RADIO TELEGRAPH BILL ADOPTED BY COMMONS

Hon. Mr. Hazen's Measure to Safeguard Travel by Steamers

MUCH DISCUSSION ON OTTAWA MINT

How Gold Coinage of Canada Has Increased Since Establishment of Mint—Reserve Should be in Canadian Gold.

Special to The Standard.

Ottawa, April 28.—The House of Commons did a silver deal of business today. The expenditure allowed to the mint was increased to \$110,000 to keep pace with the increased business done by that institution. The gold and silver marking bill was passed. A resolution further regulating the western grain trade was passed, and Mr. Hazen's radio telegraph bill was passed. The House then also supplied on the customs estimates.

In question time Mr. Lemieux asked if it was true that a large quantity of small arm ammunition manufactured in the arsenal at Quebec, was lately found to be defective.

Hon. Sam Hughes said that the matter was being investigated and that he would not care to make a statement until he had received a report.

More Money for the Mint.

The first piece of business done was the passing of the finance minister's resolution increasing the maintenance allowances of the mint from \$75,000 to \$110,000 a year. Last year, he said, \$95,000 had been spent. It was the occasion of a general discussion on the question of the gold and silver coinage of Canada and various cognate questions.

Sir Wilfrid Laurier asked where the gold and silver milled is obtained. Mr. White, in the course of his reply, said that the most of the gold milled into coins comes from the Yukon, British Columbia and Ontario. In 1912, he said, the amount of gold milled had been \$1,477,000 and for the first three months of the present year \$223,000. In 1908, when the mint was established, silver to the value of \$9,000,000 had been milled. In 1912 the figure had risen to \$1,300,000.

Mr. White said it was true, as Sir Wilfrid Laurier had stated, that the great bulk of the Yukon gold has gone to the United States. Last autumn a representation made by Dr. Thompson, Yukon, the charge for assaying at Vancouver had been abandoned.

Mr. White gave figures regarding the refining of gold done at the mint, as follows:

1908—219 ounces, 1909—5,779 ounces, 1910—65,000 ounces, 1911—89,000 ounces, 1912—105,069 ounces.
--

Gold bullion sold to manufacturers increased from a value of \$9,000 in 1910 to \$296,000 in 1912.

Canada's Gold Production.

Hon. Mr. White pointed out that in the past manufacturers had been compelled to secure their gold bullion from the United States. The government was anxious that Canadian manufacturers instead of sending their gold to New York to be refined should refine it in Ottawa, thus making the Canadian mint as useful as possible.

Mr. White stated that the gold production of Canada is about ten million dollars a year. The consumption of gold in the arts is about \$2,100,000, of which about a million is imported. Sir Wilfrid Laurier said that Canadian gold and silver should be used to a greater extent in Canada.

Mr. Alkens urged that American gold coinage be no longer legal tender in Canada.

Interchangeable Gold.

Dr. Thompson (Yukon), said that all the Yukon gold should come to Ottawa. All the gold reserve of the country should be held in Canadian gold. He also suggested that the gold coin of the United States and Canada should be interchangeable; at present United States gold coins are legal tender in Canada, but Canadian gold coins are not legal tender in the United States.

CONSERVATIVES WIN BOTH ALBERTA SEATS.

MacLeod, Alb., April 28.—According to the final official count in the provincial election in this constituency, Premier Sifton was defeated by Robert Patterson by 51 votes.

Edmonton, Alb., April 28.—Results received from Alexandria show the Conservatives, which were recently thought to be uncertain; Rocky Mountain, majority, 81; MacLeod, majority, 51; Innisfail, majority, 8.

In the two latter there will be a recount before a judge.

MILLIONS TO BE SPENT ON C.P.R. SYSTEM

Sir Thomas Shaughnessy Says Expenditure Will Reach One Hundred Millions—Will Not Involve London Loan.

Montreal, April 28.—Sir Thomas Shaughnessy, president of the C.P.R., sent the following cable from London, this morning to the Montreal office of R. M. Haier, the New York stock broker:

"Since my arrival in England my attention has been drawn to a recently published cable message to the effect that the company contemplate an expenditure of \$50,000,000 in Canada in laying double tracks, constructing branch lines, and putting a tunnel through the Rocky Mountains which will provide an alternative route with a much easier grade than now exists and will enable the railway through published capital, because all our financial resources are being worked by electricity, if required.

"That report can only refer to the first and second stages of the project, our contemplated expenditure over the whole system during the next future will be more like \$100,000,000 exclusive of new rolling stock.

"This will not involve another appeal to the London money market for fresh capital, because all our financial arrangements have already been made. Referring to a published statement that the new shipping agreement with the Canadian government provided for the construction of ships capable of being used as mail steamers in peace and armed cruisers in war, Sir Thomas says: 'This is all mere speculation, or an attempt at anticipatory speculation of some possible future scheme. As this contract is for one year only it must be obvious that nothing so costly and comprehensive as a fleet of mail steamers armored and equipped for use as cruisers forming a part of a scheme of imperial naval defence for the North Atlantic can be embraced within that agreement. It is only a small contract.'

BUDGET PROBABLY SOME TIME NEXT WEEK

Special to The Standard.

Ottawa, April 28.—It is expected that Hon. W. T. White will bring down his budget some time during the second week in May. His financial statement will be a breaker of records. The tariff changes will not be numerous although some will be made necessary in connection with the West Indian trade agreement.

LEFT HIS WEDDING GIFTS IN BOND SOONER THAN PAY DUTY

How Sir Wilfrid Peck of Devonshire, England, Got Ahead of New York Customs Officials—Will Collect the Presents When He Returns.

New York, April 28.—Customs inspectors seized \$10,000 worth of wedding gifts today and sent them to the public stores, because Sir Wilfrid Peck, of Seaton, Devonshire, England, refused to pay 45 per cent duty on them. They were intended for Miss Edwina Thornburgh of St. Louis, who is to become Sir Wilfrid's bride on May 7th, and consisted of gold and silver plate from his relatives and friends in London and Europe.

Sir Wilfrid was visiting in India, when he received a cablegram from Miss Thornburgh naming the day. He caught the first liner from Calcutta and hurried to London and Devonshire. There he found a great array of wedding presents waiting for his bride. He took them to the public stores in two large boxes, intending to take them to St. Louis to display at the wedding and bring back to England a month later. The thought of paying duty, he says, never crossed his mind and he was indignant when he found that he would have to pay nearly half their value to bring them into the country for a thirty days' stay. So he left them here, to reclaim them on his departure, with the exception of eight gold plates. He took these with him to St. Louis after paying sixty-four dollars duty.

Situation is Still Very Doubtful.

CONCENTRATION OF FORCES REPORTED

Servia, Bulgaria and Greece Await Only Peace with Turkey to Clash with One Another.

London, April 28.—The mystery surrounding events in the Balkans is becoming deeper and deeper. No further news has been received of Essad Pasha's exploit in Albania. The situation at Saloniki is difficult to understand.

The dispatch from Saloniki of current date confirms the report that orders were given for the Bulgars to evacuate all places occupied by the Greeks, but later these orders were countermanded and that official attempts were being made to pretend they were never given.

A Bucharest despatch dated April 28, to the Daily Telegraph, expresses the firm conviction that immediately peace is signed between the allies and Turkey, a new war will commence between Servia, Bulgaria and Greece.

Troops in Readiness.

A Bulgarian correspondent says that large concentrations of opposing troops are in readiness for these new campaigns, and adds that he has heard from reliable sources that considerable fighting has already occurred, and that three important engagements were fought during the past week, concerning which the greatest secrecy has been maintained. He describes fighting with heavy losses on both sides between Bulgarians and Servians to the northeast of Monastir on the Servian attack, between the Greeks and Bulgarians for a week in the vicinity of Nigrita, Serres and Salona.

The Daily Telegraph calls attention to the fact that whereas a few weeks ago the Servians were endeavoring to capture David Pasha's army, these operations appear to have ceased and suggests that the cessation of the Servian attack is connected with Essad Pasha's coup.

Looks Like Trouble.

London, April 28.—A Vienna despatch to the Chronicle says:

"News has reached here that Crown Prince Danilo is marching northward with the Montenegrin army in connection with the preparations which are being made to resist an Austrian attack on Cetinje. All the heights dominating the road from Cetinje to the Montenegrin coast are being held by strong Montenegrin forces supported by Servian troops are taking up positions in the mountains.

"Montenegro has been furnished by Servia with sufficient provisions for the Montenegrin army to last three months."

A despatch to the Daily Mail from Trieste says that 80,000 Austrian troops are assembled near the Montenegrin frontier.

The Mail correspondent at Graz, Austria, says it is stated that Austria is planning for Tuesday a military attack on the Montenegrin coast.

Montenegro. Troops will be sent in transports to Southern Albania. Meanwhile troop trains crowded with rifles from the Austrian Alps are proceeding to the south.

Claim Balkan Union.

London, April 28.—The Mail's Balkan correspondent says that all chance among the members of the Balkan League clearly provides for concentrated military action in the event of an attack by Austria even if such attack has the sanction of the Great Powers.

MONTENEGRO'S DEMAND AND POWERS OFFER.

The dotted section of the above map shows the territorial reconquest which the Powers offer to Montenegro if she gives up Scutari. The lined section shows the territory that Montenegro demands.

SEVERE EARTHQUAKE SHOCKS IN MONTREAL AND OTTAWA

Sir Thomas Shaughnessy's Ceiling Bore Brunt of Damage in Montreal—Ottawa Feels Tremors—Northern New York Has It Too.

Ottawa, April 28.—A well defined earthquake of fifteen seconds duration was felt here tonight, but so far as is known no damage resulted. The tremors were felt in all sections of the city. A report gained currency that the big telescope of the observatory had collapsed with the dome of the building, and officials rushed to the experimental farm, where the observatory is located.

Observers tested the machinery and found it working to perfection. "The tremors were exceedingly well defined and distinct," stated Dr. King, Dominion astronomer, "and I am sure we will have a splendid record when the seismograph film is developed in the morning."

In Montreal.

Montreal, April 28.—Montreal was shaken by an earthquake at half past seven o'clock this evening. The shock was particularly violent in the northern and western sections of the city, and Westmount where houses several feet were rattled for every second. The earthquake occurred at 7:30 this evening. It lasted fully half a minute and was followed by a loud rumbling sound.

Building throughout the city shook so badly that the people ran into the streets in fear that they would collapse. The shock was distinctly felt in many towns of Franklin and St. Lawrence counties.

Waterbury, N. Y., April 28.—An earthquake shock occurred in the middle of St. Lawrence Valley at 7:30 o'clock tonight. The shock lasted for ten seconds. Reports from Potsdam and Gouverneur, state that the shock was felt there.

The shock was accompanied by a high wind and storm on the St. Lawrence.

PORT ARTHUR GRATEFUL TO MR. HAZEN

Mayor of City Thanks Minister of Marine for Prompt Action in Having Ice Barrier Broken Up.

Special to The Standard.

Ottawa, April 28.—Hon. J. D. Hazen, Minister of Marine and Fisheries, is in receipt of a letter from Mayor Oliver of Port Arthur extending to the minister the thanks of the city for his prompt action in having the ice broken between the Soo and White Fish Bay. Part of the letter reads as follows:

"It is undoubtedly true that we could not have had navigation open for a week or two yet had it not been for your action. The first boats came in here yesterday, one loaded with coal, thus relieving the scarcity of coal, and several light that will leave here with wheat today, thus making room for some of the many cars of wheat now in the yards and so on West relieving the"

DUCHESS OF CONNAUGHT'S CONDITION UNFAVORABLE.

London, April 28.—A bulletin issued this evening by the surgeons in attendance on the Duchess of Connaught, wife of the Governor General of Canada, who underwent an operation for intestinal trouble on April 10, states that intestinal obstructions have not occurred, and that another operation is necessary.

SHI KAI OPPOSED FOR PRESIDENT

Several Chinese Assemblies Hostile to Him and May Form Separate Union—Dictatorship May be Result.

Peking, April 28.—Several provincial assemblies and governors, who support has been withheld already from the Peking government, especially the southern provinces, have become so hostile that they are likely to form a separate union until an acceptable form of the republic has been elected.

It is reliably reported that Dr. Sun Yat Sen, who is a member of the Kwo-Ming-Tang, or democratic party, has announced that provisional president Yuan Shi Kai will not be elected president.

The majority of foreign observers here express the belief in like manner with the bankers and legislators of Great Britain, France, Germany, Russia and Japan that Yuan Shi Kai is the greatest element of strength in the country and will succeed in bringing about a dictatorship which they declare is also possible for China. It is believed in these quarters that his methods will consist of intrigue and robbery, and not in the employment of force. The opposition, however, is, it is pointed out, enormous, as is indicated by the great majority of the democratic party in the senate which was elected by the provincial assemblies. It is therefore said in these circles that although Yuan Shi Kai may succeed in dominating the situation, it is unlikely that he will be able to institute reforms or establish a progressive era while retaining his power by force.

ALBERTA HAS RECORD FOR EARLY SEEDING.

Lethbridge, Alta., April 28.—Seeding a practically finished in Southern Alberta and by May 1st, there will be very little to be done. The southern section of the province has established an early seedling record this year, with a rainfall of 1.5 inches, the southern section of the province has established an early seedling record this year, with a rainfall of 1.5 inches, the southern section of the province has established an early seedling record this year, with a rainfall of 1.5 inches.

POLICE JUDGE HELD FOR BIGAMY.

Oshawa, Ont., April 28.—W. J. Watson, police magistrate of this town, who was placed under arrest last night on a charge of bigamy laid by his first wife, was admitted to bail today in two sureties of \$15,000 each. F. Smith, of the Oshawa Canning Co., and T. B. Mitchell, becoming his bondsmen. No evidence was taken and the case was adjourned until Thursday morning at 9:30 o'clock.

DIES VERY SUDDENLY.

Special to The Standard.

Moncton, April 28.—Mrs. Benjamin Lutes, aged 67, died very suddenly at her home in Lakerville, five miles from Moncton this afternoon. While her husband and son were preparing to attend the funeral of a neighbor, Mrs. Lutes fell from the chair in which she was sitting and almost immediately expired. Death is supposed to be due to heart failure.

GERMAN BUDGET PASSED.

Berlin, April 28.—The Reichstag today passed the third reading of the budget and adjourned to May 27.

BRYAN ISSUES DIPLOMATIC WARNING TO CALIFORNIA

Declares Passage of Proposed Land Law Would Be Against Wishes of Washington Government—Japanese Opinion Favors Definite Settlement.

Washington, April 28.—Secretary Bryan today issued a diplomatic warning to California, declaring that the passage of the proposed land law would be against the wishes of the Washington government. He also stated that the Japanese opinion favors a definite settlement.

Great Demonstration in Amherst for Sir Charles Tupper

VETERAN DELIVERS ELOQUENT ADDRESS

Reviewed Parade of 2,000 School Children and was Guest of Honor at Big Reception—Telegrams Received.

Amherst, N. S., April 28.—All roads in Cumberland County led to Amherst today.

When this busy industrial centre undertakes any project its success is assured. The demonstration to Sir Charles Tupper was no exception to the rule. The programme was a magnificent success and a pleasant and unique part of it was that Liberals vied with Conservatives in paying honor and tribute to this great statesman. Party feuds and factions were forgotten and the man's great achievements for Canada and the Empire alone remembered. Never was a more spontaneous tribute paid to a living Canadian statesman.

In the motor placed at his disposal Sir Charles reviewed a procession of two thousand Amherst school children and then passed through their ranks acknowledging their devotion to the children and to the thousands of citizens who lined the streets. Following him came a procession of seventy-five motor cars, which Sir Charles also reviewed. A patriotic concert at which Rev. Dr. A. Steele was the soloist in the historical address was one of the features of the afternoon's programme. The winter fair and auditorium was filled to its utmost capacity. H. J. Logan, ex-M. P., presided at the gathering, and when he came on the platform with Sir Charles there were rounds of cheers.

Mr. Logan in opening gave a short address. Addresses were presented to Sir Charles by Warden C. J. Purdy of Cumberland County, Mayor Sprinhill, Town Clerk D. McLeod of Sprinhill, Mayor Spicer of Parrsboro and Mayor Ross of Oxford.

Cheers for Sir Charles.

When the venerable statesman rose the cheering broke out afresh. He spoke for about twenty minutes and was followed with intense interest. He expressed his deep gratitude to the people, not to the Conservative party alone, but to the people of his native town for the magnificent reception tendered to him on this occasion. He said it was an indication of the hearty unanimity which marked the reception.

He had the great honor of being elected twelve times in Cumberland in thirty-one years. It was a happy fortune to pursue such a course in politics as to afterwards receive the support of five of the twelve men who opposed him.

He emphasized the fact that the most important qualification of a public man is to regard public affairs and the affairs of his country more important than himself. He referred to the procession of children which he witnessed and said that it gave much pleasure to him to see such fruit of the legislation which he assisted in placing upon the statute books of Nova Scotia in the form of the Free School Act 1884.

He would be doing an injustice to his own feelings if he did not say that the government of Nova Scotia had taken up that measure and the subject of education in general in a manner that reflected the highest honor and credit.

He dealt with the work of Sir John McDonald, Sir George Cartier, and also of the part played by Darcy McIvor and closed his remarks by saying that he mentioned these things to show that when selecting men to represent the country it is best to choose those who think the public affairs and the affairs of the country more important than themselves.

Congratulating Telegrams.

Telegrams came from all over Canada congratulating Sir Charles. One of these was a resolution adopted unanimously by the legislature of Nova Scotia, and another was from C. E. Tanner, leader of the opposition, which was as follows:

"You will express to Sir Charles Tupper, on behalf of the Liberal Conservative members of the legislature, our regret that we were unable to leave the house today for the purpose of joining in the reception to him at Amherst. We desire further to place on record our high appreciation of his many years of honorable and distinguished career as a public man and as a Liberal Conservative party and heartily congratulate him on his retirement from the public life of the country, which the people of his native county, Cumberland, have tendered him."

WAS DROWNED AT HIS POST

Coroner's Jury Returns Verdict in Johnson Case—Ordered to Scow and was Drowned Soon After.

The enquiry into the death of Charles Johnson who was washed off a Norton Griffiths Co. mull scow and drowned, near the Negtoun Point Breakwater, on the 19th inst., was concluded by Coroner F. L. Kenney in the City Hall, West End, last night.

Capt. Taylor of the dredge, Capt. Irving of the tug Dunbar, Capt. Williams of the tug Muskellonge, Walter Thompson, the inspector, and E. O. Lahey, the superintendent, gave evidence after which Coroner Kenney summed up. The jury brought in the following verdict:

"We, the jury, empaneled to enquire into the death of Charles Johnson, find that he came to his death by drowning, while in the discharge of his duty, on the 19th day of April, 1913, outside the Negtoun Point Breakwater, he having been ordered from the deck of the dredge, 'Mull', by Captain Taylor to help Patrick Pederson on the dumpier crew. Owing to the storm the tug was unable to tow the dredge fast enough to make scow work, and the scow struck the lighthouse pier and tilted. The waves washed Johnson and Pederson overboard.

"We are of the opinion that the Norton Griffiths Company should provide better lifesaving appliances, boats, lifelines and such like in connection with exposed work."

Signed, James Carleton, foreman; Joseph O'Brien, William Smith, Isaac Duffie, William Johnston, Arthur Anley, Frank T. Belyea.

HONEYMOONERS LEAVE TO GO "ANYWHERE BRIDES WANT TO GO"

SITTING, LEFT TO RIGHT—MRS. COLGATE HOYT, COMMODORE E. C. BENEDICT, MRS. RICHARD R. SINCLAIR, AND MISS GEORGIA APPLETON. STANDING, LEFT TO RIGHT—MR. E. DEERS, MRS. SIEBERT, MR. COLGATE HOYT, DR. GRIFFIN AND MR. JOHN JOLLES.

Beginning a voyage of 12,000 miles with two newly wedded couples on board, the Onelia, Commodore E. C. Benedict's steam yacht, named after the original honeymoon yacht, left the New York Yacht Club's pier bound for Para, Brazil, and, according to the Commodore, "anywhere else the brides want to go."

The honeymooners are Mr. and Mrs. Colgate Hoyt and Mr. and Mrs. Richard R. Sinclair, who, with five other men and women, are taking the trip as guests of Commodore Benedict.

THE LASH FOR WHITE SLAVE TRAFFICERS

Amendments to Criminal Code May Include This Clause—Other Changes Are Proposed.

Ottawa, Ont., April 28.—Procureurs entered in the white slave traffic will be aimed at particularly in amendments to the criminal code of which the Minister of Justice gave notice tonight.

The amendments are not finally revised as yet but the general intention is to adopt in Canada the law of England directed against procurement for immoral purposes. The penalty of penitentiary imprisonment will be increased and the Act otherwise changed to facilitate prosecutions.

It is also not improbable that procurers will be given the lash, or made liable to it.

Other proposed amendments will stiffen the law in regard to obtaining goods under false pretences and the carrying of fire arms.

The Prime Minister has given notice of a resolution providing for an assistant to the chairman of the Conservation Commission, who will have the rank and salary of a deputy minister.

GREATEST HEADACHE CURE IN THE WORLD

Tortures of Chronic Dyspepsia Cured By "Fruit-a-tives."

Shanley, Ont., Sept. 23rd, 1910. "You certainly have the greatest Headache Cure in the world. Before 'Fruit-a-tives' came before the public I suffered tortures from headaches caused by Stomach Disorders."

One of your travellers called on me when I had one of my raging headaches and had my head almost raw from external applications. He insisted on my trying 'Fruit-a-tives.' "I did so with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health."

WM. PITT. Dealers everywhere have 'Fruit-a-tives' at 50c. a box, 6 for \$2.50—trial size, 25c. or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

BRYAN ISSUES DIPLOMATIC WARNING TO CALIFORNIA

Continued from page 1.

The name of President Wilson was all that Mr. Bryan had to offer, and the paramount topic here tonight is whether such advice will overcome the previously announced determination of the Progressive Republican party to enact an anti-land-holding law along lines already agreed upon.

Tokio, April 28.—The report that Viscount Kentaro Kaneko, privy councillor is going to Sacramento in connection with the pending alien land ownership legislation, is untrue, but the Selyukai, (Constitutional), and Kokuminto, opposition parties, are despatching representatives to California to make a personal investigation of the situation.

The official view is more hopeful owing to Secretary Bryan's mission, but public opinion still insists that the present is the most suitable moment to settle the whole American-Japanese question, and thus prevent a recurrence of similar disputes.

An inspired article in the newspapers of Anshi explains that the delay in putting in force the Japanese foreign land ownership bill of 1910, has been due to the discovery of imperfections, and the long list of these cited indicates that probably years will elapse before the amendments are approved.

New York, April 28.—If the American League baseball pennant goes to the National capital, nobody will be better pleased than Sir Cecil Arthur Spring-Rice, the new British ambassador. Sir Cecil today announced himself a fan. He qualified many years ago, he said, for this in the fifteenth time he has been in the United States. He is also an enthusiast over college rowing.

WEEK-OLD INFANT FOUND MURDERED AT FREDERICTON JCT.

Fredericton Junction, April 28.—Fredericton Junction has been the scene of a mysterious murder and the authorities have commenced an investigation.

The body of a baby about a week old was found today in a clump of bushes in the school house yard. No body marks were seen, and nothing as to its identity, so far as can be learned.

Dr. George W. Bailey was notified and he viewed the remains and Coroner George A. Perley, M. L. A., has been notified and will come here to carry on the inquest concerning this evening.

The baby held in its hand a broken twig which it had grasped from the bushes where it had been thrown by the wretch responsible for its death. Around the baby's neck was a tightly tied cord, which caused the infant to strangle to death.

The case has caused a great sensation here.

HOT DEBATE ON TARIFF IN THE U.S. HOUSE

Republicans Declare it Will Ruin Industry and Impoverish Labor—Cheaper Living a Fallacy.

Washington, April 28.—General debate on the Democratic tariff bill in the house wound up tonight in a final outburst of oratory. Democrats spent the day laying the measure, while alternately, Republicans and Progressives attacked its provisions.

The house, weary after a week of tariff oratory, did not produce a numerous attendance and most of the speeches of the day were made to empty benches. However, the ranking Republican of the ways and means committee, and the father of the present tariff law, had a good sized audience on hand to listen to his denunciation of the bill. He painted a vivid word picture of ruined industry and impoverished labor, which he presented as the inevitable result of the Underwood bill.

Republicans vociferously applauded when he declared that the reduction in the cost of living promised by the Democrats as a result of the tariff revision was a fallacy.

A Reast for Jackson.

Mr. Payne criticized the ways and means committee for putting wool on the free list while leaving on the dutiable list the hair of the Angora goat, intimating that it was the work of Representative Garner, the Texas member of the committee.

There are three million goats raised in the United States, he said, and I understand that 2,999,999 are raised in Texas. Representative Mudd, the Progressive leader, criticized the tariff policy of both Democrats and Republicans. He said the Underwood bill was an "unreliable chaotic jumble of inconsistencies, and urged that the tariff be placed in the hands of a non-partisan committee.

Representative Harley of Illinois, a Democrat, declared the bill marked a new era in the government's fiscal policy, "making lighter the burden of taxes upon the consumers of the country and compelling great wealth to contribute its fair share toward paying the governmental expenses."

Representative Chandler of New York, Progressive, advocated the reduction of certain tariff duties and replied to Representative Hedlin of Alaska, who, he said, had called Theodore Roosevelt "the wild man from Africa," and in the same breath had invoked the spirit of Andrew Jackson to guide the deliberations of a Democratic Congress.

Jackson once killed a man named Charles Dickinson in a duel," said Mr. Chandler. "He threatened to hang Calhoun as high as Haman, tried to horsewhip Thomas Benton, challenged General Winfield Scott to a duel, overran Florida, and had two eminent British gentlemen hanged thereby nearly bringing us into a war with Great Britain and Spain, and when President, broke up his cabinet by his own headstrong violence. This is the mild-mannered man whose spirit is invoked in the House by a Democratic Congressman in the same breath that is employed to denounce Roosevelt as a wild man from Africa."

The debate finally closed at a night session with a lively defense of the Underwood bill by Representative Hardwick of Georgia and a short statement by Representative Underwood of Alabama, the Democratic leader, after speeches.

BIG LEAGUERS RELEASED.

Detroit, April 28.—The Detroit baseball club today released pitcher Boozer to St. Joseph in the Western League, and outfielder Powell to Providence of the International League.

WAR CLOUDS AGAIN HOVER OVER THE BALKAN STATES

Continued from page 1.

A Vienna despatch to The Mail says: "Telegrams from Cattaro report that Montenegrins are making insulting demonstrations in front of the Austrian legation. They decorated an imitation donkey with a dress coat, the breast of which was covered with facsimiles of Austrian orders, and hung it outside the legation."

Germany with Austria.

Cologne, Germany, April 28.—An inspired Berlin despatch published this evening in the Cologne Gazette, denies the reports printed in foreign newspapers that Germany is not fully supporting Austria-Hungary with regard to the question of the disposition of the fortress of Scutari.

The newspaper calls the statement originating in Paris that Germany had declared that military operations to compel Montenegro to evacuate Scutari were inadmissible a flat invention, and it says that Austria's attitude is fully justified.

Fail Ready to Treachery.

Vienna, April 28.—The correspondent at Cattaro, of the Vienna Reichspost cites the English red cross document from the Turkish fortress of Scutari a authority for the statement that when the citadel surrendered, although the populace was stricken with hunger, the Turkish troops were abundantly supplied with provisions and ammunition, and that the announcement of the surrender caused the doctors to declare, according to the document, that the capitulation of the city was due to the treachery of Essad Pasha, and to his desire to gratify his ambition to become the ruler of Albania.

An Optimistic View.

London, April 28.—"There is no cause for pessimism even now." This was the only official utterance that could be obtained regarding the result of the momentous conference of the ambassadors of the powers on the Balkan situation today.

The conference lasted more than three hours, and another, arranged for May 1st, indicates that the diplomats still expect to find a peaceful solution of the problem created by Montenegro's defiance of the powers.

COBALT MINERS WILL NOT STRIKE.

Cobalt, Ont., April 28.—Two motions for a strike on May 1st were voted down at meetings of the Cobalt branch of the Western Federation today by substantial majorities. This will probably end the agitation that has been going on for some time in connection with an attempt of Porcupine Socialists to capture the organization here and to promote a sympathetic strike.

The House then went into supply.

HARBOR WORK IS HELD UP BY THE STRIKERS

Four Hundred Men Employed on Quebec Improvements Ask More Pay—Will Be Replaced Today.

Quebec, Que., April 28.—All the work of the improvements of the Quebec harbor have been suspended today as a result of four hundred men, laborers, carpenters and carters, going on strike. The men want more pay which the harbor commission refuses to give them.

Mrs. Crawford returning shortly after, found the fire and attempted to remove Mr. Crawford, but his clothing fell off. She called neighbors and he was carried out badly burned and a doctor came but Crawford died within two hours.

The fire was extinguished and the house saved. Crawford was about 55 years old and leaves two grown-up sons.

Radio Telegraph Bill Adopted by Commons

Continued from page 1.

In reply to questions by Mr. Oliver, Mr. Perley said that the question of interior terminal elevators would come up later in the session in another connection. The present resolution was not designed to deal with that problem.

"The Radio Telegraph Bill." In the evening Mr. Hazen's radio telegraph bill was put through committee. It has been recast by a special committee. As introduced it required wireless equipment to be carried by any passenger vessel carrying more than 50 passengers and plying between ports more than 200 miles apart. As it now stands three classes of steamers may carry wireless.

(1) Those carrying 50 passengers and plying between ports more than 200 miles apart.

(2) Those carrying 250 passengers and plying between ports 90 miles apart.

(3) Those carrying 500 passengers and plying between ports 20 miles apart.

These requirements are not to apply to rivers including the St. Lawrence as far down as Father Point or Northumberland Straits or the Georgian Bay, or in lakes other than Ontario, Erie, Huron and Superior.

Neither does it apply to vessels carrying 500 passengers plying between ports 20 miles apart if the regular route is not more than seven miles from shore.

Anaemic Condition or Bloodlessness

A peculiar pallor or even ghastliness of the skin is the marked symptom of anaemia. The eyelids, gums and lips appear to be almost bloodless. The cause of this condition is the absence of red corpuscles from the blood.

It is readily assimilated, enters the blood streams and carries health and strength to every organ of the body. The vigor of the digestive system is quickly restored, and the food taken into the body is properly digested and nourishment supplied to the whole system.

To get well and keep well you must supply the body with an abundance of pure, rich blood. Nothing can help you so well as

LAMP FIRES CLOTHES; MAN BURNS TO DEATH

Special to The Standard.

Yarmouth, N. S., April 28.—James Crawford, living on Starr's Road, Yarmouth, left his home to walk to Salmon River, about six miles. His wife came to town to attend a Salvation Army meeting taking the keys with her. Mr. Crawford returned first about ten o'clock, crawled through the window, lit the lamp and in some way upset it setting the house and his clothing on fire.

Mrs. Crawford returning shortly after, found the fire and attempted to remove Mr. Crawford, but his clothing fell off. She called neighbors and he was carried out badly burned and a doctor came but Crawford died within two hours.

If Breathing is Difficult If Nostrils are Plugged You Have Catarrh

At Last a Remedy That Already Has Permanently Cured Thousands.

Perhaps you haven't heard of the new remedy—it's so pleasant to use, fills the nose, throat and lungs with a healing balsamic vapor like the air of the pine woods. It's really a wonderful remedy—utilizes that marvelous antiseptic only found in the Blue Gum tree of Australia.

The name of this grand specific is Catarrhoxone, and you can't find its equal on earth tonight. You see it's not longer necessary to drug the stomach—that spoils digestion—just simply inhale the balsamic essences of Catarrhoxone, which are so rich in healing that they drive out every trace of Catarrh in no time.

"I look upon Catarrhoxone as the most valuable medical discovery of recent years," writes K. V. Potter, of Prince Albert. "As a long sufferer from nasal and throat catarrh I was obliged to take considerable medicine, and, although it helped me, my digestion was always disturbed and the catarrh didn't go away. With Catarrhoxone it was different. It cleaned my nose and throat of all phlegm and discharges enabled me to breathe freely, relieved a stuffy feeling in my nose and frontal headaches. Today I am entirely free from catarrh, and I use my Catarrhoxone inhaler a little every day in order to prevent the disease from returning."

With Catarrhoxone experimenting ends. A permanent curative action begins. Lasting relief from Catarrh results. The large size costs \$1.00, last two months and is guaranteed. Small size 50c; sample size, 25c. All storekeepers and druggists, or The Catarrhoxone Co., Buffalo, N. Y., and Kingston, Canada.

Neither does it apply to vessels carrying 500 passengers plying between ports 20 miles apart if the regular route is not more than seven miles from shore.

The House then went into supply.

GREATEST HEADACHE CURE IN THE WORLD

Shanley, Ont., Sept. 23rd, 1910. "You certainly have the greatest headache cure in the world. Before 'Fruit-a-tives' came before the public I suffered terribly from headaches caused by stomach disorders. One of your travellers called on me when I had one of my raging headaches and had my head almost raw from external applications. He insisted on my trying 'Fruit-a-tives.' 'I did so with what I would call amazing results. They completely cured me and since then (nearly six years ago) it is only necessary for me to take one occasionally to preserve me in my present good health.' W.M. PITT. Dealers everywhere have 'Fruit-a-tives' at 50c. a box, 6 for \$2.50—trial size, 25c, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

BRYAN ISSUE DIPLOMATIC WARNING TO CALIFORNIA

Continued from page 1. The name of President Wilson was all that Mr. Bryan had to offer, and it was paramount to him tonight in whether such advice will overcome the previously announced determination of the Progressive Republican Party to enact an anti-alien land-holding law along lines already agreed upon. Tokyo, April 28.—The report that Viscount Kentaro Kaneko, privy councillor in going to Sacramento in connection with the pending alien land ownership legislation, is untrue, but he Selyuk, (Constitutional), and Kokumino, opposition, parties are negotiating representatives in California to make a personal investigation of the situation. The official view is more hopeful. Speaking to Secretary Bryan's mission, but public opinion still insists that the present is the most suitable moment to settle the whole American-Japanese question, and thus prevent a recurrence of similar disputes. An inspired article in the newspaper Asahi explains that the delay in putting in force the Japanese foreign land ownership bill of 1910, has been due to the discovery of imperfections, and the long list of those cited indicates that probably years will elapse before the amendments are approved. New York, April 28.—If the American League baseball pennant goes to the National capital, nobody will be better pleased than Sir Cecil Arthur Spring-Rice, the new British ambassador. Sir Cecil today announced himself a fan. He qualified many years ago, he said, for this is the fifteenth time he has been in the United States. He is also an enthusiast over college rowing.

SHIPYARD SOLD

Boston, Mass., April 27.—The Fore River Shipbuilding Company's plant at Quincy was sold in New York today to the Bethlehem Steel Company. The Old Colony Trust Company, said to be the largest stockholder in the Fore River company, is understood to have been putting through the sale, and Gordon Abbott, chairman of the directors of the trust company and a director and member of the Executive Committee of the Fore River company, was in New York Saturday in negotiation

with Charles M. Schwab, president of the Bethlehem Steel Company, on this matter. The Fore River plant comprises ship building and engine works covering 110 acres of ground. The company was incorporated in 1904 as a successor of the Fore River Ship and Engine Company, with a capitalization of \$2,400,000 common stock and an equal amount of preferred. The company built the Argentine battleship Rivadavia and several submarine torpedo boats and torpedo boat destroyers for that nation, and in January of last year obtained a contract for the construction of the United States battleship Nevada, of 27,000 tons. At the present time twenty-three vessels are in course of construction at the yards, involving contracts aggregating \$20,000,000.

ALIEN LAND LEGISLATION MAY PROVOKE WAR, SAYS AMBASSADOR

BARON S. CHINDA

The Baron S. Chinda, the Japanese Ambassador, it is said, recently warned President Wilson that alien land legislation directed against his countrymen would convince many Japanese that war with the United States is inevitable.

THE BARRY-PIERCE CONTEST

With the arrival in England of Harry Pearce, the Australian sculler, and the signing of articles for a race for the world's championship with Barry, date has been set for the event for July 21, with stakes of \$2,500 a side. Pearce has won the Australian championship six times. He is an excellent boxer and football player as well as oarsman. He knows the Thames River as well and has decided to do his training from Bossey Phelps' house at Putney, as all the foreign oarsmen are wont to do. He is accompanied by Archie Priddle, who won the amateur championship of New South Wales in 1910 and stroked the champion four a year later.

MILLION PAID TO SEE BOUTS

New York, April 28.—According to the report of the State Athletic Commission for the year ending November 30, which has just been presented to the Legislature at Albany, more than one million dollars has been paid by enthusiasts to see glove contests in this State. To be exact, for the first fifteen months of the commission's existence \$1,219,199.55 has been taken in as gate receipts at boxing contests. For a year the sum was \$983,826.20, and for this the State was paid as a tax on the clubs \$49,191.31. This source of revenue has been so prolific that the commission suggests in the report that its powers be extended to cover all athletic contests in the State. This idea is founded on the attitude of the New York Athletic Union, which would like to see the commission in control of wrestling. It is further suggested that if the State taxed wrestling and other sports there would be a big revenue which might be utilized in the maintenance of athletic fields and public playgrounds.

KIDNEYS WERE SO SORE DIDN'T KNOW WHAT TO DO.

GRAVEL AND SMALL STONES PASSED THROUGH THE URINE. One of the most painful forms of kidney disease is Gravel or Stone in the Bladder, and is caused by the acid and lime in the blood uniting and forming a gritty substance which lodges in the inner surface of the kidneys or bladder, and sets up a painful irritation. To relieve these terrible pains it is necessary to keep the kidneys healthy for healthy kidneys secrete fluids that dissolve the gravel and stones, and they pass out through the urine harmlessly and without pain.

Sufferers from Piles!

ZAM-BUK HAS CURED THESE! Friction on the hemorrhoid veins that are swollen, inflamed and gorged with blood is what causes the terrible pain and stinging and smarting of piles. Zam-Buk applied at night will be found to give ease before morning. Thousands of persons have proved this. Why not be guided by the experience of others? Mr. Thomas Pearson, of Prince Albert, Sask., writes: "I must thank you for the benefit I have received from Zam-Buk. Last summer I suffered greatly from piles. I started to use Zam-Buk and found it gave me relief, so I continued it, and after using three or four boxes I am pleased to say it has effected a complete cure." Mr. G. A. Dufresne, 183-185 St. Joseph street, St. Roch, Quebec, P.Q., writes: "I can highly recommend Zam-Buk to everyone who suffers from piles." Magistrate Sanford, of Weston, Kings Co., N. S., says: "I suffered long from itching piles, but Zam-Buk has now cured me." Mr. William Keny, of Upper Nine Mile River, Hants Co., N. S., says: "I suffered terribly from piles, the pain at dinner hours almost unbearable. I tried various ointments, but everything I tried failed to do me the slightest good. I was tired of trying various remedies, when I heard of Zam-Buk, and thought as a last resource I would give this balm a trial. After a very short time Zam-Buk effected a complete cure." Zam-Buk is also a sure cure for skin injuries and distases, eczema, ulcers, varicose veins, cuts, burns, bruises, chaps, cold sores, etc. 50c. box with all druggists and stores, or post free from Zam-Buk Co., Toronto, for price. MR. HAZEN'S PROMPT DECISION.

The people of the Dominion of Canada will applaud the action of the Hon. J. D. Hazen in appointing a special committee to investigate the question of the pollution of navigable streams. In an ever-increasing country with thousands pouring in weekly, there are certain questions which cannot wait for a solution. Older countries by their experience have given the world sad commentaries upon the danger of delay in grappling with problems upon which the health of the community depends.

A CAMPAIGN OF SLANDER.

It is characteristic of organic support of the Opposition that while they deem it justifiable to hurl abuse with-out stint at the Government they appear like outraged innocents when their discreditable tactics are promptly exposed. Mr. Pugsley's organs are particularly sensitive in this respect. They regard, for instance, an endorsement of Mr. Emmerson's insinuation that with the Closure in force a government would have no difficulty in "looting the treasury of Canada" as legitimate criticism, but how with indignation which prevailed without Closure under the late Government which they supported.

THE PASSING DAY.

Tomorrow will be the last day of April and since May hasn't an "r" to its name—the last day of the oyster season. The crop of the season is now "slumped" and the market is the best in years, but the demand more than kept pace with the supply. A source of worry to the oyster connoisseurs is the constant dwindling of the supply of what are called "wild oysters"—although it requires a considerable stretch of the imagination to conceive of an oyster that is really "wild." These untamed shellfish, which are in great demand and for which the natural oyster bed, Oyster Point, has a favor far superior to the domesticated and cultivated bivalves. The fish, unspoiled by any contact with civilization, makes them vastly superior to any bivalve reared to edible oysterhood in an artificial bed.

AN ANCIENT FESTIVAL.

After the recent strike peace once more reigns supreme in the beautiful town of Ronquières. In those communities it is excitement and a fever of anticipation today, for tomorrow will be the day of fate for many bachelors and maidens of the two villages.

THE HUMAN PROCESSION.

MISS MARY MANNERING.
Miss Mary Mannering, the talented actress, was born in London thirty-seven years ago today. April 29, 1876, the daughter of Richard and Florence Friend, and at fifteen made her first stage appearance. Her part consisted of three lines in "Hero and Leander," in which the late Kyle Bellew and Mrs. James Brown Potter were co-stars. Her premiere was made under the name of Florence Friend.

IMPERIAL STATISTICS.

The total value of the foreign and inter-imperial trade of the British Empire during the fiscal year ended March 31st, 1912, amounted to considerably more than \$2,000,000,000 of which \$676,000,000 represented the trade with foreign countries. The principal units contributing to this vast volume of business were: The United Kingdom with more than \$6,000,000,000; India, \$1,225,000,000; Canada, \$900,000,000; Australia, \$750,000,000; New Zealand, \$200,000,000 and South Africa \$475,000,000.

DIARY OF EVENTS

FIRST THINGS

SILVER FORKS.

The first mention of silver forks as articles of commerce is found in a London paper issued just a century ago today. Haydn says that silver forks had previously been used "only by the highest classes," and that they came into general use in England about 1813.

FAREWELL TO THE OYSTER.

Tomorrow will be the last day of April and since May hasn't an "r" to its name—the last day of the oyster season. The crop of the season is now "slumped" and the market is the best in years, but the demand more than kept pace with the supply.

THE NEXT BEST THING.

Medical Officer (at manoeuvres)—"What did you do first of all?"
Ambulance Man—"Gave 'em some brandy, sir."
Medical Officer—"Quite right; but what would you have done if you hadn't had any brandy?"
Ambulance Man (promptly)—"Promised 'em some."—Punch.

ONE ON FATHER.

SPRING CLEANING TRAGEDY.

Once had a sweet little pipe, boys,
The prettiest pipe in the world;
Its bowl looked so polished and brown,
Boys,
When from it the fragrant smoke curled,
But I lost my poor little pipe, boys,
When they Spring-cleaned the house one day.

ALLEGED BANK ROBBER
ASKS HABEAS CORPUS
Martin Powell Arrested in Con-
nection with Western Bank
Robbery, Appeals from De-
cision of Detroit Judge.

Powell was arrested in Detroit on
June 24, 1912, and efforts were im-
mediately made by the Canadian Govern-
ment to secure his extradition. Powell
was held in the Alamo Central station
in Detroit for a week, and endeavored
to obtain his liberty on a writ of Ha-
beas Corpus before Judge Tuttle. The
hearing of the appeal will probably
come up at the May term.

Police Court News
In the police court yesterday pre-
liminary hearing in the case of Arthur
Doyle and William Connel arrested last
week for breaking into the establish-
ment of Maurice Guss was resumed.
The officers Briggs gave evidence and
the hearing was adjourned till today
at 9 o'clock.

New Mission Hall.
The new Presbyterian mission hall
at East St. John, is to be opened on
Friday. In addition to the auditor-
ium for meetings there is in the build-
ing a gymnasium, reading room,
game room and library. The opening
proceedings will be on Friday after-
noon and conveyances have been ar-
ranged for those who wish to go.
A moving picture machine is a feature
in the equipment of the hall.

leges was one of the five men who
on Sept. 15, 1911, robbed the Bank
of Montreal at New Westminster, B.
C., of \$271,721, was filed in the United
States circuit court of appeals here
today.

CHEAP RATE TO BOSTON.
In connection with the visit to Bos-
ton to the National Boxing Tourna-
ment in May of Tom Barrett, of this
city and Young McDonald, of Sydney,
the Eastern Steamship Company an-
nounce a rate of \$7 for a ten day trip
leaving St. John on Saturday evening,
May 3, and returning Monday, May
12. Parties desiring of securing seats
at the Boston exhibition and wanting
other information about the trip
should confer with John T. Power.
It is expected some fifty or more
will go from St. John. The rate
offered by the Eastern Steamship Co.
is an exceptional one for a spring trip
to the Hub.

Baptist Ministers Met.
The semi-monthly meeting of the
Baptist ministers was held yesterday
morning in their rooms, Prince Wil-
liam street. Rev. W. W. Campbell,
president and the following were present—
Rev. Drs. McIntyre and Hutch-
inson and J. Archibald W. Camp,
Miss McCutcheon and F. S. Porter.
Following routine business a very in-
teresting paper was read by Rev. W.
Camp. The subject was on the theo-
logy of Christ and St. Paul, and dealt
with the fundamental doctrines of
faith.

Thin, Watery Blood Leads to a Break-
down in Health.
"Thin, impure blood is an invitation
to sickness. The blood should be
day and night to maintain the health
and any lack of strength or purity in
the blood is a weakness in the defense
covering. All the elements had to be
unloaded and the work of clearing the
truck was a long and difficult one.

SPORTS WANT A RACE.
Arthur Duffy, writing for the Boston
Post, says:
No yachting follower will be sorry
if the New York club decides to ac-
cept Sir Thomas Lipton's challenge
for this America's cup. There may be
some technicalities in the arranging
of such a contest, but what sport fol-
lowers want to see after all is the
real contest. From present indica-
tions everything looks brighter than
ever for another international con-
test. Let's have it and forget all
about petty squabbles.

OLD TRAINER DEAD.
New York, April 27.—John Mackey,
widely known as a horse trainer, and
long in charge of James B. Haggit's
notable stable of thoroughbreds, died
today in Brooklyn of heart disease. He
was born in Ireland 77 years ago, but
came to this country when a boy, and
passed the greater part of his life in
California.

Two Dollars Verdict.
In the Fairview court this morning
the case of Fred Williams vs. O. D.
Hanson came up before Stipendiary
Magistrate Allingham. The plaintiff
was suing for the sum of three dollars
for work done by him for the defend-
ant in September, 1910. After evidence
had been given by the plaintiff, his
mother and the defendant, the magis-
trate decided in favor of the plaintiff,
who was awarded two dollars.

Market Street Rentals.
Com. McLellan asked for authority
to adjust the rentals for casements on
North and South Market streets. He
said he had placed a valuation of \$15-
000 on the city's property in these
streets and felt they ought to get a
return of 6 per cent. He proposed to
charge parties using the full privileges
of the streets \$112 per foot of frontage,
and parties only having a back-
yard entrance 56 cents per foot. On
this basis there would be some changes
in present rentals. Macaulay Bros., for
instance, which were paying \$5 would
pay \$32; others such as the Elliot Hotel
would pay less. On North Market
street the rental had been \$150 per
foot; on South Market street there was
no fixed rate.
Last year the rentals were \$400; un-
der the proposed schedule the rentals
would be \$503.61.
The mayor said he would not vote
on the matter, being interested in pro-
perty on North Market street.
Com. McLellan was authorized to
carry out his plans.
Com. Agar moved that a notice be
published of the intention of the coun-
cil to pave Garden street between
Douglas Avenue and Adelaide Road; his
tender for Adelaide Road being \$4.50
per lineal foot for rock and 92 cents

Complaints of Blasts.
T. G. Boyd wrote, complaining about
the blasts set off in the night at Cour-
tenay Bay. He said he had sickness
in his family, and in his physician's
opinion it was imperative that the
blasting at night should be stopped.
The mayor said there had been com-
plaints from the county as well as the
city. For years the people had been
praying that harbor developments here
would be proceeded with, but there
was no doubt the blasting at all hours
of the night was a great annoyance,
and there ought to be some modifica-
tion of the blasting so as to confine it
to certain hours.

FINANCIAL AND COMMERCIAL NEWS AND COMMENT

CLOSING LETTER ON MONTREAL EXCHANGE

(F. B. McCURDY & CO.) Montreal, April 28.—This has been one of the dullist days on the local stock market in a very long time. In addition to being dull the market was weak. The cable brought C. P. R. in at a considerable decline as compared with Saturday's price, whether compared with the opening or the close Saturday. The cause of the weakness was undoubtedly the somewhat less desirable condition of affairs in Europe. Nothing very had taken place but it is said that Austria is about to carry out the coercion of Montenegro and while the powers are supposed to be quite favorable to the programme there seems to be considerable doubt as to new conditions which may thus be introduced. At any rate the upshot was that Berlin was a seller of C. P. R. and when this takes place the stock may be expected to decline. During the day here C. P. R. sold at around 240 early but in the afternoon there was some firmness in the stock and prices went to 241.

In the morning Montreal Power was weak in tone and prices were down around 226. There were almost no transactions in the stock, in the afternoon there was a little rally and the result was that Power advanced to 227 1/2. Cotton stocks were generally weaker today, this being the first day in a long time when this could be said.

Textile sold down to 86 1/2, whereas the other day it was up to 89. However, this stock is on the whole very firm and the condition of the market is satisfactory.

Canadian Cottons was also weak in the forenoon, and there was little demand for it. The price declined to 43 3/4. Later it recovered to 44. The Preferred, which was in such active demand only a few days ago, was not traded at all today and prices were also on the easy side, being 80 1/2 to 82.

R. & O. without being traded in to any extent displayed a weak tone, dropping off to 213 1/2. This stock is being very well spoken of again and one of the directors predicted recently that if the weather continues fairly warm this season the company will show profits of 20 per cent.

Steel Co. of Canada is showing weakness also, declining from 26 to 24 1/2. This stock was quite strong previously owing to a number of good showings made in the annual statement only recently issued.

For the first time since the recent decline set in the Corporation seemed to be in some demand. There was evidently some support of the stock quite a lot of buying starting in at 30. All the transactions of the day were at around that figure. There going to make a very encouraging statement for its iron and steel department.

Scotia did well today, selling up to 81 1/2, and as high as 28 1/4. The stock is being favorably affected by the attention being directed to it by the offering of the Debenture stock.

F. B. McCURDY & CO. NEW ADVERTISING OFFICES. F. Albany Rowlett Occupies Fine Offices in Tanager-Gates Building, 26-28 Adelaide Street, West Toronto.

This Company's new offices occupy the entire rear half of the fourth floor in the Tanager-Gates Building, and are very well fitted to accommodate the increased business which forced them to move.

Mr. Rowlett, whose experience in advertising work is long and varied, planned every detail of the office before construction, so that the result would be to the rapid and accurate transaction of business with least trouble and loss of time.

This move, which is the result of a rapidly increasing business, is particularly noteworthy because of the fact that Mr. Rowlett will not accept all classes of business, specializing only in the best class of commercial and financial advertising, and with his strict principles and high ideals of service and general business management, he has established a select list of satisfied clients.

NEWS SUMMARY AFFECTING MARKET

(F. B. McCURDY & CO.) New York, April 28.—An active operator is quoted to the effect that the market became more vulnerable through lack of banking support immediately after it was decided to postpone certain offerings of securities. Some investment circles are under- stood to favor conservative purchase of Gen. Alchison, Pease, N. Y. Central, and U. S. Steel on the favorable crop outlook.

It is claimed that foreign firms are buying considerable C. P. R., Union Pacific, Steel and other standard stocks for important local operators under arrangements to carry them abroad on favorable terms.

A prominent house says that the par value of Penna. stock will probably within a few years be the largest in the market, considerably exceeding that of U. S. Steel.

It is understood that banking interests anticipate some further shipments of gold to Canada and San Francisco. Foreign developments continue unfavorable. Peace or war now seems to be a matter of only a few days.

The naval division of the Austrian army took for Scutari with 10,000 troops. Austria threatens to take Montenegro unless powers take immediate action and force Nicholas to give up Scutari. Our bank statement was unfavorable. Erie telegraphers demand more wages, 1,300 are now voting on the question of a strike if their demands are refused. The big coal strike in West Virginia ends. Information channels favor profit-taking on all hard spots.

Professionals continue to maintain a bearish position, but prices are low and better absorption is found. NEW YORK FINANCIAL BUREAU.

WORK AND SUNBURY COUNTY HEIRS WON IMPORTANT SUIT. Fredericton, April 28.—Heirs in York and Sunbury county of the late Mrs. Lizzie Fee, Cambridge, Mass., have won out in an important law suit over contestants of her last will devising her estate over \$25,000.

Mrs. Fee, it was remembered, came to her death by falling out a window at her home and she by her will bequeathed the bulk of her estate to her relatives in this province.

The estate was appraised as follows: Real estate, \$10,500, and personal estate, \$16,500, consisting of deposits in banks. Under Mrs. Fee's last will, dated March 4th, 1912, she bequeathed a number of legacies and nephews/daughters amounting to \$19,100, including two bequests of \$1,000 each to nephews named Whitaker, residing at Huisagornish. The residue of the estate she wished to have divided equally between her brother and sister, Mrs. Edward James, of Tweedside, and Mrs. Oakley, of Huisagornish.

The will was approved in due course but an appeal was taken by Mr. Ellis, a Boston lawyer, to whom Mrs. Fee had left quite a large sum of money by a former will, on the ground that Mrs. Fee was not of sound mind and memory when she made her final will and the case was sent down for a hearing on appeal before a judge and jury at Cambridge, Mass., on April 15th. Mr. Ellis, however, abandoned the case when the time for hearing arrived and the executors appointed by her last will are now in possession of the estate.

Mr. Ellis was formerly the attorney for Mrs. Fee and also for her deceased husband, but for some reason or other, she dismissed him and employed Mr. Henry W. Durant, of No. 69 State street, Boston, while Mr. H. R. Rainsford, of this city, looked after the legacies in New Brunswick, acting with Mr. Durant, Mr. James and Mrs. Oakley as well as the other beneficiaries residing at Huisagornish and Tweedside are to be congratulated on the successful issue of the contest.

MRS. WILLIAM K. VANDERBILT, SR. Mrs. William K. Vanderbilt, Sr., who is internationally famous as a philanthropist because of the bridge of the railroad magnate in London ten years ago today, Mr. Vanderbilt's first wife was Alva Murray Smith, of Mobile, Ala., who is now Mrs. O. H. Belmont, the suffragist leader.

BRITISH JOURNALIST HERE WILL WRITE UP PROVINCE

Leo Scheff in St. John, Commencing His Third Trip Through Canada in interests of British Newspapers—To Spend Several Weeks in New Brunswick. Leo Scheff, F. R. C. I., the prominent British journalist, is in the city staying at the Royal. Mr. Scheff is here commencing his third trip through Canada, as the representative of such well known newspapers as the London Daily Graphic, the Manchester Guardian, the Glasgow Herald, Lloyds Weekly, The Mark Lane Express, the leading agricultural paper of Britain, the Hull Daily Mail, and several other influential journals. As the result of his last visit articles on New Brunswick appeared in all these papers, while the London Daily Graphic published a full Canadian supplement, profusely illustrated, showing the vast natural resources of Canada.

Mr. Scheff is very enthusiastic in his work, and his articles have undoubtedly brought home, in an unobtrusive fashion to the people of the old country, the numerous opportunities and vast natural wealth of Canada. In the Canadian supplement of the Graphic Mr. Scheff, under the caption "The Magnetism of Canada," tells of the wonderful grip which the country has for all and of the commercial advantages. He also deals in an able manner with the mineral wealth of the country and gives an accurate description of its beauties.

Future is Very Bright. Speaking to The Standard last evening Mr. Scheff expressed the opinion, which he pointed out was founded on close observation, that the future of Canada was bright indeed. Speaking of New Brunswick, he stated that the climate and soil better fitted the old country farmer than the western provinces, and felt that the lure of the west was gradually diminishing with the result that New Brunswick would soon get a large share of the British immigration in the different papers," said Mr. Scheff, "have reached over 18,000,000 people, and of this a fair per cent. would make good in this province. In the Mark Lane Express, the leading British agricultural paper and the official publication of the west was gradually diminishing with the result that New Brunswick would soon get a large share of the British immigration in the different papers," said Mr. Scheff, "have reached over 18,000,000 people, and of this a fair per cent. would make good in this province.

RAILROAD MAN HAD TO LAY OFF Until He Took GIN PILLS. "I have been a Pullman conductor on the C. P. R. and Michigan Central for the last three years. About four years ago, I was laid up with intense pain in the groin, a very sore back, and suffered most severely when tried to urinate. I treated with my family physician for two months for Gravel in the Bladder but did not receive any benefit. About that time, I met another railroad man who had been similarly affected and who had been cured by GIN PILLS, after having been given up by a prominent physician who treated him for Diabetes. He is now running on the road and is perfectly cured. He strongly advised me to try GIN PILLS which I did—with the result that the pains left me entirely."

FACTORY GIRL GIVES UP Too Sick to Work—Doctor Advised Operation. Restored to Health by Lydia E. Pinkham's Compound.

Poughkeepsie, N. Y.—"I run a sewing machine in a large factory and got all run down. I had to give up work for I could not stand the pains in my back. The doctor said I needed an operation for female trouble but Lydia E. Pinkham's Vegetable Compound helped me more than the doctors did. I hope that every one who is suffering will get the Compound. My pains, nervousness and backache are gone and I have gained five pounds. I give my thanks to your medicine for it is the working girl's friend, and all women who suffer should write to you for special advice."

When a remedy has lived for over thirty years, steadily growing in popularity and influence, and thousands upon thousands of women declare they owe their very lives to it, is it not reasonable to believe that it is an article of great merit?

We challenge anyone to show any other one remedy for a special class of disease which has attained such an enormous demand and maintained it for so many years as has Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GREAT PITCHER AND FAST PLAY IN GIANT-PHILLY GAME.

LUDERUS OUT AT THE PLATE IN THE NINTH INNING

Herein is shown "Tom" Seaton, the brilliant young pitcher of the Philadelphia National League team, who has been going like a house on fire since the season opened. His three shutouts of the Brooklyn and his thirteen lining tie with the Giants stamp him as one of the best pitchers in the big show.

To the left of the young pitcher is shown a close play at the plate, wherein Luderus, the hard hitting first baseman, is blocked and touched out, just depriving his side of a victory.

SCENES PICTURED AT THE RECENT SERIES BETWEEN THE VICTORIOUS WASHINGTON TEAM AND THE YANKEES

SPORTOGRAPHY BY "GRAVY"

Whitney, Polo Leader, is 41 Today—Ferguson is 25 Years Dead.

Harry Payne Whitney, who is a member of most of the fashionable sporting clubs of North America, and a number in Europe, will celebrate his forty-first birthday today. In any event, there are no good polo ponies available in John Bull's island, for the Duke of Westminster has had for over a year an option on every pony worth having in England. English followers of the game have repeatedly declared that the failure of Capt. Harcourt Lloyd's team to get the cup two years ago was due to poor mounts. The Duke of Westminster, in the capacity of "angel" to the team, will send eighty ponies to America next month, and from that number carefully picked nags the English team should certainly be able to choose good mounts. Mr. Whitney exercised

alleged that Mr. Whitney's last visit to England was for the purpose of recruiting more mounts for the American team, but this has been denied. English followers of the game have repeatedly declared that the failure of Capt. Harcourt Lloyd's team to get the cup two years ago was due to poor mounts. Mr. Whitney exercised

a careful supervision over the breeding and training of the ponies used in previous matches by the American team, and, it is said, will place his dependence in the mounts which carried the American four to victory in 1911.

Today is the twenty-fifth anniversary of the death of Charles J. Ferguson, who was the Christy Mathewson of his day, and, in the opinion of old fans, one of the greatest pitchers in the history of the National League.

THE VIC. ROLL-OFF.
H. Norris, with a score of 96, won the roll-off on the Victoria alleys last night. The prize was a three B. pipe.

YOUNG PITCHING WONDER.
Greensborough, N. C., April 28.—Ray, an 18 year old boy, signed by Winston-Salem, in the Carolina League, today pitched a no-run, no-hit game against Durham. The youngster also exhibited perfect control.

AMERICAN, NATIONAL AND INTERNATIONAL LEAGUE RESULTS

NATIONAL LEAGUE.

Chicago, 8; Pittsburg, 5.
Chicago, Ill., April 28.—Chicago moved into first place in the National League today by defeating Pittsburg, 8 to 5, in the final game of the series, while New York was prevented from playing by wet grounds. The game was more or less a farcical exhibition with each team contributing toward this end.

Pitcher Hendrix could not find the plate in the local half of the eighth and after walking two men, was forced to retire in favor of Adams, who also was wild. Pitcher Toney, in three times at bat, made two singles and a triple. Simmerman, the regular third baseman for Chicago, injured his leg in yesterday's game against Pittsburg in sliding to a base, and was unable to play. It may be several days before he will be able to take up his regular position.

INTERNATIONAL LEAGUE.

St. Louis, 7; Cincinnati, 5.
St. Louis, Mo., April 28.—St. Louis won today, 7 to 5, taking three out of four games from Cincinnati. Cincinnati started off well scoring three runs in the first.

In St. Louis' half of the first, St. Louis bunched hits with bases on balls off Powell, and Works, scoring four runs. Huggins walked, took second on Smith's balk, and scored on Kenethy's single in the second.

Sallee's single, a sacrifice, a base on balls, a wild pitch, and two singles, scored two for St. Louis.
With two out in the ninth, Cincinnati scored on Becher's single, a steal of second and Becker's third single.

INTERNATIONAL LEAGUE.

Baltimore, Md., April 28.—The Birds and Bisons played a tenning tie today. The game was marked by the wild exhibition of all the pitchers. Eleven bases on balls were given and three batters were hit. The Bisons had the game well in hand with a lead of seven runs, but the Orioles came up from behind and tied the score. Manager Clymer may protest the game, claiming that Frill should have been allowed to score in the tenth on a passed ball which he claimed hit the grandstand. The score: Baltimore 0010500100—7
Buffalo 3040000000—7
(Called account darkness.)
Batteries—Danforth, Johnson, Roth and Egan; Holmes, Frill, Stephens and Lalanne.

Above was the only International game played today.

STRAND USES DRY SPIT BALL

PAUL STRAND

Paul Strand is the giant school-boy of Spokane that the Boston Red Sox plucked, sight-unseen, for \$5,000 on him. As an afterthought, they had a scout look him over and later refused to take him.

Strand was then traded to San Francisco, then back to Spokane, where he went so well that the Boston Nationals drafted him. He has the distinction of being on both the Boston teams without having had a chance to show.

His new delivery, called the dry spit ball, is still in the experimental class, but he expects to spring it on the big league soon.

VICKERS WITH SYRACUSE.

Syracuse, N. Y., April 28.—The Syracuse New York state league baseball club has purchased Rube Vickers, who pitched last season for the Baltimore team of the International League.

Jones and Rice have not decided just how they will spend their time between now and the elimination matches to be played in New York on June 6, 7 and 8, but they will practice in a number of local matches.

TENNIS CHALLENGERS ARRIVE.

San Francisco, April 27.—Two of the Australian challengers for the Davis International Tennis Trophy arrived here today aboard the Ventura from Sydney. They are Horace Rice and A. B. Jones, both veterans.

Maurice McLoughlin, the American national singles champion, met the Australians at the pier. Jones and Rice have not decided just how they will spend their time between now and the elimination matches to be played in New York on June 6, 7 and 8, but they will practice in a number of local matches.

THIS DATE IN RING ANNALS

April 29.
1908—Johnny Cullen defeated Tommy South in 5 rounds at Waukegan.
1911—Jim Smith defeated Dummy Maxon in 2 rounds at New York.
1912—Young Dyson and Benny Kaufman fought 15-round draw at New Bedford.
1912—Johnny Dundee outpointed Charley White in 10 rounds at Syracuse.
1912—Mike (Twin) Sullivan defeated Harry Wuest in 10 rounds at Cincinnati.

HAS DARK HORSE.

Boston, April 27.—Friend Bowie, the well known follower of the athletic game, claims that there is an unknown, all-round performer across the border who would make Jim Thorpe look like a raw amateur in an all-round contest. Bowie refuses to divulge his name, but will back him against the Indian, if Thorpe will consent to take him on.

Is Now in Hotel Business.

Harry Brown, who, some years ago, was representative of the International Correspondence School in this city, has taken over the St. Regis Hotel in Amherst. Mr. Brown is very popular with the travelling public and his many friends will wish him success in his new venture.

A Hint.

Mr. Spriggins (tearfully)—"My dear a Boston man was shot at by a burglar, and his life was saved by a button which the bullet struck."
Mrs. Spriggins—"Well, what of it?"
Mr. Spriggins—"Nothing, only the button must have been on."

AUTOMOBILE RECORD LOWERED.

Bakersfield, Cal., April 28.—Barney Oldfield lowered the world's one mile dirt track automobile record today at the new \$100,000 race track here. He cleared the course from a flying start in 46 2/5 seconds. The former record was established at Brighton Beach, Sept. 7, 1912, when Oldfield made the mile in 47 4/5.

FOREIGN NEWS TOLD IN BRIEF

Labor Leader Arrested for Inciting Riot—Peace Congress Opens in Washington this Week—Declines a Throne.

New Use for Thermometer.
New York, April 28.—Bretella La Main, trained nurse, hurrying home at dawn today after attending a patient, was accosted by three young men. Whipping from her handbag a thermometer, she pressed it against the back of one of the annoyers and cried "Hands up!" The other two fled. Miss La Main marched the prisoner to a police station in front of her imaginary revolver and had him locked up. He said his name was Christopher Lowe, a chauffeur.

Labor Leader Under Arrest.
Paterson, N. J., April 28.—Wm. D. Haywood, leader of the Industrial Workers of the World, was arrested at Passaic today on his way here from New York to surrender himself under an indictment charging him with inciting riots among the silk mills strikers. Ten thousand strikers had gathered at the Erie railroad station here this morning to meet Haywood and witness his arrest and escort him to jail. Fearing a disturbance if the arrest were made here, the sheriff went to Passaic this morning and took a wood of the train that was due here at 10.02. The strike leader had announced that he was ready to surrender himself and he accepted arrest calmly. He was brought here from Passaic by the sheriff in an automobile. His friends announced that Haywood's bail bonds were prepared and they expected his speedy release.

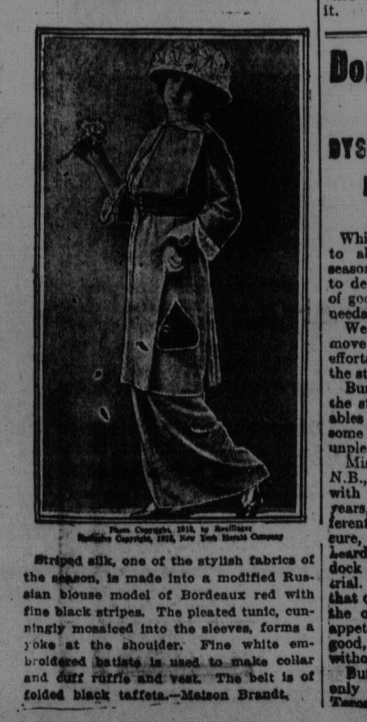

Declines Throne of Albania.
Paris, April 28.—The Duke of Montpenier, in a letter to a member of his family, announces that he has formally resolved to decline the throne of Albania because if he accepted he would lose the two titles he was proudest of today, French citizen and a French Prince.

Kindergarten Convention.
Washington, April 28.—Teachers of children from the English-speaking countries of the world, and arriving here for the twentieth annual convention of the International Kindergarten Union, Miss Mabel S. McKenney, of Brooklyn, president of the Union, and Miss Alice Temple, of Chicago, its vice-president, already are here. President and Mrs. Wilson will receive the delegates at the White House on Wednesday afternoon.

Council for Dreyfus Coming.
New York, April 28.—Maitre Labori, the French advocate, who was leading counsel for the defence in the Dreyfus trial at Rennes, and is now attorney of the Paris bar, has today advised George Whitelock, secretary of the American Bar Association, that he will attend the meeting of the association at Montreal, and speak in French at the annual banquet on September 3, at which Senator Elihu Root, of New York, is to preside. Lord Haldane, Lord Chancellor of Great Britain, is to deliver the principal address at the meeting.

Peace Congress This Week.
St. Louis, Mo., April 28.—Advises received by the committee in charge of local arrangements indicate that the fourth American Peace Congress, which is to be held forth in St. Louis the latter half of this week, will be the largest and most representative gathering of peace advocates ever held in the western world. Eighty separate organizations, all of which aim to bring about the substitution of arbitration for war in the settlement of international disputes, will participate in the congress. The sessions of the congress will begin Thursday and continue until the end of the week. On the day preceding the opening of the congress, the delegates will take part in elaborate exercises attending the dedication of the Jefferson Memorial. This memorial, erected at the edge of Forest Park at a cost of \$500,000, is to commemorate the Louisiana Purchase, the greatest acquisition of territory in the history of the world.

ALBERT NEWS

Albert, April 28.—The friends here of Mr. Albert Brooks of De Kalb, Ill., regret to hear of his serious illness in a hospital in Chicago with slight hopes of recovery.

Rev. Thomas Stebbings held special services last week in the Methodist church at Hopewell Hill. This week he is assisting the Rev. A. D. McCully at Curryville.

Rev. J. M. Love preached his farewell sermon yesterday to a large congregation. Four new members were received into church membership by letter. Mr. Love's friends regret his departure and wish him every success in his new field.

Miss Frances Rogers entertained very pleasantly about thirty of her young friends on Saturday evening. Games and music were indulged in and dainty refreshments were served.

The young son of Mr. and Mrs. Eben Steeves is recovering from a serious illness under the treatment of Dr. S. C. Murray.

The community was shocked on Saturday morning to hear of the sudden death of Mrs. Joseph Bishop of Harvey. The deceased was formerly Miss Ethel Beals and was twenty-two years of age. She leaves a husband and young child, also her mother, Mrs. Tobias Mealey, now residing in Portland, Me. Dr. T. E. Bishop, of St. John, was a brother-in-law. The funeral will take place from her late residence on Tuesday afternoon.

The first thunderstorm of the season arrived last night. Fortunately for those in this vicinity who had such terrifying experiences last year, it was not severe.

SUCCESS OF SACKVILLE MAN.

Sackville, April 28.—Mr. Pettick, agent of the Bank of Nova Scotia in this place, has rented a house owned and occupied by Mrs. Ernest Anderson in the part of Sackville called Salem. This gentleman is a brother of Mrs. Sampson, wife of the Rev. W. H. Sampson, of St. George's church, St. John, and a former student of the Ladies' College, Burnham Bowers, who went from Sackville to British Columbia several years ago to look after some property of which is father, the late William Bowers, was reported, in the absence of a will, to be the legal inheritor, is expected to return to Sackville about the last of the month. The property he went in search of proved to be non-existent, so without giving way to professed disappointment, he set to work building houses, speculating in real estate, etc., and is reported to be coming back to Sackville a richer man than when he left it.

Don't Diet Yourself TO DEATH TO CURE DYSPEPSIA OR INDIGESTION. IT ISN'T NECESSARY.

While it is necessary for the dyspeptic to abstain from rich, greasy, highly seasoned food, it is useless and injurious to deprive the sufferer of a full supply of good nutritious food sufficient for the needs of the body. Weakening the body will never remove dyspepsia, on the contrary, all efforts should be to maintain and increase the strength. Burdock Blood Bitters will increase the strength, and at the same time enables one to partake of all the wholesome food required, without fear of any unpleasant results. Miss Martha A. Brooks, Gagetown, N.B., writes: "I have been troubled with indigestion for more than seven years, have tried several doctors and different medicines, claiming the power to cure, but I cannot eat most everything. I have heard of the many cures effected by Burdock Blood Bitters, I decided to give it a trial. I have taken only one bottle, and that one has done me more good than all the other medicines I have used. My appetite, which was very poor, is now good, and I can eat most everything without any disagreeable feelings." Burdock Blood Bitters is manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

PROVINCIAL PERSONALS.

Warren Davidson, who a few months ago was transferred from the Bank of Nova Scotia at Newcastle to the bank in Hampton as teller, has again been transferred from Hampton to Florenceville.

Miss Alice Harrison, daughter of the Rev. Dr. Harrison, of Newcastle, has accepted a position as organist of the Presbyterian church in Summerside, P.E.I., and will leave in short time to begin her duties as organist on Sunday, May 11th. While here, Miss Harrison has been organist at the Methodist church and has made many warm friends in town during her stay.

Mayor Tweedie left for Ottawa on Thursday, and will be gone a few days.

Mrs. Jas. Steeves, of St. John, N.B., is spending some time here, and is staying at the Windsor Hotel.

N. B. Read, of the Bank of Nova Scotia staff, Summerside, has been transferred to St. John and left for that place a few days ago.

Clifford West, of St. John, was in town on Tuesday the guest of his father, H. A. West.

Miss Naa Rowley, of Marystown, left for St. John yesterday where she will remain until her parents remove there.

WOMEN'S MISSIONARY SOCIETY.

Sackville, April 26.—The annual branch meeting of the Women's Missionary Society of New Brunswick and Prince Edward Island will be held in Sackville on June 4-6. A large attendance is expected, over ninety delegates having already reported themselves with more probably to come. During their presence in Sackville these ladies will be largely entertained in the homes of the citizens of the town. Dr. Campbell expects to accommodate some at the Ladies' College, and some for the night at the Sackville Hotel. Some will be unable to provide at their homes will be located at the Sackville Hotel.

The very warm weather of the past week came on as a surprise to the farmers, but they are taking advantage of it. Oats and other grains are being sowed in this district.

The dog poisoner is at work, two valuable dogs died last week owned by W. A. Jones and J. B. Armstrong. Word was received here Saturday evening announcing the sudden death of John M. Ryan in St. John. This being his native place, many were shocked by the news.

E. C. Weyman of St. John spent Sunday at his home here.

Miss Gertrude Allen of Moncton is the guest of Misses Sinnott.

SUIT FOR DIVORCE.

Woodstock, April 28.—Walter L. Parlee, of Jamaica Plain, has filed a divorce libel in the Superior Court against Mrs. Georgia L. Parlee, whom he claims deserted him at Carson Mills, N. B., a few weeks after marriage. He says they were married in Sussex, Jan. 9, 1906, and that his wife left him two weeks later.

Health and Beauty Aids

BY MRS. MAE MARTYN.

Bestie: I have constantly advised against the use of hair-bleaches and dyes.

Clara: I think you are foolish to use a hair-bleach, faded or discolored surface skin may be gradually absorbed, in an entirely safe and rational manner, by the steady application of a good eye-cream. With a week or two of the underlying skin, youthful and beautiful to behold, has taken the place of the discarded cuticle. So little of the old skin is absorbed each day there is no inconvenience at all, and no one suspects you are putting anything on your face. The mottled wax, procurable at any drug store (an ounce is sufficient), is applied like cold cream. In the morning it is erased with soap and water. It's the best thing known for freckles, blackheads, pimples, moths patches, liver spots and fine surface wrinkles.

For the deeper wrinkles an excellent recipe is: Powdered saxolite, 1/2 oz., dissolved in 1/2 pt. with hazel nut-oil, 1/2 pt. Put in a glass jar, and shake frequently. For the purpose of producing quick and wonderful results.

Dora H.: Buy a small, original package of pyroxin and with finger put some on eyebrows occasionally. This makes them grow thick and silky. Stubby, straight eyelashes will come in long and curly if pyroxin is applied to the roots with the thumb and forefinger. Use care so as not to get any where. No hair is wasted.

Young wife: Don't be discouraged. A delicate paste will dissolve those hairs and leave the skin smooth and clear. Just get a small, original package of delatone from your druggist and make sufficient paste with the powder and water to cover the hairs. Apply and after 2 or 3 minutes remove and wash the skin. This is an unflinching remedy.

Forence E.: To prepare a complexion-beautifier that will make the skin soft, white and smooth, put 2 teaspoonfuls of glycerine and 4 ounces of spumax in 1/2 pint of hot water or witch hazel and let stand until cold. Apply to the hands, forearms and face with the palm of the hand and continue rubbing the skin where applied until dry. Unlike powder, when on it seems part of the skin and does not rub off. Several of my friends have told me that this spumax wash is particularly effective for the removal of blemishes and pimples. To get rid of a pint of alcohol. To these add 1/2 teaspoonful of sugar and put into 1 1/2 pints of boiling water. This makes an excellent system- tonic that purifies the blood and arouses the liver to healthy action. Take 1 tablespoonful 5 minutes before each meal and before retiring.

Naomi: Don't worry about your condition. Nearly every person needs a blood-purifier, and this makes an excellent system- tonic that purifies the blood and arouses the liver to healthy action. Take 1 tablespoonful 5 minutes before each meal and before retiring.

Mrs. M. B.: No doubt glasses spoil your looks. Probably you wear none, no need to wear glasses if you would

ST. JOHN'S BUSINESS GROWING TOO RAPIDLY FOR FACILITIES

Meeting, Last Evening, To Consider More Accomodation

STATEMENT OF CASE WILL GO TO OTTAWA

Committee Representing Interests will Prepare Memorial — St. John's Case Similar to Montreal's—No Blame Attached to Government.

An Evidence of Congestion at Sand Point This Winter

At the public meeting held last evening under the auspices of the Board of Trade, was appointed to draw up a full statement of the situation here and have it forwarded to Ottawa for presentation to the government and members of parliament.

After the meeting was called to order by J. Robinson, a number of pictures showing the congested state of the shipping at Sand Point at times during this winter were thrown on a screen. As an illustration of the overcrowding, Mr. Downie, general superintendent of the Atlantic division of the C. P. R., mentioned that the steamer Montfort after landing her passengers had to go outside for a day, and on coming into port again was shifted six times, causing an expense of \$350.

West, and that they might induce the government to convert North Rodney wharf into a concrete pier, available for steamers and schooners. The government might also straighten No. 1 berth.

All were interested in the Courtenay Bay developments. But expenditures there should not delay developments at Sand Point, as it was a question of handling the business of the whole country.

The C. P. R. View.

Wm. Downie, superintendent of the Atlantic Division of the C. P. R., said that the principal congestion occurred between the middle of March and the first of May. During the first part of the season the accommodation had been fairly satisfactory. But the great amount of attention directed to points where there was no traffic, or would not be any traffic for five years, had tended to divert interest from the West side, where in the matter of port development they were about five years behindhand. Imports and exports through St. John were increasing rapidly, so rapidly that it was safe to predict that the volume of traffic would be doubled in the next five years.

Government is Alive.

He thought the government was alive to the situation, and ready to do everything in reason for the port. Talking with Mr. McClure, the engineer of the Public Works Department, I asked him if he was really familiar with conditions in St. John. Mr. McClure looked shocked. "Why," said he, "there is nothing in this office from morning to night that hasn't to do with St. John."

Would Close West Channel.

Capt. Gillies, Marine Superintendent of the Donaldson Line, thought that in order to protect the new wharves being built, the West channel should be closed up, as the new wharf would not be a safe place for steamers without protection from the sea. He agreed with Com. Schofield that by extending No. 6 berth up towards Union street, accommodation could be provided for small steamers.

He also observed that grain conveyors Nos. 6 and 7 would relieve the situation, but thought a change for loading grain would tend to drive that business to the free ports of the United States.

Mr. Downie said the C. P. R. would have additional yard room for 300 or more cars next winter, and would be able to deliver or receive freight with greater despatch.

It Indicates Growth.

H. B. Schofield, commissioner of harbor, said the condition at Sand Point was not a thing to get excited about; it showed a healthy growth of the trade of the port. But it showed also that there was need for those responsible for the development of the port to put their shoulders to the wheel, and hasten these developments.

Interesting Statistics.

Mr. Downie then presented the following figures of the winter port business handled by the railways during the past five winters.

1907-8	84,425 tons	349,205 tons
1908-9	83,768 tons	353,100 tons
1909-10	121,296 tons	366,948 tons
1911-12	135,040 tons	395,378 tons
1912-13	179,256 tons	467,829 tons

Everybody Got Together.

Percy W. Thomson said there was no question of criticizing the government, the city or the C. P. R. What was wanted was everybody to get together and work for a better port. He thought the west side channel should be closed, but that the extension of No. 6 berth would help the situation.

He emphasized the need of having the government make over to the city the contractors to complete the wharf this year. By the contract the walls of the wharf had to be completed by December, but then there was filling in to do and sheds to put up.

Accidents in the West End

Four Yesterday Afternoon and Evening — Man Struck by Shunting Engine — Lad Breaks Limb while Playing

There were no less than four accidents on the West Side yesterday afternoon and last night and some of them were rather serious.

During the afternoon James Bradshaw, of Fairville, while working at Longshore work on the steamer Mount Temple, was struck by a heavy iron girder and knocked down. Dr. Neve was summoned and found that Bradshaw had three ribs broken. After receiving attendance he was removed to his home in Fairville.

A young son of George Waring, the superintendent of ferries, was playing near his home on Queen street early last evening and while trying to climb a flag pole the pole toppled over on the boy breaking one of his legs in three places. Dr. Neve was called and after setting the broken limb, the little fellow was removed to the hospital.

Last night William Lahey, an employe on the new elevator being built at Sand Point by the Metcalfe Construction Company, had a narrow escape from being killed. He was walking along the track when he was struck by a shunting engine and thrown over the embankment to the beach below. He was picked up and assisted to the company's boarding house. Dr. Neve was summoned and found that beyond a severe shaking up Lahey was not seriously injured. He is expected to be about to-morrow but is feeling quite sore from a number of bruises received.

Three sailors from the steamer Mount Temple who had been on the East Side were returning to their ship about 10:30 last night and on leaving the ferry they started to walk from the sidewalk on Rodney wharf to the side of the wharf near the Street Railway track when the three were knocked down by a horse and carriage driven by Hunter British. Two escaped injury, but one named Perry, was run over by the team and rendered unconscious. He was carried into the ferry toll house near the scene of the accident and Dr. Neve was called. He found that one of Perry's legs was quite badly injured and he was spitting blood. After receiving attendance Perry was revived and was assisted to the steamer Mount Temple by Policeman Dykeman. It is thought that he is seriously injured but he was quite badly bruised.

Situation Next Winter.

In regard to the situation next winter the extension of the outer C. P. R. wharf would give 325 feet of extra wharf frontage, but he did not think the south side of the new wharf would be available, as it would not be protected from the sea.

The commissioner said something could be done to meet the situation by building a warehouse at the head of No. 6, and berthing small steamers there, while business could be facilitated by running grain conveyors to No. 6 and No. 7 wharves.

He did not, however, think the city should spend any more money on harbor development. In spite of the big traffic this winter, the city would have to face a shortage of \$12,000 on its investment in harbor facilities. Ninety per cent. of the traffic represented the trade of Canada; only 10 per cent. was local business.

In view of these facts he felt the government or the C. P. R. should provide any extra facilities needed. The large number of dredges in port which had to have berths added to the congestion.

Montreal Congested Too.

Senator Daniel, who was present, was asked to speak. He said the fact that the port was congested was the best evidence that the trade of the port was growing in a satisfactory manner. As a matter of fact the trade of the whole country had been growing faster than those responsible for handling it had provided facilities. For some years there had been talk of freight congestion on the railways. In Montreal, where they had an enterprising harbor commission the same complaint was made, and the situation in St. John proved that its business was keeping pace with the growth of the business of the country generally.

AN ECHO FROM THE BLAST YESTERDAY

One "Victim" Struck by Brick Rapidly Grew Worse Until His "Injuries" were "Attended to".

When the blast set off at the site of the new post office created consternation on Prince William street yesterday morning, a flying brick hit a bystander. Whereat the bystander laughed, and showed no signs of injury. Alarmed, the superintendent in charge of construction came running out, anxious to find out how much damage was done and what was likely to be the site of the damage suits. Going to the man hit with the brick, he invited him to his office to inspect his injury.

"Oh, I'm not hurt," said the victim.

"But I'd like to make sure," said the boss.

A look of enlightenment overspread the face of the victim, and he started to follow the boss, growing lazier as every step. By the time he got to the boss's office he had to be helped through the door. But not long after he was able to come out and walk off with a brisk and cheerful buoyancy.

This story will explain why all yesterday afternoon there was a crowd of people on Prince William street, including stockbrokers, ex-aldermen

Suggests Taking Over Harbor.

Mayor Frink said that North Rodney slip had been dredged to the same depth on both sides; but he did not think the slip could be dredged and made available this winter without the collapse of the street railway tracks. He said the cardinal point in the situation was to get the government to take over the city's wharf properties, and assume the responsibility for the whole harbor. At the same time he felt that the city might bid for wharf work, which they could carry it on as fast as possible.

May Remove Ferry Slip.

He said that in the future the ferry slip might be removed to Kings road, and prominent citizens, apparently intent on watching the blasting operations at the post office. Perhaps they all had a hope that they, too, would get hit with a brick.

The great fire sale going on at F. A. Dykeman and Co. is proving the biggest trade puller that their store has ever known. They acknowledge that their staff was inadequate to cope with the crowd but they have done the best they could under the circumstances. Of course there is a reason why crowds continue to come and it is found in the extremely attractive and stylish new garments. Now is the time to buy.

United States Crest on Barbers' Motto

Criticism Regarding Adornment on Journeymen Barbers' Association Cards in Barber Shops.

The neat little gilded frame, bearing the motto of the Journeymen Barbers' Association, which has made its appearance in the local barber shops, has given rise to comment and criticism on the part of the public.

"The idea of having the appearance of the journeymen's motto, that contains a United States coat of arms should adorn the walls of barber shops," said he, "for, if we stamped our customers, they would probably put up a strong kick."

The criticism that comes from the people, however, is as to the appearance of the journeymen's motto, that contains a United States coat of arms should adorn the walls of barber shops, in the city they believe to be improper.
