SAINT ANDREWS, N. B. WEDNE-DAY, OCTOBER 18, 1848.

[Vol. 15

## SUMMARY OF NEWS.

**MURDER.**—A man by the name of Neil McFadyan, who has lived for some time at the Blue Mountains, was arrested last week on a charge of murder. The circumstances on which the charge is founded, as near as we can learn, are as follows:—

Some time in June last, he left Restigouche, N. B., where he had been working during the winter, in company with a young man by the name of Carr, who was coming to Victoria, as is said, to purchase a team of horses, bringing with him a sum of money for that purpose. When Carr had been some time from home his father becoming anxious about him, wrote to an individual at the East River, with the request that he would make enquiry for him. This person accordingly questioned McFadyan as to whether he knew where the young man had gone, and received for answer that he knew nothing about him, as they had parted at Miramichi. It subsequently became known however, that McFadyan and Carr had been seen together by a person who was acquainted with them both, as far on their way home as Wallace, and also that a person answering the description given of Carr by his father, was seen in company with the murderer at the East River, the day he arrived there. Upon these circumstances being made known McFadyan was arrested, to undergo an examination before the magistrates; and shortly afterwards the body of a man was found in the woods near the prisoner's house, with the skull broken, and bearing evident marks of violence, but decomposition had so far advanced, that it was scarcely possible to identify the remains. Several articles of clothing were found in the prisoner's possession, agreeing with the description given by Mr. Carr of some of the clothes worn by his son when he left home, and also a cloth with the name of the missing man in the inside. McFadyan is now in jail awaiting his trial at the Supreme Court which sits here on Tuesday, the 17th inst.—*Eastern Chronicle.*

**The Burial of Tom Thumb.**—The remains of this remarkable personage, says the Manchester Examiner, on whose body a coroner's inquest was held last week, were conveyed to the silent tomb on Sunday last, amid a great concourse of spectators. They were deposited in the grave yard attached to the Roman Catholic Chapel, Oldham, and so great was the curiosity of the public to see the coffin enclosing them, that a number of police constables were required to keep a passage for the coach which conveyed it and the mourners to the place of interment. We have to correct a mistake, which appears to have got abroad, causing some surprise and regret; it was not the celebrated American General Tom Thumb, but a Prussian, and almost as remarkable an individual. He was 65 years of age, and when laid in his coffin measured exactly three feet in length. His widow, who accompanied his corpse on Sunday last, presented a somewhat remarkable appearance. She is about four feet in height, and was dressed in widow's weeds.

**Gold and Silver Mines in Lower Canada.**—A gold mine is known to exist in the seigniory of Rigaud-Tandeuil, on the South side of the St. Lawrence, in the District of Quebec, belonging to the Messrs. De Lery. The *Melanges Religieux*, Montreal paper, of Friday, announces that traces of a silver mine have been discovered in the counties of St. Maurice, Berthier and Leinster, north of the St. Lawrence, in the Districts of Three Rivers and Montreal. A gentleman is now engaged in examining the localities, and there appears to be no doubt that they contain silver ore.

**New Mining Companies.**—Notices are given of application, next session, for the incorporation of two new mining companies; one to be called the *Beaver River Mining Company*,

the *Huron*, and the other the *Sault Ste. Marie Company*.

**The Lakes.**—Extract from *Col. Albert's Report.*—We make the following extract from the recent report of Col. Albert, the able head of the topographical department. It gives, undoubtedly the most correct statement of the size of the great Lake extent. The entire report is valuable in a commercial point of view—as given the statistics of the vast region watered by the lakes, and exhibiting something of its resources and capabilities for a still more extensive and valuable commerce. The entire line of lake coast is 5990 miles, of which 2000 constitute the British coast. The following is the result of the survey of the U. S. Topographical Engineers.

Lake Champlain is	105 miles long.
Its greatest width,	12 miles.
Its average width,	8 miles.
Lake Ontario is	168 miles long.
Its greatest width,	52 miles.
Its average width,	40 miles.
Lake Erie is	240 miles long.
Its greatest width,	37 miles.
Its average width,	38 miles.
Lake St. Clair is	18 miles long.
Its greatest width,	25 miles.
Its average width,	12 miles.

Lake Huron is	270 miles long.
Its greatest width, (not including the extensive bay of Georgian, itself 120 miles long, and averaging 75 miles in width) is	405 miles.
Its average width	70 miles.
Lake Michigan is	340 miles long.
Its greatest width	83 miles.
Its average width	58 miles.
Lake Superior is	420 miles long.
Its greatest width	135 miles.
Its average width	100 miles.

These lakes may be considered as connected throughout their whole extent. Lake Champlain connects with Lake Ontario by means of the river Richelieu, the lock and dam navigation of St. Lawrence river; the Ottawa river; the Rideau canal through Canada; and the Champlain and Erie Canals of New York. Lake Ontario is connected with Lake Erie by means of the Welland Canal through Canada, and by means of the Oswego and Erie Canals through this State. Lake Erie is connected with Lake St. Clair by the deep and navigable stream of Detroit, 25 miles long. Lake Huron is connected with Lake Michigan by the deep and wide strait of Mackinaw, and with Lake Superior by the strait of St. Mary's 46 miles long.

**Early Times in America.**—The following remnant of early times, when women were willing to get married and not ashamed to own it, is a letter accompanying a shipment of marriageable ladies made from England to the Colony in Virginia. It has a decided mercantile air, and would please many bachelors at the present day, who feel disposed to pay well for a good wife. It is dated LONDON, Aug. 21, 1651.

We send you a shipment; one widow and eleven maids for wives of the people of Virginia; there hath been especial care had in the choice of them, for there hath not one of them been received but upon good recommendations. In case they cannot be presently married, we desire that they may be put with several householders that have wives, until they can be provided with husbands. There are nearly fifty more that are shortly to come, and are sent by our honorable Lord and Treasurer, the Earl of Southampton, and certain worthy gentlemen, who, taking into consideration that the plantation can never flourish till families be planted, and the respect of wives and children for their people on the soil, therefore have given this fair beginning; reimbursing of whose charges it is ordered that every man who marries them, give one hundred and twenty pounds of the best leaf tobacco for each of them.

"We do desire that the marriage be free, according to nature, and we would not have these maids deceived and married to servants, but only to such freemen or tenants as have means to maintain them. We pray you therefore, to be fathers to them in this business, not enforcing them to marry against their will."

**A Fight between a Frog and a Rat.**—A most desperate encounter took place between a frog and a rat, at a brook near the slaughter house of Mr. Uriah Wiggin, in this town, a few days ago. It appears that a rat came down to the brook to drink, and discovering a frog, "with force and arms" made an attack upon him, by making a firm grasp with his teeth; no sooner did the rat make his hold, than the frog dove into the water, dragging his antagonist with him, where he remained until the rat was compelled to let go, and make for dry land, closely pursued by the frog. As soon as the frog appeared above water he was again attacked by the rat, and a second time became the subject for cold water bathing. This feat was several times performed, until the rat from exhaustion and drowning fell a prey to his antagonist. After the frog became fully assured that his combatant was dead, he seated himself upon his dead carcass with all the complaisance imaginable, where he remained for near half an hour, exulting, as it were, over his hard won victory. Several persons were present and witnessed the fight. [Dover, N. H. Gazette.

**MORE HOUSEBREAKING.**—On the morning of Sunday last between the hours of one and two o'clock, the house occupied by Mr. Charles Crawley, near St. Andrews Church, was broken open. Awakened by the noise, Mr. Crawley got up but was immediately seized by the throat and thrown across a small bedstead, with the knee of the burglar placed upon his breast. Mrs. Crawley in the meantime, gave the alarm, and got up a light, when, with the assistance of two men living in the house the intruder was secured and proved to be a man of the name of William Albert, of the 20th Regiment, and now attached to the 7th Fusiliers. The main guard was at once notified, and the man taken to the guard house. It will be necessary, undoubtedly, ere long, to organize a night watch, in some way to preserve the property of our citizens from these nightly depredations.—Halifax paper.

**ASIATIC CHOLERA.**—Dr. Thomas Barbour, of St. Louis, in the *St. Louis Republican* of the 14th, describes a case which he believes to have been true Asiatic Cholera, which came under his care on the 11th. The patient was Mr. H.H. Palmer, an Organ Builder, who had the disease before in London. The symptoms, as described by Dr. Barbour, are exactly those of Cholera, and the fatal termination was rapid, Mr. Palmer dying within forty-eight hours.

**BALLOON ASCENSION.**—Dr. Morrill, ascended in a Balloon from Boston Common last Wednesday. The inflation of the balloon commenced at one o'clock, and was completed at half past four, the mammoth machine being kept in position by the ten fifty-sixes, attached. At that hour, twenty volunteers from the inner circle, being two a line, took the place of the fifty-sixes, which were detached. The young lady who had been advertised to go up with Dr. Morrill arrived in the mean time, and became a witness to a rather intimidating scene.

At five minutes before five the doctor and his fair companion, took their places in the car, and the word "let go" was given. The balloon rose slowly and sluggishly, with a rolling motion, and, taking a westerly direction, dashing the car against the upper strip of canvas of the amphitheatre. It cleared it, however, but the balloon was not equal to the weight appended, and it gradually descended till the car touched the ground about fifty yards from the starting point.

# COMMUNICATION. For the Standard.

Under the old system of colonial government, public officers considered office a property and not a stewardship, for which they were responsible, except nominally, to any body, this idea was so thoroughly identified with every habit of mind, as to be part and parcel of themselves. Although the new political order of things inculcates a different doctrine, the old officials, like a ship suddenly becalmed, move forward in the same direction, albeit the motive power has ceased, this is every day illustrated by their dogged obstinacy in not yielding an iota to the public weal or the wishes of the people. The post office department furnishes piquant examples. It requires the labour of a Hercules and the patience of Job to effect even the least concession to the wants or the convenience of any part of the community, some years have elapsed in vain efforts to get a post office established at Milltown in St. Stephen, two and a half miles from the present office. Its proximity to this office is the pretext for refusal, doubtless the head of the department received his cue from his subordinate at Halifax, the additional expense of carrying the mail would be but ten pounds, and the additional postage would doubtless pay, and more than pay it, this is but a sample of every thing else where benefits are to flow to the people through the old officials. They oppose a passive, if not an active resistance, to every attempt to ameliorate the condition of the people. Calais, directly opposite St. Stephen, has a post office at Salt water, another two miles above opposite Milltown in St. Stephen, and there is another at Baring (upper Mills) three miles further up the river, and where, as well as at Milltown, there should be an office on the English side of the St. Croix, such contrasts as these are continually pressing themselves upon the attention of the public, and it is idle to suppose they do not produce their legitimate results on the public mind. The people have become weary of asking for what the imperial government is ready to grant, but its paternal intentions in this and other matters are being continually thwarted and set aside by interested colonial officials. How long shall these things be?

## THE STANDARD.

Arrival of the Steamship Britannia.

The English Mail by the R. M. Steamship Britannia, arrived here last evening. We did not receive our usual English papers, and are indebted to James W. Street, Esquire, for a copy of Willmer & Smith's European Times of the 30th September, from which we take the following summary of the latest news.

A good deal of rain has fallen in various parts of England during the last week. Indeed, the weather has generally become unfavourable throughout the country. It may be hoped, however, that the harvest is now pretty well gathered in, even in remote parts of the country, and that a few days of rainy weather will not materially affect the general results, as far as the grain crops are concerned. A long continuance of wet weather must, however, materially affect the potatoes in their present diseased state, and fine dry genial October must prove a great blessing to the farmer and to the country. There seems no very little doubt entertained that the wheat crops are so far deficient that we shall require considerable supplies; but the abundant harvests on the continent, and the favourable reports from the United States, combine to keep the corn market without any great fluctuation; and the comparative inactivity which prevails is generally the subject of comment. The prices of potatoes have, however, considerably risen, notwithstanding the markets have been generally well supplied with this

description of food. Our corn reports will furnish the fullest details of what is passing in the most extensive markets throughout the country.

## IRELAND.

The south of Ireland continues tranquil, and even the marauding parties who have lately been seen on the hills appear to have withdrawn to their homes. Several more arrests have taken place since our last account, which is that of Mr. Wm. Pennington, who has been apprehended at Cork, and is fully committed upon the charge of high treason. Some of the inferior instruments in the late movement, whose conduct has not been of a heinous character, have been set at liberty on bail, and will not perhaps be brought to trial. Mr. John O'Connell has re-appeared, not in person, but in print. He has addressed a rapid letter to Lord Clarendon, dated from London, (the hon. gentleman wisely keeps on this side the channel,) in which he feebly attacks his excellency for having publicly denounced as "criminal" the efforts of those who have been engaged in constitutional agitation in Ireland. Mr. O'Connell demands either an apology, or else the alternative of being put upon his trial for the "criminal" efforts thus denounced. This rapid vapouring about words, when beaver, although misguided, men are upon their trial for their lives, is at least ill-timed. The hon. gentleman will have much up-hill work to regain even a semblance of popularity. There is a wide interval between the father's talents and popularity and the son's mediocrity. The day is quite gone by when dull commonplace addresses can supply the place of bold undaunted action, and hence ungovernable hate and courage never to submit and yield. Whilst Mr. Smith O'Brien and his confederates are being tried for their lives, Mr. John O'Connell is trying to discover some error in the Lord-Lieutenant's "argumentation" about Republic. It is a plain proof that politics in Ireland are at a very low ebb when such miseries can be retailed to the public.

The state trials were resumed at Clonmel on Thursday. Mr. Smith O'Brien was placed at the bar on the judges taking their seats. Previous to the indictment being read, Mr. Whiteside applied to postpone the trial as his client had not received a copy of the jury panel and a list of the witnesses to be produced against him. The court overruled the objection. Mr. Whiteside then handed in a plea to the same effect, which he required to be put on record, in case he should adopt ulterior proceedings in the matter, which, after a long discussion, was allowed. Mr. O'Brien then pleaded not guilty.

The events of the French revolution flow on in rapid and interesting succession. Another crisis has been got over without an appeal to arms in the streets of Paris.

Our continental news this week furnishes still a record of the most exciting scenes of fresh revolutionary movements.

At Vienna the same disorganisation of all Government prevails, and must, of course, with the derangement of all business, bring about frightful results. In the Hungarian provinces a desolating war seems to have broken out.

From Italy we have no decisive news.

An improved feeling has prevailed in business affairs during the past week, and there are hopes that it will not only continue but increase, as Money continues cheap and plentiful.

The news by the Overland Mail from India is highly favourable in a political and military point of view.

The general tone of our Corn markets during the past week has been steady.

The value of America Flour remained nominal at 28s. 32s. and Canadian sweet at 28s. to 31s. per brl.

In Indian Meal some transactions took place at 16s. 6d. to 17s. 6d.

TRANSLATION OF MR. FORRESTER.—The Presbytery of Paisley, we are happy to be able to state, have agreed to Mr. Forrester's translation to St. John's Church, Halifax, and have loosed him from his present charge.—Witness.

A NEGRO COLONEL.—The correspondent of a New York paper, describes the incidents of the "four days" in Paris, gives the following curious item:

The largest and finest battalion of Guards Mobile I have seen during the day, was led by a young full-blooded negro, tall and erect, and full of military order.

Heartless Conduct of the Captain of an Emigrant Vessel.—The Schooner Ann, Capt. M'Fie, from Liverpool for Quebec, with passengers, came in contact with the barque Hampton, bound for the same port, on the night of the 22nd inst. in the Gulf of St. Lawrence, and received so much damage that the captain and crew abandoned her, without their clothes or effects, and went on board the Hampton, which some eight or ten of the passengers, leaving upwards of one hundred human beings, ignorant of seamanship, on board an unmanageable vessel. Next day the Hampton was spoken by the ship Princess Royal, Capt. Douglass, bound to Quebec, and the master of the Ann, requested Capt. D. to proceed to the assistance of the passengers, which he did, and took all who remained on board (104 in number) and carried them to Quebec.—To add to the heartless conduct of M'Fie in abandoning his charges, some of the passengers stated to the emigrant agent at Quebec, that he had fastened the hatches upon deck; Capt. Douglass, however, has published a statement in the Quebec papers, stating his disbelief in the story of the hatches being fastened down, as none of the passengers had mentioned it on his taking them from the wreck. Capt. D. appears, also to be of opinion that, under all the circumstances, Capt. M'Fie could do nothing more than by proceeding on board another vessel, and endeavouring, as he did, to induce vessels passing to go to the assistance of the Ann.

We have received for examination two specimens of paper made by Mr. C. Fenerty, of Windsor Road, from the wood of the Hemlock and Pine respectively. They are of coarse texture, but appear to be adapted for the purpose of sheathing or wrapping paper. The specimens may be seen at the office of this paper.—[Halifax Guardian.]

The unfortunate Steamer Goliath, it is now fully ascertained, caught fire and was blown up, and her remains have driven ashore on the Canada side of Lake Huron, where they were discovered on the 20th ult. Eighteen lives are known to have been lost with her, as all on board perished. Captain Carter had been married but three days when he left Detroit on the fatal voyage. Edward Cook, a Clerk of Sault Marie, and Wm. Dodge, of Detroit, were among the passengers.

Steamer Sunk.—A letter from Brockville, (Canada,) under date of Oct. 23, says that the steamer Comet had sunk in the Galouze Rapids, she had on board three thousand barrels of flour. The Comet is a new boat, built and owned at Kingston, and intended for the trade between Hamilton and Quebec.

The Alabama Cotton Crop.—A letter from Alabama states the yield of cotton in that State at 500,000 and upwards. The planters are well satisfied as to the yield, but seem to dread low prices.

BRAZILIAN SKAVE TRADE WITH AFRICA.—A circular from the Mercantile house of James Brickhead, dated Rio Janeiro, Aug. 16, says:—

"An earnest effort is now making by Government to stop the trade to Africa, in which it is sustained and encouraged by public opinion. Few doubt of success, and it will materially affect business, as it is estimated that nearly one-third of the imports of cotton goods has hitherto been taken for that trade."

The Late Storm.—Rain at Nantucket fell from Monday to Wednesday morning to the depth of 5.81 or nearly six inches, that is, had none of it soaked away or run off; the water, on Wednesday morning, would have covered the whole island to the depth of half a foot. The earth was cut up and gullied to a degree very unusual. A gentleman said, taking the island together, the number of cart-loads of sand displaced by the rain could not have been less than thousand.

Approach of Winter.—The Boston Journal of Monday, says—"There was a heavy frost in this city and vicinity last night. Ice was formed of the thickness of an inch. The forests in the interior have donned their beautiful many colored mantle—and the fall of the leaf reminds us that winter will soon be upon us."

## CHARLOTTE CO. SOCIETY.

The Annual Cattle Agricultural Society at Mr. Robert Johnance of Farmers and an increased number of members, a respectable appearance on the ground.

The show of bees besides twelve Col. spring colonies—in the upper parishes, too the animals were

#### CHARLOTTE COUNTY AGRICULTURAL SOCIETY CATTLE SHOW.

The Annual Cattle Show and Fair of the C. C. Agricultural Society, was held on Saturday last, at Mr. Robert Johnson's, Oak Bay. The attendance of Farmers and others was unusually large, and an increased interest in the society, was manifested, a respectable number of persons having become members. The day being fine, the appearance on the grounds was described as very animated.

The show of brood Mares amounted to eleven, besides twelve Colts under 2 years, and seven spring colts.—In these classes the people from the upper parishes, took the majority of the prizes and the animals were of a very fine description.

There were also 9 Bulls, 10 Cows, 7 Heifers, 6 yoke of Steers, 5 spring Calves, 6 Rams and 10 Ewes.—13 samples of Butter (two of which, be it said to the credit of Messrs. T. Cotterell and H. Styles, were afterwards withdrawn, these gentlemen having been appointed judges). 2 samples of Cheese, and 14 samples of woolen, satinet and plain Cloth, and 1 of Flannel. Some very large ears of corn raised on the farm of Stephen Hill, Esq. and a sample of Hemp from the garden of J. H. Whitlock, Esq. measuring upwards of ten feet, were also exhibited—these samples were pronounced very superior specimens of Indian corn and hemp, and proved the adaptation of both the soil and climate of this County to their culture.

After the judges had made up their lists of the premiums to be awarded (a copy of which has been kindly furnished us by the Secretary.)—The President, the Hon. H. Hatch addressed the assemblage in a neat and appropriate speech, after which the prizes were awarded, which will be published in our next number.

**DOMESTIC MANUFACTURE.**—During the present week, Mr. James Hewitt has brought out a new Omnibus for the line to Indian Town. It was wholly constructed in this City, and in every respect is no way inferior to those imported from the United States, with this additional qualification, that it is much lighter, with apparently no diminution of strength.—We wish the proprietor success in his "Native" enterprise.

At the workshop of Mr. Henry Nicholls, Wishart's Wharf, may be seen an anchor, 75 cwt, undergoing the operation of having a new head, &c. working upon it, and at which over a dozen men are employed. Mr. N. does a great deal of heavy work in ships' iron knees, anchors, &c., but this job beats them all, and is probably the heaviest one of the kind ever undertaken in this City.

It gives us pleasure to notice these practical evidences of what our Mechanics can do when required: and although a cloud stands over our present prospects, we fervently trust that the time is not far distant when the mechanical trades as well as commercial business, may receive such an impetus as well as give the employment to our artisans their abilities so justly entitle them.—*Chron*

**New Brunswick Benefit Building Society and Savings Fund.**—The Loan Meeting of this Society for this month, was held at the Mechanics Institute on Wednesday evening, when the Directors disposed of the money on hand amongst the Members whose names were drawn from the Ballot Box.

The amount of advances granted, £720 0 0  
Less discount allowed the Society, 313 7 0

Actual amount of Cash advanced, £376 13 0

Twenty two new and additional Shares have been taken this Month—the steady Monthly increase of Shares sold by this Society certainly shows that the public generally are becoming more alive to the benefits which it offers as well as to the perfect security of the institution.—*New Brunswicker* 14th

**Supreme Court — Michaelmas Term, 12th Victoria.**—Alexander T. Paul, Samuel Thomson, George G. Gilbert, Jr. A. B. and William Henry Hatheway, Attorneys of this Court, were called to the Bar and admitted, sworn and enrolled Barristers.

B. Lester Peters, Jr. having produced the requisite certificates, and having been examined as to his fitness and capacity, was admitted, sworn and enrolled an Attorney of this honorable Court.

Ship Isabella Stewart, of St. Andrews, McKinney, master, from Liverpool for New York, with 205 passengers, and 200 tons of salt, went ashore at Kutehabannock, opposite River Head, south side of Long Island, on the night of the 21 inst. She was completely imbedded in the sand, and it is thought would become a total wreck. Passengers were all saved. The agent for the underwriters had taken down a steam pump, cables and anchors, to assist in getting her off. She was insured in New York for \$20,000 and in Boston for \$3,000.

Spoken, 1st Oct. lat. 43, long 61 30, ship Elizabeth Grimmer, from St. Stephen, for Cork, out six days.

#### MARRIED.

On Tuesday morning, at Mill Town, St. Stephen, by the Rev. James G. Hennigar, Wesleyan Missionary, the Rev. Robert A. Chesley, Wesleyan Missionary, to Hannah Elizabeth, third daughter of James Albee, Esq. of Mill Town, St. Stephen.

#### Provincial Board of Education.

Fredericton, 15th September, 1848.

It is Ordered, That all Parish School Teachers shall file with the Clerk of the Peace, of the County in which their Schools are situated, before the sitting of each Court, at which the Certificate of the Trustees of Schools, in their favour, is to be presented, a nominal list of their Scholars, setting forth their ages and sex, and the number of days each Scholar has been present, and stating also in the same Document, the total amount of their several emoluments as Teachers, exclusive of the Government allowance.

Forms of the Return will be lodged with the Clerks of the Peace.

By Order of the Board, J. GREGORY.

#### NOTICE IN BANKRUPTCY.

In the matter of Hugh Morrison of St. James in the County of Charlotte, a Bankrupt.

Public Notice is hereby given, that upon the application of the said Hugh Morrison, this day made to me, I do appoint a Public Sitting to be held on Monday the 13th day of November, at 12 o'clock, noon, of the same day, at the office of the undersigned Commissioner, in St. Andrews, for the allowance of a certificate of conformity to the said Hugh Morrison, pursuant to the provisions of the Acts of the Assembly of this Province, in force respecting Bankrupts, when and where any of the creditors of the said Bankrupt may be heard against the allowance of such certificate, and the same will be allowed unless cause be then and there shown to the contrary, or such other order will be made as the justice of the case requires.—Given under my hand at Saint Andrews, the 11th day of Oct., A. D. 1848. H. HATCH, Commissioner of Estates and Effects of Bankrupts, Charlotte County.
