper space of instrumentation which he had acquired before he came to the Conservatory, and the latter, in one of his letters, has referred to him as having "distinguished himself by his talent in composition and for the advanced knowledge of instrumentation which he had acquired before he came to the Conservatory, and the latter, in one of his letters, has referred to him as having "distinguished himself by his talent in composition and for the advanced knowledge of instrumentation which he had acqui Brady. The fact of an "all-star" cast

of instrumentation which he had acquired before he came to the Conservatorium." And on another occasion Grieg referred to Sullivan's early music written to Shakspere's "Tempest" as displaying the "practised hand of an old master." "The Mikado" cannot be said to illustrate any undue amount of he played them very well." harmonic originality or twentieth century piquancy such as makes 'ne Straus score so fascinating a study to the musician. But in these respects, as in the less pretentious orchestration, the sharply differentiated traits of the English and the Viennese temperament, as well as the character of the subjects treated, must not be overlook. ment, as well as the character of the subjects treated, must not be overlooked. Melodically Sullivan's score, with its frequent suggestion of genuine English folk melodies, is a delight, causing one to overlook and condone the fact one to overlook. that the operators and condone the fact that the operatta is Japanese in nothing save the names and costumes of its characters. If in a few of the "patter" songs the purely musical in-

knowledge, and the madrigal in the second act is a very ingenious bit of a cappella writing. Then, too, one must search far to find a more thoroly enchanting chorus than that of Yum-Yum and her maids at the opening of this same act. It is comparable in grace to the cigarette girls' chorus in "Carmen." The quasi-Japanese melody "Carmen." The quasi-Japanese melody which occurs once or twice should not be taken too seriously.

"All-star" casts do not always imply all-star performances, and of this fact the present production is a reminder, highly commendable as much of the performance is. Fritzi Scheff in the role of Yum-Yum acted pleasingly and duplicated her action with her singing whenever she maintained a disposition to remain true to the pitch, which was provided to sing." begin the sentimentalist.

"Yes." replied Mr. Lobrow. "I've heard about them. My private opinion is that we appreciate them because people don't insist on singing them any more."—Washington Star.

"To succeed as a planist, you must have a foreign-looking name."

"I would not choose a name belonging to any country other than my

delivered with much distressing sharp-ness of intonation in the high tones. Josephine Jacoby, fresh from the operwith it?

"If you can number yourself in the first class I mentioned you are lucky in having sufficient time for preparation. The rest are those who must be musicians to their fingertips, who must instinctively, as it were, grasp the artist's desires, no matter how far the results carry him from his customary results and not altogether free from its mannerisms, made a capital Katisha, but sang neither better nor worse than she did at the Metropolitan. An immediate success was scored by Christie MacDonald in the tiny part of Pitti-Sing, and her winders and the complex of the co some singing of "He's Going to Marry Yum-Yum" earned her one encore

seemed to think Gibert's lines insui-ficiently mirth provoking of them-selves, for which reason he undertook to supplement them with a good dose of low comedy horse-play. Mr. de An-gelis lays no pretentions to vocal abilto share in the applause. As for Mme. Nordica, she is endeavoring—and succeeding. I am happy to say—to restrain the hearers from applauding her before the accompaniment is ended. "The question of such contretemps as dropping one's music, turning two pages at once or disagreeing with the soloist in matters of tempo is one that always causes uneasiness. I once fell into such a difficulty while playing for Herbert Witherspoon, and I shall not forget it in a long time. On another occasion, when I was accompanying De Gogorza, he suddenly stopped singing in the middle of a song and turned toward me in apparent anger, the opportunities in "My Object All Su-

blime."
The chorus sang excellently and But immediately his expression chansed, and, turning to the audience, he said: 'Ladies and gentlemen, the fault was mine, after all, I forgot the words.' It was a manly and charming thing of him to do, and I have always admired him for it."

The chorus sang excellently and there was an orchestra of size adequate to do justice to the beauties of the score. It was ably conducted by John Lund. The stage pictures were charming, that of the second act being received with delighted applause.

## "THE BOHEMIAN GIRL"

The favorite old ballad opera, once known as grand opera. Some notes of its history. Story of the opera. "Opera in English."

The "Bohemian Girl" once on a time stood for the grandest of opera to the English speaking public. And can there be any better argument for opera in English—and by Angle-Saxon composers, too, for English words do not really fit foreign music—than the worldwide familiarity among the English-speaking nations of "I Dreamed I Dwelt in Marble Halls," "Come with the Gypsy Bride," "Then You'll Remember Me," "The Heart Bowed Down?" It is the one opera by an English-speaking composer that is as well known to us as any work of a foreign composer. For this we owe it an affectionate remembrance and its performance by the Aborton Opera Company at the Boston Opera House may rightly win an interested hearing.

Michael William Balfe of Dublin was a vololinist and a sweet singer in the delightful rish way as well as a composer. He made other operas, but they had foreign words, and perhaps for this reason never won the same for the strong the found off the boards of the theatire. Else that never could be capted the story of her rescue by Florestan of having stolen it from him. She is stolen it from him. She is stolen it from him. She is stolen the found and brought before the count. He finally recognizes her, when she tells the story of her rescue by Florestan of having stolen the found for the boards of the theatre. Else why the 6 shillings? The English or the thought of the

## Useful Hints and Tips for Amateur Motorists

Grinding Valves-Bad Clutches-Care of Spare Tires - Points on Adjustment of Carburetter.

All the more careful manufacturers number their valves. For instance, on a four-cylinder engine the valve cap orifices are numbered on the cylinder casting one to eight, and the valves themselves are numbered to correspond. When removing the valves to grind them, care should be taken to grind them. care should be taken to number them if they have not already been numbered by the makers. Of course, they cannot be numbered in figures as the makers would number them, but the heads can be dotted with a centre punch, or what would be safer for the average amateur would be to tie a label on each, or to use some other simple method, such as a numbered box so that the valves would not be mixed up. The same remark applies to the valve caps. No matter how well an engine may be made, it is desirable to keep the parts in the same order as they were before taking the engine down, as after a certain period of work these parts become more or less bedded into position, and even with the highest standard of accuracy there are small difard of accuracy there are small dif-ferences, such as those which occur in valve stem lengths. Not only so, but the valve heads themselves be-come bedded to their seats, and as come bedded to their seats, and as each was individually ground to its seating originally the chances are a great deal more grinding will be required to bring about a satisfactory face on both valve and seating if the valves be changed over. As to the valve caps, it will generally be found if they be changed about that one or other will be slightly tight or loose in its thread.

Handled by his firm.

Several auto firms have established themselves in the northern part of the city. The up-town garage business should be worth going after.

Pity the chauffeur who is responsible for a car that is driven by five or six different members of the owner's family. its thread

A Sticking Clutch.
"An experience which I had recently demonstrates the necessity of occasionally draining out the old oil from multi-disc and expanding clutches and inserting fresh oil. I had returned from a forty miles run, and after the car had been washed and the tanks car had been washed and the tanks filled I attempted to drive the car into the garage. But the only result obtained by depressing the clutch pedal and attempting to move the gear-lever was a terrible grinding noise. Inspection showed that the clutchshaft would not stop spinning when the pedal was depressed, and, notwithstanding the fact that the car had quite recently returned from a long run, it was subsequently found that this trouble was solely due to the thickness of the oil in the clutch (one that this trouble was solely due to the hurry and a "near friend" yells at you thickness of the oil in the clutch (one for a lift and then wants to be of the metal expanding type). I may add that from all appearances the old oil had precipitated—if such be possible—and the part which was thick was preventing the clutch from working as it should. Of course I washed out the clutch case with paraffin and petrol before inserting fresh and thin-

The Care of Spare Tires. the spare covers and tires which may be carried upon the car enclosed in waterproof covers, from experience, I have found that if such tires remain in their coverings for some months they may become mouldly and rottenbably owing to want of air to dispel the certain amount of dampness which must find its way inside the cover in course of time.

Carburetter on Fire and Popping. It is well known that firing back into the carburetter and popping are usually caused by too weak a mix-ture, but there are times when this occurs altho the mixture is not too weak, and when this is the case it is highly probable that the valve stems are sticking in their guides. The simple expedient of squirting some paraffin up each valve stem thru the springs, so that the guide may be freed of any slight deposit of thick oil which may have gradually collected and thereby made the stem somewhat tight. If this does not effect a remedy the valves should be lifted up one by one, and any that are slugspringing back into position should have the springs removed. Each springless valve can then be moved up and down freely with the fingers, and if one be found to be stiff it must be taken out and eased, but this should only be done when clean-ing falls to effect a cure, for, before any attempt is made to reduce the with, when it con stem, it should be thoroly cleaned, injurious effects.

and the same applies to the guide in which it works. If it still remain stiff, the stem should be polished with emery cloth, care being taken to equalize the polishing all round and also to avoid overdoing it, as a very little is sufficient to make all the difference required. If the stem be reduced unnecessarily, so that it becomes a loose fit in the guide, wear is set up, and in extreme cases air leaks in round the stem—thus causing a weak mixture by supplementing the usual supply thru the carburetter and air valve.

## Motor Notes

carrying bag for your spare tube

Who will be the Ontario motorist to have liscense number ten thousand?

It's cheaper to hunt for a noise on your car than to wait till the trouble reclares itself twenty miles from any-where.

Inadequ cooling is becoming a thing of the past. All the 1910 and 1911 cars have a generous water circulation.

Mr. Thomson, manager of The Do-minion Auto Co., reports a steady de-mand for the high-class machines handled by his firm.

An Indian Prince has had a limousine built in London which is fitted with a cabinet for a phonograph. What

Never turn off a country road into long grass without first looking for holes or big stones. Many a broken axel has been acheived in this way. If your dry cells give out and you have no other source of current, pierce two or three holes in the top of each cell and let some water soak in thru them. This will revive the cells sufficently to give you several miles more.

Wren you are driving along in a big

Grasset told The Motor League officials that on streets where the traffic is not heavy the speed limit of ten miles an haur may be exceeded by fifty per

Altho admitting that she was going faster than the law allowed, Miss Muriel Spencer, of New York City, was freed by Magistrate Barlow in the West Side court. Miss Spencer explained that she was taking a trained nurse to her mother, who suddently had been taken ill, and that the road was clear of traffic. The court considered the excuse given satisfactory.

More than 1000 little orphans were made glad and given the time of their lives recently by the Louisville Auto-mobile Club, who gave the little tots a free ride and a trip to Riverview Park. It was the annual outing of the Park. It was the annual outing of the club and the entertainment began at one o'clock in the afternoon, when scores of flag-bedecked automobiles went sailing down Broadway, after they had been loaded to the limit at the various orphanages in the city.

It the smoke emitted from automo biles when fed too much oil, injurious to man's system. Physicians state public would soon show its interest, that there are no harmful effects from and possibly some good might result the oil smoke; that it is not like that from bituminous coal, instead it is the burning of an oil which has been highly refined. It does not stain like coal smoke and can be inhaled without serious injury. Tobacco smoke is the nearest thing that it can be compared with, when it comes to speaking of its

The Tire That Won't

Creep or Come Off

That's the Goodyear Straight Side Auto Tire. It won't budge a bit even though the tire be ridden long distances absolutely flat.

No tire bolts are needed. There's nothing to cut the tire—nothing to cause trouble. No matter how rough the road surface, Goodyear Straight Side Detachable. Tires will Not Rim Cut.

While being supreme in resiliency, their construction makes them more puncture proof than other tires. The severest tests have proved this.

(100D YEAR

are being used as standard equipment by practically every maker of a high-class car in the country. Their patented straight side construction makes it possible to make Goodyear Tires larger than any other tires sold for the same size. Each tire is considerably larger than its rating. So you get Extra

Size, plus Extra Quality.

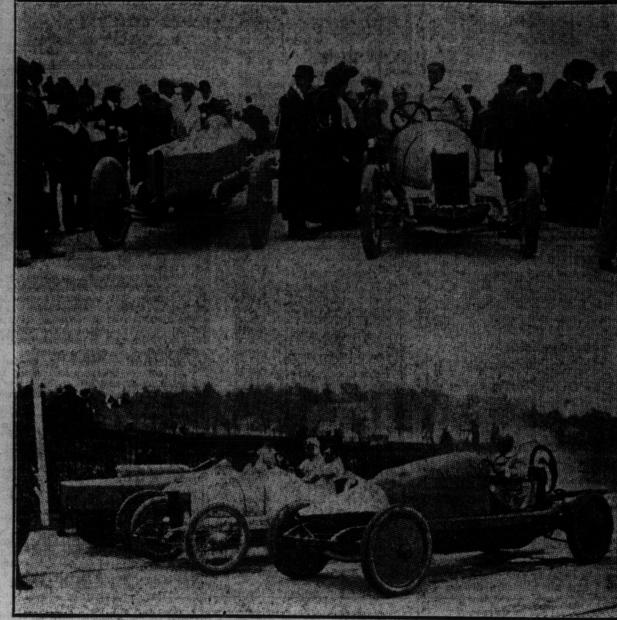

Our Book, "How to Select an Auto Tire," gives you real tire information.

It shows how to decrease tire upkeep amazingly. Send for a free copy to-day.

It is intended that "Goodyear" shall ere long mean as much in Canada as it has come to mean in the United States, where 36 per cent. of the estimated 150,000 new automobiles to be manufactured during 1910 will be equipped with Goodyear Tires.

Travel and Transit Section May Be Installed at Kensington.

In a reent issue of The Motor. Motorists who are summoned for speeding should remember that Chief tion of a Motor Car Museum. When Mr. Claude Johnson took the trouble to organize the exhibits of early motor-cars at the White City last year the idea of a museum for motor-car antiquities was very much in the air, but nothing, so far, has come of it. Now Mr. Sturmey has voiced his opinion we may perhaps get a bit reliability test ever held in the United nearer the realization, and as he points out, there is every likelihood than ever before, chances for perfect of owners of early-designed motorcars presenting them to the nation in they are assured that every care will be taken of these novelties of a new movement—a movement still in its

It would be a good thing to get the Kensington Museum authorities to all that they are capable of overcomgrant space for a travel or transit section. We are changing our methods so rapidly nowadays that even the covering the most promising market course of a few decades give place to country for cars next year and that better machines. If it were possible to find space at Kensington for a really good display of antique cars, ready evidenced by the great enthu-early motor-boats and aeroplanes and siasm that has sprung up along the airships, built to a smaller scale, the ever we shall be in a position to say, that we have reached the end of our

The Growth of Accessories. history of the movement can ever be complete without we take into account the really remarkable growth of accessories. I am not sure that any other movement, whether industrial or sporting, can show so many trades interested in its welfare as can the motor movement. Almost every branch of industry has felt the benefit of the growth of the motor movement. Carriage or body work has become a fine art. The making of leather goods, speedometers, the boom of the rubber market, and many other trades could be enumerated, have all spent time and money in per-fecting goods for use on the perfect car. In a way, too, the growth of accessories is really interesting. There are really too many accessories made to carry a sample of each in comfort, and the sartorial science which Dun-hills have applied to every form of wearing apparel is simply astounding. When we have a motor-car section to it that accessories are not over-

## ROAD MAINTENANCE.

All structures are liable to decay. All work of repair is carried on at all times, roads suffer deterioration thru the effect of travel and the elements. This statement is seif evigent and needs no argument to show the necessity of so maintaining a system of resity of so maintaining a system of repairs that the wear and tear may be reduced to a minimum or corrected before any serious damage ensues. The great value of the highways of continental Europe and the Scandinavian peninsula lies not so much in their excellent construction and vast miles as in their superior methods. mileage as in their superior methods of maintenance. The slight detects or maintenance. The slight defects are corrected promptly, and on every mile of road some one individual is charged at all times with its care. Where such a rule is applied there can be no very bad places to serve as traps for the trusting traveler and the followed out to the letter, and reasonable penalty has been arranged for in cases of violations.

MOTORISTS ATTENTION. can be no very bad places to serve as traps for the trusting traveler, and road accidents are comparatively unknown, says Minnesota's State Enbring some sunshine into lives that have too little of it.

Don't forget the orphans' outing on old lives of the use of the auto coal trucks, many of which are capable of carting ten tons of coal at a time in New York City.

## Seventh Glidden Tour Very Strenuous Trip

Route to be Traversed Severe One - Rules More Rigid - Observer on Each

close to fifty cars started last Tuesday morning from Cincinnati on the the sixth contest for the Glidder trophy. Going by way of Dallas and swinging north to Chicago the tour will end June 80, and will be the longest States and with the rules more severe scores are somewhat slim. With the conditions to be encounter.

ed and the tests to which the cars will be put the tour promises to develop into a hard grind and one in which the different class machines will find ing. While the route to be traversed ready evidenced by the great enthu-A. G. Whiting of the Automobile

from such a section, as many ideas Club of America, and one of the best have yet to be formulated we can say if known men in the New York motor trade, has consented to act as referee. Chairman S. M. Butler of the A. A. A. contest board is in Cincinnati to per-sonally conduct the tour, assisted by A. L. McMurtry, E. L. Ferguson of New York and David Beecroft of Chi-

mittee, composed of Alden L. Mc-Murtry, chairman; David Beecroft, Souther, F. E. Edwards, Alexander Churchyard and Berne Nadall, took charge of the competing cars as they arrived in Cincinnati during the week and inspected every working part to see that the cars conformed to the stock rules, and were not in any particular specially constructed for this test. All the working parts were then sealed by the committee with wire and lead seals.

These may be broken at any time by the drivers, but always under the ob-servation of the official observer provided for each car, who notes when every seal is broken and just what penalty is due for work done on the working parts so inclosed. There is no for breaking a seal, but those penalty removed during a day's run are replaced when the car reaches the night's

top.
In direct contrast to former years, the rules will be far more rigid, and this, combined with the fact that conditions will be bad regardless of what weather is encountered, lessens the chances of any car coming thru with a perfect score.

On this tour there will be a fixed penalty for repairs and adjustments of any kind, done at night centrels, and

other minor technicalities which are to

Lionized Four Days as Famous Apperson Driver, Imposter Eludes Capital Police.

when a man who said he was Harris M. Hanshue, racing driver of the Apperson Jackrabbit, came among them. tained Hanshue liberally during four They proceeded properly and enterdays, only to find-to their chagrinthat the real Hanshue, all the while, had been far away in Los Angeles. had been far away in Los Angeles.

Hanshue's imitator made an unusual record in Washington. He first appeared at the Washington headquarters of the Apperson, announcing that he had a few days' leisure before proceeding on factory business to Richmond, Va. He also said he was to drive an Apperson car in the Point Breeze races at Philadelphia and was awaiting the arrival of the racer waiting the arrival of the racer. awaiting the arrival of the racer.

Those familiar with Hanshue's appearance were suspicious at first, for the supposed driver bore no resemblance to the man who has made fame for himself and the Apperson by his feats of speed. "Hanshue" glibly explained that "his last wreck had completely altered his appear-

Nevertheless the Apperson factory at Kokomo, Ind., was asked by tele-graph if Hanshue were in the east.

graph if Hanshue were in the east, but before the reply to the contrary arrived the bogus Hanshue had disappeared and the Washington police could not find him.

According to a telegram received by the Apperson Brothers Automobile. Company Hanshue's impersonator planned to work his stunt in Boston also. The Apperson dealers there also queried the factory for confirmation as to Hanshue's whereabouts, saying he had wired that he would soon be in Boston.

The man got no large sums of money in Washington, but did make several loans of \$5 or \$10.

## JARVEY MUSTEGO.

Auto and Taxi Displace Jaunting Car in Dublin. "The smart jaunting car, the lively

hack and the witty driver are institutions bound up with Dublin traditions, but the day of the typical Dublin jarvey seems drawing to a close," said President Charles W. Lewis of the Jackson Automobile Company of Jackson, Mich. A movement is on foot to introduce taxicabs, and if successful it will be as fatal to the Irish Jaunting car in Dublin as it has been to the hansom in London.

Private automobiles have already done much to alter the appearance of Dublin's streets, and at such festive seasons as Punchestown week, the horse show or any local race meetings, the old display of jaunting cars is

## MOTOR TRUCK.

erchants of New York City have recently been able to make explains in part the high favor in which the auto truck for coal deliveries is now held. truck for coal deliveries is now held.

It has been learned that a ten-ton auto coal truck can be operated at a cost of about three and a half cents per ton mile. It has also been shown that the average cost of hauling a coal cart, drawn by horses, is 18 cents per ton mile. That item alone explains the rotable increase of the use of the auto-

The Sad Story of the Loss of \$700 on an Automobile

At least one woman in New York City is \$700 to the good thru buying a used car from the proprietor of the concern instead of from the salesman who originally showed it to her and got her positive order for it. The machine was of the large, expensive type, and on her first visit the woman was sufficiently impressed with it to order it set aside for her until she could come in with the money for it, the price which the salesman named having been entirely satisfactory. On her second visit she was met by the proprietor himself, who, in the absence of the salesman with whom she had dealt, undertook to close the bargain.

With true feminine intuition in bargaining, she again asked the price, without indicating that a figure had been named before. The proprietor, whose success in the second-hand field largely has been due to his quick turnovers, named a rockbottom price that gave him only a modest profit and was \$700 less than what she had agreed to give when negotiating with his salesman. She promptly paid over the cash and took possession of the machine.

When the situation subsequents had

the proprietor, the latter did not accuse himself of a mistake or indicate that the salesman was better at getting a good price than himself. What he did was to give the salesman a warm "laying out" for not being "on the job" when the woman with the ready money arrived, in order that the \$700 might thereby have been saved to the firm. SOMEBODY WILL GET AN AUTO

In accordance with a policy which has been carried out for three years past, the Oldsmobile Co. of New York has just announced the fourth reunion of Oldsmobile owners, which is to take place Saturday, June 11, at the Empire City track in New York City.
Each year a new touring car is given away and this time each Oldsmobile owner is entitled to draw for an Oldsmobile Special, which is listed at \$2000, the car going to the holder of the lucky number.

The invitation extended to those owners reads "it does not matter what year's model Oldsmobile you own, just so long as it is an Oldsmobile, you are entitled to participate in this drawing."

## = Noise=

Noise is said to be the most annoying part of an automobile; it creeps in at the invitation of age but slowly in a well-made car; but it has the unhappy knack of starting to wear out its welcome much too soon in the other kind. The man of experience defers the evil day and puts money in his pocket at a single stroke. His receipt is very simple; it calls for a liberal supply of good lubricating oil. When a car reaches the point in its life where noise becomes unbearable to the autoist of some discrimination, if the economy bug has a speaking acquaintance with him he will most likely make the mistake of commissioning a repair man to take the noise out of the automobile. When his money takes wings and he finds himself alone with the repairman's ideas annexed to a worn-out car, he will most likely make the sad discovery that noise is not eliminated by tacked-on innovations, altho the chances of having additional trouble to cope with may have increased. The whole situation is portrayed in the simple statement, i.e., the prospect of parting with good money overcomes judgment and blinds the victim to the unaiterable fact he would never be able to induce himself, even by a money argument, to put up with an ill-behaved, noisy automobile, nor is it likely that a repair man, even of some ambition, will be able to silence the croakings of a worn-out carthe right solution will be found in a new automobile.

## Motorists Should Give Their Hearty Support, Financial and Otherwise

## How to Use the King Drag (Ford Times)

implement very simple. The first concerns the length and position of the hitch, while the second deals with the position of the driver on the drag. Each influences the other to a large extent, and successful manipulation of the drag is dependant upon an understanding of both of them.

For ordinary purposes the snatch link or clevis should be fastened fareough towards the blade end of the chain to force the unloaded drag to follow the team at an angle of 45 degrees. This will cause the earth to move along the face of the drag moothly and will give comparatively light draft to the team, provided the afriver rides in the line of draft. sometimes, however, conditions are met with which require special treatment, and in a rolling country, such conditions are not infrequent. Often a flat place several rods in length, or a seeply spot, needs special attention.

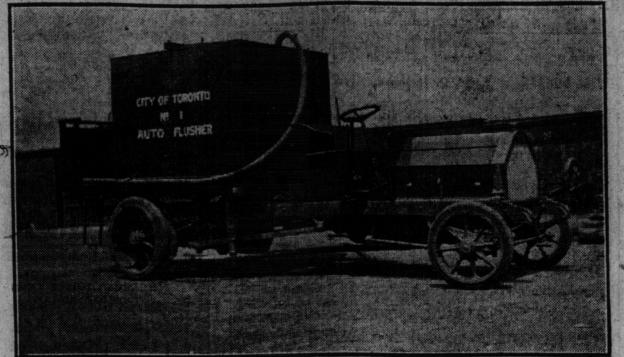

The distance from the drag at which the team is hitched affects the depth of the cutting. Shortening the chain tands to lift the front slab from the ground; a longer hitch causes the blade to cut more deeply. The length of the drag as shortening the chain at the mad which runs thru the hole in the mad of earth is to be moved, the

successful operation of a drag the drag back to the proper angle an the successful operation of a drag back to the proper angle and involves two principles, which, when thereby understood and intelligently applied, make road working with this implement very simple. The first concerns the length and position of the length and position of the length while the second deals with the large specific place to proper angle and cause the blade end to plow. The hitch requires slow and careful driving in order to prevent the drag from tipping forward. If the blade should plow too deeply as it may do in a wet spot, the driver should shift his weight toward the back slab.

and which runs thru the hole in the blade end of the drag.

If small weeds are to be cut or a furrow of earth is to be moved, the doubletree should be attached rather close to the ditch end of the drag. The drag will now move hearly ditch end feremost, and the driver should stand with one foot on the extreme forward and of the front slab. This will swing

AUTO FLUSHER FOR TORONTO.

The city authorities have been quick to realize the value of motor traction. Our illustration shows one of the two big Auto flushers which go into service on Toronto streets this week. The Chassis is a 40 H.P. Berna. The tank has a capacity of 1200 gallons, While working the flusher will travel at a speed of about eight miles per hour. It will do the work of three small horse-drawn tanks or of two large ones. These flushers will go into service on the uptown streets.

FORD'S PERFECT SCORE.

WALKERVILLE, Ont., June 14.-Ford model "T" entered and driven by owner, E. M. Willingham, Atlanta, other five cars with clean score, with one exception, cost three thousand to six thousand dollars.

PLANNED BY LEAGUE

Road on Norway Hill by the Repairing of Blantyre Ave.

One of the worst bits of road around foronto is the Kingston-road, where t climbs Norway Hill. Owing to the neavy traffic here, it is impossible to

heavy traffic here, it is impossible to keep the surface in repair.

The Ontario Motor League, in a letter to its members, has submitted the following excellent scheme to avoid this portion of the Kingston-road:

For an expenditure of \$3000, the connecting link from East Queen-street to the Kingston-road via Blantyreavenue, as shown on the accompanying map, can be made a first-class highway for motor traffic.

The Township of Scarboro offers to supply free gravel and to pay one-third of the cost if we can raise the balance by subscription from our members. The Toronto Hunt Club has proposed to contribute, and, if our mem-

Every motorist in Toronto should give this movement his heartiest sup-port, both financially and otherwise.

## LUBRICATION PROBLEM FOR AUTO ENGINES

Oiling Troubles Discused in Detail by British Motor Experts.

In the course of the discussion on

Mr. R. K. Morcom's paper on "Forced Lubrication," read before the Institution of Automobile Engineers last week, Col. Crompton asked the author how it was possible to prevent any forced system of lubrication from containging oxidising matter, whether in the form of acid present in the oil, or acid which somehow found its way in with the water which invariably gained access to the crank chambers and gear boxes? He (Col. Crompton) had already mentioned, in some remarks upon a former paper, the curious effect of water on ball bearings, and how ball and roller bearings—in fact, all bearings with bright steel surfaces—had been very much dis-credited on account of their supposed heavy wear, which, however, was mainly due to oxidation and the wearing away of the surface so oxidised until a fresh bright surface was reproduced. A remedy had been proposed by the introduction of oils which ing away of the surface so oxidised until a fresh bright surface was reproduced. A remedy had been proposed by the introduction of oils which would stick closer to the polished surfaces and prevent the oxidising matter gaining access to them, but the remedy in some cases had been found to be worse than the disease, for these oils contained within themselves substances which attacked the steel surfaces. This matter accessed to the steel surfaces. All the methods used by the Holden of the best tire men in the State of New York. oils contained within themselves substances which attacked the steel surfaces. This matter seemed to have been investigated, and was now to some extent understood. A great many of the unsatisfactory results obtained in closed crank chambers were probably due to the oxidation of steel surfaces when those surfaces were at rest, and to the oxidised surfaces heips rubbed off when the shaft were at rest, and to the oxidised surfaces being rubbed off when the shaft was put into motion. What was now required was to know how to get a proper viscous mineral oil which would protect steel surfaces from oxidation and yet be capable of flowing freely thru the pump and forced lubrication system, so as to give a full supply at the starting up of the engine—two essentials which it seemed very difficult to obtain. The better gine—two essentials which it seemed very difficult to obtain. The better and more viscous oils followed the pump plunger very badly during the first few strokes, which was the time when the oil pressure was most required in the bearings to meet the heavy friction at starting. It was most difficult to obtain this unless some system of reserve pressure could some system of reserve pressure could be provided. Such an arrangement would mean additional complication, but it might be advisable .

wins perfect score, Atlanta to New York endurance run, seventy cars entered. Sixty-four of them beaten, in Thoroly Up-to-date

> Toronto motorists will be glad to plant for the repair of automobile tires which is not surpassed in completeness of equipment by any on the

The plant referred to is that of the J. P. Holden Co., 699 Yonge-street. Mr. J. P. Holden, the manager, has had an experience in the repair of tires that dates from the beginning of the business. This experience he has applied to the erection and fitting of the new plant, with the result that he now has the most complete equiphe now has the most complete equip-ment for repairing tires in Canada. The vulcanizing machinery used is the last word in this line of work.

## Requirements of Motor Gasoline

Sensational statements, which had for their purport the possible scarcity of gasoline, were made and reiterated with such vehemence a year or two ago, that autoists were constrained to believe that the fuel problem would become the most serious phase of the whole autoing situation within a short time. It was then believed that hexane was the only suitable distillate of the hydrocarbon series which would properly serve in automobile work, which belief was based upon the fact that the volatility was at the right rate and with sufficient uniformity to serve for the purpose without leaving a residuum.

At the time there were many geniuses who labored under the false impression that kerosene oil would become the ultimate fuel, and that some different kind of a motor would have to be designed to burn it. Skill always comes to the rescue of the man who nurses a bugbear, and this case proved to be no exception to the rule. Instead of designing a freak motor to burn kerosene oil, it was found to be feasible to design the fuel so that it would burn in an automobile motor, and at the same time avoid having to use the distillate hexane as the sole product, at the cost of an enormous quantity of by-product, which could not be used as rapidly as produced in other arts and industries.

The distillers of oil realizing fully that hydrocarbon by-products, unless they can be utilized in the arts and industries, introduced a formidable problem, due to the fact that these by-products cannot be disposed of in any way, excepting industrially. Were they to be run into a sewer they would reach the waterways, float on the top and become a menace; likewise to spill them into a depression in the earth would be to make an artificial liquid hydrocarbon lake, which would be a menace also. Enough has been said to indicate that the by-products of the distilling process in the making of automobile gasoline must be regulated to the quantities which will find a use in various ways . When the seriousness of the problem was fully realized, the experts who deal with such matters began experimenting with composite fuel, with the idea of utilizing the entire range of the distilling process, including hexane, heptane, octane and de-cane, with perhaps other fractions, should the plan prove efficacious.

It was not necessary to involve the pentane fractions they being more volatile than hexane, for the reason that these lighter distillates are vastly in the minority and have many uses, so that they may readily be disposed of in the ordinary way. It is fortunate for the automobile situation that the lighter distillates are not so good as automobile fuel; the heat units per unit of weight are less, and the inflammability is in excess of that desired, not only from the point of view of safety but for the further reason that the rate of flame travel in the compressed mixture in the combustion chambers of cylinders, is in excess of the actual demand. and motors so provided would be prone to knock.

As carbureters were improved, and as automobile engineers arrived on a better basis in their understanding of the requirements, it became apparent to them that there should be a sufficient quantity of the lighter distillates present in the total fuel to permit of starting a cold motor, without having to crank, beyond the mere spinning of the motor, as an outside limit. Automobile fuel, to satisfy this phase of the situation, must hold enough hexane to serve as the volatile member of the family, after which it may be diluted with the heavier distillates, even beyond the pe marked decane. - Automobile.

# THIS CUT ILLUSTRATES THE PLAN THAT IS BEING ADOPTED TO SAVE THE TRIP OVER THE KINGS-TON-ROAD. THE HEAVY LINED PORTION IN BLANTYRE-AVENUE AND QUEEN-STREET WILL BE PUT IN GOOD CONDITION.

## A Ball Decarboniser

We have sundry compositions placed before the automobile public from time to time, for which more or less complete decarbonising effects have been claimed, but it is left to a Mr. A. D. POLICE. plete decarbonising effects have been claimed, but it is left to a Mr. A. D. Hard, of Minnesota, writing to The Motor (U.S.A.), it suggest a mechanical agent ever present within the cylinder. Mr. Hard says that some time ago he was seraping his cylinders, when he found one of them nat only free from carbon, but with the inner surfaces of the combustion and valve chambers smooth and brightly polished. Upon investigation he found a small piece of metal, worn almost spherical, lying on the piston head. It happened to be a fragrant of piston ring, and had evidently been in the cylinder for some time. So. Mr. Hard was lead to presume that the insertion of steel balls, such as used in bicycle pedal bearings and large enough to avoid wedging in between the piston and the cylinder wall, would perform the cleaning and polishing even better than the piston ring fragment.

He ran the car, after putting one held in a carb available for a mount he carbon will be permitted to ride on the back at the insertion of the prisoners succeeded in a head to presume that the insertion of the cleaning and polishing even better than the piston ring fragment.

He ran the car, after putting one

than the piston ring fragment.

He ran the car, after putting one hall in each cylinder, for a month before re-inspecting, and found all the cylinders quite clean and bright but one of the balls missing. At certain periods of the month's test Mr. Hard noticed some back-firing in the induction pipe, which we should ascribe to the ball getting occasionally under the inlet valve.

It may be taken as axiomatic that a knack is required in the manipulation of any starting crank, but the greater number of them would be much more

A SIMPLE CLUTCH BRAKE.

There can be no question but that There can be no question but that with the average clutch the act of sear changing is simplified and made much less noisy if some means is provided for slowing down the driven member upon its release. In cone clutches the weight of the cone is usually sufficient to cause it to continue revolving for

It is difficult to think of a more erron-eous conclusion so generally accepted in good faith. Experiments with a 45 h.p. car at different speeds have conclusively proven that the most econonoticed some back-firing in the induction pipe, which we should ascribe to the ball getting occasionally under the inlet valve.

Another Motor correspondent hailing from Leaf River, Ill., writes saying he had tried this same scheme, but for three hours only, when upon removing the cylinder head he found all the carbon deposit gone certainly, but the crowns of the pistons and cylinders were badly dented and pitted. On the whole, we are not inclined to recommend the ball dispersion of carbon deposit, but if any of our readers have sufficient enterprise and temereasy to handle if the releasing spring mical speed is quite moderate. On a was made lighter. With a stiff releasing road test of over one hundred miles

Poets have sung of the joy of life, In many different phases, But the greatest joy is a motor olke, And let her go like blazes.

For example, if a casing is to be retreaded and the bead is good the steam is applied only to the tread and the bead is not heated. If the casing is blown out the fabric is repaired from the inside and vulcanized with inside moulds. The rubber is then cut out and filled in and vulcanized on the outside machines. In this way on the outside machines. In this way the tire cannot be overcured and burned. Rim cuts can be successfully repaired in this way and there is no stretching out of shape of any part

All the methods used by the Holden Company have been thoroly tried out and found successful in their Rochester shop. An interesting innovation is the air hose, which they have installed in a box on the sidewalk in front of their place of business. Their

front of their place of business. Their patrons are provided with a key which opens the box, thus giving access to the rubber hose by which their tires may be rapidly inflated to the proper pressure, thus saving a great deal of arduous work.

The Holden Company also have the agency for the famous Nobby Tread. Morgan & Wright Tire. The Nobby Tread is the best non-skid device ever put before the public. The rubber stock of the nobs is additional rubber to that of the tread itself so that when after a long time the nobs wear off the owner still has a perfect smooth tread tire. Testimonials from numerous motorists are proofs to the efficiency of the nobs for the prevention of skidding.

Motorists who have repaids either of tubes or casings should visit the

of tubes or casings should visit the Holden Company. Also for your next tire try a Morgan & Wright Nobby Tread.

IS CHARLTON IN LONDON?
LONDON. June 16.—The Express this morning makes the assertion that Porter Chariton, whose wife's body was found in a trunk in Lake Como.

Teally, last Friday, and for whom the Italian authorities are making a vigorous search, is in London. The newspaper, however, does not locate Charlton.

## June Weddings

Special interest was attached to the two weddings which were celebrated Wednesday afternoon at the home of Mr. and Mrs. B. B. Jenkins, in Empress-crescent, South Parkdale, when their daughters, Abble Lucy and Mima Marie, were married, the former at half past two to Dr. William A. McClure, eldest, son of Mr. and Mrs. William McClure, of Woodbridge, and the latter at three o'clock to Dr. Charles S. Hawkins, of Toronto, son of Mr. and Mrs. Hawkins, of Port Hope. The entire house was beautifully decorated for the occasion with bridal wreath and palms. An arch was formed across the bay window in the drawing room, where the bridal parties stood, similar arches leading to the hall and into the dining room, while palms and ferns were banked in the bay window, on the mantels and in the fire places. In the dining room yellow flowers were used, and yellow shaded lights. At the conclusion of both the marriages, when the register was being signed, Mr. Percy Ham sang "The Voice That Breathed O'er Eden." The Rev. Mr. Macdonald, of Cowan-avenue Presbyterian Church, assisted by the Rev. Jenkins Burkholder, performed both ceremonies. At the first wedding, that of Miss Hops. The entire house was beautifully decorated for the occasion with was formed across the bay window in the drawing room, where the bridge to the bridge to the hall and into the dining room, while palms and ferra were banked and in the fire place. # THE SKY PIRATE GARRET P. SERVISS

aptain Alfonso Payton, an airship ert, know as the Sky Pirate who ses a specialty of abducting wealthy dezvous in a forest many hundreds miles from civilization, on an evenwn on the home of one, Grayman, a w York billionaire, and carries off s beautiful daughter. Helen, and her aid. The young heiress treats the atter as a practical joke perpetrated her friends and enters into the spirof the thing with all a girl's impul-ve love of adventure. The Sky Pirloes not enlighten the girl as to the rue state of affairs but, speeding thru e night at eighty miles an hour, hun-eds of miles from New York City, inrms the father, distracted at the discovered loss of his child, of what he has done and coolly demanded ten million dollars ransom for the safe return

Rillionaire Grayman fumes. refuses and finally consents to meet the abductor at a certain time and place and not pay over the money. He does nor, however, intend to pay the ransom but thinks, with the help of the police, he may capture the noted outlaw.

He, accordingly, calls in the commissioner of police and a plan is laid to thwart the Sky Pirate by the station-ing of officers of four speedy police aeros in a wood close to the selected

place of meeting. From his spies Captain Payton learns of the billionaire's plans and swooping down captures the police ship and

takes the money king prisoner.

The multimillionaire is beside himself at the miscarriage of his plans and. gives his promise to the Sky Pirate to pay over the ten millions ransom money as soon as the latter places his daughter safely in his keeping. Captain Payton accepts Mr. Grayman's word and releases him in New York City. The Sky Pirate delivers a letter to Miss Grayman, supposed to be from Mr. Grayman, but, as a matter of fact, written by himself, which states that the father has been unable to come to his daughter on account of his disabling his aero. The letter states that she is to feel no uneasiness because she is in the hands of friends who will take her home very soon. Mr. Grayman receives a reply to the letter bearing the postmark of a city many hurdreds of miles distant. In despair the turns to the national government for help and a new scheme is laid to

outwit the outlaw. By means of a new device for locating hidden points, the lair of the Sky ing so much personal interest in her!

Pirate is discovered some eight And she was his prisoner! This was outlaw by surprise in his own domain. the romantic adventure that her fancy hundreds miles away in a wooded district of Labrador. It is decided to arm friends, approved by her father, and

There was great competition among had been! There was a quick response to my sifinal to get under way, and in a few minutes, to the great admiration of the people below, the whole fleet, with its aeroplanes flashing in the sun, was speeding northward, the Eagle in the lead.

CHAPTER XIII. Miss Grayman Tries Flight.
While these preparations for her rescue were under way the unconscious prisoner in Labrador had, at last, awakened to a realization of her position

Her confidence in Mrs. Williams being restored by what her father had said, she had once more taken the woman into her good graces; and Mrs. Williams, on her part, exceeded all her previous efforts to make her attentions acceptable. Thus, during Payton's absence, when he went to post the letters, all went well until just before his return; for the charms of the backwoods were not yet, by any means, exhausted for Miss Gray-

Then, suddenly, she made a discovery which destroyed her dream, opendrove her to desperation.

While rummaging among the books

in the library she had come upon the autobiography of Henry Morton. It was not a book likely to attract the attention of a young woman, but she attention of a young woman, but she turned over its leaves, thinking more of the gap which the absence of Commodore Brown had left than of what she was idly looking at. Presently, as she opened the volume in another place, a letter sheet, wedged between the leaves, lay exposed full to view. She could hardly have helped taking in its contents at a glance, for there were only a few lines, written in a

Captain Alfonso Payton: My dear Captain:—The damage to the Chameleon from our acci-dent, after carrying of Miss Peterson, of Peoria, is more serious than you supposed. I find that four or five days will be required to repair her. I have sent her to a shop here, and will report to you as soon as she is ready.

ABRAHAM SNELLING, Lieutenant. Cincinnati, July 1, 1934.

Miss Grayman was aghast! Her Miss Grayman was agnast: Her hands convulsively grasped her throat as the truth burst upon her. The name of the Chameleon alone was enough, but now she suddenly remembered to have heard, or read, of "Captain Alfonso Payton." This, then, was the man who had succeeded in awaking a make hereal interest in her! some swift army aeros and take the so innocently and joyously entered upon by herself. Oh, what a fool she

'She read the letter again, and the

interminable woods better to house with the deer than to remain here another moment.

Susan came running in, alarmed by her mistress' accent. "Get our wraps, quick!"
"Why, Miss Helen, what—"
"Don't stand there questioning; run!

Quick! Quick!"

The bewildered girl obeyed, and in a minute returned with the garments.
"Come with me to the cance!" commanded Miss Grayman, whose self-

control was growing with the emer-As they ran down the steps from the veranda, and along the short path to the landing place, Miss Grayman glanced fearfully around. Thank heav-en! Mrs. Williams was occupied somewhere about the house, and not a per-

son was in sight.
"Into the canoe!" said Miss Grayman in the same imperative voice, tho she spoke hardly above a whisper,

where about the house, and not a passes of the cannot will Miss Grayman is sight. "Laid of the cannot will Miss Grayman is sight." Laid of the cannot will Miss Grayman is sight. "Heaven forbid!" cried her mistress, and susan sliently obeyed her. Miss Grayman is sight. "Where are we going?" asked Susan sliently obeyed her. Miss Grayman is sight. "Where are we going?" asked Susan sliently obeyed her. Miss Grayman is sight. "Where are we going?" asked Susan sliently obeyed her. Miss Grayman is sight. "Where are we going?" asked Susan sliently obeyed her. Miss Where are we going?" asked Susan wonderfing?." The summer of the control of the second of the weak of the control of t

can't go any farther!" on the "Then we'll sit down and rest," was pose." the reply. They sat down on a fallen trunk, overgrown with soft, fresh moss. Presently Susan stretched herself flat on her back, her face streaming with per-

"Oh," she panted, "I shall die!"
"No, you won't die," said Miss Grayman, whose strength was austained by a more terrible fear than Susan knew.
"You'll feel all right in a few minutes.
Here, take these."

And she plucked from a bush a handful of berries and offered them to the exhausted girl. Neither of them stopped to think whether the berries were wholesome or not; only to Miss Grayman had tought neither of wild beasts nor of food, the idea that they would—need to think whether the berries were wholesome or not, only to Miss Grayman had tought neither of wild beasts nor of food, the idea that they would—need to think whether the berries were wholesome or not, only to Miss Grayman had tought neither of wild beasts nor of food, the idea that they would—need to think whether the berries were not harmful, and after ten minutes or so both feit refreshed. "We shall have to carry these things aions," said Miss Grayman, looking at the wrape which they had dropped on the ground. "We shall need them along as if their lives and at the wrape which they had dropped on the ground. "We shall need them along as fight" exclaimed Susan. "Where a townshow deepended upon them alone.

"At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not goo." "At night!" exclaimed Susan. "Where are you going, then? Are you not go." "At night!" exclaimed Susan. "Where are you going, then? Are you not go." "At night!" exclaimed Susan. "Where a townshin the you not go." "At night!" exclaimed Susan. "Where a townshin the

"At night!" exclaimed Susan. "Where are you going, then? Are you not going to return to the lodge?"

"Heaven forbid!" cried her mistress. "Susan, do you know what it is that we are running away from? It is the Sky Pirate, Alfonso Payton!"

All that she had read about this man and his exploits had returned in a rush to her excited memory. Oh, why had she not thought of that before? How could she have been so blind? But to think of his venturing into New York, and into her father's house! Who could have dreamed of such a sundfall, where a tornado thad uprooted the trees and left them interminably intertangled, driving them from their course—altho, really, they had no course, except that Miss Grayman strove constantly to get farther from where she supposed the lodge to be; sometimes swamps interfered with their progress, and sent them on weary tramps around their boggy edges; sometimes they were caught in tangles of spiny undergrowth, from which there seemed no issue. Yet, on and on they struggled. They were wearing the stout garments that Payton had

bank of the pond, feeling instinctively in the that that was the more distant from the lodge. As they stepped out, leaving the cance to float off in the edge. As they stepped out, leaving the cance to float off in the edge dying current, Susan whispered:

"What is it, Miss Helen Where are "What is the danger" "What is the danger" "What is the danger "Bush" was the reply. "We must nottak yet. We have got to get away not take yet. We have got or grain stay here any longer. They may have been traveling for an hour in the isony and they made better progress. Miss Grayman hurried on, and Susan parted at her heels.

They may have been traveling for any farther?" "Sus the stay of the point of the cold, not so now arose that of the cold, noises now arose that of the cold, noises now arose that drow sleep from their tired eyes." "Hush!" was the reply. "Commodore Brown is Alfonso Payton, and they made better progress. Miss Grayman hurried on, and Susan parted at her heels.

They may have been traveling for any farther?" "Could not find the words were we shall sleep, I don't know; on the grayman gravely." "I could not find the side of the cance to the swap from the reply. "Could not find the stay of the cance to float off in the edge of the cance the cance the cold, noises now arose that of the cold,

it reached out long arms and cautious-These were very practical questions ly spread a warm robe over them. The that Miss Grayman had not thought next instant it had disappeared.

Miss Grayman half rose in affright, and there, sitting on a log, stolidly staring at them, was Indian John!

Susan, after her fashion, fainted, but Miss Grayman was stronger. Altho trembling with fear and surprise, she rose to her feet. Then, for the first time, she noticed the robe that had covered them. Her quick intelligence, awakened by recent events, told her the story in a instant. The story in a instant. The story in a instant.

I don't know how to describe the feeling that had grown up in me tow-

What Women are Doing for the Advancement of Civilization -- Suffrage

BY FLORA Mac D. DENISON.

Readers of this department are Peabodyq's generosity. Tickets may and useful and so to satisfy a demand of those so dear to us, these young street pleasure that I am able to tell or with the property of the great pleasure that I am able to tell or Mrs. Glasgow, 40 Albany-avenue, as nine hours a day in order to earn the something generous that has come well as many other members of the our way. I had suggested to a committee of women interested in the broader opportunities for women, for which Dr. Stowe so nobly stood, that I would give my house and grounds committee.

I might add that this is not a suff-rage affair exclusively. One tent only will be devoted to suffrage wares. The medical women, the university women, the Western Hospital women and I could commend them for their I would give my house and grounds many other groups will have their own for a garden party for the benefit of booths, etc. All women have a better country to live in because of the work the fund.

Dr. Gullen and what was our delight to be offered the extensive grounds at 21 says, it is time the work of such men was recognized. Rosedale-road by Mr. and Mrs. Charles E. Peabody. Mr. and Mrs. Peabody are Americans, but they have daughters taking advantage of our educational system, and are deeply grate-ful that Dr. Stowe's pioneer work work made it possible for their girls to have of eminent writers in many lands on made it possible for their girls to have of eminent writers in many lands of the advantages of a higher education the woman's suffrage question. Paratin the city which is their adopted graphs from which we are often glad empty an ash tray and get a whiff of stale smoked tobacco and then think home. Much work and expense will to copy. and we feel sure that Toronto women will be all sorts of the suffrage association has been organized in Winnipeg. Manitobeen of the citizens of this fair Dominion.

There are thousands of them.

fund. There will be all sorts of at-tractions for little folks and young grandparents.

that they would disclose was Donald's strength and personality.

that they were going to give the young Mrs. MacDonald was president of the ladies and gentlemen a treat. There W.C.T.U. for twenty years, and this hopeless and contemplating this phase will be many dainties for sale, and body of women was pleased to honor of it, is to say the least, discouraging. gipsies-real gipsies-will read your her with a reception during her stay

Dr. Stowe did, and, as Mr. Hughes

This department is indebted to Mr.
W. Munns of the legislative committee of the Toronto Suffrage Association time of their lives stripping this for many clippings with much valuoble information regarding the views to earn their daily bread.

of Florida, has been a guest at the King Edward Hotel. Mrs. MacDonald is one of Canada's pioneer suffrage womany gaily bedecked tents will have special attractions.

Two committees decided that their attractions would be secret till the day arrives. All they would disclose was Donald's strength and personality.

For the past week Mrs. Mary Mac- work-preachers and church organizaeople as well as for the mothers and Donald, formerly of Toronto and now tions—what do you think of this? If randparents.

Donald, formerly of Toronto and now tions—what do you think of this? If men will smoke and chew, let smokers

tening to these girls open their meeting and conduct it strictly according to parliamentary procedure that would have done credit to any of our older organizations of women, I was at a loss what to say to these girls. Many of them, I should judge, were under the interior of this great man was the his credit many less great.

The history of this great man was the history of many less great.

He started out a radical, anxious to reform. He was an ardent woman suffragist, he favored anexation and he wiped orthodoxy off the slate. Later, be some place made his care years.

The history of this great man was the history in battle: we burn incense at the shrine of genius, but we often overlook the service rendered by the seber-minded unimpassioned folk who can be relied on to do the right thing in the right way at the right time.

Mothers! sisters! think of it. Think how disgusted you feel when you empty an ash tray and get a whiff of stale smoked tobacco and then think of these girls day after day handling it. These girls day after day handling it. These girls are the future mothers of the citizens of this fair Dominion. There are thousands of them.

Temperance women—social service women, under whatever banner you work—preachers and church organizations—what do you think of this? If men will smoke and chew, let smokers and chewers strip the tobacco. Surely our girls can find more developing and congenial work than this. Besides, many get barely an existence wage, living is out of the question on three and four dollars a week.

Sometimes the social problem looks hopeless and contemplating this phase of it, is to say the least, discouraging. Still we are getting civilized enough that we do not want to wear clothes the very discouraged of the wear clothes the conditions, and the weighteenth the woman's suffrage bill was introduced into the house of common sense. Then a dark form moved stealthily and silently from a thicket and approached them. It knelt beside the troubled sleepers and listened. Finally wept and sobbed. Wild thoughts ran thru her brain. She even thought of thru her brain. She even thought of ard Mr. Grantham. He seemed to take making away with herself. Yes, if help a deeper interest in my personal

Value of Color.

MISS TIBBY OF THIBET ALSO DRESSES SOME ON HER WEDDING DAY In seclusive, mysterious Thibet wedding ceremonies are picturesque to a degree that would be highly amusing in Canada. The Thibetan brice wears a wedding dress original and voluminous. It is original in that the front of the dress is absolutely plain and undecorated, while the back is made up of several brightly hued cloths, beaded and embroidered from top to bottom; over all is spread the raven locks of the Thibetan belle, for there a bride takes more pride in her hair than in the gown itself.

In the picture she may be seen with her back turned towards the audi-

ence. The groom does not appear in the picture, the other figure being the hideously masked priest who ties the knot.

# Plays of the week

MAJESTIC-DARK. GAYETY-

Percy Haswell and her excellent company are drawing big houses nightly, which goes to prove that Toronto is play-loving enough to support a summer stock company, also that Toronto people are sufficiently wide awake to appreciate high-class plays at popular prices. After all, there is really no off-season for a good play any more than there is for a good cigar, or a cup of coffee. Therefore, summer players should do well and certainly Miss Haswell and her com-Gibbs," which King George witnessed pany are deserving of all the support foronto play-lovers can give them.

The Summer Matince Girl.

She longs not for the shady isle, Nor cooling breeze from off the bay;

Billie Burke has put her dainty foot down and declared for smaller and simpler headgear than that now in fashion. The other day, on returning from a shopping expedition in which she had purchased some millinery to wear during her summer vacation, Miss Burke remarked, "I am sick and tired of the gigantic hats that people are wearing this year. They are big enough to use as an umbrella for two, and they look like Japanese miniature gardens. In my stage costumes, of course, I have to keep up with the latest fashions, but when I'm off duty I like to dress more simply. Positively my poor head is tired out from carrying those great, heavy, handsome hats that I wear in 'Mrs. Dot,' and I'm going to rest it during the summer by going bareheaded as much as possible. When the sun is too hot for that I shall wear a sensible, pretty sunbonnet, and when the occasion demands a hat it shall be a light one seeing women carry around landscape gardens and ornithological exhibits on their heads that I have decided to confine myself to plain ribbon bows, graceful folds of chiffon and tulle and a few flowers. For the next three months I declare my emancipation from the tyranny of millinery."

"Our Miss Gibbs," "The School for

Woman in the Case." "His Borrowed

Plumes," "The Best People," "False Gods," "The Whip," and "Arsene Lu-pin." "Our Miss Gibbs" had the honor of three visits. It is interest-

ing to note that "An Englishman's

Porter was working on a new play for Liebler & Co., to be called "The World and the Door." The scenario was well liked by the managers.

One day last summer, Mr. Emory of The Percy Haswell Co., and Wm. Courtenay were lunching at the Phister Hotel in Milwaukee. Among other things on the menu card was, "Southern hash with hominy fritters." Mr. Courtenay turned to the waiter and said, "George, we want some Southern hash;" and as George was leaving added "and some Hominy fritters." The darky turned immediately, scratch- tiful pastoral comedy. ed his head for a moment and finally said, "Deed I don' know sah, but you can have it 'As You Like It.' "

At a performance of "As You Like It" in Washington, D.C., several years ago, the actor who usually played the part of Corin, the old shepherd, was of the "real pump," which was made taken ill and an understudy who had a feature of one of the plays produced been watching the play every night was called in to take the part. He re-hearsed perfectly, but when it came to speaking the lines at the evening performance he was seized with stage fright, and instead of reading the lines—"Sir, I am a true laborer, I earn that I eat, etc.," he said—"Sir, I am a hard-working man, I eat what I wear, and I wear what I eat—I have worked eight hours to-day," and Touchstone the clown added-"You forget what you learn, and I am d—d if you shall work another minute, for the devil himself would not have you for a shepherd."

Haswell will introduce in her production of "As You Like It" next week at the Royal Alexandra Theatre. the first time sheep have been introduced in Toronto in Shakspere's beau-

Realism seems to be going far when real sheep are introduced in t's performance of Shakspere's beautiful pastoral "As You Like It." Mr. Crummies, the famous manager in "Nicholas Nickleby," it will be remembered, dwelt on the effectiveness by his company, and the great interest it excited with the public. A strange and inexplicable circumstance is the curiosity with which common place things footlights are viewed by playgoers, who willingly pay to see them, when they may be witnessed for nothing in the streets. What more familiar in daily life than horses, and yet behold the crowds that rush nightly to see the horses in "Ben Hur"! made the fortune of the London meld drama, "A Great City"—cabs there are the most prosaic of all objects. And there was a "real" balloon in "The Great Ruby," and a "real" fire engine in "The Still Alarm," and ever so many more "real" things, of the most ordinary sort, displayed in other dramas. Shakspere, however, has been comparatively safe from this sort of thing, except that occasionally a performer has ridden horse-back is some of his martial drawas. In Shakspere's own day there was scarcely even scenery; but a little little signboard tacked up announced when the audience must understand that the action passes in a street or wood, and when indoors. The late Sir Henry Irving once said that after all, this

The passing of Halley's comet causastronomy. It affected Mr. Emory of The Percy Haswell Company, somewhat differently. The comet was not even so far as twenty million miles away when Mr. Emory forgot all about it, and stooped to the following little verse concerning stars of the theatri-cal firmament: There are stars that shine with a light

## The Passion Players

By RUBINO BILHKOFF

OBER-AMMERGAU, June 18 .- When the weekly performance of the play is over and the crowds of strangers who have thronged the village have mostly departed, Ober - Ammergau settles down again to its ordinary work-a-day life. It is a fascinating place. One calls

it a village because it is impossible to think of it as a town, in spite of its 1650 inhabitants. It seems to be built anyhow, and altho I have been walking about it for nearly a week I hard-ly yet know where I am if I lose sight of certain well-known landwarks. The certain well-known landmarks. The houses are white, with deep-browned red roofs. Many of them are gaily painted, not only as to their woodwork and with quaint devices, round windows and doors. windows and doors, but with pictures, sacred or profane, and one of them has the whole of its wall space dec-orated in this way with frescoes done a hundred years ago by a great master in the art. The tortuous streets are full of little shops and some big ones, in which carvings are mostly displayed for sale, and in this festival year there are temporary booths besides, for the sale of postcards or other things that the modern traveler has need of. The rocky mountains, clothed with dark pines and still in part

of matchwood. As you walk about the streets and tears. the country roads almost every one you meet hails you with a "Gruss Gott!" and the men and boys raise their green, feathered hats. They are think the most truly religious. You soon get used to the long hair of the men, even when you see it on the road-sweepers. I passed Barabbas sweeping a road as I walked out into the country. He was smoking a long china pipe, and he looked up, took off his hat, and gave me his "Gruss. Gott!" with the mildest expression. The true Ober-Ammergauer never cuts his hair. When the Passion Play was interrupted in 1870 by the Franco-Prussian war those who were liable for military service had to go, but they were allowed to keep their hair Nineteen of those who were

in the choir of "Guardian Angels," when she wore a robe of gold and purple over her white, girdled garment, and her hair fell beneath her crown to below her walst. An urchin paddling in the mud outside the schoolhouse stood with arms outstreched for full two minutes in one of the table-

full two minutes in one of the tableaux and never stirred. At the blacksmith's forge a man with a noble
classical face and grey hair and
beard is shoeing a horse. Yesterday
he was for the third time leader of
the chorus, a kingly figure in gold
crown and scarlet robe, with a finsvoice and a splendid dignity of bearing. Everywhere you meet familiar
faces, for during the long hours of
the performance they have stamped
themselves in your memory; only it
is sometimes a little difficult at first
to recognize in their work-stained
clothes the richly garbed impressive
figures of the play. is sometimes a little difficult at first to recognize in their work-stained clothes the richly garbed impressive figures of the play.

I was taken to the house of Johann Zwink, and we were shown into a brightly painted room with an old porcelain stove in the corner, prepared for the accommodation of expected visitors. A sweet-faced young girl who had opened the door to us talked with us for a little while and then said she would go and fetch her father. She was Ottille Zwink, who takes the part of Mary, the mother of Jesus. She is not yet twenty, but snow-covered, rise on either side, and on the summit of the highest peak is an enormous wooden cross so far above you that it looks as if it were made | She is the Master Dolorosa, her voice full of piercing sorrow and her eyes of

Presently her father came in, a greyhaired man with a kindly, somewhat pathetic face. He is a house painttheir green, feathered hats. They are the most courteous and gentle-mannered people I have ever met, and I think the most truly religious. You soon get used to the long hair of the has been a hopeless invalid for ten years. He had been the Isaac in the tableaux of 1900, and it is said that he had contracted the rheumatic fever from which he died by sleeping on damp hay, when all the beds in his father's house were given up to visi-

Gratefully cool was St. Andrew's sunday evening—hot and stuffy was that same building when, an hour and a half later, he with scores of fagged-out men and women, and dozens of tired, drowsy children came out on the street again glad to feel the cool breezes of evening. The demon of heat and of bad ventilation had effectively nullified all the influences of a solemn, impressive and inspiring service.

St. Andrew's is a beautiful building—surely a source of much honest pride

St. Andrew's is a beautiful building—surely a source of much honest pride

has taught the necessity of surround-ing religious services with attractive-ness as well as solemn sincerity, no churches have been more handsomoly appointed, no services more renowned for elaborate musical accompaniment. St. Andrew's is one of the finest Presbyterian church buildings. The decorations are rich, but not too elaborate; they always suggest the church rather than the concert hall. Around the chancel wall is an intricate scroll design with the inscription "Laus Deo" multiplied many times. Strikingly multiplied many times striked not of old to rebuke kings and princes for wrong-doing. But there was that in his voice, intensely tender was that in his voice, intensely thender and appealing at times, persuasive and argumentative often, that bespoke him a practical man who knew and loved humanity because being himself intensely human.

"Preoccupation with good" was the subject of his discourse which was a clear-cut pronouncement on a vital topic—the eradication of evil. "It is

fied all the influences of a solemn, impressive and inspiring service.

St. Andrew's is a beautiful building—surely a source of much honest pride to the Presbyterian denomination. With the addition of the spacious chancel and choir stalls it has taken on the appearance of a miniature cathedral, this effect being enhanced by the dark colored timber of the roof and the artistic stained glass windows piercing nave and chancel. It has, however, none of the almost repellant severity of plainness of appointment that characterizes the average cathedral. And surely the tendency to keep these buildings as empty and gloomy as possible is a custom inherited from those days when men believed that true religion and attractive church appointments could not co-exist. Also it is evidence of a false pride in keeping up the appearance of antiquity. When will these folk learn that a church's power and influence are determined not so much by age as life, life that touches and pervades humanity?

It was long before conservative Presbyterians could bring themselves to adopt organs, chimse and other accessories of church appointments to church speciation of the evening was Prof.

The preacher of the fare and represent ing the stained glass window, at the centre of the fare and represent ing the Biblical story of the Good Samaritan. The seats are comfortably and instance of the fare and represent ing the fare and represent ing the fare and represent ing the far

It was long before conservative Pres-byterians could bring themselves to adopt organs, chimes and other accessadopt organs, chimes and other accessories to church services, which at one time they regarded as nothing less than abominations. But since they have realized the power music has on the hearts of men; since experience tious Critic he was a perpetuation of the lights were lowered, the air became unpleasantly impure and overheated. And three-quarters of an hour of close attention to the most silvertongued preacher is too much to ask of any gathering under such conditions.

Eventually he clambered up on a more stable piece of ice, but wind and tide carried it over a shoal where it was smashed in pieces by the sea and he was again forced to do battle for his life with the ice-covered waves. By hard struggling he managed to reach another ice-raft and get his dogs upon

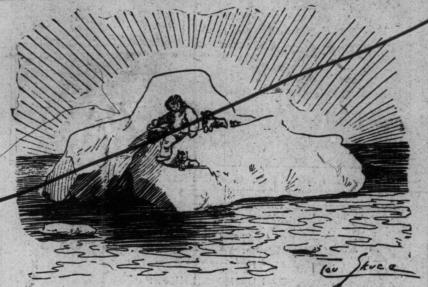

"Grenfell of Labrador" is a name synonymous with all that is heroic and self-sacrificing. In journeyings many and in perils oft, perils by land and by sea this "good physician" has for the past twenty-odd years shown his entire devotion to the work of amelicrating the poverty and continual hardships that mar the lives of the settlers in Northern Newfoundland and on Labrador. Thanks to his untiring His situation was most perilous and uncomfortable. His frail support was continually swept by heavy seas which tossed and buffeted it so that he expected it to go to pieces almost any minute. His clothes were drenched and his whole body numbed with the on Labrador. Thanks to his untiring efforts and appeals to the charitable, especially in Canada and the United States, a chain of hospitals has been built along these bleak coasts and competent doctors and nurses in connection with each labor whole-heart-adly to "heal the risk and march the and his whole body numbed with the cold and bruised with the struggle in the ice-laden water. He was bareheaded, foodless and with absolutely no shelter from the biting wind, while the pan was drifting out of the bay to the ocean beyond. The pan was too small even to permit of his walking about to keep his blood in circulation and it seemed inevitable to him that he must freeze to death.

There was just one ray of hope. On the north shore of the bay was a little settlement from which the fishermen edly to "heal the sick and preach the word," as the motto of the Mission to Deep Sea Fishermen puts it. Beside directing the activities of these institutions, Dr. Grenfell also acts as man-aging director of saw mills, co-oper-ative stores and other undertakings which have been of almost incalcul-

which have been of almost incarcul-able benefit to the people.

In winter all the fishermen leave the Labrador coast for their homes in Newfoundland and the hospitals at settlement from which the fishermen might observe his peril. Possibly, too the men who had gone round the head of the bay would search for him when the more remote points are then glos-ed. When he is not away lecturing in Canada or the United States, Dr. Grenfell makes his winter headquarters at St. Anthony Hospital, in Northern Newfoundland and his frequent be failed to turn up in good time. But the day wore on, noon passed and the short afternoon and no help came. As the sun declined the wind increased trips from this base take him along a bleak exposed coast any distance up to four hundred miles. The doctor and in strength and the cold became more

his famous team of dogs are almost tinually on the trail and many a to pass the night on that drifting piece of ice and he accordingly made what preparations he could. His ultimate ime have they gone into the very aws of death to make time to the fate depended on his own mother instinct and resource—if these falled him morning was bound to find him stiff and cold and dead. First he wrung as much water as possible out of his clothes. Then he decided that the What was, perhaps, the most notable of his many thrilling adventures oc-curred a couple of winters ago. Responding to an urgent summons he set out for Euglee, a small coast setlives of some, at least, of his dors would have to be sacrificed. It was tlement some fifty miles south of St. Anthony. The trail lay along the coast hard to make this decision and harder still to carry it into effect. It seemed for a few miles and then crossed a wide inlet known as Hare Bay. The men who had brought the message to St. Anthony warned the doctor that the basest ingratitude to destroy these faithful and affectionate servants whose strength and intelligence had the ice in the centre of the bay, havbrought him safely to the end of many ing been broken by the sea, was too unsafe for travel. They advised skirting the bay, but Dr. Grenfell decided neither the time nor the place for sen-

HIS SITUATION WAS MOST PERILOUS AND UNCOMFORTABLE.

to try the short cut and sent the men on by the longer route.

For a time his team made good progress, but when a little more than half way across he discovered that part of the ice was broken and impassable. Forced to retrace his steps he headed his dogs northward again. In the meantime a sudden gale of wind had sprung up from the northdesperate an undertaking to attempt with any chance of success. However, it was the only possible way of preserving his own life and the doctor did west and loosened up the pieces ofice sending them out the bay and toward the open sea. The footing rapidly benot falter, altho the odds were all against him. At last the sickening task

was done. The flerceness of the strug-gle was shown by the deep lines and scratches the maddened dogs made on the doctor's limbs and body as they the ice into the water.

His predicament was a terrible one. The bitter cold water chilled and benumbed him; the pieces of small brokattempted to fight him off. en ice filled his long loose skin boots and weighed him down like lead; the He next removed the skins from the three dead dogs and used them as a covering for his body, turning the fur inward. With one he improvised a water was covered with a densely suffocating mass of ground ice that made it well night impossible for him to cap and covering for his shoulders; win his way to the firm floe. Then the frightened dogs began to beat their the other two he wrapped round his body and legs. These coverings he supplemented by ripping up his skin boots and fashioned a kind of cape out way toward him and he feared that in their efforts to escape they would force him under water. This danger he averted by unloosening their harof them. The skin coverings he kept in place by fastening them with the ness from the sled and battling his woolen strips which are wound round way by superhuman effort to a small ice-pan on to which he pulled his dogs. the harness of every team to prevent it from chafing the dogs. The rope of But he found that the pan was not the harness he unravelled and picked big enough to float them all so he deto a kind of oakum, using the soft macided to seek a safer position. Reterial to fill up the openings in his unmoving his heavy boots and coat, he fastened them on to two of his dogs couth clothing and preventing all ac-cess of the biting, frosty wind to his and again plunged into the icy water.

strenuous preparations were complet to the council of the museum several years ago. A charter of incorporation was obtained some time ago by a number of public spirited citizens for ed. It brought disappointment as well as added discomfort to the lone man on that frail tossing fragment of ice. With the coming of darkness he had hoped some signal would be made the purpose of founding an art galfrom the shore by his friends as an assurance that they were aware of his predicament and were preparing for a rescue. But the night wore on and no beacon of cheer shone thru the wintry darkness. So, perforce, he abandoned all hope of being seen until the morrow, altho it was, to him, a matter of grave doubt whether its dawn would find him still alive. Then he set himself to devising ways and means of making his undesirable position somewhat more comfortable. This he accomplished by piling the bodies of the slain dogs on the windward side of the ice and lying down behind them. This improvised wind-break kept the living dogs close to him for the sake of the shelter and the heat of their bodies served, in a measure, to ofset the deadly cold, so that he presently forgot his dangers and discomforts in sound slumber! He slept for some hours and awoke to find a faint light spreading along the eastern sky. This he joyfully n-

## CONCERNING ENGLISH PLAYS AND PLAYERS

By MALCOLM WATSON

After Tyler's departure from the Garrick the theatre passes temporarily into the hands of three provincial managers, Wentworth Croke, Milton Bode and Edward Compton,

and remodelled it and he is now very hopeful of success. He is such a general favorite that everybody will join him in that hope. To play the female character he is bringing back to the west end stage Miss Fortescus who, well over twenty years ago, was

them method to facititate his escape. His idea now was to improvise some means of signalling the shore as soon aging the day was far enough advanced. And he accomplished this, despite the fact that the pan was bare of everything except himself, the four surviving dogs and the bodies of the three slain ones. But Grenfell, of Labrador, is nothing if not original. Using his pocket knife he dissected the bones out of the legs of the dead dogs and fastened them together to form a kind of staff. To secure a signal flag he had to remove his shirt, thus exposing his body to the high, frosty wind.

He had now was to improvise some them "The Scarlet Pimpernel" and "Henry of Navarre." One cannot honestly declare that either is a gem of dramatic art, but both possess the merit of providing Neilson and Terry with roles eminently suited to their means. It will be interesting to learn what New York says of the couple and of their broad and rather melodramatic style of acting. Marc Klaw seems to be very sure of their success, and their popularity on this side affords grounds for his belief. On their return to England, they will spend a few weeks in the provinces and then resume operations at the New Theatre.

to the high, frosty wind.

He had now been adrift for twentyfour hours and was beginning to feel
faint and exhausted, and small wonder,
seeing that for all this time he had

Commencing next Monday at Shea's Seeing that for all this time he had been exposed to frosty wind and ley spray, had been forced to remain in wet, freezing clothing and had neither food nor drink. But he kept energetically at work, refusing to abandon hope of rescue. So lustily was he engaged making his preparations for signalling the shore that he failed to not timent. Three of the dogs had to be slain—the question was how to do it. His instruments had sunk with the heavy sled and the only weapon in his possession was a slight pocket knife. To master these heavy dogs in such a situation and despatch them with such an inadequate weapon seemed too desperate an undertaking to attempt

Mrs. Hodgson Burnett's play, "The Dawn of a To-morrow," is to have but short shift at the Garrick Theatre, where it will be played for the last time this day forthight. It was, of course, produced at an unfortunate moment, but altho business has shown some slight improvement the syndicate now running the Garrick to retain the piece in the program. George Tyler, I understand, still preserves his faith in it and telegraphed from Rome, where he now is, to his London representative, telling him to look out for another west end theatre. I think, however, that the finding of that London theatre will prove a matter of difficulty and that "The Dawn of a To-morrow," whatever it may do in the provinces, is dead as far as London is concerned.

I am sorry to say George Tyler has not taken his defeat in a sportmanlike spirit. There is nothing so uncertain or so risky as theatrical management, but any person who enters upon it ought at least to do so with the determination to play the game. Because the London critics as a body expressed their opinion that the play was not a good one Tyler burst out into a series of violent charges against their honesty. In these he has been backed up by the chairman of the Garrick Syndicate, who is exceedingly wroth because he and the other members of the syndicate have been dropping their money steadily during the past few weeks.

After Tyler's departure from the

there in September. As I me some time ago he will open in V.," but he also takes with him Caesar de Bazan" which on its revi-last Tuesday enjoyed an eythisiar reception, "Miss Elizabeth's Pris-er" and "Monsieur Beaucare." I chatting with him the other even Milton Bode and Edward Compton, who have arranged to produce there "a new sensational farce" called "Billy's Bargain." Altho the author's name will appear on the program as Robert Lascelles, he is in reality Weedon Grossmith, who in his leisure moments does a little writing of one kind or another. He produced the piece about a year ago under a slightly different title at the King's Theatre, Hammersmith, where I saw it. It was then in a rather inchoate and unshapely form. Grossmith tells me, however, that he has since re-written and remodelled it and he is now very the leggest mansion in Park-lane and

the liggest mansion in Park-lane and to turnish it like a royal palace." Seeing what Forbes-Robertson has done with "The Passing of the Third Floor Back," I am inclined to think the the night was at last past. Then his hopes were dashed by the rising of the midnight moon her rays revealing more clearly his desperate position adrift on the waters of the stormy North At-Toward morning he aroused himself sible they may manage to do a furagain and set to work to design some other method to facititate his escape. They take with other method to facititate his escape.

# "CANADA AND THE TELEPHONE"

## HISTORY—

Most people know that Canada invented the telephone.

Some people know that the telephone is the greatest invention of the nineteenth century.

Comparatively few people know the real history of its wonderful development and widespread use.

For years the people of this and other countries did not understand the climatic conditions and opportunities of northern and western Canada.

Is it not possible that the great benefits of the telephone and the opportunities afforded by it are not now fully appreciated?

Information Supplied-A story, "Canada and the Telephone," strikingly illustrated, entertainingly told. A handsome booklet, well worth reading. Free to all interested inquirers.

Our No. 2 Bulletin gives full instructions in regard to the build ing of telephone lines. We supply it free on request.

We manufacture and sell a full line of automatic and manual telephones and switchboards. All of our goods are guaranteed to be first-class in every particular.

We are selling thousands of dollars' worth of telephones and telephone supplies every month to satisfied customers all over Canada. Wire of all kinds, cross arms, top pins, side blocks, insulators, braces, bolts, anchors, construction tools, -everything that is required in building a complete telephone system. Full information on request.
