MORE TROOPS OF THE U.S. IN FRANCE

Men Land Amid Frantic Cheers of People—Will Soon Go to Point Near Front.

A French seaport, June 27.—The second contingent of American troops arrived and disembarked this morning. The troops landed amid the frantic cheers of the people who had gathered for hours before in anticipation of duplicating yesterday's surprise.

Enthusiasm rose to fever pitch when it was learned that the transports and convoys had successfully passed the submarine zone. The port was speedily betagged in honor of the occasion.

All the troops now arrived were transferred today to a camp not distant from the port, where Major General William L. Sibert is installed. Thence they probably will go soon to a point near the front. All the troops are in excellent shape, enthusiastic over the successful trip and their reception, and eager for action.

Major-General Pershing, the American commander, is expected tomorrow. The harbor is dotted with convoys. The streets are filled with soldiers in khaki and with bluejackets. Great numbers of trucks are transporting immense supplies to the camp in which the troops are concentrating.

THE GERMANS TENACIOUSLY HOLD AVION

Canadian Patrols Unable to Dislodge Them from Village.

ARE TRAINING BIG GUNS ON TEUTONS

British Discover Tom Longboat When He Wins Big Race.

Canadian Headquarters in France, June 27, via London.—(By Stewart Lyon, special correspondent of the Canadian Press)—The enemy clings tenaciously to Avion. He gave up his trenches, which were on a slope leading up to the village, a little over a quarter of a mile from the first house, only under strong compulsion. They were dug in close, and our artillery observers had no difficulty in seeing the effect of every shell dropped in them. His new line is immediately in front of the most westerly row of houses in Avion. It is connected with cellars and dugouts in the village, to which the occupants can retire when heavily shelled.

Strong Canadian patrols were sent out during last night along most of the front to learn something of the conditions in this trench line. They found it strongly held by the enemy, and were unable to enter his defence. Our heavy artillery has once more taken up the work of destruction. When it is rendered untenable the defenders of Avion will have but one shot in their locker.

Marsh Land Flooded. Between Avion and Lens there is a considerable stretch of marsh land along the Souchez. This has been flooded, and wire entanglements have been constructed on the eastern side of the flooded area. North of the river, during the night, enemy posts were raided by the English Midland troops, and a number of the enemy were killed and taken prisoners. There, as in the south, the German new line is strongly held.

Sports held by the army with which the Canadian corps is connected resulted in a football success. Longboat, the famous Canadian Indian runner, in a three-mile cross-country race Longboat romped home well in advance of some of the most famous British and Canadian runners without even extending himself. He had a great reception from his regimental comrades.

British Statement. London, June 27.—The official report from British Headquarters in France tonight reads: "A hostile raiding party was repulsed early this morning north of the front after sharp fighting, in which the enemy suffered considerable loss. "Much successful work was accomplished by our strippers yesterday. In the air fighting five German machines were brought down. Two others were driven down out of control. In addition, one hostile machine was shot down by fire from the ground. None of our airplanes is missing."

N.B. LIBERAL SPEAKS FOR COMPELSION

Member for Carleton Will Join Gen. McLean of Queens-Sunbury.

REGRETS TO DIFFER WITH SIR WILFRID

Hon. William Pugsley Left in Serious Predicament by His Friend.

Special to The Standard. Ottawa, June 27.—Curiously enough it fell to Frank B. Carvell, member for Carleton, N. B., to administer today's jolt to the Laurier party and its measure introduced by the Borden government and designed above all things to give aid to the boys at the front.

Mad His Fling. True, Mr. Carvell had his fling at alleged graft, he contended that his measure introduced in the manner in which the government had administered the war, he said that partisanship had been rampant all over the country, particularly the province he knew best, New Brunswick, but with all that he declared that the question of the day concerned itself with events of the present and future and not of the past. The Prime Minister had said that Great Britain wanted more men and that the only way they could be secured was by a measure of compulsion. "That was enough for the member for Carleton, who declared amid loud applause that he would not take the responsibility of opposing such a bill and voting for the Laurier amendment. Generally the Carvell speech was delivered to a silent house. It is true that whenever he uttered a word of criticism of the government Mr. Pugsley thumped his desk vigorously but Carvell declared amid loud applause that he would not take the responsibility of opposing such a bill and voting for the Laurier amendment. GERMAN ALLIES ATAIN FURTHER SUCCESSES

GERMAN COUNTER-ATTACK CHECKED BY THE BRITISH

Heavy Artillery Fighting Continues in Region of Hurtebise—Surprise Attack West of Mount Carnillet Repulsed by French Forces.

London, June 27.—British gunfire checked in its incipency a German counter-attack attempted early today upon the new British positions on the Arras front northwest of Fontaine-Les-Croisilles. Otherwise only raiding operations along the British front are covered by the statement.

French Statement.

Paris, June 27.—Heavy artillery fighting continues in the region of Hurtebise. Among the positions which the French captured on Monday is the "Cavern of the Dragon," more than 100 metres wide and about 300 deep, which had been converted into a veritable fortress. This cavern, with numerous exits and openings from which machine guns were fired, constituted

an important position and point of departure for enemy troops in making counter-attacks. A considerable amount of war material was stored there, including nine machine guns in good condition, equipment for more than 100 men, numerous rifles, ammunicions depots and electric searchlights and a hospital relief outpost, which fell into French hands. The number of prisoners counted has reached 340, of whom six are officers.

In the Champagne the enemy made a surprise attack west of Mount Carnillet. It was repulsed. We penetrated the German lines near Maison de Champagne and brought back ten prisoners. About eight o'clock last night German aviators threw several bombs on Nancy. No damage was done and there were no casualties.

THREE SIGNED HONOR ROLL YESTERDAY

Duke of Devonshire Will Inspect Kilties Battalion in Quebec Monday—Artillery Officers Take Special Course—Ordered to Petewawa.

Six officers, at present on Partridge Island, will leave July 2nd for Halifax to take a special course in coast artillery defence. This is not a new branch of service, as would be imagined by the name, but is a part of the regular military course at Halifax. The officers will be away for about eight weeks, part of which time they will spend with the mechanism and operation of the heavy guns, such as the 6in. and 9.2. The officers who will leave are: Lieut. R. H. Bruce and Lieut. H. A. Bridges, A. W. F. Powell, J. H. Crockett, J. C. L. Foster and H. G. Alward.

Ordered Back to Unit.

Lieut. McFarlane, of the 236th Kilties Battalion, who has been on the staff at Aldershot in connection with the training of British recruits enlisted in the United States, has been ordered to report back to the 236th Kilties. It will be recalled that recently several officers of the battalion were transferred to other units on account of the 236th Kilties not being up to strength, but with the influx of men from the United States for this battalion it has been found necessary to recall several officers.

Presentation This Afternoon.

A party of stalwart recruits left last night on the C. P. R. for new training camps in Upper Canada. Thirty-nine of those who departed will go into camp with the Canadian Signallers at Ottawa. This depot is commanded by Major Powers, of St. John. In addition to the signallers there were in the party twenty men for the Canadian Engineers. They will proceed to the training camp at the engineers at St. Johns, Quebec. The party was in charge of Lieut. McBeath and Acting Sergt. Duff. The only St. John boys in the party were R. N. Wetmore, Shirley Ellis, L. A. Head, C. Colwell, F. Naves and J.

HAD BOILS FOR SIX MONTHS. B.B.B. DROVE THEM AWAY

When the blood becomes impure the very first symptoms which manifest themselves are a breaking out of various forms of skin trouble such as boils, pimples, sores, etc. and to get rid of these troubles you must cleanse the blood thoroughly with a good blood remedy.

The best blood cleansing remedy on the market today is Burdock Blood Bitters.

Thousands of people from one end of Canada to the other have used it during the past forty years, and have nothing but words of praise for its cleansing properties.

Mr. Rufus Beers, Upper Main River, N. B., writes: "I want to say a few words about your medicine, Burdock Blood Bitters. I had boils for six months and sometimes was so bad I could not work. I tried lots of cures but nothing would drive them away for good until I took B. B. B. In a short time I was all better. It is a handy medicine. I keep it in the house all the time."

Burdock Blood Bitters is manufactured only by The T. McBurn Co., Limited, Toronto, Ont. But so well and favorably is it known that there are many imitations on the market. See that our name appears on the wrapper.

MR. PUGSLEY'S POSITION.

Loyal New Brunswickers cannot fail to be impressed by the attitude Hon. William Pugsley has taken on the conscription measure, and if that impression is unfavorable Mr. Pugsley has no one but himself to blame. The Standard said some days ago that if the ex-minister of public works should seal to outweigh his better judgment and openly oppose the bill in Parliament, he would, by that action, sign his own political death warrant. This is just what Mr. Pugsley has done, and under circumstances which place him in a particularly unfavorable light before the people of Canada.

Mr. Pugsley spoke on the conscription bill on Monday and announced that he would oppose it in all its stages; he would vote for the Laurier referendum, he would vote against the adoption of the bill if that referendum failed, he would oppose it in committee, and on its third reading, he would vote against any proposal for an extension of Parliament; in short he would go to any length to secure the defeat of the measure designed to help the boys at the front, and the overthrow of the Government which had the courage to bring it before Parliament.

Mr. Pugsley's contribution to the debate followed that of Hon. Mr. Seavigny and perusal of the sentiments of both gentlemen should be interesting, particularly as newspapers supporting Mr. Pugsley's have held that the Minister of Inland Revenue is a member of the Quebec school which believes that "Canada has done enough for England." Yet we find Mr. Seavigny courageously supporting the measure, while it remains for Mr. Pugsley, representing the City of the Loyalists, to go the furthest lengths to oppose it.

It has already been pointed out in Parliament and through the newspapers of the country that conscription is the only method by which adequate reinforcements can be sent to the Canadian troops at the front. In every part of Canada patriotic Liberals have taken the ground that in the interests of our soldiers political differences should be subordinated and that both parties should unite in supporting the measure by which the soldiers will be benefited. Hugh Guthrie, Fred F. Pardee, W. A. Buchanan, Mr. McCraney, Mr. Nesbitt and Hon. George P. Graham, all life-long Liberals, whose political record is of consistency, have been willing to put politics aside at this period in the nation's history. Mr. Pugsley takes the other view. Come what may, he stands with Laurier and the disloyal group who would traffic for party success even in the face of national disaster.

Mr. Pugsley has made his choice, and must be judged by it. He has insulted St. John and New Brunswick by placing his city and province in the disgraceful position of opposing conscription. The electors of his constituency cannot be expected to swallow the insult. They will reckon with Mr. Pugsley when the time comes. In the meantime there should be a strong protest from representative organizations in the city against Mr. Pugsley's action. The winter port of Canada, which has freely sent its sons to the Empire's battle lines, cannot permit William Pugsley or any other man to misrepresent our sentiment in this shameful manner. No censure can be too severe, too scathing for the man who, for political purposes only, has betrayed his constituency and who paints us as a people of cowardice, unwilling to make further sacrifices for the cause of Empire until a referendum has first been taken.

The men who founded St. John were brave Britishers, loyal to the core. Are their descendants less loyal, less courageous? If not, they will speedily place the seal of their disapproval upon the cowardly action of their parliamentary representative.

Laurier and Nationalism.

In endeavoring to find excuses for Quebec's failure to fully participate in Canada's war effort Sir Wilfrid Laurier contends that the situation is the result of the recent growth of Nationalist sentiment under the auspices of the Conservative party. The most charitable comment that can be made on such a statement is that the Liberal leader is too strongly concerned in making capital for his own party to pay much attention to the history of the province he seeks to excuse. The record stamps as untrue the Laurier contention.

The nationalism of Quebec, with all its racial jealousy and barren hatred, had become an active force long before Henri Bourassa was first heard of. In 1867 it was a pernicious influence against the development of Canada along British lines, seeking, by methods very similar to those used today, to delay or defeat the effort of French-Canadian patriots such as Sir George Etienne Cartier and others who had the breadth of vision to realize that Quebec's destiny was inseparably linked with that of the Dominion. Laurier was opposed to that view half a century ago and we find him calling upon his compatriots to defeat the confederation proposals by declaring that:

"That is not the way we politicians of the Papinian school look at the matter; when any change whatsoever is proposed in our political or social institutions, we do not look to see if this change will be of use to the English colonies or to any other neighbor; we think only of Lower Canada and the French race."

Cartier and his contemporaries carried the bulk of their race to the idea of union despite this Nationalist doctrine, and for nearly twenty years thereafter the embers of racialism smoldered.

Honore Mercier, a politician of great ability but lacking in patriotism and integrity, was the next to fan the embers into a fierce and more enduring flame and he used the scaffold of Louis Riel as a ladder by which to climb to office and power. A "national party" was formed, distinct alike from both existing parties and the war crises of racial hatred again resounded through the province of Quebec.

On November 22nd, 1885, a mass meeting was held on the Champ de Mars, Montreal, and newspaper reports of that meeting tell us that Coursol, Mercier and Laurier were the principal speakers of the occasion and, next to Mercier, Sir Wilfrid Laurier was most outspoken in his denunciation of

the "judicial murder" of Riel. He declared that:

"If he had been on the banks of the Saskatchewan when the rebellion broke out he would have taken up arms against the government."

At once French Canada was turned into a blazing, seething centre of racial wrath, the agitation spread rapidly and the old parties were, for the time being, submerged by the new "nationalism" by which scheming politicians and crafty demagogues sowed the wind from which the terrible crop of whirlwind has since developed. From 1885 to 1896 the spirit of Quebec Nationalism was never quite permitted to die although the Liberals, under the tutelage of Laurier and his lieutenants, were gradually taking to themselves the desires and aims of the national party. The potency of an anti-British appeal was recognized by orators from the highest to the most obscure, and Laurier not infrequently used this weapon to gain sympathy. While parliamentary leader of the Liberal opposition he visited Boston and to an audience in that city delivered himself of the following sentiment:

"The only tie that binds Canada to the Mother Country is a sentiment of affection. But this dependence will not always last. Even now Canada and England have very different interests, and a day will come—necessarily—when they will have to part."

One year later, speaking from his place in the House of Commons, Sir Wilfrid was even more pronounced. He declared that he held out to his countrymen "the idea of independence" and proceeded:

"Is there a Canadian anywhere who would not hail with joy the day when we would be deprived of the services of British diplomacy? ... I have again and again repeated that the goal of my aspiration is to see Canada an independent nation."

Thus we find that from the time of his entrance into public life until 1896 Sir Wilfrid's tendency was always in the direction of separation from British. Since that time his position is a matter of contemporary history. During the South African war he showed he was not in sympathy with the Mother Country by his declaration that "not a man nor a gun shall go to South Africa" and he has maintained the same attitude up to his speech of last week in the House of Commons in opposition to the conscription bill and his senseless proposal that this measure of practical aid shall be withheld until a referendum has been taken upon it.

Tribute to Laurier's attitude is paid by Henri Bourassa who, in a recent issue of Le Devoir, summed the case up thus:

"Let us suppose for one moment that the Quebec Nationalist resistance is inspired by hatred towards England, at what school were we given such lessons of hatred and distrust? At the school of the Liberal party, under the supreme inspiration and immediate direction of Sir Wilfrid Laurier. It was Mr. Laurier who taught us, as early as 1890 that never would Canada take part in the wars of England."

"It was Mr. Mercier who, in 1892, under the paternal eye of Mr. Laurier, was leading a campaign for the independence of Canada. It was Mr. Laurier, it was Mr. Brodeur, it was Mr. Choquette, it was Mr. Bernier, it was their organs, the Electeur and Le Spir, which denounced the military preparations of the Conservative administration, launched to the four corners of the province this alarm cry which carried no sign of an unlimited love for the Mother Country: 'Why should we fight for England?'"

"REALLY IF THE NATIONALISTS AND GENERALLY THE FRENCH-CANADIANS DO NOT FEEL IN A HURRY TO SHED THEIR BLOOD FOR ENGLAND OR ANY OTHER COUNTRY THAN THEIR OWN, MR. LAURIER MAY SAY 'HERE IS THE GENERATION I HAVE BROUGHT UP AND EDUCATED; HERE ARE THE PRINCIPLES, THE IDEAS AND THE SENTIMENTS WHICH I HAVE IMPRESSED UPON MY DEAR COMPATRIOTS.'"

No one at all familiar with the history of Canada can refute Bourassa's claim. Most of the facts cited here are contained in the official records of Parliament and the accuracy of none of the statements attributed to the Liberal leader can be successfully challenged.

Surely in the light of his proven record Sir Wilfrid Laurier but insults Canadian intelligence by the claim that he is the victim of a Conservative inspired nationalism in Quebec.

And it is this man and this record that Mr. Pugsley has elected to support at the most critical period in Canadian history.

THE RESULT IN SASKATCHEWAN.

The contest in the province of Saskatchewan is over and the Martin government has been sustained by a majority larger than it had in the last legislature. At this distance from the scene of conflict it would be foolish to attempt to draw definite conclusions as to the causes for the Liberal success, but there are certain factors which may reasonably be advanced as explaining at least in part the return of the Martin party.

The first of these is having the soldiers' vote in three constituencies. Under an act passed at the last session of the legislature it was provided that overseas soldiers should have the privilege of voting for their representatives, at large. Under ordinary circumstances the soldier vote might be expected to at least break even, but by this arrangement they could select but three men, whereas the foreign vote, very large and naturally on the side of the government, was a potent factor in all constituencies.

The grain growers also supported the government. This can be accounted for by the fact that one of the most influential men in that organization, Mr. Dunning, was recently taken into the Martin ministry and was unquestionably able to swing a large measure of the support in that direction. The government also had a fairly good record of creditable legislation despite the fact that it bordered upon open corruption, in Manitoba the Roblin government was corrupt, it was also mediocre. The Martin-Scott government in Saskatchewan have been as dishonest as their contemporaries in Manitoba but have shown administrative capacity. Apparently this saved them. Dishonesty condemned in Manitoba, was condoned in Saskatchewan by the ability that accompanied it. In connection with this apparent approval of dishonesty it is of interest to note that in Prince Albert, Col. Bradshaw, Conservative, the man who was most responsible for the levying of charges against the administration, charges which were proved to the hilt, and which resulted in placing two or three members of the Liberal party behind the bars, driving others out of the legislature and seriously compromising the whole government, has been decisively beaten. It might be expected that the public would regard Bradshaw as a benefactor. Instead he finds himself beaten. So much for the gratitude of democracy. Judged by Tuesday's result, Saskatchewan is more partial than Alberta. In Alberta all the independent candidates were elected. In Saskatchewan all were beaten. Not in it that the women of Saskatchewan had exercised a potent influence upon the public mind. In Alberta the only woman offering was elected, in Saskatchewan the only woman offering was beaten. In neither province has woman suffrage succeeded in changing the political conditions.

The Saskatchewan result was not a surprise, although it is admitted that from the dishonest record of the Martin administration, the Conservatives had the right to hope for better things. That hope, however, failed of realization.

The defection from Sir Wilfrid Laurier on the conscription issue increases. Mr. F. B. Carvell, the member for Carleton, in the House of Commons yesterday came out in favor of the Borden measure. Mr. Carvell's attitude on the momentous question now before Parliament is in marked contrast to that of Dr. Pugsley and is commended to the thoughtful attention of all who, in this province have hitherto supported Dr. Pugsley and Sir Wilfrid Laurier.

Nipissing Mines Refuse to Recognize Western Federation Dome Grants Advance in Wages.

Toronto, June 27.—The directors of Nipissing Mines are determined not to recognize the Western Federation of Miners whose representatives today posted notices stating an allowance of approximately fifty cents a day to their mine and mill workers to meet the high cost of living. This will probably have a beneficial effect on the Porcupine labor situation. About three hundred men are affected at Dome.

Block Island, R. I. June 27.—The United States cruiser Olympia, Admiral Dewey's flagship at the battle of Manila, ran aground in fog off Block Island early today. The cruiser was reported in a bad position with considerable water in her hold. Wm. M. Babbs, chief machinist's mate, lost his life when he was hit on the head by a hatch. No other fatalities were reported. The crew of the Olympia abandoned the ship on orders and were brought to the naval station here. Other warships were standing by her. She was reported to be badly damaged.

London, June 27.—The American sailing ship Galina, 991 tons, was sunk by a bomb on June 25. There were no casualties.

NEWS AND COMMENT FROM THE FINANCIAL RECORD

MASSIVE OFFERINGS OF STOCKS

Prices Yielded in Final Hour—Unfavorable Reports Regarding Rails and War Issues.

New York, June 27.—The stock market was governed by highly conflicting influences today, early gains of fair proportions being materially reduced or wholly eradicated in the extensive offerings of the final hour. Forenoon advances were attributed mainly to the relaxed money conditions resulting from the release of liberty loan deposits, while the late selling was accompanied by unfavorable reports affecting rails and war issues.

Call money opened at the recent rate of six per cent, but soon eased to four and a half and later fell to two per cent, the minimum for such accommodation in more than a fortnight. Time loans also shaded from 1/4 to 1/2 per cent for the shorter maturities.

Rails Held Up.

Unlike the previous session, rails were a negligible feature of the day's operations, though fairly firm until reports of an indefinite suspension of proposed rates increases gained currency. Some of the high priced specialties, notably Industrial Alcohol, which reacted five points, also contributed to the sharp reversal of the hour.

Steady liquidation of Studebaker, which fell six points to 70 1/2, exerted no effect for a time, although accompanied by reports dealing with prospective dividends. Oil Gas was again under heavy pressure at an extreme decline of 6 1/2 to 122, and Sinclair Oil fell three points to the new low record of forty.

United States Steel, Bethlehem Steel, new stock; Lackawanna and Crucible as well as Superior Steel and Colorado Fuel were the strongest issues recorded gross gains of two to three points, but forfeiting much of this advantage before the close.

Coppers Again Active.

Coppers, shippings, oils, Sugars and the usual semi-war specialties were better at one time by one to three points, and Pittsburgh Coal led the coalters. Reading was almost the only high grade railway issue to manifest marked strength, but reacted sharply on relatively small dealings.

Total sales amounted to 1,205,000 shares. A pronounced increase in demand for liberty 2 1/2's at par or better was the striking feature of an otherwise irregular bond market, whose rails and industrials being distinctly heavy.

Total sales, par value, aggregated \$4,875,000. United States coupon and registered 4's gained 1/4 per cent, on call.

MONTREAL MARKET WAS TAME AFFAIR

General Situation There Practically Unchanged—Fair Demand for Scotia Steel—Third War Loan Improves.

Special to The Standard. Montreal, June 27.—Prices movements continued narrow with the volume of business in Canadian stocks little more than nominal today. A moderate degree of firmness was shown in few issues against the general sagging of the two days preceding and on the whole the tone of the market could be described as steady. But the difference between the general conditions and the general conditions could be best described as unchanged.

A fair demand for Scotia Steel was one of the few minor features of the day's business. Purchases of about 500 shares were recorded at par, an advance of a point, with that price still bid at the close against 98 Tuesday. "Rights" to the new issue were quoted at 25 cents at the close, but no transactions took place. Dominion Iron and Steel of Canada displayed no concurrent activity, but were a shade firmer at 82 for the former and 58 1/2 for the latter.

Final quotations at 6 1/2 bid and 5 1/2 bid respectively were virtually the same as on Tuesday. In the balance of the list moderate firmness was shown by Car common which was 1/2 higher at 32 1/2, the Steamship issues which were 1/2 higher for common at 43 1/2, and Vetter Trusts at 39 1/2 and Brazilian 1/4 higher at 38 1/2. Smelters at 25 1/2 and Spanish River at 15, were down small fractions.

U. S. GOVERNMENT CROP REPORT IS FAVORABLE

Report that Steel for Shells Ordered by Government at \$75 a Ton—Ship Plates, \$80.

(McDOUGALL & COWANS.)
New York, June 27.—In the afternoon the market became dull again and sold off gradually so that at the close prices were in general little changed from Tuesday's final level. The weekly government report on crop weather reflected favorable conditions and at least fair progress in most sections. The street's confidence in an early solution of the price difficulty between the government and producers was increased by a report that contracts covering steel for shells had been awarded at \$75 a ton and for ship plates at \$80 a ton.

These prices are both well below current market quotations, but doubtless represent a good profit and are probably not far from the average in which the steel companies are now delivering the bulk of their output in orders placed months ago. They are more probably above that average. Copper men said that the government had sent leading producers requisitions for its copper for the balance of this year without fixing the price, but that they expected the price to be fixed at twenty-five cents. The senate finance committee expect to report the war revenue bill on Friday.

GOVERNMENT CONTROL APPEARS AS BULL CARD

Export Control May Force Foreign Trade Into New Channels—Rails Recommended.

(McDOUGALL & COWANS.)
New York, June 27.—Bullish construction is placed in conservative quarters upon the government control of exports. It seems to be the belief that foreign trade will be forced into new channels which will assure new patronage after the war owing to the moderate amount of business the stock market has maintained a quite good undertone, traders regarding the war news and the general outlook favorably. Mining and oil stocks and Argentine rails were in demand while Brazilian issues were strong. Shipping shares attracted more attention and steady investment buying was recorded in the gilt edged section. Rubbers and American and Russian securities were neglected. Consols for money 5 1/4.

Some of the conservative bankers' interests are strongly recommending that the war be financed so far as America is concerned by an even division between taxation and loans. It is declared in these quarters that Great Britain has made a mistake in overloading the loan department.

R. I. Mo. Pac. Wabash are being recommended in responsible houses which are rather bullish on the industrial list. They say special analysis of these roads shows that they are selling below their worth.

"Price fixing" is frequently referred to in professional circles which have turned bullish on metal stocks as a reason why higher levels in the industrial at present are opposed. Until the Washington difficulty is generally known as regards this feature speculative commitments on the long side will be restricted.

JOSEPH HOWE DICKSON DEAD

Clerk of Executive Council
and Well Known Through-
out Province Passes Away.

Fredericton, June 27—Joseph Howe Dickson, K. C., for the last eighteen years clerk of the executive council of New Brunswick, died this afternoon in the Victoria Hospital. He was taken ill while the legislature was in session, and Dr. Thomas Walker of St. John, who was called in consultation, advised his removal to the hospital. He was taken there on Tuesday, but efforts to prolong his life proved fruitless; although bright and able to see his friends last evening, he passed away this afternoon.

Mr. Dickson, who was widely known and highly esteemed throughout the province, was a native of Point de Bute, Westmorland county. He studied law with the late Sir Albert Smith in Dorchester and practised his profession there until 1871. He was one of the most celebrated cases was the famous McCarthy murder case at Shediac in which he was junior counsel in 1877. He removed to Fredericton eighteen years ago to accept the appointment as clerk of the executive council.

Surviving Mr. Dickson are his wife, and one son, J. Bacon Dickson, barrister and private secretary to the lieutenant-governor.

KNIFE ON CORNS CAUSES LOCKJAW

Tells how to loosen a tender corn so it lifts out without pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an evil death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freesome, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn is lifted and all, lifts out with the fingers. It is a sticky substance which dries the moment it is applied and is said to simply shrivel the corn without inflaming or even irritating the surrounding tissue or skin. It is claimed that a quarter of an ounce will cost very little at any of the drug stores, but is sufficient to rid one's feet of every hard or soft corn or callus. You are further warned that cutting at a corn is a suicidal habit.

The settings are very fine and the picture has plenty of "punch" which is one of the things demanded by many people for their pictures.

At 3 o'clock they will meet at the head of King street, dressed in their uniform and wearing their haversacks, and will march out to the cemetery. Supt. Clayton will provide a military trench coat that the boys will be able to learn a few trench tactics in the intervals when they are not working. THEY HAVE FRIENDS AT THE FRONT THAT WILL BE REPUTED AS ANTI-CONSCRIPTION LEAGUE

Another Batch of Recruits Arrived Last Night from Boston—Most of Them British Subjects Anxious to Join the Colors.

"The most of us fellows are British subjects and have relatives and friends at the front," remarked a sturdy looking Britisher who arrived on the Boston train last night with a party of recruits for provincial units. "Some of us tried to get into the Killies Battalion in Boston but could not pass the examination so we learned of the Forestry unit and realizing the splendid and serviceable work this branch is rendering the Empire we decided to enlist in it," continued the young man. "I suppose there is considerable talent in the party?" queried "The Standard" representative. "Oh, we have a few artists," was the reply. "Smith, there, is somewhat of a singer, and I play a little on the piano," said the speaker, J. M. Foster, who for several years has been residing in Taunton, Mass.

The party was met at the depot by Captain McVey, the officer commanding the 8th Field Ambulance; Sergeant T. D. Popham, formerly of the 26th Battalion; Sergeant Joseph of the Forestry unit, and Corp. Henderson of the Field Ambulance. Sergeant Popham was kept pretty busy for a while answering many questions asked by the boys respecting his experience overseas. Eleven of the party were for the Forestry unit. Two of the men arriving last night for this unit came in from Newcastle. They were John Thibodeau and Thomas Herbert. The recruits from the United States for the Forestry unit were: S. Connors, Beverly, Mass.; J. A. McMahon, Boston; J. Fields, Boston; V. Thomson, Boston; S. Brightman, J. R. Halvay, M. J. Linby, Morris Mundy and G. McMurray all of Boston. The 8th Field Ambulance received the following: W. Simpson, New Bedford; U. E. A., J. M. Foster, Boston, Mass.; Joseph Lindrick, Carquet; Sylvester Richard, Mount Carmel, P. E. I.; E. Filby, Boston, and R. L. Anderson, T. Henderson, B. E. Gallant, George Wallace, Alfred Sharples, B. RECEPTION TO DEACONS AT ST. DAVID'S

First Presbyterian Church in St. John to Have Own Deaconess—Miss Laird Given Hearty Welcome—Excellent Programme Carried Through.

The first Presbyterian church in St. John to possess the services of a deaconess of their own, the congregation of St. David's church gave Miss Laird, a very hearty welcome to their midst last evening. A large number of church attendants gathered in the school room, the platform of which was already decorated with flags and white lilacs. The proceedings opened with an anthem sung by the choir, Hark Hark my Soul, Miss Elvina Thompson taking the solo part. A scriptural reading followed from Acts and Romans, describing the first deacons and St. Paul's commendation of the work of women. Rev. J. A. MacKeltan on behalf of the church welcomed Miss Laird, and spoke of the pleasure all felt in securing her for the church, and of the steps which led up to the present occasion. The dedicatory prayer was then said, led by the pastor.

On behalf of the session, T. H. Somerville welcomed the new Deaconess to the church, and A. R. Melross, spoke on behalf of the Board of Trustees. Speaking for the Women's Missionary Society, and Associated Ladies Societies at St. David's Mrs. David Willett assured Miss Laird of their sympathy and assistance, and the hearty welcome the ladies' Societies extended to her. Miss Edith Cameron, on behalf of the Senior Mission Band, presented Miss Laird with a bunch of pink and white carnations. Miss Laird replied briefly thanking all for their hearty welcome and good wishes, and expressing the hope that she might be able to do truly useful work. R. E. Armstrong led a prayer for the Empire, our soldiers and the work of women in the world. Delicious refreshments were served by a committee of ladies, with Mrs. G. Wilfred Campbell in charge. Many took advantage of the opportunity to meet Miss Laird and wish her all success in her new field of labor. Among those present were Miss Sinclair, the Deaconess of the Presbyterian Church in St. John who has done so much good in the city.

Views of Agitator Who Wants Anti-Conscription League Do Not Reflect Opinions of Leading Labor Men.

The following anti-conscription rant is being forwarded to labor organizations throughout the Dominion: ANTI-CONSCRIPTION LEAGUE. Winnipeg, June 21st, 1917. Dear Sir,—The executive of the Anti-Conscription League in Winnipeg have instructed me to get in touch with your committee to endeavour to get a Dominion organization formed. Have you a League in your city, and if not, do you think it possible to organize all the anti-force in your district to fight this bill? The methods being used by the supporters of the measure spell disaster for all lovers of personal liberty, as freedom of speech is being denied to Antis by the lawlessness of the Returned Soldiers, practically backed by the authorities. Let us hear from you by return, with names and addresses of persons active or interested in this matter. Yours truly, A. A. HEAPS, 259 Pritchard Ave. Winnipeg, Man. It is needless to say that the above letter does not reflect the views of the leading labor organizations throughout the Dominion. The imputation regarding the returned soldiers is certainly untrue and unworthy. Prominent labor men would do well to expose the methods of such as this Winnipeg man Heaps. The communication has been received by local organizations as well as labor bodies in other parts of the province.

ANNUAL CLOSING OF SCHOOL FOR THE DEAF

Interesting Programme in New Brunswick School Yesterday—Marked Progress—The Prize Winners.

The closing exercises of the New Brunswick School for the Deaf were held in the large hall of the school building at Lancaster Heights yesterday afternoon before a large number of the parents and friends of the pupils. An interesting programme was carried out, the proceedings being conducted by the principal, Joseph Keating. In his opening remarks Mr. Keating referred to the fact that there were twenty-nine pupils enrolled in the school, and not a serious case of illness was met with during the year. He referred to the care and attention given the pupils by Dr. W. L. Ellis and also Dr. Moran, dentist, who gave his services gratuitously. In every branch of study that the school offered the pupils had made marked progress and they acquitted themselves well in the examinations yesterday. The principal drew attention to the fact of the difficulties under which deaf children were taught, and he stated that the school was doing good work in the province and should receive the active support of the community at large when it is realized that a deaf child before he enters the school possesses no knowledge of language whatever, and is only able to express his wants in mere arbitrary gestures, and then when he has spent a few years at school he is able to read and write intelligent English and express himself properly. It is clear that the work of the school should be more appreciated than it is. Special mention was made of the exhibition of sewing done by the girls, which was an exhibition, and the marked progress made by five of the boys in attendance at the manual training school in the city. Mrs. Chester Brown kindly provided the material for sewing and the girls were taught by Miss Nelson. Alexander Milton had some drawings on exhibition which would do credit to more experienced artists, and the work of the girls showed much skill. Five of the girls, Ledia Milton, Corbie Cumming, Bessie Furlotte, Dorothy Riley and Eva Legor, recited "The Flag of Britain" by the sign language, the principal acting as interpreter. The awarding of the prizes then took place. Prizes had been donated by the ladies of the Women's Canadian Club, Hon. J. B. M. Baxter and Mrs. Gildart. Mr. Baxter's prizes were awarded to the best all-round student, and to the student who tried the hardest to win a prize but failed. The all-round prize was won by Wallace Walsh and Marie McGrath won the prize for her efforts in trying to win.

The prize list was as follows: Junior Grade. Jack Cumming, 85 per cent. 2nd Class—First Section. Eva Legor, 97 per cent.; Leander Milton, 92 per cent. Second Section. Harold Bypher, 94 per cent.; Paul Maddore, 92 per cent. Third Section. Dorothy Riley, 94 per cent. Dismas Gallant won an all-round prize for this class. Senior Class—First Section. Ledia Milton, 91 per cent.; Albert St. Onge, 89 per cent. Second Section. Wallace Walsh, 98 per cent.; James

Resolution of Appreciation for Work Accomplished by Rev. W. H. Barracough Passed at Centenary Annual Last Night—Satisfactory Reports Received.

The total amount raised by the Centenary church for last year amounted to the grand total of \$12,000. This was made known at the annual meeting of members, which was held last night, and which was marked by a large attendance. As Sunday is the last day for the Rev. W. H. Barracough, a resolution of appreciation for the work accomplished by him, within the four years of his service in the city, and regret on account of his departure was unanimously passed by the meeting. During the four years of Mr. Barracough's pastorate the membership of the church has increased from 457 to 549. One hundred and eleven have been received into the church on profession of faith, and eighty-nine by letter of transfer. Thirty-five of the members have passed away, and seventy-three removed. This leaves a net increase of ninety-two. The receipts of the church for missions have increased \$600 in the four years, and now total \$2,372. The amount raised for all purposes was \$12,500. During the last four years several societies have been organized in connection with church work. The Epworth League, Centenary Brotherhood, Ladies' Aid and the Red Cross Circle were organized, and all actively engaged in their respective work. At the conclusion of the annual report, the following members were elected representatives of the quarterly official board of the church: Mrs. Frank Skinner, Miss A. G. Hea, P. H. White, Chief Justice McKeown, W. E. Brittain, M. D. Austin, W. C. Jordan and P. W. Snider. The resolution moved by Chief Justice McKeown, seconded by J. H. White, and which received the unanimous support of the members, was as follows: "That this meeting of members of Centenary Methodist church desires to express its deep appreciation of the zeal and industry of the Rev. W. H. Barracough, B. A., who during the last four years has given to this church the fairest measure of service as its pastor, and whose work has been characterized by untiring industry and devotion on his part, and has been productive of great and lasting benefit to those under his care to whom four years ago he was an entire stranger; and it further desires to convey to him and to Mrs. Barracough, as they depart, their sincere and affectionate regards, and to wish for them a continuation of such harmonious and helpful relationship in every succeeding pastorate. "And this meeting requests that the above resolution be placed upon the official records of the church."
