CONSUMPTION CAN BE CURED.
Russian Specialist Claims Discovery of Sure Remedy.
Drags Patients From the Brink of the Grave—Will Claim Rockefeller's Reward.

MOSCOW, Nov. 18.—Remarkable cures of consumption have recently been effected in Russia by Kisel Zagoranski, formerly mining engineer, and now specially licensed by the Russian medical department to practice medicine in cases of tuberculosis. Hearing a rumor that John D. Rockefeller, of the United States, had offered an immense prize for the discovery of a consumption cure, he consulted U. S. consul Smith who, with his brother, began a systematic observation of the cases of several patients, especially of an English lady, an acquaintance of the consul, who had been given up by the doctors, was about to leave for England to die. She, however, submitted to Zagoranski's treatment, which was given under professional medical observation. At the end of a week the presence of tuberculous bacilli in the saliva had been reduced ten per cent, and at the end of six weeks the patient had gained twenty-two pounds and there was no trace of bacilli. This occurred last spring and the cure appears to be permanent.
In conversation with the Associated Press correspondent, W. E. Smith, brother of the consul, rectified other equal-removable cases. Zagoranski's treatment, according to Mr. Smith, consists merely in the drinking of his specific in large quantities, together with life in the open air and the observance of a careful dietary.
Prince Odier, a philanthropist of St. Petersburg, who maintains several hospitals in Russia and a big sanitarium in the Caucasus at his own expense, has offered to place three beds at Zagoranski's disposal in a St. Petersburg hospital, where he could accurately observe the results of the treatment.

EMIGRANTS STARVING.
Several Parties Snow Bound in Montana Without Provisions—No Means of Escape.
MISOULA, Mont., Nov. 18.—Word has been received from the Butte Creek district that there are several parties of emigrants along the Spokane road, in the west end of Missoula Co., snowbound and on the verge of starvation. In one party, near the Idaho border, is a family of five, snowed up and without provisions or money. The family is living in an eight foot tent with snow up to the waist. It is impossible to get out or secure food for the stock.
The second fire was in a six-story ported along the trail snowed up in the passes and all in a precarious condition. Efforts are being made to send out relief parties.

JEW DEALERS QUIET.
Contrary to the general belief that Jews can successfully engage in any business anywhere, it has been shown in St. John that this is not always possible. Four Jew junk dealers, who have given up the struggle for existence in a field where there is so much competition and have gone to seek new pastures. Many of these dealers buy junk through the country, making regular trips with wagons, and sell what they gather to others of their nationality in the city, who in turn dispose of it either to local foundries or ship it to Montreal. But competition has been too keen, and this along with the heavy license fee which is strictly enforced, has so cut down the profits that several dealers have been frozen out.

FISH SWALLOWED FROG.
Billy Holmes, who sells all kinds of fish in the country market, ran across a curiosity this morning. He was dressing some fish for a customer and a two pound pickerel seemed to be suffering from indigestion. The customary surgical operation, performed in all such cases, brought forth the fact that the internal trouble was due directly to the presence in the fish of a frog. This creature was fully six inches long and proportionately thick, and from the position in which it was found had been swallowed in a lump, head first. The pickerel had been caught up river, evidently within a very short time after swallowing the frog, which later was still in good condition.

FRED KINDERGARTEN.
At a committee meeting held yesterday, it was decided to call the kindergarten to be opened on Waterloo street. The Free Kindergarten. A piano is needed, and the committee would like to hear of one free of rent. They would also like to have donations of fuel before the first of December. The following donations are very gratefully acknowledged:
Mrs. S. Alward, \$10; E. A. Smith, \$2; Watson & Co., 5 dozen rubber balls; E. G. Nelson & Co., four notebooks; Mr. Dowling, two kindergarten tables and twenty chairs; Lawton Co., one table; Miss Grace Hannington, one dozen chairs.

MRS. H. H. PICKETT, Secy.
MORE FIGHTING IN PHILIPPINES
MANILA, Nov. 18.—The situation in Jolo indicates several weeks of fighting. The Moros generally are in a state of unrest. Sixty-five prisoners have escaped at Cagayan. Among them are a number of desperate characters.
Miss Nap Miller has returned to Boston to resume her work in illustrating. Miss Margaret Arnold, of Sussex, who has been visiting in the city, returned home today.

ROYALTY ROYALLY ENTERTAINED
King and Queen of Italy Guests of London City Get Rousing Welcome.

LONDON, Nov. 18.—The welcome of King Victor Emmanuel and Queen Helena to London, as the guests of the lord mayor and corporation today, was of a remarkable and cordial character. From the moment of their arrival at Paddington station, the royal procession passed beneath one long canopy of bright colors and triumphal arches and crowds of people gave their enthusiastic and rapturous welcome.
King Victor Emmanuel and Queen Helena were met at Paddington by Lord Grenfell and the headquarters staff. After a brief inspection of the guard of honor of Grenadiers, whose banners welcomed the visitors with the Italian anthem, the king and queen, attended by the Duke of Portland, entered King Edward's state landau. Five four-horsed state carriages contained the suite, a sovereign's escort of Life Guards attended their majesties, and a military contingent brought up the rear of the royal cavalcade, which, as it left the station, was received with rousing cheers. Proceeding through Hyde Park, the king and queen reached the Italian embassy, where was stationed a guard of honor of Garibaldian veterans. Entering the embassy, their majesties held a reception and received addresses from the Italian colony.

ANARCHISTS RAMPANT.
One Tells of Plots to Murder Swiss President and Infant Italian Princess—Probably Insane.

ROME, Nov. 18.—The police believe that the anarchist who surrendered to the police at Lugano yesterday and who gives his name as Giuseppe Contini, is a lunatic. Contini declared to the Swiss police that as the result of a plot of anarchists at Milan he had been chosen to go to Bern to murder the president of the Swiss federation. He added that his three companions who were arrested at Milan had been selected to help him.
The anarchist entered Switzerland in a carriage in order to escape observation by the police on the frontier. The view of the police that Contini is insane appears to be correct, as Contini added that another group of anarchists had decided to kill the Princess Mafalda, youngest daughter of the king of Italy, who will be one year old tomorrow. Contini said that the killing of the princess had been fixed for Nov. 24. The police, who promptly began a close watch on the anarchists, have arrested two of them at St. Gothard as they were entering Italy.

CARRIE NATION AGAIN.
She's After President Roosevelt This Time—Says He Represents Distillers and Brewers.

WASHINGTON, Nov. 18.—Carrie Nation was forcibly ejected from the executive offices this morning. She called there early and demanded to see the President. Secretary Loeb declined to allow her to see Mr. Roosevelt, and she became so demonstrative that he called two officers to take her out of the grounds. As she left the building she shouted: "I am going to pray for a prohibitionist president, one who will represent the people and not the distillers and brewers."

POLICE FIND CLEW IN THE LOEW CASE.
They Look for Dental Student's Room-mate and Suspect Use of Indian Hemp.

BALTIMORE, Md., Nov. 18.—Baltimore police think they have struck a tangible clew in the mysterious death of Martin Loew, the dental student, whose death is attributed to initiation into the Phi Chi Psi fraternity. The officials are hot upon the trail of Ephraim Stone, Loew's room-mate, who, they think, knows just exactly how the victim came to his death.
The idea prevalent in police circles that Loew was dosed with Indian hemp in order to make him appear foolish. Material medica declares this deduction to be poison, though all along it has been used in initiating candidates by various secret societies.

OUT THERE AT LAST.
(London Express.)
A typical instance of the British War Office methods is furnished by a correspondent on one of our stations. An officer having occasion for the use of a screw-driver made application for the supply of that humble, but handy implement from the government stores. His application was acted about in the usual manner from official to official, and finally reached the upper authority, from whom a reply filtered back by the same devious way to the effect that screw-drivers were only supplied in tool-boxes, and not single. Nothing daunted, the officer at once applied for a box of tools, and after the usual circumlocutory tactics was informed that boxes of tools were only supplied to carpenter shops. By this time the officer, who had quite forgotten what he wanted the screw-driver for, had thoroughly entered to the spirit of the campaign, and his next application was for a carpenter's shop. He got it.

NOT READY YET.
(From the Philadelphia Ledger.)
A Philadelphia photographer tells this as having actually happened. A woman entered his studio:
"Are you a photographer?"
"Yes, madam."
"Do you take children's pictures?"
"Yes, certainly."
"I've dollars a dozen."
"Well," said the woman, sorrowfully, "I'll have to see you again. I've only got eleven."

AMERICAN TREACHERY.
Colombian People Make Some Strong Charges.

U. S. Government Broke Its Pledged Word and Inspired and Assisted Treason.

NEW YORK, Nov. 18.—In response to a request telegraphed to Bogota, with a view to ascertaining the attitude of the press and people of Colombia concerning the Isthmian situation, the following dispatch in transmission, has just been received:
BOGOTA, Nov. 18.—The Colombian people protest and appeal to the American people against the conduct of the government presided over by Mr. Roosevelt. The United States is solemnly obliged by the treaty of 1846 to guarantee the rights of property and the sovereignty of Colombia in Panama. Now the American government has violated the word and hence has compromised the honor of the American people. Colombia has wished and wishes that the United States shall open the canal through Colombian territory. The disappearance of the Hay-Herran treaty was due to constitutional objections which can be legally removed by the Colombian people and which were made worse by the diplomatic discourtesy of the department of state and its representatives here.
The American government, through Secretary Hay, contrary to the principles of right and international law, immediately recognized a so-called independent government in Panama from a coup d'etat accomplished by acts of treason and by the bribing of the troops. The American armed forces treacherously prevented the suffocation of the rebel movement by the loyal Colombian army. The American government is also aiding to despoil Colombia of another part of its valuable territory besides that of Panama, and forgetful of its immense power, therefore inciting against us the enmities and covetousness of other nations. The American people must decide between the sacred rights of Colombia and the scandalously notorious interests of the Panama Canal Company.
It is regrettable that what the American people can obtain by just and clean means the government contrives to obtain by polluting its good faith and honest traditions in order to subvert electoral ambitions. It is not conceivable that the great nation to whom the world owes so many conquests and liberal doctrines in the field of international law should forget them when dealing with a weak and friendly country that has no other means of defense than its solemn protest to the American people that if should ignore the advice of its noble founder and the memory and the counsels of the grand Lincoln which have made it great and respected. It is not conceivable that such a nation should adopt such a high handed policy of vandalism. It is not conceivable that the great and generous daughter of Washington, the most powerful country in existence, should want to humiliate and despoil the glorious daughter of Bolivar.
The Colombia people neither hope to receive nor wish to ask help from any other nation, but trust only in its indisputable rights and expect that these will be upheld by the spirit of fair play and independence of the American people.

INDIAN PRIESTESS DEAD.
White Woman Was Chief of Six Indian Nations.

NEW YORK, Nov. 18.—Mrs. Harriet Maxwell Converse, known to the Indians as the "Chief of the Six Indian Nations," died at her home here last night of apoplexy. Mrs. Converse was known to the tribes of Seneca, Onondaga, Cayuga, Tuscarora, Mohawk and Oneida as "priestess," "mother" and "chief." She was the only woman, it is said, to receive the "mipe totem," a coat of arms the highest in rank that is known to any of the tribes. Mrs. Converse was "admitted" by the Indian tribes mentioned and thereby became an Indian. Gen. Foster, a full-blooded Indian chief of the Grants' stock, who died ten years ago, was the cause, primarily of Mrs. Converse being made "chief" of the tribes, having expressed a dying wish to that effect.

DECLARED DEAD, THEY LIVE.
MANILA, Nov. 18.—It has come to light that two of four murderers who were garroted at Amalag, Province of Cagayan, Oct. 31, and who were declared to be dead are alive. The condemned men were left in the garrote eight minutes and afterwards their supposed lifeless bodies were placed in a church. Three of them later showed signs of life. Two were resuscitated, but the third died.

DIDN'T KILL HIM.
9 p. m.:
"Papa, is Santa Claus a reality?"
"Why, certainly."
8:10 p. m.:
"Papa, is it true wot th' Bible says about Ananias?"
"Of course, Willie."
8:15 p. m.:
"Papa, you must have a wonderful constitution."—Baltimore News.

TO SAVE GAS BILLS.
A Westmont man, who reads the New York papers, tells this on himself: The other day he answered an advertisement in one of the New York papers, stating that for a small sum of currency a method of saving gas bills would be sent. In two days he received a printed slip by mail, which read: "Paste them in a wrap-book."

WANDERERS ARE COMING.
The Wanderers, of Halifax, will play St. John on the Shamrock grounds Saturday afternoon at 3:30 o'clock. The St. John are putting up a good team and a lively game is expected.

WANTERS ARE COMING.
There are three applicants for the position of inspector of boilers and machinery undergoing examination at the custom house. They are C. E. Dalton, A. S. Foster and Archibald McLachlan. Their examination will take about a week.

TOO LATE FOR CLASSIFICATION.
BOARDING.—Boarding in private family can be had by applying to 157 Water street, St. John (west).
WANTED.—A first-class male cook. Steady employment for the winter. Enquire W. F. C., Royal Hotel.

COLD SNAP BRINGS FIRE.
Two Big Tenements Burned—Many Families Homeless—Parents Badly Burned Rescuing Baby.

NEW YORK, Nov. 18.—The first cold snap of the season brought with it the customary fires from overheated stoves, and as a result the tenants of two tenement houses in the thickly populated downtown districts were driven into the streets early today. Abdul Tanore and his wife were severely burned in rescuing their nineteen months old babe, whose cradle stood near a red-hot stove. The first fire was in a five-story tenement on Washington street, in the rear of which stood a six-story warehouse, filled with baled cotton and highly inflammable stuffs. From the second floor where it started, the fire rapidly spread to the third floor. The warehouse was saved but the tenement was damaged to the extent of \$15,000.
The second fire was in a six-story double tenement at Monroe and Clinton streets. There were eight families living on each floor. The noise of the approaching fire apparatus roused the tenements and there was a terrific rush and scramble down the stairs, and for a time the fire-escapes were jammed. The forty-eight families turned out into the streets in their night clothes, suffered intensely in the cold. No one was seriously injured and the damage was slight.

"SCRAP IRON KING" DEAD.
Left Money to Erect Synagogue in Jerusalem.

CHICAGO, Nov. 18.—Mark Nathan the "scrap iron king," whose will has just been filed, left provision for the erection of a synagogue in Jerusalem. He also left instructions that the land to be purchased in the Holy City and dwellings erected for the free housing of the families of poor and deserving Jews.
Out of a total fortune of \$120,000 made in the buying and selling of scrap iron, Mr. Nathan bequeathed \$45,000 to charities. The amount named for expenditure in Jerusalem was \$15,000. An equal sum was set aside for the erection of a Jewish hospital or asylum for Jewish orphans.

TEN THOUSAND STARVE.
NEW BEDFORD, Mass., Nov. 18.—Letters received here from the Cape Verde Islands dated September 20, tell a frightful tale of loss of life in the islands as a result of the famine.
Since last March, when the famine began, 10,000 deaths have occurred in the island of Santiago alone, and the present death rate is given as from thirty to thirty-five a day.

CROW AIDS GOLFFERS.
CARIO, Nov. 18.—An extraordinary incident occurred during a recent game on the Cairo golf links. One player had just driven off from a tee. He had had a splendid drive and was watching the trundling ball with satisfaction, when suddenly a large crowd swooped down on it and bore it off.
The player and his caddy gave chase, the latter cursing volubly in Arabic. This evidently had its effect, for the crowd dropped the ball on the putting green within a few inches of the hole, and the delighted player holed out in two, while his opponent looked on gloomily and made uncomplimentary remarks about the bird.

SUNK WITH ALL HANDS.
DANVERPORT, Eng., Nov. 18.—The torpedo boat destroyer Falcon collided in the channel during the night with a fishing smack. The latter sunk and all hands on board of her were drowned. The Falcon's bows were smashed and one of her crew was killed. She put into Dover for repairs.

TEAMSTERS JOIN STRIKERS.
CHICAGO, Nov. 18.—Renewal of hostilities between the City Railway Co. and the employees of that corporation began promptly today following the failure of attempts at arbitration. The first development in the warfare was a strike of all the teamsters in the employ of the company. In all sixty drivers quit work.

SERVED FOUR PRESIDENTS.
WASHINGTON, Nov. 18.—F. Phillips, solicitor general of the United States, under President Grant, Hayes, Garfield and Arthur, is dead here, aged 79 years. He was a native of New York city, but while still a child, moved with his parents to North Carolina, where later he entered on the practice of law. He was an outspoken republican in politics.

THREE KILLED BY DYNAMITE.
KALASKA, Mich., Nov. 19.—Three men were killed and one probably fatally injured early today by an explosion of dynamite in a burning store at Sharon, a village sixteen miles from here.

HOW TIME DOES FLY.
(Golden Penny.)
Two young ladies on the promenade of a beach resort had been watching the vessels pass, through a telescope lent them by an "ancient mariner." On handing the glass back one of them remarked that it was a very good one.

"Yes, miss," said the old man, "that 'ere telescope was given me by Lord Nelson."
"Good gracious! Why, Nelson has been dead nearly 100 years."
"Well, I'm blowed!" replied the salty one, quite unabashed, "ow time do fly!"

TO PREVENT STRIKES.

In an attempt to reach a solution of the problem upon which the social security of this century largely rests, the American Humane Education Society recently offered a large cash prize for the best plan of preventing strikes.

The plan which won the prize, claimed that in every labor dispute four parties are interested, namely, the employer, the laborer, the public and the government, and suggested the establishment of a system of industrial courts, which should have the same power to try questions arising between labor and capital that the existing courts have in other matters.

The scheme involves a state or provincial system and a federal system, appeal from a lower to a higher court being allowable. These courts and their decisions are backed by the authority of the government—federal or provincial—according to the jurisdiction of the court.

To provide against the stopping of labor in mines or mills while the dispute is being settled, the scheme provides that as soon as trouble arises it may be brought before the industrial or if these fail to do so the public may enter suit or the government may take action on its own account. This done the court gives notice to the parties involved that the dispute and all matters involved in it are in charge of the court and orders that work continue pending a decision.

Should the employers refuse to allow the strikers to work or the strikers refuse to go back, the government is empowered to take possession of the business and either by taking the old men or, if they persist in their strike, by employing new men, temporarily conduct it until all difficulties are settled.

In spite of the difficulties in the way of the plan, it has many things in its favor. The present system of allowing the employers and employed to fight their disputes out cannot be permitted to continue in justice to the public who are in such strikes as the one in the Pennsylvania coal fields last year, are the principal losers. Compulsory arbitration as advocated does not provide for the continuance of work during the arrangement of terms. The matter is of national importance and this proposition for the establishment of authoritative courts by the nation before which all disputes must come goes far toward the solving of the strike problem.

DELIGHT IN DISORDER.
A sweet disorder in the dress kindles in clothes a wantonness; A lawn about the shoulders thrown into a fine distraction; An airing lace, which here and there bathes the crimson stomacher; A cuff neglected and thereby Ribbons to flow confusedly; A winning wave, deserving note, in the generous petticoat; A careless shoe-string, in whose tie I see a wild civility; Do more bewitch me than when art is too precise in every part.

RECENT DEATHS.
Word reached the city yesterday of the death of Richard Robertson in Boston Friday last. Mr. Robertson was a St. John young man who left here fifteen years ago and made his home in Boston. He was in the works of Chas. Holden, machinist, in Atlantic avenue. He was but twenty-nine years of age and is survived by his wife, Joseph Seymour, of the Telegraph composing room, is an uncle of deceased.

Mrs. Jane Read, wife of Capt. Arthur Read, died yesterday morning, at her home, 41 Simons street, after an illness of four months. Mrs. Read was 54 years of age and leaves three children.

At the General Public Hospital at an early hour yesterday morning, the death took place of Miss Bessie Duffy, 64 years of age. She had only been in the hospital a few days, and was a sufferer from heart trouble.

The death of Norfolk, Va., is recorded of William J. Furlong, son of William Furlong of 79 St. James street. Shortly after the fire of 1877 Mr. Furlong—then a mere lad—removed to Virginia, where he has resided ever since, and where he married his St. John friends will regret to hear of his death.

The wife of Chas. Geldart, formerly of this city, died at her home in Stratford, Ont., on the 15th. Mrs. Geldart was formerly Miss Susie Belyea of this city, and leaves four children to mourn their loss, besides her husband and two sisters and her mother, now in Boston.

Jacob Hazelton, a well known lumberman, has retired from business on the Westfords. He leaves for Australia on a long holiday to visit his brother. He will be absent nearly a year. Last evening a number of his friends presented him with a morocco dressing case as a token of esteem.

John D. Frier, cheese maker, Simeon H. White, merchant, Walter J. Mills, merchant, Howard P. Robinson, and Harold H. Paries, barristers, all with their offices at Sussex and capital stock of \$48,000, ask for power to manufacture, buy and sell butter, cheese, milk and by-products as well as power to deal in all kinds of farm produce.

HAMPTON NEWS.
HAMPTON, Kings county, Nov. 18.—Rev. Samuel Howard, of the Port-

should be pleased to create. And all we would gain in return for these and innumerable other drawbacks would be the petty satisfaction that Canada, sentimentally, was free.

Could any Canadian have more healthy liberty than he has now? Could Canada be more sure of the continuance of her peace than she is now? Is the thought of free Canada any more captivating to the imagination and inspiring to loyalty than that of a free and independent Empire, greater in extent, in wealth, in power, than any that has ever been, to which we shall contribute not the least part of its existence, and in whose affairs our word will in time have probably the greatest weight?

Colombia must also be anxious for annexation to the United States. She is said to be preparing for war.

If one were inclined to be suspicious of America's disinterestedness in the Panama affair he might express some wonder at the fact that though the revolution only occurred a few days ago that enterprising country has already prepared a canal treaty for the new republic's signature.

It's up to the Maine legislature to pass a law restricting the number of guides and other hunters each sportsman is allowed to shoot in a season. The supply of them is as likely to run out as that of moose and deer at the present rate of decrease.

The victory of Hon. Chas. Wilson in Vancouver yesterday completes the victory of the McBride administration and assures the supremacy of the conservative party in British Columbia. The election was doubtful, because it was acknowledged by both sides that the result depended upon the labor vote. The labor element in the Pacific provinces has fallen into line with the opinion of labor men all over Canada that the conservative policy is the one best fitted to serve its interests.

Mr. Ed. J. Harris, Newbridge, Ont., was in poor health but has now been restored to full health and vigor. Here is what he writes us: "Last spring I was in a very critical condition, my system was all run down. I felt drowsy and miserable, and thought I would surely die if I did not get something to build me up. After reading one of your almanacs I decided to try Burdock Blood Bitters, and before I had taken two bottles I had gained ten pounds in weight, and am now in perfect health, and I can certainly recommend Burdock Blood Bitters to build up the system."

LOCAL NEWS.
Str. Manchester Corporation, which is now on her way out, has 950 tons of cargo. The ship was chartered by Capt. I. W. Scott, who had been at home for some weeks on account of illness, left yesterday for Seckville to resume command of the sch. Morancy.

A business meeting of the officers of the St. John Battalion Boys' Brigade will be held Friday night at 9 o'clock in St. Stephen's church school room.

Eighteen immigrants who were quarantined in the immigration hospital at Quebec were brought to Fairville yesterday, and thence taken to the hospital at Sand Point.

James Doherty returned yesterday from Canada, where he shot a fine moose. Mr. Doherty had as a guide A. E. Colwell and set the moose on Alward Brook. The dressed carcass has reached the city.

Capt. Fairley, the assistant superintendent of the Donaldson line in Canada, arrived yesterday from Montreal. He will probably spend the winter here. The first boat, the Concordia, is now due here, and a second one, the Alcides, is on her way out.

The whist tournament between the Neptune Rowing Club and the Thistle Curling Club was continued on Tuesday evening, the score standing: Thistles, 144; Neptunes, 137. This tournament is creating considerable interest between the two clubs, the games being watched by members on both sides. Play will be continued on Saturday at the Thistle rooms.

At an early hour yesterday morning, the death took place of Miss Bessie Duffy, 64 years of age. She had only been in the hospital a few days, and was a sufferer from heart trouble.

Pandora Range
Does its Work while You do Yours

You do not have to constantly watch the Pandora range when cooking or baking. Arrange the fire, put on your pots and set the damper—the range does the rest.
While dinner is cooking you can do your other work, just the same as the woman in the picture, and know positively that your cooking is being done right.
The Pandora range is entirely new and has many new features and devices for regulating the fire, extracting all the heat possible from the fuel consumed and using it to the best advantage.
Special fuel construction forces all the heat around the oven twice and directly under every pot-hole—only the smoke goes up the chimney.
Oven is roomy, ventilated, fitted with thermometer, lined with sheet steel, and is a perfect baker and a perfect cooker at the same time.
Sold by all enterprising dealers. Booklet free.

OVERCOATS

Of Fit and Quality

The other day we sold an overcoat to a man who had a custom made overcoat he had worn but one winter. It was of good cloth but so poorly cut that it could not be made to fit, neither had it any style. This is what booms the sale of our fine tailored overcoats. As we continually assert, they are better than any custom made, except the best. They are an eye-opener to the rank and file of cutters and tailors. They fit round the neck, have good shoulder effect, and are properly balanced.

Prices, \$10 to \$20.

Any price between these figures brings a coat which satisfies the tasteful dresser.

A. GILMOUR Fine Tailoring, Men's Clothing.

"BEST PLACE TO BUY GOOD CLOTHES."

Doing Some Blowing.

BOYS' \$1.50 SHOES

Yes, we are doing considerable blowing about our Boys' \$1.50 Shoes. Your boy may not be a messenger, but he is always on the run—wears out Shoes, and lots of them.

Here is an opportunity to give him a Shoe that will stay by him. It is solid, made of the best Satin Calf stook, and very shapely.

We have entered into the subject of "Boys Shoes" with a vim and a determination to sell the

Best \$1.50 Shoe for Boys That's Made.

We're doing it. This Shoe is a special Shoe at a special price. Come and see it. Every pair guaranteed.

D. MONAHAN, 162 UNION ST.

ABANDONED FAST LINE.

OTTAWA, Nov. 18.—The government has evidently abandoned the fast line project. It is stated on authority that when the contract with the Allan Express next summer they will be given to understand, if they wish to retain the government mail subsidy, they must provide faster boats for the Canadian route.

It will not be a matter of surprise if the Grand Trunk Pacific directors selected some other harbor than Port Simpson as their terminal port upon the Pacific coast. Behind Port Simpson, running in the southeasterly direction, there is a deep water channel known as York Channel with high and precipitous mountains on both sides, rising to the height of four or five thousand feet. In order to get from the valley of the Skeena, down which the railway will run, and around York Channel and then to Port Simpson, the face of mountains would have to be cut away for 25 miles in a continuous series of galleries. The cost would be enormous. Anderson, chief engineer of the department of marine and fisheries, who has surveyed all up the coast of British Columbia, while admitting that Port Simpson furnishes a splendid deep water terminus, yet on account of the obstacles mentioned, is of the opinion that some other terminal point will have to be selected. He favors Kitimat Arm. Mr. Wainwright, one of the directors of the Grand Trunk Pacific, was here today and expressed Anderson's view, although he admitted that the final decision had not yet been reached upon the point. Wainwright stated that the company had had a survey party on the coast all summer, and they had reported three available harbors, Port Simpson, Kitimat and Belliscola.

The Canadian Forestry Association is arranging a series of special meetings beginning at St. John and Halifax and extending to the Pacific coast. The meetings are arranged in view of the assistance of provincial governments. Ontario has already subscribed and Quebec and Columbia have promised aid.

Premier Parent, here today, denies he is going to retire from the Quebec premiership for the present. The report of the inland revenue department was issued today. Trade Commissioner Jardine is returning to Canada from South Africa and will address manufacturers at different points.

NEW ZEALAND SOLID.

WELLINGTON, N. Z., Nov. 18.—After an all night sitting the house of representatives today passed Premier Seddon's bill for preferential trade between Great Britain and New Zealand.

G. T. PACIFIC.

QUEBEC, Nov. 18.—The absorption of the Great Northern Railway system by the Grand Trunk Company is said to be almost an accomplished fact. It is also asserted that the whole Mackenzie-Mann system, both east and west, will be purchased by the Grand Trunk as part of the new Grand Trunk Pacific.

To cure Headache in ten minutes use KUMFORT Headache Powders.

James Findlay of Vancouver, B. C., is at the Royal. Mr. Findlay is interested in gold and silver mines in the vicinity of the Simpson River, and is here to confer with some St. John men for whom he manages mining property in the west. He says that there is a good deal of dissatisfaction on the Pacific Coast over the Alaska Boundary award. The tract of land along the Portland Canal which was awarded to the Americans is rich in gold and silver.

SPORTING NEWS.

Wednesday's Football Team. Word from J. E. Smith, of the Halifax Wanderers' football team, was received by Jack Fairweather yesterday morning. The telegram asked for a game in this city on Saturday next. The best available teams were also requested and Mr. Fairweather went back to come, giving as a fair question in the way of a guarantee as it was possible to do. He is awaiting an answer. This is an unexpected pleasure and local lovers of the plucky game are trusting the offer of the St. John's will be accepted. That the red and black-striped players will board the Winter Port players in their own is the universal wish. It has been years since St. John and Halifax have come together in earnest, and a football scrap would surely be an excellent opportunity for a resumption of friendly hostilities, and should draw a great crowd.

WANTED—A case of Headache that KUMFORT Powders will not cure in from ten to twenty minutes.

PLEASANT ENTERTAINMENT.

The had carriage and builders' laborers had a most enjoyable smoker and entertainment in Berryman's Hall last evening. The affair proved to be one of the most pleasant affairs of the kind ever held in the province. The attendance was very large. The programme was as follows: Wm. Stafford, song and dance; Geo. Anderson, reading; H. Goldsworthy, remarks; T. Nash, song; T. Maddan, song; Chas. Bally, song; T. Maddan, step dance; Wm. Griffith, song and dance; Wm. McLean, song; Finnis and Burns, song and dance; T. Maddan, song; Kirk Burton and quartette, song; Wm. Burns, step dance; Jas. Finnis, song; Geo. Griffith, step dance; Messrs. Kirk and Burton, song; H. Goldsworthy, song; P. Sharkey, address; Chas. Russell, song; Union quartette, song; Arthur Bushman, song; Wm. Stafford, song.

RACK FROM THE WEST.

David R. Adams of Indian town and W. M. Jones of Greenwich, Kings county, arrived in the city yesterday from the Northwest, where they had been for over three months. Both are practical farmers and went out with the first of the farmers' excursions, doing a lot of work in the harvesting of the vast grain crops out there. They say thousands of the young unmarried men who went west with the excursions are not coming home but have secured good work at large wages in the distant part of the dominion. There is lots to do and employment bureau are besting daily with applicants for positions advertised. Pretty nearly everybody who wants work gets it.

COTTON OPERATORS.

FALL RIVER, Mass., Nov. 18.—There will be no immediate strike of cotton mill operatives in this city. Such was the decision of the various textile unions after meeting last night after considerable discussion accepted the recommendations of the textile council to submit to the next schedule which is to go into effect next Monday, which reduced the wages of the operatives to the prices paid prior to March 17, 1902.

That the men accept the new condition only because they consider that they have no choice in the matter was made plain in the text of the resolution adopted tonight, which states that the time is not opportune for a strike and warns the manufacturers that the operatives will await a favorable opportunity to make a determined effort to secure a restoration of the present wage schedule.

Bicyclists and all athletes depend on BENTLEY'S LINIMENT to keep their joints limber and muscles in trim.

MONTREAL'S VOICE.

MONTREAL, Nov. 18.—A largely attended meeting of the board of trade was held today for the purpose of discussing Chamberlain's preferential trade policy. The result of the meeting was the unanimous adoption of a resolution moved by President McLaughlin of the Lake of the Woods Milling Co. and seconded by Senator Drummond, expressing the belief of the Montreal board of trade that the interests of the country would best be served by adopting such changes in the fiscal policy of the several parts of the empire as would encourage preferential trade.

YOUNG CONSERVATIVES.

HALIFAX, Nov. 18.—The young liberal conservatives of Sydney at a meeting today organized themselves for campaign purposes under the name of the "R. L. Borden Club" in honor of the leader of the conservative party. This is the first club to be organized in Canada called after Mr. Borden. Mr. Borden will be in Cape Breton county to address political meetings on Tuesday, Wednesday and Thursday of next week.

ABOUT GRAIN.

There are within call of the C. P. R. office at Sand Point 400 carloads of grain. Yesterday the elevator was in operation taking in some of it. The I. C. R. elevator at this port is to be used this winter. That railway, it is stated by steamship people, is in the market for space for grain.

TREATY SIGNED.

WASHINGTON, Nov. 18.—Secretary Hay and M. Philippe Bunau-Varilla, the minister from Panama, at 6.40 o'clock this evening signed the Hay-Bunau-Varilla treaty providing for the construction of the Panama canal by the United States. The ceremony occurred in Secretary Hay's study.

WEST SIDE RECEPTION.

A private reception was held in the I. O. O. F. hall, Carleton, last evening, and although the weather was very disagreeable, a fair sized crowd was in attendance. Excellent music was furnished and dancing was indulged in till a late hour. The committee in charge was composed of Walter Rider, Joseph Tibbitts and Ross Melvin.

WILSON ELECTED.

VANCOUVER, Nov. 18.—Hon. Chas. Wilson, attorney general, was returned at the by-election today by 971 majority, the vote standing: Wilson (cons.), 2,523; Stewart (lib.), 1,551.

Sanial-Midy. Standard remedy for Headache, Croup, Colic and Stomach Troubles.

LETTERS FROM THE PEOPLE.

WHERE CANADA MAY STAND MOST SECURE.

To the Editor of the Star:

Sir.—On reading Clarence Ward's most interesting and timely article on the Ashburton treaty in the Globe of the 14th inst., one could not but observe the tenacity of purpose of the Americans to always get the better bargain with their cousins, the British nation. As life goes, this is only natural and a part of the instinct displayed by the other nation with other countries in the past, although it will be generally conceived by most people that the British object in the main was for peaceful trade and a better conduct of life—wherever she conquered. So it is with her independent offshoot, the United States, in the Manilla and Cuba—the great object is peaceable results and not war, "which is hell," as a prominent American has truly expressed it. But in so far as the treaties of the United States and Britain are concerned, there is no doubt of the United States having the best of the bargain, and in the interests of peace it is better to be as it is than that war should be waged to settle it.

It is right here that the plan of Mr. Chamberlain for a united condition of all the British elements would at once stop any further inroads on British or colonial territory by any other power or powers extant. Were this policy in force today, the Alaskan award would be of a different nature—it would be one that would be approved of as just and fair by a united power that would discuss the matter on its true merits. And here again, for Canada, would it not be better to ally herself with a power that has so far nursed her up to the standard of manhood's full strength than to break with a nation that gave her such a magnificent, peaceful life? Can any Canadian, French or English, say that Britain has not done this for Canada or any other of her colonies? Leaving common gratitude out of the question altogether, would it not be greatly the most economical and wisest plan to continue in such prosperity and peace by assisting the British navy to still guard her every colony with a sufficiency of power to keep all her enemies at bay and her peoples in the enjoyment of the pleasures that trade and commerce brings?

Some of us speak of independence. We might look to the southern arm of the American continent to see what that means—an endless internal strife among the neighboring republics for the mastery of the whole, and, in fact, our neighboring republic today would not hesitate to further infringe were it not for the power behind Canada. In a general way, we at present see that our institutions are superior to those that at present exist in the United States—trusts, combines, etc., greatly disturbing that country, which Canada, as a people, object to. And thus, in short, did we adopt the Chamberlain proposition should we be able to live at peace with all the world in a far more safe and economical manner, each colony paying a contributive portion to maintain the present British navy, the most powerful, instead of spending from our treasury many millions more, if standing as separate from her, by each creating a navy of its own. We can well afford to trust the country that has seen our friend and never yet betrayed us.

Respectfully,

H. CLIMO.

Chronic Constipation surely cured or money back. LAX-A-CARE TABLETS never fail. Small, chocolate coated, easy to take. Price, 35 cents. At drugists.

MORE ZIONS FOR DOWIE.

Chicago "Prophet" Says He is Going Abroad "After Man and Money."

CHICAGO, Nov. 18.—"I have just received an offer of land on which to build another Zion City, but the site must be kept secret at present," said John Alexander Dowie, speaking to his followers in Shiloh Tabernacle, Zion City, today.

"What is more," Dowie continued, "I have an offer of ten thousand acres of land within thirty-five miles of New York City for the same purpose. That does not look as if our New York trip failed, does it?" Dowie then declared the New York trip was as much of a success as he had hoped for. He said that sixty-nine tons of literature were distributed, "enough to build a solid shaft 3,236 feet high" and that more than 600,000 homes were visited.

"I am going abroad Jan. 3 after man and money," he continued. "When I get back, in June, I will have planned a number of Zions. Then all Zion will start its work for building up Jerusalem."

Lame Back for Four Months.

Was Unable to Turn in Bed Without Help.

Plasters and Liniments No Good.

This was the experience of Mr. Benjamin Stewart, Zionville, N. B.

(TWO-THIRDS OF A BOX OF

Doan's Kidney Pills CURED HIM.

He tells of his experience in the following words: "For four months I was troubled with a lame back and all this time was unable to turn in bed without help. I tried plasters and liniments of all kinds but with no effect. At last I was induced to try Doan's Kidney Pills, and by the time I had used two-thirds of a box my back was as well and as strong as ever and has kept so ever since."

Backache, Frequent Thirst, Scanty, Cloudy, Thick or Highly Colored Urine, Puffing under the Eyes, Swelling of the Feet and Ankles, are all symptoms of kidney trouble that Doan's Kidney Pills will cure.

Price 50 cts. per box or 3 for \$1.25, all dealers, or THE DOAN KIDNEY PILL CO., TORONTO, ONT.

SMALL MONARCHS. "It is curious," says the London Chronicle, "that Nicholas II., one of the greatest of living monarchs, should also be one of the smallest—from the physical point of view; and had he carried out his intention of visiting the King of Italy, we should have been treated to the spectacle of a meeting between two of the shortest sovereigns of their time. Yet the czar, however small and slight of stature, has somewhat the advantage as regards inches of King Victor Emmanuel II., who requires to get into the saddle, like Napoleon III., before he can be seen at his best. There is nothing in the appearance of Nicholas II. to suggest his sonship of Alexander III., who was almost a giant, or of Victor Emmanuel to recall the burly soldier-like figure of his father and his grandfather, the rollicking, severely mustachioed Re Galantuomo.

C. P. R. WILL CONTRIBUTE.

But Delegates Won't Make Public Harbor Improvement Details—
Caleb Wetmore's Scheme

While the members of the civic delegation to Montreal still refuse to talk on the measure of success attending their trip, whispers are now beginning to be heard, and some very slight traces of facts are slowly leaking out. From these it is understood that the outlook is better than ever before and that there is now something definite to work on. Making public the results of the discussion with the C. P. R. officials might at the present time spoil the chances for ultimate success. It is said that the C. P. R. has agreed to do a certain share of the required work or bear a proportion of the expenditure for wharves. This is to be conditional upon certain other expenses being borne by the city and the government.

At present no definite steps can be taken until the government is heard from with respect to the necessary dredging. As yet no answer has been received to the resolutions forwarded by the board of city, but word is expected at any time.

In this connection, Caleb Wetmore called on the deputy mayor this morning and laid before him in a most exhaustive manner a comprehensive plan for harbor extension. Mr. Wetmore's idea embraces the building of wharves all the way down the west side of the harbor, and he pays particular attention to the rapid development of the east side, especially in the vicinity of Red Head.

The deputy mayor was deeply impressed with Mr. Wetmore's plan, which he thought must have been the outcome of considerable study, but feared that the cost of the proposed work might be greater than could easily be borne. Mr. Wetmore admitted that he had given years of study and deep thought to the matter, and was assured that he could organize, without difficulty, a company with sufficient capital to carry out his plan. It was suggested that he put his proposal in writing, when the deputy mayor promised to find much pleasure in laying it before the common council.

M. R. A.'S NEW BUILDING.

The public generally will be pleased to know that Manchester, Robertson, Allison, Limited, have removed their stock of gentlemen's furnishings, underclothing, etc., from the old store, 27 King street, to their new building, two doors above, so that the thoroughfare is now open leading to the men's and boys' ready-to-wear clothing and other departments on the second floor. We might also mention that the new and commodious department for ladies' cloaks, jackets, wrappers, dressing jackets, dress skirts and underskirts is now open on second floor of the King street building.

OLD TIME ATHLETES.

Some St. John Men Noted For Strength and Gymnastic Agility 40 Years Ago.

While the members of the civic delegation to Montreal still refuse to talk on the measure of success attending their trip, whispers are now beginning to be heard, and some very slight traces of facts are slowly leaking out. From these it is understood that the outlook is better than ever before and that there is now something definite to work on. Making public the results of the discussion with the C. P. R. officials might at the present time spoil the chances for ultimate success. It is said that the C. P. R. has agreed to do a certain share of the required work or bear a proportion of the expenditure for wharves. This is to be conditional upon certain other expenses being borne by the city and the government.

At present no definite steps can be taken until the government is heard from with respect to the necessary dredging. As yet no answer has been received to the resolutions forwarded by the board of city, but word is expected at any time.

In this connection, Caleb Wetmore called on the deputy mayor this morning and laid before him in a most exhaustive manner a comprehensive plan for harbor extension. Mr. Wetmore's idea embraces the building of wharves all the way down the west side of the harbor, and he pays particular attention to the rapid development of the east side, especially in the vicinity of Red Head.

The deputy mayor was deeply impressed with Mr. Wetmore's plan, which he thought must have been the outcome of considerable study, but feared that the cost of the proposed work might be greater than could easily be borne. Mr. Wetmore admitted that he had given years of study and deep thought to the matter, and was assured that he could organize, without difficulty, a company with sufficient capital to carry out his plan. It was suggested that he put his proposal in writing, when the deputy mayor promised to find much pleasure in laying it before the common council.

At another exhibition young Cardy, son of a former well known Methodist clergyman, was one of those who received praise, while among other gymnasts of that day were George K. Burton, J. Morris Robinson and T. Grey Merritt.

BOARD OF HEALTH.

A meeting of the board of health was held yesterday afternoon, at which the smallpox situation and the Orange street dump received attention. Regarding the former no definite action was taken, but the board will meet again on Monday when the period of incubation having expired, quarantine on the Grand Union will probably be raised.

A communication from Attorney General Fugle, dealing with the finding of the grand jury on the dump, was read and discussed. The board will communicate with the common council asking that steps be taken to remove the cause of complaint.

THE JARVIS-SMILY CONCERTS.
Subscribers' lists for these concerts are at the stores of Wm. Hawker & Son, Landry & Co., Miss Gray, C. P. Clarke and A. C. Smith & Co. All having their names attached to one of these lists are privileged to secure seats a day ahead of the general public.

These concerts bid fair to become the most popular events of the year. Everyone is anxious to hear that much heralded artist—Harold Jarvis—and there is none who will not be interested and amused by the clever work of Owen Smlly.

AN OLD MAN HOMELESS.

An old man, named William Hayes, was found last night by the police lying in a yard off Union street and was taken to the central police station Hayes, who is now sixty-three years of age, was formerly a well known and reliable laborer, but has evidently had with increasing age a run of hard luck. He says he has no home, and on several occasions recently has been found sleeping out. He was remanded to jail.

PORT OF ST. JOHN.

Nov. 19—Coastwise Sch. Ruby, Donnell, from fishing cruise; St. Centreville, Graham, from Digby.

Nov. 19—Str. Calvia Austin, 2563, Pike, for Boston, via Maine ports.
Coastwise—Sch. Ruby, Donnell, on fishing cruise; Margaret, Bishop, for St. George; Henry Swan, Cole, for Sackville.

FOR STEALING A RIDE.

Edward McGahy, the young man who was arrested for stealing a ride from Montreal, was brought into court yesterday afternoon and pleaded guilty to the charge. Detective Duncan, of the C. P. R., was present to prosecute, but his evidence was not required. McGahy was remanded for sentence. As yet the man's father has not been heard from and it is doubtful whether he is still in the city. Some years ago the name of McGahy was a common one in the North End, but the directory does not show any such name.

CRYSTAL STREAM HARD AGROUND.

All efforts of floating the steamer Crystal Stream, which ran aground near Perry's wharf on Tuesday last, have apparently been abandoned, at least for the present. The steamer Aberdeen and the tug Lord Kitchener, which went up yesterday to render assistance, returned to Indiantown this morning between the hours of six and seven. The Crystal Stream is hard aground, and her position will make the work of floating her somewhat difficult.

CIVIC MUTTERINGS.

There is another rumor on the street. The vacant collectorship is half forgotten, and while there is nothing of immediate importance to talk about those who hold up the posts and buildings are telling each other that Mayor White will not have things all his own way in the next civic election. Aid McNeil, it is said, will offer himself as a candidate for the mayorship, and is even now occasionally picking up votes.

WATSON-BOWLAND.

Frederick Watson, of this city, and Miss Annie Maud Bowland, of Sussex, were quietly married this morning at the residence of David Watson, St. James street, in the presence of only a few relatives and intimate friends. Rev. Dr. Morison performed the ceremony, after which a bountiful wedding breakfast was served. Mr. and Mrs. Watson left on the Boston express for a trip through the New England States.

PERSONALS.

The Rev. J. M. Gladstone, who has been appointed to take charge of the mission at Acadia, will hold his first service in St. George's church Advent Sunday, Nov. 29th.

Mr. and Mrs. McLean, of Toronto, who have been visiting Mr. and Mrs. E. T. Jones and Mrs. Thomas Burgess at Apohaqui, came to St. John on Monday.

The engagement of Miss Edith Adella Brundage, daughter of Howard Brundage, of Toronto, N. Y., to her cousin, Wm. Cann, pastor of the Baptist church, Argyle, Yarmouth, is announced. The wedding will take place about the last of December.

A. V. Lightbody, of Massachusetts, N. S., and his mother, Mrs. M. A. Lightbody, have just returned from a very pleasant trip to St. John, where they were guests of John M. Vance and family, of Eureka, California, at the Royal Hotel.

Miss Shadbolt, of Surbiton, England, is visiting her brother, E. M. Shadbolt, of Germain street, accompanied by Miss Wise, a niece. Mrs. Shadbolt and daughter sail for England on 23rd inst., per S. S. Lake Champlain, returning in the spring.

ARRESTED FOR A KISS.

James Perry's Friendly Advances Cause Trouble.

James Perry, of Adelaide street, wanted a kiss on Monday evening. He got it, and is very liable to get more than he expected. Perry married, and called on Mrs. Sara Fisher at her home. He wanted to know why she never came to call at his place, as had often happened when the families lived near each other, and suggested that Mrs. Fisher was getting too old. She denied the charge. Then Perry hinted that he would like a kiss and this being indignantly refused, he put his hand on her shoulder and kissed her.

Mrs. Fisher naturally became angry, and ordered him from the house. The kiss being a smack on the face, was with the ensuing souffe, called an assault, and on this charge Perry was arrested. E. R. Chapman appeared for him, but as this was a civic court day the case was postponed after the hearing of Mrs. Fisher's evidence.

Patrick Hennessey had them pretty bad last evening. He was running around the street, only half dressed, and under the impression that the buildings were falling on him. His work in dodging would have done credit to the Y. M. C. A. half back. Hennessey was fined four dollars or ten days.

MICHAEL COGAWELL, DRUNK, DISORDERLY AND PROFANE ON KING STREET, WAS REMANDED, AND JAMES FITZGERALD, DRUNK ON BRUSSELS STREET, GOT TWO MONTHS.

A DESIRABLE CHANGE.

There will be a change in the manner of handling the local goods brought here by the winter port steamers. This winter which will delight the merchants on this side of the harbor. Arrangements have been made between the steamship people and the C. P. R. whereby local goods with the exception of salt and fruit, will be delivered at the I. C. R. depot. This will relieve greatly the traffic on the ferry boat. It will be a big improvement on the former system.

Adam Glasgow, superintendent of ferries, says the pressure on the ferry service during the winter months is not so much due to the handling of local freight as to the hauling from Sand Point of freight consigned to D. A. R. points in Nova Scotia. He suggests that if the railway would haul this freight over in cars and deliver it at Reed's Point the ferry service would give much more satisfaction than under present conditions.

MARITIME TROTTING CIRCUIT.

A scheme is on foot for the formation of a trotting circuit in New Brunswick and Nova Scotia. The idea is to begin the season in July next and racing until all the tracks in the circuit have had their best competing at one and another at the other, taking in such tracks as Halifax, Springhill and Amherst, Nova Scotia; Moncton, Sussex, St. John, Fredericton, Woodstock and St. Stephen, New Brunswick; and Calais, Maine; and others that might wish to join.

A circular letter advocating the plan has been sent by J. E. Osborne of Milltown to leading horsemen of the provinces and it is probable that a meeting will be held in St. John before long to decide the matter.

FOR STEALING A RIDE.

Edward McGahy, the young man who was arrested for stealing a ride from Montreal, was brought into court yesterday afternoon and pleaded guilty to the charge. Detective Duncan, of the C. P. R., was present to prosecute, but his evidence was not required. McGahy was remanded for sentence. As yet the man's father has not been heard from and it is doubtful whether he is still in the city. Some years ago the name of McGahy was a common one in the North End, but the directory does not show any such name.

CRYSTAL STREAM HARD AGROUND.

All efforts of floating the steamer Crystal Stream, which ran aground near Perry's wharf on Tuesday last, have apparently been abandoned, at least for the present. The steamer Aberdeen and the tug Lord Kitchener, which went up yesterday to render assistance, returned to Indiantown this morning between the hours of six and seven. The Crystal Stream is hard aground, and her position will make the work of floating her somewhat difficult.
